## REVOLUTION IN RUSSIA IS REPORTED

### Germans Withdrawing From Somme Line, Gen. Maurice Reports

#### MEANS ARE FOUND SOON TO COMPLETE IMPORTANT WORKS

Paving of Beretania Street, Widening of Hotel Street and Completion of Pali Road to Halfway House Would Be Made Possible By Operation of Scheme

To obtain quick action on the paving of Beretania street, from Alapai to Punahoa street, on the widening of Hotel street, between Port and Bishop streets, and on the completion of the Pali road concreting to a point near the half-way house, with the construction of various needed bridges and culverts besides, a bill will shortly be introduced in the legislature by Representative C. H. Cooke, chairman of the finance committee.

Transfers Fund to Fund This bill will provide for the transfer to the permanent improvement fund of the city and county of \$100,000 from the cash basis fund for the following specific purposes:

Improvement of Beretania street, from Alapai to Punahoa street, under the frontage tax law, \$52,000. Widening of Hotel street at Mott-Smith and Brewer estate properties, \$18,000. Pali concrete road and wall, \$12,000. Bridges and culverts, \$18,000. Total, \$100,000.

Retains Cash Basis Plan "It is not proposed to abolish the cash basis fund—which, now that we have it, is a good thing," Supervisor Daniel Logan, chairman of the finance committee, proponent of the measure, said this morning.

The scheme is rather in the nature of a loan to the city and county by itself, involving only a continuation of payments into the fund for about four years more. According to the law creating the fund, it would have reached the limit of five per cent of the assessed value of taxable property by the end of this year. With the proposed amendment of the law giving the counties a larger share of the property taxes, the diversion of 1-10th of 1 per cent into the cash basis fund will be an exactness less burdensome than it is at present.

As the municipalities must provide for all these improvements anyway at the beginning of next half-yearly term, there is a double benefit to be gained by providing the means now—in the first place immediate prosecution of the extremely important public improvements in question, and, in the second place, leaving a clean sheet, both financially and in practical working details, for the new city government to take office in July. In other words, the revenues of the next board will be saved to the amount of \$100,000 by the enactment of the proposed measure, less \$1666 interest on registered warrants for the first six months and a diminishing amount for succeeding half-yearly budgets until the cash basis fund is completely restored.

Proposal Already Approved "The scheme has already been approved by the chairman of the house finance committee, by Engineer Collins and President Chillingworth of the senate. Drafting of the bill is being done by the city attorney's department. "Engineer Collins informs me that the bridges and culverts included in the schedule are absolutely needed right now."

#### CONCRETE BEACH WALK PLAN IS READY TO GO BEFORE LEGISLATURE

As soon as the plans and specifications for the proposed Walkiki concrete beach walk are checked up and printed a bill will be drawn to introduce into the legislature for the appropriation of \$220,000 for the work. This appropriation also includes the dredging out of three bathing places, in front of the public baths, Moana and Seaside hotels and Outrigger club and the property between Levers road and Port De Russa.

The survey has been completed, according to Charles R. Forbes, chairman of public works, and the bill will be introduced as soon as possible. Who is to introduce the bill has not been decided upon. It is planned to have the \$120,000 come out of the loan fund.

#### SHIP REMOVAL IS STILL UNSETTLED

##### Agents Refuse to Give Bond and Harbor Board Must Determine Action

Developments at noon today in the German refugee merchant steamer situation were these:

The board of harbor commissioners was to meet at 1:30 this afternoon in special session to decide whether to move the Pomernia and Setos away from the territorial wharves at which they now lie.

On good authority it was learned this morning that members of the board favor making public thereto unknown changes between territorial officials and representatives of H. Hackfeld & Company, in which the representatives declared there would be no difficulty about getting a bond. Also it was stated that the board wants to know the foundation for assurances from these same representatives that no further damage would be done the wharves.

No instructions were received this morning by Harbormaster William R. Foster concerning the vessels.

Collector of the Port Malcolm A. Franklin repeated his statement made earlier in the week that he would not protest against the board towing the steamers outside but that he would not allow armed guards to be put aboard the vessels again until instructions are received from Washington what to do. He said he has received no cables since the one of two weeks ago directing him to remove the guards.

The local agency for the refugee merchantmen, H. Hackfeld & Co., Ltd., acting on an opinion from its attorney, Thompson, Milverton & Cathcart, has refused to sign the \$500,000 indemnity bond and gives its reasons in letters printed by the Star-Bulletin today.

That the United States should and probably will provide a safe location for the German steamships now in Honolulu harbor and that Pearl Harbor would be a safe and suitable place is stated in the opinion of Thompson, Milverton & Cathcart upon which H. Hackfeld & Co., agent for the steamers, based its refusal to sign the bond proposed by the harbor board for insuring safety of harbor and water front from destruction of the German vessels.

The opinion of the attorneys in full is as follows: "You have submitted to us for our opinion and advice a form of indemnity bond in the sum of \$500,000 that the board of harbor commissioners of the territory of Hawaii is desirous of having you execute, such bond relating to the steamships Setos and Pomernia now berthed in the harbor of Honolulu.

#### Call Made For Action On Honolulu's Charter

##### Businessmen Mass "Fighting Phalanx"

Drafting a "declaration of principle" on which to make a fight for a progressive charter for Honolulu, the legislative committee and the municipal affairs committee of the Chamber of Commerce met this morning in a two-hour session.

On another page today the call of the chamber, "A Call for Action," summons the forces of the community into the fight.

This morning's meeting followed the decision of the directors yesterday to organize a "fighting phalanx," as one member terms it, to place before the legislature the stand of the civic organizations for charter amendments.

The charter bill is expected to come up before the house tomorrow. To show their stand, 100 members of the chamber, named by President Smith, will march to the house and listen to the proceedings.

This morning Secretary Brown made arrangements with the Hawaiian Electric Company to blow its big whistle ten times when the signal is given that the bill is coming up in the legislature.

At this signal—ten blasts of the whistle—every man of the committee of 100 is expected to go at once to the Chamber of Commerce, where the massed march will be organized.

"This is vital—let every member answer the signal!" is the Chamber's order.

The leaders also ask that the declaration of principles printed below be read by every member. This afternoon the typewritten copies are being circulated for the signature of every member, and the chamber wishes the declaration read in advance so that there will be no delay in getting the signatures.

Here is the declaration. It is the definite and final statement of charter amendments which the chamber declares imperatively necessary to adopt: TO THE SENATE AND TO THE HOUSE OF REPRESENTATIVES OF THE TERRITORY OF HAWAII:

The undersigned hereby declare themselves in favor of the principles of the short ballot and unification of powers, and most earnestly and respectfully request your Honorable Body to embody them in House Bill No. 3, entitled "An Act Incorporating the City and County of Honolulu, and providing for the Government thereof," substantially as set forth in the amendments accompanying this declaration and heretofore presented to the House Committee, to which said Bill was referred.

That the City and County of Honolulu should have a government adequate to meet the growing needs of this Territorial metropolis both from the local and from the national standpoint is obvious; and it is submitted that the experience of cities on the mainland has demonstrated that in the short ballot and unification of powers lies the best hope of securing such a government.

By confining the elective officers chiefly to those who determine policies, that is, chiefly to the Mayor and Supervisors, powers are unified and responsibility is fixed. These officers, having the power, can accomplish results, and they cannot shift to others the responsibility for failure to do so. Being few and important, they are conspicuously in the public eye. Hence capable men are more willing to stand for office, for it is worth their while because they can do things. Those who are elected are constrained to do their best, because they have the power, and being in the limelight they can and will be held to account if they do not. The voters in turn take an increased interest in the candidates before election and keep a closer watch on the officers after election. They can and will do this because responsibility is definite, and results are direct and clear. The electorate therefore exercises a more real choice in the selection of officers and keeps them more responsive and responsible to the will of the people. The test of popular government is not the number of elective officers but the control that the voters have over them.

Thus the result is a government at the same time more efficient and more democratic.

While in the amendments heretofore proposed on behalf of the Chamber of Commerce the Auditor is made the only elective administrative officer, except the Mayor, who is a member of the Board of Supervisors, the undersigned, in the spirit of compromise, will not take it upon themselves at present to object to having certain other administrative officers made elective, such as the Treasurer and the Clerk, but the undersigned do feel that it is imperative that the Superintendent of City Works, the Sheriff and the City and County Attorney should be made appointive, inasmuch as these officers have so much to do with the policies to be determined by the Board of Supervisors. This is especially true in the case of the Superintendent of City Works. In the case of the Sheriff and the City and County Attorney, there is an additional reason why both should be appointive, namely, that their functions are so closely related to each other.

We are informed that a proposition has been made to substitute for the present sheriff two officers, namely, an elective sheriff, whose duties shall be limited to serving papers and acting as warden of the jail, and a chief of police who shall be appointive and who shall have charge of the police administration of the city and county. While we deem it unnecessary to have an elective officer whose only duties are to serve papers and act as warden, we offer no serious objection to such a plan.

This declaration has been prepared and circulated and is presented under the auspices of the Chamber of Commerce of Honolulu. Dated, Honolulu, T. H., March 5, 1917.

#### "Convention Charter" is Favored In Massmeeting of Kakaako Men

Reports that the political forces behind the so-called "convention charter" are organizing a counter move to the Chamber of Commerce's campaign to arouse voters developed last night following a precinct meeting last night. This meeting, at Kakaako, resulted in a declaration radically opposed to the Chamber of Commerce stand.

Declaring themselves as absolutely in favor of the convention charter and entirely opposed to all other forms of amendments to the charter that have been proposed, residents of Kakaako last night at a spirited mass meeting threw down the gauntlet to the business interests of Honolulu.

"We want the convention charter and unless we get it the Republican candidates had better stay away from here," was the consensus of opinion as expressed by several speakers who talked on the subject.

The meeting was called specially as a political rally to hear various candidates for mayor, sheriff and the board of supervisors but soon developed into a stormy discussion on the char-

#### RAILROAD STRIKE HANGS ON RESULT OF N. Y. CONFABS

President and Mediation Board Await News From Conference of Men and Operators

(Associated Press by Federal Wireless) WASHINGTON, D. C., March 15.—President Wilson today is keeping in touch with the railroad situation through Secretary of Labor Wilson and the federal board of labor and conciliation.

He is awaiting the result of today's conference in New York concerning which no definite news has reached the capital. The mediation board is also awaiting the result.

NEW YORK, N. Y., March 15.—An appeal to the patriotism of the members of the four railroad brotherhoods not to take any "rash action that would precipitate industrial strife at this time of national crisis," was sent out last night by the national conference committee of the railroads, an organization composed of the managers of most of the roads in the country.

In the appeal it is pointed out that the country is face to face with one of the most serious situations in its whole history, and urges the members of the brotherhoods, as well as their leaders, to remember this and to act accordingly.

#### GERMAN CONSUL DOES NOT LEAVE

Announcement China's Break with Germany Followed By Changes in Plans

"I have changed my plans and shall remain in Honolulu awaiting further developments. I have decided not to return to Manila on the transport Sheridan," today said Dr. Franz C. Zitelmann, German consul at Manila until the United States severed diplomatic relations with Germany.

Dr. Zitelmann's decision is believed to be due to two factors, namely, instructions from the imperial German government and also to the complete severance on Wednesday of diplomatic relations between China and Germany. Transportation had been arranged for the consul and his secretary, H. A. Raedler, to return to Manila on the transport Sheridan, which left at noon today for the Philippines.

The Manila consular representatives of Germany arrived in Honolulu a week ago today aboard the transport Thomas. They left Manila on the transport, intending to disembark at Nagasaki and proceed from there to Peking, Dr. Zitelmann having been ordered to proceed to the Chinese capital after the United States broke with Germany February 3. China's break Wednesday now makes it impossible for him to go to Peking or return to Manila.

#### Explosion On Cruiser

(Associated Press by Federal Wireless) LONDON, Eng., March 15.—One person was killed and 14 injured in a boiler explosion on board the Dutch cruiser Gelderland, says a despatch today. The cruiser is being towed to Flushing.

#### Santiago In Loyal Hands

(Associated Press by Federal Wireless) HAVANA, Cuba, March 15.—Government troops under Col. Sanguly are now disembarking at Santiago to take possession, says a message received here today, showing that organized rebellion in the province has been crushed.

#### U. S. ACCEPTS JAPAN'S OFFER TO SEND GUTHRIE REMAINS ON WARSHIP

WASHINGTON, D. C., March 15.—The offer of the Japanese government to bring Ambassador George W.

#### TEUTONS TAKE POSITION REAR OF BAPAUME RIDGE; BRITISH VESSEL, 2 AMERICANS, SUNK

Boston Agents Get Word Steamer Sagamore, Armed and Carrying Munitions, Submerged on February 21

(Associated Press Service by Federal Wireless) LONDON, Eng., March 15.—The Russian revolution is successful. The reactionaries are overthrown. It is reported that the Duma, backed by the army, has succeeded in overthrowing the government completely. The revolution centered in Petrograd and Moscow.

STOCKHOLM, Sweden, March 15.—(By wireless to Tuckerton station.)—Reports have reached here of serious disturbances in Russia, and the news is being published in Swedish papers.

The revolutionists have dynamited a bridge over the Neva river, Petrograd. A traveler who has reached Stockholm from Russia declares that there is open revolution in many cities.

BERLIN, Germany, March 15.—The Overseas News Agency announces that there have been successful revolutions in Russia.

#### German Line on West Front Being Fast Forced Over Bapaume Ridge

LONDON, Eng., March 15.—Gen. Maurice today informed the Associated Press of the withdrawal of the German forces on the west from the entire Bapaume line along the Somme, announcing that the withdrawal is taking place faster than was anticipated, and that the whole new line will soon be on the reverse side of the Bapaume ridge.

#### Americans Aboard Britisher, Sunk

BOSTON, Mass., March 15.—Agents of the Wargen steamship line today announced that they have received word that the British steamer Sagamore, carrying two Americans, was sunk by a German submarine on February 21. The Sagamore was armed and carried munitions.

#### Algonquin Captain Tells of Outrage

WASHINGTON, D. C., March 15.—In his statement to the press after his arrival ashore the captain of the Algonquin, an American citizen, declared that he had appealed to the commander of the U-boat for assistance. "It's coming on to blow," the American said, "can't you give us a tow towards shore?" But the German commander refused. "I'm too busy for that," was all he said, and abandoned the Americans to their fate.

The loss suffered by the owners when the Algonquin was sunk is placed at \$1,700,000, ship and cargo. The steamer was transferred to the American flag last December.

#### Hollweg Holds Out Hope to People

LONDON, England, Mar. 15.—According to a despatch from Berlin carried here by Reuter's Telegram Agency, Chancellor von Bethmann-Hollweg in a speech in the reichstag today predicted that after the war there will be a reorganization of the German empire, giving to the people a greater share in the conduct of affairs of the government.

#### Britain Will Raise Big War-Fund

LONDON, England, Mar. 15.—Chancellor of the Exchequer Donnan Law today introduced in the house of commons a motion for a supplementary credit vote of 64,000,000 pounds for the expenses of the current year. The total since the beginning of the war is now 3,792,000,000 pounds.

