VICE ABATEMENT BILL, AMENDED, NOW MEETS FAVOR

New Proposal is to Restrict Section in Which Complaints Against Houses Are Made

Members of the select committee of Oahu senators, named by the committee of the whole to report on senate bill 10, the "abatement by injunction" measure, are proposing a compromise amendment, it was learned today.

Under the new plan the vice abatement bill will be reported to the senate favorably, with an important amendment. The amendment is to provide that complaints from individuals against alleged disorderly houses or premises must come from property owners within a radius of 1000 feet of the premises of which complaint is made. Such complaints are to be made through the county attorney or the attorney general. This latter provision is already in the bill, but the new plan will restrict still more the initiative of citizens in starting action against premises which they assert are used for vicious purposes.

That this amendment would be acceptable to the citizens who have been backing the abatement bill was indicated by one of them, an attorney, this morning.

However, the point is made from another source that such an amendment must not be taken advantage of to allow the establishment of a restricted district on some remote piece of land far from residences. In other words the amendment must be operative as a check on perhaps unwarranted prosecution started by a citizen, but not take advantage of for the establishment of a restricted district.

To insist on this point it is said that the present territorial laws making commercial vice a distinct offense will operate to stop such a course.

The Oahu senatorial committee was scheduled to hold a meeting some time this afternoon to discuss the new plan.

In view of this development, it has been decided, the Star-Bulletin is in favor of dropping the idea of holding an executive session of the committee to hear from army officers, physicians and others who might have decided views to express.

Debate on the question was held for more than an hour yesterday afternoon following the adjournment of the regular senate meeting.

SUGAR MEN ARE WARNED OF PRICE SLUMP AFTER WAR

Truman G. Palmer Sounds Note of Caution—Meanwhile Refiners Make Money Faster Than Ever

(Associated Press Service by Federal Wireless)

CHICAGO, Ill., Mar. 14.—Truman G. Palmer, secretary of the United States Sugar Manufacturers' Association, at the annual meeting today told the members to prepare for a slump in prices when the war is over.

NEW YORK, N. Y., Mar. 14.—A huge increase in profits was reported today at the annual meeting of the American Sugar Refining Company. The profit from all operations are reported for 1916 as \$9,756,379, as against \$2,991,465 for 1915. The turnover approximated \$200,000,000, showing a manufacturing profit of about four and one-half per cent.

RAILROADS GATHER FORCES TO MEET NATIONAL STRIKE

Embargoes on Certain Kinds of Freight Declared to Prepare for Emergencies

(Associated Press by Federal Wireless)

CHICAGO, Ill., Mar. 14.—Certain of the eastern railroads have notified the shippers on western lines of embargoes declared by the roads, due to the threats of a strike by the railway brotherhoods on next Saturday.

The lines which are declaring embargoes against certain kinds of freight in order to keep their rails clear for emergencies are the Big Four, the New York Central and the Baltimore & Ohio.

WASHINGTON, D. C., Mar. 14.—Yesterday's developments in the reported nationwide strike planned by the four brotherhoods of railroad men brought to light the fact that the general strike order has already been issued from the headquarters of the brotherhoods and that the strike is a certainty, planned to commence at 6 o'clock on the evening of Saturday, unless further orders are sent out countering the strike decree.

Information secured at Pittsburgh yesterday revealed the fact of the general strike order, copies being secured by the press. The order calls upon the train crews to strike "unless otherwise ordered," the crews to take their trains to the next terminal to be reached after 6 o'clock on Saturday evening or to tie up the traffic at some other point if travel to the next terminal is found to be too long a distance.

The trainmen are warned that there must be no violence.

BRITISH DOMINATE BAPAUME; CAPTURE ORVILLERS, HOLDING RIDGE COMMANDING GERMANS

Haig's Troops Ready to Smash Enemy's Positions and Take Big Strategic Center, Headquarters Reports

(Associated Press by Cable)

LONDON, Eng., March 14.—The American steamer Algonquin has been torpedoed by a German submarine. The crew was saved. No warning was given before the attack.

U. S. Consul Joseph G. Stevens reports that the sinking occurred at 6 o'clock in the morning of March 12. There were 10 Americans aboard, including the captain.

(Associated Press Service by Federal Wireless)

LONDON, Eng., March 14.—According to advices from Plymouth later today, the German submarine first fired on the Algonquin at a distance of 4000 yards. Twenty shells were sent at the vessel.

The bombardment was not sufficient to sink the steamer, which was then boarded by men from the submarine, who placed bombs in her and blew her up.

The crew was given plenty of time to leave.

The Algonquin is owned by the American Star Line. She sailed from New York for London on February 20. She was recently transferred from British registry to the American flag.

PIER PROBE AGAIN UP AT A HEARING

Harbor Board Gets Report of Inspection; New "Angles" in Situation Develop

This morning Engineer Gere refused to comment on the Forbes' plan, saying the committee's complete opinion will be set forth in the statement to the harbor board.

Forbes' alternative plan differs widely from the recommendations made by the committee.

A meeting of the house public lands committee was scheduled for 2 o'clock. This committee is investigating the whole pier controversy, and Superintendent Forbes was to appear before it. It was expected today that the engineers' commission would also appear.

Ever since Forbes "roasted" the work of the commission at a harbor board meeting a few nights ago the air has been laden with rumors of impending battle.

BILL INCREASES OAHU'S REVENUE

City Will Gain \$333,000 and Road Building Problem Be Less Puzzling

Oahu will have an additional \$333,000 in its general fund from tax returns next year if Representative C. H. Cooke's measure to amend various sections of the tax laws, introduced yesterday morning, becomes a law. The revenues of other counties from this source will increase accordingly.

Following out to a considerable extent the recommendations of the tax commission, Representative Cooke's measure provides that the allowance to counties from tax revenues shall increase from two-thirds of one per cent, the present rate, to a full one per cent, meaning that next year Oahu will have approximately \$333,000 more to spend.

"This certainly should provide funds for additional good roads," thinks Representative Cooke.

The measure, among other things, wipes out the leasehold assessment as being unmanufacturing. The provisions for a revenue of one-sixth of one per cent for permanent improvements is also wiped out.

The bill provides that an annual tax of \$5 for the support of public schools shall be paid by every male resident of the territory between the ages of 20 and 60 years. This provision does away with the payment of the present poll and road tax, the three taxes being combined into one under the heading of support of schools. The school tax now is \$2.

It is provided that ministers, members of volunteer fire departments, officers and soldiers of the National Guard and officers and soldiers of the Naval Militia shall be exempt from the payment of personal taxes.

Organizations and institutions exempt from the payment of taxes on real and personal property include library associations and Y. M. C. A.'s and Y. W. C. A.'s which are used exclusively for the moral, physical, intellectual and religious improvement of young men and women.

Kalaialani girls' home, the Salvation Army home in Manoa, the Palama Settlement and the Lanakila girls' home and other institutions are also exempt, the bill provides.

It is further provided that the tax appeal court shall sit each year in June.

SEARCH REPORTED ON GERMAN SHIPS

House Public Lands Committee Calls Meeting; Rumor Counter for Forbes' Attack

Many angles are developing today in the "German ship situation"—the efforts of the harbor board to find some method of disposing of the German refugee steamers to protect both the local harbor and wharves and the vessels themselves.

A harbor board meeting was called by Chairman Forbes for 3:30 this afternoon, to get a report from the committee which searched the Pomern and Setos. The report was in written form this morning but Forbes refused to divulge its contents.

The committee searched the steamers to see if any explosives could be found, also to see what measures had been taken by the crews to sink the vessels in hurry-up style if they were to be instructed to do so.

Yesterday there were reports that the statement by the committee today would deal with the condition of sea-cocks, valves, etc., but that no explosives had been found.

Rumor of Washington Action

The Star-Bulletin heard a report down town that Washington would take some action regarding the moving of the ships and that the harbor board would soon know definitely how far it can go in sending them outside or putting armed guards aboard. It was hinted the state department has taken the matter up again.

In the meantime there are renewals of the report that H. Hackfeld & Company, agents for the vessels, may decline to sign the proposed \$500,000 bond, which is supposed virtually to guarantee the "good conduct" of the German ships. In this connection the question of treaty rights comes up.

House Gets Board's Letter

Another "angle" developed today when the harbor board sent a letter to the house of representatives declaring that under present circumstances the ships had better stay at their piers.

On being asked by the Star-Bulletin this morning what the status of the bond sent to the local agency for the German steamers Tuesday morning now is, Vice-President George Rodick of H. Hackfeld & Company, Ltd., referred the reporter to the agency's attorneys, Thompson, Milverton & Cathcart.

"We received the bond form Tuesday morning," said Attorney Thompson at the firm's office, "and we will give Hackfeld & Company an opinion on it this afternoon or this evening. Treaty Rights Looked Up

"Today we are running down some treaty rights and as soon as that is finished we will write our opinion and send it to the company."

It is understood that the "treaty rights" referred to by the attorneys are treaties between the United States and Germany which might render invalid certain vital portions of the bond form as now drawn up to protect the interests of the territory in case of war and a possible blowing-up or sinking of the vessels by their crews.

Harbormaster Capt. William R. Foster said this morning that he had turned in to Chairman Charles R. Forbes of the board of harbor commissioners a written report of the findings of the investigating committee, of which he is chairman, and which searched the refugee German merchant steamers Pomern and Setos, the two vessels named in the \$500,000 indemnity bond, to see if any explosives were aboard or if any preparations had been made to scuttle them at their docks in the event of war with Germany.

Harbormaster Foster's report is accompanied by a supplementary report filed by Richard L. Leach, chief engineer of the Inter-Island steamer Mikahala, who served as the "competent mechanic" named in the motion, to assist the committee in its search.

Harbor Board Informs House

That the German refugee ships had best be allowed to remain in Honolulu harbor, under a heavy bond as

BERNSTORFF SAYS EMBASSY NOT CENTER OF PLOTS

(Associated Press by Federal Wireless)

LONDON, Eng., March 14.—It now develops that Germany did not intend any harm to the United States when she plotted to have Mexico fall upon the southern boundary line while Japan attacked us on the western coast. This is the gist of the statement which is credited to former Ambassador von Bernstorff on his arrival in Berlin yesterday.

The diplomat was given a cheerful welcome on his return to the German capital. He reported immediately to von Bethmann-Hollweg and Doctor Zimmermann, the chancellor and foreign minister, before making any statement.

Later he is credited with having asserted that Germany did not plan to make trouble in South America and that the reports that made his office in Washington the center of all manner of plots against the peace and neutrality of the United States are without foundation. He always acted correctly no matter what he did, he added.

After his formal statement he sent a communication to the Berliner Tageblatt, the semi-official organ of the government in Berlin, and again denied the charges that have been brought against him. In that article he says also that "if Germany sinks an American steamer it means war, but if a submarine sinks an Entente vessel with Americans on board that's quite different."

UTILITIES WILL MEET TOMORROW

At 1:30 tomorrow afternoon the public utilities commission will resume its general investigation of the Inter-Island Steam Navigation Company, Ltd. Further figures asked for by the commission concerning the company's business are scheduled to be produced.

Commissioner A. J. Gignoux and Secretary Henry P. O'Sullivan attended the inquest held this morning into the death of J. J. Devereaux, the Inter-Island engineer who died Tuesday from burns received when a gasoline torch with which he was working exploded. Secretary O'Sullivan took stenographic notes of the testimony.

Tuesday afternoon the commission investigated two accidents aboard Inter-Island steamers.

Germany Claims Ancre Attacks Costly

BERLIN, Germany, March 14.—The Teutons last night repulsed British attacks on the Ancre sector with heavy losses, says today's official statement.

On the east front, Russian mining operations were broken up in extensive German raids along the Narvovka river in Galicia, the Teutons capturing many prisoners and much material.

KEPT GERMAN ON THEIR SHIPS

Officers and men on two German steamers at Tutuila, Samoa, were kept close to their ships by order of Gov. J. M. Poyer when diplomatic relations were severed with Germany, according to advices received from there in a mail brought yesterday afternoon by the steamship Sohoma. Gov. Poyer issued the following order:

Instructions have been received to safeguard the interests and neutrality of the United States. It is hereby ordered:

The naval station is closed to all persons, except officials and employees. The public road through the station will remain open to pedestrians for the present. Horseback riders will dismount and lead their mounts while in the limits of the station. No visitors will be allowed in the power plant, shops or government buildings except on official business.

No person, except United States officials and employees, will be allowed to visit the radio station or to approach its neighborhood.

The officers and men of the German steamers Klessau and Solt will remain on board their vessels. If permission is desired to visit the shore, a written request to that effect will be submitted to the captain of the yard stating reasons and time desired. All communications to or from the ships will be at the customs wharf only. Permission for medical service, to receive or send stores or mail or to obtain fresh water will be first obtained and such arrangements as may be authorized will be made by the captain of the yard.

It is forbidden for all persons except officers and men of the naval service and government employees actually at work to go to the government wharf or to approach its vicinity. No boats will be allowed on the water of the bay between sunset and sunrise.

No persons except residents of the naval station will be permitted within the limits of the station between 10 p. m. and 6 a. m., without previous permission from the captain of the yard.

Any offender against this order will

RENOMINATION FOR CURTIS P. IAUKEA

(Special Star-Bulletin Cable)

WASHINGTON, D. C., March 14.—Curtis P. Iaukea was renominated last Monday for secretary of the territory. C. S. ALBERT.

Mr. Iaukea's nomination was sent in with a number of others for Hawaii appointments. It was not mentioned in the first despatch, whereupon the Star-Bulletin called its Washington correspondent asking if the reappointment had been made. As now shown, it went in with the others.

It is at once arrested and delivered to the captain of the yard.

The captain of the yard is charged with the execution of the details necessary to enforce this order.

J. M. POYER,
Governor of American Samoa and
Commandant, U. S. Naval Station,
Tutuila.

PUUNUI AFTER IMPROVEMENTS

In an attempt to have part of the Puunui district paved a delegation from the improvement club visited George M. Collins, city and county engineer, this morning and discussed the situation. The section which they desire improved is from Rooke to Alewa and from the Country Club property to Wyllie and the extension of Lilihua street. This district, if established, would be the same as the territory included in the project which called for Circle Drive as its mauka outlet with the exception that the outlet and Cherry Vale is left out.

The proposition, according to Collins, is only tentative and the delegation returned to Puunui to find out if the people would be willing to pay for the work.

This morning it developed that the petition filed at the meeting Tuesday evening in which 81 per cent of the property owners on Alewa street requested that the board pave that street was misunderstood by a majority of the signers who thought it simply asked the board for temporary repairs.

The Baldwin Locomotive Works received orders for 17 new locomotives. Fifty are for export for the account of the Northern Railway of France.

