### THE HEALTH BOARD

A Hospital for Hilo—The Importation of Opium.

Minister Smith presided over Thursday's meeting of the Board of Health.

Inspector Monsarratt reported two cows condemned and killed for tuberculosis. The manager of the Woodlawn Dairy reported that he was willing to have his cows inspected, as were all other Dairy men but an objection was made to paying the cost of such examination. Dr. Monsarratt reported 69 and 77 purchasable commodities on his list for the last two weeks.

It was decided that no kokua should leave the Leper Settlement without examination, permission and thorough disinfection. Brothers Jenkins and Hancock of the Mormon Church at Waiehe were granted permission to visit the Settlement. Dr. McWayne's resignation was accepted.

Health Agent Reynolds was instructed to look after the necessary repairs at the Wailuku Hospital, and to go ahead and build a hospital at Hilo.

The Board then passed the following important resolutions:

1. That hereafter any importation of opium or preparation thereof containing not more than 1 1/2 percent of morphine or its average equivalent in crude opium may be allowed to pass the Custom House, as other goods, upon the presentation by importers of a special permit from the secretary of the board, all assays to be at the expense of said importers.
2. That the present importation of opium, consigned to a large Chinese house, be assayed by Professor Lyons and George W. Smith, and that special permits be issued for the same.

ED. THE INDEPENDENT:—

Hurrah for annexation—at last we have it. We are sure of it now, because ten or eleven strange United States' Senators have written to a stranger in Honolulu that they will whoop for annexation for all it is worth. But then, one cannot put much faith in a Senator that will expose his principles by letter to a complete stranger out here in mid-ocean. Most generally the open mouthed man is too easily carried along with the tide. He is not to be trusted in a storm. If this government is wise, it will send on to Washington an educated Hawaiian to hypnotise some of those large-mouthed Senators and hold them in the traces of annexation, as they are not to be depended upon without an earnest tutor. For myself, I would recommend Kaulukou, ex-Marshall of the kingdom, a man of great vigor and honesty of purpose. Also, supposed to be a man of strong religious tendency leaning towards the Central Union Church.

### ANNEXATION.

#### The Value of Sleep.

About 11 o'clock one night the late Gen. Grant remarked to his staff: "We shall have a busy day to-morrow, and I think we had better get all the sleep we can to-night. I am a confirmed believer in the restorative qualities of sleep, and always like to get at least 7 hours of it, though I have often been compelled to put up with much less." "It is said," remarked Washburne. "that Napoleon often indulged in only 4 hours sleep, and still preserved all the vigour of his mental faculties." "Well, I, for one, never believed those stories," the general replied. "If the truth were known, I have no doubt it would be found that he made up for his short sleep at night by taking naps during the day."

### BAND CONCERT.

Program for this Afternoon and for To-morrow

Chorus—Day of Judgement ..... Schneider  
Hawaii Pono!

### A CLOSE CALL

American Bark Fresno Damaged in a Typhoon.

The American bark Fresno, Capt. Underwood, thirty-five days from Kobe, Japan, for Puget Sound, was picked up off Point Reyes by the tug Fearless yesterday afternoon and towed into port, half dismantled, with her rudder gone and the hull leaking badly.

The Fresno left Kobe in ballast thirty-five days ago and had a very pleasant voyage up to December 13th, when she was struck by a typhoon in latitude 37° N., longitude 162° E. The bark was tossed about in a frightful sea for hours, and escaped only by a miracle. Her foreyard and topsailyard were carried away in the blow and nearly every sail torn to ribbons. The port rail was also torn off and the rudder gudgeon carried away. An enormous wave swept over the decks and for a few minutes it seemed as if the vessel must founder. She shook off the water and weathered the storm. When the blow was over an examination of the hold revealed the fact that some timbers were sprung and the water in her hold was rising at the rate of an inch an hour.

Captain Underwood had a jury rudder put in and headed for San Francisco, with the most favorable winds. The pumps were kept going day and night, so that the water in the hold did not gain much. The run to port was made in remarkably good time. The Fresno was towed upon Mission flats by the Fearless and remains there until the surveyors determine what damage she has sustained.

The Fresno is owned by Pope & Talbot and has been engaged in the lumber trade. She is about 1200 tons, of American build and is well-known in San Francisco and at Honolulu.—S. F. Chronicle.

### M. M. WATSON DISCHARGED.

The case of M. M. Watson, who was charged with stealing a keg of beer from the Seattle Brewing and Malting Company, was dismissed by Judge Glasgow yesterday afternoon. The judge held that if the prisoner was bright enough to discriminate in favor of pure Rainier Beer he deserved release. On tap or in bottles at the Criterion.

Who built the Pantheon? We don't mean the Pantheon of Ancient History but the modern one on Fort and Hotel. The one with the best reading room in the city. Why? Jim Dodd and Enterprise beer, friendly and courteous treatment by all connected with it, and the fact that everything in stock is of the best quality and old Jim stands by as a true friend to all true men.

## OUR JUDICIAL KINDERGARTEN.

THE INDEPENDENT has lately had occasion to stop unpleasant references to the young inexperienced alleged jurists who W. O. Smith—who knows even less about law than his pets do—has seen fit to invest with responsible offices in our courts. The young fellows have really been doing well lately and criticisms of THE INDEPENDENT have had good effect.

With regret we notice that Judge Perry, recently of Punahou College and of bullock catching proclivities, has broken loose again. Yesterday he was called on to sit as trial Judge in the place of Judge Carter who had business elsewhere and Mr. Antone Perry did so.

D. Lualualei, a young Hawaiian was charged with larceny of a watch and his case was presented to Judge Perry and a Hawaiian jury by the Deputy Attorney General, who, by the way, knows as much about prosecuting as do certain experts about "blue stone." One of the principal witnesses was a disreputable old man, named Parson, who is now serving a term in prison on an unmentionable offense. The jury returned a verdict acquitting Lualualei and the judge evidently got off his base.

