

SENATORS CALLS EXTRA SESSION, APRIL 16

U. S. to Arm Merchant Ships Without Waiting Congressional Authority

HARBOR BOARD IS AGAIN CALLED ON GERMAN SHIP MOVE

Second Kelekolio Resolution May Bring Out Some Statement on Reasons for Keeping Vessels at Piers; Talk of Legislature Asking Navy Department to Allow Steamers at Pearl Harbor

That the territorial legislature may request Washington to take action for the removal of the refugee German ships from Honolulu harbor is a report around the capitol developing from the steps taken in the house by the two Kelekolio resolutions. This morning the house received a report on the first resolution of inquiry, the report throwing no light on the reasons why the harbor board has not moved the vessels. The second resolution, adopted by the house yesterday, has been sent by the committee to the harbor board and at 10 this morning Chairman Forbes called a special meeting of the board for 1:30 this afternoon. At 1:45 the meeting had not begun and it was said that it would be a conference between the board and the house investigating committee. Indications before the meeting were that the discussion this afternoon may develop some of the now unknown reasons for the harbor board's changing its decision to send the vessels outside the harbor. The second resolution in effect demands a statement of the reasons and a submission to the house committee of correspondence relating to the board's policy. In case the harbor board does not feel able to disclose its reasons, there is talk that the legislature will take the matter up with Washington. In fact, one proposal is that the legislature ask the navy department to allow the vessels to be sent to Pearl Harbor. It is well known that the harbor board would like the vessels sent there but that up to the present the navy department has not consented to the step, probably for strategic reasons. Strong Reasons Believed to Exist That the harbor commissioners have strong reasons for their policy of allowing the Pomern and the Setos to remain at their wharves—under \$500,000 bonds—is now generally believed. It is also learned that the board has carried out a policy of searching the harbor and wharves to safeguard against possible explosives, and so far as can be ascertained, the commissioners do not fear that in case of war the big refugee vessels will be blown up at their berths. One feature which developed today was that the vessels' agents, Hackfeld & Company, in a letter to the governor—now a part of the harbor board's records—scouted the idea of any danger from explosives and offered to allow any duly authorized and responsible territorial official or agent to make such investigations aboard the vessels as might prove this to be a fact. It is believed the board will act on this offer. House Precedents With Resolutions While members of the harbor board are working out serious questions of policy relating to the proposed moving of the ships, legislators are carrying out a series of steps aimed at calling forth public statements on the harbor board's plans and reasons for keeping the German ships lying alongside territorial wharves. Representative Kelekolio's first resolution of inquiry, introduced February 26, was reported on this morning by the house military committee. This resolution requested the harbor board to move the ships from the harbor. Kelekolio's second resolution, introduced yesterday, demanded to know why the vessels had not been removed. That is now in the hands of the military committee and was to go before the harbor board at a special meeting at 1:30 today. The first resolution has occasioned much comment, and it was said around the capitol that the military committee had been "tipped off" that the subject ought not to be discussed for diplomatic reasons. Unofficially, the Star-Bulletin was told this morning by a member of the committee that inquiries of various federal and territorial officials brought out, in substance, the following answers: "Please keep your hands out; don't meddle.—Governor Pinkham. "We don't want to give you a legal opinion on this question at this time."—Attorney general's office. "This is a delicate matter.—Capt. George R. Clark, U. S. N. "We are not ready to act yet. Don't

Market Shows General Gain

FORD ISLAND IS CONSIDERED FOR AVIATION FIELD

Recommendations as to Sites Are Sent to Washington and Advices Are Awaited

That army headquarters is looking for a site for the aviation corps and that Ford Island at Pearl Harbor, owned by the II estate, is one of the places on which figures have been placed was learned today. Fort Kamehameha was selected some time ago, but recently it was decided that it is not a suitable place and now another location is being sought. At army headquarters today it was said that no place has as yet been definitely decided upon as there are a number of places which have been investigated. A report on the situation here has been forwarded to Washington and until a reply is received no actual steps can be taken towards acquiring more property. It was also said today that before any land is purchased an appropriation must be made by congress for the purpose as there is no money at this time available. It is understood that the site selected at Fort Kamehameha is likely to become too small with the growth of the fort as a large field is necessary for aviation activities. Ford Island would be an admirable place for an aviation field, it is admitted, as it has considerable flat land and is absolutely secluded. One difficulty which confronts the acquisition of this property is the fact that the Onu Sugar Company has a lease and is now growing there. George Brown, manager of the II estate, said today that the estate is perfectly willing to sell the island if the government wants it. He refused to say what price has been set on the land. Gen. Frederick S. Strong, commander of the Hawaiian department, said today that on the arrival of the men detailed to the aviation corps here they would be located at Fort Kamehameha until a permanent location is decided upon. On the United States transport Sheridan, Capt. John Brooks and 50 enlisted men will arrive from the aviation camp at North Island, San Diego, later, 18 machines, 16 more officers and 125 men will come. Whatever location is selected for the aviation field it will be near the water and probably close to Pearl Harbor.

Another German Is Taken As "Plotter"

Capt. Alfred Fritzen, Indicted in April, 1916, in New York, Arrested by Department of Justice Agent in Los Angeles, for Conspiracy to Blow Up Welland Canal—Involved With von Papen and von Igel

LOS ANGELES, Cal., March 9.—Captain Alfred Fritzen, said to be a German naval officer, was arrested here today by a special agent of the department of justice and is held in jail on suspicion of felony. The authorities, while cautious about making statements, say that Fritzen was wanted in connection with an alleged plot to destroy the Welland canal on the Canadian boundary, and over which there was much excitement shortly after the outbreak of the war. Fritzen's only statement concerning the charge is "What I know I cannot tell. No papers or anything of an incriminating nature were found in his room. Further search is being made to locate his baggage, which, it is suspected, may contain evidences of his work. Fritzen says that he has been in the United States for three years and recently toured Cuba. NEW YORK, N. Y., March 9.—Capt. Fritzen was indicted by the federal grand jury in April, 1916, for alleged conspiracy to blow up the Welland Canal. With Capt. von Papen, formerly attache of the embassy, later recalled at the demand of the United States, Wolf von Igel and Capt. Hans Taucher, agent in America for Krupp, he was charged with conspiracy against the neutrality laws, directly connected with munitions plots and schemes to blow up bridges and railroads.

NATION'S LAWMAKERS TO MEET NEXT MONTH; WILL RUSH GUNS FOR VESSELS INTO WAR-ZONE

Acting on Advice of Gregory and Lansing, President Decides to Protect Citizens at Sea By Drastic Move

WASHINGTON, D. C., March 9.—President Wilson has decided upon a special session of Congress to meet April 16. The president has also decided to arm American merchant vessels under the authority granted the government by the constitution. WASHINGTON, D. C., March 9.—Calling an extra session of Congress for April 16, a proclamation was issued from the White House this afternoon. The president signed the proclamation while lying in bed suffering with a bad cold. The president also approved a statement given out at the White House telling of the extra session and of the decision to arm merchant vessels. Orders carrying out the decision to arm the ships were immediately sent to the secretary of the navy. The plan of arming the ships was definitely adopted by the administration after the president had secured a formal opinion from Attorney-General Gregory and Secretary of State Lansing that he has that authority, despite old statutes, which some advisers believed forbade the action. The entire cabinet backs the decision of the president. Guns for arming the ships are being assembled along the Atlantic Coast.

GERMAN CONSUL HERE SEEKING SAFE CONDUCT

Kaiser's Consular Representative at Manila Wants to Get to Peking

Because of a slip-up in the office of the secretary to Gov. Harrison of the Philippines, who had promised to secure a safe conduct from Tokyo for him, Dr. Franz C. Zitelmann, German consul at Manila until the United States severed diplomatic relations with Germany February 3, was not allowed to land at Nagasaki. He disembarked from the United States army transport Thomas here today and will take an American steamer to Hongkong. He has been ordered to Peking by the imperial German government. Dr. Zitelmann and his secretary, H. A. Raeder, left Manila on the Thomas intending to leave the transport at Nagasaki. According to officers on the vessel, the safe conduct which Manila was to have secured from Tokyo for him, allowing the consul to proceed through Japan to his new station at Peking, failed to materialize when the Thomas reached Nagasaki. The vessel waited 18 hours but as the Japanese port officials would not allow Zitelmann to land without a safe conduct from the Japanese government, he came on to Honolulu. The consul is designated on the Thomas passenger list as bound from Nagasaki to San Francisco. The reason he decided to leave the transport here is that two American liners, the Pacific Mail liner Colombia and the China Mail steamer China will arrive March 18 and 19, bound for the Orient, and he would not have time to make connections if he went on to San Francisco aboard the transport. Last night Dr. Zitelmann and his secretary removed their baggage from the Thomas. Late Thursday afternoon the consul called on Gov. Lucius E. Pinkham, who declined to talk about the visit today, saying the matter is in the hands of the state department at Washington, which he has notified by cable. It is understood, however, that the consul is endeavoring to secure through Gov. Pinkham and Washington a safe conduct from Great Britain which will permit him to land at Hongkong, a British port, where he would be taken into custody and placed in a detention camp with other Germans if he were to go ashore there without such assurance. Georg Rodiek, former German consul, said today that Dr. Zitelmann is staying at his home here. "The matter is too delicate a one for me to discuss," said Dr. Zitelmann at noon today, when seen in the office of George Rodiek at H. Hackfeld & Company. "The American authorities are involved in the case and any statement should come from them." He said that it had never been his plan to go on to San Francisco when he was required to continue aboard the transport because Japanese officials refused to allow him to land at Nagasaki.

WOMAN DENIES "PLOT" TO ASSASSINATE LLOYD GEORGE

Mrs. Alice Wheeldon, Englishwoman, Taken With Two Daughters and Son-in-law, Protests Against Conspiracy Charge

LONDON, Eng., March 9.—Extraordinary interest marked the opening here today of the trial of Mrs. Alice Wheeldon, the woman of Derby arrested with three others charged with conspiracy to murder two of the five members of the war cabinet—Premier Lloyd George and Arthur Henderson, labor representative. Mrs. Wheeldon was formally placed on trial today. The woman, who is a second-hand clothes dealer, admitted that she had often expressed the hope that both ministers would soon be dead. However, she denied that she engaged in any conspiracy against them, protesting that various occurrences which the prosecution contends give ground for suspicion, in reality were mere coincidences. Mrs. Wheeldon and her alleged accomplices were arrested on January 31. Those taken with her were her two daughters and a son-in-law, Alfred George Mason, a chemist of Southampton. All denied knowledge of the murder plot. They were sent to Birmmham jail. No details of the circumstances leading up to the arrests have been made public.

Villa Not Ill But Fighting, Latest Report

SENATE TO HEAR ARGUMENTS UPON ABATEMENT ACT

At 3 o'clock this afternoon a public hearing on the abatement law, which is now before the legislature for passage, is to be held in the senate chamber at which time discussions on the subject will be listened to by the legislators from prominent people who have been asked to address the meeting and also from others who may be called on or volunteer. The bill is favored by the anti-vice committee of the Chamber of Commerce and Raymond C. Brown, secretary, said this morning he would like to see every member of the chamber present. James A. Rath, superintendent of Palama settlement and member of the anti-vice committee, has asked a number of men to speak on behalf of the bill. Argument that the abatement-injunction law, if passed, would throw open the doors to blackmailers is one that will be advanced this afternoon when the senate resolves itself into a committee of the whole to take up the vice question from the standpoint of law. If word passed around in the morning among legislators who are studying it can be taken as authority. Opponents of the measure are of the belief, it is said, that if it is enacted as a law it will act as a powerful lever for one man to use against another, especially if the latter has any large amount of property. Advocates of this theory claim that the man who wishes to "get even" for a grievance will bring injunction proceedings against the other claiming that he is using his property for disorderly purposes. Even though the case is threshed out in the courts, they say, the defendant's name will be sullied through the trial though he may prove his innocence in the end. One will have no material "come back" against his enemy, they point out further, for it is likely that this enemy may not be a property holder himself. Defenders of the measure, however,

Entente Suffer Defeats in Air Fights of February, Says Berlin

BERLIN, Germany, March 9.—In February the Entente powers lost much more heavily in air-fighting than did the Germans, according to announcement by German headquarters today. During the month the Entente forces on various fronts lost 91 aeroplanes, compared with 24 lost by the Germans. A Teuton attack in Northern Rumania has resulted in the capture of strong Russian positions, says an official statement. More than 600 Russians were captured.

