### Training Shepherd Dogs.

The natives of Mexico seem to have an original way of training shepherd dogs. A pup is taken from its mother as soon after birth as possible, the breed of the dog being immaterial. The young of a sheep or goat is taken away, and the pup is substituted.

After the first few days the pup is never fed except just before the flock goes to pasture in the morning and just after the sheep are brought in at night.

As soon as he can walk he goes out with the flock and stays with it all day. Whenever he begins to anticipate supper by trying to drive the flock in before sundown he gets punished.

After he is about a year old he takes a flock out, guards it from other dogs and coyotes during the day and brings it in at the proper time at night without supervision. All kinds of temptations can be tried on any dog that is encountered in the hills with his flock, but in spite of all he will remain faithful to his duty, driving his flock to a safe distance before venturing to make the acquaintance of any other dog.

### Difficult Dentistry.

The nawab of Rampur, whose domain is about 600 miles to the northwest of Calcutta, came down from his home to call on Dr. Smith, says a London paper, and brought 150 people with him to see about his mother's teeth.

She wanted a set of false teeth, and because Englishwomen had two sets the maharima must have two sets also. The nawab of Rampur is a Mohammedan; so of course the mother could not show her face.

Likewise on that account Dr. Smith had to go to Rampur to do the work. Two thousand miles to make two sets of false teeth! It cost the nawab 4,000 rupees.

The old woman lay back with her face covered, and the dentist worked at her mouth through a hole in a sheet.

### True Sympathy.

Tom—Why so melancholy, old man?  
Jack—Miss Jones rejected me last night.

Tom—Well, brace up. There are others.

Jack—Yes, of course; but somehow I can't help feeling sorry for the poor girl.—Chicago News.

## A Great Battle.

The battle which is known in its story as the "Victory of Victories" took place at Nehavend, in Ecbatana, and was fought between the new Moslem power in 637 and the empire of Persia, then one of the most powerful of the eastern monarchies. It was one of the most absolutely decisive battles in the history of war, and it was all the more amazing by reason of the fact that it was won by a people which twenty years before had been unknown barbarians, lost in the deserts of Arabia.

Arabian historians place the Persian loss in a single day at 100,000 men killed. This may be and probably is an exaggeration, but the fact remains that the Persian dynasty came to an end when the battle was over and that Zoroastrianism, which had been the religion of Persia for over a thousand years, was at once supplanted by Islam. Its modern representatives, as is well known, are now the Parsees of India.

The victory was so absolutely decisive that it extended the Arabian dominion over the whole of the region lying between the Caspian sea and the Indian ocean. With the exception perhaps of the battle of Tours, no single fight ever made such a difference in the after history of the world.

### Peculiarities of Russian Winters.

There is one curious thing about a Russian winter—in the latter part of October or the beginning of November the weather will be as mild as it is here in September. Not a sign can be seen of an approaching change, when suddenly, without any apparent warning, a light haze will be seen in the northern sky, and in twenty-four hours the thermometer may fall 50 degrees. The change is so sudden and violent that travelers are frequently frozen to death before they can gain shelter.

It has occurred that farmers out looking after their flocks have been caught in one of these blizzards and, missing their way home, have lost their lives, their bodies remaining under the snow until the following spring. The suddenness of a Dakota blizzard is well known in the northwestern part of our country, but it is tardiness personified when compared with the rapidity with which a Russian winter storm comes on.

### Appetite and Hunger.

"Most persons do not discriminate between hunger and appetite," said a doctor of long experience. "Appetite is what makes a man drink or smoke and what makes most men and women eat. Many go through life never knowing what hunger really is. I often fast sixty hours and never

feel the worse for it. A friend of mine, a physician in Brooklyn, goes without food sixteen days at a stretch and keeps up his work meanwhile. There isn't an organ that can contract any disease from lack of food. Most of them do become diseased through the effort to take care of too much food. They are all in better tone after a fast. Another thing, hunger is felt only in the mouth and throat. That gone feeling that many complain of is not hunger; that is a form of disease. If persons would eat only when they were hungry and only as much as hunger, not appetite, called for—well, we doctors would have to fast.—New York Press.

### Misplaced Confidence.

An Irishman once applied for a job on board a certain ship.

"Well," said the captain, "where are your recommendations?"

"Shure, an' I haven't enny, sur."

"Can't take you, then; got a German here with fine recommendations; have to give the job to him."

Pat begged so hard, however, that the captain finally agreed to take him and the German both on a trial trip, the best man to have the permanent job.

They were well out at sea when a storm arose one day while Pat and the German were scrubbing the deck. A big wave came along and swept the German overboard with his bucket. Pat immediately picked up his bucket and started after the captain, whom he found below.

"Well, Pat, what's the matter now?" the captain inquired.

"Faith, sur, ye know that German what had such foine ricommendations?"

"Yes; what of him?"

"Begorra, sur, an' he's gone off with one of your buckets."

### A Question of Notes.

"Yes, sir," said the man with a frayed collar, "that land is worth \$1,800 a foot, and only a year ago I could have bought it for a song."

