### HAWAII SENDS SPEEDY AID TO HUNGRY SAMOA

Wireless Message to Admiral Moore Brings News of Dire Need Following Destructive Typhoon—Federal Experiment Station Sends Supplies

In order to avoid a crop shortage and possible famine on Tutuila, Samoa, threatened because of the destruction done by the typhoon several months ago, a shipment of seed corn and of sweet potatoes for seed has been rushed down from Honolulu.

Last week Admiral C. B. T. Moore received a wireless message from Cmdr. John M. Poyer, governor of American Samoa and commander of the Tutuila naval station, asking that some relief be sent.

A conference with J. M. Westgate, superintendent of the federal agricultural experiment station of Honolulu followed with the result that when the Ventura left here Monday she carried 1000 pounds of specially selected early maturing corn seed and 500 pounds of early maturing sweet potatoes for planting.

It is presumed that the supplies will be paid for out of the relief fund appropriation made by Congress soon after the typhoon. The crops were utterly destroyed, and if new plantings are not made soon food will have to be shipped to Samoa in large quantities to avert a famine.

### FRON ON PLAN OF MORE CHINESE FOR LABOR HERE

Congressional Committee Does Not Like Plan—Change Birth Certificate System

"A stepping stone for entrance to the mainland of the United States."

Such is the implied verdict of the members of the committee on immigration present in the congressional party upon the immigration proposal of the local Chinese. They ask that Chinese with their wives come into Hawaii within the next few years for work in the territory. The full memorial as prepared by the Chinese and presented to the congressmen upon their arrival was printed in full in the Star-Bulletin two weeks ago.

Following a hearing of the Chinese side of the petition at which leading Chinese of Honolulu were present in the Moana hotel Tuesday night, the committee members inspected the quarters and homes of the Chinese. Congressman J. L. Burnett of Alabama, chairman of the committee and

### NOTED JOURNALISTS OF AUSTRALIA WILL VISIT HERE ON WAY TO BIG FAIR

A notable party of Australian journalists will arrive in Honolulu on May 28, travelling on the Canadian-Australian liner Niagara, on their way to the international convention of newspapermen at the San Francisco Exposition in July. The party includes M. R. Cohen, editor of the Dunedin Evening Star; Cecil Legs, associate editor of the Auckland Star; Robert Bell, editor of the Ashburton Guardian, and Mrs. Bell, George Jones, another noted Australasian journalist, will probably also accompany the party.

### LAST OF HAWAII'S GUESTS LEAVE ON SONOMA TODAY

Sail on Sonoma at 5:30, Leaving Countless Messages of Appreciation and Praise

Hawaii's congressional guests of the past fortnight, the last of whom leave today, unite in one grand hymn of appreciation for the courtesy extended to them while here.

If one phrase were to be clipped from the general note of praise which would be most representative it would be: "The trip has been the greatest ever. Hawaii will be considered as never before in the light of our understanding of her needs, of her people and of the peculiar problems which she faces as the outpost of the American flag."

On the Sonoma's dock this afternoon at 5:30 o'clock can be seen the departing guests covered with leis and surrounded by Hawaii's hosts in a last aloha. In taking farewell all the visitors tell of some particular impression they received while in the islands.

"I had a certain opinion about conditions here," said Senator Cummins. "Some are unchanged, some are modified and some are completely overturned."

One of the senators' modified conclusions was regarding the ownership of land, both public and private, on which subject he wishes Hawaii to know that he will be heard again.

Senator Overman was interested in the people here, and said while packing up to leave:

"I go away a broader and a wiser man for the first-hand information given me. I am inclined to be friendly toward all that Hawaii wants."

"What impressed me," said Congressman Moore, "was that these islands are more thoroughly Americanized than we expected. You are up-to-date in everything. We have been in ignorance of what you have been doing, but the surprise you have given us will bring you in for a thorough consideration where hitherto you have received but a passing notice. We are behind you to the end."

"I sincerely believe the duty on sugar will be maintained," said Congressman W. A. Rodenberg as a parting word of cheer to Hawaii. "It may be justified as a revenue measure, but it will be duty nevertheless, and that"

### SENATORS HOPE WAR DANGER FOR U. S. IS AVERTED

Smoot, Cummins and Overman Comment on Lusitania Sinking and Late Developments

"If Germany acts in accordance with the reports of her press and allows time for passengers to leave a vessel threatened with destruction by a submarine we will have smooth sailing again in our diplomatic sea."

Three of America's foremost senators sat on the Moana hotel lanai this morning discussing the possible outcome of America's diplomatic note to Germany.

Senator Cummins was of the opinion that Germany had a perfect right to sink the Lusitania as she carried ammunition, but the crime against civilization and humanity lay in not allowing the innocent passengers to seek safety in the lifeboats.

"The matter looks very favorably now," said Senator Cummins. "Germany cannot afford to go to war with the United States. She must keep the friendship of this country and will accede to President Wilson's demand that American life be respected."

"My opinion," said Senator Smoot, "is that the Lusitania was blown up by the ammunition stored in the hold. Of course the torpedo set it off, but had there been no magazine aboard the explosion would not have been so terrific. If Germany allows passengers to leave a threatened ship America can ask for no more."

