BX THE COURT.

The bonds here under consideration can be taxed only if they are "public" bonds. The statute defining "personal property" for the purpose of taxation is Section 3 of Chapter 37 of the Acts of 1886. "Public stocks and bonds" are the only bonds included. This statute is an amendment of the Act of 1882, and the statute is an amend ment of the law providing for taxa-tion as first enacted in the Civil Code of 1859. Section 483 provided that personal property be construed to in-clude "all * * * moneys in hand and moneys loaned, all mortgages, public stocks, stocks in corporations taxable, and omit and so exclude an exemption of its property from from taxation the other enumerated taxation." descriptions of personal property, As the issue is disposed of on and omit the general clause of other points, it is unnecessary to go "every species of property,etc." This into this particular question, but it interpretation was made in McBryde might well be argued that a tax upon vs. Kala, decided by Chief Justice bonds whereby funds are raised for

intended what is of large or general character. There are public places of amusement, open to the public on payment of the admission price. Says Chancellor Kent, Com. 2, p. 276: "Every charity which is extensive in its object may in a certain sense be called a public charity. A charity may be public though administered by a private corporation. To hold a corporation to be public because the charity was public would be to confound the popular with the strictly legal sense of the terms, and to jar with the whole current of decisions since the time of Lord Coke." In Hall vs. County Com'rs of Middlesex, 10 Allen, 100, the Court say: Since the Legislature has not defined public stocks and securities, the court must ascertain, as best they can, what are such as cases arise. And found that bonds issued under special legislative authority by a state or city for aiding in the constructing of railroads are public stocks. character. There are public places

stocks. Upon referring to the statute, which is Chapter 62 of the laws of 1888, we find that the Minister of the Interior is authorized to contract Oahu. The said railway is in good order, thoroughly equipped and is in active operation. Besides the railway and its equipment, the said company owns certain other property consisting of lands and chattels.

In order to build and equip its said railway, the company as by its charter allowed, issued certain mortgage bonds of the total amount of \$300,000; of these bonds \$260,000 were issued on construction and equipment account, and said amount was actually used in such construction and equipment. The remaining \$40,000 was used in the purchase and development of its other said property. Upon the issue of said bonds the said company guaranteed them free of taxes; without such guarantee it might not have been for a general laws of the Kingdom, or failing this corporation with any Hawaiian corporation on the construction of steam railroads on the island of Oahu, and to confer such rights of way and ether privileges, etc., as are provided for by certain railway acts of 1878 and 1880. Under this act the Minister has contracted with this corporation, which is organized to build railways and improve and deal in land on Oahu. Section 18 prohibits the Minister from contracting to pledge the Government to the payment of any subsidy, but under section 17 the contract may remit for twenty years taxes on the railroad property of the company.

MINISTER SPENCER'S DE CLARATION OF INDE-PENDENCE.

The Minister of the Interior stated to the House yesterday that his decision in regard to the appointment of Dr. Oliver would not be affected in the least by any statements in the ADVERTISER. That is, the facts in regard to Dr. Oliver, as the public are assured shall not be taken into consideration in making the appointment. While this may well be a comforting assurance to the Doctor, we have our doubts whether it will prove equally so to the public at large. The House, however, or a part of them, received this equivocal declaration of independence with unmistakable signs of approbation.

We have long had a lurking suspicion that Mr. Spencer's independence was something of ing sovereign. It passed a law this color. conveying the land of Wailuku to

The Minister of Interior further proceeded to annihilate the ADVER TISER by stating that Dr. Oliver is a gentleman, and that he had known him sixteen years. These are statements which we do not presume to deny, but will content ourselves with meekly hinting that they do not appear to be conclusive of the controversy. A gentleman, like every other good fellow, is not precluded from "taking his whiskey clear," and cases have been known of an unmistakable aptitude in this direction, even among gentlemen. Still it will doubtless be a great consolation to the inmates of the Asylum when gagging under the wrong medicine, or perishing from the lack of any at all, to reflect that the Doctor is a gentleman, and that the Minister has known him (and drunk with him) "for sixteen years."

Minister Spencer also stated that for all time beyond the further Dr. Oliver was an able physician. He may be equal to the most famous practitioners of Berlin or Paris, for anything we know to the contrary, but the fact has no bearing whatever on the specific charges which have been made against him.

It is not unlikely that the Doctor and poverty to the unfeeling gaze that Minister Spencer is not influenced by the ADVERTISER. We beg and entreat the Minister not to make the unhappy inmates of law." the Asylum the victims of such a very superfluous demonstration. Eighty-Seventh Day.

FRIDAY, Sept. 26. The House was called to order at 10 . м. Prayer by Chaplain. Minutes of preceding day read and approved.

The President presented a petition which was read by the Secretary under suspension of the rules. The petition is from lepers at the Kalihi Receiving Station and prays that endeavors be made to induce Dr. Lutz not to resign his position. The petition alleges that persons treated by Dr. Lutz have been discharged by the Examining Board.

Rep. Kapaehaole moved reference of the petition to a select committee. Everyone, foreign as well as native, wished something to be done for these people. The foreigners had their interests at much at heart as the natives themselves, he was firmly convinced. The large majority of physicians here say the disease is incurable, but that does not justify us in letting the disease take its course, and doing nothing. I think it is generally conceded that Dr. Lutz's patients have shown marked signs of improvement. It would be a great pity to have his experiments broken off in the middle before he has had a fair trial.

Noble J. M. Horner doubted very much whether this was the right course. It was interiering in the work of the Government. The Minister of the Interior felt as much interest as anyone, and as the matter was in his department, he would move the petition be referred to
