### SEC. FISHER NOW ON MAUI

#### To Arrive Home On Mauna Kea Tomorrow

#### SECRETARY GETS VIEW OF MANY ISLAND CONDITIONS

#### Honokaa Meeting Interrupted by Dogfight—The Louison Incident

By F. E. MATSON.  
(Staff Correspondence).

KAHULUI, Maui, Sept. 26.—Secretary Fisher, yesterday and today, got a full taste of good red, Hawaiian dust, and realized forcibly the poor condition of the highways along the Hamakua coast of the island of Hawaii.

Riding by auto from Honokaa Wednesday morning to Kamuela, the headquarters of the Sam Parker Ranch, the Secretary and his party spent the remainder of the day recuperating and getting the dust out of their lungs. Taking up the journey again this morning, they rode on to Kohala, where, after partaking of lunch as guests of the Kohala Club, the Secretary conducted a brief hearing, cutting it short at 7 o'clock, jumping into an auto and riding hard to Maunaloa, where the Kilauca took him and his party aboard, landing them at this town this evening.

#### Hearing at Kahului Today.

Present plans are to journey up the big mountain here tonight, remaining at the top all night to see the sunrise tomorrow morning, then returning to Kahului and holding a hearing tomorrow afternoon and arriving in Honolulu Saturday morning on the Mauna Kea.

Secretary Fisher seems well satisfied with his tour of investigation thus far, and certain that it has been well worth the time given to it. From his line of inquiry it is apparent he has obtained a good general and practical idea of conditions—and it also has seemed to indicate that Governor Frear has been proven responsible for very little, if any, of the undesirable conditions found as regards the relations of the big sugar interests, public lands and homesteading.

In many instances he found himself called upon as the arbiter of petty differences. In such instances he sought out the basic causes and suggested solutions, several times intimating that less heat and some calm, "horse sense" reasoning between the parties should have settled their troubles long ago.

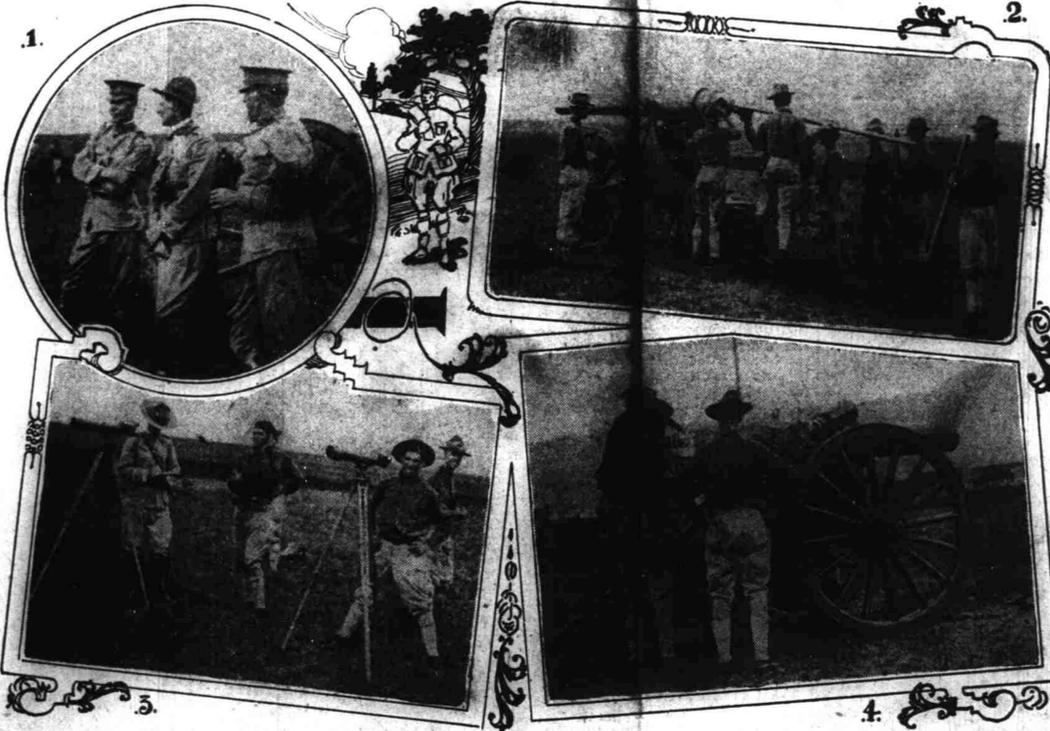

Honokaa Meeting in Point.  
The meeting at the courthouse at Honokaa Tuesday afternoon illustrated this point to a certain extent, at the same time proving one of the most interesting sessions the Secretary has conducted in the Territory. To begin with, the affair was enlivened by the citizens themselves in ways unexpected. The meeting opened with a dog fight, and ended with Abe Louison, the Coffee King of the Islands, who, the people say, made the shortest speech of his career.

The weather was warm and all doors were wide open. All the people for miles around were present—and most of their dogs. How the dog fight started, no one knows. At any rate a hubbub soon arose just outside the courtroom that made talking inside impossible. Attorney Ashford, in the middle of a question, was forced to pause. The uproar grew in volume; none in the audience volunteered to go out and attempt to stop it, and as the crowd sat and listened the sound shifted half way around the building, from the rear to the front. A yelping mongrel pup hurtled through the door, dashed down the aisle and sat on his haunches, directly in front of Attorney Ashford, where he gazed accusingly at that astonished individual and continued to shriek for several seconds that seemed like an hour.

Louison to Bat.  
The closing feature came when

### SIEGE GUNS PROVE THEIR WORTH IN TESTS AT SCHOFIELD

NO. 1—INTERESTED OBSERVERS. LEFT TO RIGHT THE OFFICERS IN THE PICTURE ARE LIEUTENANT VAUGHAN, COMMANDING THE FIRING COMPANY, CAPTAIN APPLE, ORDNANCE OFFICER OF THE FIRST FIELD ARTILLERY, AND MAJOR TIMBERLAKE, COMMANDING THE COAST ARTILLERY DISTRICT OF HONOLULU.

NO. 2—ONE OF THE 5-INCH SIEGE GUNS. THE OFFICER AT THE LEFT-HAND TELESCOPE IS CAPT. HAND, OF THE FIELD ARTILLERY. THE SOLDIER IN THE CENTER OF THE GROUP IS OPERATING THE FIELD TELEPHONE CONNECTING THE BATTERY WITH THE OBSERVATORY.

NO. 3—SPOTTING THE SHOTS. THE OFFICER AT THE LEFT-HAND TELESCOPE IS CAPT. HAND, OF THE FIELD ARTILLERY. THE SOLDIER IN THE CENTER OF THE GROUP IS OPERATING THE FIELD TELEPHONE CONNECTING THE BATTERY WITH THE OBSERVATORY.

NO. 4—THE PORT RUGER SOLDIERS FOUND SOMETHING FAMILIAR ABOUT THE HOWITZERS.

THE 159TH COMPANY of Coast Artillery will start from Schofield Barracks on its homeward hike at daylight tomorrow morning, camping at Pearl City for the night and reaching Fort Ruger about noon Sunday.

With the return of the company, the period of field instruction for the coast artillery is over for the current year, the firing of the siege guns and

howitzers at Schofield yesterday marking the finish of the practical work for the seacoast defenders. Both 105-mm company took its turn at the siege battery first, returning to Ruger about two weeks ago.

Yesterday's shooting has been the subject of favorable comment by army officers who witnessed the tests, and especially by the field artillerymen, who realize all the difficulties that fac-

ed the coast artillerymen in handling the unfamiliar ordnance and strange ammunition for the first time. Shrapnel, for instance, is an unknown quantity to the "Coasters" and the time-cutting of the delicate fuses presented some new features which they successfully worked out.

It is generally considered that both companies did excellent work with the 5-inch siege pieces and 7-inch

"ground hogs." Examination of the targets placed a trifle more than 3 1/4 miles from the guns showed the marks to be torn up all round the marks, by the shell, while the exploding shrapnel had "patterned" the targets themselves with a deadly shower that would have meant annihilation for any body of men in the position. For hikers the Coast Artillery have proved tough ones.

### UP GOES ICE; HIGH LIVING COST BLAMED

#### Barnhart and Oahu Companies Decree Advance in City and the Suburbs

And now the high cost of living has hit the price of ice, for, beginning October 1, both the Oahu and the Barnhart Ice Companies will advance the price of their commodities to the extent of five cents a hundred in the city and ten cents a hundred in the outlying districts.

The high cost of feed, the milkman's argument, is advanced as one of the reasons for raising the price of ice. It appears that while neither hay nor grain is used in the manufacture of ice, the horse which draws the ice wagons must be fed regularly and it costs more to feed them, says Mr. Barnhart. The Oahu Company is deprived of this argument for the very good reason that it uses a motor truck, but then the price of gasoline has gone up, too.

Mr. Barnhart also explained that the high cost of drivers for wagons has something to do with the raise. It seems they used to work for from \$30 to \$35 a month, but now he says they are demanding from \$50 to \$60 a month.

Both companies join in saying that the cost of materials for ice making has also advanced and that it was absolutely necessary to increase the price in order to continue operating. But whatever the reasons for the raise are, it is a certainty that after October 1 the consumer will have to pay the following prices: In Kaimuki, Palolo, Nuuanu above and including Judd street, and Kalihi, Ewa of the pumping station, forty cents per hundred. In the city, thirty cents per hundred.

Fire broke out in the cottage of John Gomes Pestana, at Punchbowl and Luso streets yesterday afternoon, and burned a hole through the roof. The blaze was extinguished by the fire department before any serious damage was wrought.

### Lawrence Strike Is Re-opened

JOSEPH ETTOR

LAWRENCE, Mass., Sept. 27.—The great textile strike was renewed today, when 4300 workers walked out as a protest against the imprisonment of Joseph Ettor and Arturo Giovanitti, organizers of the Industrial Workers of the World, who are in jail here awaiting trial on a charge of planting dynamite during the last strike of the textile workers.

### STRIKE IS RESULT OF STORIES OF CONSPIRACY

The strike of Lawrence textile workers is the second within eight months, and is a direct outcome of the first. When the textile workers struck last January and Lawrence was put under martial law, feeling between the strikers and employers grew exceedingly bitter. While the strike was in progress, the police and district attorney's office were informed that dynamite had been "planted" at a number of places by the strikers and their agents, and that the town was to be dynamited to intimidate the employers and the officers of the law. Thereupon Ettor and Giovanitti were arrested

ARTURO GIOVANNITI

ed and put in prison, where they have been ever since.

The arrested men declared their innocence vehemently. After some months had elapsed and the Lawrence situation grew quieter, information was laid before the district attorney by friends of the strikers which led him to believe that the dynamite had been "planted" by agents of the employers themselves. The information as to the dynamite was originally furnished by one Dennis J. Collins, an undertaker and politician of Cambridge. His movements were traced until a connection with the employers was established.

A grand jury investigation led to the sensational arrest of William M. Wood, president of the American Woollen Company, Frederick E. Attenu, president of a mill supply company, and Collins. The latter is believed to have now turned state's evidence.

The second grand jury investigation was begun by the Suffolk county grand jury on September 9.—One of the witnesses before it was Charles E. Littlefield, private secretary of Ernest W. Pittman, a mill contractor who committed suicide after he had been sub-

### TERRITORIAL CIVIC BODY IS CONSIDERED

#### Hilo Conference Refers Question Back to Individual Organizations

(Special Star-Bulletin Wire) HILO, Sept. 27.—The business session of the inter-island civic conference came to a close last night. Probably the most important question brought up during this session was that of forming a territorial civic body. After some discussion it was resolved to refer this question back to the individual local bodies for ratification. The delegates left by train this morning to visit Laupahoehoe. The banquet will be held tonight.

### SUGAR

SAN FRANCISCO, Sept. 27.—Beets: 88 analysis, 118. 7d. Parity, 4.44 cents. Previous quotation, 12s.

penaened to appear before the first grand jury.

With the head of the wool manufacturing industry of the east, Wood, under indictment, the efforts to free Ettor and Giovanitti have been redoubled, while the excitement among the labor unions has been festered by the many stories of a conspiracy against their leaders. The big strike today is the result.

The \$50,000,000 loan to China for which negotiations have been going on between China and a British bank has been balked by the concerted opposition of the United States and Great Britain, insisting on foreign supervision of expenditures of loans granted to China.

Colby Walker, a New York youth, was arrested for carving his initials and those of a girl friend in the bark of a tree in Central Park.

