# Gazette Supplement, July 15, 1885.

## Late Foreign News.

### ENGLISH.

LONDON, June 27.—Charles Warren Adams and Miss Mildred Coleridge, daughter of the Lord Chief-Justice of England, were married to-day. The maternal uncle was the officiating clergyman. The marriage was private. Lord Coleridge was asked by his daughter to attend her wedding. He refused. No other members of the family of Lord Coleridge were invited. Invitations were, however, issued to and accepted by all the family of the late Lady Coleridge and they were present at the wedding.

LONDON, June 24.—The Geographical Society is mapping out another African expedition, to be under the expedition of Mr. Last. It is intended that the expedition will start in August next from Zanzibar and proceed thence to Lindy.

LONDON, June 24.—Sir Henry Drummond Wolff, at present Member of Parliament for Portsmouth, will go to Cairo forthwith as Envoy Extraordinary and Minister Plenipotentiary, with the rank of Privy Councillor.

The Duke of Marlborough is organizing opposition to the re-election of his brother, Lord Randolph Churchill, for Woodstock. John Bennett is charged as the Liberal candidate.

LONDON, June 23.—The Queen has confirmed Lord Salisbury's Cabinet. The members of the Cabinet proper are: Lord Salisbury, Sir Stafford Northcote, Sir Michael Hicks-Beach, Sir Harding Gifford, Viscount C. Ranbrooke, Lord Harrowby, Sir Richard Assheton Cross, Colonel Frederick Stanley, Right Hon. William H. Smith, Lord Randolph Churchill, Lord George Hamilton, Lord John Manners, the Duke of Richmond and Gordon, Hon. Edward Stanhope, the Earl of Carnarvon and the Right Hon. Edward Gibson.

In addition to the names sent in there dispatches last night the following are unofficially but definitely learned this afternoon as members of the new Ministry: Postmaster-General, Lord John Manners; Attorney-General for Ireland, Mr. Mount-Ridley; Hon. Edward Gibson, besides being Lord Chancellor of Ireland, will have a seat in the Cabinet—an unusual honor. The Chancellor of the Duchy of Lancaster will be Henry Chaplin. It is believed that the Right Hon. Sir William Hart Dyke will be Chief Secretary for Ireland. Both the old and new Ministers will go to Windsor to-morrow, the former to surrender and the latter to receive the seals of office.

The following appointments will be made: First Commissioner of Works, Right Hon. David R. Plunkett; Parliamentary Secretary to the Treasury, Rowland Winn; Parliamentary Secretary to the Indian Office, Lord Harris; Rectory to the Admiralty, Charles T. Ritchie; Civil Lord of the Admiralty, Ellis Ashmead Bartlett.

### EUROPEAN.

ROME, July 1.—Signor Haax, editor of the *Journal de Rome*, an ultramontane organ, has resigned at the request of the Pope.

BERLIN, July 1.—The Diet of Brunswick by a unanimous vote adopted a resolution declaring that the succession of the Duke of Cumberland to the throne of Brunswick would be incompatible with the peace and security of the German Empire.

MADRID, July 1.—The total number of new cases of cholera reported yesterday from the infected districts is 1,210 and the total number of deaths 615.

PARIS, June 30.—Terrific storms have prevailed recently in the Provinces. The destruction of property by winds and floods has been enormous. Eight persons were killed by lightning.

ROME, June 30.—Signor Depretis, Prime Minister, has formed a new Ministry by taking, *ad interim*, the Foreign portfolio himself, vice Signor Mancini. Signor Tassani is the Minister of Justice, and otherwise the Cabinet is unchanged.

CAIRO, June 30.—A dispatch from Dongola states that the Manassa tribe made a raid upon old Dongola. One hundred camels were secured by the raiding party. The Shagiyeh tribe have given in their submission to the Mahdi.

LONDON, June 30.—Russian advices from Vladivostok say that a Russian steamship which attempted to enter Port Hamilton was intercepted and forbidden to do so by an English man-of-war. The English are said to be fortifying the port.

LONDON, June 30.—A dispatch from Teheran states that 1000 Persians are at work constructing the Transcaspian Railway. Warlike preparations are still being continued by Russia. Rumors are in circulation in the bazars of Teheran that war will probably occur after the Transcaspian

Railway is completely to Merv. The Russians are bridging the river Murghab, on the confines of Afghanistan.

NEW YORK, June 30.—A *Sun* special from London of June 29th says: The death of Emperor William promises to be the next great sensation in Europe. Extraordinary precautions are being taken to prevent the sending of any telegrams revealing his real condition, but private letters are not subject to official censorship, and they give such discouraging forecasts that the news of his death is daily expected.

LONDON, June 29.—The Berlin *Post*, in an article supposed to have been inspired by Bismarck, hints at a desire on the part of Germany for an alliance with England. The *Neue Freiszeit* of St. Petersburg says Russia ought not to forget that Salisbury and Randolph Churchill always have been anxious to form an Anglo-German alliance against Russia.

PARIS, June 29.—A terrible storm of wind and rain swept over this city to-day. Cellars were flooded, railways washed out and many buildings in process of erection were damaged or demolished. A section of one street sank into the sewer and twenty persons were plunged into the water. Most of them were in an exhausted and almost dying condition when rescued. A boat containing twelve persons capsized on the Seine and several were drowned. In the department of the Vosges seven houses and two bridges were destroyed by the flood.

