PRICE FIVE CENTS

MOTT-SMITH IS LEAVING \$6,000 JOB

Chairman of Public Utilities Commission Retires Entirely on March 31st

RESIGNATION IS PURELY VOLUNTARY; REASONS

Thinks Technical Man Should Handle Work and Governor Free to Reorganize

Ernest A. Mott-Smith, chairman of the public utilities commission, will retire from the chairmanship and the commission on March 31.

His formal resignation was handed to Governor Pinkham this morning. It was given after conferring at some length with the governor, and is entirely voluntary. While Governor Pinkham would not discuss the matter at length this morning, it may be stated that the first intimation that Mr. Mott-Smith was to resign came as news to the chief executive of the territory.

No successor has been selected so far as is known. Mr. Mott-Smith is considering a vacation trip to Japan, as a member of the Hawaiian excursion party which leaves on March 27, and if he goes he will be the official representative of the Chamber of Commerce. However, the expectation of a trip to Japan has nothing to do with the resignation from the commission.

The two principal reasons given by Mr. Mott-Smith for his action are: first, that the time has come when a technically-equipped man should be at the head of the public utilities commission, and second, that by his retirement he leaves the new executive of the territory perfectly free to reorganize the commission as he sees fit.

The position carries a salary of \$6,000 a year. The chairman of the commission, under the law passed by the last legislature, is the head and front of the body, the only member paid a full salary and upon him devolves the virtual control and operation of the commission.

Mr. Mott-Smith is the first chairman of the commission, which was created by act of the legislature of 1913 and which has been in existence some eight months. He has been busy since its inception in organizing the work and laying the plans for the future.

"I feel that the time has come when a man technically equipped to handle the control and investigation of public service corporations should be chairman," he said this morning, discussing frankly his action in resigning. "So far as laying out the broad plans, in whipping into shape the legal phases of our work, that is all accomplished. The technical, and is now the important end for the next move is to undertake the technical work of investigation, which, indeed, is partly started."

"I wish also to leave Governor Pinkham's hands entirely free. The commission was organized, of course, prior to his becoming the executive of this territory. I feel that it bears such important relations to the territorial government that the governor should be able to have its organization in his hands. I feel that he believes in the usefulness of the commission and that under his administration it will have the maximum of support."

"Having resigned as secretary of the territory I have felt for some time past that I'd like to lay down the duties of public office altogether. I have been in office a long time and for some personal reasons, in addition to those I have mentioned, I feel that I should no longer continue."

Mr. Mott-Smith plans to re-enter the practice of law upon his return from Japan and after an extended rest.

His letter of resignation is as follows:

Honolulu, T. H., March 18, 1914.
Honorable L. E. Pinkham, Governor of Hawaii,
Honolulu, T. H.

Sir:
I hereby tender my resignation as chairman and member of the public utilities commission of Hawaii to become effective on March 31, 1914.

"Yours respectfully,
(Signed) E. A. MOTT-SMITH."

SUGAR

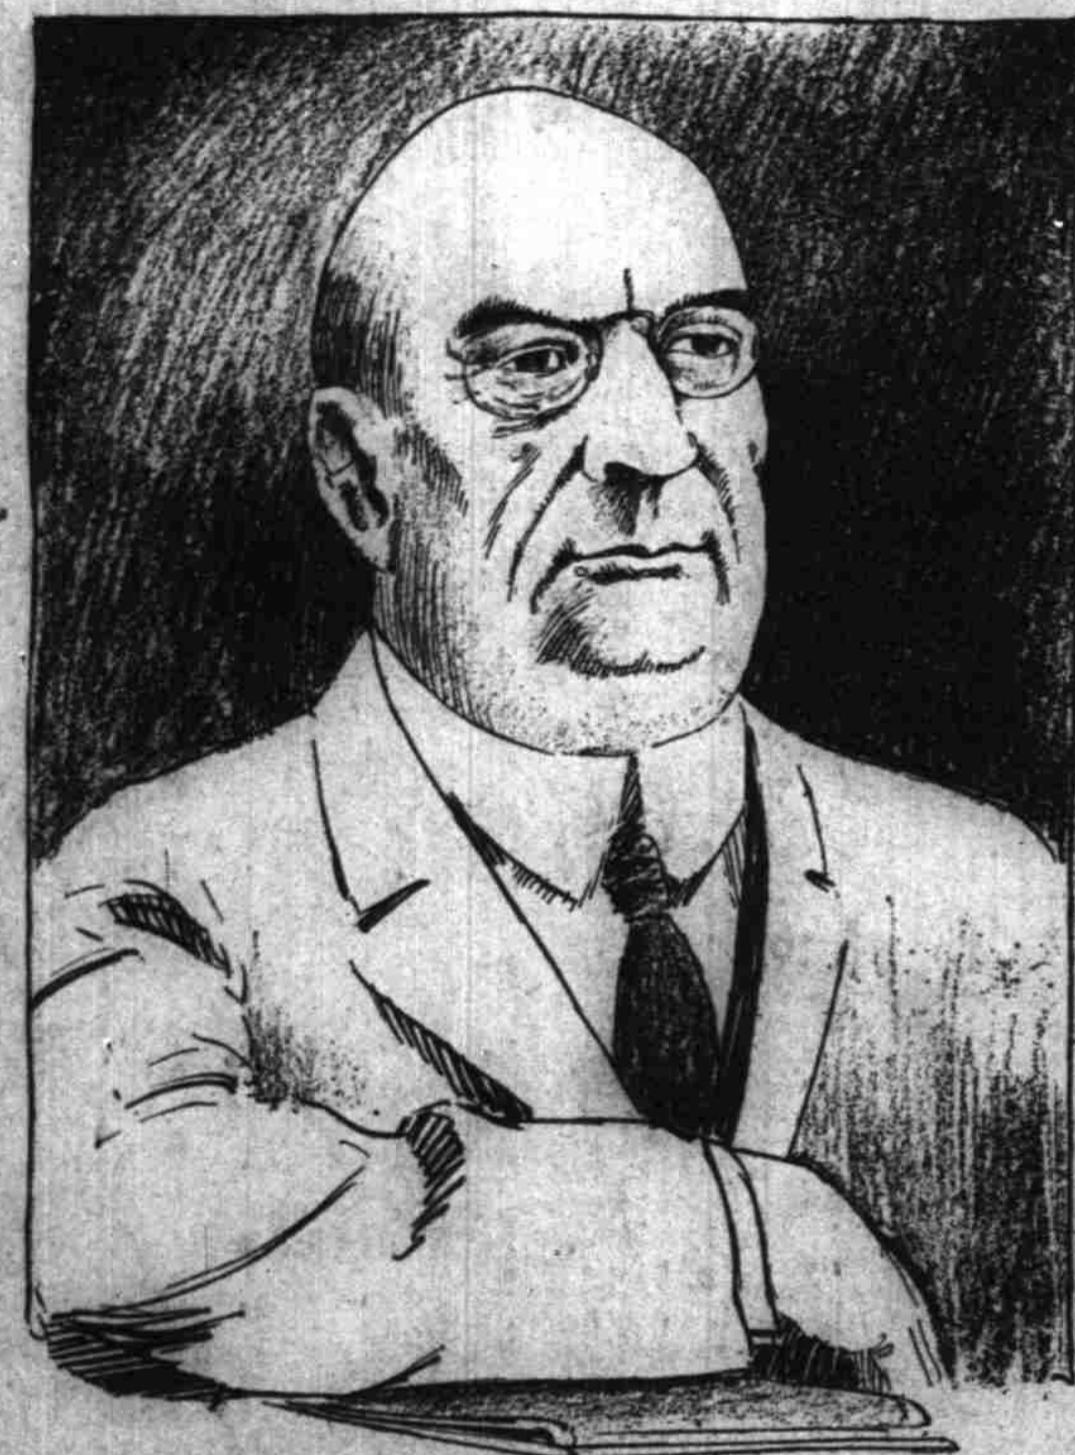

SAN FRANCISCO, Mar. 18.—Sugar: 96 degrees test, 2.98 cents. Previous quotation, 2.95 cents.

The list of conventions to meet in San Francisco during the progress of the Panama-Pacific International Exposition now totals 212, the last convention formally booked being the National Optical Association. One convention a day for the past week is the rate at which fraternal bodies, commercial and industrial organizations, and learned societies have signified their intentions of meeting in San Francisco during the exposition.

DICK CORROBORATES PUahi SAYS MARSHALL BELLIGERENT

W. C. McLean, prominent attorney of Uniontown, Pennsylvania, whose long friendship with the family induced him to volunteer his services as legal counsel for John William Marshall, in the fight for the latter's life here. He prepared Marshall's defense and is acting as advisory counsel to Attorney F. E. Thompson in the present trial.

—Sketch by Star-Bulletin staff artist.

Husband of Proprietress of Hula Joint Contradicts Himself Under Cross Examination by Attorney Thompson

Two distinct features developed in the murder trial of John W. Marshall in Circuit Judge Robinson's court today: one, consisted of apparently contradictory statements on cross examination and re-direct examination by Moses Puahi concerning Marshall's threat to get a gun; the other, the testimony of W. R. Dick, one of Guertler's companions on the night of the shooting, partly corroborating Puahi's story and tending to show that Marshall was the belligerent party throughout, with the Guertler party seeking to serve as pacifiers.

As told in the Star-Bulletin yesterday, Moses Puahi stated on the witness stand that about half an hour before the shooting occurred and while the men were outside the hula house, he heard Marshall say something, the only word of which he, Puahi, caught was "gun." A moment later Puahi altered his statement saying he heard Marshall say: "I am going to get my gun."

THOMPSON TO BE M'CARN'S AID, LATEST REPORT

U. S. District Attorney and His Former Assistant at Ours, Is Now the Rumor

J. W. Thompson, recently arrived here from Nashville, Tenn., will become assistant United States district attorney, under District Attorney Jeff McCarn, as soon as his appointment can be made by Attorney-general McReynolds in Washington.

This is, of course, contingent upon Mr. Thompson's being satisfactory to the attorney-general, to judges of the district court, and that Attorney A. S. Humphreys is willing, says Mr. McCarn.

It is evident that the supposed disqualification which the district attorney believed would prevent Mr. Thompson becoming his assistant, has been removed through a new interpretation of the law on the matter of residence in the territory. Asked about the matter again this morning Mr. McCarn said:

"Unless Mr. Thompson is unsatisfactory to the attorney-general, or to the judges of the district court, or objection is raised by Mr. Humphreys, for whom he came here under contract, Mr. Thompson will become assistant district attorney as soon as he can be appointed from Washington."

