INDICATES MORE THAN HAWAII HAD EVEN DARED HOPE

Treasury Officials' Advocacy of Restoration of Old Sugar Duty Stirs Honolulu
FREE SUGAR LIKELY TO BE POSTPONED, AT LEAST
Local Men Connected With Industry Generally Hopeful of Congressional Action

"That is tremendously important, if true," said Judge Sidney Ballou this morning, discussing the Associated Press despatch from Washington which says that treasury officials at the national capitol regard as imperative reapplication of the sugar tariff as it existed prior to March 1, 1914. The national treasury is so depleted, according to the despatch, that such action will be necessary, despite the Democratic free sugar plank.

"We had not even hoped for so much," continued Judge Ballou, who is attorney for the Hawaiian Sugar Planters' Association, and was in Washington a few months ago. "The most we had expected was a retention of the present reduced duty, but a return to the old duty would assure us of a stable market even after war prices have subsided."

"The full duty before March 1 of last year was 1.658 cents per pound, and the Cuban preferential duty, which governs prices obtained by Hawaiian planters, was 1.245."

J. P. Cooke, president of Alexander & Baldwin, was disposed to doubt the authenticity of the report. "It may be true, and I certainly hope it is," said Mr. Cooke, "but if so it must indicate that the situation in Washington has developed with great rapidity. The best that we have been led to hope, from unofficial advices from the national capital, was the postponement for one year of the absolute free sugar basis and a continuation of the present reduced duty from May 1, 1916, to May 1, 1917."

"I do not know whether or not this announcement, reported as coming from treasury officials, is a move on the part of the national administration or not," said E. Faxon Bishop, president of C. Brewer & Company. "I believe that the administration has at last realized that it must restore the duty on sugar, and retain it to cover the treasury deficit, and that this may be a move on the part of the administration to pave the way for future action towards restoring the old tariff."

"The sugar item is the largest source of revenue in the entire tariff bill, and it is quite natural that the administration should turn its eyes to the sugar tariff to cover the treasury deficit. Not only do they need the sugar to cover the present deficit, but they must have it to keep the deficit from dropping another \$50,000,000 annually after May 1."

"When finally assured that there will be a tariff on sugar, it is safe to predict that sugar stocks will rapidly rise in value and that many of the plantations will go on with needed improvements which have been delayed owing to the uncertainty of a tariff on sugar," concluded Mr. Bishop.

E. D. Tenney, first vice-president and manager of Castle & Cooke, Limited, was rather skeptical.

"I take it that despatch reflected merely the opinion of a few treasury officials," said Mr. Tenney, "and is therefore of no more value than the"

(Continued on page four)

SEACOAST GUNS WILL BOOM IN PRACTISE SOON

The coast defense posts are preparing for service practise this month, both by night and day. Dates for the target practise are not announced in advance, as battery commanders are supposed to be ready to fire when called on. The night practise will be held between the 20th and 29th of the month, and to guard against accident Col. W. S. Rafferty, commanding the coast defenses of Oahu, has sent out the following warning to shipping:

"Night firing will be held with the seacoast guns at Fort Ruger (Diamond Head), Fort De Russy (Waikiki), Fort Armstrong (Kakaako), and Fort Kamehameha (Pearl Harbor), beginning at 7:15 p. m., July 20, and continuing to July 29, 1915, inclusive.

"The sea area for eight miles off shore between a line running due south of Black Point (Kupikupiki) and a line running due south of Barber's Point will be unsafe for shipping on the nights above mentioned so long as the searchlights are in operation. When all searchlights are out the firing is completed."

ELIMINATION OF GEN. HUERTA IS UNCLE SAM'S AIM

Former Dictator May Be Deported to Spain if Not Suppressed on Trial
VILLA AFTER HIM ON CHARGE OF MURDER
Asks for Extradition of Old Warrior, Which May Be Up to Texas Governor

Gen. Alvaro Obregon, who is rapidly rising to prominence in the Carranza or Constitutional faction. He is reported to have insisted on the retention of four of Carranza's cabinet officers officers whom Carranza dropped.

It is said that Washington considers Obregon's recent moves to have given the Mexican situation a new angle as it may foreshadow the elimination of Carranza.

(Associated Press by Federal Wireless) WASHINGTON, D. C., July 2.—Secretary of State Lansing is now considering the request of Gen. Villa for the extradition of Huerta. Meanwhile Secretary of Labor Wilson is considering whether or not the former dictator should be deported to Spain.

Gen. Funston, in command of the border troops, has been given orders to use the military forces if necessary to prevent Huerta from crossing the Mexican border while out on bail awaiting his trial. The department of justice is gathering evidence to prosecute Huerta on July 12 on the charge of conspiracy to incite a revolution in a friendly country.

The United States government is plainly trying to avoid the entrance into Mexican affairs of another warring faction, which would further complicate the difficult situation.

Secretary Lansing pointed out today that extradition under the treaty with Mexico is discretionary with the governor of Texas, who has power to deal with the military authorities in a Mexican state where civil government has been suspended. Under this treaty, the extradition of Huerta may be held to be within the power of the Texas governor dealing with the military authorities of Chihuahua.

EL PASO, Tex., July 2.—Gen. Carrasco Villa's request for the extradition from Texas of Gen. Huerta, which has created a new interest in the Mexican situation, is understood to be based on the execution at Huerta's orders of Abraham Gonzales, former governor of Chihuahua. Villa is now governor of Chihuahua.

CHILTON-SCULLY CASE IS POSTPONED AGAIN

John T. Scully, Wilmot R. Chilton and J. H. Fischer will not be called into Circuit Judge Ashford's court to plead to charges of conspiracy until 9 o'clock Wednesday morning. Owing to the departure of Circuit Judge Whitney and the flag presentation exercises in federal court, Judge Whitney has postponed all of Saturday's matters until Wednesday.

About 6500 men are engaged in the construction of new war munition plants at Bridgeport.

DR. COOPER HONORED AT BIG MEDICAL MEETING

Dr. C. B. Cooper of Honolulu, who is on the mainland, was honored on June 22, when at the sixtieth annual meeting of the American Medical Association at San Francisco he was named a member of the standing committee of the House of Delegates on Hygiene and Public Health.

There were more than 2000 physicians and surgeons present at the big convention, which was held in the ballroom of the Civic Auditorium.

FURTHER DELAY ON FEDERAL SITE NOW PROBABLE

Treasury Department Likely to Send High Official to Look Over Situation
SPECIAL AGENT RUEBSAM TO REPORT IN FEW DAYS
Now Formulating Statement as Result of Visit Here Not Long Ago

(Special Star-Bulletin Cable) WASHINGTON, D. C., July 2.—Special Agent E. C. Ruebsam of the treasury department, who went to Honolulu partly for the purpose of investigating the federal building site situation, is now formulating his report. It will be ready for presentation to the treasury officials in three or four days.

The opinion is expressed here that either Byron R. Newton, assistant secretary, who is in direct charge of public buildings and grounds, or James A. Wetmore, executive officer of the supervising architect's office, will visit Honolulu before a final decision is reached.

The recommendations made by Mr. Ruebsam have not been made public. C. S. ALBERT.

Special Agent Ruebsam, who is superintendent of the structural division of the supervising architect's office in the treasury department, spent several weeks in Honolulu a few months ago investigating the available sites for the new million-dollar federal building. The two sites from which it is expected a choice will be made are the Irwin and Spreckels sites, and an unofficial rumor has it that Ruebsam's recommendation will favor the Spreckels site.

The cablegram above indicates that there is to be a further delay in getting the federal building started, for it will take several months for Assistant Secretary Newton or Mr. Wetmore to come to Hawaii and go over the situation.

COURT DECISION A 'KNOCKOUT' TO CHE-FA GAMBLERS

Judge Monsarrat Imposes Big Fine on Ticket-Seller For "Maintaining"

District Judge Monsarrat handed down a decision in police court today which is hailed by the police department as the solution of the problem of breaking up che-fa gambling in Honolulu. In brief the judge held that a man caught selling che-fa tickets can be prosecuted for "assisting and maintaining" a che-fa game.