On the eve of his marriage, James O'Brien, a lineman, was electrocuted by a feed wire while working on the top of a 30-foot pole at Paterson, N. J.

CHINA BREAKS WITH GERMANY FORMALLY

(Associated Press by Federal Wireless)

WASHINGTON, D. C., Mar. 14.—Dr. Paul S. Reinsch, American minister to China, has cabled the secretary of state that China has formally severed diplomatic relations with Germany and the German minister in Peking has been handed his passports.

DUCHESSE OF CONNAUGHT IS DANGEROUSLY ILL

(Associated Press by Federal Wireless)

LONDON, England, Mar. 14.—The condition of the Duchess of Connaught today is reported on the official bulletin as "increasingly grave."

One man was killed and three others seriously hurt when struck by an auto truck while at work repairing the tracks of the New York Railway Co. at Avenue C and Eighth street, New York.

Edward Thierck pleaded guilty in the United States District Court to the embezzlement of \$20,000 in cash and securities from the National Shawmut Bank of Boston.

Governor Edge of New Jersey, appointed Alfred S. March of New Brunswick to succeed John T. French of Jersey City on the Board of Public Utility Commissioners.

Pope May Protest Against U-Boat War

(Associated Press by Federal Wireless)

PARIS, France, Mar. 14.—The pope has decided to make an important pronouncement regarding the war in the coming consistory, on March 22, according to a despatch from Rome. It is reported that the Vatican will protest against "unrestricted" naval warfare.

British Cannon Fire Reported Immense

(Associated Press by Federal Wireless)

NEW YORK, N. Y., March 14.—Bapaume is doomed and may fall today. Such is the belief of the military experts based upon the reports of fresh British successes in the tremendous attacks that are being carried forward upon the Ancre and Somme fronts by the Entente Allies now.

The German lines appear to be unable to withstand the volume of shell and high explosive which the British gunners are raining upon them and yesterday they broke again and for even greater gains than the British have as yet reported and over a wider front. Few details have been received here as yet of the fighting, but enough has come to show that it was exceedingly bloody on both sides. The Germans resisting to the last the onslaught of the Allies was over a front a little more than three and one-half miles wide, and when the Teuton lines broke the rush of the British carried them more than a mile forward on the entire front.

It was late when the Germans began their retreat and the last reports from the battle field said that they were still falling back and that the British pursuit continued without check.

North of the Ancre river, where the fighting yesterday was also heavy, the British also forced their way through the entanglements that blocked their progress and recorded marked gains, pushing back the German lines for a distance—that is reported at about a mile. Northeast of Commequene, where the British are advancing the northern snipers that have been closing in upon Bapaume, they struck again heavily yesterday and drove the Germans back, with heavy losses.

The French reported yesterday that they are striking in the Champagne country, the key to the entire long salient that has for its apex the city of Noyon.

Any offender against this order will

(Continued on page three)

Committee Meetings Keep Legislators Busy Beyond Session Hours

SALARY OF ADJUTANT-GENERAL IS WARMLY DEBATED IN HOUSE

Further Increase to \$500 a Month is Defeated; Bills Pass Third Reading

A move to raise the salary of Brig. Gen. Samuel I. Johnson, adjutant general of the National Guard, was beaten down in the house this morning, the legislators lining up with the finance committee in its report on a bill calling for an appropriation of \$15,000 to carry the guard for the next four months.

The finance committee pared the \$15,000 appropriation to \$14,600, allotting \$600 instead of \$1000 toward the pay of the adjutant general. Representative Andrews sought to amend the resolution to keep in the \$1000 item, which would mean that Johnson would have \$250 a month added to his present salary for the next four months.

Cooke Opposes Increase
Representative C. H. Cooke bucked the proposal.

"I can not see why we should pay the adjutant general more than the head of any other department," he said, in effect. "If he was not satisfied with the present salary of \$250, why did he take the position? Johnson has been getting \$500 a month. Kind friends have contributed to bring his pay up to this amount.

"His training does not entitle him to the salary of a brigadier general," Cooke continued. "He has not been through West Point and he took no severe examinations to get the office. I fail to see where this legislature is called upon to fix a higher salary than that of any other department head."

Andrews defended his amendment by declaring that the citizens should not be called upon to dig down into their pockets to meet the needs of the territory.

Guard is Now Efficient
"This is the first time in history that we have had an efficient National Guard on every island," he declared, after praising Johnson's work as head of the guard.

Representative Ahuna took the floor and speaking in Hawaiian, denounced Andrews' amendment as being unnecessary. He intimated that "if Johnson does it to sit in his office, raise his voice and give commands."

Representative Kekeloa, the "Boy Orator" from Hilo, then arose.

"Does the representative from the fifth district know," he asked, referring to Ahuna, "that Gen. von Hindenburg of the German army sits in his office, that he raises his voice and his milling soldiers move?"

Andrews' amendment was tabled and the members of the house passed the bill on third reading. As now amended it provides that Johnson's salary be raised to \$400 a month, \$150 being added to his present salary for the next four months.

Wants Open Public Lands
Representative Lyman of Hawaii

brought up again today the old question of opening public lands for homestead purposes by introducing the following resolution:

"Whereas, there are in the territory of Hawaii citizens who have been living on government lands prior to April 3, 1900, as provided for in Section 73 of the Organic Act, allowing that preference rights be granted to them, and

"Whereas, applicants have been filing their applications as provided for by law, and up to the present time the patents for the said lands have not been issued by the commissioner of public lands and the governor of the territory of Hawaii, withholding and delaying the same without authority, therefore,

"Be it resolved, by the house and the senate concurring, that the commissioner of public lands is hereby authorized to send a competent surveyor to the several counties and check up all applications for preference rights and immediately thereafter, have said patents issued and signed by himself as commissioner of public lands and the governor as required by law, and

"Be it further resolved, that the clerk of the house is authorized to forward certified copies of this resolution to the governor and the commissioner of public lands."

Conference is Now Needed
The members of the house today declined to concur in amendments made by the senate to House Bill 99 which provides that the board of supervisors shall fill vacancies in county offices, and that vacancies in the boards of supervisors shall be filled by special election. The speaker appointed Representative Fernandez, Paschoal and Kawaha as members of a conference committee to meet the committee of the senate on the bill.

House Bill 29, providing that homesteads be exempt from taxation for five years passed third reading today. The solons also passed on third reading House Bill 48, which seeks to repeal certain laws prohibiting the taking of ice and shell with nets more than 24 feet long. The bill providing an appropriation of \$5000 for the construction of a landing at Mokuauia, Maui, has passed third reading.

Bills Pass Third Reading
The bill providing for an additional tax of one per cent on corporations and incomes over \$4000 passed third reading. Another bill passing third reading was that providing that second district magistrates in certain large districts shall receive \$7 a day when sitting for the magistrates.

A batch of bills were to come up on third reading at a session of the house being held this afternoon.

The following bill was introduced in the house at the afternoon session Tuesday:

House Bill 267
Appropriating \$15,000 for diverting the stream flowing into the sea between the Outrigger Club and the

INCREASES IN BUDGET FAVORED

Recommending that the ways and means committee take up the consideration of appropriations proposed in the school budget for the coming biennial period, the senate education committee this afternoon reported to the parent body.

Additional estimates submitted by the department of public instruction since the regular budget was introduced bring the total amount requested for the special fund to \$771,300. The bill as amended was passed today by the education committee.

These new estimates are as follows: Room and cottage at Puukapu, \$2200; purchase of lands at Hilo, Kona, Hawaii, from Mrs. N. Scott, \$2900; buildings at Kealahou, Waikou and Kula, Maui, \$4000. Total \$8300.

Referring to a survey department for which an item of \$4500 is submitted, the committee states that this appears to be an absolute necessity, as explained by the superintendent.

It is pointed out that the department favors an increase from \$4800 to \$5400 for the salary of inspector general; industrial work and manual training at \$50,000 includes supplies and materials whose prices are constantly advancing.

"As the total appropriations asked for in the departmental communication is \$456,539 more than the budget for the corresponding period ending December 31, 1917," says the report in conclusion, "your committee is of the opinion that the said communication requires the careful consideration of the senate committee on ways and means to study and weigh it from the financial standpoint as regards available revenues of the territory."

GERMAN-RAIDER ACTIVITY CUTS RESORT SEASON SHORT
NEW YORK, N. Y.—The German sea raiding activities in southern Atlantic have terminated abruptly the winter resort season in the Bahamas arrived here on the steamship Morro Castle. Hotels have closed because the British authorities ordered lights out at night, passengers said, and hundreds of tourists have fled from the islands, causing the business places, the patrons say, to close.

Moana Hotel.—Andrews.
The following bills were introduced today:

House Bill 268
Providing for the erection of a high school at Hana, Maui.—Paschoal.

House Bill 269
Appropriating \$12,000 for the purchase of land for a public park at Kaimuki.—Andrews.

House Bill 270
Appropriating \$10,000 for a road through the Hauula, Koolauloa, home-stead district.—Mossman.

House Bill 271

HOUSE NOTES

To discuss bills especially relating to county needs, the house has invited Mayor Lane and the chairmen of the boards of supervisors of all counties to meet with the chairmen of house committees at the capitol at 10 o'clock next Sunday morning. The meeting was proposed by Speaker H. L. Holstein.

House Bill 156, appropriating \$15,000 to carry the National Guard until other funds become available in June, has passed second reading in the house pared to \$14,600.

House Bill 101, providing an additional income tax of one per cent on corporations and on incomes in excess of \$4000, has passed second reading in the house.

The finance committee has cut to \$4000 the appropriation of \$7500 asked in House Bill 123 for preparing plans and estimates for a road from Hilo to Kona. The bill has passed second reading with the amendment that the money be paid out of the balance of the fund for homestead roads, Hawaii.

House Bill 112, providing that police officers be exempt from paying personal taxes, was tabled in the house Tuesday on recommendation of the finance committee.

Representative Andrews' bill providing for a city magistrate to handle juvenile and civil cases has passed second reading in the house.

The members of the house have been invited to the Bijou theater next Tuesday evening to view "The Battle Cry of Peace."

Gov. Pinkham has signed House Bill 61, as Act 7, which provides an increased penalty for the crime of kidnapping. This bill was introduced at the instance of Circuit Judge Ashford in view of the increased number of kidnapping cases among Filipino residents here.

Representative Andrews, late Tuesday afternoon, introduced a bill providing \$15,000 to divert the stream which empties fifth into the ocean between the Outrigger Club and the Moana Hotel. T. Ashman Beaven, secretary of the club, is sponsor of the bill.

House Bill 144, which takes from the supervisors the power to regulate the production and vending of milk, and places it under the board of health, was tabled in the house Tuesday.

BILL CLOSES UP OLD LOAN FUND

Recommending the use of \$50,000 for the territorial prison now under construction and \$16,000 for harbor work, a bill introduced this afternoon by Senator Robert W. Shingle, chairman of the ways and means committee, closes up the old loan fund account started in 1911.

Shingle explained the bill, stating that it completes the general outline of the financial program announced by the ways and means committee of transferring separate loan fund items under one head as a matter of practical bookkeeping.

This is the third appropriation bill introduced, the first being the general appropriation bill proposed to run the government for the coming two years, and the second being the loan fund act which Shingle introduced last Saturday. Both bills are already in the committee on ways and means, and the first especially will be given consideration tonight at the meeting which the chairman has called.

With the exception of the prison and harbor items already mentioned, all of the items listed in the bill submitted this afternoon are recapitulations of old appropriations under the loan fund act.

One of the new features which the bill proposes is to require that the auditor of the territory shall pay to the various county treasurers cash balances, if any, upon the completion of different projects.

Though being retrospective the bill is still of interest to a large extent in that it shows what amounts have been expended or various branches of government in loan fund work during the years since 1911, when the present act went into effect.

For work already completed or almost completed through contracts now in force the sums are as follows: General improvements for Honolulu water and sewer works, \$619,105.91; wharf and harbor improvements, \$1,364,526.82; new buildings, additions and other improvements, \$40,270.08; belt roads and bridges, \$600,000; city and county improvements, \$265,841.27; school buildings and equipments, \$273,242.90; county buildings, \$87,448.77. This makes a total of money already spent of \$4,547,433.75.

NEW TORPEDO GUIDES
SELF IN ATTACKING BOAT
WILLISTON, N. D.—A self-guiding torpedo, based on magnetic control, against which enemy would have little chance for defense, has been invented by Charles J. Field of this city, a grandson of Cyrus W. Field, who laid the first transatlantic cable. Mr. Field said his invention has been turned over to the United States government. Recent official government tests, Mr. Field said, credited the device with seven hits out of eight attempted, whereas the ordinary torpedo has a much smaller average.

Search has been started in the Mojave desert for four miners who entered the desert Nov. 23 last and have not been heard from since.

The British War Office issued a hurry call for 1,000 young women to enlist as cooks and waitresses for duty with various units in the army.

WEDNESDAY, MARCH 14, 1917.

HILO NEEDS MORE WHARF-ROOM.

Hilo needs more wharf-room, beyond question. The subject of new Hilo wharves has become involved with the subject of the safety of the Hilo wharf. They have little or nothing in common and no matter what the investigating committee reports as to the safety of Kubio wharf, the fact will remain that to take care of the growing commerce of that port, more berthing space and cargo facilities are needed.

Superintendent of Public Works Forbes favors new wharves for Hilo and legislators from the Big Island naturally will approve the necessary appropriations. It is to be hoped the legislature as a whole will see that the Crescent City is adequately cared for. It will be good business for all the territory.

IN LEAGUE WITH THE SUN.

(From Daily Financial America)

What is "daylight saving" and what are the arguments in favor of it?

Daylight saving is the adjustment of the time daily devoted to labor and that devoted to recreation to those portions of the day in which the former may find itself most efficient and the latter the most enjoyable and beneficial.

To effect this adjustment, it is considered necessary to set the clock ahead during that half of the year in which the daylight period lasts the longer. Obviously, this tinkering with the clock is little other than a bowing to tradition and ingrained custom. The plan for daylight saving would work just as well if the working public could adapt itself promptly to getting to its various labors at an earlier hour, knowing that by just so much earlier would the closing whistle blow.

But the psychological element must be catered to in daylight saving. Long accustomed to going by the clock, and easier to adjust the clock to our habits than to adjust ourselves to new hours for going to and from our work.

Daylight saving has been tried in this country—in the cities of Cleveland and Detroit. The clock was moved forward one hour by the simple process of shifting from central to eastern time. Mr. Robert Garland, president of the chamber of commerce of Pittsburg and chairman of the special committee on daylight saving of the chamber of commerce of the United States, made special inquiry as to the success of daylight saving in these cities. All classes of their populations were found to be largely in favor of it on the basis of their experience with it.

