

WISE COMES OUT FAVORING SHORT-BALLOT CHARTER

To Surprise of Many, He Advocates Radical Change From Present Form

WITH ACHI WILL WORK FOR CONVENTION ACTION

Attitude Expected to Have Much Weight in Shaping of Proposed Legislation

Two active Republicans of the Fourth and Fifth districts are planning to advocate at the coming city charter convention the "short ballot" form of government together with some of the features recently adopted by inland municipalities as the most progressive yet recognized.

John H. Wise and W. C. Achi, both long identified with Republican politics, are at work on a detailed "short ballot" plan, whose main features were announced by Wise today in the course of an interview with the Star-Bulletin.

Wise was elected a charter convention delegate from the second precinct of the Fourth district. Achi was elected from the eleventh of the Fifth. It is generally admitted that these two delegates will have a strong influence on the convention, from long familiarity with local politics and because the convention is made up very largely of men with whom they have been associated in politics here for many years.

When asked what main features of charter revision he would favor at the convention, Wise said:

"I am strongly in favor of the 'short ballot' form of government and I believe it is workable in Honolulu. Achi and myself are at work on a number of suggestions which will be printed and distributed. Our draft will not necessarily be final but will serve as a basis for discussion."

When comment was made that his advocacy of the short ballot would cause a good deal of surprise, inasmuch as he has been generally expected to oppose any radical change in the present charter, Wise replied:

"Nevertheless, I am for the short ballot and both Achi and myself will work for it. You know that Charley was perhaps the original advocate here of the so-called commission form of government. Up to the present time I have not believed a 'short ballot' form could be put through because of opposition among the voters but I believe the time is opportune now. We have a charter convention whose recommendations will carry much weight with the legislature. I believe the convention with proper discussion and deliberation will see the advantages of the 'short ballot' system."

Asked to outline in brief the main features of his plan, Wise said:

"I believe in the election of five commissioners or department heads—the commissioners of protection, finance, schools and health, public works and the mayor, the latter to be chairman of the board. The auditor also should be elected.

"The man at the head of the department of protection would appoint the police chief or the sheriff for this island. The man in charge of finance would appoint the treasurer. The

SAYS CHINESE BOYCOTT WILL NOT LAST LONG

Admiral Wei Han, Supporter of Yuan Shih-kai, Says People are Calming Down

Among the notables on board the Manchuria for the mainland is Admiral Wei Han, retired, a former commander of the Chinese navy, who is taking a band of 14 students to the mainland, where they are to enter American colleges.

Admiral Wei Han, who served for nearly 20 years in the Chinese navy, will himself make a tour of the states on this trip, visiting first the Panama-Pacific Exposition, and going later to New York, Washington and other eastern cities.

The admiral is a staunch supporter of the present administration. He does not think the Chinese boycott of Japanese goods will prove especially serious, or that it will last.

All of the common people were much wrought up, he says, at the time the Japanese demands were being forced upon China, but they are now settling down to a calmer attitude. The newspapers are still doing a great deal in trying to rouse the people, he says.

REPUBLICAN WHO URGES PROGRESSIVE CHARTER BE GIVEN HONOLULU

John H. Wise

CHARGES UTTER NEGLECT OF LAW ON DIM LIGHTS

Raymond C. Brown Sends a Caustic Letter to Sheriff—May Change Back

Charges that traffic and police officers show an utter disregard for the city law against having blinding lights on automobiles, Raymond C. Brown, secretary of the Chamber of Commerce, this afternoon mailed a stinging letter to Sheriff Rose.

Mr. Brown's letter follows, in full:

July 13.

Mr. Charles H. Rose,

"Sheriff of the City and County of Honolulu,"

Atenohu, T. H.

Dear Sir:

"I desire to call your attention to Ordinance No. 56 by the people of the City and County of Honolulu entitled 'An ordinance regulating moving travel and traffic, etc.'," section 32 of which provides, in the second paragraph, 'No headlights shall be used, the rays from which are so powerful or so directed as to blind the sight of an approaching driver or pedestrian.'

"Prior to the first of July, this year, I was led to believe that the section of the ordinance herein quoted was to be rigidly enforced and penalties imposed upon all drivers of automobiles, who were not complying with the letter of its provisions, on and after July 1. In order to myself, comply thereto, I very religiously had the lights on my machine dimmed to meet the requirements, but I little thought that the ordinance was directed against a few, in driving through the streets of Honolulu on last Sunday evening. I was amazed to find so great a number of lights that had not been dimmed. The drivers were going their way with utter disregard for the ordinance and the officers whose duty it is to see that the law is enforced seemed to consider them in the same disregard. I have dimmed my lights with considerable sacrifice to safety. Where formerly I could see the road 100 feet ahead, I can now only dimly see it 10 feet ahead. All this I am perfectly willing to suffer if other automobile owners are compelled to do the same. Thirteen days have now elapsed since the first of July and as far as I have been able to learn, no arrests have been made for infraction of this section and many of us are still blinded by lights from automobiles, the owners of which apparently consider the matter a joke.

"It has been intimated that there is not sufficient power through the present ordinance to compel lights to be dimmed and that Supervisor Larsen is bringing in another. Heaven forbid. We have plenty of law if the officers will but enforce what we have.

"I am still willing to comply with the strict wording of the section above quoted, but unless something is immediately done to correct this blinding light evil on other machines, I will feel disposed to change mine back to the lights that I had prior to the first of July.

"With kindest regards, I am, very truly yours,

"RAYMOND C. BROWN."

Frederick A. Gludd, an honorably discharged American soldier, and a native of Copenhagen, Denmark, has filed in federal court a petition for naturalization. Gludd is married and has one child.

A petition for a rehearing of the case of the territory, et al. M. F. Scott and Nettie L. Scott vs. Judge T. B. Stuart and Joseph Lightfoot, an application for a writ of prohibition, was denied by the supreme court today.

John D. Rockefeller has contributed \$100,000 towards paying off the debts of the Baptist missionary societies. It was announced at the convention in Los Angeles.

WM. BRIEN OF HILO SUGAR CO. IS A SUICIDE

Well-known Overseer, Suffering From Slight Delusions, Kills Self

SAYS GOODBYE TO WIFE AND BABY NIGHT BEFORE

They Were Awakened By Shot From Rifle Which Caused Instant Death

(Special Star-Bulletin Wireless)
HILO, Hawaii, July 13.—William P. Brien, head luna for the Kaumana section of the Hilo Sugar Company's plantation, and well-known in the plantations throughout all Hawaii, committed suicide early this morning by shooting.

At 5 o'clock he went back of his house at Kaumana, used a .45-caliber rifle, held the muzzle of the gun against his forehead over the right eye and with a stick pulled the trigger. Death was instantaneous. The report aroused the household and the body was found.

Brien has been dejected and suffering from slight delusions for some time. He had no financial or family troubles of any sort so far as is known. He had been married but two years. Last night before retiring he kissed his wife and their two-month-old baby and told them goodbye but the wife had no suspicion of his intentions. They were awakened by the shot this morning.

Brien was about 40 years old, a native of Scotland and had been a resident of Hawaii for more than 20 years.

MANY VESSELS TRANSFERRED TO U. S. REGISTRY

War Sends Large Number of Ships Under American Flag

(Associated Press by Federal Wireless)

WASHINGTON, D. C., July 13.—The exigencies of war are being largely responsible for the remarkable number of vessels transferred to American registry during the fiscal year just ended. It was announced today that 148 vessels of 527,071 tons total, have been put under the American flag for the year. Of these 99 were British, 30 German, six Belgian, one Italian, three Norwegian and four Cuban. Included in the total are 25 of the German branch of the Standard Oil Company and four Hamburg-American line vessels.

NAVY IS TRYING TORPEDO NETTING AS EXPERIMENT

(Associated Press by Federal Wireless)

WASHINGTON, D. C., June 13.—The navy department has purchased several torpedo nets and is experimenting in methods of protecting battleships from submarine attack. The nets are made of wire links.

ARMY BOARD REPORT ON MILITARY POLICY TO BE READY SOON

(Associated Press by Federal Wireless)

WASHINGTON, D. C., July 13.—The report of the army board on military policy, to be submitted to the next Congress, will probably be completed in August. Secretary of War Garrison is giving the subject his personal attention.

SUGAR MEN RETIRE AFTER LONG SERVICE

(Associated Press by Federal Wireless)

NEW YORK, N. Y., July 13.—E. D. Sabst, president of the American Sugar Refining Company, and E. F. Atkins, chairman of the board of directors and the executive head, have retired.

ANOTHER BIG TANKER FOR UNION OIL CO.

(Associated Press by Federal Wireless)

SAN FRANCISCO, Cal., July 13.—The Union Iron Works has secured another contract for a Union Oil Company tank steamer.

BALKAN KINGS TO CONFER ON WAR MOVES U. S. ARMY OFFICERS ALLOWED TO RESIGN

EXPERTS GO TO PRIVATE COMPANIES

Secretary Garrison Believes Good Policy to Aid Development of Commercial Ordnance Concerns Which Have Been After Army and Navy's Experienced Officers

(Associated Press by Federal Wireless)

WASHINGTON, D. C., July 13. On the theory that the nation's safety demands that adequate development be encouraged and aided for the private powder and ordnance factories and plants of America, Secretary of War Garrison today accepted the resignations of Lieut.-col. O. C. Horney of the ordnance department at Picatinny Arsenal, and Maj. William A. Phillips of the ordnance department at Sandy Hook proving grounds.

It is understood that Col. Horney goes to the Acta Powder Company at an increase of salary five times what he received as an army officer, as well as a substantial cash bonus.

The experience of Great Britain in the present war has convinced high army officials, it was said at the department today, that it is good policy for the government to assist in the development of ordnance factories.

EDISON ANSWERS CALL OF DUTY TO COUNTRY

(Associated Press by Federal Wireless)

WASHINGTON, D. C., July 13.—M. R. S. Hutchinson, personal representative of Thomas A. Edison, today informed Secretary of

War Garrison that the noted inventor has accepted the invitation to assume the presidency of an advisory board of civilian inventors, to be known as the bureau of invention of the navy department. This board is planned particularly to devote itself to the development of the submarine and to discover new devices and methods of defense.

Mr. Edison has made it known that he regards the invitation as a call to duty for his country which he is willing to accept at once.

HALEY SCOFFS AT RUMOR OF CHARGE AGAINST THOMAS

Shifting of U. S. Revenue Agent From Golden Gate to Portland Result of Rule

That the change of Bertram M. Thomas, United States internal revenue agent at San Francisco for the last 25 years, and who, in that capacity has charge of both California and Hawaii, is the result of political prejudice is not the belief of John F. Haley, the local collector of internal revenues.

Mr. Thomas has been changed from the San Francisco office to Portland, Ore., and his new location gives him charge of the states of Oregon, Washington and of Alaska. Since the change was announced much speculation has taken place in the Coast papers as to the reasons for it, a rumor gaining ground in some manner that charges had been preferred against Thomas by J. J. Scott, collector of revenue in the San Francisco office, and that these charges had brought about a "secret trip" to Washington, with later the loss of the San Francisco office.

Collector Haley, when seen today in regard to the matter, laughed at the idea that any trouble should exist between Scott and Thomas, or that any charges should be preferred against the latter.

"Mr. Thomas has been in the revenue business since a small boy," says Mr. Haley, "and his record is a clean one for 35 years of faithful service. His career has been most remarkable. He began in the revenue work as store-keeper gauger, and in the days of Kentucky moonshiners used to ride on horseback up and down the Kentucky hills seeking out the moonshiners and bringing them to justice.

"In San Francisco he has done a great work against the opium traffic, and it was he who took up the matter of fraudulent photographs about the time the Chinese exclusion act came into existence, and ran the criminals to the ground. The only charges that have ever been preferred against him have been the ones hatched up by the crooks he has worked against."

Thomas, McCabe, who succeeds him, and Scott are all good friends, according to Mr. Haley, and it would be foolish to think that any personal reason has entered into the change. The

HE'LL HAVE CHARGE OF SUBMARINE GROWTH

Capt. Albert W. Grant, new commander of the U. S. submarine service. He has just been appointed by Secretary Daniels as head of the submarine branch of the navy and charged with the duty of bringing up to the highest possible standard of construction and efficiency. With the country coming to advocate expansion in the submarine branch, Capt. Grant's position is an unusually important one.

Capt. Albert W. Grant, new commander of the U. S. submarine service. He has just been appointed by Secretary Daniels as head of the submarine branch of the navy and charged with the duty of bringing up to the highest possible standard of construction and efficiency. With the country coming to advocate expansion in the submarine branch, Capt. Grant's position is an unusually important one.

The Navy Daniels that the noted inventor has accepted the invitation to assume the presidency of an advisory board of civilian inventors, to be known as the bureau of invention of the navy department. This board is planned particularly to devote itself to the development of the submarine and to discover new devices and methods of defense.

Mr. Edison has made it known that he regards the invitation as a call to duty for his country which he is willing to accept at once.

CHE-FA BANKERS INSURE PATRONS AGAINST ARREST

Gambling Institutions Also Pay Heavy Premiums For Insurance Against Police Raids

Insuring criminals and other offenders against arrest and punishment is the latest profession to be practiced in Honolulu, according to Captain of Detectives A. McDuffie.

The detective chief declares that local Chinese are insuring, for a certain sum per week or month, che-fa bankers and players against arrest. That is how McDuffie explains the cloud of suspicion resting over Lum Hun or Lum Ham, as the Chinese is sometimes known.

A letter written by a local Chinese to Chairman Horner of the board of supervisors' police committee, and which was published in the Star-Bulletin yesterday, charges that Lum Hun, or Lum Ham, is acting as "go-between" for the police and four che-fa bankers, and is collecting \$150 a week from each of these players for "protection." McDuffie says that Hun is an informer, or used to be, but that lately, since the campaign against che-fa was started by the police, he has not appeared at the police headquarters.

"Lum Hun used to inform us," said McDuffie, "but he does not show up here any more. We know at police headquarters that certain Chinamen are offering, for so much per week or month, to pay fines, furnish attorneys and provide bail in the event that a client or 'policy holder' is arrested. It may be that Lum Hun is engaged in this practice and that those who do not understand the 'system' think it is bribe money these 'insurance' agents are collecting."

real reason, Mr. Haley says, is in the fact that the internal revenue department has always worked on the belief that an agent should not be kept a great number of years in one place, and a recent decision which makes the changes in general every two years. Thomas' 25 years at San Francisco is an exception to the general rule of office terms.