"But you couldn't sing, eh?" cackled the funny man.

The man with the frayed collar eyed him distantly and haughtily and replied in cold, cutting tones:

"Oh, I could sing, but I couldn't get the right notes!"

And the funny man looked as crushed as an overripe strawberry at the bottom of the basket.—Exchange.

The foreign mail which reached Lahaina on Thursday of last week was not delivered at Wailuku until Saturday afternoon. It is simply a shame, but of course nobody was to blame for the delay.

**A Reported Robbery.**

Maui seems to be getting tight up to date in the matter of hold, original and during robberies.

On Wednesday morning, it was reported in Wailuku that one Murioka, a Japanese cabbage planter of Wailuku started out on foot to look for his horse, about half past five in the morning. When he reached the public road, he observed two men on horseback following him. He paid no attention to them, and when they came up close behind him, one of them threw a half-inch lariat rope around him, and the two wheeled their horses and ran. The Japanese was pitched on his head and knocked senseless. When he recovered, he was lying about 150 feet from where he was lassoed, and he had been robbed of \$72 which he had in his pocket. After robbing him, the rope, which was tightly drawn about his waist, had been cut off leaving perhaps two feet of the rope beside the loop.

About six o'clock John Finney with some road menders passed the spot, and one of them discovered the Japanese, who was still unable to rise. The rope was removed from his body and he soon recovered sufficiently to explain what had happened.

The matter was at once reported to the Sheriff's office and it is believed that the robbers can be identified and captured.

As soon as the matter was reported to the police, Deputy Sheriff Saffery proceeded to make a careful investigation, the result of which has caused in some minds a serious doubt as to the genuineness of the hold-up. In the first place the money did not belong to Murioka, but to a Kihei Japanese to whom Murioka was to deliver it. Murioka started at eleven o'clock at night to get his horse to go to Kihei and claims that he spent the entire night looking for it. There are no marks or bruises on him to show that he was dragged on the ground by a rope, and there is no contusion on the back of his head, on which he claims that he fell and was knocked senseless, when roped.

Further investigations will be made, if any clues present themselves, but so far, no traces have been found which lead to the belief that Murioka was robbed by mounted horsemen.

**That Polo Game.**

The News has received a lengthy and vehement disclaimer from W. O. Aiken, Secretary of the Makawao Polo Club, of the sentiments and statements in last week's News, relative to the inter-island polo match games.

While the NEWS published the article upon information which it deemed perfectly reliable, yet Mr. Aiken's letter puts an entirely new light on the matter, and it is with pleasure that the NEWS learns and states that there was really nothing

in the charge that a scheme was put up to tire out the Maui horses.

In this connection, the members of the Maui Polo Team desire to be put upon record as to the eminent fairness of the Oahu Club, as well as to their excellent management in all matters connected with the recent tournament.

**Honolulu Will "Make Good."**

It was a pardonable pride and ambition which has led some of the residents of Honolulu to build business blocks and business enterprises larger than present needs call for, but Honolulu is on the eve of "making good," and the twenty years which are supposed to be needed to get ready for these buildings and business ventures will dwindle down to a scanty five years within which it may be safely predicted that Honolulu will double in population, and even the Young building will be a paying need.

One needs all the fingers of both hands upon which to count the good things that are coming to Honolulu and the Islands, the leading ones of which are the swinging of local politics in line with national politics, the undoing of Wilcox and the home rulers, the approaching cable, the certainty of an isthmian canal, the increase in the price of sugar, the proposed payment by congress of the fire claims, the excellent material composing our next legislature, congressional appropriations, in fact the enumeration of the list becomes tiresome, but they are all good things, and they are coming.

Notwithstanding the present scarcity of money, Honolulu is making a fine Christmas display, and doing a good Christmas business.

Along some business lines, things are quiet, but improving, and within six months Honolulu will be in line with the mainland so far as business activity is concerned.

The worst business feature of Honolulu is the lack of a merchants' license law, and the next legislature should reimpose a good, stiff license on all merchants throughout the Islands. Those who can afford to pay the license will be benefited by the driving out of a lot of irresponsible hucksters, who are simply barnacles on the business interests of Hawaii.

The Honolulu hotels are doing a fair business, and the Hawaiian under charge of Mr. Wills, its new manager, ably assisted by Mr. Doty, the head day clerk, is now by far the most popular hotel in town. No definite time has been fixed for the opening of the Young Building hotel, and the work of furnishing it has not yet begun. The Moana and the Waikiki Inn are both now under popular managers, and cater to a good trade.

Shippers in Honolulu are watching with much interest the struggle between San Francisco and Seattle for the transport business and there is a growing conviction that Seattle will capture the plum. It is claimed that at least \$2.00 a ton can be saved to the Honolulu merchants, by trading in Seattle, and this may prove an important factor in determining whether Seattle or San Francisco will handle the bulk of the Island trade.

