SHIPWRECKED CREW ENROUTE TO MAINLAND

Men of Schooner Eldorado Were Compelled to Resort to Clover as Food

TERRIBLE BATTLE FOR LIFE NECESSARY, SAY SURVIVORS

Received Utmost Kindness at Hands of Natives and Residents of Easter Island

So weak and famished that they fell upon a field of clover for food, almost denuded of clothing, with body and feet covered with sores due to a season of terrible exposure to a tropical sun and a continuous deluge of sea water that at times would threaten to swamp a small ship's boat bearing 11 men, a party of shipwrecked sailors with Chief Officer J. Wilson of the ill-fated American schooner Eldorado was picked up at Easter Island and taken to Sydney, N. S. W. They are now returning to the United States as passengers in the Oceanic liner Ventura that arrived at Honolulu this morning.

Eleven days in an open boat, subjected to the ravishing pangs of thirst, hunger and its attendant train of distressing ailments, the little party then under the command of Captain J. Benson were obliged to leave the battered and wrecked lumber laden Eldorado in the Mid-Pacific on June 12. The Eldorado from Puget sound for Valparaiso met with a storm, the wind rising to the pitch of a hurricane carrying every thing before it, and causing the Eldorado to leak at a rate of several inches an hour.

Practically destitute, but having been provided with clothing and transportation, seven men, including a Japanese mess boy are on the way to San Francisco, where their pitiable case will be brought before the authorities and the owners of the lost schooner.

It was a terrific battle for life waged by the men in the Eldorado. The story of the wreck is now well known, as Captain Benson and three men reached San Francisco the earlier part of December after a voyage of 1400 miles to Tahiti, where they connected with a vessel bound for the Golden Gate.

The little party which today is in Honolulu spent the greater part of three months on Easter Island, a small isolated spot in the southeastern part of the Pacific, before the British steamship Knight of the Garter, with a damaged propeller put into one of the more sheltered bays along the coast of the islet for the purpose of making temporary repairs. The distressed men then made their presence known to the commander, who in departing from Easter Island some days later gave the castaways a passage to Sydney, N. S. W.

Lost Everything. Until the last moment the battle

HUSBANDS AND WIVES AFFECTED BY INCOME TAX

Important Ruling Received by Collector Cottrell from the Washington Office

EXEMPTION MAY BE MORE IF COUPLE SEPARATED

When Living Together, Entitled to Deduction Only from Net Income of Both

Husbands and wives all over the territory are affected by the provisions of the new federal income tax law, and there are some peculiar and interesting regulations in it, according to an important communication received yesterday by Collector of Internal Revenue Cottrell from Washington.

For instance, a husband and wife living together may have to pay considerably more than a husband and wife living apart.

The ruling says: "Regulations regarding the specific deduction provided for under paragraph C of the provisions of section 2 of the income tax law of October 3, 1913, relative to the returns of husband and wife.

"Every single person, and every married person not living with husband or wife in the sense below defined, who has a net income exceeding \$3000 per annum, is liable to pay the normal income tax under this law, but in making return for such tax may claim an exemption of \$3000 from their total net income.

"Husband and wife living together are entitled to an exemption of \$4000 only from the aggregate net income of both, which may be deducted in making the return of such aggregate income for taxation. However, when the husband and wife are separated and living permanently apart from each other, each shall be entitled to the exemption of \$3000.

"If the husband and wife not living apart have separate estates, the incomes from both may be made on one return, but the amount of income of each, and the full name and address of both must be shown in such return.

"The husband, as the head and legal representative of the household and general custodian of its income, should make and render the return of the aggregate income of himself and wife, and for the purpose of levying the income tax it is assumed that he can ascertain the total amount of said income.

"If a wife has a separate estate managed by herself as her own separate property and receives an income of more than \$3000, she may make return of her own income, and if the husband has other net income, making the aggregate of both incomes more than \$4000, the wife's return should be attached to the return of her husband, or his income should

WILL DR. SUN BE PERMITTED TO LAND HERE?

Report That 'Chinese Liberator' Is On Way Arouses International Question

PROBLEM WILL REQUIRE WASHINGTON'S ATTENTION

Under Immigration Laws, Refugee Is Probably Affected by Chinese Exclusion Act

Dr. Sun Yat Sen, founder of the Chinese republic and now a political refugee, has suddenly brought to the front a question of international interest with Honolulu as the center of the difficulty.

The report that Dr. Sun is on his way to Hawaii has raised a problem with the local immigration authorities that will require reference to Washington. Will the "great liberator" land in Honolulu or will he be refused admittance.

The rumor that Dr. Sun will shortly arrive here on a liner from Japan has brought the matter up sharply and it may be stated that the problem is now under consideration by Inspector in Charge Halsey, of the federal immigration station here. While declining this morning to discuss the probabilities, Inspector Halsey said, in response to a question by the Star-Bulletin, that several knotty points will come up in case the Chinese revolutionist carries out his intention of returning to Hawaii, where he lived many years before going to China to overthrow the Manchu dynasty.

A problem that involves as weighty questions and will attract as much attention as that of the Cipriano Castro case in New York is the Dr. Sun case. The two cases are not similar in many respects; in some respects the considerations are much the same.

Cipriano Castro, ex-dictator of Venezuela, after vainly trying to regain power by heading a revolution, attempted to enter the United States. The Ellis island immigration authorities refused him admittance and the case spread into world-wide notice. In the end Castro was barred under the provisions of the law which deny entrance to aliens guilty of a crime involving moral turpitude.

Castro was a political refugee. So is Dr. Sun Yat Sen. But so far as the U. S. immigration authorities are concerned, it is not known that they have any information on which to base a ruling that Dr. Sun is an alien guilty of a crime involving moral turpitude. Furthermore, is Dr. Sun an alien?

That is a question that may require a decision in Washington. Dr. Sun was born in Hawaii, thereby being born a citizen of the United States. He went to China and helped set up the republican form of government. Under the federal laws, it is likely that he has expatriated himself, and if so, he is an alien.

Section 2 of the law relating to expatriation, effective March 2, 1901, says: "That any American shall be deemed to have expatriated himself when he has been naturalized in any foreign state in conformity with its laws, or when he has taken an oath of allegiance to any foreign state."

Dr. Sun, it will be remembered, supported the republic under Yuan Shih-kai for some time after it was founded, and it is believed that he has expatriated himself as an American citizen under the meaning of the statute quoted above.

In that case he must now be regarded not only as an alien, but as a Chinese citizen, and is thus affected by the Chinese exclusion act. Under this act, only merchants, students and travelers are "exempt" and allowed to enter the United States. Had Dr. Sun come here immediately after the first revolt, it is possible that he would have been admitted, the authorities probably taking the position that as there was then no settled form of government in China, he could not have become a Chinese citizen.

When the various questions were brought up to Inspector Halsey this morning, he was interested but declined to commit himself by expressing an opinion as to any course of action.

At the Chinese consulate office this morning it was stated that the consul had nothing to say on the subject.

FEDERAL WIRELESS TO GIVE 24-HOUR SERVICE MONDAY, SAYS REPORT

An announcement was made this morning to the effect that beginning Monday morning, the Federal Wireless Telegraph Company will inaugurate a 24-hour service and will be in a position to receive and transmit messages at all hours of the day and night. The test recently given both in Honolulu and on the mainland was lately completed, and the fact that it was found devoid of flaws is given as the reason for starting the new service at this time.

SCHOOLS WILL PARTICIPATE IN FLOAL PARADE

Eight Automobiles and Large Float Being Prepared by Students for the Carnival

CHAIRMAN OF COMMITTEES TO MEET THIS AFTERNOON

Garden Island Will Enter Very Elaborate Exhibit, Declares Rev. M. Lydgate

CARNIVAL MEETINGS TODAY.

The chairman of the several carnival committees will meet with Director-general James D. Dougherty in the rooms of the Merchants Association, Young hotel building, at 4 o'clock this afternoon.

The chairman of all the committees of the Mid-Pacific Carnival will meet with Director-general James D. Dougherty at 1 o'clock this afternoon in the rooms of the Merchants Association. The gathering will be an important one from the fact that but little more than three weeks remains until the opening of the celebration and all of the committees have been doing preliminary work upon which reports are necessary at this time.

There are 36 committees on the various features of the program and in several cases the duties of these committees make it necessary for them to keep in close touch with one another. It is expected that important, as well as interesting reports will be submitted this afternoon.

The public schools of the city began work today on the decoration of eight automobiles and a large float, and Ed Towse, chairman of the committee on this feature, is enthusiastic. The matter has been placed in charge of Mrs. Frederick Carter, principal of Central Grammar school by Superintendent T. H. Gibson, and the former has lost no time in getting together material for the decorations. The schools which will enter floats are Normal, Kaahumanu, Lihouka and Royal, Central Grammar, Kaimali, Kaimali-waena and the McKinley high school.

The large float, which will be an elaborate affair, will represent the entire school body. It is proposed to have a large number of children on this float, garbed in suitable costumes representing the many races found in the institutions in Honolulu. This public school entry of eight decorated automobiles and a float is by far the largest showing the schools have ever made in a local parade. The pupils will do their own decorating under the guidance of teachers who are already planning the designs.

Rev. J. M. Lydgate of Kaula, who arrived in Honolulu yesterday on matters connected with the part which the Garden Island will play in the carnival next month, has informed the director-general that the mechanical effects of that island's float, which will be a representation of the famous "Spouting Horn," have been completed and have been given a thorough test. The reproduction, with its spray and whistling buoy effect, is remarkable, says Mr. Lydgate. Kaula has appointed its princess, Mrs. James K. Kula, who, it is expected, will ride in the parade on the horses belonging to Francis Gay.

NAVAL DOCKS FOR SWIMMING EVENTS OF MID-PACIFIC CARNIVAL

Pearl Harbor, Jan. 22, 1914.

James D. Dougherty, Director-general, Mid-Pacific Carnival, Honolulu.

Sir:—I have this day received a communication from the secretary of the Navy granting, as requested in your letter of December 29, 1913, the Mid-Pacific Carnival the use of Naval Docks 1 and 2 for February 21, 1914, "providing no government business suffers through such use."

Very respectfully,
(Signed) C. B. T. MOORE,
Rear-admiral, U.S.N., Comdt.

The foregoing letter, received from Rear-admiral C. B. T. Moore yesterday by J. D. Dougherty, director-general of the 1914 Carnival, relieves the swimming events committee of the celebration of one of its principal worries, for it had been feared that some legal obstacle might lie in the way of the use of the two naval docks on which to erect bleachers to seat the large crowd which is expected to attend the aquatic festival. These docks are by far the best for that purpose and afford the only good swimming course for the championship races.

The matter of securing the permission of the navy department to use the docks was an important one. Some time ago Director-general James D. Dougherty addressed a letter to Rear-admiral Moore and the public on the subject of securing the docks, and the admiral replied that

Enver Bey, New Minister of War of Turkish Empire

Recent telegraphic dispatches from Constantinople carry the news that Enver Bey, at one time leader of the Young Turk party, and formerly Turkish military attaché at Berlin, has been appointed minister of war of the Turkish empire in place of Izzet Pasha, resigned.

The choice of Enver Bey is regarded as likely to rouse once more the anger of Russia, owing to the new minister's close friendship with Germany and the German emperor.

The presence of Enver Bey at the war office in conjunction with the recently appointed German military mission for the reorganization of the Turkish army, will solidify Germany's relations with Turkey.