When the matter of daylight saving was brought up before the chamber of commerce of Pittsburg, the three thousand businessmen comprising its membership were unanimously in favor of adoption of the plan.

The United States chamber of commerce, at its recent annual convention, recommended that action be taken by Congress to authorize a change in time in the proper seasons in order to effect daylight saving. This recommendation by the national chamber expresses the countrywide sentiment. Commercial organizations and civic bodies of most of the large American cities and of many smaller communities are supporting the movement to have the clock turned one hour forward by national legislative enactment.

No effective arguments against the plan have as yet been developed. Opposition has come, as was to be expected, from some scientists, astronomers principally, who declare the thing deceptive, dishonest and wrong, so far as setting the clock ahead is concerned.

This opposition amounts to quibbling. If daylight saving is worth while, the surest and most practical way of making the plan effective is the one to be followed.

Daylight saving is undoubtedly to become permanent practice abroad. It is likely to be adopted in this country, soon or late. Its adoption will make for economy, efficiency and health.

BANZAI TO THE AMERICANS.

(From the Independent Review—(Jap. News))

The Honolulu Americans are to be congratulated for their remarkable achievements in carrying out the 1917 Mid-Pacific Carnival, in which it was amply exemplified that the American people are a genius in organizing ability cooperating with other nationalities or races, irrespective of creeds or colors or politics.

We, the Japanese residents, are heartily glad that the Carnival for this year has been the most successful one which we had ever seen; that the Americans have been so broad minded and open hearted that they invited us to join their big memorial national event and have given us a golden chance to show that the Honolulu Japanese are not less loyal to the community spirit and still more they are not less patriotic than the American citizens to the land of liberty, under which they enjoy an honorable protection.

We accord full credit to the directors of the Carnival for the success of the 1917 Mid-Pacific Carnival, and we hope for another success for the 1918 Carnival.

Strategists have not yet figured out how the fall of Bagdad is going to affect the price of Turkish rugs.

COMMERCIALIZED VICE AND PUBLIC VIGILANCE.

(From the Outlook)

It is significant that three organizations, all engaged in combating commercialized vice, in New York City, almost simultaneously have reported a noteworthy decrease in the extent of one form of such vice—that is, the exploiting of women. These three organizations are the committee of fourteen, the society for the prevention of crime and the bureau of social hygiene.

It seems evident that the investigation of the so-called "vice ring" which followed the exposures brought by the murder of the gambler, Herman Rosenthal, by Police-Lieutenant Becker and four gunmen was the beginning of a campaign which has steadily decreased the power of the promoters of commercialized prostitution. Says the report of the bureau of social hygiene: "Vice still exists; but its amount has been greatly reduced, and the damage caused has been immensely lessened. In 1912 prostitution was open, organized, aggressive and prosperous; in 1916 it is furtive, disorganized, precarious, unsuccessful. This improvement is shown in the statistics. . . . but as a matter of fact the real improvement is far greater than the statistics show."

The report of the committee of fourteen contains several striking findings. For instance, it is said: "Most amazing perhaps to the outside world has been the cooperation of those engaged in the liquor trade, and particularly of the brewers, . . . in the effort to improve conditions in saloons and hotels." In the second place, the committee feels that it has exploded the theory that the great department stores of the city are "breeding grounds for prostitution," and reports that it has had great assistance from some of the department stores in investigating this matter. Another improvement is the reorganization of the courts and the increased cooperation of the courts with one another, with the police, and with the district attorneys in handling prostitution. The committee has also found the New York City police to be increasingly helpful, but regrets that it cannot say the same thing of the state excise department.

All three of these organizations whose reports we have quoted from emphasizing the importance of unremitting vigilance on the part of the public. They attribute much of their success in the elimination of commercialized vice to the support of the public. It is largely as a result of this widespread determination to suppress a hideous evil that some of the leaders of the "vice ring" have been led to remark: "We have weathered all reforms from the Lexow investigation and the Low administration down to the one in power, and the reformers always got tired and quit. But this one still keeps up after three years. We cannot understand it."

PARTNERSHIP WITH VICE?

What American city is traveling in the direction of recognizing and legalizing vice through the establishment and supervision of a "redlight district?" The question is asked directly of those legislators reported favoring this course for Honolulu.

Is there one city now moving along this line? Name it.

Does Honolulu choose to enter deliberately and formally into partnership with a shameful vice, with a horrible traffic?

Is there any legislator who seriously proposes to bind the capital city to a bargain with prostitutes and panders?

It is too bad the plans for a city golf links have been dropped. Interest in the "royal and ancient game" is growing here with remarkable rapidity and golf is a sport ideally suited to Hawaii's climate and the needs of busy men and women for outdoor recreation. The Country Club links, even though the club's doors are unusually wide open for membership, are already taxed by regulars and the very large number of tourists who come here, and the course at Moanalua is beyond the reach of the majority of people of moderate means because of its distance from the residence sections of the city. Some day Honolulu will establish an 18-hole municipal course but this out of the question for the city now. There are too many greater needs for the money.

"It was not so nominated in the bond," said Shylock, according to the version of the famous trial as given by William Shakespeare, the noted court-reporter. Shylock ought to be around these parts now to scrutinize the papers in which it is agreed that the German ships cannot be blown up for less than \$500,000.

Twice within a few days Norwegian steamers carrying food supplies for suffering Belgium have been sunk by German submarines. This is the acme in a program of calculated brutality which indicates with what desperate disregard Germany is proceeding headlong on her way to the inevitable maelstrom.

Von Bernstorff says that he always acted correctly, hence his part in the German plot must have been perfectly proper. This statement would cause amazement were not the mental processes of German officialdom fairly well understood now in every country but Germany.

HERE, AMERICAN CITIZENS, IS NATIONAL ANTHEM, FLAG SALUTE

Here is information on the national anthem and the salute to the American flag that every American ought to read.

How many know of recent changes in army regulations on these points? They are drawn attention to in a memorandum which Capt. Alfred J. Booth, commandant of the Kamehameha school cadets, has just issued to his command.

Incidentally, the recent changes are said for the first time to embody a clear-cut recognition of "The Star-Spangled Banner" as the national anthem. Many people believe "America" is the national anthem.

Here is the memorandum: "The following information based upon recent changes in army regulations is published for the information of all concerned:

"The observance of these customs is required by law of all persons in the military service of the United States, and their observance generally by all citizens would be visible signs of real patriotism and love of our country.

"1. The composition consisting of the words and music known as 'The Star-Spangled Banner' is designated the national anthem of the United States of America.

"Provisions in army regulations or in orders issued under the authority of the war department requiring the playing of the national anthem at any time or place shall be taken to mean 'The Star-Spangled Banner' to the exclusion of all other tunes or musical compositions popularly known as national airs.

"2. Whenever the national anthem is played at any place where persons belonging to the military service are present, all officers and enlisted men

not in formation shall stand at attention facing the music, except at retreat (lowering the flag), when they shall face toward the flag.

"If in uniform, covered or uncovered, they shall salute at the first note of the anthem, retaining the position of salute until the last note of the anthem. If in civilian clothing uncovered, the same mark of respect is shown, if in civilian clothing covered they shall uncover at the first note of the anthem, holding the head-dress opposite the left shoulder and so remain until the last note of the anthem, except that in inclement weather the head-dress may be slightly raised.

"The same rules apply when 'to the color' or 'to the standard' is sounded, as when the national anthem is played.

"3. When played by a band in the military service the national anthem shall be played through without repetition of any part not required to be repeated to make it complete.

"The same marks of respect as are here prescribed for observance during the national anthem of the United States shall be shown toward the national anthem of any other country when played upon official occasions.

"The playing of the national anthem of any country as part of a medley is prohibited.

The Flag

"In passing the national colors or flag, or the flag being carried past in parade, all in uniform covered or uncovered and all in civilian clothing uncovered will salute, in civilian clothing covered, uncover and stand at attention holding the head-dress opposite the left shoulder with the right hand."

"ALFRED J. BOOTH, Captain of Infantry, U. S. Army, Commandant of Cadets."

Letters OF TIMELY TOPICS

(The Star-Bulletin invites free and frank discussion upon subjects of timely interest by letters in this column, but neither assumes responsibility for the utterances of the writers nor necessarily indorses the views they express. No attention will be paid to anonymous communications, but names of writers will be held confidential if such request is made, unless the tenor of the letter is such that the views in fairness should be expressed over the signatures of those wishing to voice them.

Contributors to this column are requested to typewrite communications when possible, to use but one side of the sheet and to make their letters brief. The Star-Bulletin cannot undertake to publish long letters nor return unsolicited communications or manuscripts.

WHO GETS THE APPLE OF PARISE?

Honolulu, Mar. 14, 1917.

Editor Honolulu Star-Bulletin.

Sir: "How doth the little German plot improve each shining hour; mit scheme and Kultur, 'me und Gott' would lumb the Entente-power."

This is a clipping from your last Friday's editorial. It is insignificant in size but it contains the serum which has the power to distort and to poison the minds and faith of those who are not fortunate enough to know the world and her peoples at large.

This "me and Gott" by itself reveals the corruptness of a man's faculty to judge correctly, "not to speak of your 'mit scheme and Kultur.'" However, let me give you below one of my own darts—and let brighter minds judge which of the two, your rhyme or mine, deserves the apple of Parise.

At any rate, don't forget that 60 different nationalities have been pricked to take up arms against the Germans as Horatio Bottomley calls the Germans, and also remember that pugnacious little-tattle is the custom of the good old-fashioned washerwoman and never has won a battle in life.

Cultured Paganism

Any creed and any color,
All were paid to kill and holler
(What an infamy)
"Down with Germany."

But hark. There is a God above us,
He hears the Teuton's battle cry,
To end is allied hogus-bogus,
It's the awakening—God and I.

With Teutonic (due tonic) greetings,
unadulterated and without hyphen, I am, sir,
Yours candidly,
RICH LEIDIGER.

WHY WAIT?

Editor Honolulu Star-Bulletin.

Sir: Are we waiting to see what the eleventh hour will bring forth regarding the kind or brand of charter that will be handed to Honolulu? Are the businessmen of Honolulu, and the

civic organizations, yes, and the unattached citizen, alive to the peril that faces this community if the machine-made charter carries?

If this city is to be saved from an irreparable disaster it will take something more tangible than street corner conferences; something more effective than meetings. It will take vigorous and immediate action on the part of this city's citizenry. Let every voter of this city, who has the best interests of Honolulu at heart, and not led by the nose, take up this charter issue as his own personal fight. Let there be an expression of public opinion so emphatic and clear-cut that the schemes of any foe to progress must be effectively exposed and thwarted.

Every citizen, every locality, is or should be vitally interested in hastening the day when Honolulu shall be provided with a charter adequate to a city that is alive and dares to progress.

Come to the fore with your argument on the proper vehicle for the growth and expansion of your city. For a charter that is at once the main-spring of civic pride and the "open sesame" of growth and prosperity. The time to act is NOW.

SOCIETY

WHEN the picturesque kingdom of Hawaii succumbed to the law of destiny in 1957, when the reigning queen was deposed and a republic set up, and five years later when the republic became a territory of the United States of America, the romance of the old-time government disappeared with the furling of the beautiful Hawaiian flag. But the old, moonlit nights still remain; the same incomparable climate still enchants, and the tinkle and the strum of the ukulele and guitar are heard beneath the coconut palms as the native Hawaiians sob their ear-haunting melodies, writes a special correspondent of the Christian Science Monitor from Honolulu.

No longer is the old palace filled with diplomats of foreign stations; distinguished generals, admirals, writers and playboys are no longer received in the old throne room by a Hawaiian king and queen. Of all the old regime, there still remains only the deposed queen, Liliuokalani, living a still eventful life in Washington, the home of her husband, the prince consort; a home filled with relics of the days of royalty; reminders of the days when King Kalakaua was the monarch, and she a queen herself, during a brief reign of two years.

Today, however, the queen is honored in Washington place and elsewhere as if she sat upon the throne of old Hawaii. On Hawaiian holidays, on her birthday and many other occasions, she receives in semiretreat; the guests are ushered into her drawing room by the same officers who officiated when she was in the palace; the introductions are made by the same courteous gentleman who officiated as chamberlain during her reign; her attendants are the same women who attended her in the brilliant days of the monarchy. In the drawing room are seen the old, silken royal standards of Hawaii. In the parlors of guests are the highest federal, territorial and city officials; there are tourists, generals and admirals, statesmen and writers. Social life in old Hawaii still centers in Washington place and all delight in honoring the beloved queen. The people of Hawaii who overturned the monarchy still give sincere homage to this woman.

Impress of the Monarchy
That is one side of the social activities in Hawaii. The monarchy made its impress upon the people and their customs in the past, and many of these customs of habit and procedure have not yet been overcome, for the etiquette of the court of King Kalakaua and Queen Liliuokalani. The levees, at which presentations were made, were based in form and style upon those given in Buckingham palace.

With the change in the government and the setting up of a republic, the president of the republic, Sanford Dole, former United States judge, and Mrs. Dole became the arbiters of official social life in Hawaii. Mrs. Dole was the social hostess of Hawaii; around them were the descendants of the early missionaries, New Englanders mostly, whose culture, educational and religious training have brought Hawaii to its high state of civilization in the last 100 years.

There are as many beautiful gowns seen in Hawaii as in the cities of the mainland. In former days, when Hawaii was an independent country, silks and satins and the finer fabrics were easier to obtain than now. In the old days the opera house would be filled with beautifully gowned women, and men always wore conventional evening clothes. The formal affairs were and are characterized by such toilets as are seen in London, Paris and Berlin.

The army now forms a large part of the population of Honolulu. Its uniforms are seen at all formal affairs; in fact, the companies that assemble in Honolulu are often far more brilliant than are to be met in mainland cities. The social code of Honolulu is strict, and formality demands a regard for the rules that have been found necessary for the common good of society everywhere. The city of

NOW FREE FROM PAIN

Woman Cured by Lydia E. Pinkham's Vegetable Compound after Three Years Suffering.

Buffalo, N. Y.—"I am the mother of four children, and have nearly three years ago suffered from a female trouble with pains in my back and side and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZELINSKA, 224 Wolfe Ave., Buffalo, N. Y.

Women who recover their health, naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends. If you need a medicine for women's ailments, try Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

Honolulu is divided into social districts, all of the women of the same neighborhood receiving on the same day.

Stranger Not Held Aloof
The stranger must needs yield references to entitle him to entry into the conservative circle of social Honolulu. The stranger, however, is not held aloof. Every opportunity is afforded, whenever possible, for the stranger to mingle on equal terms with the most distinguished of the social circles. The outdoor life favors such mingling—the life around the hotels, the sea beaches, the homes with their wide-open porches or "lanais," as the islanders term them; the town clubs and country clubs, the army posts, the varied forms of public amusement. All these tend to bring the stranger into the midst of the social life of the capital.