#### SENATE CONFIRMS GRAYSON'S NAME

(Associated Press by Federal Wireless) WASHINGTON, D. C., March 15.—The nomination of Dr. Cary T. Grayson, the White House physician, to be medical director of the navy with the rank of rear-admiral, was confirmed by the senate today. Dr. Grayson's nomination raised a protest because he was "jumped" over the heads of 114 naval officers to the promotion.

Judge W. H. Hardy, known as the "father of Gulfport," died at his home at Gulfport, aged 89.

Guthrie's body home in a warship has been formally accepted by the United States government.

#### KEMP CONFIRMED AS CIRCUIT JUDGE

(Special Star-Bulletin Cable) WASHINGTON, D. C., March 15.—S. B. Kemp was confirmed today as circuit judge for Oahu. C. S. ALBERT.

Assistant District Attorney Kemp was renominated on Monday with Deputy Attorney-General Hoon as circuit judge to fill vacancies on the Oahu bench. It is believed that all of the renominations will be confirmed shortly.

A "bone-dry" resolution failed to pass finally in the Texas house by a vote of 92 to 41. Two more votes were needed.

### SEEK TO DELETE CONTINGENT FUND

What is undeniably the biggest of all sensations that have stirred the house of representatives since the opening of the session came this morning when Speaker H. L. Holstein took the floor and introduced a resolution instructing the finance committee to delete from the appropriation bill the item of \$150,000 approved by Gov. Pinkham for his contingent fund.

Had a bombshell exploded in the midst of the house, the members could not have exhibited greater surprise than that caused by the introduction of the resolution. And the fact that Speaker Holstein himself took the floor to father the measure, which was drawn up last night, created even more surprise.

The resolution is as follows:

"Resolved, that the committee on finance be instructed to delete from the appropriation bill that it is now considering the sum of money which is known as the contingent fund to be expended by the governor; and, further, that it is the sense of this house that the amount appropriated last session as a contingent fund was unwisely and injudiciously spent."

**Holstein Leads Attack**

The introduction of the resolution today bears out a prediction made by the Star-Bulletin shortly after the legislature convened that the governor's contingent fund would be made the object of an attack sometime during the session, but it was not certain at that time from what source the attack would be directed. At that time Speaker Holstein expressed the opinion that the house should take steps to find out whether the money expended from the governor's contingent fund had been let go wisely and judiciously, and without a show of favoritism.

"I want the contingent fund cut out," declared Speaker Holstein this morning. "In my opinion it is not necessary. It is an injudicious method of spending money."

**Harbor Board and Utilities**

Another resolution, fathered by Representative Tavares, relates to the harbor board and the public utilities commission. It brings up C. E. Forbes' first trip to Washington, the payment of \$10 to members of the utilities commission every time they meet, and the purported immense overhead charges that are incurred on public improvement projects. This resolution is as follows:

"Resolved, that the board of harbor commissioners and the public utilities commission be instructed by the clerk to forward to the house of representatives segregated itemized statements of their expenditures from November, 1915, to April, 1916."

"I want to have the house find out how many meetings have been held by the public utilities commission, what has been done at these meetings and how much has been paid each member by the commission," says Speaker Holstein.

**Overhead Charges Tamed Burden**

"The taxpayers of this territory are being overburdened with overhead charges. The legislature meets and passes certain laws for congress to approve. We have a delegate in Washington who acts accordingly and who is the representative of the people. A government officer goes there, not as a representative of the legislature, but to interfere with the work of the delegate."

"Whether this official was sent by

### FISH HATCHERY IS PROPOSED

President Charles F. Chillingworth is planning to introduce in the upper house a bill to appropriate money for the establishment of a territorial fish hatchery, devoted especially to the care of mullet.

Chillingworth's bill, it is understood, is proposed to combat the action of the house in voting down the measure intended for the protection of mullet by naming a closed season for them.

The president says he has still a few more details to look up as to the cost of building and maintaining such a hatchery, after which he will introduce the bill. He considers it likely also that a law demanding protection of eggs found in female mullets will be presented.

Senate Bill 23, introduced by Senator Mikaele of Kauai, and repealing the law determining the size of mesh for fishing nets, was killed this morning in the meeting of the health committee. Mikaele was called before the committee and consented to the tabling when the effects of it were explained.

The committee voted to approve "Kankil" Wilder's two fish bills, which have already passed the house, so they are now well on their way to the governor. Representative Lyman's bill, providing that one member of the territorial pharmacy board shall be from an outside island, was also given favor by the committee.

The committee voted to approve the governor or not, we don't know. But are the expenses justified for these trips to supersede the work that is being done by the delegate in congress? Are they proper expenditures?"

**Speaker Favors National Guard**

Asked at this point if he anticipated any investigation of the National Guard by the legislature, Speaker Holstein replied he does not.

"I favor the guard. It is my pet policy," he added. "But I do not like the plan of spending money from one bureau to another."

Speaker Holstein continued:

"It is the enormous overhead charges on certain public improvements that I cannot understand. We appropriate money to build wharves. Take the \$10,000 appropriation for Honolulu, for instance. That was made at the last session of the legislature and now we find out that the overhead charges, such as the preparing of plans and specifications, the hire of autos and hacks, and hotel expenses, have depleted the appropriation to about \$6000 or \$7000. And we find further that nothing has actually been done, and now they come in and ask for more money."

Rumors in the house today had it that Speaker Holstein's resolution is but the first step toward a series of investigations in the legislature relating to the expenditure of certain public money during the last two years.

The house already has requested the immigration board for information regarding the expenditure of money for feeding "certain indigent Hawaiians, Filipinos and Spaniards," and why the National Guard armory recently was "turned into a boarding house" to feed Filipinos and Hawaiians who were contemplating joining, or who had already joined, the National Guard. Thus far the house has not been furnished with this information.

### Chamber of Commerce Directors Plan to Show Strength as Voters

A massed march of a committee of the Chamber of Commerce composed of 100 members to both houses of the legislature, as a determined stand for the purpose of backing the amendments to the charter proposed by the chamber.

A canvass of all the business men in Honolulu to enlist them on the side of the chamber.

A campaign to obtain hundreds of signatures backing the amendments of the chamber and a general uniting of all forces to their support.

And a "follow-up" campaign with postcards sent by all the voters who signed the petition to legislators calling upon them to vote for the Chamber of Commerce amendments.

This is the campaign outlined by the directors of the Chamber of Commerce at a meeting yesterday afternoon and put under way today.

The matter was brought to the attention of the directors by G. W. Smith, president, who declared that a stronger political machine would be in operation under the convention charter than under the present one.

A. Lewis, Jr., declared that unless the Chamber of Commerce members come at once to the support of their amendments they might as well drop the fight and let the convention charter pass.

Other vigorous speeches calling the members to action were made by Emil Berndt, Ed Towse and W. R. Farrington.

These men declared that the business men should get out and solidify their voting strength which was estimated at approximately 1000.

"Honolulu is at a turning point. Either it is to become a real city or remain a small jerk-water town," declared Farrington. "Let us find out what our strength is and with it make a fight for a business administration. It is time that we went out and showed our strength."

Among the candidates who spoke last night were Mayor John C. Lane, John Wise and Edward Hopkins for sheriff, Joseph Lewis for supervisor and Senator S. L. Desha of Hawaii.

### KAKAAKO HOLDS CHARTER MEETING

(Continued from page one)

he could not see why their voting rights were being taken away. "We can pack the halls of the legislature, too," he said, "if it becomes necessary."

Among the candidates who spoke last night were Mayor John C. Lane, John Wise and Edward Hopkins for sheriff, Joseph Lewis for supervisor and Senator S. L. Desha of Hawaii.

Honolulu Commandery meets to night for regular business.

The Hawaiian Band will give a concert at Kamamalu Park, corner Fort and School streets, at 7:30 tonight.

### LOCAL AND GENERAL

**WALTHAM CHICAGOAN'S HOME IS FOR CHARITY**

CHICAGO, Ill.—The stately mansion of Mrs. Charles Ryerson, facing the fields and lakes of Lincoln park, will not be boarded up this summer while its owner and her daughters spend the hot days in their camp between the Catskills and Adirondacks.

Instead, scores of crippled and invalid children of the Children's Memorial hospital will troop thru its halls and disport themselves about its lawns.

The expensive furniture of Mrs. Ryerson will be placed in storage and the rooms set up as a home for the children, who know no other home but the four walls of a hospital room.

### U. S. HONOR ROLL

PETROGRAD, Russia.—The Empress has received William Hamilton of New York in audience in connection with the work of the American ambulance in Russia. A book containing the names of the American subscribers to the ambulance fund was presented to the empress.

### U. S. TROOPER IMPLICATED IN GERMAN PLOTS?

Associated Press by Federal Wireless. EL PASO, Texas, Mar. 15.—What is believed to be the echo of the great German plot against the United States was heard yesterday when the military authorities here announced the arrest of Sgt. Alexander Fruchter, a German-American of German birth, and a member of Troop K, 15th Cavalry, stationed at Fort Bliss, Texas.

Sgt. Fruchter is now in the guard-house of the fort, charged with desertion. His arrest was followed by the discovery of a mass of papers and letters which are declared to have implicated him in the plot against the nation which was revealed in the capture of the famous Zimmerman letter offering Carranza German and Japanese assistance if the southern republic rose against the United States. The letter and papers in German are said to have thrown considerable light upon the conspiracy, and the military authorities are frankly anxious to secure as much more information as possible regarding the movements of this American citizen.

It is known they are watching carefully many of the German-American friends with whom it is known that Fruchter was intimate in an effort to unearth further details of the plot.

Additional information which army officers are said to have obtained is to the effect that Fruchter was authorized to offer to Carranza to raise a regiment of German-Americans to fight against the United States. This command was to have been organized in Chihuahua, and was to be made up for the most part of German reservists.

### GERMAN SHIP PROBLEM STILL REMAINS FOR BOARD TO SETTLE

(Continued from page one)

a liability on your part for any and all damage, delay, loss or injury of any sort whatsoever that may be occasioned to the property rights or interests of any person, firm or corporation, or of the territory, or any of its subdivisions, or any of its officers, by reason of the sinking, burning, or otherwise injuring of either of the vessels, or by any act whatsoever by the masters, officers, crews, or any member thereof, or other person at any time aboard either of said vessels, or connected therewith, whether acting under orders from any source whatsoever or otherwise, and whether such damage, delay, loss or injury be directly or indirectly due to, or occasioned by, any of the persons or acts or happenings mentioned. These provisions provide for liability on your part irrespective of the manner in which the injury might be brought about, an irrespective of whether the injury was caused by others than the officers and crew of the vessel, or agents or representatives of the German government. Under such provisions, it could be claimed that liability would attach to you even though the act resulting in damage might have been brought about by a citizen or agent of one of the powers at war with the German empire, or by some person wholly beyond the control of the owners or officers of the vessels. This feature of the bond, in our opinion, is inequitable in the extreme.

**Recognition of Claimed Right**

"The rights and provisions of the bond are so framed as to amount to a recognition on your part of a claimed right on the part of the harbor commissioners of the territory of Hawaii to at any time require the removal of the vessels beyond and outside of the Honolulu harbor. The bond also reserves the right to the Harbor commissioners to at any time require the removal of the vessels within two hours after notification, which would be a physical impossibility as we are informed on good authority. We have also been informed that, in the present condition of the vessels, the anchoring of them outside of any territorial harbor would, in all probability, having in mind usual weather conditions, result in their total destruction and loss, and would endanger the lives of the officers and crew. As agent of the vessels, it is your duty, at all times, to refuse to consent to the removal of the vessels to any but a safe place, and there should be no acquiescing on your part in any steps or proposed steps that might result in placing the vessels, and the lives of those on board, in jeopardy.

**Obligation Rests on U. S.**

"The theory upon which the vessels are at present in the Harbor of Honolulu, is that they are in danger from enemies now at war with the German empire. The vessels have taken refuge in a harbor belonging to the United States, a neutral power now at peace with Germany. Under these conditions, an obligation rests upon the United States government to receive and protect the vessels at least until the present status is changed warranting a different course. The right of refuge and asylum, under the circumstances, should, and we believe will be fully recognized by our federal government, and should not be hampered and burdened with unreasonable requirements or restrictions by the local authorities.

**Provisions Are Criticized**

"The bond submitted, while on the one hand requiring indemnity from you to the extent of \$500,000, nowhere provides that upon giving this indemnity, the vessels shall be permitted to remain within the harbor of remain, in fact, at any place where they would not be liable to destruction by reason of the elements, and the result of this lack of mutuality is that were you to accept the bond, there would be no corresponding obligation or assurance that the interests of the owners of the vessels and the lives of those in charge of them would be safeguarded.

"For the reasons mentioned, and under the circumstances, we would advise you not to execute the bond in question, and if, in spite of the obligation of the United States government to receive and continue to protect the refugee vessels, the local authorities remove them outside of the harbor, we are of the opinion that they, both in their official and individual capacity, and all who may aid and assist them, would be liable in damages in case of injury to or destruction of the vessels, or in case of resulting loss of life.

**Willing for Removal**

"We understand that you have at all times been willing to consent to the removal of the vessels from the wharf either to a safe anchorage place in the Honolulu harbor, or to a safe anchorage place in Pearl harbor. It has been suggested that a satisfactory solution of the difficulty would be to

### FIVE TO OPPOSE ABATEMENT BILL

Opposition enough to Senate Bill 10, the "abatement by injunction" measure, had developed up to the beginning of the session this afternoon, according to those closely in touch with affairs, to register no less than five votes against it.

Senator R. H. Makekau, who yesterday opposed the bill as one not needed in outside districts, was expected to lead a fight today along the same lines, and predictions were that he would be backed by Senator Kamahou of his own island, and by Senator Mikaele of Kauai, who seconded all of Makekau's motions over it yesterday.

Senators Conroy and Robinson of Kauai and Maui, respectively, also declared themselves against the measure this morning, not on the grounds that Makekau has raised, but because of the power it gives one individual over another.

Robinson says if the bill goes through he wants it mandatory. He believes the complainant should himself maintain the suit and take the responsibility for it whether his complaints prove valid or not. Conroy also objects to the bill as "allowing right of trial by jury."

Robinson's proposal is especially interesting in that it is similar to a feature of the California law on abatement which the superior court sitting in San Francisco has found unconstitutional, as was printed yesterday in the Star-Bulletin.

Oahu senators, who reported the bill back to the senate yesterday, were expected to vote for it today and reckoned on enough support from others to put the bill through.

One of them predicted today that the bill will not pass the house, even though sent down by the senate.

anchor the vessels in Pearl harbor, and we would advise that further endeavors be made to secure the cooperation of the board of harbor commissioners of the territory in procuring for the vessels a safe anchorage there under such conditions as may be satisfactory to all parties concerned.