Together with this decision Judge Monsarrat fined one Ah Lun \$250 and costs, an exemplary penalty which, say the police, will deter many a would-be gamster from indulging in the sport of guessing the one right word in 36.

The Ah Lun case is likely to be a notable one, for Attorney W. T. Rawlins, defending the accused, noted an appeal, Ah Lun must file a bond of \$275 and was given until 2 o'clock today to do it.

Deputy City Attorney Charles F. Chillingworth, who fought hard in the prosecution, and Captain of Detectives McDuffie and his staff, who brought the evidence against the Chinaman, are much encouraged over the decision. They say it will now be much easier to get convictions on the elusive promoters of che-fa. This game runs in a will-o'-the-wisp fashion which

(Continued on page three)

SPECIAL TRAIN WILL BE RUN TO CAMP OF Y. W. C. A.

Monday, July 5, will be the big opening day of the Y. W. C. A. summer camp at the Peninsula, and everyone is invited to spend the day there.

Tennis, swimming, canoeing, croquet and other sports will make the day seem too short. A special train will leave Honolulu at 9 a. m., returning at 5 p. m. A picnic lunch will be served at noon, thus giving every one an ideal day's outing.

TEUTONS CUTTING ROAD TO WARSAW; KEEP ALLIES BUSY ON WESTERN FRONT

WHITNEY'S PLACE NOT YET DECIDED

(Special Star-Bulletin Cable) WASHINGTON, D. C., July 2.—No successor for Circuit Judge Whitney of Honolulu has been selected by the department of justice as yet. C. S. ALBERT.

U. S. DESTROYERS SET GOOD MARKS

(Associated Press by Federal Wireless) WASHINGTON, D. C., July 2.—Announcement is made by the navy department that the target scores for the first Pacific destroyer division are better than the scores of 1914, but under the mark set by the Atlantic destroyers.

PRINCE YAMAGATA HAS CONFERENCES AT TOKIO

(Special Cable to the Nippu Jiji) TOKIO, Japan, July 2.—Prince A. Yamagata, one of the Genros, or elder statesmen, conferred secretly at the palace with the emperor this morning. Immediately afterward he was received in private conference by Baron Hatano, minister of the imperial household. That the conferences are important is admitted by those in close touch with government affairs.

FRANKLIN ROOSEVELT'S CONDITION FAVORABLE

(Associated Press by Federal Wireless) WASHINGTON, D. C., July 2.—The condition of Franklin D. Roosevelt, assistant secretary of the navy, who was operated on for appendicitis, is favorable.

BIG ARMYFUL OF MAGAZINES FOR MEN AT SAMOA

The first person to respond to the plea of the sailors on the gunboat Princeton, stationed at Samoa, for a supply of reading matter from Honolulu, was Mrs. Charles W. Parks, wife of Civil Engineer Parks of the naval station, who arrived at the Star-Bulletin office this morning with a great armful of periodicals of all kinds, and a book or two.

Mrs. Parks' name will head the list of those who are donating reading matter to the boys of the navy, now virtually marooned at Pago Pago where a mail steamer touches only once in 28 days. A large consignment of reading matter will be forwarded from the Star-Bulletin office on the Ventura, which leaves Honolulu southbound on July 12, one week from next Monday.

The management of the Advertiser has kindly proffered several copies of each edition of that newspaper for the 1st month, and a large bundle of Star-Bulletins will also be forwarded.

The plea of the 170 men on the Princeton that magazines and newspapers be sent to them was brought to Honolulu by A. E. Livingstone, a great grandson of the famous African explorer, now in this city.

HOPING TO HAVE \$25,000 PAID BY NOON SATURDAY

City and County Treasurer Conklin makes the estimate today that when his office closes tomorrow noon, on the third day of the collection of 1915-16 license fees, more than \$25,000 will have been added to the city coffers. Yesterday's collections, the first day on which the new licenses were due, totaled \$9200, and today's probably will exceed that amount.

The entire year's license fees amount to about \$115,000 or \$120,000, but only about \$65,000 or \$70,000 is to be collected within the next 10 days, according to Mr. Conklin. To get a new license, the applicant must show a certificate from the board of health showing that the place to be licensed is conducted in a sanitary manner, and also a certificate from the tax collector showing that the applicant has no taxes delinquent prior to June 30, 1915.

There was considerable confusion among the applicants yesterday and today because of the changes in the amounts of the license fees made by the 1915 legislature's enactments. Among these is the raising of the fee for lodging houses from \$2.50 and up to a flat \$50 a year. Restaurants pay \$10 less this year than previously.

HAS AROUSED WORKMEN OF ENGLAND TO NEED FOR MORE MUNITIONS

David Lloyd-George, the new British minister of munitions, who has spoken to large crowds of workmen of the necessity for unremitting work in the factories.

(Associated Press by Federal Wireless) LONDON, England, July 2.—The activities of David Lloyd-George, new minister of munitions, in securing more war supplies for the troops in the field, are already being crowned with signal success.

In the house of lords today Lord Curzon, the minister of the privy seal, introduced the new munitions bill and accompanied it by a statement which declared that as a result of the first week of the campaign to speed up the manufacture of munitions, 46,000 volunteer workers have been enlisted in the cause.

Lord Curzon expressed himself as confident that "before the end of the year the advantage both of men and material will be decisively on the side of England and the Allies."

FINAL TRY-OUT OF CAVALRY MEN FOR FAIR TEAM

Fourth Cavalry and 1st Field Artillery Teams Will Match Skill—Polo to Follow

(Special Star-Bulletin Correspondence) SCHOFIELD BARRACKS, July 2.—The 4th Cavalry has issued a general invitation to a mounted exhibition to be held at 2 o'clock tomorrow afternoon on the plot of ground just north of the A Troop stables. This is to be a final try-out for the cavalry contingent for the Panama-Pacific exposition enlisted men's team to be sent from Schofield Barracks to San Francisco next October.

Thirty-six men, three from each of the 12 troops, with the best horses in the regiment have been putting in some hard work every afternoon for more than a month, under the direction of 1st Lieut. W. S. Martin, preparing for this competition. A similar squad from the 1st Field Artillery is working out under Lieut. L. A. Beard and will have their final try-out in the near future.

Twelve men are to be selected from each of these regiments to represent the Hawaiian department in the mounted competitions for enlisted men at the exposition. The prospect of the trip to San Francisco and the chance to see the fair has created keen rivalry between the contenders for positions on the team. An officers' team is also to be selected, but there are but few officers at Schofield who have found means that can successfully negotiate the Stockholm jumps, and meet the other difficult requirements of the competition.

The program tomorrow will start with an opening ride, showing elementary school movements of the troop horse. Following this will be a

(Continued on page two)

SWEEP FROM LEMBERG TOWARD POLAND CAPITAL CONTINUES; ITALIANS STILL PROGRESSING

BRITISH CRITICS BELIEVE GERMANY WILL DIVERT NO TROOPS FROM EAST UNTIL WARSAW FALLS—SPAIN HAS DIFFICULTY IN MAINTAINING NEUTRALITY—MANY PUBLIC MEETINGS BARRED—MORE ALLIED SHIPS SUNK

(Associated Press Service by Federal Wireless) LONDON, England, July 2.—British critics and army men believe the Teutonic Allies will not divert any of their troops from the east to the west fronts until Warsaw has been captured. It is toward this Polish capital that the Austro-German forces have been cutting a road ever since they dislodged the Russians first from Przemysl and then from Lemberg. Their offensive is being pressed unremittingly, night and day, and the Russians are unable to prepare positions and take up a stationary defensive. They can only retire stubbornly before the Teutons.

Germans Start Drive Toward Verdun

PARIS, France, July 2.—The Germans on the west today displayed their principal activity on their left wing. They are hammering hard in the Argonne district, apparently hoping to drive in the forces defending Verdun and bring their heavy guns to bear on the fortress itself.

No Halt in Hot Teutonic Attack

PETROGRAD, Russia, July 2.—Reports which reach Petrograd from the front do not indicate any halt in the great sweep of the Austro-German forces northward and eastward of Lemberg, which is brushing back the Russians mile after mile.

