## DARING JAIL-BREAK FRUSTRATED BY GUARDS

### 2 CONVICTED BURGLARS CAUGHT DIGGING TUNNEL

#### Prisoners Wrench Hammock Hook Loose and Work at Night while Howling Wind Covers Noise

Digging their way toward freedom through the weak wooden floors of the cell in the territorial prison, two desperate criminals last night almost effected a jail-break. The vigilance of guards in the prison resulted in the discovery of the plan and its quick frustration, and instead of coming up from a burrow into the free air of the front yard, the two men landed in close confinement on a diet of bread and water.

According to what High Sheriff Henry has learned of the attempted jail-break, it was the climax of a carefully-concocted plot. The two principals in the case are Howard C. Duke and John F. Bates. Both of them are types of "bad men." Both are serving sentences for burglary in the first degree. They were convicted on August 15 of this year, and Duke was sentenced to serve not less than one year and six months nor more than twenty years. Bates was sentenced to not less than two years and six months nor more than twenty years, Judge Whitney delivering the sentences.

The plot began to work out when a number of the white prisoners in the jail complained bitterly and persistently of their food. They declared it was poorly-cooked, and the prison officials were asked to make a change in the menu that preside over the prison kitchen. One of the convicted burglars, Duke, was said to be a good cook, and the little group of trouble-making white men wanted Duke put to work in the kitchen.

It was suspected even then that the object of the plan was to out the man in a place where he could get hold of knives and other iron and steel utensils that could be used in a jail-break. The old prison is none too safe, anyway, and in a number of places a little digging will free the prisoners. High Sheriff Henry refused to allow Duke to go to the kitchen.

The two men determined to make their escape at all hazards and last night appeared to be an excellent time to carry out their plan. The wind was howling about the jail and under cover of its noise the two evidently hoped to conceal their efforts to cut through the floor and dig out.

About three o'clock this morning a vigilant guard heard a suspicious noise in the cell on the lower corridor which the men shared. Quick investigation showed that the prisoners were fast cutting their way through the wooden floor, which is made of one-inch planking laid across timbers and offers little opposition to any kind of a sharp-edged tool. The men had ingeniously fashioned an instrument out of a screw which they had obtained from the wall, unscrewing a hammock to get the implement.

The men were surprised at their work and after that it was nothing but the bread-and-water diet for them. Plans have been completed for the new prison, and High Sheriff Henry is anxious to get into it, as the present structure is anything but delivery-proof. The contract for the administration building of the new jail will be let early next month, and the rest of the work will be done by prison labor. The structure when completed will be a model of its kind.

### COMPANY 1 MEN PROVE GOOD SWIMMERS

#### Splash Through Tank at Shafter in Full Field Equipment and Win Quarterly Field Day

Twenty-four dripping but delighted soldiers pulled themselves out of the big tank at Fort Shafter this morning, and by so doing pulled Company, Second Infantry, out a winner of the quarterly post field meet. The swimming contest clinched the meet for the outfit, for even if the baseball game scheduled for this afternoon goes against them, the 1 men have enough of a lead to still remain at the head of the parade.

The swimming stunt was the big thing of the meeting, for three full squads from each company were required to swim across the big tank in full field equipment, and there was considerable speculation as to which organization could accomplish this feat in the fastest time. The test was made by companies, the men taking the water in two rows, and splashing across as fast as clothes, canteens and haversacks would let them. Originally it was intended that the men

(Continued on page 2.)

### KIHEI WHARF COST AMAZES HARBOR BOARD

"If \$1100 has already been spent on that project the money has been simply squandered," declared Harbor Commissioner James Wakefield this afternoon, at the meeting of the commission, when the proposed new Kihai wharf project was under discussion. Wakefield and McCarthy both expressed profound astonishment when informed by Miss Carter, the stenographer, that of the appropriation for the Kihai wharf only about 7850 remains, the sum of more than \$1100 having been paid Hugh Howell, during the administration of Former Superintendent of Public Works Marston Campbell. It developed today that bids for the construction of the wharf had been called for, and it was learned that Hugh Howell, the only bidder, has submitted a tender of \$8,840 for the job. This is more than the commission has to spend for the job. If the \$1100 has already been paid over to Hugh Howell for the survey work previously performed.

"But we turned down that bill of Howell's," protested Col. McCarthy. "He made a survey, I remember, a long time ago, shortly after the H. K. Baldwin estate offered to give us the wharf site; but his survey, while very elaborate and ornate, was made on a site a mile away from the site of our

(Continued on page 2.)

### PLAZA WHERE THEY TRIED TO KILL TAFT

In this plaza, in the center of the city of Panama, at the Pacific end of the great canal, a bomb was exploded in a cigar stand yesterday, shortly after the President passed on his way to a ball, to be given in his honor within the building shown in the background. President Taft, from one of his latest pictures, is in the lower left hand corner of the picture.

### NEW PLUMBING ORDINANCE DOOMED BY MAYOR IN-COMING SUPERVISORS ALSO OPPOSED TO IT

#### SMITH, ALLEGED SMUGGLER, WILL PLEAD GUILTY

Entering a plea of guilty to the charge of opium smuggling and throwing himself on the mercy of the court, Norman B. Smith probably will be sentenced January 2 to pay the penalty for his crime. The case will undoubtedly be one of the first called upon when the U. S. district court convenes next Thursday. The second charge, that of violating the Edmunds Act, may be dropped, and Smith, after serving the time or paying the fine imposed, will again be a free man. Meantime he will repose in jail, making no effort to obtain further bail. The law provides a penalty of

His Honor to Send in His Veto of the Measure Soon—Message to Be a Stinger — City Fathers - elect Caucus Will Tonight Decide Definitely Upon the Bill, Should It Pass Over Fern's Disapproval

Alas for the dreams of the plumbers and those who drew up and are interested in the new plumbing ordinance. Mayor Fern plans to hit it a solar plexus blow, to the huge disgust of Supervisor Murray and the rest of the board of supervisors, which with the exception of Supervisor Low, has been back of the measure ever since its introduction. And worse far than the veto of His Honor, which can be set aside and probably will be by this board, it was learned that the incoming board, having caucused upon the measure, has about reached the determination to throw out the measure if the existing body shall override the mayor's veto

(Continued on page 3.)

#### NEWS OF FREAR SURPRISES HIS FRIENDS IN CITY

Though the expected cable from Governor Frear and Attorney General Lindsay came yesterday afternoon, it brought unexpected information, and now local friends of the party are wondering why the officials are hastening homeward.

The dispatch stated they expected setting sail at noon yesterday from Midway Island, homeward bound, stopping at Laysen Island. According to the cable of the day before from the operator at Midway, the party could not have landed there until yesterday morning. Thus their stay at the place

### TURKS FLEE FROM THEIR OWN HOMES

#### More than Hundred Thousand of them Leave Turkey in Europe to take up Farms Offered them by their Government in Asia—Plenipotentiary in London, while Declining to Discuss Terms Suggested by the Sublime Porte Call those put Forward by the Allies "Simply Preposterous"

[Associated Press Cable]

WASHINGTON, Dec. 27.—Dispatches to the headquarters of the American Red Cross Society received here yesterday announce that more than one hundred thousand Turks have left their homes in European Turkey and have fled to farms offered them by their government in Asia Minor.

This plan of the Sublime Porte to thin out the population of European Turkey is working great hardship to many, who are compelled by the officials to move their belongings in the depth of the Balkan winter, and it is reported that hundreds of the women and children are suffering severely from the hardships imposed upon them.

#### PRINCE INVADES ALBANIA

PARIS, Dec. 27.—A dispatch to the Par's Temps, the leading daily here, announced this morning that the Prince Ahmed Fuad, nephew of the Khedive of Egypt, has invaded Albania at the head of a force of more than 20,000 troops. The prince, it is said has proclaimed himself sovereign of the country, and is marching upon the capital.

