THE SUGAR SUPPLY.

The American Sugar Refinery Closes Down.

C. W. Havemeyer of New York Making an Inventory of the Stock—Trying to Secure Spreckels' Co-Operation.

[S. F. Call, March 27th.]

Sugar dealers and wholesale merchants down town are much exercised over the fact that the American Sugar Refinery closed its doors and ceased the manufacture of sugar on Saturday night last. The directors answer all inquiries by the statement that the "shut-down" is only a temporary one. The only reason they allege is that the demand for sugar of the company's refinery is greater than its capacity to supply, and that the cessation of operations is to permit the enlargement of the engine house and the addition of new machinery.

C. W. Havemeyer of the great refining firm of Havemeyer & Co. of New York, is now in the city, staying at the Colonnade House. He was engaged yesterday taking an inventory of the stock of the American Refinery, assisted by employes of the firm.

C. A. Spreckels was interviewed by a "Call" reporter in connection with the matter. "There is no further doubt," he said, "that the American Refinery has joined the trust. The stoppage of work there and the presence of Mr. Havemeyer in the city are unmistakeable evidences of the fact. "It is claimed," he continued, "that they will commence work again in a few days, but I am earnestly of the opinion that their stoppage will be of somewhat longer duration."

"The reasons for the American's action," continued Mr. Spreckels, "I cannot yet see. The California not being a member of the trust, and the competing works being closed down, gives us actually the entire command of the Coast trade. It may be that they hope to induce sufficient demand for our sugar to keep us out of the Texas, Colorado and Missouri River markets, but at present it is quite impossible to tell what is in the wind."

A merchant prominent in the sugar business said to the reporter: "Though the market is yet undisturbed by the stoppage of the American Refinery, I am convinced it will not remain so."

One of the Directors of the American Sugar Refinery, who requested that his name be withheld, stated to a reporter that negotiations with the trust were not yet concluded. He said: "We have been in negotiations with them for some time past, but nothing positive has yet come of it. All depends on obtaining Spreckels' consent to join in. If he refuses, the trust, so far as the Pacific Coast is concerned, will come to nothing."

W. W. Montague, another Director, said that the stoppage of the refinery had nothing to do with the newspapers or the public. It was private business, and he was unable to see, he remarked, why people wanted to know anything about it.

Mr. Greenbaum, another large stockholder in the refinery, assured a reporter that the stoppage was only temporary.

F. Castle, of the firm of Castle Bros., said the American Refinery had in immense stock on hand and was supplying orders as fast as they came in.

Louis Saroni, another large dealer in sugar, said that at present the market showed no signs of disturbance. He did not believe sugar was going up in price.

Arrival of the Bark Natuna.

The British iron bark Natuna, Captain Hans Grahn, arrived yesterday afternoon, after a splendid run of 126 days from Liverpool, with 1,800 tons of general merchandise to Messrs. F. A. Schaefer & Co. Chief Officer Joseph Reardon gives the following report: Sailed from Liverpool November 29th and experienced fine breezes to Cape Horn. Crossed the Equator in the Atlantic in longitude 29 deg. W. on December 31st, 33 days out, and on January 26th reached latitude 50 deg. S. Passed through the Straits de la Maire January 29th and on the following day was off Cape Horn, 63 days out. Experienced very heavy weather and a series of gales there, and several sails were carried away. The weather soon moderated, and on February 8th reached 50 deg. S. in the Pacific, having accomplished an unusually smart passage of thirteen days in rounding the Horn. Thence had light winds to latitude 5 deg. N., which greatly retarded the vessel's progress. Crossed the Equator in the Pacific March 16th, 108 days out. Sighted Hawaii at 6 a. m. yesterday and dropped anchor in Honolulu harbor at 5 o'clock last evening. The Natuna was here two years ago.

THE SUGAR TRUST.

Colonel Spreckels as a Witness Before the House Committee.

WASHINGTON, March 23d.—The House Committee on Manufactures resumed the investigation in the Sugar Trust matter this morning. Claus Spreckels of San Francisco was examined.

