THE LEGISLATURE.

SEVERAL important decisions of the Supreme Court have recently been published in our columns. One that appears in this issue shows the difficulty of settling boundary lines where the only data are the names of certain landmarks and the evidence of old natives, supposed to be familiar with them. In Saturday's daily was another, regarding the charge of interest in current mercantile accounts where the interest charge is compounded quarterly. This latter decision seems to establish the legality of the practice as generally followed here.

Yesterday completed thirty-six days of session. Members of the House as well as outsiders begin to ask what has been accomplished. In numbers of bills, notices, etc., the result looks considerable, for there have been notices of 275 bills, of which 128, or less than half, have been read and advanced various stages. Two hundred and thirteen petitions are on the table or in the hands of committees. There have been 99 resolutions, 72 reports of committees and 64 miscellaneous matters, such as questions to ministers with the answers. The admirable system pursued by the clerk enables one to ascertain in a few moments the progress made.

The Legislature, however, meets to vote appropriations and to enact such laws, or make such amendments to existing laws, as may be necessary. Gauged by this standard the accomplishment seems small. Seven bills, none of any great importance, have finally passed and become laws. One has been tabled, which generally amounts to a final disposition. A very large number of bills are in the hands of committees, yet to be reported. A few are on the Orders of the Day, with or without reports of committees, and the Appropriation bill is less than half finished. At this rate there are several months of session yet before us.

There is much room for improvement in the management of the business of the House, by which much valuable time might be saved and hasty and ill-considered work during the last days

avoided. It is not saying too much to say that as a general thing the discussion of a committee report on a bill at the time the report is made is time absolutely lost, for it is all gone over again, as the report is generally "laid on the table for consideration with the bill." Time is lost by other double discussions; but, after all, perhaps the mutual forbearance and good sense of the members is the surest way to shorten work and save time. The proposition that members be paid by the day, say for sixty days and no more, is a good one. Perhaps an amendment may be adopted some time of that nature.

CORRESPONDENCE.

We do not hold ourselves responsible for the statements made, or opinions expressed by our correspondents.

The Late Band Strike.

MR. EDITOR: Sir—This event, being in the nature of a national calamity (?) must be seen to. It behooves every patriotic citizen to (figuratively) put his shoulder to the wheel to avert this disaster. I see by your evening contemporary that the Ministers have been interviewed. I presume they would have to inform the deputation that money was scarce, that the Government hadn't even the money to pay them on the new scale proposed, that the country is millions in debt, that the chances for getting in the taxes this year are very small, ta-ra-ra-boom-de-ry, that the thousand and one place men must be provided for, though how they are going to pay them no one can tell. No doubt they would be glad for some one to take the trouble of their hands and put the whole thing on a business basis.

Though a musician myself and very fond of music, I could not conscientiously ask the band to "come off" their pedestal. The country cannot afford a band, any more than the many other items of extravagance proposed. The condition of affairs ought to make people think, and especially the executive and Legislature now in session. The cheese-paring policy proposed will not at all satisfy the country. Our Ministers do not seem to realize the extent of the disaster that has fallen on the country through the McKinley bill; yet it is plainly to be seen at every turn. Foreclosures of mortgages, assignments and receivers appointed, property sold for less than the improvements cost and mechanics standing idle on every hand. Yet it is proposed to lop off \$400 here and \$100 there. This won't do. The Cabinet should come out boldly with a policy that will be in accordance with the condition of the country. It is needless to say that the statement "Perhaps an increase of duties on some goods, or an increase or imposition of taxes on some articles, or a loan, will recommend itself to your wisdom," is in itself a sign of incompetency.

A radical change is necessary. Begin with the judges. You have far too many judges in the country for the work to be done. Three Supreme Court Judges and three Circuit Court Judges could do all the work that twenty or thirty now do. Here would be a saving of over \$20,000 for public works that no one can doubt the necessity of. Do away with the band. Here's another \$20,000 per annum for public works. The soldiers are of no earthly use; do away with them. Here's another \$20,000 saved. Then there's the Marshal, presumably occupying the office and duties of Superintendent of Police. He has, it is said, seven or eight clerks. One smart man is sufficient in other countries, and should be here. Cut them off. How many police have we here? Far too many. Cut them down one half, and save \$25,000. I hear that there are also more than 150 paid spies! No wonder your expenses are heavy, if such is the case. It is a disgrace, and would not be tolerated in England or the United States. A government should be able to trust with confidence to the goodwill of the people.