#### REJECTS PROPOSALS

LONDON, Dec. 27.—Reached Paasha, chief of the peace plenipotentiaries representing the sultan of Turkey here, gave out an interview this morning in the course of which he called the terms proposed by the allies as "simply preposterous." He declined to discuss the terms, it is reported were called him by his master Tuesday, and declined to make any forecast regarding the answer which Turkey will make to the allied demands.

### Wilson At His Birth-place

[Associated Press Cable]

STAUNTON, Va., Dec. 27.—President-elect Woodrow Wilson will spend tonight in the house where he was born. The occasion is to be made quite a ceremony.

On his way to this city, the president-elect held an important conference with W. F. McCombs, his campaign manager and now chairman of the Democratic national committee. It is understood that cabinet positions were among the matters discussed. Staunton is in gala attire to receive her distinguished son. There will be a parade of school children in his honor.

### Santa Claus Senator Burned

[Associated Press Cable]

GARDEN CITY, Kansas, Dec. 27.—William H. Thompson, Democratic senator-elect and one of the most prominent men in Kansas public life, was dangerously burned last night while playing Santa Claus at a neighborhood Christmas tree. In some manner the long white cotton whistles used in his "make-up" caught fire from the candles on the tree and before he could dash off his false face, the flames had enveloped him. The doctors will not prophesy his safety.

### Indian Brave Shoots Dynamite

[Special Star-Bulletin Cable]

LOCKPORT, N. Y., Dec. 27.—John Williams, chief of Tuscarora tribe of Indians living on the government reservation for them near here, today went insane after a long bout of drinking, and taking a shotgun from a friend, fired into a large box of dynamite that was standing near, waiting for use in a local quarry. The shot exploded the box, blowing Williams into fragments and seriously injuring two of his companions who stood close by to see the fun.

### Dynamite Jury Takes Case

[Associated Press Cable]

INDIANAPOLIS, Ind., Dec. 27.—Court adjourned today until 9:30 o'clock Saturday morning, at which time the jury is expected to bring in a verdict in the union dynamiting cases. The jury is expected to take many hours in its deliberations because of the number of allied cases that have been presented to it. Attorneys both for the prosecution and the defense express confidence in the result.

### Transpacific Service Announced

[Special Star-Bulletin Cable]

SEATTLE, Wash., Dec. 27.—Formal announcement of the plans of the Hamburg-American line to install a trans-Pacific steamer service in the near future was made by representatives of the company here today. The ports of call to be made by the new service will be Hongkong, Manila, Yokohama and the Puget Sound ports.

### VESSELS COLLIDE IN HARBOR YESTERDAY; MUCH DAMAGE

The ship Falls of Clyde, now stationed at the port of Honolulu and used by the Associated Oil Company to supply visiting liners with fuel oil, lies at a berth at the railway wharf, damaged through collision to the extent of at least a thousand dollars, between 3 and 4 o'clock yesterday afternoon. The Inter-Island steamer Mauna Loa of the Inter-Island fleet in shifting from the Richards street to the Hackfield wharf shortly after three o'clock yesterday afternoon, ran afoul of the American ship with the result that the sailing vessel suffered the loss of much of her forward gear. The accident caused much excitement.

(Continued on page 2.)

### Jarrett Investigates Assault In Wahiawa

Sheriff Jarrett is now at Wahiawa investigating charges of rape brought by a Russian woman against a man claiming to have been a member of the local police force, whom it is alleged, attacked her at Wahiawa last Christmas evening shortly after eight o'clock. The woman, it is said, was badly beaten up by the brute, before he managed to overcome her resistance and force her to his purpose. She came to Honolulu yesterday, although still suffering from the effects

of her awful experience the night before and appealed to the Sheriff, but was unable to find Jarrett, although she is said to have waited for several hours to see him.

In some manner, say the friends of the woman, the report which she claims to have made to other members of the department failed to reach the sheriff, until this morning, when the investigation was at once begun.

All knowledge of the alleged affair was denied at police headquarters this morning, in spite of the fact that the sheriff was even then on his way to Wahiawa. At the high sheriff's office it was denied that a report of the matter had reached the jail, and none of the details was known, it was said. Efforts to obtain further information from Wahiawa proved unavailing.

Special prices on SAFES till Jan. 1st. to make room for new stock.

### MAKE-UP OF THE NEW ROAD COMMITTEE

L. PETRIE, JOHN MARKHAM and SAM HAREESTY have been selected by Mayor Fern as the probable members of the road committee of the incoming board of supervisors. They have already done not a little preliminary work with the city engineer and the road supervisor, and are mapping out a plan of campaign for better roads, the details of which they are keeping very closely to themselves at present. It is understood, however, that the first big work the new board will undertake is the laying of a permanent pavement on King street, and improvement work on Queen street.

BOYCOTT NOW IS THREATENED

In the refrigerated chambers of the Oceanic liner Ventura that called at Honolulu this morning...

While it is true that the consignment now carried by the Ventura is not of sufficient magnitude to make much of an impression in the receipts of the meat vendors of San Francisco...

However this may be, Honolulu received over three hundred thousand pounds of Australian beef and mutton with the arrival of the Ventura...

The vessels under construction at the yard on June 30, 1912, were: The second-class 5,000 ton cruiser Yajagi, for the Japanese navy...

The Kirishima is to be a sister ship of the cruiser Kongo launched May 18, 1912, at Vickers and Maxims shipyard, Barrow, England...

The through freight for San Francisco includes copra, wool, vegetables and refrigerated products.

One interesting item is a quantity of grass seed that is to be delivered to the Southern Pacific to be planted at the vast number of stations with a view of beautifying the premises.

Another like Niagara. A second like of the type of the Niagara which is being completed on the Clyde for the Union Steamship Company of New Zealand...

The Union Company, it is stated, is closely studying the development of the mineral resources of the island of the Phoenix Islands...

VESSELS CRASH

(Continued from page 1.) ment along the waterfront until the details of the disaster had become generally known.

The Falls of Clyde was moored to the wharf beside the Matson liner Wilhelmina, awaiting an opportunity to replenish her storage tanks from the supply depot at Iwilei.

The Matson liner steamed into the slipway, but in some manner ran into the sailing vessel, taking away a lot of rigging and gear forward.

The Falls of Clyde was torn away and a number of boys were killed. The ship was holed and a considerable amount of planking was damaged through the impact.

An estimate made last evening placed the damage done the Falls of Clyde at least one thousand dollars.

Fisher Report On Hawaii Delayed Several Weeks

By C. S. ALBERT (Special Star-Bulletin Correspondence) WASHINGTON, D. C., Dec. 15.—Recommendation for legislation and regulations, intended to better conditions in Hawaii and make the Territory more prosperous and progressive, will not be completed by Secretary Fisher for two or three weeks.

The Secretary was then up to his neck in other matters. In the meantime, Secretary Fisher has collected a great mass of data relating to Hawaiian industries and facts bearing on conditions there.

The conclusions of Secretary Fisher will be submitted to President Taft upon completion. If ready before the President's return from Panama they must be held in hand until he is again in the White House.

The Secretary says the future disposition of his report rests entirely with the President. It is supposed the contents will be transmitted to Congress by the President, with some views and recommendations of his own accompanying them.

PACIFIC MAIL SKIPPER NOW WATCHING BALKAN IMBROGLIO

Capt. Henry E. Morton Takes Cruiser and Titled Guests to Mediterranean. Captain Henry E. Morton, one of the most popular skippers on the Pacific, who has obtained a two-year leave absence from the Pacific Mail Steamship Company to pilot a party of nobility on a remarkable cruise of the world on the yacht of the Duc de Montpensier...

