## Taft's Veto Helps Hawaii's Labor

### LITERACY TEST IS ISSUE

President Disapproves Immigration Bill That Would Shut Many Europeans Out of Territory

(Special Star-Bulletin Cable)

WASHINGTON, Feb. 14.—Senator Lodge has notified the administration that an attempt will be made to pass the Burnett-Dillingham immigration bill over the veto of President Taft. There is little prospect of the effort succeeding, however.

WASHINGTON, D. C., Feb. 14.—President Taft today vetoed the Dillingham-Burnett immigration bill. The grounds for the president's disapproval are based on his opposition to the "literacy test" incorporated in the bill which would shut out aliens unable to read the English or some other language. The president's veto was written after he had held a hearing on the bill. There is considerable doubt as to whether it will be passed over the veto.

C. S. ALBERT.

President Taft's action is gratifying to people here who have been endeavoring to bring Europeans to Hawaii as many of the Portuguese and Spaniards, it was claimed, would not be able to pass the literacy test. The Star-Bulletin's Washington correspondent some days ago forecast the presidential veto.

### BRIBERY CHARGE HITS COURT LIKE BOLT FROM BLUE

Charges of attempted witness bribery dropped like a bolt from the blue into the manslaughter trial in progress in Circuit Judge Robinson's court this morning. Introduced as testimony for the defense, Han Young Sik, the prisoner was quickly acquitted by the jury and the foreman of the jury recommended that the court place the bribery charge before the territorial grand jury for investigation.

Han Young Sik, a Korean, was accused of assaulting a countryman near the pineapple cannery at Iwilei on the night of September 19, 1912, and in inflicting injuries from which his friend Son Soon Yill, died the following day. The trial began in Robinson's court yesterday morning.

Kim Young Kin, introduced this morning as a witness for the defense testified that on three different occasions since the day of the assault and alleged manslaughter, he had been approached by Son Soon Yill's widow and given money. He said that she gave him the money and urged him to help her send Han Young Sik to prison by testifying that he had been present at the time of the assault and had seen the defendant kick Son Soon Yill in the stomach. Kim Young Kin said he was not present when the alleged fight occurred and knew nothing of the affair save what he had been told by others. He produced in court the money he said the Korean widow had given him and it was offered in evidence by Attorney Andrews, who conducted the defense. The coin amounted to a total of about \$25.

Shortly after Kim Young Kin had finished his story of the alleged bribery the trial was completed. The jury retired and came out with its verdict of acquittal in less than ten minutes.

J. M. McChesney, the foreman, then announced that the jury had agreed to ask the court to place the facts concerning the sensational charge before the territorial grand jury for thorough investigation.

The widow who is accused broke

### The Man Of The Hour And Scenes In Revolution Tortured Mexico

President Madero, whose power is threatened

U. S. S. Georgia rushing toward Vera Cruz to protect American interests

Mexican city during the rebellion which elevated Madero to power, and, below, American soldiers ready for the front in Texas, taken at the time intervention seemed near two years ago.

### Taft Still Marking Time

President Declines to Intervene Until Mexicans Attack Americans—Embassy Guard at City of Mexico Preparing to Mine Streets as a Means of Protection—Desperate Fighting Continues, and Streets Are Filled with Decaying Bodies and Weapons of Rotting Garbage—Wilson Refuses Grant Demand for Recognition Made by Diaz

(Associated Press Cable)  
WASHINGTON, D. C., Feb. 14.—President Taft persists in his determination to make no move to intervene in Mexico. In a statement made today he declared that he will remain quiet until the rebels attack Americans. Should this take place, says the president, he will then urge congress to take active measures, but not until. The killing of American non-combatants in the City of Mexico day before yesterday and again yesterday, failed to move Mr. Taft from the stand he has taken.

### FIGHTING RESUMED IN MADERO'S CAPITAL

(Associated Press Cable)  
MEXICO CITY, Feb. 14.—The day of desperate fighting, which working bombardment was ordered in this morning with a fierce attack upon the arsenal by a detachment of federal troops under the command of General de la Vega. At no time did the attacking forces reach close enough to their foes to come into actual hand-to-hand fighting, but the loss of life on both sides is reported as dreadful.

The continued heavy firing and the resultant wreckage of the best parts of the city has been steadily building up in the minds of the better classes here a demand for intervention on the part of the United States. There has even been some talk of a petition to that effect, signed by some of the most prominent business men of the community.

The same spirit was manifest today when a number of the churches held special services to pray for peace. The services were crowded with people of all classes and walks in life, but so far the prayers remain unanswered.

The commercial and financial condition of the people continues deplorable. All banks have suspended their functions until some degree of peace is restored, and Ambassador Wilson has been unable to draw any of the funds placed at his disposal for the succor of the refugees by Secretary Knox. The postoffice is closed and the government functions completely discontinued. The streets are filled with the scrapings of the jails, looted by Diaz, and petty crime of all sorts is rife everywhere. It is unsafe even for small bodies of armed men to go abroad at night, and several bands of bandits have been organized to prey upon the tortured city.

The city is filled also with the most overpowering stench. For days the garbage has been left lying in the streets, which are now filled with festering heaps of decayed and decaying garbage. In the vicinity of the fighting, in the middle of the city little piles of dead lie untouched and although the weather has been cool the odor from these is sickening.

One passing through the streets after dark stumbles against all manner of such obstructions, nor is there any light by which he may guide his feet. The electric power houses have been closed down and the wires of the system cut, so that the whole city

### BATHTUB TRUST HELD GUILTY OF CONSPIRACY

(Associated Press Cable)  
DETROIT, Mich., Feb. 14.—The Federal district court here today decided that the officials of the bathtub trust have been guilty of a conspiracy in constraint of trade. The crime of which the eleven officials of the corporation have been found guilty is punishable by a fine of \$5000 and one year imprisonment.

### SUGAR

SAN FRANCISCO, Feb. 14.—Beets: 8 analysis, 98, 6 3/4 d. Parity, 4 cents. Previous quotation, 9s, 6d.

### PAGEANT AT WAIKIKI TO BE GORGEOUS

Great Fleet of War-Canoes Will Circle Off Shore and Reproduce Historic Landing

A fleet of great canoes, among them the immense boats in which scores of years ago the kings and chiefs of Hawaii went to war, will land at Waikiki beach shortly after ten o'clock next Friday morning in one of the most picturesque pageants that the spirit of carnival has ever conceived. It will be the carnival week feature of the landing of Kamehameha I on the shores of Oahu, and in point of brilliant coloring and historic interest one of the most notable events of all the eight carnivals Honolulu has produced.

John H. Wise, chairman of the committee, has done some very hard work since, a few days ago, he was secured for the position when the original chairman, W. T. Rawlins, was taken ill. This morning Director-General Chillingworth and Chairman Wise made public some of the plans for the historic pageant.

At ten o'clock the big fleet of canoes will leave the public baths at Waikiki beach and paddle seaward through the Sans Souci channel that leads out through the coral reefs. Describing a majestic semicircle, the fleet will proceed slowly along far out over the blue waters and the foaming surf and then turn and come in to the shore.

Kamehameha I, resident in all the glory of Lohia and feather cloak, will be only one of the figures of historic interest. Chiefs gorgeously dressed in cloaks of red and scarlet will be in great number. Also there will be carried in one of the biggest canoes the "father god," the god of Kamehameha, Kukulimoku, and a high priest.

The canoes will come to shore just west of the long Moana hotel pier, which will be a convenient spot from which to view the pageant.

Chairman Wise this morning stated that seventy Kamehameha boys, a large delegation from the Kamehameha Aquatic club and several other organizations will take part. One of the canoes is to be Prince Kuhio's.

### He's Working Hard On Banana Claims

Jack Kalakiela Not Pure Philanthropist, However—Solon Declines to Make Public His Scale of Fees

Jack Kalakiela, Democratic representative elect from the fifth district is working hard on the collection of banana claims, but not altogether for his health, or even for his political honor as one of the pledgers of compensation to the sufferers from the crusade against the banana tree, commenced as another sort of deadly yucca free on the charge that it harbored the yellow fever mosquito—the pledge being given in consideration of election of the pledgers to whatever offices they respectively desired by the sufferings of the people.

As a matter of fact, Mr. Kalakiela is doing a thriving business as attorney, or proctor, or trustee, or something for banana claimants. One woman client for damages, happened to be getting the somewhat elaborate papers put through the notarial process required when a Star-Bulletin reporter called this morning to ask Mr. Kalakiela regarding the truth of a rumor that the fees charged claimants by him were fantastically made up on the principle of "all the revenue the freight will bear."

Mr. Kalakiela laughed at the part of the rumor which represented him as charging claimants according to the number of persons in their families. In answer to a direct question on that point he denied the imputation, yet repeated inquiries as to his scale of charges failed to evoke an answer. "You can make out your own claim," he said in reply to the first question, which was whether he was charging claimants for filing their claims with him, "and then all it will cost you is twenty-five cents for the oath. I am just charging for my services in making out the papers for those who want me to do so, and the regular fee for swearing. There is a

(Continued on Page 7)

### STEAMERS CLASH GOLD GOES TO BOTTOM

(Associated Press Cable)  
SAN FRANCISCO, Feb. 14.—Two river steamers Seminole and Corcoran today collided in a bay fog, and sank, carrying with them \$60,000 in gold bullion. The crews and more than forty passengers were saved with difficulty. Both hulks will be recovered.

### GAMBLER SHOTS AT WIFE; KILLS CHILD

(Associated Press Cable)  
NEW YORK, Feb. 14.—Crazed by the constant taunts of his wife, Purcell, former partner of the gambler, Herman Rosenthal, today shot at the woman, and missing her killed his own daughter. He has been accused following his confession to the district attorney. He gave himself up to the authorities. Purcell figured conspicuously in the recent police grafting trials.

### AMBASSADOR DIES.

(Associated Press Cable)  
NEW YORK, Feb. 14.—Stewart Woodford, formerly ambassador to Spain, and the man who handed President McKinley's ultimatum to the Spanish government, died at his home here today. He has been ill but a short time.

# HONOLULU AND HILO FIGURE IN WORLD-CRUISE OF CLEVELAND

From daylight on February 24th, when the big Hamburg-American liner Cleveland is due to arrive at Hilo, until the evening of February 26th, when the excursion steamer takes her departure from Honolulu for Japan, the round-the-world party for the year 1914 will be given additional time in Hawaiian waters.

Honolulu and Hilo share the honors in the new Hamburg-American world-tour as outlined in a schedule that has just been submitted to Shipping Manager Frederick Klebahn, with the departure of the Cleveland for the Orient last night. With the addition of Hilo to the itinerary of the next year excursion comes the announcement that the Cleveland will pass through the Panama canal, about ten days being consumed in steaming from Colon to San Francisco.

land is to depart from that port on the 18th, reaching Hilo on February 24th at daylight, and departing from there for Honolulu in the evening of the same day. The Cleveland party will remain at Honolulu from daylight of February 25th until five o'clock in the evening of February 26th.

Yokohama is visited on March 10th and the vessel sailing from Nagasaki, the last port of call in Japan on March 22d. The Cleveland then proceeds to Tsingtau, arriving at the German stronghold of North China on March 24th, remaining there one full day.

From Tsingtau the Cleveland steams to Hongkong, the party spending four days at the South China port. Manila is expected will entertain the Cleveland visitors from April 2nd until the evening of April 3rd, the German steamer sailing from the Pearl City of the Orient to Batavia and thence to Singapore. The Cleveland party is scheduled to bid farewell to the Straits Settlements metropolis on the evening of April 12th the next port of call for the vessel being Rangoon. Burma is steaming from Singapore. Calcutta has been eliminated from the cruise because of the uncertainty of entering the Hooghly river and the unsatisfactory anchorage offered at Diamond Harbor. The Cleveland excursionists will visit Calcutta by rail the tourists to proceed overland over the Indian state railway lines from Bombay.

Leaving Bombay on May 6th, Suez Canal is passed, the liner arriving at Port Said May 18.