Although it has been held in our courts that attorneys cannot poll a jury and such a procedure was denied in the Houghtailing case, the judge, however, ordered the clerk of the court to poll the jury in the case of Lualualei. The result showed that nine jurors had found the man not guilty and three jurors differed from the verdict.

So far we have no kick coming, although a large portion of the community feel surprised over the novel departure from established rules by Judge Perry. The subsequent bad break of the judge cannot go unnoticed however. Judge Perry discharged the nine jurors from further attendance as jurors and they were promptly paid off and sent home.

Now we should like to know whether the judges are to have paramount power in criminal cases, properly brought before a jury or whether the safety and liberty of the people rest in the hands of juries according to the Constitution? It will also be interesting to see how the Circuit judges propose to fill the panel of jurors during the civil cases to be tried during this term.

It is about time that our very young judges try to learn what is expected from them and decide to drop their autocratic tendencies. Justice can not be tampered with and the jurors are the legal upholders of justice according to our laws and constitution. *Ut Jacta Ruat Caelum*, according to proper rules, Mr. Justice Perry.

## FOOD FOR THOUGHT.

Whenever Mr. Hart writes on political topics there is generally something in the contents of his communications which appeals to reflection and common sense alike. In a letter to this morning's Advertiser he appeals for free thought and free expression of opinion on the annexation question, and follows up with what in itself is a strong argument against annexation, if the thought is thoroughly thought out. We reprint that portion of the letter to which we especially refer:

"The late Sir John Seeley, professor of Modern History in the University of Cambridge, and member of the Historical Society of Massachusetts, says: 'In the United States we do indeed see a boundless dominion successfully guided under a democratic system. But the territory in this case, extensive though it be, is all compact and continuous, and the population, however large it may come to be, will still be in the main homogenous. If the United States should come into possession of countries separated from her by the sea, and of different nationality, her position in the world would be at once essentially altered.' \* \* \* The supreme happiness for a country of course is to be self-contained, to have no need to inquire what other nations are doing. Very wisely did Washington advise his countrymen to retain this happiness as long as they could."

"If, sir, any are tempted to argue that the material greatness of the United States necessitates the annexation of these islands and that the time has come when her sons must, ex necessitate, seek for the expansion of that 'boundless dominion' whose shores are washed by two mighty oceans, or emulating, it may be, the wondrous colonial experience of the mother country, consider it wise and patriotic to seek the absorption of Hawaii, then, I say, let them consider calmly and without passion the profound, striking, eye, almost phenomenal differences between the two countries."

"When I say profound, striking and almost phenomenal, I refer not to ethnological or governmental differences, but to the very evident and patent fact of Great Britain being a small island with an ever increasing population, and that is even now, more than three times as dense as that of China! and approaching not far from 400 per square mile! And what, sir, do we find the condition of affairs in the United States that her loyal and steady sons should seek in any way to extend her magnificent and commanding position. We find this: We find a noble and extensive continent in which could be planted forty Great Britains, and with a population of twenty only to the square mile! 'Stagnation and progress' indeed; how can any, hint at the former, with such a vast and open field for the latter?"

"If, sir, as on another occasion I have said, the trials and triumphs of American civilization even now reverberate and echo round a world, what will be the condition of affairs when her rapidly increasing population shall have approximated more closely to that of Europe? In the food for thought here found is there no room to suppose that Washington, the great and good, would not have commended the action of the present chief magistrate of seventy odd millions of Americans, as wise, statesmanlike and prudent. The ethical questions involved are not here touched upon, neither shall I ask your further indulgence to speak of the material advantages that might accrue to this community from annexation. My object has been to endeavor to show that it is compatible with being a good American citizen, to hold views adverse to the idea of the absorption of these islands by the United States. May I also give expression to the thought that, Hawaiian citizens may also be right minded, even though unable to see the advantages of political union with the United States in the same light as those who so strenuously advocate and believe it to be, the ne plus ultra of all that may be hoped for of good for Hawaii."

## TOPICS OF THE DAY.

If, as it appears to be surmised, Chinese highbinders are commencing to thrust their snakey heads above ground, the authorities should promptly act with forceful decision. They will be supported by the respectable and powerful element of the Chinese merchants and their legitimate societies. It will be folly to temporize with these degraded and dangerous criminals, for in so doing, we shall in course of time reap such a harvest of rebellion as San Francisco experienced in the near past when the clans paid no heed to National, State or Municipal laws, and where even to-day revengeful murders among the Chinese are of almost daily occurrence. The strong arm of the law should hunt out and crush the secret criminal societies here, if they exist, before their ramifications become too powerful.

The Advertiser of this morning delivers a well merited rebuke to those journalists who, because of differences of opinion, "abuse their opponents in public in the most offensive and even obscene language." The editor shows some temerity in the delivery of his lecture on journalistic morality so soon after the miserable attack which he made on Captain Julius A. Palmer a short week since, and the more despicable attack on the same gentleman by the editor of the Star, made at the same time and probably concerted. The editors named should take down their dusty Testament and read the rebuke in which the mote and the beam are illustrated so caustically.

The sincerity of Mr. Dole and his supporters, the minority concerned in sugar planting and manufacturing is beautifully illustrated by, if rumor is true, the action of the said minority in sending to Washington no less distinguished a person than Judge Hartwell to prevent adverse action on our reciprocity treaty. If annexation is so sure why bother about the treaty? You will fall between two stools, messieurs. Better, far better, stop straddling and bend all your energies to hold the treaty.

The policy of deception entered upon by "the best government these islands ever had" is exemplified by the statement in one of Mr. Dole's organs that Mr. "persona non grata" Thurston had gone to the United States on his own private business, when it is an open secret that he has gone as the representative of the Annexation Club. Ignoring the scriptural injunction Mr. Thurston has taken both staff and scrip, the latter being well filled.