Plans for the cruise after the season in the far eastern Mediterranean are a bit indefinite, but it is probable that the Maund will be taken back to the Straits of Gibraltar and out into the Atlantic for a gridding of the globe by way of the South American coast, the Horn and the Indian ocean.

At all times, but a breach on this occasion will be certain to bring down the penalty on the head of the offender.

NEW YEAR'S FIRE TURNOUT

There will be a demonstration of auto fire-fighting machines on New Year's morning. Three combination chemical engine and host wagons and two tractors for steam fire engines are now part of the equipment of the fire department and will appear in the demonstration.

NEW YEAR'S MONEY FOR COUNTY WORKERS

City and county employes will have money to spend for New Year's—that is, those of them who hold on to it for three days—as the payrolls for the latter half of December were passed by the board of supervisors this afternoon.

### ORDINANCE DOOMED

(Continued from Page 1)

and pass the bill. This will mean, say the legally wise ones about the city hall, that the money spent upon the advertising and printing of the bill will be money wasted.

the measure and giving his reasons for turning down the ordinance in such a summary fashion is said to be a stinger for backers of the bill, which measure, declares His Honor, it is said, deals injustice to the weak and more than justice only to the strong. He also asserts the burdens imposed by the bill will affect the smaller plumbers, the journeymen and the men who have not capital to back them, as well as the foreigners who are making their living by the trade.

In short, Fern intimates strongly that the measure will assist in forming a plumbing trust in Honolulu, which would strangle the industry here by placing it in the hands of a few men, who would instantly increase the present prices out of all reason.

Still another reason, according to the Mayor, is that he does not "know what the incoming board will do with the ordinance." He points out that the measure will not become operative until March, or two months or more after the new board has assumed office, and hints that the body may "throw it out before it has a chance to become operative," bringing additional expense upon the county for nothing.

Fern intimates that he will veto any further appropriation bill that may come before him. He has refused to approve ordinance No. 764, appropriating some \$4510 for road work, saying that the work will have to be done under the incoming board and that as a matter of principle, he prefers allowing that body to make the necessary appropriations.

The first hearing on January 6 will be of Schedule A, fixing the duties on chemicals, oils, and paints, including medicinal preparations containing alcohol, or in whose preparation alcohol is used, perfumery, medicated soaps, and similar articles. Then will follow, on January 8, the hearing on the earths, earthenware, and glassware schedule, including tiles, china, porcelain, crockery, spectacles, marble and onyx, and grindstone.

Schedule C, metals and manufactures; D, wood and manufactures of; E, sugar, molasses, and manufactures of; G, Agricultural products and provisions; H, spirits, wines, and other beverages; I, cotton manufactures; J, flax, hemp, and jute, and other manufactures; K, wool and manufactures; L, silks and silk goods; M, pulp, papers, and books; N, sundries, beads, buttons, brushes, coal, bark, dolls, chains, gloves, plantings, plowst umbrellas and parasols, &c.

One day at the end of January will be set aside for a hearing of those interested in the free list and the administrative features of the proposed tariff legislation.

Democratic members of the Ways and Means Committee frankly admit they are up a tree regarding the sugar schedule. They do not expect that sugar can be placed on the free list, as provided in the bill passed by the House last session. They know many Democratic Senators are extremely conservative on the sugar question. They realize that at the last the schedule must be written in the Senate and accepted by the House to make perfected legislation.

Nothing definite yet. No conclusion has been reached as to how far the Ways and Means committee will go in the direction of reducing sugar duties. They may duplicate the free list bill, of last session. They may make a good, round cut and leave the Senate to boost it upward.

Democratic Senators admit they

## WORK ON REVISION OF THE TARIFF SCHEDULES HAS BEGUN

By C. S. ALBERT.

(Special Star-Bulletin Correspondence) WASHINGTON, D. C., Dec. 12.—The initial step toward revising the Payne-Aldrich tariff act has been taken. The Ways and Means Committee has held a meeting at which it was determined to take up the work schedule. It will proceed, as Chairman Underwood announced from Agate to Zinc.

All those interested in tariff matters will have the opportunity to appear before the Ways and Means committee and express their views. The hearing of all factions and faiths will begin January 6. It is proposed to devote every Monday, Wednesday and Friday, in that month to these hearings. It is believed they can be concluded by the first part of February. The framing of various measures will then be taken up. It is hoped to have a great tariff bill ready for pushing through the House when the extraordinary session is called.

Chairman Underwood is praying that the extraordinary session be called for March. Governor Wilson has indicated that it will be during April, but not mentioning the precise date. A movement is in progress to have the date advanced. This is done for the double purpose of manifesting unusual promptness and affording a fairly good rest following an expected early adjournment.

The first hearing on January 6 will be of Schedule A, fixing the duties on chemicals, oils, and paints, including medicinal preparations containing alcohol, or in whose preparation alcohol is used, perfumery, medicated soaps, and similar articles. Then will follow, on January 8, the hearing on the earths, earthenware, and glassware schedule, including tiles, china, porcelain, crockery, spectacles, marble and onyx, and grindstone.

Schedule C, metals and manufactures; D, wood and manufactures of; E, sugar, molasses, and manufactures of; G, Agricultural products and provisions; H, spirits, wines, and other beverages; I, cotton manufactures; J, flax, hemp, and jute, and other manufactures; K, wool and manufactures; L, silks and silk goods; M, pulp, papers, and books; N, sundries, beads, buttons, brushes, coal, bark, dolls, chains, gloves, plantings, plowst umbrellas and parasols, &c.

One day at the end of January will be set aside for a hearing of those interested in the free list and the administrative features of the proposed tariff legislation.

Democratic members of the Ways and Means Committee frankly admit they are up a tree regarding the sugar schedule. They do not expect that sugar can be placed on the free list, as provided in the bill passed by the House last session. They know many Democratic Senators are extremely conservative on the sugar question. They realize that at the last the schedule must be written in the Senate and accepted by the House to make perfected legislation.

Nothing definite yet. No conclusion has been reached as to how far the Ways and Means committee will go in the direction of reducing sugar duties. They may duplicate the free list bill, of last session. They may make a good, round cut and leave the Senate to boost it upward.

Democratic Senators admit they

will be unable to secure the passage of a free sugar bill. They say that a reduction of from 25 to 33 1-3 per cent will be the limit of modification, Senator Williams, a member of the Finance Committee asserts positively he will not consent to a greater reduction than 33 1-3 per cent.

Signs multiply that when the House and Senate Democrats get down to the actual business of revising the tariff they will go at the task much less vigorously than they talked about it in the campaign.

**Soup To Cook.** No chef ever serves soup as hot as he cooks it," remarked a prominent Democratic leader at the Capitol the other day. This doctrine apparently is to be applied to tariff revision, as it is to some other phases of legislation when the Democrats get into power. That is to say, it will be thus applied if a large conservative element among the Democrats in both houses can force the application. It will not be so applied if the more radical Democratic leaders have their way.

A powerful element of the Democrats in both Senate and House unquestionably is working for a tariff that will be reduced in name only. If Mr. Wilson, as President, refuses to consent to a revision that is not real, that does not cut some of the schedules radically, it is impossible to see how a clash between him and the men of the Gorman view on tariff can be avoided.

That Wilson will insist on applying the knife vigorously to the schedules is the general impression in Washington.

## MUSIC SMOTE HARSHLY THERE

Melody from a well-seasoned and time-honored guitar smote harshly upon the ears of Mrs. Johnson, an Hawaiian woman, who figured as a defendant in an assault and battery case wherein a neighbor demanded redress.

The gladsome Christmas wave of joyousness reached the outer limits of Kalia, thereby engulfing the Johnson habitation. District Magistrate Monsarrat was told this morning that the Johnson neighbors proved rather promiscuous in their wanderings and attentions. Trouble in large quantities soon loomed upon the otherwise fair horizon.

