THERE is a great deal of spasmodic complaint arising from time to time, in the Legislature, the papers and conversation, about centralization. A good deal of this, we imagine, springs entirely from the prejudice and jealousy with which towns are often regarded from the country districts. On the other hand, some of it points to a grievance not without foundation. Of course, such a

thing as centralization proper is impossible in a country so small as this one. But there is such a thing as spending too much of the public money in Honolulu, and too little in the outlying districts where so much of it is raised. This has previously been apt to be the case, not so much, we think, because Honolulu, as the capital of the country, has got more than her share of useful improvements, but because most of the money which has been wasted has been wasted in Honolulu, to the damage and neglect of the rest of the country. The headquarters of the army and navy have always been here, for instance, and the country districts have rarely been gladdened by the glitter of an epaulet.

There is no objection to the country districts having as complete a control over their own affairs as is consistent with the general duties of the Government, and we should advocate heartily any measures calculated to bring about that result. We do not believe in the election of Magistrates anywhere, but perhaps there would be no objection, for instance, to the Postmaster, Tax Assessor and Tax Collector being elected in the respective districts where they serve. It is eminently desirable that every district should govern itself in all ceive \$15 per month, with their board and matters which concern itself only, and any measure tending to bring about

THE LEGISLATIVE ASSEMBLY

Thirty-third Day.

SATURDAY, July 7. The House met at 10 o'clock, the President, Hon. W. R. Castle, in the chair, Absent: Ministers Green and Thurston, Nobles Wilder, Dowsett, Bailey, Richardson, Campbell, Widemann, Makee and Wilcox, Reps. Hustace, Dowsett, Kinney, Kamauoha and Nawahine. Minutes read and confirmed.

REPORTS OF COMMITTEES.

Noble Baldwin read the report of a majority of the Finance Committee on Noble Townsend's bill to amend Chapter XLIII. of the session laws of 1882, being an Act entitled an Act to consolidate and amend the law relating to internal taxes.

The object of this Act is to compel ministers, teachers and regular soldiers to pay personal taxes, who, under the present law, are exempt. Committee make an approximate enumeration of about 90 clergymen on the Islands. There are 177 male teachers, 53 of whom are Hawaiian teachers in the Government schools; 69 are teachers in the Government English schools, and are mostly foreign; 55 are teachers in independent schools. In future there will be 65 regular Government soldiers. The total number affected by this Act will be about 327. As some of these have undoubtedly passed the age of 60, the personal taxes realized from the remainder would not exceed \$1,500 per annum. While many ministers and teachers, like the Hon. Noble who introduced the bill, are able and willing to pay taxes (and commit-tee appreciate their feeling in the matter), there are a great many to whom the law would be oppressive. Committee under-stand it to be a matter of pride with the introducer of the bill, but do not feel sure that those who are poorly paid will be moved by the same feeling. The law would be oppressive to many of the Hawaiian ministers who obtain poor support from their churches, and to all the Roman Catholic clergy and teachers, who receive very small salaries. Many of the teachers in Government schools receive only \$18 to

amend the Act relating to proceedings in bankruptcy. Errors being discovered in the engrossment, the passage of the bill was deterred.

Poi-Third reading of the bill relating to the manufacture of poi in Honolulu. Passed.

Governor-Minister Ashford moved that the bills, with reports of committee and petitions relating to the office of Governor, be made a special order for Tuesday, 10th inst. Carried.

PAY OF REPRESENTATIVES.

Consideration of Noble Baldwin's resolution of June 22d, with majority and minority reports of the special committee thereon, relating to compensation to Representatives.

The minority cite Articles 5, 60, 80, and 82 of the Constitution and the Act of 1887, bearing upon the question, and are of opinion that the representatives have already drawn the full amount allowed for one biennial term. If they are serving for two biennial terms they are entitled to compensation for two such terms.