There is the "smart set;" there is the conservative set; there is the royal set; there are many social circles in Honolulu. Among the most distinguished are the Princess Kawananakoa, a beautiful part-Hawaiian woman of culture and brilliant accomplishments, and Prince and Princess Kalaianaoie (Prince Cupid, for short, they say), whose delightful old villa at Waikiki is the scene of many and wonderful parties. Prince Kalaianaoie is Hawaii's delegate to Congress.

Golf and polo are played throughout the islands. Tennis courts abound everywhere, even at the remote villas of the sugar planters far away from town. The motor car is everywhere, even going now to the very edge of the crater of Kilauea, on the island of Hawaii. Baseball is played the year round. At the famous Honolulu Country Club in Nuuanu valley, just outside of Honolulu, is a splendid 18-hole golf course.

Isolated as Honolulu may be geographically, its society otherwise is in close touch with the outside world, and is in no sense insular. It is ready to do its part, with credit to the distinguished strangers whom it may receive, and its representatives are at home in any land where soever business or pleasure may take them.

CROCKERS HOSTS AT LARGEST DINNER OF MANY ATTENDANT ON MARDI GRAS

SAN FRANCISCO.—Among the many attendants on the Mardi Gras ball that given by Mr. and Mrs. Charles Templeton Crocker at the St. Francis hotel, was the largest and most elaborate. More than 200 guests assembled at their invitation in the Italian room, which was handsomely decorated in a way that was as beautiful as it was novel.

The guests were seated at three long tables, the hosts presiding over the center one. Cloth of gold covered the board, gold tissue woven with blue having marked the table at one side and the same material woven with pink that on the other. Azaleas, hyacinths, chinerosea, roses and rhododendrons were chosen for the floral arrangement, these blooms having been held in exquisite glass vases and urns of Italian workmanship; and the candelabra which also ornamented the tables were of the high, graceful shapes of carved wood that are typical of that country. Slender cypresses standing against the walls and masses of vivid-toned azaleas served to decorate the rest of the room, the whole as perfect an effect as one could readily imagine.

Over this feast Mrs. Crocker presided in the garb of a gold Siamese idol. Not content with allowing her gown and headdress to carry out the image, this charming young matron had even her face and hands glided, the latter tipped with long spikes of gold that represented the Siamese idea of beauty in long fingers. The costume was probably the most remarkable seen at the ball.—San Francisco Chronicle.

GENERAL FUNSTON'S COURTSHIP
The death of Maj. Gen. Funston has cast a gloom over civilians as well as army circles here, where the Funstons are so well known. Mrs. Funston spent her girlhood in Oakland, and her courtship and marriage to Funston was the most romantic of the many romances which marked the embarkment of the troops from this port for the islands during our "late unpleasantness" with Spain.

The intrepid young soldier was invited to a week-end party at the Belvedere home of that gallant host who used to hoist a flag to let his friends know when he was at home. Ten minutes after his arrival, the valiant soldier had made up his mind to marry one of the young ladies in the house-party. With true military discipline he controlled his ardor, and did not impart the news to her until their acquaintance was at least an hour old. He told her with precision and conviction at intervals thereafter during the rest of the week-end, and accompanied her to Oakland to inform her parents of his intentions.

Under the stress of such wooing the girl and her parents both capitulated, and they were married before he departed for the islands, the courtship and marriage having been expedited within a week. Mrs. Funston spent the first years of her married life in the Philippines, but came back here for frequent visits with her family of children, and during Gen. Funston's subsequent posts. They have always managed to vacation here, so that the old ties have never been broken, and there are hosts of friends here to mourn his untimely death with her.—San Francisco News Letter.

CIRCLE MEETING
A union gathering of all the neighborhood sewing circles connected with the Women's Society of Central Union church will be held at 3 p. m. Thursday afternoon, March 15, at the Parish House and all members and any tourists interested are urged to be present. Each circle will bring its own work and light refreshments will be served during the afternoon.—An important

phase of the year's work is to be discussed so it is especially important that all members of the circles be present. The ladies who were to have acted as hostesses for the March circles have all consented to take the April meetings instead.

THE BURDEN OF MARDI GRAS QUEENSHIP

The committee in charge of the annual Mardi Gras ball is already at work subconsciously on the next event. The women carry the burden through the year, for it is not the sort of thing which can be tossed off without any preliminary thought. While the ball was in full swing, a group of them, willy-nilly, found themselves discussing the possibilities for the queen of next year's pageant.

It is not an easy matter to prevail upon a desirable person to take up the scepter for the night. Of course, the less desirable the person, the more eager she always is for such honor. But somehow the ones who square up to the exactions in pulchritude and position always have to be coaxed along. Fortunately, the smart set carries excess baggage in the matter of beauty, so there is a wide range and variety of choice still to be had in spite of the number who have already been called to the throne. But it is a very expensive business, this queenship affair, and only those who never pull at both ends to make appearances meet could consider it for a moment.—San Francisco News-Letter.

MR. AND MRS. F. A. NITCHLEY ENTERTAIN

Mr. and Mrs. Sherwood Lowrey were the guests of honor at a dinner on Monday evening at the Pleasanton given by Mr. and Mrs. F. A. Nitchley. The dance after dinner was the diversion for the evening.

ENGAGEMENT OF SOCIETY GIRL INFORMALLY ANNOUNCED

The engagement of Miss Nora Swamy and Mr. George Bennett has been informally announced. This announcement has given a great pleasure to the friends of the two young people.

MR. AND MRS. SAMUEL A. WALKER'S DINNER

Mr. and Mrs. Samuel A. Walker entertained at the Pleasanton Hotel on Monday evening. Covers were placed for 12 guests. Dancing rounded out a jolly evening.

A DINNER AT THE PLEASANTON

Mr. and Mrs. A. S. Hompe and Miss Lorraine Hompe had a dinner guests on Monday evening at the Pleasanton. Mrs. Augustus E. Murphy, Miss Helen Gay Pratt and Miss Thelma K. Murphy.

COL. WILLIAM WEIGEL, A DINNER HOST

Col. William Weigel entertained at the Pleasanton Hotel on Monday evening, honoring Mrs. McGuade and Mrs. Ed Madden.

COUPLE BACK FROM HONEYMOON

Mr. and Mrs. Corbett Moody (Ruth Zelle), whose marriage was a quiet event of February 8, returned yesterday on the Wilhelmina from Honolulu, where they spent their honeymoon.

Mr. and Mrs. Moody have rented for the summer the Burlingame home of Mr. and Mrs. H. McDonald Spencer, who will come up to town for the season and be at one of the local hotels.

Mr. and Mrs. Moody will take possession of the Spencer home tomorrow. Although the young couple will see much of their chums, they will not do any entertaining on a formal scale on account of the recent death of the bride's grandmother, Mrs. Henrietta Zelle.—San Francisco Examiner.

A wee mite of a girl has arrived at the home of her parents, Capt. and Mrs. Charles Watson, Puunui. A coincidence happened for the new guest arrived on her brother's birthday. Mrs. Watson's parents, Mr. and Mrs. Lee Charles Miller, arrived here last week from Salt Lake City. They are anglers of note and a little later go to Maui for big game fishing.

Miss Edith Gibb was the hostess at a dinner-dance given in honor of her friend and house-guest, Miss Lauretta Boyd, a charming society belle of Sacramento. Covers were laid for 18 at the table, which was very daintily decorated with sweet peas. The guests were Miss Lauretta Boyd, Miss Ruth Anderson, Miss Aileen Gibb, Miss Ruth Soper, Miss Eleanor Kennedy, Miss Ruth Richards, Mr. A. Budge, Mr. Haywood, Mr. Stanley Kennedy, Mr. Robert Steever, Mr. Will Warren, Mr. Douglas Young, Mr. and Mrs. Lester Petrie and Mr. and Mrs. James Gibb.

Mrs. John Wood Stewart, president of the Needlework Guild of America, which has a membership of 300,000, will give an address on Red Cross work at the headquarters of the Hawaiian Allied War Relief Committee at the corner of Beretania and Miller streets, on Thursday at 10 a. m. Anyone interested is cordially invited.

News was received yesterday by Mrs. Doris E. Paris of the serious illness of her daughter, Katherine, who is attending Bush Conservatory in Chicago. Mrs. Paris is receiving the sympathy of her host of friends in this city, who hope to hear of Miss Katherine's early recovery.

Mr. and Mrs. E. Bonheim and Mr. and Mrs. Henry Cooper, San Francisco society folks, came in on the Wilhelmina for their first visit to Hawaii.

Miss Elsie Schilling, whose father is the head of the famous Schilling Tea, Coffee and Spice Company, is in Honolulu to enjoy a few weeks.

Mrs. Nora Sturgeon was a luncheon hostess today, honoring Mrs. Derwent Kennedy.

Mrs. George Angus was a luncheon hostess today.

Mr. Furr W. Freer of California came on the Matsonia to join Mrs. Freer, who, with Miss Mary Freer, Mrs. Bland and Mrs. Huniston have been wintering in Honolulu.

Mrs. Vincent Genoves, who underwent an operation at the Beretania avenue sanitarium last week, is doing nicely, a fact that is pleasing to her large circle of friends.

Mrs. M. Mitchell, the wife of the American consul at Apia, Samoa, was an inbound passenger on the Sonoma. Mrs. Mitchell will remain in Honolulu a short time.

Mr. and Mrs. Samuel K. Ridge, society folk of Los Angeles, are here for a vacation and to enjoy the many beauties Hawaii has to offer.

Mrs. T. B. Sinclair of Oakland is here the guest of her daughter and son-in-law, Mr. and Mrs. Bert Gibb of Aiea.

Mr. and Mrs. James H. Castle were home-coming travelers on the Matsonia, after four months on the mainland.

Mrs. Lester Petrie was a tea hostess on Tuesday afternoon, honoring Miss Boyd of California.

Mrs. Julius Unger, after a visit to California, was a Matsonia passenger.

Mr. and Mrs. W. K. Leeds and Mrs. Harry Turner are here from Los Angeles and with them is a party of Los Angeles society guests, Miss G. Coulter, Miss A. Elliott and Miss G. Hubbard. They are going to the Volcano.

Mr. and Mrs. William Carden are very happy receiving the congratulations of their many friends, for they are the proud possessors of a daughter, who has been named Florence.

Mrs. Magruder Gordon Maury is entertaining this afternoon for Mrs. Elizabeth M. Gilmore (Dorothy Dix), who is a cousin of Mr. Maury's.

Mr. and Mrs. Samuel K. Ridge, society folk of Los Angeles, are here for a vacation and to enjoy the many beauties Hawaii has to offer.

Mrs. T. B. Sinclair of Oakland is here the guest of her daughter and son-in-law, Mr. and Mrs. Bert Gibb of Aiea.

Mr. and Mrs. James H. Castle were home-coming travelers on the Matsonia, after four months on the mainland.

Mrs. Lester Petrie was a tea hostess on Tuesday afternoon, honoring Miss Boyd of California.

Mrs. Julius Unger, after a visit to California, was a Matsonia passenger.

'LOAD' IN MAN BUT NOT IN GUN

Too much sake in a bewildering mixture of cheap gin and strong whiskey was the direct cause of a little one-act comedy staged in the Alakea house on Alakea street yesterday evening...

Oda is an old Japanese who has lived at the Alakea house for years, doing odd jobs about the city and carrying himself generally in a pleasing and inoffensive manner.

This morning he was arraigned in police court on two charges, one of using threatening language and the other of going offensively armed.

RID STOMACH OF GASES, SOURNESS, AND INDIGESTION

"Pape's Diapepsin" Ends All Stomach Distress in Five Minutes

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes.

FINDS FLAW IN ABATEMENT LAW OF CALIFORNIA

Proposed Law for Hawaii Not Subject to Criticism That is Voiced in Court

Defects in the California abatement by injunction law have been found by the superior court sitting at San Francisco. The provision which the court finds to be unconstitutional, however, differs materially from the bill now pending in the territorial legislature.

The California abatement law provided that any citizen might on his or her own motion and in his or her own name begin proceedings for the abatement of a nuisance and for injunction restraining its continuance and asking that certain penalties, including the closing of the premises for a year, be enforced.

According to the newspaper accounts, the court holds that the California legislature exceeded its power when it gave to an individual citizen, acting in the capacity of a citizen alone, the right to maintain an action when a penalty is attached.

Part of the decision says: "From the earliest times, down to the date of these redlight abatement acts, an action to abate a house of ill-fame was a public action and not a private action, and must be maintained, if at all, by the state, unless the plaintiff pleaded some special injury. A private person might not claim as his cause of action that which was a cause of action in favor of the whole public. In the present case the plaintiff does not allege any special injury to himself."

After referring to the penalties which the plaintiff asks be imposed in abating the alleged nuisance, the court says:

"It will be noted that such a request constitutes no private relief, but does constitute public relief and private punishment. But public relief and private punishment are the subjects of prosecutions, and not otherwise. At common law there was no private remedy for anything but a private wrong. This rule has never been changed in California by statute or constitutional provision."

The proposed law which the territorial senate now has under consideration differs materially from the California law in that in the proposed law the individual citizen does not bring the action in abatement but calls the matter to the attention of the official who is to prosecute, the attorney-general or the city and county attorney.

FRANKLIN TURNS DOWN U. S. JOB

"Because he is doing better in private practise with the law firm of Thompson, Milverton & Cathcart, than he could do were he to accept the government offer, Attorney Cornell S. Franklin has declined an offer of the assistant U. S. district attorneyship made him by U. S. Attorney General Gregory; it was learned today.

A cable received by the U. S. district attorney's office Tuesday from Washington offered young Franklin the position. He conferred with his uncle, Collector of the Port Malcolm A. Franklin, who advised him not to accept but remain where he now is, with the law firm. The assistant district attorneyship pays \$2500 a year.

"I advised my nephew against accepting the assistant district attorneyship," said Collector Franklin this morning. The collector's nephew came to Honolulu shortly after Malcolm A. Franklin arrived here to become collector of customs. Cornell Franklin is a graduate of the literary and law departments of the University of Mississippi and has made excellent progress since his arrival in the territory. The young attorney has made many friends here.

TO SURVEY FIELD FOR NEW Y. M. C. A.

F. A. McCarl and W. A. Horn, army and navy representatives of the Y. M. C. A. International committee, arrived in Honolulu yesterday on the Wilhelmina. They have come here at the invitation of the Ad Club committee on army affairs, and while here will survey the field to ascertain whether or not it is practical to establish an army and navy Y. M. C. A. on Oahu.