Mr. Thompson does not have to establish a residence in the territory other than he has done already. There is nothing in the federal statutes that require any specific time to be spent in the territory before a man may become a resident. Mr. Thompson might have become a resident the first day he landed here, and he cer-

'UGLY COMMENTS' ARE REPLIED TO BY W.R.CASTLE

Points Out That R.W.Shingle's Trip to Washington Is for Mahuka Site First

The Star-Bulletin has received the following letter:

Editor Honolulu Star-Bulletin.

Sir:—The Advertiser is regarded as an able paper. This is probably true. But, like some very able men, it is so obsessed, first, with a sense of its own greatness, and second, with an absolute blindness in case it prejudices or predilections go the other way, that it cannot get a thing straight. It published my letter with regard to the Mahuka site, with some ugly comments. I do not like to appear before the public too frequently, but certainly the insinuations and charges of the Advertiser now demand some notice, and I would like to reiterate what I have said:

Mr. Robert Shingle has gone to Washington to see what can be done to get the United States to carry out the original proposition, which the Waterhouse Trust Company and a large number of others in Honolulu, including really all the practical business men in the place, believe is the proper one, that is, to have the original Mahuka site used and a building erected there at once, if it is found impossible to go ahead with the Fort street condemnations. Mr. Shingle will work for this honestly, as he has always done, and those who originally supported the Mahuka site and trusted the Waterhouse Trust Company may continue that trust and confidence, for the Waterhouse Trust

MASSMEETING TO 'TALK SITE' NOW IS A SUGGESTION

Heads of Commercial Bodies Confer—Merchants' Meeting Yesterday Urges Action

CABLEGRAMS SHOW WASHINGTON STATUS

Secretary McAdoo May Decide Federal Building Location Next Week

Plans were discussed this morning by President George Carter of the Chamber of Commerce and President W. R. Farrington of the Merchants' Association for a massmeeting to discuss the much-discussed but uncompleted question of a federal building site.

Cabled news from Washington yesterday that the treasury department officials are to hold a series of hearings on the Mahuka site and possibly called for a massmeeting of once to reopen the question, at least so far as Washington is concerned. Whether it is to be reopened here, whether a change is to be made from the Mahuka site, is something the leaders of the commercial bodies talked over this morning, together with plans for securing a joint expression of opinion from the two organizations.

A massmeeting may be held early next week, possibly on Monday.

Suggestions have been made that the commercial bodies ask all interested citizens to attend and hear the discussion.

Another suggestion is that the newspapers print blank ballots on which the people in general may express their views.

The directors of the Merchants' Association held a meeting yesterday afternoon at which the federal building site was uppermost in discussion.

Following are cablegrams bearing directly on the new developments:

Washington, D. C., March 17.
Farrington, Honolulu.

McCarn reports condemnation awards too high. May affect Mahuka site. What is your opinion?

Honolulu, Hawaii, Mar. 17.

Believe government Mahuka Site plan should be carried out, I do not question awards under court condemnation but can understand McCarn's conclusion when he now finds competing sites offered prices within appropriation.

FARRINGTON.

Washington, D. C., March 17.
Farrington, Honolulu.

Secretary McAdoo may decide federal site next week. Urge cabling him your views.

KALANIANAOLE.

Washington, D. C., March 17.
Farrington, Honolulu.

McCarn reports condemnation awards too high. May affect Mahuka site. What is your opinion?

KALANIANAOLE.

The exchange during the last two days of the foregoing cablegrams between Wallace R. Farrington, president of the Honolulu Merchants' Association, and Jonah K. Kalanianaoles, delegate to congress, regarding the site for Hawaii's federal building, formed the basis of considerable discussion at a meeting yesterday afternoon of the directors of the Merchants' Association. In response to

SCIENTISTS PLAN TRIP
TO HONOLULU IN 1915

A meeting of the members of the Hawaiian division of the American Association for the Advancement of Science has been called at the University Club tomorrow, Friday, afternoon at 4:30 o'clock. All members of the association are expected to be present.

This meeting has been called following the receipt of communications from members of the Pacific coast division of the organization, proposing an excursion to Hawaii in 1915, following the big meeting of the national organization in San Francisco.

It is expected that plans will be outlined at tomorrow's meeting for the inauguration of the excursion and for the entertainment of the visiting scientists.

BRIEF CEREMONY AS NEW JUSTICE TAKES THE OATH

Edward Minor Watson succeeds John T. DeBolt on Supreme Bench

HINT OF POLITICS GETS INTO SHORT SPEECHES

Tributes Paid Both New and Retiring Jurists—Legal Fraternity Out in Force

Edward Minor Watson was formally inducted into office as associate justice of the supreme court of Hawaii with brief but impressive ceremony in the court-room at 10 o'clock this morning.

The formal ceremony of taking the oath ended the official observance, but unofficially considerable interest was given the occasion by several trials from prominent members of the bar. And in one of these trials Judge A. A. Wilder brought to the fore a hint of Democratic politics that evoked instant response from President F. E. Thompson and Attorney D. L. Withington.

Judge Wilder hinted that though the Bar Association disclaims paying attention to politics, still it is significant that in the 12 years from 1900 to 1912 no Democrat was endorsed by the Association for the bench. President Thompson denied any partisan feeling on the part of the Bar Association and Mr. Withington differed with Judge Wilder, stating that in one instance, and he believed, in two instances, during the period named Democrats had been endorsed.

Many At Ceremony.

The supreme court room was filled to capacity by the legal fraternity and friends and well-wishers of both the new and retiring justice when the time came for taking the oath. Mrs. Watson and their little daughter, Virginia Watson, were present and several other ladies. The court was called to order and the three justices, Robertson, Perry and DeBolt, entered in their justices' robes, with Mr. Watson accompanying them, also robed. The audience rose as they entered and remained standing until they were seated.

Then Chief Justice Robertson administered the oath, the written form of which was signed first by the new justice and that by Judge Robertson. The oath is as follows:

"I, Edward Minor Watson, do solemnly swear that I will administer justice without respect to persons and do equal right to the poor and to the rich, and that I will faithfully and impartially discharge and perform all duties incumbent on me as associate justice of the supreme court of the territory of Hawaii, according to the best of my abilities and understanding, agreeably to the constitution and laws of the United States; and that I will support and defend the constitution of the United States against all enemies, foreign and domestic; that I will bear true faith and allegiance to the same; that I take this obligation freely, without any mental reservation or purpose of evasion; and that I will well and faithfully discharge the duties of the office on which I am about to enter. So help me God.

(Signed) E. M. WATSON.

"Subscribed and sworn to before me this nineteenth day of March, A. D. 1914.

(Signed) A. G. M. ROBERTSON.

Justice DeBolt Retires.

Justice Watson then rose from his chair below and to the left of the

SENATOR JONES PUBLICLY RETRACTS UGLY CHARGE OF WILSON IN SECRET TRADE

Washington Solon, Who Yesterday Intimated That U. S. Yielded on Panama Canal Tolls Controversy to Keep the Powers Out of Mexican Affairs, Admits His Statements Have No Basis — Says Newspapers Misled Him — Sees Wilson and Takes It Back—Pennsylvania Congressman Thinks War Is Sure to Come

(Associated Press Cable)

WASHINGTON, D. C., Mar. 18.—Senator Wesley L. Jones of Washington, who yesterday intimated that the administration is yielding on the Panama canal tolls question in order, by a trade, to keep the European powers from insisting on intervening in Mexican affairs, publicly retracted today the ugly charges he voiced yesterday.

His retraction came after he had seen President Wilson and talked with him. Senator Jones says that his charges had no basis in fact, and that he was misled by newspaper reports. The president informed him that the Panama canal tolls message was written before Mr. Wilson saw Sir Lionel Gardiner, who later declined to make any suggestions as to what American policy in Mexico should be.

WASHINGTON, D. C., Mar. 18.—Representative Willis J. Huntington of Pennsylvania took the floor of the house in the course of a vigorous discussion of the Mexican situation today and declared that although intervention, to his mind, means war of exhaustion between the United States and Mexico, "it" will be the government's duty to announce that present conditions in Mexico must end and the United States will undertake to restore peace and order."

His remarks created a strong impression.

Huntington Buys \$1,500,000 Library from British Duke

(Associated Press Cable)
LONDON, Eng., Mar. 19.—Henry Huntington, the Los Angeles traction magnate, has purchased the library of the Duke of Devonshire, valued at \$1,500,000. This magnificent library includes many rare and almost priceless manuscripts, prominent among which are 23 Caxtons and four Shakespeare folios.

Sacramento Unemployed Are Quiet and Police Puzzled

(Associated Press Cable)
SACRAMENTO, Cal., March 19.—The army of unemployed, now camped in safety on the tract of land purchased for them through the kind offices of a Socialist sympathizer, are remaining very quiet thus causing the police department to worry; the latter figuring that the quiet is the "calm before the storm."

Censorship Continues, with Rumors of Fighting Near

(Associated Press Cable)
JUAREZ, Mex., Mar. 19.—A strict censorship against all news going out of this section of Mexico continues. Rumors are ripe that General Obregon, with 12,000 men, is marching against Mazatlan, while Villa is invading Torreon. No serious engagements are believed to have occurred up to the present time.

CAPT. JOHNSON MAY RETIRE ON PENSION

BRITISH LINERS NEARING THIS PORT

Captain Peter Johnson, for more than 25 years identified with the Matson Navigation Company, following the sea continuously in various capacities from foremast hand to master, who was obliged to remain ashore following his arrival at San Francisco with the new *Matsonia* on its maiden trip from the Atlantic to the Pacific, is to be retired on a substantial pension, is a statement that is now made by visiting seafaring men from the coast.

With the return of the *Matsonia* to the Golden Gate under the command of Captain C. W. Saunders, that official returned to his duties as general superintendent.

Captain Charles Peterson, best known as the "youngest skipper in the Pacific," was ordered to transfer from the *Wilhelmina* and to take up his abode in the *Matsonia*. It is now stated with a degree of positiveness that Captain Peterson will remain with the latest Matson steamer as master for an indefinite period.

Captain Johnson, who is now slated for retirement, last visited Honolulu as commander of the *Wilhelmina*. It is stated that through dint of hard work and close application to duty he rapidly rose in the Matson service. In the days of sailing ships, when the Matson flag was a familiar figure at the masthead of many a smart windjammer, Johnson was in turn skipper in the *Harvester*, *Santiago* and the *Roderick Dhu*. These vessels were employed in the movement of sugar from the islands to the East as well as West Coast of the United States. Johnson later was sent out in the first steamers in the Matson service, passing from the command of the *Hilonian*, *Enterprise*, *Lurline* to the *Wilhelmina*.