The Attorney-General has notified the steamship agents that in the future our ancient Sunday laws will be enforced and that steamers will not be allowed to load or unload on Sundays. Very often through steamers are delayed either by waiting for Government mail or through weather and they consequently arrive here on Sundays. A further delay in Honolulu in compliance with our pious Attorney-General's latest *ukase* will possibly interfere seriously with the business of the steamship companies and the result may be that the steamers will not be allowed to touch at Honolulu to the detriment of our commerce. As we can have the band playing "Old Hundreds" and other pleasant waltzes on Sundays we think pious King Bill I. might allow works of necessity to go on. He never kicks against Sunday irrigation on plantations.

If rumor does Minister Cooper credit, he is evidently a believer in the moral that "music bath charms to soothe the savage breast." His mouthful vocal concerts will have a marvelous effect in toning down the acerbities of dogmatic discussion after a few rehearsals. The day may come when like little England the Hawaiian Islands may have her wondrous musical festivals of the "three choirs" attracting to her shores thousands of visitors from far

distant lands, or like Bayreuth become a Mecca of Music, with Minister Cooper as our Wagner. We have material enough here to make those monthly concerts as successful as they will be pleasant and popular if all will join in with a will and command the success which the desire deserves.

### AH! SO COOL.

What a gloriously good old time we are having in this Paradise of the Pacific of ours, while our friends across the shark pond, whom we wish to annex, are being frozen to death or blown to pieces by blizzards. Here in our almost sempiternal Summer we have to try and keep ourselves, our edibles and drinkables deliciously cool.

You all remember those splendid but very economical ICE CHESTS, we had last year. They gave such satisfaction that we have had to import another large stock. They are going so rapidly, you had better get one before they are all gone. From \$9 to \$20 in different sizes.

We still have a few ALASKA REFRIGERATORS. They go cheap in five sizes. Small profits and quick returns being our motto.

Now; Steamers, Hotel, Restaurants, Schools and Large Families cannot do without our eight gallon PRIME WATER COOLER. It is the best invention of the age. We have smaller sizes.

You have all heard also of our famous

The cricket match this afternoon between H. B. M. S. Icarus and the local teams will be played at the baseball grounds. All players should be on hand as early as possible after 2 o'clock. A good game is anticipated.

The Sharpshooters are now classified for their six-month shoot for medals. The highest gold goes to those making a score of 47 or over and the next to 45 or over, the silver medals go to the classes of 43 and 41 or over.

The amount of stamps sold at the Post Office last year was \$63,685.76. There were received 340,635 ordinary letters, 8917 registered and 343,427 prints; and despatched 312,595 ordinary letters, 6712 registered, and 88,357 prints. These figures show a large increase over those of 1895.

The Sharpshooters did some capital shooting last month; the ten highest made the following record: F. Damon, 49; W. E. Wall, 48; F. S. Dodge, J. D. McVeigh, J. B. Gibson, D. W. Corbett and A. C. Wall, 46; J. L. McLean, C. Tracy and W. Forbes, 45; or a total of 462. The forty men made a total of 1743 in 400 shots, a pretty fair average considering.

**Mrs. Carrie Dimond Is Purged of Contempt.**

The defense in the Dimond contempt case called the first witness, Mrs. Dimond, at 3 o'clock yesterday afternoon. The witness denied all the allegations made by the witnesses for the prosecution and her testimony was not shaken by the vigorous cross-examination of Mr. Kinney.

The other defendants were then called and general denials of the alleged charges of bribery were advanced.

Messrs Kinney and Mr. Neumann then addressed the Court on behalf of their respective clients and some very vigorous speeches were delivered.

The Court took the matter under advisement and reserved judgement until Saturday morning.

Judge Carter, this morning after perusing the testimony of the witnesses rendered a verdict to the effect that the charges against the defendants had not been proven and Mrs. Dimond, Waikulani and Carl Leonard, were discharged.

**MARQUARDT-GRAHAM CONCERT**

A Splendid Program for the Farewell Concert.

A large number of tickets have been sold for the Graham-Marquardt concert, which will be given on Monday night, the 8th inst. at the Opera House. Duets by Miss McGrew and Donald de V. Graham, and by Gillig and Graham will be of special interest. Lieutenant Slater, R. N. will sing a solo, Mrs. Marquardt will play the harp and Jamie Wilder of Japan will do "something" for the first time—in public. Altogether a most enjoyable evening may justly be anticipated. The following is the excellent program arranged for the event:

- PART I.**
- Harp Solo—Fantasia Martha Flo'ow Mrs Breitschuk Marquardt
  - Song—Queen of My Heart. Cellier Mr H M Gillig
  - Duet—Maying. A M Smith Miss McGrew and D de V Graham.
  - Song—Love's Sorrow. Lieut Slater, R N
  - something. Mr James Wilder.
  - Duet—The Danube River. Alde Mr H M Gillig and D de V Graham.

- PART II.**
- Violin Solo—Chanson d'Amour. Bendall Miss McGrew.
  - Song—Once. Herry Mr Donald de V Graham.
  - Harp Solo—Mazurka de Concert. Schuecher Mrs Breitschuk Marquardt.
  - Song—Ashore (darling). Throtter Mr H M Gillig
  - Song, Harp Obligato—Winds in the Trees. Thomas Mr Donald de V Graham.

**Arrival of the Doric.**

The O. & O. S. S. Doric, Captain Harry Smith, R. N. R., arrived off the port at 2:15 a. m. to-day in the fast time of 9 days 10 hours from Yokohama. On this run the Doric has beaten her previous record by 8 hours 22 minutes, and that of her sister ship the Coptic by 3 hours. The following cabin passengers are for Honolulu: Capt. P. A. Dithlefsen Mr. and Mrs. J. R. Mott and Dr. A. Haberer, with 137 Chinese in the steerage. There are 20 through passengers for San Francisco with 52 Chinese and 4 Japs. The Doric's freight for this port 253 will be discharged during the day. The steamer leaves to-morrow morning at 7 o'clock.