Mr. Thomas is well known in Honolulu, having been a frequent visitor to the local office. In 1901, assisted by Mr. McCabe, he installed the office here, and has been here at various times since, his last visit being in May of this year.

GREEK, RUMANIAN, BULGARIAN MONARCHS MAY DECIDE JOINT ACTION; BOTH FRONTS ACTIVE

BATTLING IN EAST AND WEST—LONDON FEARS GEN. VON MACKENSEN IS PREPARING COUP TO SHATTER RUSSIANS

—GERMAN ADVANCES AT SOUCHEZ REPORTED—THE "LABYRINTH" AGAIN SCENE OF BLOODY COMBAT—HUGE SUBSCRIPTION FOR GREAT BRITAIN'S NEW LOAN

(Associated Press Service by Federal Wireless)

LONDON, England, July 13.—It is rumored here that an important conference of the kings of Greece, Rumania and Bulgaria will soon be held at Athens to confer on the attitude of the Balkan states in the war.

The French claim that the Germans have been repulsed in their attempt to take this famous network of fortifications, reduced by the French after months of planning and weeks of slow attack.

German advances at Souchez, nearby, are reported today. In the whole Woevre district the struggle is desperate, trenches being taken yard by yard. The French believe that the Germans are resuming their drive on Verdun and are striving to the utmost to hold them back.

One of the features of the day was the appearance of a fleet of French aeroplanes, 35 in number, over the railroad station at Apremont, which is held by the Germans. The aviators dropped 171 bombs, starting several fires.

Yard by Yard, Germans and Allies Win Bloody Battles on the West

NEW YORK, N. Y., July 13.—Desperate fighting around the bloody "Labyrinth," where some of the most ferocious combat of the entire war has centered, is reported from the various European headquarters today.

The French claim that the Germans have been repulsed in their attempt to take this famous network of fortifications, reduced by the French after months of planning and weeks of slow attack.

German advances at Souchez, nearby, are reported today. In the whole Woevre district the struggle is desperate, trenches being taken yard by yard. The French believe that the Germans are resuming their drive on Verdun and are striving to the utmost to hold them back.

Germans Active North of Warsaw; Coup by Mackensen Now Feared

LONDON, England, July 13.—The offensive movement of the Teutonic forces has been resumed on the Prussian front, north of Warsaw, the city being once more in some menace.

It is believed that Gen. von Mackensen is reinforcing his army and London critics fear that he is preparing a coup which may be disastrous for the Russians.

War Act to Stop Wales Coal Strike

LONDON, England, July 13.—The war munitions act, recently passed to assure speedy settlement of industrial difficulties, will be applied in South Wales, where a coal strike is in progress. Participation in the strike will be made a felony and the strikers vigorously prosecuted.

Huge Subscriptions to British Loan

LONDON, England, July 13.—Total subscriptions on the big British war loan now amount to approximately three billions of dollars.

[Additional Telegraph Despatches on Page 9]

Reports From India Tell of Unrest Among Natives; Mutinies Alleged

BERLIN, July 4, by wireless to Sayville, N. Y.—Despatches from Constantinople to the Overseas News Agency say mail from India contains exhaustive reports of fresh riots at Lahore in the British Indian province of Punjab.

The Indian capital is garrisoned. The garrison is reported to have mutinied and, aided by other soldiers and citizens, to have killed its officers and English civilians and pillaged and destroyed a number of buildings. Ten high government officers are reported among the victims.

Two battalions of troops ready to be transported to Europe also are said to have mutinied and to have dispersed after shooting their officers. Madras, a maritime city on the bay of Bengal, evidently witnessed most serious battles between the police and mutineering troops, according to these dispatches.

MANILA, July 5.—Serious unrest throughout India is reported by the officers and passengers of the Spanish mail steamer Alcantara, which has arrived here after touching at Aden, Arabia, Colombo, Ceylon, and Singapore. The official explanation is that the troubles are due to the present international difficulties, but it is said they are in reality the result of animosity felt by the natives against the white population.

There have been several outbreaks, it is reported, in the vicinity of Colombo, where it is understood, revolting natives were severely punished by British military forces. Several Englishmen have been murdered, and Colombo stores have been sacked.

A. H. BODE DIES AT COAST AFTER AUTO ACCIDENT

The injury was received some time ago, but he did not leave his bed until he was struck by a blow on the head.

day in San Francisco, succumbed to his injuries yesterday afternoon, according to a wireless message received last evening. Mr. Bode sustained a basal fracture of the skull in the accident, and little hope has been held out for his recovery. He died at Lang Hospital in San Francisco, where he was taken immediately after the accident.

The injury was received some time ago, but he did not leave his bed until he was struck by a blow on the head.

A. H. Bode of Cincinnati, a brother of Lieut. H. D. Bode of this city, who was struck by a blow on the head.

GENERAL ORDER AFFECTING ARMY STRENGTH HERE

New Provisions For Detail of Men With Provisional Organizations Announced

A War Department general order of interest to Oahu, providing for the status and pay of men detailed from organizations for special units, such as the machine gun and supply companies, has just been received here.

From the wording of the order, which is somewhat ambiguous, it would seem that it has more bearing on regiments in continental United States, where, according to its provisions, non-commissioned officers and men for special units need not be detailed from organizations, provided that the total strength of organizations is not in excess of the total strength set down in the table of organizations.

The paragraphs of G. O. 37, W. D., which deal with this feature, are as follows:

11.—By direction of the President, the enlisted strength of the army will be maintained as prescribed in the tables of organization, 1914, and in such changes in those tables as may be published from time to time.

2. Estimates for pay and allowance of the authorized enlisted strength of the army will hereafter be based primarily on tables of organization.

3. Until such time as appropriations are available for their pay, the number of non-commissioned officers and other enlisted men of special grades carrying extra pay grade to be appointed in regiments and other separate tactical organizations to provide men for detail with provisional units, will be limited to that prescribed in General Orders No. 8, War Department, 1912, as amended.

4. Such enlisted men heretofore appointed in excess of the numbers prescribed in General Orders No. 8, War Department, 1912, as amended, under the provisions of the tables of organization, 1914, are not at the present time additional to those numbers, and are to be detailed from the troops, batteries and companies to which they properly belong. Such enlisted men now in excess may be carried until absorbed by the occurrence of vacancies in their respective grades.

5. The foregoing does not apply to the additional non-commissioned officers authorized in the tables of organization, page 78, under the heading "Additional Enlisted Strength—Line."

6. Hereafter, as appropriations become available, organizations will be informed by letters of instruction from The Adjutant General's office of such increase in enlisted strength of statutory organizations as may be warranted to provide personnel for provisional units, until all organizations have been brought up to the strength prescribed in the tables of organization.

FROM YESTERDAY'S LAST EDITION DROWNED JUST AS AUTO MYSTERY RESCUERS' BOAT CAME ALONGSIDE REPORT OF FIRE

Jacob Sando, 19 years old, Spanish-Hawaiian, was drowned yesterday afternoon in the presence of his boy companions at Waimea, near Kahuku, and the death gasp of the young man was made just as his rescuers reached his side in a motorboat.

Sando and several other young men went in swimming and all swam out several hundred yards. Sando was not as strong a swimmer as his companions, and he was last in the string of swimmers approaching the shore. Suddenly a cry was heard and those in the water turned around to see Sando sink from sight.

The boys turned around and started back, but a motorboat with several other young men put out from shore simultaneously. The boat was the first to reach Sando, just as the young swimmer came to the surface for the second time. Sando gasped, and that was all.

When the boys in the boat pulled him out of the water, Sando was dead. An attempt was made to restore breathing, but owing to the absence of a pilotor the efforts were unsuccessful. An inquest is being conducted by Sheriff Rose this afternoon.

APPROPRIATION TO BUY METERS PASSES BOARD

The first definite step toward metering the city was accomplished today when the supervisors on unanimous vote passed the resolution appropriating \$5500 for water meters on final reading. This amount will enable the city to purchase about 500 or 600 meters.

According to present plans of Water Works Superintendent Murray, 100 meters of each of four different makes will be installed in the business district on a test trial of six months. The meters will be sold on a double-guarantee, the first guarantee being that the meter company must refund cash to the city for all meters not found satisfactory within three months. The second guarantee provides that all broken parts must be provided free for one year after installation. The meter which proves the most satisfactory after six months has elapsed will be selected for general installation in the city, according to Murray's plans.

Sugar stocks aggregating 116,592 sacks are awaiting shipment on the Big Island. O'laa led the other Big Island plantations with 18,400 sacks, with Laupahoehoe plantation running a close second in sugar stocks with 15,862 sacks. Punaluu ran third with 14,125. The itemized stocks are shown in the following table: O'laa 18,400, Waialeale Mill 8500, Hawaii Mill 4600, Hilo Sugar Co. 10,500, Oromas 6846, Pepeekeo 4090, Honoumuli 7000, Hakalau 10,800, Laupahoehoe 15,862, Kawaiiki 2220, Kukaiaua 7334, Hamakua Mill 2565, Paauhau 10,500, Honokaa 4500, Punaluu 14,125.

WISE COMES OUT FAVORING SHORT-BALLOT CHARTER

(Continued from page one)

Others would correspondingly name the active department chiefs in their various departments. The auditor would be elected so that, as the man passing on the financial operations of other city employes or officials, he would be absolutely independent of them.

"I shall advocate this plan because Honolulu's experience shows that it is necessary to be able to fix responsibility for one thing on one man if we are to get the best results. Furthermore, as a Republican I believe the party will be taking the right step in backing the adoption of a progressive, up-to-date charter.

"Under the short-ballot plan, it is easy to fix responsibility if a department is 'falling down.' The department head is the one man responsible and criticism centers on him until he discharges his inefficient appointees or gets out himself."

Honoluluans in touch with political and municipal affairs say if Wise and Achi lend their united efforts to securing the adoption of the "short-ballot" form, they ought to succeed. There are several already avowed advocates of the short-ballot plan among the delegates and both Wise and Achi will be able to command considerable following. A number of opponents of radical revisions have been elected, but if the attitude of these two is any indication of the underlying drift of discussion, the general belief that the convention will do nothing drastic is erroneous. In fact, it is beginning to look as if some very interesting developments will take place.

With Judge John A. Matthewman of Kailua, Hawaii, on the bench, and Job Batchelor acting as commissioner, a hearing of the case of the Parker Ranch vs. the Territory, an action to quiet the title of all water rights on the ranch, was begun in Circuit Judge Whitney's court today.

The territory is being represented by Deputy Attorney General Arthur G. Smith and Judge Antonio Perry. Attorneys Alexander Lindsay and William B. Lymer, deputy city and county attorney, are representing the Parker Ranch. The hearing is being held in Honolulu largely because several witnesses reside here. Some of them are old Hawaiians unable to make the trip from here to the Big Island. W. E. Rowell, an expert engineer, was on the witness stand the greater part of this morning. The hearing probably will last a week.

Great for Thirsty Little Folks

An afternoon of fun means a call for liquid refreshment. The best answer is Armour's Grape Juice. Serve it plain or as a grape juice punch. Children are delighted with it. It agrees with them.

Armour's is the pure, rich juice of luscious Concord grapes. It is Nature's health drink—especially valuable in hot weather.

Buy a case of Armour's Grape Juice from your grocer or druggist. Served at fountains, buffets and clubs.

Do you want to know the latest ways to serve grape juice? Send for our Grape Juice Recipe Book—Mailed free on request.

SHRINERS REACH SEATTLE WITH PET WATER BUFFALO
Accompanied by their mascot, Nick, a pet carabao, the delegation from Alcha Temple of Honolulu and the Arab Patrol arrived in Seattle, Wash., yesterday morning in time to attend the opening session of the imperial council.
At Seattle the local Shriners were met by George H. Angus, illustrious potentate of Alcha Temple, and "Sunny Jim" McCandless, former illustrious potentate, who had come to the Washington city in advance of the party to arrange for accommodations and attend to other duties. The Seattle entourage will be in session until next Friday, inclusive.
Last Saturday night the Honolulu Shriners left the Oakland mole at 11:40 o'clock on a special train for Seattle.
Under bond in the sum of \$500, Henry Smith, clerk of the circuit court, today was appointed by Judge Ashford as administrator of the estate of Kahika Kahuluahi. The court ordered that an inventory of the estate be filed within 30 days.

JUDGE GARY WILL REACH HONOLULU NEXT TUESDAY

Head of Steel Trust and His Beautiful Wife Plan Eight-Day Stay in Islands
Judge Elbert H. Gary, chairman of the board of directors of the United States Steel Corporation, who, as announced some months ago in the Star-Bulletin, will come to Hawaii this summer, sails from San Francisco tomorrow on the Matsushita, and will reach Honolulu next Tuesday. Judge Gary, who will be accompanied by Mrs. Gary, will remain in the islands until July 28, and will return to the mainland in the same steamer that is to bring him from the Coast.
While at San Francisco Judge and Mrs. Gary are being entertained by Mrs. Phoebe A. Hearst. Judge Gary is known as the "head of the Steel Trust," and is acknowledged to be one of the men who has played a big part in shouldering the United States into its present position in the world of finance.
Mrs. Gary, one of the most strikingly handsome of New York's society women, was a California girl. Her jewels, especially her ropes of pearls, are famous, one strand alone having, according to all accounts, cost half a million dollars.

LIGHT SIDELIGHTS ON POLICE COURT SCENES

The underworld war game continued with renewed activity on both sides around town again last night. "Major General" Charles Rose and "Admiral" Arthur McDuffie and his battalion of soft-shoe marines conducted the campaign. Plank attacks were out of the question last night, as the expert at those movements, "Major" Julius Asch, is at present studying the tactics of his police allies on the San Francisco front.
"Colonel" J. H. Fischer, one of the Prohl volunteers, swooped down on the sleeping enemy, Private George May, Company A, 1st Infantry, at Maunakea and Hotel streets. George was asleep on post. He also had taken some of the enemy's "wots red," and was turned over his lawful prisoner of war to the provost guard. Before the arrival of the guard, however, Fischer was unable to off-stand the attacks of Slesny George and the regulars of "Adjutant" J. Huihui reinforced and won the fight. George finally was induced to stand up and walk.