Senator Overman seconded the expressions of the other two senators and said:

"The main contention in the American note is that American life be as safe in the war zone as on the high seas. We do not recognize the war zone in a sense of danger to American citizens. If Germany complies with this as the reports have it then all will be settled without further exchange of negotiations."

Tsunajiro Kanno today was granted a divorce from Yuki Kanno by Circuit Judge Whitney. In the suit the libellee was charged with having committed a statutory offense.

### GERMAN OFFICIAL REPORTS SHOW MOVE ON PRZEMYSL

From German official cablegrams received it seems evident that the Teuton Allies are striking hard to recover Przemyśl, the Austrian fortress taken by the Russians after months of siege. A German official report late last evening said:

WASHINGTON, D. C., May 19.—German headquarters report, May 19: "Western war theater: North of Ypres there is fighting on the western bank of the canal, with successes for the Germans. South of Neuve Chapelle the English after a heavy cannonade in several places were repulsed everywhere. On Loretto Height the Germans took some enemy trenches with two machine guns. A strong French attack against the southern part of Neuville broke down under German fire with very heavy losses for the enemy."

"In the southeastern war theater the French tried an advance at midnight but were kept down by the fire of the German artillery. "Eastern war theater: On the line from Sngori to Frauenberg strong forces of the enemy advanced yesterday and north and south of Njemen the fighting continues."

"In the southeastern war theater the Russians tried yesterday to stop by a counter attack the advance of the Teuton Allied troops which had crossed the river San north of Przemyśl. All these charges failed with heavy losses for the enemy."

"One division of Hanoverians and Oldenburgers took prisoner in the last two days 7000 Russians and also took four guns, 23 machine guns, during the crossing of the San. Fighting continues between Piltica and the Upper Vistula and southeast of Przemyśl."

The following cablegram from official German sources was received today:

WASHINGTON, D. C., May 20.—German headquarters report, May 20: "In Flanders and northwest France, dark weather has hampered operations. Between the Meuse and the Moselle there is a violent artillery duel in progress, but no engagements."

"On the east front with the Russian forces advancing on the line from Sngori to Frauenberg, the Germans attacked north of Podubis and conquered Height 105, taking prisoner 600 more Russians. The Russian forces advancing south of the Njemen were completely routed near Pryczakubud, Sydowfy and Szaki. The enemy's losses were enormous. Therefore the number of prisoners has been increased only 2300. The Russians fled eastward into the forests. The desperate attacks of the Russians against our troops that had crossed the river San, north of Przemyśl, were repulsed and this morning in a counter attack our troops stormed the fleeing enemy's positions."

### SUGAR FREIGHT RATES MAY SOON BE GIVEN RAISE

A contemplated change in freight tariffs on sugar from Honolulu to the Delaware breakwater may result in a general upset of the shipping arrangements of the Sugar Factors' Company, Limited, according to waterfront gossip.

The Sugar Factors have a contract with the American-Hawaiian line for transportation of sugar to the Atlantic coast. This contract expires in the early fall, and rumor has it that a lift of about \$2 a ton in the freight tariff

EUROPEAN SITUATION BEGINNING TO SHOW MATERIAL CHANGES—SALANDRA INTRODUCES BILL IN ITALIAN CHAMBER CONFERRING WAR POWERS ON GOVERNMENT—GREENBOOK SHOWS NEGOTIATIONS WITH AUSTRIA BEGAN LAST DECEMBER—SUSPECTED SPY SUICIDES

[Associated Press Service by Federal Wireless] ROME, Italy, May 20.—Austria's final proposals to Italy, based on the Italian demands and the exchange of notes concerning Trentino, Trieste and other territorial issues, has been rejected.

The Italian "Green Book," latest of the publications by the European governments dealing with the issues of the war, shows that negotiations between the two countries began as long ago as last December.

AMSTERDAM, Netherlands, May 20.—"No one in Italy doubts that war with Austria begins today," declares a telegram from Chiasso, Italy, published in the Berliner Tageblatt.

### Salandra Takes Step to Give Italian Government War Powers

ROME, Italy, May 20.—Premier Salandra gave further evidence of the determination of the government to be ready for war when he introduced today in the chamber of deputies a bill conferring extraordinary powers on the government in the event that war should be declared. Under this bill the government could take over supplies when needful and secure troops and recruits from among the people.

### Russian Line Along River San Broken; Austrians Near Przemyśl

LONDON, England, May 20.—The Russian fortified line along the river San, for which a furious fight has been raging, has been broken, thus giving the Austro-Germans an important strategic and tactical advantage. The Russian officials at Petrograd now admit that the Austro-German forces have crossed the San River.

The Austrians are attacking Przemyśl. It is reported that the Germans have been expelled from Shavli.

### German Held as Spy Admits Charge in Note Left as He Kills Himself

LONDON, England, May 20.—Anton Kuehferle, formerly a resident of Brooklyn, N. Y., and claiming American citizenship, has committed suicide in a London prison. He had been held in London under trial on the charge of being a spy.

Kuehferle left a note saying that he was born in Baden Baden and admitting that he was a German soldier. "I could not bear to mount the scaffold as a spy," he said in his note.