It is said that in retiring on a pension, Johnson will be the first vessel master in the Matson line to have been accorded such honors.

Ventura Is On Time.

The Oceanic liner *Ventura* from Sydney by the way of Pago Pago is destined to arrive at Honolulu on schedule time, according to announcement made through wireless to the agency of C. Brewer & Company. The vessel is to berth at Pier 10 at an early hour Friday morning and it is the present intention to dispatch the liner for San Francisco at 5 o'clock in the evening. The *Ventura* will be discharged of more than 100 tons of refrigerated and general cargo. The steamer, it is believed, will sail for the coast with 225 passengers in several classes, about 70 travelers joining the *Ventura* at Honolulu.

Thetis Enters Dock Today.

To receive considerable attention at the hands of shipwrights before dispatch on an extended cruise to the group of small islets, reefs and rocks incorporated in the federal bird island reservation to the north and westward of Honolulu, the United States revenue cutter *Thetis* was this morning floated into the Inter-Island drydock. The length of the stay of the *Thetis* on the Hoolana has not yet been determined, but it is believed that the vessel will go into commission within a fortnight. It has been a number of months since the *Thetis* has received a cleaning and repainting.

Ward Delayed in Sailing.

Until the arrival of a steamer from the mainland bringing a quantity of supplies intended for Midway island, the schooner *Flaurence Ward*, operated by the Commercial Pacific Cable Company, will be detained at the port of Honolulu. It is hoped to dispatch the vessel for the mid-Pacific cable station along the first part of April. The *Flaurence Ward* will sail well laden with material and provisions for the cable staff.

Schooner *Helene* Off Drydock.

The schooner *Helene* was lowered into the water today, after a season on the floating drydock, during which time the vessel was cleaned, repaired and received considerable repair and alteration. The *Helene* brought lumber from Port Blakely to Honolulu, arriving here on February 19. The vessel is to receive an early dispatch for Puget Sound, sailing in ballast.

Ship *Ema* Due Daily.

The big sailing ship *John Ema*, with 1000 tons of fine moulder sand and about 3500 tons of coal from the east coast of the United States, is believed to be nearing the islands, and should reach Honolulu within a few days.

John Ema comes to the islands for the purpose of receiving a shipment of sugar for Delaware breaker.

The sand and coal now in transit in the *John Ema* will be discharged at Pearl Harbor.

Wailele in Kauai Trade.

The inter-island steamer *Wailele* has been placed on a route to visit a number of ports along the island of Kauai, the vessel returning from the Garden Island this morning with 6000 sacks of sugar. The officers report 24,000 sacks of the product awaiting shipment to the mainland or to Honolulu.

The *Wailele* met with moderate weather in returning to this port.

PASSENGERS ARRIVED

Per stmr. *Claudine*, from Maui ports, March 19.—J. N. S. Williams, Mrs. W. Freeman, Mrs. Wiggin, W. C. Anderson, J. A. Koahuhua, Ichakawa, Rev. H. Isobe, Kim Saito Sum, R. Blasdel, Mrs. E. J. Murray, E. Murray, Saka, K. Kamasaki, J. S. Coke, M. Mayeda, J. Fukuya, W. W. Thayer, 36 deck.

Consul-general George E. Anderson, Hong Kong, reports that there is a considerable trade in deer, reindeer and wild sheep horns in China for use in Chinese medicines, and Hong Kong, as the chief center of trade in Chinese medicines, imports a considerable quantity of such goods annually. These horns are ground into powder and mixed with other ingredients to form a sort of pills—strengthening pills, as the Chinese term them—and are used largely by old people and people in debilitated condition. Some of the large medicine factories in China maintain herds of deer for their horns.

Last quarter of the moon Mar. 18.

*Time not stated in tables.

THOMPSON TO BE M'CARN'S AID, LATEST REPORT

(Continued from page one)

tainly established himself as such when he qualified as an attorney before the territorial supreme court some days ago.

As stated in the Star-Bulletin yesterday, Mr. Thompson is sitting in prosecution of George A. (Bert) Bowler, being tried a second time in the federal court on a statutory charge. Mr. Thompson is simply interested in the case for exercise, stated Mr. McCarn, yesterday. "He has no official status, and is not receiving compensation for his services."

During the afternoon session of the federal court yesterday, Mr. Thompson was presented to the court by the district attorney, who besought him for a certificate to practice before the court. In his address, Mr. McCarn spoke very highly of Mr. Thompson, his opinion being based on many years. As the conclusion of his introduction, Mr. Thompson was permitted to take the oath of the court and this morning he was presented with his duly authenticated certificate.

Mr. Thompson was personally reticent relative to his plans, or to discussing his status as a resident, but admitted that he expects to be associated with the district attorney. In fact he has already been doing work for the office, having yesterday afternoon represented the district attorney before the U. S. commissioner in the examination of a witness in a Japanese bigamy case.

BITTING OUT.

District Attorney McCarn stated yesterday, and he so stated in the court again this morning, that C. C. Bitting is no longer connected with his office. Mr. Bitting was assistant district attorney under R. W. Breckon, and has been holding on to the position, since Breckon went out of office, against his inclinations. Yesterday, however, he removed his desk and all his personal belongings from the district attorney's office, and has not since been about the place. It is reported that relations had become somewhat strained between Mr. Bitting and his superior lately, which finally two days since resulted in passage of some words not of most amiable character. Mr. McCarn had nothing to volunteer on this matter, however, and Mr. Bitting could not be found today.

Following in the wake of the steamer *Leeland* which is now believed to have sailed from Portland, Ore., with general cargo for Honolulu, it is the opinion of local shipping agents that if a second vessel has been placed on the berth for the islands the prospect for a return cargo are at present gloomy.

It is said that in a cable received yesterday, instruction was given to secure a return shipment of pineapples for the steamer *Edith*. The vessel is supplied with a wireless telegraph equipment which might indicate that the steamer is prepared to accept passengers.

**'UGLY COMMENTS'
ARE REPLIED TO
BY W.R.CASTLE**

(Continued from page one)

Company has never had any other proposition.

If, however, the department in Washington decides that it will not use the Mahukia site without the Fort Street front, and for that reason must abandon this location, then Mr. Shingle will see what can be done to protect that large number of business people in Honolulu who contributed and paid the entire cost of the opening of Bishop street from King to Merchant, with the distinct understanding and agreement on the part of the United States government that when this street was opened the Mahukia site should be used. If the United States government abandons the Mahukia site, it must, in all justice, and I believe will be held legally bound, to restore to all those people the amounts they contributed.

If, however, the Mahukia site is no longer "in the ring" and the United States government will not use this site, then Mr. Shingle will endeavor, in what he believes to be in the interests of the business community of Honolulu and of the whole territory—and in this it will be found, that the opponents are mainly faddists—to procure a site near to the Mahukia site; that is to say, the block bounded by Merchant, Queen and Bishop streets, and for this he may and may not receive a commission; it is none of my business, and I do not know anything about it. But if he sells the lot in all probability he will get the commission he is entitled to receive, just as the Advertiser expects to be paid for its services as a printer.

If Mr. Shingle has any other business in Washington, I trust he will be able to carry it through successfully and thereby help to pay his expenses—which are not borne by the public, but by the Waterhouse Trust Company.

Very sincerely yours,
W. R. CASTLE
Honolulu, Mar. 19, 1914.

A large list of passengers has been booked for *Hilo* in the Matson Navigation steamer *Wilhelmina*, sailing for the Big Island at 5 o'clock this evening.

To visit ports along the coast of Kona and Kauai, the inter-island steamer *Mauna Loa* will be dispatched a noon tomorrow, taking a fair-sized list of passengers and a general car.

BRIEF CEREMONY AS NEW JUSTICE TAKES THE OATH

(Continued from page one)

bench and mounted the bench, taking his place on the left of the chief justice, in the chair vacated by Retiring Justice DeBolt. Judge DeBolt immediately upon leaving the bench, took off his robes and seated himself on a chair placed at the left of Justice Watson.

Then followed several speeches by members of the bar. Judge Wilder was the first to speak. He touched briefly upon the appointment of Mr. Watson and the retirement of Justice DeBolt and then referred to the clamor for the judicial recall.

"Most of this is by laymen, but in part it comes from members of the bench and bar," he said. After this he referred with some apparent dry humor to politics and the bench.

"Between the U. S. district attorney and the governor, it seems that the Bar Association, in its recommendations for the judiciary, is losing its grip," he declared. He then went on to say that though there have been "loads of Democrats" in the territory amply qualified as jurists, their recognition has been scant.

President Thompson of the Bar Association emphasized the statement that the association does not indulge in politics. He then paid graceful tribute to both the new and the retiring justice.

Attorney Withington courteously differed from Judge Wilder as to non-recognition of Democrats in recommending for judicial office. He also stated that the Bar Association keeps politics out of its deliberations.

W. O. Smith spoke a few words, partly in reminiscence. He referred to his long acquaintance as man and boy with members of the supreme bench of Hawaii and said he felt sure that the bench as now constituted will well uphold the standard set in former years.

Justice Perry paid a high tribute to the ability, integrity and industry of Retiring Justice DeBolt and his possession of the judicial temperament and personally expressed his appreciation of the new justice.

Chief Justice Robertson in welcoming his new colleague to the bench, expressed his appreciation of the services and character of the retiring justice and his belief in the good work that Justice Watson will do.

That ended the ceremonies. None of the speeches was more than a few words.

At the conclusion Justice Robertson declared court adjourned, and many friends pressed forward to congratulate the new justice.

All courts adjourned this morning while the ceremony was in progress, and the judges and attorneys were in the supreme court room. Among those noticed were: Judge W. L. Whitmyre, Judge W. J. Robinson, A. A. Wilder, E. W. Sutton, J. Lightfoot, A. Linday, Jr., C. W. Ashford, C. H. Olson, A. L. C. Atkinson, F. E. Thompson, F. Schack, W. S. Edings, B. L. Marx, M. F. Prosser, J. W. Thompson, E. C. Peters, W. T. Rawlins, Hon. S. B. Dole, W. L. Stanley, C. R. Henneman, W. B. Lymer, G. S. Curry, W. O. Smith, D. S. Ulrich, H. G. Spencer, Judge C. F. Clemons, C. K. Quinn, L. J. Warren, J. L. Coke, E. A. Douthitt, A. S. Humphreys, U. S. Attorney Jeff McCarn, L. P. Scott, G. A. Davis, City Attorney J. W. Cathcart, D. L. Withington.