But the biennial terms are clearly indi-cated as dating from one general biennial election to the next biennial election. * * The present representatives were not elected at a general biennial election, but at the first election specially provided for by Article 80 of the Constitution to be held within ninety days after the promulgation of the new Constitution. There was no specific provision made for their compen-sation for this special term; it would not, however, follow that they were entitled to no compensation, for the members then elected constituted the Legislature, the term of which expires at the general election in 1890, and it seems clear that it was intended that the representatives of each Legislature should be compensated, but not to exceed two hundred and fifty dollars each. As this present body, elected in September, 1887, to serve till 1890, form but one Legislature, the couclusion we arrive at is that the present representatives are entitled to but two hundred and fifty dollars for the term for which they were elected, and the term for which the representatives were elected in September, 1887, was one term, and not two biennial terms. The report is signed W. O. Smith, H. S.

Townsend. The majority of Committee cite Articles 60, 55, 80, the laws of 1874 and 1877, and maintain that this makes the term of service twenty-eight months-or four months in the last biennial term, and the regular biennial term from February, 1888, to February, 1890. As the compensation for representatives for the special term is not specifically provided for in the Constitution, Committee conclude that they must subdivide this term into biennial terms and \$20 per month. These rates of low wages | thus bring it within the provisions of the

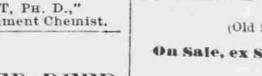

uperior to all other leavening agents. It is abolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritive food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most aelicate digestive organs. It will keep in any climate without deterioration. Prof. H. A. Mott, U.S. Government Chemist,

after examining officially the principal baking powders of the country, reported: "The Royal Baking Powder is absolutely pure,

for I have so found it in many tests made both for that company and the United States Government. "Because of the facilities that company have

for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the pures) and most reliable baking powder offered to the public. The Cormorant Entertainment.

The entertainment in aid of the British Benevolent Society, given Saturday evening at the Opera House by officers of H. B. M. S. Cormorant and local amateur ladies, proved a success in every way. First, there was a full house, a few empty chairs in the front rows being compensated for by many extra chairs filled at the back. The tableaux were exceedingly well presented, the first one of "Leap Year" being very suggestive of the popular fiction of bissextile embar-The following persons have been duly "School of the Vestal Virgins," it is enough to say that its weird beauty was regarded with equal enthusiasm to that evinced on its former presentation last year. Mrs. W. G. Irwin, as priestess, performed the rites of the sacred fire over the candidates for vestal honor, personified by Mrs. Winter, Misses L. Atkinson, Barnard, Brown, Dowsett, Fuller, Glade Green, Humphreys, Mist, L. Mist, Put-nam, Robertson, Widdifield and Wodehouse.

Lieuts. Kingsmill and St. John, and Misses Rhodes and Wodehouse performed the comedietta, "The Misogynists." The ladies acted their parts with charming naivete, and St. John was a host in himself. It is an intensely humorous composition, with a lesson to the male sex conveyed in the broadest of satire. There was enough diversion in this piece for a whole evening.

"Aunt Charlotte's Maid" was a roaring farce, full of fun for the "Philistines" while not devoid of opportunity for much artistic treatment. The performers were Lieuts. St. John, Kingsmill and Pears, and Misses Von Holt, Rhodes and Wodehouse. All made up in consummate guise for their respective parts, and there was lively business to maintain by everyone. As to their success, it needs only be recorded that the audience was convulsed with laughter from beginning to end. Prof. Berger was to the front with a powerful orchestra.

Hilo Notes.

Her Majesty the Queen has visited Hilo, given a reception, and addressed an audience at Haili Church on the 1st instant.