PETERHEAD, Aberdeen, Scotland, May 20.—The British trawler Chrysolite has been sunk by a submarine in the North Sea. The crew were saved.

### HANKOW CHINESE RAID SHOPS AND BEAT JAPANESE

[Special to the Nippo Jiji] TOKIO, Japan, May 20.—Chinese rioters in the city of Hankow, the river port on the Yangtze Kiang, attacked the branch office of the Japanese Mitsui Mining Corporation and set fire to a Japanese cotton warehouse.

The store and shops owned by Japanese in the vicinity were raided and the shopkeepers severely beaten. The Japanese garrison was called out to quell the mob, which had grown to enormous size. Many Japanese were injured before the rioters were finally subdued. The cry of the populace was for war upon Japan.

Joseph F. Smith of Salt Lake City, president of the Church of Latter Day Saints of Salt Lake City, will arrive at Honolulu tomorrow afternoon at 2 o'clock on the steamer Maunaloa, from San Francisco, according to a wireless message received from the ship by Abraham Fernandez of this city.

Mr. Smith, who is accompanied by his wife and by Bishop Nibley of Salt Lake City, will remain in Honolulu a week, and will probably sail for Japan in the Tenyo Maru on May 28, and later go to the Philippine Islands, accompanied by Senator Reed Smoot.

The patriarch of the church, now 77 years of age, has just been to Honolulu for about 10 years. He says he has never been here, 1854 to 1858, as a missionary.

Bishop Nibley is the chief pastor of the Mormon church in Honolulu, and is well known to the Hawaiian people. He is a member of the Hawaiian National Association and has been a member of the Hawaiian National Association since its organization in 1893.

# JOHNSON TAKES AWAY INTEREST IN LOCAL NEEDS

### Washington Congressman Impressed With Necessity of Wise Legislation

A "live wire" of the congressional party who has been everywhere and learned many things about Hawaii without missing any of the entertainment and the formal functions is Congressman Albert Johnson of Washington. He leaves Hawaii with the heartiest words of praise for the territory and with much information to be used later in legislation to aid the islands.

"Up in my country—the great Northwest—we have the institution known as the 'potlatch'—a great feast and good time," he said this morning, "but I want to remark that here in Hawaii we have been given about 600 times as much entertainment as I ever saw before in an equal space of days and nights. I shall leave Hawaii with the very warmest regard for the islands and with a personal interest in the territory's welfare which I hope to have the opportunity of showing in Washington."

"I was particularly interested here in the lumber importing industry. What interested me was the arrival of lumber schooners from my home—Grays Harbor. Lumber laid on the vessels there at \$8.00 arrives here at a shipping cost of \$8.50 additional. You can see that we can't do much business at that."

Congressman Jones was also interested here in looking into immigration problems, being a member of the house committee on immigration. He said today that he has collected much valuable data but is not ready to discuss any changes in the immigration law as yet.

# FROWN ON PLAN OF MORE CHINESE FOR LABOR HERE

(Continued from page one)

father of the Burnett bill; J. H. Moore of Pennsylvania and Albert Johnson of Washington evinced the most interest in the plan of the Chinese. The restrictionists present expressed the fear that if 50,000 Chinese came into Hawaii the labor problem might be solved but a great one would be present.

The opinion of the committee members is varied, however, and the question will be threshed out in Washington. One member of the immigration committee said:

"I am friendly indeed to the suggestion that additional Chinese should come to Hawaii, but am very doubtful if a committee, or if congress, as constituted at present, would consent to further immigration of either Chinese or Japanese to continental United States."

Congressman J. Hampton Moore, Republican member of the committee, investigated the immigration situation in Honolulu thoroughly. He spent considerable time with Inspector Halsey and inquired particularly into the issuance of birth certificates to Asiatics in Hawaii.

"The loose system by which birth certificates are issued in Hawaii has caused no end of trouble to the immigration officials on the mainland," said Congressman Moore. "After going over the records here I am convinced that the territorial system must be changed."

The congressman explained that Inspector-general of Immigration Cammetti has refused many birth certificates from Hawaii because of the known case with which Asiatics obtained certificates of nativity on the islands before the agents of Hawaii's government could make depositions.

"In the past Hawaii's birth certificates were accepted. Care is taken now before accepting a certificate from Hawaii as entitling an Asiatic to American citizenship. It is a matter which we will take up with Hawaii from Washington."

Extremely important is the question of birth certificates," concluded Congressman Moore. "The alarmists along the Pacific coast take their cue from the fact that so many Asiatics come to America giving every evidence of belonging to the Orient and yet possessing birth certificates from Hawaii which declare them to be American citizens."

is what you want and are entitled to. Sugar is your life, and we want you to live." Congressman Rodenberg had made three trips to Hawaii, leaving each time with increasing regret.

"Tell your friends in Honolulu that I am a non-resident member of your Ad Club, which I consider the liveliest bunch of boosters I have met," declared Congressman C. B. Slemp before going to the wharf. "Everything legislative for the good of Hawaii has been promised within the range of congressional possibility. If there is anything untouched call on me and I will look it up."