Spain Seethes to Get Into War

LONDON, England, July 2.—Despatches have been received here indicating that Spain is having great difficulty in maintaining neutrality. Premier Dato has prohibited public meetings unless discussions of neutrality and war issues are barred and in consequence many public meetings have been stopped.

British Submarine Losses For June

LONDON, England, July 2.—Official announcement was made today of British submarine losses for the month of June. Ninety-eight British vessels were sunk in that month by German submarines, with 111 deaths resulting.

More British Vessels Torpedoed

LONDON, England, July 2.—The British steamers Inglemoor and Caucasian, the schooner Welbury and a bark, the L. C. Tower, have been sunk by submarines. No fatalities are recorded.

Slight Progress Made by Italians

LONDON, England, July 2.—Slight progress by the Italians is admitted by the Teutons, with the Austrians striving to hold back the determined advance.

Zeppelin is Accidentally Destroyed

AMSTERDAM, Netherlands, July 2.—A Zeppelin was accidentally destroyed by an explosion at Brussels, according to news received here.

Germans Claim Krasnik is Reached

BERLIN, Germany, July 2.—Official.—On the east front the Germans have reached Krasnik. The Russians have been repelled west of Zamorc.

[Additional Telegraph Despatches on Page 9]

The output of the Clyde shipyards during March was 42,491 tons of merchant vessels and for the January-March quarter 106,703 tons. These totals compare with 24,631 tons and 99,985 tons the year previous.

Harry E. Gwiner, a small broker on the London Stock Exchange, was suspended for three years for violation of rules.

That he has melted metals in a vacuum by focusing the sun's rays on them without using a container of high heat resisting properties is the assertion of a German scientist.

In the district near Winalpes there is soon to be established the finest fox ranch in the world. From 20 to 300 of the choicest animals to be found in the North will be procured to start with.

Moving a clock the distance of a mile from one house to another in Waycross, Ga., caused it to resume work after it had lain idle for seven years. Jewelers had failed to start it going, but the jostling succeeded.

Former Secretary Bryan laughed at a report that he had received an offer of \$100,000 to go into the movies.

COURT DECISION A 'KNOCKOUT' TO CHE-FA GAMBLERS

(Continued from page one)

makes it hard to find the "higher-ups," but it is comparatively easier to get the "runners" or ticket-sellers, and now that Judge Monsarrat has held that, in effect, these runners "assist and maintain" the game, they can be driven out of the legitimate business with heavy fines or imprisonment.

Another favorite Chinese game, pai-kau, has been virtually broken up in Honolulu, say the police, largely because of a decision of Judge Monsarrat several months ago, to which attention was drawn in the Star-Bulletin when it was made.

"There isn't a pai-kau game of any size running in Honolulu now," said McDuffie this morning. "The police now have something to go on in a campaign against che-fa and this decision will help to break it up."

McDuffie said today that the che-fa epidemic has broken out within the past two months and that it has taken considerable time to get evidence sufficient to secure a court conviction. Attorney Chillingworth declares that the lower court's decision will be sustained on the appeal since it is a certainty the ticket-sellers contribute to the support of the game or "banker" they represent.

The Ah Lam case has been under consideration by Judge Monsarrat for several days. The evidence showed that one K. Kane paid Ah Lam 15 cents for two "che-fa words." Kane was arrested by the police about that time with the tickets in his possession. On cross-examination Kane testified that he had received no winnings on the words, but the prosecution proved that the words were those used in the che-fa game.

The defense offered no evidence and moved to discharge Ah Lam on the ground that no evidence had been ad-

duced of assisting or maintaining a che-fa game. The case was argued and the judge took it under advisement, later holding that the evidence was sufficient. This morning after further study Judge Monsarrat reaffirmed his decision, definitely declaring that sufficient evidence had been brought to find Ah Lam guilty and imposed the heavy fine of \$250. Attorney Rawlins will contend on the appeal, it is understood, that there is a statute covering the selling of the gambling tickets and that the Chinaman had not been found guilty of assisting and maintaining a game.

Gamblers Lose Another Fight.
Another fight by the devotees of che-fa was lost yesterday afternoon when an all-afternoon session of the police court resulted in the imposition of fines aggregating \$410. A bevy of accused men were tried and in nearly every case Deputy Attorney Chillingworth won a conviction. The session did not end until 5:40 o'clock. At this session Judge Monsarrat held that admissions of evidence about games could not be made unless the prosecution first proved the existence of the games in question. Deputy Attorney Chillingworth said today that he agreed with the judge's attitude. He also took occasion to praise the judge for his rulings yesterday, which, he said, will help greatly to stop gambling.

Incidentally, Judge Monsarrat today let it be known that he is going to break up as much as possible the delays in cases due to many continuances. There has been considerable complaint of the dragging of trials. The judge said from the bench today that continuances will be granted hereafter only for very good reasons.

JUVENILE CASES WILL GO BEFORE JUDGE ASHFORD

A. G. M. Robertson, chief justice of the supreme court, today designated Clarence W. Ashford, first judge of the circuit court, as judge of the juvenile court. Judge Ashford also has been designated judge of the land court.

In the past the juvenile and land courts have been presided over by Judge William L. Whitney, who has been notified that the attorney-general will not recommend his reappointment as second judge of the circuit court. Judge Whitney has transferred the divorce and probate matters to Judge T. B. Sturges court.

Judge Whitney has been granted a 30-days' leave of absence by the department of justice. In company with

POLLING PLACES FOR TUESDAY'S ELECTION NAMED

At the request of voters the Star-Bulletin herewith republishes the list of polling places for next Tuesday's election:

Fourth Representative District.
First precinct polling place, corner of Waiatale and Kapahulu roads—Moreno K. Huh (chairman), David Martin, John Guild.
Second precinct polling place, corner of Kalaikoa avenue and Kalia—John Kaimi (chairman), Geo. H. Karratti, David Halemano.
Third precinct polling place, corner of Punahou and Wilder avenue—W. T. Schmidt (chairman), Geo. B. Maile, J. J. Sullivan.
Fourth precinct polling place, corner of Keeaumoku and Wilder avenue—Chas. T. Littlejohn (chairman), John S. Markham, Joseph Richard.
Fifth precinct polling place, Thomas Square—Alan J. Lowrey (chairman), Rudolph L. Auerbach, W. K. McPherson.
Sixth precinct polling place, corner of South and Kawaiahao streets—Thomas E. Saffery, Jr. (chairman), Victor Kallilui.
Seventh precinct polling place, near Kapuwaia building—J. A. Lawelawe (chairman), Philip K. Kaauwai, Chas. A. Yarek.
Eighth precinct polling place, Emma Square—Mannell J. Serpa (chairman), Henry H. Williams, Dick K. Diamond.
Ninth precinct polling place, corner Beretania and Fort streets—R. H. Worral (chairman), Sam A. Macy, Solomon Kuala.
Tenth precinct polling place, corner Nuuanu avenue and Bates street—Charles S. Weight (chairman), J. B. Souza, Moses K. Palau.
Eleventh precinct polling place, Waimanalo schoolhouse—No candidates, no inspectors.
Twelfth precinct polling place, near Punchbowl street bridge over Pauoa stream—Benjamin H. Clark (chairman), Herman G. Lemke, Geo. McCarrison.
Fifth Representative District.
First precinct polling place, courthouse at Kaneohe—Otto Carl Ludloff (chairman), Joseph K. Adams, John W. Waiho-e.
Second precinct polling place, Waihole schoolhouse—James K. Paele (chairman), Frank L. Kaleimamahu, Joseph Roberts.
Third precinct polling place, Yin Sit Clubhouse, Punaluu—Samuel Kahohe (chairman), Sam M. Nihipali, L. M. Keanui.
Fourth precinct polling place, restaurant near railway station at Kahuku—R. T. Christoffersen (chairman), H. K. Oana, Gus Kalehano.
Fifth precinct polling place, Waihua courthouse—Allan McKinnon (chairman), Robert W. Holt, Charles Kukea.
Sixth precinct polling place, Waihua courthouse—Joseph Schumelster (chairman), James Kalani, Samuel Mapu.
Seventh precinct polling place, Ewa pavilion—Adolph Muller (chairman); E. A. Hiwauli, D. Kuhimana.
Eighth precinct polling place, Ewa courthouse—Guy L. Duckworth (chairman), Philip Manuel, Geo. J. Wond.
Ninth precinct polling place, Kahlia pumping station—H. Kapela (chairman), H. W. Cleveland, Geo. Kaia.
Tenth precinct polling place, Kallihwaena schoolhouse—Simeona K. Nawana (chairman), Wm. Akerman, James Wright.
Eleventh precinct polling place, King street near Kaulani school—Sol K. Fukumura (chairman); Horace N. Crabbe, Wm. K. Kalehaha.
Twelfth precinct polling place, corner of Kuakini and Nuuanu avenue—Walter L. Emory (chairman), D. K. Aona, A. K. Aona.
Fourteenth precinct polling place, Vineyard street on west of Nuuanu stream—Samuel Kaaloa (chairman), John K. Noley, E. L. Kauai.
Fifteenth precinct polling place, Aala park—A. R. Fitzsimmons (chairman), Wm. H. Knox, Ching Alai.
Sixteenth precinct polling place, Wahiawa schoolhouse—William B. Thomas (chairman), James H. Peterson, A. R. Fitzgerald.
Seventeenth precinct polling place, schoolhouse at Watertown—A. S. Cantin (chairman), Chas. A. Wills, John Kallilui.
Mrs. Whitney he will leave for San Francisco in the Sierra tomorrow. Judge and Mrs. Whitney will visit with friends in California and see the fair before returning to Honolulu.
"I haven't the slightest idea who my successor will be," said Judge Whitney today. "All I know is that the department has informed me that he may be appointed within 30 days."

