ITALY MAKES WAR MOVE

CHINA WILL NOT SUBMIT TO LOSS OF SOVEREIGNTY

Bishop Bashford, Well Known Churchman, Comments on Critical Situation

SUGGESTS PUBLIC AWAIT AN OFFICIAL STATEMENT

Says Japan Should Be Given Benefit of Doubt Until Facts Ascertained

Japan's demands on China, as published in the newspapers, are such as to cause the gravest apprehension, in the belief of Bishop J. W. Bashford, one of the leading churchmen of the Far East and a man whose opinion in Chinese affairs carries international weight.

Bishop Bashford with Mrs. Bashford is a passenger on the Japanese liner Chiyo Maru, en route to the mainland. He is going on business connected with the Rockefeller Foundation's work in China, also for a visit with Mrs. Bashford to the latter's mother.

On the mainland there is expectation that he will make some interesting utterances regarding China, Chinese affairs and the so-called Japanese demands.

Bishop Bashford today made for the Associated Press and the Star-Bulletin a brief statement with reference to these demands. He emphasizes the fact that the public so far has had only newspaper reports of the nature of these demands, no official announcement of their tenor having come either from the Japanese or Chinese government. His statement as given just before the Chiyo Maru sailed is as follows:

"The missionaries of China depend upon the newspapers for information as to the nature of the Japanese demands.

"If these demands threaten the integrity of China, from wide experience of the Chinese people I fear they will issue in the gravest consequences. Were the Chinese government to submit or be overthrown, the history of China in similar crises, the experience of Japan in Formosa, and the present temper of the Chinese people show that many years of inter-racial strife will follow the Japanese attempts to control China.

"This will paralyze China's industries, rob even Japan of all material advantages of her possible overlordship and set back civilization in the Far East for generations.

"Japan should be given the benefit of the doubt as to having made such demands until the facts are ascertained."

Bishop Bashford was formerly president of Ohio Wesleyan University but since his youth he had desired to be a missionary in China. He is one of the leading men of the Methodist Episcopal church and during the eight years he has been in China he has taken a high place as a student of Far Eastern affairs. He has traveled more than 60,000 miles in China, though his residence is in Peking. He is a member of the China commission which handles the Rockefeller Foundation's work in the new republic.

PREMIER OKUMA WILL BE OUSTED, EDITOR PREDICTS

Japanese Journalist Sees Short Sway For "Grand Old Man" —No War, He Declares

That Count Okuma's cabinet, starting out with such hope of unity, will turn against the premier and his policy after the coronation of the emperor next October, is the opinion Seisetsu Suzuki, editor of the Osaka Shimbun, expressed to the Star-Bulletin prior to the Chiyo Maru's sailing this morning.

"The outside limit of Okuma's sway in the cabinet will be next February," said this man fresh from the scenes of the recent Japanese elections. Needless to say Suzuki belongs to the opposite party.

When questioned regarding the Chinese boycott he replied that it was not felt in Japan.

"China and Japan will not go to war," he said. "What demands China can not accept, Japan will withdraw."

He intends to visit all the large cities of the United States studying the anti-Japanese agitation and will stop in Hawaii for a few weeks on his return to get first hand knowledge of that ever-increasing problem of Japanese labor. He will take four months for the trip.

According to advices from Rome, the Italian navy was strengthened by the addition of 21 submarines during the last six months.

DEATH SUMMONS WM. R. NELSON, FAMOUS EDITOR

Head of Kansas City Star Dies After Many Weeks of Illness

CIVIC BETTERMENT WAS HIS STRONG PASSION

In Politics He Was "Independent But Never Neutral"—Declined Office

[Associated Press by Federal Wireless]

KANSAS CITY, Mo., April 13.—William Rockhill Nelson, editor of the Kansas City Star, and for many years a power in the public affairs of the West, died at his home here today after weeks of illness.

William Rockhill Nelson was founder, owner and editor of the Kansas City Star. Although he did not enter the newspaper business until he was nearly 40 years old, he brought to it such originality, ability and energy that he built up one of the greatest newspapers of the country.

Mr. Nelson was born in Fort Wayne, Indiana, March 7, 1841. He came of two centuries of American ancestors. His maternal grandfather, William Rockhill, settled in Indiana when that state was a wilderness in 1819, and was the first farmer in America to plant a thousand acres of corn. His father, Isaac DeGroff Nelson, was identified with the upbuilding of the state and took an active hand in its political life.

William Rockhill Nelson was educated at Notre Dame University. After a short experience as a youngster in cotton growing in Georgia just after the war, he returned to Indiana and became a general contractor. He engaged in the building of roads, pavements and bridges and was associated in a contract for the construction of the Southern Illinois State Penitentiary.

Intense admiration for the reform work of Samuel J. Tilden brought him into contact with that great Democrat and when only 34 years old, he became Tilden's Indiana campaign manager. His interest in political leadership made him turn to newspaper work as the best way to influence men in the mass. He bought an interest in the Fort Wayne Sentinel and a business reverse determined him to devote all his time to journalism.

He soon became convinced that the opportunities in Fort Wayne were too small, and after looking the field over he decided on Kansas City as the most promising city of the country. He persuaded his Fort Wayne partner, Samuel E. Morss to make the venture with him. They sold their Fort Wayne interests, went to Kansas City and started the Evening Star as a little, four-page afternoon newspaper, on September 18, 1880. Mr. Morss withdrew from the enterprise after a few months on account of ill health and Mr. Nelson continued as sole owner and editor-in-chief.

Essentially a builder, he took an intense interest in the development of the city. Almost from the first issue the Star urged the necessity of paving the streets, of getting a park system, of building attractive houses, of planting shrubbery and trees. Mr. Nelson himself had the trees set along the first Kansas City boulevard. He was constantly instigating movements for city betterment.

One of his achievements was the residence district which he laid out near his home as an example of what could be done toward city beautification. He built nearly a hundred modest houses along roads which he lined with stone walls covered with honeysuckles and crimson ramblers. He was intensely interested in fine pictures and he made a collection of reproductions of European masterpieces done by the best artists who could be found, which he gave to Kansas City.

In politics he was, as he often said, "independent but never neutral." But he would never consider any elective or appointive position. Early in President Taft's administration the suggestion was made in newspaper reports that he might be appointed ambassador to France. He commented editorially as follows: "The edi-

REV. S. WADA GOES TO STATES FOR TRIP

Rev. S. Wada, pastor in Tokio for the past 35 years, was among the many eminent Japanese passengers o fthe Chiyo Maru bound for the exposition and extended tours of America.

He is aclompanying his daughter to her marriage to a wealthy Chicagoan and intends to spend five months seeing all that America can show in things America.

Although still active in Christian work he is 62 years old. His oldest son is Prof. E. Wada of the Government Art School, Tokio, who created such a sensation by his oil paintings in Paris a few years ago. The second son of Christian exponent is Lieut. H. Wada of the Japanese navy, who was awarded a medal with honor for distinguished service at the seige of the German stronghold Tsin Tau last fall.

Cruiser Maryland and Some Important Apparatus to be Used in Case Divers For F--4 Need Special Treatment

Above—U. S. S. Maryland at local dock. The Maryland brought expert divers and special apparatus yesterday to be used on the submarine F-4 salvage work. (Kodagraph Print.) Below—Inside of steel compression chamber, showing appliances for divers in case reaction from pressure of great depths makes it necessary for them to take compressed air treatment.

Picturesque Is Idzumo Tribute To Men of F--4

Tribute to the dead heroes of the F-4 reached its highest international expression last night when the Japanese cruiser Idzumo sailed for Japan. Upon the order of Captain K. Mimura, who is commander of the Japanese fleet patrolling the Pacific from Canada to Chili, the course of the Idzumo was altered so that instead of bearing to the right of the dredge California it doubled back into the harbor and passed on the left.

Every officer and Japanese sailor was at the rail bowed in salute. As the big cruiser steamer past the spot where the F-4 is supposed to be marked by the dredge the flag of the Rising Sun at the stern was dipped in respect to the naval boys beneath the Hawaiian breakers.

"By this salute," said Commander Mimura before sailing, "we hope to show the deep sympathy felt by the Japanese nation for the families of the navy men who lost their lives through duty to their government."

The commander speaks well of the increasing friendliness between Japan and America. One of the pleasing incidents of the cruiser's stay was the presentation to the commander of a huge bunch of American Beauty roses by Mrs. Moore, wife of Admiral Moore and president of the local Navy Relief Society branch. The gift was in recognition of the generous contribution of $100 to the F-4 fund by the Japanese man-of-war.

Passengers of the Chiyo Maru sent all the surplus magazines and books they could spare to the crew of the Idzumo, also the latest newspapers from Japan. The destination of the flagship is unknown to even local Japanese papers, but late mail suggests that the Idzumo is due at the naval base at Saseho, Kiushu island

ENGINEERS TO AID IN SOLVING WATER PROBLEM

Under a resolution passed by the board of supervisors last week, the chairman of the legislative committee requested R. Renton Hind, chairman Hawaiian Engineering Association, to appoint a committee of that body to advise with the board respecting the problem of Honolulu's water supply. Mr. Hind has replied, appointing the following engineers as such committee:

W. J. Dyer, chairman; C. B. Gage, the Gregg Co.; C. B. Andrews, O. R. & L. Co.; William Weinrich, Hawaiian Fiber Co., Lellehua; A. S. Hayward, Catton, Neill & Co.

"Permit me to say," Mr. Hind's letter concludes, "that this association is ever ready to cooperate with your board in the consideration of the problems which arise from time to time concerning public welfare, and I am sure that the above-named gentlemen will gladly give you the benefit of their experience and advice."

VINCENT ASTOR VISITS HAWAII BUILDING; WILL VOYAGE HERE

Scion of Many Millions Hopes to Bring Palatial Yacht In Near Future

By KAMAAINA.

[Special Star-Bulletin Correspondence]

SAN FRANCISCO, April 6.—Quite a little stir was caused recently in the Hawaii building by the visit of a distinguished personage, Vincent Astor, whose palatial yacht "Noma," the most beautifully appointed yacht in the world, having passed through the Panama Canal from New York, now lies at anchor off the Marina of the exposition.

Mr. Astor wishing to pass unobserved, strolled through the lobby, arm in arm with his friend and traveling companion, Mr. E. G. Chadwick, a capitalist of New York and member of the party.

Mr. Astor, however, was noticed and at once was extended every courtesy by employees of the building. He expressed his admiration of the fish and tropical growth within the building, pressing many inquiries about Hawaii, especially if coal for his yacht were available. On being reassured as to the prominence of Honolulu as a coaling station, Mr. Astor asked for literature of the islands, expressing his intention of visiting the Paradise of the Pacific in the not far distant future.

Those who have registered in the Hawaii building up to date include:

E. G. Silvey, L. W. Blake, J. P. Medeiros, M. P. Mattos, Honolulu; C. H. Loveland, Eleele, Kauai; S. Sheba, Ehrman Morton, Laola E. Booth, Elizabeth L. Booth, Honolulu; Geo. A. Cool, Hilo, Hawaii; J. W. Hall, Pauline Hall, Thelma Hall, Honolulu; F. W. Jennings and wife, Kahului, Maui; Chas. Barron, Mr. and Mrs. C. H. Cady, Jos. K. Josiah, Geo. T. McInerny, Mr. and Mrs. S. Kahn, F. E. Thompson, Honolulu; Mrs. Wm. Peters, Geo. Peters, Lahaina, Maui; Mr. and Mrs. F. H. Kanne, Gertrude Ripley, Elise P. Funsten, E. A. Douthitt and wife, Ed. B. Webster, Honolulu; Jno. J. Wise, Hilo, Hawaii; Mrs. A. F. Wall, Margaret O'Neill, Josephine Lilian Schwartz, Mrs. L. E. Arnold, Mrs. C. H. Raven, Miss Linta Arnold, Mabel C. Jackson, Mr. and Mrs. Howard D. Case, Louis G. Kelley, Wm. Gifford and wife, Dr. McLennan, Honolulu; James D. Lewis, Jr., Hilo, Hawaii; Mr. and Mrs. Walter Spencer, Edward A. Southworth, Mr. and Mrs. A. F. Wall, W. A. Anderson, J. Y. T. Woo, Robson Barnett, Mrs. M. E. Bristol, C. R. Wilmore, Harry Gorman, Mrs. A. W. Eames, Helen G. McLean, Mr. and Mrs. R. G. Moore, Francis J. Cooper, Jas. S. McCandless, S. Harvey Levey, H. Komomua, Jr., Honolulu; R. I. Lillie, Wm. F. Desha, Mrs. E. J. Waterman, Honolulu.

236 KNOWN DEAD IN MINE HORROR AT SHIMONOSEKI

[Associated Press by Federal Wireless]

TOKIO, Japan, April 13.—Two hundred and thirty-six miners are known to have been killed in a very bad accident in the Shimonoseki mines.

JAPANESE WARSHIPS WILL MAKE VISIT TO HAWAII LATE IN APRIL

(Special to Nippu Iiji.)

TOKIO, April 12.—Japanese training squadron, consisting of the cruisers Soya and Aso, will leave Yokouka naval base April 20 for a cruise of four months in the waters of the South Sea islands, Australia and Hawaii.

The Soya and Aso are known to Honolulans, having visited the islands five years ago. They were formerly Russian vessels which were sunk in the harbor Chemulpo, Korea, at the outbreak of the Japanese-Russian war by Admiral Uriu, late of the Panama-Pacific exposition. Two years later, in 1906, the cruisers were raised by the Japanese government and turned into training ships for Japanese cadets. Each ship carries about 60 cadets, for whom the long voyage is undertaken.