BISHOP HARRIS RETURNING FROM WORK IN JAPAN

Has Spread Gospel in Orient for 40 Years—Going East to Broaden Scope

To spend 40 years of one's life in the endeavor to infuse the spirit of Christianity into the minds of the people of two nations, and to be successful in the undertaking is the unique experience which has befallen Rev. Merriman Colbert Harris, missionary bishop of the Methodist Episcopal church for Korea and Japan, who is a visitor in Honolulu en route to New York City, not on a vacation, but to secure further assistance so that he may broaden the scope of the great undertaking which he founded and has since carried out.

It was 40 years ago that Bishop Harris was sent to Japan by the Methodist board of missions and opened a little mission in Yokohama. At first he was allotted a three-mile radius in which to carry the message of Christianity; today he is recognized as the Methodist bishop of all Japan and Korea, is known and respected by nobility and peasant alike, and is considered the most influential man in the entire empire.

When seen at the Young hotel this morning, the bishop chose to speak not on the work of Christianity in Japan 40 years ago, but of the work which is being done today.

"In Japan we have a national federation of Methodist missionaries, the annual meeting of which has just been held," he said. "The address of the president, setting forth the events of the year, was very encouraging and showed that throughout the entire empire the churches are working in harmony. In similar reports, the representatives from the several Japanese denominations pointed out that the past year was the most successful one ever experienced. At that meeting it was decided that the churches would unite in a three-year evangelistic campaign. This campaign will be launched next month, and 50,000 yen will be raised to finance the undertaking."

"The meeting of the minister of education with the representatives of the three Japanese religions, held recently in Tokio, created considerable interest. A general agreement was made to the effect that, in future years, it will be

(Continued on page three)

GOLF TOMORROW.

There will be a medal play competition at the Country Club tomorrow afternoon, for which two drawings will be made, one at 1:30 and the other at 2:30.

Mrs. Charles E. Maud has offered a handsome cup for competition among members of the Oahu Country Club, but to date the grounds committee has not fixed the time of play or conditions of the event. This cup will not be played for tomorrow, but at some future time when all members can have ample notice.

MORE FORTIFICATIONS FOR OAHU REVEALED IN ANNUAL ARMY APPROPRIATION BILL

Measure Introduced Shows Extensive Land System to be Carried Out in Future in Addition to Present Forts—Congressional Approval Asked For Guns Already Sent Here

WASHINGTON, D. C., Jan. 23.—Hawaii's fortification against possible invasion by a foreign foe is to be greatly extended and rushed to completion under the Democratic administration, according to important plans revealed today, when the annual army appropriation bill was reported to the house.

The bill, reported by Representative Swagar Sherley of Kentucky, of the committee on appropriations, shows that an extensive land system of fortifications is proposed for Hawaii, the island of Oahu to be made impregnable. For fortifications the bill would provide \$457,000.

It is part of the war department's plan to establish a strong military base supplemental to the Hawaiian naval base at Pearl Harbor.

At the request of the war department, the same measure would give congressional approval to the transfer of 48 pieces of artillery for the territory and insular possessions. The guns were sent to the Philippines and Hawaii without congressional approval.

The bill appropriates \$5,175,200 altogether.

The above cable indicates that the plans of the Macomb board relating to the land defenses of the island, are to be carried out immediately. Four hundred and fifty-seven thousand dollars will only complete about a third of this work, but it is presumed that the entire appropriation may be spread over three years.

"This is good news," said Lieutenant-colonel John F. Morrison, a member of the Macomb board who reached Oahu two weeks ago to make a supplemental investigation, and who leaves this afternoon on the Ventura when shown the above cable. "I went before the military committee in session and urged that the entire amount for Hawaii's defense be immediately appropriated. The sum mentioned will go a long way for a start."

Neither Colonel Morrison or Major Conklin, chief of staff, was able to throw any light on the reference to 45 pieces of artillery. It is possible, however, that this is part of the ordinance rushed to Hawaii last May, although the number does not agree with the number received.

At department headquarters considerable interest was shown in the message, the Star-Bulletin cable being the first word received by local army officers of the details of the appropriation bill.

United Mine Workers Take Some Power From President

INDIANAPOLIS, Ind., Jan. 23.—A step to take from the executive officers of the United Mine Workers much of the power which, it is claimed, they have been using arbitrarily, was taken today when the Mine Workers in convention voted to place the right to appoint the "wage scale committee" in the hands of the delegates to the convention. This right has heretofore been exercised by the president.

Crown Prince Frederick Has Narrow Escape From Assassin

BERLIN, Germany, Jan. 23.—An unsuccessful attempt to assassinate Crown Prince Frederick Wilhelm was made today when the crown prince was alighting from his automobile at the palace grounds. The entry overpowered the man who made the attempt. No details of the attack are yet known.

Panama Railroad Legislation U

WASHINGTON, D. C., Jan. 23.—The bill introduced by Senator Brewster of Kansas, amending the Alaska railroad bill, and which authorizes the president to lease a Panama road to the Panama railroad, a government-owned stock company, was carried today in the senate.

(Additional cable on page twelve)

KEALOHA CASE NEAR JURY

HILO, Jan. 23.—The closing arguments on the case against Supervisor John Kealoha began at 1:30 o'clock this afternoon and it is expected that the fate of the supervisor accused of grafting will be in the hands of the jury tonight. There is some strong expectation, based on the court's ruling through the trial, that the charges will be rather favorable to the one taken by the prosecution. It is thought that the court may instruct the jury to convict unless the jurors believe the evidence perjured. Many expect a hung jury. There is much interest in the outcome.

COMMITTEE POINTS OUT NEED OF BOARD OF CENSORS HERE

Several speakers, including leading educators of the territory, and four most social workers of the city, appeared before the police committee of the board of supervisors this afternoon, and for almost two hours presented their case to show the moral necessity of a committee for the censoring of moving pictures.

M. M. Scott, principal of the McKinley high school, A. F. Griffiths, president of Oahu College, Judge S. B. Dole, and Mrs. L. L. McCarrless were among the speakers urging the creation of such a committee. J. Alfred Magoon appeared to oppose the proposition.

The committee did not state what action would be taken. The matter had come before them through a petition submitted by the Children's Welfare Committee of the Humane Society. Mrs. McCandless, Mrs. S. B. Dole and Mrs. Annie Hanenberg appeared as representatives of the educators. Mrs. McCandless acting spokeswoman.

Several important points, such as the censor committee should be financed, of whom it should be composed, etc., were not threshed out. The committee will probably report on the petition under consideration at the next meeting of the board.

FIGHTING KANSAN LEAVES FOR TROUBLE ZONE THIS AFTERNOON

General Funston and Aide Outgoing Passengers in S.S. Ventura — Former Will Take Command of 2nd Division, Including All U. S. Troops on Mexican Border — Wears Civilian Clothes for First Time in Three Years

Frederick Funston, brigadier-general of the United States army, leaves Oahu this afternoon. After 9 months and 19 days as commander of the Hawaiian department, the fighting Kansan is off for Texas City, to take command of the 2d division, including all of Uncle Sam's troops on the Mexican border. It is a big command, and if the United States goes over the line to pacify Mexico, General Funston will be right there at the opening of hostilities. General Funston will be accompanied by his aide, Lieutenant Wm. G. Ball, but his family will remain here until the February transport.

General Funston, wearing civilian clothes for the first time in three years, by the way, put in a busy morning, winding up his official business, and attending to last-minute details. Command of the Hawaiian department was formally transferred to Brigadier-general Macomb, and the latter's aide, Lieutenant C. I. Crockett, took over Lieutenant Ball's duties as inspector of small arms practice for the department. At 11:45 all the officers of the department staff called to say good-bye to the departing commander, and the most sincere good wishes from his subordinates will follow the general from Hawaii. "I am leaving my friends here with great regret," said General Funston

to a Star-Bulletin reporter this morning. "I know no more than the general public about the Mexican situation, but these sudden moves are all in the line of service, and of course I am gratifying to take over such an important command. I have a good many years to serve in the army, and I feel that this is only a very good year to Hawaii. When I was an aide, I was sure I'd jump at it. I've got my friends, for on the short haul to all of us, of course, impossible to notice it personally say good-bye to them all."

What is the next that Hawaii will hear of General Funston? "I will hear of the rounds in service circles today, for the impression prevalent is that 'Funston luck' will continue, and that the general will arrive in time to take a leading part in Mexican affairs if the long-averted trouble finally breaks.

General Funston's life has been adventurous, to put it mildly. He began his life of activity and adventure as a reporter in Kansas City in 1890, but his spirit took him to the expedition of the Smithsonian Institution, which explored the much-dreaded territory of California. Two years after facing drouth, he tackled the snow and ice of Alaska, as commander of an expedition of agriculture department of Alaska and report on its flora.

SHIPWRECKED CREW EN ROUTE TO MAINLAND

(Continued from page one)

was fought. There was no time to consider the saving of personal effects in abandoning the Eldorado, as each moment threatened to be the last. All the water they had for 11 men was 28 gallons. They were in latitude 31.02 S. and 127.37 W. longitude, 220 miles from Va-paraiso, and nearly 700 from Easter Island, so that their plight was a pitiable one. They had a compass, but no chronometer, making it impossible for them to obtain the longitude.

It was only by a careful husbanding of the provisions that they had any hope of reaching land, and when they eventually did reach Easter Island all they had left was a couple of cupsful of preserved soup. The water had just given out.

For days the position of the men in the open boat was fraught with peril. They had to keep up a continuous building of their frail craft.

Easter Island No Admired Eden.

At last the rocky shores of Easter Island made a welcome appearance. As the boat came nearer it was clear that to effect a landing was dangerous. A line of ugly surf fringed a forbidding coast, and for two days kept them from landing. With the pangs of hunger and thirst ever driving them, it was at last decided to make a bold effort. A short dash through the turbulent surf ended with a safe landing on the rocky beach.

The exhausted men threw themselves on the beach and lay there. After a few hours Jack Wilson, the first mate, and A. Johanson, the second mate, set out to look for help. The island, which belongs to Chile, is about 50 square miles in area, and is the easternmost of the inhabited Polynesian islands. There are about 250 natives on the island, and it was hoped that help would be forthcoming from them.

It did not take long for the men to discover that they had landed on the wrong side of the island, and later they found they were 20 miles from the nearest habitation, a serious fact, taking into consideration the condition they were in after a fortnight's suffering by the waves.

Two explorers climbed the rocks. They could see nothing but miles and miles of dried grass. A few cattle in the distance awoke hope in them, and they started on their journey through a rough, rocky country. They could only make slow progress, owing to the wildness of the route and their own weakened state, and it took two days to complete the journey to the other side of the island.

Wilson and his associates in the Ventura have in their possession several photographs taken during their enforced stay at Easter Island that would serve to shatter the stories of Utopian life alleged to pertain there. There are about 250 natives on the little islet and the "fair princess" reported waiting with outstretched arms to give welcome to the wayfarer at the masculine persuasion is characterized by the remnant of the Eldorado's crew as an iridescent dream, concocted in the vivid imagination of those who have no conception of conditions as found there.

"We were treated with every kindness," declared Wilson. "Easter Island seemed to a British arm for battle, and the company has an officer in charge. This officer (Mr. Edmonds) is the governor. He is a Briton, and as soon as he was made aware of the terrible plight of the men on the other side of the island, he had men on horseback sent to the remaining members of the crew. Provisions were also sent round and when these had been disposed of, the men were brought to his own house."

During the long weary wait for a ship, five vessels are said to have passed Easter Island, but the signals displayed by the castaways were apparently not heeded. The arrival of the Knight of the Garter was a signal for intense rejoicing.

Arrangements have been made by officers in the Ventura for giving a banquet performance on board that vessel during the voyage from Honolulu to San Francisco, the proceeds to go toward relieving the distressed condition of the men.