"Your schools impressed me most," said Congressman W. G. Brown. "The dynamic force of the white population, and the splendid advancement of the native and Oriental races interest me greatly. I go away with the kindest recollection for dear old Honolulu, and can say that next to my own constituency will come Hawaii."

**COURT ORDERS BUSINESS MATRON SUPPORT HUSBY**  
[By Latest Mail]  
LOS ANGELES, California.—The duty of a woman as a citizen and as a wife was extended by Judge Monroe today to paying alimony to her husband. It was in the divorce suit of Mrs. Mary F. Krause, 60 years old, against H. H. Krause, 21 years her junior. They have been wedded since 1902.

Krause testified that his wife has a rooming house and that he makes the beds, sweeps out the rooms, washes dishes and performs other work usually done by a maid.

"If you stay at home," said the judge, "she must see you properly. Else you are to notify me."

Then he ordered Mrs. Krause either to support her husband during the pendency of the trial, or to pay him alimony of \$40 a month if he preferred to leave the house.

# SHORT DELAY IN SALVAGE WORK ON SUNKEN F-4

### Another Sweep Made Today By Tug Navajo—Congressmen Watch Divers Work

A halt, but only a very short one, was called in salvage operations on the F-4 when a link of the chain fast to the fourth wire cable dragged under the stern of the sunken submarine, parted at the first strain yesterday. About noon yesterday the tug Navajo made a drag in record time, and snagged a fourth wire and chain cable under the boat, in what was thought to be a secure position. The breaking of the massive 2 1/2-inch chain was a great surprise to all connected with the work, but it was the general opinion that if the break had to come, it was far better to have it happen right off, before the submarine had been suspended at any distance above the bottom, in which case the accident to the gear might have been more serious.

This morning a new 15-fathom shot of chain was sent from the Maryland to the Navajo and taken out to the scene of operations. It is expected that another drag will be made early this afternoon, as it will not be much of a task to shackle on the new chain, the eye-splices being intact.

As soon as the fourth line, around the stern, is fast, another lift and tow will be given to the F-4. No great difficulty in getting the boat into shallow water is now anticipated, as the hoisting gear on the pontoons have proved its ability to lift the vessel, which, it is believed, the Navajo will be able to tow shoreward. It is not anticipated that the cruiser Maryland will be called into service to provide the shoreward pull.

**Congressmen Watch Divers.**  
This morning two of the Maryland's divers were at work alongside the ship in shallow water and their work was watched with considerable interest by Senator and Mrs. Martine of New Jersey and Representative and Mrs. Brown of West Virginia. A few picked men from the Maryland are being schooled in the use of the compressed air diving gear used by Chief Gunner Stillson's party, and this morning the congressional visitors were much interested in the work that was going on. Divers Crilly and Nielsen were brought up and introduced, at the request of the congressmen.

**Maryland to Entertain.**  
The captain and officers of the Maryland are to entertain Saturday night at a reception and dance on the shipboard. Local army, navy and national guard officers and their families and a number of civilians have received invitations and all are looking forward to the affair.

The three-masted schooner Flora A. Kimball, of Bangor, Me., ashore on Barnegat bar, on the New Jersey coast, was refloated with the aid of a wrecking steamer.

# CREW OF KUKUI COMES TO PORT IN COLUMBINE

### Former U. S. Lighthouse Tender Now in Alaskan Waters—Columbine is Smaller Boat

Capt. Frank T. Warriner, formerly master of the U. S. lighthouse tender Kukui, was welcomed back to Honolulu when he stepped from the bridge of the Columbine, an arrival from San Francisco today.

Most of the officers and crew identified with the Kukui, when it was ordered to the north Pacific coast, accompanied the Columbine to Hawaiian waters. The Columbine will remain here in place of the Kukui, which was overhauled and immediately despatched to Alaska. The Columbine is considerably smaller. It is 145 feet long, 27 feet beam and 15 feet depth. It is registered at 424 tons gross.

The Columbine was built at Cleveland, O., in 1892. It has been stationed for years in Alaskan waters, making its base near Ketchikan. The vessel was ordered fumigated upon its arrival today. It will come to a berth at a territorial wharf this afternoon or tomorrow morning. The Columbine left the coast May 11. Captain Warriner reported fine weather.

**CANNON COME SO FAR FROM HOME THIS YEAR**  
The board of directors of the National Chamber of Commerce of the United States will be unable to make their hoped-for visit to Hawaii this year, according to a letter received yesterday by Raymond H. The directors, who each year make a tour to some part of the Union, will be unable to come as far as Hawaii this year on account of uncertain conditions caused by the war, writes Mr. Goodwin.

**JAVA'S SUGAR OUTPUT IS FAR BELOW HIGH RECORD**  
Java's sugar output shows no immediate sign of again reaching the high record set in 1913, when the production was 1,606,417 short tons. For the calendar year 1914 the short ton output was 1,508,092, while for the 1914-15 shipping season it is estimated at 1,443,904 short tons. The 1915-16 estimate is also far below the record figure, being 1,512,000 short tons.

# REINECKE FINDS AUSTRALIA NO PARADISE NOW

### Former Official of Honolulu Board of Health Says Times are Hard In Sydney District

Two years as a fruit grower in New South Wales, his orchards visited by continued drought and tree pests, at times a victim of designing commission men, decided August C. Reinecke, a former official of the board of health, to return to Honolulu in the Oceanic liner Sonoma.