BIG LINER HAS SUSTAINED ONLY SLIGHT DAMAGES

[Associated Press by Federal Wireless]

SEATTLE, Wash., April 13.—According to despatches received here, the liner Minnesota has sustained only slight damages. Hold No. 1 is leaking. She will dock at Nagasaki for repairs.

KOBE, Japan, April 13.—Mrs. Burton Harrison, wife of the governor-general of the Philippines, their two children and other passengers of the liner Minnesota arrived here today on vessels which hastened to the Minnesota's aid when the big liner summoned help after striking Iwajima rock.

SABURO SHIMADA IS CHOSEN SPEAKER OF THE JAPANESE DIET

(Special Cable to Hawaii Shinpo.)

TOKIO, Japan, April 13.—Hon. Saburo Shimada, prominent statesman and politician, has been elected speaker of the Japanese diet which convenes next month.

ALL READY NOW FOR DIVERS TO GO DOWN TO F-4

Men and Equipment Ready For Work of Salvaging Lost Submarine

JOB IS ONE THAT WILL SET NEW WORLD MARK

Never Before Have Such Operations Been Carried On at Similar Depth

Tomorrow morning, according to present plans, one of the four navy divers who were rushed from the Atlantic seaboard by fast train and fast cruiser to assist in the salvage of the F-4, will descend to where the sunken submarine rests on the bottom off the harbor entrance. This is a day of preparation, a large force of men being at work collecting and assembling the extensive gear which is necessary to the work of the navy's deep-sea explorers. Electricians, carpenters, steam fitters and mechanics of all sorts, some 40 in all, were hard at work all morning, fitting up the big lighter from which operations will be conducted. Lumber to build the raft from which the actual descent will be made, is being brought from Pearl Harbor, but by this evening it is expected that everything will be in readiness for the commencement of the actual salvage work.

Chief Gunner G. D. Stilson, who is in charge of diving operations and whose inventions make the present under water work under excessive pressure possible, is well pleased with local conditions for diving. Yesterday and this morning he made observations of light and water and found everything more favorable for deep diving than on the Atlantic coast where the party has been doing most

(Continued on page three)

SMART CONTEST IS APPARENTLY ALL SETTLED UP

Little Richard Smart and Temporary Custodian May Leave For the Coast Today

That the famous Smart estate contest has at last been definitely settled out of court is the gist of a report in court circles today, though the attorneys for H. G. Smart and for Mrs. Elizabeth J. Knight won't confirm it.

It became generally known this morning, however, that Mrs. M. H. Lemon, temporary custodian of Richard Smith, the 2-year-old child, was expected to leave on the steamer Lurline this afternoon with the youngster, bound for San Francisco, with the possibility that Mrs. Knight may accompany them. This, taken in conjunction with the fact that Mrs. Marion Dowsett Worthington left a week ago for the coast with the intention of reopening Mrs. Knight's palatial home at San Francisco, is regarded as significant.

Two of the hearings set for 5 o'clock in Circuit Judge Whitney's court today were again continued a week and the lawyers are quoted as remarking at that time that they were confident the affair would be disposed of on the next date.

The attorneys still asserted today that the compromise negotiations were

(Continued on page eight)

GERMAN OFFICIAL CABLEGRAMS

The following cablegram was received today from official German sources:

"WASHINGTON, D. C., April 13.—German headquarters report, April 13:

"The French have made attacks near Berry-au-Bac, and between the Meuse and the Moselle, near Maicery, east of Verdun, near Marchville, southeast of Maicery, on the front between Maicery and Marchville, south of Hartmannsweilerkopf. Everywhere the French attacks were repulsed.

"The French reported that their aviators threw 150 bombs upon the railroad station and foundry at Bruges. In reality they threw only nine bombs which fell in the east end and two near Bruges without doing any damage. The Germans have thrown profusely bombs on Poperinghe, Basebrouk and Kossel, occupied by the English.

"Northeast of Suippes the enemy used again projectiles developing asphyxiating gas. In the Priest forest there is fighting day and night and there the Germans are slowly gaining terrain.

"The situation on the east front is unchanged."

SPECIAL ORDER ONLY GIVEN ON EVE OF FIGHT

Women Prepared to Substitute For Men if Males are Sent to Front

ALLIES' ATACKS FIND GERMAN LINES HOLDING

Terrifio Drive In West Gains Comparatively Little Terrain —Russia Wins More Successes Against Austrians—British Decline to Settle Immediately Case of Detained Neutral Vessels

[Associated Press by Federal Wireless]

ROME, ITALY, APRIL 13.—THE MILITARY AUTHORITIES HAVE ORDERED THE OFFICERS OF THE ITALIAN ARMY TO DULL THE METAL ON THEIR UNIFORMS AND THEIR SCABBARDS, THE MEASURE USUAL UPON THE EVE OF WAR.

ROME, Italy, April 13.—Preparations are being made on a large scale in Italy to substitute women for men if the males are called to the front. Even the mobilization schools are now being used to house troops and will continue sessions in rented buildings. Women are being trained to operate the trolley cars in the event of a shortage of men.

It is denied on the "highest German authority" that peace negotiations are under way by the Teutonic Alliance.

NEUTRAL SHIPS CANNOT SECURE EARLY HEARING

[Associated Press by Federal Wireless]

LONDON, England, April 13.—The British government, through its attorneys and court, declines to give immediate trial to some of the neutral ships detained in the blockade of German commerce. The Norwegian vessels Friedland, Kim and Alfred Nobel and Bjornstjegne have been denied immediate trial and will be given prize court hearings on June 7.

Counsel for American firms interested in detained shipping urged early action lest the owners of the ships and consignors be bankrupted, but the attorneys for the crown stated that further information is desired.

GERMANS RESUME ATTACK ON OSSOWETZ, IN EAST

[Associated Press by Federal Wireless]

LONDON, England, April 13.—The Germans have resumed their attack along the Prussian frontier in the desperate battle for the possession of the Poland city of Ossowetz.

Heavy fighting is reported at Bukowina, where the Russians are in conflict with the Austro-German forces.

Two Austrian armored trains which were sent against the Russians proved useless, the Russians destroying one and repulsing the other in a damaged condition.

ALLIES FIND GERMAN LINES ARE HOLDING

[Associated Press by Federal Wireless]

LONDON, England, April 13.—The efforts of the Allies on the west to drive back the German wedge along the Meuse and the Moselle continues unremittingly. The indications are that the German lines are holding.

TURKISH CONCENTRATION CAMP IS BOMBARDED

[Associated Press by Federal Wireless]

LONDON, England, April 13.—Aided by a French battleship's bombardment, sea-planes have attacked a big Turkish concentration camp in the vicinity of Gaza, on the Egyptian border.

(Additional telegraph news Pages 3 and 12.)

JAPANESE PROFESSOR TO STUDY CONDITIONS OF HAWAII VOLCANOES

Prof. G. Oi of the Imperial university of Tokio, arrived in Honolulu in the Chiyo Maru yesterday. He plans to go to the Big Island and spend a few days with Prof. T. A. Jaggar at the Volcano of Kilauea. He will study the condition of Hawaii's volcanos.

BILLS RELATING TO MUNICIPALITY ARE DISCUSSED

Opposition Develops to Plan For Extension of Civil Service

At a conference yesterday of the municipal committee of the house of representatives and the legislative committee of the board of supervisors, Mayor Lane taking part, a large number of bills concerning the city and county were discussed.

Lorrin Andrews appeared to represent the civil service commission, of which he is chairman, and urged the passage of the bill giving the commission jurisdiction of complaints "from any person" against police officers. He opposed the bills extending the jurisdiction of the commission over public services other than those now handled by the body, believing that if the civil service law is opened up to embrace one more subject there will be no limit to what may be demanded. While civil service for every department of municipal service would likely come in time, Mr. Andrews said, it was well to go slow at present and perfect the system as far as it goes at present.

C. R. Hemenway, representing the business community, took part in the proceedings. He questioned the advisability of the measure to require that, before lots in a new residence tract may be sold, water and sewer mains must be laid in the tract subject to approval of the board of supervisors. He considered the bill a good one but too sweeping. In his opinion it should not be applicable to remote parts of the city and county, such as Woodlawn and Waialae, and he suggested that the bill be amended before passage. It was agreed that the bill be referred to Deputy Attorney Lymer of the city and county, who made the original draft, to study how it may be amended.

Chairman Williamson of the house committee gave the reasons for his bill to prohibit having any employe of a firm having any business relations with a county, or the city and county of Honolulu, from holding office as a supervisor, but admitted that the bill in its present form was too drastic. He withdrew it for such amendment as may be possible without destroying its original purpose of preventing such scandalous combinations as that which he discovered while acting on the Hawaii county probing commission.

On the matter of taking milk inspection away from the city and county, the bill with that object had action on it deferred until this morning, so as to have F. J. Lowrey, representing the chamber of commerce, at whose instance the measure was introduced, present.

LEGISLATIVE NOTES

The Sunday moving-picture bill, Rice's measure giving the governor power to appoint district magistrates and the house concurrent resolution which would authorize the territorial treasurer to make a thorough investigation of fire insurance rates the next two years, were not acted upon by the senate yesterday afternoon, as expected. All were deferred until today.

Up for third reading in the senate today is S. B. 113, the substitute for H. B. 210 and H. B. 267, proposing the creation of a commission to appraise the territory's property and that of the counties, and make a study of the county and territorial systems of auditing. The new measure was approved yesterday by the ways and means committee and passed second reading.

It begins to look as though the present legislature will enact nothing like the number of bills passed by the legislative body of 1913. Until this morning the governor had signed only 65 measures, thus enacting them into law and only 13 days of the 1915 session remain. The lawmakers of 1913 enacted about 165 statutes. Thus if the present session is to create an equal number it must pass about 100 measures in the next 13 working days or an average of nearly eight per day. It is thought unlikely this will be done.

GOVERNOR SIGNS BILLS

The governor signed the following bills today:

H. B. 38, as Act 67, relating to the bonds of county officials.

H. B. 178 as Act 68, amending the law relating to the filing of plans in the office of the registrar of conveyances.

H. B. 171 as Act 69, amending the law prohibiting the taking of nehu and iao with nets longer than 12 feet, exempting the fishing in the waters surrounding Oahu and Kauai.

H. B. 203 as Act 70, providing penalties for driving vehicles under certain conditions.

H. B. 206 as Act 71, licenses for hotels, boarding houses, restaurants, etc

H. B. 213 as Act 72, revising the last school budget, for the period ending June 30, 1915.

S. B. 59 as Act 73, amending the statute relating to challenges to jurors.

SEGREGATION OF INSANE PATIENTS URGED ON SOLONS

Proposed Hospital for Inebriates Is Indorsed By Members of Legislature

Inebriates, degenerated to such from excessive use of intoxicants, morphine, cocaine and opium, will be housed and treated in a hospital erected for that purpose mauka of the present insane asylum, according to the almost unanimous decision of members of the legislature reached today following a visit to the asylum.

In addition, the present insane asylum will be divided so that acute, violent and new cases, and also sexes will be segregated, if the plans are carried out. To accomplish this purpose, Superintendent W. A. Schwallie will ask the legislature to appropriate a sum of money sufficient to erect a concrete structure on the ewa side of the asylum grounds. At present an appropriation of $10,000 for a frame building is available and construction was to begin in the near future, but after a conference today of Dr. Schwallie and Superintendent of Public Works Forbes, Schwallie decided to recommend that the plans for the frame building be discarded and the $10,000 appropriated by the 1913 legislature be increased by a sum sufficient to erect a concrete building.

Chairman J. H. Coney of the house health committee said today that he would introduce a bill to segregate the patients at the asylum. He also said that he would introduce an amendment to his bill for a hospital for inebriates so that it would conform with the insane asylum regulations. The bill now provides that circuit judges have the sole power to commit a patient to the hospital and the amendment will grant a like power to district judges, who, Coney argued, have much to do with inebriate cases.

"We should have a special building for patients afflicted with tuberculosis," said Dr. Schwallie to the Star-Bulletin, "as there is grave danger of contagion. Another important improvement which should be made as soon as possible is the substitution of stone or concrete buildings for the frame structures. Most of the patients smoke and they must be searched every night for matches. If, through cunning, the matches escape detection, a fire is not unlikely, and everyone realizes what a fire means at an insane asylum."

The visit to the asylum was made by the members of both houses following an inspection of the territorial prisons, the Kalihi receiving station, the Kalihi home for boys and the Kapiolani home for girls.

HOT ATTACK ON MILITARY BILL IS THE PROSPECT

Antagonists and protagonists of the idea of compulsory military training will gather in force in the senate chamber this evening to do battle over Speaker Holstein's famous H. B. 148. The argument that the whole affair is contrary to the constitution of the United States will be worked for all it is worth by those who are against the measure. Several senators at present are openly opposed to the bill and indications are that unless its friends make powerful arguments it will perish in the upper house or, at best, pass that body in such mutilated form as to be scarcely recognizable.

Tonight's meeting is scheduled to begin at 7:30 o'clock. Chairman James L. Coke of the military committee which has the measure in hand will preside. An effort will be made to confine speeches to a few minutes' length but when the orators get wound up and fairly started it is doubtful if the rule can be enforced with any degree of success. At least such was Senator Coke's experience in the public debate on the Sunday motion picture bill.

New Law for Portland Pilots.

The Port of Portland commission, which is abandoning the pilotage at the mouth of the Columbia river, will ask the legislature to amend the section of the state code which provides that a maximum charge of $5 a foot and 2 cents a ton net register may be charged. The pilots are to be allowed to charge $2.50 a foot and 2 cents a ton net register and that figure will be inserted into law. The port has made arrangements to collect for the pilots when towage is also given, but has not decided the question of increasing its own rates to allow for the pilot's fee. With pilotage and towage together only one charge has been made where two will now be necessary.