In fact, you must bring down matters to a business basis, and make a saving of \$250,000, if you choose to do so. Honolulu, July, 1892.

ABOUT RAMIE.

The San Jose Woolen Mills is Now Manufacturing Cloth from that Product.

The Scientific American in a recent number has an article on ramie and in which it says: "The first experiment in the manufacture of cloth from ramie in the United States was made lately at the San Jose Woolen Mill. The fiber was put through the same process at the mills as any other material would for making cloth. It went through the machines, was twisted into thread, and then a thread of wool and a thread of ramie were twisted together. Being put on the loom the machine was started, and in a few minutes the cloth began slowly to unroll."

Mr. F. A. Winter, the local ramie-grower, was seen in regard to the above and stated that while he was glad to know that California was manufacturing cloth from ramie, it was by no means the first production from the fiber, as he had sent to the Agricultural Department at Washington some samples of fabrics made from ramie in 1890, which are now on exhibition in that city. The samples embraced cotton, woolen, worsted, silken worsted and a silk production. On the last Australia Mr. Winter sent test samples to the San Jose Woolen Mill, which included degummed and bleached fiber and a test sample of the opener for the ginning machine. Mr. Winter has samples of cloth manufactured from ramie and anybody who is interested can call on him for any information.

As everybody knows, ramie is nothing more or less than a weed, and grows and increases with the prolificness for which weeds are noted. The plant does not need a rich soil; in fact, seems to thrive best in a soil in which nothing else will grow. It is claimed that three crops a year can be secured, and that at the least calculation a profit of \$200 an acre will pour into the pockets of the ramie cultivator.

The short notice on Rat Traps last week rather boomed that branch of our business and gave us an idea of how many people there are in Honolulu whose homes are infested with rats. The traps we are selling are really a very superior article—the rats don't know they are in it until they try to get out. The traps are made of copper wire and will last until the millennium—or longer.

Plenty of wind and no water is a bad state of affairs for cattle or crops. The herds will not fatten on wind, neither will the crops thrive. You can obviate the difficulty if you want to. There is scarcely anything in the way of the Aermotor being successful in putting water wherever it is wanted provided you have the water. The force pumps which go with the Aermotor have such wonderful power that the water is sent into high places and at long distances even though the wind should be very light. It is marvelous what these Aermotors will do and how easy they run. A gentleman from Maui to whom we have sold two mills called on us the other day and said "the Aermotor has given such perfect satisfaction during the past year that I will want three more." This person is not alone in pronouncing it the best mill in existence.

There are people on the islands who want them but who are waiting for better times before they buy. If these people want to enjoy life and make the times better, now is the very time to buy an Aermotor because it will prevent loss to cattle and to crops, it will save the expense of whatever number of men they may have engaged in pumping. This is the year for economy among the plantation men and there is no greater economy than the purchase of a steel Aermotor. For grinding corn it will do more work and is cheaper than hand power and is equally as good if not better than a steam engine. Mr. C. L. Wight says: "The 12-foot geared Aermotor purchased from you runs a jorge blower, a drill, 2 grindstones, a lathe and a 20-inch circular saw. It performs its work as well as a steam engine; it burns no fuel, is ready night and day and in light winds, heavy winds or gusty winds it is equally efficient. It costs about five cents a day for oil, inspection and repairs."

You don't want any better assurance of its superiority than that. Again we mention the superior quality of our Pocket Knives and Table Cutlery selected from the best markets of England and the United States, and which we are selling at prices that astonish everyone. A new lot of carvers received within the last ten days are decidedly the best we have ever shown.

LOCAL AND GENERAL.

W. E. Kerr was arrested yesterday for an attempted assault.

The Wichman Watch Club drawing can be found in another column.

The Band will play four new pieces this evening at the Hotel concert.