**The Veriscope.**

Although the threatening weather of last evening militated against a full house at the Opera House there was a large attendance in the upper portion, all present were pleased, amused and astonished at the life-like views presented by the Veriscope. "The McKinley Parade," "The Ferry Boat," the "Empire State Express," and the "New York Fire Department," were marvelously realistic in impersonation, and one almost anxiously waited in expectancy of hearing the figures speak. It is to be hoped that some arrangement can be made for another exhibition. It would without a doubt be well patronized.

**Comments of the Press.**

Says the Chicago Chronicle about the annexation of Hawaii:

"The old objections to annexation still stand with their original force. We do not need the islands, either from a territorial or strategic point of view; they are not worth annexing; the population, save a handful of Maine yankees, is opposed to it; the natives would not make desirable citizens of the United States and, last but by no means least, annexation against the will of the native population would be a crime against civilization."

The Boston Globe says:

NO CAUSE FOR WORRY ABOUT HAWAII.

"It is clear that Mr. Cleveland isn't worrying over the claims of those who declare that Hawaii is ready for annexation, and more than willing. Even among those who, unlike Californians, favor the plan, one of the arguments of the annexationists cannot well be accepted.

They say that if this country does not embrace the opportunity now offered for annexation, some of the great European powers will gobble up the islands.

This argument will exert no pressure upon the President or the people. It argues a singular lack of faith in the doctrine of protecting and safeguarding American rights which ought to be pretty well understood abroad by this time.

Hands off! That is the proclamation which would be made to every foreign power seeking to aggrandize itself at our expense. Annexed or unannexed, Hawaii will be "with" the United States.

It is quite certain that ex-Queen Liliuokalani, now on her way to Washington understands this fact as clearly as President Dole himself."

In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended, and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up. In Honolulu where spring is four seasons in the year, carpenters may work inside or out.

The unusual operations of the past year have had a depressing effect upon edge tools, for like everything else—they give 'way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in eastern markets; they are what carpenters and machinists need all the time and when buying the best they get that which lasts longest and obviate the necessity of "breaking in."

We have the Millers Falls Company ratchet brace, with drill attachment. The Elkin's saw file, Bailey's adjustable blade, wood and iron base planes, Steel tape measures, guaranteed to be accurate. Two-foot rules in ivory and bound with German silver. Olmstead's improved mitre boxes. The "New Roger's" foot power scroll saw with drill and emery attachments. These goods are all guaranteed first-class.

## THE HAGBY CLUB.

A Chat With Some of the Boys.

How the Treatment Affects Them in the Process of Awakening to the New Life of Healthy Bodies and Minds.

"By jingo, old fellow, I never saw you looking so well in your life. Where have you been? Hunting for coffee lands or taking a cruise in the annexation yacht?" Such are the greetings daily exchanged among a large number of men.

"Nowhere. I am a happy martyr to medical science. Wayson has me in hand at the Hagby Club. I don't know how I look, but I do know how I feel, and that is simply, 'bully', so well indeed that I don't feel inclined to experiment with liquor to make me any better."

"Don't you feel inclined to hanker after the wine that is red, or the ingenious and delicious cocktail, or the good old social times with a head in the morning. Isn't the breaking away rather rough?"

"No. The feeling comes upon you gradually and unawares and is difficult to analyze or explain. All men are not alike in their constitutions or in their physical attributes, consequently the sensations of the men under the cure somewhat vary. There is quite a different feeling also, according to the condition in which you are in when you present yourself to the Doctor. If you have just come off a protracted and heavy 'jag' of 'bad stuff', or are on a 'still' and partial one, you have a rather unpleasant 24 or 48 hours as you are being tapered off, and until the tonic tones up your system. When once that gets to work, and especially if you use a little honest will power to only take a 'nip' at the Club, when you actually want it, and will try and throw your mind out of yourself by reading, playing pool, billiards, cards, checkers or chess, or converse with your friends at the Club, mind you, the unpleasant hours soon give way to such pleasant feelings that gradually and almost unconsciously grow upon you, that it is no exaggeration to say that you feel as if you had had a jolly vacation in the country. This feeling grows upon you as the treatment progresses until you can scarcely believe that you are the same man you were a month before. You feel younger and stronger in all respects than ever. Your mind becomes fresher, and your heart appears to be touched with a kindlier sympathy for others, and the selfishness of humanity receives a metaphorical kicking."

"Are there no inconveniences about the cure? How about those injections?"

"Yes, there are temporary inconveniences. First there is the discipline that in breaking old habits creates new ones. Then the injection causes your arms to swell slightly and in some cases to feel sore and bruised and to become discolored for a few hours. At times too, for a brief period there is a dizziness and mistiness about the eyesight, which gradually passes away until the eyesight is absolutely improved. Occasionally too there is a slight headache. The test cure is the most inconvenient. That glass of pure whiskey is bound to come up. Let it come up and all is over if you happen to be a man of your word. After this all depends upon yourself. I can safely assert for myself and for many others with whom I have conversed, that the desire for liquor absolutely passes away from one, and no one seems desirous of proving himself to be a fool by testing whether he can or cannot drink again. Another beneficial result is that treatment knocks out all rheumatic and kindred complaints. Call up and see us at the Club and judge for yourself. Aloha."

Scotch whisky has become one of the favorite beverages in Honolulu during the last year. The different business houses have competed to find the very best brand. The Royal Annex now claims to have imported a whisky which cannot be excelled. T. V. F. is the name and the letters stand for "The Very Finest." This whisky will be served exclusively at the Royal Annex and connoisseurs will do well to step in and taste the T. V. F.