Plan to Regulate Tramp Freighters.

Senator Carr's bill amending the public utilities act to replace tramp coast-wise steamers under the jurisdiction of the California State Railroad Commission has been given a public hearing by the joint senate and assembly public utilities committees. The chief opposition against the bill was made by Seth Mann of the San Francisco Chamber of Commerce, and W. Coggshell, speaking for the Humboldt Chamber of Commerce and other Eureka civic bodies.

Max Thelen, president of the Railroad Commission, and E. O. Edgerton spoke for the passage of the bill.

W. H. CRAWFORD AND AIU SUBMIT MINORITY REPORTS ON KUPIHEA

Two Members of Investigating Committee Doubt Witnesses Against Colleague

Separate minority reports upon the Representative Kupihea case were submitted to the house of representatives yesterday by William H. Crawford and Eugene K. Aiu, the two members of the investigating committee who failed to sign the majority report presented last week.

As forecast by the Star-Bulletin, Crawford's report holds Kupihea guilty only of some negligence but not enough to justify Circuit Judge Ashford's sweeping condemnation of Kupihea as responsible for the delinquency of his daughter and his niece.

Aiu's report in effect states a belief that Kupihea was unfortunate in having a bad daughter and also a belief that much of the incriminating testimony of the two soldiers arrested in company with the girls was false and should not be weighed against Kupihea's version of affairs.

Crawford's report says in part:

"In brief, Judge Ashford charges Representative Kupihea with:

"First: Conducting at his home a series of entertainments which might be fairly described as constituting a disorderly house.

"Second: Inviting soldiers to his premises to drink liquor and permitting them to drink liquor there.

"Third: Indulging in gambling games on his premises, out of which he may have reaped some benefit.

"Fourth: Having a cottage in the same yard with his own premises in which he allowed soldiers to use unoccupied rooms, furnishing them the key thereto and which he allowed them to use, drinking liquor with them for the purpose of drunken debauchery and allowed his niece and daughter with his knowledge, sanction and approval to mingle freely with the soldiers.

"Fifth: That under such unwholesome relations as those, domestic relations of such a vicious character as that, the father and uncle had only one thing to expect in regard to those girls, and if they have gone wrong, surely the going wrong, it seems to me, should be attributed more distinctly to his fault than to the young men with whom he has thus thrown them into contact.

"I find in regard to the charges made by Judge Ashford as follows:

"In regard to the first, second and third charges made by Judge Ashford, there is absolutely no evidence that any of the charges are true.

"In regard to the fourth and fifth charges, the statements are so contradictory and the charges against Representative Kupihea are made by men of such low character that I do no believe they are proved.

"In regard to the charge made by the committee as a sixth cause of action, to-wit, that the prior delinquencies of his daughters had been called to Kupihea's attention and he had made no attempt to reform them or to keep a more careful watch over them, I think that this is true, but this is not a charge made by Judge Ashford and does not come within the charges made by the court and therefore the house of representatives has no right to state any judgment on the matter.

"I find that by the terms of the resolution the duties of the judiciary committee is limited to ascertaining and reporting whether the charges are true. The house alone shall be the judge of the qualifications of its own members and, therefore, I submit my report to the house for such action as they deem proper in the premises."

Aiu's Report.

Representative Aiu sums up his conclusions as follows:

"I disbelieve the testimony of the witnesses against Kupihea for the following reasons:

"(1) That it is unusual for a man to allow his premises to be ill-used.

"(2) That his sister is not on speaking terms with him.

"(3) That from my observance of the demeanor of the several witnesses, and upon considering the record of each of them, I have grave doubts as to their sincerity and veracity.

"Oldham and Bradbrook are the men who were charged with the serious offense aforementioned, and who succeeded in getting a suspension of their sentence upon their version of the story. The girls in question are still of tender age, and I was very much surprised to see that there are men of the training and culture that these soldiers receive who are so degraded as to entertain and yield to the temptation of having intercourse with females of tender age. This fact alone, to my mind, is sufficient to cast discredit upon their testimony. I observed them on the witness stand and I noticed from their demeanor that they were testifying falsely in some respects, and I also noticed that the fact of their being arrested, charged and convicted had a great deal to do with their testimony. So far as the committee has been advised, Mr. Kupihea has a clean record, and it is unfair to my mind that his clean record should be upset and made to give way to the record of the two soldiers in question. As to the girls, the evidence shows that they have always been headstrong and uncontrollable, and that the father and uncle had had considerable trouble with them. It is one of these instances in which children have brought worry and anxiety to parents.

"(4) Another consideration is the idea of assuming that a father would deliberately surrender the chastity of his daughter. I cannot make such assumption, unless upon undisputable, clear and convincing evidence. If Mr. Kupihea, as the evidence shows, has a legitimate business of his own, has not gambled in his life, and has had the confidence of the people who elected him to the position of representative, it is hard to see how the idea of his deliberately surrendering the virtues of his daughter can be likely entertained and taken for granted. For these reasons, I find in favor of Mr. Kupihea.

"There was also evidence touching upon the way that Mr. Kupihea brought up his daughter, Iwalani. It shows that Iwalani was absenting herself from school frequently, and that no proper steps were taken by him for the discontinuance of this delinquency. As this matter, as I take it, is without the scope of the resolution, I consider it improper and beyond the authority of the committee to report any conclusion or finding thereon. The resolution, if properly examined as to its terms, confines itself to what took place at the place designated in the remarks by the judge, and not to what happened long before that and at another place."

SPECIAL SHIPPING

VESSELS TO AND FROM THE ISLANDS

(Special Wireless to Merchants' Exchange.

KAHULUI—Sailed, April 13, schooner M. Turner for Grays Harbor.

SAN FRANCISCO—Sailed, April 13, 2 p. m., S. S. Sonoma for Honolulu.

Arrived, April 13, 6 a. m., S. S. Matsonia, hence April 7.

Radiogram.

U. S. A. T. SHERMAN arrives from San Francisco at 5 p. m., today.

HARBOR NOTES

With 15,000 barrels of fuel oil, the ship Falls of Clyde is now due at Honolulu. The shipment comes to the local branch of the Associated Oil company.

Part of the 45,000 barrels of fuel oil expected from the California coast in the Union tanker Santa Maria today may be delivered at Hilo or Kahului. The Santa Maria will berth at Pier 17.

The United States naval auxiliary collier Proteus will be shifted from Pier 6 to the Waikiki side of Pier 7, should it not be ready to leave port after the arrival of the transport Sherman this afternoon. The Proteus is taking water only.

To facilitate the discharge of a quantity of quartermaster department cargo and the landing of more than 600 passengers, the United States army transport Sherman has been assigned a berth at Pier 6. The vessel is due from San Francisco this afternoon.

The American-Hawaiian freighter Arizonan from New York by the way of Panama and Seattle with several thousands tons of general cargo, has been assigned to Pier 20. The vessel is now due. It will gather 11,000 tons of sugar at island ports for delivery to the east coast.

Panama Tonnage Shows Increase.

Judging from the number of deep-sea freighters visiting Honolulu while carrying cargo between the east coast of the United States and the Orient, a marked increase in tonnage passing through the Panama canal is anticipated. In spite of slides at Culebra the dredges are said by masters of American-Hawaiian vessels to keep the waterway open to heavily loaded steamers. Two or three ships a day go through from the Atlantic to the Pacific or from the Pacific to the Atlantic when conditions are normal. American ships are about half of those passing at present. They include vessels of the American-Hawaiian Steamship Company, of the Panama Rail road Company, of the Dollar line, and of other fleets owned in New York, San Francisco and Seattle. Most of the other half are British ships, but there are also Chilean ships, Norwegian ships and Swedish ships.

DEATH SUMMONS WM. R. NELSON, FAMOUS EDITOR

(Continued from page one)

tor of the Star is amply occupied, sustained and satisfied with his present job. He regards himself as holding a place of greater responsibility and usefulness than any within the gift of the president or the electorate. Not only has he never been a candidate, active or receptive, for any office, but he never has asked for the appointment of any one else."

In 1881 Mr. Nelson married Miss Ida Houston. Their one child, a daughter, Mrs. Irwin R. Kirkwood, lives in Kansas City.

Conductor Daniel W. Chandler, who was badly hurt in the train wreck at Claremont, N. H., died of his injuries at the Claremont hospital.

Legislation which would permit the consolidation of railroads operating in Vermont, popularly known as the "Boston and Maine" bill was passed by the Vermont senate.

GRAND JURY AT WORK ON MORE 'BADGER' CASES?

Further Indictments Rumored as Result of Scully Turning State's Evidence

Further indictments may be returned by the grand jury in the next few days in the case of the alleged robbery of a Chinese at the home of John T. McGrath. McGrath and John T. Scully already are under indictment on this charge, which is separate and distinct from the one in which Scully is thought to have turned state's evidence.

The trial of McGrath, P. H. Boggs and George A. (Bert) Bower on the last-named indictment is set for 9 o'clock tomorrow in Circuit Judge Ashford's court. City and County Attorney John W. Cathcart declines to say whether Scully is to appear against the trio or to confirm the report that another member of the gang has offered to turn state's evidence to escape trial and possible punishment in this case.

There are three alleged robberies by the crowd. One is said to have taken place at the home of Scully at Makiki, the one for which Scully has just escaped trial; the other two are declared to have taken place at the McGrath home at Kalihi. For one of the latter, Scully and Henry T. Lewis have been convicted; for the other, Scully and McGrath have been indicted but have not yet gone to trial. It is thought the expected new indictment will involve Bower and Boggs in this second alleged affair at the McGrath house.

Scully is at large now under about $10,000 bail.

HON. INNES-KERR, NEE AYRES, GOING TO GET HIS BARONIAL ESTATE

There was a break in the weekly sequence of the appearance of Tropic Topics, the pink sporting sheet, on Saturday last. This happily proves other than a case of hard luck to its editor and proprietor, Herbert Melton Ayres, as he is known in this jungle. On the contrary it means the giltest kind of gilded affluence to the Hon. Herbert Innes-Kerr, as the selfsame Ayres is known to his English solicitor.

It is an old story now how the lyric primate of Hawaii, with the two cognomens just mentioned, fell heir to the title and estate of a deceased brother, with the right to be addressed as "Lord," the inheritance being direct from the holder of the unfortunately extinct title of Baron D'Avoncourt. For a year or more "Me Lud" has been shrinking from the limelight that beats upon rank and fortune, but that was only because it takes time in old England to settle the affairs of a decedent, what with succession duties, collateral interests, certificates, seals, etc.

Everything has an end, however, even English chancery cases, and on Saturday last Mr. Ayres received a cablegram from his solicitor notifying him that his presence was requested in London in three weeks from that day when the final papers conferring his estates upon him were to be signed. As his local revenues were dependent upon the collection of an untold amount of delinquent subscriptions to Tropic Topics, he cabled a call upon his estate treasury through the solicitor. An answer was received immediately informing him that "funds" were on the way.

Asked whether he intended to moult his American citizenship and his present name and live in England, the honorable free lance promptly disclaimed any such intention. "I shall return to Hawaii with the proceeds of the settlement, and Tropic Topics will flourish as never before," said the lucky chap.

Bills discounted and loans made by federal reserve banks have increased $3,000,000 during the last week.

The American steamer City of Memphis reached New York from Bremen with a cargo of 960 tons of assorted German merchandise.

Re: Circulation and Advertising:

The same sound reasoning which prompts you in purchasing your goods from the dealer who offers you the most merchandise for your money, **all others things being equal,** should cause you to invest your advertising funds where you are assured of the highest possible percentage of returns.

For Example—

Say that there are two or more mediums circulating through a certain district, but that their circulation, in figures, vary. In other words, more people read one of these mediums than any of the others. In such an instance the advertising rates, in all being equal, which would be the medium for the keen and logical business man to employ? The answer hardly need be asked.

Weigh the distribution of your advertising appropriation for one year as carefully as you do outlays in other directions and see if you do not gain thereby.

Work Your Capital Hard!

Money is a man's one asset which cannot be overworked. **Don't look upon the money disbursed in advertising as an expense! It is an investment!** And if **properly** invested will earn big dividends.

Neither should you consider the expenditure incurred by advertising as a moral obligation or a charitable donation which might serve to purchase a certain amount of good-will, etc. The putting aside of such thoughts will aid you in deciding, in a cold-blooded, business-like manner, where you shall place your ads to get the best value.

The intrinsic values of advertising, if properly exploited, are almost inestimable.

The leading newspaper of a city is the most efficient medium of advertising for the retail merchant! Use it!

THE "AD MAN."

SIMPLE DRESSES FOR GIRLS TOPIC OF THE MOTHERS

Punahou Scene of Large Meeting—Safety and Sanitation Also Discussed

[Special Star-Bulletin Correspondence]

PUNAHOU, April 13.—There was a large congregation of Punahou mothers yesterday afternoon in Charles R. Bishop Hall, come together to discuss the school problems in relation to the home. President Griffiths presided, called the meeting to order and stated that it had been asked that he perform this office until a chairman was elected to preside at this meeting and future ones during the coming year. Mr. D. L. Withington, chairman of the committee, was elected for this office.

Mrs. Norman Watkins and Mrs. George Rodiek were elected members of the committee in place of Mrs Eben Low and Mrs. Frank Damon, who are not able to serve.

The securing of simplicity of dress among the students, in particular the girls, was the most important topic discussed at the meeting. No suggestion was offered that met with unanimous approval. Everyone expressed the idea of a need of some form of action and many ideas were offered. It seemed a little hasty to adopt a uniform but everyone agreed that a greater simplicity in dress was required. During the time until the next meeting, which is in May, it is being planned to lay the whole proposition before all the mothers, and consult some of the students and pupils, to see what the general idea is concerning a uniform.