Manganese ore shipments from Spain, which totaled 29,232 tons during the first 11 months of 1912, and 22,871 tons during the 1913 period, dropped to 8,315 tons during the 11 months of 1914.

Schuette, Mass. has won the prize offered by the Massachusetts Forestry Association to the city or town in the state making the best showing in the planting of shade trees. Additional trees constituted the prize.

RILEY H. ALLEN - - - - - EDITOR

FRIDAY.....JULY 2, 1915.

A REQUEST FROM U. S. S. PRINCETON.

Save your old magazines and newspapers for the boys of the U. S. S. Princeton!

From Samoa comes the earnest request for reading matter. The gunboat Princeton is stationed there and it's an isolated station. Reading-matter is scant. Amusements are few. The people of Hawaii are given an opportunity to do something that requires only a little effort for the Princeton and her officers and crew.

Tons of magazines and newspapers are thrown away each month in Hawaii. Why not send a lot of this reading-matter to the Princeton? The Star-Bulletin will be glad to help by receiving such matter and forwarding it to Tutuila on the Ventura, sailing July 12. Send your packages of old magazines or papers to the Star-Bulletin office, Alakea street, addressed "For the U. S. S. Princeton," and they'll be sent to the boys of the Princeton down in Samoa.

TURKEY'S DETERMINED STAND.

Turkey's determined resistance to the attack of the Allies on the peninsula of Gallipoli is surprising a good many of the military experts. As a matter of fact, recent Associated Press advices indicate that the best-trained and equipped men of the Ottoman empire have been picked out to guard the Golden Horn from the attacks of the "unbelievers." The Turkish ministry of war places the total of men under arms at present at 1,322,000.

More conservative estimates in Constantinople give the number as about 800,000. This includes 200,000 Christians who are being used for digging trenches and building railways, roads and bridges.

The actual fighting men are divided into five armies. The first, encamped at Adrianople and around Constantinople under von der Goltz, is said to be about 100,000 strong. The second, under Djemal Pasha, aims at Egypt with 150,000 men. The third is located around Bagdad with 50,000. The fourth, in the Caucasus, numbers 180,000, while the fifth, estimated at something over 100,000, is operating in the vicinity of the Dardanelles.

Probably the best-equipped troops are gathered around Constantinople, which is also admirably defended by concentric rings of up-to-date fortifications. An excellent battery has been placed in position immediately below the mosque of St. Sophia.

Although the German advisers of the government have taken over practical command of military affairs, they make no attempt to meddle in police and civil matters. The press censorship, for example, is under Turkish auspices, and correspondents, even from Germany, are handled ruthlessly. Thus the correspondents of the Cologne Zeitung and the Duchess Arnee Zeitung have been interned at Konia, the correspondent of the Nuen Freie Presse has been condemned to a year's imprisonment, and the representative of the Berlin Tageblatt has been expelled.

CONCENTRATE EFFORT.

It is beginning to be perfectly plain that the convention of delegates called to revise the city charter will oppose drastic changes. There will be in particular strong opposition to anything that looks like the "short ballot system." In other words, the majority of sentiment in the convention is going to be against reducing the number of elective offices. While cities on the mainland are generally going in the direction of centering responsibility and eliminating as much politics and patronage as possible, Honolulu continues to elect the head of its police department, the city clerk and city attorney, three officers which in many municipalities are appointed. The advocates of a shorter ballot will have to concentrate on one or two of the reforms most needed if they are to get anything out of the convention except superficial patchings.

LITTLE CHANCE OF A SPECIAL SESSION.

Though the Maritime Association, representing domestic and foreign shipowners and managers, hopes for a special session of Congress to relieve the burdensome legislation that goes by the name of the Seamen's bill, there is little chance that the administration will consent to such a move.

In the first place, President Wilson is likely to tell the shipping industry to show that it is seriously hurt before asking for relief. That

is, in effect, what has been told the sugar men. In the second place, the president is known to be opposed to a special session of Congress on account of the international situation.

He feels, and his few intimate advisers are also said to feel, that there is no need for Congress and that the American people have had enough legislation for awhile.

Unless America should become involved in war and emergency legislation should be necessary, a session of the national lawmakers, with their proclivities for making personal and political capital out of every situation, might do definite harm. No one will deny that the president is keeping the Ship of State on a remarkably even keel in view of the heavy weather, nor does it appear that the gratuitous advice with which Congress abounds would help the chief executive any at this time.

Undoubtedly the seamen's bill is going to be a hard blow to American shipping—already is, in fact. But President Wilson is not inclined to reverse legislation enacted or even decided upon, and the shipping men will have to make up a pretty strong case to get a special dispensation now.

From the facts now known, the sinking of the Dominion liner Armenian was justified by international law and the usage of warfare. The liner was ordered to halt, which would have given her crew and passengers time for escape in case the German submarine found her carrying contraband and decided to destroy her. Instead of halting, the steamship tried to escape and was then torpedoed. In this case the German submarine observed the humane custom that President Wilson has insisted upon. The sinking of the Armenian should be an example to other belligerent ships, particularly those carrying passengers or crew of neutral nationality.

The Tampa, Florida, Times observes: "The politician to the newspaper man: You go ahead and do it; we're afraid we'll make somebody mad. Ever have that 'heroic' statement buzzed into your ears, good people?" The Miami Metropolis comments: "To which The Metropolis cannot only send back a much reiterated yes, but can even substitute for 'politician' the term 'good citizen.' Ever have a 'good citizen' urge you to raise Cain about some condition 'but don't use my name'?" Honolulu newspapermen recognize the type.

The most plentiful war-supply of the battling nations of Europe is human lives. Ships, guns, ammunition, food may fail but men to die are available in abundance.

The man who was smart enough to "put one over" on those wise and experienced brewery directors certainly is too wise to get nabbed at this stage of the game.

Perhaps the administration mariners are beginning to realize how much it will rock the boat to jettison the country's sugar industry.

Some folks go to the coast for a vacation, some on business and some just naturally clear out for extremely personal reasons.

Mexican situation's effect on the high cost of living is noticed in the market quotations on gold braid and high boots.

Apparently the city charter convention is to be nothing but a little mental exercise—and mighty little at that.

The smallest republic in the world, San Marino, is also going to war. What does it want?

Doubtless the "wets" will attribute Russia's reverses to the fact that the nation has gone dry.

Dr. Dernburg and Col. Roosevelt have not shattered the silence for several days.

Meanwhile America is feeding Germany's conquered domain, Belgium.

Davy Jones will have to build an addition to that locker.

Now if nothing happens to torpedo the sugar market—

We notice they're fighting about Bagatelle again.

The Thaw millions are clearly not insane.