"Very truly yours,  
"THOMPSON, MILVERTON & CATHART."  
Refuse to Sign Bond  
H. Hackfeld & Co., in accordance with the opinion then sent the following letter to the harbor board:  
"March 14, 1917.  
"To the Board of Harbor Commissioners of the Territory of Hawaii.  
"Honolulu, T. H.  
"Gentlemen: Relative to your request that we execute, as agents of the owners of the steamships Setos and Pommeren, now berthed in the Honolulu harbor, a bond in the sum of \$500,000 to indemnify for any loss or damage resulting from the sinking, burning or destruction of the vessels, we would advise you that we have submitted the matter to our attorneys and that they have this day given us a written opinion in regard to the matter, a copy of which we enclose you herewith.  
"We beg to say that we are constrained to adhere to the opinion of our attorneys, and return herewith the original form of bond and the original letters submitted to us with your request.  
"Yours very truly,

# ENGINEERS SEND GENERAL ANSWER TO FORBES' PLAN ON PIER WORK

Pier construction in Honolulu harbor is to be investigated by the senate as well as by the house. Senator Chillingworth says that he will introduce a resolution for such an investigation the first of next week and that the committee will work as far as possible with the house.

The committee of engineers has sent a report to the harbor board asking to be excused from answering in detail the Forbes alternative pier plan but saying that it would have been logical at the outset, that it is impossible from the sketch to definitely determine costs and generally criticizing the plan. It was expected this morning that this report would be presented at a meeting of the board which was to be held at 1:30 this afternoon.

To the Board of Harbor Commissioners of the Territory of Hawaii. Gentlemen: Referring to your request that we report on the merits of the pile-supported deck-slab anchorage scheme presented to you by your chairman, Mr. Charles R. Forbes, on the evening of March 6, 1917, we respectfully request that we be excused from making a detailed report on the merits of this plan, for the following reasons:

We consider that this would have been a logical design to use in the original wharf structure, extending to and covering the location under discussion. Had the structure been so designed and adequate strength for the loads to be superimposed, the extensive bulkhead wall on Piers 8 and 9 might have been omitted, as well as practically the entire fill. We are of the opinion that the proposal to build this deck-slab now, as an addition to the present structure, is so utterly preposterous as not to deserve serious consideration from us.

It is an engineering axiom that a foundation must be proportioned to its load. It is our understanding that a wharf shed, or similar building, is in the future to cover part or all of the area which it is proposed to deck over. As far as we know, the details of this structure have not yet been decided upon, and upon the arrangement of the structure and the distribution of its weight depends, to a large extent, the arrangement and disposition of material in the proposed deck-slab.

In addition to the details of the superstructure itself, it is necessary to an intelligent substructure design that very definite ideas as to other features of wharf equipment should be in existence, especially as to the presence or otherwise of steam or electric railway tracks, and transportation machinery such as conveyors and stationary or movable cranes. If the structure is to be of the kind suggested by Mr. Forbes, it is essential that comprehensive plans of this kind of equipment should be prepared before any substructure work is begun.

The drawing which Mr. Forbes submitted, he correctly refers to as a "sketch." From such a sketch, incomplete in details and presumably drawn without complete knowledge of the future superstructure, it is impossible to make even an approximate estimate of cost, which would be necessary in a report on the merits of the plan.

In our opinion, it would be extremely unwise to construct a floor for the wharf shed having a safe supporting capacity limited to 500 lbs. per square foot. When the plans of your board with reference to these wharves are finally consummated, there will undoubtedly be heavy freight piled in these wharf sheds. In the O. R. & L. Co.'s warehouses, it is customary at present to pile sugar with mechanical stackers 21 to 22 bags high, this height being that of the lower chords of the roof trusses of the warehouse. This loading produces a pressure on the floor in excess of 1000 lbs. per square foot.

In the O. R. & L. Co.'s wharf sheds, cement in bags is piled by hand in stacks 18 bags high, producing a pressure on the floor space of about 775 pounds per square foot.

These are present-day loadings. It is only reasonable to assume in the future, with the probably higher sheds and later equipment that will be used on Piers 8 and 9, the floor loads in their wharf sheds will at times equal or exceed 1000 pounds per square foot. Any arrangement which would for all time limit these floor loads to 500 pounds per square foot, we consider extremely inadvisable.

We cannot admit that Mr. Forbes' estimate of cost of the proposed deck-slab is even approximately correct. Mr. Forbes gives the floor-area of the proposed structure as 49,561 square feet, and his estimate of cost is \$34,562, or at the rate of \$1.10 per square foot. In the "American Civil Engineers' Pocket Book," third edition, pp. 1449-1450, Rear Admiral F. R. Harris, now chief of the bureau of yards and docks, gives the following prices per square foot for concrete structures of the same general nature as that proposed by Mr. Forbes:

Olongapo, P. I., U. S. Navy Yard, Pier B, reinforced concrete cylinders, benches 12 ft. c-c., cost per square foot, \$2.60.

Puget Sound, Washington, U. S. Navy Yard, Pier 3, live load, 400 lbs.

per sq. ft., cylinders 16 feet c-c., \$3.25. Same, Pier 4, \$2.52. Havana, Cuba, Pier No. 2, supported on reinforced concrete piles; deck live load 250 lbs. per sq. ft., \$3.35. San Francisco, Cal., Pier 28, cylinders spaced 15'16" c-c., \$3.20. Same, Pier 26, \$3.16. Same, Piers 30 and 32, \$2.52. Same, Pier 29, \$3.57.

While the piles proposed to be used by Mr. Forbes may be shorter than those used at Havana, or more cheaply placed than the cylinders used at other places, it is to be remembered that the structures above mentioned were built when the prices of reinforced concrete materials were low, compared with those current at the present time.

We are also of the opinion that the plan suggested by Mr. Forbes presents grave possibilities from the public health viewpoint. A large empty space of about one acre in area, enclosed on top, bottom and sides by concrete and earth, dark and inconvenient of access to human beings, would afford an ideal refuge for rats, which are becoming more and more widely recognized as carriers of disease. We find a statement in "The Survey" for February 24, 1917, p. 609, as follows:

"A bill has been presented to the Massachusetts legislature requiring that all new buildings along the waterfront of Boston be made rat-proof as well as fireproof. This bill is the result of an endeavor to rid the city of its annual expense of \$1,355,000 for the support of rats, which, as was suggested last summer, 'might carry infection of poliomyelitis,' and have been proved to carry infection of bubonic plague."

It is hardly necessary for us to dwell further on this phase of the matter.

We have no desire, either as a committee or as individuals, to enter into a controversy with Charles R. Forbes over this matter. It is evident that the manner in which Mr. Forbes approaches a project of the magnitude of the one under discussion is so radically different from any method which any one of us would pursue, that it is highly improbable that we, either as a committee or as individuals, could arrive at any common basis with him, from which we might proceed to a consideration of the main features of the plan. In our previous report on the work on piers 8, 9 and 10 we earnestly endeavored to offer constructive criticism, and we carefully avoided anything which might be considered as a direct criticism of Mr. Forbes. The way in which he attacked our report on the evening of March 6 was so hostile and antagonistic that we have no reason to suppose that any other report from us, which does not support his contentions, would be received by him in an unprejudiced spirit.

We doubt whether Mr. Forbes is capable of calmly and dispassionately weighing in his mind the merits of two schemes, one his own, and the other originating with some one else. The plan proposed now by Mr. Forbes is avowedly his own plan, developed and presented by him, and for which he accepts the responsibility. Under these circumstances we decline to enter into any controversy in which we should render ourselves liable to the vituperative verbal attacks which unfortunately seem to be characteristic of Mr. Forbes' conduct toward those with whom he does not agree.

His assumption as to weight of submerged fill we consider ill-advised. In an article in the Engineering News of May 18, 1905, page 511, vol. 53, on "Pier and Bulkhead Construction in New York Harbor," by J. A. Bessel, chief engineer, department docks and ferries, New York city, past president A. S. C. E., and D. C. Serber, consulting civil engineer of New York, the following assumptions are given as the result of their experience:

"Weight of riprap in air, 107 lbs. per cubic foot.

"Weight of riprap submerged, 70 lbs. per cubic foot.

"Earth filling in air, 110 lbs. per cubic foot.

"Earth filling submerged, 66 lbs. per cubic foot.

"Surcharge (live load), 1000 lbs. per cubic foot of surface."

Mr. Forbes has assumed that submerged earth weighs only 35 lbs. per cubic foot. Our investigation caused us to use 65 lbs. per cubic foot for this type of fill.

As citizens, property owners and taxpayers of this territory, we feel that it is right and due to the public that we should state that it is our firm conviction, based on our examination of the plans and specifications of Piers 8, 9 and 10, which were prepared under Mr. Forbes' direction and which received his approval; also on his sketch and estimate of his proposed "deck-slab anchorage" scheme; also on his statements regarding the reason for approving the design and contracting for an anchorage which his own statements lead us to believe he did not intend to allow to be built; also on the fact that he permitted, or at least did not prevent, the excavation of a compact and massive embankment on the outer face of the bulkhead walls of piers 8 and 9 that formed a natural bulwark of strength for the support of these walls; also on the fact that he permitted, or at least did not prevent, the placing of this excavated material behind the unsupported bulkhead walls, in violation of the provisions of the plans as per notes on plans 2, 4 and 23; also on the fact that his report regarding the proposed "deck-slab anchorage," so far from refuting any of the conclusions which we had expressed in our report on piers 8, 9 and 10, corroborates his own original plan far more strongly than we had done—we state again that it is our firm conviction that in matters of engineering design and, to a certain extent, in matters of engineering construction, the advice of Mr. Charles

R. Forbes is not to be relied upon. In expressing this conviction we are not moved by any personal animus toward Mr. Forbes. Because of his abundant energy, he is undoubtedly fitted to do good and useful work along some lines in this or any other community, but it is our belief that the design of engineering works is not the direction in which Mr. Forbes' talents lie.

We can see no legitimate economic reason why a man whose approved plans and specifications led to the present deplorable condition of affairs on piers 8, 9 and 10, which we recited in our former report, and who now admits his proposed "deck-slab anchorage" scheme that his former plans were gravely defective, should be permitted a second opportunity so recklessly to plan and execute an important and expensive work.

Finally, to Mr. Forbes' criticisms of the estimates of cost which we submitted with our former report, we consider it unnecessary to make any reply. Our reputations as engineers stand back of those figures and the designs to which they apply. We believe the structures which we planned would be safe, and, though far from ideal, to be the best which could reasonably be built, considering all the circumstances.

Respectfully submitted,  
G. H. GERE,  
GEO. W. ARMITAGE,  
CARL B. ANDREWS.

Honolulu, March, 1917.  
Senate Will Also Investigate  
Piers 8, 9 and 10, already famed in local history for the numerous disputes and investigations pending over them, are to be probed now by the senate.

President Charles E. Chillingworth authorized the Star Bulletin today to state that he will introduce a senate resolution early next week calling for an investigation of the unsatisfactory conditions in their construction as announced by the committee of three engineers named by the harbor board two months ago.

**Work With House**  
"Though this will be a senate resolution," said Chillingworth, "I intend that the committee to be appointed shall work whenever possible along with the house committee named for the same investigation."

"There has been so much said of the piers that it is high time the senate took some action toward arriving at the roots of the matter."

Chillingworth says J. G. Morgan, the former engineer of the board, will be called to testify before the investigating committee. Also Charles R. Forbes, chairman and members of the harbor board, as well as the three engineers.

## M'CARTHY IS AGAINST TAX DEDUCTIONS

Senate Bill 65, introduced a few days ago by Senator R. W. Shingle and providing that estimated depreciation may be deducted from income taxes before they are paid into the territorial treasury, is slated for some decided opposition very shortly.

Treasurer Charles J. McCarthy placed himself on record last night against the measure in a meeting of the senate ways and means committee, and asked to be heard officially when the bill is taken up for consideration.

Senator Shingle, it is understood, introduced the bill upon request and is not necessarily in favor of it. Judge W. L. Whitney is said to have drawn up the measure.

According to the belief of Treasurer McCarthy such a law would result in a legion of legal suits as to the proper amount to be deducted from profits before the income is estimated.

In matters of actual expenditures for replacements this could be computed, he believes, but not on theoretical estimates.

RILEY H. ALLEN

EDITOR

THURSDAY, MARCH 15, 1917.

THE LIMIT.

## Stand Together--Get Effective City Charter

In a spirit of fairness, in a spirit of willingness to make compromise where compromise does not stultify, the Chamber of Commerce is making a declaration of its attitude on the proposed new city charter. The declaration shows that in some important points the chamber has met the wishes of legislators of the Oahu delegation. In all points where vital principles would not be sacrificed, the chamber has endeavored to meet the wishes of other sections of the community.

On certain vital features the chamber believes compromise means surrender to political evil, and does not propose thus to capitulate.

The chamber's amendments now proposed are "led-rock." They represent some concession from the ideal. But they still retain the important features of centering responsibility on the policy-forming officers of the city and county government, and of shortening the ballot.

Upon this declaration of principle, not only members of the chamber but progressive citizens generally can take their stand.

It is imperative they should take their stand side by side, shoulder to shoulder, squarely in the fight against the reactionary forces attempting to "put over" the convention charter.

It is imperative that civic and business organizations stand together. The chamber has fought for and worked for the best charter Honolulu can get from the present legislature. That is what every good citizen should fight for.

The fight has come to a "show-down." These advocates of the much-criticized "convention charter" say that the people, the voters are for it. That is their reason, their explanation.

What the businessmen of Honolulu, the professional men, the men of all these organizations must do now, is to show the Oahu delegation that "the people" are not backing the convention charter; that there are active, substantial citizens, on the other side; that there are hundreds of voters back of the Chamber of Commerce stand.

### AN EMERGENCY MEASURE.

Representative Andrews' bill appropriating \$15,000 to divert the dirty stream flowing over Waikiki beach between the Moana and the Outrigger Club is an emergency measure. It is designed to furnish temporary relief from this nuisance which is definitely injuring one of Honolulu's most famous tourist attractions.

Governor Pinkham has summed up years of work on the Waikiki reclamation scheme with a comprehensive plan of waterway, fill, streets and public utilities which will be presented to the legislature in a week or ten days.

The harbor board proposes a beach boulevard, to cost something like \$120,000.

Both plans can be combined—in fact, the governor now has combined them—into a splendid project, but it is a project which is almost certain to take at least three years for accomplishment. Unless it moves much faster than most public work of the sort, it will take from five to ten years.

In the mean time, the sewer-stream will grow steadily more offensive, steadily more of a positive injury to Waikiki beach.

Several plans for diverting the stream have been worked out. At least two seem practicable from an engineering standpoint. The improvement can be made in a few weeks. It will not interfere with any larger reclamation scheme, and as quick action is exceedingly desirable, the appropriation should be made by this legislature.

Here is a headline from the El Paso Herald: "Kilauea Again Belching Fire, Largest Active Crater in World Threatens Island of Hawaii." The despatch says nothing about this menace to the island, and of course residents here know the reference is the height of foolishness, but the headline illustrates how some of the volcano publicity is taken by those credulous mainlanders.

It is getting so every time a stranger appears around the Capitol, curious bystanders ask, "Is that another lobbyist for the liquor men?" Evidently King Booze is beginning to worry over the prohibition outlook.