McCarl is field secretary of the Pacific coast division and plans to remain here for some weeks. He is well known in Honolulu, having visited Hawaii a year ago with John S. Tichenor. Horn has been general secretary of the Navy Y. M. C. A. at Vallejo and from there went to the Mexican border where he had supervision over Y. M. C. A. units. The Ad Club committee consists of L. A. Thurston, chairman; James Wakefield, Emil Berndt, Capt. Norris Stayton and Gen. Samuel I. Johnson will survey the local field with the representatives of the association.

MONSARRAT WILL 'RUN OWN COURT'

"The sooner Mr. McDuffie realizes that he is not running this court the better," said Judge Monsarrat of the district court to a Star-Bulletin reporter this morning relative to a tiff between himself and the chief of detectives in a gambling case.

"I am the judge here; not he," the judge went on to say, "and as such I propose to run my own court. The detectives get very excited about a little gambling game when the defendants don't have enough money on their person to pay a fine. Why don't they go out and grab a big game where the stakes are high?"

The judge saw fit to discharge two youths this morning who were arrested for gambling with six others at the Ah Leong block yesterday afternoon and McDuffie took exception to his decision. Detectives testified that both discharged defendants were present at the game if not actively engaged in it and that constitutes an offense under the statute.

Both boys, C. Beckley and M. Pianos, however, presented excuses of happening to pass the game and won their freedom.

Whereupon McDuffie asked Prosecutor Sheldon to obtain if possible a suspended sentence for six others who were guilty, which he did.

"If the two boys were not guilty it would not be fair to fine or sentence the others," said McDuffie afterwards, "for one was in the game just as much as another."

McDuffie also stated that evidently the testimony of a police officer nowadays bore little weight with Judge Monsarrat.

"If I had known the true reason for the request by the prosecution for a suspended sentence, I would not have granted it," declares Judge Monsarrat. "I am sorry I did not, but I understood then that it was merely leniency because of their first offense."

The captain says there is little use for him to try to suppress gambling in the face of such a district court decision.

"There have been numerous complaints from the Ah Leong block," he says. "These boys have both been in the reform school but we can't take them to juvenile court for they are just over age. I believe they should suffer."

ARMY & NAVY

BETHLEHEM STEEL COMPANY READY TO MAKE BIG GUNS FOR DEFENSE

BETHLEHEM, Pa.—The United States, it is acknowledged, is not especially prepared for war, but it can do speedy work, for there has just been forged at the Bethlehem Steel Works the first 16-inch gun for the United States navy.

This is the second of these guns made in this country. The first was also made at Bethlehem, in the rough, finished at the Watervliet Arsenal, and, after having been mounted for some years as part of the New York coast defense, was removed to the Atlantic entrance to the Panama canal, where it is in good shape to perform effective service. Since then there have been remarkable improvements in the manufacture of big ordnance, as chiefly exemplified by the German 42-centimeter, commonly known as the "Big Bertha."

At any rate, things came to a pass quite recently when the United States government wanted 16-inch guns of quick-firing modern construction, and within 40 hours the first of these weapons had been pressed and hammered out at Bethlehem. An army gun of 16 inches is also wanted, and that will probably be forged at once. There is no difference in the diameter, but the 16-inch navy gun is 340 inches, or 70 feet long, while the 16-inch army howitzer, more nearly a duplicate of the German 42-centimeter weapon, is but 206 inches, or 25 feet long.

While the United States has started off at Bethlehem with one 16-inch gun for the navy and one 16-inch howitzer for the army, there are also in the process of manufacture at Bethlehem, and now being forged, 25 14-inch guns for the navy, soon to be mounted on the new dreadnaughts now nearing completion. The 14-inch guns are 720 inches, or 60 feet long. As to projectiles, those for the 16-inch navy gun will weigh approximately a ton and the weapon will have a range upward of 40,000 yards, or nearly 25 miles. These big guns are "helicopter" forged, a drill being sent through the length of the ingot in about eight hours. The hole is preserved and enlarged by the use of mandrels.

For the big 16-inch gun the contents of a long line of open-hearth furnaces were poured into enormous ladles on wheels and quickly moved into a casting pit, where an ingot was poured, 73 inches in diameter and more than 70 feet long. After the ends had been cut off and the hole had been drilled the mass was heated and put on "the

Bik Lad," the wonderful 25,000-ton forging press, and after a few heats the tube was ready for the lathe.

There was a time, only a few years ago, when the lathing and drilling appertaining to such a production took many months, but through the invention of rapid steel-working machinery the work is now done in as many days as it formerly took months. The time for the finishing of the 16 and 14-inch guns will depend on emergency. If there were enough orders, they could be made quite rapidly.

Probably the most wonderful part of the big guns is the mechanism moved by the firing apparatus, founded on Napoleon's artillery table, the basis of which is the old formula in the elementary arithmetics—60 seconds make one minute, 60 minutes make one degree, and 360 degrees make the circle—which means that a second of the circumference of the earth at the equator is only about 102 feet, so a boat 300 feet long is an easy target, and to hit a church or cathedral is like taking candy from a baby.

COLLEGE MEN OF WEST VOLUNTEER

SPOKANE, Wash., March 4.—More than a score of Spokane college men, members of the University Club, have signified their intention of applying for membership in the officers' reserve corps of the United States army. Applications will be sent at once to western headquarters of the army at San Francisco and classes will be held under the direction of an army officer to prepare for the examinations which are expected to be given soon at Fort George Wright in Spokane.

It is expected that the applicants who volunteer their services to act as army officers at once, as well as several others who are contemplating the same step, will be commissioned in time to take the fortnight's training for reserve officers which probably will be given next summer at American lake. In case of war, the reserve officers would be called to the colors, to take charge of volunteer units that would be called into existence. They would at least retain their rank, with the probability that they would be given higher commissions.

Schofield Notes

(Special Star-Bulletin Correspondence)

SCHOFIELD BARRACKS, March 14.—Chaplain Haywood L. Winter, 1st Infantry, who was the only officer for the 1st Infantry to arrive on the Sheridan, has reported at Schofield Barracks and has been assigned to the quarters recently vacated by Chaplain Aiken. Chaplain Winter comes direct from the boarder, having been on duty with the 18th Infantry at Douglas, Arizona.

Capt. Robert C. Foy, cavalry, detached officers' list, has been transferred to the 9th Field Artillery, and orders are expected directing him to report to his regiment at Schofield Barracks for duty. During his cadet days, Capt. Foy was a famous West Point football player.

Capt. Harry H. Blodgett, Medical Corps, whose resignation from the army has been accepted by the President, to take effect on March 20, left the post yesterday for Honolulu, where he will engage in civilian practice. Mrs. Blodgett and their son Harry accompanied the doctor. Capt. Blodgett graduated from the Rush Medical College of Chicago in 1907, and was an honor graduate of the Army Medical School in 1912. He entered the army as a first lieutenant of the Medical Reserve Corps in 1911, and was promoted to the Medical Corps in 1912. He was promoted to the grade of captain June 18, 1915.

Friends of 1st Lieut. George L. Converse, Jr., 4th Cavalry, will be pleased to hear that his name has been sent to the senate for confirmation as captain of cavalry to date from July 21, last. Capt. Converse is now on duty as assistant to the department ordnance officer in Honolulu.

Capt. Forest E. Overholser, 1st Infantry, who is now on duty with the 17th Infantry, at El Paso, Tex., has been granted a leave of absence of one month to take effect on the date that he is relieved by Capt. John R. Thomas, who left Honolulu on the last transport. Capt. Overholser will arrive in Honolulu on the May transport.

First Lieut. John R. Hauser, 9th Field Artillery, has been relieved from assignment to that regiment and placed on the detached officers' list.

Among the new arrivals on the transport Sheridan are Col. Lucius L. Durfee, 33d Infantry, who has reported at Schofield for duty and has been assigned to the quarters recently occupied by Col. Atkinson. Mrs. Durfee and family are with the colonel. First

ARMY ORDERS

The following transfers of enlisted men are ordered: Private, 1st Class, Ruby S. Bagley, Medical Department, as a private to Coast Artillery Corps, 1st Company, Fort De Russy; Private John M. Conannon, Company D, 3d Engineers, to Company M, 2d Infantry, Fort Shafter; Private Charles E. Ackerson, Troop G, 4th Cavalry, to Coast Artillery Corps, 4th Company, Fort Kamehameha.

Paragraph 2, Special Orders No. 42, these headquarters, current series, is amended so as to substitute the name of Private John J. Smart, Supply Company, 1st Field Artillery, for that of Private William B. Healy.

NATIONAL GUARD NOTES

Capt. J. P. Curtis, 2d Regiment, Hawaiian Infantry, N. G., is granted a leave of absence of two months from April 2, 1917.

The resignation of 1st Lieut. Robert von Tempky, 3d Regiment, Hawaiian Infantry, N. G., as an officer of the National Guard of the United States and of the Territory of Hawaii, is accepted.

The following named enlisted men will be honorably discharged to accept commission in the National Guard of the United States and of the Territory of Hawaii: Sergt. Worden W. Paris, 2d Hawaiian Infantry; Bat. Sergt.-Maj. Harry Kauhane, 1st Hawaiian Infantry.

Subject to future examination, in conformity with Sec. 75, National Defense Act of June 3, 1916, the following appointments in the National Guard of the United States and of the Territory of Hawaii are announced for the information and guidance of all concerned: Harry Kauhane, to be 2d Lieut. of inf., with rank from March 10, assigned to 1st Regiment, Hawaiian Infantry, N. G.; Worden W. Paris, to be 2d Lieut. of inf., with rank from March 10.

On the recommendation of the Chief Quartermaster, the following promotions in the Quartermaster Corps are announced: Private Arthur R. Brown, to be Sergt., 1st Class; Private Jasper L. Pittenger, to be Sergt., 1st Class; Private George D. McIntyre, to be Sergt.

The following named enlisted men are granted furloughs: Sergt. Eben S. Cushingham, Company A, 1st Hawaiian Infantry, one month and 15 days from March 10; Private Howard L. Grace, M. G. Co., 1st Hawaiian Infantry, two months and 20 days.

At the office of the HONOLULU STAR-BULLETIN 125 Merchant Street.

EASY TO DARKEN YOUR GRAY HAIR

Try this! Brush Sage Tea and Sulphur Compound through your hair, taking one strand at a time.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. For 50 cents you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger. This ready-to-use preparation is a delightful toilet requisite and not a medicine. It is not intended for the cure, mitigation or prevention of disease.—Adv.

WITH OUR VISITORS

Miss Edyth Gill will talk on "Obesity, Its Causes and Cure" at the Y. W. C. A. on Thursday at 12:45.

Among the many dinner parties at the Pleasanton hotel Monday night was the one of Mrs. Jehu and Mrs. Reinecke for Senator and Mrs. Charles F. Chillingworth and friends.

Mr. and Mrs. Harrison Teller left the Hawaiian hotel today for Maui to try their luck with the Hawaiian tuna. The Colorado couple are enthusiastic fishermen and have great hopes of landing something big here.

Mr. and Mrs. C. A. Brandenburg of San Francisco are recent arrivals here. They are at the Blaisdell hotel and came on the Great Northern with the expectation of staying longer than the one trip. Brandenburg is a well-known sporting goods dealer of Frisco.

Mrs. Seymour van Cleve is visiting her sister, Mrs. W. W. Hall, at their residence at 2447 Oahu avenue. Mrs. Hall, with Miss Charlotte Hall, have recently moved into their new home in Manoa. It is expected that Mrs. van Cleve, who is well known in the suffrage movement, will be a guest of the Halls for at least two months.

Fire destroyed the plant of the Standard Garment Company of Columbia, Pa., at a loss of \$100,000.

DANCING CLASSES

Learn the latest New York dances from MADAME LESTER, Honolulu's leading teacher: Tuesday evening, Club; Friday evening, Punahou Club; Saturday morning, Children's Class. Fancy and stage dancing, private lessons by appointment. Phone 1162, I. O. O. F. Hall. Res. 3675, The Romagosa.

Schofield Gets the News

Today's latest telegraphic and local news is communicated to the 6000 soldiers and their families at Schofield Barracks through the large circulation of the Star-Bulletin at Uncle Sam's largest post.

"The nobility of life is work. We live in a working world. The lazy and idle man does not count in the plan of campaign."—Prof. Blackie.

Honolulu Star-Bulletin

SPORTS, CLASSIFIED AND SHIPPING SECTION

HONOLULU, TERRITORY OF HAWAII, WEDNESDAY, MARCH 14, 1917.

WORK DONE BY AMERICAN AMBULANCE CORPS IS TOLD BY RETURNED MEMBER

Wealthy Pittsburger Now in Honolulu Gives Interesting Account of His Experiences While Giving Aid to Wounded at Front and in Paris, Where He Saw 18 Months of Service

While America stands on the brink of war, watching uncertainly the gory chaos of slain millions, a man comes to Honolulu telling that liberty's sponsor has really been in the European struggle from the first, not in the gruesome business of killing but in the humane endeavor of patching up the maimed and burying the slain.

C. M. Jennings, a wealthy oil man of Pittsburg, who is at the Moana Hotel with his mother, Mrs. J. G. Jennings; his sister and brother, Katherine and Richard, is fresh from France, where he drove an American ambulance for 18 months and his tale of American humanity behind the lines interspersed with little side-lights on the war has filled columns in Eastern metropolitan dailies since his return.

Some know but many do not that ambulance work for the French army is done voluntarily by American money and brain power. In this laudable undertaking Jennings received his introduction to the darkest side of war, the order of bloody stretchers, that he holds as invaluable, but he wouldn't do it again, now that he has finished.

Jennings was a driver for the American Ambulance Corps, practically donating his time to the cause and paying most of his expenses, as scores of wealthy American youths have done. Many more without the means to go to France and support themselves are sent and maintained by private subscription.

Former Reporter Here Going The visitor's explanation of how various colleges and organizations in the United States have inaugurated a fund for this purpose is of particular interest here to those who knew Bruce Hopper, who was a reporter on the Star-Bulletin last year. Hopper is now in Harvard and writes he is going to France for ambulance work in June.

The American Ambulance Corps is the largest of three such institutions organized by Americans. In its ranks are about 400 machines, all of which are Ford's excepting 31 Buicks, which started the good work at the very outbreak as a private donation from Jack McPhee of Philadelphia. The American Ambulance Corps has more cars than the other two combined and about 600 drivers and assistants, 500 of whom are Americans, are maintained by American subscriptions.

When the Germans were inventing a new submarine or the French making the greatest drive or the Russians enduring the severest hardships or some other army setting some kind of a fighting record the American ambulances in their seal behind the lines set a record of their own last September in transfer of wounded which may be a record.