"There were two refineries in operation on the Pacific Coast," the witness said, "the American refinery, with a capacity of 500,000 or 600,000 pounds daily, and witness' refinery, with a capacity of 1,200,000 pounds of raw sugar. This year witness' refinery used about 40,000 tons, or a third of the annual crop which came from Hawaii; 40,000 or 50,000 tons from the Philippine Islands, and about 10,000 tons tons from Central America. The price of raw sugar from Hawaii was formerly fixed by the price in Manila, but for the last three years it had been regulated by the New York market."

The trust combination has undoubtedly tended to lower the price of raw sugar and raised the price of refined sugar. Sugar was cheaper in San Francisco than in New York, but, of course, when sugar went up in New York it went up in San Francisco.

Representative Wilson—Then by remaining out you have reaped the same benefits as those who have gone into the trust?

Answer—Correct.

Question—Then the trust is good for you?

Answer—Well, I don't know so much about that. The trust may say, "Spreckels won't join the trust, but we will crush him out. We will put the price of sugar in San Francisco down to five cents and make our profit here." I have come East to start a factory, so as to get my share here.

Q.—This investigation is to ascertain whether the tendency of these combinations is injurious to the interests of consumers. Now, as a matter of fact, has not their effect been to produce competition and lessen the price of sugar instead of producing an opposite effect?

A.—I don't agree with you. They are not going to form trusts to work for the people. They are going to work for their pockets.

Q.—The trust people say that your building of an Eastern refinery is only a mere pretext?

A.—Yes, there has been some talk of it being a bluff. You will see what I will do. I do not bluff, but when they bluff I will make them show their hands.

Speaking of the probable growth of the beet sugar industry in this country, the witness said if the manufacturers could be sure of a certain amount of protection there was no question but what in eight or ten years the beet production would supply this country with sugar. John E. Searles had requested the witness to go in the trust. The witness did not remember what inducements that gentleman offered. He (the witness) remembered asking how he could get out of the trust, after once being in, and was told that once in, you could never get out. Free sugar, he said, would break up the trust, but it would also destroy the sugar industry in this country. "If you take the duty off you take a million and a half from me and my associates, but if it's for the benefit of the American people, why should I alone be favored? I can't take anything along with me. I have worked for Claus Spreckels all my life, and now I am going to work for the American people."

KALAKAUA'S ISLAND.

Why the Railroad from Hilo to Kohala Will Not Be Built.

[S. F. Bulletin, March 24th.]

Hon. Samuel G. Wilder of Honolulu, a prominent citizen of the Island Kingdom, arrived in the city yesterday from the East, after a brief visit to England. He went to London with the avowed purpose of securing the aid of London capitalists and money-lenders for a scheme to build a railroad on the island of Hawaii, to run from Hilo to Kohala, a distance of about one hundred miles. His idea was to float $2,000,000 of bonds of this private loan and then to return and begin the construction of the line. The road, as surveyed, was to run through various sugar plantations, and would prove, it was claimed, of great benefit in developing the island. He now reports the failure of his efforts to secure the desired loan. The negotiations were pending in London, when a report came there of a disastrous tidal wave in the Pacific, which washed away wharves and caused much damage to shipping in the island harbors. This report alarmed the English capitalists, and following soon after this came reports that Claus Spreckels was engaged in working up the beet sugar industry in this country to the discouragement of sugar cane culture on the islands. The combined effect of these reports from the Hawaiian Kingdom resulted in the failure of the railroad loan negotiations. There were other matters, for which aid was desired, that suffered with the railroad scheme. One was a plan for a syndicate to buy up many of the old sugar plantations, and the other was to organize a colonizing corporation, with the idea of bringihg out immigrants to buy and settle on these plantations. Mr. Wilder will return to Honolulu on the steamer Australia, which is announced to sail on Tuesday next.

LATEST NEWS.

The Australia Brings Dates to March 27th, Inclusive.

The steamship Australia, which arrived yesterday, brings dates to March 27th. There is nothing of great importance. Following is a summary:

Kuanalua Namokueha vs. Kipi (k), ejectment. Before a Hawaiian jury. Still on. C. Brown for plaintiff, W. A. Kinney for defendant.