MERCHANTS TO FINANCE TRIP OF SWIMMERS

Six Men Instead of Four to Represent Hawaii at Exposition Meet

Six swimmers, instead of four, as originally planned, will represent Hawaii in the Panama-Pacific meeting at San Francisco this month. Lawrence Sunba and Lukea Kaupilo are the two men added to the team, the original four being Duke Kahanamoku, George Cunha, Harold (Stabby) Kruger and Clarence Lane.

The sending of a Hawaii team to the exposition meet was made possible by the generosity of some of the leading local firms, who came through with enough money to make out the scanty allowance made by the exposition committee. A week ago it looked as though the trip might fall through because the San Francisco people were willing to donate only \$300 toward expenses. It was figured that \$1100 would be necessary to finance a team trip, and W. T. Rawlins, president of the Hawaiian branch of the A. A. U., went to the Chamber of Commerce regarding a subscription to raise the \$600 lacking. The advertising and subscription committee of the chamber gave hearty endorsement to the plan, and the money was raised in a short time. The swimmers leave in the Sierra tomorrow.

"Honolulu," the Chamber of Commerce monthly magazine, has the following comment on the subscription plan: "The advertising and subscription committee have endorsed to plan to solicit funds in the sum of \$600 with which to send Duke Kahanamoku and five team mates to San Francisco so as to participate in Exposition swimming races on July 16 and 17. Kahanamoku is a champion, a world's champion, and the people of Hawaii should contribute as liberally as possible to see that he is kept before the public. It's Promotion. It's boosting for Hawaii. It's helping to place Hawaii more solidly on the map."

Y. SOGA, editor of the Daily Nippu Jiji, will be a passenger on the outgoing Sierra tomorrow noon. Mr. Soga goes to attend the international editors' conference at San Francisco. He will return early next month.

Personal Mention

JAMES STEINER, retired capitalist, who is leaving on the Sierra next Saturday for New York, will go through the canal by one of the Panama-Pacific steamships. He is taking with him much advertising literature from the islands.

PETER KALANI, new leader of the Hawaiian Band, officially assumed his new duties yesterday morning in a concert at Queen Liliuokalani's home. The queen, in a little speech, thanked him and wished him success in his new work.

MASTER EZRA CRANE, who has been mascot of the Stanford baseball team, leaves for the mainland tomorrow with Captain Workman, the Stanford captain. He will return to Honolulu in the fall, in time to take up his work at Punahou when school opens.

"AN ELK IS NOW A COW"—MAYOR LANE'S COMMENT "An elk is not a cow," said Mayor Lane at the Kapiolani park zoo yesterday, where he went to investigate the complaint of a member of the local lodge of Elks that the elk (animals) at the park are being starved.

"Aole, an elk is not a cow," he repeated as he gazed at the sleek and well-built animals at the zoo. "Some people think that an elk should be fat like a cow or a hog, but they are devoid of knowledge of animal nature. An elk should have enough to eat, but it should not be fat like a cow."

The verdict of the mayor is that the elk are having plenty of grub shoveled through the fence at meal times.

"You must remember Miss Banks—just think a moment." "Oh, the rich girl!" "Yes; she's engaged to Jack Cadley." "Oh, the poor girl!"—Boston Transcript.

A Norwegian scientist has advanced the theory that Saturn's rings are electrical phenomena, produced by the radiation of luminous particles from the planet, which consistently renews them.

Of the estimated Argentine corn crop for 1914-15 of 8,591,645 metric tons of 2,204.6 pounds, 3,372,220 tons will be required for home consumption and seed, and the remainder will be available for exportation.

Sugar exists not only in the cane, the wet root and maple, but also in the sap of about 190 other plants and trees.

LITTLE INTERVIEWS

—A. EDWARD MURPHY: I read this morning that I am going to San Francisco to see the exposition. No such luck!

—L. B. REEVES: I have discovered another graduate from the New York state nautical school. He is "Drydock" Smith of Pearl Harbor, who was a cadet in the schoolship Saint Marys.

H. D. L. PERRY, in charge of advertising for B. F. Ehlers: The advertising talks being run in the Star-Bulletin are certainly fine. They are well worth the while of any business man to read.

—HARBOR OFFICER CARTER: There is not much difficulty in securing men to man the several sailing and steam vessels at the port at present. There are plenty of deep-water seamen on the beach awaiting a berth.

—HENRY VAN GIESON: Everybody should get out and vote at the special election for the selection of delegates to the charter convention. The election will be held Tuesday, and the polls will be open at the usual hours.

—JOHN F. HALEY: Honoluluans should remember the sailors of the Samoan islands and send them the magazines asked for through the Star-Bulletin yesterday. We have lots of reading matter that they would very much appreciate.

—A. P. TAYLOR: The Promotion Committee will be very glad to cooperate in the good work of sending papers and magazines to the sailors on the Princeton at Samoa. Persons who have literature to contribute, may leave it with us, and we shall forward it to the Star-Bulletin for shipment.

—CAPTAIN CALBOURDIN: The French bark Francoise d'Amboise will leave about 400 tons of its coal behind. This represents a portion of the fuel damaged by fire. If any repairs to the vessel are found to be necessary, they will be made on the coast.

—SUPERVISOR LARSEN: At last I have learned how to fool these newspaper fellows. One of them came to me today to get me to say something about the playgrounds or some such thing and I says to him, says I: "I am non-committal," and he walked away trying to figure out what I meant.

—MAYOR LANE: The shrubbery along the Diamond Head road should be cut down so that those passing along the road can enjoy an uninterrupted view of the sea beyond. The shrubbery is not pretty to look at anyway, and it should be removed. I shall have the matter brought to the attention of the roads committee.

—EDWARD K. WOODWARD: At last I am through with my labors as clerk of the house of representatives, and am now back on the job as secretary to Mayor Lane. I will continue to administer the duties of my office, which are the passing out of stogies to voters, and announcing visitors, and also writing a couple of hundred letters a week.

—J. H. PARRENT, Ex-Chief of Police of Ocean Park, Cal.: The detention home at Ocean Park, during my stay the past three years, has done more good for the poor children of the city than any other institution in the place. We have there a beautiful home which cost us nearly \$30,000. I love your islands and your city, and am planning to make my home here, providing I can make the proper arrangements. I weigh 300 pounds, but the hot weather hasn't "got" me yet.

—CHARLES R. FRAZIER: It is unfortunately true that the candidates for the city charter convention have said little or nothing regarding their ideas, so that the voters who are asked to elect these men don't know what views they represent or whether they have any views on the subject of revising the charter. Only one or two have said anything, though I notice that the Star-Bulletin two weeks ago threw its columns open to the candidates for an expression of their opinions. I hope that before next Tuesday some of these men who are asking to be sent to the convention will make a public statement of what they expect to do when they get there.

A Norwegian scientist has advanced the theory that Saturn's rings are electrical phenomena, produced by the radiation of luminous particles from the planet, which consistently renews them.

INDICATES MORE THAN HAWAII HAD EVEN DARED HOPE

(Continued from page one)

opinions of individual congressmen who visited Hawaii this spring. However, their opinions may have value, just as straws point the way in which the wind blows. I, personally, doubt whether the next Congress will take any action save possibly to advance the date for free sugar from May 1 of next year until the spring of 1917.

"Granting the correctness of the despatch, and that those quoted but not named have weight and authority, immediate sugar prices would probably not be much changed, because present prices are determined by the European war, and have no relation to the tariff as it exists today."

A. M. Nowell, secretary and manager of the Sugar Factors' Company, Limited, took a different view of the situation.

"The treasury officials have known of this condition for a long time," he said. "The question is, can they convince Congress? For my part I think it possible, but I am not hopeful on the point, that there may by next May be some delay in the going into effect of the free sugar proviso."

"I think it best to plan all business affairs as though we were certain to be faced with free sugar," says Fred L. Waldron, president of the Honolulu Chamber of Commerce, "though I am decidedly hopeful that the free sugar clause will never actually become law."

"It seems to me that some such action as is outlined in the Washington despatch is not only necessary, but the only logical thing to do. The Democrats need not admit that they have made a mistake on the sugar question. They can say that the treasury officials have made a plain case, and that the retention of the sugar duty is made necessary by the

Leading Jewelers

depletion of national revenues due to the disruption of trade incident to the European war.