### THOUSAND HOMELESS; DAMAGE \$20,000,000

#### Government Handicapped in Relief Measures by Destruction of Lines of Communication—Poor People Suffering Intensely as Result of Terrible Calamity

(Associated Press Cable) TOKIO, Sept. 27.—Hundreds have been killed and injured and many thousands rendered homeless by the recent great typhoon which swept the length of the empire, devastating the country and wrecking populous cities. The vastness of the damage done may be surmised when it is known that competent authorities place the loss to property at \$20,000,000. The government is taking energetic measures to care for the injured and those who have lost their all, but in many places all lines of communication have been destroyed and it has been impossible to forward supplies. The suffering among the poor is intense.

### Armada of Aeroplanes Reviewed

(Associated Press Cable) PARIS, Fr., Sept. 27.—Under orders from the French military authorities, the first review of its kind the world has ever seen was held here today, when an armada of 72 aeroplanes attached to the French army was assembled. The war aeroplanes made flights in aerial formation and formed a unique and impressive spectacle.

### Hedges Named For Governor

(Special Star-Bulletin Cable) SARATOGA, N. Y., Sept. 27.—The Republicans in convention here today nominated Job Hedges for Governor of New York. Hedges was secretary to Mayor Strong, 1895-97; served a term as city magistrate, and was deputy attorney general of New York for a time, resigning in 1902. He is a prominent lawyer and well known as a politician.

### "T. R. Lawbreaker," Wilson

(Special Star-Bulletin Cable) BOSTON, Mass., Sept. 27.—Governor Woodrow Wilson, Democratic candidate for President, scathingly attacked Roosevelt in a speech here today. He said: "Roosevelt did an illegal thing, in order to build up irresistible power, when he permitted the steel trust to acquire the Tennessee Coal & Iron plants."

### Sanctions Crossing Border

(Special Star-Bulletin Cable) MEXICO CITY, Mex., Sept. 27.—The Mexican Congress has authorized Madero to request that he may be allowed to transport federal troops through American territory.

### Fear Civil War In Belfast

(Special Star-Bulletin Cable) BELFAST, Ireland, Sept. 27.—The troops are confined to their barracks, held in readiness for the possible outbreak of civil war tomorrow, which is Ulster Day.

### Held For \$320,000 Bank Theft

(Associated Press Cable) ST. LOUIS, Mo., Sept. 27.—J. C. Addams, who is charged with robbing the New Westminster bank of \$320,000 early in 1912, was arrested here today.

### McGovern to Vote For T. R.

(Associated Press Cable) MADISON, Wis., Sept. 27.—Governor McGovern announced today that he would vote for Roosevelt.

### Rebel General Vega Killed

(Special Star-Bulletin Cable) DOUGLAS, Ariz., Sept. 27.—The rebel general Alejandro Vega has been shot while fighting under the walls of La Ley Fuga.

### CHINESE WILL CELEBRATE DAY OF REVOLUTION

#### Local Revolutionists Declare a Holiday Tomorrow and Will Hold Meeting

In celebration of an important anniversary of the Chinese Revolution, tomorrow will be observed as a holiday among the Chinese of the city. All stores and other places of business will be closed, and during the day and in the evening the local Chinese societies will hold receptions at their respective clubhouses. About noon there will be a meeting at the Chinese United Society, and several speeches concerning the revolution will be made by local Chinese business men. A year ago tomorrow the Chinese

revolution assumed national shape, after minor outbreaks; occurring in various provinces, showed that the people were rising against the Manchus.

### W. P. PFOTENHAUER STILL IN SERIOUS CONDITION

W. P. Pfothenauer, vice president of H. Hackfeld & Co., Ltd., and consul at Honolulu for Germany and Norway, is seriously ill in Dresden, Germany. His firm is receiving daily bulletins by cable of his condition. Yesterday's message was that he was "very seriously but not hopelessly ill." This afternoon the cable says: "Not much progress; condition still serious." Mr. Pfothenauer's associates in Hackfeld's consider the fact that he lives at all a favorable one, after the terrible ordeal through which it is known he has gone. He underwent an operation for intestinal trouble, and the condition found by the surgeons was so bad as to necessitate his lying for more than five hours upon the operating table. A girls' college at Granada, under French control, has appealed for rescue from famine. American marines in Nicaragua will be sent to their aid.

TWO 'HIGHER-UPS' IN OPIUM SMUGGLING RING ARE TAKEN

SAN FRANCISCO, Sept. 21.—Customs Inspector Henry Gallagher and Robert Donaldson, assistant marine superintendent of the Pacific Mail Steamship Company, were indicted yesterday afternoon by the Federal Grand Jury on charges of conspiring with David Powers and Emil K. Fiedler to smuggle 600 lbs. of opium from the steamship Siberia last December. The indictment recites that Gallagher and Donaldson introduced Powers and Fiedler to the boatswain and the engineer's cabin boy of the Siberia for the purpose of aiding and abetting in the smuggling of opium. The opium was taken ashore the night of December 11th. An investigation by Special Treasury Agent W. H. Tidwell and Surveyor of Customs Duncan E. McKinlay convinced them that the inspectors were not to blame for the contraband getting off the ship. Fiedler and Powers were arrested at the time, and December 18th Fiedler, while in the Alameda County jail, made a confession to Customs Inspector Joseph Head. Smugglers Tell Story. Powers and Fiedler were arrested by the Oakland police near Oakland's Chinatown, where they were waiting for the Chinese claimants of the drug to appear and pay them for smuggling it. They were convicted in the United States District Court, and Fiedler was sentenced to four months' imprisonment in the Alameda County jail, while Powers got six months. Powers and Fiedler served out their terms, and recently in response to the importunities of Special Treasury Agent Tidwell and Customs Lieutenant Joseph Head, both men told all they knew about the affair and implicated Donaldson and Gallagher. They went before the Federal Grand Jury yesterday on the suggestion of the United States District Attorney John L. McNab and repeated the story. Powers was an employe of the Western Fuel Company and was stationed on board the coal barge Melrose. He says that Donaldson asked him to "stand in" with him in the landing of 600 lbs. of opium from the Siberia and that Donaldson had previously made similar propositions. Says Help Was Supplied. Powers finally agreed, and Donaldson, according to Powers' story, took him into the engine-room of the Siberia and introduced him to the engineer's head boy and the engineer's cabin boy, both Chinese, and said that these boys would do the dirty work—that they would handle the stuff. Powers says that he wanted some help, and Donaldson and Customs Inspector Henry Gallagher was "in on the deal" and would see that the watchmen were not around and would give the necessary signals. Three hundred and twenty lbs were lowered from the top deck of the Siberia to the barge, and when the barge was towed to the Mission dock Gallagher says Powers met them on the dock and stood guard to give the alarm in case any one should have in sight. Fiedler hired a launch and took the opium off the barge to Oakland Creek, while Gallagher and Powers went over on the Creek ferry-boat and assembled at the meeting place.

SOLDIERS BATTLE IN FRIENDLY RIVALRY ON ATHLETIC FIELD

(Special Star-Bulletin Correspondence) SCHOFFIELD BARRACKS, Sept. 27.—Every enlisted man in the post not on other duty, most of the officers and many of the ladies turned out this morning to witness the quarterly field day, in which the four regiments of the garrison took part. The sports were about the most successful ever brought off at Leleha, many of the events being keenly contested, and decided by eyelash finishes. Probably the most spectacular event on the card was the stake driving contest for the Field Artillery, where six horses with their rumbling load are driven between three sets of four stakes each, forming a difficult figure eight, and covering the lanes seven times at speed. This competition, which developed skillful and daring horsemanship, and nicely of judgment, was won by D battery, from E Battery, in the fast time of 1:17 3/5. The winning team, which knocked down only one stake, was made up of Sergeant Campbell, chief of section; Moore, driver of lead team; Kuhn, swing; Young, wheel. Six teams entered in the mile relay, first place going to the Third squadron of the Fifth Cavalry, with the third battalion of the First Infantry second. Time, 4:03. The equipment race went to Thornton, of D company, Second Infantry; Japane, of G company, First Infantry, second; Bosworth, C company, Second Infantry, third. In the first heat of the tug war the hard-pulling First Infantry team yanked the Fifth Cavalry over the line in 10 1/5 seconds. The second heat was very exciting, the Second Infantry and First Field Artillery pulling the full three minutes, and the latter winning by 5 feet. When the two "doughboy" teams got together the First proved the better, winning in 5 seconds. The mounted rescue race was won by Corporal Roman and Elyard, I Troop, Fifth Cavalry, Sergeant Lazzera and Jones of G Troop being second. The three-legged race went to Cor-

poral Edwards and Hummell, Company K, First Infantry. Bonney and Gill, K Troop, Fifth Cavalry, second. Time 13 2/5 sec. The signal bearer contest for men of the hospital corps went to Sellers in hollow style. Following were the officials of the meet: Referee—Lt. Col. W. Y. Stamper, Second Infantry. Athletic Officer—Capt. E. P. Ordan, Fifth Cavalry. Judges—Major E. V. Smith, Second Infantry; 1st Lt. N. B. Robkopf, 1st Field Artillery; 1st Lt. D. R. Rodney, 5th Cavalry; 2d Lt. S. W. Schofield, 1st Infantry. Starter—2d Lt. H. Shekerjian, 1st Infantry. Timers—1st Lt. C. H. Wright, 2d Infantry; 2d Lt. A. W. Hanson, 5th Cavalry; 2d Lt. F. W. Lowley, 1st Field Artillery. Announcer, 2d Lt. J. C. Hatte, 1st Infantry. A shipment of Hawaii cattle arrived at Honolulu this morning in the I. I. steamer Likie. This vessel called at Kawaihae, where the animals were loaded. The steamer met with fair weather in crossing the channel. Democratic candidates are requested to meet in Wally building at 2 p. m. Saturday, September 28th. Official notice is published in today's issue of the Honolulu Star-Bulletin. Mrs. Emma Armitage has filed suit for divorce against Harry Armitage, alleging desertion on his part. They have been living apart for some time. A boy for errand work is wanted at the Star-Bulletin immediately.

W. C. PEACOCK & CO., LTD. FAMILY TRADE WINE AND LIQUOR MERCHANTS Merchant, Near Fort

PAYS \$2,500 TO WIDOW FOR CAUSING DE MELLO'S DEATH

Edward Cluney Compromises the Damage Suit for \$10,000

Edward Cluney has made a compromise with Mrs. Virginia De Mello for \$2,500, in her suit against him for \$10,000 damages for the death of her husband, and the suits of the five children of deceased are included in this settlement. After the jurors trying the widow's case had taken their places this morning, E. C. Peters for the plaintiff announced that a settlement had been made. A stipulation of settlement was thereupon entered, with a confession of judgment in favor of plaintiff for \$2,500, the other five cases being withdrawn. Costs in all six cases are to be paid by plaintiff. W. T. Rawlins for defendant consented to the judgment. Cluney, in an automobile, ran over the husband of the plaintiff, causing his death, just outside the Kamehameha school gate, on May 16, 1910.

John Watt, who has been confined to his room for several days in consequence of a minor operation, was well enough and vigorous enough to stroll down town yesterday.

CHANGES AT NAVAL STATION

Several navy and marine corps orders arrived today which will considerably change the personnel of the local naval station staff. Officers who have made many friends here during their tour of duty will have to say good-bye and change stations, while others will come to take their places. Passed Assistant Surgeon James S. Woodward, who has been serving at Mare Island, is ordered here for duty. Whether or not this means that Surgeon George Tucker Smith is to be relieved immediately, is not known. His tour of duty here is about up. At Camp Verry there will be some new faces, Lieutenant Edward A. Blair today received orders which take him to the Advance Base School at Philadelphia. By the same mail comes the information that Captain Richard M. Cutts and Lieutenant Francis T. Evans have been ordered to Honolulu. The former has been stationed at Norfolk, Va., and the latter at Mare Island. As soon as the local marine garrison is strengthened by the arrival of men that have been for a long time promised, the detail at Pearl Harbor will be increased. For some time past a handful of marines have been on duty at the new naval station, to act as a police force and to guard governmental property. The local battalion is so short of men that a short time ago it became necessary to restore the volunteer bandmen to regular duty, from which they had been excused on account of their musical abilities.

THE FEDERAL COURT. After the following jury was empaneled, before U. S. Judge Clemens this morning, to try Charles Williams for smuggling gin from a vessel in this port, the trial was continued to 9:30 Monday morning: Allan McKinnon, Harry Auld, Howard D. Bowen, W. W. Goodale, James Wilder, Jas. G. Spencer, Edwin K. Fernandez, H. Kubeck, C. A. Franz, O. H. Walker, M. Vieira, Geo. S. Harris. Mary Williams came up again for arraignment on the charge of selling liquor without an internal revenue license, but her plea was continued for one week. Tomorrow will be naturalization day in the Federal Court.