According to Reinecke the Australian commonwealth at present is far from a paradise for Americans bent on gaining a living from the land or taking up employment in the cities. He says crops have been a failure and times are very hard. Reinecke left Honolulu, where he had been employed as bacteriologist, to take up 80 acres of land a short distance from Sydney. He says he was confronted with many difficulties in marketing a crop.

"It is almost impossible for an American to get employment in the country while the war fever is running at its present height," he said. The neutrality of the United States is not exactly favored by the rank and file in the colonial possessions. Reinecke will remain in the city for some weeks and may continue the journey to the Coast.

# NEW PLANT CAN HANDLE BALLAST IN SHORT ORDER

Equipped to load 75 tons of sand each hour, the Oahu Railway and Land Company has installed a unique apparatus at a location convenient to steamers berthing at the Ewa end of the harbor.

The plant which has been under construction for some months was completed early this week. It was placed in commission today when the Inter-Island steamer Maui was hauled to the railway wharf to load sand for delivery to plantations on Hawaii and Maui. The new loading plant, it is said, will prove a valuable asset to the port in affording a quick despatch to vessels calling here for ballast.

The sand shipped to the island plantations is brought from extensive quarries operated by the railway company near Waialua.

# CHOY THREATENS TO SUE REVENUE MEN FOR ARREST

## Declares He Was Illegally Detained, and Had Poppy-Dust on Prescription

That he was taken into custody without any legal authority is the complaint which has been made to local federal court officials by Choy Tong Song, alias Ah Choy, alias Ah Chai, who was turned over to Deputy Marshal O. F. Heine yesterday afternoon by Ralph S. Johnstone and Edward Crabbe, deputy internal revenue collectors.

The defendant has been booked in the marshal's office under an act approved December 17, 1914, which relates to the importation, manufacture, compounding, sale, disposition or giving away of opium or cocaine leaves, their salts, derivatives or preparations. A hearing of the case was to be had this afternoon before Commissioner George S. Curry.

The claim has been made by the defendant that he was detained for about three hours by the deputy revenue collectors before he was turned over to the marshal's office, where a legal arrest was made upon a warrant sworn to by District Attorney Jeff McCann.

Although nothing definite could be learned regarding the matter today, it was strongly intimated that the defendant, through his attorney, George A. Davis, may bring suit against Crabbe and Johnstone for illegal arrest.

According to federal officials the substance which the deputy internal revenue collectors found on Choy was a pinkish powder which the defendant afterward said was the ground leaves and stems of the poppy plant. It is alleged he told the revenue collectors that he had obtained the substance from a local doctor for medicinal purposes and offered a doctor's prescription to bear out his statement. He said that he used the powder to make a tea.

# Morning on CHANGE

The news that the Honoum Sugar Company directors had voted to increase their dividend from \$1 to \$1.50 per share each month, beginning June 5, had a bracing effect on the market this morning, an indication of prevalent prosperity. Onohea, Ewa and Hawaiian Commercial have been the most active stocks for the last 24 hours, the last one selling readily at 36 and with a closing bid of 36 and offerings one-quarter higher. Sales this morning totaled 280 shares and between boards deals amounted to 779 shares, Hawaiian Commercial, McBryde, Oloa and Onohea being the leaders.

Cases of appendicitis have been directly traced to peanuts. Honolulu people who eat indigestible foods should guard against appendicitis by taking twice a week ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-ika. This mixture is so POWERFUL and cleanses bowels so thorough ANY CASE OF appendicitis, sour or gassy stomach. ONE bottle has relieved mild cases; appendicitis. Most medicines act only on lower bowel; Adler-ika acts on BOTH lower and upper bowel. TEN MINUTES after taking, effect begins—the INSTANT action is surprising. # Police & Hospital Reports

Two Porto-Rico women, who made the welkin ring in a Beretania street lodging house, the sutree winding up in a hair-pulling contest, were sternly lectured by District Magistrate Monsarrat today, who also fined each defendant \$3 and costs.

Watanaro, a Japanese, who fell in a fit while passing along Nuuanu street Tuesday evening, died at Queen's hospital early this morning. Deputy Sheriff Ash ordered a post-mortem. It was learned that death resulted from natural causes. No inquest will be held.

Hankko Aoni, grieved at the action of his wife, used a pocket knife with suicidal intent, inflicting wounds in his neck and body which were treated at Queen's hospital. He is reported at the institution today as having a fair chance at recovery. The police were notified yesterday afternoon to take charge of a Japanese who had cut his throat in a house near the U. S. experiment station in Makiki valley. The woman said that she had separated from her husband and he had tried to effect a reconciliation.

Pacifico, a Filipino, is today under arrest at police headquarters after an investigation concerning his complicity in a wholesale attempt at jail delivery. Captain of Detectives McDuffie believes he has sufficient proof to convict the Filipino of taking an active part in the proposed walkout from the Oahu prison. Several Filipinos, who had served sentences at the institution, had about completed a plan for assisting their friends to escape. One member of the party turned informer. A number of arrests by the officers have followed his confession.