The shipwrecked party listed with the passengers in the Ventura include Jack Wilson, first mate; A. Johanson, second mate; S. Ivers, Japanese cook and mess boy; Steve Brewster, Carl Carlsson, C. Tassavannan, Rudolph Walberg.

The men left Easter Island on December 13, and spent five days in Sydney before the departure of the Ventura for San Francisco.

With nitrates from Mejillones, for discharge at Kahului, the bark Alert is now reported 60 days out. This is not considered a long passage owing to the brand of weather reported in the Pacific for a month past.

GUNMEN FIGHT ON LINER KOREA

Chinese gunmen known to the police of New York, Chicago and San Francisco as desperate characters, deported at the instance of the United States immigration authorities and listed as Asiatic stevedore passengers in the Pacific Mail liner Korea, participated in a demonstration on board that vessel shortly before 5 o'clock last night, as the liner prepared to steam for the coast of Asia, that brought a delegation of steamship officers and harbor police to the lower deck to assist in quelling a disturbance that gave all indications of resulting in much bloodshed.

The placid board of a Filipino pickpocket, who had been deported from the islands, was declared to have aroused the indignation of a half hundred Chinese who were assigned to quarters in the same portion of the steamer.

Armed with a variety of weapons, in which heavy sticks and bars of iron were prominently displayed, the Chinese began an assault upon a number of Filipinos. The natives from the Philippines are said to have been pretty well supplied with long-bladed knives which were displayed in the melee.

Before any fatalities occurred, several officers belonging to the steamship descended in the midst of the warring nationalities and with the assistance of several men from Captain of Detectives McDuffie's department, the ringleaders were sent to their quarters.

What will be done with those held responsible for the fight after the Korea steamed without the three-mile limit is now a matter of conjecture.

The Chinese gunmen who were forced to leave the mainland are declared to be a bad lot. A number of serious crimes have been charged against them.

Their actions were watched by the Korean officers on the voyage from San Francisco to Honolulu, and while the vessel remained here yesterday the men were kept under a strong guard.

Hilsonian Away Last Night.

Fifteen hundred tons of general cargo have been discharged at Honolulu from the Matson Navigation steamer Hilsonian and that vessel departed last night for San Francisco by the way of island ports. The Hilsonian is scheduled to depart from Hilo for the coast about January 28, taking a full shipment of sugar. The Hilsonian has 82 tons of freight for Kaanapali, 604 tons for Hilo, 347 tons for Port Allen and 451 tons for Kahului.

The Hilsonian will load 300 tons of sugar at Port Allen, 1100 tons at Kaanapali and 1500 tons at Hilo. In addition to the sugar shipment the vessel will load 2000 cases of pines.

Wilhelmina Leaves Drydock.

The Matson Navigation steamer Wilhelmina remained on the floating drydock from 5 o'clock last evening until midnight, the liner being lowered into the water and resumed the loading of sugar and cargo this morning. A new bronze propeller was fitted to the shaft. The steamer is to sail for Hilo at 5 o'clock this evening, where 400 tons of cargo will be discharged and 1500 tons of sugar will be loaded. It is expected that the vessel will return to Honolulu early Monday morning and complete cargo for San Francisco which will include 2200 tons of refined sugar, making a total of 5000 tons of this product destined for the coast refineries.

Big Freight in Honolulu.

In departing from San Francisco, the Matson Navigation steamer Honolulu was supplied with 3547 tons of cargo for Honolulu and 254 tons for discharge at Kahului. The Honolulu in returning to the coast, it is reported, will load about 7500 tons of sugar from island ports.

The German steamer Meneas, with general cargo from European ports and now reported 34 days out from Hamburg, is to pay a visit to several South American ports before proceeding to Honolulu to discharge a shipment of nitrates. The Meneas, a Kosmos liner, is due to arrive here in early March.

Simizu, a Japanese hackman, accused of reckless driving as the result of an accident near the railway depot, when a boy was injured, was acquitted by the court today. The trial was brief, held by a jury in Circuit Judge Cooper and the verdict was returned after 20 minutes' deliberation by the jury.

Chin Tan, a Chinese arrested on a charge of illicit liquor-selling, pleaded guilty before Judge Robinson today and was fined \$5 and costs.

Richard H was acquitted by Judge Cooper this afternoon, following a hearing, jury waived, in which the defendant was accused of shooting a neighbor's dog at Puuloa.

Alleging desertion and statutory offenses, and naming George Makukane and George Helemaun, with the latter of whom he avers his wife is now living at Waihole, Albert Kupo has filed a petition in circuit court asking a divorce from Mary Kupo.

The trial of George Rufus Simmons and James Frederick Fiehl, accused of committing a murder at Waihaha last summer, will begin before Circuit Judge H. E. Cooper at 8:30 o'clock Monday morning. Judge Cooper today issued summons for eight veniremen, from which the jury in this case will be drawn. The summons is for John Wallace, Ralph B. Irwin, Charles O. Hattel, Benjamin Sammons, Herbert Dunshie, Charles Girdler, Jacob Ordenstein and Charles A. McWayne.

STOWAWAYS ARE LOGAN CIPPLED, MANY IN THE VENTURA

A small army of stowaways attempted to gain a passage from Australia to the United States in the Oceanic liner Ventura when that vessel steamed from Sydney to Honolulu by the way of Pago Pago. Federal officers who boarded the liner off quarantine this morning made a general round-up on the vessel and found that a number of workaways had succeeded in departing for the mainland in the Ventura.

Purser Baker stated this morning that the strikes in Australia and New Zealand have resulted in many men being thrown out of employment.

The United States looked upon as a Mecca for the unemployed.

The Ventura is said to have experienced the best trip in months. The sea was as smooth as glass for the greater part of the voyage. As the liner neared the Hawaiian Islands a change was noted and strong winds and gales prevailed. The steamer carries no wool on the trip. The cargo for the coast consists mainly of copra, fertilizer, quantities of vegetables and refrigerated meat. About 1600 crates of Australian onions were landed here. The vessel was held in strict quarantine at Pago Pago. A dozen passengers were left here, while the through list numbers nearly one hundred travelers in the several classes.

The Ventura is to be dispatched for San Francisco at 4 o'clock this afternoon, 40 cabin passengers joining the vessel for San Francisco. Sixty tons of refrigerated meat and 250 tons of general merchandise were discharged during the stay at Honolulu.

FOUNTAIN ACCEPTED AS SUITABLE MEMORIAL TO LATE ROSE C. DAVISON

A handsome fountain, located in some appropriate section of Honolulu and to be used for decorative purposes only, will doubtless be the form of memorial which the Humane Society will erect in memory of the late Miss Rose Davison, according to a decision reached at a meeting of the special memorial committee of the organization held this morning.

Many suggestions as to memorials were set forth at the meeting, one person going as far as to suggest a home for children, but the majority making the suggestions, as well as the members of the committee, seemed to favor the fountain scheme, and E. A. T. Newcomb was appointed a committee of one to submit designs. Another committee will be appointed at an early date to estimate the cost of such a memorial. The members of the general committee will meet again in two weeks.

VESSLS TO AND FROM THE ISLANDS

[Special Cable to Merchants' Exchange]

Friday, Jan. 23. YOKOHAMA — Sailed Jan. 21. S. S. Nile for Honolulu. SAN FRANCISCO — Sailed Jan. 23. schr. Muriel for Mahukona.

S. S. VENTURA sails for San Francisco at 4 p. m. today.

HARBOR NOTES

The bark Albert is making a leisurely passage from Port Ludlow to Hilo, that vessel now being 43 days out with a shipment of lumber.

A big shipment of fuel oil to the local branch of the Associated Oil Company is on the way down from Port San Luis in the ship E. M. Phelps, now converted into a tanker.

REPORT FROM COAT

That the United States army transport Logan, departing from Honolulu for Guam and Manila January 13, had met with an accident and in a crippled condition was turning to Honolulu or to the coast was the gist of a cable received last night by the local branch of the Arne Exchange.

The report is scold as highly improbable by representatives of the United States quartermaster department at Honolulu, who seen this morning. It is pointed out that the Logan was about 90 miles away from the islands and consequently out of range of wireless communication with Honolulu or the coast.

The story is believed to have had its origin in a false port that gained circulation in this city several days before the arrival of the Logan at which time it was stated that the transport had been taken in tow by a Matson steamer.

A cabled query from the San Francisco Examiner regarding the alleged accident to the Logan was also received here.

W. G. IRWIN CRITICALLY ILL, AND RICHARD IVERS IS CALLED TO THE COAST

Richard Ivers of Brewer & Company will leave on the steamer Ventura this afternoon for San Francisco. Mr. Ivers has received a cable urging him to sail at once for San Francisco because of the critical illness of W. G. Irwin there. Mr. Ivers had expected to leave here at a later date, but because of the urgency of the message he has made his arrangements to depart this afternoon.

Mr. Ivers, who is Mrs. Irwin's brother, is its agent here. Mr. Irwin's property interests in Honolulu are very large. His beautiful Waikiki estate itself, recently rumored to be the site of a new hotel, is worth a small fortune.

The length of Mr. Iver's absence from the city is uncertain, depending as it will upon the health of Mr. Irwin. According to information received this morning Mr. Irwin is very low with only a fighting chance for his recovery.

BRISSAC COMPANY IS HOMEWARD BOUND AFTER REVERSES IN AUSTRALIA

Miss Virginia Brissac, supported by Harry Burkhardt, with John Wray as a producer, at the head of a company of players who left Honolulu some months ago for an extended season in Australia, are returning to the mainland as passengers in the Canadian Australasian liner Niagara, that is due to reach this city next Tuesday morning.

According to a report by officers in the Oceanic steamer Ventura, the engagement in which Miss Brissac figured as the star met with financial reverses owing to the general stagnation of business prevailing throughout the commonwealth because of labor difficulties and attendant strikes. With thousands of people out of employment in all the larger cities, the theatrical business is declared to have suffered a decided slump.

Miss Brissac, John Wray, Misses Margaret Nugent, Elizabeth Rathburn, Geraldine O'Brien, Helen Dean and Messrs. Ferdinand Munier and Howard Nugent were in the Australian venture. A majority of the performers are well known here. The company opened under the direction of Herman Frankel, who is said to be accompanying the players to the mainland.

OCEAN ROMANCE RESULTS IN WEDDING IN HONOLULU

A romance which is believed to have had its beginning shortly after the steamer Ventura, which arrived in Honolulu this morning, left Sydney, culminated in a marriage in this city today when "Cupid" Thomas Treadway was called upon to issue a license to Herbert Keyworth of the Australian city and Miss Germaine Muband. The couple shortly after securing the license were married at a local church. Mr. Keyworth's name appears on the passenger list of the Ventura and, although that of Miss Muband does not, it is believed that she was among those aboard the vessel during its trip from Australia.

NEW TODAY

NOTICE OF STOCKHOLDERS' MEETING.

At the request of the President, a special meeting of the stockholders of the Bitulithic Paving & Concrete Co., Ltd., will be held at the office of the Company, 828 Fort Street, Honolulu, Hawaii, on the 31st day of January, 1914, at 10 o'clock a. m., for the purpose of:

1st. Considering a change in the By-Laws of the Company.
2nd. The transaction of any other business that may properly come before said meeting.

Honolulu, Hawaii, January 23rd, 1914.
H. G. DILLINGHAM,
Secy. Bitulithic Paving & Concrete Co., Ltd. 5760-3t.

SOCIEDADE LUSITANA BENEFICENTE DE HAWAII.
By M. G. SANTOS, Secretary. 5760-3t.

ATTEMPT AT FREEDOM

Twenty Chinese made an unsuccessful attempt to desert the British steamship Strathardle last evening, with the result that several police officers under the direction of Harbor Officer Carter were hastened to the scene, and after a desperate encounter with the Celestials, compelled the seamen to return to their ship.