In the 30-day period 32 men with 21 cars carried 4252 men to the hospitals. "It was a terrific strain," says Jennings, speaking with considerable pride of the accomplishment, "and for

six days we never left our machines, while waiting for the trains of wounded to come in we would catch an hour or two of sleep on the bloody stretchers vacated by some disabled soldier. No lights are allowed at night in Paris, so we had to pick our way about the streets. About the 20th of the month Capt. C. H. Kipling, in charge of the American ambulances, suddenly discovered that we might set a record and he urged us to meet every train and to keep going on high gear until the end of the month. We did, and won, but we were covered with lice, sick, sunken-eyed and in fact all in "when the month was up."

Enrolled in the French Army All ambulance drivers are enrolled as privates in the French army with pay of 5 cents a day in the 23d French Artillery. Most of the American boys turn this back into the general fund.

Like the French soldiers they have a vacation of eight days every four months.

Jennings was in Section O, which alternated with two weeks at the front and two weeks in Paris. It is here that many interesting little sidelights come in of which Jennings tells.

For instance, the Americans can get only two drinks a day—anything they want—if they are caught taking more they may get "jugged."

The French have not as much love for the Belgians as might be supposed, for the very simple reason that the whole Belgian army of about 40,000 men is now guarding Paris and has a lovely time doing it, loafing around stealing the sweaters of Frenchmen who are fighting at the front; Englishmen and Americans do not mix at all in Paris. There is one bar where an American seldom goes and another where an Englishman's life would hardly be safe with the Yankee habits; the Englishmen speak of the Americans as "The damn Yankees;" about every other house in Paris is a hospital; eggs are scarce; Americans have given up their own quarters and set at the police station that the wounded may be comfortable; fighting broke before a charge was made that good drink is 95 per cent whiskey and 5 per cent ether—it makes them fight like lions.

Jennings Says He Was Lucky The Jennings party has been in Honolulu about three weeks and will return on the Great Northern. At home the former ambulance man will solicit funds for the ambulance work but will not go back. He says the Frenchmen think the world of the Americans and the affection is mutual. He brought home a trunkful of war souvenirs which will be invaluable after the war, but he treasures highest a button he got from the uniform of a wounded German who died in his ambulance.

Many Americans have been decorated by the French government and all the men will be presented with a beautiful badge of honor after the war. Although Jennings attained the rank of corporal, when asked if he had been decorated he showed no signs of regret when he laughed and said: "No, I was lucky. You have to be wounded first."

LAND, NOT TREES, IN CONTROVERSY

A Resolution Introduced by Judge F. M. Hatch Giving the Rapid Transit Right to Relocate Its Tracks in Kapiolani Park and a Letter from George M. Collins, City and County Engineer, Informing the Board that unless the Ironwood Trees are at the Contractor's Disposal, the Board Will Have to Take Action Against the City as He Intended to Use Them for Firewood in Accordance with the Contract, Reopened the Question as to Whether the Trees Should be Destroyed to Make Room for the Tracks in the Center of Kapiolani Avenue and Although No Definite Action was Taken a New Point Brought up by Hatch Caused Considerable Discussion.

In introducing the resolution Hatch stated that it carried out his opinion that the board has full control of the park and can say where the tracks should go. "No other body, such as the utilities commission or the public works, has any authority in the matter and to make it clear I introduced the resolution," Hatch said.

In regard to that strip of land where the ironwood trees are standing I maintain that the board has no right to turn it into a roadway," Hatch continued. "The park was given to the board as a public trust and for that reason the legislature alone has the power to let us use the park land for a road. It makes no difference to me whether the trees stand or not but the land cannot be touched. The people here do not seem to have any idea what a trust is. The road commission has done just what the new idea, as proposed by the new charter, is supposed to do and done it better than he could but they have no right, as I see it, to use that strip."

Changes Location of Tracks Hatch's resolution changed the location of the tracks so that they would not destroy the corner at Park road and on that point the board was agreed, but the majority still believe the present plans should be carried out with a few modifications. Hatch also suggested that another concrete road could be constructed inside of the strip.

In reply A. M. Cristy, deputy city attorney, declared that the power over the park given the board allows them to build roads through the parks and therefore the strip of land could be used. He also pointed out that the board has no more right, being a property holder, to change the plans than has any private individual property owner.

It was finally agreed that the resolution pass first reading with the understanding that on the second reading it should be amended in regard to the curve at the tracks.

INSURANCE CODE GIVEN HEARING

Radical amendments to the proposed new insurance code for Hawaii, now before the legislature in the form of House Bill 92, may be made as the result of a hearing on the measure last night before the members of the judiciary committee of the house.

These amendments, as proposed last night, cover but one department of the proposed code, that relating to the question of fraternal organizations and societies and fraternal insurance.

A. D. Castro, an officer of the Lusitana Society, the big Portuguese benevolent organization, suggested that the sections of the code relating to fraternal insurance be stricken from the bill, and either be put into a separate bill or be considered, with a view to alteration, by a special committee.

"I do not believe," argued Castro, "that these sections cover what we really need here to regulate our affairs."

Territorial Treasurer C. J. McCarthy, who was instrumental in having the new code compiled, pointed out that, under these laws the territory can control certain societies and organizations from transacting shady proceedings whereby they finally get the people's money and the people get nothing in the end.

Chairman Lorrin Andrews suggested that Castro and Treasurer McCarthy confer sometime this week and take up together any amendments to or changes in the sections in question that Mr. Castro may have in mind.

McCarthy explained that the code has been pronounced satisfactory by all the men who have been connected with its compilation. Attorney Marshall B. Henshaw, representing the board of fire underwriters, said he was satisfied with the code. It was also stated that the board is satisfied with the code.

BRITISH FOOD CONTROLLER MAKES PUBLIC HIS PLANS FOR CONSERVING

Provides for Reduction of More Than One-half of Average Sugar Consumption

The long-expected announcement of the food controller in reference to limiting the use of food supplies was made public here today, says a letter to Facts About Sugar from London under date of February 27. The action taken is less sweeping than had been generally anticipated. Instead of adopting a plan of compulsory rationing Lord Devonport outlines a system of voluntary restriction and for the present confines that to three main articles of diet—bread, meat and sugar. Heads of families are urged to limit each member of their households to 4 pounds of bread, 2 1/2 pounds of meat and 3-4 pound of sugar a week.

As compared with the period preceding the war this plan provides for a reduction of more than one-half in the average consumption of sugar and is in line with plans previously announced for providing wholemeal sugar with approximately one-half the sugar supplies received by them during 1915. It is clearly indicated in the statement given out by Lord Devonport in making his announcement of the present plan that should the public fail to cooperate in carrying it out, or should shipping facilities be further restricted, a compulsory system of rationing as to all principal food products probably would be adopted.

The statement in part is as follows: Voluntary System Urged "The necessity for some curbing of the nation's food consumption is urgent. An amount sufficient for each individual requires in consequence, to be stated."

The quantity indicated as being sufficient has been arrived at on no hard and fast basis, but after full examination of the actual position of stocks immediately available and working out the adoption of and working out of an average rationing system will be possible to maintain a standard of living to meet not only the actual situation, but the necessities which have to be allowed for."

The main factors taken into reckoning are exigencies as affecting freight and transport, and the necessity to curtail the nation's normal consumption so as to adjust it to the needs of the situation. The urgency of the position allows of no delay in introducing the control of what is demanded of it. The public requires and desires to have the need explained to them, and only by whole-hearted cooperation on the part of all can the object in view be achieved.

"The three most important stages of daily consumption are bread, meat and sugar, and forethought for the sustenance of the population requires a decision as to whether compilation is necessary to ensure an equitable distribution and conservation of available supplies. Compulsory rationing to a fixed quantity per head involves a very elaborate machinery, which in itself absorbs labor and for that reason alone ought to be avoided unless absolutely necessary. Therefore, having carefully weighed the advantages and disadvantages I have come to the conclusion that a voluntary system is preferable until further experience is gained, and meanwhile to rely on the nation's instinct of self-discipline."

"The allowance indicated is based on the average weekly consumption of each of these commodities which should be permitted to each person. After consideration of available stocks and probable means of future supplies, the allowance requires that heads of families should endeavor to limit themselves to the weekly purchases for each person comprising the household of the following quantities per head per week:

"Bread—7 lb. (or its equivalent in flour, 3 lb. for bread making).
Meat—2 1/2 lb.
Sugar—3 lb.

Meanwhile, to meet the contingency that rationing may become necessary, the machinery for bringing such a system into operation is being organized, so that if and when required it may be ready. It is expected that a patriotic endeavor will be made by every one to limit consumption wherever possible to below the standard indicated and by so doing render rationing unnecessary."

OUTBREAK OF LABOR TROUBLES AT HEIGHT OF HARVEST SEASON WILL SERIOUSLY RETARD

SAN JUAN, Porto Rico, Feb. 18.—The critical strike situation is now absorbing the undivided attention of local sugar producers, to the exclusion of all other developments affecting the sugar industry, both of a local nature and those of world-wide importance.

The arrival of Santiago Iglesias, head of the federation of Porto Rico, on February 14, was, as had been predicted, the signal for the beginning of a general strike which the laborers in the sugar industry threatened to inaugurate unless their demands for an eight-hour day and a dollar a day wage scale was granted by the sugar companies.

Assuming Serious Proportions Up to this writing, or in less than two days, 1500 laborers have joined the strike movement in response to the orders issued by their leaders. Present indications point to a rapid spread of the strike and its ultimate magnitude seems very likely now to assume serious proportions. Coming at this time, at the very height of the harvesting season, and when all the mills are being driven to capacity to handle the estimated record-breaking crop, these acute and alarming labor troubles will unquestionably slow down production and if continued for any considerable period will eventually materially reduce the island's production for this year, now estimated at over the 500,000 ton mark.

Prior to the advent of the labor troubles last week the harvesting of cane was moving rapidly. Practically every mill in the island was under full operation. As the crop progresses, however, it is becoming more and more evident that the will not be the cane tonnage per acre that there was last year, but sugar men generally expect that with an increased sugar recovery and an increased acreage to harvest the total production will come up to the original estimates of more than 500,000 tons for the season.

It has been definitely learned that Guánica Centrale next year will not grind in Porto Rico cane produced on the La Ramona estate in Santo Domingo. This cane has been brought in Porto Rico ever since the estate commenced producing. With increased production in Santo Domingo, and with a stable government there assured by the United States, it is understood that a central will be built on the estate for the handling of the next crop. In the order for the machinery, it is said, has already been placed with the Honolulu Iron Works. Originally it was planned to move the Fortuna mill from Porto Rico to Santo Domingo to take care of the La Romana grindings, but this plan is said to have been definitely abandoned.

There is still talk of the erection of a small central near Caguas to be ready for the next crop.—R. Abov Benites, president of the Porto Rico Sugar Producers' Association, is behind the project, and it is altogether probable that if it is carried out one of the mills now on the island of Vieques, off the east coast of Porto Rico, will be transferred to Caguas.—Facts About Sugar.

TWO PROJECTS STARTED ON WAY

Two new projects improvement districts were started yesterday, Tuesday evening, by the board of supervisors and although it will not be able to see them completed during its term of office they will be carried to a point where the new board will have a flying start.

The most important one is the widening of the main side of Hotel street which for many years has been a narrow alleyway. M. P. Prosser, attorney for the C. Brewer estate, brought in an agreement signed by practically every property holder interested in the project in which they promise not to protest against the improvement. This assures the project going through without a hitch.

Prosser informed the board that the Brewer estate is willing to give the strip to be widened to the lot owned by Mrs. Smith, who owns 2 1/2 lots half what the lot on the opposite corner is valued at. The cost to the estate, he said, would be \$3,000. As a result of the agreement the engineering department was ordered to draw up for the board's approval preliminary plans and specifications.

The other project is Alawa street in the Punahoa district which 31 per cent of the property owners have asked the board to widen. The district is to extend from Wilcox street to the public park and the owners are to pay 100 per cent.

CITY OF PORTLAND MAKES COMPROMISE WITH LIBELLANT

The admiralty suit of over \$6000 brought by Carl Brynildsen, a cook on the schooner "City of Portland," against the owners of that ship on a charge of assault has been settled by a compromise of \$500 damages, \$35 for passage to San Francisco and \$294.62 as wages in arrears. Of the \$500 Judge Vaughan of the federal court awarded \$300 to be divided among the proctors, George A. Davis, George S. Curry and S. C. Huber.

ADJUTANTS WEST GIVEN FAREWELL

Speaking of the good work done in the California city by Adj. James C. West and his staff, West, who arrived in Honolulu Monday, on the Great Northern to take charge of No. 1 Corps of the Salvation Army in this city, the Salvation Army Morning Press of February 27 says:

NEW YORK, Feb. 27.—His wife, Adj. Mrs. Fannie West, and their daughter, Miss Lucia West, of the Salvation Army, are preparing to take their leave of Santa Barbara, where they have worked long, faithfully and successfully for the cause, and transfer their activities to Honolulu, where they will have charge of that division of the army.

The farewell will commence tonight at Salvation Army hall, 519 State street, when an old-time religious meeting will be held, with special music appropriate to the occasion.

Tomorrow there will be the usual Sunday services—holiness meeting at 11 a. m.; Sunday school and bible class, 2 p. m.; dedication of Baby Armstrong, 3 young people's meeting, 6, and the final farewell at the First Presbyterian church, on the hospitable invitation of the pastor, at 7:30.

The Wests have worked for the advancement of the Santa Barbara contingent of the Salvation Army for two years and four months. They have rebuilt the army hall and the barracks at the rear, established an employment bureau that has furnished work for many unemployed men and women, gathered and dispensed much clothing, bedding and other necessities to needy people, and a small army of hungry men, women and children and done much other good work that comes within the scope of the army's activities.

SPANISH CLASS WILL START AT "Y" MARCH 20

A class for the study of Spanish will begin at the Y. M. C. A. on March 20. The classes will be held each week on Tuesday and Friday evenings. The class will be conducted by Peter Bernal, who has had much experience in the teaching of the language. More than 25,000 Americans are expected to be called upon in the next ten years to go to South America for American firms, and all those who wish to begin their course are requested to be present on March 20.

The Boston Bar Association paid tribute to former Governor John D. Long, one of its founders.

KAILUA ROADWAY MAY BE SETTLED

After many years of wrangling the question of a right of way across the Kaneohe ranch from Waimanalo road to Kailua beach seems in a fair way to be settled.

The city and county attorney's office, which has been working on the case for several months, reported to the board of supervisors Tuesday evening that an agreement had been reached whereby if the makai or northerly end of Kailua road should be relocated to split the boundary between Kaneohe land and the land belonging to Nannie R. Rice, the Bishop estate would give 15 feet from the present road back of Kawilua beach lots to make this a full 30-foot road.

The board accepted the agreement and voted to take the matter up with the land commissioner.