PASSENGERS ARRIVED Per T. K. S. S. Nippon Maru, from San Francisco.—For Honolulu: None. For Yokohama: Miss G. Garst, J. D. Halliday, Y. Katayama, I. Oura, Mrs. J. A. Rabbitt and infant, Master R. Mentzer, Miss F. Plomer, A. N. Quayle, Mrs. H. Sechrist, Mrs. Yung Shee, B. Webb, Mrs. B. Webb. Per Sir Kiluaea, from Kona and Kau ports: P. Mai, D. Kaupoko, Rev. Keala, S. Lazzro, Miss Hao, Rev. Ti-moto, Miss M. Kalle, S. Kulla, Rev. A. S. Baker, Rev. Yuzui, W. M. Pomerooy, A. Hansberg, A. L. Castle, W. K. Namanu, Dong, W. P. Moralia, F. Costa, R. O. Matheson, E. A. Mott-Smith, Mrs. Fisher, E. W. Ellis, G. L. Hadley, J. A. Crawford, Jno. Taylor, J. Harvest.

PASSENGERS BOOKED Per T. K. S. S. Nippon Maru, from Japan and China ports.—From Honolulu: J. Armstrong, Mrs. J. Armstrong, Miss A. Cassells, Miss M. Dalton, C. E. Lake, Miss E. Sommer. Raise Fare of Steerage Passengers. Chinese steerage passenger fares from Victoria, Seattle, Tacoma, Vancouver and San Francisco to ports in China and Japan have been advanced from August 1. The Blue Funnel Line and the Canadian Pacific Railway Company, operating out of British Columbia ports, and the Oriental Lines terminating at San Francisco, have announced an advance in the rate from \$47.50 to \$51. The Bark Line, Ltd., which has hitherto maintained a rate of \$43.50, has announced that, as a result of the advance made by other lines, a rate of \$47.50 would become effective from August 1.

California on the morning of August 16th, he has been obliged to relinquish his license, for a period of sixty days. Captain Armstrong is no stranger to this port and is well known by a number of local shipping men. The skipper is said to have waived his preliminary hearing before the San Francisco inspectors, preferring the judgment of Inspector Bulger, who in passing on the case is reported to have said: "After careful consideration of your statement in relation to the stranding of the steamer Pleiades, 12 miles north of Cape San Lazaro, on the morning of August 15, 1912, I am satisfied from the position of the vessel that there was an error of judgment on your part in allowing your vessel to set at least 12 miles inside her course. "Your statement, and the statement of Captain Graham of the steamer Washenaw, that there was a strong current setting in off shore, does not influence me in my decision, as I believe if such a set was there, you should have noted the same and halted your vessel off shore."

Harrison Direct Line Add New Territory. The Harrison Direct Line, freighters operated under this company having made frequent call at Honolulu is reported to have added more territory to the present round the world schedule. Advice received here today that setting their opportunity with the announcement of the withdrawal of the Pacific Canadian Steamship Company from the Mexican service, the Harrison Direct Line has completed arrangements whereby the steamships of that line will make regular calls at the port of Salina Cruz. The first of the fleet to make the additional call is the Crown of Galicia, which is now at Salina Cruz en route to Vancouver. Four other Harrison liners following the Galicia will make calls at the Mexican port in search of business, and if the new departure proves successful the service will be maintained. The Harrison Direct Line agency at Honolulu has been advised that another new Harrison liner is about to enter the service between Europe and the east. The Crown of Seville, which has been recently launched, was scheduled to steam from Liverpool September 21st for San Francisco. The new steamer, which was built at Glasgow, is 445 feet in length, 55 1/2 feet beam and 39 feet depth and of about 5500 tons gross. The vessel is especially designed for her owners' Eastern and Pacific trade and is fitted with twin masts with a bridge between the two foremasts, and a complete outfit of derricks, including a heavy derrick to lift a weight of thirty tons.

Four New Cutters. Plans have been completed by the Treasury Department for the construction of the four revenue cutters authorized in the closing hours of Congress. The commissioning of these new vessels, at a total cost of \$925,000, will mark the passage from view of three veteran craft. They are the Woodbury, the oldest vessel flying the government flag, forty-seven years in service; a \$225,000 cutter will take the Woodbury's place in patrolling the Maine coast. The Manhattan, thirty-eight years of age, the anchorage patrol boat in New York harbor. Its successor will be a \$100,000 tug. The Wonna, twenty-two years of age, the government guardian of the Gulf of Mexico, to be replaced by a \$225,000 cutter. A \$350,000 cutter will make up the shortage of the present Alaskan fleet, caused by the loss of the Perry two years ago.—Chronicle.

PORTLAND, Ore., Sept. 7.—News of a possible tragedy at sea, but with details lacking, was received in this city today from Captain Brown of the British bark Killarney, which arrived at Astoria from Callao on September 5. Captain Brown reports that on August 18, in 35 north, 138 west, he sighted the French bark Edouard Dettaille with a number of her spars carried away and showing other indications of hard usage, but apparently making fair speed. The French vessel has not been reported, and mariners believe that she would have been heard of before this if she had not encountered further trouble. The Dettaille was bound from Rotterdam for Portland to load wheat. She was one of the finest French barks afloat, it is said.

It was a varied cargo that was received with the coming in today of the Inter-Island steamer Kilauwa. This vessel, from Kona and Kau ports of call, returned with a fair list of passengers. Included in the freight list were shipments of chickens, sheep, cows, 23 crates chickens, 25 head cattle, 32 pigs, 48 bales sisal, 68 bunches bananas, 89 pieces kava, 538 sacks coffee, 7500 sacks sugar and 210 packages sundries. The Kilauwa experienced good weather on the trip home ward.

According to report brought to the city with the arrival of the Inter-Island steamer Kilauwa, the following sugar is awaiting shipment at Kona and Kau: H. A. C., 1575 sacks; H. A. Co., 681; P. P. Co., 7500.

There are many friends of Captain F. C. Armstrong, master in the steamship Pleiades, at the port of Honolulu who will regret to learn that through the unfortunate experience in going ashore, 12 miles off Port San Lazaro, Skippers Lose License.

VESSELS TO AND FROM THE ISLANDS

SAN FRANCISCO—Sailed, September 27, 1:30 p. m., S. S. Tenyo Maru, for Honolulu. SAN FRANCISCO—Arrived, September 27, 10:06 a. m., S. S. Sierra, hence September 21. YOKOHAMA—Arrived, September 26, S. S. Nile, hence September 14. MENDOCINO—Sailed, September 26, Schooner J. M. F. Griffith, for Honolulu. PORT GAMBLE—Sailed, September 26, Barkentine Kilkaiti, for Hilo. AEROGRAMS. S. S. VENTURA will arrive from San Francisco Monday morning with 60 cabin and 5 steerage passengers; 22 tons general and 40 tons cargo on ice. S. S. NIPPON MARU sails for Yokohama 5:00 p. m. today.

Philippines May Get Direct Service. MANILA, P. I., Aug. 31.—In a recent communication the postmaster general of the United States expresses the opinion that the postoffice department can do nothing toward the establishment of a direct line of steamers between the west coast of the United States and Manila because of a provision in the ocean mail act of 1891 which limits special rate contracts to vessels plying between the United States and foreign ports.

It has been possible through the operation of this law for the United States government to establish direct steamship and mail service between its own and foreign ports such as Australia, and it was thought that some such arrangement could be made for a direct mail line to Manila. The proposition has now been advanced that the Philippine Islands have been held by the supreme court of the United States to be foreign territory, and on this point the matter may again be presented to the postmaster general with a renewal of the request for a special rate route. The matter is now in the hands of the merchants' association, by which body it will be finally disposed of.

Lumber Laden, Vessels Race For Hawaii. Departing from Everett, Washington each laden with a full shipment of lumber, the American schooners Spokane and the Taurus are speeding in the direction of the Hawaiian Islands, a wager said to have been made at start, proving an incentive for efforts toward a speedy trip. The two windjammers are en route to Hilo. The vessels departed from the Sound port nineteen days ago. The arrival of one or both schooners at the Crescent city should be reported a day.

Capt. Charles Peterson, of the Taurus, and Capt. McDonald, of the Spokane, are carrying lumber cargoes from Everett mills. When the Taurus made her last homeward trip she showed class in sailing, and understanding this, Capt. McDonald playfully bet his fellow skipper that the Spokane could beat him to Hilo. The race now on is interesting local marine men, for the skippers are well and popularly known.

Foreigners Acquiring Merchantmen. Reports of buying and building of commercial vessels received by the marine department of the Chamber of Commerce for the last month show that foreign nations are building up their mercantile marine by the acquisition of many bottoms. The smaller maritime countries, including Norway, Greece and France, are particularly active in securing bottoms for the purpose of commerce, and shipping in England also has taken an impetus which augurs well for sea trade. Although trade by sea suffered a slump for two years, the activity now being manifested indicates that it is coming back into its own. The proximity of the opening of the Panama canal, now more than four-fifths completed, is assigned by shipping men as the reason for the boom. Practically every shipyard of the United Kingdom has received orders for vessels to keep them busy for a year or more.—Call.

There are many friends of Captain F. C. Armstrong, master in the steamship Pleiades, at the port of Honolulu who will regret to learn that through the unfortunate experience in going ashore, 12 miles off Port San Lazaro, Skippers Lose License.

Representative Japanese of Honolulu awaited the arrival of the Toyo Kisen Kaisha liner Nippon Maru from San Francisco this morning for the purpose of extending a welcome to a trio of commissioners appointed by the Japanese government to select a suitable site for an exhibit at the Panama-Pacific Exposition.

The former Oceanic liner Mariposa has not proved a success. There is one field into which the modern female of the species cannot tread. The government and officials of the Marconi Wireless Company have put the ban on lady operators and the visions entertained by many a ship's officer of a dainty "Sparkie," clad in tailored serge, wearing gold buttons and a saucy cap, tripping in and out of the wireless-room, must pass into the void of unrealized dreams.

Why the fair sex are thus prohibited from becoming licensed wireless operators with the chance of being heroines when the occasion demands an "S. O. S." is not explained except "that it is the policy of the company." The first, last and only woman wireless operator to occupy a position on a steamer, was Miss Mabel Kelso, who until a few days ago tapped the merry keys aboard the liner Mariposa.

Diesel Engines For Fishing Craft. VICTORIA, September 12.—The fishing vessels Bay State and Knickerbocker, being built in Massachusetts for the New England Fishing Company of Vancouver, will be the first craft on this coast to be equipped with Diesel engines. These schooners are sister vessels of the modified knockabout type. They will be 126 feet long over all, 102 feet in length on the water line, 24 1/2 feet beam and will have a mean draft of ten feet.

Shipping

EXPOSITION COMMISSIONERS ENTER-TAINED DURING STAY OF NIPPON

Representative Japanese of Honolulu awaited the arrival of the Toyo Kisen Kaisha liner Nippon Maru from San Francisco this morning for the purpose of extending a welcome to a trio of commissioners appointed by the Japanese government to select a suitable site for an exhibit at the Panama-Pacific Exposition.

Messrs. C. Takeda, Y. Katayama and H. Yamawaki are the three representatives who have spent some weeks on the coast and were accorded every courtesy at the hands of the directors of the big fair.

The Commission is returning to Japan, bearing among many souvenirs, several sets of moving picture films, depicting the ceremonies of selecting a site. These pictures are to be shown throughout Japan with a view of instilling a favorable sentiment in behalf of the exposition.

Captain Stevens reports a fine trip down from the coast. The Little White Yacht was alongside Alakea wharf and her 57 cabin passengers were soon scattered about the city on sightseeing tours.

The Nippon brought no passengers for Honolulu. The through list includes 11 second class and 46 steerage, for the most part Asiatics.

Purser "Tommy" McCombe is one of the moving spirits in serving to promote good fellowship and at the same time a pleasing program of sports and entertainments. A number of interesting events have been given.

The steamer has a very large cargo, amounting to nearly three thousand tons. In the specie tanks repose a million dollars in silver currency and bullion.

The Nippon Maru is scheduled to continue the voyage to Japan and China ports at five o'clock this evening.

The liner is to depart from Honolulu with fourteen additional cabin passengers.

Mail to the amount of 246 sacks arrived in the vessel.

Ventura Brings Refrigerated Cargo. A quantity of refrigerated meats and supplies is to be landed at Honolulu from the Oceanic liner Ventura. This vessel is nearing the islands and should reach port early Monday morning, according to a wireless message received at the agency of C. Brewer & Co.

The Ventura, from San Francisco, is to bring 60 cabin and five steerage passengers, with twenty-two tons of general and forty tons of ice-charge cargo for Honolulu.