Sixty excursionists have been booked for the island of Kauai in connection with the special trip of the Honolulu Ad Club. The steamer *Mauna Loa* will sail with the boosters and their party Friday, March 27.

The course for the Globe-girdling

airplane race to be a feature of the Panama-Pacific International Exposition has been decided upon by the Bureau of Aeronautics of the exposition and special map prepared upon a new projection for the guidance of the aviators has been adopted.

The map was made by B. J. S. Cahill, fellow royal geographic society. Arnold Kruckman, manager of the Bureau of Aeronautics of the exposition, left San Francisco Wednesday, Feb.

25, accompanied by Lowell Hardy of

the division of exploitation for the purpose of looking carefully over the route that the racers will follow and to locate control and supply stations.

Completing the discharge of island

products today, the inter-island

steamer *Claudine* is taking cargo

preparatory to sailing for Kauai and Lahaina at 5 o'clock tomorrow evening.

MASSMEETING TO 'TALK SITE' NOW IS A SUGGESTION

(Continued from page one)

a request from President Farrington that some immediate action be taken in the matter regarding the possible change in the site, he was authorized to arrange a joint general meeting of the merchants and of the members of the Chamber of Commerce to be held early next week, at which time Jeff McCarn will be asked to make a statement of the present situation regarding the building site, and at which time such action may be taken as deemed advisable.

Delegate Kuhi is not in Washington and it is considered probable that the cables signed by him are from his secretary, Jack Desha, bearing out the ideas of the delegate.

A motion to the effect that a joint general meeting of the members be called was made by Ed Towe, and accepted unanimously. T. M. Church, one of the directors, who had a lengthy interview with the United States district attorney at noon yesterday on matters pertaining to the building site, was asked to explain to the directors the details of the construction.

"I am inclined to think that things are hopeless for the Mahukia site unless there are further and immediate developments," said Mr. Church. "Mr. McCarn evidently is opposed to the site but appears to be tactful enough not to come out and say so. The present appropriation is not sufficient to pay the awards, let alone the interest, and I believe the present administration would oppose a new appropriation. The Merchants' Association should take up the matter energetically. It should get busy. Mr. McCarn's argument is that money can be saved by the government if the Mahukia site is given up. If, by doing this, \$100,000 or \$200,000 can be saved by the government, why does not purchase a site nearby? On the other hand, it might prove a difficult matter to get the appropriation changed to another site."

The only thing to do is to call a general meeting and call it quick. Call for a card vote in the matter. We want a building and that's the most important thing. If we can clear ourselves as to first and second choice, we will be able to get somewhere. We can call a meeting of the members of the Chamber of Commerce and take a vote as to the first and second choice for a site. It will mean something and then we will be able to get action."

President Farrington said that Mr. McCarn has expressed a willingness to be present and speak at such a meeting. Mr. Farrington this morning communicated with President George R. Carter of the Chamber of Commerce with a view to arranging a meeting at as early a date as possible, and it is now expected that one will be called either Monday or Tuesday afternoon.

EXCLUSIVE BOTTLERS

Witnesses Essential

Recently an important point arising out of evidence given by a Scottish minister at a bigamy trial in London was settled by the registrar-general for Scotland, who has laid it down that "witnesses are essential" to the due observance of a Scottish marriage. The essence of the Scots' law is that marriage is essentially a civil contract. Thus, if two parties in the presence of witness solemnly and deliberately say to each other, "You are my wife," "You are my husband," they are as indissolubly married as if the whole ceremony of banns, clergyman and marriage lines had been gone through. No need, therefore, for anxiety on the marriage day about mistakes in these formalities; the want of any or all of them does not in the least impair the validity of the marriage. Or, again, if a man and woman write, say on the fly-leaf of the Bible, the words, "I take you, A, for my wife," and "I take you, B, for my husband," respectively, and add their signatures, both intending to marry, they are as firmly knit as if they had been wedded by the archbishop of

Canterbury. Such are the unromantic facts of a Scottish marriage.

The propriety of allowing marriages to be effected in this simply way without the safeguard of any religious ceremony has often been questioned, but the fact remains that the legislature allows it and that "it is suited" as one authority has said, "to the Scotch national character and circumstances." It can not be said, however, that such marriages are regarded with favor either by the law or by public opinion.—London Tit-Bits.

THICK, GLOSSY HAIR
FREE FROM DANDRUFF

Girls! Try it! Hair gets soft, fluffy and luxuriant at once—No more falling hair

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, healthy hair if you have dandruff. This destructive scourf robs the lustre, its strength and tis very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fashin, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—advertis-

The Matson steamer Wilhelmina will be laden to capacity with sugar in departing from Honolulu for San Francisco at 10 o'clock next Wednesday morning.

AID ARMY MEN TO
WEAR CITS. TOGS

[Special Star-Bulletin Correspondence]

FORT SHAFTER, Mar. 19.—The assignment of time for target practice on the local range has been announced from post headquarters, and as was the case last year, the first battalion will lead off, beginning April 1st. That battalion will be followed by the 2d and the third will close the season so far as the 2d Infantry is concerned. The turn that should have been followed as to the order of firing was necessarily changed by reason of the fact that the 3d battalion has M company still hard at work on construction duty in the cantonment and that company will not have completed its special duty in time to take up the range work until just before the end of the period assigned to the 2d infantry. The preliminary training of the men that is known as "push and pull" drill has been begun in the various companies and for that reason the members of the 1st battalion that have been on special duty as carpenters on the new barracks and quarters have been ordered relieved from that work and returned to "straight duty" with their respective commands. The recruits that recently joined from the depots will not take up the course on the range until later in the season, since they are to be held in camp on account of quarantine for some time. It is probable that the whole detachment of recruits of the regiment will take their individual target practice as a detachment with a special assignment of time on the range at the end of the season. The Engineers company will probably fire in the month of July as the month of August has been allotted by orders from department headquarters to the Signal Corps company.

Under the new "wing" regulations that will govern for this season the amount of time heretofore required for individual range practice has been materially shortened and in consequence but about two weeks will be all that is required for the organization actually on the range.

Yesterday morning firecall sounded just as the guard detail and the band were assembling for guard mount and that ceremony was forgotten for the moment as the troops and apparatus hurried towards the department hospital where the sick-call following the fire call announced the danger to be located. The fire was in a group of tents back of the main Hospital buildings. These tents with others are used as dormitories for members of the hospital corps for whom no room at present is available in the hospital buildings owing to the crowded condition due to the large number of patients quartered in the hospital and under treatment. The prompt arrival of the chemical engine and bucket companies of the local fire department made the fire one of short duration and with the exception of the tents in which the fire started, no damage was done, although some clothing and bedding of the occupants of the tents were well water-soaked by the energetic efforts of the men handling the buckets. The cause of the fire is reported as being from sparks blown from some distant brush piles that a fatigued party had fired to dispose of. One of the night nurses who was taking his sleep in one of the tents was the individual that discovered the fire and he learned of the danger by sparks from the burning tentage over his hair dropping on him. His action as may well be imagined was commendably prompt and it is said that his time as he broke from the burning tent to give the alarm was approximately to the short distance record.

The value of the tentage destroyed will aggregate about \$100. After the recall to the firefighters had been sounded the night nurse sought a bunk in a neighboring tent and resumed his interrupted slumbers and the band and guard detail that had waited on the parade during the excitement proceeded to go through their ceremony.

As the war department has so recently announced its policy in this matter, army officers here believe that any move to have the ruling reversed will be futile.

EXHIBITION BANCE

The management of the Young and Moana hotels has secured the services of Mr. William L. Thode, master of dancing, who arrived recently from the Hotel Virginia, Long Beach, California, to give exhibitions of the latest dances at the regular Thursday evening dancing.

At this evening's dance, which will take place at the Young Hotel, Mr. Thode will demonstrate the "Parisian Tango."—advertisement.

Should the Japanese liner Hongkong Maru from San Francisco arrive at Honolulu next Tuesday morning, that vessel will be dispatched for the Orient in the afternoon. A number of Asiatic steerage passengers will join the vessel at this port.

were shown. As might have been expected, the men of the 2d greeted the run showing the regiment with great applause; particularly when the winning tug of war and wall scaling teams were on the screen. Individuals were recognized throughout the pictures and were accorded enthusiastic greetings by name. The entire series of films was excellent and many were the expressions of approval. It was generally remarked that the pictures would, if shown in the big centers in the states, be great advertising for the territory and its attractions.

NATIONAL GUARD NEWS

How about lockers?

That's the question that every member of the 1st Infantry is asking every other member whenever there is formation in the new armory. And the answer is still to come.

About six weeks ago Governor Pinkham allotted from the contingent fund a sufficient sum to build lockers for the nine companies quartered in the armory, the hospital corps and the regimental officers. Forceful arguments along this line, favoring the men in the service, were set forth at the meeting of the directors of the association yesterday afternoon, resulting in Ed Towne and T. M. Church being appointed a committee to interview the commander of the Hawaiian department, various army officers, and, perhaps, officials in Washington, to ascertain the probability of securing such a regulation. As pointed out by Mr. Church, action in this matter was taken a year ago, at which time the army officers in Hawaii gave their cooperation. When communicated with, the secretary of war said that there was a regulation prohibiting officers and men on Oahu from wearing civilian clothes, and that nothing could be done. It is the idea of the Merchants' Association to give impetus to the agitation commenced a year ago.

"Why should this matter come up in Hawaii?" asked J. T. Warren.

"Has such agitation been furthered in other parts of the United States.

If the soldiers in other parts of the

United States have to wear their uniforms when on leave, why should those in Hawaii be exempt?"

President Farrington pointed out that, if the association desired to do something, it should first ascertain the views of the army officers. He said that many officers had spoken to him on the subject, saying that a uniform practically makes a soldier a marked man. In other words, when a soldier is on leave, he "does not like to be in brass buttons."

Possibly, by keeping constantly at it, we may be able to secure some change in the regulation covering the wearing of the uniform," he concluded.