A few other questions were discussed. Certain sanitary matters connected with the sweepings of the buildings, and of the dangers of the automobiles that come through the grounds, at the time of the opening and closing of school, were referred to the trustees. It is known that the trustees have been considering for some time these two questions, and to limit the danger from automobiles it has been advised that certain gates be closed and automobiles travel on certain roads. Another suggestion has been made of reviving the old custom of the Punahou wagon, collecting the children at school time.

At the end of the meeting a social gathering was held, where the mothers met each other. It was an interesting meeting, and proved a good start toward the goal for which the meetings have been organized.

Paul Withington, an old Punahou student, passed in the examinations in one of the Boston hospitals. He was an interne on the staff, and among the 69 who took the examinations he was one of the best. This entitles him to any position he may choose to take on the hospital staff.

FEDERAL GRAND JURY MAY RETURN PARTIAL REPORTS THIS WEEK

The federal grand jury was in session today from 9 until 12:30 o'clock, the belief being that it has started the work of cleaning up a number of statutory cases which have been pending in the court for some weeks past. It has been decided that the jury will not sit in the afternoon.

Partial reports of the findings of the jury may be submitted before the end of the week. Just how long the jury will be in session has not yet been determined. It is understood that the calendar is unusually heavy. Further witnesses who have been subpoenaed are Annie Kekaule, K. L. Cheong, Mrs. John Saffery and Mrs. Sarah Moore.

LOCAL AND GENERAL

There will be work in the first degree Excelsior lodge, I. O. O. F., this evening.

Harmony Lodge will have degree work this evening in Odd Fellows' hall at 7:30.

The Hawaiian band played at noon today in Bishop park, opposite the Alexander Young hotel.

The Kaahumanu Society held a special meeting at 10 o'clock this morning at Kawaiahao gymnasium.

A discharge in bankruptcy today was granted to T. A. Simpson by Judge Charles F. Clemons in federal court.

Olive Branch Rebekah Lodge No. 2, I. O. O. F., will start a whist tournament Thursday evening. All whist players are invited to attend. Refreshments and prizes each evening.

Contractor Davenport was the lowest bidder for the construction of the dairy building and piggery at the College of Hawaii. Tenders were opened at the college this forenoon the bidders being Davenport, eighty days, $4,729; Bowler & Ingerson, ninety days, $6,150; H. H. K. DeFries, sixty days, $5,301.60; Martin Gandal, ninety days, $5,250.

ALL READY NOW FOR DIVERS TO GO DOWN TO F-4

(Continued from page one)

of its experimental work. In fact, it is believed that on a bright day with the sun directly overhead, it will be possible to work at a depth of 40 to 45 fathoms without artificial light. The diving equipment includes lighting apparatus, but this will not be used unless it is found necessary.

Plentiful Air Supply.

Air for the deep-sea divers is supplied from small tanks of compressed air which is regulated by means of a reducing valve. The ordinary torpedo air flask is used for this purpose, and this morning six of these flasks were taken off the Maryland and placed on the lighter, where they were secured by cleats to the deck. The extra torpedoes of the submarines furnishes a like number, so that there is a plentiful supply of compressed air for the diving work. These flasks will be recharged from the Alert as the work progresses, the submarine tender to be anchored close to the diving barge. In addition to the air supply and regulating apparatus, the big re-compression chamber, or air lock, into which divers who show any signs of distress after coming up are placed, is securely lashed to the deck of the lighter. This air lock and the appliances for re-accustoming a diver to normal atmospheric pressure are in charge of Dr. G. R. W. French of the navy, who forms one of the diving party. Like Stilson, Dr. French is delighted with local conditions for diving and believes that there will be no trouble in making observations of the sunken submarine. In fact, all the experts believe that should there be any necessity, a much greater depth than the world's record of 275, made by Chief Gunners Mate S. J. Drellishak, could be attained in local waters.

Pontoons Ready.

The finishing touches were being put on the second reconstructed mud scow this morning. Although both the 600-ton scows have been fitted for submersion and puming, the hoisting gear on each is so strong that Naval Constructor Furer and his assistants have high hopes that the F-4 can be lifted and towed into shallow water without resorting to pontoon methods. However, if the submarine proves too much of a dead weight, the scows can be submerged, pumped out and towed shoreward again until the sunken vessel again grounds and the operation repeated as often as necessary to get the F-4 into shallow water. Soundings have been made to show the best course to tow and in fact every preparatory step that could speed up the work has been taken.

The first step towards actual salvage operations will be made by the divers, who after an observation of the sunken submarine will be able to give information as to how she heads and how the two heavy wire cables with which she is snared are holding. A good deal will depend on just where on the hull of the vessel these lines are caught, as to how soon she can be raised. It may be necessary to drag again, following directions from the divers before the wire sling around the F-4 is considered secure enough to stand the tremendous strain that will be put on it by the hoisting machinery. It is thought that possibly it will be necessary to use pontoon methods to break out the submarine from the bottom, but that after she is once clear, the hoisting machinery alone will be sufficient.

The F-4 work is one of the most interesting salvage problems that has ever arisen and everyone connected with the work is tackling his part of the job with more than the usual enthusiasm and interest. If the vessel is successfully raised, as is generally hoped, a new world's record will have been established and one of which the United States navy can feel justly proud.

VISITING DAYS FOR MARYLAND ARE ANNOUNCED

With an indefinite length of stay ahead of them officers and men of the cruiser Maryland are making themselves at home in Honolulu. There is no particular desire to get away. In fact, the reverse is the case, and the general hope is expressed that the diving party which the Maryland brought out from the Coast, won't get through its work in too much of a hurry. The probabilities are that the cruiser will be in this port several weeks, and everyone aboard is looking forward to a pleasant time here.

Yesterday about 500 of the crew were given shore liberty, and out of the entire number only two failed to put in an appearance "clean and sober" this morning. There will be practically no restriction as to shore liberty, the gang-plank being open, and the men free to go ashore when off duty. This figures out that about half the crew, or approximately 400 men, will be free every day. No beach guard, or patrol, is contemplated. The general public interested in the navy may visit the Maryland on Wednesday, Saturday and Sunday afternoons, from 2:30 until 5 o'clock. Schools and drills are being held almost continuously, and it is not practicable to throw the ship open to visitors every day.

Advantage will be taken of the stay here to have a number of shore drills, and this morning a company of blue-jackets, or to speak more correctly for this clime, white-jackets, came on the beach for infantry work. The marine detachment, under command of Capt. C. D. Westcots, also had a formation on the dock.

F-4 FUND SWELLS THROUGH EFFORTS OF HUI AU KAIS

Club Raises $202.10 In Benefit Entertainment Given In Armory Last Night

The fund being raised in Honolulu for the relief of the living victims of the F-4 disaster was substantially swelled when $202.10 was added to it last night at a benefit concert in the national guard armory under the auspices of the Hui Au Kai.

Forty-three dollars of the total amount was raised by the girls who acted as ushers and program distributors. They were the Misses Dorothy Winter, Sybil Carter, Mildred Bromwell, Clemence Gifford, Ruth Stacker, Margaret Young, Rachael Woods and Ilima Woods. More than 600 persons were present. No admission was charged, contributions being dropped in urns at the entrance of the armory. Following the concert those present indulged in dancing.

The concert was carried out by several of Honolulu's best known musicians and thespians, among them being Mrs. Alice A. Hayward, Mrs. W. H. Fry, Miss C. C. Pearson, Philip Hall, George Casper, Lucille and Adeline Aflague, the Misses Edith Gatfield, Grace Cadwell and M. M. Stroup, and E. T. Stacker and Kamehameha Glee Club. Songs, dances, violin and vocal solos comprised the program, which was heartily enjoyed and applauded by those present.

The Hui Au Kai's special benefit list will remain open for two days.

AD CLUB RELIEF FUND HAS PASSED THE $1700 MARK

At noon today Treasurer Levenson of the Ad Club F-4 relief fund reported as follows:

Previous balance reported	$1624.30
Emp. W. W. Dimond & Co.	21.00
Geo. H. Piltz	2.50
John Bowes	2.50
A. G.	2.00
S. T.	8.75
Seaman's Institute	3.10
Emp. T. H. Davies & Co., warehouse No. 2	3.75
Emp. Waterhouse Trust Co.	10.50
Emp. Alexander & Baldwin	62.00
Emp. Wall, Nichols Co.	5.00
Anchor Saloon	4.00
Pacific Saloon	1.50
	$1750.90

The Ad Club desires to have all lists handed in to Treasurer Levenson by 9 o'clock tomorrow morning.

1ST INFANTRYMEN HELP AID FUNDS FOR F-4 RELIEF

From Schofield Barracks comes the following letter:

Editor Honolulu Star-Bulletin.

Sir: The following named men of Company E, 1st Infantry, have contributed the amounts set opposite their names to be applied to the fund being subscribed for the dependents of the men who were lost on the submarine F-4. It is requested that this sum be used for no other purpose: G. H. Bates, $1; H. S. Hall, $1; A. Hoffman, 50c; J. Krause, 50c; T. Farley, $1; J. J. Dignan, $1; G. DeKeyser 50c; C. A. Reynolds, 50c; J. Stein, 50c; J. Killfoil, $1; F. J. Wilkinson, $1; H. Wallace, $1; H. Van Campen, $1; H. E. Bradley, $1; A. Reymann, 50c; S. Bolanovich, $1; A. Dyczus, 50c; J. Bozeyks, 50c; M. J. Curtin, 50c; P. Oskowski, 50c; J. F. Mize, 50c; E. S. Gatter, 50c; D. H. Benton, $1; W. Meerkreebs, 50c; E. P. Dever, 50c; O. Kain, $1; W. G. Norton, 50c; W. R. Smith, $1; L. E. Swint, 50c; C. W. Kelley, $1; J. Engler, 50c; A. Kotlan, 50c; S. M. McLaughlin, $1; A. Powell, $1; F. Brynarski, $1; S. A. Pittman, $1; B. F. Jones, 50c; S. Tony, 50c; O. Hart, 50c; M. Swenson, $1; F. M. White, 50c; H. Bray, $1; H. L. Williams, 50c; M. Sherman, 50c; G. Dubois, 50c; H. C. Kuse, 50c; J. Weber, 50c; T. Jones, 50c; E. Spetz, 50c; W. E. Glanders, 50c; W. H. Lee, 50c; J. H. Gwynes, 50c; A. Sosnowski, 50c; H. Zoller, 50c; J. N. Lawson, 50c; C. Wheeler, 50c; B. H. Debolt, $1; J. A. Herrmann, 50c; B. H. Farrow, $1; G. A. Webb, 50c.

Respectfully,

GEORGE H. BATES,
1st Sergt., Co. E, 1st Infantry.

Dredges No Longer Needed.

The Panama canal administration is offering for sale the seagoing suction dredge "Caribbean." She is of the outboard, trailing suction type, equipped with twin-screw propellers, which were constructed for the Isthmian Canal Commission by the Maryland Steel Company in 1907. The hull is of steel, constructed to meet the requirements of the American Bureau of Shipping.

HEDEMANN SAYS JAVA SUGAR IN STRONG DEMAND

Home From Trip to Orient, He Discusses War's Effect on Trade

Returning in the Chiyo Maru from Japan after an absence of a little more than five weeks, C. J. Hedemann, manager of Honolulu Iron Works, reports a successful business mission, although for the present maintaining reticence with respect to the details of contracts obtained.

"I have only visited Japan," Mr. Hedemann said in reply to a question as to the extent of his Oriental travel on this occasion. "What took me there was the intention of one of the big sugar companies to increase the size of two of the central factories in Formosa from nine-roller to 12-roller mills.

"They expect more cane this year and next year than they have had the past two years. It is in Japan the same as it is here, the temporarily high sugar prices encourage them to make some very immediate improvements, so that they can meet the slack times which they anticipate will come to them also.

"As soon as the European market is relieved Java will again ship its sugars into Japan. Formosa can produce enough sugar ordinarily to supply Japan and its own needs, but the last few years typhoons and other troubles have reduced the crops to such an extent that Java sugar has had to be imported to meet the demand.

"A great deal more Java sugar goes now to Europe than formerly, owing to war conditions. This has caused the price to Japan to go up and induced the planters to decide on milling improvements this year.

"I have had a successful business trip," was all that Mr. Hedemann would say when asked about contracts brought home.

"There are no indications at all in Japan that there is any war on the other side of the world, so far as outward signs go. Life in the streets and in the houses goes on as serenely as ever. But large houses in the export trade to Europe claim that business is almost at a standstill. A great many Europeans, the younger men, of course have left to join their respective armies."

Police & Hospital Reports

License Inspector Fennell has placed Anita Gray under arrest charged with the illegal sale of intoxicating liquor at a resort in Iwilei. Fennell and his officers confiscated a quantity of beer alleged to have been found on the premises.

John Brown, Jr., employed at the Inter-Island drydock and couling plant received painful burns yesterday afternoon through contract with wires charged with a powerful current of electricity. His hands received injuries which were treated at the hospital.

S. T. Hill, charged with manslaughter after he struck and killed Cristobal Pena, a pedestrian, some weeks ago, stepped from the district court a free man today after the case had been non-suited at the suggestion of the prosecuting attorney. Hill was held on the manslaughter charge preferred by Sheriff Rose until the territorial grand jury had completed its investigation of the case. That body found no indictment against Hill. He was absolved of all blame by the coroner's jury.

IN WAR ARENA

GEN. FRENCH OPTIMISTIC.

LONDON, England, April 13.—"When the great move begins, I am certain that we shall crush the German opposition and drive the enemy back to his own borders," says Field Marshal French, commander-in-chief of the British forces in France, in the course of a letter read last night at a recruiting meeting. The confident assertion was received with deafening cheers.