It is expected that the Ventura will be dispatched for Sydney, N. S. W., by way of Pago Pago, at 5 o'clock Monday evening.

Army Transports Prepare for Sea. SAN FRANCISCO, Sept. 11.—Three of the largest army transports in the Government service—the Sheridan, Buford and Crook, are tied up to the wharves at Fort Mason under a full head of steam, ready to proceed south at any time. While the officers in authority at the Western Division of the Army deny that they have received any authorization to arrange for the movement of troops toward the Mexican border, the fact remains that the three transports are today under a full head of steam, the quartermaster's office at the Presidio has brought its full force of clerks to work, sorting out the tents and equipment used at the recent maneuvers ostensibly with a view of utilizing them for further maneuver service, and that the ordnance officer at the Presidio has in his possession some 1,600,000 rounds of ammunition or five times as much as he is supposed to have in time of peace.

Each transport now at the dock at Fort Mason is capable of transporting at least 1500 soldiers. Never in the history of the military service of the United States has more than eighty rounds of ammunition been listed to one man. Twice that amount is today available to the soldiers at the Presidio. The fact that the three transports have been keeping up steam may be significant, or it may not. One thing, however, is certain—the transports are ready for any emergency. The Presidio troops are ready for any emergency. The troops of the Western Division of the Army are ready for any emergency. Should a call to arms come today, the Western Division will be found ready. It has the guns, it has the men, it has the ammunition and it has the class of men capable of "putting" over any proposition necessary. From interviews with the commanding officer of the Western Division it seems that no immediate call to arms is contemplated. Whether it is or whether it is not, the fact seems certain that the American Army is ready.

Hui Uniona Ignores Cohen; Endorses Parker For Sheriff

Independent Candidate Maintains He Still Has Labor Vote

Hon. Joe M. Cohen, aspirant for senatorial honor, who believed that he had the general support of the Hui Uniona of Honolulu, was ignored last night by the Hui Unionists, who held their meeting in the headquarters on Queen Street. Cohen's name was not considered at all. George K. Kane, president of the Hui Uniona, who, it is said, promised Cohen the support of the unionists, was not there to deliver the goods. The only haole candidate who received the unanimous endorsement of the unionists was Major Wolter, of the Occidental Hotel. He is a member of the Hui Uniona. According to D. Kalauokalani, Sr., a member of the Hui Uniona, the hui endorsed all the Republican and Democratic nominees, who are members of the Hui Uniona. And those not connected with the hui were not endorsed. During the meeting, the Hui Uniona endorsed Captain Robert W. Parker for sheriff, he being a member of the hui. Parker was there, and received the congratulations of his associates. According to those who were present at the meeting last night, Kane, Cohen's right hand man, left his seat when it was about time for the members of the hui to consider the candidacy of those aspiring for offices. It was generally reported before the meeting that Kane was to present

Cohen's name for consideration by the unionists; but, when he found that his name would not be endorsed, he silently walked out of the hall and remained away until the meeting adjourned. Name Own Ticket. For Senator—D. Kalauokalani, Sr. Supervisors—A. Fernandez, Wm. Ahia, Frank Pahia and W. S. J. O. Makekahu, chaplain of the Hui Uniona. Those endorsed on the Republican and Democratic legislative and county tickets are Captain R. W. Parker for sheriff; David Nottley and Major Wolter for supervisors; Chas. Kaneko, Ulysses Jones, J. K. Paele, H. M. Kaniho, E. J. McCandless, David Ahia, James H. Boyd, G. K. Keawe-haku for representatives. "Had Cohen come to our meeting last night and pledged himself to support the constitution and by-laws of the Hui Uniona, he would have been endorsed by us," said one of the leaders this morning. Cohen Claims Labor Vote. "I don't know anything about this action of the Hui Uniona last night," said Cohen today. "I do know, however, that I have the labor vote with me, and that I will get a vote that is going to surprise the people. As for Kane, he is working for me tooth and nail." Cohen denied a rumor that one of his supporters in Kakaako, a hack driver by the name of Malloy, is now out fighting for C. G. Bartlett, manager of the Brewery. "Malloy is working for Bartlett," declared Cohen.

REPUBLICANS IN DEMOCRATS HEADQUARTERS TOMORROW SECURE THEIR HEADQUARTERS

Business management and efficient organization will be the "keynotes" of the Republican campaign in Hawaii this fall. Securing headquarters in the Cummins building, above Castle & Cooke's offices, the Territorial and county committees will jointly occupy the offices tomorrow for the first time. Two big rooms with a doorway connecting give all the necessary space. Behind this counter will be the desks of stenographers, a bookkeeper and cashier, publicity man, clerks and other minor officials. In the inner room will be the desks of the executive heads of the campaign. B. von Damm, chairman of the county committee, and R. W. Shingle, chairman of the Territorial central committee, will make their political headquarters here. Various secretaries will also be quartered in this room, the rear of which will be devoted to the committee sessions. Two big street banners will be hung this afternoon or tomorrow. One will stretch diagonally across the street from above the corner entrance of Castle & Cooke to the corner entrance of the Waterhouse Trust Company. The other will be flung to the breeze above the Fort street entrance to the Cummins block. The first meeting in the new headquarters will be held tomorrow at noon, when the county committee meets with the county and legislative candidates to talk over campaign plans. As the Territorial campaign concerns only the election of Delegate Kuhio, most of the work at headquarters will be on behalf of the county campaign. However, both committees are working harmoniously and expect to carry on their activities side by side.

The Democratic County Central Committee through Chairman Rivenburgh secured headquarters this morning in the Waity building on King street near Fort. The furniture is going in today and tomorrow all will be in readiness to open the campaign. An advisory committee is to be named by the various candidates and Col. McCarthy, candidate for county treasurer will probably be named chairman and make his headquarters in the committee's rooms. Although no definite plan of campaign has been adopted as yet, it is understood that the majority of the leaders favor a hustling but quiet missionary campaign in the various precincts until two weeks before election when the speechmaking will begin.

AFTER-DEATH CUSTOMS IN JAPAN

Until the latter part of this month the inmates of all prisons in Japan will have a holiday, this order having gone into effect from July 31st, the day after the Emperor's death. The prisoners are usually employed for ten hours a day at stoncutting, digging, sewing and hemp weaving. Under the vacation rule they will have no work to do but listen to lectures by the prison officials for two hours a day. It is reported that the prisoners all over the empire were notified of the Emperor's illness and his death, and sorrow was generally expressed. Immediately following the Emperor's death some enterprising Japanese merchant, whose name is yet unknown to the public, began a corner of all the crepe in the empire. As this goods is not manufactured in Japan, he easily accomplished his purpose, when the Tokio papers took up the matter and waged such a campaign that the merchant retired into the background. The price of crepe, however, owing to the unprecedented demand, went up considerably. The prevailing price is 20 sen, or 15 cents, for an arm band or hat band, and 12 sen, or 6 cents, for a breast band.—New York Sun.

CANDIDATES PLAN ELABORATE HAWAIIAN LUAUS

Elaborate Hawaiian luaus will be given either tonight or tomorrow night by those who received the nomination for supervisory honors. Chas. Bartlett, manager of the Honolulu Brewing Company, and David Nottley, who were both nominated for supervisors on the Republican ticket, it is said, are preparing to give grand and elaborate luaus in their respective homes, either tonight or tomorrow night. Bartlett, according to one of his boys, has made necessary arrangements for a grand Hawaiian luau to be given at his residence in Kakaako. Plating and other Hawaiian delicacies, including, perhaps beverages of exceptionally good quality will be freely given, and those who had worked hard for the nomination of Bartlett have been invited to the luau. John H. Wise, Bartlett's field marshal, who will manage the former's campaign preparatory to election in November, it is said, will be given a special seat by his boss' side. It is believed that a large number of the electorate will be present at the luau. Nottley, who expects to be elected in November on the Board of Supervisors, is also making preparation for a big luau to be given in his house tomorrow night.

FIRST DAY'S WORK OF CIVIC CONFERENCE

The first civic conference held in the Territory was opened here yesterday morning, the attendance of representatives from the Hilo Board of Trade, Kohala Civic League, Honolulu Chamber of Commerce, Honolulu Merchants' Association, Commercial Club, Hawaii Promotion Committee and Hawaii Fair Commission being large. Dr. Elliott, president of the Hilo Board of Trade, under whose auspices the conference is held, made the welcoming address. He was followed by H. P. Wood, secretary of the Promotion Committee, who gave a graphic description of the work of the Promotion Committee, and how it has added to the prosperity of the country by attracting tourists. Hawaii had been placed definitely on the map as one of the world's most attractive tourist resorts. Following Mr. Wood's address and another by Mr. McKay of the Kohala Civic League, resolutions were unanimously passed endorsing the Promotion Committee's work, pledging the United civic organization support in asking the 1913 Legislature for liberal support for carrying on the promotion work. Another paper, prepared by A. P. Taylor, secretary of the Hawaii Fair Commission, who recently returned from a visit to the exposition site in San Francisco, entitled "Hawaii at the San Francisco 1915 Exposition," was read, Mr. Taylor being unable to be present. Fifty-seven thousand Scotchmen left Scotland last year.

Kaimuki Indignant, Quits Oahu Improvement League

Secession of Club Due to Recent Republican Politics and B. von Damm, Claim

Waialae, Kaimuki and Palolo Improvement Club last night seceded from the Oahu Central Improvement League, of which the seceding club claims it has been the mainstay, both in membership and finances, as well as initiative and execution of schemes for civic progress. The cause of the break was not disguised as being resentment against B. von Damm, president of the league, for his alleged open enmity to Kaimuki in recent Republican politics. E. A. Berndt, Father Valentin, H. T. Mills and Ed Towse, four of the seven delegates of the club in the league, tendered their resignations as such and a motion to accept their resignations was made which also declared the withdrawal of the club from the league. Delegate Logan, who is vice president of the league, thought the proposed action hasty and tending to

mix foreign matters with the aims of the club, but the feeling seemed to be so strong for secession that the motion was allowed to carry without an opposing vote. Delegate Clark was absent and the remaining delegate is President H. G. Davis of the club, who was in the chair when action was taken as stated. The meeting was full of business and harmonious, several reports on roads, water, lights, etc., being discussed without and clashing of individuals or sections of the district. An offer of \$500 for the club building site on Wilhelmina Rise was submitted, but action was deferred until next regular meeting. A member present offered an advance of \$50 and an opinion was expressed that the lot should be kept as an investment in view of the rise in value taking place in the district. There has been opposition to the site from the beginning or the ground that it is not central enough for a clubhouse. President Davis and Secretary Mills were appointed a committee to ar-

QUARTERLY DIVIDEND.

Announcement is made by the Honolulu Rapid Transit and Land Company that a dividend of \$1.50 a share on its common stock will be due and payable on Sept. 30. This is the regular quarterly dividend, being equal to 6 per cent. per annum on the par value of the stock. Last sale of common was at 150. About 150 cigarmakers are out on strike at a cigar factory at New Haven because of dissatisfaction with some stock with which they are compelled to work. A carload of California flowers will be transported in New York so that Mrs. Malcolm D. Whitman, formerly Miss Jennie Crocker, of San Francisco, may not be lonesome in her new home.

The Palm Cafe's Restaurant In the new building --- 116-118 Hotel Street --- is cool and attractively furnished, and the cuisine, with the kitchen in charge of M. Louis Distellie, our new chef, is of the highest order. Lunches - 40 cents Dinners - 75 cents A service unsurpassed and at same rates that prevailed in our former quarters. TELEPHONE - 2011

FRIDAY, SEPTEMBER 27, 1912

## NEW PRESIDENT FOR FRANCE

There is no happiness in the world into which love does not enter; but here is the discovery of ourselves in others, and the delight in the recognition.—Alexander Smith.

## MIXING POLITICS AND IMPROVEMENT CLUBS

Politics and the Oahu Central Improvement committee matters have not been mixed in the past and should not be. The splendid success of the central committee has been due in a very large part to the activity and ability of the Kaimuki members. It will be a matter of much regret if the Kaimuki club withdraws from the central committee, for there is no questioning that political differences are back of the split.

Honolulu's progress is dependent on the cooperation of citizens in civic affairs, and the central committee has been the focus of a healthy spirit of this kind. Kaimuki can well afford to put aside political animosities absolutely and continue its bigger, broader work of planning a bigger and better Honolulu. The action of last night should be reconsidered.

## CHARACTERISTICALLY CARTER!

Ex-Governor Carter's interesting but inaccurate statement published in a San Francisco paper and reproduced in another column of today's issue will not be received with much weight by those in Hawaii who know his political leanings and the extent to which his political affiliations prejudice his explosive utterances.