Then follow calls at Naples, Gibraltar and terminating the tour at Southampton May 30th or Hamburg, May 31.

One feature of the 1914 tour will be a slight increase in the rate offered the traveler, following the marked additional mileage. The minimum tariff will be increased from \$650 to a figure approximating \$825, with an increased rate of fare depending upon the location of the staterooms.

The 1914 tour will include several points heretofore not covered by the Hamburg-American liner.

The Cleveland has been decided upon by the management as the regular excursion steamer for the world cruise. This vessel is now listed to sail from Hamburg on January 8, 1914, reaching New York on January 18th and sailing from that point with perhaps five hundred excursionists on January 27th. The Cleveland then calls at Havana, Kingston and Colon, entering the new Panama Canal on February 6th. Arriving at San Francisco on February 16th the Cleve-

# HILONIAN TO LURLINE LOST THE RESCUE ONE MESS-BOY

Honolulu business interests as well as trans-Pacific travelers will gain an extra steamer from this city to the coast the latter part of the present month, with the dispatch of the Matson Navigation liner Hilonian for San Francisco on or about February 27th.

The Hilonian when in the passenger trade some months ago, has accumulated as many as forty-five travelers. The vessel has of late been operated as a freight carrier between the Sound and the islands, and for that reason was withdrawn from the passenger field.

With a view to relieving any possible congestion of passengers desiring to return to the mainland, the Hilonian will be held here, awaiting the termination of the Floral Parade festivities. Local passenger agents, representing the several ocean-going lines touching at Honolulu, do not anticipate any difficulty in furnishing accommodation to all applicants for transportation to the mainland during the next few weeks.

Bookings at the several shipping offices indicate but a fair amount of passenger traffic.

Steamer Maui Returned With Much Sugar

Sugar made up the bulk of the cargo brought from Hawaii ports in the inter-island steamer Maui. This vessel made a quick round trip to the Big Island, with a view of assisting in cleaning up some of the accumulation of sugar at Hawaii warehouses.

The vessel is reported to have met with fine weather and with favorable winds and smooth seas.

Mauna Loa Filled With Freight

The inter-island steamer Mauna Loa departed for Kona and Kau ports at noon today leaving many tons freight behind. The vessel was filled to the hatches with cargo, and the management was obliged to turn away more than one shipment for windward Hawaii ports. The vessel sailed with a full stow list of passengers in the cabin and on deck. The Mauna Loa is to return here on February 21st, and the Kilauea is believed will then resume the run to Kona ports.

Lurline Back Sunday

The Matson Navigation steamer Lurline with seven hundred tons freight from the mainland for discharge at Kahului, called for the Maui port last night and is due to return here early Sunday morning. The Lurline is to take on sugar, pine and sundries for the coast, the steamer being scheduled for departure at six o'clock next Tuesday evening.

Dispatches from Washington report that during the year 1912 there were 127 vessels of all classes constructed with a total tonnage of 232,477. The tonnage was smaller than during the previous year, when 1592 vessels were built which indicates that the boats constructed last year were of smaller tonnage than the average.

The barkentine S. N. Castle is taking on ballast today preparatory to departure for San Francisco.

The Matson Navigation steamer Lurline, returned from San Francisco on Wednesday morning minus one well known mess-boy with the steward's department.

Reverend Farwell, who has made several trips across the Pacific in the Lurline, is said to have been placed under arrest upon the arrival of the Lurline at San Francisco.

As before noted in these columns, Farwell was charged with having entered into a conspiracy to land two Japanese at the coast for a financial consideration.

When the Lurline reached her wharf at San Francisco the federal immigration inspectors had the two Japanese found on board the Lurline turned over to their custody.

At an investigation conducted at Angel Island, the Japanese are said to have declared that they were smuggled on board the Matson steamer at Honolulu and that by payment of \$180 they were guaranteed a safe landing at San Francisco.

Four Big Liners will be Chinese Manned

The Kongo, a battleship-cruiser, built in England for the Japanese government is to be ready for sea in April according to word which reached this port with the arrival of the Toyo Kisen Kaisha liner Tenyo Maru, some days ago. The Kongo was expected to leave Great Britain for Japan in June, taking a route around the Cape of Good Hope. Information was also brought to the effect that the China Merchants' company has placed an order in England for four big liners, which will be so constructed that they will be available for the training of cadets for an extended Chinese navy, and in time of war the vessels will be returned into cruisers.

Nine Here in the Morning

With ten lay-over passengers, and 232 sacks later mainland mail, the Pacific Mail liner Nippon from San Francisco is due to arrive off the port at an early hour tomorrow morning, and later will be berthed at Alakea wharf.

It is the present intention of H. Hackfeld & Company to dispatch the vessel for Japan and China ports at five o'clock tomorrow evening.

Master of Amazon Died at Sea

Ninety-three days from Port Gamble the barkentine Amazon put into Hilo, Chile, on Tuesday, reporting that her master, Captain MacLeod, had died during the voyage down the coast and had been buried at sea. The Amazon sailed from Port Gamble on October 24, and passed Cape Platero on October 24. The news of Captain MacLeod's death was received in Seattle by cable to the Seattle Merchants' Exchange.

Some quick work has been done in the discharge of a shipment of eight hundred tons nitrates from the barkentine S. N. Castle and that vessel is now ready for sea. The Castle arrived here on February 7th with a cargo consigned to the agency of the Pacific Guano and Fertilizer Company.

## FROM THE ISLANDS VESSELS TO AND

FRIDAY, FEBRUARY 14.  
SAN FRANCISCO--Arrived, Feb. 14. S. S. S. Sierra, hence Feb. 13. MAHUKONA--Arrived, Feb. 13. Sch. Muriel, from San Francisco. S. S. BUREO MARU--Sails for Yokohama, Sunday afternoon.

Buyo Maru Delayed Arrival

Forty-five days from Valparaiso, the Toyo Kisen Kaisha steamer Buyo Maru, with nine hundred nitrates for discharge at Honolulu is riding at anchor off the port today, awaiting the granting of pratique by the federal quarantine authorities.

The vessel is to be fumigated and will probably be brought to a berth at Hackfeld wharf late this afternoon or early tomorrow morning.

The Buyo Maru has in transit for Japan and China ports a number of first, second and third class passengers, for the most part Asiatics.

The vessel is well supplied with general cargo destined for the coast of Asia.

It is the intention of Castle & Cooke to dispatch the vessel for Japan on Sunday.

Sierra Has Reached the Coast

The Oceanic liner Sierra from Honolulu with a large list of passengers and mail has arrived at San Francisco according to a late cable received at the local branch of the Merchants' Exchange. The Sierra was reported at San Francisco at 6 o'clock this morning.

## PASSENGERS DEPARTED

Per str. W. G. Hall, for Kauai ports, Feb. 13--Mr. and Mrs. W. J. Hammond, Mr. and Mrs. G. A. Glines, Mr. and Mrs. Frank Richardson, Dr. D. E. Drew, W. T. Frost, W. K. Park, Miss R. Antone, Miss Robinson, G. N. Wilcox, Mrs. Geo. Buchholz, F. Crawford, J. R. Galt, Jno. Waterhouse, F. B. Enck.

## PASSENGERS BOOKED

Per str. Kilauea, for Kona and Kau ports, Feb. 14--Miss Hurd, J. J. Herd, Master Oliver Ait, Miss Mary...  
Per str. Mauna Loa, for Kona and Kau ports, Feb. 14--K. Shibayashi, M. E. Lutz, Mr. and Mrs. T. C. White.  
Per str. Claudine, for Kahului and Lahaina ports, Feb. 14--Miss Wilcox, Miss R. Sloggett, H. M. Gittel, M. Jacob, J. P. Napke.  
Per str. Mauna Kea, for Hilo via way ports, Feb. 15--Mr. and Mrs. S. Payne, J. P. M. Richards, Mrs. E. P. Smith, Mrs. Geo. W. Daw, Miss E. Daw, Mrs. J. B. Nuss, Miss Vina Nuss, H. Busher, Mrs. W. J. Moody, John Breaud, J. Fernandez, wife and two children; Mr. and Mrs. F. Fernandez, Mrs. A. V. Fernandez, Mrs. Patterson, Mrs. E. M. Foster, J. Meeneke, R. L. Halsey, C. B. Hall, Palmer Heat, Kan Yen, Col. Sam Johnson, A. Haneberg, D. H. Glade, Mrs. Biomeyer, Miss McMillan, Mr. and Mrs. M. E. Church, H. Glade, Mrs. Cowles, Miss Randolph, Mr. and Mrs. E. P. Marshall, T. M. Barrows, Miss Aitchinson, Miss M. E. Averille, Mr. and Mrs. E. Townsend, Mr. and Mrs. Kemp, W. L. W. Miller, J. P. Keppler, Mrs. L. T. Gately, Mrs. G. A. Meyer and two infants, Mr. and Mrs. A. Greery, Mr. and Mrs. F. G. Hummel, E. A. Sherlock.  
Per str. Kinau, for Kauai ports, Feb. 15--Bishop Albert, G. Bustard, M. Osa, K. S. Spitzer.  
Per str. Claudine, for Maui ports, Feb. 17--L. Tobriner, Mrs. Henshall.  
Per str. W. G. Hall, for Kauai ports, Feb. 20--Mrs. J. K. Gandall.

## TRAVELED MILES MINUS RUDDER

Steaming 150 miles without a rudder, the details of a mishap to the Alaska Steamship Company's big freighter Seward, which put into Mazatlan, Mexico, last January, have been received with the arrival of the transport Sherman.

Under charter to the Pacific Mail Steamship Company, the Seward was bound from San Francisco for Panama with a cargo of general merchandise. While 100 miles south of Cape St. Lucas, in a heavy gale, the vessel lost her rudder and was left at the mercy of enormous seas for many hours. Captain Johnston tried jury rudders and jury rigs of all kinds and finally was able to bring the vessel into Mazatlan, from which port he notified the charterers of the vessel and her owners of his plight.

## CUNARD FOR PACIFIC TRADE

Another Cunarder is to forsake the Atlantic for the Pacific, with the transfer of the steamship Albion, which is declared by officers in the transport Sherman to have been purchased by the directors of the Weir Line, for service between the West coast of the United States and the Orient.

The vessel has been renamed the Polerie and is to be hurried to the Pacific with a view of being placed in operation and to assist in carrying the rapidly increasing freight offerings.

The Polerie is said to be making her maiden voyage to the Pacific.

The Polerie was formerly one of the Cunard Line, being known as the Albion. She was purchased two years ago, by the Weir line, and renamed the Polerie to correspond with the rest of the fleet. She is of the shelter deck type, four-masted, equipped with electric lights, wireless and other modern appliances and is one of the finest boats of her class afloat.

Sailing from Honolulu on the last of January, the barkentine Aurora is reported to have arrived at San Francisco yesterday.

# APPLICATIONS IN FOR JOBS WITH THE LEGISLATURE

There will be no shortage of officers and servants when the legislature meets. If the number of applications filed with the territorial central committee of both parties is a sign. There are a number of applicants for every job the house and senate will have to offer, and the Democrats and Republicans will have their work cut out picking their men so as to avoid offense.

Among those who have signified their willingness to serve their native land in the house is Capt. Robert W. Parker, one time candidate for the office now held by Bill Jarrett. Parker now wishes to be sergeant-at-arms of the house. He has a Republican rival in the person of J. H. S. Katoe, who aspires higher than ever before. James H. Hakuloe is the only name so far turned into the committee for the post of Hawaiian interpreter among the Republicans, although rumor has it that there are a couple of Democrats who consider themselves competent to fill the bill.

There are messengers galore. Among them are to be found the names of E. H. S. Marima, John A. Noble, J. M. Keoloha, for the house and Arnold Richardson in the senate. George K. Kawai wants the post of janitor for the senate and John Kalakoua is after the post of sergeant-at-arms in the upper house.