Privates Floyd Nave, G. C. Collins and L. F. Wedico, all of Co. I, Engineers, Fort Shafter, made a counter attack on the Cafe de Boston last night and after securing force to the value of \$1.15 they retreated despite the efforts of Lum Suey and his Chinese revolutionists. The three escaping privates ran right into the arms of Joe Perry, and later were given into the custody of the Fort Shafter provost guard. "Next time they all samee pay," said Lum Suey.

"On Monday John Politz, admiral of the "other side," crossed the sea from Maui to Honolulu and attempted to capture all the booze in town. John has tried this many times, and each time he was released from the prison ranks on promises to quit his attacks and try the Maui joints for a change, only to return later. John lacked a ship to hold the booze he captured, so he put it away inside of him with the result that the army of Rose captured him, and today John was "stowed away" for another month.

Palshon of the "other side" drove his Ford through the defenses of Manuel Figuera near Pauoa and tore down the barrier, also the gate of the fence. General S. E. Poaha of the police army arrived in the nick of time, and after Palshon had promised to rebuild the barrier, Poaha allowed Palshon and his Ford to proceed. Palshon said he couldn't get his range on the road.

Makea, a Hawaiian, battered the stronghold of Ah Chook, a Chinese laundryman at Walkiki, with rotten eggs, so Crook averts. Makea was captured by Rosa. Chook says the shells burst by Makea contained gas, just like the German shells. He says he could smell it afterward, and he says that the shells burst all over Chook's clean laundry, which was out to dry.

Enrico Caruso notified the Italian Red Cross that his villa near Florence is at its disposal until the end of the war.

LOCAL AND GENERAL

The Masonic Board of Relief will hold its regular meeting tonight at 5 o'clock.
Circuit Judge Stuart today granted to Ricket Yu, a Japanese, a divorce from Tsuya Yu, the grounds being desertion.
A meeting of the board of harbor commissioners will be held at 1:30 o'clock tomorrow afternoon in the basement of the capitol building.
The members of the Catholic clergy of the territory are in annual retreat at the cathedral, Fort street. The retreat will be concluded next Friday.

Tenders will be opened in the office of the superintendent of public works at noon tomorrow for the extension of the reinforced concrete bridge in the Makiki district.

The dissolution of the Robert Grieve Printing Company has been authorized by C. J. McCarthy, territorial treasurer. The company has been out of business for several years.

Officers of Harmony Lodge No. 3 and Excelsior Lodge No. 1, I. O. O. F., will be jointly installed in the Odd Fellows' hall at 7:30 o'clock this evening. There will be a dance after the installation.

Clyde W. Cavins was ordered by Circuit Judge Stuart today to pay temporary alimony in the sum of \$20 a month to Madeline Cavins until the trial of a divorce suit instituted by the latter.

Further hearing of a petition for the appointment of a guardian for John R. Stone, an alleged insane person, will be had in Circuit Judge Ashford's court July 30 at 9 o'clock in the morning.

Usui Kojima, the newly-appointed manager of the Yokohama Specie bank at Los Angeles, Cal., will pass through Honolulu in the steamer Tenyo Maru next Monday. While in the city he will be a guest of Manager Aoki of the local specie bank.

Mrs. A. J. Olson, widow of William Brewster Olson, for many years prominent in the work of the Hawaiian Board of Missions, today was appointed by Circuit Judge Ashford as administratrix of the estate of her late husband, without bond.

Commencement exercises at the Hawaii high school and girls' school will be held in the assembly hall of the former school, Fort street, tomorrow evening. Both schools are under the direction of the Hongwanji mission, a Japanese organization.

Territorial authorities have approved an application from the Dowsett Company that its capital stock be reduced from \$600,000 to \$300,000. The distribution of \$300,000 among the stockholders effected the reduction. The stock has also been reduced from \$100 to \$50 per value per share.

A meeting of the board of school examiners will be held in the office of the department of public instruction, judiciary building, at 8:30 o'clock tomorrow morning to arrange for the coming examination for teachers. The board is composed of George S. Raymond, school inspector; J. C. Davis, Eugene Horner, Mrs. Mary Gunn and Miss Bertha Ben Taylor.

"Roads" will be the topic of the Ad Club luncheon at noon tomorrow, Wednesday. C. O. Warren, who has built roads and studied roads for 40 years, will give a talk which will summarize his experience and furnish suggestions for road building in and about Honolulu. This is a session which should be attended by all those taking a general or particular interest in good roads.

PLANTATIONS TO SHOULDER RISK UNDER NEW LAW

The majority of Oahu's plantations which have filed their declarations with the workmen's compensation commission have gone on record to the effect that they will assume the responsibility for accidents to employes without the aid of insurance companies, according to members of the commission.
It was rumored at first that the sugar companies would combine and offer a joint security, and later it was said that all would take out "blanket" policies in an insurance company. Neither report appears to have been well-founded, as the companies have expressed the desire to "take their own chances."

The majority of the plantations on the outside islands have not as yet filed their declarations as provided by law. Forms may be obtained from A. J. Campbell, Merchants street, who is chairman of the commission.

LITTLE INTERVIEWS

-CAPT. HENRI BERGER: This war is going to be a world-education in many ways, and after awhile education is going to end all war.

-J. D. LEVENSON: Everybody is going to Heinie's Tavern Friday night. We want all the ladies of the Ad Club members to wear white and the men to dress informally. Any member found wearing a tuxedo or a full-dress will be hazed.

-HARRY MURRAY: I am preparing specifications that will be so "tight" that all firms supplying meters to the city will certainly have to make good if their instruments fail to give satisfaction. The contracts will include a double-guarantee clause.

-JOHN H. WISE: Complete non-partisanship in municipal affairs is still a good way in the future for Honolulu, but certainly it is being more and more generally recognized that appointments and employment should be based first on efficiency and after that on party services.

PERSONALITIES

J. S. HINCH, a capitalist of Los Angeles, accompanied by Mrs. Hinch, arrived from the Orient on the Manchuria this morning. They will visit for some time in Honolulu before returning to the mainland.

THOMAS SAMMONS, American consul-general at Shanghai, who was expected on the Manchuria today, will not arrive until the twentieth of the month. He is a passenger on the Tenyo Maru, according to private advice received in Honolulu.

FORMER CIRCUIT JUDGE KINGSBURY of Maui expects to return to the islands in a few weeks after a visit on the mainland. It is reported that Mr. Kingsbury may be offered the position of deputy in the office of County Attorney E. B. Cavins at Waihi.

Honolulu Star-Bulletin

RILEY H. ALLEN - - - - - EDITOR

TUESDAY.....JULY 13, 1915.

KEEPING UP WITH THE PROCESSION.

Superintendent of Public Works Forbes, after a brief visit to the mainland, returns satisfied that the expense of the trip was more than recompensed by the information he was enabled to secure and which will be applied to territorial needs.

No doubt Mr. Forbes is right. Furthermore, if the territory and the city and county of Honolulu would make a practice of sending certain of their public officials to the mainland once a year or once in two years the public would be the gainer. The Star-Bulletin believes, and has several times previously expressed the belief, that the progress of certain branches of public administration is so rapid that officials as far removed from its current as those of Hawaii necessarily must be, are in real danger of falling behind. Not through lack of energy, industry or alertness, but simply because of isolation and the inevitable tendency of isolation to encourage falling into ruts.

New methods, new ideas, new tendencies in public administration throughout the United States are sweeping aside many of the old. Directness and efficiency, freedom from red tape, close touch with the people—particularly the tax-payers—are noticeable among the aims of state and municipal officers.

To assure progress, cities and states are exchanging ideas and encouraging mutual discussion. There are conferences of governors, of health officials, of engineers, of public accountants, of city attorneys, of police chiefs, of fire department heads. League of municipalities are flourishing. There are frequent occasions where methods and plans are submitted in the general clearing-house of vigorous discussion. From the experience of one state, another state learns definitely, with a consequent economy; what one city has succeeded at notably, another city may emulate with profit by adoption of ideas.

Hawaii has felt this "get together" spirit as illustrated by the annual civic conventions to discuss needs of various parts of the territory. The conventions do great good, not only because men from every island are brought together and fired with the inspiration of the common good, but because papers are presented, discussion is aired, on vital topics and in concrete ways.

Men of the so-called technical professions are particularly apt to feel the need of meeting their fellows from other parts of the country. The annual meetings of the American Bar Association, of the civil, mechanical, electrical and highway engineers; of physicians; of sanitary experts—all these show that in the practice of private professions men realize the profit from gatherings where there may be heard and talked over addresses by recognized leaders.

The same principle holds just as good for public officials. Their aim is to give the public the best possible administration for the money. The need for public officials to keep up-to-date on theory and practice is just as urgent as for men in private employ or devoted to their own professional careers.

The territory or the city would profit by sending to the mainland once in awhile heads of departments to study, to inspect, to broaden their views and to catch up with the procession. Of course it is understood that no official would be justified in going who looked on his trip as a junket at public expense. But public officials who are faithful and who strive to make their departments return a dollar's worth of service for every dollar paid by the people deserve to be given opportunities to keep up with the latest and best ideas.

DIFFICULT TO CHASTEN.

Supervisor Larsen picturesquely expresses the opinion that Sheriff Rose has "made a muck of" the present board of supervisors, and more than one of his associates apparently agrees that the sheriff should be chastened, yet the only method in sight is to hold up an appropriation for four extra policemen. In other words, in the interests of city administration it is apparently necessary to coerce the sheriff by hampering what he says is a necessary move to increase safety on the streets.

The chairman of the police committee, Supervisor Horner, has several times expressed his dissatisfaction with police efficiency—or non-efficiency—at the same time commenting, "What are we going to do about it?"

In truth, under the present city charter there is nothing much the board can do about

it except to penalize the sheriff by holding over his head the axe of non-appropriation.

The situation well illustrates what critics mean when they say the city charter needs fixing. Few modern American municipalities continue to elect the active head of the police department. The police department is generally directly under the mayor or a commission who is thus held responsible for its effectiveness or laxity.

No features of city administration touch the everyday life of the people more closely than the handling of the law and order problems. This and the building and maintenance of streets are the commonest of public functions and generally the most criticised because they are the most obvious. Anyone can understand and everyone notices the difference between a good and a bad street; and the conduct of the police force is almost equally easy to watch. What the city attorney or the corporation counsel or the director of health or the auditor does is much more difficult to follow. But, particularly in a city of Honolulu's size, it's pretty easy to see or hear when the police force is "falling down."

The sheriff of Honolulu is independent of the mayor and independent of the board with the exception that it appropriates for his department. The condition is anomalous and should be ended.

Under the present charter, the only way the head of the police department can be held responsible—short of charging him with malfeasance—is to vote him out of office. Sheriff Rose's popularity with the voting majority has been demonstrated and quite naturally he considers that an indorsement of his administration.

Thomas A. Edison's genius is to be turned to services for the navy by his acceptance of Secretary Daniels' invitation to become president of the informally constituted bureau of invention of the navy department. Edison remarked to a reporter not long ago that he could easily invent an explosive very much deadlier than anything yet shown in the European war. But Edison's genius is essentially constructive, not destructive, and he is not interested in infernal machines to tear asunder the bodies of his fellow-men. In the patriotic service of preparing a defense for his country, however, he is ready to enlist. If he turns his fertile imagination and tremendous technical equipment to submarines or similar subjects, there will be some wonderful results.

The morning paper reports that Judge Gary, head of the steel trust, is coming to Hawaii. There have been several rumors to this effect, the first of which was published by the Star-Bulletin two months ago. Judge and Mrs. Gary at that time got as far as San Francisco and then returned east. A visit from this progressive man of Big Business would be welcome in Hawaii.

The appointment of H. P. Wood to represent Hawaii at the Pacific Congress of the Asiatic Institute in San Francisco this month is a good move. The Star-Bulletin several weeks ago drew attention to the fact that Hawaii had made no arrangements for representation at this Congress, though no country on the Pacific is more interested in what is done than is this territory.

The Fresh Air Camp at Waialua is doing wonders for the tenement mothers and babies quartered there. It needs \$600 as a maintenance fund. Contributions in any amount are welcome. Palama Settlement, the Advertiser or the Star-Bulletin receive donations to this good cause.

"Death Due to Bad Roads," says a headline. It was in California. The worst Honolulu has had was nervous prostration with complications of profanity.

Independence Day at the Exposition, with Bryan the principal speaker, is declared by the San Francisco papers to have been a howling success.

Carranza's best chance of ever being recognized consists in not letting Villa get to him in a small space.

Aha! Caramba! The government declares a Villa peso is worth 30 cents American money. Viva Villa!

There is no longer any question as to who is really secretary of state. It's Lansing.

LETTERS

(The Star-Bulletin invites free and frank discussion in this column on all legitimate subjects of current interest. Communications are constantly received to which no signature is attached. This paper will treat as confidential signatures to letters if the writers so desire, but cannot give space for anonymous communications.)

SALOONISM ON MAUI.

Editor Honolulu Star-Bulletin. Sir: Many of Maui's citizens feel that their county has recently taken a backward step in the matter of temperance reform. There is a general feeling of humiliation, inasmuch as the record of the past has been one to which her best and foremost people have pointed with pride. It was the new liquor board as organized July 1 which, at its first session held that day, took action causing general surprise and indignation. The former board at its last meeting convened June 24 passed a resolution ordering all saloons to remain closed on July 3, the big day of the races, until 4 o'clock in the afternoon. This has been the practice of the board for several years, probably since its first organization. The regulation has acted well and met with very little opposition, except on the part of the saloonists. The new board with Messrs. D. H. Case, W. F. Kaee and T. B. Lyons, appointed by the governor to take the places of Messrs. Weinzheimer, Cockett and Copp, arranged well before-hand to convene July 1, and having organized with Mr. Lyons as president and Mr. Case as secretary, proceeded at once to reconsider the motion of the former board and after some discussion, rescinded the action taken June 24 and threw the day of the races wide open in the morning until 9 a. m. The remaining commissioners, Messrs. D. C. Lindsay and C. D. Lufkin, stood by their guns in a valiant manner, but it was a case of three to two and the liquor interests won the day. When interviewed in regard to their action, one of the new commissioners with the reputation of a temperance advocate stated that he felt that the former board had no right to bind the new board to any line of action and moreover it was only fair to give the open day a trial at least and watch the results. It was afterwards learned that this same commissioner betook himself to the other side of the island on the day in question and spent it quietly with his friends in Lahaina. The writer has it on good authority that there was more open drunkenness seen on Maui July 3 last than on other race days for many a year. This was particularly true among the Hawaiians.