Hilo has a new physician, a Dr. Morris, and a new lawyer, Mr. Ward. The Fourth was a gala day at Hilo. The people assembled at Court House Hall in the morning. The Declaration of Independence was read by Mr. Loebenstein and an oration delivered by Rev. E. P. Baker, one of his best efforts. At 1 p.m. the games commenced as follows : Sack race, wheelbarrow race, burden race, three-legged race, potato race, obstruction race, foot races, tug of war, putting the stone, throwing the hammer, boat race, greased pole, and duck hunt. There were prizes for all. The day was finer than was anticipated, and all the games were contested in a satisfactory manner before a very large number of people, as most of the plantations were not working. The Catholic Mission Band performed the music. In the evening there was a fine display of fireworks. It was the best gotten up entertainment given in several years, and the gentlemen who were the promoters of it deserve special praise-so conceded by all. On the evening of the Fourth there was a ball at the Court House Hall, which was beautifully draped with flags, and wore a profusion of flowers. The following were some of those who were present: Mr. Richards, Dr. Sheldon, Mr. Williams, Mr. H. S. Austin and wife, A. B. Loebenstein and wife, the Misses Rose, Miss Annie Wilhelm, Miss A. West, Mr. Osborn, Mr. and Mrs. Wait, Mr. and Mrs. Whittaker, Mr. Wadsworth, Mr. A. Ramsey, Mr. R. Hitchcock, Miss Hattie Hitchcock, Miss Grace Porter, Miss L. Kimball, Mr. and Mrs. Furneaux, J. A. Beckwith, W. E. Scott and wife, Mr. H. Luce, N. C. Willfong and wife, Mrs. Alexander and many others. The occasion was a very enjoyable one. - There were horse races on the beach. Mr. Tavernier gave a picture as a prize on the Fourth. J. A. M. Hilo, July 5th.

mon laborer of the present day. To teachers receiving such small wages, exemption from taxes is quite an item. Soldiers reclothes, which is lower pay than makais small, but to the poorly paid ministers and teachers now, more especially, it is an item of considerable importance. For these rea-sons, committee recommend that the bill be indefinitely postponed. (Signed) H. P. Baldwin, J. U. Kawamui,

A. S. Wilcox.

Laid on the table, to be considered with the bill and the minority report.

Noble Smith read the report of the Judiciary Committee on the bill to provide for the payment of Government expenses and salaries pending the passage of the Appropriation bill. Committee recommend that the bill be amended so as to include certain salaries and expenses not mentioned in the bill, and, with such amendments, that the bill pass.

(Signed) Cecil Brown, W. O. Smith, D. H. Hitchcock.

The hon. Noble added that Noble Richardson being absent, had not signed the report, and Rep. Kinney never attended the meetings of the Judiciary Committee. Rep. Kinney-Being Chairman of the Sanitary Committee, I have been called away from the Judiciary to attend meetings of the Sanitary Committee. At the time of the Judiciary Committee's meeting this morning, I was in the Supreme Court, upstairs, arguing a case, the fee for which I am to divide with Noble Smith, but have table in this room. Rep. Kinney was "over there" talking "Chinese question" with Noble Baldwin. The hon. member has "Chinese question" on the brain. Rep. Kinney-I deny that statement.

The report was laid on the table, to be considered with the bill.