Mr. Carter tells the San Francisco public that the press of Honolulu has concealed the truth about the Bull Moose movement. He talks of the "strict censorship of the Associated Press dispatches maintained by the pro-Taft papers" published here. This is the kind of reckless and absurd misstatement that this STAR-BULLETIN does not propose to allow to go unchallenged.

So far as this paper is concerned, it has printed all the news sent by Associated Press. It has never suppressed a line of cabled news, whether such news favored Taft or Roosevelt or Wilson. Its own Washington correspondent has repeatedly written lengthy articles upon the seriousness of the split in the Republican party and the strength of the Bull Moose movement, and these articles have been published.

The STAR-BULLETIN believes Mr. Roosevelt's present campaign is a good example of opportunism, and has so stated editorially on a number of occasions. But the fact that this paper does not agree with all of Roosevelt's methods has not prevented the STAR-BULLETIN from expressing admiration for his courage and political sagacity.

One of Mr. Carter's favorite allegations, during the time when he fondly imagined Bull Moosism sweeping into Hawaii this fall, was to tell people that the local press would not give Roosevelt a square deal. At one time Mr. Carter issued in pamphlet form an extract from an article in the New York Evening Mail, the only big New York paper which favored Roosevelt. This article was an attack on Taft and the first Chicago convention. Over his own signature, Mr. Carter wrote, as he sent these pamphlets out: "Our papers don't care to publish extracts like this." As a matter of fact, he had never offered this extract to the editor of the STAR-BULLETIN for publication, and his assertion was as irresponsible as the interview he gave out in San Francisco the other day.

The STAR-BULLETIN respects those qualities of energy, enthusiasm and self-confidence with which Mr. Carter is endowed perhaps as liberally as his distinguished chief. We recognize also that Mr. Carter must have had some of that confidence a trifle shaken when his Bull Moose movement here flashed in the pan so quickly. Perhaps, on the whole, his San Francisco interview was as good an outlet for his injured feelings as could be found, and with this charitable view of a schoolboy attitude, he may be forgiven for the mistake often made by the politically unsuccessful,—the mistake of believing that in some mysterious way news of themselves or their cause is being "suppressed".

For our part, we are too appreciative of the value of our ex-Governor as a news-asset to desire his suppression. He and his thirteen fellow-Moosers, now, alas! dwindled to three or four, added to the joy of life here for a brief span, and may yet, as office-holders, with Teddy wearing the emperor's purple, add still more to the day's news and amusement.

Murmurings from France augur that the next presidential election, which takes place in a few weeks, will be marked by a bitterness and clash of factions such as the Republic has not seen for many years. The presidential term in France is seven years, and Fallieres will go out of office at the end of December, his successor being named to rule during the 1913-1920 period.

The period of the next presidency is, on all sides, regarded as likely to produce more critical days than any yet weathered by the Third Republic, and patriots are calling for a "man," distinct from the mere figureheads who have occupied the Elysee for a generation. Fallieres has been a terrible failure.

The fight for the place is likely to resolve itself into a struggle between five men. Many believe that Leon Bourgeois, the present labor minister, will be the winner. But he is in very bad health. He is a Republican of the moderate type and has been prominent politically ever since the days of Gambetta, in the seventies.

Another member of the present cabinet, Mr. Pams, minister of agriculture, has a large following and would be a good compromise candidate. Jean Dupuy, the Paris newspaper king, has the advantage of a strong press to advocate his claim. He also holds a minor post in the present "ministry of all the talents."

Passing over Briand and Delcasse—neither of whom will stand, on account of their advanced opinions, the one as a bitter Socialist, the other as a stropg navy-at-any-price enthusiast—one comes to a hot favorite, M. Poincare, the present prime minister. He would be the "man" that Frenchmen are calling for, but his friends say he intends returning to his big law practice; besides, he considers his present post far more important than that of chief magistrate.

Paul Deschanel, president of the chamber, will in all likelihood be the next president of France. He is only forty-three, handsome, popular, a brilliant politician, and commands the respect of all classes. It is noteworthy that many presidents have been elected from the presidency of the chamber. Brisson, who had he survived would surely have been Fallieres's successor, was Deschanel's predecessor as head of the chamber.

## PRaise FOR U. S. SAILORS

High praise for the personnel of the navy has been frequent in the public press of late, and a recent article in the Popular Mechanics magazine dwells on the subject in detail. The writer, after some investigation, declares that no other class of young men under similar conditions shows such self-restraint, orderliness and courtesy as sailors on shore leave.

The transformation from the sail-propelled man-o-war to the complicated mass of machinery known as the modern battleship is not one bit more pronounced than the improvement which has taken place in the personnel of the men who compose the human working parts of these great machines. Time was when the navy was looked upon by many as a sort of reform school, a last resort to which young man could be sent who were not quite bad enough to put in jail and not good enough to roam at large. Such conditions have fortunately passed away and the American navy today is composed of brains and muscle of the highest order and a personnel of which the country can well be proud.

Uncle Sam's policy in jumping into the Nicaragua imbroglio and hesitating over Mexican intervention is not satisfactory to the average man's idea of justice or consistency. It appears that the big interests in Mexico prefer to let matters drift into a position where the United States will have to take hold permanently.

Wilson refers to Roosevelt as an "understudy of Providence". Any time Teddy lets even Providence occupy the limelight, he is losing his grip.

Now that the head of the Mormon church has come out for Taft, wise Republican leaders ought to secure equal suffrage for Utah.

History repeats itself. Bryan is again declaring that not a single state will go Republican.

Secession in Kaimuki is getting to be an issue instead of an intimation.

International calling-days on the Mexican border are now an fait.

## LETTERS ON TIMELY TOPICS

### A MAINLAND EXPERT'S VIEWS OF HAWAIIAN FARMING.

Editor Honolulu Star-Bulletin,  
Sir:—During my recent visit to your islands I became intensely interested in the possibilities of your soil and climate, and the geographical location to command the greatest export market for your agricultural products. You have demonstrated what can be done in sugar and pineapples; you have shown that you can grow rice and not to fall behind for want of a market. But, from my point of view, familiar with the growth and up-building of vegetable growing and marketing as it is done in Southern California, I am sure your islands, with intelligent cultivation and handling of the insect question, produce every desirable vegetable in such quantities that the vessels stopping at your harbor will depend upon you for their supply if you will but take care of them systematically. Your Marketing Division has made a wonderful stride in this direction, but the small farmer needs educating. The large plantations ought to be the educators. The little acreage they will lose would be more than offset by greater benefits that must come from diversified farming. The school teacher, if

encouraged, will gladly line up with this work.

Your Mr. Starrett, of the Marketing Division, is a capable teacher. He knows how to grow and how to market. If my experience with seeds, soil and climate can suggest anything of merit it is free for the asking to any one on your islands, as it has been for more than fifteen years to all growers in the southwest.

I have great anticipation for wonderful strides in vegetable-growing on the north coast of Maui in the Kaunapali country, when the ditch is complete, if the small farmer will be allowed to irrigate from the ditch. It is a rich, undeveloped section full of possibilities. With a little water for intelligent irrigation, that section will grow melons of all kinds, sweet potatoes, peanuts, Irish potatoes and corn.

In a previous communication I hinted at the idea of a demonstration farm at the Schofield Barracks. Such a farm would be of incalculable value to the islands and make the barracks a garden of Eden with beauty and profit.

Some of the enclosed pictures of the Los Angeles market may be of interest to some of your readers.

Yours truly,  
H. L. MUSSER,  
President Aggeler & Musser Seed Co., Los Angeles, Cal.

### LITTLE INTERVIEWS

W. H. HOOGS—I see Kaimuki is furnishing more excitement for an otherwise dull time.

BERTRAM RIVENBURGH—The Democrats have beaten the Republicans as far as opening up headquarters is concerned, and that should be a good augury for the future.

PURSER "TOMMY" MCCOMBE in the Nippon Maru—I had a beautiful trip from San Francisco to the islands and we carried the crowd to enjoy it to the fullest extent.

SHERIFF W. P. JARRETT—I'm not in favor of beginning speaking in the present political campaign until about two weeks before election. People get tired of too much spell-binding.

E. S. CUNHA—One way to lessen the cost of living would be to stock the thousands of acres of idle land in Hawaii with burros. Burro steak is a delicacy and once tasted becomes a habit.

A. T. WISDOM—I have just finished issuing postal cards to the various members announcing the re-organization of the Bowling League. The first evening at the Y. M. C. A. at eight o'clock.

CHIEF OF DETECTIVES McDUFFIE—We had a lively chase after the escaped prisoner on the chain gang last night. It looked for a time as if we were to land the man. Better luck next time.

DR. E. L. HUTCHINSON—I found a set of dice on Wilhelmina Rise with one of the "bones" bored for loading. It evidently had played its part in making sevens and elevens for the doing up of many dupes.

ROAD OVERSEER CALDWELL—In answer to the complaint of William Besh relative to the Makee Island road, let me say that we intend to take some of the waste material from Kalaheena avenue to repair that road.

HARBOR OFFICER CARTER—The waterfront is pretty well cleaned up of indigents and beachcombers. Some of the vessel masters at the port are wondering just what they will do to fill out their crews before leaving for the mainland.

A. E. LARIMER—Students are enrolling every day for the educational classes which start on the evening of October 7. We have a fine group of teachers this year and everything points to the most successful term the association has ever had in this particular department.

PAUL SUPPER—There is no group in the city that the Y. M. C. A. can do more for than the employed boys, represented by the eighty who gathered around the dinner table in Cooke Hall last night. These boys have to leave school and go to work, and if the association does not do for them in the way of educational and physical development, no one else will.

### MISS PANKHURST WITH APACHES OF PARIS

PARIS, France, Sept. 12.—Miss Christabel Pankhurst, the suffragette leader, for whom the London police have been looking ever since the big window-smashing crusade in that city some time ago, is staying at a quaint little hotel in what is really the Apache district, and is looking radiantly healthy and rosy after her enforced rest and outdoor life.

"I came to Paris a few days ago," she told the correspondent. "Before that I had been staying on the French coast. I received visits from my mother

### PERSONALITIES

R. T. HANNAWAY of Belmont, S. C., has returned to the mainland after a brief visit here.

HARRY TREADWAY of Calgary writes friends that he will visit here next spring with a party of four.

JOHNNY MARTIN is about town again after an illness which has laid him up for the last three weeks following his return from Kauai.

DR. HERBERT L. WILLETT of the University of Chicago is expected to arrive next Thursday on his way to the Orient. He will be given a luncheon at the University Club by the Chicago students and former students here.

MRS. WALTER L. FISHER returned on the Kilauea today from the other islands. Mrs. Fisher made most of the Hawaii trip with the secretary, but instead of taking the tour over Maui, came direct to Honolulu on the Kilauea. The Fisher party will arrive on the Mauna Kea tomorrow.

### ROOSEVELT AND THE NEWSPAPERS

When Mr. Roosevelt tells his audiences that "I don't mind the newspapers attacking me editorially, but they ought to be compelled to tell the truth in the news pages," the newspapers print it, but every newspaper knows that it is a falsehood.

The World has never known a campaign that was more fairly and generously reported by the newspapers of all parties, Democratic, Republican and Progressive. As for Mr. Roosevelt, he receives more space in the news columns of the newspapers than either President Taft or Governor Wilson, and sometimes he receives more space than both of them combined.

We are surprised that Roosevelt newspapers like the New York Globe, the New York Mail, the Philadelphia North American, the Chicago Tribune and the Kansas City Star remain silent in the face of Mr. Roosevelt's slanders upon their own profession. They know that he is not telling the truth. They know that his charges are a libel upon a vast army of conscientious newspaper workers who are reporting the campaign with the utmost possible accuracy. They know that these charges are being made by Mr. Roosevelt merely in the hope of being able to blackmail the newspapers into giving him still more space, yet they tolerate his shameless mendacity.

Is it possible that Progressive journalism is so hypnotized by Roosevelt demagoguism that it has forgotten even its own self-respect?—New York World.

er constantly and kept in close touch with the suffrage movement, sending unsigned weekly letters to our paper. I now intend staying quietly here and will continue my work. I do not expect to take part in the French feminist movement, but have not any definite plans.

"I have made a careful investigation before announcing my whereabouts and find that the British government cannot touch me here, as the offense with which I am charged is not one for which I can be extradited. "The votes for women" movement was never in a more flourishing condition. We shall continue our present methods until we compel the government to introduce a bill granting us suffrage."