Another Commissioner, Mr. Kaee, gave as his reason the matter of his personal liberty, claiming that he didn't favor any law of regulation which would interfere with his right to purchase a drink in a saloon Saturday morning or any other morning. Mr. Lyons, having been engaged in the liquor business himself for some years, had his own views and convictions of course, and as chairman of the new board, gave the casting vote accordingly.

There are now two new applications for liquor licenses, one for another saloon in Waikuku by a Portuguese, and one at Waikapu by a Japanese, being published in the press and which are to be acted upon by the commissioners in their session to be held July 29 next. The two members of the old board are both strenuously opposed to the granting of these petitions, but if it turns out to be a case of three to two, as was the case July 1st, the decision will be in favor of the two new grog shops with two or three more to follow later on, if the liquor people meet with such encouragement.

Yours very sincerely,
JOHN W. WADMAN.

A TRIBUTE TO JUDGE GARY.

Honolulu, July 13, 1915. Editor Honolulu Star-Bulletin. Sir: The sketch of the career of Judge Elbert H. Gary in this morning's paper is unusually full of errors and misleading statements. While it is probably quite immaterial to Judge Gary whether they are corrected or not, nevertheless it may be as well to have it done.

To commence at the end of the article, Judge Gary's term on the bench was not what might be called "brief," as he served two terms as county judge of Du Page county, Illinois; and I remember very well when he occasionally sat on the bench of the county court of Cook county in Chicago in the place of Judge Prendergast. At that time he was senior member of the great law firm of Gary & Gary, with offices on the mezzanine floor of the Rookery, which firm is possibly still in existence.

It is my recollection that John W. Gates first brought Judge Gary forward in the organization of the Federal Steel or the American Steel & Wire Company, and when Morgan wished to promote the organization of the United States Steel Corporation he called to his assistance Judge Gary.

Personal Mention

ISAAC LANDO was a returning passenger on the Manoa today.

MR. and MRS. B. S. DENNISON returned to Honolulu on the Manoa this morning.

MRS. WILLIAM CULLEN, of 325 Peck avenue, Honolulu, returned from the mainland today.

E. M. CASSADY and W. E. Johnston, prominent Iowa attorneys, are passengers on the Manchuria.

MRS. J. J. SMIDDY and daughter are spending the summer months with relatives at Hanalei, Kauai.

J. S. HARGIE of the von Hamm-Young Company returned to Honolulu from the Big Island this morning.

P. MANSON of the New York-Bermuda steamship line is returning from the Orient on the Manchuria.

J. A. R. VIEIRA, treasurer of the Vieira Jewelry Company, returned on the Manoa from the mainland today.

JAMES M'ANDREWS of the Oahu Sugar Company, Waipahu, was a returning passenger on the Manoa today.

PROFESSOR T. A. JAGGAR of the Kilauea volcano observatory was a passenger to Honolulu on the Mauna Kea today.

L. T. LYMAN has concluded a four-year course of study at mainland schools and returned to his home in the islands today.

MARSHAL J. J. SMIDDY left for Samoa yesterday in the steamer Ventura on official business. He will return to Honolulu August 12.

MISS FLORENCE CARTLEDGE of the New York Life Insurance Company's local agency returned on the Manoa today from the coast.

A. B. SMITH, a representative of the Standard Oil interests in the Orient, accompanied by Mrs. Smith, is on the Manchuria, bound for San Francisco.

WILLIAM CULLEN and Master Cullen returned from Hilo on the Mauna Kea today to join Mrs. Cullen, who arrived from the coast on the Manoa this morning.

ARTHUR M. BROWN, deputy city and county attorney, returned to Honolulu in the steamer Mauna Kea this morning, after a two weeks' vacation spent on Maui.

L. J. MORAND and W. Morand and F. J. Daley, Chicago agents for the Italian-Swiss colony of California, were among the tourists to arrive on the Manoa this morning.

MR. and MRS. R. E. M'DOUGALL are Australia-bound passengers on the Manoa to arrive today. They will continue for Sidney on the Canadian-Australasian liner Makura tomorrow.

MISS SARAH PARKER, daughter of Judge Robert Parker of this city, has wireless friends that she arrived who had so ably assisted Gates in the prior amalgamation.

Judge Gary, I believe, has been chairman of the board of directors of the United States Steel Corporation since its organization and continues so to be. I know that he was chairman in 1904 and was such while Schwab and later Corey were its presidents. The president now is James A. Farrell, a practical steel man, as are likewise the former presidents, Schwab and Corey—both of the latter having risen from the ranks of the Carnegie Steel Company, one of the 25 or more subsidiary companies of the corporation.

The United States Steel Corporation is not only "one of the largest corporations in the world," but is the largest, its capitalization being a billion dollars. Ten years ago it had in its employ over 250,000 men, and the annual pay roll of one of its subsidiary companies was said by the president of the company to be about \$180,000,000. In that year they tacked on a 10 per cent increase in wages, bringing the annual pay roll of that one company to nearly \$200,000,000. This was before the corporation absorbed the Tennessee Coal and Iron Co., and established its new plant at Gary, Ind., so the number of men in its employ now must be 300,000 or more.

I have always an "aloha" for the Steel Corporation, as it is the one concern I have been intimately associated with whose methods always appealed to me to be absolutely clean and above-board. For this policy no one deserves more credit than its able chairman, Judge Elbert H. Gary.

MOVIE FILM OF SENATE'S VISIT TO QUEEN GONE

What has become of the moving picture film of the state call paid on Queen Liliuokalani last spring by members of the Hawaiian senate? R. C. Lydecker, librarian of the public archives, wants to know.

"You see," said Mr. Lydecker today, "senate resolution No. 17 provided for the taking and purchase of a moving picture film of the senate's formal call on Queen Liliuokalani. But I was never notified—know nothing of the arrangement until the bill came to me for filing the other day.

"On investigation I found that the picture was taken, and that the photographer, E. K. Fernandez, was paid \$149 for the film. I had seen nothing of such a film—had never received it for preservation in the archives. Accordingly I wrote to Mr. Fernandez, but received no reply. Since then he has gone to Hawaii where, I understand, he is showing moving pictures."

Mr. Lydecker knows nothing at all of a film made "at the time when the members of the late congressional party visited Queen Liliuokalani," which a local morning newspaper reports as missing.

DANCE AT MANOA WEDNESDAY

Mrs. Lester and Mr. Ransford Will Give Exhibitions

A dance in honor of the officers and first-cabin passengers of the transport Sherman will be given at the Moana hotel tomorrow (Wednesday) evening. Mrs. M. Lester and Mr. Chas. Ransford will give exhibitions during the evening. Tourists, officers of the army and navy and local society folk are invited.—Adv.

The Moana will carry 35,000 cases of canned goods on the return trip to the coast.

Royal Baking Powder

Absolutely Pure

Exceeds all others in leavening power, purity and wholesomeness. Used wherever the best and finest food is required.

Royal is the only baking powder made from Royal Grape Cream of Tartar, and is admittedly the best and most healthful baking powder made.

It is economy to use the best.

Royal Baking Powder Cook Book sent free on request. Address box 589 Honolulu, Hawaii.

FILM ON 'NELL OF OLD DRURY'

Mary Pickford, "America's little sweetheart," comes to the Liberty theater next Thursday evening for a run of three days only in "Mistress Nell," one of the great heroines of historic or romantic drama. Owing to the popularity of Mary Pickford and the high praise that has been accorded this Paramount picture by the critics of the mainland, there have been a number of calls for reserved seats at the Liberty and its submission to popular demand, the management has decided to set apart a limited number of such seats, which will be held at 50 cents and may be reserved by telephone or in person.

"Mistress Nell" is a romance of the days of England after the Stuart restoration. Associated with Miss Pickford is a cast of exceptionally clever artists, this being a Daniel Frohman production by a company of famous players.

CONCERT AND MOVIES AT FORT SHAFTER AERODROME

1st Lieut. C. R. Abraham, post exchange officer at Fort Shafter, has arranged another elaborate entertainment for the aerodrome tonight, consisting of movies and a program by the 2d Regiment band and orchestra. - Waltz—Les Syrens.....Waldteufel
- March—Don't Take My Darling.....Tilzer
- Eoy Away.....Hawaii Ponol.
- Aloha Oe; Hawaii Ponol.
- The Star Spangled Banner.

TUESDAY NIGHT DINNER-DANCE AT HEINIE'S

In lieu of the tremendous success scored by Edith Mellor, the little cabaret miss, at Heinie's Tavern last evening, Heinie has received numerous requests to have the little entertainer appear again this evening.

Heinie has consented. (That's information for those who wanted to see and hear her again.) This evening the dinner-dance will be in honor of the passengers and officers of the Manoa, which arrived this morning. Officers of the army and navy are also cordially invited to be present, as well as the host of local friends of the Tavern.

The dinner, as usual, will be of the finest and the musical entertainment unusually good.—(Adv.)

ACID STOMACHS ARE DANGEROUS

Common Sense Advice by a Distinguished Specialist.

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause greatest distress may be eaten with impunity if the meal is followed with a little bisurated magnesia, which can be obtained from any drugist, and should always be kept handy. For sale by Benson, Smith & Co., Chambers Drug Co., and Hollister Drug Co.—adv.

SHIPPING & WATERFRONT NEWS

BIG CARGOES IN HARBOR NOTES

LINERS PASS THIS PORT

Almost every Orient-bound steamer that comes through Honolulu these days is jammed with war supplies or with raw material for Oriental markets.

Many steamers of the "tramp" class are believed to be carrying munitions or supplies. The regular liners are doing a rushing business.

A coast paper, commenting on the growth of cargo traffic with the Orient, says: "American iron producers are beginning to feel the good effects in the iron trade brought about through the war in Europe. On the Pacific Mall liner Korea, which sailed from here to the Orient yesterday, there was a shipment of 2500 dead weight tons of iron consigned to Japan.

When the Siberia, which is the next liner of the Pacific Mall fleet to leave, sails it will also take out a large shipment while the greatest of all which has left for the Far East will occupy the holds of the Manchuria when it sails on its next trip.

Another record crowd is expected to be on Pier 15 tomorrow morning at 10 o'clock when the Matsun liner WIP helmina departs for the coast with 110 or more cabin passengers.

The Japanese steamer Kageshima Maru left late yesterday after discharging a cargo of coal for the Inter-Island. She is bound for Vancouver where she will take on a cargo of materials for Vladivostok.

Twelve passengers have been booked in Honolulu for Australasia via the Makura tomorrow. The Canadian-Australasian liner will arrive early in the morning and will take on fuel. It probably will continue for Australia about noon.

The British steamer Strathcona, detailed for service between here and Fanning Island cable station, is expected to arrive from Auckland this week. The Niagara will discharge supplies for the cable station July 22 and the Strathcona is expected to tranship these supplies.

A feed-pipe valve for the disabled probably will continue her voyage Melbourne, has been made by the Honolulu Iron Works and probably will be installed when the steamer comes into port late today or early tomorrow. The grain boat probably will proceed to Melbourne late tomorrow or Thursday.

Capt. F. S. McMurray of the New York training ship Newport has announced that the hour of departure has been changed from 5 o'clock this afternoon until 10 o'clock tomorrow morning. The reason for the change is that the commander wishes to insure getting all of the ship's mail before departing for the coast. Visiting hours will be until 5 o'clock this afternoon.

The Matsun steamer Manoa from San Francisco docked at Pier 15 at 7:30 this morning with 60 cabin passengers and only 112 sacks of mail. Three automobiles, 2442 tons of freight and 21 packages of express matter for Honolulu and 1700 tons of freight and one auto for Kahului, comprise her cargo. She sails tomorrow night for Kahului, and returns Sunday, Tuesday afternoon she will sail for the coast with a full cabin.

PEOPLE ON MANOA SHOWN 'FOO-FOOS'

Sixty passengers on the Matsun steamer Manoa, which docked from San Francisco this morning, manifested keen interest when Purser "Jim" Corrigan handed each a printed card Sunday bearing the mysterious word "Foo-foos" at 10:30 tonight. When the appointed hour arrived the passengers crowded to the rail and speculation was rife as to what a "Foo-foo" might be.

Later it was explained that all these implements of war were to be exemplified by modern dances on deck. In addition a special musical program was held Sunday evening. Oscar Houser acted as chairman of the evening.

Brings Coal from Japan. The Japanese steamer Tsurugasin Maru steamed into the local harbor today from Japan with a cargo of coal for the Inter-Island. She probably will proceed to Seattle or Vancouver after discharging her cargo here. She was fumigated outside the harbor this morning.

KEEP ON AS LONG AS CARGOES ARE SEEN

That the Pacific Mail will remain in business under the American flag as long as the line can continue to fill the holds of its ships with freight and the cabins with passengers is the opinion of mariners on the coast waterfronts, according to the word brought to Honolulu by officers of the Matsun steamer Manoa today.

"Does anyone imagine that the Pacific Mail is going to quit when business is so good that it is packing every steamer with passengers and freight alike?" is the argument put forth.

It is reported that the Pacific Mail boats are doing the heaviest business since the Russian-Japanese war, and the fact that interpreters on the various Pacific Mail boats have been employing their spare time in teaching the crew to speak English is taken as another indication that the trans-Pacific line will not quit on account of the Seaman's act.

The fact that Chinese business men are attempting to start another trans-Pacific line, and are said to have enlisted the support of the Dollar interests, lends a new angle to the situation. Such competition, in addition to that of the T. K. K. lines, may force the P. M. to the wall, aided and abetted by the Seaman's act.

MANCHURIA WILL NOT CUT CALL NEXT TRIP

After a fair weather voyage from Oriental ports the Pacific Mail liner Manchuria reached the harbor at 5:30 o'clock this morning, docking two hours later at Alakea wharf.

Purser Clark reports a fairly uneventful trip, but a lively and energetic crowd was aboard, which kept the hours filled with deck sports, music and dancing. None of the officers on board has received word as to a rumored change of fuel from coal to oil on the Pacific Mail boats.