Expect Germans to Retire on Somme

LONDON, Eng., March 9.—Further retirement of the Teuton lines on the Somme and the early arrival of the British force at Bagdad may be predicted as events affecting the military situation, according to military experts here. It is expected that the Teutons will be forced to drop further back on the west front, perhaps shortening their lines materially, and the rapid advance of the British force along the Tigris is said to make the fall of Bagdad certain.

Rumor Germans Stop Belgian Work

AMSTERDAM, Netherlands, March 9.—According to statements in the Amsterdam Telegraaf, Germans have stopped virtually all industry in Belgium.

SHACKLETON NOT ABOARD SONOMA WILSON ILL BUT NOW IMPROVING

Sir Ernest Shackleton, world famous Antarctic explorer, is not aboard the Oceanic liner Sonoma. A wireless received this morning by the shipping department of C. Brewer & Company, Ltd., the local Oceanic agency, from the liner says he is not a passenger. It is presumed that he may be coming on the Niagara, due from Sydney and Auckland March 20. Today's radio says the Sonoma expects to arrive at the scheduled time, daylight Tuesday, and will leave for San Francisco at 5 o'clock the same afternoon. She will dock at and steam from Pier 9, taking 116 passengers from Honolulu and a handful of freight, about 20 tons, all she has room for. British Columbia last year exported 150 carloads of potatoes. These went chiefly to St. Joseph, Mo.

A danger signal has been devised to warn of overhead perils.

KOOLAUPOKO IS STORM DAMAGED

Koolaupoko district yesterday was visited by one of the worst storms ever seen here. It started about noon and continued with unabated fury until early this morning washing out two bridges, destroying a part of the road and inundating the country in general. An unusual feature of the storm was the large hail stones which fell at times. The rain fell in torrents, damaging much of the crops. The two bridges that were washed away are the Mokapa and Luluku and at the Kaneohe bridge, which is at least 15 feet above the water during normal times, the water rose to within a few inches of the top. The main road at Kaneohe was destroyed for a length of 60 feet, leaving only an eight-foot road and the road at Heala was covered with water to a depth of three feet. The road at Kailua was also badly damaged and big dirt slides occurred and in some places blocked the road. During almost the entire duration of the storm lightning flashed which was visible here in the city and at times thunder was audible. George Collins, city and county engineer, has gone over to arrange for the repair of damage done to county property.

LARGEST ZINC PROPERTY IN COLORADO IS SOLD FOR FOUR MILLION DOLLARS

DENVER, Colo.—A mining sale involving \$4,000,000 in money was made recently. The Black Iron, the largest zinc mine in the state, one of the richest ever discovered, was sold by the American Zinc Company of which A. K. McDaniels of Denver is the head, to the Empire Zinc Company of Denver and New York. The Chessman estate of Denver sold the ground, and received about \$1,000,000; the American Zinc Company received approximately \$3,000,000 for the lease and bond on the property it secured two years ago.

EL PASO, Texas, March 9.—That Gen. Pancho Villa is not disabled and his forces not scattered is the declaration of Villistas here. They claim that Villa has captured Durango City and is marching on Torreon, now held by Carranza troops. Americans are reported leaving the latter place owing to the approach of the bandit chief and the fear that if he takes the city he will massacre foreigners and particularly will carry out measures against Americans.

RECORDS OF ALL CANDIDATES ARE GIVEN TO VOTERS

Persons who qualified at the Koolan mountains yesterday evening about 5 o'clock in the vicinity of Koolanau and Mount Olympus were given a list of names...

The names plan to which candidates in Honolulu are submitted has been in operation three years and although quite new is operative elsewhere as well.

Mrs. MacColl accompanies the Providence man to Honolulu. They came in the Matsonia and will probably return in the Wilhelmina if they can exchange Lurline tickets.

DEFENSE HINTS AT OPIUM DEAL

After a three-day trial in police court which has attracted considerable attention Alfred Ferreira was found not guilty by Judge Monsarrat on a charge of gross cheat involving the alleged payment to him of \$80, and discharged.

The complainant, Domingo Ferreira, who is no relation to the defendant, declared he had paid the defendant \$80 as part payment on a boat, but that the defendant never produced the boat.

TWO ESCAPING SOLDIERS COME TO GRIEF QUICKLY AT HANDS OF POLICE

In the apparel of a sailor and ready to sail for the other islands and thence to the deep blue sea, A. F. Robertson, a soldier in H Troop, 4th Cavalry, was arrested on board the Thresher this morning by Harbor Policemen.

LOCAL AND GENERAL

Elks meet tonight. There will be initiation ceremonies. There will be a special meeting of Lodge Le Progres, F. & A. M., this evening for third degree work.

A whist tournament will be started next Tuesday evening by Excelsior Lodge, I. O. O. F. Oddfellows and Rebekahs are invited.

The decision of District Judge Monsarrat in refusing to allow R. T. Snyder to change his plea from guilty to not guilty in a gambling trial, after the defendant had been fined \$200, when he says he had expected only a \$25 penalty, was upheld by the supreme court yesterday.

ENGAGEMENT IS ANNOUNCED. Announcement was made today of the engagement of William K. Poal and Elizabeth Kahanahookahi.

A Lafrance of Ottawa, Ont., has six sons in the British army.

SOLDIER CAUGHT WHO SELLS GUN

Now that Philip Madlangawa, the Filipino who was charged with purchasing a pistol which was the property of the United States government, has been arrested and is awaiting trial it remained for Harbor Policeman A. E. (Nick) Carter to bring in the man who sold the gun.

Hardy completed his statement by saying that the roads around Oahu were practically impassible. Buying a second-hand car, he had made the tour with his wife and family but, although his wife wanted to revisit the scenes in the drive, he felt that the conditions of the road were such that he did not want to take any chances.

GARDEN FIESTA AT THE MOANA

For the entertainment of incoming Great Northern passengers the Moana hotel management wishes to announce that a special exhibition of the famous moving picture film, "The Buzzard's Shadow," a stirring military drama, first time in Honolulu, will be given in the hotel grounds on the evening of Monday, March 12. Admission, 50 cents.

ALLEGED DYNAMITER IS FACING SUSPICION OF BEING BURGLAR, TOO

While still in custody awaiting trial on a charge of attempting to commit murder by dynamiting a house on Liliha street, O. M. Humphrey has been arrested again on suspicion of stealing a solid gold watch and chain from a Japanese place on Liliha street before the explosion.

CONFERENCE OF METHODISTS IS NOW IN PROGRESS

The annual conference of the Hawaiian Missions of the Methodist church began this morning at the Methodist church on Beretania street with Bishop A. W. Leonard of San Francisco presiding.

WHOOPIING COUGH

A simple, safe and effective treatment for bronchial troubles, avoiding drugs. Vapo-Cresolene strips the mucous membrane of Whooping Cough and relieves Spasmodic Croup at once.

GUTHRIE WON FAME AS FIGHTER FOR CLEANER PITTSBURG GOVERNMENT

George Wilkins Guthrie was a noted man in public life before he became ambassador to Japan. He was born in Pittsburg in 1848 and after being admitted to the bar 21 years later practised in Pittsburg. A Democrat in politics and a hard fighter for public welfare and clean government, he had been much in the public eye in Pennsylvania before the elevation of Woodrow Wilson to the presidency.

FROM YESTERDAY'S LAST EDITION

NEARLY 5000 ARMY RECRUITS IN MONTH. WASHINGTON, D. C., Mar. 8.—The February recruiting in the army added 4812 to the list of regular enlisted men, according to announcement by the war department today.

GUARDSMEN TO QUIT BORDER BEFORE APRIL. WASHINGTON, Mar. 8.—Gen. J. J. Pershing, commanding the southern department, reported to the war department today that the last militia operations will leave the Mexican border Mar. 25, on the present schedule.

AMERICANS NO LONGER DETAINED IN BELGIUM. WASHINGTON, D. C., March 8.—That Americans in Belgium are no longer detained in any sense by German military authorities is the final report of Minister Brand Whitlock. Lack of orders on the part of minor officials caused the detention, he explains.

FEDERAL FOOD COST PROBE CAN'T BE HELD. WASHINGTON, D. C., Mar. 8.—Lack of funds will prevent any federal investigation of the high cost of food. The investigation ordered by the president cannot be carried out, as the \$50,000 appropriation failed to pass Congress.

VILLISTAS REPORTED AS DEFEATED. MEXICO, Mar. 8.—A band of Villa soldiers are reported to have engaged in battle and been defeated on the Mexican side, south of Yuma, by a troop of cavalry sent recently to patrol the border by Governor Cantu, the military governor of Lower California.

GETS GOOD MONEY FOR VILLA PAPER. Charged with securing good money in exchange for Villa Mexican bills Louis Abendano was arrested by Detective Harry Lake this afternoon. Lake accuses Abendano of having persuaded a Filipino who had just been paid off that he had too much silver, that paper money would be safer and securing in this way \$5 in good United States coin.

INTER-ISLAND FIGURES COME OUT AT HEARING. Receipts of coal supplied by the Inter-Island Steam Navigation Company's coal department to its steamship department, in three years were as follows, according to testimony given this afternoon by Auditor M. M. Graham of the company at the public utilities commission's hearing: 1914, \$111,944.04; 1915, \$124,798.19; 1916, \$171,408.20.

Profits made by the coal department as a result of coal supplied to the steamship department were as follows: In 1914, \$8740; 1915, \$8733; 1916, \$7312. Attorney L. J. Warren of the company objected strenuously to the commission making public the figures, to obtain which the commission subpoenaed Norman E. Gedge, assistant general manager of the Inter-Island.

GIVEN GOOD ROADS TWO DEATHS MARK RIDE AROUND OAHU DAY; BOTH FIGURES WOULD BE RIVIERA ARE INTERNATIONAL

"Nowhere else in the world will the tourist view such grandeur as is seen in a drive around the island," said W. E. Hardy of Nebraska in a talk before the members of the Rotary Club at the weekly luncheon today. "Not even the Riviera, famous in song and story, can equal that of the drive around the island."

Hardy, who is a furniture man and a booster, suggested that the merchants of Honolulu should do something to remedy the conditions. He said that it was nothing more or less than a sound business proposition, and good roads would bring much to the people of Honolulu and should be looked at as a real investment.

ZEPPELIN BECAME FAMOUS AT AGE OF 70 WHEN HE MADE FLYING PRACTICABLE

Count Ferdinand Zeppelin became famous at the age of 70 as the builder of the world's first practical dirigible balloon. On his 75th birthday he navigated his twentieth airship to celebrate the occasion. But before he had achieved fame he had devoted a half century of his life, exhausted his personal fortune of \$750,000 and sacrificed a brilliant career as a German cavalry leader, in conquering the air.

CONFERENCE OF METHODISTS IS NOW IN PROGRESS

The annual conference of the Hawaiian Missions of the Methodist church began this morning at the Methodist church on Beretania street with Bishop A. W. Leonard of San Francisco presiding. The morning was taken up with an address by the bishop and the annual report of Dr. William Henry Fry, superintendent of missions.

WHOOPIING COUGH

A simple, safe and effective treatment for bronchial troubles, avoiding drugs. Vapo-Cresolene strips the mucous membrane of Whooping Cough and relieves Spasmodic Croup at once.

GUTHRIE WON FAME AS FIGHTER FOR CLEANER PITTSBURG GOVERNMENT

EDITOR

FRIDAY MARCH 9, 1917
FIDDLE ALONG—OR FIGHT?

House Bill 13, providing a new city charter, is moving serenely on its way, steered by men shrewd in politics and "playing the game" for all it is worth.

This is the bill carrying the "convention charter." The Chamber of Commerce, Ad Club, Rotary Club, Civic Federation and Commercial Club through their joint committee have gone on record against the bill, and its political "jokers" were snogged out in a report this newspaper printed in full.

The Chamber of Commerce proposed several plans for a new charter and finally decided to work for certain amendments. It is needless to review these amendments. Suffice it to say, they aim to provide the "short ballot" and unification of powers. They also launched a blow at the kind of charter making which is inspired by machine politics.