None of these names, nor any that may be filed in future, will be acted upon until Tuesday, when the Republican solons will gather in a caucus to select their candidates for the various appointive positions to be filled in house and senate, and to select their candidates for the officials of the two houses. It is now regarded as practically certain that Senator Knudsen of Kauai will be the G. O. P. selection for president of the senate, and Heinein for the speakership of the house.

In this connection it leaked out this morning that there is now on foot a plan to bring out a man from Oahu as the president of the senate. While this scheme is still in the air, so to speak, it is likely to upset some of the best-laid plans of Hawaiian solons. Several men have been mentioned for the post, the chief of them being Cecil Brown, and it is said that should he come forward there will be a strong fight made to seat him.

Still another, and even more important, caucus is to be held Monday morning, when the report of the legislative committee which has been busy for months preparing a legislative program, based upon the planks in the Republican platform, will be submitted and discussed. Among these measures will be a public utilities bill, framed by the legislative committee along the lines proposed in the party platform. This bill, in some degree, is aimed to offset the Democratic measure of like nature which the Bourbons planned to spring as a surprise, but news of which leaked out. Other important measures will be considered in this caucus not the least of which will be the re-appointment bill, which is already causing heartburns here.

# TRAVELED MILES MINUS RUDDER

Steaming 150 miles without a rudder, the details of a mishap to the Alaska Steamship Company's big freighter Seward, which put into Mazatlan, Mexico, last January, have been received with the arrival of the transport Sherman.

Under charter to the Pacific Mail Steamship Company, the Seward was bound from San Francisco for Panama with a cargo of general merchandise. While 100 miles south of Cape St. Lucas, in a heavy gale, the vessel lost her rudder and was left at the mercy of enormous seas for many hours. Captain Johnston tried jury rudders and jury rigs of all kinds and finally was able to bring the vessel into Mazatlan, from which port he notified the charterers of the vessel and her owners of his plight.

The Seward's master, in the report just received, says that he was nine days and nights in making 150 miles, and reached port only after experiencing many difficulties. The rudder was entirely gone and he was unable to steer anything like a direct course. For many hours the Seward described a circle, but Captain Johnston finally managed to make some headway, and as he described it "zigzagged his way into Mazatlan."

Another difficulty that confronted Captain Johnston was the fact that there is no drydock at Mazatlan, and no facilities for making the extensive repairs needed to the Seward. The nearest drydock and repair shops are at Salina Cruz, more than 800 miles south of Mazatlan, and to this port the Seward must be sent in tow of a tug or some other vessel. The officials of the company said that this would be done, as there is no other way of getting the rudderless Seward to Salina Cruz.

A shipment of lumber has arrived at Mahukona in the American schooner Muriel, which according to reports received here, reached there yesterday. The Muriel comes from San Francisco and was eighteen days on the voyage.

Mail forwarded to the mainland in the Japanese liner Tenyo Maru is reported to have reached the coast yesterday.

# BOURBONS MAY JOIN PLAN TO BEAT KNUDSEN

Kauai's grip on important legislative positions will be broken if an Oahu Republican Senator comes to the front for the presidency, according to the political dopesters who are now busy at work.

It is declared that the Oahu Democratic senators, three in number, are ready to join a combine of forces to defeat Eric Knudsen, the veteran who aspires to head the upper house again. Knudsen is working hard to get the presidency again, and meanwhile no Oahu Republican is coming forward. Senator Chillingworth has decided to devote his time to the Floral Parade, and the only serious rival of Knudsen is thus eliminated.

Now the political gossip is busy with the names of Senators Albert Judd and Cecil Brown, both of whom, it was said today, would be given the support of the Oahu Democrats if they would consent to make the race against Knudsen. Senator Baldwin of Maui is believed to be ready to join in any movement that would wrest some of the laurels from Kauai. Where the Hawaii bunch would stand is not known definitely.

A story that the failure of the last legislature to reappoint the legislative districts might invalidate the acts of the coming legislature has been going the rounds again. This point was brought up two years ago when the legislature failed to pass the re-appointment bill. Kauai doing some clever blocking because if the bill had passed the Garden Islands would have lost a senator. At that time well-informed lawyers took the attitude that the legislature would not be invalidated.

# TAFT SAYS MARKING TIME

(Continued from Page 1)

is plunged in darkness as soon as the sun goes down.

Bad as the situation is, there seems no hope of betterment. Foreign experts who have examined the defenses of Diaz at the arsenal declare that he is simply able to withstand any ordinary assault indefinitely. He is well provisioned and his lines of communication are open.

## DIAZ DEFIANT

When the attacking columns of Federals began their attack on the arsenal this morning, the commander sent a flag of truce to Diaz, demanding his surrender. Diaz did not even wait for the envoys to get safe back to their ranks, when he replied with the heaviest guns at his command, pounding away at the Federals until half past two o'clock, when the Federals ceased firing and withdrew out of range of the rebel gunners.

It was during the hottest part of the morning's engagement that Gen. Dela Vega sent word to President Madero that because of the protection afforded the rebels by the position of the American embassy, it would be necessary to tear down the structure. Otherwise, he added, he could not advance. This was communicated to Ambassador Wilson with a request that he select another embassy site, but the American representative promptly refused to move.

Shortly after this General Diaz sent an envoy to the Embassy with a demand that the United States recognize the belligerency of his forces. Mr. Wilson promptly refused this demand also.

## PREPARE TO DEFEND AMERICAN EMBASSY

Following this, the word came that the Federal engineers were getting ready to mine the streets in the neighborhood of the embassy, in order to raze four populous blocks, and give the heavy mortars of the Federals a clear sweep, with a flat trajectory, at the arsenal. The Americans on guard at the American embassy have begun preparations to stop this, should it prove necessary.

A late report this afternoon declares that some incendiary has set fire to the magnificent private residence of President Madero, and it is blazing at the time this dispatch is sent.

[Associated Press Cable] ACAPULCO, Mexico, Feb. 14.--The most intense anti-American sentiment prevails here in all classes, and the lives and property of American residents are believed in danger. The Denver, which had left here, has been ordered back again, pending the arrival of the South Dakota, which is expected Sunday morning.

In less than five minutes' deliberation the jury in federal court yesterday acquitted Kwok Tong, the Chinese cook of the inter-island steamer Lakelike, of the charge of assault and battery. This was the case in which Judge R. P. Quarles created a legal diversion by raising the contention that the court had no jurisdiction because the Inter-Island company, owners, were operating under a charter granted by the Kingdom of Hawaii. On that point the court ruled against the counsel for defense and the trial continued, with the result as stated.

# SAVING CONTRACTOR TEHUANTEPEC

BROKE CITIZEN LABOR LAW

THOUGHT SAFE

"Have no news from Mexico, but the American-Hawaiian Steamship Company is taking for granted that all is well."

This is part of a cablegram to Alexander & Baldwin, Ltd., from its New York office received late yesterday afternoon.

The dispatch reports the arrival of the steamship American from the isthmus, her cargo getting the basis of \$ 48.

## HARBOR NOTES

The Pacific Mail liner Nile due to arrive from the coast tomorrow, is bringing down a later mail from the mainland.

With the completion of minor repairs and repainting, the schooner Salmon is to be dispatched for the Sound, taking ballast. The vessel is now on the local marine railway.

On their initial outward bound trips to Vancouver the two new G. P. R. Hoers, the Empress of Asia and the Empress of Russia, will make trips around the world and it is expected will carry a large passenger list. They are scheduled to leave Southampton on April 1 and May 27 respectively, and will call at Gibraltar, Monte Carlo, Port Said, Suez, Colombo, Penang and Singapore en route to Hongkong.

From that port the two liners intended for the Vancouver-Japan service, will touch at Shanghai and the usual Japan ports.

Captain Robinson will command the Asia and Captain Beetham the Russia.

Oscar Matheson, the Norwegian skating champion, won the 10,000 meters in record time at the international skating contests at Christiania. His time was 17 minutes, 22.6 seconds.

down when she heard the jury's announcement and wept hysterically. She was led from the courtroom by friends, and as she went down the stairs and her loud lament she continued her outburst.

## LOCAL AND GENERAL

R. R. Craik, an inspector of the public works department has gone to Kona, Kauai, to examine the wharf at that place, which has been reported in bad condition. He will return Sunday.

F. C. Morrow, an employee of the Lord-Young Engineering Company was served with a warrant by Deputy U. S. Marshall David K. Sherwood, summoning Morrow to appear in the federal district court at Seattle as a witness against Sill C. Hinesman. Morrow says he believes the suit arises out of a check which he, Morrow, lost last year while working in the quarter-master's department at Seattle. He says Hinesman is accused of finding the check, signing Morrow's name and cashing it. Hinesman also was in the government's employ at the time.

Belgium is to pay the three daughters of King Leopold \$7,520,000. They were cut off with a small pittance by his will, sued and lost their suit in the lower courts, but appealed the case and won.

## NEW TODAY

NOTICE.

The annual meeting of the stockholders of Pacific Sugar Mill will be held at the office of F. A. Schaefer & Company, Limited, in Honolulu, on Friday, the 21st day of February, 1913, at 10:00 o'clock a. m.

J. W. WALDRON, Secretary, Honolulu, February 14th, 1913. 5470-st.

## ELECTION OF OFFICERS.

At the annual meeting of the stockholders of Honokaa Sugar Company, held at the office of F. A. Schaefer & Company, Limited, in Honolulu, on Friday, the 14th of February, 1913, the following officers were duly elected to serve for the ensuing year:

F. A. Schaefer... President  
H. H. Baird... Vice-President  
R. P. Rither... Second Vice-President  
W. Lanz... Treasurer  
J. W. Waldron... Secretary  
James Greig... Assistant Secretary  
Audit Company of Hawaii... Auditors

The Directors elected to serve during the same period being F. A. Schaefer, W. H. Baird, W. Lanz, H. F. Pocke, G. Rodiek, E. H. Wodehouse, J. W. Waldron.

J. W. WALDRON, Secretary, Honokaa Sugar Company, 5470-3t.

# URGE NEED OF IMPROVEMENTS IN WHOLE OF PALAMA DISTRICT

At a mass-meeting held in the Palama Settlement gymnasium last evening, seventy-five residents of the district voted to submit to the legislature the plans of extensive sanitary engineering and the breaking up of the congested districts as presented by Dr. J. S. B. Pratt, president of the board of health, and Senator A. F. Judd.

If cholera or any other infectious disease were to break out among the people who live on the edges of the hundreds of acres of taro patches located in the Palama district, the entire city would be in danger, and to prevent this we have got to open up the congested districts and undertake extensive sanitary operations.

This statement was made by Doctor Pratt, who opened the meeting. He first took up the necessity of opening streets to cut through the great blocks of tenements which prevail throughout the district. In the center, bounded by King, Liliha, Beretania, Kukui, School and Vineyard streets, there are no cross-streets other than small lanes, some of which are not wide enough to permit the passage of an ordinary wagon. In the centers of these large blocks there are hundreds of acres under cultivation, and on the border of these taro lands people live in small houses, the outbuildings being located near the small awais. If typhoid or cholera were to break out in these places, the disease would rapidly spread through the water in the awais, and in this way the disease would be carried on down to the people living nearby, as they would be likely to come in contact with the water.

### Danger of Epidemic.

In this manner an epidemic of the disease could be easily started. Dr. Pratt went on to say, thus at all times making this congested district of Palama dangerous to the other parts of the city. Dr. Pratt then brought out the fact that this part of town was the center of the tuberculosis of the entire city, and what that part of the city needed is streets cut through the

crowded blocks for the sake of sanitation, sewers, water, gas and lights. At the present time, the entire neighborhood is ransacked with little alleys, ways and narrow lanes, that, it has been said, they will not even permit a coffin to be carried through.

Doctor Pratt went on to say that unless these streets were cut through the congested blocks, sooner or later a fire would break out in the market end of the district and sweep over the entire neighborhood from School street to Iwilei, just as the Chinatown fire did in 1909. As the condition now is, the fire department could not get the wagons and trucks into the interior of the blocks on account of the fact that there are no streets. Lines of hose would have to be run in, and this would only be a waste of time which would give the fire a chance to gain headway.