Captain Lamont, master of the Strathardle, sent in a riot call at police headquarters, stating that trouble was brewing aboard his steamer. By the time the officers had reached the scene the Chinese had summoned reinforcements, which are said to have included pretty much the entire crew. They had armed themselves with slice bars, sticks and other weapons and were making a brave stand against the resistance offered by the Strathardle officers.

The penalty for each desertion from among the Chinese amounts to \$500.

Those who made their way to the coal wharf were captured and returned to the ship. A guard is now maintained over the Strathardle during the stay at Honolulu.

GUARD REGIMENTAL STAFF OFFICERS ARE NAMED BY COL. COYNE

Colonel Arthur Coyne, 1st infantry, N. G. H., this afternoon announced the appointment of his regimental staff officers. The regiment has been completely re-organized, and by promotion or retirement the old staff officers have been relieved, with the exception of Captain A. W. Neely, who is changed from commissary to inspector of small arms practice.

The following are Colonel Coyne's appointments:

To be adjutant—Captain J. A. Thompson.
To be quartermaster—Captain Geo. B. Schrader.

To be commissary—Captain R. W. Warham.
To be inspector of small arms practice—Captain A. W. Neely.

The promotion of 1st Lieutenants Schrader and Warham to the grade of captain was announced in special orders No. 7, issued from the adjutant-general's office this afternoon. The former was on duty with Company H, and the latter with Company D.

1st Lieutenant Henry Van Gieson, 1st infantry, is promoted to captain and assigned to the quartermaster corps, by the same order.

SUCCESSFUL CONCERT AT THE MOANA HOTEL

The Hawaiian band, under the leadership of Captain Berger, rendered an excellent concert program at the Moana hotel last evening, and the broad lahala and open lawns of the hotel were packed with appreciative auditors. The concert ended at 10 o'clock, and was voted one of the most successful of the season.

Captain Berger has his bandmen well trained, and newcomers speak in the most flattering terms of the organization, making the comment that Honoluluans by long familiarity fail to appreciate the local band.

Presto!
Out they come! Light as a feather—delicious, appetizing biscuits, cakes, muffins and hundreds of other inviting dishes—everything just right. With K C Baking Powder the results are sure and certain. There is no guess-work. You know beforehand the family will be pleased with your efforts. For when you use

K C BAKING POWDER
bake-day troubles disappear like magic—and what was formerly a day of doubt is now one of pleasure. K C Baking Powder safeguards the health of your family by insuring light, digestible food. And the price is right—25 ounces for 25 cents.

Send for the K C Cook's Book—it's FREE.
The K C Cook's Book, containing 90 tested, easily-made recipes, sent free upon receipt of the colored certificate packed in 25-cent cans. Send it today.

LOCAL AND GENERAL

The members of Honolulu lodge No. 616, B. P. O. E., will meet in the rooms of the lodge, King street, at 7:30 o'clock this evening.

Henry Walter Engle, electrician and native of Reinsch, Switzerland, filed application in federal court today for naturalization as a citizen of the United States.

A meeting of the members of the promotion committee will be held in the rooms of the Chamber of Commerce, Stangenwald building, at 3:30 o'clock this afternoon.

The seventh annual account of Hiram Kolomoku, guardian of Helen, Joseph and Hiram Kolomoku, Jr., minors, was approved by Judge Whitney this morning.

The chairmen of the several carnival committees will meet with Director-general James D. Dougherty in the Merchants' Association rooms, Young hotel building, at 4 o'clock this afternoon. A full attendance is requested.

In observance of His Imperial German Majesty's birthday, Georg Rodiek, consul for Germany in the Hawaiian Islands, will hold a reception at the consulate next Tuesday from 11:30 until 1 o'clock. Invitations have been issued to this effect.

An enthusiastic rehearsal of "The Mayor of Tokio" was held in the Waikiki dining room of the Young hotel last night, all the members of both cast and chorus being present. The famous "peanut ballet" is to be chosen at an early date, and Honolulu's prettiest girls are vying with each other for places.

Mrs. Henry Bond Restarick will receive in honor of her daughter, Mrs. Reynold Brodie McGrew, this afternoon from 2 until 6 o'clock at her residence in Emma Square. Mrs. Restarick and Mrs. McGrew will be assisted by Mrs. William Reese Scott, Mrs. George Davies and Mrs. H. M. von Holt.

Tonight in Pausan hall the freshmen of Oahu College will give the upper classes a dance. The dance will be given under the usual conditions and all the members of the school and the alumni and alumnae are cordially invited to attend. Miss Bettison, Miss Dodge, Miss Damon and Miss Clark will act as the chaperones.

The Eighth Precinct Republican Club held a meeting in San Antonio hall last evening for the election of officers. L. Andrews was elected president; Elmer Schwarzbarg was re-elected vice-president and Joseph Olsen was made 2d vice-president; M. J. Serpa was made secretary; A. L. Mackaye treasurer and member of the executive committee, serving with W. A. Spencer and A. P. Lino.

In spite of the late date at which Company B. N. G. H., Captain Paul Super, was organized, that organization is planning to enter at least three teams in the tournament next month and squads are now practicing wall scaling, tent striking and signalling. Another squad is intending taking up the Butts' manual. No men will be received in this company after next Wednesday evening until March 1.

Paul Super, general secretary of the Young Men's Christian Association, accompanied by Secretary C. F. Loomis of the boys' department of the association, left for Schofield Barracks this morning to make the necessary arrangements for the outing which the members of the boys' department will hold at the post a week from tomorrow. The boys will leave Honolulu on a special train and, providing 100 make the trip, the rate of 75 cents for the round trip will be secured.

David K. Naeole and Julia Wailiua, Hawaiians, were arrested last evening on a warrant issued by U. S. District Attorney Jeff McCann charging them with a statutory offense. In the preliminary hearing before U. S. Commissioner Davis this morning evidence developed tending to show that Naeole, though having an undivorced wife living, had a child by still another young woman. It was this latter woman who made the complaint to the district attorney. This is a total of three women with whom Naeole is said to have been living. To allow time for further investigation, the hearing was continued to Tuesday afternoon at 2 o'clock.

VICE CAMPAIGN IS DRIVING OUT IMMORAL ALIENS

Federal Immigration Authorities Have Results to Show for Year's Hard Work

Vigorous action on the part of Inspector Richard L. Halsey in charge of the federal immigration station, and his staff, notably Inspector Harry B. Brown, has resulted in driving out of their business more than a hundred alien women and men who for the past year have been the object of a campaign under the federal laws.

One year ago Inspector Halsey and his associates began their campaign, in which they have received strong support from the commissioner general of immigration in Washington and from the secretary of labor. In the course of this campaign they have made 98 arrests. Thirty-two have been deported. At least 26 and probably 30, all Japanese, have voluntarily hurried out of the country, convinced from the attitude of the federal inspectors that they cannot continue their illicit traffic in Hawaii. The campaign has included both women of the underworld and men who deal in vice as a business.

Many other cases are pending in court, habeas corpus proceedings having been instituted.

Inspector Halsey pays the heartiest praise to Inspector Brown, who has been in active charge of the campaign. For months before the first raids and arrests were made, Inspector Brown was familiarizing himself with conditions, particularly at twilight, the focus of commercial vice. Wholesale arrests were first made and since then Brown and others have trailed down many an offender.

Inspector Brown declares that much of the good results of the campaign has been made possible by the Honolulu police department, which afforded him every co-operation. He says particularly that Sergeant of Detectives Kellett has done splendid work. "Kellett has been out with me many a night and all night," said Brown today. "He is energetic, fearless and sincere in the work. He has done more to break up this traffic in vice by aliens than perhaps any other one man. He has not only furnished this department with valuable information but has shown exceptional interest in seeing that the law is enforced." Sergeant Kellett was assigned to the work during the absence of Captain McDuffie in the Orient. "I believe," when McDuffie was busy on other work. "The detective staff, including Detective Swift, has been of great assistance to us."

The effect of the campaign has reached far wider than the actual arrests. The fear of the law has been shown all over the territory, say the officials.

BISHOP HARRIS TO GIVE ADDRESS

Japan's great volcanic disaster and Hawaii's interest in it will be the subject of an address at a joint meeting next Sunday night of the congregations of Central Union and the Methodist churches by Bishop M. C. Harris of Korea and Japan. Bishop Harris is now a visitor in Honolulu and his long residence in the Orient and notable work in Methodism has given him high standing in Japan. On account of the interest here in the Orient, particularly in the disaster, the joint meeting has been arranged. His theme will be Japan, with special reference to the eruption in the Kagoshima district.

BIRTHS

PURDY—At Wailuku, Maui, January 18, 1914, to Mr. and Mrs. Robert K. Purdy, a son.

PERSONALITIES

MAYOR J. J. FERN, who has been ill at his home for more than a week, is reported to have almost completely recovered today. He will be back at his office tomorrow or Monday, says Will Miles, his private secretary, ready to preside over the supervisors' meetings.

BISHOP HARRIS RETURNING FROM WORK IN JAPAN

(Continued from page one)

highly necessary to give more attention to the subject of religion and morals. The effect of this conference on the people at large has been that they have turned their attention toward religion and the attendance at the churches has increased.

Bishop Harris went on to say that it has been decided to hold the next world's Sunday school convention in Tokio, which meeting will convene in 1916. He pointed out that during the past several years the people of both Japan and Korea have taken a new interest in religion and in the Christian movement. Relative to the work in Korea, the bishop said that the churches of that country are very prosperous and that the attendance is increasing steadily. During the past year, the Methodist mission has built two hospitals, one at Kaitju and the other at Wonju, as well as establishing a number of schools throughout the country.

The bishop spoke in the highest terms of those Japanese and Korean young men who, having received their education in Honolulu, have gone back to their native countries to preach Christianity. He was a personal friend of the late Japanese emperor, Mutsuhito, and is intimately acquainted with the Gulicks. The bishop will leave Honolulu on the Manchuria next Tuesday and, during his stay in New York, will attend the annual meeting of the Methodist missionary bishops. He is scheduled to deliver several addresses before his departure from this city and will speak in Central Union church Sunday night at a joint service. He delivered an address at the Nuuanu street Japanese church last night. The bishop is well versed in Japanese history and speaks the language fluently.

NIGHT CONCERT NEW DEPARTURE AT THE YOUNG

Under the management of T. B. Thiele a number of innovations have been made around the Young, Moana and Royal Hawaiian hotels, but it is believed that the latest move of the general manager, that of Saturday evening concerts on the roof-garden of the Young, will prove the most popular with local people. Commencing tomorrow night Prof. Carl Miller's orchestra will be heard at the roof-garden each Saturday evening from 9 until 11:15, just so long as the residents of Honolulu show an appreciation for the concerts. An elaborate program has been arranged for the initial event, and Manager Thiele promises that the succeeding ones will be up to the high standard set at the outset. The program follows:

- 1-March: Hall to the Spirit of Liberty..... Sousa
- 2-Overture: Stradella..... Plofow
- 3-Waltz: The Enchantress..... Bizet
- 4-Selection: Three Twins..... H. Blanks
- 5-Song: I'm So Lonely and Want To Be Loved..... C. Milner
- 6-Selection: The Fair Co-Ed..... G. Luaders
- 7-Humoresque..... Anton Dvorak
- 8-Waltz: Bad'ner Mnd'l..... Karl Comzak
- 9-Carmen Selection..... Bizet
- 10-Song: Comin' Thru the Rye and Annie Laurie..... (Scott)
- 11-Selection: Merry Widow..... Fr. Lehár
- 12-Medley march: Stop, Stop, Stop..... I. Berlin

JAPANESE DECLARES COAST OF JAPAN IS IMPERFECTLY PROTECTED

(Special cable to the Japanese Chronicle.) TOKIO, Japan, Jan. 22.—Minister of War Kurohose and M. Ozaki, leader of the new constitutional party, engaged in a heated discussion during the session of parliament here today over the amount to cover army expenditures during the coming year as set forth in the budget as presented by a committee from the house of commons. Mr. Ozaki referred to the proposed movement to establish two more Japanese army divisions in Korea, and attacked Kurohose by declaring that the entire Japanese coast was imperfectly protected. Ozaki's words have caused no little agitation against the military authorities.