# IN THE WOMAN'S WORLD

## KUNALU BOAT CLUB GETTING READY TO RESUME AQUATICS

Talking of Adding Swimming to Rowing Events This Year

Now that the summer is over the members of the Kunalu Boat Club will resume their rowing. This is the only woman's boat club in Honolulu, and has been in existence for about ten years. For some time the young women had no boat house of their own, and under the supervision of Mr. A. L. C. Atkinson they rowed near the Healan Boat House and made use of the Healan boats. When the members decided that they needed a house of their own, money was borrowed, and up to the present time the Kunalu have been heavily in debt. Now this debt is wiped away, and the financial outlook is all that could be desired.

The present membership of the Club is forty and at no time has the number far exceeded this. There are a few of the charter members still on the active list, and each year as the old members leave the city or resign new members are taken in. Of the forty members there are hardly more than twenty-five who turn out for the rowing and are in any way active. This seems unfortunate, for the opportunities for muscular development that rowing affords the young women are many, to say nothing of the pleasure to be derived from this, one of the healthful outdoor sports available to women. At present there are but two crews, and if the membership should be increased, the two boats owned by the club might be dispensed with and shells put in their place. This would enable the Kunalu to enter boats in the Regatta events.

Club is Exclusive. Since its organization strangers have found it hard to join the Kunalu Boat Club. It is necessary first to be proposed for membership by a club member and then seven other members in good standing in the club are asked to vouch for the applicant. If the club would admit membership more young girls who would willingly turn out for practice, the crews might make a showing in the sports that would be worth while.

Socially, the Kunalu Boat Club has a high standing. The affairs given by the club are counted among the ultra swell functions of the season, and their good times are enviable.

For the past year or more there have been very few entertainments of any kind but at the meeting last Tuesday it was decided that more will be done along this line during the present year. The Club location is also desirable for swimming parties.

May Take Up Swimming. So far the members have used the club house on Regatta Day, for rowing, and other social entertainments. This year, however, it is the wish of the girls that the members take some interest in swimming. After the practice is over there is nothing more refreshing than a dip in the ocean. Some of the members even go so far as to hope that a raft will be built there. If this hope is realized, the Kunalu Boat Club may develop such swimmers as the Hui Nalu.

On Thursday afternoon, October 3, the basket ball classes will meet at the field next to the Homestead on King street. The Junior class will meet from three-thirty until four-thirty, and the Seniors from four-thirty until five-thirty.

Arrangements are being made to start a French class as a large number of the members have expressed a desire to attend such a class providing one was started. At present no suitable teacher of French can be found, but as soon as one is located, it will be started.

New members are proposed in the Kunalu every six months, and it is hoped that within the next six months the present members will see fit to elect a larger number of girls so that more interest may be taken in the rowing. The old adage "A new broom sweeps clean," stands true in this case for there are few of the old members who take any vital interest in the doings of the Kunalu. After a girl has been a member for two or three years she loses all interest in rowing and neither turns out for practice nor enters into the spirit of the club.

Courtesy to Swimmers. The courtesy extended to the participants of the swimming races before and on Regatta Day, was greatly appreciated, both by the young ladies themselves, and by those who were interested in the races. Without the kindness of the Kunalu Boat Club it would have been almost impossible to have had the swimming races on that day, as the Myrtle club house was filled to its utmost capacity by

visitors, and members of the club, as well as by the rowing crews. The dressing rooms, lockers, showers, in fact, all of the conveniences of the boat club, were at the disposal of the young ladies as well as the privilege of viewing the boat races from the large, cool room that forms the boat house proper of the Kunalu.

### CHANGE OF DATE FOR SWIMMING CLASSES

On account of the large number of applications for membership in the swimming classes, Miss Tupper, physical director of the Y. W. C. A. has decided to change the date of the classes from Thursday afternoons to Saturday afternoons. Three classes will be held each Saturday, one from four-fifteen until five o'clock, the next from five until five-forty-five, and the last from five-forty-five until six-thirty.

On Thursday afternoon, October 3, the basket ball classes will meet at the field next to the Homestead on King street. The Junior class will meet from three-thirty until four-thirty, and the Seniors from four-thirty until five-thirty.

Arrangements are being made to start a French class as a large number of the members have expressed a desire to attend such a class providing one was started. At present no suitable teacher of French can be found, but as soon as one is located, it will be started.

### TO OPEN NEW LOTS ON PALOLO HILL

An important improvement is planned for the Palolo Hill tract, being handled by Dr. E. L. Hutchinson for the Henry W. Granger Trust Company. Mongolia avenue is to be extended to connect with 16th avenue at the junction of Claudine avenue. Sixteenth avenue will eventually be clear through to Fort Ruger, so that the extension of Mongolia avenue about to be made means ultimately an automobile drive that will sweep around the face of Palolo Hill, with its beautiful view, cross the top of Ocean View and connect at the fort with the roads around Diamond Head and down through Kapiolani Park. The proposed extension will open up a bunch of nice building lots. Mongolia avenue is a crescent-shaped drive branching off Maunae avenue, the first road going up the hill beyond the end of the carline.

### RALLY, REVIEW AND PROMOTION DAY

Sunday will be rally, review and promotion day at the Methodist Sunday school. The service will be unique. It will begin promptly at 9:45. Children and adults are cordially invited.

### FRANK ARMSTRONG TO GIVE DINNER-DANCE FOR 38TH BIRTHDAY

This is the thirty-eighth anniversary of the birth of Frank Armstrong, who was born on the Island of Lanai. He will celebrate the event this evening by giving a dinner-dance at the Country Club at 7:30 o'clock.

Among those to be present, besides the host, will be Miss Tenney, Miss Lauka, Miss Helen Alexander, Miss Agnes Walker, Miss Tillie Neumann, Miss Cordelia Walker, Mr. and Mrs. Klebahn, Dr. Tucker Smith, Mr. Duncan Smith, Mr. J. D. McHenry, Mr. Hoby Walker and Mr. A. A. W. Perry.

### FLOWERS FOR DEAD

LONDON, Aug. 31.—The movement recently started to abolish the use of flowers at funerals and divert the money so saved to deserving charitable purposes, is not likely to receive much encouragement in London.

The manager of one metropolitan undertaking establishment voiced the general opinion of his trade associates in saying that there is too much sentiment in the English nature to allow such tributes to departed friends or relatives to be done away with.

"A few years ago," he said to a Standard representative, "this expression of grief and respect was manifested in a rather gruesome manner by sable trappings and plumes on the horses, depressing black palls on the hearse, and yards of crepe wherever it could be placed. Perhaps the most oppressive feature, however, was the mutes with their crepe-crowned hats, their solemn visages, and their sable-draped crosses. These funerals were not only gruesome, but very expensive and many a poor family has been burdened with debt for years in order to pay the required tribute to one of its dead members.

"During the past decade, however, the British people's natural sense of the beautiful has asserted itself, and now most of the money spent at funerals is devoted to flowers. It is true that there is an apparent waste to lavish money upon tokens which perish in a day, but the substitution of flowers for the gruesome black trappings gives an atmosphere of the beautiful to modern obsequies which robs death of much of its grimness.

"Moreover, it would be useless to dispense with flowers in any attempt to save the money for charitable purposes, because everybody insists upon paying proper tribute to their dead, and they would in that event probably return to the old method of elaborate funeral trappings, which are even more expensive. As an illustration, a fruit-stall keeper in Farrington road, an elderly woman and very poor, was buried recently in most extravagant style. Where the money came from nobody knows, but there were six horses to the hearse, with black plumes and trappings, and six carriages and pairs, decorated with equal lavishness."

### MARRIED.

CRAIG — Sept. 26, 1912, Alexander Craig and Mrs. Lohela Kanihaokalani. Rev. Mr. Poepe officiating. Both of Honolulu.

In a gambling raid on a den at Chaves, Portugal, the authorities made 43 arrests and 192,500 pesetas in money.

Rapid tuition given in Music, Violin, Mandolin, Guitar and Banjo by Prof. L. A. de Gracia. New and easy method. Terms moderate. Address 175 Beretania avenue. Phone 2843.

Members of the Scottish Thistle Club are reminded of the address on Robert Burns to be given in the club room this evening by Dr. Sinclair. It is hoped that every member will attend and bring a friend. All admirers of the Scottish bard will be made welcome.

Edmund Dennis Miner, a member of the bar of Louisiana for many years, has been admitted to practise in all Territorial courts by the Supreme Court. For eight years he was a judge of the fifteenth judicial district court of Louisiana, retiring of his own volition at the end of that period.

In an opinion written by Justice De Bolt, the Supreme Court has reversed the judgment of non-suit by the First Circuit Court in the ejectment case of Leialoha (K), Lahapalili Bush and John F. Colburn vs. Edward H. F. Wolter, and remanded the cause to the court below for a new trial.

Treasurer Konkling has received a letter from Dow, Jones & Co., Wall street brokers, asking for information regarding harbor and civic improvements made and contemplated here in anticipation of the increased commercial importance of Honolulu from the Panama canal. It was stated that the data was desired for a forthcoming article in the Wall Street Journal.

Up to Sept. 30 the Sugar Factors Company will have shipped 473,000 tons of sugar out of an estimated 484,000 to be handled by that concern for the season. All of the crop will be out of hand by the end of October, when preparations will be made for shipping the new crop. Possibly the American-Hawaiian Steamship Co. will dispatch a steamer for Salina Cruz every ten days instead of eleven as at present.

### ON TRAIL OF FUGITIVE

Chief of Detectives McDuffie and officers were led a merry chase last evening, when they were tipped off that Sam Kalau, who had escaped from the prison chain gang, was seen prowling about the Beach road.

Kalau was reported as having encamped on some vacant property along the lonely thoroughfare. The story that reached the police was to the effect that a quantity of plunder was in the possession of the man.

McDuffie and his men started on the trail by machine, and leaving the car, took up the pursuit over alh-way and swamp.

The chase was maintained at high pressure for some hours, but Kalau is said to have eluded his pursuers, though it is expected that he will soon be landed within the toils and the man hunt has not been abandoned.

## HOME FOR JAPANESE GIRLS

Association Acts for Hawaiian Board in Securing Site at Wailuku

WAILUKU, Sept. 26. — S. Kimura has transferred his lease of the large piece of property belonging to the Wailuku Sugar Co., fronting on Vineyard street and Lao Valley road, to the Maui Aid Association. This association is acting for the Hawaiian Board of Missions, in securing the property for a home for Japanese girls of Wailuku and other parts of Maui. It is possible, also, that girls from other portions of the Islands may come here, for the home will be one of the best in Hawaii for young girls. Its purpose is to provide a shelter for girls who work out, and also to take girls whose parents wish

## DISCLOSED HIS ASSOCIATION WITH THE PLOT

We observe that General Huang has sent the following telegram to the President on the subject: —  
Owing to my having been indisposed I proceeded to the West Lake (Hangchow) to obtain medical treatment. When I returned to Shanghai I saw a telegram sent to me by Dr. Sch from Tientsin in which it states that when he interviewed a certain secretary of the President's office, the secretary stated that when the late Chang Chen Wu was arrested he had in his possession a letter which would be sent to me asking me to kill Li Yuan Hung and everything had been properly arranged, etc. I also noticed in one of the foreign papers in Shanghai a telegram received from Peking to the effect that it is rumored that Evans Hsing is also an accomplice of Chang Chen Wu, who was to raise a second revolution and that was the reason he did not proceed to Peking, etc. I was exceedingly surprised at seeing these two telegrams. The charges lodged against Chang have not yet been fully promulgated both in Hupoh and Peking under the allegation that there would be great inconvenience if the charges were announced. Now people in Peking and Shanghai are suspicious of me, and if Chang's case is not announced as clearly as possible, the suspicions of Chinese and foreigners cannot be removed. Under these circumstances I crave your kindness to investigate into the matter without showing delay and leniency, and if there is any evidence against me in connection with Chang's case, I shall be very pleased to be tried by the Court of Justice, and I also request that if it is a false accusation the libellous party should be dealt with accordingly.

## LATE NEWS FROM PEKIN

PEKIN, Aug. 31.—Dr. Sun Yat Sen, in an interview with an American journalist in Peking last week said in reference to the bankers' demands for supervision of the country's finances that he is opposed to any supervision whatever and does not see the necessity for it. When told that the bankers would not lend without it, he stated he would raise funds internally.

News reached Peking last week that on the 26th a body of one thousand Mongolians attacked a place called Sitakow, which five hundred gendarmes defended valiantly but who were eventually defeated. A similar number of gendarmes, who are a hundred miles distant from the scene of the fighting, are hastening forward.

The Chinese now believe that the Japanese are fermenting the trouble, but reports generally tend to show that the Mongolians are acting quite on their own.