The Johnson home was visited by a man armed with a thick-tongued voice and a guitar. He began to chant airs that caused the fowls of the air to cease their warbling and the household pets to seek a more safe, sane and conservative district.

The Hawaiian youth was asked to leave the house. He demanded a sample from a well-filled bottle of gin.

First securing the drink, the fellow is alleged to have gotten too gay to satisfy the ideas of propriety held by other members of the household.

A melee was soon started in which the youth was heaved through an open window and the guitar reduced to a mass of fragments, which shattered melody-maker was introduced as evidence this morning.

The court took notice of a train of mitigating circumstances, with the result that Mrs. Johnson was released, while the complainants were plainly told to cease inflicting too subtle a tinkle of a sadly-tuned guitar upon a defenseless and unwilling populace.

Ed Miller, charged with speeding his auto, decided that he would carry the case to a higher court rather than settle for a fine of five dollars. He may set his later if Special Officer Clifton can prove his allegations.

J. C. Nunes is an auto driver who it is declared exceeded the speed limit and also announced that it was the circuit court for him.

David Kaohu was alleged by his wife to have behaved in a rather riotous manner on the eve following the celebration of Christmas.

A lecture from the bench is believed to have served a good purpose in that it will assist in harmonizing the erstwhile factions in the Kaohu household.

Officer Kellett and men in the detective department sallied forth along Hotel and Beretania streets last evening and their ears were soon greeted with the click of rolling dice and the jingle of falling coin. A raid of a Chinese lodging house brought to light a dozen men who are charged with gambling. The crowd, through counsel asked for more time in which to plead.

Deputy Chief of Detectives Kellett, has booked a charge of being unlawfully upon the premises of another, against E. T. Tannenbaum, who is held at the station pending an investigation. It is alleged that Tannenbaum entered the office of the Mutual Telephone Company and made away with some cash. The story told Kellett is to the effect that the day operator in closing the office found Tannenbaum hanging around. She claims that she was watched while secreting the key to the cash drawer.

Treasure hunters are all agog over some new information in connection with the \$84,000 in gold dust supposed to have been buried in champagne bottles in Trinity county, California, in 1852.

The Denver Chamber of Commerce has inaugurated a campaign to have a western man appointed secretary of the interior in Wilson's cabinet. No individual is named.

## NEW YEAR'S RACES HAVE GLASSY ENTRIES

Final arrangements for the New Year's race meeting were completed this afternoon, when the committee in charge of the various events got together to classify the entry list which closed at noon today. "Class" is predominant, and the races should be well worth seeing, if one can judge by the animals that will compete.

The cups and purses aggregate \$2,230, and enough money has been guaranteed to cover this amount. If good weather prevails and the public gives the meeting the patronage that it deserves, there should be a good balance on the right side of the ledger, and this amount will be put back into the meeting to be held at the time of the floral carnival.

Reserved seats and auto parking spaces are now on sale at M. A. Gunst & Co. There are only fifty auto reservations, so those who wish to attend the meeting in their cars and is assured an unobstructed view of the course had better lose no time in making reservations. The first two rows of the grand stand are reserved, by sections, not by seats, so those who get in first will secure the preferred positions in the front row. Every one who buys in the reserved section, is sure of a good seat, though, for the number of tickets will be strictly limited to the number of seats, with no over crowding.

Following is the final arrangement of the program:

**Morning Races.**  
No. 1, 1/4 mile, Hawaiian bred, \$150.  
No. 2, 1/2 mile, free for all, \$200.  
No. 3, 3/4 mile, Japanese owners, \$100.

No. 4, 1 mile, gentlemen's driving race, cup.  
No. 5, 1/2 mile, 14 1/2-hand Hawaiian bred, \$100.

**Afternoon Races.**  
No. 6, 1 mile, 3 in 5 free for all harness race, \$-00. 4 to enter, each entry to put up \$100 as sweep stakes to be added to the purse.

No. 7, 1 mile, handicap free for all, \$500 list, and 150 2nd, \$500.  
No. 8, 3/4 mile, Hawaiian bred, \$200.  
No. 9, 1/2 mile, free for all, \$250.  
No. 10, 1/2 mile, gentlemen's riding race, cup.

No. 11, 1/4 miles, free for all, \$22.  
**Auto Races.**  
Note:—Cowboy, gentlemen's driving and riding races are post entries.

**Conditions.**  
No. 8, three to enter, two to start.  
**Entrance Fee.**  
10 per cent of the purse.

## NEWS OF FREAR

(Continued from Page 1)

was not more than a few hours in length.

Before leaving home they had contemplated remaining at Midway several days, at the least. It is the only one of the group on which human beings exist and where human existence is really endurable. The Governor and Lindsay, before starting on this journey, had many vivid dreams of the long hours of uninterrupted golf-playing in which they would indulge. Apparently, they have suddenly decided to forego this great pleasure. Their friends now are asking what has caused the change in plans.

It is thought the four scientists, booked for Laysan Island, where they intend murdering all the rabbits they can find, are still aboard the *Thetis* and will embark on the return run. With the present prevailing winds the vessel will not travel as rapidly homeward bound as on the outward trip, and she is not expected to appear in Honolulu harbor before January 8 or 10 at the earliest.

## RACE OF GIANTS ON PACIFIC SLOPE

Skeleton Remains of Ancient Inhabitants Found in Santa Clara

STANFORD UNIVERSITY, Dec. 17.—Digging in mounds about two miles south of here, has led to the discovery of several skeletons of men, all of which measured over 6 feet. The investigations have been carried on for some time by Professor Harold Heath of the zoology department, and these discoveries, in connection with others, seem to corroborate the fact that the entire peninsula, as far north as San Francisco, was once inhabited by a race of giants.

Interesting instruments and ornaments found in the ruins indicate that the people attained a proficient degree in artisanship. Bone needles and awls, mortars and hammers, some of which were polished to a high degree, have been found, and the best specimens placed on exhibit in the Stanford museum, together with a skeleton in an excellent state of preservation.

While the inhabitants were large and strong, they apparently were not of a warlike nature, and seem to have been very lazy. Their principal means of livelihood was hunting and fishing. In burying, they interred their dead very near the surface, and covered the bodies with refuse.

Mrs. Betsy Storey of Carmi, Ill., celebrated her hundredth anniversary amid 200 friends gathered at her farm. She has never ridden on a train or worn a corset, but her happiness is dependent on her pipe, which she smokes daily.

## Young Man:

You must wear clothing during 1913 as was customary during 1912. Our stock has not been depleted in the least by the heavy trade of the last few weeks. Our goods keep coming right along.

Many a young man gets a benefit from good clothes that's much greater than the cost of them. We're working along that idea every day in the year and have produced in Honolulu for young men the styles and models that will give them the greatest measure of smart fashion, with the highest degree of quality-value, and without going to such style extremes as to undo the good that such clothes can do.

Youthful models, youthful colors and patterns, youthful weaves; designed and cut by special young men's experts; sizes for the big, brawny football athlete or for the small and lively "rooster."

## THE CLARION

## Latest Styles In HATS

Our stock of Hats arrived by the *Wilhelmina Tuesday*, too late for the Christmas trade, so we will offer them at reduced prices rather than keep them in stock.

We call particular attention to our line of silk fur hats, which is the latest out.

Our line of Panama and soft hats is complete in every respect.

RILEY H. ALLEN

EDITOR

FRIDAY DECEMBER 27, 1912

Manners are an art. Some are perfect, some commendable, some faulty; but there are none that are of no moment. How comes it that we have no precepts by which to teach them, or, at least, no rule whereby to judge them, as we judge sculpture and music?—Joubert.

### GOETHALS

Col. George W. Goethals, chairman and chief engineer of the Isthmian canal commission, is willing to accept the civil governorship of the Canal Zone after the canal is completed. What is more, he is willing to accept the job at a salary \$5,000 less than his present income as an army engineer.