The CLARION

Police Notes

S. T. Starratt was called upon to settle a line of 25 at police court this morning, it being alleged by the officers that he was operating an automobile without first having supplied the machine with a proper number.

An alarm of fire was reported from the corner of Beretania and Alaheka streets at 1 o'clock this morning, which called the fire department to extinguish a blaze caused by a burning electric light wire. For some moments it looked as if the blaze would do damage to the building occupied by the Paragon hotel.

Mrs. J. F. Hyland, who some weeks ago was placed under arrest upon a charge of malicious injury, which case was postponed, was called before District Magistrate Monsarrat this morning. Upon request from her attorney, a further continuance of the hearing was granted. Mrs. Hyland is alleged to have killed a pet dog belonging to some children.

HUSBAND OF MURDERED WOMAN REFUSES TO TALK OF TRAGEDY OR PLANS

Charles W. Stewart, husband of the late Mrs. Stewart, who was shot and killed by A. W. Wagner Wednesday night, a tragedy which ended when Wagner turned the weapon on himself and committed suicide, arrived this morning from Hilo, where he had gone on business. He is registered at the Seaside hotel, but how long he will remain there or in the city is not given out. His plans for the immediate future are not in such shape, it appears, as to be given out. He was seen this morning by a representative of the Star-Bulletin, but asked to be excused from making a statement. The question of the custody of the child left by Mrs. Stewart was put to him, but he did not wish to reply to it.

The coroner's jury late yesterday afternoon brought in its verdict. It was death by murder in the case of the woman, suicide in the case of the man. Several letters evidently exchanged between the two were introduced, and tended to show that Wagner was madly in love with the woman, and was determined not to lose her. They also throw a doubt over whether or not they were or had been married, but were not sufficiently clear, did not touch the subject with enough directness, to clear up that question entirely. Little Barbara, or "Bubblee," the 2-year-old daughter of Mrs. Stewart, is at the Seaside, where tourists have been watching out for her. Stewart made a record trip from

CAPTAIN THOMAS LEAVES FOR COAST IN VENTURA TO

Captain John R. Thomas, accompanied by his daughter, will be passengers on the Ventura this afternoon, when the Oceanic liner departs for San Francisco. He has been granted an under exceptional circumstances will proceed direct to his Oklahoma. A sad tragedy is the cause of Captain Thomas' sudden move. Days ago his father, the late John R. Thomas, was shot and killed by escaping prisoners from the penitentiary, Oklahoma. Captain Thomas was visiting the prison party of prominent men, when an outbreak occurred. The escaping victs, who were armed, fired a crowd, and a bullet found John Thomas with fatal results. Captain Thomas is hurrying to be with his family in their trouble.

C. G. HEISER, JR., LEAVES FOR MEXICO IN VENTURA TO

Charles G. Heiser, Jr., of the Trust Company will leave on the steamer Ventura this afternoon, the representative of the Rubber and Coffee plantations here. At San Francisco he will join an officer of the plant corporation and sail on the ship Para for Salina Cruz. From there they will go to the plantation to confer with the manager, O. W. son. The La Zaulapa stock in the company will also be representative. The purpose of this trip is to get data to present to the stockholders on the condition, physical and moral, of the plantation. Heiser's recent meeting here of the stockholders was appointed their representative, his expenses to be borne by the corporation.

Every taxpayer of Kaimuki, Honolulu and Kapahulu is expected to attend the public meeting at Liliuokalani school this evening at 7:30, under auspices of Waiata, Kaimuki and Lolo Improvement Club, to discuss (1) tax assessment for 1914, (2) alley road sidewalks.

The estate left by the late Dr. Weir Mitchell of Philadelphia, valued at more than \$100,000 and to go to his two sons.

Hilo to this city, taking advantage every means to reach here as soon possible.

RILEY H. ALLEN

EDITOR

FRIDAY JANUARY 23, 1914

Show me a place where there isn't any meat in a house and where preachers is never seen, and I'll show you a place where old hats air stuffed into broken windows, where the children air dirty and ragged, where gates have no hinges, where swimmin air slipshod, and where maps of the devil's wild world air painted upon men's shirt-bosoms with tobacco-juice. That's what I'll show you. Let us consider what the preachers do for us before we oppose 'em.—Artemus Ward.

REGULATION AND RAILROAD EARNINGS

The railroads of the United States rise as one in protest every time the interstate commerce commission proposes to raise or to equalize rates. A few months ago a number of presidents and board chairmen were quoted as saying that the government's attitude toward railroads and Big Business was reducing their earnings to the vanishing point and that since the time of Roosevelt the roads have been made the target for hostile legislation.

When figures are collected and studied, a quite different condition of affairs is shown. Dun's Review of the year 1913 gives railroad earnings in detail for the first ten months of last year and the astonishing part of it is—astonishing in view of the aforementioned talk of railroad magnates—that the aggregate earnings of the railroads of the country increased 6.2 per cent for the period of 1913 over the corresponding period of 1912.

This increase is noted all over the United States with the exception of the Southwestern group of roads, where it is only 1.5 per cent.

Moreover, according to Dun's Review, the fine showing is made in spite of certain drawbacks notably the disastrous floods which visited a wide territory during the early spring, and the unrest in Mexico.

The administration had nothing to do with the floods, of course. The interstate commerce commission had nothing to do with the turbulent conditions in Mexico, which possibly affected the earnings of the Southwestern group.

The country's business is growing rapidly and in spite of the dire prophecies of some of the railroad magnates, it does not appear that the increasingly strict supervision which the government is exercising over the systems is reducing their earnings.

EGGS AND EGGS

Only about three-fourths of the eggs that are packed in crates at the stores as they come from the farms on the mainland are fresh. Of the remainder about three-fourths are classed as stale and smaller number as cracked and dirty and smaller number as rotten. This is the average condition of a crate of eggs such as are found in the market in various parts of the United States, according to the investigations made by the United States department of agriculture.

When the eggs are packed of mixed lots just as they are brought in by farmers and poultrymen, the number of eggs in each of the four classes at certain seasons, as found by candling tests at an agricultural experiment station, is about as follows:

Fresh eggs, 279, stale eggs 55, cracked or dirty eggs 24, rotten 2.

The condition of the eggs in the markets is ascertained by candling, a process that under scientific market methods would be attended to by the producer. But as long as no better price are paid for graded and strictly fresh eggs than are paid for mixed lots, just so long grading before marketing will not be done.

The present methods of buying and selling without regard to value is unfair both to the producer and consumer of fresh eggs.

CITY PLANNING BREVITIES

Those citizens of Honolulu who are sincerely interested in city-planning and who see in the municipality something besides a field for exploitation will be interested in the report of the Chamber of Commerce of Boston giving the proceedings of the two days' conference recently held there. Considerable comment has been aroused by the addresses made at this conference, among which the following have been widely reprinted:

City planning is a form of scientific management applied to the city instead of the factory.—Dr. James Ford.

We have already done too much patchwork.

The time has come for us to consider the city as a whole.—William C. Ewing.

City planning and Industrial Progress will go hand in hand in the future, "useless each without the other."—George H. Cooper.

Under the proper restrictions excess condemnation may be utilized with sufficient advantage to the public to justify any interference with individual rights.—Leslie C. Wead.

Progress in city planning must depend in large degree upon the equitable distribution of the expense involved in the execution of the plans and in the soundness of the methods employed in financing them.—Flavel Shurtleff.

REPUBLICAN RULES SUGGESTIONS

Sentiment among thinking Republicans of Hawaii seems to be crystallizing slowly but surely in favor of primary election of the territorial central committee as well as of the county committees. A good many objections are heard to the plan proposed by the special rules revision committee, which suggests that the county committees be chosen at a primary election but the territorial committee at the territorial convention. A good many Republicans believe that to carry out the spirit of the direct primary law passed by the last legislature, the territorial convention should confine itself to the preparation, discussion and adoption of a platform and keep away from elections of any kind.

Suggestions are now beginning to come out that should be put in concrete form before the voters. The Star-Bulletin during the next few weeks will present the views of a number of prominent Republicans and welcomes contributions from anyone having at heart the good of the party and of the territory.

MERIT FINALLY REWARDED

The following editorial from a Coast paper has been sent to the Star-Bulletin by a good democrat with the query: "How would this apply to Hawaii?" The editorial says:

In the late presidential election San Joaquin county, which had been first a Republican and later a Progressive bailiwick, with some to spare, gave Mr. Wilson a majority of nearly 4000, the largest given by any county in the state outside of San Francisco.

We are pleased to see that the gentlemen distributing federal patronage have at last fully recognized San Joaquin's claims. Mr. Joseph Hall of Stockton, who is known to everybody in those parts as all wool and at least a yard and a half wide, has been appointed federal auctioneer at this port.

We trust the fighting Democracy of San Joaquin is now satisfied. The party workers up here should take off their coats at once and prepare to roll up an even greater majority. Who knows—if they returned a majority of 10,000 next time, one of them might be appointed fourth assistant deputy inspector of turpentine ores under the fourth deputy naval officer, assistant to the twenty-fifth assistant deputy collector of customs—salary \$2 per.

From start to finish, H. Gooding Field has been one of the storm centers of the Hawaiian county graft probe. Even at the Kealoha trial he has succeeded in evoking a sensation or two, and yet H. Gooding is as mild-mannered an individual as ever footed up a column of figures or labored with a ledger. He is so gentle that he hesitates even to strike a trial balance!

What with "Soapbox," Peter, the Reform Organization of China and the missing Teutonic exponent of quick money, Honolulu has no lack of barons.

Looks real exasperating of Japan to bring up its immigration business when they know very well that we're busy with Huerta.

House Democrats will investigate the strikes in Michigan and Colorado. The Democrats are reat on investigating.

Now they want to put Taft's bust in The Hague, notwithstanding it occurred in Chicago.

Uncle Sam is now about to tackle the job of unscrambling the interlocking directorates.

Field seems to be the corn in the Hawaiian county graft probe.

When is the sheriff going to enforce the law in the hula joint?

LETTERS OF THE WEEK

[The Star-Bulletin invites free and frank discussion in this column on all legitimate subjects of current interest. Communications are constantly received to which no signature is attached. This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space to anonymous communications.]

LAW AND AMERICAN SELF-RELIANCE

Editor Honolulu Star-Bulletin. Sir:—The management of the Star-Bulletin is worthy of the heartiest thanks and support of the writers of letters to the editor for its very valuable space allotted for these letters, and it is hoped that the reading of them by the reading public is not very much of a torture. However, some letters seem to demand replies and this effort is intended only as a reply to "Inquirer."

The letter is long and writing it must have required a great deal of thought. Many questions are asked, and it is to be regretted that he did not save his thought to answer them himself. It would seem to me that in writing the questions the answers would have occurred to him and there would have been no need for his writing. No doubt he knows the correct answers, and these "perplexing" queries are properly solved in his own mind, but perhaps it is his intention to convey knowledge more than seek it. Nevertheless, I will try and satisfy him, and here goes.