**The Cable is Coming.**

The Zealandia brought the good news that the Silverton reached San Francisco on Dec. 4. The shore end of the cable, as well as the instruments for working and testing the cable, were landed on the day following the arrival of the Silverton in San Francisco, and refitting was at once commenced, for the trip from San Francisco to Honolulu.

According to the plans and calculations of the Cable Company officials, the Silverton was to have left San Francisco last Saturday, Dec. 13, and should be a week out today. It is believed that if no mishap occurs, the cable ship will reach Honolulu in 12 or 15 days from the date of her sailing, so that she will be due in Honolulu about Christmas Day.

Arrangements in Honolulu are being rushed, and by the time the Silverton arrives, the shore end at Honolulu will be completed, so that the two ends can be united as soon as the sea end is brought ashore. After that, there will be but little delay in the matter of testing the line between Honolulu and San Francisco.

The people of Honolulu are making arrangements for a grand demonstration to celebrate the event, on the day when the first cable messages are sent. Messages will be sent and received between the mainland and

the Islands, the privilege of sending the first message being reserved for President Roosevelt, after which messages of congratulations will be exchanged between prominent men and commercial bodies on the coast and in Honolulu.

Cable rates will be fifty cents per word for ordinary messages, and half rates for newspapers. There will not at present be any association between the Island newspapers but each paper will simply take what it is able to pay for.

It is not known definitely just when the work of extending the cable from Honolulu will be commenced, but there will be not much delay. The cable is not being laid by the Commercial Cable Co., but by a separate company who have the contract to lay the cable and turn it over to the Commercial Co. in good working order.

**WAR IN VENEZUELA.**

CARACAS, Dec. 9.—All German and British subjects in Caracas were arrested today.

LA GUAYRA, Dec. 10.—Ten German and four British cutters captured the Venezuelan fleet yesterday. They went alongside the Venezuelan vessels and ordered them to surrender, and, without a shot being fired, the British and German forces seized the vessels in the name of the German Emperor and the King of England. Two of the vessels, which were undergoing repairs, were broken up. The German cruiser Panther steamed into the harbor during these proceedings with her decks cleared for action. The Venezuelan steamers were taken outside the harbor, and at 2 o'clock this morning the General Crespo, Tulmo and Margarita were sunk.

LONDON, December, 11.—The Central News says it is reported in the lobby of the House of Commons this afternoon that the allies have landed bluejackets at La Guayra for the purpose of effecting the capture of President Castro and that fighting is going on in the street. The foreign office has no information to this effect.

LAGUAYRA, Dec. 11.—General Ferr, Minister of War, has arrived here with 2,000 troops. Eight hundred men under President Castro's brother are expected here at 10 o'clock.

WASHINGTON, Dec. 11.—Minister Bowen at Caracas in a cablegram to the State Department today confirms the press reports that all the German and British prisoners have been released.

**Bishop Goes to Honolulu.**

He is in a very feeble state physically, but his mind is bright and he starts on his last ocean voyage in high hope of improving on the way. **SHIPPING NEWS**

The Fullerton, Capt. McDonald, has unloaded her first cargo of fuel oil at Kihel, the former Kihel cargo having been unloaded at Kahului and shipped to Kihel in tank cars.  
In order to unload at Kihel, the Fullerton was equipped with \$5000 worth of four-inch hose. The vessel was moored about sixteen hundred feet from the wharf, and the hose was laid from the ship to the wharf. The cargo, consisting of over 15,000 barrels of oil, was then pumped from the ship to the Kihel oil tanks at the minimum rate of about 500 barrels per hour. The Fullerton completed the discharge of her cargo during Wednesday night, and on Thursday reeled in her hose preparatory to her immediate return to the coast.  
Henry Bicknell and James Bicknell, both of Honolulu, have received an offer from the British Cable Company for the purchase of their half interest in Fanning Island. The brothers get their title through George Bicknell, an uncle who was the original owner and sold a half interest to King Geogrig. An offer has been made by the company which is said to be \$40,000 and James Bicknell will leave on the Zealandia to close up the deal.  
The schooner Otella Pederson, which was abandoned some time ago by her officers and crew, was sighted on November 21, about two miles south of Formosa. A Japanese war ship was sent to bring her into port. The Pederson will be a rich find for whoever gets hold of her. When abandoned she was as sound as when she left Puget Sound, and had on board the full cargo of lumber with which she started across the Pacific.  
PHILADELPHIA, Dec. 6.—One fireman was drowned, another is missing and two others were taken to a hospital overcome by smoke as the result of a fire which broke out early today on the steamer Saxon, owned by the Boston & Philadelphia Steamship Company. The steamship lies in twenty-five feet of water at the foot of Pine street, burned to the water's edge.  
The Progreso, which blew up in San Francisco, had only 300 barrels of oil on board, and was getting ready to go out on her trial trip, having just been fitted up as an oil-carrier. It is said that the explosion was caused by a workman, who went into the hold with a naked lamp, to look for a leak.  
The Nevada completed the discharge of her cargo at Kahului on Tuesday, leaving the same afternoon for Honolulu.