Out of the various conferences, caucuses and confabs of the Oahu delegation come fairly specific rumors showing that with few changes the so-called "Andrews-Murray" charter—that is, the convention proposal—is to be put through the house. It is proposed, if reports be correct, to make what may on the surface appear to be a compromise—to have an appointive instead of an elective superintendent of city works, and to create the appointive office of chief of police, reducing the sheriff's job to that of a civil officer with little to do but serve papers and draw his salary.

If these same reports from alleged "insiders" be correct, the principle on which the civic and commercial bodies have taken their stand—that of centering responsibility and unifying powers—will be ignored. It will be violated. It will be repudiated. There will be no short ballot. The same old, familiar opportunities will exist for officials to "pass the buck" when some citizen and taxpayer comes around with a specific kick.

This is the situation. What is the answer by the businessmen who a few nights ago crowded the hall of representatives to support a modern, efficient, forward-looking charter? Where are they now? Where are they going to be as this fight goes along? Will they sit in swivel-chairs or get out and fight for what they have already endorsed? Are they going to take program from the politicians?

If the members of the civic and commercial organizations are going to stay out of the fight while the forces on the other side are working night and day, the Chamber of Commerce amendments will be swept to the junk-heap.

What is it—fiddle along or fight?

MILK INSPECTION UNDER FIRE.

Where the advocates of milk control by the territory probably failed before the judiciary committee of the senate yesterday was in not proving their claims that the present city inspection is faulty.

The supporters of city and county government hence could get a hearing for their accusation that the three bills are directed toward robbing the local authorities of rightful functions.

The Milk Commission which reported to the governor on February 1 unanimously recommended that the control of milk and dairies be exclusively under the territory. The report was signed by Dr. J. S. B. Pratt, chairman, John Effinger, William H. Heen (deputy attorney-general) and A. W. Hansen, territorial food inspector and a recognized expert. In that report many statements are made concerning poor condition of dairies. However, it fails to make out a case absolutely in favor of territorial inspection.

On Oahu, the municipality has taken over control of dairies. On Kauai, Mani and Hawaii the territorial authorities still have jurisdiction, since these counties have not exercised their right under the territorial law to pass ordinances that would place milk supervision in county hands.

Now the commission's report finds much to criticize in these outside counties as well as on Oahu. In other words, no clear case is made out for the argument that territorial supervision is more efficient than county supervision. It is not shown that dairies on Oahu have retrograded while those on the other islands have advanced.

There does exist a very lively suspicion in Honolulu that politics has been played with milk inspection. The mayor's brother, alleged to have been dismissed from the territorial board of health as incompetent, is the milk inspector. Nor is there any doubt that the milk commission has found conditions on Oahu that should not exist.

In the opinion of a great many people, the present dual system of sanitary inspection in the territory is absolutely, inexorably weak. There is a "twilight zone" of irresponsibility—where neither the territory nor the city appears able to get effective action. A few years ago there were ridiculous disputes between the two as to market inspection. Certainly the laws need revision, and sanitary control should be unified as far as possible.

The milk commission has pointed out specific faults in the city inspection results. If the legislature does not take from the city the right of control, Mayor Lane ought to lead a movement to eradicate these faults, whether or not it costs his brother the

much-discussed job. Because a case has not been made out in favor of territorial inspection is no excuse for the conditions which the milk commission finds are a menace to the health of the people, particularly to the babies.

NO DANGER OF DESPOTISM.

From the Honolulu Ad Club. Nervous politicians who fear that the republic will be in danger if the president is given ample powers to deal with the emergencies of war, should overhaul their American history and when found make a note. The truth is that the kind of party government which works very well in time of peace is inadequate to deal with situations that require prompt decision and immediate action. Lincoln was denounced as a despot during the Civil War, but no one now believes that he used his powers for any other purpose than the common good. Senator Fall justly says that "the other democracies of the world, more democratic in their forms of government in many respects than this, have found that they were inefficient, that they were not prepared even to preserve their national lives." This is most conspicuously the case with Great Britain, whose parliamentary system has been most highly developed. Coalition government had to succeed party government and now comes cabinet government—cabinet government reduced to five men, even in effect to one. France, harassed ordinarily by a group system adverse to a definite ministerial policy, has rallied to the crisis with less change in method. M. Briand has great authority, as Senator Fall remarks, but the significant thing is that parliament has not abdicated its authority, but rather consolidated it behind the premier.

WHISKY ON THE TOBOGGAN.

"Whisky on the Toboggan" is the headline over a news item in a Philadelphia, and a glance at the statistics shows that the statement is true.

Statistics are available to show that in three banner distilling states—Kentucky, Pennsylvania and Maryland—there is a marked decline in the production of whisky.

Figures for the last five years in Pennsylvania are as follows:

1912	10,579,126 gallons
1913	11,482,359 gallons
1914	11,153,227 gallons
1915	1,073,808 gallons
1916	918,582 gallons

In Kentucky the production of whisky dropped from 43,622,098 gallons in 1912 to 1,980,200 gallons in 1915. In Maryland it dropped from 5,950,827 gallons in 1912 to 506,919 gallons in 1915.

One of the favorite dodges of the booze interests is a juggling of figures to show that although "dry" territory is steadily increasing, the amount of liquor consumed in the United States is also going up. In view of the facts concerning the decrease in production of whisky, the statements of the booze advocates must be discounted.

Now comes the information that a well at Sour Lake is producing oil of a gravity of 37. Drillers and oil men were sure no such oil was to be had in this territory. This goes to prove that everything is possible in Texas—and the home prophet will continue to be without honor here.—Houston Post.

This indifferent attitude toward the pacifist conspirators against the good name, the good fame and the essential unity and peace of the nation is destructive of the elements of freedom. The guilty persons should be taken account of in adequate fashion.—Baltimore American.

Well, if nothing else happens, the seizure of the Appam by American customs officers has at last aroused curiosity as to why the navy department ever named a revenue cutter Yamacraw.—Indianapolis News.

More big game fishermen are coming this way. Hawaii is becoming known the world over for its gamy denizens of the deep. The Tuna Club is a one hundred per cent investment for the islands.

Germany's press finds fault with the president's recent inaugural address. That is to be expected. Germany can't derive much comfort from any of Mr. Wilson's recent utterances.

Cuba's rebellion is so far suppressed by President Menocal that it has become necessary for American marines to be landed at Santiago to maintain order.

How doth the little German plot improve each shining hour; mit scheme and Kultur, "me un! Gott" would bomb the Entente power.

Nobody need get particularly excited over the revival of a project to import 25,000 Chinese coolies here. It will not be done.

It might be remarked that all the Germans who are leaving the United States for Mexico can be spared.

Nobody has yet called Lawson to find out who "leaked" the German-Mexican plot.

They're busting the filibuster.

LETTERS OF TIMELY TOPICS

(The Star-Bulletin invites free and frank discussion upon subjects of timely interest by letters in this column, but neither assumes responsibility for the utterances of the writers nor necessarily indorses the view they express. No attention will be paid to anonymous communications, but names of writers will be held confidential if such request is made, unless the tenor of the letters is such that the views in fairness should be expressed over the signatures of those wishing to voice them. Contributors to this column are requested to typewrite communications when possible, to use but one side of the sheet and to make their letters brief. The Star-Bulletin cannot undertake to publish long letters nor return unclassified communications or manuscripts.)

A CARNIVAL FLAW—THE POLICE

Editor Honolulu Star-Bulletin. Sir: There appears to be but one rift in the Carnival lute, and that is the handling of the police. They seem to be at sea without oars or rudder, it happened several times during the Carnival just closed, that one police officer would order a crowd to do this or that, and he would be followed a few minutes later by another police officer who would countermand the other's orders and tell the crowd to get back where they were before.

One of the many instances along this line of reasoning, happened on Thursday night of Carnival week, before the Japanese lantern parade arrived. A line of autos had been parked at the curb on King street opposite the Hawaiian Electric Company's office. The people in these autos had come early and held the position with their autos, this same privilege being allowed the year before. Half an hour before the parade, along comes Police Officer Branco on a motorcycle and orders the whole line of waiting autos to move off the street, as no autos would be allowed to stand there. He was reminded of the privilege so granted the year before, but no argument would convince him, so the whole line of autos must needs move to side streets where all points of vantage had been preoccupied by the autos, this same privilege being allowed the year before. Half an hour before the parade, along comes Police Officer Branco on a motorcycle and orders the whole line of waiting autos to move off the street, as no autos would be allowed to stand there. He was reminded of the privilege so granted the year before, but no argument would convince him, so the whole line of autos must needs move to side streets where all points of vantage had been preoccupied by the autos, this same privilege being allowed the year before.

ONE WHO VALUES A GOOD PHRASE.

RECALLS PIONEER ALPHABET WORK

Editor Honolulu Star-Bulletin. Sir: The visit to Honolulu at the present time of a business partner of the late John Pickering of Salem (Mr. Charles W. Moseley) recalls with interest that it was to the father of this Mr. Pickering of the same name, who was the most distinguished American philologist of the time, that the early missionaries to the Hawaiian Islands were indebted for suggestions as to the alphabet to be adopted in giving a written and printed language to Hawaiians. It was not an easy matter for the natives of the different islands of the group had used in producing the same word-different sounds as aloha-aroha, Taui-Kauai, Kapa-Tapa, and it was necessary to standardize. John Pickering published in 1820 in the Memoirs of the American Academy of Arts and Sciences an essay on a uniform orthography for the Indian languages of North America, and as our missionaries were educated men they doubtless knew of this. Rev. Hiram Bings, ham evidently was familiar with this essay for in his History of the Sandwich Islands (p. 155) he says: "Compound consonants, recommended by J. Pickering, Esq., for writing the Indian languages, are not adopted in the Hawaiian, though the basis of his alphabet, in respect to vowel sounds, is followed."

A VISITOR'S APPRECIATION

Editor Honolulu Star-Bulletin. Sir: Here is appreciation of the Hawaiian Islands expressed in a very few words, but it contains a world of praise which will make any islander feel amply repaid that he lives in such a country, and has such tremendous possibilities in the way of scenery, climate and hospitality to offer to the stranger. Here is the letter: "Honolulu, March 6, 1917. "Hawaii Promotion Committee. "Honolulu, T. H. "Dear Sirs: Being a stranger within your gates and at the same time an ardent admirer of your beautiful islands, I hope you will not think me presuming if I just make a slight suggestion. "On a circular handed me by a Mr. Benford, who took my party around this island (a most delightful trip, although a little bumpy in spots), I found the following which I have clipped and send with this. I think it is most fitting description of the paradise, and would suggest that you use it more publicly. It made me feel that I would like to write something like that but, while I feel I cannot express it as this 'Merrill' has done, who is probably a visitor like myself and has been charmed to an extent, that while I sail for my home on the mainland on the Matsonia, I feel I shall surely come again. "Yours truly, "G. A. NEWLANDS."

LITTLE INTERVIEWS

—HARRY MURRAY, superintendent of the water department: If the entire city was metered only 10,000,000 gallons of water a day would be used, a saving of nearly 6,000,000 gallons.

—JOHN H. HARRISON, newnanerman, Danville, Ill.: It is remarkable how many times I have been to California before I took the trip to Hawaii. Now I don't see how I stayed away so long.

—WALTER PONTIN: The Raymond and Whitehead guests here have no kick to make against Hawaii. We have found the roads very bad in a few places on the windward side of the island but the beauty of that wonderful "land-the-island" trip overshadows such little inconveniences.

—L. W. DE VIS NORTON: To those who are to be disappointed I express my regrets that the steamer Kilanea is nearly booked to its capacity for the personally conducted tour to the Volcano on Saturday. Another personally conducted tour to Hilo and the Volcano will be made on the following Saturday, and those who wish to make the trip are urged to make their reservations early.

TUBERCULOSIS IS COSTING HAWAII MILLION YEARLY

Over one million dollars a year is the annual loss to Hawaii of the disease, according to the figures furnished several years ago by Dr. A. N. Sinclair, then director of the tuberculosis bureau. The figure was based upon an estimate of loss for Honolulu only, the latter being calculated according to the most approved methods of modern economy. Dr. Sinclair at that time arrived at the figure of \$2,250,000 as the loss to Honolulu, and as the status of tuberculosis in the territory has remained the same the figure is probably correct today.