If these streets were cut through, and proper gutters installed, the great wash of water from the hills which sweeps over the Palama district every time it rains could be done away with. This condition has been one of long standing, and floods in Palama are not unusual. At the present time, the water which is piped into the center of these blocks has to pass through very small pipes and therefore there are many leaks, making a waste for the city and sometimes dirty water for the residents. According to Doctor Pratt, this condition could be obviated by the cutting of streets under which could be placed large water mains.

### Question of Sewerage.

The question of sewerage was taken up by Doctor Pratt, being one which is of vital importance from a sanitary standpoint. The blocks which are a mass of crowded tenements prevent the installation of sewers, as there is no opening into the blocks through which they may be laid, and as a result of this the people are using cesspools to a great extent. This condition, of course, does not prevail in the districts where new tenements

have recently been erected, for, under the new law, sewers are required to be installed. But in the case of the tenements of years standing, no sewer facilities prevail.

The next speaker was James A. Rath, head-worker of the Palama Settlement, who presented a chart which was made for the Public Welfare exhibit in 1911, upon which was stuck a number of pins showing the deaths in the district due to tuberculosis, in 1911. This chart showed that within a quarter of a mile radius from the corner of King and Liliha streets had occurred 64 per cent of the entire number of tuberculosis cases of Honolulu.

### New Laws Also Needed

Senator Judd spoke in length upon the economical and legislative side of the question. He said that the present system of laws was inadequate. In referring to the matter of cutting the streets through the congested districts of the community, he cited the instance of Frog Lane and the extension of School street, which repairs were made under the auspices of the Loan Fund Commission. He said that, after the county had made an appropriation of \$10,000 for improvements to Frog Lane, it was discovered that \$14,000 would be needed to carry the proposition through. Taking this as an example, he figured that the cost of the improvements needed at Palama at this time would come within the neighborhood of a quarter of a million dollars, and he also said that it was a very practical question as to where the money was going to come from. He said that the residents could not go to the legislature for it, because if this was done, Hawaii, Molokai and other counties would not stand for it, because they say that when they have any improvements to make that they raise the money for it in their own county. Here in Honolulu, however, things of this kind have to be settled between a city government and a territorial government.

### Urges Centralization

"If we want a new road we have to go to the supervisors, and they, in turn, send us to somebody else, and in this way it is very hard to get the necessary money," he said. "What we need is a centralization of the power invested in the city government—the power of taxation, of roads and sewers, of water works—all under the

city of Honolulu, so that when we go to the supervisors or the commissioners we are going to the direct representatives and feel assured that we can have our needs fulfilled."

Senator Judd then presented his plans for the raising of a quarter of a million dollars which he thinks will be necessary to carry out the improvements needed in the Palama district. The first plan was by placing the tax of a few mills on each square foot of land owner, and issuing bonds which would be covered by a lien on the property under taxation. He said that he believed the owners of the taro lands would be willing to have these streets cut in and then build houses on their lands for renting purposes. The second plan which he presented was that of having the city and county of Honolulu pay one-third of the cost of the improvements, the land owners on one side of the new streets to pay one-third, and the owners on the other side of the streets pay the remaining one-third.

Senator Judd also put the proposition up to the club that if the Palama district wanted any improvements it would have to hustle out after them. He said that twenty years ago the population of Honolulu was 18,000, and that today it is 60,000, and so, in twenty years more it ought to have increased to 200,000, and that the city would have to be built now while there is a chance to meet future conditions.

Remarks were also made by John C. Lane and Perley L. Home, the latter moving that the Palama Improvement Club instruct the executive committee of the club to meet and draft a petition asking for a meeting and a caucus with the senators and the representatives of the county of Oahu to discuss the ways and means to obtain the improvements required.

## SMART MAY RACE GEORGE BECKLEY

All of the details of the racing at Kapiolani Park on February 21 have not been lined out yet, but enough have been fixed up to guarantee a good day of sport.

It has been decided that the general admission to the park shall be 25 cents; grandstand 50 cents; reserved seats \$1; auto space \$2.50 and passenger in auto \$1.

Next Monday the sheet will be opened at Gunst's cigar store, where all reservations can be made.

The promoters of the races are guaranteeing twelve or more races for the day and there will be two auto races during the afternoon, one of ten miles and the other over a twenty-mile jaunt.

It is stated that H. G. Smart has brought down a high-power car and is going to enter the machine in one of the races. On top of this news comes the story that George Beckley cabled to the cons, for the "American" that has been winning all the races in that section of the world, and the machine is expected to arrive on the Wilhelms, and if it does there will be some fast racing on the boards for sure.

It is stated today that should there be a surplus of receipts from admissions to the park, stands, etc., the surplus will go to assist the Hawaii Yacht race in 1915.

Dr. J. S. B. Pratt, president of the board of health received an anonymous communication this morning that is puzzling him; he is wondering whether it is a threat or an invitation. The writer says that if the health inspectors do not immediately attend to the mosquito situation in the vicinity of King and Alapai streets he and Dr. Pratt will meet at F. O. B. next Wednesday night.

Typed on plain white paper, ostensibly by a white man and apparently studiously misspelled and ungrammatically worded, the epistle is published below verbatim:

"Honolulu, H. T. Feb. 13, 1911.  
"Judiciary Bldg, Honolulu.  
"Dear Sir: Allow me to call you attention in regard to some inspectors about sanitary and mosquitoes.

"Your inspectors are so down lazy in their jobs that the White people district are not very well protected.

"On the mauka side of King Alapai Streets nothing but our white residences on the makai side on King Street you see nothing but dirty Oriental houses.

"At the back of this stores you will find low swam land with billions after billions mosquitoes coming into this world every minutes while the board of health still sleeping.

"Some of the front stores are too old to be in that part of the town unfit for doing sanitary business.

"Of-course I am entirely a stranger to you but we are brother just the same and I want to see that the white race are well protected.

"I beg you to take action on this subject we will follow your path.  
"If you fail to do as I told we will meet at F. O. B. next Wednesday night.  
"Very truly yours,  
"F. O. B."

FRANK L. MARCY, the Pacific representative of Frederick Stearns & Co., the big Detroit drug supply house, is stopping at the Young Hotel. Mr. Stearns will remain here until February 22.

## PIONEER CROP IN 1913 26,000 TONS

Pioneer Mill Company, Ltd., held its annual meeting this morning at the offices of H. Hackfeld & Co., Ltd., Officers were re-elected as follows: J. F. Hackfeld, president; D. P. R. Isenberg, 1st vice-president; H. Focke, 2d vice-president; H. Schultze, treasurer; F. Klamp, secretary; A. Haneberg, 1st vice-president; H. Focke, of the auditor and the addition of J. A. McCandless and P. Muhlendorff, constituting the board of directors.

L. Weinzheimer, manager, says in his report that the weather during the year was very unfavorable on account of the small amount of rainfall, causing shortage of water from all the water sources. Mention is made of the absence of the usual winter rainfalls, and Mr. Weinzheimer goes on to say:

"During the year 1912 the water has been steadily decreasing and was lower than during any previous year. Besides we did not have any freshets to speak of, except twice during the month of February in all of our gulches, and one freshet in the month of October in the Kahoma gulch only, while in average years there are several freshets during each winter month and at least one freshet during each summer month. The water in the Honokahau ditch, which delivers the water purchased from the Baldwin Estate, has been the lowest on record ever since this water has been delivered, and, partly on account of the poor condition of the ditch itself, very little water has reached our cane fields." Figures are given showing that the average flow in this ditch in 1910 was 16 1/2 million gallons; in 1911, 15 million gallons; and in 1912, 12 million gallons, per 24 hours.

"During the whole year we had to irrigate two crops," the manager says, "and with the shortage of water, making irrigation irregular, the expenses of irrigating and weeding were much higher than in former years."

Mr. Weinzheimer makes the following crop statements:

"Crop 1912: We started grinding November 29, 1911, and finished August 20, 1912. The total output was 28,490 tons of sugar at an average polarization of 96.77 deg. This crop was harvested from 2,125.95 acres of plant cane, 2,904.40 acres of long ratoons and 139.10 acres of short ratoons, a total of 4,269.45 acres. The average yield was 6.59 tons of cane per acre, and as it took 6.98 tons of cane to one ton of sugar, the average yield was 9.67 tons of sugar per acre. The average yield per acre is 90-100 of a ton less than harvested from the same fields crop 1910. We lost, considerably by not being able to irrigate the ripe cane sufficiently during the dry months of May, June and July.

"Crop 1913: This crop consists of 1,445.85 acres of plant cane, 2,496.95 acres of long ratoons, about 250 acres ratoons in the flat and 35 acres ratoons from the Lahalauna school, a total of 4,227.80 acres. In this crop we have about 700 acres less plant cane and more long ratoons; I expect about 26,000 tons of sugar. We commenced grinding November 20th, and up to January 25th we have manufactured 5,723.75 tons of sugar. The juices are about the same as last year.

"Crop 1914: This crop consists of 1,310.95 acres of plant cane, 1,447.50 acres of long 1st ratoons, 759.70 long 2d ratoons, and 37.50 acres of short ratoons, a total of 3,556.30 acres. The area of the flat is not included, but will be about 200 acres ratoons. This crop is considerably behind, the planting and ratooning was delayed on account of the shortage of water. The fields at this time are clean and free from weeds. The cane is looking well, but is about two months behind in growth; therefore it is difficult to make an estimate at the present time. About 500 acres of new land are in the plant area."

Work at the factory was fairly good. It ground 198,533 tons of cane in 201 days, or 986.28 tons of cane per day. During the year the mill was converted from a nine roller to a twelve roller as one, and the new mill is doing excellent work, the extraction being about 1.2 per cent higher than with the nine roller mill.

The pumps have been working steadily all the year, with no opportunity to shut down for repairs. New pumping machinery has been ordered in this connection the manager says.

"As the water agreement with the late Hon. H. P. Baldwin is expiring in 1915, a new agreement has been entered into with the H. P. Baldwin Estate for a term of fifteen years, beginning with the date of the opening of a new ditch with a capacity of 50,000,000 gallons, which is now under construction, and will be finished about the spring of 1914. The entire length of this ditch will be lined with cement. I expect a great deal of benefit from this new ditch and will be able to take more land under cultivation." He states that a new reservoir on the Honokawai section with a capacity of six million gallons will be finished about March, 1913. Enlargement of one old reservoir at Gaunala adds six million gallons. The Waihuku reservoir is being enlarged, to make it hold a national quantity of twenty million gallons.

Treasurer Schultze in his report calls of the transaction relative to the bonded indebtedness, through the retiring of the 6 per cent bonds and the issuance of \$500,000 of 5 per cent bonds, the interest charge being reduced from \$75,000 to \$25,000 a year, the sinking fund was insufficient to pay off the \$750,000 bonds retired, the deficiency of about \$255,000 was taken from the general funds of the company. The company had taken over

## INTER-ISLAND TO RUN CARNIVAL EXCURSIONS

The Inter-Island Steam Navigation Company has announced a schedule of very low rates for excursions from the other islands to Honolulu for the benefit of the large number of people who are intending to visit this city at the time of the Floral Parade and the Mid-Pacific Carnival.

Special round-trip excursion tickets are now being issued by the Inter-Island company all tickets being good for a return passage from Honolulu to any island port, on or before Saturday, March 1. From any port on Hawaii to Honolulu and return, per S. S. Kilauea which leaves Hawaii February 19 and 20, the fare is \$15. This fare is the same on the S. S. Mauna Kea, which will leave Hawaii February 21 and 22. The fare from any port on Maui to Honolulu per S. S. Clandine which leaves Maui February 19, is \$8 including the return passage. This fare is the same on the Kilauea which will leave Maui ports on February 20 and the Mauna Kea which will leave Maui ports February 21.