If an Uncle of Congress relieved Uncle Sam of penalties for violations of his own navigation laws and the violations in this respect are permitted, why, Uncle is no law-breaker, and if he did any punishing, it would look funny for him to slap his own wrist. Why should he not use available bottoms to carry his own coal? Where was there any hardship to the people of the United States in saving the difference between freight charges of American and foreign ships? Money saved is money gained, and were not the real wages of the American public raised, so to speak, in receiving greater service for less labor? In fact, we really do not work for money, but for what service our money can be exchanged for in other words, we labor that we might have others labor for us, and who renders the most labor for our labor pays us the highest real wages. Our legislators would not be faithful to their trust to permit the people of the United States to be imposed upon by demands for too much labor (money) for very little service (high freight rates).

Packages forwarded through parcels post are mail matter, and there is no law against forwarding mail in foreign boats that I am aware of. It is fortunate such is the case, for some shipping matters are ridiculous enough now, and they would surely be absurd were there any more restrictive. It does seem funny to see how much some of our people worry about the American boat—being "of a job." Who worries very much if an individual is out of work? Is it the duty of the government to "provide" every man with a job, whether his services are needed or not? If an electrician is needed and a paperhanger is out of work, should one be compelled to employ the paperhanger? Have we no choice in whom we want to employ if the desirable applicants are available? Why disregard foreign ships we want and be compelled to employ American ships we don't want? What difference should it make to the individual whether a Baptist or a Presbyterian hands him his mail? If his house was on fire and there was danger of his being burned to death, would he refuse to employ a foreign fireman because there happened to be an American tinsmith down among the crowd of onlookers who might be willing to save him should he be paid the right price? What is needed is service, and let us learn to render as much as we can for as much service as we can get, and I am of the opinion that an American can render as much service as any foreigner if he wants to. What is needed is the abolition of all restrictions to trade and industrial effort and then anyone would have as much opportunity to employ himself as anyone else would have to employ him. Do we always want to be employees? Do we trade? Do we breathe? Is not trading as natural as breathing? Why restrict trade with idiotic navigation laws and other restrictions? Why choke the very lives out of us? Is barbarity good because it is the custom? Don't we ever want to attain civilization?

"Inquirer" accuses Uncle Sam of an awful lot of inconsistency, especially of allowing himself the use of desirable freedom in his own shipping, and regrets that the private express companies have not the same privileges. The people of the United States are supposed to be accountable for the laws of the country. Uncle is

merely obeying them. He is yet to be found in the wrong. If freedom of trade would be good for the express companies, why don't the express companies get legislation that is desirable? John Wanamaker was an ardent advocate of parcels post. When he was postmaster-general he favored it, and he stated that we might have it but for five objections, and when he was asked what the objections were, he replied by mentioning the names of five express companies. These express companies were instrumental in stalling off parcels post legislation for years. Such large private concerns have been the causes of our out-of-date navigation laws, our tariff laws, our internal revenue laws and every other kind of restricting laws that we have, and when they really want fair legislation they will get it, for there will be no objections to it. Who would believe that these interests have been spending so much time and other expenses to have tariff and other like laws in order that workmen might have big wages? "Inquirer" seems to agree that our restrictions have made the "frenzied financiers." Why not abolish the restrictions and the opportunities for success would be about equal? There can be no millionaires without the aid of the government, directly or indirectly. Why not abolish all special privileges?

Question is asked what becomes of the difference between what the laborer gets for his labor and the price the consumer pays for the product of labor? That is nobody's business but the purchaser's and seller's. If the price for labor is \$2.00 and labor gets it, the deal is closed so far as labor is concerned, and if he cannot get satisfactory service for his wages it is his lookout and not the owners of the things labor produced. Such foolish questions should not be asked if no laws of the people are broken.

American citizens should be more self-reliant. We are taught that we can "lick anybody" when we are in school, but later we squeal and whine that we "can't compete" with foreigners after we graduate. The last state of use seems to be worse than the first and then we want others to help us because nobody wants to pay us too much. Let us learn something and have more backbones than jelly fish.

REGULATING THE AUTOMOBILE TRAFFIC

Honolulu, January 22.

Sir: I sometimes drive an automobile, and as an automobile owner I sincerely hope that the supervisors will stick to the provision in the proposed new ordinance which would require all automobiles to come to a full stop before passing street cars which are at a standstill for the purpose of taking on or letting off passengers, at least in the downtown districts.

At a quarter past 8 o'clock this morning the Liliha street car, east-bound, and the Punahou car, going mauka, arrived simultaneously at the corner of King and Fort street. Some 15 or 20 school children hurried from the Liliha car to catch the Punahou car and the street was full of the youngsters intent only on catching their school car. Just then a big private automobile (I hesitate to give the number) came down Fort and, without any consideration for the pedestrians, forced its way between the Punahou car and the Chambers Drug Company sidewalk. Half the children jumped for the street car and the balance scampered back to the sidewalk, greatly excited for fear the car would leave them.

Such exhibitions of disregard for the rights of others make necessary, in my opinion, the enactment of laws that will adequately protect the users of the street cars, and especially the children, who should certainly be allowed to go from the sidewalk to the standing car without having to dodge automobiles driven by persons who seem to think that they have some superior right to the use of the street and to all parts of it at all times.

Respectfully,
RICHARD H. TRENT.

More than a thousand tons of glass will be used in the construction of buildings at the Panama-Pacific International Exposition, 550 tons having already having been contracted for to be used on eight of the main exhibit palaces. In the machinery palace alone there are 28,000 panes of glass in the facades now installed and 65,000 square feet of glass in the skylights. When it is considered that 1000 tons of glass in panes of the average thickness would cover an automobile road, eight feet wide, from San Francisco to Los Angeles, a distance of 500 miles, and leave quite a bit over, some idea of the immensity of these figures may be gained.

LITTLE INTERVIEWS

—COLONEL SAM PARKER: Who in blazes is Warwick, anyway?

—W. P. ROTH: Everybody along the "street" was feeling happy yesterday for the dividends of the Honolulu Consolidated Oil Company reached here.

—THE AD CLUB: I see that the carnival is soon to incorporate. When that has been accomplished I'll inject a little of my spirit into the corporation and then lay low and boost.

—JAMES D. DOUGHERTY: The Mid-Pacific Carnival, Limited, without a doubt will prove a lusty youngster. As to his parentage, he will be the child of the entire community of Honolulu.

—CAPTAIN BERGER: Of all the outdoor concert grounds Aala park is the best. The acoustics are really good there, and fine band effects can be secured.

—SAM HOP: The Chinese team is likely to get one or two fast players from its recruits. The chance to make a trip to the states is making everybody work hard.

—J. ISAAC ARCIA: Kapahulu is so situated at the base of that prominent hill, Kaimuki, on the way to Waikiki, that it very fortunately escapes the raging windstorms that sometimes afflict these adjoining sections.

—R. L. WEAVER: The city and county needs an ordinance fixing the city limits so that an ordinance can be passed prohibiting certain things being done within the city limits. It would have a lot of trouble, printers ink and space.

—JUDGE H. E. COOPER: I have a desk full of letters from white men, from nearly all parts of the United States who want to join my colony on Palmyra Island. But I have decided my colony shall be practically all South Sea Islanders, Tahitians preferred.

—JAS. STEINER: I appreciate J. W. Caldwell, the superintendent of public works, for the good work he is getting done in and about the grounds of the executive and judiciary buildings. Everything about the laws and walks begins to look neat and in proper form. I admire the man that can get things done.

—BARON LE GAY: I wish to say that the statement attributed to me in the morning paper is absolutely false. I did not deny in any way the truth of the Star-Bulletin's article dealing with the murder of Mrs. Chas. Stewart at the suicide of Wagner, or my son's part in the tragedy.

The feature of the meeting of the members of the Promotion Committee this afternoon which is held at 3:30 o'clock in the rooms of the Chamber of Commerce, Stangenwald building is an address by Dr. Doremus Scudder, pastor of Central Union church on the Trail and Mountain Club. All who may be interested in the workings of this organization are cordially invited to attend the meeting.

YVONNE DE TRVILLE SPENDS GREAT DEAL OF TIME STUDYING MUSIC

During the years that Yvonne de Treville spent in Europe, she was often obliged to study a new role in less than 24 hours notice. She learned to sing one of the parts in her repertoire in a different language. Frequently, Miss de Treville studied new roles in railroad trains.

"As I always travel with my little Irish harp," explained the singer, "it was possible for me to study a new part while traveling from one country to another. The traveling in Europe, is, for the most part, slower than in America; and as my mother and I always have a compartment, exclusively to ourselves, I have the needed privacy for work."

"While I studied all the roles in my repertoire in the language of their composers, I also was compelled to learn the Italian operas in the French language and the French operas in the Italian language, and the German operas in both French and Italian. I also sing all my roles in English. I learned the Scandinavian languages in order to sing the Norwegian and Swedish songs in the original. I sing in eight languages and several additional dialects, but am by no means through with my studies of foreign tongues. Meanwhile, I do believe in English, with all my heart, but it must be English pure of enunciation and elegant of diction."

Miss de Treville will appear at the Hawaiian Opera House in two concerts Saturday, January 31, and Thursday, February 5.

GOVERNOR PINKHAM TENDERED RECEPTION BY ELKS OF HONOLULU

Honolulu Elks to the number of more than 300 were hosts last night at a reception tendered Governor L. E. Pinkham at the home of the lodge on King street. The hall was prettily decorated for the occasion, the Elks' purple and white mingling with the national colors, while tastefully arranged potted ferns and palms added an inviting charm. A large portrait of Governor Pinkham, bearing the inscription "Uncle Pink," was hung in the hallway and framed in purple and white.

Beside the governor, Exalted Ruler James Coke and Mrs. Coke were in the receiving line. Dancing commenced shortly after 8 o'clock and, to the music of Kaai's orchestra continued until 11 o'clock, when, with lights turned low, the Elks gathered to drink a silent toast to their absent brothers. Dancing was then continued until a late hour. Besides the reception committee, those ladies appointed by the lodge to assist were Mrs. C. B. Cooper, Mrs. A. E. Murphy, Mrs. James Coke and Mrs. Walter Jones.

DEATHS

CRESSATY—In Honolulu, January 21, 1914, Bechar Cressaty, aged 43 years, a native of Damascus, Syria, Asia Minor. The funeral services will be held this afternoon at 3 o'clock at the undertaking parlors of H. H. Williams, Fort street. Honolu lodge No. 899, Loyal Order of Moose, will conduct the services. Interment at Nuuanu cemetery.

BIRTHS

ADRIC—In Wailuku, Maui, Jan. 18, 1914, to Mr. and Mrs. Alfred Adric, a daughter.
COOMBS—In Honolulu, January 22, 1914, to Mr. and Mrs. Frank Coombs, a daughter.

DRIVES BLAZING AUTO AND BURNS OFF SHOES

Smokes New Christmas Pipe Near Gasoline—Painfully Scorched

[By Latest Mail]
OAKLAND—Santa Claus gave a fine new pipe to Nels J. Lindstrom, a contractor of 879 Thirty-seventh street. He was so pleased with it that he overlooked the fact that a smoking pipe is not conducive to safety when placed in close contact with gasoline. Lindstrom has an automobile, and he undertook to fill the tank with gasoline, in the meantime puffing away at his Christmas pipe. The result was not different from that which has been the outcome of innumerable cases of a similar character. The automobile took fire and threatened the destruction of the Lindstrom garage. The owner was equal to the emergency. He jumped into the self-starter and dashed out into his backyard. In the meantime the fire department was called out and saved the machine. Lindstrom was not so fortunate. The shoes were burned from his feet and his lower limbs and hands were frightfully scorched. He was treated at the Emergency hospital, where it was reported that it will be many days before he will be able to walk.