Col. Goethals has always been known as a good deal of a man, and he proves it anew by his willingness to sacrifice financial considerations for the sake of carrying out his idea of public service. In declaring himself ready to give up \$5,000 a year Col. Goethals has in reality tossed off a good deal more money than that. Recently a number of cities along the Mississippi river started a movement to secure him to carry out a great engineering scheme of levees that would prevent the disastrous flood which the "Father of Waters" occasionally visits along the valley. Goethals could quit his present position and get fifty or a hundred thousand dollars a year from cities associated in this immense plan, but apparently he intends to see the new canal through its first troublesome days of infancy.

In this respect Goethals offers a marked contrast to Theodore P. Shouts and John F. Stevens, both of whom, after tackling the canal job, succumbed to the allurements of private offers and quit the canal at critical periods.

Col. Goethals is a different stamp of individual. He proves that there are men in public life who place service to their country above every consideration of cash. And for this example the country owes a vote of thanks to Goethals.

### UNCLE SAM GOING INTO THE OIL BUSINESS

Of particular interest to Hawaii is the executive order of President Taft exempting from entry the great area of 29,341 acres of oil land in Kern county, California. To date 67,000 acres have been withdrawn, and the resulting oil product will be used for the vessels of the United States navy. This act has been hailed as one of the most businesslike acts of Taft's administration and a particularly far-seeing thing to do in view of the controversy over the navy's use of oil.

The age of coal is certainly passing, and the navy will some day be using millions of barrels of fuel oil. Under such circumstances, the United States would be carrying out a disastrous business policy if it had to go into the market and buy oil from private owners, paying not only what it cost the producer but also the producer's profit and the original cost of the land to the producer. Two of these three price-elements—the cost of the land and the producer's profit—will be eliminated when Uncle Sam produces his own oil and supplies it to the navy at cost.

According to announcement from Washington, oil tanks will be erected as follows:

- Pearl Harbor, Hawaii—One gasoline tank, 90,000 gallons; one fuel oil tank, 1,500,000 gallons.
- Guantanamo, Cuba—Five fuel oil tanks, each 1,500,000 gallons.
- Melville, R. I.—One fuel oil tank, 700,000 gallons.
- Norfolk, Va.—One fuel oil tank, 700,000 gallons.
- Charleston, S. C.—One fuel oil tank, 700,000 gallons.
- Key West, Fla.—One fuel oil tank, 700,000 gallons.

### TRAINING THE MAYORS

Advance along the lines of municipal government is rapid. The short-ballot system, the direct primary, the initiative, referendum and recall, the plan of running a city by a regularly-employed "manager", have all been adopted by municipalities with varying degrees of success. Now comes a still more advanced suggestion to the effect that mayors of cities should be trained for their work.

Dr. Howard G. Woodhead of the University of Chicago faculty proposed this plan in an address before the City Club of Chicago. Dr. Woodhead is a noted sociologist, and his novel proposal has been given wide publicity.

"I believe the time is not far distant when our municipal officers will be trained for their work," says Dr. Woodhead. "We surely ought to demand such training, instead of expecting the mayor to depend upon others. In Germany the oberburgermeister invariably knows more about housing and similar subjects of his own city than anybody else. In America we require no technical knowledge. Mayor Gaynor said upon taking office that he knew nothing of the work of the mayor's office. Let us hope the time is coming when our mayors will know something about the many things they are supposed to direct."

Dr. Woodhead's advice is sound providing it is practical. No information is at hand to show how he proposes to educate the mayors for their work, the difficulty being that under any present elective system it is impossible to know more than a few days before inauguration who is going to be the next mayor. Perhaps there will ultimately be a university for mayors only graduates of which are eligible to run for office. Or perhaps Dr. Woodhead would have the mayoralty election a year or so before the term of office actually begins, so that in the intervening time the successful candidate may take a course in municipal training.

As a matter of fact, one of the most obvious flaws in the American system of municipal government is that usually the city officers are trained for their work on the people's time. Men are elected not on the basis of what they have done in progressive municipal work, but what they have done in the law, or in business, or, too often, in politics. Most of their first term in office is spent in learning the fundamentals of city government. Honolulu is not the only American municipality which has witnessed the unfortunate spectacle of city officials who not only had no conception of the spirit of governing a city, but knew ridiculously little of the commonest methods of conducting public business.

### SHERIFF HENRY AND THE WHIPPING-POST

High Sheriff Henry, who has declared himself unalterably opposed to the establishment of the whipping-post in Hawaii for no matter what crime, has a suggestion for another form of punishment which he thinks would be far more effective than flogging. The high sheriff says that solitary confinement is a terror to evil prisoners, and that it does not have the bestializing effect which he believes would follow the use of the lash.

The sheriff says that his experience is that flogging not only does the man under the lash little good, but the officials delegated with the duty of carrying out the sentence are nauseated or brutalized. His experience will be valuable to the Citizens' Protective Committee, which will shortly consider whether or not to recommend the whipping-post in bills that will be presented to the legislature.

### MAUD POWELL

Maud Powell is more than a mistress of the violin; she is one of the foremost of Americans. Ability, a spirit of unconquerable industry, vitalized in this woman of high character, have carried her along the road of achievement to the point where Americans may well take a national pride in her success. She has won from jealous critics of Europe a lively respect for American musicianship. Madame Powell's appearance tonight is more than a musical affair, it is an event in Honolulu's onward march along lines that mean quite as much to the ultimate greatness of the city as material progress in steel or sugar or politics or business.

The steel tariff is the first one to be tackled by the new Democratic Congress. The steel trust has just announced a beneficent plan of profit-sharing among its employees. Of course there is no relation whatever between these two facts.

If the Democrats have trouble in fitting W. J. Bryan into a convenient pigeon-hole, they might amend the Organic Act and send him to Hawaii as governor.

Gen. Sherman would probably have referred to the war of the last few days as Hellenic!

The report that President-elect Wilson is losing his grippe need not cause alarm.

Dynamite diplomacy seems to have taken the place of dollar diplomacy in Panama.

### LITTLE INTERVIEWS

W. D. ADAMS—The Kona male nightingales at the Empire are making a decided hit with the public. If you don't believe it, just take a look at this house.

D. H. GILMORE—The bottom has apparently dropped out of the coast passenger business when liners like the Ventura sail for San Francisco with less than a score of travelers from Honolulu.

JAMES ROBERTSON—Hasten the time when all the local Oceanic staff can don a new and immaculate uniform in greeting the arrival of the trans-Pacific liners. Nothing the matter with that cap.

DEPUTY CHIEF OF DETECTIVES KELLETT—That alleged speech that McDuffie is declared to have made before a delegation of Japanese at Tokyo sounds rather like a fish story. American journalism has apparently crept in under the tent in Japan.

ALEX BELL—The wet weather has held up work on the new golf course, but when the land is cleared, and the new holes made, the Country Club will have as sporty an 18-hole course as can be found anywhere. Extending the course will make better golf for local players.

LIEUTENANT J. G. WINTER—A man never knows how much he likes Honolulu until he gets away from it. I had an interesting time at the School of Musketry at Monterey, but I'm mighty glad to be back again, and mighty sorry that the Fifth Cavalry is going to leave so soon.

J. WALTER DOYLE—If the weather behaves and the public gives the patronage the meeting deserves, the New Year's Day races will be a bang up success in every way. The bigger the hit at the coming meeting, the better races we can stage during the floral festival in February.

### PERSONALITIES

H. ENGLISH is an Australian tourist who is en route to the United States as a passenger in the Oceanic liner Ventura.

A. B. CULLY, a druggist from Detroit, is a through passenger in the Oceanic liner Ventura, returning from an extended tour of the southern continent.