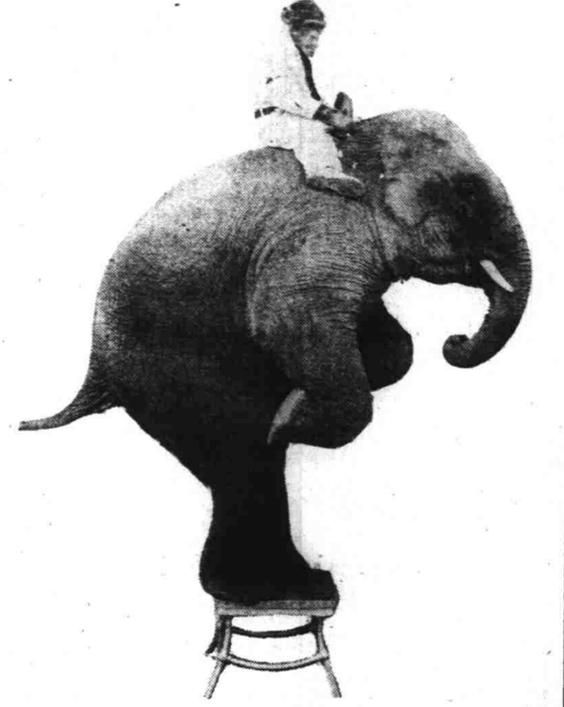

Honolulu supplies less than half the tuberculosis in the territory so that the total loss through this disease for the islands is considerably over a million dollars.

The legislature is now being asked for \$175,000 for a two years' continuance of the campaign against tuberculosis, a moderate increase over the previous appropriation under which splendid results have been accomplished. The sum asked to combat the disease is less than 10 per cent a year of the loss it occasions.

It is pointed out that while the appropriation is 10 per cent of the estimated loss, the disease will not necessarily be reduced 10 per cent a year, but it is very safe to assert that it will be reduced half of that, or at least five per cent a year. The available figures show that that reduction may be expected if the campaign is carried on vigorously.

Continuation of this campaign means that instead of hundreds of the children now attending school dying of consumption before their twenty-fifth year, the number will be reduced to a minimum and the generation will grow up stronger and healthier. Fewer breadwinners will die leaving their families to the support of charity; fewer mothers will die to leave their children to be brought up out of hand; fewer patients unable to earn their living will have to be supported by the government and the territory will then be saved the money which it is being asked to appropriate now, in addition to having saved the lives which cannot be expressed in money.

Chimpanzee Comes to Bijou

Here's good news for the kiddies. Sally is here. Sally is the most aristocratic chimpanzee in the world. She is really more human than many of her anthropoid spectators who marvel at her intelligence. Sally does everything but talk. And Professor Garner, the simian expert, declares that Sally does talk a language of her own.

Not the least of Sally's accomplishments is the fact that she is a famous film star. With her consort, Napoleon, Sally has starred in scores of screen dramas. These dramas were written especially for Sally and her consort, and they will be shown all week at the Bijou theater, beginning Sunday evening.

In addition to the photographic reproductions of Sally's amazing intelligence, Sally herself will be a guest of Honolulu all week and will visit all parts of the city getting acquainted. If you don't meet her somewhere on the street you must not fail to meet her at the Bijou.

The series of jungle plays that will be given this week are unique in the art of motion picture photography. Almost every known denizen of the jungle has been used in making these daring pictures which offer one of the most instructive as well as interesting performances ever shown in the territory.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If Peevish, Feverish and Sick, Give "California Syrup of Figs"

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "fruit laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Adv.

SEE AUSTRALIA AT PAN-PACIFIC

An Australian exhibit which arrived here a short time ago has been installed in the mauka hall of the Pan-Pacific building on Bishop street and was opened today to the public.

It is an exceedingly interesting exhibit as there is something from nearly all of the commonwealths with New South Wales especially represented and everything is fully labeled. One section shows the products of the land such as fruits, grains and grasses, another all kinds of stuffed fresh water fish and native animals, and there are also many pictures showing the scenery of the big island continent.

An exhibit which is particularly interesting is from the museum of Tost & Kohn of Sydney, which has sent hundreds of articles made by the natives of Australia, Papua, the Solomons and Fiji. There are boomerangs, canoes, carved emu eggs, snake skins, weapons, idols and many other curios. There is also the duck-bill platypus, which is considered one of the strangest animals in the world.

These exhibits will be kept here until others arrive from the Philippines, Java and other Pacific countries. Everyone, particularly the school children, is invited, as the exhibit is an education in itself.

END INDIGESTION OR STOMACH PAIN IN FIVE MINUTES

"Pape's Diapepsin" Makes Sick, Sour, Gassy Stomachs Feel Fine

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Millions of men and women now eat their favorite foods without fear—they know Pape's Diapepsin will save them from any stomach misery.

Please, for your sake, get a large fifty-cent case of Pape's Diapepsin from any drug store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest, surest relief known.—Adv.

ANTIDOTES FOR BODILY POISONS

(By L. H. Smith, M. D.)
The victims of auto-intoxication are many thousands every day. By reason of the toxins, or poisons bred in the intestines, these poisonous bacteria are sent all through the blood channels and the victim feels tired, sleepy and headachy, or the brain doesn't work as usual. The best treatment for this is to drink hot water before breakfast—plenty of water all day and procure a simple laxative, made of May-apple, leaves of aloe, etc., with no calomel and entirely vegetable, which can be obtained at any drug store, known as Dr. Pierce's Pleasant Pellets.

Equally important is it to cleanse kidneys and bladder, and drinking plentifully of pure water will cleanse them to a certain extent. Then obtain at the drug store a little Anuric, which was first discovered by Dr. Pierce of Surgical Institute in Buffalo, N. Y. Anuric (double strength) should be taken before meals. It is many times more potent than lithia in throwing off the poisonous accumulations of uric acid.

Through failure of kidneys to act, through congestion, inflammation, any person's condition is ripe for disease to fasten its hold upon the system.

Anuric has been tested for the past few years for kidney, bladder, uric acid troubles, rheumatism, gout and such ailments as follow, and so many cases both acute and stubborn have yielded to this wonderful remedy that I do not hesitate to recommend it.—Adv.

Dr. Girard Naugh is the only woman doctor in France who has been mobilized for work at the front. For her efficiency she has been given the rank of colonel. For two years she has been in complete charge of a great hospital at Verdun, and because of her success in the work she has been gazetted to the rank she now holds.

GIRL MIXES IN DIPLOMACY PLOT

Hints at international complications, secret explosives, the activities of a foreign secret agent and the development of romance between a hard-headed scientist and a self-reliant American girl go to make up the five reels of "The Blue Envelope Mystery," the Vitagraph feature shown at the Bijou theatre last night.

With Lillian Walker, the girl with the dimples, in the leading role, the drama unfolds a story of a rich girl who goes into the world to earn her own livelihood. Securing a position as a stenographer for Ewan Kennedy, a chemist, she is soon involved in an international episode concerning a secret formula of a high explosive. While taking the formula to Washington, she is shadowed and kidnaped, but succeeds in protecting her secret under all difficulties.

Besides the Vitagraph offering, the program includes a two-reel comedy by the L-Ko Company and the latest Animated Weekly.

SIX OFFICERS OF NAVAL MILITIA ARE SUCCESSFUL

Word that six officers of the territorial naval militia have qualified as officers of the national naval volunteers has been received from Washington. These officers are Lieut. Comdr. W. H. Stroud, S. W. Taylor, C. D. Bishop, J. A. McKeown, Leslie W. Branch and H. W. Enzel.

This recognition from Washington is the result of federal examinations which the militiamen took in November, under General Order 155.

Work of enrolling the present naval militia members in the national naval volunteers, which act puts them on a pay basis such as governs the national guard, is now on hand.

Lieut. Comdr. Stroud said today that the cruise this summer on the St. Louis will probably last for three weeks, and will include a trip to the coast if possible.

WANT MURRAY TO SEEK MAYORALTY

Harry E. Murray has been asked to run for mayor—providing the proposed new city charter is adopted with certain amendments that appeal to certain Hawaiian members of the Republican party.

Murray was approached by a committee of five persons representing several semi-political Hawaiian organizations.

He was told that these Hawaiians would like to see him run for mayor at the next election, providing, however, that the Oahu Republicans of the legislature agree to a purported compromise whereby the supervisors will have the power to appoint a superintendent of city works and a chief of police.

Murray made no promises to the delegation.

"Just say that I do not propose running for mayor," he told the Star-Bulletin today.

DANCE AT MOANA

Tea Dansant tomorrow afternoon from 4 to 6 p. m.

During dinner the Correlli Trio will play classical music. Dancing from 9 to 11:30, during which, as well as at the Tea Dansant, Mr. and Mrs. Monjo will demonstrate modern dances.—Adv.

CLUB ELECTS NEW OFFICERS, REPORTS SHOW MUCH ACTIVITY

F. D. Clinton was elected president of the G. R. Club of the Y. M. C. A. last night to succeed Percy D. Bull. The club has been in existence for a year and a half, and this is the third election. Other officers elected are: Percy D. Bull, vice-president; P. K. Keppeler, secretary; H. Nielsen, assistant secretary; M. Borthwick, treasurer; George Daifuku, auditor; Victor Kahn, captain of athletics. Two committees were appointed: Social—Bull, Keppeler, Nielsen. Membership—Fritschl, H. Borthwick, Santos.

The reports of the committees and the officers show the activity and growth of the club to be strong. The members have participated in club meetings, socials and athletics regularly. The business of the evening was conducted in a most competent manner.

After the business the social committee provided a big feed, and all the fellows participated in songs, stories and eats. C. F. Jump, Don Ladd and H. Keppeler were the guests of the evening.

MONTANA-BINGHAM CO. INCREASES ITS CAPITAL

Mail advices received by an employee of the Waterhouse Trust Company give information relative to Montana Bingham that is of interest to stockholders here. There was also sent a paper telling of the increased capitalization of the company. The letter says that this places the treasury in a very strong position and that it is expected within a very few months to secure \$300,000 additional capital from a portion of the treasury stock.

ENLISTED MEN'S CLUB GIVING ARMY DANCE

Invitations are being issued by the Enlisted Men's Club of the 1st Infantry, National Guard, to a dance tomorrow evening, beginning at 8 o'clock. The dance will be held in the armory. Admission for gentlemen will be 50 cents, ladies free. Free refreshments will also be served. Cards announcing that invitations must be presented at the door.

ROCKEFELLER TO AID BATTLE AGAINST INFANT EPIDEMIC

FAIRMONT, W. V.—Rockefeller institute will investigate the infantile paralysis epidemic in Fairmont, according to an announcement made here today. Through the efforts of former United States Senator Clarence W. Watson, Dr. Simon Flexner, head of the institute, has agreed to send a representative here to assist in stamping out the disease and ascertaining the cause.

Most Effective Remedy Mother Had Ever Used

Dr. Caldwell's Syrup Pepsin Relieves Baby When Other Medicines Failed

There is nothing so necessary to a child's health and comfort as regularity of the bowels. All children are especially susceptible to stomach trouble and any overstrain of the sensitive organs has a tendency to obstruct elimination. This condition is responsible for much of the illness of childhood.

To relieve constipation a mild laxative should be employed. Cathartics and purgatives are violent in their action and should be avoided. Mrs. Alfred Du Bois, Mt. Holly, N. J., says Dr. Caldwell's Syrup Pepsin is without doubt the most effective remedy for constipation she has ever used and that it is the only remedy she could find for her baby. Little Earl was badly constipated during his first year and nothing she tried seemed to help him until she got a bottle of Dr. Caldwell's Syrup Pepsin. Now he is a fine, strong, healthy boy and she thanks Dr. Caldwell for it.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin, free from opiates or narcotic drugs; it acts gently without griping or other discomfort, and appeals to children because of its pleasant taste. Druggists everywhere sell it for fifty cents a bottle, and every mother should have it in the house for use whenever occasion arises.

To avoid imitations and ineffective substitutes always be sure to ask for Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois, or by calling at Benson, Smith & Co., wholesale distributors, Honolulu.