## GOVERNOR SIGNS THREE NEW LAWS

Gov. Pinkham today signed three house bills as follows: House Bill 48, an Act to amend Section 2287 of the Revised Laws of Hawaii, 1915, relating to a tax on social clubs. House Bill 52, an Act to amend Section 2287 of the Revised Laws of Hawaii, 1915, relating to the procedure in the juvenile courts and commitment of juveniles to the industrial schools. House Bill 105, an Act to amend Section 2287 of the Revised Laws of Hawaii, 1915, relating to custody of wills.

### HARBOR NOTES

The schooner Kitap was expected to sail some time today for the coast. Next mail for the Orient is leaving at 5 o'clock this afternoon on the Peria Maru from Pier 7. Mails close at 4 p. m. at the postoffice. Next mail for San Francisco will leave at 10 o'clock tomorrow morning in the Hill liner Great Northern from Pier 16, mails closing at 8:30 a. m. at the postoffice. Per-se Mitchell of the Mauna Kea reports the following sugar awaiting shipment on Hawaii, by plantations and bags: Olan, 29,742; Waialeale, 16,000; Hawaii Mill, 32,000; Hilo Sugar Co., 12,000; Onomea, 14,846; Honouliuli, 10,000; Hialeale, 23,233; Laupahoehoe, 19,461; Kawaihi, 15,945; Kukui, 11,564; Hamakua Mill, 17,622; Ewa, 13,006; Honolulu, 12,000; Punaluu, 2885; Honouliuli, 5700. 2506 of the Revised Laws of Hawaii, 1915, relating to custody of wills.

## RAISES LIMIT OF COUNTY LOANS

Borrowing limit of county governments will be increased from two and one-half to three per cent of their assessed value if a bill introduced this afternoon by Senator G. P. Kamaoia becomes a law. Senator Kamaoia proposes to amend section 2172 of the Revised Laws of 1915 so as to provide that "the total of such bonded indebtedness which may be incurred by any county shall not exceed three per centum of the assessed value of the

## SEEK \$5000 TO PRESERVE DIORAMAS OF ISLAND SCENES; TRUSTEES NAMED

### First "Promotion" Measure Gets to House Today; Much Work Before Legislators

A little bit of promotion work was injected into the business of today's session of the house of representatives when Representative Andrews introduced a bill appropriating \$5000 for the preservation of the dioramas of Hawaiian views which were prepared for exhibition during the Mid-Pacific Carnival in the Pan-Pacific building. The bill provides that ex-Gov. Walter F. Frear, J. P. Cooke, Alexander Hume Ford, Walter F. Dillingham, J. F. C. Hagena, E. A. Mott-Smith and W. R. Castle be constituted as a board of trustees to expend the fund. A new moving picture measure made its appearance today, sponsored by Representative Fernandez. This provides that educational or Biblical pictures may be shown in Honolulu on Sundays after 6:30 in the evening, laws in conflict with these provisions being repealed.

**Immigration Board Reports**  
The long-expected report from the immigration board, in response to a house resolution inquiring why certain "Hawaiians, Filipinos and Spaniards" were fed as indigents and why the National guard armory was turned into a "boarding house," was received late this morning. From January 20 to March 18, says the letter, \$30.37 was spent for feeding the following: Hawaiians, 496 meals; Portuguese, 259 meals; Filipinos, 3780 meals; Porto Ricans, 18 meals; others, 72 meals; extra meals, 120.

At the receiving station, the report continues, the following National Guard members were fed: Portuguese, 2 meals; Filipinos, 135 meals; Portuguese, 16 meals; others, 9 meals. The letter adds that these men were fed upon instructions from the governor.

**Marketing Branch for Hilo**  
Representative Leal introduced a resolution providing that \$6000 be inserted in the appropriation bill for the establishment of a branch of the territorial marketing division in the district of South Hilo, Hawaii. This recommendation recently was made to the house by the Hilo board of trade.

The resolution providing that contractors using government wharves, especially relating to stevedoring firms, give the preference to citizens in the employment of labor, has been deferred until tomorrow morning, as minor amendments have been proposed. Upon a vote of 18 to 10, the "Barber Shop Bill" as amended by the judiciary committee, was killed early in the session today. House Bill 205, making it a misdemeanor to be present at a gambling game behind closed doors, and repealing the present law covering this offense, passed third reading. The bill relating to the duties of the inspector general of schools and the dismissal of teachers was tabled upon recommendation by the education committee.

**Senate Bill 28**, providing for mechanical and agricultural fairs for the territory, passed second reading in the house as amended by the committee on agriculture. The amendment provides that the governor shall appoint a "fair commission of Hawaii" to consist of two members from Honolulu, one from Maui, one from Kauai and one from Hawaii, to serve without pay.

**Milk Regulation Tabled**  
The house bill providing that the regulation of licenses to sell milk be taken from the city and county and placed with the board of health was tabled on recommendation of the finance committee. The committee recommended the passage of the bill providing an emergency appropriation of \$21,000 for various territorial departments for the remainder of the present biennial period.

With a few minor amendments and deletions held not to be applicable to local conditions, the judiciary committee reported favorably on the bill containing the new insurance code for the territory, compiled at the instance of Territorial Treasurer C. J. McCarthy and the bill passed second reading. A bill providing an appropriation of \$8500 for acquiring land for a cemetery at South Hilo passed second reading. House Petition 10, urging free dentistry for the school children of Hana was reported upon favorably by the education committee and will be referred to the board of health. The bill providing for the acquisition of land for the grounds of the Hilo hospital passed second reading.

**Fixes Hunting License Fees**  
Radical provisions relating to the issuance of permits to persons to hunt with firearms are made in a bill sponsored in such county as shown by the then last assessment for taxation.

scribed by Representative Andrews, as follows:

"First. To any citizen of the United States who is a bona fide resident of said city or county upon the payment of a fee of \$5.

"Second. To any citizen of the United States not a bona fide resident of any county or city and county in the territory, upon the payment of a fee of \$10.

"Third. To any person not a citizen of the United States upon the payment of a fee of \$25."

It is provided that fees from licenses shall be used to constitute a "Game Preservation Fund" for the payment of expenses of propagation, protection, restoration and transferring of game birds in the territory.

**Seeks Protection For Game**  
In another bill by Representative Andrews the following close seasons for birds are established: Migratory wild duck, plover, snipe, turnstone, curlew, still, pheasant, quail or partridge, or mud-hen between the first day of May and the first day of October.

Native wild duck between the first day of February and the first day of October; provided, however, that from and after October 31, 1915, until October 31, 1920, it shall be unlawful to take, kill, destroy or have in possession any native wild duck.

Wild dove or wild pigeon between the first day of February and the first day of August; it shall be unlawful to take, kill or destroy in any one day more than 20 migratory wild duck, plovers, snipes, turnstones, curlews, stilts or mud-hens, native wild ducks, wild doves, wild pigeons; nor more than 15 quail or partridge; nor more than three cock-pheasants in any one day.

Wild duck, mud-hen, still, pheasant, dove, wild pigeon, quail or partridge eggs at any time; to buy, sell or offer for sale, transport or have in possession any of said named birds at any time when it is unlawful to kill the same.

Take, gather, destroy or have in possession any eggs of skylarks at any time; or to buy, sell or offer for sale, or have in possession skylarks at any time. To kill or destroy hen pheasants.

Wild peacock in the city and county of Honolulu prior to the first day of October, 1920. Pheasant, quail or partridge, in the city and county of Honolulu and the county of Hawaii, prior to the first day of October, 1920.

To buy, sell or offer for sale in any restaurant, hotel, boarding house, cafe, or any public or private eating house any of said named birds or portions of said named birds, during the time and the terms prohibited in the act.

A fine of not less than \$50 or more than \$200, or imprisonment for not less than seven days or more than six months, is provided as a penalty for violations. The bills were drawn at the instance of the Hawaii Gun & Game Club.

The following bills were introduced in the house today: House Bill 276 Appropriating \$5000 for preservation of dioramas of Hawaiian scenes.—Andrews.

House Bill 277 Relating to fees for licenses to hunt with firearms.—Andrews.

House Bill 278 Fixing closed seasons for certain game birds.—Andrews.

House Bill 279 Requiring persons and firms doing business for profit to keep records of all transactions.—Miles.

House Bill 280 Appropriating \$1800 as salary for an optician for leper settlement, and \$4200 for optical supplies and medicine.—Brown.

House Bill 281 Appropriating \$5000 for making survey and maps for reclamation project at Waikiki district. Substitute bill introduced by finance committee.

House Bill 282 Amend inheritance tax laws.—Miles.

House Bill 283 Regulating exhibition of motion pictures on Sunday.—Fernandez.

## FEDERAL RESERVE

Officials have Declared the Business Standing of Paid Publicity.

They Have Recognized in their official rulings that advertising space is a commercial commodity.

And Bills for Paid Publicity space may be presented to a reserve bank for rediscounting.

This is Further evidence of the established status of Paid Publicity as a necessary factor in the machinery of business.

Some People, still hanging onto the edge of the past, do not yet realize that Paid Publicity is a business necessity.

Leaders of Business are men who have recognized and used Paid Publicity.

Paid Publicity Is Business Power.

The net paid circulation of the Star-Bulletin February 13 was **6165**

### PERSONALITIES

JAMES GUILD will retire today from the position of accountant in the municipal road department, to accept an offer of employment in the office of Libby, McNeill & Libby. Engineer Collins parts with his services with regret.

L. E. MORRILL of Seattle, Washington, came to Honolulu recently for a visit on the lumber schooner Kitap. The sea-trip, lasting from January 28 to March 3, proved

sufficiently novel and adventurous for him, particularly when the schooner was four days getting out of the straits of Juan de Fuca. He will stay some weeks and then return.

At the ninth annual apple show in Spokane 49,200 apple pies were given away.

Indictments were returned against the four persons charged with conspiracy to poison Premier David Lloyd George and Minister Arthur Henderson.

# The CHAMBER of COMMERCE OF HONOLULU

## Calls for Action!

on the part of the voters and taxpayers of the City and County who believe in and are willing to stand for and work for the *plain principles of sound business administration* in this municipality.

A revision of the charter of the city and county is before the present Legislature of the Territory.

Brought down to essentials, the proposed revision of the city charter as contained in the bill before the Legislature violates the plain principles of competent administration by increasing the elective officers and distributing responsibility.

The Chamber stands for centering responsibilities and recognizing ordinary principles of successful management in dealing with public affairs.

Amendments carrying out this plan have been presented to the Legislature. These amendments are opposed by those having a mistaken idea that the power of the people will be reduced.

If you believe that the future of this city is best served by efficiency of methods and by efficient men, we request and urge that you come forward to actively support the amendments to the pro-

posed bill by cooperating with members of the Chamber of Commerce in order to secure sound methods and progressive government for the City and County of Honolulu.

The Chamber of Commerce of Honolulu with 297 members represents a very large percentage of the tax money paid from the City and County of Honolulu.

It has been stated that the Chamber of Commerce had no voting power. The Chamber of Commerce of Honolulu represents through business connections fully 75 per cent of the voters of the City and County of Honolulu.

The following Committee of One Hundred has been appointed to present to the Legislature the views of the Chamber, and we urge you to join and cooperate to the end that the principles of efficient business administration may prevail.

THE CHAMBER OF COMMERCE OF HONOLULU.

### Committee of One Hundred, Chamber of Commerce of Honolulu:

## COMPENSATION LAW CHANGES AROUSE INTEREST OF ALL EMPLOYERS OF LABOR

### Chief Objection is Found in Proposal to Do Away With "Waiting Period" and to Make Damages Payable Immediately on Injury—Encouragement of Malingering By Slightly Injured Workmen is Criticism

Out of the small but steadily increasing volume of bills which would amend in one way or another, or repeal the workmen's compensation act passed in 1915, the stage is being rapidly set at the capitol for an interesting discussion as the present legislative session promises in the 60 days of its session.

Merchants, contractors and other employers are just beginning to take notice of the proposed legislation touching the compensation act which is before the house and senate, and to grasp the significance of some of the projected amendments in their relation to the cost of insurance.

While no concerted movement has so far been made by local employers to interpose objections to some of the amendments proposed in Representative Walsh's measure, some such movement is expected as the bills are reported out from committee.

Waiting Period Important

So far as appears at present the points of objection will turn on the length of the "waiting period" during which the injured employee receives no compensation; the "occupational disease" suggested amendment, and the medical fees allowable and the right of the employer to designate the hospital and physician for the injured workman.

Of these the principal arguments will be trained on the "waiting period" proposals. At present the period is 14 days—in which, respect it is similar to compensation acts in the bulk of the states, Washington and Oregon excepted. In the latter states there is no waiting period, compensation being paid from the day of the injury; and in the Marquis bill it is proposed to follow Washington and Oregon's lead. Fear Malingering Would Result

Students of compensation law who have followed its development in this country from its first experimental stages, insist that the waiting period is an absolute necessary safeguard to employers against malingering workmen, and that if it should be done away with the employer would be called upon to pay extraordinary and unwarranted compensation, or be obliged to pay almost prohibitive insurance rates.

This is the real burden of their song. They point out that though the waiting period is not a part of the Washington and Oregon laws, those states are distinguished for their radical and often unsafe legislation and have had to pay dearly for it at times, and that they are really paying dearly now for their compensation innovation.

Raises Insurance Rates

Two years ago when the workmen's compensation act was before the legislature, the advisability of incorporating the waiting period in the act was insisted upon by those familiar with the manner in which insurance companies base their rates, and it was accordingly done. Presidents on the mainland make it certain, may there be in touch with the situation, that the rates will jump at least 50 per cent if the waiting period is eliminated.

Representative Walsh would strike a compromise by cutting the period in half, which would make it seven days. The industrial accident board of Maui favors this proposal; but so far as insurance rates are concerned, it is feared the compromise would not succeed in keeping down the rates, as malingering would be almost as attractive as with no waiting period at all. Little Temptation at Present

There is very little temptation under the law as it stands now for malingering. For two weeks the workman does not get any pay, and there-

## Maui Industrial Board Disagrees With Oahu Plans

(Special Star-Bulletin Correspondence) WAILUKU, Maui, March 14.—Of the various amendments in the legislature looking to changing various phases of the workmen's compensation law for the territory the recommendations of Maui Industrial accident board, recently made in its annual report is of some interest, particularly as it varies widely from the recommendations made by the Oahu board.

The Maui commissioners believe that the law would be better administered through a single board, instead of a board for each county as at present. It also recommends that the territory establish a fund to insure employers in order that the rates of insurance may be held as low as possible. The board also urges a reduction of the minimum rate charged by insurance companies, which under the old law are not limited as to rates at all, and a uniform policy is advocated.

A number of other changes are advocated but the foregoing are the most radical.

## "Entertainer" is Not Allowed to Go Into Canada

### "Hawaiian" Lecturer Fails to Answer Questions Satisfactorily and Is Barred Out

It is not so easy to enter the Dominion of Canada from the United States as formerly. Even the magic word "Hawaii" is not a sesame at this time. Much as Canadian immigration inspectors may desire that the good people of their communities should hear of the beauty and the lure of the "Isles of Peace," they find it essential that would-be lecturers should first answer certain personal and pertinent queries truthfully and satisfactorily.