From any port on Kauai to Honolulu and return, per S. S. W. G. Hall which leaves Kauai February 18, the fare is \$8. This fare is the same on the S. S. Mauna, which leaves Kauai ports February 21.

This schedule of low rates will enable a large number of people to visit Honolulu at the time of the Floral Parade and the Mid-Winter Carnival schedule should be taken advantage of by many who had not intended coming to this city during the week of festivities, and the steamship company, as well as the Parade and Carnival officials, believe that there will be a large delegation of other-island people in Honolulu during the Carnival week.

## PARADE ROUTE AND ORDERS ARE SETTLED

After several days of planning in the endeavor to choose the most appropriate route, the line of march of the Floral Parade on February 22 and place of assembling for each division, has been announced by Director-general Chillingworth, and is as follows:

**Parade Route.**

The parade will leave the executive building and proceed on King street to Fort street and from there to Beretania street; on Beretania street to Kapiolani street, down Kapiolani to King street and then up Victoria street to Beretania street, passing the review stand on the McKinley High School grounds, and thence to Punahou street and Alexander Field.

After passing the reviewing stand the marching section will fall out. The

Hackfeld stores at Lahaina and Kaunapali. It is stated that the extraordinary outlays mentioned, regarding lands and stores, are the cause of the material reduction of the company's credit balance, which at the end of the year was \$13,994.01.

For 1912 the company paid a dividend of 17 1/2 per cent, or \$700,000.

The parade will leave the executive building at 1:30 o'clock on the morning of February 22, and will proceed in the following order: Mounted files, marshal and aides, mounted band, island princesses, county band, marching bodies, reform school, etc. The following sections leave the executive building at 1:45 o'clock: decorated motorcycles, automobiles, autotricks and decorated bicycles.

The automobiles will enter the executive building grounds by the King street gate, turn to the right and be assigned positions in the parade by the marshal's aides.

Motorcycles will enter the grounds by the Hotel street gate, turn to the left and be assigned positions by the marshal's aides.

The lands and all those intending to enter the marching sections will enter by the Richards street gate and will take a position in front of the bungalow.

The mounted features will enter by the Likiepke street gate and will take a position under the banyan tree.

Rules Governing Parade.

All entries will assemble and be in position at the executive building grounds at 1 o'clock in the afternoon.

Autos, autotricks, motorcycles and bicycles will enter the grounds by the Hotel street gate.

The horse-drawn floats will form on both sides of Miller street and the mauka side of Hotel street Waikiki to Miller. Floats which are too large to pass through the gates will take up position on King street, mauka side Ewa of entrance.

Mounted features will enter by the Likiepke street gate.

Those who will enter the marching section will enter the grounds at the Richards street gate and take up position in front of the bungalow.

The parade will start at 1:30 o'clock. Mounted aides will be on hand to meet and assign to position all entries.

## PIONEER SLUMP MAKES SENSATION

There was some excitement on the street this afternoon over the drop of one and one-quarter points in Pioneer stock on the board, a block of 100 shares and two of 10 each having sold at 25. It was stated that immediately after the session there was a heavy chase for the stock at 26, and nobody seemed to have a reason for the break at the session, Oahu sustained a further decline, going down a quarter point to 20.25 for 25 shares on.

Hawaiian Commercial sloughed a half point in recess for two blocks of 100 shares each and one of 50.

Pineapple did not further decline from yesterday, but sold in a stowaway at 46, altogether 235 shares being sold in eight varying lots. Pahaing Rubber slumped off an eighth in a sale reported of 80 shares at 19.87 1/2.

The countless de Chavannes, formerly Miss Benson of Philadelphia, has been found in France in a destitute condition. She is related to the late Archbishop Benson and E. P. Benson, the novelist.

The Russian secret police believe Grand Duke Michael Alexandrovich to have been a party to the plot against the lives of the Czar and Czarovitch. It will probably "go off" with the Grand Duke.

# Honolulu Star-Bulletin

RILEY H. ALLEN

EDITOR

FRIDAY FEBRUARY 14, 1913

Employment and hardships prevent melancholy.—Johnson.

### FALSE ECONOMY

Stinting is not economy, and it is time for the territory to quit stinting on the salary of the superintendent of public works and begin to economize.

The present salary of this official is \$4800 a year. Just as long as the territory pays only \$4800 it will get the services of a \$4800 man, and a good many people in the territory have come to the belief that the territory doesn't want a \$4800 man for the job.

The office of superintendent of public works is one of the most important in the territory. In some respects it stands next to the governor's office. The superintendent of public works is not only the overseer of most of the public construction that goes on in Hawaii, but the ex-officio representative of the territorial government on several bodies whose duties are more directly concerned with county work. His work with regard to franchises is highly important. Under him fall the powers and duties relating to streets, sewers and highways, harbors and wharves, public utilities of many kinds, public parks and grounds to a large extent.

A capable superintendent of public works has to be an expert engineer, a corporation lawyer, a sanitary expert; versed in some military lore so that he can be a member of the governor's staff; he has to be a diplomat, a scientist, a public speaker and a few other things. And in addition he generally has to be a pretty able-bodied politician.

Speaking in all seriousness, it takes a big man to measure up to the responsibilities of the office. And a big man will be worth his salary many times over. But you can't be sure of a big man for four hundred dollars a month. The territory's experience with H. K. Bishop proved that. Mr. Bishop had hardly got his feet under the superintendent's desk and learned to go through the capitol building without a guide before a rich corporation pounced upon him and made him the head of an immense tunnel and irrigation project. His salary is popularly credited with being \$10,000 a year and expenses.

The territory built the Mahukona wharf at a cost of about \$14,000 and within a few weeks a storm hit that wharf and did \$10,000 worth of damage. Members of the board of harbor commissioners are authority for statements containing the most direct of intimations that the wharf was not properly built, and the blame is laid upon the public works department. It is not the first time the superintendent's office has been accused of gigantic and costly engineering blunders, blunders that cost the territory more than the salary of a \$4800 man.

Hawaii cannot hold a great engineer in office for four hundred dollars a month, and a great engineer is certainly needed in Hawaii. Ten thousand dollars a year is not too much to pay for an engineer of brains, initiative, experience and high official character, and that is the kind of a man Hawaii needs and will need very badly in the next few years.

### MISSING THE OPEN DOOR

Uncle Sam is missing a brilliant commercial opportunity in the Orient, according to A. J. Frey, assistant to the vice-president and general manager of the Pacific Mail Company, who has returned from a trip to China. Mr. Frey passed through Honolulu a few days ago. In an interview he sums up the situation as follows:

"The uncertainty of the political situation in the Philippines is holding back capital. Investment opportunities in the islands are marvelous and if the talk of the United States giving the Philippines self-government would only cease, things would go forward with a rush. It would be a mistake for this country to give up the islands now that the pioneering work is done and they are upon a paying basis. The natives of the islands do not want independence. They prefer to let things remain as they are.

"An opportunity will soon be offered Americans to invest in China. George Bronson Rea, representing Dr. Sun Yat Sen, will leave for this country in a few weeks and submit a proposition. Railroads and other things are needed. It was at first thought that 60,000 miles of road would be built, but it was found that so many concessions interfered that less than one-fourth of this amount can be constructed.

"Everything is being held back until the big

loan has been consummated. For the past three months the Belgian government has had a representative in China waiting to go ahead and help build railroads."

### WHY NOT A SILK INDUSTRY

In the course of a report on sericulture in the Philippines, the French consul at Manila, M. Ayme Martin, observes that the brilliant prospects of the industry in those islands—which hold the world's record of reproduction with nine crops yearly of the native silkworm—are of a nature to greatly interest silk people in the Rhone valley. He goes on to suggest that it would be expedient for a group of spinners to send a competent representative to the archipelago, to whom the insular government would accord every facility and who, after studying all the technical details of the question, would doubtless consider this a good opportunity to inaugurate the silk industry in the Philippines on the same basis as in northern Italy and the south of France. M. Martin further points out that it might be advisable also to attempt to acclimatize the Philippine silkworm breed in the districts of Indo-China and notably in Tong-King, where the silk industry is already prosperous. —Manila Cablenews-American.

Every few years there is a fitful agitation of the subject of sericulture for Hawaii, with accounts of experiments and displays of locally raised cocoons in store windows, but nothing has ever come of it, any more than any reason given why these islands should not have a silk-raising industry. Perhaps Dr. Marques, the consular agent of France here, whose progressive ideas have done much for the islands during his long residence, might enlist the attention of the silkmen of France to the advantages of Hawaii, where the mulberry thrives like a weed, for the sericulture industry.

### JUST LOGICAL

Both the Chamber of Commerce and the Merchants' Association having endorsed and highly praised the work of their joint promotion committee, it would now seem wise for the joint legislative committee, representing the above organizations and the Planters' Association, to strongly recommend that liberal provision for the support of the committee be made by the coming legislature. With \$50,000 a year at its disposal the promotion committee could more than double travel to Hawaii, or, in other words, double the business receipts of the territory, returning \$100 for every dollar contributed.

Among the legislative investigations promised there might be one dealing with the fishmarket. As a matter of fact, if sanitary conditions continue to grow worse, the city might do well to establish a municipal market, where the regulations of the board of health and the health committee of the supervisors could be enforced without the fight against private interests that has delayed a real clean-up for so long that it is scandalous.

A typographical error in this paper yesterday afternoon gave the amount of county funds received by the Leahi home as \$15,000 instead of \$1,500. The home itself receives a subsidy from county and territory of some \$10,500, and last year expended about \$18,000 exclusive of the public funds. The resources of the Leahi home are severely taxed and the government funds are put to very good purpose.

Turkey is now pleading with the Powers to intervene. And the same ministry is in power which declared every Turk would die in his tracks before Adrianople would be yielded up to "the appetite of the Balkans." Since that time more than thirty thousand men,—Ottoman and Allies,—have laid down their lives. The Turk is neither humanitarian, politician nor diplomat.

Dr. Frederick A. Cook, says the morning paper, throughout the attacks upon him "maintained a clam and gracious manner." This is something new in the realm of zoology, possibly related to that fearful denizen of the Waikiki deeps, the man-eating eel.

Looking over the list of legislators for the 1913 session, the number of veterans is unusually small. Of course, the Cannon-ball of Kohala, noise, smoke and all, is to be on the job again.

The way those "genros" are playing Alphonse and Gaston with Japan's premiership ought to be very touching to some of our own kind.

What seems to be needed in Mexico is a few Americans who can shoot and the backing of a government that will let them do it.

A happy medium is Hawaii between Mexico and Japan.

## 'ROARING CAMP' IS NOW A-BUILDING SWIFTLY

Roaring Camp is a-building! Active work was begun this morning in laying out the site comprising the block on Bishop street, between Hotel and King, on which is to be located Roaring Camp, the much-heralded metropolis of the local Elks which will depict the old type of Western mining town in California at the time of the gold rush in '49. Electricians were on the scene at an early hour this morning putting up the poles for the electric lights, and a force of men with pick and shovel began the first steps to erecting the stockade which will surround the city. This work is in charge of the building committee composed of Walter E. Emery, chairman; J. N. Caldwell and L. M. Whitehouse.

In one of the leading printing establishments of the city, closely guarded by a force of deputy sheriffs, one million dollars in greenbacks are being printed as fast as the press can apply the colored ink to the paper. This money will be the medium of exchange in Roaring Camp during the two days when that city will be in existence, and no other form of currency will be tolerated. Following the issuance of this vast sum, the money will be removed under heavy guard to the office of the territorial treasurer, where it will remain under the alert eye of a heavily-armed sheriff until the evening when it will be delivered to the bank of Roaring Camp.

Officers for the First National Bank of Roaring Camp have been elected as follows: G. W. R. King, president; Charles H. Norton, cashier; J. L. Horner, H. P. Roth, H. Glade, R. Marsilly and Herbert Dunshee, directors. These men will be in charge of the bank during the evenings of February 21 and 22, and it is well to state here that they are all experts with the six-gun, and have filed the triggers of their shooting irons so as to be in readiness for any second-story men who happen to be in need of a piece of change. The bank will be guarded by a posse of the bank's employes under the direction of Sheriff Arthur M. Brown, who has been lately elected to that position.