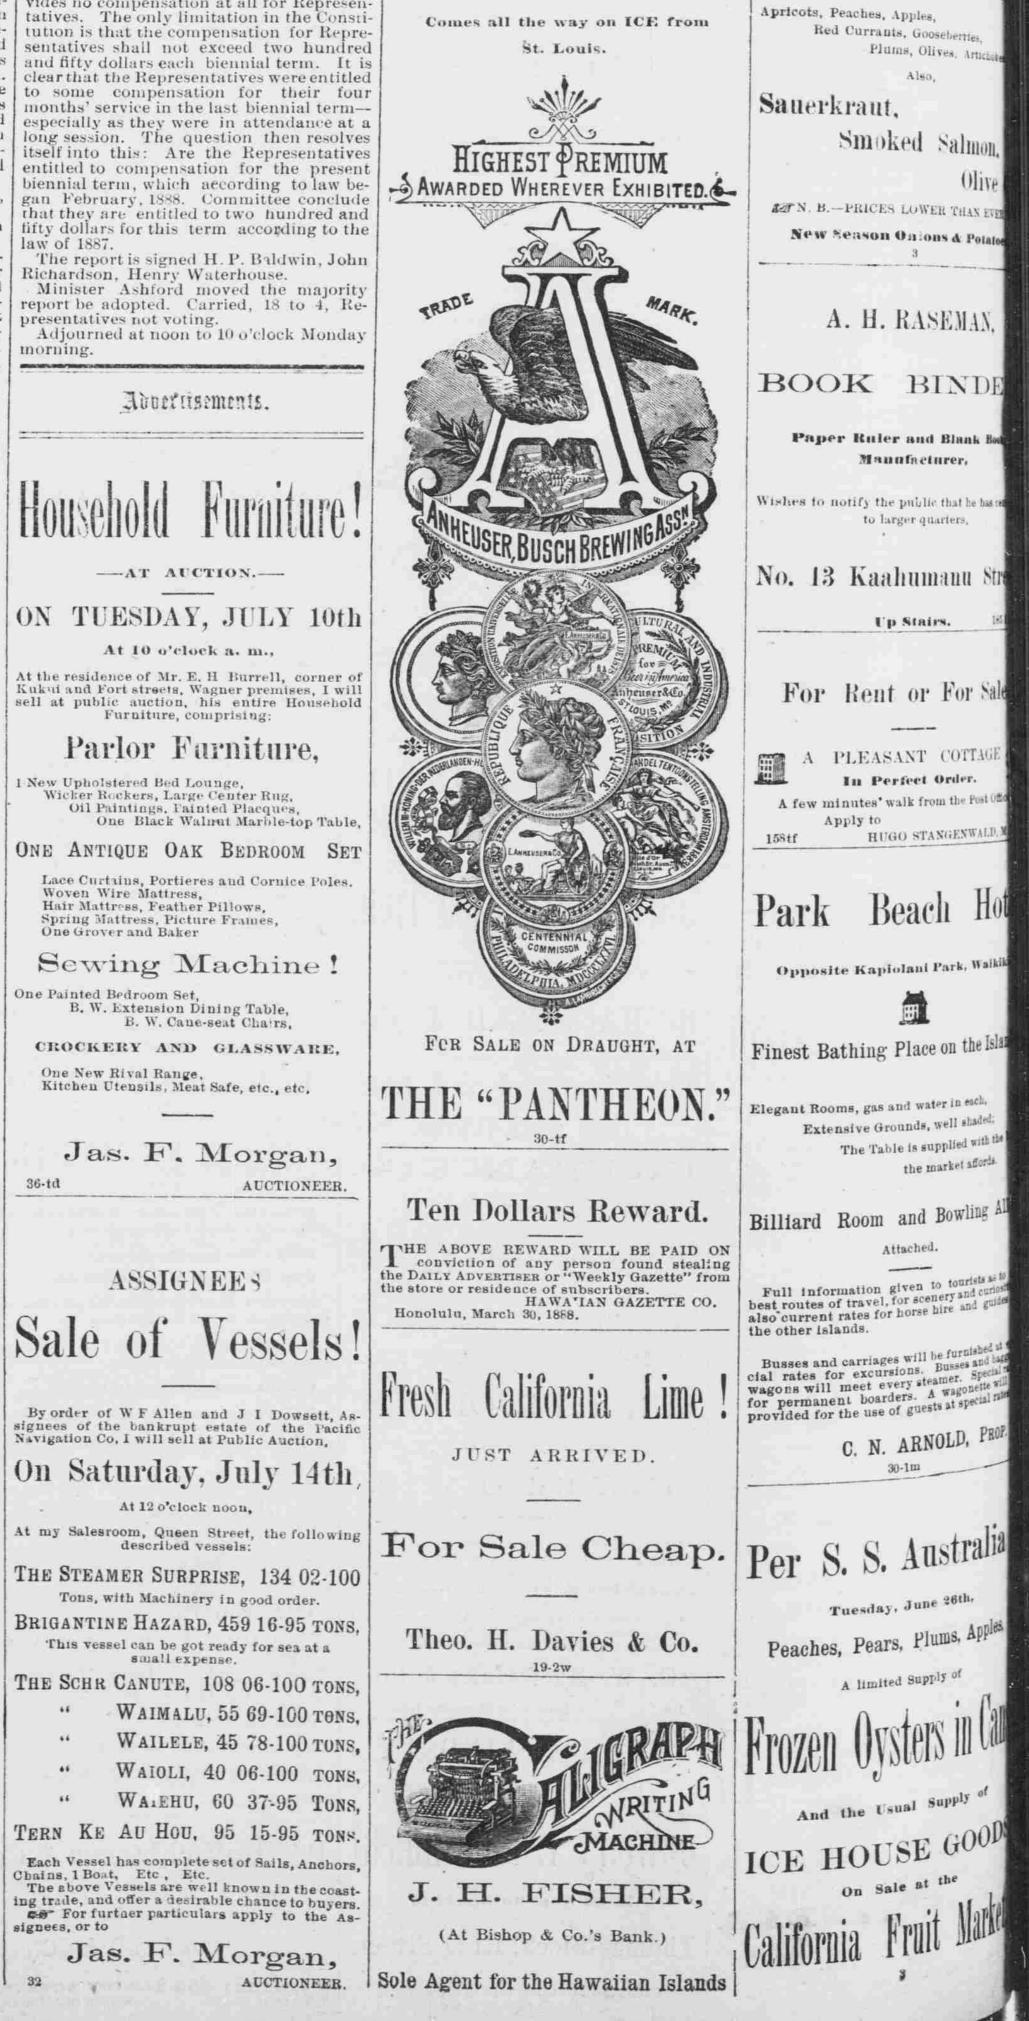

Noble Dowsett read a report of the Committee on Public Lands and Internal Improvements on the petition for extension of Queen street. The Legislature of 1886 granted \$3,000 towards the opening of this street. Unfortunately the money was spent otherwise. Committee recommend that \$5,000 be inserted in the Appropria-tion bill for the Queen street extension. (Signed) J. 1. Dowsett, A. Jaeger, P. N. Makee, C. Bertelmann, J. Nazareta. Laid on the table, to be considered with

the Appropriation bill.

Rep. C. Brown read a report of the select committee on the pounds, estrays, brands and marks bill. Committee have made many alterations and amendments in the bill, and have had the bill, with such amendments, reprinted. They recom-mend a careful comparison between the original and amended bill, and that the latter do pass.

(Signed) Cecil Brown, L. A. Thurston. Reps. Paris and Gay agree with the amendments and new sections, except Section 12, which provides that all owners of swine shall keep such animals within an enclosure, and that it shall be lawful for any owner or lessee of land to kill any swine trespassing upon his land, and the owner of such swine shall have no right of damages against such landholder for such killing.

All persons holding water privileges, or those paying water rates, are hereby notified that the water rates for the term, ending December 31, 1888, will be due and payable at the office of the Honolulu Water Works on the 1st of July, 1888.

All such rates remaining unpaid for fifteen days, after they are due, will be subject to an additional 10 per cent.

Parties paying rates will please present their last receipt.

Rates are payable at the office of the Water Works, in the Kapuaiwa Building. The statute allowing no discretion, strict enforcement of this clause will be made.

CHAS. B. WILSON. Supt. Honolulu Water Works. Honolulu, June 15, 1888. 18-17t

A Specialist in Leprosy.

The following letter has been addressed to the editor of this paper, dated "4 Union street, South Melbourne, Victoria, 1888." It is signed in Japanese, the name being given in the writer's address below, however, as Dr. Vincent Mohabeer:

"I have addressed a petition to His Royal Highness King Kalakaua of the Hawaiian Islands, stating that I had a remedy for the cure of leprosy, and ask-ing him to let me try the said remedy on the patients that are on the island of Molokai. As I know the interest and sympathy that you tender to suffering humanity, I am sure you will give publicity to the present letter and uphold my cause."