Mr. Harry Lewis and wife are expected home this morning after an extended trip abroad.

The annual examination of the scholars of the Fort street school will take place on the 20th inst.

Judge Foster has sentenced Albert Ryan to thirty days' imprisonment for the larceny of a watch.

The Eagle House and the Arlington Hotel are popular houses with both tourists and city people.

Representative Albert Horner of North Hilo, was sworn in yesterday as a member of the Legislature.

Miss Juliet Smith and friend were present during part of the morning session of the Legislature yesterday.

On Wednesday, July 27th, Jas. F. Morgan will hold an auction sale of leases of residence sites at Waikiki.

The California Fruit Market will have their usual supply of California fruits and vegetables on the steamer to-day.

At the old Armory, this evening, at 8 o'clock, Hon. B. W. Wilcox will address the meeting on the "Pearl River Question."

The time of Justice Dole and a Hawaiian jury was occupied yesterday hearing the evidence in the ejection case of Holt v. Keolo.

The schooner Liliu will depart for Micronesia next Saturday. Captain Hitchfield will carry all letters and papers that the public may wish to send.

The annual meeting of the stockholders of the Hawaiian Base Ball Association will be held at the Chamber of Commerce to-morrow at 12:30 o'clock.

The base ball craze has reached Molokai now. A game between teams from Kamaekahi and Halaewa was played on the Fourth of July, the latter winning.

The HAWAIIAN GAZETTE (12 pages) is out this morning and can be had at this office or at the news dealers.

The present number is up to the usual excellent standard of this journal.

Admiral Brown's oldest son is expected on the Australia. He will return to San Francisco with his father on the Flagship, accompanied by the son of Hon. Paul Neumann, who goes to attend school.

A member of the House stated yesterday that District Judge Swan, of Hawaii, presides over his Court attired in a sailor's costume with the addition of the usual long rubber sea boots. He must present a distinguished spectacle.

One of the local Masonic lodges has purchased the lot on the corner of Hotel and Alakea streets, known as the Royal Hawaiian Theatre premises. The property belonged to Dr. J. S. McGrew, and the price paid is understood to be \$5500.

George L. Ritman, who left for San Francisco a few months ago, is expected to return on the steamer this morning. There has been an aching void in No. 1 Engine Hall since his departure, so a hearty welcome for him is assured.

The announcement yesterday that the ADVERTISER had increased the number of prizes for the base ball contest caused favorable comment to be made by all lovers of the game.

The ballots came in thick yesterday, which is not usual on Mondays.

The Police Court has a large number of nrtied cases on the calendar, owing to the fact that both the Legislature and the Supreme Court are in session, making it very difficult for the attorneys to find time to appear in Judge Foster's court.

A dance is to be given in the new Pavilion at the Hotel on Thursday evening. It will be given by the gentlemen as a return courtesy to the young ladies who entertained them at the Leap Year party some weeks since, including also a number of others who were not able to be present at the Leap Year party.

A man named August Richardt was thrown from a horse yesterday afternoon about 4:30 o'clock, on Nuanu street, near the residence of Rev. A. Mackintosh. The police were notified and the man was conveyed to the hospital, where it was ascertained that his fall had caused a concussion. His condition was considered critical last evening.

TWO BRACELETS.

They Cause a Law Suit Because the Owner Made a Discovery.

Joseph Lazarus has commenced suit against J. E. Gomes, the jeweler, for \$75, the amount paid for a pair of gold bracelets.

Lazarus declared that in December, 1890, the defendant agreed to make two chain bracelets for his wife, which were to be manufactured of 16 karat gold for the sum of \$75. When they were finished, he paid the money, and presented his wife with the trinkets. They were worn for about a year, when it was decided to have them made over into a watch chain. The son saw J. Hubash about the proposed change, and upon an examination it was found that the bracelets were not solid gold, but were rolled gold; that is, a thin plate of gold covering a base metal.

The son immediately saw Gomes and was assured by the latter that he had not said the jewelry was solid, but offered to pay \$30 for the return of the bracelets.