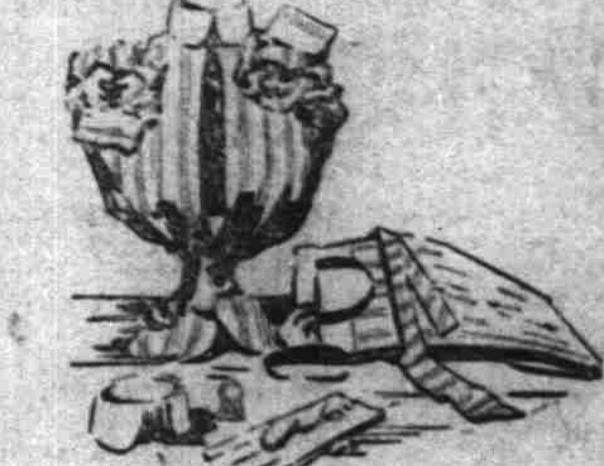

Ed Towne moved that the Merchants' Association address a communication to the commander of the Hawaiian Department, saying that Honolulu desires that both officers and men on leave of absence be permitted to wear civilian clothing under such regulations as the war department might see fit to make. President Farrington appointed Mr. Towne and Mr. Church a committee to take this matter up and report its progress at the next meeting of the directors.

Asked this morning whether he favored allowing the wearing of civilian clothes by officers and enlisted men, Major-General Carter, department commander, was non-committal.

"I am not familiar with the facts in regard to this matter," said he, "and prefer not to give any opinion until I have looked into them."

A war department order issued about two and a half years ago, requires officers and men in Hawaii to wear the uniform at all times. Even officers taking a month's leave in the islands are forbidden to wear civilian dress. This regulation has been in effect, in the Philippines for many years, the original reason for it being the belief that constant sight of the uniform would have a good effect on the native population, serving as a constant reminder that Uncle Sam's men were on the job. This reason of course does not apply in Hawaii, and several efforts have been made to have the order rescinded. About six months ago, when General Funston divided the enlisted men into classes A, B and C, with certain privileges to each, he asked the war department for authority to allow the class A men to wear civilian clothes on pass. This was denied, the reason being given that it would be a slur on the uniform to hold up the privilege of discarding it as a reward of merit.

As the war department has so recently announced its policy in this matter, army officers here believe that any move to have the ruling reversed will be futile.

Gotham Shirts are the shirts that are reasonably priced, come in patterns to suit all—and return from the laundry the greatest number of times.

\$1.50

The CLARION

will pass on, if the holders are unable to defend it with figures.

Interior decoration of the armory is now under way. When the guard took possession, bare walls and natural wood was everywhere in evidence. The woodwork is now being stained, and the walls will also be brought to a uniform tint.

The local companies are all set on annexing the handsome shield offered by Wickman & Co. for the organization having the highest percentage of attendance at regular drill for a three-month period. The trophy will be held for three months, and then

tenant will be in the Nuuana cemetery. Deceased was 19 years old, a daughter of the late James Wey and his wife. She attended school at Kawaihao Seminary, and was recently graduated from the Normal school.

Shakespeare's advice to "physic to the dogs" was written before the days of "Shac." Had he known of the pain-banishing virtue that excellent article, he might have paraphrased his famous enigma asleep in his favor and termed it "Bac for aching heads." Honolulu Star-Bulletin

RILEY H. ALLEN

EDITOR

THURSDAY MARCH 19, 1914

There should be created interstate and state trade commissions which should have powers in regard to those industrial organizations so large as to be affected with a public interest, and in regard to those which by corporation control the market, similar to those which the national and state public utilities commissions have in regard to the public utilities.—Charles R. Van Hise, president University of Wisconsin.

LET THE MAJORITY RULE

Once more the federal building site is up for discussion by the people of Honolulu.

Let it be settled this time once and for all.

The original Maluaka site, the enlarged Maluaka site, the Irwin site, the Spreckels site, the Allen site are all under consideration. There are arguments in favor of each—arguments good, bad and indifferent. It is not improbable that other sites will be suggested. Let the merits of each be thoroughly canvassed, let there be full discussion, full expression of opinion.

The commercial bodies naturally have taken the lead, but that does not bar any and all interested citizens and residents of Honolulu from speaking their minds. The columns of the Star-Bulletin are open for the expression of opinion of those in favor of any site.

Hearings will shortly be begun before treasury department officials in Washington. These, with the meetings and exchanges of ideas planned in Honolulu, should result in the course of a few weeks in the crystallization of something like a majority opinion among the people of this city.

Then let the majority rule. If all factions, all individuals, have an opportunity to be heard, the sentiment of the majority should stand as the desire of this community.

Thrash it out now!

Make it final!

Let Washington know it's final!

A CRISIS FOR THE COMMISSION

A real crisis in the territorial public utilities commission is reached by the resignation of Chairman E. A. Mott-Smith.

If the commission is going to amount to anything, if it is going to realize the hopes of those legislators who sponsored it and of its first chairman, who has piloted it through the creative stage, strong hand is needed to take hold where Chairman Mott-Smith drops the tiller. Insufficiently provided with funds, the commission is further hampered by the fact that two of its members serve for nominal salaries and one of them, Mr. J. N. S. Williams, has found himself able to devote practically no time or real attention to the work.

The selection by the governor of the new chairman will be watched with extreme interest. There is no question but that a strong and active utilities commission is needed in Hawaii, even if only to furnish official assurance that the public service corporations are living up to the letter of their franchises and the spirit of their contract with the public.

Comparatively few people know the immense amount of detailed organization work that has been accomplished by the commission in spite of spasmodic operation and many handicaps. Mr. Mott-Smith has laid out a plan for the commission to follow, built the foundations, and now retires from superintendence of the work. The structure will fall, the utilities commission idea will be discredited, unless an able man is set to the work.

After a long, honorable and useful career in public office, Mr. Mott-Smith goes to private life with a record of which he may well be proud. He has had a large share in upbuilding and upholding progressive government and governmental means and methods in Hawaii and he has amply earned the sincere good wishes of the people.

THE SMELL OF THE PORK

The Shackleford bill, of which the Chamber of Commerce proposes that Hawaii shall have a share, has all the outward appearance of a piece of "pork-barrel legislation," just as mentioned at the meeting of the chamber yesterday. Most of the thoughtful journals of the mainland are opposed to it, because it makes wholesale appropriations for road-work without any plans for scientific application of the twenty-five or thirty-five millions of dollars to be derived out of the national treasury. If Hawaii wishes

to proceed on the theory that "everybody is doing it" and Hawaii might as well "do it," too, then no better action can be taken than to ask for the inclusion of this territory with the forty-eight states to become beneficiaries.

A great deal more to the point would have been a movement on the part of the commercial bodies of the territory a few months ago to see that Hawaii was included in the provisions of the Lever bill. This bill provides for cooperative agricultural work between the state-maintained colleges of agriculture and the federal department of agriculture. Ten thousand dollars a year would have been available in Hawaii for practical teaching of agriculture among people not attending college. Hawaii would have had to appropriate a like sum, but such a territorial appropriation would work in directly with the territorial aid to the federal experiment station here, which has resulted in the establishment of the marketing division and assisted in the cooperative farming organization.

The Lever bill has now passed both houses of Congress and perhaps been signed by the president and it is too late for Hawaii to secure the benefit of its provisions. But there is no smell of the pork-barrel around this bill.

A LOSS AND A GAIN

The retirement of Associate Justice John T. DeBolt from the supreme bench is regretted not only by the members of the bench and bar, but by the territory generally. He has been an able and upright and fearless jurist, of high personal character and, as well stated this morning, of the true judicial temperament.

The new justice, E. M. Watson, is well equipped to maintain the standard set by his predecessor. The Star-Bulletin, which from the first has supported the nomination of Mr. Watson by the president, feels certain that as justice he will add to the regard in which he is held throughout Hawaii.

FINE DOINGS

From "Sugar," issue of March, 1914:

While profanity ordinarily does not find a place in these columns, a recent letter from a reader canceling his subscription puts the situation so concisely and so entirely describes the situation and the sentiment of the men dependent on the sugar industry that it is printed below:

"The sugar business in these United States of ours has gone to H—. I am out of the game. Please cancel my subscription. Our glorious reform statesmen prefer to buy their sugar in Europe and pay foreigners for producing it. I may save 86 cents a year on my sugar bill and lose \$1500 in wages. Fine doings, what?"

Very probably that subscriber is a resident of Hawaii. His description sounds not unfamiliar.

A NOTABLE FORWARD STEP

Muncie, Ind., March 9.—Muncie decided against having saloons by a majority of 462 votes in the local option election held today. This city is the sixth largest in the state, having a population of 25,000.

Governor Oswald West of Oregon took a flying trip to the Mexican border and after a look or two across the line has settled the whole Mexican question. The young Webfoot executive has a habit of settling grave national questions out of hand. He has had such a spectacular career in Salem that the Chautauqua circuit has signed him up to furnish verbal pyrotechnics under the big tent.

The French ministry is tottering as the result of a woman's indiscreet letters. Sober history is sometimes as diverting as Dumas or Balzac.

Senator Jones charges that Woodrow Wilson is in a trade with the Powers, and he intimates that it isn't free trade, either.

The Mexican crisis is almost acute enough to require another lecture tour on the part of W. J. B.

Civic Center ought to be the comparative degree of Civic Sense.

Torreton hasn't fallen yet, but it has been tottering quite awhile.

The question now may be, whom does Huerta represent, anyway?

Letters on TIMELY TOPICS

[The Star-Bulletin invites free and frank discussion in this column on all legitimate subjects of current interest. Communications are constantly received to which no signature is attached. This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space to anonymous communications.]

WHAT A SECOND-CLASS LICENSE MEANS.

Editor Honolulu Star-Bulletin.

Sir: In circulating the protest against a license for the Pleasanton hotel, I have been told by many that it was only a second-class license being applied for, and that it only meant serving liquor with meals. The fact is a second-class license is a retail license to sell intoxicating liquor of any kind and in any quantity. Under this license the holder may conduct the following kinds of business, to-wit: Saloon, hotel or restaurant. Every license of this class shall specify upon its face which of said kinds of business the holder thereof may carry on and no business other than that so specified shall be carried on by such license on the same premises except the sale of mineral water and smokers' supplies."

So it is evident, that under that license the licensee is in no way limited

as to quantity to be sold or times of sale except, as a saloon license which is from 6 a. m. to 11:30 p. m.

GEO. W. PATY.

FOR THE UNEMPLOYED.

Fort Armstrong, H. T., Mar. 18, 1914. Editor Honolulu Star-Bulletin.

Sir: The question of the unemployed is attracting considerable notice. It might not be inopportune to call attention to certain phases of the conditions responsible for this state of humanity.

First, the rapid increase of specialization in all branches of labor.

Second, the tremendous increase in facilities in disseminating information or news.

Now, this information or news is public opinion.

Public opinion is the tool of the powers that be.

Why not systematize public opinion?