S. Ah Mi gives notice of a change in his business.

The report was accepted and laid on the table, to be considered with the bill. Rep. Kinney read a report of the minority of the committee on the bill relating to use of explosives in taking fish. They approve of the object of the bill, but find it defective in construction, and submit a new bill. Laid on the table to be considered with the majority report and the

The island mails have brought more correspondence than can be handled for some time. An interesting letter from Rev. E. P. Baker on the Hilo Boarding School examination, received by a former mail, has got out of date waiting for insertion.

Billy Boyd, the notorious passport crook of San Francisco, was on board the Mariposa in flight for the Colonies under an assumed name. The bookkeeper of the Hawaiian Gazette had a long talk with the fugitive, whom he knew in San Fran-

Besides the Commissioner mentioned in our San Francisco letter, bound for the Melbourne Exhibition, R. L. Miller, Lewis Ginter and other exhibitors were on board kow. the steamer. There were also Hon. Fielding Clarke and wife for Fiji, and Geo. C.

Milne and wife, Shakespearean readers, booked for Sydney.

A pile of coal on the foundry premises off King street was discovered to be burning Sunday afternoon. Survey Engineer White with a hose reel and detachment of firemen thoroughly drenched the heap. It will need to be watched now after such a wetting, as the tendency to spontaneous combustion will be increased.

Rev. George Wallace on Sunday evening preached a historical discourse proving the antiquity of the English Church. Among other interesting facts he stated that recently a lease of land for 999 years to the British Crown expired in England, and the property reverted without question to the English Church as the original lessor.

In the yacht race on Saturday, the Lorna Doone crossed the finish line first, the Pokii second, the Nellie third, the Vandalia's cutter fourth and the Pauline fifth. The Pokii made the best time, computing tonnage allowance, by about 15 seconds, but she was protested against for running foul of the Vandalia boat. As matters appear, Hatch and Dole's Lorna Doone gets An and child, H H Webb, J L first prize and Baird and Whitney's Nellie second.

> The object of the entertainment to be given at the old Cathedral building by the St. Andrew's Church Association to-mor-

row night, is to obtain funds for beautifying the Cathedral grounds. The lecture by Mrs. Williams, and the music under the direction of Prof. Yarndley, should attract

a full audience, especially with the most worthy purpose in view. Tickets are on 20 per cent. in wages, which the laborers sale at the stores of J. E. Brown & Co. and | refused to accept. The strike closes eighty A. M. Hewett.

companied by eight of the best German ironclads, by Prince Bismarck and Count Herbert Bismarck. The latest European war scare is that several Austrian regiments have been ordered to leave Vienna instantly, for the Galician frontier, to checkmate a move on the part of Russia, The eleventh annual eight-oared race between Yale and Harvard was rowed on the 29th of June over the Thames river course, four miles straight. It was won by Yale by 24 lengths; time, 20 minutes 10 seconds, the fastest time ever made on the river. Harvard's time was 21 minutes 14

seconds. A large number of Chinese coolies are going to Yokohama and driving out the Japanese as domestic servants. Many deaths are reported from cholera in Cambodia and Cochin-China. U. S. Consul Hatfield of Batavia is on trial for forgery and fraud on the firm of J. Daendols & Co. Much damage has been done by wet and cold weather to the tea crop at Han-

From Peru comes news of hard times, with emigration setting away from there. The office of Vice-President of Colombia has been declared vacant, and the retired Vice-President pensioned for life. Quarantine against Chile, on account of cholera, has been raised. Fighting still continues at Riatea be-

tween the French and natives. In the last engagement the French lost three men and two officers, and had a large number wounded. The natives carried their killed and wounded off the field. There are several French men-of-war there, and the natives are sure to be suppressed. The Government of Tahiti is going in for protection, and now levies duties of about 50

per cent. on all imports. Mrs. Lilian Warren Hammersley was married by the Mayor of New York, on June 29th, to the Duke of Marlborough. His Highness Prince Bernard of Saxe-Weimar, Duke of Saxe, arrived in San Francisco from Japan, and here learned of the death of his cousin, the Emperor Frederick of Germany.

General Washington L. Elliott, Vice-President of the San Francisco Safe Deposit and Trust Company, died suddenly on June 29th.