## THE HEALTH BOARD

A Hospital for Hilo—The Importation of Opium.

Minister Smith presided over Thursday's meeting of the Board of Health.

Inspector Monsarratt reported two cows condemned and killed for tuberculosis. The manager of the Woodlawn Dairy reported that he was willing to have his cows inspected, as were all other Dairy men but an objection was made to paying the cost of such examination. Dr. Monsarratt reported 69 and 77 purchasable commodities on his list for the last two weeks.

It was decided that no kokua should leave the Leper Settlement without examination, permission and thorough disinfection. Brothers Jenkins and Hancock of the Mormon Church at Waimea were granted permission to visit the Settlement. Dr. McWayne's resignation was accepted.

Health Agent Reynolds was instructed to look after the necessary repairs at the Wailuku Hospital, and to go ahead and build a hospital at Hilo.

The Board then passed the following important resolutions:

1. That hereafter any importation of opium or preparation thereof containing not more than 1 1/2 percent of morphine or its average equivalent in crude opium may be allowed to pass the Custom House, as other goods, upon the presentation by importers of a special permit from the secretary of the board, all assays to be at the expense of said importers.

2. That the present importation of opium, consigned to a large Chinese house, be assayed by Professor Lyons and George W. Smith, and that special permits be issued for the same.

## CORRESPONDENCE.

(We do not hold ourselves responsible for the opinions of correspondents. Our columns are open to every shade of opinion or party or grievance. Correspondence must not be libelous or indecent and must be accompanied by the name of the writer, not necessarily for publication, but as a guarantee of good faith.)

ED. THE INDEPENDENT:—

Hurrah for annexation—at last we have it. We are sure of it now, because ten or eleven strange United States' Senators have written to a stranger in Honolulu that they will whoop for annexation for all it is worth. But then, one cannot put much faith in a Senator that will expose his principles by letter to a complete stranger out here in mid-ocean. Most generally the open mouthed man is too easily carried along with the tide. He is not to be trusted in a storm. If this government is wise, it will send on to Washington an educated Hawaiian to hypnotise some of those large-mouthed Senators and hold them in the traces of annexation, as they are not to be depended upon without an earnest tutor. For myself, I would recommend Kaulukou, ex-Marshall of the kingdom, a man of great vigor and honesty of purpose. Also, supposed to be a man of strong religious tendency leaning towards the Central Union Church.

## ANNEXATION.

### The Value of Sleep.

About 11 o'clock one night the late Gen. Grant remarked to his staff: "We shall have a busy day to-morrow, and I think we had better get all the sleep we can to-night. I am a confirmed believer in the restorative qualities of sleep, and always like to get at least 7 hours of it, though I have often been compelled to put up with much less." "It is said," remarked Washburne, "that Napoleon often indulged in only 4 hours sleep, and still preserved all the vigour of his mental faculties." "Well, I, for one, never believed those stories," the general replied. "If the truth were known, I have no doubt it would be found that he made up for his short sleep at night by taking naps during the day."

## A CLOSE CALL

American Bark Fresno Damaged in a Typhoon.

The American bark Fresno, Capt. Underwood, thirty-five days from Kobe, Japan, for Puget Sound, was picked up off Point Reyes by the tug Fearless yesterday afternoon and towed into port, half dismantled, with her rudder gone and the hull leaking badly.

The Fresno left Kobe in ballast thirty-five days ago and had a very pleasant voyage up to December 13th, when she was struck by a typhoon in latitude 37° N., longitude 162° E. The bark was tossed about in a frightful sea for hours, and escaped only by a miracle. Her foreyard and topsail yard were carried away in the blow and nearly every sail torn to ribbons. The port rail was also torn off and the rudder gudgeon carried away. An enormous wave swept over the decks and for a few minutes it seemed as if the vessel must founder. She shook off the water and weathered the storm. When the blow was over an examination of the hold revealed the fact that some timbers were sprung and the water in her hold was rising at the rate of an inch an hour.

Captain Underwood had a jury rudder put in and headed for San Francisco, with the most favorable winds. The pumps were kept going day and night, so that the water in the hold did not gain much. The run to port was made in remarkably good time. The Fresno was towed upon Mission flats by the Fearless and remains there until the surveyors determine what damage she has sustained.

The Fresno is owned by Pope & Talbot and has been engaged in the lumber trade. She is about 1200 tons, of American build and is well-known in San Francisco and at Honolulu.—S. F. Chronicle.

## M. M. WATSON DISCHARGED.

The case of M. M. Watson, who was charged with stealing a keg of beer from the Seattle Brewing and Malting Company, was dismissed by Judge Glasgow yesterday afternoon. The judge held that if the prisoner was bright enough to discriminate in favor of pure Rainier Beer he deserved release. On tap or in bottles at the Criterion.

Who built the Pantheon? We don't mean the Pantheon of Ancient History but the modern one on Fort and Hotel. The one with the best reading room in the city. Why! Jim Dodd and Enterprise beer, friendly and courteous treatment by all connected with it, and the fact that everything in stock is of the best quality and old Jim stands by as a true friend to all true men.

## OUR JUDICIAL KINDERGARTEN.

THE INDEPENDENT has lately had occasion to stop unpleasant references to the young inexperienced alleged jurists who W. O. Smith—who knows even less about law than his pets do—has seen fit to invest with responsible offices in our courts. The young fellows have really been doing well lately and criticisms of THE INDEPENDENT have had good effect.

With regret we notice that Judge Perry, recently of Punahou College and of bullock catching proclivities, has broken loose again. Yesterday he was called on to sit as trial Judge in the place of Judge Carter who had business elsewhere and Mr. Antone Perry did so.