A dispatch, dated Berlin, March 24th, says that the situation between the central allies and Russia remains unchanged. The only alterations arise from the visit of the King of Roumania to Vienna, which has resulted in a definite treaty under which Austria pledges herself to resist any violence of Roumanian Territory. The Emperor's decree of March 21st, authorizing Crown Prince William to represent him in the transaction of State business, is now recognized as tantamount to the creation of a co-regency.

Mail Matters.

The Post Office employees had a lively time of it yesterday. The Australia brought a large mail, consisting of thirty-seven well filled bags. It reached the office at 1:30 p. m. By steady work the foreign mail for Maui, Hawaii and Kauai was dispatched, besides the domestic mail. The island steamers were delayed a little beyond their usual time, but the residents of the other islands will appreciate receiving their foreign mail on time.

H. B. M. S. CAROLINE.

The British Flag Hoisted on Three Islands in the Pacific.

Shortly before 5 o'clock last evening H. B. M. S. Caroline, Captain Sir William Wiseman, Bart., steamed into the harbor, anchored in the stream and saluted the U. S. flagship Vandalia. The Caroline left Honolulu March 8th under sealed orders and steamed to Fanning's Island, reaching there on the 14th, anchoring inside the lagoon. The next morning at 8 o'clock Captain Wiseman landed with marines and blue jackets and took possession of the island. The Captain read the proclamation, the British flag was hoisted and the marines fired a salute.

The Caroline left Fanning's Island on the 15th for Christmas Island, reaching there on the 16th. The next morning took possession of the island, the same form being gone through as at Fanning's Island.

Left Christmas Island at 6 p. m. on the 17th, and arrived at Penrhyn Island on the 22d. Took possession of the island, and after the British flag had been hoisted a salute of twenty-one guns was fired from the ship, as this was the largest island of the three.

Left Penrhyn Island on the 22d for Honolulu, under steam and sail, arriving as stated above. Fine weather was experienced.

Harry Von Holt Chats About Progress in the Islands.

Harry von Holt, a well-known resident of Honolulu, arrived from the Islands by the Mariposa on Saturday last, and is stopping at a down-town hotel. In conversation with a representative of the "Chronicle" last evening Mr. von Holt said that business was decidedly improving in Honolulu, although there still exists to some extent a feeling of uncertainty as to the political future of the Kingdom, which has a certain effect on business. Freights at Honolulu, he said, are exceedingly lively, and many vessels are there loading and discharging. Much is hoped for by the residents of the islands in view of the negotiations pending for the construction of a railroad from Honolulu to interior points by English capitalists, while the construction of a street-car line in Honolulu by Englishmen of wealth, is practically an assured fact. The islands have recently been visited by unusually heavy rain-storms, one in the latter part of February being especially severe. The sugar crop this year, Mr. von Holt believes, will be rather in excess of that produced last year, and will probably exceed 100,000 tons.

Mr. von Holt will remain in San Francisco for some time. Since his arrival his time has been well occupied in exchanging alohas with old friends.—[S. F. Chronicle, March 21st.

The Quarantine Raised.

The Australia came into port shortly after noon. At half-past 1 Dr. Emerson, President of the Board of Health, arrived on the wharf and gave orders for the passengers to come ashore, thus raising the quarantine which has been in existence the past two months or more. Everybody felt happy over it. The following letter received by the Australia explains why the quarantine was raised:

SAN FRANCISCO, March 26, 1888.

His Excellency Jona. Austin, H. H. M. Minister of Foreign Affairs, Honolulu.

Sir: I have the honor to advise Your Excellency that at a meeting of the Board of Health, on Wednesday, the 14th inst., smallpox was declared no longer epidemic here, and that the city was entirely free from infectious diseases of all kinds.

This steamer will in consequence, no doubt, be granted a clean bill of health by the Customs authorities of this port.

I have the honor to be, Sir,

Your most obed'nt serv't,

(Signed) D. A. McKINLEY,
H. H. M. Consul General.

A Rough Passage.