This Miss Lottie Tiltotson, Hawaiian "entertainer," has learned, according to the St. Ignace (Mich.) Enterprise, which publishes the following:

Miss Lottie Tiltotson, the Hawaiian entertainer, who recently appeared before a small audience in this city, is on the Canadian blacklist and in consequence was not allowed to enter the dominion where she was scheduled to give a long line of entertainments extending from the Canadian Soo to Winnipeg. It was rumored about the Soos that the lady was in the employ of the German government as a spy, but no proofs were submitted to substantiate the rumor. While in this city she claimed her birthplace was Buffalo, that she had been a school teacher but owing to her health was obliged to give up this mode of obtaining a livelihood and decided to become a lecturer and entertainer. At the American Soo, where she appeared Wednesday evening of last week, she got into a heated argument with the local committee over her proceeds and is said to have been disagreeable in many ways. Relative to her Soo visit and the refusal of the Canadian authorities to allow her to cross the river the Evening News has the following:

"Hawaii—How are you?"

"Miss Tiltotson, who was there one time, stopped long enough to find out, and has been telling about it, for money, ever since. But those members of the St. Paul's Presbyterian church at Steelton, and St. Andrew's Presbyterian church of the Canadian Soo, who were hoping to hear of the land of the aukiie and the surfboard were disappointed. Difficulties with the immigration authorities over her manners to a few questions concerning her birth place, age, etc., caused the cancellation of the engagement.

"The lecturer, who pleased a large audience in the First Presbyterian church in this city Wednesday evening under the auspices of the Ladies Aid Society, but later incurred the enmity of certain members by quarreling over a few items not included in her contract, left at 3 o'clock yesterday afternoon for Canada. She found her Waterloo in the office of the immigration department at the depot in the Canadian Soo.

"Asked her birth place she replied 'Quebec'—which is as good a place as any for a Hawaiian entertainer to be born in. The officers disagreed with her, but Miss Tiltotson was convinced she was born there, having been present at the time. Besides if they were going to question her she wanted an attorney.

"George Hayward was called as her attorney, and after consulting with his client for some time advised her to tell the truth.

"She had made a slight mistake about her birth place, which was Minnesota. Her mind was also refreshed about several other items which she did not answer previously to the satisfaction of the officials. One was that she had been in Canada before. Part of the time was in the capacity of lecturer which her press clippings will show, while another six months were spent in Mercer penitentiary, where she served a sentence for shop-lifting.

"When this information was given the officers, Miss Tiltotson was excluded from Canada for attempting to make entry under false and misleading information. A Canadian immigration official who was interviewed on the American side this morning refused to say whether the sentence she served in Toronto would make her an undesirable alien.

"Canadian immigration officials have kept track of Miss Tiltotson for some time. When she was here last October making engagements for lectures, and not by personal solicitation, they knew her record."

## Local Branch of Needlework Guild Progresses Fast

Honolulu branch of the Needlework Guild of America reports that steady progress is being made. Already, more than 2000 garments for Honolulu's poor are assured and there are yet six months for gaining adherents. Two new articles once a year, for man, woman or child, secure membership.

The organizer, Mrs. John Wood Stewart of New York, now in Honolulu, in order to meet the sections presidents, directors and members of committees has arranged to do so this afternoon at 4 o'clock at the Young Hotel Roof Garden. Mrs. Stewart sails on the Great Northern and this will be a farewell for her.

The Hawaiian allied war relief committee asked Mrs. Stewart to speak to the workers this morning at 10 o'clock at the committee rooms and issued an invitation to the general public. Mrs. Wood represents 300,000 workers of the Needlework Guild and has besides a keen interest in the war relief work in Australia, where she has lately been to study various forms of relief and hospital work.

## OIL LAND OWNERS WIN FIRST STEP IN THEIR FIGHT

### Federal Court Denies Application for Injunction in Withdrawal of Lands

Explanation of the sharp rise in the price of Honolulu Oil stock that occurred more than a week ago comes in the last papers from the mainland. When the stock rose sharply here the only explanation, outside of surmises as to a compromise with the navy department on the leasing bill, was that the price had risen on the mainland. Now it appears that action had been taken by the federal government to take over claims and its motion for an injunction was denied on March 4.

The following dispatch, published in the San Francisco Chronicle on March 5, tells of the action of the decision on the application for an injunction:

"LOS ANGELES, March 5.—Denying the motion of the federal attorney that the court issue an injunction against the California oil companies involved in the 'withdrawal' cases and appoint a receiver to operate the oil-bearing lands in question, Federal Judge Bledsoe today ruled that the oil companies should continue to operate the oil lands until final adjudication of the case pending, in which the government seeks to recover a large acreage of California oil lands from private companies for the use of the United States navy.

Wants Wells Operated

"Declaring that he believed that the interests of all parties would best be served by allowing the oil companies to continue to operate the oil lands, Judge Bledsoe declared that an injunction forbidding further exploitation of the oil lands would injure the value of the lands involved.

"A stoppage of the operations for a week almost invariably produces irreparable injury to the oil-bearing property because of the infiltration of water into the oil lands, according to Judge Bledsoe's decision. It would be in the best interests of the final owner of the property, whether the final owner be the government or the oil companies, that the oil-bearing properties continue to be operated by the oil companies, as they are well qualified to operate the oil wells as any receiver that could be appointed, according to the decision.

Injunction is Refused

"The motion for an injunction and the appointment of a receiver was, therefore, denied, and the oil companies won a step of their legal battle to retain possession of the land. In order to secure the rights of the government in case the oil lands should be awarded to the government, Judge Bledsoe ruled that though the oil companies should continue to operate the oil wells, they should be required to give bond, to be renewed yearly in order that the government may be guaranteed that it will be paid any judgment in its favor.

"The winner of the 'withdrawal' cases" will be paid the profits derived from the land while it is the subject of litigation. In case of the refusal of inability of the oil companies to give bond, the government would order that the court would order the ponding of the oil obtained from the premises, or the money derived therefrom, or, as a last resort, the court will appoint a receiver."

## PINEAPPLE PRICE TO RUN OVER \$20 PER TON, ESTIMATE

### Considerable Part of Islands' Pack is Reported Already Sold at Good Figure

(Special Star-Bulletin Correspondence) WAILUKU, Maui, March 14.—Just how much Hawaiian pineapple growers will receive for their fruit during the coming year is not known to a certainty, but it is stated on very good authority that it will doubtless run considerably over \$20 per ton for first class fruit. The price to the growers will as usual be based on the opening prices which are announced about May 1.

It was stated this week that a considerable part of the Hawaiian pack for 1917 has already been sold subject to opening prices. Unless the war or some other factor should interpose some unexpected obstacle to cause a cancellation of orders, pineapples are expected to remain firm throughout the season as they did last. In fact, contrary to expectations at the outbreak of the European struggle, when it was thought that pineapples would suffer severely as being in the "luxury" class, they have steadily improved in tone, keeping pace well with other food products.

The output of the islands for 1917 will probably not run over 2,400,000 cases this year, or about the same as last year, according to present estimates. Oahu, it is thought, will fall below her 1916 pack, and will have trouble in the future in keeping up her yield. Maui will do better than for the past two years, from new plantings amounting in all to several hundred acres, now beginning to come into bearing. Also from the fact that there is still a good deal of virgin pineapple land on Maui it is possible that this island may in a few years be the leader in pineapple output for the group. The Haiku district is now about recovered from the disastrous rainy season of 1914 which killed large areas of plants, and next year should be packing a yield well up to previous records.

Development East of Haiku

The Haiku Fruit & Packing Co. had made extensive development of new lands some five miles east of its canneries in the Umanu section, most of which will come into bearing in 1918. Homesteaders and others have planted a total of 150 to 200 acres also in this vicinity.

It is probable that the pack from all Maui for this year will be somewhere around 300,000 cases, of which the Haiku Fruit & Packing Company will put up about two-thirds.

## HIGHER PRICES ARE INDICATED

(Special Correspondence Czarnikow-Rionda Company, 112 Wall Street) NEW YORK, N. Y., Feb. 23.—An unsettled and somewhat easier market has prevailed here during the past week. After sales early in the week of Cuban afloat and for prompt, first-half March shipment at 4.90 c. f. (5.32c) and in one instance even 4.56 c. f. (5.58c) being paid by operators for a small parcel afloat, the development of a cash market resulted in subsequent transactions being recorded at values gradually declining until 4.18 c. f. (5.21c) was touched on 21st inst., when that price was accepted from operators for about 25,000 bags March shipment Cuban. At the close the limited offerings of both February and March shipment sugars fail to find buyers at this reduced level.

## CONVENTION HAS STRONG PROGRAM

A program brimming over with helpful and original features and particularly rich in notable speakers is offered at the Honolulu Young People's Convention at Mills School Saturday afternoon and evening. Pastor David Cary Peters, minister of the Christian church, and a most forceful speaker, will give the opening address of the gathering at 5 o'clock on Saturday afternoon at the mass meeting held at 5 o'clock, following the special section meetings. His subject will be "The Young People and Their Private Devotions," a theme of vital personal significance to those in attendance.

Mr. Peters has addressed the Young People's Union before and proved a most popular speaker. The topic is one in which he is especially interested and to which he has given much thought. Other speakers on the program are Bishop Leonard of the M. E. church, who will speak on the subject "The Young People For Christ and the Church" and U. S. District Attorney S. C. Huber who will speak on "The Young People and the Community."

## CHAMBER OF COMMERCE ELECTS NEW MEMBERS

A campaign recently started by the membership committee of the chamber of commerce resulted in the directors Wednesday electing 21 new members. They are: W. L. Whitney, S. S. Steinhauser, W. T. Rawlins, D. J. Conkling, S. M. Lowrey, F. D. Lowrey, A. H. Rice, C. G. Heiser, James Wakefield, C. P. Lauka, W. A. Ramsey, W. H. McClellan, Marston Campbell, J. H. Hertsche, E. W. Fahlgren, S. A. Walker, G. W. Paty, S. P. Jacobson, C. H. Olson, R. M. Talbot and W. J. Forbes.

## ADDITIONAL TELEGRAPH NEWS

### GERARD BELIEVES GERMANY'S SUBMARINE POLICY STANDS

(Associated Press by Federal Wireless) WASHINGTON, D. C., March 15.—Former Ambassador Gerard, who reached Washington yesterday, said that he had not immediately after his arrival and held prolonged conferences with Secretary Lansing and Mr. Polk, concerned for the state department. According to statements issued by officials after the conference the former ambassador told Secretary Lansing that Germany fully intends going forward with her submarine campaign no matter what the outcome may be with the United States. All pretense of peace has been abandoned in the Kaiser's capital, he added.

## GERMAN RAIDER CAUGHT BY ALLIES IN INDIAN OCEAN

(Special Cablegram to Nippo Jiji) TOKYO, Japan, March 15.—The German converted cruiser and commerce raider which appeared in the Indian Ocean and sank the Japanese steamer Fuku Maru, recently captured by a Japanese and British naval force sent to search for the cruiser, according to dispatches from the British India yesterday.

The German converted-cruiser is of about three thousand tons and was not well equipped, but it is believed by the authorities that she has set float torpedo mines. Steamers were given special precautions. Japanese and British warships are taking the German ship to an Indian port.

## CHINA PRESIDENT MAY QUIT OVER PARLIAMENT'S ACTION

(Special Cablegram to Nippo Jiji) TOKYO, Japan, March 15.—General Li Yuan Hong, president of the Chinese republic, is reported to be planning to resign. Li, who is believed to be a pro-German, opposed the severing of relations with Germany and caused the resignation of the premier, who is pro-Entente, recently.

## MANUFACTURERS NAME OWN PRICE

"Boats will not stop running to Hawaii even if we do have war with Germany," said James E. MacMurray, a wealthy iron and steel man of Chicago, this morning. "I am in no particular hurry to get home."

Mr. and Mrs. MacMurray have been stopping at the Young Hotel and are going home in the Great Northern tomorrow. The Chicago man had planned to stay here only a short time, but traded previous reservations for those on the Great Northern and would trade for later ones now if he could get what he wanted.

Mrs. MacMurray, however, has a different idea about the war situation and the danger of the high seas which she expresses in a half-humorous, half-serious manner.

"You can not tell what those Germans will do with their tricky submarines," she says. "If we go to war it would be just like them to dive under the United States to get out here to the Pacific instead of going 'round the Horn.'"

As president of the Acme Steel Goods Co. of Chicago, which handles 50 or 60 thousand tons of rough and finished iron and steel goods a year, MacMurray is well versed in the steel business and has some interesting accounts of it now and possible conditions after the war.

When asked what the prices on steel were now and how it is determined, he laughed.

"It all depends on what we had for breakfast what we eat and that is what we get. There is no haggling over prices. We name our price and it is paid. Of course, our expenses of operation have gone up in proportion. We do little war business having difficulty enough to supply our regular trade."

MacMurray explains that the United States is now called upon to furnish not only the fighting world with their iron and steel, but also the commercial world, since the next largest producers, England and Germany, and the smaller ones, Belgium and France, have been absolutely cut off from furnishing iron and steel to outsiders.

"One man's guess is as good as another's on the after-war proposition," he says, "and big steel men have diametrically opposite ideas. Some say prosperity will continue with high prices for three years after peace is declared while others hold turning loss 15,000,000 laborers will knock all the props from under prices."

## IS 'GASSED' BUT LIVES TO TELL

"Gassed" by fumes in a tunnel from the explosion of a British mine which was set off prematurely by shock from the detonation of a German mine a few yards away, but living to tell the tale, is one of the war experiences met on the western war front by E. Nance while fighting in the Somme region for the Allies.

Nance is a thorough passenger on the Persia Maru today, bound for the Orient to go into the mining business—not trench mining but the ordinary kind. He was extremely reticent this morning and said he disliked to talk.

He did say, though, that he was one of six men in a tunnel which was being driven by the British Royal Engineers, tunneling under the German trenches along the Somme. His section had its mine about ready to explode when the Germans set off one of their mines. The shock exploded Nance's mine and fumes filled the tunnel. Nance managed to get out alive and recovered in a war hospital.

The young man, who was an American citizen before the war but is now a British subject, served two years with the Allied forces on the west front. He left London February 3 and came to New York. Nance said he saw two submarines off the Irish coast but as they made no move to torpedo the steamer he was on, he thinks they were British submarines.

"There are 35,000 Americans serving in the Allied forces," he said. "The war office has the names of that number on record."

At this point he said he could not say anything for publication and hurried up town to visit a friend. From officers of the Persia it was learned that the young man, who is well over six feet tall and looks the picture of health, is a soldier of fortune if there ever was one. He is said to have fought under both Villa and Madero in Mexico, in addition to his war experiences in Europe.

## HEIR'S DISCOMFORT ON HARD JAIL GOT FUN FOR VAGRANTS

SAN FRANCISCO, Cal.—Clad in a \$15 silk shirt and other raiment to match, W. H. D. Decker, supposed heir to a western fortune, slept on a hard cot at the city prison here surrounded by vagrants and crooks, who heartily enjoyed the discomfort of their fellow prisoner. Decker is to be taken back to Los Angeles to face a separate maintenance suit brought by his wife, an Australian actress whom he married last year.