Earl Du Bois

Chiropractor Fixes "Broken Neck"

After two years' wearing truss, to avoid unconsciousness, this man, now a prominent Chiropractor in Indiana, was restored to normal in one Chiropractic adjustment.

Diving in shallow water was the cause of injury, and all hope had been abandoned for recovery. After the adjustment, patient became unconscious for half an hour, after which he rose, picked up his truss and walked home with it under his arm—well.

"Many so-called 'impossible' cases get well under Chiropractic," said F. C. Mighton, and W. C. Weirick, local Chiropractors.

Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin, free from opiates or narcotic drugs; it acts gently without griping or other discomfort, and appeals to children because of its pleasant taste.

HEINZ DEMONSTRATION

We cordially invite you to visit our store—Heinz demonstration being conducted daily. Henry May & Co., Ltd., Fort street.—Adv.

OFFICER FIRM IN DUTY; ABUSER IS REPRIMANDED

Frank Dunwell was arrested early this morning at Heinle's Tavern by mounted Policeman H. K. Kihachi, taken to the police station, reprimanded and discharged for threatening to run an auto while under the influence of liquor, and for cursing the police while performing his duty. He promised Deputy Sheriff Asch that he would apologize to Kihachi.

Kihachi says Dunwell staggered out of the place in no condition to operate a Ford car, which did not belong to Dunwell. The policeman told him he could not drive the car whereupon Dunwell expostulated, declaring he could go any place and offering to take the policeman out for a demonstration. The officer was obdurate, however, and in a fury the man treated Kihachi to a tongue lashing, according to the police. Then Kihachi placed him under arrest.

A friend who was with Dunwell offered to drive the machine, but he could produce no license and the policeman refused to allow him to do so.

CORNS LOOSEN OFF WITH MAGIC "GETS-IT"

2 Drops Do the Work, Painlessly.

"I tell you, before I heard of 'Gets-It' I used to try one thing after another for corns. I still had them. I used bandages and they made my toe so big it was murder to put on my shoe. I used salves and other things that ate off more of the toe than they did the corn. I'd cut and dig with knives and scissors, but now no more fooling for me. Two drops of 'Gets-It' did all the work. It makes the corn shrivel and get so loose that you can just pick it right off with your fingers."

There has been nothing new discovered for corns since "Gets-It" was born. It's the new way—the common-sense, simple, sure way.

"Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Honolulu and recommended as the world's best corn remedy by Hollister Drug Company and Benson, Smith & Co.—Adv.

Corns Drive You Mad? Try "Gets-It" and They'll Peel Right Off!

THIRTY-THREE KINDS OF U. S. HEADACHES IN WINE FEAST

NEW YORK, N. Y.—Thirty-three kinds of American wine were served at the annual dinner of the American Wine Growers' Association at the Waldorf-Astoria. H. S. Dewey, president of the association, attacked the prohibition movement.

C. S. PETERSON & COMPANY ANNOUNCE THE FIRST OFFERING OF OWNERSHIP AND PUBLICITY POOL STOCK OF

THE BURRO GRANDE COPPER COMPANY

The Initial Offering of Which Consists of 250,000 Shares at 15c per Share

PROPERTY: The Burro Grande Copper Co.'s property is located in Grant county, New Mexico, in the famous Burro Mountain district, and is on the same mineral-bearing fault or contact as the great Burro Mountain Copper Co., which is owned and being developed by the Phelps-Dodge Company. The Phelps-Dodge Company is spending over five million dollars on their property and are making at Tyrone, the model mining camp of the world.

The Burro Grande property has been reported on favorably by Mr. T. W. Carter, E. M. of Silver City, N. M. Mr. Carter is one of the foremost mining engineers of the entire Southwest and is the man who developed and sold the Burro Mountain property to the Phelps-Dodge interests.

The Burro Grande property consists of three claims, having a total length along the mineral-bearing ledge of a full 4,500 feet. There is a shaft 150 feet deep on the property that has entered good grades of milling copper, silver and gold ore. One shaft of 55 feet in depth has exposed a vein all in ore to the width of 14 feet. This entire vein has an excellent grade of ore and two feet on the hanging wall of the vein is in shipping ore that runs from six to ten per cent copper. A selected sample from this two feet assays 25 per cent copper, 12.50 in silver and \$2.00 in gold.

The Burro Grande Company proposes to enter upon the active development of this property immediately by placing a shift of men at work mining and shipping the high grade copper ore and by sinking the deep shaft, now on the property to a total depth of 200 feet and cross-cutting to the vein. For this purpose and for the further purpose of exploiting the company by publicity the primary offering of stock is made.

The next offering of the Burro Grande Copper Company Stock will be made at 50 CENTS PER SHARE

Steps will be taken to list the stock on the New York and Boston Curb Markets as soon as the company is sufficiently financed to carry out its development work, and a market will be made and supported for the stock.

INSIDERS MAKE THE GREATEST PROFITS

Pool of stock of Green Monster sold for 20 cents per share. When the stock was released, the market was better than \$2.00 per share. Verde Combination sold for 25c. Now better than \$1.00. United Verde Consolidated sold for 10c; now around \$1.00. Every investor in pooled stock in the past year has been able to cash in for many times his original investment. Why not be an "insider" yourself? Burro Grande Copper is your next best bet and maybe your last chance.

If Burro Grande Copper was located in Arizona, you would not have a chance to be an "insider."

In the very same county in New Mexico in which "Burro Grande Copper" is located, are the following big mines:

CHINO, BURRO MOUNTAIN COPPER, EMPIRE ZINC, HANOVER MINING, REPUBLIC MINING, CHINO DEL NORTE, and the last BIG SENSATION:

THE AUSTIN-AMAZON, which is just over the hill from the Burro Grande and on the north fault of the Burro Mountain vein. The Austin-Amazon is now in the vein over sixty feet and no wall in sight. It is mining and shipping over a thousand dollars' worth of ore a day. Sixty days ago it was a prospect.

We believe that we have a better mine than the Austin-Amazon, and Mr. Carter says: "Before the Austin-Amazon opened this body of ore, I would not have traded the center claim of the Burro Grande for the entire Austin-Amazon holdings."

Remember, Mr. Carter practically discovered this whole district and knows what he is talking about.

Reservations for thousands of shares have already been made for this stock, and we advise that you send your subscriptions by mail.

C. S. PETERSON & COMPANY

Suite 1013 Mills Building, EL PASO, TEXAS

Armour's LIGHTHOUSE Washing Powder

is the great leisure maker for housewives. Cleans quicker and better with half the work. Saves labor—fine for wash day. For kitchen use, such as washing dishes, glassware, silver and mirrors, it is unexcelled. For pots and pans it forms grease cutting suds that instantaneously drives out dirt. Antiseptic—destroys disease germs.

Try Lighthouse Washing Powder for your floor, oil-cloth, woodwork.

Works equally well in hard or soft water without addition of ammonia or borax.

CHIROPRACTIC BILL MEETS SHARP FIGHT AT NIGHT PUBLIC HEARING

Physicians of Honolulu Show Hostility to Measure—Chiropractors Reply That All They Want is Intelligent Handling and a "Square Deal"

Chiropractors and chiropractic were roundly scored, and chiropractors staunchly defended their calling at a public hearing in the Capitol last night on House Bill 91, which provides for the licensing of chiropractors. The hearing was before the house committee on health, military and police, Chairman Egan da Silva, Hawaii, presiding.

The visitors' gallery was well filled with men, including Dr. W. C. Hobby, Dr. A. N. Sinclair, Dr. Edwin D. Kilbourne and Dr. Grover A. Batten also attended the hearing. Attorney William T. Rawlins was also present and spoke as a layman, he said, rather than as counsel. James A. Rath, head worker of Palama settlement, and ex-Governor and Mrs. Walter F. Frear were interested listeners. The chiropractors were represented by Drs. Frank C. Mighon and Wallace C. Weirick. Several others were present. Dr. Mighon, the first speaker, defended his calling in a plea for the passage of the bill now before the legislature. He told how the governor had "pocket-vetted" the chiropractic bill two years ago and undertook to answer some of the chief executive's reasons as then given for his action. He pointed out that chiropractors are now licensed in six states—North Dakota, Nebraska, Kansas, Arkansas, Oregon and Wisconsin—and that in 11 other states there are boards of chiropractic examiners.

Mighon's strong point was that the chiropractors in Hawaii object to being compelled to undergo an examination by a board of medical men for licenses to practise their profession. He asserted that, in many instances, medical men are ignorant regarding the so-called science of chiropractic. What he wants to see brought about, he said, is to have a territorial board of examiners of chiropractors.

Explaining chiropractic, Mighon told how chiropractors had effected their services during recent influenza epidemics and how they had been refused after they had offered to show, he asserted, that they could successfully handle 95 per cent of the cases.

Dr. Hobby answers claims
Dr. Hobby, representing the Medical Society of Hawaii, vigorously flayed chiropractic, declaring that the legislature, in passing House Bill 91, would be making a stop backward.

He said that the doctor, "are you willing to trust your child to a rabbling on the back against an administration of antitoxin for a disease such as diphtheria? I believe it is the intent of all medical laws to properly protect the public and there is an ever-increasing standard as regards the efficiency of the men

FIGHT AGAINST BOVINE TUBERCULOSIS GAINS IMPETUS AND IS NATION WIDE

In regard to the stamping out of tuberculosis in cattle, Dr. Victor A. Norgaard, territorial veterinarian, says in his report for January to the board of agriculture and forestry:

"With the approaching session of the territorial legislature and possible action with regard to the work of this division along the lines of control and eradication of bovine tuberculosis, it seems almost imperative that the subject should have been considered by the federal congress at its present session.

"In accordance with a correspondent to the Breeder's Gazette, Representative Linticum of Maryland recently advocated before the house of representatives the destruction of all cattle having tuberculosis, the payment for them at determined rates, the pasteurization of all dairy products, and the compulsory tuberculin test of all dairy cattle. It is estimated that 10 per cent, or 2,000,000 of the dairy cattle of the country are tubercular while slaughterhouse records show 2-1/2 per cent of the beef cattle and 9 per cent of the hogs to be similarly infected. Mr. Linticum would further compel the sanitary handling, storing and marketing of meat and dairy products. The feasibility of the project has been

Husky Shark Is Seen By Bathers At Waikiki Beach

Bathers at Waikiki beach last yesterday afternoon saw a shark in the waters opposite the Outrigger Club and not far from the club's diving platform, according to word which reaches the Star-Bulletin.

Harold Yost, farm manager at Mills Schol, says that he had a good view of the selachian, which, he says, was only about 15 yards off the town side of the diving raft. He does not venture a guess as to its length, but hazards the belief that it was a "big fellow." It dorsal fin cut the waters of Waikiki in a shark-like manner, and Yost and others who had been enjoying a swim there lost no time in seeking the beach.

Sharks rarely come into the waters along Waikiki owing to the coral barrier off shore, it is said. This is not the first, however, that is reported to have been seen in the vicinity.

REGULATION OF 'LOBBYING' WINS FAVOR IN SENATE

Declaring "his belief that the bill introduced by Senator Desha regulating 'lobbying' in the legislature is a 'step in the right direction,' the military committee yesterday afternoon reported favorably on the measure.

The report points out that several states in the Union have adopted similar laws and recommends that the bill pass. The report was adopted and the measure passed second reading.

According to the committee, the bill is for the purpose of discouraging private persons and associations from privately influencing members of the legislature in promoting or opposing legislation private or public interest.

Senator Coney's franchise bill for an electric light and power plant on Kauai was re-referred to the judiciary committee to be made "indeterminate."

Senator Pacheco fought hard against Kapaemahu's bill raising the wage per day at which road or poll taxes may be worked out.

Pacheco opposed the measure because he believed it would encourage aliens to work their taxes out on the roads rather than to pay their taxes outright. This would not be fair to the citizen, he thought.

Desha and Pacheco voted in the negative when the motion to pass was finally presented.

Senate Bill 31, relating to duties of county auditors, passed third reading without a dissenting vote.

House Bill 14, relating to the expenses of the charter convention, again brought Pacheco to his feet.

The senator wanted stricken out that portion requiring the authentication of the chairman and clerk of the convention to certain portions of the account.