According to Purser Clark, it is not likely that Honolulu will be passed by on the next run to the Orient, though Coast reports are to that effect. He thinks that no change of this sort will take place until after November 4.

The vessel had on board 243 first-class passengers, 84 second-class and 218 third. There were booked for Honolulu only three first-class passengers, one second and 67 steerage. Twenty-one passengers from Honolulu will leave tomorrow for San Francisco.

The Manchuria brought 49 bags of mail for this port and 2580 tons of freight. She had in all 12,000 tons of freight aboard. She will sail tomorrow morning at 9 o'clock for San Francisco.

When Thinking of Advertising Policies

Read What the Associated Advertising Clubs of the World Had to Say During the Chicago Convention of Ten Thousand Business Men :::

Store News-Advertising.

Joseph H. Appel, director of publicity for the John Wannamaker stores of New York and Philadelphia, speaking before the retail advertisers' meeting, pronounced the newspaper the paramount force in effective advertising.

"Retail advertising is the people's guide in their everyday living," said Mr. Appel. "The newspaper is the natural medium for retail advertising and for all advertising. Newspapers circulate in the densest centers of population, where are also congregated the largest stores with the greatest volume of merchandise. So they are therefore the most efficient mediums for all advertising."

"Advertising is the speech of business. Advertising is to business what language is to man—it's mode of self-expression. A business that will not advertise is both deaf and dumb, and as heavily handicapped in the world's progress as a deaf and dumb man."

"Advertising that is saturated with human interest is bound to be most widely read. The word 'news' as printed in our American newspapers has come to mean 'human interest.' Stores must tell their own news in a human interest way."

"Efficient advertising requires the writer's personal examination of the merchandise and the hearing of the story of its purchase directly from the lips of the buyer who secured the merchandise in the wholesale market."

"Merchandise is dumb until seen—then it speaks louder than words. To bring people into the store to see the merchandise—to speak for the merchandise until it can speak for itself—that is the first step in advertising."

"Advertising must square up with the merchandise and with the store. To square up with the merchandise and with the store it must be accurate. To be accurate advertising must be truthful. Advertising is as honest as the man who signs his name to it. A store is as honest as its advertising."

"Honesty in business usually means life; dishonesty surely means death."

"Honesty never is comparative or relative. Honesty is absolute—it means telling and living the truth, the whole truth and nothing but the truth."

"The brazen big type, blatant, extravagant advertising is evidence that we are still in the pioneer stage of civilization. The only economic reason for advertising is to make more efficient the distribution of merchandise."

"Advertising, when efficient, does lower the cost of commodities because it becomes the million tongue salesman, making possible the multiple merchant, who can sell to multitudes cheaper than the crossroads merchant or the peddler can sell to ten or a dozen people."

Standard of Practise

The Associated Advertising Clubs of the World, acting in twenty coordinated departments and conferences added a new chapter to the advance of honesty in advertising.

The 155 newspaper delegates representing the newspaper section of the convention unanimously voted to adopt the following standard of practise:

To make none but true statements of circulation.

To maintain advertising rates as published.

To reject fraudulent advertising.

To oppose free publicity.

These Standards Have Always Been Maintained By The STAR-BULLETIN.

Circulation Books Open.

No undercover discounts.

No Liquor Ads accepted.

Publicity worth paying for.

Practical Retail Talk.

L. R. Parson, advertising manager of Carson Pirie Scott & Company, spoke of the amount of money which should be spent in advertising retail stores. He believed that about 2½ or 3 per cent on the gross business done is about the right amount the average store should spend for advertising.

"We all know that there must be some limit to the amount a retail store should spend for advertising and there must be a figure below which a store cannot safely go in trying to save in the matter of advertising," said Mr. Parsons. "I do not know of any retail store of any consequence which spends less than 1½ per cent for advertising, nor did I ever hear of any store lasting very long with an advertising burden of more than 4 per cent. Between these two extremes lies the advertising expenditure upon which a retail business can build and prosper."

Present day newspapers are a better advertising medium than ever because they have a more gripping power—a power that should be studied by every thinking advertiser, Joseph H. Finn of Chicago told delegates attending the annual convention of the Associated Advertising Clubs of the World.

Finn declared that advertising is the news about merchandising and that there was nothing closer to the hearts of the reading public than the "live news concerning buying opportunity."

"I believe in the efficiency of newspaper advertising because I have seen what it can do in such a variety of lines, covering such a divergency of propositions that the possibility of luck or accident must be eliminated from consideration," he said.

It is the paper which published the true news that pays the advertiser best, he added.

"Truth is the slogan of this convention. Truth is the slogan of the newspaper that hopes to win the most lasting success, the widest influence."

"I have seen, almost overnight, newspaper advertising and merchandising successes that would have been deemed incredible ten years ago. And these successes were solid, they stayed put."

"Undoubtedly the greatest thing that newspapers can do for advertisers, for the business world, for humanity, is to spread the gospel of optimism, to chart a straight course of confidence. A newspaper that deals in unquieting rumors, that dispenses gloom and that is always on the hair trigger of uncertainty, defeats the advertiser and defeats itself."

"It is the truth that good times and bad are each largely a matter of psychology. In this respect the power of the newspaper is almost beyond reckoning. Boost and keep on boosting."

FIRST PACIFIC CONGRESS OPENS AT COAST MONDAY

The "Hands-Around-the-Pacific" organization in Honolulu has been in correspondence for some time with the Asiatic Institute in regard to the first Pacific congress to be held in San Francisco from July 19 to 23. According to the correspondence of the Asiatic Institute the Pacific conference is called by the Asiatic Institute, the Oriental Society and the American Asiatic Association.

Much as Honolulu would like to have the credit for this conference it was in no way born of the Pan-Pacific Congress held here some years ago, which died a natural death and was buried.

In the original draft Hawaii was not entirely ignored. Judge Sidney Ballou was invited to represent these islands. It will be remembered that Judge Ballou was present in Washington at a luncheon given by the Pan-American Union to Governor Frear and the officers of the Hands-Around-the-Pacific organization in Washington, when an arrangement was made for these two organizations to work together. Since then all of the organizations interested in Pacific work have been approached to unite with the Hands-Around-the-Pacific movement, which is composed of a number of local clubs in every part of the Pacific.

H. P. Wood, chairman of the Hawaii Fair Commission, and W. R. Cashe, one of the officers of the Hands-Around-the-Pacific movement, are both in San Francisco and will represent Hawaii at the conference. Mr. Wood was appointed by E. A. Berndt, chairman of the Promotion Committee.

City Clerk Kalaupokalani has mailed certificates of election to 63 delegates to the Honolulu charter election who were elected a week ago today. The initial session of the convention will

SPEND THIRTY THOUSAND JUST FOR GOOD TIME

A fund of \$30,000, to be used exclusively for the entertainment of the delegates to the sixth annual convention of the International Association of Rotary Clubs has been raised by the San Francisco Rotary Club. The convention opens next Monday, July 19. Delegates are expected from Australia, Hawaii, the British Isles and all parts of continental United States. S. S. Paxson will represent Honolulu.

The entertainment plans include the following features:

Sunday night, July 18.—Reception to visiting delegates at St. Francis hotel.

Monday night.—'49 Camp on Zone will be reopened for exclusive entertainment of Rotarians.

Tuesday night.—Ball at the St. Francis.

Wednesday night.—Banquet at Palace hotel.

Thursday.—Two hundred Texas Rotarians will entertain all day at the Normandie hotel, and in the evening a Texas watermelon party will be given.

Friday.—Luncheon will be given to the international president and to the 15 delegates from the British Isles in the banquet room in the administration building at the fair.

SUCCESS OF A MEDICINE

All things succeed which fill a real need; that a doctor is kept busy day and night proves his ability and skill; that Lydia E. Pinkham's Vegetable Compound is sold in enormous quantities in almost every city, town and hamlet in America and in foreign countries as well proves its merit, and women are found everywhere who tell of health restored by its use.—adv.

be held in this city Tuesday morning, September 7, beginning at 10 o'clock.

ANTICIPATION TO BE KEYED UP FOR BIG STUNT

The committees in charge of the various details of the entertainment and dinner-dance to be given by the Ad Club at Heine's Tavern on Friday evening of this week report fine progress, and assure an absolutely unqualified success for the event.

It is impossible to print the program as the committees believe, with the philosophers, that "the ardor of desire is more pronounced during the anticipatory stage of attainment;" therefore those attending will enjoy themselves the more by way of the surprises afforded.

It is urged that those desiring tickets notify those in charge of this part of the affair as soon as possible to facilitate the seating arrangements. See advertisement in another column for further information in this regard.

WUDAN WILL TRY ONE MORE CABLE

One more cablegram is to be sent to the state department at Washington, D. C., by Col-gen. D. J. Wudan, the Chinese Nationalist leader, requesting a passport which will warrant his traveling in continental United States.

In case the state department declines to answer the message, or declines to grant the passport, Col. Wudan declares he will return to China and request a passport from the government authorities at Peking.

Col-gen. Wudan has been denied a passport by Tss-ang Wooluan, the local Chinese consul. On July 3 he sent a cablegram to the state department at Washington requesting a passport. The cablegram was never answered. As the Chinese authorities in Peking granted him a passport to Hawaii, he believes he will have no trouble in getting one from them to the mainland.

GEORGE S. M'KENZIE DIES AS RESULT OF ACCIDENT

Information has been received here of the death in Napa, Cal., on July 3 of George S. McKenzie, well known in this city and in Hilo, from injuries resulting from an automobile accident in which Rod McKenzie, a brother of the dead man, and Mrs. Rod McKenzie were painfully hurt.

According to a San Francisco paper, the accident occurred when Mr. McKenzie, who was at the wheel of the machine, attempted to avoid a collision with a machine running in the opposite direction, driven by S. Lisner, a Napa merchant. McKenzie's car skidded into a ditch and overturned.

Fort Shafter Notes

(Special Star-Bulletin Correspondence) FORT SHAFER, T. H., July 12.—The 2d battalion, 2d Infantry, left this morning for the field, to be gone two weeks. They will establish a semi-permanent camp a little south of the Marconi wireless station and from there will go out each day into the mountains.

First call sounded at 7 o'clock, and at 7:15 the battalion, commanded by Maj. Lenihan, left the post, escorted by the 2d Infantry band. The officers of the 2d battalion who left are Maj. Lenihan, Capt. Cochran, Capt. Bell, Capt. Parker, Lieuts. Mathews, Jones, McAndrew, Halloran and Sloan.

Last Wednesday evening Capt. and Mrs. Cochran entertained with a delightful dinner. After dinner there were two tables of bridge. Mrs. Lincoln, making the highest, won a beautiful tray. The guests were Capt. and Mrs. Lincoln, Lieut. and Mrs. Richardson, Miss Richardson and Lieut. Abraham.

On Sunday evening Lieut. and Mrs. Green had as their guests for supper Miss Halloran, Miss Catherine Lenihan and Lieuts. Sylvester and Lyman.

On Tuesday evening the moving picture drama "The Deep Purple," will be given at the aerodrome. A good musical program will also be given.

DR. WEST'S FATHER DIES.

Thomas D. West, for many years one of the best-known men in the iron foundry industry and a high authority on practice, died in Cleveland, O., June 18, from injuries received by being struck by an auto. He was the father of Dr. Thomas J. West of Makaweli, Kauai. He was universally respected and admired in business circles and among his host of friends.

A motion for commission to take the testimony of W. A. Kinney, one of the defendants, now residing in Port Joli, Queen's county, Nova Scotia, has been filed in circuit court by a defendant in the case of Fred Makino against members of the Sugar Planters' Association and William Henry, former high sheriff.

AUTO TRAVEL RENERS MACADAM ROADS USELESS, SAYS C. O. WARREN

Highway Expert Tells of Only Way Asphalt Can Be Used With Sure Results

"I think the municipal engineers of the world have, in the past, considered the plain macadam road best for country travel. But since the introduction of the automobile these macadam roads have been rendered absolutely useless."

This is the opinion of C. O. Warren of Warren Brothers Company, which company manufactures the patent pavement known as "Warrenite." Mr. Warren, who is considered an expert on roads and their construction, has been a visitor in Honolulu for the last month, accompanied by Mrs. Warren. He will speak at the Ad Club luncheon Wednesday on the subject "Roads and their Maintenance."

"There has been quite a general effort to save these macadam roads by the use of oil and tar or asphalt dressings," Mr. Warren continued, "but all efforts have failed, and the building of macadam roads by pouring on asphalt, such as is being done here on the asphalt-macadam roads, has also proved a failure wherever tried. The roads thus treated will last a few months but in the long run they are much more expensive than if a good road had been laid down originally."

"There are many causes for these failures in asphalt-macadam roads. The principal ones are: "First, that the asphalt does not adhere to the stones with which the road is built unless the stones are first heated and made absolutely dry. "Second, that it is not possible to get an equal distribution of asphalt over the entire surface; some parts of the roadway will receive and retain a larger amount of the asphalt than some of the other parts where there is a surplus of finer material. "Third, that the roads are not strictly waterproof and that water, seeping through them, attacks and destroys the foundation. "On the whole, there is a general feeling among municipal engineers that the only safe and the most economical way of building asphalt-macadam roads is by what is called the "mixing method."

"This means that the stone is all heated; that exactly the right percentage of shaly-stone stones be used, and that while the stone is hot an exactly right proportion of hot asphalt is added and the whole mass thoroughly mixed in some form of mechanical mixer. Then, before it is allowed to cool, this mixture is laid upon the previously prepared foundation and thoroughly rolled. "In this way an absolutely uniform mixture is obtained, and by the proper selection of the differentiated materials used it is possible to make a paving surface that is almost absolutely free from voids and is entirely waterproof. "This system authorizes the principle used in the construction of the

bitulthic and Warrenite pavements. Just before I left Portland, Oregon, the latter part of last month, Multnomah county, in which Portland is situated, awarded contracts for more than 60 miles of bitulthic pavement, and this was done only after very thorough examinations made by the county road supervisor and also by separate examinations by a committee from the chamber of commerce."

IN WAR ARENA

SUBMARINE USES AMERICAN SHIP AS SHIELD.

LONDON, Eng., July 13.—The crew of the American bark Normandy, which has arrived here safely from Gulfport, Texas, Mississippi, report that while traversing the war zone the neutrality of the United States was forcibly violated by a German submarine.