HONOLULU MASONS PLAN GREAT JAUNT TO ISLAND OF HAWAII NEXT MONTH

Over a hundred Masons of the Scottish Rite degree and Shriners are planning an elaborate pilgrimage to the Big Island next month, the Shriners leaving Honolulu on the Mauna Loa-April 15 for Hilo and continuing their mystic rites at the very edge of Kilauea and the Scottish rite members going on the Mauna Kea with a number of initiates.

BOARD OF EQUALIZATION AT WORK ON 1917 TAXES

The board of equalization, composed of the county assessors of the four counties with the territorial treasurer, as chairman, met yesterday to regulate the taxes of the plantations. No definite decision was reached and it is expected that they will be at work all this week. The board is composed of C. J. McCarthy, chairman; C. T. Wilder, Oahu; J. K. Parry, Kauai; D. T. Shipman, Hawaii, and J. H. Kuneva, Maui.

JUDGE LARNACH WILL LECTURE AT Y. M. C. A.

A class in commercial law will start at the Y. M. C. A. this evening when Judge A. B. Larnach gives his first lecture of the course of ten talks on contracts, preparation of commercial papers, sales and agencies. The lectures will be held every Wednesday evening. A large number have already enrolled for the course.

ADDITIONAL TELEGRAPH NEWS

CUBAN REBELS ORDERED PUT TORCH TO CANEFIELDS

(Associated Press by Federal Wireless) HAVANA, Cuba, March 14.—The Cuban government yesterday issued orders which have been urged upon President Menocal for some time to put an end to the campaign of vilification that has been carried on in the United States by the rebel forces operating in New York City. A delegation has been named and ordered to start immediately to the American mainland to try to deal with that problem.

President Menocal also announced yesterday that he has suggested to the board of General Gomez, former president of the island and leader of the insurgents. Gomez has been fined one million pesos for sedition, and the president intends to collect it by seizing his estates.

NEW ENGLAND GOVERNORS PLEDGE SUPPORT IN CRISIS

(Associated Press by Federal Wireless) BOSTON, Mass., March 14.—The governors of the New England states met in conference here yesterday afternoon to discuss the international situation. The conference pledged the states that were represented to help the needs of the country should their help be asked. In a statement that was issued after the conference the governors said "the vital necessity now before the German fleet that forbids of adopt energetic measures and preparations on land and sea for what may come."

U. S. OFFICIALS WILL USE ARMED SHIP FOR TRAVEL

(Associated Press by Federal Wireless) WASHINGTON, D. C., March 14.—It was announced at the state department last night that in future American diplomats who have reason to make the trip to and from Europe will travel in American ships which have been thoroughly armed.

RUMORS OF RUPTURE IN AUSTRIAN CABINET

(Associated Press by Federal Wireless) AMSTERDAM, Holland, March 14.—Reports from Austria tell of a serious cabinet crisis which threatens to disrupt the country. There is a report that the Premier, Mr. Tiesler, will resign and that Count Tizla will succeed him and that Count Tizla will succeed Csernay.

GERARD ENTHUSIASTICALLY GREETED ON WAY TO CAPITAL

(Associated Press by Federal Wireless) WASHINGTON, D. C., March 14.—James Gerard, former American ambassador to Berlin, who is now on his way to Washington, passed through this city yesterday accompanied by many members of his party. He declined to make any statement regarding the situation in Germany, but said that he intends to persuade the American government to issue a statement as soon as possible after his arrival in Washington. Gerard greeted with patriotic demonstrations wherever his train stopped en route, and appeared to be charmed and slightly surprised with the reception that has been given to him.

CANADIANS SEIZE EUROPEAN MAIL ON U. S. OIL SHIP

(Associated Press by Federal Wireless) ST. LOUIS, Mo., March 14.—The Standard Oil tanker John Archbold, which arrived yesterday from the Norwegian port of Bergen via Halifax, reports that the Canadian port at the Canadian port all the European mail was seized and removed from the ship. It is said that this is the first American ship which has been denied the right to transport European mails to her port of destination in the United States.

NORWEGIAN GRAIN CARRIER SUNK BY TEUTON RAIDER

(Associated Press by Federal Wireless) LONDON, Eng., March 14.—The Norwegian steamer Lars Parsona, bound for Rotterdam, was sunk by a German submarine yesterday without warning. She was outside the port some when struck.

MIKADO DONATES BIG SUM FOR SCIENTIFIC LABORATORY

(Special Cable to Nippa Jiji) TOKYO, Japan, March 14.—A big and well equipped scientific laboratory will be established in Japan in the near future. As soon as the plan was announced the Emperor Yohmei granted a donation of one million yen. A number of millionaires have offered two million yen to help meet the expenses of establishing the laboratory.

GERMAN SUBMARINE REPORTED WRECKED ON DUTCH COAST

(Associated Press by Federal Wireless) LONDON, Eng., March 14.—According to reports from the Dutch coast, a German submarine was wrecked on the Dutch coast near Hellevorsdijk. No details have been sent as yet.

YOUNG PEOPLE WILL HEAR SPEAKERS OF PROMINENCE AT CONVENTION

The young people who make up the membership of the Young People's Christian Union, and who will meet in convention at M.H.S. School Saturday afternoon and evening, are delighted to announce that Bishop A. W. Leonard of San Francisco will speak at the opening session on "The Young People's Christian Union."

Over, not only a number of speakers, but a noted writer on the "Young People's Christian Union" will also be present. Bishop Leonard is a well known speaker and his address will be "The Young People's Christian Union."

Not only members of the union but all who are interested are cordially invited to attend the convention.

NO PROTESTS URBAN WIDENING OF HOTEL STREET PRESENTED

Without a single protest or objection against it, the public board of supervisors yesterday approved the widening of the main side of Hotel street which for many years has been a narrow alleyway. The project is to extend from Wilcox street to the public park and the owners are to pay 100 per cent.

THREATENS TO TURN WATER OFF AT KAILUA PARK IF WASTED

A report read by the Kailua trustees to increase the number of trees planted on the Kailua beach. The trustees are making a total increase in the number of trees planted on the beach from 100 to 200. The trustees are also planning to turn the water off at Kailua Park if it is wasted.

CALIFORNIA ARCHITECT BEFORE OUTDOOR CIRCLE LAUDS HAWAII BEAUTIES

At a regular meeting of the Outdoor Circle yesterday afternoon, C. C. Millgard, the San Francisco architect and artist, was the principal speaker. He declared that Hawaii's beauty is original and distinctive. His appeal was for the city to follow the plans of Charles Robinson, himself, to realize the most in civic activities.

SHARPSHOOTER'S RECORD WAS SEVEN GERMANS ALL IN ONE DAY'S SHOOTING

Sharpshooting in France with an average of three or four Germans a day and a record of seven was the thrilling occupation of E. Warren, a Canadian visitor who arrived in Honolulu on the Wilhelmus last night after being wounded and getting an honorable discharge from the Canadian government.

Warren was in San Francisco when the war started, went to Canada immediately, enlisted, trained and eventually got to the front. There he was made a sharpshooter, he was hit and barely escaped with his life one day when the Germans discovered his hidden position in a tree and literally trimmed every branch with machine gun fire in an unsuccessful effort to "get" him. He finally succeeded in escaping but it was his closest call.

BARBERS UNITED ON QUESTION OF SUNDAY SHAVES

Men of Shears and Razors Feel They Need One Whole Day for Rest

Baseball games are conducted and slaughter houses are kept open on Sunday. Why not barbers?

Editor Jesse Ululih, expounder of the foregoing sentiment, was the only backer of the now famous "Barber Shop Bill" at a public hearing on the measure last night before the Judiciary Committee of the house of representatives of which Lorrin Andrews is chairman.

Ululih said he used to work on the shavers and that on some nights the shavers finished their labors after the barber shops had closed, and consequently were unable to go uptown for a shave, shampoo, haircut, massage, singe or bath. He said he thought the barber shops ought to keep open until 10 o'clock Sunday mornings in order to accommodate these men.

But Ululih's balloon of argument was punctured by one of the barbers who asserted that probably only half a dozen out of 100 who are barbers would seek the comforts of a barber's chair after working hours, and that it was customary, he thought, for them to patronize the Japanese shops which he declared keep open at almost all hours.

Representative Joseph, father of the bill, said it was meant to apply only to the other islands. One of the barbers asserted that the Honolulu barbers would stick to the "good old law" which forbids them to shave and shear on Sunday, adding, however, that they had no objection to the measure being cut down to include islands other than Oahu.

Speakers for the barbers pointed out that the man who works 12 hours a day during the week and 15 hours on Saturday is entitled to his Sabbath.

"If this law goes through and the Japanese open their shops," one asserted, "then we will have to open also. We can not shut our doors in our customers' faces."

Attorney William T. Rawlins declared the bill should be tabled.

Present Law Satisfactory
The claim these men make as to their right to their Sundays should be considered," he told the committee. "We have gone along all right with the present law and there has been no complaining not even from the tourists."

One of the barbers made the point that a barber never gets a vacation, that if he takes one he does so at his own expense. It was pointed out further that if it were not for the extensive Oriental competition, the barbers would not object to the bill as, in that event, they would not be compelled to open their shops on Sunday unless they wanted to. But in the face of this competition, it was asserted, they will be compelled to open up if the bill passes.

As a result of the hearing it is evident that there is not a barber in Honolulu with the exception, perhaps, of the Japanese, that favors the bill. The Judiciary committee has taken the bill under consideration and probably will report on it this week.

FEET AREN'T ACHING OR TIRED NOW--"TIZ"

Use "Tiz" For Tender, Puffed-up, Burning, Calloused Feet and Corns

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "Tiz" and "Tiz" cures their feet right up. It keeps feet in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25-cent box of "Tiz" now from any druggist. Just think! a whole year's foot comfort for only 25 cents.—Adv.

Try Murine Eye Remedy

THEATRICAL OFFERINGS BLANCHE SWEET SEEN AT BEST

Blanche Sweet, favorite child of the Paramount Pictures, will close her current engagement at the Liberty in "The Storm," with the performance of this evening. Those followers of the work of this bright Lasky star who missed "The Storm" will have missed Blanche Sweet at her best. Also, they will have missed her in a role that differs vastly from any of her previous offerings.

Natalie Raydon (Miss Sweet) is a child of nature whose knowledge of the world is hemmed in by the limits of the tiny camp which she has always known as home. There comes to the camp to spend the summer two young men, both falling in love with Natalie. One is called back to the city for a short time but returns to win, as he firmly believes, the girl's love for the first time. He is happy in his new-found love, but the girl shows a trace of sadness.

As the wedding day approaches Natalie feels that she must make a confession to the man who would be her husband. When he learns the secret of her betrayal he is for vengeance but the father of Natalie steps in (Theodore Roberts), an old philosopher who has spent a great portion of his life close to nature, and proves an adept at bringing to a happy ending what threatens to become a tragedy.

BITTER FIGHT WAGED FOR CLAIM

William Farnum, one of the premier idols of the screen and probably the leading male favorite of the William Fox service, comes back to the Hawaiian theater this evening in another of those photodramas that have endeared him to millions of followers of the screen drama throughout the country. "The Man From Bitter Roots" is Farnum's latest success to be released in this city. It is a story of love and adventure in the big outdoors, written by Caroline Lockhart and popular as a book but more so as a photoplay. It is one of the kind of love stories in which William Farnum excels.

Bruce Burt (Farnum) is a sturdy miner who seeks for the sister of his former partner to deliver to her her brother's share in the Bitter Roots property. During his search he tells the story to T. V. Spurdell and the latter, an unscrupulous gambler, discovers Helen Dunbar and, for the sum of \$500, secures her interest in Bitter Roots. Bruce returns, locates Helen and learns of the work of Spurdell. A fight for possession of the property ensues. Bruce and Helen, shoulder to shoulder, erect a new plant but Spurdell, fighting to the last ditch, is probably responsible for the fire which brings the couple to ruin.

At great sacrifice on the part of both, Helen goes to visit Bruce's father, a wealthy ranchman estranged from his son. The girl's appeal wins and Burt, Sr., becomes a partner, the financial power, in the Bitter Roots Mining Company which is an immediate success.

RUM DESTROYED IN 'THE RETURN'

The "Demon Rum" has been given a solar-plexus blow of no small magnitude. This time it is shown in film form. More than 100 quart bottles of wine, beer and other liquors were smashed in the presentation of the stirring dramatization of Frederick Woodworth's story, "The Return," which comes to the Empire theater today, fresh from a series of mainland successes.

"The Return" is a three-part feature. The story deals with the wonderful portrayal of a woman's love. Miss Kathryn Williams, a favorite with local patrons of screen drama, has a leading role. Guy Oliver will make his bow to Honolulu in this play. Oliver is reputed to be one of the best dressed players in pictures. The destruction of a quantity of intoxicants represents the climax of the picture, in which the heroine is seen renouncing the yoke of liquor which has all but wrecked a number of lives.

George Ade has written few more humorous skits than "The Fable of the Fearson Feud Between the First Families." Supported by a galaxy of famous comedians, the production may be rated a headliner.

LAW LECTURE COURSE

First lecture tonight in a series of high-grade lectures on business law at the Y. M. C. A., on subjects necessary to successful business. Enroll today! First class at 8 tonight.—Adv.

Mrs. John Wood Stewart, president of the Needlework Guild of America, which has a membership of 300,000, will give an address on Red Cross work, etc., at the headquarters of the Hawaiian Allied War Relief Committee, Beretania, corner Miller street, on Thursday, March 15, at 10 a. m.

The exports of copper for the week ended February 1 were 8306 tons.

Why not investigate? Call at our store today. Let us show you how we can serve you.

CITY BUSINESS AND SUPERVISORS' NOTES

The next meeting of the board of supervisors will be held Friday evening, March 16.

David Kumukau has been appointed keeper of Aala park, succeeding Levi Kanaui, resigned.

The Bishop street extension through to Beretania at one is the request of the civic federation made Tuesday evening to the board.

A resolution appropriating \$2000 out of the sewer fund for an extension of the sewer main on Smith street from Fort to Queen passed first reading.

Hatch does not care whether the ironwood trees are cut or not, but he claims that the land on which they are growing cannot be used as a roadway.

The bids for the erection of a new school building at the Kaahumanu school, of which S. Sasaki was the lowest, was referred to the committee on parks and schools.

To investigate the request of George Collins, county engineer, that he be given several thousand dollars to repair washouts and bridges damaged

by the recent storm in Koolaukoko, several members of the board will visit that district Sunday morning.

In the Laimi, Park and Puiwai improvement district, Laimi road, which was dropped from the district at a former meeting, was restored Tuesday night with the amendment that the pavement should extend only to the end of the block, the extra 10 feet being cut off.