SAYS WILSON IS RIGHT IN HIS POLICY

Many Huertistas Are Held to Loyalty Only by Selfish Motives

"Among the better class of the citizens of Mexico, and excepting the personal following of Provisional President Huerta in Mexico City, President Wilson's policy toward Mexico during the past several months of revolution is meeting with the highest and sincerest indorsement and his patience and announcement of principle that Latin-American governments must not be founded upon revolution, murder and other crimes is making him admired through the country."

This statement was made Monday by Judge Yernacio Sepulveda, general counsel for the Wells Fargo Express Company in Mexico and also one of the high representatives of the Hearst interests in Mexico. He left Mexico City on December 6th, arrived at the Fairmont Hotel Sunday and Monday, in company with Senora Sepulveda, went to Pleasanton to visit Mrs. Phoebe A. Hearst. He gave his statement over the telephone from the Hacienda del Pozo de Verona, says the San Francisco Chronicle.

Is Uncertain of Results
"There is of course much distress in Mexico," he continued, "and there are many conflicting opinions. Many of these opinions are due to misinformation spread about by one faction to win support from another."

"However, time is bringing renewed confidence in the sincerity of the friendship of the United States and the acceptance of President Wilson's declaration that the attitude of the Washington Government towards Mexico is without selfishness and has in view the general good and integrity of the country. The people are beginning to realize the high moral plane on which the President's policy is based."

Judge Sepulveda declined to express any opinion as to the prospects for ultimate success of the Federal or rebel forces. A great part of the country north of Mexico City to the Rio Grande is in the hands of the rebels he said, and communication and transportation facilities are badly demoralized.

Indorses President's Stand
A large number of the personal following of Dictator Huerta in the Mexican capital were held to loyalty through selfish motives and could not be counted on in the last extreme, he declared.

Judge Sepulveda said that personally he approved of the attitude of President Wilson as being the best for the interests of both Mexico and the United States. Great patience should be exercised in the hope that peace may be brought about from within and in such a way as to avoid a bitterness of feeling between the people of the two countries, which could not be hoped for if the United States should intervene and assume the role of a policeman.

OLD-TIME FRIENDS ENGAGE IN DUEL
Ride in Taxi with Landlady Cause of the Shooting of One Man

BUTTE, Mont.—Armed, one with a high-power rifle and the other with a six-shooter, John Liebe and Carl Marquardt, for years fast friends, fought a duel in their rooming house after quarreling because Marquardt had ridden home from a New Year's celebration in a taxicab with Mrs. Wilma Lehn, their landlady, and had left Liebe behind.

The men exchanged seven shots, and Liebe is in the hospital with a shattered arm which may have to be amputated. After the shooting the men embraced and shook hands, declaring they had no cause to quarrel. Marquardt took Liebe to the hospital, after which he went to bed and slept until awakened by the police. The landlady declared she wanted to take both men in the taxi but there was not room.

It is easy to see why a woman thinks she has a pretty ankle.

You can find it at any of the bookstores.—advertisement.

LAD IS ELECTROCUTED BY A FALLEN WIRE

[By Latest Mail] SANTA ROSA.—John Rudolph Roelofs, a San Francisco lad who came here to spend the New Year holiday with his relatives, Attorney and Mrs. Ross Campbell, was electrocuted this morning. He came in contact with a guy wire of the Great Western Power Company which had fallen across a primary wire of the Pacific Gas and Electric Company, and was slowly electrocuted. The lad talked with a companion, George Powers, for some time before unconsciousness came, and begged that he be released from the electric wire which had fallen across his hand. It was 15 minutes before assistance reached the youth and the current was discontinued. The father of the unfortunate youth is J. P. Roelofs, a traveling man.

'I'M SANE,' SHOUTS SCHMIDT IN COURT

[By Latest Mail] NEW YORK.—Hans Schmidt, the former priest, protested that he was sane today when Judge Olcott, attorney for the defense, began his address to the jury in the trial for the killing of Anna Ammueller. "I will show you," said Olcott, "that Schmidt was mentally unbalanced and legally insane years ago." "That is not true. I protest against that," shouted Schmidt. He presented a wild appearance as he shook his fist at the attorney. Court attaches forced him back into his chair.

A Free Market for Island Produce

Has been established by the United States Experimental Station and called the

Territorial Marketing Division

112 Queen Street, Ewa of Maunakea Street

Conditions of Sale

1. All sales are for cash.
2. Returns to the customer are made in cash as soon as the transaction is completed.
3. No charge is made for the service. It is absolutely free.
4. Before sending any produce to the market, notify the Division—address P. O. Box 753. Wireless address "U. S. E. X."
5. Address produce to "U. S. E. S.," 112 Queen St., near Maunakea, Honolulu.
6. Any one can buy at the market; but sales are of wholesale quantities, and packages will not be broken.

Things Accomplished

1. Advise all island producers what produce the Honolulu market requires, and when and how to send it.
2. Receive any article of island produce from any island resident, and sell it at the best obtainable price.
3. Gather statistics of wholesale price of island produce—cattle, sheep, hogs, poultry, eggs, vegetables, fruit, grain, etc., and publish it for the information of the public.
4. Answer questions concerning the state of the market and furnish information not covered by the published market quotations.
5. Furnish seeds, crates and bags at cost.
- 6.—The service is free—no charge to the producer.

THOSE IN CHARGE:

E. V. WILCOX

Superintendent of the United States Experiment Station

O. B. LIGHTFOOT

Who devotes his time to the market division

A. T. LONGLEY

Who spends his time at the Experiment Station

The Territorial Marketing Division is accomplishing much good for the small farmer and should have the support of every person in Honolulu.

IMPROVERS WILL DISCUSS KAIMUKI DISTRICT TAXES

This evening, at 7:30 there will be called to order a mass meeting in the Liliuokalani school house at the end of the Wai'alea carline. This mass meeting is under the auspices of the Wai'alea, Kaimuki and Palolo Improvement Club, and is destined to be one of the most important that has ever been held in that section of the city.

At this meeting there will be discussed the present method of taxing the property in that section, and suggestions as to methods of taxation that would seem nearer to an equality of fairness to all concerned.

There will also be discussed the status of the sidewalk on Wai'alea road—its present width, the proposed width, and other matters connected with that important part of city development.

It is hoped that every citizen in the East End will attend this meeting without fail, and don't be afraid to offer any suggestions in the line of betterment.

According to a report from Hilo reaching Honolulu last night, no defense was put on yesterday in the first cases against Supervisor Kealoha. Attorney McBride, for the supervisor, asked for a verdict in favor of his client after the prosecution had put on its "crushed rock" sale evidence. He said he had no witnesses to call. The motion was denied and the court will instruct the jury today.

ANNUAL SUGAR REVIEW AND TIMELY CROP NEWS IS GIVEN

Willett & Gray Comment on Interesting Developments of Last Year

Willett & Gray's Sugar Trade Journal for January 8 contains the annual crop review, especially interesting this year, as well as timely news of the sugar industry. The Journal says:

The figures show the consumption of sugar, 3,745,139 tons, an increase of 238,957 tons from 1912, or 6.819 per cent, against an increase of 152,791 tons, or 4.559 per cent for 1912, against 4,076 per cent average yearly increase for 39 years.

The total consumption of sugar upon which full duty was paid was 17,558 tons, and of sugar on which a concession of duty was allowed was 2,873,109 tons; consumption of domestic production 852,472 tons.

Cuba contributed 1,990,831 tons, Hawaiian Islands 506,555 tons, Porto Rico 321,103 tons, Philippine Islands 44,620 tons, domestic cane 207,708 tons, domestic beet 626,314 tons. Maple sugar 9000 tons and molasses sugar 10,450 tons. The corresponding supplies from these countries for 1912 and 1911 will be found tabulated herewith.

The total consumption of refined sugar in 1913 was 3,678,144 tons, of which the American Sugar Refining Company manufactured 1,333,908 tons, or 36.27 per cent, against 38.48 per cent in 1912 and 42.12 per cent in 1911.

The independent refiners manufactured 1,704,595 tons, or 46.34 per cent, against 1,586,120 tons, or 46.09 per cent, in 1912.

Domestic beet sugar factories contributed 626,314 tons refined, or 17.00 per cent, against 15.01 per cent in 1912 and 15.51 per cent in 1911.

The Hawaiian cane factories contributed 13,496 tons refined, or 0.37 per cent, against 0.37 per cent in 1912 and 0.41 per cent in 1911.

Foreign refiners supplied 831 tons, or 0.02 per cent, against 0.05 per cent in 1912 and 0.05 per cent in 1911.

The average difference between raw and refined sugar in 1913 was 0.772c per pound, against 0.879c per pound in 1912 and 0.892c per pound in 1911.

An analysis of the above statement is interesting as showing the influence of low prices for raw sugar and greatly increased competition among refiners, thereby reducing the difference between raw and refined to 0.772c per pound against an average difference of 0.861c per pound for ten preceding years, thus giving consumers their refined sugar in 1913 at 0.187c per pound less than in 1912.

This reduction is directly accountable for the unusual increase of consumption, independent of increase of population, which increase is 6.819 per cent over the year 1912 against an average of 4.076 per cent for 39 years and 2.827 per cent larger increase than the average of the 10 years of Cuban reciprocity.

The reduced cost of raw sugar for refining was directly due to the large increase of crops of free and preferential sugars, which crops were more than sufficient to supply the United States requirements without importing non-preferential sugars at the higher rates of duty. This year is the first in which this condition has existed. In every year heretofore a certain amount of such full-duty-paying sugar has been required for use, which has raised the average cost of raws each year. We have maintained for years that the way to lower the cost of sugar to the consumer was to increase our local free and preferential crops by a moderate protective duty. The year 1913 sees our forecast fulfilled to the letter.

This feature of the year is really the most important to which we can call attention, except one other which concerns the competition during the year among the cane refiners, as shown by the decrease of production by the American Sugar Refining Company to 36.27 per cent of the consumption from 38.48 per cent the previous year, while the proportion of the independents increase from 46.09 per cent to 46.34 per cent. The domestic beet factories increased from 15.01 per cent to 17.00 per cent, and carried over into 1914 a slightly larger amount of crop production than last year.

All raw sugars in 1913 were sold on the basis of values of Cuba 96 degree centrifugals in New York and not on basis of Hamburg parity, thus fulfilling another of our previous forecasts, that with local production of 300,000 to 500,000 tons above the U. S. requirements, the U. S. would become entirely independent of the world's market at Hamburg.

In our last issue we covered the matter of market quotations for 1913. We have only to add that all crop conditions for 1914 promise sufficient production to supply the U. S. with all requirements without calling on Europe for any, and hence that prices will continue to be made on the basis of Cuban values in New York for raw sugar, while refiners will need a larger margin to work upon if they are to continue to pay dividends or renew them in cases where they are already suspended.

The invisible supply of refined su-

gars in refiners' and dealers' hands is unusually small.

STATISTICS BY SPECIAL CABLES.—Cuba.—The six principal ports:

Receipts, 33,000 tons; exports, 28,000; stock, 35,000 tons, against 10,000 tons last year.

Centrals grinding, 119, against 96 last week, 116 last year and 105 in 1912.

Entire island receipts for week, 53,000 tons, against 43,000 tons last week, 43,000 tons last year and 31,000 tons in 1912.

Stocks in the United States and Cuba together of 184,371 tons, against 170,341 tons last week and 70,563 tons last year, an increase of 113,808 tons from last year.

Europe—Stock in Europe, 3,460,000 tons, against 3,116,000 tons last year.