"Personally, I think 'Hawaii's luck,' which has become proverbial, is not going to desert her now."

The necessity for the retention of the sugar tariff is ably set forth in an editorial of the July issue of the Chamber of Commerce publication "Honolulu," which made its appearance today. The editorial says:

"At the moment when events are demonstrating the necessity of large expenditures by the government of the United States to provide a larger and more adequate navy and for other features of national defense, figures become available showing, under the tariff rate now in force, that sugar contributes \$50,000,000 a year toward the support of the Federal Government. On May 1, 1916, if the present law remains unchanged, this \$50,000,000 of annual income is to be dropped. In the present situation it is worth while to consider how consistent and reliable a Federal income producer the sugar duties have proved themselves throughout the past 20 years, and to call attention to the fact that there is yet time to amend the present law so that sugar may continue to be used to raise its usual proportion of the national income without disturbing existing fiscal conditions one iota."

JUNEAU WILL BECOME HONOLULU OF ALASKA, SAYS MINING EXPERT

F. W. Bradley, Now at Moana Hotel, Thinks Route of Government R. R. Well Chosen

The American government has made a wise choice in the location of the new Alaskan railroad, according to Frederick W. Bradley, mining expert and mine operator of 16 years' experience in the northern gold region. Mr. Bradley is stopping with his family at the Moana hotel.

"Government engineers have been making a study of the district for a long while," says Mr. Bradley, "and it was their report which led the government officials to this choice. The road will run first from Seward to the Matanuska coal fields, and ultimately on to Fairbanks on the Tanana river, where navigation is possible in the summer season to all the important inland points of Alaska."

"The Seward peninsula road will open up what promises to be a great gold mining region, where there are many small mines now in operation. These the government will develop further and assist in starting new ones."

"The Matanuska fields, while they are further from tidewater than the coal fields of the Bering region," Mr. Bradley says, "are very much larger

than the latter and contain as good a quality of coal. In fact, tests so far go to show that the region can be worked with more mines than the Bering district."

"The Guggenheim and Morgan interests wished the government to take the route up the Copper river, of course, because it is there that they have spent \$20,000,000 on a road of their own, but all other interests know that the route finally chosen is much the better."

Mr. Bradley has been operating gold mines near Juneau, known as the Douglass Island group. He is also interested in the Alaska-Juneau property on the mainland. In his opinion Juneau, because of its rich resources and its splendid location, is the coming city of Alaska.

"Two old Honolulu boats, the Alameda and Mariposa, are on the Alaska run," continued Mr. Bradley. "They are under the registry of the Alaska Steamship Company and are still doing good service."

"Steamer day is about the same in Alaska as it is in Honolulu, save for the leis and the music. Everybody turns out to see the boat, and it is a time of general excitement. In the summer season our boats often average one each day, but after the rough weather sets in they come generally but once a week."

DO YOU OWN ANY SILVER DOLLARS BEARING DATE OF 1884 OR 1885?

Some men are born lucky, some achieve luck and others have luck thrust upon them—and then see it go glimmering.

Down at one of the local trust companies a certain bookkeeper of J. Rufus Wallingford instincts, ran across a little card the other day upon which was printed the value of various rare coins. Upon this card he read the statement that United States silver dollars coined in the years 1884 and 1885 were worth respectively \$25 and \$40.

The bookkeeper, feeling sure that he had seen some such coinage about the office, kept the secret to himself and collected, meanwhile, all the dollars of the above mentioned dates that he could find.

At the end of two weeks, by trading and borrowing, he had succeeded in getting within his own individual col-

lectors something more than a score of these ancient silver simoleons. Hasty figuring showed the bookkeeper that his coins were now amounting to some \$600 or \$700.

About this time, being able to keep his secret no longer, the happy bookkeeper took a few of his friends into his confidence and his find was soon known to all the clerks of the office. For a time excitement ran high and the would-be Wallingford was the envy of his fellows, who at once began collecting little silver bank deposits of their own.

At last someone more thoughtful than the rest took the pains to look up the authority of the little card which had borne the good news and found that what the printer had intended to put on it was in reality "silver trade dollars" instead of mere silver dollars of 1884 and 1885!

It is said that no one can breathe at a greater height than seven miles from earth.

MAYOR FAVORS FIGURING FOR COMING YEARS

Would Be Shortsighted Policy Not to Purchase Bishop Estate Lots for Playgrounds

Mayor Lane heartily indorses the plan of the Honolulu Kindergarten and Children's Aid Association for the establishing of a park and playground system for the children of Honolulu. The Bernice P. Bishop estate has offered three playgrounds to the city at prices which the mayor believes are reasonable.

"We must figure for the future," the executive says. "Supervisor Hollinger's scheme for making a playground from a section of Aala park is all right for the present. But we are not worrying much about the present, but must look forward to the future of the city. Ten or 15 years from now Aala park will not be large enough as a park, much less affording sufficient acreage for a playground."

"The offer of the Bishop estate is reasonable enough. Ten or 15 years from now the prices may be doubled, certainly they will not be less than the present prices."

Asked what scheme he thought would be most feasible to accomplish the purchase of the playgrounds, the mayor said:

"That is the problem. That is for the financier of the board, Supervisor Shingle, to work out. The matter of the purchase of the playgrounds was referred to the roads committee, of which he is chairman, and I believe he will work out some satisfactory arrangement whereby we can get title to the Bishop playgrounds, whether by issue of bonds, or by direct purchase, or by other means."

FRIDAY NIGHT DINNER-DANCE AT HEINIE'S

If you would enjoy yourself, don't miss the Friday evening dinner and dance at Heinie's Tavern this evening. As usual the dinner will be up to par and as for the music and dancing everyone knows that that is always a pleasure at Heinie's.—Adv.

"I'll have to arrest you," said the policeman. The man who was having trouble with his wife threw both hands around the officer and exclaimed: "This isn't any arrest. This is a rescue."—Philadelphia Ledger.

MANAGE MAUI LIBRARY FOR SUMMER VACATION

(Special Star-Bulletin Correspondence)

WAILUKU, Maui, July 1.—At a recent meeting of the administration committee of the Maui Library Association, it was decided to engage Mrs. Laura C. Hillmer to take charge of the Maui library beginning July 15 until September 1. She will live at the Alexander house in Wailuku.

At a meeting of the Alexander House Settlement committee held today it was voted to undertake the complete repairs upon the home where the workers reside. These will be begun about August 1, so that the house may be

in first-class condition for the new workers who will arrive early in September. It was also voted to grant Mrs. W. M. Weddick a vacation of two months. She will go to the coast for a three months' trip. The last month of her stay away she will provide a substitute in her position as matron at the Alexander House gymnasium.

MAY'S GROCERY WILL BE CLOSED MONDAY

Henry May & Co., Ltd., will close Monday for the celebration of the Glorious Fourth. Orders should be phoned early to 1271.—Adv.

THE PALACE OF SWEETS

"The Oasis Beautiful"

CORNER KING AND MAUNAKEA STREETS

Honolulu, T. H., July 2nd, 1915.

To the people of Honolulu,
YOU IN PARTICULAR:

We respectfully beg to announce the grand opening of The Palace of Sweets, tomorrow morning July third, also, to extend you a cordial invitation to honor our opening with your presence.

A Hawaiian orchestra will furnish a musical program, in keeping with high standard which we expect to maintain, in every department of our business.

The equipment and furnishings of The Palace of Sweets are the most modern and beautiful of their kind, in Honolulu.

We shall strive to maintain a service as faultless as our products.

We feel that in opening our doors, we are answering a long-felt want, of the particular people of this City, namely, a strictly first-class, modern and well-conducted confectionery store.

Trusting that you will favor us with a visit upon our opening day, we again extend you a most hearty welcome to,

The Palace of Sweets

COST OF METER MAINTENANCE IS MOST IMPORTANT

Purchase Price Not so Vital as Upkeep Charges, Declares Superintendent Murray

Superintendent Harry Murray of the water and sewer works department maintains that the city should use great care in selecting the type of meter for general use throughout the city, and that the operating expense of a meter should be the main issue in selecting the type, and not the purchasing price.