A daily roster of each individual is now feasible at the most remote corners of the universe.

Let the government do this through a specially created department for that purpose and all radical troubles will cease.

Sincerely,

ELIGE L. KIRK,
1st Class Pvt., Signal Corps U. S.
Army.

MOTHER MARY IS CELEBRATING HER GOLDEN JUBILEE

Reverend Mother Mary Lawrence, sister superior of the convent of the Sacred Hearts, today is celebrating the golden jubilee anniversary of her arrival in Honolulu and the beginning of the work which she has been engaged in for the past half century. Loved and respected as she is by hundreds of persons in Honolulu, Mother Lawrence is the recipient of profuse congratulations and well-wishes, and is greeting many callers. In company with nine sisters and four priests, she arrived in Honolulu March 13, 1864, in the ship R. W. Wood, and, since assuming the position in the sisterhood which she now holds, she has watched the convent of the Sacred Hearts grow into one of the most successful and well-managed institutions in the islands.

In observance of the anniversary, the students of the Sacred Heart Academy, Kaimuki, last night entertained a large number of their friends at a recital in the assembly hall of the institution. Among those present were Bishop Libert, former pupil of the school, and others interested in its work. The program follows:

Overture, March (Werkerlin) Misses A. Winston, M. Serrao, L. Searle, A. Mooney, B. Unkrant, M. Bliss.

Address, Miss A. Mooney.

Chorus, Greeting (Mendelssohn).

St. Philomena. Act I.

Duetino Comique, 'Tis the Cat (A. de Runs).

Grandmother, G. Gall;

Grandchild, M. Bliss.

St. Philomena. Act II.

Piano Solo, Grand Valse Caprice (Englemann), Miss T. Beters.

St. Philomena. Act II, Scene I.

Drill, April Shower (Maude M. Jackson). Accompanist, Miss E. Serio.

St. Philomena, Act III, Scene II.

Piano Solo, Polka de la Reine, Op. 95 Raff. Miss E. McCandless.

St. Philomena. Act III, Scene III

Jubilee Tribute.

Chorus, How Beautiful Thy Tabernacles (Maundier).

Hawaii Pono, Star Spangled Banner.

St. Philomena. A Sacred Drama in Three Acts.

Dramatic Personae — Tertullius, a

Grecian prince, K. Wright.

Philomena, his daughter, A. Lindsay.

Publius, his trusted friend, E. Arneimann.

MANY BOYS PREPARING FOR INDOOR ATHLETIC MEETING AT Y.M.C.A.

Sunday school classes to the number of nine, eight employed boys' clubs and five Bible study clubs have been practicing in the games hall of the Y. M. C. A. in preparation for the big track meet which is to be held at the association April 4. Waldo H. Heinrichs, office secretary, has been detailed to coach the several teams, and predicts that there will be at least 60 entries in the meeting from the association, aside from the relay events, and nearly 80 outside entries in the relay races. The events now are well filled up and already 20 boys have entered in the novice events.

The events are divided into three classes: open, student and novice, in order that fair competition may be provided in each class and that no man may unfairly compete against his superior. Ribbon prizes will be offered in each event. It had been planned to offer silver medals, but it was found impossible to secure them from the mainland in time. Bronze medals will be offered the three men making the highest number of points in the meet, points to count five, three and one respectively, regardless of classes.

HONOLULU DRUGGIST HAS VALUABLE AGENCY

The Hollister Drug Company has the Honolulu agency for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ka, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of old matter from the body that JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. THE QUICK action of Adler-ka is astonishing. — advertisement.

The Associated Charities of Hawaii filed articles of association yesterday in the office of the territorial treasurer. The charter provides that the maximum limit of capitalization of the organization shall be \$500,000. The officers are: A. Lewis, Jr., president; H. B. Restarick, first vice-president; Mrs. Margaret Du Roi, second vice-president; Miss Ruth Benedict, secretary, and P. G. H. Deverill, treasurer.

NAVY REPAIRS FOR PEARL HARBOR DESIRED BY CHAMBER OF COMMERCE

Congress Called Upon for Harbor and Road Work on Oahu
—Busy Session Is Held

To secure for Pearl Harbor an equal share of the navy repair and maintenance work done on the Pacific, was the object of a resolution adopted by the Honolulu Chamber of Commerce at the meeting of its trustees held yesterday afternoon. The motion was made by J. A. Kennedy who explained that under a distribution arrangement the repair work of the navy on the Pacific coast is now divided between the Puget Sound navy yard at Bremerton, and the Mare Island yard near San Francisco. Within a few years the Pearl Harbor dry dock will have been completed, and it is not too soon, Mr. Kennedy urged, to take steps towards having the shops designed for the Hawaii station equipped and put in operation. A very large force of machinists and other high-class artisans will be sent here when this is accomplished, said Mr. Kennedy, which will be of great benefit to the territory.

The secretary was instructed to communicate with the secretary of the navy, urging the matter recommended by Mr. Kennedy.

Nawiliwili Harbor Urged.

The chamber adopted a resolution urging upon both houses of Congress the vital necessity of a breakwater for Nawiliwili, island of Kauai, and the passage of house resolution No. 1994, providing for such improvement.

George G. Guild, J. T. Warren and E. H. Paris were named a committee to study the prevention of fire waste in Honolulu, with the object of securing lower insurance rates.

President Carter was authorized to reply to a communication from a California chamber of commerce asking for co-operation in a protest against having the mails on the Pacific carried in any but American vessels. President Carter will explain that the postoffice makes an annual contract with the Toyo Kisen Kaiwa for carrying mails, and that business interests both of the islands and of the mainland would suffer seriously through inability to use these carriers for mails.

Putting Sugar Paper Straight.

President Carter read a copy of a letter which he wrote to Willett & Gray, the New York sugar statisticians, calling their attention to the status of Hawaii as a part of the United States, and urging that a change be made in their manner of classifying world's sugar, by which Hawaii will not be lumped with Porto Rico, the Philippines, and Cuba. Hawaii, it

was pointed out should have her sugar classed as domestic, or be considered separately from the other sugar producing countries outside of the United States mainland.

After Federal Road Money.

The chamber voted to request Judge S. M. Ballou, in Washington, to do what he can to securing for Hawaii a share in the Shackleford appropriation bill by which the federal government will spend \$25,000,000 annually in road construction in the United States. The bill, which passed the house a few days ago, provides for the apportionment of this fund for post roads, pro rata among the states one-half in proportion to population, and one-half in proportion to mileage of post roads.

The chamber endorsed the bill in Congress of Senator Ransdell of Louisiana, providing for bonded warehouses wherein goods may be entered and shipped without paying duty, provided they do not undergo any manufacturing process while in the warehouses. The proposition is a modification of the "free port" or "treaty port" idea.

The epidemic of diphtheria in Honolulu was the subject of some discussion. It was stated that at present there are nearly three times the annual average number of cases, and that it may be that the board of health will require financial assistance in checking the disease.

E. A. Nott-Smith was appointed the chamber's representative in the excursion which leaves next week for Japan.

A report was made regarding the recent action of the chamber in protesting against the passage of the seaman's bill in Congress, in which it was stated that a communication from the delegate's secretary had been received stating that the chamber had evidently been misinformed regarding the nature of the bill in question.

ROOF GARDEN DANCE AT YOUNG

Tourists, as well as local Army, Navy and society folk, are invited to a dance to be given this evening in the pavilion of the Alexander Young Hotel roof garden. Mr. William L. Thode will give an exhibition of the "Parisian Tango." — advertisement.

The steamer W. G. Hall is returning to Kauai this evening to load a shipment of sugar.

IN SUCH PAIN WOMAN CRIED

Suffered Everything Until Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Florence, So. Dakota.—"I used to be very sick every month with bearing down pains and backache, and had headache a good deal of the time and very little appetite. The pains were so bad that I used to sit right down on the floor and cry, because it hurt me so and I could not do any work at those times.

An old woman advised me to try Lydia E. Pinkham's Vegetable Compound and I got a bottle. I felt better the next month so I took three more bottles of it and got well so I could work all the time. I hope every woman who suffers like I did will try Lydia E. Pinkham's Vegetable Compound." — Mrs. P. P. LANSING, Route No. 1, Florence, South Dakota.

Why will women continue to suffer day in and day out or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Policeman Arrests Himself

(By Latest Mail)

CHICAGO, Ill.—Officer Conscience arrested Policeman Rudolph Fisher today for spitting on the sidewalk. Officer Conscience rudely hustled Policeman Fisher into Municipal Judge Scully's court in the Chicago avenue station and had him fined for violating a city ordinance.

However, Officer Conscience is just Policeman Fisher's other name. For after the wicked deed had been done, the dutiful copper arrested himself.

The culprit looked sheepishly guilty when he shuffled into the court with the figurative grip of Officer Conscience on his collar. When the case was called, Officer Conscience said not a word. He has such a still, small voice. The prisoner made this statement.

"Your honor, I forgot myself this morning, and just before I entered the station I spit on the sidewalk. That made me sort of ashamed because when a policeman violates an ordinance you can hardly blame the people for doing the same thing."

Urge roughly by Officer Conscience Fisher placed \$1 on the judge's desk.

"The police department certainly ought to be proud of you," said Judge Scully to the conscientious veteran.

"I will accept your fine and want to congratulate you for your honesty."

Police department heads declare they would like to place an Officer Conscience on the pay roll to travel beat with every patrolman.

"CASCARETS" CLEANSE LIVER AND BOWELS

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic

Get a 10-cent box now. Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passage way every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headache, bilious and constipated you feel. A Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little lassies need a gentle cleansing, too.—advertisement.

"MARY JANE" PUMPS ARRIVED.

LEGAL BATTLE ON CUBAN SUGAR REVIVES INTEREST IN TARIFF

Louisiana Atty.-Gen. Files Petition Against Preferential Being Allowed

By C. S. ALBERT

(Special Star-Bulletin Correspondence)

WASHINGTON, D. C., March 5.—Revival of interest in the sugar question became apparent here when litigation was instituted to prevent the lowering of duties on the refined product to 1 cent per 100 pounds. This feature of the new tariff act became effective the first of this month. Immediate steps were taken on behalf of the Louisiana cane growers to prevent the contemplated action being taken.

Attorney-general Pleasant of Louisiana, filed a petition in the United States supreme court asking for a temporary injunction to restrain Secretary McAdoo of the treasury department from granting a 20 per cent preferential on sugar coming in from Cuba. Former Senator Joseph W. Bailey of Texas co-operated with and assisted the Louisiana official in the institution of his proceedings.