## CUBAN SUGAR MEN ASK NEW WEIGHT LAW HELD

The sugar planters of Cuba have petitioned the government for a temporary repeal of the law which changes the measurement of Cuban sugar, in weight and value, from arrobas to pounds and from reales to dollars and cents. The change was made by a law which went into effect May 1. An arroba weighs 25 pounds. The planters say that the new law, going into effect in the middle of a shipping season, is having a confusing effect on business, and want it held in abeyance for a few months.

# EXPLANATION OF 'LUAU AFFAIR' DUE TOMORROW

Mayor Lane may have a message for the board of supervisors dealing with the Lymer opinion concerning the appointment of department employees of the city at the meeting of the board Saturday night. It will be the first meeting the mayor has presided at since May 1, owing to his absence from the city with the congressional party.

It is believed that the mayor will ignore the meeting of the board the following Tuesday night, the supervisors meeting as a whole to discuss the "luau affair." Invitations to attend this latter meeting have been extended to all concerned in the alleged ejection of soldiers and sailors from Kapiolani park on the night of the mayor's luau to the congressional party.

That the mayor has neglected answering the letter of the U. S. S. Maryland's commander which asked for an "official explanation" of the "luau affair" because of the presence of the congressional visitors was indicated today, the sailing day for the remainder of the visiting party, when he summoned his temporary secretary, Charles Marquez, and ordered him to produce the affidavits of the police officers and the communication from the Maryland's commander. It is likely that an answer to the letter will be made tomorrow.

## PERRY CASE WITNESS TELLS OF CRAP GAME

Kaupu Paupu, a 14-year-old Hawaiian girl, at a hearing before U. S. Commissioner George S. Curry this morning, testified that she was assaulted by a Portuguese named Manuel Perry while on her way to Honolulu from Mahukona in an inter-island steamer. Perry was arrested by Marshal J. J. Smiddy shortly after the arrival of the boat, and has since been in federal custody.

One of the witnesses testified that a crap game was in full swing but a few feet from that portion of the steamer where the offense is alleged to have been committed. Assistant District Attorney J. Wesley Thompson pricked up his ears when he heard this testimony, although he did not ask the witness any questions concerning the game. The commissioner fixed the defendant's bail at \$1500. The case probably will be brought before the grand jury at its next meeting.

Circuit Judge Whitney today appointed K. Iki temporary administrator of the estate of Sairatori, deceased. A satisfaction of judgment was filed in circuit court today by K. Hoda relating to the assumpsit suit brought by him against the Island Investment Co.

SONOMA SEARCHED BY AUSTRALIAN OFFICIALS; THREE MEN ARE TAKEN

Members of Crew Claiming American Citizenship Held as Germans—Officers of Vessel Criticise Rigidity of Inspection

Three members of the crew of the Oceanic liner Sonoma, claiming American citizenship, were removed from the ship by Australian commonwealth authorities at Sydney in the belief they were Germans, according to a story brought on the liner Sonoma today. The matter of their nationality was to have been investigated shortly after the Sonoma steamed to Honolulu and San Francisco.

HAWAII MARU TO ENTER SERVICE IN JULY

Fearing the name of Hawaii to many lands bordering the Pacific, the fine new passenger and freight steamer Hawaii Maru, nearing completion for the Osaka Shosen Kaisha at the Mitsubishi dockyards at Nagasaki, is expected to go into commission in the transpacific trade in early July.

The Hawaii Maru enters the service on July 14, when she is scheduled to depart from Yokohama, taking up the sailing of the liner Seattle Maru, following the arrival of the latter vessel at the Japan port from Tacoma about July 12.

Four steamers of the fleet will be operated under mail contract, the list including the Hawaii Maru, Manila Maru, Chicago Maru and Canada Maru. Until the new vessels are completed the Seattle Maru and Panama Maru will continue as subsidized vessels.

HARBOR NOTES

The Union Oil Company steamer Lansing has arrived at Kahului, Maui, to discharge the larger part of a shipment of fuel oil. The vessel is reported to have met favorable weather. It is expected to be given a quick dispatch to the Pacific coast.

GLENROY ASHORE; FEAR TOTAL WRECK

After leaving Honolulu where it took bunker coal and replenished supplies, the British steamship Glenroy from Shanghai, China, to London, went ashore on an islet about 20 miles from Singapore.

Officers in the Japanese liner Nippon Maru, which called at Honolulu the early part of the week, say that while details are lacking it is understood the Glen liner was in a critical position with its forward hold awash.

The vessel had been loaded with general cargo at Seattle and Tacoma. It was the original intention to steam to Japan and China direct.

The Glenroy is said to have carried a valuable freight supplied along the Asiatic coast. It is believed to be well covered by insurance.

The Glenroy was built in Glasgow in 1901 by the London and Glasgow Co., Ltd., for the Glen line, whose trim-lasting vessels are so well known in the Pacific. She is of 4901 tons gross, her dimensions being 400 by 49 by 29 feet.