VISIBLE SUPPLY.—Total stock of Europe and America, 3,641,371 tons against 3,186,563 tons last year at the same uneven dates. The increase of stock is 454,808 tons against an increase of 411,949 tons last week.

Total stocks and afloats together show a visible supply of 3,734,371 tons against 3,246,563 tons last year, or an increase of 487,808 tons.

RAWS.—The Cuba cable herewith shows much larger production of crop this season than last, and its influence is to bring in both sellers and buyers at the 1 1/2 c. & f. basis for prompt shipments, equal to 3.22c per pound, present duty paid, at which several refiners secured sugar to a moderate extent only and are still disposed to continue buying as sugars are offered.

Porto Rico, having already disposed of most of its production to date, became firmer and buyers paid 3.20c against previous sales at 3.15c. Cuban sellers persistently maintain 1/4c or more higher pretensions for new duty shipment sugar and thus far have made no sales of such, but naturally business in March supplies cannot be very much longer delayed, and the basis for such will be established, but from present indications at not less than 2c c. & f., inasmuch as several operators also are watching the market of Cuba closely expecting to purchase at the lowest point. The question of the low point depends largely on the financial situation in Cuba, which just now is reported to be more or less critical, but would be relieved no doubt by free buying from any source.

The United Kingdom bought 6000 tons January shipment and 6000 tons February shipment Cubas at 1.96c c. & f. Cuba, equal to 1.96c c. & f. New York.

Please refer to this paper carefully for much valuable sugar information of the year 1913.

European Beet-Crop.—(Extracts from F. O. Licht's report dated Magdeburg, December 19, 1913).—Germany.—The weather during November was more mild and wet than during October, which was decidedly dry. December has brought somewhat cooler temperatures with less rain so far. However, the rains in both months were

not sufficient to interfere seriously with harvesting and hauling and all beets were practically out of the ground before the end of November. The sowing of winter grain was also completed by that time and the warm rains have given it a good start. However, a heavy snow cover is now desired to protect it from frosts and also to entirely remove the dryness of the subsoil, which has existed since 1911. The actual best yield is now figured at 3 1/2 tons per hectare, against 3 1/2 and 18 tons in the two preceding years. The beets, especially in the east, showed a good increase in weight during October and November and the weather may still have some little influence upon them. Forunately most of those harvested during October and early November were unusually clean and free from dirt, and consequently, in spite of the continual warmth and high temperatures the decay and second growth in silo has not been excessive. The manufacturing campaign was carried on without difficulty and 44 factories had already finished before the end of November against 14 in 1912. The greater part are expected to be through by Christmas and but few to work into January. The increase in output from December to August in the four past years amounted to 0.76, 1.12, 1.15 and 1.19 per cent, an average of 1.05 per cent. As the after campaigns of the factories are becoming shorter each year it seems right to take a figure of 0.99 per cent for the coming year, which added to 14.71 per cent, the output to the end of November, gives a probable total output for the year of 15.70, against 15.85, 15.59, 16.00 and 16.16 per cent. Taking as a basis the official probable quantity of beets, 16,726,742 tons, a probable reduction of 2,725,000 tons is arrived at, including 100,000 tons made from molasses.

Anticipating Change in Tariff in 1914.—Extract from our "Weekly Statistical Sugar Trade Journal" of January 23, 1914:

"Grocers began to prepare too soon for the coming of free sugar (April 1st), and ran their stocks so low that they saw the bottoms of the barrels, while consumers still keep the 62,000,000 spoons going into the sugar bowls just as regularly as ever. The emptying of the barrels forced granulated to the low price of 5.15-16c, while the sudden forced replenishing has advanced the price to 6 1/4c, which will no doubt be held. A considerable demand for free duty refined has been met by some refiners at 4 1/2c for granulated, while other refiners decline to make such sales.

"American Beet Sugar Crop Estimate.—The present American beet crop is the largest on record.

"In all but a few states the campaign is entirely completed. California has practically finished and will make a good showing, the crop of that state promising to outturn fully 30,000 tons larger than the October estimate.

"Colorado and Nebraska are not doing as well as anticipated, the indica-

A HAPPY CHILD IN JUST A FEW HOURS

When cross, constipated or if feverish give "California Syrup of Figs" then don't worry

Mothers can rest, after giving "California Syrup of Figs" because in a few hours all the clogged-up waste, soluble and fermenting food gently moves out of the bowels, and you have a well-playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish, and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what age, your little one—if full of cold, or a sore throat, diarrhoea, stomach ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages, and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.—advertisement.

Utah and Idaho will give a combined result as good as anticipated. It will thus be seen that the increases in some sections about offset the decreases in others.

Taken as a whole the latest data indicate a total beet sugar production in the United States this season of 40,900 tons of 2340 pounds each, the same as our estimate published in October, with the final result indefinite and depending on the extraction obtained from the remaining beets, some of which will make a poor return.

NAVAL DOCKS FOR SWIMMING EVENTS OF MID-PACIFIC CARNIVAL
(Continued from page one)

while there might be some regulations in the way, he would take the matter up with the department at Washington, and do all in his power to aid the local committee. He addressed a letter to the secretary of the navy and the reply, as above, came very promptly.

"I think that an excellent spirit is being shown by the girls of the Hui Au Kai in the manner in which they have come forward in their effort to secure a fund with which to bring a woman swimmer to Honolulu to compete in the ladies' races during the aquatic events of the carnival. The carnival at this time can not see its way clear to finance such a project but it is hoped that the members of the Hui will be successful in their undertaking. They certainly have the support of those in charge of the celebration."

This statement comes from James D. Dougherty, director-general of the carnival, and the members of the Hui Au Kai, in order to raise the necessary fund, will be hostesses at a dance at the Outrigger Club tomorrow evening, beginning at 8:30 o'clock. Already a large number of tickets have been sold among the younger set and a large attendance is expected. The music for the occasion will be furnished by "Dude" Miller and his Hui Nalu quintet composed of 15 musicians and singers, which will furnish an excellent accompaniment by which to "trip the light fantastic" over the smooth floor of the clubhouse. All the latest dances will be in vogue, and several representative Honolulu women have consented to act as patronesses in order that the affair may be well chaperoned. Refreshments will be served during the evening and an interesting evening is promised all those who attend.

DIRECTOR-GENERAL PRAISES WORK OF FINANCE COMMITTEE

"The manner in which the Mid-Pacific Carnival finance committee has gone at the matter of underwriting the 1914 celebration is certainly worth the highest commendation at this time, for the brains of some of Honolulu's most representative business-men have been used in putting the Carnival on a staunch financial basis. The finance committee stands out as a sort of protectorate, so to speak, in order to guard against any apparent waste of funds, and the members are working in harmony with the director-general in every instance."

James D. Dougherty, director-general of the 1914 Mid-Pacific Carnival, in the foregoing manner this morning

HUSBANDS AND WIVES AFFECTED BY INCOME TAX
(Continued from page one)

be included in her return, in order that a deduction of \$4000 may be made from the aggregate of both incomes. The tax in such case, however, will be imposed only upon so much of the aggregate income of both as shall exceed \$4000.

"If either husband or wife separately has an income equal to or in excess of \$3000, a return of annual net income is required under the law and such return must include the income of both, and in such case the return must be made even though the combined income of both be less than \$4000.

"If the aggregate net income of both exceeds \$4000, an annual return of their combined incomes must be made in the manner stated, although neither one separately has an income of \$3000 per annum. They are jointly and separately liable for such return and for the payment of the tax.

"The single or married status of the person claiming the specific exemption shall be determined as of the time of claiming such exemption if such claim be made within the year for which return is made, otherwise the status at the close of the year.

"These regulations hereby supersede the regulations relative to paragraph C of the income tax law, as prescribed on page 4 of regulations, part 2, issued under date of October 31, 1913.

"W. H. OSBORN, Commissioner.
"W. G. M'ADOO, Secretary."

expressed his appreciation of the members of the finance committee of the celebration, through whose efforts a community corporation, upon which Carnivals of future years will be based, has been formed. The members of the committee met last evening and, by a unanimous vote, accepted the by-laws for the proposed corporation as set forth by Chairman L. J. Warren.

For the present, the members of the finance committee will act as the board of directors and, at the first annual meeting of the stockholders, scheduled to be held in April, the initial election of directors and officers will be held. With this election the corporations will be perfected.

Personal Mention

ALEXANDER BROBERG, who has spent some time in the Samoan islands, is a visitor to Honolulu as a passenger in the Oceanic steamer Ventura.

"PAL" BROWN, a fighter of considerable renown, is returning from a tour of Australia and New Zealand, as a passenger in the Oceanic liner Ventura.

MRS. E. HOLDRIDGE was numbered among the passengers completing a round trip on the Oceanic liner Ventura. Mrs. Holdridge will stop over at Honolulu for the carnival.

J. JOHNSON, en route to London, England, arrived at Honolulu from Australia in the Oceanic liner Ventura this morning. He is to remain indefinitely in the islands.

MISS BONNIE LEONARD, a prominent English actress, who has closed a nine months' engagement in Australia and South Africa, is a through passenger en route to San Francisco in the Oceanic liner Ventura.

D. C. DIAMOND, Mrs. Diamond and Miss Caroline Diamond were arrivals this morning in the Oceanic liner Ventura. They are completing a tour of Australia and decided to remain over at Honolulu for some weeks.

GEORGE P. ELLIS, a retired capitalist of Pasadena, California, is visiting in Honolulu, being registered at the Young hotel. Mr. Ellis is accompanied by his wife and expects to remain some time in this city.

RALPH S. HOSMER, superintendent of the territorial bureau of forestry and chief fire warden, returned here yesterday with a bride, after a visit on the mainland. Forester Hosmer married Miss Jessie Nash Irwin of Boston. Mr. and Mrs. Hosmer are guests at the Pleasanton now.

D. B. CRANE, former treasurer of the O. & O. steamship line which vessels some years ago passed through Honolulu, was an arrival this morning in the Oceanic liner Ventura. Mr. Crane will remain some weeks in the islands. He has been away on an extended visit to Australia and the Far East.

R. L. BAKER, representing the promoters of a big sporting carnival to be held at Sydney beginning with March, is proceeding to the coast as a passenger in the Oceanic liner Ventura, for the purpose of securing contracts with well-known mainland fistic

dike during the winter of '93-4, make his memorable solitary canoe trip in the spring.

Civilization couldn't hold Funston for long, and in 1896-7 he appeared espousing the cause of oppressed Cuba, and serving through the grades of captain, major and lieutenant-colonel in the insurgent army. He served with distinction for 18 months, was wounded, and returned to the United States to recuperate.

Colonel of Volunteers.

When the war between the United States and Spain broke out, Funston was commissioned colonel of the 20th Kansas volunteer infantry, considerably to his own surprise. He went to the Philippines at the head of his regiment and took part in a number of big battles and innumerable skirmishes, making a name not only for personal bravery, but for sagacity as a military strategist. Among other noteworthy feats was the crossing of the Rio Grande at Calumpit on a small bamboo raft in the face of a heavy fire, and establishing a rope ferry by which the United States troops were enabled to cross and win a decisive battle. For this act he was made a brigadier-general of volunteers on May 20, 1899, and awarded the medal of honor February 14, 1900.

Caught Willy Emilio.

The feat for which General Funston is probably best known was the capture of Emilio Aguinaldo, which he planned and accomplished while campaigning against the insurgents in northern Luzon.

CONCERT SERIES ON ROOF GARDEN

The first of a series of Saturday concerts given by the management of the Alexander Young Hotel on the Roof Garden will take place tomorrow evening beginning at 9 and ending at 11:30 o'clock. An orchestra under the leadership of Professor Carl Miller will perform.—advertisement.