The submarine, they say, covered them with its pivot gun and compelled them to heave to, while it lay in the lee of the bark, waiting for the approach of the Russian steamship L-o, which had been sighted in the near distance. When the Leo came within torpedo range, the submarine dashed from the shelter of the American bark, which it had used as a shield, and sent home a torpedo into the Russian. The Leo sank with a loss of eleven drowned.

HEAVY FIGHTING ALONG WESTERN FRONT.

PARIS, France, July 13.—In Flanders yesterday, the Germans subjected the Belgian and British positions before Njeport and Lombardzede to a hot bombardment with heavy shells, while around Ypres they charged the British trenches repeatedly.

Between Verdun and Rheims there was furious fighting along the Aisne in the craters dug by the explosions of mines and counter-mines beneath the opposing trenches, and in the wooded ridges of the Argonne there were important artillery and infantry engagements, the result of which still hangs in the balance.

In Luce, at the eastern end of the long line, a heavy artillery fire was rained down on the French trenches north of Muenster.

BRITISH SEND NEUTRAL STEAMERS TO PRIZE COURT.

LONDON, Eng., July 13.—Sir Edward Carson, attorney-general in the coalition cabinet, yesterday asked on behalf of the crown that the prize court condemn as legal prizes of war the Norwegian steamers Alfred Nobel, Kim and Bjornstjerne Bjornson and the Swedish steamer Fridland, which have been seized by British patrol ships and brought to British ports on the grounds that they were carrying contraband for the use of the enemy.

Sir Edward states that Copenhagen is practically a base of supplies for the German army, into which contraband is pouring in neutral ships, the majority of which do not carry clearance papers for the port, but for some French or British port. The cases of the four steamers are brought before the prize court by way of tests.

In British ports, held by the British authorities, are 38 other vessels, seized under the same circumstances as contraband carriers.

CANADIAN FARMERS CHARGED WITH TREASON.

VANCOUVER, B. C., July 13.—Ernest Hamel and David Kitzel, German farmers who have been residents of Canada for the past thirty years as naturalized British subjects, were placed under arrest yesterday by the provincial authorities, charged with high treason. The authorities state that they have evidence that Hamel and Kitzel assisted two alien enemies, German subjects, to cross the border into the United States, to prevent their arrest and internment.

FRANCE RAISES BONDS.

PARIS, France, July 13.—The minister of finance introduced in the chamber of deputies yesterday a bill raising the limit of bonds for the national defense from the sum of one billion, two hundred million, fixed May 18, to one billion, four hundred million. In the last eleven months the French public has absorbed war bonds aggregating one billion six hundred eighty millions, American money.

RUMORS GERMANY HAS THREATENED RUMANIA.

LONDON, England, July 13.—Statements that Germany has delivered a truculent note to Rumania, threatening her with punishment for alleged violations of neutrality, if her conduct is not altered in the immediate future, are contained in despatches to the morning newspapers from Bucharest.

Because of the action of the controller of the treasury in disapproving last year's expenditures by the war department in holding student military camps, the department virtually abandoned plans to hold camps this year.

If Your Hair is Falling Out

ADMIRAL HOWARD INTERVENES AND SAVES GUAYMAS

U. S. Naval Commander Stops Mexican Gunboat From Shelling City

[Associated Press by Federal Wireless] GUAYMAS, Mex., July 13.—Interceding "in the name of humanity," Admiral Howard, in command of the American squadron here, has prevented the commander of the Carranza gunboat Guerrero from carrying on a general bombardment of the city with his six 4-inch guns. The Mexican commander had called upon the Villistas in the Guaymas garrison to surrender, under pain of having the city in general bombardment in event of a refusal. The preparations for the bombardment were under way when Admiral Howard intervened.

BRITAIN WILL FOLLOW U. S. LEAD IN MEXICO

[Associated Press by Federal Wireless] WASHINGTON, D. C., July 13.—Sir Cecil Spring-Rice, the British ambassador, let it become known last night, in an open statement, that Great Britain intends to follow the lead of the United States in whatever policy the Administration may adopt toward Mexico, irrespective of the Boston incident, or other harassments and losses to which British subjects have been subjected, in common with other foreigners, by one and another of the various warring Mexican factions.

DEATH CALLS PIONEER SEATTLE NEWSPERMAN

[Associated Press by Federal Wireless] SEATTLE, Wash., July 13.—Col. Alden J. Eblethen, veteran editor and publisher of the Seattle Times, died at his home here yesterday. Alden Joseph Eblethen was one of the best known editors and publishers in the West.

EDISON HEADS ADVISORY BOARD ON NAVY CRAFT

Chief Executive Determined to Uphold Dignity in Face of Crisis

[Associated Press by Federal Wireless] WEST ORANGE, N. J., July 13.—Thomas A. Edison, the dean of American inventors, has accepted the invitation of Secretary Daniels of the Navy Department to assume the presidency of an advisory board of civilian inventors, to be known as the bureau of invention of the navy department. In particular, it is planned that the board shall devote its genius to the problems of submarine warfare, with a view to discover new methods and devices of defense, which shall assure the safety of the United States by their effectiveness.

Officers who have shown inventive talent and a disposition for original research work, will be assigned to cooperate with the bureau, in order that it may have the advantage of their knowledge of military problems. At the same time, the bureau will be given free rein under Mr. Edison to work out its own experiments in its own way, once it has determined on the problems it will seek to solve.

GONZALES WILL GIVE GOOD GOVERNMENT TO MEXICO'S CAPITAL

[Associated Press by Federal Wireless] GALVESTON, Tex., July 13.—Gen. Gonzales, the Carranza leader who has regained the City of Mexico for the First Chief, has issued a decree promising the immediate reestablishment of the civil courts and the public schools in the capital, with guarantee of fair treatment for all, regardless of nationality or faction.

Don't forget to order your ticket for that big dinner, entertainment, dance and general "high jinks" to be given by the Ad Club at Meina's Taverna Friday evening, July 16. Phone J. D. Levenson, 3625, or C. D. Wright or W. C. Hodges, 2255, for reservations. They're going fast.

WILSON'S REPLY WILL MAINTAIN NATION'S HONOR

Chief Executive Determined to Uphold Dignity in Face of Crisis

[Associated Press by Federal Wireless] CORNISH, N. H., July 13.—President Wilson is at work on the first draft of his reply to the latest German communication. The president has no disposition to consider the situation as other than critical in the extreme, and, without discussing the character of his forthcoming reply, he has let it be known that it is the determination of the administration, in the fullest knowledge of the difficulties it faces, to uphold the dignity of the nation firmly.

VILLA PUTS VALUE ON PAPER MONEY

EL PASO, Tex., July 13.—An official decree was issued from the headquarters of the Villa government yesterday establishing a value upon the Villa government paper currency of 30 cents American gold for one peso. The decree provides that anyone refusing to accept this currency in trade at the announced value will be guilty of an offense against the government punishable by imprisonment or fine.

The actual value of the Villa currency is about 3 cents gold for one peso. Yesterday the court declared forfeited the bond of \$7500 given for the appearance of Gen. Orozco, who had been arrested and indicted on a charge of violation of neutrality. Orozco jumped his bail and escaped over the line back into Mexico. The grand jury yesterday deferred all action on the cases before it charging violation of neutrality and these will not come up now until October. It was learned here last night that Gen. Huerta's family, now living on Long Island, N. Y., is preparing to take up its residence here.

MID-PACIFIC MAGAZINE GIVES BOOST TO PENNY POSTAGE PLAN

Hands Around the Pacific Club Will ask Chamber of Commerce to Take Action

A penny postage or two-cent rate around the Pacific, and between all the countries of the Pacific, is the ambitious desire advocated by the Mid-Pacific Magazine and the Hands-Around-the-Pacific workers in the different countries about the Great Ocean.

For some time the Mid-Pacific Magazine has been the recipient of correspondence from Pacific lands that are favored with a penny postage rate, urging that Hawaii be brought into this circle, and through the local Hands-Around-the-Pacific Club in Honolulu, the matter is being brought before the Honolulu Chamber of Commerce.

The following is from an advance sheet of an editorial to appear in the August Mid-Pacific Magazine that is being forwarded to the Postoffice department in Washington. "A Pan-Pacific Post."

"The Hands-Around-the-Pacific movement heartily advocates a round-the-Pacific penny-postage rate, that is, it believes that the countries of the Pacific should establish a universal letter postage rate of two cents or a penny an ounce, between Pacific countries. At present, the letter postage rate from New Zealand and Australia to the United States is one penny, or two cents, but vice versa (from the United States to these countries) the rate is five cents, or 2 1-2d. Unfortunately, Hawaii is not included in the letter postage rate from Australia and New Zealand. Letters from these countries to Hawaii must have attached a 5-cent or 2 1-2d. stamp, although Australian letters to the mainland of the United States are posted for less than half this rate.

"Between Hawaii, the Philippines, and American Shanghai, the postage rate is two cents either way. There is every reason why this should be the universal rate for letter postage on the Pacific. The United States postal authorities stand mainly in the

way of such an arrangement, and it is herewith urged that the Congress of the United States take this matter up and pass legislation that will quickly bring about a universal letter postage rate of two cents an ounce to and between the countries of the Pacific.

The attention of The Mid-Pacific Magazine has been particularly called to this subject by the following letter from Thos. L. Mills, editor of the Feilding Star of New Zealand, a farmers' journal that publishes two editions daily. The following is Mr. Mills' communication:

"It seems to have become a habit of mine to write for The Mid-Pacific Magazine. A good one? Admitted. This time it is something of a groinch, albeit there is a suggestion behind it. Let me unfold the grumble first: When I write to any business man or brother journalist in the U. S. A., I put a penny stamp on the letter, the two-cent being our straight-fire postal bulletin. But the man at the other end, when he comes to reply, sends that my letter carries a penny stamp, puts a two-cent sticker on his envelope. When that reply reaches me, I have to pay out a three-penny (six cents) fine to release it. Doesn't that get you? I do not complain against the lack of postal knowledge on the part of the correspondent, for three pence is cheap for a letter from most Americans. But I have a distinct grievance against the biggest business nation on this green footstool that it allows itself to be beaten in postal facilities by a little bit of earth away out here at the uttermost end of the world.

"A citizen of the United States of America, writing from Washington or Honolulu to Wellington or Feilding in New Zealand has to place a five-cent stamp upon his letter. A resident of Wellington or Feilding wishing to write to Samoa, America, France, Italy or England, has to stick a penny stamp only on his epistle. And Americans continue to put up with this two-penny-half-penny (five cent) imposition! Out upon them for out-of-date, behind-the-times postal custom! Of course, this is no new thing. As Harry Lauder would say it, this has been going on for years and years and years and years." Its recurrence has prompted it now as a text for a few remarks to the powers that be behind the Hands-Around-the-Pacific movement, concerning which my friend, Editor Alexander Hume Ford, will bear evidence that I have been an advocate at this end in my paper, The Feilding Star.

"The point to be made is that the whole of the Pacific region should be grouped in a penny post treaty. The New Zealand Postal Department has found the penny post a paying proposition nationally. One result is that New Zealanders—a nation of one million souls all told, in a country that has been civilized only seventy or eighty years—have become the most prolific letter-writers on earth. Again, it follows that great writers (in the quantitative sense) are great readers. Correspondence begets more letters, and so it grows. New Zealand has its advantages over other countries, and not the least of those over the United States of America is undoubtedly penny postage. See to it, Brother Jonathan, that you come into the charmed circle of enterprise; help him to see it, you Hands-Around-the-Pacificists."

DALLAS BIDS FOR CONVENTION OF DEMOCRATS
[Associated Press by Federal Wireless] NEW YORK, N. Y., July 13.—William McCombs, chairman of the Democratic National Committee, has received an offer from Dallas, Tex., of a \$100,000 contribution to the Democratic campaign fund if the party will hold its 1916 national convention in that city. On receipt of a favorable answer the immediate construction of a coliseum capable of seating 25,000 persons is promised.

BRITISH AMBASSADOR ESCAPED HOLD-UP
[Associated Press by Federal Wireless] NEW YORK, July 13.—It has become known that on the night following the attempt of Erich Muenster to assassinate J. Pierpont Morgan, six men tried to hold up Sir Cecil Spring-Rice, the British ambassador, on the streets of New York. They were frightened off before their plan could be accomplished.

There were 1492 deaths and a death rate of 13.41 per thousand in New York during the past week. This is a decrease of exactly 100 deaths from the figures for the same week of 1914.

Home Course in Advertising

PURPOSES OF THE COURSE:—(1) To increase returns for the retailer who now advertises. (2) To show the non-advertising retailer how he can lower his prices, yet increase his profits. (3) To suggest to the jobber and manufacturer a cautious method to create demand and increase good-will. (4) To prepare the person with latent advertising ability for a place in this new "profession."
This course, when delivered personally to a class of students, costs \$15. It is equivalent to a correspondence course which costs \$95. The entire 90 lessons will be given exclusively with this newspaper free of charge.
CHAPTER XXXI.

Purpose and Position of Retail Ads.

After a retailer has decided how much he ought to appropriate for his advertising, he is then up against the question: "What particular purpose do I wish my advertising to fulfill?"

It is curious that, although the retail advertiser takes his advertising seriously, although he realizes how much it costs, and although he appreciates that it is the only way to increase his business—yet the average retailer pays too little attention to his advertising.

Why? The answer is as usual: "Human Nature," as manifested in the fact that it is easier to buy than to sell. You, or any other human being, would rather sit in an office and have a salesman try to get you to buy something, than you would to sit down and work out some method of making people, through ink and paper, feel that they ought to come and buy something from you.

And so, the usual retailer is apt to be just a "buyer." Of course, he has to buy his merchandise right so as to give proper value. Still, if he also paid keen attention to the sales-development of his business—to the advertising phase of his business—then his business would progress with greater strides.

No matter what values you have to offer, if people don't know about them they are worthless. No matter how desirable your goods may be, if you don't create desire in favor of those goods, you fall short.

Despite the acknowledged importance of advertising to a retailer, newspapers sometimes find that specialty store people who spend a couple of thousand a year in advertising are apt to write their ads in five minutes "while the boy waits." Some of them hand in ads to

occupy a foot square, which are sketched out on the back of a calling card. If they only realized how much more they could get from their money if they spent some time and analyzed their problem, there would be a lot more retail advertising. And the biggest analysis, or rather the first analysis, is this question of the purpose of their advertising.