An announcement was made coincident with the petition of Mr. Pleasant that he would request the supreme court for an injunction restraining the treasury department officials from enforcing that clause of the tariff act which reduces the rate on sugar to 1 cent.

The claim was advanced by ex-Senator Bailey and Attorney-general Pleasant that the state of Louisiana will be injured by the new rates, because it is engaged in sugar producing on convict farms.

It is further claimed that the statute putting into effect the 20 per cent preferential duty of the Cuban reciprocity treaty in favor of Cuban sugar has not been repealed by Congress in passing the Underwood-Simmons tariff act, but that the Congress merely repealed the treaty. It is therefore asserted the old rates are still in effect, despite the fact the sugar rates of the new tariff law were to become effective March 1.

All sugars were reduced 25 per cent, beginning March 1, under the new tariff law, and Attorney-general McReynolds has rendered an opinion that Cuban sugars must also receive the benefit of the preferential provided in the Cuban reciprocity treaty.

A two-page advertisement in the

VILLAINOUS REMEDY FOR CONSUMPTION

An astounding discovery was made by the division of entomology last month in a package held for inspection in the mail from Japan. "Probably the most remarkable seizure ever made by the division took place in the postoffice," says Entomologist E. M. Ehrhorn in his report for February. Continuing he tells the story as follows:

"A package of twigs from Japan was held for our inspection and on opening the same the Inspector found tree twigs which were hollow. Each opening was plugged up with twisted grass. A closer examination disclosed the fact that each twin contained a good, fat, live borer. A letter was enclosed in the package and the same, after having been translated, told the following story:

"Greetings: This time I am sending you some medicine, good for consumption. Open the same and you will find a worm (Sabutori-mushi) in each twig. Take out one and wrap it in Sembi or Ame and swallow it alive. The juice of the living worm is good for the disease. However, if the worms are dead you can bake them until black and powder them up and drink it with sake. These I send will constitute a dose for one week. When you take the worms please inform me if you digest the same. If you should find such worms in Hawaii, continue taking same for some time."

"The worms found in the twigs represent two distinct orders of insects. Some were the grubs of a large stem-boring beetle belonging to the Cerambycidae, the others the larvae of some stem-boring moth. The package was seized and the contents are now the property of the board museum, as alcoholic specimens. This illustrates another channel through which some serious pest might enter the territory. Worm pest for the cure of the white plague might be all right in Japan, but we have not yet heard of this method being used here, and we surely shall not allow a trial with imported borers such as were found in the mail package."

Passengers and immigrants from foreign countries persist in bringing fruit and vegetables in their baggage, notwithstanding that such articles are prohibited from entry that way. Last month 33 packages of fruit and four of vegetables found in baggage were confiscated and destroyed.

One lot of orchids from Costa Rica, accompanied by a federal permit, contained a few Tenebrionid beetles and some ants. The plants were fumigated and the packing destroyed. Two cases of apples were returned to the storeroom of the transporter Sherman, having been found infested with codling moth. A shipment of 38 sacks of potatoes from Sydney, not having the required permit, remained on board the steamer Marama.

Twenty-four cut of 34 vessels arriving during the month carried vegetable matter, and 729 lots and 15,383 parcels were inspected. Of these 683 lots and 15,276 parcels were passed, as free from pests, the remainder being fumigated, burned or returned as required. There were besides 18,055 bags of rice and 1721 bags of beans arrived from Japan, all being free of pests. Of 91 lots and 1962 parcels arriving in seven vessels at Hilo, Brother Matthias Newell caused three sacks of turnips to be cleaned of earth and 39 bags of potatoes to be dumped at sea, the spuds being too scabby to land and nobody being willing to pay return freight. In the inter-island inspection 52 steamers were attended to, 1098 packages being passed and 26 refused shipment.

A boxwood tree, six feet high, and said to be 100 years old, was removed from Northfield, N. J., to the estate of James Turner at Montclair.

OAHU LEAGUE WILL PROBABLY ADMIT ST. LOUIS ALUMNI TEAM

Managers Favor New Ball Club and Tomorrow the League Will Put Matter to a Vote—Chinese Team to Take the Place of the Stars, Under Management of J. K. Notley—Secretary Resigns

It is probable that the recent uncertainty as to the make-up of the Oahu Baseball League for the 1914 season will be straitened out at a meeting of the league called for tomorrow evening, when the application of the St. Louis Alumni team for a franchise will come up for re-consideration. At the same time an All-Chinese team, under the management of J. K. Notley, will apply for the transfer of the Stars' franchise, and it is believed that both these applications will be favorably acted on.

The Oahu Baseball League has held no meeting this week, and therefore no official action has been taken, but last Tuesday evening the team managers, together with Thomas Treadaway, manager of Athletic Park, held a caucus, at which the St. Louis matter was thoroughly discussed. The Saints have been knocking at the door for some time, and with the assurance that their admission will not mean a raid on the other teams for players, the club representatives are disposed to lift the latch. The St. Louis Alumni management was instructed to file a list of players, in accordance with the rules of the league, for consideration at the meeting tomorrow night.

While it is practically certain that the vote tomorrow night will be in

favor of the Saints' admission, providing the playing list is satisfactory, the impression that the league has already acted on the matter, prevalent in some quarters, is erroneous.

"There has been no meeting of the Oahu League this week to consider the St. Louis application, or any other matter," said President E. C. Peters of the Oahu League this morning. "I understand that some of the team managers got together for an informal talk Tuesday evening, but I personally didn't know anything about it until the next day. A regular meeting is called for tomorrow evening, and probably the exact make-up of the league will then be decided."

The resignation of H. G. Lowrey, as secretary, is another matter to come up tomorrow. Mr. Lowrey's announcement that he would resign comes as a surprise to many who have followed local baseball, because of his efforts for league re-organization, which resulted some weeks ago in the election of a new set of officers, with himself as secretary. It is understood that personal friction between Mr. Lowrey and one of the club owners decided him to resign as a league official, and watch the development of local baseball from the standpoint of a critic and baseball writer.

gets his hits off Walter just about as often as anyone.

"Bender and Warhop, though, have something on him when they are picking up to form. They both have him popping up into the air like any busher. Don't know why it is, but Jackson considers himself a pretty lucky ball player any time he gets a hit off either of them."

Warhop, with his dink underhand ball, seems to specialize on beating slugging clubs. There never has been a time in the six years he has been with the New York club that he has not been able to beat Detroit four or five times a year. Cobb and Sam Crawford, hitting everything else in sight, have never been ringtoned roarers against "Hops," though both have belted him proper on several different occasions.

Warhop, incidentally, is now the oldest player on the Yankee reserve list. Frank Chance has him topped a couple of years, but "the Flea," starting his seventh year in the Farrell livery, admits to having survived 30 summers and heaven only knows how many winters.

HELEN KELLER HEARS AT LAST

[By Latest Mail]

LOS ANGELES—Today was a day of miracles for Helen Keller the wonderful blind and for a time deaf and dumb girl who is at the Auditorium.

Into the soundless world in which she lived since her birth the sweet high notes of a song penetrated and Helen Keller for the first time in her life actually heard sound. Not by means of her sensitive fingers, which the blind girl places on the lips and throat of the person whose words she wishes to read, but the beautiful full high notes of a selection from "Die Walküre," sung by Mme. Saltzman Stevens of the Chicago Grand Opera Company, found an answering chord in Helen Keller's soul and the actual sound of the highest notes reached the girl's brain. With uplifted hands and heaving bosom she exclaimed over and over at the completion of the song: "Oh, I have heard, I have heard! I could weep for joy!"

The meeting of the two women was by chance and only a few persons were present.

An old lantern with a curious history which was made by order of Louis XVIII for the Lighthouse on the Island of Elba in 1814 has been sold recently with a lot of scrap iron to a Paris admirer of the emperor.

ALL PITCHERS LOOK ALIKE TO GEORGIA PEACH

"One reason why Ty Cobb leads Joe Jackson in the batting averages each year is that Cobb hits all pitchers with impartial vigor, while Jackson plays favorites," declared Fred Blinding, the Nap hurler, who was rescued from the Federal sirens recently after a terrific struggle. It was at a fanning bee in Hot Springs the other day.

"When Cobb feels like hitting there isn't a pitcher in the American league with speed or curves enough to stop him. Chief Bender and Jack Warhop both have Jackson's groove. He can't hit either of them."

"Another reason is that Jackson isn't a fast man going down to first base. He is thrown out on many a hit that any ordinary shifty base runner would beat out. He's a light-footed person after he has turned first; not even Cobb himself will make more bases on a long drive. But it takes him time to get started. By the time he is rounding second base on a triple, say, or a possible homer, Jackson is going just about as fast as any man in the American league can cover ground. But that doesn't help him to any singles."

"It handicaps him, too, as a base runner. Jackson looks to be a long way off first most of the time, and he is. But he's not very often in the right position to steal. Cobb goes straight down the line, further than any other man in our league. He can go 20 or 25 feet and scramble back; he is never off his balance. But Jackson, though he seems to the people in the stands to be well headed toward second, is generally way back of the 9th, and really not one-third as far down as Cobb."

CANNOT HIT CHIEF BENDER.

"He never has been able to hit either Bender or Warhop, though he does about as well against Walter Johnson as Cobb ever has. We don't get to see Cobb hitting against Johnson, but from what I hear, Ty doesn't alter his style materially when he faces Walter. We know Jackson does not. He grips his bat just as close to the end when hitting against the slowest man in the league. And he

will only be good for a second place. Kim Wai will also run for Punahoa.

Every fan feels sure that Janssen will win the high jump, and that Lindley of Oahu College, who won the pole vault in the Cornell meet so easily, will take the same event for Punahoa.

Wicks will do the work with the pike for the High school and will be one of that school's entries in the high jump.

If Takeuchi of the Mills School does as well on Saturday as he did in the meet a week back, in which he won the initial place, his school will march back to Manila with at least five points to its credit. If Hore has the endurance he will win the broad jump, while Fernandez, also of St. Louis, will be good for a second or third place. Baldwin, Lindley, and Watt will be the men in that event for Punahoa, while Melin will jump for the High school.

"Smiling Big Bill" Inman will do the work with the weight for Oahu college. Although he has not done anything out of the ordinary with the hammer he will be able to show up well in the interscholastic meet for there are very few other good weight throwers. "Big Bill" will probably win the shot put, although Kalkaka of Kamehameha will be able to give him a good rub for the first place.

"French people as a whole would consider it a calamity to have Carpenter go into the army," states Adenot. "His ring career might be ruined as a result of the two-year lay-off."