## AMERICAN FIGHTER IS SAFE THROUGH DIVER ZONE

(Associated Press by Federal Wireless) LONDON, Eng., March 15.—The Lloyd George government yesterday successfully met the first real test since its organization, when it debated the efforts of the strong League of Nations delegation and passed the Indian cotton duties measure in both the lords and the commons. The resolution was adopted by a handsome majority after the premier had announced that the entire question would be reconsidered after the war.

## GERARD BELIEVES GERMANY'S SUBMARINE POLICY STANDS

(Associated Press by Federal Wireless) WASHINGTON, D. C., March 15.—Former Ambassador Gerard, who reached Washington yesterday, said that he had not immediately after his arrival and held prolonged conferences with Secretary Lansing and Mr. Polk, concerned for the state department. According to statements issued by officials after the conference the former ambassador told Secretary Lansing that Germany fully intends going forward with her submarine campaign no matter what the outcome may be with the United States. All pretense of peace has been abandoned in the Kaiser's capital, he added.

## CHINA MAIL S. S. COMPANY PLANS INCREASE IN FLEET

(Associated Press by Federal Wireless) LONDON, Eng., March 15.—It was announced yesterday by the president of the China Mail Steamship Company that the concern plans to increase its capitalization by ten million dollars. Eight millions of this will be used for the purchase of four or five new steamers for immediate service. The company's stock was subscribed largely among the Chinese in the United States and China.

## WITH OUR VISITORS

Mr. and Mrs. H. L. Taft of New York are at the Moana with their son.

Mr. and Mrs. S. L. Swartz of San Francisco who have been visiting here have returned home.

Walter N. Leeds, Jr., of Los Angeles are here for a short visit. They are at the Moana hotel.

Leon M. Cullver, vice-president of the Raymond & Whitcomb Tour Company, is a visitor in Honolulu on his way to Australia.

## VERDICT INSTRUCTED FOR DEFENDANTS AT STOCK FRAUD TRIAL

CHICAGO, Ill.—Judge Sanborn in the United States district court took the government's case against former officers and stock sales agents of the Independent Harvester company of Plano, Ill. from the defendants. The court held that the government had failed to prove that there was any intent on the part of the defendants to defraud purchasers of stock in the company.

## BRAZILIAN POWDER

A unique product comes from Brazil in aroba or soa powder, containing the substance known as chysarobin, widely used in medicine, especially in the treatment of parasitic skin diseases. The product is found in the form of a pulp or small solid masses in crevices of the heart wood of the tree known locally as "amargoso do matto," and is said to be a morbid growth.

## Troop News & Notes, Here & Elsewhere

### Just Talks With Scouts

Conducted By Mabel Putnam Chilson

An Ode to Scribes—Ancient and Modern  
The scribes they had in days of yore  
Were sometimes very old;  
They sat all day and scratched away  
And did as they were told.

Papyrus leaves looked good to them,  
Also a stylus (pen);  
No thought of baseball in their heads,  
Nor getting jam just when

It pleased their fancy to do so—  
No, they were also old men,  
They had no troops to answer for,  
Nor mere patrols—not then.

They wrote and wrote on manuscript  
For all the world to read;  
They got a few cents every day—  
Their families to feed.

But now indeed the world has changed,  
Its scribes are younger men;  
They wear just khaki and a smile,  
They scribble with ink and pen.

Whenever it quite suits them to  
(If there's no daffodil on hand),  
While editors just sit and wait  
And listen to the band

That runs machinery in the room  
Where whistles go round and round,  
They say things to themselves, you  
know,

(Not such a pleasant sound)  
About the scribe in such a troop  
Who promised to come through  
And who forgot; and then some more  
Who promised; to be true.

At last the paper blossoms out  
With news from number one  
Or five or six or seventeen,  
'Bout something they have done.

But never, never do the scribes  
(Just twenty, mind you, friend),  
All send love letters in at once,  
A helping hand to lend—

No, no; they say 'twould scare the one  
Who loves them best of all,  
His tears of joy would flood the desk,  
So, they don't write at all!

A NARRATION OF TROOP VIII ENCAMPMENT, BY RECORDING SECRETARY SCOUT RANDELL.

Boom! Bang! Zip!  
The start for a merry camp began  
At 3 p. m. on Friday, March 9, 1917.  
Having reached the terminus of the  
Diamond Head carline we proceeded  
to follow the Diamond Head avenue

### Children must have rich, pure milk!

Every mother knows how essential this is. She knows, too, the difficulties of doing so—especially in warm climates.

There is no food so suitable for baby as that provided by Nature, but in some cases Condensed Milk has at times to be used, and no Condensed Milk will be better for baby or give better results than Highlander.

It is here that Highlander Condensed Milk will prove of such value to her. Tens of thousands of mothers throughout Australasia and the Pacific use it.

Absolutely germ-free, Highlander Milk is prepared by a process that ensures sterilization. It is the richest, purest milk from specially selected herds in the famous dairy pastures of Southland, New Zealand—with part of the water evaporated and the purest No. 1A Cane Sugar added.

until we reached the Kahala road. The generosity of a kind Japanese made us joyful, for he conveyed all of our equipment to a location within a mile of our camp site. The march to our home for two days was delightful for the Diamond Head road winding in and out among the cliffs received its full share of a strong ocean breeze which sent many a thrill through our veins.

Hurrah! We cheered several times, for we had reached our destination, the camping grounds. All of the scouts then set up the white pup tents and fixed their things in order. Hunger triumphed over swimming for the boys said that they would rather eat than take a swim. After the hideous task of washing plates and scouring pans the curtain of darkness slowly began to descend. The hilarity of the scouts then started and it lasted fully an hour. Indian dances, war whoops and battle cries raged, which would have scared the strongest of the brave, and which made the woods echo and reecho through this dense gloom.

Put as all things must come to an end, so this bedlam stopped and everyone turned in, blessing his lucky stars that he had come on this camp.

Every scout was up to welcome old Sol. Firewood was secured, but not until the ordinary rules of etiquette had been performed. A nice hot breakfast followed. The Senior and Junior then inspected the tents and the campgrounds in general. The sun now was pretty far up in the heavens, so the boys with a loud shout answered to the call for swimming. The weather was sublime, the water clean looking, and what added more to the cheeriness of the scouts was that we had excellent bathing accommodations. Strolling along the weather-beaten sand we talked and chatted together, now running and then walking until we had reached Black Point, which we soon managed to cross. Good swimming was found in the Carter's tank. Races and diving competitions were held. We would have stayed there all day only for the eating accommodations. Returning by a shorter route we reached camp in quick time. A lunch, which would have satisfied a king and all his majestates, was eaten. An hour's rest and then scout games, which soon took full sway. But the air was a trifle hot and the boys at 3 p. m. lay down on their blankets panting and fatigued. The Senior then decided to refresh the scouts by a short swim. There was sure some speed made to the tank this time. After an hour and a half's swim we started back to camp and reached it in short order. An hour later our Scoutmaster, Mr. Hayward, arrived. He brought with him a package of hot dogs and pineapples, which would feed a half company of men if each one had a half a

slice. A campfire was then made and stories, songs, yells and cheers which made the woods reverberate were on the program. Each boy was given some hot dogs and as much pineapple as he could eat. The game of "lantern raid" was played, which was full of excitement. Every scout went to bed at 9:30 p. m.

Sunday dawned nice and warm. A nice hot breakfast and then a thorough inspection of the camp site under the management of the Scoutmaster took place. The game of "crazy king" entertained the boys for some time. Mr. Hayward was the "crazy king." Senior Leader Maccoel being the commander of the army, while Guy Gitt was the president of the senate. The decision of the judge was a tie.

Tents were then packed and all the equipment was placed on a little Maxwell truck which was run by Scoutmaster Hayward. Three cheers were then given for the camp, Scoutmaster, Senior, Junior, Patrol Leaders and the scouts who were so helpful in making this camp a great success.

A fond farewell to the camp and all was over. We were sadly marching away from our encampment, but gladly marching towards home.

So long to the camp, and long may it be remembered by the true and loyal scouts of Troop VIII.

### TROOP VII ENTERTAINED

Twenty-nine Scouts and one Indian Scout responded to their names on Wednesday, February 28. Three officials and two visitors were also present at the meeting, which opened at 7:30 p. m. with the song "Help Somebody Today." The minutes of the previous meeting were then read and approved. When the Scoutmaster announced to the troop he best wishes from the directors of the Carnival, the boys cheerfully accepted the same by telling of their enjoyments during the Carnival week.

For the first time since its organization, the members of Troop VII unanimously voted to introduce themselves to the public by giving a free entertainment on March 31. This troop will go on record as a troop against giving dances. Mr. William Knott was elected as the manager of this entertainment. Assistant Scoutmasters William Kalama and Kiyoshi Hooel were elected as the chairmen of refreshment committee and music committee, respectively. Mrs. Knott was chosen on the decorating committee, while T. Matsuno was made the chairman of the entertaining committee. The patrol leaders were chosen as the ushers. Meeting was then adjourned at 8:45 o'clock.

On Wednesday, March 7, 27 Scouts, two Indian Scouts, three officials, two visitors and one candidate were present at the meeting which was opened with the chorus of "Help Somebody Today" and an opening prayer by the Scoutmaster.

The two visitors, little Joe and "Charlie Boy," entertained the troop with a speech and several songs. The youngsters were so full of humor and fun that we could not help but being entertained. Little Joe first introduced himself as a great singer and leader of a band. He stood before the Scouts with a broad smile for a moment. His smile was passed from one Scout to the other. Then, when every one began to smile, he made a motion for the Scouts to stand. In unison, the boys stood. Joe then beat time for the boys to sing "Tipperary."

### APRON-STRINGS AND WHAT SCOUTS CAN DO TO MAKE THEM VALUABLE

"Let us modernize the apron-string—make it long, strong and lasting."  
—The Ranger.

"The real appreciation of apron-strings comes after we have made the blighting mistakes from which they might have saved us."  
A friend said that to me the other day, and we talked it over—much as I'll talk it over with you—on paper. We agreed that between 15 and 20 they feel like the tender to the bronchus—they choke and choke; that to remember them (or will remember them) as guide-ropes along the edge of the precipice. We wish we had followed them more closely.

Apron-strings are all right, said my friend, but, like corsets and cosmetics, they should not be too obvious. A youngster, who insolently "sass" his mother, when she gives him good advice in the presence of the company will proudly proclaim her philosophy when he is away from home where he can hand it out as his own. A Scoutmaster can do a useful good turn by mentioning this to some mother who still, in imagination, sees yellow curls when she looks at her boy, instead of observing the fuzzy upper lip and the red necktie.

Like the electric wiring, apron-strings should be concealed in fire-proof conduits. It was I who thought that out; how easily one thing suggests another! They—the apron strings—should carry the pulsating current straight from the dynamo of the mother love to the brain and soul of the adventurous youth. The transformer in the line is the Scoutmaster. He adapts the current to the boy. The psychology of the youth and the conditions of modern life make it impossible for many mothers to be completely

simultaneously, the boys followed his lead. When the boys had finished singing, he told them to salute, which the boys did. Then he motioned the boys to sit down. When he was asked to sing a solo, he sang "Tipperary" and "My Mulla-Girl." Seeing the audience applaud, he clapped his hands also. Next, he introduced his chum to the troop. They both sang the same songs. Never before was this troop entertained by two youngsters.

Good turns were then reported by Scouts Ah Choy Pung and Waland Kealoha and Candidate Phillip Noane. An application to join this troop was made by Raymond Keoho. Unanimously, the boys accepted his application. Meeting was then adjourned at 8:45 o'clock.

### TAICHI MATSUNO.

TROOP XVIII ENTHUSIASTIC  
Troop XVIII is enthusiastic over its rapid progress and already is contemplating capturing first place in the drill competition at the annual rally to be held some time in September.

Boys are joining at every meeting and it is hoped that all boys wishing to join will not wait too long. Arrangements are being made whereby a regular army officer will be the troop's drillmaster.

### TROOPS IX AND X STILL ON EARTH

Troops IX and X of the Big Red Blood district are growing at such a rapid pace that our First Class Scouts are kept busy aiding the scoutmasters and their assistants in passing Tenderfoot and Second Class Scouts in their tests.

The two troops of this live district now boast a total of 50 Scouts and one full patrol of Indian Scouts, the latter

rades with their sons. The Scoutmaster takes hold when the other's grip seems weakening. He represents the same ideals and he knows how to keep them alive in the boy, who is seeking a field of action broader than his home surroundings.

A proper apron-string may extend its efficiency even beyond the limitations of the electric wire. It may be as intangible and as potent as the energy put forth by the wireless apparatus guiding the youth on land and sea. But the mother and the Scoutmaster must make sure that the boy connects with the scout organization. The young traveler intent on new pursuits and pleasures, sometimes needs to be reminded by a message transmitted through the skilled operator. New habits are forming. The Scoutmaster, aided by the wealth of material in the scout program, can interest the boy and contrive what is best in the old life which is passing into memory.

The boy will taste and try all that is new—the cabaret, the dance hall, all the glittering follies of the "gray white way." Fortunate is he whose mother's apron strings have tied him to an organization whose men and methods are genuine. Delusive pleasures pall, but the stars, the woods, the ocean, and real friends satisfy us till the last.

Out in the good open GOD speaks and we listen, if we have learned to love nature in our childhood. Good turns were then reported by Scouts Ah Choy Pung and Waland Kealoha and Candidate Phillip Noane. An application to join this troop was made by Raymond Keoho. Unanimously, the boys accepted his application. Meeting was then adjourned at 8:45 o'clock.

TAICHI MATSUNO.  
TROOP XVIII ENTHUSIASTIC  
Troop XVIII is enthusiastic over its rapid progress and already is contemplating capturing first place in the drill competition at the annual rally to be held some time in September.

Boys are joining at every meeting and it is hoped that all boys wishing to join will not wait too long. Arrangements are being made whereby a regular army officer will be the troop's drillmaster.

### TROOPS IX AND X STILL ON EARTH

Troops IX and X of the Big Red Blood district are growing at such a rapid pace that our First Class Scouts are kept busy aiding the scoutmasters and their assistants in passing Tenderfoot and Second Class Scouts in their tests.

The two troops of this live district now boast a total of 50 Scouts and one full patrol of Indian Scouts, the latter

being under the careful guidance of Scout McMaster.  
Assistant Scoutmaster Arnold has made a big hit with the boys in his first aid lectures and demonstrating. Assistant Scoutmaster Westcott promises to show us how to carry home the bacon in the matter of drills. Believe me, he can sure hike some. If we don't get first prize for drilling at next rally it's not his fault.