J. Hubash was called as an expert; he told the Court that he had examined the bracelets and found they were rolled gold, and contained about \$12 worth of the precious metal. He would make the same pattern for \$27, or if made solid his charges would be about \$70.

Gomes was called, and said the plaintiff had asked him what he could make for \$60, and his reply was that the bracelets would be filled for that sum; he received \$5 extra to make the gold plate a trifle thicker. He did not tell Lazarus that they would be solid; they were solid to a certain extent, but filled inside. He could not manufacture the same pattern in solid gold for less than \$100. He thought there was about \$25 in gold on the bracelets in question.

Judge Foster reserved his judgment on the case until next Wednesday.

A BAD MEMORY.

Mr. Hing is Brought Up With a Round Turn on a Note.

Sing Hing is a Chinese store-keeper, and owing to a lull in his business, he announced a short time ago that he was to retire from business and urged his creditors to present their claims at once, or words to that effect.

Hing imagined that he owed but a few insignificant bills, but lost sight of the fact that a note for \$107.75 was outstanding against him and in the hands of P. Peck.

When Mr. Peck read Hing's announcement in the ADVERTISER, he visited his debtor friend and presented the note. Instead of paying the money at once, the Chinaman commenced blessing things as only a Chinaman can do, but the money was not produced however. Peck, to use an Anglicism, became "leary," and hurried to the Police Station and had a warrant issued for the wily Chinaman before he could transfer his property.

Judge Foster gave judgment for Peck yesterday for the note and costs, the whole amounting to \$122.04.

THE GREAT CONTEST.

Additional Prizes are Offered by the Advertiser.

Owing to the increasing interest taken in the base ball contest, to decide the favorite players, we have added two prizes to the list before announced, and the whole are as follows:

The sum of Ten Dollars has been added to the third prize.

Open from 6 to 8 A. M., from 11:30 to 1:30 noon, and from 6:30 to 9:30 P. M., from Tuesday, May 10.

It would be well not to forget the excursion to Mauna Loa next Friday.

WHARF AND WAVE.

DIAMOND HEAD, July 11.—9 P.M. Weather, hazy; wind, northeast.

The British steamship Palmas was raised from quarantine at 9 o'clock yesterday morning, July 11. She was later docked at the P. M. S. S. Co.'s wharf to discharge 350 tons of general merchandise for this port. The Palmas will sail to-morrow morning with 20,000 packages of merchandise in transit and Chinese and Japanese passengers in transit for Victoria, British Columbia. She will carry the foreign mails.

Mr. R. N. Webster, the popular ticket and freight agent of the I. T. S. N. Co., will be a passenger next week on the S. S. Australia for San Francisco. While attending his duties on the wharf some time ago, Mr. Webster had a fall, the effects of which he has never fully recovered from, and he hopes to get relief in a change of climate.

His numerous friends will wish him a permanent cure and hasty return to the scene of his labors.

Mr. J. Strow, for a number of years chief engineer of the Wilder steamship Kinan, is expected home to-day on the Australia. Mr. Strow had a slight attack of paralysis in this city recently, and has been under treatment in California for the past two months, where he has been greatly benefited thereby.

The schooner Liliu, Capt. J. G. Hitchfield, will leave next Saturday for Micronesia. She will take mails and also the freight left over by the Morning Star. The Liliu will be absent about eight months.

"German Syrup"

Martinsville, N. J., Methodist Parsonage. My acquaintance with your remedy, Boschee's German Syrup, was made about fourteen years ago, when I contracted a Cold which resulted in a Hoarseness and a Cough which disabled me from filling my pulpit for a number of Sabbaths. After trying a Physician, without obtaining relief—I cannot say now what remedy he prescribed—I saw the advertisement of your remedy and obtained a bottle. I received such quick and permanent help from it that whenever we have had Throat or Bronchial troubles since in our family, Boschee's German Syrup has been our favorite remedy and always with favorable results. I have never hesitated to report my experience of its use to others when I have found them troubled in like manner." Rev. W. H. HAGGARTY, of the Newark, New Jersey, M. E. Conference, April 25, '90.

SPEAKS FOR ITSELF.