GIENSHOE TO RETURN TO ISLANDS. The Norwegian bark Gienshoe which this morning began to discharge 1400 tons of phosphate rock from the South Pacific, will, it is reported, make three round trips between Makatea or Ocean island and Honolulu, before completing its present charter. The demand for fertilizer material is keen. There has been a decided scarcity of tonnage because of the European war. The Gienshoe having been disengaged, was eagerly snapped up by local importers. It will be given a prompt despatch to Makatea. The vessel remained at quarantine for more than 24 hours to be fumigated.

HYADEE LOADING FOR THE COAST. The Matson freighter Hyades, now discharging a general cargo brought from San Francisco, Seattle and Tacoma, will steam to island ports tomorrow evening after taking more than 1000 tons of sugar at this port. The Hyades is expected to load sugar at Port Allen, Kahului, Fanaajahi and Hilo.

CANAL BARRED TO RAILWAY-OWNED STEAMERS

The approval by the interstate commerce commission of the ownership and present operation system of the Pacific Mail Steamship Company by the Southern Pacific Company, which was given in Washington recently, completely dissipates the clouds of doubt which have been hovering over the two organizations.

The main question involved was as to whether it was legal for the Southern Pacific ships to carry freight and passengers to and from Mazatlan while the Pacific Mail was serving the same point.

The news of the decision of the interstate commerce commission was received with rejoicing by the officials of both companies, and steps will be taken immediately to enlarge the service to Mexican ports.

A. J. Frey of the Pacific Mail said: "The decision is a clarification of the entire trouble. We discontinued traffic last November from San Francisco to New York and Europe by way of the canal, and the Southern Pacific then applied to the commission to decide the legality of our present status."

"In substance the new order approves the application of the Southern Pacific to continue operation of ships except through the canal. This service the Pacific Mail discontinued last November."

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE. "Indigestion and practically all forms of stomach trouble are nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve-building properties. This is the reason why dyspeptics and stomach sufferers are usually thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and food antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach linings, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of doing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal and take some of the bisurated magnesia as directed above, and see if I'm not right." **CONTRALTO WILL APPEAR IN SONG TOMORROW NIGHT**

Mrs. Betty Brown, Assisted By Violinist and Pianist, In Fine Program

Mrs. Betty Brown, who in a comparatively short stay in Honolulu has won discriminating praise for her excellent vocal work, will give her first concert here tomorrow evening in Aeolian hall, above the Bergstrom Music Company.

Mrs. Brown will be assisted by Mrs. Florence Boco Johnson, pianist, and Mrs. A. B. Ingalls, violinist, neither of whom requires any introduction to a Honolulu audience. The program is a varied and very pleasing one, with a strong emphasis on the ballad form of song. Mrs. Brown's rich contralto voice should be heard to good advantage in the program.

Mrs. Ingalls will play the striking Polonaise Brillante Op. 4 by Wieniawski. Mrs. Johnson will give on the piano Chopin's fine Scherzo in B Flat Minor. The program is as follows:

For What Thou Art... A. H. Rosewig  
Only at Eve Flies the Raven... Sinding  
So Many Stars Have Dim Grown... Sinding  
The Nightingale Has a Lyre of Gold... Whelpley  
Mrs. Betty Brown

**THE GERMAN WOUNDED**

Berlin, May 20.—(By wireless to Sayville, L. I.)—The Germans are terrifically systematic about their care of the wounded. All their men found on the battlefield receive a "first aid dressing." Each is "tagged with a card, which indicates whether he is badly hurt or not. From the battlefield the wounded men are gotten back to the field hospitals or to headquarters. A man may be badly wounded and yet be back on the firing line in three months. Good pure blood is what helps the soldier through—his wounds heal easily after antiseptic dressings. It is well for everybody to put the blood in good order. Don't trifle with health! It's too precious a possession.

It is trifling to neglect the little every-day kind of ailments. It is trifling, too, to take medicines of unknown or doubtful ingredients. If your stomach gets out of order, your food is not digested and, of course, your blood gets thin and you become weak, ready to be a prey to the disease germs always ready to attack the run-down and the anaemic. If your liver can't do its work; your blood becomes impure and many troubles follow. If your bowels are irregular, poisons accumulate in your body. Dr. Pierce's Golden Medical Discovery (in tablet or liquid form) helps the stomach to digest food properly, strengthens the liver, regulates the bowels. As a consequence you are vigorous, full of snap and life! Fifty years ago Dr. Pierce discovered that a glycerine extract of Golden Seal and Oregon grape root, of queen's root and bloodroot with black cherry bark would aid all the digestive organs to work as Nature intended they should. Thousands have found that the "Golden Medical Discovery" he then introduced to the world has restored them to health when suffering from stomach and liver troubles. Now is the time to try this famous remedy.—Adv.

**LEE CHUCK SUN TO BRING BRIDE FROM YOKOHAMA**

Lee Chuck Sun, formerly of Honolulu and well known both to Chinese and Americans, was married at the American consulate in Yokohama early this month to Miss Wong Bow King of Yokohama. Consul Scidmore performed the legal ceremony and the religious ceremony was performed by the Rev. Wm. Martin. The groom was born in Honolulu and is an American citizen.