Chino-Mongol Situation.  
The gravity of the Chino-Mongol situation appears to be increasing, for though the Chinese authorities are restricting themselves the measures which are entirely defensive the Mongols hold two prefectures to the south of Taonan-fu. The whole movement, says Reuter's correspondent, is apparently based upon the contention of the Hukaituku the Inner Mongolia extends as far as Kuangchengze, and it is plain that the Chinese intend to drive the Mongolians out of the disputed area. It is not improbable that the present situation may lead to general hostilities between the Chinese and the Mongols. China does not wish this to occur, but is prepared to fight if pacific measures fail. The denial issued by the Russians of the rumors that Russia was connected with the raid on Taonan-fu are considered to leave China free to pursue independent action toward Mongolia in view of the fact that the Mongolians were the aggressors, though the Russian Government will not admit that the Taonan-fu district is a part of Manchuria.

Hung Hsing Charged.  
It has been freely stated of late in the vernacular Press, that General Huang Hsing, who was to have gone to Peking with Dr. Sun Yat Sen, and backed out at the last moment, was associated in the conspiracy which led to the execution of two other Generals at Peking. It is said that his refusal to go to Peking was due to information that the authorities had obtained possession of certain documents which

## HAWAII THEATER

The program offered by this cozy little house for tonight's change is a first one and will no doubt fill the house.  
"A Red Man's Gratitude" is a very fine Bison feature. "The Sheriff's Daughter," "The Ghost at Circle Camp" and "Oh! My Mother-in-Law" make up a very interesting show and these pictures are bound to please both young and old.

The management is striving with all its power to put on pictures that will please, and not offend anyone, and from present indications it looks like the Hawaii is all that is claimed for it.

The Scott expedition of explorers arrived at St. John, N. F., having discovered no gold deposits, but much ivory and valuable fur. They brought with them the members of another shipwrecked expedition.

### FLORIDA

By GEORGE FITCH

Florida is a vast expanse of water, sand and climate, which sticks out about 400 miles into the ocean at the southeast corner of the nation, and is as hard to dodge as a sore thumb. For many years it was the vermiform appendix of the United States. No particular use for it was known, and the Semole Indians kept it in a constant state of inflammation. It is now being extensively cultivated, however, and is growing faster than any other Southern State, though goodness knows it needs to, having only 750,000 souls and a few thousand hotel-keepers.

Florida was discovered by Ponce de Leon almost 400 years ago and immediately became famous for its wonderful climate. Ever since then people have been going to Florida to enjoy the climate and coming back to enjoy society. This shows Florida's simplicity. In California the man who arrives to enjoy the climate is treated so hospitably that he never saves money enough to come back.

However, in the past few years a few great hotels have been built in Florida, and it is now possible to go down there swelled all out of shape with money and be successfully treated for the affliction if a very few weeks.

Florida is divided equally into timber, swamps and orange groves. It contains the Everglades, the greatest swamp in America. It is so large that the Agricultural department almost got mired in it recently. It also contains the only sea railroad in the world, running to Key West over 100 miles of water and keys. The Florida

key is a peculiar one made out of coral, and is almost as big as an old-fashioned New England house key. Florida ships oranges, grapefruit, alligators and cigars to the world. If it were not for Florida, mankind would be able to swear off smoking. In fact, this would be almost necessary. Florida also contains the old-

est city in the United States—St. Augustine—which is one of the celebrated sleeping beauties. The metropolis of the State is Jacksonville, which has grown out of general stores into skyscrapers in the last ten years. The capital is Tallahassee, of which no more is known.

Florida is now very prosperous. Buying Florida land is a national diversion and selling Florida land is one of the surest roads to wealth.

### EMPLOYED BOYS FEAST AT Y.M.C.A.

A banquet was held last night in Cooke Hall at which eighty boys, members of the Y. M. C. A. were the guests of the association, and for two hours ate and listened to speeches made by the officers of the association. Charles F. Loomis, secretary of the boys' work department, presided, and those making informal talks to the boys after dinner were R. M. Cross, assistant secretary of the boys' work; Paul Super, general secretary of the association; A. E. Larimer, who is in charge of the educational work; Le-Poy Johnson, assistant physical director, and A. T. Wisdom, who has charge of social privileges.

The program was opened by Toastmaster Loomis, who gave a short talk on the plans for the boys' department for the coming year and a brief outline of what the work will consist of.

Following this, secretary Super spoke upon the aims of the Young Men's Christian Association, and how the association expected to fulfill these aims, especially in regard to the employed boys, and closed by mentioning the benefits each boy would receive by living up to the ideals of the association.

Physical Director Johnson then spoke upon the necessity of a healthy body as an adjunct to a healthy mind, and urged all boys to enroll themselves in gymnasium classes at once.

A. E. Larimer then spoke of the importance of the night school classes and outlined the courses to be given.

The evening's entertainment was concluded by specialty stunts introduced by Messrs. Nelson, Shaw and Robinson.

### SCHOFIELD BARRACKS NOTES

Private Pat Hilton of B Company, Second Infantry, was severely injured on the 26th inst., by being caught by a freight car and having his left foot crushed by the wheels. Hilton, with a number of other soldiers, was at work unloading a car of coal on the spur at the quartermaster's yard when a car that was being moved by another detail knocked him down with the above unfortunate result. The man was removed to the hospital at once and an amputation was performed by the post surgeon.

The star ball game of the season was played on the Infantry grounds on Thursday. The contestants were teams from the First and Second Infantry bands, and the enthusiasm displayed exceeded the quality of baseball to a degree. This was the third game of a series arranged by the "windjammers," and the score was 17 to 10 in favor of the Second. That regiment also won the other games of the series.

Tonight in the Cavalry Amusement Hall, the monthly boxing contests arranged by Lieut. E. J. Ely, Fifth Cavalry, are scheduled to occur. The evening will be as a finale to the big field day games, and like all other athletic affairs at the post, will be open to the public. The main event will be a ten-round match between Moriarty, Company L, Fifth Cavalry, and Massey, Battery F, Field Artillery. Moriarty has appeared in the ring in Honolulu with some considerable success. Massey is not so well known outside of the barracks, but has a following that looks to see him returned a winner. The main go will be preceded by eighteen rounds of boxing, Plezicek and Allen appearing in an eight-round mix-up, while Lincoln and Gray will step it for six and Soyad and Silling will do four. Private Hutchison, Company H, First Infantry, will referee all bouts.

### GERMAN CITIES WILL IMPORT LIVE STOCK.

BERLIN, September 12.—The Magdeburg, Mayence and Dresden municipal authorities have decided to take steps for the importation of live stock for consumption and also to appeal to the Government for relief from the high price of meats. Dresden will permit the butchers to handle importations upon their agreement to sell at a 10 per cent advance on the coast, otherwise the city will retail direct.

He—Let's see; wasn't the Maine blown up in 1900? She—No, the Maine was blown up in 1898. He—Oh, yes; we were married in 1900. I'm always getting these disasters confused!

If Oklahoma punishes every qualified voter who fails to vote, it will be liberty with a pile-driver attachment.

### FILIPINO DELEGATE CLASHES WITH U. S. WAR DEPARTMENT

Manuel Quezon Says Will Work for Independence if He Wishes To

WASHINGTON D. C., Sept. 8.—One of the first fruits of the new propaganda for Philippine independence has been a clash between the War Department and Sen. Manuel L. Quezon, president of the Philippine Commission, who is in the Philippines. Quezon represents what he considers an effort of the bureau of insular affairs, chief of Brig. Gen. Frank McIntyre, chief of the bureau of insular affairs, to control his actions in working for the independence of the islands. He wrote to Gen. McIntyre declaring that, being a delegate in Congress elected by the Filipino people, he was not subject to

the Filipino people, he was not subject to the control of the Philippine commission, the War Department, even the President of the United States.

Will Fight All Who Oppose.

He added that he deemed it his duty to fight for Philippine independence and against everybody opposed to it.

Sen. Quezon was seen by a reporter last night at his home, a large house at 1342 Thirteenth street, which will be the headquarters of the independence propaganda. He was told a report that he had had a sharp correspondence with the War Department arising from a statement he had made regarding alleged political activity of the Rev. Felix Finnegan, S. J., of Manila, at the Democratic national convention in Baltimore. Sen. Quezon

said there had been a correspondence, and stated the details.

Explains Baltimore Action.

He attended the Baltimore convention for the purpose of inducing the Democratic leaders to prevent the seating of six delegates from the Philippines. This he desired in order that the Democratic party might appear to cloud its disposition for Philippine independence by seeming to regard the islands as politically a part of the United States. Sen. Quezon was successful. While in Baltimore he heard that Father Finnegan had endeavored to persuade a Filipino delegate not to advocate Philippine independence.

Sen. Quezon says that he thereupon saw a friend of Father Finnegan, another priest, and asked him to tell Father Finnegan that Sen. Quezon thought he should not mix in politics, and that if reports of his activity got back to the Philippines they would injure his work there, which is of an educational character.

Father Finnegan promptly wrote to Sen. Quezon, stating that he was in Baltimore on purely personal business, denying that he had sought to influence any delegate, and asking Sen. Quezon not to mention the report again, as it would embarrass him in the Philippines.

Said Priest Was Annoyed.

Very shortly thereafter, according to Sen. Quezon, he received a letter from Gen. McIntyre, stating that Father Finnegan had written "showing some annoyance" at Sen. Quezon's action. Gen. McIntyre stated that he knew Father Finnegan was not interfering in politics. He referred to the injury which might be done Father Finnegan's work in the islands, and in a manner which Sen. Quezon construed as an effort to control his actions, suggested that the report be not repeated.

Not having the correspondence at hand last night, Sen. Quezon was unable to state exactly Gen. McIntyre's language, but said that he felt it was an assumption of authority on the part of the War Department which he could not tolerate.

resents Gen. McIntyre's Letter.

For the purpose of demonstrating complete freedom from such control, he replied in emphatic language presenting Gen. McIntyre's letter, and stating his position in terms that could bear no misconstruction. Gen. McIntyre, who has made an aviable record, both in the military and in the bureau of insular affairs, is absent from the city. His life of the story could not, therefore, be obtained. His friends feel certain that he had no intention of dictating Sen. Quezon.

Sen. Quezon was asked if he had personal knowledge of political activity by Father Finnegan. He said he did not, and that he made no charge that effect, but that on the basis of the report, which he did hear, he had word to Father Finnegan at Baltimore.

Larger Feeling May Result.

The episode is regarded as significant of an era of sharper feeling in regard to Philippine affairs. Sen. Quezon will leave Washington today. Manila, but will be back early in November. He said last night: "I have a written promise from representative Henry, chairman of the House rules committee, that a resolution for the early consideration of the Jones bill will be introduced in after Congress meets. I expect engage in debate. I have no doubt that the bill will pass the House, but I doubt if it passes the Senate."

ected as Nationalist.

Sen. Quezon was elected as a Filipino nationalist. During the insur-

### TAX ASSESSOR WINS CASES ON HAWAII

HILO, Sept. 24.—It is not probable that the history of taxation in the Hawaiian Islands records a more complete victory than that which Tax Assessor Forrest won last week, when the West Hawaii Tax Appeal Board decided in favor of the Territory in the three appeals taken by the Hawaii Mill & Plantation Company, the Hind Plantation Company and the Hind Estate. The board, which consists of C. F. Tolloch, P. P. Woods and W. H. G. Arnemann, decided in the government's favor in each of the three cases, sustaining the assessments in the two latter cases, and cutting it down but comparatively little in the first case. By this decision the government will gain an increase of the taxes on nearly half a million dollars worth of property, provided the Supreme Court sustains the appeal court Mr. Hind having noted an appeal.

Each one of the cases was decidedly friendly in character. A marked contrast, for instance, to the case of the Paauhau plantation. The officers of the government speak in high terms of Mr. Hind, and the entire matter is based simply on a difference of opinion.

### A SHIFTING CONSCIENCE.

"Oh, yes, he's a very fair alderman."  
"Why, I'm told he can be bribed."  
"Of course, but he has some conscience about it."  
"How is that?"  
"Why, you can buy him to support a measure, but he won't stay bought."  
—Cleveland Plaindealer.

rection he served on the staff of Gen. Guinaldo. He is young, speaks and writes English fluently, and while radical in policy, is not considered a firebrand.

The recent announcement of the establishment of "The Filipino People," a newspaper, to be maintained by Sen. Quezon in the interest of Philippine affairs, said "the undertaking has been carried on without consultation with the bureau of insular affairs, and is a bold step in defiance of the Philippine commission."

## Change of Diet Works Wonders

It is worse than useless to try to permanently cure digestive troubles with drugs.

The most effective way is to change diet and take on Grape-Nuts, the food that, in thousands of cases, has given relief and quickly restored the normal tone of the digestive organs.

The food charms the palate—is not an insipid invalid food, but an every-day-all-year-round fare; crisp, dainty, and very nutritious.