At our last meeting, Scoutmaster Chas. Crane complimented the Scouts on their good behavior and work during Carnival week. Special notice was given Scouts Crane and Kuehn for first aid given to two ladies that had fainted. Committeeman Ed Towse told the boys of early life in Wyoming with "Buffalo Bill" and Indians all taking an active part. Boys, Ed is some Scout when it comes to stirring tales of by-gone days. Come again, Mr. Towse, we are proud of our committeeman. Hope our other committeemen will come around and introduce themselves. Oh, and we also mustn't forget to mention our chaplain. Yes, we have a chaplain up here in the Rev. F. B. Etson. That one-eyed, lame-in-the-left-hind-foot, toothless, sugar-and-rice-laden, white camel story of his was very interesting and helpful.

Scoutmaster Haehnen talked to the Scouts on conduct becoming a Scout and the many ways in which a Scout can be helpful and kind when traveling to and from town on the cars by giving his seat to ladies and older people, by assisting ladies off and on the cars when said persons are carrying bundles or have children with them.

Most of our next meeting will be given up to tests and swearing in our new protectors as Tenderfoot.  
By TROOP SCRIBE (pro tem).  
Appointment No. 15,912.

### TROOP V GOING CAMPING

At our meeting held promptly at 7 o'clock on Friday night, 40 boys were present, including the mascot. One boy was absent without leave and one excused.

David Naeole was presented with a signaling medal to be worn until a contest will be held at Fort Shafter. Litter drill was practiced.

On Friday (tomorrow) Scouts will pack their tents and hike to Kahala for a week-end camp. Boxing matches, wrestling matches, baseball and swimming races will be played as well as some Scout games. The following necessary articles will be taken along: Provisions to last for five meals, cooking kits, blanket, matches, flashlight or candles, tents, tent poles, mosquito nets, etc. The troop will meet at the end of Waiialea car line, then march to camp.

The meeting adjourned at 9:30 p. m.  
HERBERT TAYLOR,  
Troop Scribe.

### NOTICE TO MEMBERS OF TROOP V

All boys are requested to report at the end of the car line and wait there until further notice. Be on the Alert.  
By order of  
CARL MORTENSEN,  
Acting Asst. Scoutmaster.

### GOOD BYE, BOYS

By Malt Wayson  
Today I'm feeling kind-a-blue. The skies have not the silvery hue. For Judge and Walter pack their grip. They say farewell, the cruel ship will carry them to fields anew. Where work is scheduled for the crew. The fans will miss the battle cry of hit 'em out and grab that fly. No more will Walter shout in glee: "That pickup sure looked good to me." Well, so-long, boys. Make good up there. Make Chance look sick and Stovall swear. Kick in with bingles to the right. Land that old bunting—make a fight. When you are battling on the coast, remember that the fans will roar. But paste this in your player's cap, that when the bleachers start to rap and call you names from A to Z, just think of those at Waikiki. Remember that the local fans, the baseball bugs and also fans, are pulling for a Portland flag. They want to see you grab the rag. So here's good luck to one and all. And when you win the race this fall, and Oregon has yelled aloud, remember there's another crew who'll also cheer and sing your praise, from Waikiki, the home of leis. So here's good luck. Come back next year as champions. There's a welcome here.

### NEW SCOUT TROOP FOR LAHAUNA

A new Boy Scout troop is in process of organization at Lahaina.

## DODGE BROTHERS MOTOR CAR

Owners have found that its economy and its efficiency are unchanged through the changing seasons.

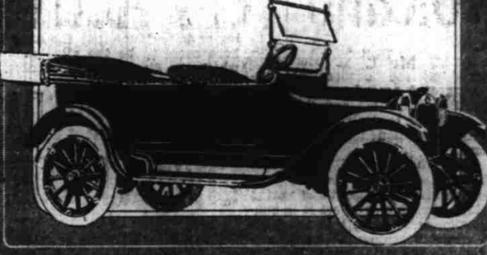

The gasoline consumption is unusually low. The tire mileage is unusually high.

The price of the Touring Car or Roadster complete is \$785 (f. o. b. Detroit).

**THEATRICAL OFFERINGS**  
**CHIMPANZEE TO LEAVE NEXT WEEK**

Yesterday a cablegram was received by Sally from her owner in Los Angeles. The message stated that the chimpanzee movie queen was needed in the Southern California city not later than April 1. She will leave on the Wilhelmina Wednesday in order to reach Los Angeles in time to work in a new series of plays that have been written for her and her consort, Napoleon.

After completing these films at the E. & R. Jungle Film Company's studio, both Sally and Napoleon will be taken to Japan and possibly to China. Negotiations are now under way to take the only monkey movie stars to the Orient for an extended engagement. Probably no motion pictures made cost more to produce than the jungle pictures now being shown at the Bijou theater. For every foot of film successfully made nearly a dozen feet are lost. This is due to the fact that both Sally and Napoleon insist on doing many things that are not called for in the plays. Both the chimpanzees are exceedingly nervous and constant care must be exercised to keep them interested while posing before the movie camera.

**GIRL DISGUISED AS BOY IS SPY**

Vivian Martin, one of the popular screen idols of Paramount Pictures, comes to the Liberty theater tonight in "Her Father's Son," a stirring drama of love and war; a picture that introduces the quaint and lovable costumes and conditions of the days before the war in Dixieland. "Her Father's Son" deals with two brothers, one a wealthy planter, the other a poor man. The brothers are estranged for a number of years, the man of wealth being childless while his brother has reared a family of girls. In his declining years the planter is desirous of letting by-gones be by-gones. He also needs cheer and comfort in his old age. He writes his brother that he wishes to adopt one of his boys. Being boyless, the poor brother induces his favorite daughter to masquerade as a boy and journey to his brother.

Shortly after taking up her abode with her uncle, in the guise of a boy, the Civil War breaks out. The girl is a true daughter of the Southland and, still in the guise of a boy, becomes a spy. She is taken prisoner by her sweetheart, a young Union officer, and remarks made by the young spy lead the officer to demand satisfaction on the field of honor. The spy appears for duel in her natural role and romance becomes paramount, war taking a back seat.

**WILLIAM FARNUM SCORES AGAIN**

William Farnum, the Fox star, is the featured star in "The Man From Bitter Roots," the present premier film at the Hawaii theater. The appearance of "Big Bill" at the Hawaii is always the signal for extra large attendance and, judging by last night's attendance, the present bill should prove one of his best drawing cards. The story deals with mining country, with miners, good, bad and indifferent and—naturally—with a girl.

"The Man From Bitter Roots" strikes it rich shortly after the demise of his partner. He is "on the square" and knows that the partner had a sister. He searches for her to give to her her brother's share in the Bitter Roots mine. He tells his story to another and, unfortunately, his confidant is a man of no scruples who finds the girl before "The Man From Bitter Roots." The confidant secures possession of the girl's share of the mine for almost nothing and goes to work the property. When "The Man" finally finds the girl and learns the truth, a fight is instituted for supremacy that can have no outcome except the success of the Man and the Girl.

**FANCY DRESS BALL TO COME LATER; DINNER-DANCE THIS EVENING**

An elaborate fancy dress ball is planned by the management of the Moana Hotel for the close of the Lenten season. It will be a dinner-dance for the guests of the hotel and tourists and members of local society circles are invited to join in the festivities. In view of the larger affair soon to occur, it has been decided not to have any fancy costumes at the entertainment and dance which will be given this evening. The program will be the same as announced a few days ago. Dancing on the lanai will follow. All are invited. Tickets may be purchased at the Young or Moana hotels or the Hawaii Film Supply on Hotel street.

**LAHAINALUNA PRINCIPAL MAY NOT RECALL RESIGNATION, NOW LEARNED**

(Special Star-Bulletin Correspondence) WAILUKU, Maui, March 15.—Whether or not Clarence A. MacDonald, principal of Lahainaluna School, will recall his resignation to take effect April 1, in accordance with the suggestion of the legislative committee which has been investigating the school, cannot at this time be stated. A number of factors enter into the matter, and even should Mr. MacDonald be willing to continue as head of the school, some of these might still prevent his doing so. In the first place Mr. MacDonald has definitely accepted a position with the Maui Aid Association to handle its recently inaugurated citizenship work on Maui, beginning on April 1. He has not asked to be released from this agreement, but it is understood that the matter will be discussed perhaps today or tomorrow. Secondly, the department of public instruction has announced that Harlan M. Roberts of the normal school is to succeed MacDonald. The department may not take kindly to the house committee's suggestion. Also the ideas of the committee for the school may not be agreeable to the legislature as a whole, which would have a direct bearing on the matter. **Would Change Policy**—The report of the house committee on education, which was submitted last Friday following the visit to the school of members of the committee, recommends that the policy of the school department in trying to make the institution largely an agricultural school, be changed, and a trade school for training along technical lines be instituted in its place in large measure. The committee on education consists of Representatives C. N. Marquez, chairman; C. H. Cooke, J. J. Walsh, G. K. Kawaha and Robert Ahuna.

**Mrs. Heflin Is Saved From Operating Table**

MRS. CARRIE HEFLIN

Brother and Sister Both Relieved by Remedy Available to Any One. In her gratitude for a remedy that saved her from the possible necessity for an operation, Mrs. Carrie Heflin, of Costa, Kansas, writes: "Had it not been for Fruitola and Traxo I might have been on the operating table by now. It relieved me of at least one hundred and fifty gall stones. It surely does work wonders. My brother also had suffered for years and has been greatly benefitted by Fruitola and Traxo." Fruitola and Traxo are compounded from the original Edeall formulas at the Pinus laboratories in Monticello, Ill., and can be purchased in Honolulu of Benson, Smith & Co., wholesale distributors, and leading drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alternative that is most effective to rebuild and restore the weakened, rundown system. A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.

**BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE**

"Cascarets" Regulate Women, Men and Children Without Injury  
Take When Bilious, Headachy, For Colds, Bad Breath, Sour Stomach

Instead of nasty, harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without griping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give cross, sick, feverish or bilious children a whole Cascaret any time—they are harmless and safe for the little folks. —Adv.

**ASTOUNDING REPORT FOR HONOLULU**

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. ONE SPOONFUL backbones bark, glycerine, etc., as mixed in Adler-ka benefited her INSTANTLY. Because Adler-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICK-EST action of anything we ever sold. The Hollister Drug Co.—Adv.

C. C. Green of Waynesboro, Mass., who has reappeared after a year's sojourn, no one knows where, has found himself buried and his estate settled up.

## BENEFIT CONTEST SATURDAY SHOULD DRAW BIG CROWD

### Massed Bands to Play at Game Between Army Officers and University Club

Army officers will be given a thorough workout in preparation for their game with the University Club men on Saturday afternoon at Athletic park. Charles Lyman, Halloran, Hanna and a number of the other stars will work out at Shafter, and sliding pads have already been ordered.

Lang Akana and Henry Chillingworth have consented to umpire the game which will be played for the benefit of the Army Relief Fund, and this will insure excellent officiating. The topic in athletic and society circles is centered on this game, and it is expected that there will be a record crowd out.

### Patronesses

Society women are taking a deep interest in the affair, and patronesses have been named for the occasion. They are Mrs. F. S. Strong, Mrs. Alfred Hunter, Mrs. Andrew Hero, Mrs. Joseph B. Douglas, Mrs. Edward Carpenter, Mrs. William Dashfield, Mrs. James H. McRae, Mrs. Wilmet Ellis, Mrs. H. H. von Holt, Mrs. A. L. Castle, Mrs. C. C. von Hamm, Mrs. C. W. C. Deering, Mrs. Charles Cooper and Mrs. Abe Lewis, Jr.

Tickets are on sale at Gust cigar store, and according to the reports received there will be a goodly crowd of people interested in the movement to watch the battle. The game will begin at 3:30 o'clock, and ceremonies will be opened with music by the 32nd Infantry and 2nd Infantry massed bands. The bands have been practicing together, and it is expected they will help to bring out a crowd on Saturday.

## SAN JOSE LEADS PACIFIC COAST LEAGUE BOWLERS

Mail advices received last evening from the secretary of the Pacific Y. M. C. A. Bowling League show Ft. McDowell to have made a clean sweep of its matches with Tucson and the U. S. Naval Training Station. This puts the soldier "Y" ahead of Honolulu on account of the local's defeat at the hands of San Jose.

Results of the Honolulu vs. Ft. McDowell match which are due by mail this week will determine the winner of second place. Secretary Olson has given permission to the Honolulu Association to bowl off the He game with the U. S. N. T. S. If it has a bearing on the final standing. So the Honolulu still have an excellent chance for second place with their fine scores against Ft. McDowell.

San Jose practically clinched the championship by defeating Honolulu with the phenomenal total of 2984. The Saints have one more match with Tucson but this should prove an easy victory. The league has been a great success this season with Honolulu, San Jose and Ft. McDowell fighting for the championship throughout the season.

Pacific Y. M. C. A. Bowling Association Standing on March 9, 1917.

Points	Final Pct.
San Jose	45 50 10 40,981 838
Ft. McDowell	45 50 12 40,199 797
Honolulu	45 37 23 38,048 817
Oakland	45 26 34 36,401 433
Los Angeles	39 18 34 30,843 346
Tucson	45 29 40 35,231 323
U. S. N. T. S.	45 15 40 33,442 278
Vallejo	45 8 47 30,963 159

At least ten persons were killed and many others wounded in a fire which destroyed a Mexican Central warehouse at Mexico City.

## PORTLAND CLUB SAILS TOMORROW ON HILL LINER

### Will Meet Nick Williams and Spokane Club at Stockton; Have Enjoyed Stay Here

President W. W. McCredie, Mrs. McCredie and Manager Walter McCredie, with the representatives of the Portland newspapers and the baseball team, will leave Honolulu tomorrow morning on the Great Northern for Stockton, where they will meet other members of the team and continue training until the end of the season.

### Meet Spokane Team

Upon their arrival at Stockton, the Portland crew will meet the Spokane team, managed by Nick Williams, and the other members of the Portland team who were not signed to contracts before the Niagara left for Honolulu. Babe Borton, Siglin, Farmer and Leake will report to Nick Williams this week.

On the eve of the departure of the team it looks as if McCredie had gathered together a strong aggregation, and if Fincher, Brenton and Leake can show something the Hulas should be well fortified in the pitching department. Honck looks like a fixture, and Penner has also shown a lot of stuff. Lyle Bigbee has been hard to hit, but has had a tendency to become wild at times.

Higbee and Helfrich have pitched good ball for the past two years, and may show something before the opening season is over. Brandt, of course, lacks experience, while Schatzlein and Zweifel are showing a lot of stuff for youngsters. It would not be surprising if both these boys will become regulars before many moons.

### Sharks Ahead

Yesterday morning Judge and Mrs. McCredie, the three newspaper men and a party of ball players made their first shark fishing tour. The shark is said to have dashed against the boat a number of times, and Boncoe Frank and Bob Cronin had a most enjoyable experience. Lou Kennedy stood the trip all right, as he had prepared for the occasion. Judge McCredie and Bill Rodgers didn't talk baseball during the trip, and the principal topic when the boat was pitching was about bears and undertakers.

Bill Rodgers wanted to go hunting for wild bears this afternoon, but inasmuch as the Beavers will be playing the Chinese and 25th Infantry teams, Bill will be needed around the keystone station. Bill shot one of the wild and ferocious animals, and gave a big dinner party for the ball players recently.