Shipping & Waterfront News

ITALY EXPECTED TO USE GERMAN VESSELS HURRICANE WILL MAKE SONOMA OVERDUE

LONDON.—From the standpoint of freight markets the intervention of Italy means a substantial increase in the world's available tonnage. According to Lloyd's List, 36 German vessels and 21 Austrian vessels have been interned since 1st August in Italian ports, and these ships will now presumably be seized and put into commercial use.

BOTTLES CARRY NOTE IN FIVE LANGUAGES

Should a buoyant, meandering beer-bottle be met on the high seas by mariners on transpacific passenger and freight steamers, it is expected that it will be hailed as a priceless treasure, while every effort will be made by officers to recover it.

LOSS OF SUBSIDY MAY BE BACK OF CHANGE

The refusal of the Japanese government to renew a substantial subsidy to the Nippon Yusen Kaisha to operate six passenger and cargo steamers between Puget Sound and Japan and China at the beginning of the year, is now believed to have prompted the management of the largest Japanese-owned steamship company to divert a number of its vessels to a trade from the east coast of the United States to Japan or Siberia.

HARBOR NOTES

Sailing from Port Angeles, Wash., the schooner A. M. Baxter carried lumber for delivery to Hilo. The arrival of the schooner E. B. Jackson with coal from Newcastle, N. S. W., is expected daily at Port Allen.

Kestrel Off to Southern Seas. To be gone six weeks on a cruise to Fanning and Washington Islands, the British steamer Kestrel left port this morning taking R. M. Pitt, manager of the Armstrong & Armstrong copra estates, as a passenger. The Kestrel was heavily loaded with a cargo of supplies and building material for the plantations. Mr. Pitt expects to remain several months in the south Pacific. Suitable quarters will be erected at Washington Island. Another building is planned for one of the islands in the Gilbert group where much of the recruiting of laborers has been conducted in the past.

NEW MINISTER BEGINS WORK AT CHURCH AT HANA

(Special Star-Bulletin Correspondence) WAILUKU, Maui, July 1.—Rev. George E. Lake of Hana, who is now the missionary of the Hawaiian Board for the east side of Maui, began his services at the Hana church last Sunday. A large audience greeted the new minister and his work opened most auspiciously.

Mr. Lake is hard at work directing the repairs and enlargement of the Hana church parsonage, which is located in the same yard as the fine old church building. Two new rooms are being added and partitions are being removed from the interior of the parsonage so as to make it a very pleasant house. An acetylene gas plant has been donated for the use of the minister. It is possible that at some later time pipes will connect with the church so that the church can be used in the evening.

Mr. Lake will be the pastor at large of the Hana district and will visit Kaupo, Kihapulu, Nahiku and Keanae also, preaching occasionally in each of these churches. Mr. and Mrs. Lake is the house guest of Mrs. Rowland B. Dodge of Wailuku for a few weeks until the new parsonage is ready for occupancy. Mr. Lake will attend the annual meeting of the Evangelical Association at Honolulu. Mrs. Lake will accompany him. Directly after the meeting it is expected that he will enter upon his duties throughout the Hana district.

BOTTS SAVES MONEY FOR CITY ON STEEL PURCHASE

Purchasing Agent Botts continues to make financial savings for the city. The city engineer's department was of the opinion that a local steel supply firm was the only concern which could furnish steel for the Waialeale bridge. Botts thought differently and called for bids. The local concern bid \$895, while another company offers the steel for \$600, a saving to the city of \$295. Botts reported today that the purchasing department will effect a saving of \$2600 on fuel oil for the next six months.

KING'S DAUGHTERS HOME HAS SUCCESSFUL YEAR

The King's Daughters' Home is in splendid financial condition, as is shown by the report for the month of June, which ends the fiscal year. At the beginning of the year there was on hand the sum of \$2136.89. The receipts during the year were \$4395.47 and the expenditures \$4264.51, which leaves a balance on hand for the closing year of \$2267.85. The officers of the home are: Mrs. W. L. Hopper, president; Mrs. Edith Perkins, vice president; Mrs. H. H. Williams, secretary, and Mrs. Lilla G. Marshall, treasurer.

China last year opened 992 new post-offices.

Keep Your Lungs Strong

This advice is doubly important with the knowledge that every three minutes some one in the United States succumbs to consumption and many refuse to realize they are afflicted until it is too late. It is after colds or sickness, from overwork, confining duties or when general weakness exists that tubercular germs thrive because the resistive powers of the body are weakened.

Only with fresh air, sunshine and abundant rich blood can one hope to arrest their progress, and the concentrated fats in Scott's Emulsion furnish fuel for rich blood, and its rare nourishment helps strengthen the lungs while it builds up the forces.

If you work indoors, tire easily, feel languid or run-down Scott's Emulsion is the most strengthening food-medicine known and is free from alcohol or stupefying drugs. Avoid substitutes. Scott & Bowne, Bloomfield, N. J.

TRAINING SHIP FROM JAPAN IS EXPECTED HERE

Taisei Maru, With About 100 Cadets, Will Probably Arrive From Coast This Month

The local Japanese colony is prepared to accord a warm and enthusiastic welcome to 100 or more officers and cadets recruited by the Japanese Mercantile Marine school who have started on an extended cruise in the Pacific, with the intention of paying a brief visit to Honolulu, late in July. Before the Toyo Kisen Kaisha liner Chiyu Maru sailed from Yokohama for Honolulu, it was announced that the Japanese mercantile marine training ship Taisei Maru had sailed from Shingawa for Yokohama to take supplies sufficient for at least four months.

The Taisei has paid former visits to the islands, but has not been in these waters for some years. It is one of several vessels in the training fleet which are kept almost constantly cruising in the north and south Pacific. Its graduates readily find good berths in commercial vessels flying the Japanese flag.

Many Japanese officers in the Toyo Kisen Kaisha and the Nippon Yusen Kaisha have won their way from raw recruits to official station after a few years spent in study and an active participation in first-hand maritime experience as cadets in the training squadron. The graduates now making the present trip in the Taisei Maru are to be taken to San Francisco where they will be given ample opportunity to see the Panama-Pacific exposition. The trip may be extended to include a call along the California and Mexican coast.

The Taisei Maru is said to have been equipped with auxiliary power. The time of its arrival here is uncertain. It is expected the latter part of the month if its present itinerary has not been changed. Crossing the Pacific eastbound it took the southern route, via Samoa.

THEATRICAL OFFERINGS MARIE DORO NOW ON LIBERTY FILM

Paramount pictures make claims of being the best productions in the motion picture world and the photoplay going public—which is nearly everybody—expects just a little more in a Paramount than in almost any other feature. William J. Locke's delightful book, "The Morals of Marcus," has been arranged for the camera by the author himself and is being presented at Ye Liberty theater for the last half of the present week. It is a Paramount picture and features Marie Doro.

'DEEP PURPLE' IS FULL OF 'PUNCH'

"Punch" is the word that best expresses the photoplay offering, "The Deep Purple," which opened at the Bijou theater last night. Action from start to finish is the order of things in this story of the underworld. For months this pair of practical dramatists mingled with the crooks and lived in crookdom, drawing their characters from real life and laying their plots and counterplots from actual experiences related by "cronies" cultivated while looking for "copy." Clara Kimball Young, featured as Dorris Moore, the country girl who becomes enamored of one of the "con men" tribe and leaves her home upon his promise of marriage when they reach New York, is a charming little actress.

'TILLIE' IS BACK IN HER ROMANCE

Charles Chaplin and Marie Dressler will make their farewell appearance in Honolulu at the Hawaii theater in "Tillie's Punctured Romance," and will make that appearance at popular prices, within the reach of all. Details are told elsewhere in this issue in the advertisement of the Hawaii theater. Commencing next Monday morning at 10:30 o'clock, "Tillie's Punctured Romance" will start on its final week in this city. And, a new feature, at least new to local theatricals, will be that this offering will be a continuous performance. From 10:30 a. m., until 11 p. m. this laugh-gathering, mirth-provoking comedy will be continuous, ly wound and unwound.