Walter Doyle, one of the promoters of the city, expressed the wish this morning that more women would enter into the spirit of the occasion and help out those who will have charge of the affair. "I want to see the women come in for their share of the fun as well as the men" he said. "A number of 'cowgirls' would greatly increase the novelty of the thing. Let them come in a kahki skirt and a buckskin waist, and with a pop-gun strapped around their waists. Oakland put on a similar stunt some time ago, only on a smaller scale, and the way the women turned out to help toward the success of the thing was wonderful to see."

Another feature of the Camp will be "Red" George's dance hall, which will be under the direct supervision of George Martin. Nothing will be barred at this place but the Salome and the Tango, and the folks can dance the "Grizzly Bear," and "Texas Tommy," or the "Washington Waddle" to their heart's content. Berger's de luxe orchestra, imported around the horn especially for this occasion, will be in attendance until the wee sma' hours. In connection with the dance hall, "Red" George's thirteenth parlor will be running in full swing. This section of the entertainment is under the direction of George Martin, C. D. Wright, A. H. Brown, Bob McCriston and Nelson Lansing. There will be a real, old-time forty-nine bar under the supervision of St. C. Sayres and Walter Rycroft, who will keep two Colts under the counter for emergencies. Any sort of a (soft) drink may be bought at this bar for ten dollars a glass (Roaring Camp currency).

Perhaps the greatest attraction on the grounds during the two evenings will be Scotty's gambling hall and temple of fortune, which will be in charge of O. C. Scott, assisted by R. W. Breckons, Ed. Teewe, E. C. Hartman and W. H. Goetz. Every game known to the card sharps will be played there, and a square deal will be given to all but tenderfeet and greasers. The motto of this emporium will be "Sympathize with the Losers, and Go Home with the Winners." This place will also be under a strong guard on account of the large sums of money which are expected to change hands. Col. Sam Parker, John McCrossen and Johnny Martin are respectfully warned that short-carding and dealing from the bottom will not be tolerated. All in all, this gambling hall will be one of the most interesting attractions in the entire city, for here the visitors may see just how three-card monte was dealt in the olden days, how the miners dealt faro, and how the inevitable game of black-

jack won a stake for many a man, or lost one.

The general merchandise store and postoffice will be in charge of Arthur Spitzer and Morris Rosenblatt, and there will be on sale here all sorts of souvenirs, candy, cigars, cigarettes, plus tobacco and a full line of miner's supplies. A bevy of pretty girls will preside over the candy, confetti and horn booths. In addition to the goods in the store there will be a beautiful 1913 Buick automobile which will be given to the person holding the winning number of the evening of Saturday, February 22. The tickets are one dollar apiece, and may be had at the office of the manager of the contest on the corner of Bishop and King streets. The car is being given away by Eugene Buffeandau, and already there has been a large sale of tickets. It was noticed this morning that already several claims have been staked out. A generous space has been chosen for the location of the office of the Roaring Camp Howler, the official organ of the city. The motto of this newspaper is: "We aim to please." Other buildings will be in the process of construction from now until the time the city opens to the public.

## BONESTATE VALUE APPROXIMATELY \$50,000

With the filing in circuit court this morning of a petition for probating the will of the late Charles A. Bon, it is learned that the deceased leaves an estate valued at approximately \$50,000 to the widow and two minor children.

The petition, filed by the widow, Mrs. Rebecca J. Bon, states that at the time of his death, on February 7, he was thirty-four years of age. It makes no mention, however, of the life insurance policies, which are said to amount to about \$24,000, but the other property, with a total value of \$21,834.06, is listed as follows: A house and lot in Manoa Valley and a lot at Kaimuki, worth a total of \$7,500; 234 shares of capital stock in the McCabe, Hamilton and Renny Co., worth, at par, \$11,750; 30 shares Hawaiian Commercial and Sugar Company stock, at a par value of \$75; 308 shares Oahu Sugar Company stock, at par value of \$6,160; 25 shares Hawaiian Pineapple Company, at par value of \$500; a promissory note worth \$750; furniture, \$1,000; and cash on hand and in bank.

Mrs. Bon, the widow, is named as executrix in the will. Judge Whitney has set March 19 as the date on which the hearing in probate will be called.

## HOSPITAL CORPS UP TO FULL STRENGTH

With the arrival of two officers of the medical corps, and three sergeants first class, three sergeants and seventeen privates of the hospital corps, on the transport yesterday, Oahu now has its full quota of sanitary troops. The Hawaiian department comes into official existence tomorrow well guarded against sickness and accident in time of peace, and when the additions to the department hospital at Fort Shafter are completed, the sanitary arrangements will be up to the best army standards.

The newly arrived surgeons are First Lieutenant Clark, M. C., and First Lieutenant Huntington, M. C. The former will relieve Dr. Demmer at Fort Shafter, the latter going back to Schofield Barracks until Dr. Mudd reports for duty there, at which time Dr. Denmers will return to Shafter. Dr. Huntington goes to Schofield Barracks.

In all there are now 129 commissioned and enlisted under the orders of Chief Surgeon Raymond.

Army headquarters is about the latest place on Oahu just at present, for the organization of the Hawaiian Department requires a tremendous amount of paper work, that it will take some time to accomplish. On top of the change of status of the army here, there are a hundred and one details connected with the Washington's Birthday parade, that Adjutant General Campbell is wrestling with. That officer's desk looks like a stage snow storm, and it will be some time before department headquarters get running in the groove again.

In fact, there will be something do-

### A Watch Needs Frequent Attention

It is one of the most delicate of all instruments and gets much rough usage.

Your watch will keep better time and last twice as long if you have it properly cleaned and overhauled once a year.

# In the Woman's World

## HOUSEWIVES ON GUARD AGAINST EXTRAVAGANCE

In all parts of the United States there is a fight being carried on to make the people live more economically. It is said that the American woman is most extravagant and that she often spends and wastes more when she thinks that she is saving.

A great many of the housewives watch the bargains and pay small prices for articles that should be expensive. Woolen goods for instance never should be bought at a bargain counter for the many processes that the pure wool is put through before it is ready for the market make it expensive and it is only the imitation that can be purchased for a small price. It is much better to pay a

larger price for household goods and have them last a reasonable length of time than to have to replenish the supply several times a year. It has been found that the American housewife in her mania for cheap articles needs a larger pocket-book than she would if she were willing to pay a greater price in the beginning.

Opportunities are offered the women in Honolulu as well as in other parts of the United States to study household economics in order that they may have an idea of real economy. Anyone who has studied the fibers and the processes they have to go through will readily understand the advantage this knowledge gives them. In the colleges students are shown in practical tests of samples may be made at home. So many women ignorant of this subject enter a store and depend upon the knowledge of the clerk who has perhaps no more knowledge than they have. A clerk may think herself "at an article is all wool or all silk, whichever it is supposed to be. In the course in the College of Hawaii tests are made of every material that is put on the market and the students are shown how to designate between the real and the sham.

Another way in which the American housewives are said to be extravagant, is that they do not always designate between luxuries and necessities. In America there are many people who up to a few years ago did not know what a banana was like, now statistics show that nearly fifteen million dollars a year are spent in taking the tropical fruit to America. To Honolulu the banana is neither a necessity nor a luxury, but to those who have not lived in the tropics it is placed in the former class. A great deal more money is consumed in food now than in former years.

In wearing apparel, too, the American woman is very extravagant. Some time ago only the wives of the wealthy men were able to afford silk dresses and silk underwear while now nearly every working girl possesses at least one silk petticoat and many of them wear silk hosiery all of the time. In fact the wearing of silk

hosiery has become so common that some of the most snobbish of the society women will not wear anything but the best because they wish to be different from the girls who have to earn their own living.

Our grandmothers and mothers looked upon music as a much-desired luxury and only the wealthiest girls were able to afford piano lessons. Now nearly every small girl takes lessons. Perhaps the parents deny themselves necessities so that the daughters may have music, for it is thought now that without some knowledge of music a girl is almost uneducated.

### AYESHA AND NOTED MODEL ARE ONE AND THE SAME

"Ayesha," said to be the greatest hypnotist in the world, and Lenora White, the greatest model the world ever knew, are the same. This fact alone should create a sensation in Honolulu, for there are hundreds here who have seen this remarkable woman depicted on canvas in America and Europe and in the frescoing of the famous Diamond Palace in San Francisco. It was Edward Tojetti, the celebrated Italian artist, who discovered her when she was yet a school-girl and since then she has posed in the atelier of Jerome in Paris and was the subject of several of Sir Philip Burne-Jones' pictures. It was not for her figure alone—though considered symmetrically perfect—but for her splendid intellect, her knowledge of art and her histrionic ability, that aided her greatly in giving expression to the character to be portrayed in the picture. Among the masterpieces for which Ayesha posed are Henri's "Cleopatra," Moretti's "Autumn Leaves," Solomon's "Spirit of the Wave" and "The Tempest," all pictures of great reputation. Ayesha's career is a remarkable one and her experiences are thrilling to the extreme. While in Morocco she so influenced the youthful sovereign Aze that he adopted many western ways.

Ayesha's performances are exceptionally clever. She not only handles her subjects in a scientific way but is never at a loss in the most extreme emergency. She is constantly on the alert and proves herself mistress of her art. We know the power to hypnotize exists and we know that Ayesha is the greatest hypnotist before the public and the Empire should be crowded to the doors on Monday night.

### A GRAVE OFFENSE.

If there is anything in the world that should be made of the choicest ingredients and with the utmost scientific skill, it is our medicinal preparations which can be instrumental for health and happiness or detrimental and injurious, and it is a deplorable fact that people are sometimes persuaded to accept a substitute for Scott's Emulsion when those recommending such substitutes know the difference, but for their mercenary profit, disregard or ignore the consequences of their act.

The popularity of the curative benefits of Scott's Emulsion has inspired many imitations, most of which contain alcohol, wines or opiates to please the palate and stimulate the spirits, but physicians everywhere insist on the purity and wholesomeness of Scott's Emulsion, knowing that it contains only pure wholesome cod liver oil, made palatable and predigested by scientific process in sunlight, sanitary laboratories.

## "Fights Giant Eel In Ocean Depths"

"Duke Kahanamoku, World Champion Swimmer, Grazes Death," Says Headline in New Orleans Picayune

Under a special dispatch line the New Orleans Picayune, of Jan. 23, prints the following highly artistic yarn:

"In a desperate battle with a giant eel ten feet below the surface of the ocean 'Duke' Kahanamoku, world's champion swimmer at short distances, had a narrow escape from death at his practice grounds near here today. He killed the eel, and in doing so lost the index finger from his right hand. As a result of his experience at the Olympic games last year may be unable to retain his swimming power."

"Kahanamoku, known as the 'duke of Waikiki,' a resort near Honolulu, has been practicing hard for participation in the Australian championships, and with several companions was going through the daily exercise in the water when today's misfortune came.

"Kahanamoku's friends in the water were paddling about in all directions and did not notice his disappearance beneath the surface until cries from shore aroused them. Then they searched the surface with eager gaze for hundreds of yards about and soon were diving in desperate efforts to locate the champion.

"After the 'duke' had been under fully two minutes his companions noticed a furious churning of the water fifty yards from them, where the depth is at least ten feet. Suddenly one of the swimmer's legs shot up from below and was kicked about in the air, indicating that the youth was struggling desperately to release himself.

"While the other swimmers were dashing towards the spot with powerful overhead strokes, the leg, after a final kick, was dragged clear beneath the surface again, and the churning of the water continued.

**Chokes Eel to Death.**  
"Just as the swimmers reached the scene Kahanamoku came to the surface, gasped for breath and then sank again. His friends dived, brought him up and dashed for shore, where he was revived. One of the party got the body of the eel, which the 'duke' had choked to death. It was the largest ever seen in these waters.

"Kahanamoku was in a very weak condition tonight. It was not known whether he will be able to compete in any of the spring or summer matches.