The British field marshal, in his letter from the firing line, urged upon the British workmen in the munition factories and those engaged in the handling of supplies on their way to the front, to perform their duty, in this time of national stress, as well as the men in the trenches and along the lines are performing theirs.

WANTS PLENTY OF AMMUNITION.

His letter continued:

'We want to pound the enemy, regardless of the expense and regardless of the number of shells that we fire. The more ammunition we have, the more we shall use, and the greater will the protection be for the gallant men who are soon to advance against the entrenched foe."

RELIEF SHIP CAMINO REACHES DESTINATION

SAN FRANCISCO, Cal., April 13.—The American steamer Camino, with a cargo of relief supplies for the use of the Belgian non-combatants, contributed by the residents of California, reached her destination, Rotterdam, yesterday. The Camino has had an exciting voyage, having been disabled in a gale on the Newfoundland banks and having been towed into Halifax for repairs.

TURKISH ATROCITIES ARE CONFIRMED

LONDON, England, April 13.—Further Russian advices carry additional confirmation of the bloody excesses of Turkish troops in the district of Urumiah. In spite of denials from Constantinople, it is affirmed with circumstantial detail that the Turkish regulars threw off all sembiance of discipline and joined with the wild Kurdish tribes in unbridled slaughter and pillage of the Syrian Christians. Bishop Mar Elia of the Syrian church was publicly hanged in front of his mission, which was later burned.

U. S. REPLY BEING DRAFTED TO GERMAN CRITICISM

WASHINGTON, D. C., April 13.—President Wilson and Secretary Bryan are preparing the draft of the American reply to the memorandum presented by Count von Bernstorff, German ambassador, in which he criticizes the inactivity of the United States in its negotiations with Great Britain in the matter of the blockade of Germany, and in which he expresses the opinion that some way should be found to end the one-sided exportation of arms and supplies to the enemies of Germany. Neither the president nor the secretary of state will discuss the Bernstorff memorandum nor indicate what the nature of the reply will be.

MYSTERIOUS EXPLOSION KILLS MANY AT LERWICK

ABERDEEN, Scotland, April 13.—A terrific explosion last night shook the little port of Lerwick. The street skirting the harbor was wrecked and many persons are known to have been killed, but it has been impossible to obtain any details as to the nature of the explosion or what caused it.

TEUTONS DENY HARPALYCE ON RELIEF WORK WHEN SUNK

LONDON, England, April 13.—"I am officially informed," telegraphs the Rotterdam correspondent of the Exchange Telegraph Company, "that when the Belgian relief ship Harpalyce was torpedoed in the North Sea she carried papers issued by the German minister at The Hague, guaranteeing her safe conduct through the waters infested by German submarines, on her return to America for another cargo."

At Berlin today it was denied that the Harpalyce was serving the Belgian relief commission when sunk.

George H. Jessops, English novelist and dramatist, died at Hampstead, Eng.

President Wilson visited Senator Shively of Indiana, who has been ill in Washington for several weeks.

TRANSPORT DANCE AT MOANA THIS EVENING

The management of the Moana hotel announces a dance to be given this evening in honor of the officers and first cabin passengers of the transport Sherman. Tourists, officers of the army and navy and local society folk are cordially invited.—Adv.

OSTEOPATHY

From its name, it might be inferred that Osteopathy deals only with the adjustments of the bones. This idea is erroneous. Muscles, ligaments and various organs are dealt with in regard to position, relation and size. Osteopathy is not Massage, but a drugless method of removing the cause of the disease by careful readjustment, thereby establishing structural harmony.

Honolulu Star-Bulletin

RILEY H. ALLEN - - - - - - - - - - - - - - - EDITOR

TUESDAY.....APRIL 13, 1915.

In this, my country's hour of trial, nothing has supported me more than the sympathy and the superb generosity of those who have assisted in materially lessening the same; and I desire to offer my deepest thanks, and at the same time to convey a message of good will for the new year.—Albert, King of Belgians.

THE PHILIPPINE ADMINISTRATION.

An unusually frank comment upon the chief officials in the Philippines is contained in an editorial of the Manila Times which has just reached Honolulu. It may be taken as expressing the views of a large number of Americans in the Philippines and for that reason is worth republishing.

It was called forth by a severely critical comment in a letter which appeared in the Boston Transcript. After declaring that the Philippine administration is placing more confidence in the sentiments and aims of resident Americans than when Governor-general Harrison first took office, the editorial says:

"The cardinal purpose of the regime is to give the Filipino people what they want. The consultation of Filipino leaders is a natural consequence of this policy. Where in the early days the opinions of the leaders ruled to the exclusion of every other consideration, we like to think today that another element enters into appointments—the feeling that perhaps the American idea of what is best for the Philippines should have some weight.

"There is some truth in the charge that the governor-general has turned a deaf ear to American advice but he has not quite gone to the extent of 'slavishly following' Filipino suggestions. This charge might have been true in the first days of the new administration. It is not true today. We do not pretend the hope that the governor-general has come to the point where he will grant that American opinion is absolutely disinterested but we believe he is more willing to listen to the American side now than he was twelve months ago.

"As to the characterization of the other commissioners, the writer's bias is too evident. Gen. Riggs is damned by the faintest praise while Mr. Martin is called the best of the lot, a tribute which most of us will not be willing to give. Certainly in point of administrative achievement, Mr. Martin has not proved the equal of his companions on the commission. Mr. Denison is described as having alienated all Americans by 'his ridiculous utterances from time to time.' The Times holds no brief for Mr. Denison nor can we see anything very praiseworthy in that notable utterance at the City Club. It was that speech that turned the American community against the secretary of the interior but it should not blind us to the fact that Mr. Denison's administrative work has been of a high character. If it has savored too much of compromise, it has nevertheless brought results that obstinacy could never have won.

"The Transcript to the contrary notwithstanding, there are some bright spots in this administration. We grant that they are few in number but it is only fair to admit their existence. It is also only fair to point out that this administration was apparently pledged to look upon everything connected with the previous administration as vicious. This may be poor statesmanship but it is evidently good Democratic politics. Our chief quarrel is not with the men who put these politics into play locally but with the captain and the team which believe in them."

ANTI-DRUG LAW.

The operation of the Harrison anti-narcotic law throughout the United States will greatly minimize the unnecessary use of habit-forming drugs. Under this law no one is permitted to sell or give away these drugs except upon order of a physician or dentist, and most of the two million persons who have been using them will have to give up the practise for the reason that they will not be able to obtain them, and though suffering much inconvenience, will in time become free men and women. This law constitutes another step in the direction of preventing the evils which menace the very existence of the race.

The Terre Haute trials have convinced a large part of the incredulous American public that politicians can be sent to jail.

An aviator attempted the vertical dive. The usual result.

CHILD LABOR AND SPECIAL EXEMPTIONS.

An authority on child labor and its inevitable effects upon the community, in a recent brief article in the Christian Science Monitor declared that it is no solution for the problem to divert the labor of juveniles into any particular channel.

This point bears rather directly on the legislation which has been discussed in the lower house of the territorial legislature, an attempt being made to allow almost without restriction juvenile labor in the pineapple canneries. The writer above quoted goes on to point out the danger of laws that will afford the employer any possibility to exploit child labor, reasoning that under the stress of modern industrial competition some individual employer will be found who will resort to undue driving of the juvenile workers.

He also declares that "those who have at heart the welfare of children and of the state, for the two are inextricably bound together, look with the gravest concern upon the existence of the possibility of employers being able to exploit them for the sake of profit. Children cannot enter the labor market without affecting the weal both of themselves and the adults with whom their labor competes. The dangers in the direction of exploitation, and the difficulty of providing satisfactory safeguards and restrictions against the risks to which children would be exposed by entering generally into the labor market, are too obvious to need labeling."

The question is not merely an economic one. It is the very essence of modern conditions of labor that the labor should be voluntary, and the question is one which can only be dealt with satisfactorily on ethical grounds. It is preeminently one which must be brought to the test of principle.

The public conscience, he comments, apparently is not yet sufficiently educated on the point to demand the extension of the school-leaving age to 16 years and the prohibition of any exemption from school attendance for the purpose of entering the labor market. When the public is ready for such a measure and is willing to defray the cost of it, it will be possible not only to do away with "blind alley" employment, but to give the children that complete protection which is essential to the weal of society.

Gif Pinchot surely does have his troubles. After losing the Pennsylvania senatorship contest, he has sent to the war zone as a special agent or a relief commissioner or something of the sort, and turns out to be persona non grata with the German government. He may have to go into politics again.

Russia is supposed to have warned Italy not to precipitate another war but we shall hardly expect the Czar's government to be permanently offended if the Italians hop on Austria in a couple of places.

General Huerta has landed in New York, without any particular plans—he says. Still, if Mexico needs another candidate for permanent president, it's just as well for Victoriano to be handy.

The Russians are reported to be using gas in their bombs. Astonishing as it may seem, there must be a surplus left over from the official announcements.

Germany's war on commerce above-sea also is quite successful, to judge by the reports of the Prinz Eitel Friederich and the Kronprinz Wilhelm.

Standpat Republicans should have no objection to Wilson's Mexican policy—it's furnishing them a mighty good plank for 1916.

Another traffic law is proposed. We hope—with scant confidence—that it will be better enforced than the others.

Perhaps those Washington bankers are the victims of psychological persecution.

Someone reports that the federal site has been picked. Plucked, more likely.

The rain falls on the just and the unjust—and sometimes in Nuuanu valley.

Santo Domingo is reported as back to its normal state of revolution.

LETTERS

This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space for anonymous communications.)

CREDIT WHERE CREDIT IS DUE.

Honolulu, H. T.,
April 13, 1915.

Editor Honolulu Star-Bulletin.

Sir: Kindly allow me a space in your paper in regards to a few things about the Ladies' Auxiliary. There appeared an article in yesterday's paper saying that the success of the E. T. L. La Cross Auxiliary, Spanish War Veterans, masquerade ball given for the benefit of the F-4 was due to three members only. It seems that every dance we give there are one or two always giving the credit due the members to themselves. As the old saying is, "self praise is no recommendation." would like to have the people of Honolulu know that the success of the benefit masquerade ball was not due to Mrs. Ely, Mrs. Whitaker and Mrs. O'Keefe alone, as we have 14 members. The credit is due to all of the members; also the order is still known as the E. T. L. La Cross Auxiliary to Roosevelt Camp No. 1, U. S. W. V. not Ladies' Auxiliary as it takes the president-general to change the name so the three above named kindly give the credit due to all of the members, not yourselves.

A MEMBER ALSO.

Personal Mention

T. T. GREAVES, prominent in furniture manufacturing circles in the East, is an arrival in the Matson steamer Wilhelmina.

GEORGE WEBB, a Pacific coast manufacturer, was a passenger in the Wilhelmina. He will tour the islands before returning to San Francisco.

WILLIAM E. McTIGHE and Mrs. McTighe were passengers in the Matson liner Wilhelmina from the mainland. They have extensively toured the coast during the past four months.

MRS. J. KELLENBERGER and daughter, Miss Erna, arrived on the Wilhelmina for an extended visit to the former's son-in-law and daughter Mr. and Mrs. C. H. Ruhmland of 213 Saratoga road.

MRS. KATE W. WATSON of San Francisco, who resides at the Bellevue hotel, where she met a large number of Honolulans, arrived on the Wilhelmina today and is at the Young hotel. Mrs. Watson will see the volcano and will remain in the islands two or three weeks.

MR. and MRS. JOSEPH LIPPMAN of Salt Lake City, the latter formerly Miss Lahela Louisson of Hawaii, arrived in Honolulu in the Wilhelmina today and will spend several weeks in the islands. They plan to go to the Big Island and visit with Mrs. Lippman's relatives.

PETER C. BEAMER and Mrs. Beamer of Hilo returned from a year's absence in Europe and the mainland. Beamer was in Germany shortly after the outbreak of the war. He made an extended tour of the continent before reaching a neutral zone. The Hilo business man visited his old home in Indiana before taking passage in the Matson steamer Wilhelmina to Hawaii.

JOSEPH LIPPMAN, formerly U. S. district attorney for Utah, and now at the head of the Salt Lake Brewing Co., arrived today on the Wilhelmina and is at the Young hotel. He is accompanied by Mrs. Lippman, who was formerly Miss Lahela Louisson, a sister of Abe Louisson, the coffee king of Hawaii. Mr. and Mrs. Lippman are also accompanied by Mrs. J. Greenwald of Salt Lake. They will remain in the islands a few weeks.

The treasurer with the approval of the governor, has approved the amendment to the articles of incorporation of the Waialua Agricultural Company, permitting the reduction in the part value of the company's capital stock from $100 to $20 a share.

Capt. Berger Improving.

Captain Henri Berger, director of the Hawaiian band, was reported to be resting easily at the Queen's hospital today, but his condition is not serious. He was taken ill after returning from Molokai Saturday night, whither he had accompanied the legislators on their annual visit to the leper settlement.

EUROPEAN CALL FOR SUGAR IS NOT DEFINITE

Much Depends on Opening of Dardanelles By Allies' Warships

The latest developments in the war's influence on the world sugar situation is outlined by Willett & Gray's Journal for March 31, as follows:

"A consideration of the influence of the new Java sugar crop maturing May-September upon the English and French markets comes to the front this week.

"As previously reported, the French government already has bought some 50,000 tons of early deliveries. Now cables from the United Kingdom advise that Great Britain has become interested by the purchase of some 200,000 to 300,000 tons June-August shipment.

"It is also thought that France may have increased its interest in Javas. These purchases may or may not be available for consumption before the sundry purchases of refined in the United States become necessary.