The S. F. "Call" of March 22d has the following: The Spreckels' steamer Australia came in yesterday from the islands, bringing with her 55 cabin and 200 steerage passengers, and 1,970 tons of freight, much of which is fruit and sugar. Her voyage was the reverse of pleasant. She left Honolulu March 13, and for the first three days experienced from moderate to strong easterly winds. It then set in to blow hard, the heaviest part of the gale coming from N.W. to W.N.W. During the continuance of the gale the vessel shipped heavy seas, flooding the cabin and state-rooms. One sea came on board, which carried away 30 feet of the starboard rail, and, sweeping through the purser's room, carried out all of the Honolulu newspapers that had been placed there for the press. Almost every one of the passengers was sea-sick during the voyage, and some of them had not yet recovered when the vessel made her pier.

The Australia.

The Oceanic Company's steamship Australia, Captain Houdlette, arrived in port yesterday shortly after noon, and at once came alongside the Oceanic Company's wharf. Left San Francisco on the 27th of March at 2 p. m. First three days had strong W.S.W winds, moderate sea and swell. Remainder of trip moderate to strong trades. She brought 39 cabin and 28 steerage passengers and 709 tons of cargo for this port.

A lot of stylish hats in black, white and colored, at $1 and $1 25 each at the Popular Millinery House, N. S. Sachs, proprietor.

TO THE PUBLIC.

I, THE UNDERSIGNED, AH YOUNG, HAVE lived in Honolulu for ten years, working for foreigners, and have committed no offense in this country. I know of a gambling house, which is constantly filled with Chinese gamblers, some of whom have lived there for three years, with no other work than gambling at all times. I know this gambling house, into which they are constantly going, and I have lost much money in it myself. This is why I wish the gambling house stopped. I was summoned to appear before the Court, and these gamblers were arrested for the offense of gambling. I was the witness before the Court. Therefore they are angry with me for my testimony in the trial, and wish to kill me. For this reason I publish these facts before the people.

BASEBALL TALK.

Healy says he will not pitch for Indianapolis next year.

Kelly's work in right field is pronounced the finest ever seen in San Francisco.

Billy McLean, of Philadelphia, is mentioned as one of the probable League umpires next year.

Mullane is a great pitcher, the superior, one might add, of any who has twirled a ball in this state.—San Francisco Call.

Capt. Anson says he is willing to concede that Caruthers is Clarkson's superior outside of the box, "but he can't pitch such ball as Clarkson."

California exchanges say Dave Foutz's arm has commenced to draw up as Charley Sweeney's did, and it is probably lost, as far as good pitching is concerned.

Official expressions from both the Philadelphia and Athletic clubs indicate that twenty-five cents will continue to be the price of admission to ball games in the Quaker City.

Toronto will have a great nine next season, despite the departure of several players. They will have Decker, c. and r. f.; Oldfielder, c. and r. f.; Atkinson, Cashman, p.; Hartnett, 1b.; Kearns, 2b.; Rickley, 3b.; McLaughlin, s. s. and captain; Burke, l. f.; Lally, c. f. and p.; Connors, r. f.

POLITICAL PICKINGS.

It costs the United States $2,000,000 a year to carry on the war of 1812 even at this late date.—Chicago News.

There are seven Georgians who, it is believed, would like to succeed Senator Colquitt. Two of them are Congressmen Turner and Crisp.

The people who want Bob Lincoln for president in 1888 will have to keep on calling. Bob will not help swell the noise.—Chicago Inter Ocean.

The St. Louis Post-Dispatch (Dem.) wants the meeting of congress changed to October, or Nov. 1 at the latest, and says: "It seems absurd to continue an arrangement of sessions which crowds all of the work of both sessions into the last year of the term for which the members were elected, and very often makes a miserable abortion of the short session."

SOME QUEER MISHAPS.

William Merritt, of Newark, lost the calf of his leg by the accidental discharge of his gun while hunting in the Berkshire woods.

Patrick Hannon, of Springfield, Mass., 17 years of age, must do without his right hand in future. He was shooting ducks when his gun burst, and the fingers of that hand went flying after the game.

Capt. Reynolds, of Raddon Court, Latchford, England, lost his life by his gun exploding as he was climbing a fence. The charge shattered his left knee, and amputation did not save him.

James Evanson came into Washington, N. C., from the country to buy an ax. While departing from the store with his purchase he dropped it and it fell on his right foot, completely severing the second toe.