The secret is that the starch in the wheat and barley of which Grape-Nuts is made is skillfully changed into grape sugar, and the food is wholly digested in the human system within an hour.

EUROPEAN PLAN FROM \$2.00 UP UNDER THE MANAGEMENT OF JAMES WOODS

# FISHER HEARING

(Continued from Page 1)

Louison was asked by the Secretary if he had any grievances or facts bearing on the situation that he would like to give. Taking his place at the witness stand the Coffee King launched forth in an eloquent oration to the effect that all the islands need is a tariff on coffee, and the farmers ought to raise coffee, whereupon all would become weedy.

The Secretary informed him that he (the Secretary) had no power to regulate the tariff, and that he would not even venture to predict what Congress might do on that particular schedule. Undaunted, Louison boldly began "prognosticating" just what Congress would do.

**Fisher on Tariff.**  
"I'll have to say right here frankly, Mr. Louison, that I am in favor of the revision of the tariff downward. I am here to help solve your present difficulties—not those that may face you in case Congress changes some of the tariff laws."

For the third and last time Louison started on his coffee tariff oration, but he did not complete the first sentence. Mr. Fisher asked him if he had any facts regarding the sugar cane situation in the district, or if he knew of any unfair dealings between the mills and the small planters. Abe didn't, so he was excused, very graciously, very politely and very firmly. The neighbors had applauded when Abe took the stand, and they said it was too bad, when he was excused, because he had a dandy oration fixed up—they knew, because they had heard it for years, and some had heard him rehearsing it and adding some extra fine touches as he walked up and down the road before the courthouse that afternoon, awaiting the Secretary's coming.

Manager Morrison of Honokaa plantation stated that his concern handled about 7000 acres of cane land, 3000 acres of which are government land. The mill also takes the cane from about 500 or 600 acres handled by sixty homesteaders, and he said that its profit on the homesteaders' cane last year was \$1261.49, or just about 10 per cent. of the value of the sugar produced from their crops. The plantation also rents some land from homesteaders, for which it pays an annual rental of \$3 to \$4 an acre.

**Urges 40-Acre Tracts.**  
"He said he thought an American farmer would need at least 40 acres of irrigated land there to make a satisfactory living. If he were permitted to use water from the Hamakua ditch. Most of the government land is high, however, and will not grow good cane. Morrison characterized the cane raised on these lands as "very excellent grass."

J. A. Nobrega and Joe Vieira, Portuguese homesteaders, who were dissatisfied with their treatment at the

hands of the Honokaa mill, testified that there were peculiar variations in the returns the various small growers got for their crops. The Secretary finally suggested that the mill check the misunderstanding by permitting the mill chemist to give the growers the results of his tests, and that they be allowed to see their cane weighed as it reached the mill or the cars.

The following morning Mr. Fisher and his party visited the highland farm of one of the homesteaders, where they found that the cane growing was just about what Morrison had said it was—very excellent grass—and no more.

**See Waipio Valley.**  
On the same morning the party journeyed from Honokaa down to the mouth of Waipio Valley, dismounting from their motor cars and walking down to a point of vantage, where they gazed on the beautiful scene depicted nearly 3000 feet below, the green farm lands stretching out to within a few hundred feet of the blue ocean. Then back to Honokaa and over the dusty stretch of road to Waimea, where the Secretary and Mrs. Fisher, Governor Frear, Mr. and Mrs. Mott-Smith, Private Secretary Meyer and Attorneys Olson and Hemeway were given quarters at the A. W. Carter home; the Delegate, Attorney Ashford and the newspaper representatives stopping at the Waimea Hotel.

After lunch the members of the party visited various parts of the Parker Ranch, inspected the blooded livestock and witnessed some "broncho busting" by the cowboys of some nags that are to be sold to the army. Secretary Fisher, instead of joining this expedition, went down alone to the swimming pool constructed last year for the now Mrs. Thelma Parker Smart, and took a plunge. In the evening, in honor of the distinguished visitors, the young people held a dance at the courthouse, where Mr. Fisher's secretary, a young man from Ohio and Washington, D. C., got his first glimpse of the hula-hula dance.

**Talks at Kohala Club.**  
At the Kohala Club this afternoon Mr. Fisher talked with Manager John Hind of the Hawi Mill and Plantation Company; William Wilson, a luna on the Hawi plantation; James Sousa, storekeeper for the Kohala Sugar Co., and W. P. Bluett, superintendent of the Kohala Ditch Co.

One of the features of this hearing was Manager Hind's statement that, while no cane can be raised in the district without irrigation, the Kohala ditch can not supply, at present, sufficient water to permit his plantation to produce to full capacity.

The Hawi plantation, a family affair capitalized at \$300,000, but returning an annual dividend of about \$130,000 to \$140,000, could use about 15,000,000 gallons of water daily, Hind said. It is getting at present about 9,000,000 daily and gets an average of only 7,000,000 gallons per day. If he got the full amount of 15,000,000 gallons, he said, he would have none to spare for homesteaders.

Asked by Attorney Ashford about the Hukilaa Opaupau lands, government tracts for which thirty-four homestead applications have been made, Hind said these were absolutely unfitted for homesteading because they could not be handled without irrigation. They would be all right if the homesteader could get water, however.

The Kohala ditch is virtually owned by five big plantations, of which the Hawi is one. Hind said his mill takes the cane of about half a dozen small growers, who have 50 to 150 acres each, and that he pays \$4 a ton for it when sugar is 4 cents a pound in New York. He said he thought an American homesteader in the Kohala district would require about 20 acres of cane land to make a living, in case he could get irrigation and the year was good. If the farmer had to depend on average year, though, he should let the proposition alone.

**George Watt's Ideas.**  
George Watt said that the Kohala Sugar Company has about 3000 acres of cane land, some waste land and the Awini forest land, containing about 1000 acres. He thought an American homesteader would need 50 to 150 acres to make a decent living. His place pays a dividend of about 6 per cent. on the capitalization, in addition to \$50,000 to \$60,000 in annual repairs and improvements.

He handles cane lands on contract, furnishing seed, land, paying taxes, and the grower to plant, cultivate and harvest, delivering to the flumes. For that he pays the growers \$4.35 per ton. All his contracts are verbal, he asserted.

Sousa and Wilson are among the homestead applicants for the Hukilaa Opaupau lands. Both admitted they expect to make their living principally by working at their present jobs on the plantations for the next few years.

## CRICKETERS IN FINAL CONTEST

The final game of the cricket season is scheduled for tomorrow afternoon at the Makiki oval, between the Benedicts and Batchelors. On paper the married men look stronger, but there is no telling whether they will prove so on the field.

Play starts at 2 sharp, with the following line-ups:  
Benedicts:—H. G. Winkley, H. Blackman, Dr. Benz, L. G. Blackman, R. R. Catton, A. Dease, A. R. Hatzeld, J. R. M. McLean, J. C. McGill, D. L. Withington, J. M. Tucker, A. N. Other.

Batchelors:—G. Marshall, J. Johnson, H. D. Young, J. Gardner, A. Bird, D. Thompson, L. Forrest, J. Kerr, T. A. Anderson, E. Anderson, C. F. Maxwell, S. J. C. Todd, J. A. Dunbar, R. C. Walker.

## \$130,000 OF HILO DIVORCE COURT EXTENSION SOLD

### Landslide of Olaa Stock at Low Price—Declines in McBryde

Today's stock and bond sheet is featured by sales of Hilo Extension sixes aggregating \$130,000, the largest block being \$50,000 and the smallest \$4,000 in six deals. Another notable phase is a small landslide of Olaa stock at the lately reduced figure of 6 flat, 470 shares being sold in six unequal blocks. McBryde registers the large total of 430 shares with fluctuating prices—100 in recess, unchanged at 6 and 30 dropped an eighth on the board, followed by another eighth decline to 5.75 for three blocks of 100 each.

Onomea was unchanged at 58.50 in recess for 19 shares, but fell a quarter on the board for 50 shares. Brewery shows a gain of three-eighths in sales of 45, 10 and 25 between boards. Hilo Railroad common declined an eighth to 8.75 in recess for 125 and 75 shares. Pineapple maintained 44 for 10 and 20 shares. Waiaila held its own at 120 for 10 and 5 shares reported. Hawaiian Commercial fell off a quarter to 43 for 10 shares on the board. Ewa is down a three-quarter point for trifles of 5 and 5 shares.

## ONCE MORE THE WINDJAMMER

With a bumper crop of barley estimated at 550,000 tons, California grain men stand to lose immense sums owing to the lack of tonnage for handling the crops. The utmost carrying capacity of all vessels in sight is between 50,000 and 60,000 tons. The ships of England and other nations, which formerly had ample space for the grain, have all their tonnage taken months ahead and most of them are engaged elsewhere at such high rates that they are not considering Pacific Coast shipments.

The situation in California is a sample of what pertains to the whole Coast, including British Columbia, and the scarcity of tonnage will be felt more acutely toward the end of the year, it is claimed.

Old sailing ships which had been towed to the Oakland estuary as obsolete in view of the growth of shipments by steamers a few years ago, are being overhauled and patched up to handle the grain in the absence of steamer tonnage. The estuary for the past six years has become a landmark because of the immense fleet of sailing ships which had been moored there to rot.

Among the boats are the Ferris S. X., died recently at the age of 101.

## DIVORCE COURT MAKES A NOISE LIKE RENO, NEV.

Honolulu will become a second Reno if the divorce grist keeps up to the mark shown in today's court files. Maria Vierra is seeking riddance of Peter Vierra for desertion.

Some Kuwahara is suing for divorce from Itzuki Kuwahara, who has gone home to Japan. She accuses him of drinking and gambling, and says that before he went away she had to support him from her earnings.

Jane Kalaniwela Kalama complains that, though her husband, Samuel Ksaumoana Kaiama, is making wages of \$1 a day as a carpenter, he fails to support her and she wishes to be quit of him.

Tomie Matsuda was wedded to Tomoshino Matsuda at the quarantine station, but he became jealous of her, she says, and under that influence treated her with shameful cruelty, hence she seeks deliverance from the matrimonial bonds.

Amee Kawai petitions for divorce from Joseph Kawai on account of his alleged drunkenness and cruelty.

Thompson, Halcyon, Lurline, Reuce, Charmer, California, Sonoma, Balboa and a host of others, consisting of schooners, barks, brigantines and full-rigged ships.

Most of the vessels have been stripped of their boats and gear, but many of them have been kept up in a half interested manner. It was believed that the days of the windjammer were past and the whole fleet could have been bought for a song.

Now even the worst of the old hulks is being hauled out and patched up to make a voyage or two, and some of them will be unable to pass the inspectors. The freight situation has brought the windjammers to the fore once more and they are as much in demand as they were before steamships became general.—Vancouver Sun.

## BEEF TRUST TO BEGIN OPERATIONS IN AUSTRALIA

SYDNEY, Australia, Sept. 12.—That the United States beef trust, concerning which so much discussion has been on throughout the commonwealth during the past month, is about to commence operations in Australia, was stated here today. The federal attorney general, Mr. Hughes, says that so far as he knows the commonwealth has no power to grapple effectively with such a trust.

George Clinton Paine of Elmira, N. Y., died recently at the age of 101.

# Goeas Grocery, Limited,

SACHS BUILDING, BERETANIA STREET

will open for the public on TUESDAY, a display of

# GROCERIES

Fancy and Staple. Goods will be received on every steamer, this guaranteeing

# Fresh Stock Only

# Goeas Grocery, Limited,

SACHS BUILDING JOHN GOEAS, Manager PHONE 4138

**WONDERED AT IT.**  
Jack—I hear that the wealthy Miss Muggs squeezed hard in the stock market yesterday.

Ethe—You don't say? And she's such a money thing, too.

**WHAT IT LOSES.**  
Bill—Pa, what is an "abridged dictionary?"  
Pa—One that always has the word you want to look up omitted.—Judge.

**SPORT MARRIAGE SERVICE.**  
The Bedouin marriage does not take much time. The bridegroom cuts the throat of a sheep and spills the blood on the sand of his father-in-law's threshold and the wedding is over.

Occasionally a man's excuse for spending his evenings downtown is that he's married to the wrong woman.

The Toyo Kisen Kaisha liner Shinyo Maru, due to depart from Honolulu for San Francisco on October 1, will carry the next mail to the mainland.

Herman J. Zeuck, nominated at Des Moines, Iowa, as progressive candidate from Congress from the Second Iowa district declined the nomination. The will of the late Bishop Charles Chapman Grafton of the Protestant Episcopal church lists the personal property at \$1000. No real estate is listed.

During courtship it is possible for a man to write more in a love letter in five minutes than he can explain in five years after marriage.

# Grand Clearance Sale