Goldenson, the murderer of the school girl Mamie Kelly, has a good chance of being hanged, as the Supreme Court has denied a rehearing and Governor Waterman has declined to interfere.

The new cruiser Charleston will be launched from the Union Iron Works about the middle of this month, and it is expected that she will be ready for sea by the end of the year, at which time the larger cruiser, the San Francisco, will be launched. The Union Iron Works have almost completed a powerful tug for the Spreckels Bros., and the Pomona, a steamer

of 1,100 tons, has been launched for Knowles & Griffith. This steamer, it is said, is for the Hawaiian trade. John D. Spreckels sailed this morning for San Diego in the yacht Lurline, having

a race down with the yacht Aggie. All the iron mills at Pittsburg have

Welcome and designation services were held in Central Union Church last evening in connection with the arrival of Rev. Mr. Snelling, who is on his way to Ruk to take the place of the late Rev. R. W. Logan in the Micronesian mission, and the contemplated early departure of Mr. Snelling and Miss Little, the latter of whom goes to Miss Little, the latter of whom goes to teach in one of the mission schools. Dr. Beckwith, Dr. Hyde, Prof. Merritt, Rev. S. E. Bishop and Rev. W. C. Harris took part in the services.

The examinations will begin (with the primary department) at 8:30 a. m. Monday, the 23d inst., and continue till Thursday noon. The daily exercises of the days following Monday commence at 9 a. m. and 1 p. m. The brass band of the college will give an open-air concert on the premises at 2 p. m. Thursday. The closing exercises take place at 3 p. m. Friday. The parents of the pupils, the friends of the college, and the public generally are cordially invited to assist at all these exercises.

The Band will play this evening a Emma Square, commencing at 7:30 o'clock. Following is the programme: Reminiscences of Offenbach Conradi Waltz-Leinat Sounds Hawaii Ponoi,

mills and throw's 100,000 men out of em-

ployment. Assistant Secretary Maynard, of the Treasury Department, has notified Collector Hager of San Francisco that cattle imported from the Hawaiian Islands need not be quarantined if they are sold for immediate slaughter. The animals, immediately upon arrival, must be taken from the importing vessel to the abattoir and not disposed of for any other purpose. This opinion has been given in response to

an application for information from the Hawaiian Government. The affairs of Wm. T. Coleman & Co. grow worse and worse. The statement of the assignees shows a reduction of \$50,000 in liabilities, which now stand at about \$2,900,000, and a shrinkage of over \$1,000,-000 in assets, which now amount to about \$2,000,000. It is doubtful, however, whether they will realize anything like that amount.

The imports of rice up to the end of May amounted to 21,816,937 pounds, being 1,344,000 pounds less than in the same period of 1887. The market is fairly active, but there are prospects for a very large crop in the States. The middle-weight championship of Cali-

fornia has been settled in favor of Young Mitchell, who defeated Tom Cleary at the Athletic Club rooms, after fighting for thirty rounds. Cleary had once before been defeated by Mitchell, but had improved in condition, though not sufficiently to vanquish Mitchell. Cleary was clean knocked out and Mitchell helped to carry

him away. The competition for the China trade continues to be very keen, and the Canadian Pacific line interferes considerably with the older lines. Two Canadian steamers have sailed within the past ten days, and two more are now on the way from Yokohama.

The case of Minnie Scholz, the little leper girl, was very suddenly settled by her departure for the East in company with her father. The question of her disposal was before the Courts, but she was well out of the State before her flight had been discovered. The important officials were thus left with nothing to fight about, and only had to vow vengeance against advertising can be made for it.

Irritated throats and annoying coughs are quickly relieved by the genuine Butter Scotch, only to be tound at the Pioneer Steam Candy Factory of F. Horn. Plenty of testimonials.

The Pioneer Steam Candy Factory, Bakery and Ice Cream Parlor is the only establishment in Honolulu that can afford to sell the best Ice Cream at \$2 per gallon, and no others can.