Miss Catherine Simonds, who lived near Reading, England, lost her life while hunting. Her horse stumbled in a rabbit hole, Miss Simonds fell and her horse kicked out her brains before she could be rescued.

With his hand hanging in shreds, William Erwin, of Morris Plains, N. J., walked to a hospital, where the wounded member was amputated. He had been hunting rabbits, and his gun was prematurely discharged.

John and Cyrus Mark, of Pueblo, Colo., went duck shooting, and, seeing a flock, were creeping upon them through the brush. Cyrus was just behind his brother. His gun caught in the brush and was discharged, and John fell dead, having received the contents in his back.

James Loveless, a railroad section boss, was riding on a railroad bicycle on the Pemberton and Seashore railroad, when he was overtaken by an extra train, consisting of an engine and Superintendent Bannard's special car, and his machine run down. He was killed outright.

CURIOUS CONDENSATIONS.

During her twenty years of married life Mrs. John Guest, of Wichita, Kan., has presented her husband with twenty-two children. She has twice given birth to twins and once to triplets.

The store of a man named Windley, at Hunter's Bridge, N. C., was plundered by burglars recently. When he informed his wife of the fact she fainted and died before she could be restored to consciousness.

Lightning struck a basket of eggs in a farm yard near Meriden, Miss., not long ago, and a man who witnessed the descent of the electric fluid solemnly declared that it hatched out chickens from several of the eggs.

There is a man in the Kansas penitentiary who, beginning with a term at Sing Sing years ago, has served his time in regular succession in the penitentiaries of New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois and Kansas.

A darky applied to the county clerk at Smithville, Ga., recently, for a marriage license, but on being informed that it would cost $1.75 he departed without one, saying that "he wasn't in any hurry, nohow, and he guessed they'd be cheaper after a while."

Farmer Liesman, who found a spring on his farm near Holland, Mich., that will make hair grow on most anything, has sold the cow and calf on which he had raised long whiskers to a Chicago museum for $1,300. He will ship some of the water to the animals each week.

A mill in Carlton, Mich., recently burned, and during the entire conflagration the big engine ran steadily, and so in some way was saved from destruction. The working of the engine kept the pumps going, so the boilers were kept supplied with water and there was no explosion.

A drunken laborer named John Davies, at Dowlais, England, on his way home lay down beside the railroad track so close to the rails that, a train coming along, the engine run over and cut off the heel of his boot. When the train stopped and backed up the man was still asleep, and was indignant at being made to get up and go home.

A Montana paper recently contained this remarkable notice: "Mr. Charles Johnson and Miss Fannie West were married by Rev. S. Hills on Wednesday. So far no trouble has resulted, and those best informed as to the situation say there will be none." The next day the editor apologized and explained that part of an item regarding an incipient strike had got in the wrong place.

George Frey, of Oil City, Pa., wrote a letter to his brother in Michigan a few nights ago, and after sealing it he happened to glance at the clock. It had stopped at 9:45. Mr. Frey set the clock from his watch, and the sound of the ticking seemed to him strangely like a low voice calling out: "I'm gone, I'm gone." In the morning Mr. Frey received a telegram announcing his brother's death, and a subsequent letter contained the information that he died at 9:45 and that his last words were: "I'm gone!"

A Remarkable Case.

Under the above heading the "Doncaster Reporter" of July 6, 1887, publishes the following in its editorial columns:

Our readers may recall the circumstance of a young clerk, named Arthur Richold, falling insensible on the Wheatley Lane in this town some time ago, and being picked up, as he continued perfectly helpless, and taken in a cab by two gentlemen to the office of F. W. Fisher, Esq., the solicitor who employed him. On restoring him to consciousness it was ascertained that he was afflicted with what seemed to be an incurable disease. When he was able to speak he said he had been to his dinner and was on his way back to his work, when suddenly his head was in a whirl and he fell in the street like a man who is knocked down. On coming to his senses in the solicitor's office he thought what this might mean, and feared he was going to have a fit of illness, which we all know is a very dreadful thing for a poor man with a family to care for.