D. Lualualei, a young Hawaiian was charged with larceny of a watch and his case was presented to Judge Perry and a Hawaiian jury by the Deputy Attorney-General, who, by the way, knows as much about prosecuting as do certain experts about "blue stone." One of the principal witnesses was a disreputable old man, named Parson, who is now serving a term in prison on an unmentionable offense. The jury returned a verdict acquitting Lualualei and the judge evidently got off his base.

Although it has been held in our courts that attorneys cannot poll a jury and such a procedure was denied in the Houghtailing case, the judge, however, ordered the clerk of the court to poll the jury in the case of Lualualei. The result showed that nine jurors had found the man not guilty and three jurors differed from the verdict.

So far we have no kick coming, although a large portion of the community feel surprised over the novel departure from established rules by Judge Perry. The subsequent bad break of the judge cannot go unnoticed however. Judge Perry discharged the nine jurors from further attendance as jurors and they were promptly paid off and sent home.

Now we should like to know whether the judges are to have paramount power in criminal cases, properly brought before a jury or whether the safety and liberty of the people rest in the hands of juries according to the Constitution? It will also be interesting to see how the Circuit judges propose to fill the panel of jurors during the civil cases to be tried during this term.

It is about time that our very young judges try to learn what is expected from them and decide to drop their autocratic tendencies. Justice can not be tampered with and the jurors are the legal upholders of justice according to our laws and constitution. *Fiat Justitia Ruat Cælum*, according to proper rules, Mr. Justice Perry.

## FOOD FOR THOUGHT.

Whenever Mr. Hart writes on political topics there is generally something in the contents of his communications which appeals to reflection and common sense alike. In a letter to this morning's Advertiser he appeals for free thought and free expression of opinion on the annexation question, and follows up with what in itself is a strong argument against annexation, if the thought is thoroughly thought out. We reprint that portion of the letter to which we especially refer:

"The late Sir John Seeley, professor of Modern History in the University of Cambridge, and member of the Historical Society of Massachusetts, says: 'In the United States we do indeed see a boundless dominion successfully guided under a democratic system. But the territory in this case, extensive though it be, is all compact and continuous, and the population, however large it may come to be, will still be in the main homogenous. If the United States should come into possession of countries separated from her by the sea, and of different nationalities, her position in the world would be at once essentially altered. \* \* \* The supreme happiness for a country of course is to be self-contained, to have no need to inquire what other nations are doing. Very wisely did Washington advise his countrymen to retain this happiness as long as they could.'

"If, sir, any are tempted to argue that the material greatness of the United States necessitates the annexation of these islands and that the time has come when her sons must, ex necessitate, seek for the expansion of that 'boundless dominion' whose shores are washed by two mighty oceans, or emulating, it may be, the wondrous colonial experience of the mother country, consider it wise and patriotic to seek the absorption of Hawaii, then, I say, let them consider calmly and without passion the profound, striking, aye, almost phenomenal differences between the two countries.

"When I say profound, striking and almost phenomenal, I refer not to ethnological or governmental differences, but to the very evident and patent fact of Great Britain being a small island with an ever increasing population, and that is even now, more than three times as dense as that of China and approaching not far from 400 per square mile! And what, sir, do we find the condition of affairs in the United States that her loyal and steady sons should seek in any way to extend her magnificent and commanding position. We find this: We find a noble and extensive continent in which could be planted forty Great Britains, and with a population of twenty only to the square mile! 'Stagnation and progress' indeed; how can any, hint at the former, with such a vast and open field for the latter?

"If, sir, as on another occasion I have said, the trials and triumphs of American civilization even now reverberate and echo round a world, what will be the condition of affairs when her rapidly increasing population shall have approximated more closely to that of Europe? In the food for thought here found is there no room to suppose that Washington, the great and good, would not have commended the action of the present chief magistrate of seventy odd millions of Americans, as wise, statesmanlike and prudent. The ethical questions involved are not here touched upon, neither shall I ask your further indulgence to speak of the material advantages that might accrue to this community from annexation. My object has been to endeavor to show that it is compatible with being a good American citizen, to hold views adverse to the idea of the absorption of these islands by the United States. May I also give expression to the thought that, Hawaiian citizens may also be right minded, even though unable to see the advantages of political union with the United States in the same light as those who so strenuously advocate and believe it to be, the ne plus ultra of all that may be hoped for of good for Hawaii.

## TOPICS OF THE DAY.

If, as it appears to be surmised, Chinese highbinders are commencing to thrust their snakey heads above ground, the authorities should promptly act with forceful decision. They will be supported by the respectable and powerful element of the Chinese merchants and their legitimate societies. It will be folly to temporize with these degraded and dangerous criminals, for in so doing, we shall in course of time reap such a harvest of rebellion as San Francisco experienced in the near past when the clans paid no heed to National, State or Municipal laws, and where even to-day revengeful murders among the Chinese are of almost daily occurrence. The strong arm of the law should hunt out and crush the secret criminal societies here, if they exist, before their ramifications become too powerful.

The Advertiser of this morning delivers a well merited rebuke to those journalists who, because of differences of opinion, "abuse their opponents in public in the most offensive and even obscene language." The editor shows some temerity in the delivery of his lecture on journalistic morality so soon after the miserable attack which he made on Captain Julius A. Palmer a short week since, and the more despicable attack on the same gentleman by the editor of the Star, made at the same time and probably concerted. The editors named should take down their dusty Testament and read the rebuke in which the mote and the beam are illustrated so caustically.

The sincerity of Mr. Dole and his supporters, the minority concerned in sugar planting and manufacturing is beautifully illustrated by, if rumor is true, the action of the said minority in sending to Washington no less distinguished a person than Judge Hartwell to prevent adverse action on our reciprocity treaty. If annexation is so sure why bother about the treaty? You will fall between two stools, messieurs. Better, far better, stop straddling and bend all your energies to hold the treaty.