TEACHERS SEE SUNSET FROM HALEAKALA PEAK

(Special Star-Bulletin Correspondence) WAILUKU, Maui, July 1.—A party of young women has just returned from the summit of Haleakala. There were six in all. Miss Charlotte Hall was in charge of the party. She was accompanied by Miss Carolyn E. Church of the Kamehameha Girls' School, Miss Julia Vanpe of the same school, who this coming year will take an important position in the University of Nebraska, Mrs. Gertrude Winterfield, also of Kamehameha, Miss Emma Winslow of the Kamehameha Manual, and Miss Ethel Cosgrove, who last year was at Punahou, but next year will be one of the teachers at the Hilo High School.

Four of the party have been guests at the Wailuku hotel. They were joined by the other two members and left by automobile for Iiowale which they reached at about noon yesterday. Leaving at 1 o'clock they reached the top of it and greatly enjoyed the beautiful sunset. The sunrise was equally fine. They returned by 1 o'clock today and are loud in their praises of the trip and speak particularly of the rest house at the top, which is most comfortable. Tomorrow they will visit Iao valley on a tramping expedition and four of the ladies will return to Honolulu tomorrow evening.

FLOOD OF NEW PUPILS PUT SCHOOL INTO DEBT

Subscription lists are being circulated through the territory to secure contributions to the Man Lun school, a Chinese institution of learning. Money contributed is to go toward a debt of \$1200 which has been contracted during the last year in trying to provide for the rapidly increasing enrollment of students. Plans are also being made to increase the accommodations of the school. Another building is much needed, and there is a dearth of library books, musical instruments and athletic supplies. The school is under the direction of W. W. Ahana, who has done efficient work with it since its opening in February, 1911. The enrollment during this time has increased from 150 to 350 pupils.

ICE CREAM NOT 14 PER CENT O. K. IS HIS DOWNFALL

Japanese Vendor Fined \$20 and Prosecution Hints at Wider Campaign

Vendors of ice cream below standard are likely to be dealt with severely. For a fine of \$20 was imposed in police court today upon a Japanese, Fugikawa, whose offense consisted of selling a frozen substance with only a remote relation to ice cream.

It appears that one of Fugikawa's customers bought some of the alleged ice cream from the Japanese but evidently suspected that it was not what it seemed and took it to Food Commissioner Arthur W. Hansen for analysis. He found that instead of containing the requisite 14 per cent of fats it contained only 3 1/2 per cent. Fugikawa's troubles with the law then commenced. Commissioner Hansen was called to the stand today and on his brief testimony that the ice cream was below the legal standard, the fine was imposed.

In prosecuting the case, Deputy City Attorney Chillingworth said: "There's too much of this selling of ice cream which is below standard. I submit to your honor (addressing the court) that there are a lot of drug stores and some of them not very far from Fort street and King street, that are selling ice cream which isn't up to standard."

SHERIFF ASCH TOLD TO BRING M'GRATH BACK

While John T. Scully is languishing in Oahu prison, serving a sentence of a year and a half for transporting and otherwise handling opium, an endeavor is being made by the city and county authorities to locate J. J. McGrath, one of Scully's pals, who left the territory after a sensational escape from the county prison.

It is understood that Julius Asch, deputy sheriff, who recently left for the mainland for his health, and who now is in California, has received orders from the sheriff's office to endeavor to locate McGrath and place him under arrest. McGrath is wanted for second degree robbery, he having pleaded guilty to the charge in Circuit Judge Ashford's court a few days before his "getaway." It is alleged he took part in an opium transaction at a house in Kalihi which ended up in a Chinaman being robbed of about \$100, and today A. M. Brown, deputy city and county attorney, expressed some doubt as to the authorities ever being able to locate the refugee.

George D. Shearer of San Rafael, Cal., is exhibiting samples of fruit picked from pear trees planted in 1817 by the padres who established in that year the mission San Rafael Archangel.

MOTHER OF SCHOOL GIRL

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health.

Plover, Iowa.—"From a small child my 13 year old daughter had female weakness. I spoke to three doctors about it and they did not help her any. Lydia E. Pinkham's Vegetable Compound had been of great benefit to me, so I decided to have her give it a trial. She has taken five bottles of the Vegetable Compound according to directions on the bottle and she is cured of this trouble. She was all run down when she started taking the Compound and her periods did not come right. She was so poorly and weak that I often had to help her dress herself, but now she is regular and is growing strong and healthy."—Mrs. MARTIN HELVIG, Plover, Iowa.

Hundreds of such letters expressing gratitude for the good Lydia E. Pinkham's Vegetable Compound has accomplished are constantly being received, proving the reliability of this grand old remedy.

If you are ill do not drag along and continue to suffer day in and day out but at once take Lydia E. Pinkham's Vegetable Compound, a woman's remedy for woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WITHDRAWAL OF CANDIDATES NOT OFFICIAL MOVE

By Private Arrangement Republicans are Retiring in Several Precincts, However

If there is a pin in information to induce some Republican nominees at the charter election next Tuesday to withdraw so that the Democrats will be assured of a good minority representation at the charter convention in September, the Republicans haven't heard of it.

"I think that scheme must have been concocted by some one who didn't know what he was talking about," said Chairman Coombs of the county committee, Republican party. "I have heard nothing about it and certainly if the Republican party was considering such a move I would be one of the first to know."

The scheme proposed, according to reports received yesterday, is that where the Republican candidates outnumber the Democratic nominees some of the Republicans should withdraw from the race. For example, in the eighth precinct of the fourth district three candidates are to be elected. A. V. Peters, Charles J. Lund and Lorin Andrews, chairman of the Territorial Republican Central committee, are the Republican nominees, and Jesse Ululhi is the Democratic candidate.

If the plan proposed is to be carried through, then it would be up to one of the Republican candidates in this precinct to withdraw. If the orders came from the territorial committee, then it would be expected that Andrews would be the one to withdraw, setting a good example for the Republicans in the other precincts. At the non-partisan meeting in this precinct, Peters, Andrews and Ululhi were nominated, Lund filing independently. In the first precinct of the fourth district three Republicans are running, while two Democrats are running either independently or as the candidates selected at a Democratic charter election meeting in that precinct. Three Republicans are the candidates of the third precinct of the fourth district, and Francis J. Green is the fourth candidate. He is a Progressive, and three delegates are to be selected. In the twelfth precinct of the same district, three Republicans oppose three Democrats.

In the sixth precinct of the fifth district, Fred Meyer withdrew from the race when he failed to receive the nomination at the precinct meeting after he had filed. In this precinct J. K. Kupau, Republican, and H. P. K. Malulani, a Home Ruler, are the candidates and only one is to be elected. Four other members of the Home Rule party are in the charter race. County Clerk Kalanokalani has spent the last three days delivering election supplies in an automobile, and he reports everything in readiness for the Tuesday election.

Though the withdrawal of certain Republican candidates to allow the Democrats a minority representation is going on as indicated in yesterday's Star-Bulletin, it is not an official party move, but is being done by tacit consent and private arrangement in certain precincts.

JOLLY DANCE AT SEASIDE TOMORROW

Come alone, or bring a friend—but don't miss the nice dance at the Seaside hotel tomorrow evening. Fine floor, splendid music, dandy crowd. Come!—Adv.

MAY & CO. TO CLOSE MONDAY

In honor of the celebration of the 4th of July Henry May & Co., Ltd., leading grocers, will close all day Monday. Open Tuesday as usual. Phone your order to 1271.—Adv.

LOAD OF CRUSHED ROCK MAY APPEASE KAIMUKI

A street corner on Waialae road at the end of the car line threatens to make Albion Clark famous. According to members of the board of supervisors, Albion has had regular visits to the meetings of the board for many weeks, always urging that this particular corner be filled so that when it rains puddles of water will not form.

Mayor Lane was perturbed by the persistence of Mr. Clark, who represents the Kaimuki Improvement Club, and a couple of days ago he ordered the city engineer to fill the obnoxious hole with crushed rock. Fearing that the job might not be satisfactory, the mayor visited the scene of the trouble in his automobile yesterday.

Sore Eyes Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye Free at Druggists or Murine Eye Remedy Co., Chicago