With this in his mind he at once sought the best medical advice, telling the doctors how he had been attacked. They questioned him, and found that his present malady was exhaustion of the nervous system, resulting from general debility, indigestion and dyspepsia of a chronic nature. This in turn had been caused by confinement to his desk and grief at the loss of dear friends by death. The coming on of this strange disease, as described by Mr. Richold, must be of interest both to sick and well. He had noticed for several years previously, in fact, that his eyes and face began to have a yellow look; there was a sticky and unpleasant slime on the gums and teeth in the morning; the tongue coated; and the bowels so bound and costive that it induced that most painful and troublesome ailment—the piles. He says there was some pain in the sides and back and a sense of fullness on the right side, as though the liver were enlarging, which proved to be a terrible fact. The secretions from the kidneys would be scanty and high-coloredi with a kind of gritty or sandy deposit after standing.

These things had troubled Mr. Richold a long time, and after his fall in the street he clearly perceived that his fit of giddiness was nothing more than a sign of the steady and deadly advance of the complaint, which began in indigestion and dyspepsia. His story of how he went from one physician to another in search of a cure that his wife and little ones might not come to want is very pathetic and touching. Finally he became too ill to keep his situation and had to give it up. This was a sad calamity. He was appalled to think of how he should be able to live. But God raised up friends who helped to keep the wolf from the door. He then went to the seaside at Walton on-the-Naze, but neither the change, nor the physicians who treated him there, did any good. All being without avail he visited London, with a sort of vague hope that some advantage might happen to him in the metropolis. This was in October, 1885.

How wonderful, indeed, are the ways of Providence, which dashes down our highest hopes and then helps us when we least expect it.

While in London he stated his condition to a friend, who strongly advised him to try a medicine which he called Mother Seigel's Curative Syrup, saying it was genuine and honest, and often cured when everthing else had failed. He bought a bottle of a chemist in Pimlico, and began using it according to the directions. He did this without any faith or hope, and the public may, therefore, judge of his surprise and pleasure when after taking a few doses he felt great relief. He could eat better, his food distressed him less, the symptoms we have named abated, the dark spots which had floated before his eyes like smuts of soot gradually disappeared, and his strength increased. Before this time his knees would knock together whenever he tried to walk. So encouraged was he now that he kept on using Mother Seigel's Curative Syrup until it ended in completely curing him.

In speaking of his wonderful recovery Mr. Richold says it made him think of poor Robinson Crusoe, and his deliverance from captivity on his island in the sea; and added, "But for Mother Seigel's Curative Syrup the grass would now be growing over my grave."

Our readers can rest assured of the strict truth of all the statements in this most remarkable case, as Mr. Richold (now residing at Swiss Cottage, Walton-on-the-Naze,) belongs to one of the oldest and most respected families in the beautiful village of Long Melford, Suffolk, and his personal character is attested by so high an authority as the Rev. C. J. Martyn. We have deemed the case of such importance to the public as to justify us in giving this short account of it in our columns.

MOTHER SEIGEL'S OPERATING PILLS

—FOR—

CONSTIPATION

Sluggish Liver,

ETC., ETC., ETC.,

UNLIKE many kinds of cathartic medicines, do not make you feel worse before you feel better. Their operation is gentle, but thorough, and unattended with disagreeable effects, such as nausea, griping pains, etc.

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition.

The best remedy extant for the bane of our lives—constipation and sluggish liver.

These Pills prevent fevers and all kinds of sickness, by removing all poisonous matter from the bowels. They operate briskly, yet mildly, without any pain.

If you take a severe cold, and are threatened with a fever, with pains in the head, back, and limbs, one or two doses of **Seigel's Operating Pills** will break up the cold and prevent the fever.

A coated tongue, with a brackish taste, is caused by foul matter in the stomach. A few doses of **Seigel's Operating Pills** will cleanse the stomach, remove the bad taste, and restore the appetite, and with it bring good health.

Oftentimes disease, or partially decayed food, causes sickness, nausea and diarrhœa. If the bowels are cleansed from this impurity with a dose of **Seigel's Operating Pills,** these disagreeable effects will vanish, and good health will result.

Seigel's Operating Pills prevent ill-effects from excess in eating or drinking. A good dose at bedtime renders a person fit for business in the morning.

These Pills, being sugar-coated, are pleasant to take. The disagreeable taste common to most pills is obviated.