The policy of deception entered upon by "the best government these islands ever had" is exemplified by the statement in one of Mr. Dole's organs that Mr. "persona non grata" Thurston had gone to the United States on his own private business, when it is an open secret that he has gone as the representative of the Annexation Club. Ignoring the scriptural injunction Mr. Thurston has taken both staff and scrip, the latter being well filled.

The Attorney-General has notified the steamship agents that in the future our ancient Sunday laws will be enforced and that steamers will not be allowed to load or unload on Sundays. Very often through steamers are delayed either by waiting for Government mail or through weather and they consequently arrive here on Sundays. A further delay in Honolulu in compliance with our pious Attorney-General's latest ukase will possibly interfere seriously with the business of the steamship companies and the result may be that the steamers will not be allowed to touch at Honolulu to the detriment of our commerce. As we can have the band playing "Old Hundred" and other pleasant waltzes on Sundays we think pious King Bill I. might allow works of necessity to go on. He never kicks against Sunday irrigation on plantations.

If rumor does Minister Cooper credit, he is evidently a believer in the moral that "music hath charms to soothe the savage breast." His monthly vocal concerts will have a marvelous effect in toning down the acerbities of dogmatic discussion after a few rehearsals. The day may come when like little England the Hawaiian Islands may have her wondrous musical festivals of the "three choirs" attracting to her shores thousands of visitors from far

distant lands, or like Bayreuth become a Mecca of Music, with Minister Cooper as our Wagner. We have material enough here to make those monthly concerts as successful as they will be pleasant and popular if all will join in with a will and command the success which the desire deserves.

## TO-NIGHT'S CONCERT.

### AH! SO COOL.

What a gloriously good old time we are having in this Paradise of the Pacific of ours, while our friends across the shark pond, whom we wish to annex, are being frozen to death or blown to pieces by blizzards. Here in our almost sempiternal Summer we have to try and keep ourselves, our edibles and drinkables deliciously cool.

You all remember those splendid but very economical ICE CHESTS, we had last year. They gave such satisfaction that we have had to import another large stock. They are going so rapidly, you had better get one before they are all gone. From \$9 to \$20 in different sizes.

We still have a few ALASKA REFRIGERATORS. They go cheap in five sizes. Small profits and quick returns being our motto.

Now, Steamers, Hotel, Restaurants, Schools and Large Families cannot do without our eight gallon PRIME WATER COOLER. It is the best invention of the age. We have smaller sizes.

You have all heard also of our famous

## GATE CITY NATURAL STONE FILTERS.

Wall, 46; J. L. McLean, C. Tracy and W. Forbes, 45; or a total of 462. The forty men made a total of 1743 in 400 shots, a pretty fair average considering.

**NOT PROVEN.**

Mrs. Carrie Dimond Is Purged of Contempt

The defense in the Dimond contempt case called the first witness, Mrs. Dimond, at 3 o'clock yesterday afternoon. The witness denied all the allegations made by the witnesses for the prosecution and her testimony was not shaken by the vigorous cross-examination of Mr. Kinney.

The other defendants were then called and general denials of the alleged charges of bribery were advanced.

Messrs Kinney and Mr. Neumann then addressed the Court on behalf of their respective clients and some very vigorous speeches were delivered.

The Court took the matter under advisement and reserved judgement until Saturday morning.

Judge Carter, this morning after perusing the testimony of the witnesses rendered a verdict to the effect that the charges against the defendants had not been proven and Mrs. Dimond, Waikulani and Carl Leonard, were discharged.

**MARQUARDT-GRAHAM CONCERT**

A Splendid Program for the Farewell Concert.

A large number of tickets have been sold for the Graham-Marquardt concert, which will be given on Monday night, the 8th inst. at the Opera House. Duets by Miss McGrew and Donald de V. Graham, and by Gillig and Graham will be of special interest. Lieutenant Slater, R. N. will sing a solo, Mrs. Marquardt will play the harp and Jamie Wilder of Japan will do "something" for the first time—in public. Altogether a most enjoyable evening may justly be anticipated. The following is the excellent program arranged for the event:

**Arrival of the Doric.**

The O. & O. S. S. Doric, Captain Harry Smith, R. N. R., arrived off the port at 2:15 a. m. to-day in the fast time of 9 days 10 hours from Yokohama. On this run the Doric has beaten her previous record by 8 hours 22 minutes, and that of her sister ship the Ceptic by 3 hours. The following cabin passengers are for Honolulu: Capt. P. A. Dithlefsen Mr. and Mrs. J. R. Mott and Dr. A. Haberer, with 137 Chinese in the steerage. There are 20 through passengers for San Francisco with 52 Chinese and 4 Japs. The Doric's freight for this port 253 will be discharged during the day. The steamer leaves to-morrow morning at 7 o'clock.

**The Veriscope.**

Although the threatening weather of last evening militated against a full house at the Opera House there was a large attendance in the upper portion, all present were pleased, amused and astonished at the life-like views presented by the Veriscope. "The McKinley Parade," "The Ferry Boat," the "Empire State Express," and the "New York Fire Department," were marvelously realistic in impersonation, and one almost anxiously waited in expectancy of hearing the figures speak. It is to be hoped that some arrangement can be made for another exhibition. It would without a doubt be well patronized.

Dimities and French Muslins, Plain and Dotted Swiss in all qualities at Kerr's.

**Comments of the Press.**

Says the Chicago Chronicle about the annexation of Hawaii:

"The old objections to annexation still stand with their original force. We do not need the islands, either from a territorial or strategic point of view; they are not worth annexing; the population, save a handful of Maine yankees, is opposed to it; the natives would not make desirable citizens of the United States and, last but by no means least, annexation against the will of the native population would be a crime against civilization."

The Boston Globe says:

NO CAUSE FOR WORRY ABOUT HAWAII.