Then Adenot told of a plan that originated in the minds of certain French people which may keep Carpenter out of the army should he be unable to convince the government that fighting in the prize ring is more noble than playing at soldier.

This plan consists of nothing more nor less than to have Carpenter set up the claim that he is ineligible to

ATHLETES ON EDGE FOR THE SATURDAY MEET

When all the best interscholastic track performers meet on Alexander Field Saturday afternoon, for the championship meet, there should be pulled off some of the best races that have been seen this season. Every runner is in tip-top condition, for the schools are all keen on winning the championship. The competition will be closer than ever, and it would not be safe to pick a winner under any conditions.

The five schools which will enter teams—Kamehameha, Oahu College, St. Louis, McKinley High School and Mililani—have some good men, and if certain of them show up as well as they have done in practice, a couple of the records will go. Never before has there been such a classy bunch of distance men in the schools, and it is in these races that the old marks should go. There is an unusual number of good sprinters also, and certain of the fans are sure that either Hore or Melin will lower the old record of 10.1-5 in the 100-yard dash.

Considering the past performances of the men in the Cornell and the A. A. U. meet, it is safe to say that Saturday's event will be a close call between Oahu College, St. Louis and McKinley High School. The last two schools mentioned have a few individual men who will win most of their points, while Oahu College has a large number of good runners besides two or three individuals who are good for a number of races. It looks as though the Ohauans would be able to come through with the greatest number of points by winning a couple of firsts and the greater number of the seconds and thirds.

MELIN GOOD

Melin figures that Melin will be able to give Hore a rub in both the 100- and 220-yard dashes, and that if the latter has to run two or more trials heats, Melin can beat him in these sprints. Hore is not much on endurance, as was indicated by his condition after the meet on Saturday, and if he does have to run a number of trials he will find it hard pulling away from the fast high school man, Melin. Punahoa will have Gay in the sprints and although he is not come near to first position in the past two meets as running of late has improved materially and in the meet on Saturday should be able to count for a good deal with Hore of St. Louis and Melin of the High School.

The mile and half-mile pulls should be two of the best races of the afternoon. When Carey won the mile in the A. A. U. meet, the Saints were sure then and there that he could be counted on to win in the interscholastic championship event. Watt, who was slated to do wonders by certain fans, did not come near Carey, and Jack Lee of McKinley was able to beat him out. Although he did not do well in the run on Saturday, the Punahoa figure if John Watt gets the right kind of a start he will overtake Carey and the rest of the runners and leave them a good ways behind. Watt is in excellent condition for the meet, and he says that he will do his best in everything he goes into.

HALF-MILE CLOSE

In the A. A. U. half-mile run Campbell Crozier, captain of the McKinley team, ran a half-mile that only Midkiff of Oahu College was able to beat. The former's running was a surprise to all, and as was the case with Carey his supporters felt that if he was able to repeat his performance in the championship meet he would take the half-mile easily. Punahoa was of the same opinion until yesterday, when Watt ran over the same distance in a time that was close upon the old record, established over six years ago by Deverill.

There are a number of good half-milers in Oahu College, and the team from the same school will take a good share of the points in this race. Austin has done exceptionally well of late and in a trial run yesterday made good time. Brown, Webster and Dowda have all improved and will be close on the first man in the half on Saturday.

Carey will probably run the half-mile for St. Louis, while Wright and Woolsey will run the same distance for the cadets. These men are only fair performers and will not come near Crozier and Watt.

"Brownie" Rice should take the 440-yard dash in good time. His work in the last meets has been of the best class and the high school fans feel sure that they can count on Rice winning the quarter-mile dash. Watt and Austin of Oahu college will again represent this school in these races and there is no telling what either of them might do when this race is run.

HORE PICKED FOR HURDLES.

Hore will probably run the half-mile for St. Louis, while Wright and Woolsey will run the same distance for the cadets. These men are only fair performers and will not come near Crozier and Watt.

Carpentier May Have to Leave Ring to Serve in French Army

CARPENTIER
PHOTO BY AMERICAN PRESS ASSOCIATION

By MARION T. SALAZAR.
[By Latest Mail]

SAN FRANCISCO—Georges Carpentier is the best white heavyweight in the world. So says Marcel Adenot, fellow countryman of the French champion, and himself a boxer of ability. Adenot left France less than five months ago, and is now in San Francisco to remain until after the 1915 exposition, being in the employ of the officials who will have charge of the French exhibit.

Adenot saw Gunboat Smith in action against Arthur Pelkey at Daly City on New Year's, and he feels certain that if the Gunner ever faces Carpentier in the ring defeat will be the portion of the American heavyweight.

"I may be prejudiced," states Adenot, "for I am a personal friend of Carpenter. But, honestly, I can not compare the Gunner with our champion."

Carpentier is a remarkably skilled boxer. He studies the game and knows all its finer points. And hit! Satisfied."

The speaker paused and threw up his hands. His double vocabulary of French and English was inadequate to convey the idea of how hard Carpenter can slam in his punches.

"But of course Gunboat Smith can hit, too," acknowledged Adenot. "Don't think for one minute that I think he can not. If he should land on Carpenter's jaw like he did upon that poor Pelkey he might win. But that would be his only chance."

A remark to the effect that Carpenter was once whipped by Billy Papke aroused Adenot to a high pitch of excitement.

He will only be good for a second place. Kim Wai will also run for Punahoa.

Every fan feels sure that Janssen will win the high jump, and that Lindley of Oahu College, who won the pole vault in the Cornell meet so easily, will take the same event for Punahoa.

Wicks will do the work with the pike for the High school and will be one of that school's entries in the high jump.

If Takeuchi of the Mills School does as well on Saturday as he did in the meet a week back, in which he won the initial place, his school will march back to Manila with at least five points to its credit. If Hore has the endurance he will win the broad jump, while Fernandez, also of St. Louis, will be good for a second or third place. Baldwin, Lindley, and Watt will be the men in that event for Punahoa, while Melin will jump for the High school.

"We French people think a lot of Carpenter," he said when he regained his composure. "You would have thought so had you witnessed the reception he received in Paris when he returned from whipping Wells. It was like the homecoming of a victorious general from the field of battle."

SEEKING TO EVADE SERVICE.

Adenot does not believe there is much chance of Carpenter leaving France within the next several months for either America or Australia. Under the law of his country Carpenter must serve two years in the army, and political influence is being brought to bear in an effort to stave off the law in order that the French champion may continue his ring career unhampered by military duties.

"French people as a whole would consider it a calamity to have Carpenter go into the army," states Adenot. "His ring career might be ruined as a result of the two-year lay-off."

Then Adenot told of a plan that originated in the minds of certain French people which may keep Carpenter out of the army should he be unable to convince the government that fighting in the prize ring is more noble than playing at soldier.

This plan consists of nothing more nor less than to have Carpenter set up the claim that he is ineligible to

GOLF GOSSIP

As one of the two amateurs who have held the title of open champion of Great Britain, H. H. Hilton is better qualified than most to express an opinion on the new regulations governing the open championships. His editorial in Golf Illustrated is as follows:

The first step has been taken towards a solution of the difficulties which have during recent years beset the authorities who manage the open championship event.

Whether the new scheme will prove to be an efficient method of bringing the championship field down to proportions which can be readily handled is a point which future experience alone can determine. But those responsible for the scheme are to be heartily congratulated in taking prompt action and in deciding that the new regulations are to come into force at this year's meeting at Prestwick in June next. For although there was not any cause for complaint with regard to the carrying through of the championship at Hoylake last year (which was managed in the thorough and efficient manner which one always associates with the management of events organized by the Royal Liverpool Club), still after the event had been brought to a successful conclusion the executive of the club readily admitted that the strain consequent on the holding of a meeting in which so many players were competing was too great even for the very fine organization backed up by the help of the most willing workers.

At Hoylake last June 269 players sent in their names, and very few of this number failed to answer to the starter. Play was spread over no less than five days, and markers had to be provided on all these five days. Those who have not been associated with the management of an open championship meeting have no conception of the difficulty of arranging for markers for all the couples. It is a task which is a constant source of concern to the secretary of the promoting club.

But the difficulty of obtaining the necessary number of individuals willing to mark is not perhaps the most serious drawback to a championship meeting at which an enormous number of players are competing; the chief drawback is the crowded state of the course previous to the actual play in the event. On each of the three days before the qualifying stage commenced at Hoylake there must have been something like 250 players on the links, the majority of whom wished to play two rounds of the course—an absolute impossibility; for the man who succeeded in getting more than one round during any of these three preliminary days might be considered extremely fortunate.

Speaking personally, we arrived on the teeing ground on one of these days at 9:45 a.m., and the first time that vacant on the starting sheet was 4:42 p. m.; and there were names on the sheet until 5:12 p. m. Under these conditions it was quite impossible to obtain the amount of practice on the course which may be considered necessary.

Under the new regulations the players who wish to play in the event will all have to travel to Ayrshire; but as the qualifying stage is to be played on two courses, which are quite separate and apart from the championship links, the huge field of contestants will of necessity be divided into two camps—both in the actual play and in the practise preliminary to the event; and there will in consequence be infinitely better opportunities for practising than was the case last year at Hoylake.

On this account alone the change in the regulations is to be commended. If there is a cause of complaint in connection with the new scheme it would appear to lie at the doors of "time" and "expense," in that it may be wise for the players to be on the scene for a longer period of time than has been necessary in the past. But although some of the professionals may consider that this is not sufficient time, we have an idea that they will be in a minority.

That the new regulations will not altogether appeal to the large number of professional players who look upon the championship meeting as a pleasant form of holiday we feel assured; and for the same reason it may not be considered an advisable change by a certain section of amateur talent, but these represent a class of golfers who, in connection with such an advertisement as the open championship, is not worthy of very great consideration, as in the past they have simply served to take up time and fill up spaces which have both been badly needed by those who are bent on more serious endeavor.

The men who are worthy of consideration are those who have much to gain and much to lose in the play for the championship; and the prospective change is certainly all in their favor, as it should undoubtedly be

STEEL MAST FOR A DEFENDER.

IBY Latest Mail

BOSTON, Mass.—Work has been started on a steel mast for the yacht being built by the George Hawley & Son corporation for A. S. Cochran as a candidate for the defense of the America's cup. The mast, which will be approximately 110 feet long, will be stepped immediately after the sloop is launched and it is expected that the first trials will be made with this. Another mast of hollow wooden construction, is to be built and will replace the steel mast in case that should prove unsatisfactory.

Cold weather has delayed the setting up of