DR. JAMES SCOTT, a prominent London surgeon, is returning from a tour of the colonies, as a through passenger in the Oceanic liner Ventura.

H. W. COOPER, a well known automobile salesman, is returning from a business tour of Australia as a passenger in the Oceanic liner Ventura.

DR. A. N. SINCLAIR returned Tuesday from Hilo, where he has been in conference concerning the unification of the tuberculosis record system of the territory.

MESSES R. ATKINSON AND J. BENNETT, with the United States naval station at Pago Pago, are returning to the mainland as passengers in the Oceanic liner Ventura.

THE MISSES MYRA AND J. GRIMLEY were numbered among the through passengers from Australia in the Ventura. They are proceeding to the United States where they will enter school.

A. LANGEN, a German sugar and copra planter, with extensive holdings in Samoa, is proceeding to Germany by the way of the United States. He was a passenger in the Ventura from the colonies this morning.

C. C. SPINK, publisher and well-known mainland baseball magnate, has completed a tour of Australia and New Zealand. He was a passenger in the Oceanic steamer Ventura that arrived from Sydney and Pago Pago this morning.

E. J. MEEKLER, a stenographer with the United States naval station at Pago Pago was an arrival in the liner Ventura this morning. We will remain in Honolulu for some weeks. Mrs. Meekler and four children accompany him to the islands.

While eating his lunch in a plumbing shop of Winstona, Ill., a journeyman plumber learned that he had fallen heir to a \$50,000 fortune in Ireland. His employer advanced him \$100 to go in search of it.

An additional tract of oil lands in Kern county, California, has been withdrawn by order of President Taft to assure sufficient oil for future use in the navy.

A kind of hard pebble has been discovered near Clifton, Colo., of the kind used in the milling process—hitherto imported from Denmark at a great cost. The discovery of these stones in Colorado will save mine operators thousands of dollars annually.

Mexican rebels are again appearing on the border, and threaten the destruction of the Southern Pacific railway of Mexico.

### OUR OBJECT LESSON

The fighting in Macedonia is a sore subject with Germany. The Turkish army was trained and its officers educated under the German military system.—Literary Digest.

Oh, hark ye, Yankee soldiers! From far across the sea Comes the news that Turkey's fighting men were trained by Germanies!

That she faced the "Bull-Con" allies single handed and alone With a simple faith in Allah and our deified Von Rohne.

And they say that on the morning that the mighty battle broke,

That the German-tutored army vanished in a whirl of smoke; That their swords were all unsullied and their guns were all forgot. As they sought the dim horizon in a hasty Turkey trot!

A Montenegrin major gave the flying glance,

Then rolled a cigarette and scratched a match upon his pants; And spake unto his gunners, "Let 'em have a few more jolts— That is if your shells can catch 'em—they've been trained by Von der Goltz!"

A colonel of Bulgarians then tossed aside his coat

And yelled, "Come on, me hearties! Looks as if we had their goat! Just follow Uncle Fuller to yon battle's merry whirl! While we show 'em how to do it—they've been reading Griepenkell!"

Away for Constantinople the hosts of Allah sped, And the only ones that halted were the ones that stopped the lead; Quote "A Serbian lieutenant then, 'Tis evident to me That your army has been studying the books of Von Moltke!"

Said a panting Turkish corporal— from German teaching freed— "We ain't much on formation, but we sure are h— for speed!"

So they sprinted night and morning 'til their lungs were fit to burst, But they won the six-day Marathon—they reached the city first!

A tale that points a moral, 'Moat any one can see

That it's time to disregard the ways of Jackson, Grant and Lee; For the sacred Scripture tells us: "Ye know them by their works;" So we lift out hats to Von der Goltz, the man who trained the Turks!

And now while Europe trembles on the verge of deadly fray, The dove of peace is cooing in the good old U. S. A.

For, you bet, the foreign powers will leave Uncle Sam alone While our highbrows down at Leavenworth are studying Von Rohne!

And while the German eagle soars above the Balkan storm, It strikes us as a fitting time to change the uniform;

Let's get one of those shiny things they wear across the breast, And add a gleaming helmet with an eagle on the crest.

And down at sunny Leavenworth let Dutch professors rule; And build a model brewery—an annex to the school—

A marble bust of Von der Goltz resplendent in the hall, And photographs of Kaiser Bill adorning ev'ry wall.

And he who seeks promotion must subsist a solid year On pretzels, cheese, and wienerwurst, and good old German beer;

And notify the colonels—sound the warning near and far! That they've got to sing "Die Wacht am Rhein" before they get the star.

Then here's luck to the Fatherland—let's follow in her train, And all take up the goose step when we march to war again;

Our motto, "Made in Germany," triumphant over fear— Our slogan "Hoch der Kaiser!" and the countersign "Zwei Bier!" GEORGE STEUNENBERG.

### THE SUBMARINE BELL

The course had been set before the fog came down, and in the pilot house the navigator stood often with bent head, listening. His attitude was like that of the figures in Millet's painting, a prayerful, reverent listening, and well he might listen, for on every reef and lightship of the coast he was approaching was sounding a tocsin of warning and a chime of welcome and good cheer in one. In shrill tones, from each reef and lightship the anguishes of the high seas was ringing the submarine signal bell, which, in spite of storm, fog, darkness, gives ships warning of the reef and welcome to be channel.

For this is the latest device per-

# IN THE WOMAN'S WORLD

## HELEN GOULD, NOTED WOMAN OF CHARITY, TO MARRY RAILROAD MAN

LAKEWOOD, N. J., Dec. 15.—Announcement of the engagement of Miss Helen Miller Gould of New York to Finley J. Shepard, a prominent railroad man of St. Louis, was made this afternoon at the residence of Mr. and Mrs. George J. Gould here. It was said that the announcement of the time and place of the wedding would be withheld for the present.

Gould made known his sister's engagement in a formal statement, which read:

"Mr. and Mrs. George J. Gould announce the engagement of their sister, Miss Helen Miller Gould, to Mr. Finley J. Shepard of St. Louis."

**Fortune Trebled**  
Upon the death of her father, Jay Gould, in 1892, Helen Gould then 24 years old, inherited a fortune of about \$10,000,000. It has been estimated that by investment she has trebled this fortune and at the same time devoted fully half of her time to benefactions which brought her into world prominence.

She began her benefactions during the Spanish-American war when she gave time and several hundred thousand dollars for the relief of sick and wounded soldiers, for which she received the thanks of congress. In 1899 she led a woman's movement for the unseating of Brigham H. Roberts, congressman from Utah, as a demonstration against polygamy. Later she became devoted to the interests of railroad employes, and toward the establishment of the Railroad Young Men's Christian Association she gave her personal attention and upward of a million dollars. Several Railroad Y. M. C. A. buildings, others for naval men and several for the Young Women's Christian Association have been erected in cities through her generosity.

### Entertains City Waifs.

One of the unique forms of her charity has been the personal receptions she has given to hundreds of city waifs and self-supporting women at her estate near Tarrytown, N. Y., which includes a great playground especially fitted up for these parties. She never has been attracted by society.

Only last July, Miss Gould figured in a controversy with Rev. Elmer F. Huffer of Grand Junction, Colo., when he dealt severely with "bachelor maids" in a sermon, declaring spinsters should be isolated.

Miss Gould was quoted as replying that he did a great injustice to the bachelor maids, particularly to those who were devoting themselves to ideals for the advancement of civilization. As to her own case, she said:

"If I had found a suitable helpmate I might have spent my money in a different way, and a way which might not have done as much good as it has."

Since the death of her parents Miss Gould has been the intimate friend of Mrs. Rusel Sage, who has been one of her advisers in business and philanthropy.