Of course, the general purpose is to get people into the store. That is every retail advertiser's purpose. But the aim may be more specifically to get people to buy—or to get people to look, or to get people into the store tomorrow, or get them into the store the next time they are in the market for that special kind of merchandise.

Yet, there are some retailers who so clearly visualize the purpose of their advertising, that they go so far as to have their advertisements set up by their own printers. For instance, there is one store which seeks to radiate an atmosphere of artistic distinctiveness. Although the typography in the newspapers they use is as good as can be had, still this advertiser spends an extra \$10.00 or so every time he renews an ad, for, in order to get the prettiest borders and the most fetching kind of type, and the classiest possible taste into his store announcements, he has his own printer compose the type and turn the completed form over to the newspaper.

When it comes to the question of the purpose of your advertising, you have to decide another very important detail—that of "position." A specialty store particularly, as a rule, appeals to either men or women, or to some certain class. Such advertisers have to choose where, in that newspaper, their ad will do the most good. A haberdasher, for instance, may want to be on the sporting page. A department store may put one little ad opposite the woman's or the society page, and then place their entire ad wherever they can. The little ad on the social page calls attention to their main announcement on the subsequent page. Some big stores believe in this method so thoroughly that quite often they will have their general ad on the back page of the newspaper and their particular items, referring to women's garments and so on, on the women's page, while ads of the men's garments will be on the men's page—all in one edition.

Perhaps your business can't stand an ordinary advertising expenditure. You may want to use the Want Ads. In this phase, too, attention to positions may pay. You should be careful to select the proper classification.

Even the small merchant in the country unconsciously pays a lot of attention to position. You will see in almost any weekly paper of towns of less than 10,000, little items in regard to the bargains at the local store, interspersed among the local news paragraphs. Sometimes these are put in among the personals, and sometimes among bits of local news that are not merely personals. Such advertising frequently costs more than the usual rate. In other words, in the usual small paper where the regular inch rate may be 15c or 10c, the rate for these local items would figure up to 30c or 60c per inch. And position is the reason why the local advertiser uses those expensive little local lines instead of regular display space.

DARTMOUTH GAVE TRAVELERS GREAT 12-INNING GAME

Eastern College Teams Far Superior to Those of the West, Says Chinese

TRAVELING CHINESE. Played. Won. Lost. Tied. Pct. 47. 48. 18. 1. 727. By ALFRED YAP. (Special Star-Bulletin Correspondence) KEENE, N. H., June 30.—Two of the best games played by the Travelers to date were with Seton Hall and Dartmouth College. The former we lost 6 to 7, and the latter came our way 4 to 2, in 12 innings. In the Seton Hall game we outhit the opposition 13 safeties to their 10, but although we made a great eighth inning rally, getting three runs in that frame, the lead was too long to overcome. In the Dartmouth game we hit their pitcher, Perry, for 13 safe ones, while their men only secured five hits off Kau. Lai Tin walked off with the batting honors with four singles out of six times up. The team played a good game behind Apau, cutting off lots of hard ones that looked like sure hits. The eastern college teams play much better ball than those in the West, and the picking isn't nearly so easy.

JACK READ SAYS WORK ENTITLES HIM TO MATCH

Australian Lightweight Hopes to Fight Welsh for World's Championship

Jack Read, the Australian lightweight who passed through on the Ventura yesterday, on his way to his home "down below," says that Freddy Welsh is likely to hold the lightweight crown for some time yet. It appears that Welsh is beating good men regularly and holding better men to even breaks, and all this without trying much. The slippery Britisher is making hay while the sun shines—fighting twice or three times a week and raking in the coin that comes easy to world's champions. Read hopes to get a crack at the Welshman while he is still at the top of the heap. Read's record in the two years he has been campaigning in the United States is as follows: 1913. Sept. 10—Jimmy Coffey, no decision, New York, N. Y., 10 rounds. Sept. 13—Sam Hobideau, lost, Philadelphia, Pa., 5 rounds. Oct. 7—Bay Wood, won, Boston, Mass., 12 rounds. Nov. 20—Steve Kennedy, won, Lawrence, Mass., 12 rounds. Dec. 3—K. O. Sweeney, won, Webster, Mass., 12 rounds. 1914. Jan. 26—K. O. Sweeney, no decision, Syracuse, N. Y., 10 rounds. Feb. 11—Johnny Love, no decision, Syracuse, N. Y., 10 rounds. Feb. 23—Willie Beecher, no decision, Troy, N. Y., 10 rounds. March 3—Fred Halsband, no decision, Providence, R. I., 10 rounds. March 10—Billy Bennett, no decision, New York, N. Y., 10 rounds. March 20—K. O. Sweeney, no decision, Syracuse, N. Y., 10 rounds. April 3—Evel Yelle, won, Webster, Mass., 12 rounds. April 28—Frankie Mack, won, Lawrence, Mass., 12 rounds. May 6—K. O. Sweeney, no decision, New Haven, Conn., 10 rounds. July 4—Pat Moore, no decision, Rochester, N. Y., 10 rounds. August 17—Frankie Mack, won, Boston, Mass., 12 rounds. August 24—Jimmy Duffy, no decision, Buffalo, N. Y., 10 rounds. Oct. 9—Faddy Sullivan, no decision, New York, N. Y., 10 rounds. Oct. 28—George Alger, won, Lawrence, Mass., 12 rounds. Dec. 8—Harry Condon, won, Webster, Mass., 12 rounds. 1915. Jan. 12—Harry Condon, won on foul, Montreal, Canada, five rounds. Jan. 26—Harry Condon, no decision, Montreal, 10 rounds. Feb. 10—Walter Mohr, no decision, Albany, N. Y., 10 rounds. Feb. 16—Young Brown, no decision, New York, N. Y., 10 rounds. March 1—Vic Moran, lost, New Orleans, La., 15 rounds. March 19—Benny Palmer, won, Shreveport, La., 15 rounds. March 23—Vic Moran, knockout, Memphis, Tenn., three rounds. April 8—Bobby Waugh, won, San Antonio, Tex., 10 rounds. May 4—Benny Cordova, won, San Antonio, Tex., 10 rounds. May 21—Jack Shelton, won, Seguin, Tex., eight rounds. May 24—Bobby Reynolds, defeated, Memphis, Tenn., eight rounds. June 14—Eddie Beatty, won, Alton, Mo., eight rounds. June 23—Frankie Callahan, knockout, St. Louis, Mo., five rounds. July 1—Benny Palmer, knockout, Cincinnati, Ohio, five rounds.

LEARN HOW TO SWIM

In a Series of Ten Articles, Famous Expert Louis De B. Handley of the N. Y. A. C., Gives Advice to Beginners and Veterans.

Article No. 3.—The Crawl Stroke

Photos © by American Press Association. TWO VIEWS OF THE CRAWL AND THE TRUDGEON.

Lower illustration shows position of the body in the crawl and the trudgeon crawl seen from above. Right arm pushing to full reach; left arm near completion of its drive; legs paddling up and down alternate thrash. Upper illustration shows swimmer completing the top arm drive. Top arm is relaxed and ready to leave the water, under arm is about to catch, head is twisted (not lifted) to inhale and legs are crossing in alternate thrash.

BI LOUIS DE B. HANDLEY. (Copyright, 1915, by American Press Association) Some ten years ago the crawl swimming stroke came from Australia to revolutionize the art of natation in this country, and it is interesting to recall that, although we unwittingly departed at the very first from the original type, we undoubtedly owe to this unconscious change our present international supremacy in sprint swimming. In fact, the only data we had at the start upon the new stroke were hazy descriptions written for the Australian newspapers by men not versed in the subject, and it was simply blind luck which enabled us in attempting the reconstruction of the crawl from these descriptions to stumble without knowing it upon a somewhat different leg drive superior to that used across the seas. In the decade since elapsed many varieties of the crawl have appeared. Its American devotees showed such immediate and remarkable increase of speed that both competitors and instructors began to devote to it close study and presently new theories were evolved and various innovations introduced. Then we heard in turn of the Australian true type, the legless, the amble, the composite, the American and the trudgeon crawl. Experiments, however, eventually led to the conclusion that most of these variations were, practically worthless, and today only the American and trudgeon crawl have survived, at least in the United States. The former is universally recognized as the best for short distance swimming and has the world's sprinting records to its credit. The latter is generally advocated for the longer courses and has been used effectively even in water Marathon races. In this article we will confine ourselves to the American crawl and speak separately later of the trudgeon crawl. A great many swimmers, and not a few racing men among them, believe that in using the crawl a shorter arm drive than in the trudgeon should be sought and more rapid action. This is hardly the case, and the belief probably comes from the fact that the stroke has been the standard one for sprinting, while the trudgeon is shown at present chiefly by distance swimmers. But even in sprinting it is not advisable to cut the reach and flay the water wildly. Indeed, the world's greatest 100 yarders—Charles Daniels, Duke Kahanamoku, Arthur Rathel, Harry Heber and Perry McGillivray—always take full, complete strokes, and their action is comparatively very slow. The leading authorities on swimming are now unanimous in stating that the identical arm movements should feature all the modern strokes—trudgeon, crawl and trudgeon-crawl—and as these were given space in a previous article on the trudgeon we will pass on without further ado to the leg drive of the crawl. This drive is a continuous, alternate up and down thrash of narrow scope, performed entirely under water. The legs are held outstretched, but not rigid, and though the thighs move a little, the bulk of the work is done from the knees down. Walk on tiptoes, with mincing steps, and you will obtain a clear idea of the wanted action. The original Australian kick was made by lifting the feet high above water and beating them down just once to every arm stroke, each striking the surface in time with the pull of the opposite arm. Our experts, however, realized that waving the feet in the air added nothing to the propelling force, yet increased the effort and caused the lower body to sink. They advocated therefore a submerged thrash, the heels at most to show over the water, and the Australians themselves have now become convinced of the superiority of the method. As to the number of downward beats, it was here that we branched off from the original stroke from the very first. Not knowing of the synchronous timing of arms and legs we let the individual decide for himself how many beats he could perform to each drive of the two arms, and thereby discovered what is now called the "American crawl." The advantage derived from the change will be realized. In using the old kick it was necessary either to leave the legs drag idly and lose momentum between arm drives, or so speed up the movements of both arms and legs to make the stroke exhausting and untenable. With the continuous thrash instead the swimmer is able to make the arm movements as slow as he pleases and still utilize all the power in his legs by increasing the number of beats at will. The prevalent belief that there is no coordination between the arm and leg movements of the American crawl, however, is unwarranted. True, our best coaches tell their pupils not to pay any attention to relative timing, but this is because they know that as a swimmer gains proficiency he falls naturally and unconsciously into the rhythmic action made essential by the correlation of the muscular system. Thus, any one taking the trouble to dissect the leg drives of our successful racing men will find them to conform with one of three distinct types, namely, the type in which each leg is lowered sharply as the opposite arm pulls; the four beat, in which each leg whips down twice to the stroke of the arms, and the six beat, in which the legs go left, right, left during the sweep of the right arm and right, left, right with the sweep of the left arm. This marking of the time or rhythm is quite noticeable in all good swimmers and, when lacking, indicates that there is some fault in the stroke. It is the opinion of competent judges that the six beat kick is the most effective not only because of its rapid action, but also because it establishes a better balance of power. Obviously, though, it requires unusual strength and suppleness of leg, and the average individual will get best results from the four beat, which is less tiring. One of the errors often incurred by crawl swimmers is to bury the head between the shoulders. Nothing is gained by it. On the contrary, strain is placed on the muscles of the neck, greater resistance is offered to the water in boring through it, and an unnecessary move is made to breathe. In learning the crawl no difficulty will be experienced by the pupil who has been taught to swim by means of the side stroke or elementary crawl, for the action is practically the same. Those, however, having served their novitiate in the breast stroke school should drop the frog kick altogether and devote their every effort to the leg thrash before even attempting to master the arm movements. When the whole stroke is attacked it is possible to pay the wanted attention to the radical change of kick and the swimmer hardly ever succeeds in getting away from the lateral opening of the knees and the bringing up of the thighs, which are prescribed features of the breast stroke and bad faults in the crawl. The easiest way to practise the crawl thrash is either by stretching out on the water and hanging on to something or by assuming the same position in a swimming device, and hold the arms motionless. It is well at first to not bend the knees at all, working the legs from the hips, as the natural inclination of a breast stroker is to draw up the legs, instead

PITY THE PUNY COUNTRY LOUT; TOWN KID BIGGER

Series of Tests Prove Boys of Slums More Athletic Than Those of Open Spaces

If you were to tell the average proud parent of the average small town that almost any school boy of the big, congested, play-suffocating cities can jump farther, run faster and chin himself more times than his own village-bred son, he would probably look you indulgently in the eye and ask if you really felt quite all right today. People have heard so much about how the slums dwarf children and how the city has to recruit its sound, able-minded men in rural districts that the inferiority of city-grown lungs and muscles has become a kind of a by-word. In order to get at the facts in the case, a man connected with the Russell Sage Foundation was recently led to apply his yard stick to this particular tradition. Selecting certain athletic tests which are commonly met by large numbers of schools in New York and other large cities he took them back to the good old New England town of Ipswich and tried them on its home-grown school children. The tests were in jumping, running and chinning and the passing marks in these three events which the Ipswich boys were asked to make are met each year by thousands of boys of the same age in many large cities. Only one, however, was able to fulfil the three simple requirements for elementary pupils while among the high school lads there was not a single student who was able to make the marks set for boys at that age. In the chinning, or pull-up, the Ipswich boys were able to do only about one half as well as boys from some of the most congested sections of New York City. Mr. Howard Roscoe Knight, who made this investigation, does not claim that the results demonstrate an all-round physical inferiority on the part of these Ipswich boys. They had had no body training in their schools. The New York boys, on the other hand, had enjoyed systematic physical education since entering the school. The comparisons, in other words, are straws which indicate that the large cities are overcoming their defects as habitats for the human animal, and that if the towns and villages do not wake up they may some day suffer the chagrin of having to look upon the large cities as health resorts. Mr. Knight's survey of the recreational life of Ipswich which, by the way, numbers about 6000 souls, gives many evidences to support the growing belief that the small town, although blessed with play spaces, is really in a bad way because it has nobody whose particular business it is to run the play plant. A playground is like a theater. To draw large patronage it must be efficiently managed. Play activities do, of course, go on without paid guidance in small towns as well as everywhere else. Shooting craps, card playing, breaking windows, swapping yarns at the livery stable, joy-riding, pranks down in the lumber yard, jumping freight trains—such pursuits flourish without stimulation—like weeds—everywhere. But if you have large fields, ample yards, and spacious halls, somebody must be on hand with an attractive program or the recreation facilities which you want your young people to use will probably be little patronized. Ipswich possessed no systematic physical training nor expert play leadership, and its recreational life showed the result. After school on three different days more than 60 per cent of the 695 boys and girls observed were in the street and less than seven per cent were using the athletic field. Over two-thirds of the boys and over one-half of the girls attend the "movies" once a week or oftener. Sixty-nine per cent of the boys and 52 per cent of the girls expressed a preference for those subjects which are readily classified as "thrillers" while but five per cent of the boys and three per cent of the girls mentioned films that could be called educational. The report of this survey, which has just been published, throws an illuminating light upon many other features of the recreational life, and needs of a small town. In closing it presents a program of future developments for Ipswich, many provisions of which would apply with equal appropriateness to other towns and villages throughout the United States. Among the recommendations given are the following: Physical training for all boys and girls as a regular part of the school curriculum. Teaching of games for home and playground use. The extensive use of group games in physical training and the use of the athletic badge test and group athletics. Equipment of each school and school yard with sufficient apparatus to enable teachers to make the best possible use of recess time. Grading of school property wherever necessary to render it most useful. That in the next school building erected a gymnasium with lockers and shower baths be provided. That the building be equipped with movable furniture so that its class rooms may be used for civic, social, and recreational purposes after school hours. The organization of a public athletic league. A permanent holiday celebration committee. A rejected suitor shot and fatally injured Angelina Posno-at-her-home in Charlton, Pa., and shot her mother, Mrs. Camelia Posno, as she tried to shield her daughter. A large posse is hunting the slayer.