"Present indications do not point to material purchases in the United States at current level of values here, although constant enquiries are being made of refiners for practicable prices to complete business.

"No doubt the cost of Javas is less than Cuba or the United States, but deliveries are not as well assured.

"A Paris correspondent writes that the purchase made by the French government, say 190,000 tons, and those contemplated by French importers from Russia are expected to come forward by way of the Dardanelles, which route they think will be open in the not distant future.

"As regards Russian exports in case the Dardanelles is opened, Mr. Georges Dureau, in the International Sugar Journal, London, writes as follows: 'It is reported that the representatives of the Russian sugar industry, in view of the abundant stocks of sugar held by them, which are more than sufficient to meet the contingent exportation, have approached their government with a view to obtain the denunciation of the Brussels convention, and to be able, as a consequence, to export freely their surplus production. The Russian government is disposed to make the necessary declarations to the neutral states.' He further states: 'The more I think it over, the more it appears to me that the Brussels agreement has lost all practical value owing to the war, and that it would be advantageous if France and Belgium would declare it null and void. If the Allies prove victorious, then in the event of the convention still existing it would be impossible for them to modify the sugar regime without the assent of Germany and Austria-Hungary. Consequently the half ruined sugar industries of France and Belgium would not be able to claim any compensation by means of sugar legislation. On the other hand, were Germany and Austria-Hungary victorious, then in that event these two states would assuredly treat the Brussels convention as a 'scrap of paper' and would impose on the vanquished whatever conditions they pleased, conditions which would almost certainly prevent the French and Belgium sugar industries from flourishing.'

"We merely call attention to these reports as matters having a bearing on the market values of sugar in Cuba and the United States at a future time."

"SUNNY JIM" M'CANDLESS ALWAYS GOOD BOOSTER

Wherever "Sunny Jim" McCandless goes, he boosts the Hawaiian Islands and the excursion which now is being planned whereby at least 35 nobles of Aloha Temple of Shriners will attend the imperial council to be held in Seattle July 13, 14 and 15.

Those local Shriners who make the pilgrimage are planning to spend a few days in San Francisco, where they will meet their friends and take in the exposition. The San Francisco Chronicle of April 9 says:

"James S. McCandless, Honolulu Temple, announced at the Palace hotel yesterday that he had made arrangements for the Hawaiian delegation to arrive on July 5.

"The Hawaiians will have their headquarters at the Hotel Stewart and will remain until July 10. On that date they will leave for Seattle in Islam Temple's special car.

"Plans are progressing between the four California temples to have a special day at the exposition immediately after July 14."

LITTLE INTERVIEWS

—GEORGE PASTONE: A better class of tourists are coming to the islands in transpacific liners. The Wilhelmina brought a number of wealthy people who had been visiting Europe or the levant each year.

—CAPT. WILLIAM FOSTER, harbormaster: These are the days of freak shipping at the port of Honolulu. We have a Norwegian whaler and ice-breaker, a unique American naval collier and mechanical loader, and an ex-German whaleback cargo carrier.

—A. E. MURPHY: Speaking of House Bill No. 148, which is better, a nation that trains all its young men alike to patriotic militancy and defense of their country's honor, or a system of government that makes rank and file army service the last resort of its down-and-outs?

—INSPECTOR L. B. REEVES: It might be interesting to note that Japanese officers in two cruisers that have recently called here from Mexican waters to the Asiatic coast appear to be well posted on the progress made in the European war. They were likewise informed of the disaster to the submarine F-4. The vessels are in constant communication with the mainland by wireless while on a cruise.

Three civilians were killed when a German aviator dropped three bombs on the city of Rheims.

COURT EXPENSES TO FALL HEAVY ON MUNICIPALITY

If Senator Castle's S. B. 138 becomes law the city and county of Honolulu will have to appropriate nearly $20,000 for the expenses of the first circuit court for the biennial period ending June 30 next. Under the present statute, as interpreted recently by Deputy City and County Attorney W. B. Lymer, the supervisors are required to appropriate only $14,500 for the first circuit court's expenses for the period.

Put the expenses have far exceeded that sum and Senator Castle does not think it should come out of the territory's revenues, but rightfully should become a part of the municipal government's burden. S. B. 138 authorizes and directs the county supervisors to make additional appropriations as shall be necessary to meet the circuit court's expenses to the amount o. $5000.

During a discussion in the French chamber of deputies, M. Roche, a well-known economist and a deputy, declared that French investments abroad total $8,000,000,000.

Leaving a note to the coroner saying that her act was a sane one, Mrs. William B. Dutton of Ellenville, N. Y., killed herself and her 5-year-old daughter with poison.

ROBERT E. SPEER, MISSION WORKER, WILL VISIT HERE

Noted Athlete, Speaker and Writer Going to Orient for Presbyterian Board

Robert E. Speer, the famous Princeton tackle of 25 years ago and the idol of literally thousands of American college men during the past quarter of a century, will be in Honolulu next Friday as a through passenger in the steamer Korea. He is on his way to the Orient for an inspection of the missions of the Presbyterian Board of Missions, with which he is connected.

Mr. Speer, famous as an athlete in his college days, is now widely known as a writer, speaker and missionary statesman. He has been invited to be the guest of the University club at a luncheon during his stay in Honolulu and to speak to the members of the club and their friends.

Few men in America have drawn such large audiences in the colleges as Mr. Speer. He is a man of unusual personality, say those in Honolulu who know him; tall, powerfully built, strong of face, keen of eye and yet with a kindliness of personality that has made him the ideal of thousands of men.

Mr. Speer is one of the leaders in student Christian movements throughout America, being associated in the minds of all student workers with Dr. John R. Mott, well known locally. Mr. Speer himself has never been employed as a secretary in Y. M. C. A. work.

The local Y. M. C. A. expects to make arrangements whereby the residents of Honolulu will have an opportunity to hear an address by Mr. Speer.

EXERCISE AND GRECIAN BEAUTY

WHAT IT MEANS

Many thousands of women are nowadays paying attention to physical culture and the proper exercise of their body muscles, where, 30 years ago or 50 years ago there was no thought expended on this science, which is quite necessary to physical beauty. The reason the Greeks, both men and women, excelled in beautiful and symmetrical forms was because of the attention they paid to the proper exercise. Then, too, they were untrammeled by corsets, shoes and the inconveniences of clothing. To the minds of some women the idea of physical exercise conveys only the idea of hard fatiguing work. Mild exercise continued day after day is best for the body and spirits and health. Without proper exercise there can be no health, and without health there can be no real beauty.

There is no stronger proof of the sound remedial value of Dr. Pierce's Favorite Prescription than that it restores the wasted form to its wonted roundness.

The mighty restorative power of Dr. Pierce's Favorite Prescription speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription prepared only from Nature's roots with glycerine, with no alcohol to falsely stimulate. It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensations, worry and sleeplessness surely and without loss of time.

Sick women are invited to consult Dr. Pierce, by letter, free. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.—adv.

PUNAHOU NOTES

[Special Star-Bulletin Correspondence]

PUNAHOU, April 10.—In chapel on Friday morning an address was given by Fletcher S. Brockman, who is at the head of the work of the Y. M. C. A. in China, and is just returning there from the coast to reap the benefits of his mission. Mr. Brockman said that he was not supposed to give addresses in any place, but "I said to Mr. Super that if Oahu college invites me, let me go anyhow. I remember when I was a boy living in the country, I saw a battle between two sets of ants, black and red. They were drawn up in battle line. One from the reds would strike across and engage one from the blacks in mortal combat. I suppose they thought the destiny of ages was hanging on the result of this battle and making history among the ants. With my bare foot I could have crushed both of those armies out of existence. Suppose the red won. Suppose the black won. What is the difference? God looks down on the people in the same way. Men are to God what ants are to me. Read a great deal of literature and you would come to the same conclusion. Man is nothing. So insignificant, worth nothing at all. The people in Ceres are so big, that if one of us were in his hair, he wouldn't feel us. He couldn't see us on his hand without a microscope."

A contract for a large number of shells, involving at least $20,000,000 was placed with the Canadian Car & Foundry Company by the Russian government.

Mother of 13 children, the latest having been quadruplets, Mrs. C. O. McKnight of Sacramento, Cal., was voted $5000 by the California legislature.

JUSTICE OF TERRITORY PAYING IMPROVEMENT SHARE DEBATED

House Bill No. 396, to amend the district improvement laws for Honolulu, was the subject of a public hearing last night by the house committee on public lands and internal improvements, Representative Huddy as chairman presiding.

This measure consolidates portions of both laws, now forming sections of chapter 112 of the revised laws of 1915, so as to enable the acquiring of land for opening or widening a street to be included in the same petition or ordinance as that which proposes creating an improvement district and paving the street or streets included therein. It also amends some provisions of the present laws and repeals others.

Two questions formed the burden of most of the discussion. One was the request of the legislative committee of the board of supervisors to subject territorial property benefited by an improvement to its share of the cost of the whole. Representative Rawlins did not believe power could be given to the city to assess the territory. D. L. T. Taylor and R. R. Reidford.

Logan, chairman of the supervisorial legislative committee, suggested that this constitutional objection might be got round, if the equity of the territorial liability were conceded, by a provision that the territory should reimburse the city for expenditure benefiting territorial property. Engineer Whitehouse urged the justice of having the territory pay its share.

Classification of certain streets as main thoroughfares, of which the city should pay not more than one-half the cost of improvement, was the other main topic of debate. Whitehouse and Logan considered this apportionment too arbitrary, as circumstances might differ in cases that would arise, and contended that this was a matter that should be left to the supervisors.

L. J. Warren, the attorney who drew the bill, took an active part in the discussion and proposed amendments to the bill in accordance with the evident sense of the meeting. Others taking part were F. E. Steere, H. S. Johnson, J. A. Gilman, A. F. Clirk J. T. Taylor and R. R. Reidford.

SICK HEADACHE, COSTIVE, BILIOUS, IF LIVER IS TORPID—DIME A BOX

You men and women who can't get feeling right—who have headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are nervous and upset, bothered with a sick, gassy stomach.

Are you keeping your bowels clean with Cascarets—or merely dosing yourself every few days with salts, pills, castor oil and other harsh irritants?

Cascarets immediately cleanse and sweeten the stomach, remove the sour undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel cheerful and bully for months. Don't forget the children—advertisement.

WATER PROBLEM INTERESTS MAYOR AND SUPERVISORS

Inspection Trip of Five Pumping Stations Made By Officials Yesterday

On a study of the water situation of the city, Mayor Lane and Supervisors Horner and Ahia made an inspection trip yesterday afternoon of the five pumping stations—Kalihi, Beretania, Kaimuki, Wilder avenue and Punahou.

Chief Engineer Walter Bromley accompanied the officials.

"We are all making a study of the water situation. There is no question in our minds but that something must be done for Nuuanu," said Mayor Lane. "Mr. Bromley told us during the trip that conditions have improved in the last few days and are still improving, that Nuuanu has been given a one-hour a day irrigation privilege, and will probably have two hours a day later.

"But we cannot let the matter rest here. Before long we hope to have enough pure water for the entire city at all times of the year. That is a task before the administration and we are preparing to meet it. Our inspection yesterday showed the stations in fairly good condition. The Kalihi pump was in splendid shape, and the same was true of the Beretania one. Of course, the Kaimuki pump is in bad need of repairs, but the department has this in hand already."

There are two main plans being worked on by the mayor and supervisors in connection with the municipal engineers. The first of these is to drill for water in the lower levels and pump it up to a high point where it can be used by Nuuanu. This would require, Bromley pointed out, a relaying of the water. Supervisor Horner is one strongly in favor of this plan, as he says it could be carried out in a comparatively short time and at not an excessive cost.

Incidentally he is an advocate of a proposition to capture the waste water of the Rapid Transit Company and the Hawaiian Electric Company—water which amounts to more than 5,000 000 gallons a day.

"Both companies offer it to the city for nothing," he stated this morning. "All they require is that we pump it into the mains, which could be done at a very little cost."

The second plan is to tunnel into the hills at an elevation of about 600 feet until a sufficient flow of water is found. The chief merits of this scheme, it is pointed out, is that much if not all the cost of pumping would be disposed of and the water would be subterranean rather than surface.

All the supervisors are taking an active interest in the water problem, and the next few meetings of the board promise to be more or less occupied with this subject.

After a warning from Lord Kitchener, Liverpool dockmen, striking for the second time within the past few weeks, returned to work.

Six firemen were seriously hurt and several persons slightly injured when an auto truck of the Washington fire department turned over after colliding with a street car.

"WANDERING JEW" AGAIN ON HIS WAY TO BRAZIL

The modern "wandering Jew," Nathan Cohen, is again on the high seas, bound for Brazil. He has been refused admission by the United States and is now en route to a country that has refused to receive him on a previous visit. He originally came from Russia, but that country will not take him back on account of a streak of insanity in his make up. He has been refused admission by several countries and the steamship line that carried him to New York must keep toting him around. His initial voyage was on a $45 ticket and he has already traveled 33,000 miles on it and still going.

A Hebrew aid society is supporting the unwilling traveler, and will make a fight to get him landed. It is certain that Brazil will turn him back.

Morning on 'CHANGE

Declines in Onomea, Pioneer, McBryde and Honokaa today tell of the depression for some weeks prevailing in sugar stocks. Oahu is the only sugar registering gain, advancing 3-8 to 21.50, while Olaa is unchanged. Pineapple is steady at 34. With the exception of Oahu, with two lots of 100 shares each, sales of sugars were light—ranging from 15 to 50 shares in single deals and few of these.

A feature of the sheet is heavy dealing in Oahu Sugar sixes, a total of $180,000 in three blocks having changed hands steady at 103 3-4. Hilo Railroad bonds continue to move, $500 of 1901 sixes going at 57 1-2 and $3000 and $2000 extension sixes unchanged at 50. Oahu Railway sixes were steady at 103 for $5000.