### HERE'S A REAL BASEBALL BURG

Ames, Major county, Oklahoma, population 200, has seven baseball teams, or one team to every 25 inhabitants.

The seven "nines" are classified as "a regular team, a second team, a third team, a kid team, a fat team, a lean team and a ladies' team."

To show how wild the village is about the national pastime, just compare it with New York. If Gotham had one team to every 25 inhabitants it would be able to boast about 250,000 fully organized nines.

Were it possible for all seven teams to swing into action at the same time they would require the services of seven umpires, seven scorers and seven bat boys, so there'd be only 114 left in town as spectators if everybody turned out.

## Good Luck To You

Walter McCredie, manager of the Portland Baseball Club, who is expected to make a strong bid for the title in the Pacific Coast League this season. McCredie will have not only Portland, but Honolulu pulling for him to bring home the bacon in the Baum circuit this year. McCredie has made a big hit with the fans here, and it is certain that there will be much joy in Honolulu if the Beavers can win the flag from the other strong teams in the circuit.

## MID-PACIFICS BREAK Y. M. C. A. BOWLING MARK

### Y. M. C. A. BOWLING LEAGUE

Standing of Clubs	P.	W.	L.	Pct.
Oahu	20	18	2	.900
All-Chinese	20	18	2	.900
Mid-Pacifics	24	13	11	.548
Comoros	24	11	13	.458
Hawaii	20	8	12	.400
Nationals	16	2	14	.125
Service	20	2	18	.100

### Last Night's Match

Mid-Pacifics, 4; Service, 0.

### Tomorrow's Match

Oahu vs. All-Chinese.

The Mid-Pacifics smashed the Y. M. C. A. bowling record last evening by rolling 1050 in their second game. This breaks the alley record of 1017 which has been held by the Honolulu for five years.

Every man was going great guns in the record game. Capt. Naatz bowled 232. Ben Kaumehewa, chaplain of the house of representatives, made his presence in Honolulu felt by rolling 213. Earl McTaggart was there with 209. M. A. Camara staged a great finish and brought his game up to an even 200. Arthur Nelson made four strikes in his last five efforts and turned in 196 for his count.

The Mid-Pacifics are one of the youngest teams in the league and deserve full credit for their remarkable performance. Capt. Naatz has organized a group of bowlers with little or no league experience until they are really dangerous for any team. Every man is rolling for the first season in the Y. M. C. A. senior league, although Kaumehewa has had much experience on Maui teams.

The four games went to the Mid-Pacifics although the Service made a good bid for the first and third. Hornberger was in good form, but the rest of the Service team fell somewhat below averages. Kaumehewa and Camara, lead-off and anchor men for the Mid-Pacifics, were particularly dependable. Earl McTaggart was also in fine form.

### The scores:

Mid-Pacifics—1st	2nd	3rd	Total	
Kaumehewa	186	213	167	566
Nelson	169	196	142	507
Naatz	143	232	138	513
McTaggart	182	209	148	539
Camara	171	200	198	569

Totals	1st	2nd	3rd	Total
Service	851	1050	789	2690
Bonner	140	102	132	374
Hornberger	173	158	176	507
Henley	141	164	152	457
Guthrath	170	173	138	481
Terras	161	159	136	456
Totals	785	756	734	2275

A barge of the New Jersey Central carrying two freight trains of seven cars each was sent to the bottom of the North River when it was rammed by the American line freighter Philadelphia, loaded with freight.

Four persons were killed and more than 20 injured in a collision between a Southern Railway locomotive and a street car at Louisville, Ky.

## HOLY CROSS HAS FURNISHED HUB WITH MANAGERS

### Bill Carrigan and Jack Barry Are Graduates of Worcester School; Both Made Good

Holy Cross College, located at Worcester, Mass., makes a specialty of turning out managers for the Boston Red Sox.

When Jack Barry stepped into the shoes left vacant by Bill Carrigan it was the first time that two successive managers of one major league club proved to be graduates of the same institution of learning.

And these two Boston managers are not the only college grads who have taken hold of the managerial reins at the Hub, for Jake Stahl, whose alma mater is the University of Illinois, had preceded them in the role of pilot.

### First Trial for Barry

It seems that the Boston Red Sox have run strongly highly educated leaders, and, incidentally, men who have had talents for fields of endeavor outside of baseball. Both Stahl and Carrigan resigned as pilots of the Sox and both embarked in the banking business.

Barry, who takes his first fling as a manager this year, has made a fortune out of baseball as a player, and when his baseball days are over he plans to go into business for himself, and may follow in the footsteps of his predecessors by taking up the "banking game."

Back in the days of John I. Taylor's regime as president of the Red Stockings, several managers were tried out who had been college men. In the early weeks of the 1907 season George Huff, a Dartmouth graduate, took a fling as manager, but did not last long, resigning after a reign of less than two weeks. Bob Unglaub, who had done some work at the University of Maryland, had much the same experience as Huff.

### Carrigan a Great Leader

When Jake Stahl was the leader of the Sox, baseball critics attributed most of his success to his simon-pure luck. But this was never true in Carrigan's case, for the scrappy catcher would no more dodge trouble or obstacles than he would a base runner sliding into the home plate.

Carrigan was a manager of the fight, type, and his success in the major leagues is all too well known for recounting here.

And now comes Barry, who went from Holy Cross to the school of Connie Mack, where he was one of the most important cogs in the famous Mackian championship machines. The experience Barry received under the McGillicuddy regime cannot be underestimated, for, although Connie Mack has slipped from the enviable position he once held in the spotlight, he will always be ranked as one of the smartest managers in the history of baseball.

At Boston, Barry has played under Carrigan long enough to absorb the ideas of his predecessor. He already knows Mack's system, and with his own ideas blended into the teachings of these two pilots he certainly appears to be well qualified to take the reins at the Hub.

## GOLFERS TO PLAY AT COUNTRY CLUB IN FIRST MATCH

Golfers of Honolulu will begin play in the first round of the tourney for the president's trophy at the Oahu Country Club on Saturday afternoon. It is expected there will be a number of entries in the play Saturday and Sunday, and although practically the entire force of golfers will be in attendance at the baseball game which will be played at Athletic park it is thought that most of the hill and dale artists will be on hand Sunday.

The committee in charge of tournaments has arranged the list of features for the year which consist of the following tourneys:

March 17—President's Cup. First round. Medal play 18 holes.

April 15—Stewart Cup. Final round. Medal play 18 holes.

May 26—Wichman Cup. First round. Medal play 18 holes.

June 16—President's Cup. Second round. Medal play 18 holes.

July 7—Navy cup. Final round. Medal play 18 holes.

August 25—Army Cup. Final round. Boney 18 holes.

September 15—President's Cup. Third round. Medal play 18 holes.

October 13—Manoa cup. Qualifying round. Medal play 18 holes.

October 20—Manoa Cup. Final round. Medal play 36 holes.

November 24—Wichman Cup. Second round. Medal play 18 holes.

December 15—President's Cup. Fourth round. Medal play 18 holes.

December 22—President's Cup. Final round. Medal play 18 holes.

Cabbage sold at San Benito, Texas, at \$125 a ton recently.

## GIANTS SHOULD LAND FLAG FOR SEASON OF '17

### McGraw Will Have Great Team to Begin Season; Veterans Will Be Big Help

John "Muggsy" McGraw, who took his team up in the stretch last year and captured a string of victories which had the other teams guessing, is going out for that gonfalon this year, and fans in Honolulu may see Kauff, Fletcher and others mentioned when the time comes to stage the world series.

Beginning almost where they left off last fall, after having established a record of 27 consecutive victories, the Giants will have a big job on their hands in running true to form, but the punch is there, and if things happen without kicking a hole in the dope, the world's series will be staged with one-half of the receipts counted at the Polo Grounds.

At first base McGraw will recruit Walter Holke, the brilliant recruit from the International League who topped the National League batters last season during the brief period he was with the New Yorkers. He is being called the most promising prospect who has won the sponges of a major leaguer in years.

### Herzog at Second

Charley Herzog, years ago a star performer at third base and recently a shining light at shortstop, has been converted into a second baseman and is doing better there than at any of his former jobs.

At third base the former Cub, Heinie Zimmerman, will be planted. His hitting, in addition to a great fielding ability, has caused him to be styled the best third baseman in the league.

Arthur Fletcher, another brilliant performer, will be at shortstop. Every one of these cogs in the inner machine, with the exception of Holke, is a veteran performer. There isn't a chance that a youngster will take the place of any of them, and for that reason there will be few recruits on hand. This defense undoubtedly will stand through the season.

The outfield is just as strongly organized, and will have this year an additional bulwark in the person of Red Murray, provided McGraw decides to retain the sorrel-topped gardener.

### And Benny, Too

Benny Kauff will have the center field position again, and McGraw, in addition to all his supporters, expects the former Fed to make good in far better fashion this year than his last effort showed. Kauff's hitting last season began to show improvement as the season approached its end.

Davy Robertson will be planted in right field and George Burns in left, unless all the signs fail. They are both mighty hitters and far above the average as fielders.

For a pitching staff McGraw has the youthful, brilliant Schupp as a nucleus for a wonderful staff. Schupp has been doing some holding out, but is expected to be on hand when the time comes to report. In addition, there will be Jeff Tesreau, Fred Anderson, Pol Perritt, Slim Sallee and a few recruits who are expected to show well.

Kocher, Rariden and Gibson are signed to New York contracts. These, with Lew McCarthy to lead the way, form an efficient catching staff.

### SISLER VALUED AT \$80,000 BY RICKEY

Branch Rickey, business manager of the St. Louis Americans, is considerably amused because of reports that the New York Americans are willing to enter into a trade for George Sisler.

"Why, they couldn't have him if they offered me \$80,000," Rickey exploded. "There are three men on that club that it is nonsense to talk about selling or trading. They are Sisler, Pratt and Shotton."

### BELGIAN REFUGEES MAY TILL LAND IN CALIFORNIA

LOS ANGELES, Cal.—That 2500 Belgian families which are now refugees in Holland will soon be brought to Southern California to establish an agricultural colony was the statement of Sir James Slevin, who arrived recently in Los Angeles. He has spent the last ten days in the Imperial valley inspecting a tract of more than 50,000 acres of land, which may be the site of the proposed colony. Wealthy New Yorkers and wealthy Californians are financing the great undertaking, and several hundred thousand dollars will be spent in the altruistic work, according to Sir James.

"A steamer will probably be chartered to bring the first group of refugees to America," Sir James stated. According to Sir James, Minister Van Dyke at The Hague will aid in the emigration of the refugees from that country to the United States.

Col. Melvin E. Grisby, of Sioux Falls, pioneer of South Dakota, and member of the Rough Rider Regiment in the Spanish-American war, is dead. Two men were killed and six others seriously injured as a result of the explosion of a delayed blast in Twin Peaks Tunnel at San Francisco.

RESOLUTION NO. 719

Be it resolved by the Board of Supervisors of the City and County of Honolulu, Territory of Hawaii, that the sum of Two Thousand, Two Hundred Dollars (\$2,200), be, and the same is hereby appropriated out of all the moneys in the Permanent Improvement Fund of the Treasury of the City and County of Honolulu for an account to be known as Construction Sidewalk, Kalakaua Avenue.

Presented by CHAS. N. ARNOLD, Supervisor. Honolulu, Hawaii, March 13, 1917.

I hereby certify that the foregoing Resolution passed First Reading and ordered to print at a meeting held by the Board of Supervisors on Tuesday, March 13, 1917, on the following vote of said board: Ayes: Ahia, Arnold, Hatch, Hollinger, Horner, Larsen, Logan, Total 7. Noes: None.

E. BUFFANDEAU, Deputy City and County Clerk. 6733-Mar. 14, 15, 16

CLOWNS ARE VANISHING, AND SHOWMEN MOURN

CHICAGO, Ill.--The days of the circus clown are numbered. Members of the Outdoor Showmen's League of America in convention here, says so. "We just can't get good clowns any more," said John Warn, president of the league. "We train them all winter, but they don't seem to be funny. We pay 'em \$200 and \$300 a week, and still they aren't funny. It's a mighty sad situation."

Other showmen blame it all on the movies. The funny men of the screen have copied all the old clown's antics, he said, and there's nothing left with which to raise a laugh.

FOUND

Bicycle by night patrolman. Owner can get same by calling at 1465 Fort st., and paying for this ad. 6733-3f

### WITH TEETH OUT, BARBER'S BILL IS PUSHED FORWARD

#### Supervisors Given Power to Regulate Sunday Opening of Establishments

Afternoon sessions are becoming popular in the house of representatives and yesterday, from 2 until 3 o'clock, five new bills came in and committees reported on a mass of bills that had been under their consideration.

The much discussed "Barber Shop Bill" was reported favorably by the judiciary committee, but with an amendment which doubtless will relieve the Honolulu citizen barbers from opening on Sunday morning, a thing they are opposed to from first to last. This bill, as it stood, provided that barber shops might remain open until 10 o'clock Sunday mornings. As now amended, it carries a provision that the supervisors of various counties, if they see fit, may, by ordinance, provide for the opening of the shops on Sunday. The bill has passed its second reading.

**No Divorce For Insanity**  
Two of Representative Kelekolio's bills were tabled, one relating to the practise of midwifery and the other making insanity a ground for divorce. Chairman Andrews of the judiciary committee, explaining the committee's action on the divorce bill, said it undoubtedly would work a hardship on a married person unfortunate enough to become insane, as his or her spouse would then be justified in getting a divorce, whereas the committee was of the opinion that such a person was entitled to care and loyalty by husband or wife, as the case might be.

Representative Lyman introduced a measure fixing the salaries of court officials, third circuit, as follows:  
Clerk, \$1500; stenographer, \$1500; court expenses, \$6500; support juvenile court dependents and general expenses, \$350.

The same bill fixes salaries in the fourth circuit as follows:  
Clerk, \$1920; assistant clerk, \$1500; probation officer, \$1920; probation officer, \$600; court expenses, \$8000; support juvenile court dependents and general expenses, \$700.

The following bills were introduced yesterday afternoon:  
**House Bill 271**  
Relating to salaries and expenses, third and fourth circuit courts.—Lyman.

**House Bill 272**  
Relating to the appointment of a trustee officer for the district of Honolulu.—Miles.

**House Bill 273**  
Appropriating \$100,000 for reimbursement of Chinese and other manufacturers and taro planters who lost lands under orders issued by the board of health.—Lota.

**House Bill 274**  
For the relief of James Koluina.—Ahuna.

**House Bill 275**  
Appropriating \$10,000 for improvements to the Kula Sanitarium farm.—Tavares.

### GIRLS! ACT NOW! HAIR COMING OUT MEANS DANDRUFF

25-cent "Danderine" Will Save Your Hair and Double Its Beauty

Try This! Your Hair Gets Soft, Wavy, Abundant and Glossy at Once

Save your hair! Beautify it! It is only a matter of using a little Danderine occasionally to have a head of heavy, beautiful hair; soft, lustrous, wavy and free from dandruff. It is easy and inexpensive to have pretty, charming hair and lots of it. Just get a 25-cent bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair grower; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.—Adv.