"It is clear that Mr. Cleveland isn't worrying over the claims of those who declare that Hawaii is ready for annexation, and more than willing. Even among those who, unlike Californians, favor the plan, one of the arguments of the annexationists cannot well be accepted.

They say that if this country does not embrace the opportunity now offered for annexation, some of the great European powers will gobble up the islands.

This argument will exert no pressure upon the President or the people. It argues a singular lack of faith in the doctrine of protecting and safeguarding American rights which ought to be pretty well understood abroad by this time.

Hands off! That is the proclamation which would be made to every foreign power seeking to aggrandize itself at our expense. Annexed or unannexed, Hawaii will be "with" the United States.

It is quite certain that ex-Queen Liliuokalani, now on her way to Washington understands this fact as clearly as President Dole himself."

If there is one thing better than another in far off Hawaii it is that which suggests a low temperature. Ice House Goods is the thing. By the Australia we received Fresh California Celery, Cauliflour, Yellow Turnips, Sprouts Red Cabbage, Horse Radish, Quail, Frozen Eastern and California Oysters, Mallard and Teal Ducks, Salmon and Sole, Tamales, Frank Furters and Bologna Sausages, Fancy Cheese, Naval Oranges, Apples, Lemons, New Kidney Potatoes, Onions, California Creamery Block Butter.

These are the lines we receive by steamer; they are sold in short order because people know what is coming and they are ready. But this time we had an extra quantity and can supply customers for the next few days.

**W.W. DIMOND'S**

In many parts of "the land of the free and the home of the brave" at this time of the year building operations are suspended, and every man has his eye on the coal dealer while watching the water pipes showing a tendency to freeze up. In Honolulu where spring is four seasons in the year, carpenters may work inside or out.

The unusual operations of the past year have had a depressing effect upon edge tools, for like everything else—they give 'way with too constant use. We have, in view of the prospective demand, made a big buy of the finest grade of tools obtainable in eastern markets; they are what carpenters and machinists need all the time and when buying the best they get that which lasts longest and obviate the necessity of "breaking in."

We have the Millers Falls Company ratchet brace, with drill attachment. The Elkin's saw file. Bailey's adjustable blade, wood and iron base planes, Steel tape measures, guaranteed to be accurate. Two-foot rules in ivory and bound with German silver. Olmstead's improved mitre boxes. The "New Roger's" foot power scroll saw with drill and emery attachments. These goods are all guaranteed first-class.

**THE HAGBY CLUB.**

**A Chat With Some of the Boys.**

How the Treatment Affects Them in the Process of Awakening to the New Life of Healthy Bodies and Minds.

"By jingo, old fellow, I never saw you looking so well in your life. Where have you been? Hunting for coffee lands or taking a cruise in the annexation yacht?" Such are the greetings daily exchanged among a large number of men.  
 "Nowhere. I am a happy martyr to medical science. Wayson has me in hand at the Hagby Club. I don't know how I look, but I do know how I feel, and that is simply, 'bully', so well indeed that I don't feel inclined to experiment with liquor to make me any better."

"Don't you feel inclined to hanker after the wine that is red, or the ingenious and delicious cocktail, or the good old social times with a head in the morning. Isn't the breaking away rather rough?"

"No. The feeling comes upon you gradually and unawares and is difficult to analyse or explain. All men are not alike in their constitutions or in their physical attributes, consequently the sensations of the men under the cure somewhat vary. There is quite a different feeling also, according to the condition in which you are in when you present yourself to the Doctor. If you have just come off a protracted and heavy 'jag' of 'bad stuff', or are on a 'still' and partial one, you have a rather unpleasant 24 or 48 hours as you are being tapered off, and until the tonic tones up your system. When once that gets to work, and especially if you use a little honest will power to only take a 'nip' at the Club, when you actually want it, and will try and throw your mind out of yourself by reading, playing pool, billiards, cards, checkers or chess, or converse with your friends at the Club, mind you, the unpleasant hours soon give way to such pleasant feelings that gradually and almost unconsciously grow upon you, that it is no exaggeration to say that you feel as if you had had a jolly vacation in the country. This feeling grows upon you as the treatment progresses until you can scarcely believe that you are the same man you were a month before. You feel younger and stronger in all respects than ever. Your mind becomes fresher, and your heart appears to be touched with a kindlier sympathy for others, and the selfishness of humanity receives a metaphorical kicking."

"Are there no inconveniences about the cure? How about those injections?"

"Yes, there are temporary inconveniences. First there is the discipline that in breaking old habits creates new ones. Then the injection causes your arms to swell slightly and in some cases to feel sore and bruised and to become discolored for a few hours. At times too, for a brief period there is a dizziness and mistiness about the eyesight, which gradually passes away until the eyesight is absolutely improved. Occasionally too there is a slight headache. The test cure is the most inconvenient. That glass of pure whiskey is bound to come up. Let it come up and all is over if you happen to be a man of your word. After this all depends upon yourself. I can safely assert for myself and for many others with whom I have conversed, that the desire for liquor absolutely passes away from one, and no one seems desirous of proving himself to be a fool by testing whether he can or cannot drink again. Another beneficent result is that treatment knocks out all rheumatic and kindred complaints. Call up and see us at the Club and judge for yourself. Aloha."

To the Louvre for wines, the best of good cheer.

To the Louvre for liquors, so mellow and pure.

To the Louvre, we'll go and buy to be sure.

To find a beer to suit all tastes Was not an easy battle.

But the Louvre won when it obtained That favorite draught Seattle.

Scotch whisky has become one of the favorite beverages in Honolulu during the last year. The different business houses have competed to find the very best brand. The Royal Annex now claims to have imported a whisky which cannot be excelled. T. V. F. is the name and the letters stand for "The Very Finest." This whisky will be served exclusively at the Royal Annex and connoisseurs will do well to step in and taste the T. V. F.