Pacheco, who was chairman of the convention, said he had "conscientious scruples" against one item of the bill. He moved that the portion be deleted. He would have the bills approved by the clerk of the city and county of Honolulu.

Shinze opposed the motion because he said it had arisen over a dispute between Pacheco and W. J. Coelho over the latter's bill for work as assistant clerk. The committee had compromised on \$200, and this amount ought to go to him.

Finally after a short recess, Senator Castle introduced a compromise, allowing the approval to be passed by the county auditor and the bill passed unanimously.

GOVERNOR FURNISHES ITEMIZED ACCOUNTS OF CONTINGENT FUND

Governor Pinkham has handed to the members of the legislature an itemized statement showing the expenditures that have been made from his \$50,000 contingent fund from July 1, 1915, to February 28, 1917. Out of the \$50,000 there has been spent \$40,896.51. From his out-of-pocket fund of \$5,000 there remains somewhat less than \$5.

The summary of the itemized account follows:

Governor	561.17
Decorating capitol	25.00
H. R. T. & L. Franchise	11,948.22
Kauai trip	46.00
Tax commission	30.00
Reception to princess	5.30
Expenses entertainment	38.00
Reviewing stand	27.25
Naval militia	557.16
Military belt road	70.86
Military	23,171.15
Total	336,476.11
Public Works—	
Water investigation	2,178.65
Maintenance government property, Oahu	599.48
Total	2,768.13
Harbor Commission—	
Expenses pilot, Kahului	798.28
Maintenance wharves, Haw.	73.59
Investigation new wharves, Hilo bay	338.05
Material, equipment, etc.	40.58
Total	1,149.50
Judiciary—	
Supreme court reports	30.02
Total	30.02
Treasurer—	
Expenses, official bonds	472.65
Total	472.65
Grand total	\$40,896.51

MILITARY ORGANIZATION WANTS TO COME TO HAWAII

The Nationals, a leading military organization of San Francisco, has written to the Hawaii Promotion Committee stating that arrangements are being made to send an excursion of 150 members to Hawaii in the very near future. The organization has a number of fancy uniforms, and is especially well drilled.

The party will bring with them, in case arrangements are made to make the trip, a baseball team, band, a target shooting team, and a number of swimmers, among the sailors being Norman Ross of the Olympic Club.

More than \$5,000,000 barrels of oil were used as fuel for locomotives in the United States last year.

OLAA CONDITIONS MUCH IMPROVED OVER LAST YEAR

1916 Crop Was Affected By Weather Conditions This Crop Has Not Met

Dividends of \$242,751.40, labor bonuses of \$162,144.06 were paid and there was devoted to the bond sinking fund \$46,473.48 and carried to the balance account \$225,220.57 by the Oloa Sugar Company. These figures were given in the report of A. W. T. Bottomley, the treasurer of the company, to the stockholders at the annual meeting held this afternoon. During the year there were additions amounting to \$177,815.32, including all mill machinery, \$98,592.12, \$30,613.79 and \$14,799.98; live stock, \$49,601.13, and mill buildings, \$8,297.12. Bonds to the amount of \$76,000 were paid off and bonds to the amount of \$68,647.33 are in the treasury.

Manager C. F. Eckart in his report explains that the low yield of the 1916 crop was due to the extremely adverse weather conditions that were encountered. The crop yield was 21,574.75 tons from 5823.15 acres or 3.70 tons to the acre. It required 9.93 tons of cane to produce a ton of sugar.

Sufficient allowance, he says, was not made in the January estimate for the abnormal conditions through which the crop had passed and this he terms unfortunate. The stand of cane bore evidence of not being very far from the normal, but the average length was disappointing and proved deceiving.

The question naturally occurs, he continues, whether or not the large drop from the expected in the 1916 crop indicates a serious and discouraging sensitivity on the part of the plantation to unfavorable conditions. He replies that it shows a sensitivity but not so extreme as to be discouraging and it is also particularly responsive to favorable conditions. In his judgment the plantation made a more favorable showing comparatively and considering what it went through in 1916 than it did in 1915.

The crop of 1917 is being harvested from 6598.72 acres and is favored by the considerably larger area than the 1916 crop and with the export of somewhat cooler weather than normal for the second season has had the advantage of average conditions. A considerable proportion, however, is late started owing to droughts in 1915 having prolonged harvesting operations. With the exception of this late started cane and the Mountain View fields, which suffered from leaf hopper, which is estimated at 2500 tons of sugar, showing a heavy and satisfactory stand. Allowing for such damages, he places his estimate for the year at 30,000 tons. Grinding commenced January 4 and the quality of juice has been considerably higher than for the same period last year.

The total area for the 1918 crop is to be 6370.78. At the present time the cane is considerably further advanced than the preceding crop was at the same period. Leaf hopper is already making itself felt, however. It is hoped that leaf hopper parasites, a considerable number of colonies of which have been imported and planted, will prove of benefit.

MUCH LIVESTOCK IS IMPORTED GIVES ADVICE TO DOG IMPORTERS

A large number of different kinds of live stock were brought into the territory during the month of January, according to the report of L. N. Case, assistant territorial veterinarian, just released by the board of commissioners of agriculture and forestry.

According to the report, there were 50 Marino rams, 13 Southdown rams, 1 Shropshire ram, 16 Holstein cows, 2 Holstein bulls, 1 Sneathorn bull, 2 horses, 2 Jennets, 63 crates of poultry, 2 crates of turkeys, 1 Berkshire hog, 4 Luroc Jersey hogs and 8 dogs and 14 cats.

Of most interest were the 50 Marino rams which the Parker ranch receive annually from New Zealand. Unfortunately two of them were injured and one had to be killed. The 15 Holstein cows and two bulls were also of a fine strain.

The cold and wet weather during January was partly responsible for the loss of three pups and two dogs while in quarantine, though the direct cause was the introduction of the infection with unvaccinated pups. These losses were regrettable, and however insignificant when compared with what might have happened had we not had the use of distemper bacterin and serum at hand. These new remedies, while far from infallible, have undoubtedly served to protect or cure the more than 20 other dogs present when the disease was introduced. The point, however, which it is wished to bring out is the danger always attendant upon bringing young dogs or puppies to a strange climate, on an ocean voyage of at least six days, during the middle of the winter, and without taking the precaution of protective vaccination before starting the animal away from its home. Prospective dog importers are therefore urged to have a veterinarian vaccinate their dogs before taking or sending them on board the steamer for Honolulu. The treatment consists in two or three hypodermic injections at intervals of one or two days, the cost of the vaccine (three small bottles) being \$1.50, to which should be added the veterinarian's fee. This treatment will in most cases protect the animals against a fatal attack of the disease. If neglected the treatment of the sick dogs are far more difficult and complicated and the mortality among unvaccinated dogs frequently reaches 75 to 90 per cent. Dog distemper is a highly infectious and very easily transmitted disease which once it gains entrance to a kennel or quaran-

BLASTING FOR BUILDING CAUSE OF LOUD REPORTS

The loud reports which were heard yesterday were blasting which is being done at the corner of Nuuanu and King for the new building which is to be erected there. All the German vessels are safely tied up at their respective wharves and the legislators are quietly going about their business with no evidence of any verbal bombs about to be exploded. The number of blasts were three occurring at 2:30, 3 and 3:30 o'clock.

ADVOCATES OF PEACE TO HOLD MEETING TONIGHT

Any persons who believe that war is worse than the evils for the removal of which it is said to be carried on are invited to meet at the Public Library this evening at 7:45. Mr. Robert Whitaker of Los Gatos, Cal., and Mr. C. F. Dole of Gaston will address the meeting. All who may be interested will be welcome.

TEUTONS MIGRATE INTO MEXICO BY MANY HUNDREDS

(Associated Press by Federal Wireless)
WASHINGTON, D. C., March 9.—The steady exodus of German subjects from the United States into Mexico and the semi-official reports from the City of Mexico of the establishment there of a powerful wireless plant now working in direct communication with Berlin, are arousing the attention of the federal officers.

The German migration south across the Mexican line has assumed fairly large proportions and appears to be growing steadily.

Hundreds Are Seeking Passports
At the Mexican consulate general in New York City, Mexican passports are being issued to German applicants at the rate of more than a hundred a day. Already this week, up to last night, more than four hundred had been made out and delivered to those applying.

A somewhat similar state of affairs is reported from other cities containing Mexican consuls and consuls general empowered to issue passports. Mexican Neutrality Violated
Semi-official information is in the hands of the state department of the existence in the City of Mexico of a new, powerful wireless plant, already in operation and despatching code messages and receiving messages in code direct to and from Berlin.

Through the operation of this plant all the censorship exercised by the naval officials of the United States is made useless. Whatever information it may be found desirable by agents of Germany to transmit to the Fatherland may be sent to the City of Mexico through the United States mails or by messenger and from there transmitted by the wireless to Berlin.

The operation of this wireless plant also has far-reaching possibilities in enabling German efforts to violate the neutrality laws of the United States to be most difficult with the wireless plants at Sayville and Tuckerton in the control of the navy and when these plants were the only ones with wide radius operating on the Atlantic Coast. Flashes News to Raiding Ships
Through the City of Mexico wireless, German raiders or submarines may be furnished with information regarding the movements of shipping from American harbors; may be informed of the sailing of supply ships and instructed where to meet such ships at sea, and may be given the naval orders of the German admiralty regarding rendezvous and the establishment of new bases for supplies.

Other information has reached the state department of secret meetings of Germans, many of them from the United States, which have been held in Vera Cruz and Monterey, at which plans were discussed regarding the action to be taken by the German residents in Mexico in the event of war between Germany and the United States.

Secretary Lansing has issued instructions to Minister Fletcher, in the City of Mexico, to investigate these semi-official reports and to report his finding without delay.

RUSSIA PROTESTS AGAINST BARBAROUS METHODS IN WAR

(Associated Press by Federal Wireless)
PETROGRAD, Russia, March 9.—The Petrograd foreign office has sent to the government of Germany, a protest against the Turkish formal protests against the violations of the laws of war committed by the armies of the Central Powers. These violations, declares the protest, are amply verified by repeated instances in all fronts in which the Russian troops are engaged.

The abuse of the laws of war are said to include the use of explosive bullets, and the use of poison gas and burning liquid as well as the frequent use of poisoned mines, the poisoning of wells, the deliberate killing of the wounded and deliberate bombing of sanitary trains and hospital trains and the sinking of the hospital ships.

In speaking of the filibuster in the senate President Taft said: "The twelve senators who prevented the will of the majority being carried out took advantage of the rules of their house and under the American constitution would have given to the president the right to arm ships."

PROMINENT AUSTRALIAN DEAD

(Associated Press by Federal Wireless)
MELBOURNE, Australia, March 9.—John Gavran Duffy, barrister and solicitor, and a Knight of St. Gregory, died here yesterday, aged 73. Born in Dublin, the son of the late Sir Charles Gavran Duffy, he came out here as a young man and immediately rose into prominence in his profession. He was elected from Dalhousie in 1874 and sat for it almost continuously until 1904. He served as minister of lands, and was representative of Australia at the Universal Postal Union Congress at Washington in 1897.

GERMANY WARNED STOCK OF GRAIN GROWING SHORT

(Associated Press by Federal Wireless)
LONDON, Eng., March 9.—The Treasurer Food Controller Doctor Michaelis, in a formal address yesterday declared that the surplus stocks of grain in the kingdom are in danger of being exhausted. "It is a possibility that the surplus stocks of grain may be exhausted," he said according to a Renter's despatch from Amsterdam, "and it may become necessary to take radical measures to enable the people to hold out until after the spring shall have brought us aid."

The station is likely to attack all the susceptible animals, that is, those which have not had the disease before or been vaccinated. And even then it is advisable to avoid shipping pups or bitches in whelp during December, January and February.

FUND TO AID AMBITIOUS STUDENTS IN ACQUIRING FURTHER EDUCATION

Would Set Aside \$50,000 a Year to Send Young Men and Women to College

An entirely new departure in territorial aid for the ambitious young man or woman who, having mastered the work of Hawaii's secondary schools, desires to go to the mainland to receive further college, university or other recognized advanced instruction, is provided for in a bill introduced in the house of representatives by Representative Norman K. Lyman of Hawaii.