PARIS, June 29.—Rochefort says that Olivier Pain was murdered before the dispatch of the telegrams annulling the reward of £100 which was said to have been offered by a British Colonel for the head of Pain. The *Figaro* says: Pain never reached the camp of El Mahdi. He was detained among the Bedouins, who finally killed him.

BOMBAY, June 29.—It is reported from Cabul that Isa Khan, supported by Russian allies, has risen against Abdullah Khan. Isa Khan marched upon Khanabad and seized the treasure there, valued at £1,000,000, belonging to the Ameer of Afghanistan. Political difficulties in Kashmir are becoming serious and reinforcements of troops are going northward.

Abdullah Khan is the Governor of Kunduz, an extreme northern province of Afghanistan. The town of Khanabad is situated about sixty miles south of the river Oxus, which river separates it from the Russian-protected State of Bokhara. Khanabad was the headquarters of the present Ameer of Afghanistan before he was summoned to the throne, and there also took place the negotiations between the Ameer and the British officers.

It is reported that typhoid fever is raging in Tonquin among the reserve troops from Marseilles.

PARIS, June 28.—Advices from Tonquin state that heavy storms have prevailed over the region in which the Fishery islands are situated, in the water between the island of Formosa and the mainland of China. Two French torpedo boats were sunk during these storms, but the crews were saved.

MADRID, June 28.—Congress has voted the Cuban budget. The expenses are estimated at \$31,000,000 and the revenue at \$27,000,000. The Bank of Spain will loan the difference. The budget includes a loan of \$20,000,000 guaranteed by the Spanish Treasury to reimburse the Bank of Spain and other foreign banks for loans to the Cuban Treasury and to cover a deficit of \$11,000,000 in the previous budget. The Senate approved the raising of \$8,000,000 at a light percentage, the payment of the loan not to be guaranteed by Spain, however, to build railways in Central Cuba. The Cuban Treasury will guarantee the interest on the loan.

ROME, June 26.—The Pope gave an audience to-day to the ex-Bishop of San Francisco. The latter was accompanied by five Dominican priests.

PARIS, June 26.—The Senate to-day unanimously approved the credit of 10,000 francs for a public funeral to the late Admiral Courbet.

CAIRO, June 26.—Lord Wolseley has received the report that Olivier Pain died of fever. The report has not been confirmed in Paris, however, where more credence is given to the recent report that the Mahdi had sent him to India, and that he had arrived at Pondicherry disguised as a Catholic clergyman.

MADRID, June 26.—The Republic journals are clamoring for a coalition of all Republican sections to prepare for the impending struggle. The *Republic*, alluding to a revolution says: "A few days ago it was probable—to-day it is certain." The *Epoca* and other Ministerial journals are very energetically urging measures of suppression. The public are excited.

LONDON, June 26.—A violent earthquake was felt in the Department of the Nord, France, yesterday. The damage was slight.

ROME, June 24.—Signor Depretis announced in the Chamber of Deputies to-day that he had been charged by King Humbert to form a Cabinet. He stated that Count Cadorna would be Foreign Minister.

### Visible Stars.

The number of the stars visible to the naked eye is commonly greatly overestimated. Let one begin to count the stars and the false impression is soon dispelled. The whole number of stars down to the fifth magnitude inclusive is hardly more than 1,500. Stars of the sixth magnitude are the finest specks of light, visible only in a favorable state of the atmosphere, and these included will not bring the count much above 4,000, except for persons who have extraordinary keenness of sight.

### Plates of Gold.

The throne of the Empress of Russia is completely covered with plates of gold, and contains 1,500 rubies and 8,000 turquoises, besides many other rare and costly gems. The throne of the Czar, known as the diamond throne, is truly a marvel. It is generally conceded that Russia possesses more precious stones than any other nation, a majority of which were procured at the expense of blood. The jewels in the Cathedral of Moscow alone are valued at \$12,000,000.

### Great Britain's Bonds.

English consols which have of late been the most watched quotation on the markets of the world, amount in value to \$3,500,000,000, on which the annual interest is \$145,000,000. They constitute a perpetual obligation of the United Kingdom, bearing 3 per cent. interest and representing an irredeemable principal. For seven years back they have not been quoted as low as at present, their fluctuations being confined to between 90 and 100, closing yesterday at 95 and a fraction. The idea of the consol, and wherein it differs from our national debt, is that the principal may vary in amount, but the interest never. The word consol, by-the-way, is an abbreviation of "consolidated annuities."

### The Czar's Domain.

One seventh part of the land surface of the earth, and one twenty-eight part of its whole area constitute the dominion of the Czar of all the Russias. More than 100,000 people call him father, and are under his absolute government. In Russia a child is born on an average every eight seconds throughout the year, and a death occurs every eleven seconds. At the present rate of increase the population will double in about sixty years. But Russia is very far behind most civilized nations in the care of children and in the preservation of life. Statistics show that 60 per cent of all the children die under the age of five years. The average duration of life in Russia is only twenty-six years, which is much below the average in the Western countries of Europe and in the United States.