### Fiance Minister's Son.

ST. LOUIS, Dec. 15.—Finley J. Shepard met Miss Gould soon after entering the operating department of the Missouri Pacific-Iron Mountain lines in June, 1911. He accompanied Miss Gould and her party last March over the Denver and Rio Grande when she made a tour of inspection of the railroad's Y. M. C. A. buildings. A close friendship sprang up from that trip.

Shepard is 45 years old and the son of a Connecticut minister who died recently. He has been in railroad work since 1889. Before entering the service of the Gould lines he was with the Northern Pacific and the Santa Fe. When B. F. Du-h, president of the Missouri Pacific-Iron Mountain lines, was chosen president of the Denver and Rio Grande in January, 1912, Shepard was selected as his assistant, and only his appointment as assistant to President Bush on the Missouri Pacific-Iron Mountain with jurisdiction over all departments was announced.

### POLICEWOMEN GUESTS OF N. Y. CITY CLUB

NEW YORK, Dec. 14.—Mrs. Alice Stebbens Weils, wearing the grab uniform and silver badge of the Los Angeles police force, and Mrs. Isabella Goodwin, first-grade detective in the New York Police Department—a post never before filled by a woman, which she won by rounding up taxicab holdup men—were guests today at the first Saturday luncheon of the City Club of New York.

The arrival of the woman police officer," said Mrs. Weils in her speech, "is a striking commentary upon the changed conditions of our day. During the last half century the world has been frequently reminded that women could not be police officers and could not be soldiers. The police officer has arrived as a perfectly normal being and to fit a legal need.

"The battle of the future will be intellectual and moral battles, and the vast army of women have been studying and working to prepare themselves, as no body of soldiers has ever done before, to help wage a victorious warfare against the forces that would destroy the race."

### DAUGHTER OF 'HAWAIIAN ROYALTY' ENTERTAINED

LOS ANGELES, Cal., Dec. 16.—Madame Levina Chapman, a descendant of the royal family of Hawaii and the owner of numbers of coconut groves as well as of the Hotel Tiaré on the island of Tahiti, will arrive in Los Angeles tomorrow accompanied by her two daughters, Misses Freda and Dora Gooding, aged, respectively, 18 and 15 years.

It is said that a wealthy young man of Los Angeles has expressed a desire to wed Miss Freda. Madame Chapman and her daughters will remain in Southern California for several months. The elder daughter and her mother will be the guests of Mrs. A. Lachman, 1942 Grand avenue, and the younger daughter will enter the Notre Dame convent in Alameda.

## AMUSEMENTS

### 'THIRD DEGREE' AT THE BIJOU HOLDS AUDIENCE IN FIRM GRIP

#### Virginia Brissac and James Dillon Share the Honors in Chas. Klein's Thrilling Story of Police Brutality

Out of the muck of "musical comedy" that is not musical and not comedy, which has been hurled at Honolulu of late, the work being done by the World's Fair Stock Company stands out like the "little candle" of the poet. This is especially true of Charles Klein's "Third Degree," the play that company put on at the Bijou theater last night. It is a "problem play," only in so far as it deals, or attempts to deal, with actual conditions in the police departments of the great cities of the mainland. In vivid presentation of character, in the way of theatrical possibilities in telling a story, in the acute sense of the value of contrast, in short in the arts of the dramatist, the playwright shows himself a master of his craft, and tells a story that thrills to the outset.

And no less do the actors who portray Klein's characters on the stage prove their claim to be called artists of stellar calibre. There are one or two parts in the cast which fit their respective wearers like ready-made clothes, but for the rest, their roles are as creaseless as the garments of a Bond street tailor, whatever that may be. Naturally Miss Virginia Brissac, the pretty actress with the French name, deserves and gets the lion's share of the attention from the time she appears on the stage until the last curtain comes rattling down—the curtain rattles a bit at the Bijou, as you may have noticed.

She is delightful, sweet, compelling, tragic, womanly—but why go on with the adjectives. She is all that an actress should be, and one feels almost sorry that her role compels her to wear, what to even the masculine eye, looked an extremely dowdy costume. In spite of this her charm showed through. In several of her scenes she lacked repression, but on the other hand the part of the daughter of a convict, who had made her living as a factory girl and a waitress in a cheap restaurant, hardly calls for repression. She strips the character of Mrs. Harold Jeffries, Jr., to the bones for her audience, and she keeps the stirring story of the play moving fast.

The same, or at least as much of the same applies to an actor, can be said of James Dillon, as Richard Brewster, the attorney, who is called into the fight for the life of Harold Jeffries, Jr., by the pleadings of Mrs. Jeffries, evidences a mastery of the technique of his art that is simply delightful to the play hungry Honolulu. Dillon would be worth the price of admission by himself.

Several other characters stand out of the ruck. Chief among them is Miss Margaret Nugent and Howard Robert Underwood. Rodney Brandt, Mr. Dennington, Harry McLennan, Richard Brewster, James Dillon, E. Bernstein, Lindley Puppis, Capt. Clinton, Frank Cooley, Det. Sergt. Maloney, Ed. Harford, Mr. Jones, Ray Hanford, Elevator Attendant, Malcolm Smith, Servant at Brewster's, Ruth Van Mrs. Howard Jeffries, Jr., Virginia Brissac.

appeared as Mrs. Howard Jeffries, Sr., the "villianess" of the piece only there was no villainess in "The Third Degree," who held the secret of the "murder" in her clasp and did not want to let it go for fear of what the lawyers call "incriminating herself." Howard Nugent was the Roman father, the callous society man, who had cast off his son because of the boy's marriage with the little waitress, and whose only thought was to escape the disgrace which any connection with the affair would attach to himself. Both of these proved themselves sterling artists, of the character rarely seen in stock, nowadays.

One other character deserves a word. John C. Wray, who, so the program informs us is responsible for the whole production, played the role of Howard Jeffries, Jr., the weak, lovable drunkard, whose brutal treatment by the police in forcing from him a "confession" of a crime he had not committed gives the theme of the play. He does all his work well.

Just a hint to the gentleman who plays the police captain. In hypnotizing a "subject" it is best not to yell.

### SECOND POWELL CONCERT MONDAY, DECEMBER 30

Those who have reserved tickets for the second recital of Maud Powell dated Jan. 2 will be glad to know that a week does not elapse between the first and second recitals as had first been planned. Owing to an engagement which was made after Madame Powell had left for Honolulu she will not be able to remain here as long as she had anticipated. The date of the second recital was necessarily changed from Jan. 2 to Monday, Dec. 30.

At the recital tonight in the Hawaiian opera house there will be one of the largest gatherings of locally prominent musicians and music lovers that Honolulu has ever known. The house has been sold out for tonight and tickets are going very fast for the second performance.

### NEW FILM SERIES AT THE HAWAII

The cozy and comfortable Hawaii has on for tonight a series of films that are said to be the finest ever thrown on a screen in Honolulu, so say those who saw the tryouts of the new films. The chief feature film is entitled "Tenderfoot Roundup" and to those who have seen some of the cowboy films at the Hawaii there need be nothing more said. It is simply a side-splitter. A second film is "The Tramp's Dog" and brings out all that is so nearly human in the dumb brute. Carpet weaving in France is another instructive and most interesting film. "Through the Agony Column" is a most interesting film. "An Arizona Romance" brings in the general operations of an ostrich farm mixed with love and revenge completes a program that is well worth a visit. It is all at the Hawaii.

### LAND SALES TOMORROW

Seven pieces of land in Waialua will be sold at the rooms of the J. F. Morgan Co. tomorrow noon. At the same time a piece of land at Aala, Honolulu, belonging to John Loti Kalani, or Sebastian Kaubikou, the Hawaiian singer now of Paris, will be sold.