### NEWSBOYS WILL BE GUESTS OF KAAI

Several hundred newsboys in Honolulu have never heard the Kaai singers in a regular concert though many of them have peeped through the window at the Young and listened to the sweet strains wafted through the doors as they were opened to admit those who had the price. Ernest is now playing the part of philanthropist and is going to give the youngsters a chance to hear him and his company of excellent minstrel singers in concert at the opera house tomorrow afternoon at two o'clock, without money or price. It is to be a free concert as far as the newsboys are concerned, each little merchant receiving a ticket at the office of the Star-Bulletin and it is intended that only a newsboy will be permitted to enter on that ticket; no shenanigan or doubling up so that anyone not entitled will have a chance at the music.

There will be a regular concert and hula by the Kaai's Saturday evening beginning at eight o'clock. The program of music will be entirely different from that presented on Wednesday night. As usual the place should be crowded; the company never appears to empty seats because the public enjoys hearing Hawaiian music as it is rendered by the troubadours. The hula will, of course be an attraction that none can well withstand. It was a feature at the entertainment on Wednesday and will be tomorrow night. Tickets are obtainable at the rooms of the Promotion Committee in the Young building.

### TICKETS ON SALE

At the Promotion Committee rooms for the musical comedy, "The Tourist," which will be at the opera house the 19th, 20th and 21st of the month. Telephone 2345.—advertisement.

Six persons were killed and five fatally wounded on the Brisbane Express which crashed into the wreck of a cattle train near Murphy's Creek, Queensland.

By the Court: JOHN MARCALLINO, Clerk First Circuit Court. Dated Honolulu, February 14th, 1913. 5470—Feb. 14, 21, 28, Mar. 7.

CAPT. BALDWIN TO DEFENSE OF DR. COOK Capt. Evelyn Briggs Baldwin, organizer and leader of the Baldwin-Ziegler exploring expedition of 1901-02, has come to the defense of Dr. Frederick Cook, according to a signed statement made by Capt. Baldwin and given out by Dr. Cook's friends, who believe staunchly in the noted explorer's claims of reaching the North Pole before Peary. Dr. Cook is to appear at and lecture in the opera house here on February 25 and March 1, the dates having been set forward a few days because of the coming of the Lombardi Grand Opera Company early in March. Capt. Baldwin, well-known in Honolulu, in his statement defending Cook says: "I can prove the truth of Dr. Cook's statements in regard to his discovery of the North Pole, from Peary's own official record of his last dart to the northward. "So far as I can learn, Dr. Cook has never made a 'confession' in regard to his trip to the Pole in the sense that he denied his first statements. He has said that in view of the great difficulty in determining the exact location of the Pole, he may not have been exactly upon the northernmost point of the world. Peary, under pressure, at the congressional investigation, was forced to admit the same. "For three hundred years there has been a rivalry among civilized men to be the first to reach the North Pole. I believe that the honor of having succeeded in the attempt should go—not to Peary—but to the man who reached the Pole a year before Peary claims to have been there. With the information that I myself have gathered, I believe that he did really reach the Pole, or came so close to that point that he is entitled to the credit of the Pole's discovery. "A few sensation mongers will, perhaps, deery Dr. Cook for some years to come, but Arctic explorers endorse him today. Rear-admiral W. S. Schley, General A. W. Greely, Captain Roald Amundsen, discoverer of the South Pole; Otto Sverdrup and all the world's greatest explorers, have endorsed Dr. Cook. "I have seen Dr. Cook's original field notes—his observations and the important chapters of his book, wherever his claim is presented in such a way that the scientific world must accept it as the record and the proof of the greatest geographic accomplishment of modern times. "Putting aside the academic and idle argument of pin-point accuracy, the North Pole has been honestly reached by Dr. Cook 350 days before anyone else claimed to have been there."

BLOOD QUALITY is a health barometer because we live by it and on it; with poor blood we are languid, tired, susceptible to colds—lack natural energy and ambition, but this condition can be promptly corrected with Scott's Emulsion—abounding in blood-making properties, rich in tissue-building material and so medicinally effective that it compels vigor, vitality and gives blood-quality. Scott's Emulsion gives physical and mental force for child or adult. Scott & Bowne, Bloomfield, N. J. 12-115

Business Items Through Waldeyer & Whitaker, M. A. Moore has bought the residence of Alfred Rasch, Matlock avenue, furnished, for \$3500. The Waterhouse Company, Ltd., won second prize for sales of the Burroughs adding machine last year, the winner of first being a Paris firm. Charles Barron, through the Guardian Trust Co., has bought a lot in School street next to the Afong place from Loo Joe for \$1800. He will build four cottages; there will call a lane on one side of the lot Soapbox Lane. Sidney M. Ballou, representing the Honolulu chamber, was a member of the nominating committee of the chamber of commerce of the United States, at its first annual meeting which was held in Washington on January 22. Bear operators carried the market in New York yesterday, and there was a general fall in prices. Short covering in the afternoon steadied the market and it closed steady. There was a larger proportion than usual of material losses in the inactive stocks. Quotations for Hawaiian stocks at the close in San Francisco yesterday were the following: Hawaiian Commercial, 24 bid; Hawaiian Sugar, 55.25 bid; Honokaa, 7.12 1/2 bid, 8 asked; Hutchinson, 16.62 1/2 bid; Kilauea, 12 bid; Onomea, 32 bid, 32.50 asked; Pahaia, 16.62 1/2 bid; Union, 27.50 bid, 30 asked; Honolulu Plantation, 50.75 asked. The noise of the German aerial fleet passing over Pottersdam has so "got on the nerves" of the Kaiserin that an order has been issued warning them against flying in that vicinity.

**COMPLETE DRAFT OF CHARTER UP TONIGHT**

**General Committee Calls Meeting to Discuss Plan as a Whole**

Carrying the important provision for a city manager, the new draft of the proposed short-bill charter for the city will be under discussion tonight by the general charter committee. The committee will draw up a bill to be presented to the legislature, and the meeting tonight is to go over the draft with its many changes from the original form, and perhaps make other changes. The meeting is called for 7:30 o'clock in the senate chamber, and is open to the general public.

The completed new draft is as follows:

**Name.**  
City and County of Honolulu. To remain a body politic with same boundaries.

**Powers.**  
Perpetual succession. Hold property. To assume, manage and dispose of all trusts of City and County of Honolulu.

Succeed to all rights, liabilities and benefits. Pay all obligations. Sue, defend and plead in all courts. Seal, purchase, receive and enjoy property. Receive bequests, gifts and donations. Receive, condemn, purchase and maintain streets, roads, waterworks, sewer system, power plants and other public utilities.

Issue bonds for these purposes. Legislative, executive, police and judicial powers extend to all matters of local municipal government.

**Elections.**  
General election on first Tuesday after the first Monday of June, 19... and every second year thereafter.

Special election when called by council.

Registration in Great Register. Judges and Clerks appointed by council except first appointed by Board of Supervisors.

Nomination by 25 individual certificates presented at least 20 days before election.

Clerk makes certified list of candidates and issues notice at least ten days before election.

Clerk prepares ballot with first, second and third choices.

Count. Person receiving more than one-half first choice votes declared elected.

If no majority, person receiving smallest number dropped from ticket, and

Second choice votes then counted and number added to first choice votes and if such constitute a majority of ballots cast then candidate declared elected.

If no majority, then person receiving smallest number dropped from ballot, and

Third choice votes then counted and added to first and second choice votes and person receiving highest number declared elected.

No candidate shall use more than one carriage to aid voters and then only for infirm voters. Penalty. Recall.

Any holder of elective office may be recalled.

Elector to file affidavit containing name of officer and grounds for removal. Petitions to be issued by clerk.

Signed by 30 per cent of last preceding vote for commissioners. Separate blanks for each signer to be signed in office of clerk. Clerk orders election within five days after date of last petition. Election held not less than 30 or more than 40 days from date of call. Officer sought to be removed may succeed himself.

Incumbent shall continue in office until successor qualifies. No recall petition within six months. Recalled officer shall not hold office for one year.

**Council.**  
Composed of five councilors. Term four years. First election, three receiving highest vote, four years; remainder two years. Receive no compensation. Mileage allowed to councilors residing outside District of Honolulu. Shall hold no other office. Meetings called by any two members. Meetings public. Three members constitute quorum. Three votes required to pass ordinance expending money, confirming appointments or removals, granting licenses or authorizing bonds. Each member shall vote. Mayor shall preside.

**Powers:** (1) All corporate functions of city in relation to finance, borrowing money, issuing bonds, levying assessments. (2) Buy, sell, lease, rent or condemn real estate. (3) Corporate power in relation to contracts. (4) General police power over public utilities. (5) Grant and revoke licenses. (6) Confirm and reject appointments. (7) Fix compensation of appointive officers. (8) Issue general and special orders to city manager giving him authority to carry out all administrative powers and duties of city. (9) Require city manager to present yearly report. (10) Provide for audit of city books by audit company or board. (11) Validate any lawful act of administrative officer. Deals with the territory. All other powers necessary or proper.

**Mayor.**  
Chosen by Council from among members, for term of two years. Powers and duties conferred by this act and by Council.

President of Council and Presiding Officer.

May receive process. Right to vote on all questions. Shall sign contracts and other instruments requiring assent of City.

Acting Mayor during disability of Mayor chosen by Council.

**City Manager.**  
Chosen by Council. Administrative head of City Government.

Official oath and bond. Holds office at pleasure of Council. Not interested in any contract. Duties. See that laws of Territory are enforced and resolutions executed. Attend all meetings of Council. Recommend necessary measures. Furnish necessary information. Present reports of departments. Present annually itemized estimate of needs of city. Appoint persons to fill all offices except such as are appointed by Council and designate titles to such officers. Sign contracts and other documents on behalf of City when authorized by Council. Revoke licenses pending action of Council.

**Administrative Departments.**  
Heads of departments shall cause to be performed all duties imposed by Manager.

City Manager with approval of Council shall designate number and title of Departmental Heads.

Heads shall be responsible only to Manager.

There shall be at least the following heads: Police and fire. Finance and supplies. Purchasing agent of all supplies. Collects all water rates, sewer rates, license fees and money due the city.

Highways. In charge of street, etc., ditches, sidewalks, curbs, public buildings and property owned by city.

Health. In charge of parks, playgrounds, poor, insane, health, charities, etc.

Water and Sewers. In charge of all reservoirs, pumps, pipes and machinery, etc.

Shall maintain regular office hours. Eight hours constitute day's work. Department of Police and Fire.

Heads appointed and removed by Manager.

Appropriations by council. Department of Finance and Supplies. Fiscal year commences July 1st. Direct management of revenues of city.

City cash kept in banks, under bond. All demands against city in writing, itemized and approved by head of department and by manager.

Council shall provide system for collection, custody and disbursement of all moneys and for accounting.

Head of department shall secure supplies in manner directed by council upon written requisition of manager.

May ask for tenders. Taxes shall be assessed, levied, and collected as provided by law. Shall provide estimates for manager's annual budget.

Department of Highways. Head appointed and removed by manager and policy dictated by manager.

All work on streets done by this department.

All supplies purchased through department of finance and supplies.

Department of Health. Manager shall appoint and have power to remove health officers, plumbing inspectors, etc.

Health officers shall be licensed physicians.

Head of department and health officers shall have power to arrest.

Council shall make ordinances for preservation of public health.

Department of Water and Sewers. Heads appointed and removed by manager.

Shall embrace all property rights and obligations of city in relation to water, water works and sewers. Shall be administered as an entity.

Shall preserve water, investigate sources and prepare measures for storage and of preventing waste. Shall keep books of account, showing cost of maintenance, etc.

Shall have charge of construction, extension and repairs.

Council shall fix rates, make regulations and impose penalties.

When revenue shows surplus over cost and interest, council shall reduce rate.

**Officers and Employees.**  
Elective officers are only officers of the city, all others employees.

City attorney appointed by and removed by council.