SAWED OFF SHORT

It is interesting to learn the weight and size of hands used by the star lawn tennis players. None of the leading ten players of this country and Europe plays with rackets weighing less than 14 1/2 ounces or with handles less than 5 1/4 inches girth. Willam Johnston and R. L. Murray use 15-ounce bats and 5 1/4-inch handles. Most of the English and colonial players use lighter rackets. Arnold Hauser, until a couple of years ago one of the greatest short-stoppers in the business, stands a chance of coming back. Hauser, who by reason of a physical breakdown was considered out of the game for the rest of his life, broke into an amateur game in St. Louis the other day. His work was so brilliant that the fans who saw him make the prediction he will be back with the Cardinals within a very short time and fill his old position at short field as brilliantly as ever before. Jimmie Craig, star Michigan football player, who was chosen twice by a large number of critics for hallback on the all-American selections, will coach Maccabean Academy next fall. Craig was the back field star of the Wolverines eleven for three years and one year was the low hurdles at the western intercollegiate track meet. Lew Deedes has refused many tempting offers for his Irish club Ballaghobbin since he won the Baldyle Derby. One report says that more than \$50,000 was offered and laughed at for the champion three-year-old. Don White, former star pitcher of the Chicago White Sox, is now manager of the Venice Coast League team, succeeding the late Happy Hogan.

Sample of new "display classified" advertisement, now obtainable in the STAR-BULLETIN at the rate of

9c PER LINE PER DAY
45c PER LINE PER WEEK
\$1.05 PER LINE PER MONTH

The above sample is a ten-line ad. Everyone that looks at this page will see it at a glance.

IT'S GOOD ADVERTISING.

We advocate this form of advertising for those wishing something a little more attractive than the ordinary "liner classified" adv., yet do not want to go into large display advertising, where a contract is necessary.

No contract is necessary for this form of advertising - and you can take as much space as you wish. Try it and be convinced of its merit.

THE "AD MAN."

LEGAL NOTICES.

IN THE UNITED STATES DISTRICT Court for the Territory of Hawaii, Action brought in said District Court, and the Petition filed in the office of the Clerk of said District Court, in Honolulu.

THE UNITED STATES OF AMERICA, Plaintiff, vs. LUCY PEABODY, et als., Defendants.

THE PRESIDENT OF THE UNITED STATES OF AMERICA, GREETING:

LUCY PEABODY; GRACE KAHOLAH; THE PROTESTANT EPISCOPAL CHURCH IN THE HAWAIIAN ISLANDS, a corporation organized and existing under and by virtue of the laws of the Territory of Hawaii; ST. ANDREW'S PRIORY; HENRY BOND RESTARICK; SISTER BEATRICE, whose full and true name is unknown; SISTER ALBERTINA, whose full and true name is unknown; THE QUEEN'S HOSPITAL, a corporation organized and existing under and by virtue of the laws of the Territory of Hawaii; BRUCE CARTWRIGHT, Trustee under the Last Will and Testament of EMMA KALELEONALANI, deceased; THE TERRITORY OF HAWAII; C. H. BELLINA; HONOLULU PLANTATION COMPANY, a corporation organized and existing under and by virtue of the laws of the Territory of Hawaii; and JOHN BROWN, JAMES BLACK, MARY DOE and JANE BLUE, unknown owners and claimants.

You are hereby directed to appear and answer the Petition in an action entitled as above, brought against you in the District Court of the United States, in and for the Territory of Hawaii, within twenty days from and after service upon you of a certified copy of Plaintiff's Petition herein, together with a certified copy of this Summons.

And you are hereby notified that unless you appear and answer as above required, the said Plaintiff will take judgment of condemnation of the lands described in the Petition herein and for any other relief demanded in the Petition.

WITNESS THE HONORABLE SANFORD B. DOLE and THE HONORABLE CHARLES F. CLEMONS, Judges of said District Court, this 10th day of June, in the year of our Lord one thousand nine hundred and fifteen and of the Independence of the United States the one hundred and thirty-ninth.

(Seal) (Signed) A. E. MURPHY, Clerk.

(Endorsed)
"No. 87, UNITED STATES DISTRICT COURT for the Territory of Hawaii, THE UNITED STATES OF AMERICA vs. LUCY PEABODY, et als., SUMMONS. JEFF McCARN and J. W. THOMPSON, Plaintiff's Attorneys.

United States of America, District of Hawaii, ss.

I, A. E. MURPHY, Clerk of the District Court of the United States of America, in and for the Territory and District of Hawaii, do hereby certify the foregoing to be a full, true and correct copy of the original Petition and Summons in the case of THE UNITED STATES OF AMERICA vs. LUCY PEABODY et als., as the same remains of record and on file in the office of the Clerk of said court.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of said District Court this 24th day of June, A. D. 1915.

(Seal) A. E. MURPHY, Clerk of United States District Court, Territory of Hawaii.

BY AUTHORITY.

BILL NO. 115. ORDINANCE NO. — AN ORDINANCE PROVIDING FOR THE EXHIBITING OF MOVING PICTURES OF A BIBLICAL OR EDUCATIONAL CHARACTER, IN THE CITY AND COUNTY OF HONOLULU ON SUNDAYS, PROVIDING RESTRICTIONS AND PENALTIES, AND REPEALING ORDINANCE NO. 80.

BE IT ORDAINED BY THE PEOPLE OF THE CITY AND COUNTY OF HONOLULU:

SECTION 1. Any person having first paid the requisite license fee, as provided under Section 2077 of the Revised Laws of Hawaii of 1915, as amended by Act 223 of the Session Laws of 1915, for conducting a Sunday Moving Picture Show, and who shall desire to exhibit to the public, in the City and County of Honolulu, on Sunday, any moving picture film or films, shall make application for a permit to the Board of Supervisors of said City and County of Honolulu as hereinafter provided.

Said application shall be in writing, shall set forth the name and address of the applicant for the permit, the occupation or business of the applicant, the location and character of the building in which said film or films are to be shown, and the day or days and hour proposed for their exhibition. The said application shall be accompanied by an affidavit sworn to by the applicant, which affidavit shall state the names and characters of the pictures proposed to be exhibited, that applicant has personally seen the said proposed pictures, that they are either educational or biblical, and are in no sense vulgar, indecent, suggestive or improper pictures to be exhibited. On the filing of said application and affidavit, as required in this Ordinance, it shall be the duty of the City and County Clerk to issue a permit to the applicant for the exhibition of said pictures after the hour of 6:30 p. m. for the Sunday or Sundays designated in said application, and the names of the pictures to be shown shall be set forth in said permit, and the day or days and the hour at which they are to be shown shall likewise be set forth.

SECTION 2. Any applicant who shall misrepresent in said application or affidavit, the character of the picture or pictures to be shown, or who shall exhibit the same at any time other than that specified in the permit, shall forfeit such permit, and the Board of Supervisors shall, upon the first of such offenses by such applicant, refuse to the applicant the issuance of any further Sunday permit for a period of three months; upon the second offense said Board shall refuse such permit for a period of six months; and upon a third offense no further Sunday permit shall at any time be issued to such applicant.

SECTION 3. Ordinance No. 80 is hereby repealed.

SECTION 4. This Ordinance shall take effect from and after the date of its approval.

Introduced by BEN HOLLINGER, Supervisor.

Date of introduction, July 7, 1915.

At a regular adjourned meeting of the Board of Supervisors of the City and County of Honolulu, held Wednesday, July 9, 1915, the foregoing Bill was passed on Second Reading and ordered to print on the following vote of said board:

Ayes: Ahia, Arnold, Hollinger, Larsen, Logan, Shingle. Total 6. Noes: None. Absent and not voting: Horner. Total 1.

E. BUFFANDEAU, Deputy City and County Clerk. 6213-July 12, 13, 14.

RESOLUTION NO. 188.

Be it resolved by the Board of Supervisors of the City and County of Honolulu, Territory of Hawaii, that the sum of Nineteen Hundred and Fifty Dollars (\$1950.00) be and the same are hereby appropriated out of all moneys in the General Fund of the Territory for the following purposes, to wit:

Purchase, Bowser Pump, \$ 450.00 Maintenance, Roads, Honolulu \$1500.00

Presented by ROBERT W. SHINGLE, Supervisor. Honolulu, July 9, 1915.

At a regular adjourned meeting of the Board of Supervisors of the City and County of Honolulu, held Friday, July 9, 1915, the foregoing Resolution was passed on First Reading and ordered to print on the following vote of said board:

Ayes: Ahia, Arnold, Hollinger, Larsen, Logan, Shingle. Total 6. Noes: None. Absent and not voting: Horner. Total 1.

E. BUFFANDEAU, Deputy City and County Clerk. 6213-July 12, 13, 14.

RESOLUTION NO. 181.

Be it resolved by the Board of Supervisors of the City and County of Honolulu, Territory of Hawaii, that the sum of Two Hundred Ninety-five Dollars and Twenty-five Cents (\$295.25) be and the same is hereby appropriated out of all moneys in the General Fund of the Territory for an account known as Kapiolani Park, Maintenance and Upkeep.

Presented by R. W. SHINGLE, Supervisor. Honolulu, June 29, 1915.

Approved this 12th day of July, A. D. 1915. JOHN C. LANE, Mayor, City and County of Honolulu, T. H. 6213-July 12, 13, 14.

Daniel Donohy was killed, and 17 other persons were injured in a collision of cars on a roller coaster at Youngstown, Ohio.

OVERSEER USED COUNTY MULES; LOSES HIS JOB

Maui Board of Supervisors Refuse to Grant Permit for Sunday Movies

(Special Star-Bulletin Correspondence) WAILUKU, July 10.—One of the most important matters that came before the meeting of the Maui board of supervisors Thursday was the report of the special investigating committee which looked into the state of affairs on Molokai, whither Chairman S. E. Kalama, Supervisors Pail and Drummond had been sent to investigate the charges against R. H. Hitchcock, until lately district overseer of Molokai.

The committee reported in recommendation that Mr. Hitchcock be not reinstated. This seemed to fully confirm the action of the former board in its decision that Mr. Hitchcock should be dismissed because he had used county mules that had been in his charge for work on his own farm. Supervisor Uahiau opposed the motion, but it carried in spite of his opposition.

The motion picture house at Lahaina, run under the direction of George Freeland, manager, applied for permission to operate on Sunday evenings. This was the first application for Sunday shows that has come before the new board of supervisors. The board voted not to grant the petition. In commenting upon the action of the board members remarked that it was not the duty of the supervisors to create public sentiment on any matter of public concern, but that the duty of the board was purely to abide by what the general sentiment of a community as a whole might be. It was the general opinion of the board that Maui as a community did not want to open the motion picture houses on Sunday.

METERS REDUCE COST OF LIVING IN OREGON CITY

Water bills for some of the largest and handsomest residences of Portland, surrounded by lawns and gardens, are much less since meters were installed on the service connection than before when the owners of the premises were paying on a flat rate basis, according to records in the water bureau, says the Telegram of Portland, Oregon.

Another interesting feature in the same connection is that the owners of some of these premises who are now paying less for water through a meter than before at a flat rate are among those who are making a big howl against the installation of meters and have signed the meter ordinance referendum. If these same property owners were paying for water on a flat rate charge their bills, in some instances, would be nearly doubled.

The figures disprove assertions meter opponents have been making that lawns and gardens will die and that unsanitary conditions will prevail, because consumers will curtail the use of water if it is measured. To the contrary it shows that they can use less water and keep their lawns and gardens in a far better condition for less money than if they permitted thousands of gallons daily to run to waste which they would do if they were paying for water on a flat rate basis. They use just such amount of water as is needed and no more and they pay for what they use.

From a sanitary standpoint, these premises are in first class condition, and there is no indication that the residents of the premises have curtailed the use of their bathtubs as the meter opponents would lead people to believe; would be the case should meters be installed.

MAUI GETS NEWS OF DEATH OF MRS. SIMPSON AT COAST

(Special Star-Bulletin Correspondence) WAILUKU, July 10.—Word was received in today's mail from San Francisco that Mrs. Fanny M. Simpson of Pala passed away at the St. Helena hospital on June 30 at 10:30 p. m.

On the last outgoing Maonoa from Kahului Mrs. Simpson went to the Coast in the hope of recovery. She stood the trip very well and visited her niece at San Francisco, and had been a few weeks at St. Helena, where she was doing well, and from which place she had written most cheerful letters. A shock was the final cause of death.