The Japan Advertiser says of the wedding:  
"An unusual wedding ceremony took place at an American consulate occurred yesterday afternoon before Consul-General Scidmore. The bridegroom was Mr. Lee Chuck Sun, a Chinese born in Honolulu, an American citizen, and son of a rich Chinese lumber merchant. The bride was Miss Wong Bow King of Yokohama, daughter of a printer and a close relative of the proprietor of the Pacific Mail Steamship Company, who acted as best man. The consulate presented a bright picture of Chinese costumes; the bride was wonderfully attired in a native costume of pale lavender elaborately embroidered in gold. The head dress and the shoes were of the same material and coloring with fine detailed workmanship. She was attended by six Chinese ladies, friends and relatives, gowned in their finest native costumes. The bridegroom, a man of small stature, dressed in American-made clothes, standing aside of the bride, both holding in their arms large bouquets of flowers, made a striking contrast of the Western and Eastern influence in attire. The consul-general performed the legal ceremony, which was all that was essential to their being man and wife, but evidently not content with this tie, a request had been made to Rev. Wm. Martin to perform the religious ceremony, which also took place at the consulate following the legal ceremony. Neither the bride or the bridegroom professed Christianity, in fact Mr. Lee Chuck Sun registered himself as a Buddhist. Both, however, had been brought up in mission schools and the religious ceremony was at their special request. A number of Chinese attended the ceremony, as did also some of the staff of the Pacific Mail S. S. Co., including Mr. W. V. Campbell. The newly-wedded couple will make a short honeymoon stay in Japan and then sail for Honolulu."

**PUNAHOU CAMPUS WINS PRAISE OF C. P. McCLELLAND**

(Special Star-Bulletin Correspondence)  
PUNAHOU, May 19.—Judge Charles P. McClelland, the United States general appraiser for Honolulu, inspected Punahou Tuesday morning. He visited all the buildings, went over all the grounds and spoke in the preparatory and academy. Judge McClelland is here for a while to "hold court" for district people who think that their imports or exports have not been properly appraised.

In speaking to the preparatory school, Judge McClelland told of his school at Dobbs Ferry, what trouble he had to secure proper grounds, and of what a fine location they now had and what beautiful grounds. He said that Punahou did not fully appreciate what a fine campus and what splendid buildings they had.

He spoke of the schools of long ago in relation to those now. Years ago the teachers had to command respect but now they win it from the students.

In speaking to the academy Judge McClelland said that his hobby is schools. He said that it is a harmless hobby. He is very much interested in the school problem, having for twenty years been president of the board of education in a suburb of New York city. He told the students that he would leave his business at any time, and he is a busy man, to attend anything particularly interesting in the schools, for he can get more pleasure out of this than out of any other amusement. Whenever his boys are undecided as to what to do between two things, he tells them to choose the thing that will give them the most pleasure in the time which they have. And it is the same way with him.

The reason he likes to see the schools so well is because he likes to see the development of the young life. You will see a housewife greatly pleased with the first flower which buds. He loves boys and girls more than flowers, and it is more profitable to watch them grow up.

**FAR EAST WILL BE ADVERTISED BY LIVE METHOD**

G. H. Corse, Jr., general passenger agent in Japan for the San Francisco overland routes, will arrive from Yokohama on the Mongolia next Tuesday to advertise the Far East to tourists of America. He is taking with him a large number of folders, leaflets, etc., advertising Japan, China, the Philippines, Java and other Far Eastern places for distribution in the railway, steamship and tourist offices of all the principal cities of the United States and Canada. Through arrangements Corse has effected this distribution will be free of charge excepting for the cost of transportation from San Francisco to Eastern cities. The Pacific Mail Company has granted free transportation of this advertising matter from Japan to San Francisco.

Among the large assortment of folders Corse is taking with him, the biggest supply is from the Japanese Tourist Bureau and the Japan Hotel Association. The distribution of the folders of the Japan Tourist Bureau will be through the Japanese building at the Panama-Pacific Exposition, which cares for visitors to the Pacific coast. In addition to this Corse will distribute folders throughout all the Eastern cities and tourist centers.

Mrs. Corse, who accompanies her husband to America, will visit her parents in San Francisco. Her mother is one of the lady commissioners to the exposition. Mr. and Mrs. Corse expect to return to the Orient late this autumn.

**BOTTS BIT BY CUTEY CUPID?**

City Purchasing Agent Botts, a single man who says he is immune from Cupid's contagion, has been delegated by Mayor Lane as Honolulu matrimonial agent, ex officio. The appointment came as a surprise to Mr. Botts and was not received without some pouts on the part of some of the purchasing agent's friends.

The matrimonial agency was established today following the receipt of another letter in which a husband is asked to be secured. Mrs. Lillian O'Dell of Los Angeles, who says she loves flowers and books and wants to enlarge her scope to include a husband, wrote the letter to the mayor asking him to locate some willing gentleman. Mrs. O'Dell has a 9-month-old child and she is a widow.

"Maybe we can fix up a deal to get Lillian out here first so we can get a good look at her," said Botts.

"E. Buffandean, Botts' office mate, reports today that he has witnessed Mr. Botts scanning the lady's photograph stealthily several times since it was turned over to him.

He thanked the students for the attention which they had given him in listening to his remarks, and finally told them that he would have much to say about Oahu when he returned to his own home.