Lurline a Well-Filled Ship.

The Matson steamer Lurline will depart to San Francisco at 4 o'clock this afternoon from its berth at Pier 18 taking more than 6000 tons of sugar and other island products. A few scattering shipments of pines, honey, hides and coffee will be taken. About 50 cabin passengers have been booked to various points on the mainland

The Lurline will be given some mail for the coast, the bulk of first and second class matter having been forwarded to San Francisco in the Japanese liner Chiyo Maru.

SHIPPING & WATERFRONT NEWS

PROTEUS, EMPTY, WAS PROTESTED IN MANILA

Much to the surprise of local shipping men, the United States naval collier Proteus, brought to a berth at Pier 6 this morning, carried only a small portion of a vast amount of hemp and other Philippine products said to be awaiting shipment to the mainland. Before the Proteus steamed from Manila, business interests through the various commercial bodies and Governor-general Harrison negotiated with Washington for the use of government vessels to relieve the congestion of products that had accumulated because of a decided shortage in tonnage.

It was because of these representations that the war department recently issued orders for one of the transports to sail from San Francisco on April 15 with a commercial cargo, perhaps the beginning of a new era in Philippine transportation.

The Proteus is one of the newer coal carriers built by the United States navy. It can carry about 40,000 bales of hemp. The vessel arrived at Honolulu with barely 3000 bales which had been purchased by the navy department for delivery at the Boston navay yard.

Capt. Easton had little to say regarding the acute situation said to exist in the Philippines as a result of the withdrawal of many of the regular freighters. The U. S. navy collier Nereus, to soon follow the Proteus across the Pacific, it is predicted will not take commercial cargo despite the efforts brought to bear upon President Wilson by the Philippine executive who seeks aid from the U. S. government in securing ocean tonnage to transport Philippine products to a foreign market. Officers in the Proteus said today that the navy department had denied the request, stating that it would be contrary to law. This, however, has not deterred the insular chief executive from repeating the request with greater emphasis. When the Proteus sailed it was hoped that orders would be received, placing the Nereus at the disposal of shippers.

The United States army transport Dix was also sought as a carrier of hemp, copra and other freight, but the army transport officials say the troopship was scheduled to load coal at Miiki, Japan, for delivery at Honolulu and Seattle, consequently cannot be used for commercial purposes.

The Proteus steamed from Manila March 19. It had a pleasant and speedy run across the Pacific. The collier visited here about eight weeks ago, while taking a large cargo of coal from the east coast of the United States to the Philippines. The big vessel is taking water only. It will steam to Hampton Roads by the way of the Panama canal tonight.

Local Notice to Mariners.

Hawaiian Islands—Hawaii island, northwest coast, Kawaihae lightstation—reported extinguished, was relighted April 11. By order of the commissioner of lighthouses. A. E. ARLEDGE, inspector, 19th Lighthouse District.

STEAM WHALESHIP KIT INTERESTS WATERFRONT

Returning to Norway from a two years' successful cruise and walrus-hunting expedition in Bering sea and the Arctic, an extremely odd-looking vessel is now moored at Quarantine wharf to take about 200 tons of coal before proceeding to the Atlantic by the way of Panama Canal.

The Norwegian steam-whaler Kit with a bow that resembles a Vladivostok harbor ice-breaker, setting very slow in the water, kept waterfronters guessing for some time this morning until it had been visited by a party of federal officers including Dr. James and Customs Inspector Reeves.

The Kit carries its propelling machinery at the extreme aft. Forward the vessel is given over to tanks and an oil-rendering plant.

The cruise netted Captain Anders Oleson a plentiful catch of walrus. He is carrying the skins and the oil back to the owners at Sandersfjord, Norway. The Kit was in Northern Japanese waters at the cutbreak of the European water. The vessel hastened to Yokohama and remained there for six months until it was ordered home. The steamer was given a shipment of rice making a complete cargo. The vessel will be fumigated while here. The Kit carries a complete equipment of bow and whaling guns and tackle.

HARBOR NOTES

After the departure of the Lurline this afternoon there will be no mail leaving for the coast until the liner China about April 20.

The British freighter Strathendrick with 110,000 sacks of grain from Puget Sound to Australia took 300 tons of bunker coal and left for Melbourne late yesterday evening.

A score of layover passengers joined the Japanese liner Chiyo Maru at Honolulu to the coast. The vessel steamed to San Francisco at 10 o'clock this morning taking a large mail.

Officers in the United States naval collier Proteus landed a Russian stowaway at Honolulu today. He was turned over to the federal immigration authorities to be returned to Japan by the earliest transportation.

Minor repairs to its machinery were completed late last night and the Russian freighter Mogeleff left for Vladivostok at 6 o'clock this morning. The vessel took 450 tons of bunker coal during a stay of 36 hours at the port.

German Whaleback Brought Coal.

Lying at Newcastle, N. S. W., taking on a cargo of coal at the beginning of the European water, the German whaleback steamer Wotan fell an easy prey to the British authorities. The vessel now designated as C-12, steamed into port late yesterday afternoon with 3300 tons of coal to the order of the Inter-Island Steam Navigation Company. The erstwhile Wotan was built in England. It afterward changed hands and was operated by a German company. The vessel is unique in the merchant marine in the Pacific as few cargo carriers of the whaleback type are seen in these waters. The C-12 will remain about a week at Honolulu. It may be sent to the North Pacific coast to take a return cargo of lumber or grain to Australia. Captain J. Beighton is now master of the vessel. It last visited Honolulu in the early part of 1911, then under the German flag.

Hawaii Sugar Report.

Sugar awaiting shipment on the island of Hawaii includes the following lots, according to report brought to Honolulu by Purser Phillips of the steamer Mauna Kea: Olaa 17,500, Waiakea 8000, Hawaii Mill 4176, Hilo Sugar Co., 10,000, Onomea 8863, Pepeekeo 6000, Honomu 7500, Hakalau 13,500, Laupahoehoe 3580, Kaiwiki 5855, Kukaiau 4508, Hamakau Mill 5523, Paauhau 6000, Honokaa 13,000, Honuapo 950 sacks.

PASSENGERS BOOKED

Per str. Kinau for Kauai ports April 13.—E. A. Knudsen, Mr and Mrs. F. S. Scudder, Mrs. T. A. Burningham, A. Summerhayes, Frank Rich, Mrs. Law Chong, Law Chong, Set See, J. T. Osorio, J. P. Per str. Claudine for Maui ports April 16—Mrs. W. S. Palmer, Mrs. Will Cooper, Mr. and Mrs. Tom Sing.

Governor Whitman signed the bill appropriating $425,000 for expenses of the workmen's compensation board until October 1.

Damages due to the war in Poland and Galicia amount to $1,250,000,000.

WILHELMINA CONCERTS

A substantial sum was realized from the proceeds of a concert given on board the Matson Navigation liner Wilhelmina in which opera stars with the Bevani Opera Company figured. The money was given this morning to the local representative of the Seamen's Institute by the officers. Passengers to the number of more than 120 were treated to an excellent program. Directed by E. F. Seamans, manager, and Antonio Bassi and Luzi de Caccai, many members of the organization added their mite to the entertainment.

Capt. Peter Johnson reports a fine trip. Weather conditions were ideal. The Wilhelmina left San Francisco with 113 cabin and 12 steerage passengers. It was supplied with 2871 tons of freight including 15 automobiles and trucks for delivery at Honolulu. The vessel will steam to Hilo on Thursday night to discharge 234 tons of cargo.

The liner brought 398 sacks of mail, in addition to two score grand opera singers and musicians, the Wilhelmina landed a large delegation of tourists from the eastern slope of the mainland.

Few island people were included in the list of passengers.

Sherman Due Late Today.

With several passengers prominent in national affairs going to study the Philippine problem at first hand, the United States army transport Sherman from San Francisco is expected to come to a berth late this afternoon. The troopship will remain about 24 hours before steaming to the Philippines. A wireless received today states the vessel will bring 623 military and civilian passengers to this port. Among the number are 24 cabin, 14 second class, the remainder being enlisted men for the cavalry, marine and infantry organizations on Oahu. The Sherman was given 120 sacks of mail. It will leave 60 tons of cargo and take several hundred tons of coal. Among the passengers to Honolulu are Capt. Jamerson, Mrs. Jamerson and son, Lieut. W. S. Martin, Mrs. Martin and two children, Lieut. T. C. Martin, Mrs. Martin and infant, Lieut. C. Bell and Mrs. Bell, Lieut. Barker, Mrs. Barker and infant, Miss Elizabeth Banner.

Of the enlisted men, nine are for the engineers, three for the 4th Cavalry, 27 for the 1st Field Artillery, three for the Coast Artillery, 372 for the 1st Infantry, 148 for the 2nd Infantry, 61 for the 25th Infantry and five for the marine corps.

LEGAL NOTICES.

IN THE CIRCUIT COURT OF THE First Circuit, Territory of Hawaii. At Chambers—In Probate.

In the matter of the estate of John Eilers Bruns, deceased.

On reading and filing the petition of Johann Bruns of Honolulu, Territory of Hawaii, alleging that John Eilers Bruns of Honolulu, Territory of Hawaii, died intestate at Honolulu, Territory of Hawaii, on the 27th day of March, A. D. 1915, leaving property within the jurisdiction of this court necessary to be administered upon, and praying that letters of administration issue to Hawaiian Trust Company, Limited, a Hawaiian corporation.

It is ordered, that Monday, the 3d day of May, A. D. 1915, at 9 o'clock a. m., be and hereby is appointed for hearing said petition in the court room of this court in the Judiciary building in the City and County of Honolulu, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted.

By the Court.
JOHN MARCALLINO,
Clerk.

THEATRICAL OFFERINGS

BEVANI GRAND OPERA SONGBIRDS HERE; SEASON OPENS THURSDAY

Mme. Emilia Vergari, dramatic soprano with the Bevani Grand Opera Company which arrived from the mainland this morning and will open at the Bijou theater Thursday night.

Entranced with their first view of Oahu, the members of the Bevani Grand Opera Company, while admitting that they never had a more delightful voyage in their lives or were ever better treated at sea, expressed the greatest delight at once more being on "terra firma" when they left the Wilhelmina at an early hour this morning.

"How much like the southern part of our own beloved Italy," they chorused almost in unison—excepting that the English language is inadequate to express the sentiment as uttered in the sweet, liquid part-Italian, part-English of the sentimental singer and even more sentimental Italian.

To show their appreciation for the fine treatment accorded them during the voyage the members of the Bevani company entertained with a concert last night and so pleased were their fellow-passengers that they instructed E. F. Seamans, business manager of the organization, to nominate next Tuesday as "Wilhelmina" night and to reserve at least one hundred seats for the tourists in that vessel.

Besides the large cast, orchestra and stage assistants, the Bevani company brings with it the special scenery that was made for the six-weeks' engagement at the Alcazar theater in San Francisco: costumes that were designed and built by Chiapa, the premier costumier of Milan, Italy, and wigs from Morrel Sens of New York, wig-maker for all of the leading grand opera artists in America today, the man who supplies the wigs for the Metropolitan Grand Opera Company.

The cast of the Bevani organization includes: Madame Emilia Vergari, dramatic soprano; Madame Hazel Sanborn, colotura soprano; Miss Bernice Holmes, mezzo soprano; Miss Louisa Sylvia, contralto; Miss Alida Wainwright, lyric soprano; Umberta Sacchetti, primo tenore; Giuseppi Cavadore, lyric tenor; Angelo Masini, tenor; Michaele Giovachini, primo baritone; Emanuel Puccini; lyrico baritone; Marcel Perron, basso cantante; Pietro Bonziglia, basso; Wm. Hughes, primario tenor; Chav. Luigi Roccia, conductor. The chorus includes Miss Julia Lambert, Mrs. C. Drady, Miss Lillie Cadman and Miss Alice Wolfsburger, soprani; Miss Cleo Perri, Miss Julia Agustini and Miss Jovanno Ruffi, contralti; Messrs. Guglielmo Ugo, Joseph Lambert, Louis Michela, tenors; Piere Boletta, C. W. McFadden, A. Ruben, Joseph Aronson, E. G. Johnson and Nicolia Christoff, bass. Antonio Bassi, impressario, E. W. Seamans, business manager. Misses Holmes and Wolfsberger are accompanied by their mothers, and Messrs. Giovachini, Seamans and Bassi by their wives.

The Bevani company will open at the Bijou theater Thursday evening with "Lucia di Lammermore," which offering will be repeated at Saturday's matinee. The offering for Friday night will be "Cavalleria Rusticana" and "Il Pagliacci," and Saturday night "Il Trovatore."

MANIKIN BILL SHOULD BE POPULAR

For more than a third of a century Mr. and Mrs. Deaves have been engaged in presenting and improving Deaves' Manikins, the act they will put on for the first time in Honolulu at the Popular theater tonight. For a week they will be here and their number promises to be one of the big attractions at this cosy playhouse. Deaves' Manikins have been shown in almost every country where civilization has penetrated and Mr. and Mrs. Deaves have literally "pulled the wires" that have played these little mimic actors and actresses into fame and popularity.

The other Popular feature that will mark the new bill which starts at the Popular tonight will be "Between Savage and Tiger," a thrilling six-reel story of the jungles of India, depicting hair-breadth escapes and exciting encounters with the wild beasts of that wild region. This picture was produced by the famous Cines Company of Italy under the direction of George Kelinee and bids fair to prove even a bigger success than "Quo Vadis," "The Last Days of Pompeii," or "Anthony and Cleopatra," all produced by this same company and under Kleine's direction and all of which have proved box office record breakers.