### KONA GLEE CLUB PLANS A CONCERT

A concert is to be given next Monday night at the K. of P. Hall by the Kona Glee Club. The singing of this organization has pleased all who have been fortunate enough to hear them and the music-loving people of Honolulu should take advantage of this opportunity to enjoy delightful music. Their repertoire includes the best in English male quartet and the songs that have made Hawaii famous. If you enjoy Hawaiian music, do not fail to hear the club for these singers know how to bring out the beauty of the melodies of the native race. The club is composed of men possessed of good voices and their singing is harmonious and shows good training. A good program of new songs and instrumental selections have been prepared for the evening's entertainment.

#### LECTURE POSTPONED.

The lecture of Dr. A. L. Andrews, which was to have been given tonight to the members of the local Scottish Thistle Club, has been postponed. No definite date of the delivery of this address, which is to be upon Sir Walter Scott, has been set as yet. Due notice, however, will be given.

### POISONOUS TABLETS ARE DANGEROUS

In every household you will find among the toilet necessities some sort of a germicide, in the form of either a tablet, solution or powder. Many of these antiseptic preparations contain poisons.

The value of an absolutely harmless antiseptic powder, as compared with a poisonous tablet or solution, is apparent to every one, and that is one reason why physicians everywhere have strongly recommended Tyree's Antiseptic Powder. Dissolves instantly in water, and when used as a douche is unexcelled. A 2-cent package makes two gallons of standard solution. Sold by druggists everywhere. Send for booklet and free sample.

J. S. Tyree, Chemist, Washington, D. C.

### SEEK CHANGE IN UNIFORM

Between fifty and sixty officers and employes with the federal customs service in the territory of Hawaii, have some reason to believe that their petition for a change in the uniform prescribed for this branch of the service will receive belated attention.

For years the men on the local staff of customs inspectors and watchmen have been at a loss to understand just why they should be obliged to wear a uniform of the weight, texture and color as that donned from January to July by their brethren in the customs service at Port-au-Prince, Me., New York City, Detroit or Jamaica, Alaska.

A new circular letter, issued by the United States treasury department calls attention to some rather radical changes of more than peculiar interest to the local customs force. For instance: they are informed that the uniform heretofore prescribed for certain customs employes has now been amended to authorize and require all officers connected with the department in the district of Brazos de Santos, Corpus Christi, Salleria, Paso del Norte, the district of Arizona and the district of San Diego, to wear a uniform of drab colored cloth of light material instead of the regulation blue.

The contention has always been raised by the local staff that the present uniform, required by the federal government, was never adapted to the needs and conditions to be found in the tropics.

It is now predicted that in view of the new regulation which effects the southern districts of the United States, Collector Stackable stands in line to secure a much-sought-for change for the better, should he take steps to have the district of Hawaii incorporated in the list of those, now known to possess a tropical climate. The average customs uniform in use at the port of Honolulu is much similar to that worn by a federal inspector in New York city throughout the coldest months. Following one of the many unreasonable federal laws, promulgated before the United States government ever dreamed of becoming the guardian of a series of insular and tropical possessions, the men in the customs service are compelled to procure clothing along exact lines as that prescribed for all ports of entry in the United States. The possibility of a change will be much welcomed here.

### ALLEGED BIGAMIST LEFT COAST RECORD

John C. Steele, the Rapid Transit employe arrested here for alleged bigamy under the name of Clark, has left considerable of a record on the coast, according to news contained in the San Francisco Chronicle of Dec. 15. Steele, alias Clark, was arrested and has been released on bond to await the action of the grand jury. The Chronicle tells of his previous record as follows:

"United States District Attorney John L. McNab yesterday forwarded to Honolulu affidavits of John C. Steele, formerly a United Railroads' motorman in this city, which McNab expects will convict Steele of the charge he is now held upon—that of bigamy.

Steele, according to McNab, was married here in October, 1908, to Miss Teresa Sciaroni of this city. Eighteen months ago he is reported to have deserted his wife, fled to Honolulu and remarried, taking for his second wife, a belle of the islands, his wife—wife No. 1—to whom he was wedded in Holy Cross church by Father Francis McGinty, was unaware of the place to which he had fled, but recently went to Oregon to search for him, basing her hopes on a clew forwarded by a friend.

"The presence of Steele, also known as Clark, in Honolulu, and his second marriage there, were made known by United States Attorney Breckons of Honolulu in a cablegram to McNab and a brother of Steele's first wife, James Sciaroni, yesterday made the affidavit concerning his sister's marriage. While the United States law contains no provision for the prosecution of bigamy, it is provided that when an offense against the state, not mentioned in the federal statutes, is committed, the state law is annexed to the federal statute. For that reason, Steele will be prosecuted by the government."

### CLEANS THE HAIR AND MAKES IT BEAUTIFUL—25 CENT "DANDERINE"

In a Few Moments Your Hair Looks Soft, Fluffy, Lustrous and Abundant—No Falling Hair or Dandruff

Surely try a "Danderine Hair Cleanse" if you wish to immediately double the beauty of your hair. Just moisten a cloth with Danderine and draw it carefully through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or any excessive oil—in a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.—advertisement.

### SOCIETY PEOPLE TAKEN IN A GAMBLING RAID

Prominent Persons Captured When Resort in London Is Broken Up

LONDON, December 17.—Details which came out in court today in regard to a sensational raid last night on a West End gambling-house show that the place-raided was one of the largest gaming establishments in London. The raid took place at 6:30 p. m. Three young married women and all the men captured held good positions in society. A night raid would inevitably have resulted in the capture of dozens of members of Parliament and possibly a member of the Cabinet.

When Detective McCoy first broke into the game as "Mr. Charles Harris" of the Bachelors' Club, he gave as the name of his sponsor that of an American peeress. He was told that she was known, but did not play there, going to another house of a similar sort. A jockey who lost \$17,500 at this house is said to be Randall, who, before he became a professional, was one of the finest amateur riders in England. A woman who lost 140,000 is the widow of a big dry goods merchant, who, since she came into her husband's immense fortune, has been contributing largely to several West End gambling halls.

William Marshall Grosse, the croupier, and Roy McRay, the lessee, were arrested as the principals. The former is supposed to be the grandson-in-law of Sarah Bernhardt.

Some idea of the tremendous profits made at this house was gleaned from McRay's bank account. In September it amounted to \$65. When arrested he had \$180,000 to his credit. Chemin de fer was played exclusively, and the house had a 10 per cent rake-off.

### BLOOD QUALITY

is a health barometer because we live by it and on it; with poor blood we are languid, tired, susceptible to colds—lack natural energy and ambition, but this condition can be promptly corrected with **Scott's Emulsion**—abounding in blood-making properties, rich in tissue-building material and so medicinally effective that it compels vigor, vitality and gives blood-quality.

Scott's Emulsion gives physical and mental force for child or adult.  
Scott & Bowne, Bloomfield, N. J. 12-115

### Our Work Speaks For Itself

Have you noticed the sign—

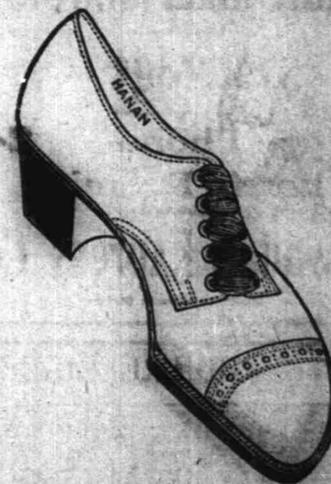

**"Electric Work  
Being Done By  
the Honolulu  
Electric Co."**

on all the new buildings that are being erected? There must be merit in our work, and our prices are right.

We give Estimates on all kinds of Electrical Work.

### Honolulu Electric Co.,

COR. BISHOP AND KING STS.

### A Hanan Product

That enables us to fit the shoe to the foot rather than the foot to the shoe.

NOTE THE LINES

**M'Inerny's Shoe Store**

FORT STREET ABOVE KING STREET.

### We Have It

THE FIRST LAMP SOCKET