Every officer or salaried employe shall take oath and may be required by council to give bond.

No officer or employe shall receive compensation from public utility concern.

No appointments made or withheld by reason of religious or political opinion or political service. Penalty.

**Commissions and Boards.**  
Council may appoint commissions to serve without pay. Parks and playgrounds. Library commission. Public charities commission. Civil service commission. Such other commissions as they may deem necessary.

**Direct Legislation.**  
Proposed ordinances may be submitted by twenty-five per cent of electors voting at last municipal election. Council may (a) pass such ordinance without alteration, or (b) call special election. Twenty-five per cent of voters may protest within sixty days after passing any ordinance and council shall thereupon submit same to referendum. Ordinance adopted by electors cannot be amended or repealed by council within two years except by referendum. Council may submit any proposed ordinance to referendum at any general or special election. Not more than one special election in six months.

**General Provisions.**  
All existing ordinances continued in force. All bonds continued in force. Penalties for violations. Provisions for amendment.

**DR. SUN YAT SEN MAY VISIT HAWAII NEAR SOON**

The rumor that Dr. Sun Yat Sen, first provincial president of the Republic of China, is to visit Honolulu in the near future, bids fair to be realized, according to statements made yesterday by a delegation of local Chinese which were to the effect that the revolutionist and republic-maker would pass through Hawaii some time in March, enroute to the United States to raise a war fund to enable the Chinese government to wrest Mongolia out of the hands of the Russians.

"His Rise to Power" begins in this paper tomorrow, Feb. 15. It will be published weekly.

theatre, was yesterday afternoon visited by a delegation of local Chinese for the purpose of making arrangements for renting the Liberty theatre on the night of March 9. It is said that the purpose to have Dr. Sun Yat Sen give a lecture in the theatre, showing a large number of moving picture films of Russian atrocities in Mongolia upon the Chinese. This lecture, it is said, will serve as an object lesson, and will aid in raising the war fund.

**Who Will Be the Lucky 1000?**

This month we will produce one thousand HUDSON cars. That is a small percentage of the number of people who will want them, for before a single HUDSON was offered, more than one thousand individuals had paid their deposit to assure getting cars.

The demand in excess of the number we can build has been in about that ratio ever since the first photographs were shown.

**Electric Self-Cranking. Electrically Light.**

**Why This Great Demand**  
People recognize now the importance of engineering brains in their relation to mechanical perfection. Without knowledge a smooth, simple, safe, satisfactory car is impossible.

These cars were designed by 48 skilled engineers gathered from Europe and America, representing 97 factories. They had a hand in building over 200,000 automobiles. These men represent about all that has been learned in motor car design. Some have made the greatest headway of all in designing six-cylinder cars. Some are specialists in other lines. So the combined skill and knowledge of all these men is focused upon the perfection of HUDSON cars.

All who are motor-wise recognize the importance of having a car built under such favorable conditions. That is why, with the maximum of 1,000 cars for delivery this month, only one out of three

of those who will want HUDSONS will be able to get them.

What better assurance could be offered than that these men who possess about all the knowledge that has thus far been gained in automobile building have joined in saying, "The New HUDSONS are the best we know."

The HUDSON "37" is their four-cylinder masterpiece. It sells at \$1875, completely equipped with electric self-cranking device and electric lights, speedometer, clock, top, windshield and twelve inch upholstery. There is nothing more to buy.

The "54" HUDSON—a Six, capable of doing 65 miles an hour and a speed of 58 miles in 30 seconds from standing start, is offered as a car superior to any automobile on the market regardless of price. It sells at \$2450, completely finished and equipped as above. Prices are f. o. b. Detroit.

**BANANA CLAIMS**

(Continued from Page 1)

lady in there now having her claim fixed up."

Before he had come out of the office to Mrs. Kakakia's flower store in front to meet the reporter, the client was seen signing a document in duplicate—a page of legal-cap paper filled with writing.

There is a possibility, or rather probability, that it will turn out that the expense to which banana claimants are being put by this representative will go for nothing. It is not likely that the legislature will appropriate money to pay claims so formulated, on their face, but that it will follow the precedent of the Chinatown fire claims and provide for a commission to receive and adjudicate claims. In that event claims will have to be made out in form either prescribed by the act creating such commission or dictated by the commission itself under whatever powers may be conferred on it.

DOCTOR WAYSON AIMS HARD BLOW AT CONDITIONS IN THE FISHMARKETS

But one rift appeared in the lute at the meeting of the board of supervisors last night. It came, widened for a time and then disappeared in the perfect harmony of an unanimous vote, by which the board decided to promise to cause a lot of discord in the sweet tones of the usual board meeting. Mr. Petrie had told the board that now that the road committee had done its part the board could go ahead and do what it pleased; after three of the members of the board had voted kanahua the measure passed and the ship of state sailed out on untroubled waters. But if the board managed to escape these troubles there seems to be trouble aplenty stored up for the gentle folk who do business in the local fishmarkets. Doctor Wayson appeared on the warpath against them in a letter to the board last night. The doctor suggested that the board of health and the board of supervisors pay a visit to the unsavory locality and see for themselves what the conditions there really are. To this Mr. Wolter of the health and sanitation committee lent his enthusiastic support, declaring that the market is filthy and a constant menace to the lives and stomachs of the good people of Honolulu. W. C. Achi submitted a map of a tract of land near the Queen's hospital which he wishes to sell the city as a site for a hospital. The presentation of the map brought on a discussion in which it was generally admitted that the hospital was needed and that the legislative committee of the supervisors should ascertain what can be done in the way of territorial aid. Mr. Wolter declared that the city's bill for care of the sick is increasing by leaps and bounds, and that other counties are acquiring the habit of shipping their sick here for treatment at the expense of this city. He declared that the city must be re-proofed and cleaned up. Supervisor Pacheco withdrew his ordinance introduced at a previous meeting, repealing the new plumbing ordinance. He said he had been mistaken as to the sentiment of the board in the matter and that there was no use continuing a fight against a majority. Petrie inquired of the deputy city attorney as to the powers of the road committee in ordering the building of sidewalks. When informed, he remarked that some would be ordered in under the ordinance very shortly. Supervisor Petrie, taking up the question of the framing of a bill providing for a frontage tax to be presented to the legislature, asked Deputy City Attorney Milverton if the city attorney's office could not draft such a measure, inasmuch as it would be in the interest of the city. Milverton replied that such a thing was no part of the city attorney's duties, and Petrie thereupon asked for a written opinion as to the power of the supervisors to hire an attorney to draw this and such other bills in the interest of the city as might be suggested. It appears that the legislative committee of the supervisors met with the senators and representatives-elect as to securing the passage of bills desired, and it was suggested by the latter that the city attorney draw up the bills as desired by the supervisors and the senators and representatives from Oahu would do their best to get them through. Milverton last night gave an off-hand opinion that the city can hire outside legal aid if it decides this is necessary, and it is probable that this action will be taken and that the attorney so engaged with the legislative committee will see to the framing of the bills and their presentation.

PANAMA CANAL PICTURES TO FLASH ON OPERA HOUSE SCREEN TONIGHT

Beautiful pictures of the Isthmus of Panama and the great canal which Uncle Sam is building down there are to flash on the canvas screen at the Hawaiian Opera House night, when Mr. and Mrs. E. H. Kemp give their final lecture here, before starting in serious work of gathering material and pictures of Hawaii for a lecture they are planning to give on the mainland. Tickets for tonight's lecture are on sale at the rooms of the promotion committee, and from all accounts are going fast. To those who have seen the other lectures given by Mr. Kemp it is unnecessary to tell of the wonders of the colored slides and the moving pictures he has made for his lectures. They are life itself, stolen by the camera and imprisoned on the glass of the slide by the master of his craft. Nothing like them has ever been seen in Honolulu. In no sense of the word are they "magic lantern slides." Rather they are paintings, the coloring of which raises them into the realm of real art. Every one has been interested for years in the great canal, the most stupendous engineering undertaking of the age, yet few have had or will have an opportunity to see for themselves what are the difficulties, what the success in overcoming them, the engineers of the government under Col. Goethals are daily facing and surmounting. Here on his slides, Mr. Kemp tells the whole story of a fight won against superhuman odds, of disease beaten back, of the forces of nature made to help in the work of defeating themselves, of the coming triumph of American brain and brawn. If the building of the Panama canal is an epic of the twentieth century, then the slides of Mr. Kemp are fitting illustrations of the poem, written in steel and dirt.

MEN AND RELIGION WORK TO GO TO SHOPS AND FACTORIES

At the final meeting of the executive committee of the Men and Religion Campaign it was voted to turn the Community Extension work over to the Y. M. C. A. The association is organizing a special committee and plans are being made to hold meetings in all of the shops and factories of the city as well as the outlying districts. When the Men and Religion teams started out for the series of campaigns last year they had only five messages. After a month in the field the teams, by unanimous vote, added a sixth message in community extension. It made an instant appeal to practical men and large results were seen in many cities. Community extension work was first begun in 1898 by the Y. M. C. A. in Cleveland. In that year they held weekly meetings in twelve shops. These meetings were so successful that the following year the Association all over the country held similar ones. From this beginning the work has become one of the important features of the Y. M. C. A. campaign. Last year was the largest in the history of the work. In the states 286 different associations reported meetings held in 929 shops and factories with a total attendance of one million and a half. Detroit held the largest of meetings with Los Angeles coming next. The large growth of the work has been due to the plan of organization that the association has followed. Each shop organized is turned over to one man generally a layman who assumes full charge of all details of the work. He is assisted by a speaker and a man in charge of the music. The work has proved to be the kind of work that the average business man is interested in and finds he can do. The Y. M. C. A. committee in charge are making plans large enough to cover the entire local field. Lloyd R. Killiam, who is giving considerable time to this work, reports that noon meetings will be started in several places during the next week and that a Gospel Team will be organized to hold its first meeting at Kalia on February 23d.

HAIR STOPS FALLING, DANDRUFF DISAPPEARS—25 CENT "DANDERINE"

Save Your Hair! Beautify It! Invigorate Your Scalp! Danderine Grows Hair and We Can Prove It! Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or a loose or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you will actually see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp. A little Danderine now will immediately double the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health. Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove to yourself tonight—now—that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—advertisement.

Upheld by the Strong Hand of The Multitude It Has Benefited. "Sanatogen has helped me!"—repeated thousands of times has, indeed, a remarkable significance. It means that individual gratitude is multiplied in a vast group whose voice of praise carries a powerful suggestion to nerve sufferers everywhere. It means that those who are feeling the depression and doubt that accompany an impoverished nervous system may find an answer—not merely from personal sources but from a multitude whose opinion has an unanswerable weight. "Helped me!"—that is the answer of Sanatogen. No trick or magic—no quick, delusive stimulant—just real help toward the restoration of the system. Sanatogen THE FOOD-TONIC helps specifically and in perfect harmony with nature by feeding the hunger of nerves drained of their strength by illness, worries or activities. It rebuilds the cells and tissues torn down by exhausting strains, refreshes the depleted energies—acts naturally by supplying scientifically combined food to the centers that need this very food. The multitude that praises Sanatogen includes over 15,000 practicing physicians who both as scientific observers and as men who have themselves felt the need unqualifiedly endorse the splendid reconstructive qualities of this great tonic food. If you will try Sanatogen you will understand this enthusiastic praise—you will feel the benefit that has won for Sanatogen the unique honor of such wide support. A Remarkable Book FREE upon request The work of a physician-author, beautifully illustrated, which tells you some really interesting things about your nervous system, facts which vitally affect your well-being and which, therefore, you ought to know. This book also tells the story of Sanatogen convincingly from the point of view of a physician, but so that any layman can understand it. Ask for a FREE copy of "Our Nerves of To-morrow." Sanatogen is sold in three sizes: \$1.00, \$1.50, \$3.00 Get Sanatogen from your druggist—if not obtainable from him, sent upon receipt of price. THE BAUER CHEMICAL COMPANY 257 IRVING PLACE New York