Tickets for this double feature bill can be reserved by telephoning to the Popular theater.

'MAN OF THE HOUR' STRONG DRAMA

Love, politics and high-finance are elaborately intermingled in Wm. A. Brady's filmed production of "The Man of the Hour," featuring Robert Warwick and being presented at Ye Liberty theater for the first half of the present week. "The Traitor," a Mary Pickford subject, is another most interesting film-drama of the days of the Civil War. Each of these photo-plays last night was greeted with round after round of applause by the audience that comfortably filled the big Nuuanu street house, a procedure rarely noticed in photo-play houses.

A late Pathe Weekly, consisting of news from at home and abroad and including several good stories of the European war and a comedy film, round out the current Ye Liberty offering.

"The Man of the Hour" enjoys the distinction of being probably the greatest of the many Broadhurst successes. It is a strong drama and in the visualization covers a large range of country, having its premier and finale in the great city of New York, with the intermediate scenes in and around some of the most beautiful mining country of Colorado.

This bill will be repeated tonight and tomorrow night, with a matinee tomorrow afternoon.

NELLA WEBB CLOSES ACT TONIGHT

"The Man From Mexico" and "Pigs Is Pigs," two of the best and cleanest comedies ever shown on the moving picture screen, also the inimitable Nella Webb will close a week's engagement at the Bijou theater tonight.

Bevani Grand Opera Co.
ARRIVED THIS MORNING AND WILL OPEN
Thursday Night, April 15th at the Bijou Theater
IN
LUCIA DI LAMMERMOOR
BOX OFFICE NOW OPEN FOR RESERVED SEAT SALE
PRICES—Orchestra, $1.50; Dress Circle, $1.00; Gallery, 50c.
No Smoking During Grand Opera Engagement.

In neither of the photo-plays, the first of which boasts John Barrymore as the star and the latter John Bunny, is there a dull minute from the initial foot to the final scene of film. These two motion pictures are guaranteed mirth provokers and each lives up to its guarantee. The stars are comedians that cannot be excelled in their particular line of work and the productions are both of a very high standard.

Nella Webb has one of the most unique acts ever shown on the vaudeville stage in Honolulu, an act that is a headliner in the fastest of company, and one that Honolulu is fortunate to be able to secure. As a "song actress" Miss Webb introduces to her audiences her latest successes from the London music halls, probably the most exacting vaudeville circuit in the entire world. She will tarry in Honolulu a short time after closing her engagement before leaving for an extended engagement in the southern continent.

SECOND LYNE CONCERT BILL IS ANNOUNCED

Judging from the rapid way that tickets have been selling the people of Honolulu are looking forward to Miss Lyne's farewell concert on Monday night with intense eagerness. Like the program in which she triumphed last Saturday night, Miss Lyne's program will include four of the same great arias with which she won such tremendous applause from large and fashionable audiences in London, Paris and Boston, and she will also sing many of those charming songs with which she completely captivated her audience last Saturday. Although the program is an entirely new one, it is hoped that Miss Lyne will sing "The Fairy Piper," "Vous Dansez Marquise," and "The Little Damozel" for three of her encores.

The program will be:

1. Una voce poco fa, (Il Bariere di Siviglia) ..... Rossini
2. Chere Nuit ..... Bachelet
3. (a) Snow ..... Sigurd Lie
   (b) Le cocur de ma mie..... Jacques Dalaoze
   (c) Spring's Awakening ..... Banderson
4. Polonaise (Mignon) ..... Thomas
5. (a) Deh vieni non tardar (LaNoze di Figaro)..... Mozart
   (b) Villanelle ..... Dell'acqua
6. (a) Wings of Morning..... Wood
   (b) The Wren..... Liza Lehman
   (c) But Lately in Dance I Embraced Her ..... Arensky
7. Bird Song, from Pagliacci..... Leoncavallo

Because of financial conditions due to the war the government of Jamaica declared that for the present it cannot agree with the American suggestion for a 2-cent postal rate.

HARVARD-YALE GAME 'MOVIES' WILL BE SHOWN

The Harvard Club of Hawaii will show the moving picture film and slides of last fall's Harvard-Yale game Friday evening at 8 o'clock in Charles R. Bishop hall.

The general public and the students in the schools are especially invited to be present. Since these pictures were displayed at the University Club to the University Club members, there has been a very general request that they be shown so that people in general who are interested can have a chance to see the pictures.

Both the film and the slides are unusually interesting. The film gives a good general idea of the bowl and the crowds and the game; the slides depict the plays in series, showing successive stages of each play. This makes the pictures interesting, not only for the person who likes to see how the play is run off, but also for the football expert, who by means of the slide can study the strategy of the game.

The pictures are accompanied by an account of the game written by football experts in the East.

BOOSTER TALKS ABOUT OAHU TO BE HEARD AT AD CLUB LUNCHEON

Descriptive and booster talks, having to do with the points of interest on Oahu most adaptable to the tourist, will be the feature of the Ad Club luncheon at the Young hotel tomorrow. As the program says, all Oahu is invited.

The speaker will be Clifford Kimball, manager of the Haleiwa Hotel; William M. McQuaid, "King of Koolau," and A. L. Mackaye, manager of the Coral Gardens, Kaneohe. The Oahu Railway & Land Company and the Trail and Mountain Club will be represented.

Among other speakers will be N. H. Slaughter, resident engineer for the Marconi company, who will tell briefly about the biggest wireless station in the world. The first public report of the 1915 Carnival will be presented by E. H. Paris, president of the board of directors. There will be a program of music.

HONOLULU JAPANESE PLANNING TO VISIT AT THE EXPOSITION

Y. Sayegusa of Tokio, Japan, owner of the Sayegusa store in Honolulu, arrived in the Chiyo Maru yesterday on his way to San Francisco to visit the exposition. D. Yonekura, manager of the local store, and Y. Soga, editor of the Nippu Jiji, are among other Honolulu Japanese who plan to visit the exposition in the near future.

HONOLULU EAGLES WILL OBSERVE ANNIVERSARY

In celebration of the 14th anniversary of the founding of Honolulu Aerie No. 140, F. O. E., the members of that order have arranged an interesting entertainment to be held in the Pythian hall Wednesday night. At the conclusion of the program a smoker will be held. The program is as follows:

Songs, Neil Slattery. Monologue, W. Hutton. Honolulu Big Four, selections. Baritone solo, W. J. Royal. Banjo solo, Professor De Graca. Song (bass), F. Hillman. Pianologue, Prof. C. Caceres. Song (tenor), F. A. Cannon. Recitation, Jack Cleary. Mandolin solo, E. Bush. Song, Monte Dillon. Boxing exhibition, Dick Sullivan and Jack Barros.

Acrobatic work, wrestling and weight lifting by Pierre Baron, Searle brothers and Messrs. Gadgen and Whittle. Pianist, A. R. Cunha.

SOCIAL DANCE AT THE WAIKIKI INN TONIGHT

There will be a social dance at the Waikiki Inn tonight. Good music will be furnished and an enjoyable evening is assured. Tourists, guests and their friends are cordially invited.—Adv.

Washington, D. C.

JAPANESE WOMAN WORKER ON WAY TO THE STATES

Miss Michi Kawai, National Y. W. C. A. Secretary For Japan, Tells of Work

Miss Michi Kawai, representing the Y. W. C. A. of Japan, passed through Honolulu on the Chiyo Maru today on her way to the biennial convention to be held in Los Angeles this month.

Miss Kawai is the national secretary of the association and in conversation yesterday stated that the work is growing in her country, there being over 7000 members. The Tokio branch of the association now has a fine large building in the central part of the city nearing completion where accommodations for a larger number of women are being made, the small dormitories not filling the present need. When asked if many strangers stayed at the Y. W. C. A. she said: "Oh, yes, but we have provided separately for foreigners. We have a Foreigners Club, and that is a separate branch of the association and many times we are overcrowded there."

Miss Kawai is a school teacher in Japan and a graduate of Vassar College, class of 1904. Since that time she has made one trip to Europe and two to the United States. This is her third to the mainland. She will remain on the Pacific coast until fall investigating the immigration question and other things which concern Japan.

SMART CONTEST IS APPARENTLY ALL SETTLED UP

(Continued from page one)

pending and not completely settled. In contradiction is a rumor that all the papers have been signed in the agreement disposing of the entire affair and that all that remains is to get the approval of Judge Antonio Perry, temporary guardian of the child, before the terms of the agreement are submitted to the court for final acceptance.

The manner in which the opposing sides of the controversy over the big Parker estate finally disposed of the one point that had proved the serious bone of contention—the guardianship of Richard Smart—is not known. On the question of the estate's division, the income to be received by Mrs. Knight and the share as between the minor and his father, H. G. Smart, on this phase of the affair it has long been said the parties at issue had agreed substantially; the terms being practically the same as originally agreed upon at the time when the row over the guardianship or custody of the child caused a break in the negotiations.

It is believed that by next Tuesday the terms of the entire settlement may be ready for submission to the court.

It was reported today that Smart has given up the house which he rented in Nuuanu valley and, in company with his mother and brother, will leave within a few days for his home in Virginia. Friends of Mrs. Knight say that she had her baby grandson in town yesterday and was purchasing an extensive wardrobe for him.

Intimate friends of Smart and Mrs. Knight declared today that the case is either settled or about to be. The baby, who was brought here from Hawaii, now is in charge of Mrs. Lemon at Waikiki. Mrs. Lemon had charge of the child on the Big Island.

THE AMAZONS.

On Wednesday evening, April 28, at the Hawaiian Opera House, the Honolulu Dramatic Club will present its initial play, "The Amazons," an amusing farce in three acts by Sir Arthur Pinero.

The cast is as follows:

Rev. Minchin—Mr. George Potter.
Yonett—Mr. Gerrit Wilder.
Fitton—Capt. Cutts.
Orts—Mr. Lambert.
Litterly—Mr. Haines.
Andre de Greval—Mr. Correa Lewers.
Lord Tweenways—Mr. Willers.
Lady Noeline—Mrs. Walter Dillingham.
Lady Wilhelmina—Miss Margaret Center.
Lady Thomasine—Miss Evelyn Cunningham.
Lady Castlejordan—Miss Helen Alexander.
Sergeant Shuter—Mrs. C. B. Cooper.

PASSENGER MAKES FLYING LEAP TO CATCH STEAMER

Some excitement was created at the sailing of the Chiyo Maru this morning. A belated Japanese passenger, arriving at the wharf as the ship was moving away, sprang and caught a fender rope that was hanging down the side of the vessel. He made a desperate attempt to climb the rope, but his strength failed as he neared the rail, and had it not been for deck hands coming to the rescue the man would have fallen into the sea. He was safely landed on the deck of the vessel.

WILY SPANIARD OF GUAM CAUGHT BY P. O. SLEUTH

Earl P. Smith, United States postoffice inspector, who was a through passenger on the Chiyo Maru today, has the distinction of finally nailing what has been the wiliest defrauding of the United States government in the Pacific when he arrested Captain Pedro Duarte, postmaster at Guam, on a charge of embezzling $40,000. The feature of the arrest was the fact that the postoffice authorities have known of the leak in the Guam office ever since Duarte's appointment in 1903, but each inspector sent to investigate returned with the story that the office was satisfactory.

Where former inspectors failed Smith forced Duarte to confess, and although his mission to the island was strictly in the interest of the postoffice affairs, he learned things which will probably lead to investigations of other irregularities and eventually cause a shakeup in Guam's officeholders.

Duarte was sentenced to 10 years in the Bilibid at Manila by Chief Justice Vincente Comacho in the Guam court of appeals, and was fined the extent of his defalcation, $40,000. His property is being confiscated to pay the fine, but contrary to the first report, he will not be held for additional sentence if the property value does not cover the fine. Influential Spaniards who have always cleared him in the past by lending him gold to balance his books pending an inspection, have been laying wires for his pardon. They have failed to reach the ear of President Wilson, who alone has the right to pardon federal prisoners.

It will be remembered that when the island of Guam came into the possession of United States in 1898 Spanish officeholders were retained. The old Spanish regime with ten or twelve leading Castilian families controlling the island was allowed to go on, and many customs of the old days were continued under American control. One of those customs preserved in secrecy was to borrow money from the government whenever there was a need. If not from the treasurer, from the postmaster.

When Captain Pedro Duarte of the Spanish navy was appointed postmaster in 1903 he did but fall into the ways of his predecessors of using postal money with the hope of paying it back. So clever was the old Spaniard that when inspectors were sent to account for the leak he always was cleared. The shortage was covered by the ready gold of his friends.

Duarte's method was to filch from the money order funds, carrying a large amount "in transit" on his books and it was nearly impossible for the auditor to check him up in Washington, as it takes a transport four months to make the round trip from Guam to San Francisco and back, and when Duarte was called to account for large amounts missing, he always declared that these funds were "in transit" and the government was forced to let the matter drop allowing Duarte to make up the shortages by using borrowed money.

Last April the auditor in Washington noticed a heavy increase in the funds which Duarte was "carrying in transit," and it was resolved to "get" the old Spaniard this time. Some time as taken up with preliminary arrangements, and on February 15 last Inspector Smith arrived in Guam and took up the case.

Exposure was inevitable as the shortage had become too big to be covered. All kinds of speculative schemes were tried by the wily Spaniard to make up his loss only to result in deeper deficit. The last scene of his 12-year financial tragedy was laid in a cabin of the United States transport Thomas bound for Manila with a U. S. soldier guarding his door.

Inspector Smith intimated that the housecleaning thus started in "the dark little island" may reveal some more startling irregularities.

The Du Pont Nitrate Company purchased the nitrate stock of the South American Nitrate Company of Taltal, Chile, for $1,500,000.
