**Division of Water Resource Management**
October 30, 1991

Mr. Dick Whiting
400 South Saliman Road, Apt. #33
Carson City, Nevada  89701

Dear Mr. Whiting:

Attached is a copy of the Geothermal Management Plan for your review and comment. This plan was the result of a two-month effort by a State-County Task Force to address the recommendations made by you and others in the investigation of the June 12-14, 1991, blowout at Puna Geothermal Venture’s KS-8 well.

Please provide me with your comments as soon as possible. The Task Force is working with the developer to correct critical items in order to allow him to resume drilling as soon as we can ensure the health and safety of the nearby residents.

Sincerely,

Murray E. Towill