The bill provides for the creation of a permanent revolving fund of \$50,000 to be set aside from the general revenues of the territory and to be known as "The Advanced Educational Revolving Fund." The text of the bill explains very concisely its purposes, the measure reading as follows:

"Section 1. The sum of fifty thousand dollars (\$50,000) is hereby appropriated and set aside from the general revenues of the territory of Hawaii, and the same is to be immediately available for the purpose of creating a permanent revolving fund which is to be known as 'The Advanced Educational Revolving Fund.'

Examining Board Created
"Section 2. There shall be a board of examiners, consisting of the Dean of the College of Hawaii, president of the Oahu College, president of Kamehameha schools, principal of St. Louis College and superintendent of public instruction, who shall be a committee to examine and appoint those who are to be beneficiaries of this fund. These graduates of the public schools of the territory, each county being entitled to a certain number of beneficiaries as follows:

"County of Hawaii, 4, 2 each year; county of Maui, 4, 2 each year; county of Kauai, 2, 1 each year; city and county of Honolulu, 6, 3 each year.

"Section 3. No one shall be elected to be a beneficiary under this fund who shall not have finished the prescribed course in one of the public high schools of the territory; who is not an American citizen; or who is less than 15 years of age; or who is not of good moral character.

"Section 4. The persons selected to be beneficiaries under this act are to be allowed the sum of fifty dollars (\$50) a month, the same being issued by the treasurer with the understanding that this sum is provided to pay for, or to help pay for, the expenses of such beneficiary while he attends college or some other recognized institution of advanced learning on the mainland and such monthly payments shall continue for the term of his college course, for a period not to exceed five years.

Transportation Made Obtainable
"It is further provided that if the beneficiary so elects he may, as his first payment, secure the sum of one hundred twenty dollars (\$120), the same to be used for his traveling expenses in reaching the institution of learning which he has elected to attend, and in such case his monthly allowance for the first 12 months shall be forty dollars (\$40).

"Section 5. The money shall be paid to any beneficiary under this act until he has submitted to the committee, consisting of the governor of the territory and the superintendent of public instruction, a statement showing in such detail, as may be required, the course of study which he intends to pursue, the institution which he intends to attend, and such other information as the committee may call for; and no warrants may be issued to such beneficiary until after a statement has been submitted to the auditor, signed by the members of said committee and stating that the beneficiary has satisfactorily furnished the required information.

No Interest Charged
"It is further provided that it shall be lawful for such beneficiary to change his course of study and the institution of learning originally designated, but only upon his having received a written approval of such change by the members of the committee referred to. In case such a change is made without such approval, no further payment may be made to said beneficiary. Every person receiving benefits under this act shall, upon his graduation, be required to return to this territory and to enter the service of the government for a term of four years, if a suitable position can be found for him. In either case he should be required to pay back to the government, in monthly installments, the sum of dollars until the entire amount advanced him shall have been repaid, provided, however, that only the principal shall be paid and no interest shall be charged. Such money shall be paid to the treasurer of the territory and the same shall be placed to the credit of the fund known as 'The Educational Revolving Fund.'

"Section 6. The auditor of the territory of Hawaii shall issue warrants to the proper parties upon vouchers properly certified to by the superintendent of public instruction."

ADDITIONAL TELEGRAPH NEWS

MUST BE NO UNCERTAIN
BACKING FOR WILSON—TAFT
(Associated Press by Federal Wireless)
MONTPELIER, Vermont, March 9.—Former President Taft made an address before the state legislature yesterday, in which he urged upon his hearers the great need of backing the president in the present crisis. "There must be no uncertainty in the backing that we give Mr. Wilson in the present crisis," said the former president. "Every force that we command should be thrown into his scale in his favor to enable him to properly protect the lives and property of American citizens at home and abroad at whatever cost. This nation—no nation—can purchase immunity from war with the sacrifice of honor or allow prudential motives to outweigh the rights of its citizens to protection."

RUSSIA PROTESTS AGAINST
BARBAROUS METHODS IN WAR
(Associated Press by Federal Wireless)
PETROGRAD, Russia, March 9.—The Petrograd foreign office has sent to the government of Germany, a protest against the Turkish formal protests against the violations of the laws of war committed by the armies of the Central Powers. These violations, declares the protest, are amply verified by repeated instances in all fronts in which the Russian troops are engaged.

PROMINENT AUSTRALIAN DEAD
(Associated Press by Federal Wireless)
MELBOURNE, Australia, March 9.—John Gavran Duffy, barrister and solicitor, and a Knight of St. Gregory, died here yesterday, aged 73. Born in Dublin, the son of the late Sir Charles Gavran Duffy, he came out here as a young man and immediately rose into prominence in his profession. He was elected from Dalhousie in 1874 and sat for it almost continuously until 1904. He served as minister of lands, and was representative of Australia at the Universal Postal Union Congress at Washington in 1897.

GREMAN RRESS CHARGES WILSON FAVORS ALLIES

(Associated Press by Federal Wireless)
BERLIN, Germany, March 9.—Press comment upon the changed address of Mr. Wilson is beginning to be heard in German papers. In commenting on the address the Nord Deutsche Allgemeine Zeitung, yesterday said that "the phrase in Mr. Wilson's talk strikes us. He says that America desires fair dealing and is ready to claim it from all mankind."

"That is Wilson is ready to claim that he does not consider that Germany is in the right, yet the whole policy of Germany toward the Allies has been based upon the fact that only the principal shall be paid and no interest shall be charged. Such money shall be paid to the treasurer of the territory and the same shall be placed to the credit of the fund known as 'The Educational Revolving Fund.'

"Section 6. The auditor of the territory of Hawaii shall issue warrants to the proper parties upon vouchers properly certified to by the superintendent of public instruction."

FOREIGN LOANS SAFE,
SAYS RESERVE BOARD
(Associated Press by Federal Wireless)
WASHINGTON, D. C., March 9.—The federal reserve bank board yesterday issued a statement in which it reiterated its former statement that the war against investing in foreign securities issued some time ago had been misunderstood throughout the country and the world at large, and that foreign loans were a safe and natural means of settling trade balances.

"The country's gold reserve has been materially strengthened and supplies a substantial basis for additional credit," adds the statement.

SWITZERLAND CALLS OUT
HER RESERVES FOR DUTY
(Associated Press by Federal Wireless)
PARIS, France, March 9.—The Swiss legislature here has formally notified the French government that the government of Switzerland has been forced to call out the army reserves, and has completed its mobilization of the third and sixth divisions of infantry and artillery as well as two additional battalions of the landwehr.

JAPANESE AVIATOR KILLED
(Special Cablegram to Hawaii Ship)
TOKYO, Japan, March 9.—Earl S. Swada of the Japanese aviator corps, who is known as the most skillful aviator in Japan, was killed in a fall yesterday when he took a high flight. Swada is the winner of the long distance aviation contest which was held by the Japanese army. He returned last month from an inspection trip to Russia, England and France.

RAILROADS AT LAST PUT
ROLLING STOCK TO WORK

EASTERNERS CAPTURE CHAMPIONSHIP IN LADIES' TENNIS DOUBLES MATCH

Mrs. F. A. Belin and Miss Janet Storrs of Scranton Defeat Mrs. Coulter, Miss Ward

HAWAIIAN CHAMPIONS Ladies' Tennis Doubles

1903—Mrs. Coulter and Miss Ward. 1904—Mrs. Coulter and Miss Ward. 1905—Mrs. Coulter and Miss Ward. 1916—Mrs. Renton Hind and Miss Alice Hopper. 1917—Mrs. F. A. Belin and Miss Janet Storrs.

For the first time in the history of lawn tennis in Hawaii, Mrs. George Coulter went down to defeat yesterday afternoon at the Polo Club courts. Playing with Miss Lucy Ward, the former doubles champions lost out in a five set match which was one of the best ever staged in local circles.

The finished play and sharp strokes of Mrs. F. A. Belin and Miss Janet Storrs of Scranton, Penn., were too much for the local players who had held the honors for so many years. As predicted, the match went to five sets before the Easterners broke through the play of the local stars, and the large gallery present felt that the Eastern stars would win out after the fourth set, as their play was improving. And when a sharp drive fell inches inside of the base line which Mrs. Coulter was unable to return, the championship went to the visitors, 6-3, 4-6, 4-6, 6-3, 6-4.

There was an unusual amount of brilliant play throughout the match and Mrs. Belin and Miss Ward at the net gathered the plaudits of the gallery from time to time with their lightning strokes for points. Although Miss Ward did not play to advantage in strokes to the base line, she proved to be a wizard at the net, and turned any number of drives for points with a sharp angle shot which skimmed the side line.

Mrs. Coulter, as usual, played a game which was marked with finesse in every department, but she met an opposition on the part of the visitors which was difficult to break through. Miss Storrs lobbed to the base line and then Mrs. Belin would drive for the point with a sharp cut stroke which invariably counted. In the early sets of the match Miss Ward starred. Better play has not been seen in a local match where the fair sex were contenders. But Mrs. Belin continued her great play at the net, and her

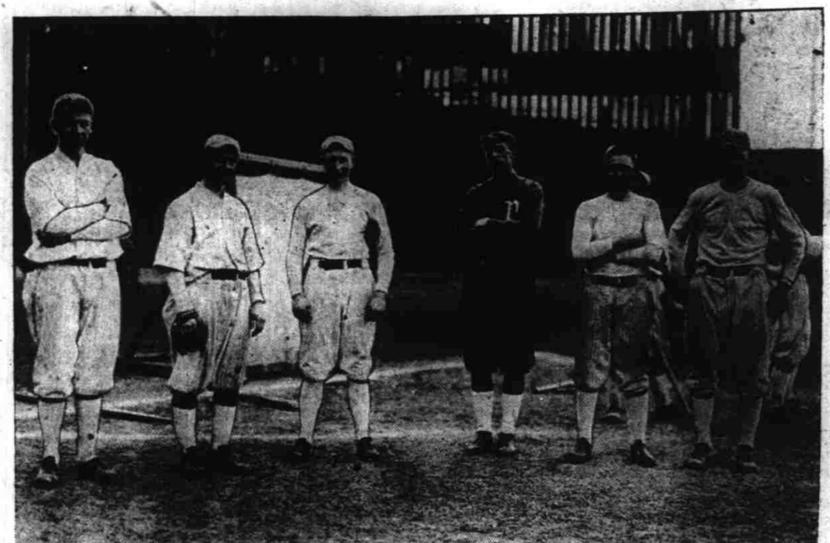

service won many points as the game continued. Local Star The visitors took the first set when they scored five games in succession by great cross-court play and perfect lobbing. The second and third sets were captured by the local team by great play in every department. Mrs. Coulter was using the loft stroke which was difficult to return and her placements to the side line were perfect. Added to this was the fine play of Miss Ward at the net. Miss Storrs tried time and again to lob, but Miss Ward was playing great tennis on the overhead shots and scored many points.

In the fourth set the Easterners changed their tactics and drove the ball hard at the feet of their opponents who were often out of position. Miss Storrs made a number of beautiful backhand shots which were lined, and when Mrs. Coulter returned. Mrs. Belin invariably made a kill to the center of the court. The lobbing was changed, and Miss Storrs placed well during the last two sets and the play of Miss Ward was not so spectacular. She made a number of cuts and nets, which took away much of the greatness of her play in the early sets.

The last set was a thriller from start to finish, and with the score 5-1 in favor of the visitors, Mrs. Coulter began a campaign which almost carried the set. Every shot was made with an intent and her placement was unusually good. It would have won out in most cases, but after she had used every stroke in the list the Easterners began a stubborn fight, and though not until the local players had carried the games to 5-4. A rally gave the Easterners a point and then one more, when the match point was due. Mrs. Belin made a sharp angle stroke to the base line which Mrs. Coulter was unable to return and the match was history.

Mrs. Coulter and Miss Ward won the first championship in 1903 and also carried off the honors in 1903 and 1904. Doubles were not played in other years, as there were no players who would cater against the stars. Mrs. Coulter could find no opponents in the singles until this year, and as a result there was no championship match for ten years. The return of Mrs. Coulter and Miss Ward to the courts is certain to give a big boost to tennis here, and with the establishment of a junior club interest is certain to be increased in Hawaii.