Supervisor Arnold insisted several times Tuesday evening that he did not want to do anything hastily. He uttered this remark particularly in regard to the cutting down of the ironwood trees and the resolution of F. M. Hatch raising the salaries of the electric light department.

In regard to the letter of George M. Collins, county engineer, informing the board that the paving of Beretania and Smith streets should not proceed until new water and sewer pipes are installed, Arnold said that following a conference the loan fund commission had been prevailed upon to put in an auxiliary pump at the Kailih station which would answer the purpose.

The claim of J. E. Higgins, horticulturist at the U. S. experiment station of \$33.55 against the city and county for damages done to his automobile

on King street extension when he ran into a hole dug by the water department, was referred to the water and sewer committee.

Larsen announced that he believed the water department should be liable as the lantern at the spot had been placed in the hole instead of at the side.

For the purpose of constructing sidewalks on Kalakaua avenue the board passed a resolution Tuesday evening appropriating \$2200 out of the

permanent improvement fund.

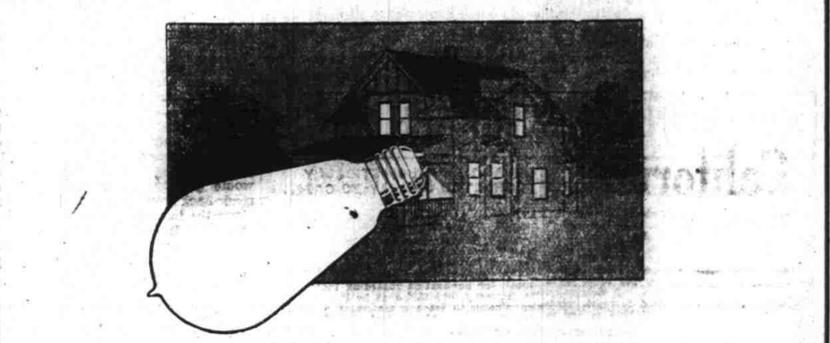

The money, however, will be returned to the fund as the property holders will have to pay for the sidewalks when they are finished and the board made it very clear that if they did not pay suit would be brought. This stand particularly applies to the estate, which claims that it is exempt.

The opening lecture of the commercial law lecture series at the Y. M. C. A. will be held tonight in the edu-

national department assembly room.

This is the first of a series by Judge A. D. Larnach. The class is open to all businessmen in the city. The lectures are taken up from the standpoint of the businessman. The advance enrollments give promise of a good class in this series.

Metallurgic titanium, it has been found will cut and mark glass, leaving an ornamental silvery streak where it has been used.

THEY SURE FALL FOR HONOLULU!

This slancy contribution to the many words printed about Hawaii is from "The Annals of Hotel St. Francis," San Francisco—our next-door neighbor.

"Honolulu is getting the big play this year. One of our middle-state visitors was all ribbed up over the sights he was going to view down there. A porter on the train told him all about everything. They now have surf boards with brakes on 'em. You climb on, stand up, release the emergency and in two seconds you land in the lap of a cute kanaka at Waikiki; then they have constructed a toboggan chute down the famous Palisades and an escalator to take you up; and there are real diamonds in Diamond Head, and all you have to do is to get a permit from King Kamehameha to dig for them; and the volcano is the greatest natural location in the world to build self-heating apartments, although it might take a little advertising to get tenants as everyone wants to live in the city where all the hotels hold lua dinners every night. Say, that tourist will be disappointed in some things, but he will return with a painted fish and an ingrowing boost spirit for the islands and all that is there, even if he did swallow the sinker before he left the states.

"The beauties and good cheer at every point are pervaded with a pleasing touch of orientalism."

SALVATION ARMY NEEDS \$1750 MORE TO FINISH FUND FOR HEADQUARTERS

The Salvation Army is endeavoring to close the campaign this week for the \$30,000 needed to buy, furnish and remodel the new building for headquarters on Beretania street just west of Fort street. Only \$1750 is needed as \$28,250 has already been subscribed.

"The people of Honolulu have been most generous," says Lieut.-Col. Robert Dubbin, "and we are very well satisfied, but we really need the remaining \$1750 to carry out our plans and sincerely hope it is subscribed soon."

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If Cross, Feverish or Bilious Give "California Syrup of Figs"

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, listless, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs;" then see that it is made by the "California Fig Syrup Company."—Adv.

ESTIMATE ON CUBA'S CROP IS CUT 500,000 TONS BY NEW YORK EXPERT

(Special Correspondence, Willet & Gray.)

NEW YORK, N. Y., Feb. 21.—This week has seen the culmination of the advance in sugar, due to the revolutionary disturbances in Cuba. Last week Cubas were quoted nominally at 4 1/2 c. c. & f. (5.39c), with buyers at 4 1/2 c. c. & f. (5.52c), but with few offerings. The market under the influence of operators on the Sugar Exchange, when February was quoted at 4.85c and March at 4.65c, gained strength daily. On Friday there were buyers at 4 1/2 c. c. & f. (5.54c), but sellers refused to sell except at higher prices. On Saturday a decidedly easier tone prevailed, with sales of March at 4 1/2 c. c. & f. (5.52c), and since then the market has had a declining tendency. On Tuesday March sold at 4 1/2 c. c. & f. (5.33c), and as we go to press, after sales of March at 4 1/2 c. c. & f. (5.27c), and at 4 3/16 c. c. & f. (5.20c), there are further offerings unplaced at the latter figure. We quote the nearby market nominal at 5.2c, this being the last price paid for this position. However, buyers' views are not above 5.20c.

Porto Rico has been active, and sales aggregating 200,000 bags are reported for prompt and March shipment at 5.27c. Since this business, the demand fell off and sales were impossible at better than 5.02c, at which figure 50,000 bags, afloat and March shipment, were taken by refiners.

Sales of free-duty sugars were made at 4 5/16 c. i. f. to Canadian refiners. Telegraph Service Disturbed

The revolutionary disturbances have interfered with telegraphic communication with the eastern end of Cuba. The result is that we have cable reports that only of figures for the six principal ports of Havana, Matanzas, Cardenas, Sagua, Calbarien and Cienfuegos, and which run as follows: Receipts, 76,120 tons; exports, 55,722 tons, of which 42,159 tons to United States Atlantic ports and 12,563 tons to New Orleans; stock, 174,144 tons. Receipts at the outports recently have been running in the neighborhood of 35,000 tons weekly. On this basis the receipts at the shipping ports for the entire island for the past week would be about 112,000 tons. Exports from the outports have been about 25,000 tons to 35,000 tons weekly, and the entire island shipments might be figured at 80,000 tons, leaving an entire island stock of 282,000 tons. We estimate the production of the island to February 17 at 693,278 tons respectively. The weather has continued favorable for harvesting. It is difficult to obtain authentic information on the seriousness of the disturbances in Cuba, but one thing can be said with certainty, that although no reports are at hand on the number of factories working, yet no word has been received that any central has been actually damaged by the rebels.

Some parties feel that the attitude taken by the U. S. government in giving its moral support to the constitutional authorities in Cuba is a great blow at the revolutionary movement, and the bottom of same may be expected to drop out at any time.

Java Exports Large
Our special cable from Batavia reports Java exports during the month of January of 13,000 tons to Europe, 2000 tons to Australia and 34,000 tons to Asiatic countries. The corresponding figures for last year are none to Europe, 850 tons to Australia and 22,625 tons to Asia. Since the beginning of the crop there have been exported to Europe so far 709,000 tons against 353,221 tons last year to same time, while the total exports to all countries compare 1,283,000 tons with 1,042,674 tons.

Advices from Washington state that on February 19 the house passed a bill appropriating \$25,000,000 to pay Denmark for these islands, and to continue the present temporary form of government; also, admitting goods 80 per cent or more the product of the islands free of duty into the United States, and providing for export tax of \$8 per ton on Danish West Indian sugar. A bill to authorize the president to set up a temporary government on the islands and providing for investigation of the needs of the people there has been favorably reported in the senate, and the leaders expect to pass it within a few days and work out differences between the two measures in conference.

Latest figures from Argentine report that the crop of 1916-17 will out-turn between 85,000 tons and 100,000 tons. Russia Gets Formosa Sugar
Very little has been learned of Russia's sugar purchases under temporarily reduced import tariff rates to fill their shortage. Negotiations have been under way in this and the Java markets, but in both places prices have evidently been too high, and little, if any, business has resulted. Our latest advices from Japan now state that Formosa has shipped to Russia 60,000 tons. These sugars are shipped to Vladivostok.

Refined Prices Advanced
A general advance of 25 points was made in refined quotations this week, making prices as follows: American, 7.25c; Howell, 7.25c, but withdrawn; Arbuckle, Federal and Warner, 7.50c, all regular terms. The demand has been very good until the close, when it is much quieter. The strike conditions are somewhat improved at New York, but Philadelphia still continues in bad shape, except possibly with the Pennsylvania Company.

A peculiar circumstance incident to the strike is that Philadelphia, where there are three refineries affected by the strikes, American buyers have to secure sugar from New Orleans, as New York has no sugar to ship, and have to add 39c freight to the New Orleans price, say 7.25c f. o. b. New Orleans, plus 39c freight, say 7.64c less 2 per cent Philadelphia. Philadelphia local points are also compelled to buy sugar similarly. American limits Cubes to 20 per cent of the order.

Other sugar centers made corresponding advances.

All shipments are badly delayed. Our latest advices report some Michigan and Ohio beet factories quoting 7.40c basis, subject to confirmation.

The situation as regards export sugars is unchanged. Refiners will take care of regular buyers, in a very small way, at full parity of domestic prices.

At the close, Federal advanced refined to 8c, regular terms.

HAVE YOU BACKACHE, GOUT, RHEUMATISM?

(By M. C. Lucas, M. D.)

American men and women should guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and often the poison reaches the tissues, causing rheumatism and gout.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache, or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, ask your druggist for Anuric (double strength). I have found in practise that Anuric is more potent than lithia and in most cases it will dissolve the uric acid as hot water does sugar.

Most people do neglect themselves. Their tongue has a dark brown color, skin sallow, breath bad, yet they fail to see that their machinery needs attention. Everybody should take a mild laxative at least once a week. A pleasant way to clear the tongue and the highly colored water noticed in the morning is to take a laxative which will cure the inactive liver and biliousness.

A pleasant vegetable pill is made up of May-apple, leaves of aloe, and jalap, made into a tiny pellet and coated with sugar. First put up by Dr. Pierce nearly 50 years ago. Druggists sell these vegetable pellets in vials, simply ask for Dr. Pierce's Pleasant Pellets.—Adv.

Hotel Stewart is recognized as "The Valley Island" in San Francisco. "Travellers" A. B. O. Ooda, E. N. Love, Honolulu Representatives.

73 W. W. MEN ARE ON TRIAL FOR MURDER, RESULT OF EVERETT FIGHT

Sensational Shooting Affray of Last November Brought Up in Seattle Court

[By Associated Press]
SEATTLE, Wash., March 10.—The trial has begun in the state superior court of 73 men, all of whom are alleged to be members of the Industrial Workers of the World, charged with first degree murder on account of the shooting of Deputy Sheriff Jefferson Beard at Everett, Wash., November 5, 1916, during a pistol battle between deputy sheriffs on the city dock and a steamer load of men who had gone to Everett from Seattle with the announced intention of holding a "free speech" meeting on the street. Seven men were killed during the fight, the dead being, besides Deputy Sheriff Beard, Deputy Sheriff Charles O. Curtis and these members of the boat party: Felix Baran, Hugo Gerlat, Gus Johnson, John Looney and Abe Rabinowitz.

The defendants obtained a change of venue from Snohomish county to King county, on the ground that they could not obtain a fair trial in Everett because of prejudice. In its information the state named 198 witnesses. Fred O. Moore of Los Angeles is chief counsel for the defendants, assisted by O. M. Hilton of Denver and others. The prosecution is in charge of Prosecuting Attorney Lloyd L. Black of Snohomish county.

The battle of November 5 was the culmination of trouble that began May 1, when the shingle weavers employed in Everett mills struck for higher wages. The Industrial Workers of the World, whose Western Washington headquarters is at Seattle, at once es-

UNION MEN VOTE AGAINST SALOON

Published in the Congressional Record as part of the evidence offered recently in a debate on prohibition is a letter from a Colorado labor union editor, who declares the state and its people have benefited greatly from prohibition. The letter is written by Clint C. Houston, editor of the Denver Labor Bulletin, and in part follows:

"You ask about the effect of prohibition in Colorado so far as it affects the working people. The law in nine months has worked a wonderful revolution for good, and at least 75 per cent of the union voters who were against the amendment would support it now. The wage earners have ceased to spend their money for booze and are buying bread and clothing for their families. I would say, on the whole, the condition of Colorado working people is at least 50 per cent better as a result of state wide prohibition and the city of Denver is a great deal more prosperous.

"All the storerooms vacated by saloons are now occupied by legitimate enterprises, and the citizens only wonder why they tolerated the booze joints as long as they did. The increase in savings deposits has been remarkable, and the merchants report collections from 40 to 60 per cent better.

"It was claimed by the liquor interests that prohibition in Colorado would ruin the summer tourist business in Colorado. As a matter of fact, statistics of the Denver tourist bureau show that during the past summer the number of tourists visiting and remaining one-week and longer in this state was almost double that of any previous year.

"It was prophesied by our 'wet' friends that a labor paper couldn't exist in a dry town. We lost about \$50 a month in liquor advertising and some 350 bartender and brewery worker subscribers. Today we are doing four times the advertising business and have five times the number of subscribers as when Denver had 250 saloons and five breweries in operation. Besides, the subscribers and advertisers pay their bills much more promptly, and we don't have to degrade ourselves by 'settling' 'em up' to a lot of barroom files when we collect a bill.

"One of the notable improvements is the decrease in crime of every grade. There hasn't been a murder in Denver since the saloons were driven out, whereas hitherto the record was from one to five a month. The city has been riden of bums, pickpockets and badger gangsters; in fact, it is much more of a privilege than ever to live in Colorado. I used to be a pretty good patron of the liquor business myself.

"It is my opinion that abolishment of saloons in America would do as much to advance the wage earner as has organized labor. At the recent November election there was on the ballot in this state a proposition known as the 'beer amendment', which would permit the manufacture and sale of beer in this state. It was defeated by a majority of 85,789. I would say that fully 80 per cent of the organized labor vote in Colorado went against this 'beer amendment' and among the 50,000 members of trade and railway organizations in this state it would now be a rare exception to find one who would declare himself or herself in favor of rehabilitation of the saloon."

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

Hopes Every Man and Woman Adopts This Splendid Morning Habit

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness?

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-wick, anaemic-looking souls with pasty, muddied complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turg at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and refreshing effects upon the system.—Adv.

NOTICE