One of These Hurlers Will Battle Chinese

Here are six of the eight pitchers which McCredie has brought to Honolulu to see what they can show. They are, left to right: Zweifel, acquired from the Portland City League; "Lefty" Schatzlein, who has been pitching for semi-pro teams in California; Higbee, who was in the Middle West last year; Brandt, who starred in the Portland City League; Helfrich, who was a real winner for Harrisburg, and Penner, who at one time pitched for Cleveland. The other pitchers not in this group are Bigbee and Houch, both Oregon boys.

OAHUS DROP ONE GAME TO EMPEES AT Y. M. ALLEYS

Y. M. C. A. Bowling League

Team	P.	W.	L.	Pct.
Oahu	20	18	2	.900
All-Chinese	20	18	2	.900
Hawaii	16	7	9	.438
Cosmos	20	8	12	.400
Mid-Pacifics	16	5	11	.313
Nationals	12	2	10	.267
Service	16	2	14	.125

The Oahu and All-Chinese come up to their final match in the Y. M. C. A. Bowling League with an exactly even percentage for first place. The Mid-Pacifics took a game from the Oahu last evening and forced the leaders into a tie with the Chinese. Everything points to Friday, March 16, when these two crack teams meet to decide the winner of the first series. Both are confident of their ability to defeat the other and the pins should fly all the time after play is called. Last night's match was a hummer for the first two games. Each team won a game with a fine total and the score stood 1829 for each team at the end of the second game. Both total pinfall and the third game were dependent on the outcome of the last game. The Mid-Pacifics broke under the strain and the Oahu won out. Edgar Methven appeared as leadoff man for the Oahu and turned in high average card for the evening. Earl McTaggart proved the Mid-Pacific star while Arthur Nelson has the best single game of the evening. Carl Wikander and J. W. Canario were material factors in the Oahu victory.

JUNIOR TENNIS PLAYERS BOOST GAME IN HAWAII

More than 50 names have been received by the Star-Bulletin from boys and girls who would like to join a junior tennis club in Honolulu, and this interest shows that the younger players do really want to take an interest in the game. Bill Johnston and Clarence Griffin are two big boosters for the junior plan, and both have urged Honolulu tennis enthusiasts who wish to boost the standard of tennis here to get behind the movement to give the junior tennis players courts to play on. Harold Throckmorton, the junior champion, is another booster for the movement, and these players know what it means to begin tennis play early. Johnston was a wizard at an early age, and said during his stay in this city that a player must begin his game before he is 19 in order to become a really great star. The faculty in the various schools of the city have taken a deep interest in the junior tennis club movement, and leading tennis authorities are anxious to see it started. Malle Vickers, the youthful star who won her way to the finals in the island championships, is enthusiastic about the idea, and said that if a girls' auxiliary could be formed, she would be one of the first to submit her name to the list. J. W. Harvey of E. O. Hall & Sons has taken an interest in the movement, and said that if a tournament is staged he will do all in his power to assist. George Ahlborn is much interested in the movement, and promised to give a cup to the winner of a junior tournament. If each boy or girl who has forwarded their name to the Star-Bulletin as prospective members of the junior tennis club will find one person who would like to enter, plans will be started at once to enlist the support of the tennis enthusiasts in establishing a permanent organization. If you wish to help the plan along, find someone between the ages of 12 and 19 who is interested in tennis, and send his name in. Then active work will begin at once.

ARM STROKE ALL IMPORTANT, SAYS CAVILL IN TALK

(By Associated Press) SAN FRANCISCO, Cal., March 8.—"We would have more swimmers in the championship class if those who take up this form of athletic sport would concentrate their attention to getting the power into the crawl stroke with their arms." This is the opinion of Sid Cavill, swimming instructor at the Olympic Club of San Francisco, and one of the famous Cavill brothers of Australia who invented and perfected the crawl stroke. Cavill says: "We have gotten away from the old idea that there is any particular value to the kick. The idea of the push from behind has been entirely supplanted by the pull from in front. If you will note the actions of such swimmers as Duke Kahanamoku, Ludy Langer, Ross and other great watermen, you will observe the tremendous power they put into the shoulders and arms. The legs are kept perfectly straight and the slight upward and downward movement of the feet acts more as a stabilizer for the body than anything else. This slight foot kick keeps the body up parallel with the surface of the water and does but little more. "There is no need of any stress being placed on the action of the legs and feet other than to keep them straight. They will look after themselves. The swimmer should concentrate all his attention on the action of his arms. There is also a tendency to

ARM STROKE ALL IMPORTANT, SAYS CAVILL IN TALK

continue the stroke through too far. As soon as the arms are brought down to a position perpendicular to the body, the stroke should end. Carry it along further merely means that the swimmer is bringing his arm upward toward the surface which has a tendency to pull the body down into the water and is in no way aiding in its forward movement. "The fact that the feet cut comparatively little figure in speed swimming by means of the crawl stroke has been proven beyond any argument by trying them together. Progress is not greatly retarded and what loss of speed there is comes as much from inconvenience due to loss of free action through the fettered limbs as from any loss of motive power they may afford."

PACIFIC LEAGUE WILL HOLD MEETING WEDNESDAY A meeting of the Pacific League has been called for Wednesday afternoon at 5 o'clock at T. H. Davies & Co. At this meeting the plans for the season of 1917 will be arranged, and it is expected that the cups which were presented last year will be received by the winners. All officers and managers of the teams in the league are requested to be present.

KAMEHAMEHA FAVORITE TO FINISH FIRST IN CORNELL RELAY GAMES

Close Races Expected in Meet Tomorrow Afternoon on Kamehameha Field at 1:30

CORNELL RELAY GAMES At Kamehameha field Saturday afternoon. Pole vault begins at 1:30; 100-yard dash begins at 2 o'clock. Teams entered—Kamehameha, St. Louis, Punahou, Mills, McKinley.

Followers of track athletics will journey out to Kamehameha tomorrow afternoon to watch the curtain raised in cinder path work. The Cornell meet is as usual one of the big features of the year, and next to the interscholastic meet perhaps takes precedence over any other event of the year in track and field athletics. Kamehameha appears to be the winner of the meet with the dope outlined at present. It does not seem possible that the King street boys with the lead they have secured can finish in any other position. There should be a hard fight for second place, but Punahou appears to have the edge over Mills, although the latter school has a lead of a number of points secured in the cross country run. St. Louis has lost the stars of last year, and can hardly be expected to finish in the first three although this school has the habit of springing surprises and must be watched. McKinley has a start of eight points, but St. Louis is expected to catch up this

lead, and may pass the Mills team. Race in Four-Mile In the four-mile relay it looks like a race between Kam and Mills throughout. Mills is certain to center its efforts on this race, and may win out. In the two-mile event Kam has an excellent chance to win, although McKinley ought to make a great fight for place. In the four-mile event Kam will have Woolsey, Taylor, Groves and one other star, while Eaton and Uwe-loa, two good runners, will compete in the two-mile event. Punahou is expected to give Kamehameha a great fight in the mile relay, and looks the best to win in this event. The half-mile relay may result in a fight between Kam, St. Louis and Punahou. St. Louis is certain to put the best runners in this event, and with Fernandez as an anchor man may show something to the other schools, although Kam has Dower and Crabb and Punahou has Blake and Kauhane. The Sprinters In the 100-yard event the points should be divided between St. Louis, Punahou and Kam with Fernandez, Dower, Blake and Kauhane having a chance for places. The hurdles look like a victory for Kam, although some dark horse may give Dower a close race. Punahou and St. Louis will be especially strong in the jumps, and it is expected that Punahou will gather a number of points in these events. Dower is a good broad jumper, but is

—but, besides
pleasing your taste

Here is a cigarette that, in addition to pleasing the taste, does a new thing, the one thing you've always wished a cigarette would do—

AUCTION BULLETIN

We have inventoried the Macfarlane China and Glassware, etc., and are awaiting orders from the Trust Company to offer these goods to you. Many inquiries are made daily. We hope there will be no great delay as they occupy quite a lot of floor space in the rooms that we need and quick action in the essence of the auction business. Visitors cannot understand why these unique and rare things are not promptly sold. The real reason seems to be that they were stored so long that the owner has forgotten them and required an inventory to refresh his memory. This has been forwarded to him in New York and selling orders are expected shortly. Furniture continues in steady demand, and any usable goods will find prompt sale at Honolulu Auction Rooms. J. S. Bailey.

BY AUTHORITY

AT PUBLIC AUCTION

Will be sold to the highest bidder, at public auction, at the School Work Shop premises, on the corner of School and Fort streets, Honolulu, T. H., on Saturday, March 10, 1917, at 10 o'clock a. m., one lot assorted old lumber. Terms cash. D. KALAUOKALANI, City and County Clerk. 6727-3f.

In round figures the French production of wheat for 1914 was 319,000,000 bushels. According to the most recent estimates the crop for 1916 will amount to 220,000,000 bushels.

BOND LIMIT OF TERRITORY MAY BE \$12,000,000

Empowering the territorial treasurer to issue bonds amounting to \$12,000,000, which is an increase of \$3,000,000 over that now allowed, a bill was introduced yesterday afternoon by Senator R. W. Shingle, chairman of the ways and means committee.
As the Organic Act allows bond issues to the extent of 7 per cent of the assessed valuation of the territory, the bill if passed will still be under this amount by approximately \$2,000,000.
The legislature has always kept a limit on bond issues more strict than that allowed by the federal law.
In 1903 by the public loan act the issue was limited to \$5,000,000, which was approximately 7 per cent of the assessed value of property in the territory.
In 1911 the limit was changed by the legislature to \$7,000,000 and in 1913 to \$9,000,000. Senator Shingle's act thus stretches the present bounds by \$3,000,000. It was decided on a meeting of the ways and means committee this morning.
The following bills were introduced yesterday to pass first reading:
Senate Bill 56
Relating to public loans. Shingle.
Senate Bill 57
Making special appropriations to pay certain claims against the territory of Hawaii. Baldwin.
Senate Bill 58
Appropriating \$12,000 to construct, rebuild, relocate, repair and build a road at Aiea homesteads, Oahu. Quinn.
Senate Bill 59
Appropriating \$10,000 for roads through Kapaa homesteads, Kauai. Coney.

KAMEHAMEHA FAVORITE TO FINISH FIRST IN CORNELL RELAY GAME

(Continued from page 10)
certain to be overworked if he enters everything.
Kamehameha should have the edge in the shot put, with Kanuu and Bertelmann, but St. Louis and McKinley should produce some good heaves with their weight men. There are always upsets in the meets, but it looks like a victory for Kamehameha. Puna-hou second; Mills, third; St. Louis, fourth, and McKinley, fifth. Second and third places will have much to do with deciding the meet, and the worth of some of the new men will not be known until the races are run.
Professor Andrews of the College of Hawaii will be the clerk of the course, and he has announced that there will be a big blackboard on the course which will give the results of every race, following the report of the announcer. No one will be allowed on the field except officials.

'SILVER BULLETS' FROM U.S. CAN BEAT WAR MACHINE

Says the Wall Street Journal:
"Lloyd George once spoke of the 'silver bullet' winning the war. Our financial arsenals are filled with these bullets, gold-plated at that. We can send them to the allies by the shipload so long as the war lasts.
America can take upon itself a larger part of the task of feeding the armies and civilians of the allies. Where Germany is hungry, we have grain. Next spring we can increase the acreage of cereals, potatoes and foodstuffs in general. Governmental regulations may even be directed to that end. We have more than 22,000,000 dairy cows, 40,000,000 head of cattle, 48,000,000 sheep, and 67,000,000 swine. These animals mean food, clothing and leather.
There are 25,000,000 horses and mules, ready for the battle front, or the farm, or wherever the rator is needed.
We can supply the allies with copper, steel, coal and many chemicals. In the possession of these military necessities we are the strongest and best prepared nation of the world.
If the short-sighted kaiser sees nothing but a mobilization of untrained men behind our little army, he makes his last and greatest mistake.
Whistler's picture, White Girl, described by himself as one of his most important works, brought \$10,500 in London at auction.
An English railroad supplies toy locomotives and cars to children taking long journeys to relieve the monotony of riding.