HONOLULU, June 30, 1892. DEAR MR. LOWELL—I feel it would be ungrateful of me to return to New Zealand without expressing in writing my joy and thankfulness to almighty God for the complete cure of my cancer by your instrumentality. More especially considering mine had been cut twice, and so aggravated so much that our great doctors here said that there was no cure for it. But him who works in men both to will and to do guided me here in answer to my prayer. And I hope the time is at hand when the obstruction to your successful treatment of this people will be swept away.

THE LEGISLATURE

Thirty-ninth Day.

MONDAY, July 11.

House opened as usual at 10 A. M. A quorum was had after eleven minutes waiting.

Rep. Kamaoaha moved that rules be suspended so that the Judiciary Committee be allowed to examine the credentials of Rep. Horner, of North Hilo.

The President remarked that no suspension of the rules was required.

PETITIONS.

Rep. Kamaoaha presented a petition from Honolulu praying that the President of the Board of Health be removed and a new President of the Board of Health be appointed.

Noble Pua moved it be laid on the table to be considered with bill. Carried.

Rep. Kamehili presented a petition from Honolulu, containing twenty-nine names, praying that Queen street be extended to Kalia. Referred to Public Lands Committee.

The same member presented a petition, also with twenty-nine names, asking that waterpipes be laid on extension of Queen street. Referred to Public Lands Committee.

Noble Walbridge presented a petition from Waiuku praying that \$500 be inserted in the Appropriation bill for constructing a road from Kahului to Makawala inside of the present road near the sand hills. Referred to Committee on Public Lands and Internal Improvements.

Noble Neumann presented a petition from a committee of lepers on Molokai praying (1) That Mr. R. W. Meyer be continued and kept as Agent of the Board of Health; (2) That Mr. W. H. Hall be removed for these reasons: 1. That he allowed several people to visit their friends at the Leper Settlement; 2. That he forged the names of 500 and more lepers on a petition to remove Mr. R. W. Meyer; 3. For not providing for medical services. Referred to the Molokai Committee.

Rep. Bipikane presented a petition from Honolulu praying that certain leper suspects be retained at Kalia for the purpose of receiving medical treatment from Mr. Lowell. Referred to Sanitary Committee.

Rep. Kamaoaha presented a petition from Konaia praying (1) That Dr. Lowell be appointed Government physician at Honolulu; and (2) That he be allowed to treat lepers at Kalia. Referred to Sanitary Committee.

Rep. Koaohu presented a petition from Central Hilo asking that (1) A new Road Board be appointed for that district; (2) That the present assessors be paid for services. Referred to Committee on Miscellaneous Petitions.

Noble Pua presented a petition from Makawao, of twenty two names, praying that \$500 be appropriated for repairing the wharf at Kuaa, Maui. Referred to Government Lands Committee.

Rep. Akina, from Waimea, Kauai, presented a petition asking that the old road on the beach at Waimea be opened to Mana. Referred to Public Lands Committee.

Rep. Kaunamano presented the following petitions from South Kohala: (1) containing fifty names, praying that the appointment of Government officers be evenly distributed between foreigners and Hawaiians. Referred to Finance Committee. (2) A petition, with fifty names, requiring that the Postmaster-General open a Postal Money Order service at Kawaihae. Referred to the Minister of Finance. (3) A petition praying that parents having five or more children be exempt from taxes. Referred to Judiciary Committee. (4) A petition, with fifty names, praying that the Act on compulsory vaccination be repealed. Referred to Sanitary Committee. (5) A petition praying that a Hawaiian school be established at Kawaihae, and also that the pay of native teachers be increased. Referred to Educational Committee. (6) A petition praying that native Hawaiians be allowed to practice medicine, and also that kokua be allowed as help to lepers. Referred to Sanitary Committee. (7) A petition praying that native Hawaiians be allowed to own homesteads on Government lands. Referred to Public Lands Committee. (8) A petition from Hamakua praying that Hamakua be divided into two judicial districts, that a Hawaiian Board of Health be established; that the Government ascertain its rights in the ahupuaa of Kemaou; that natives be given homesteads from Crown lands; that natives be allowed to distill spirituous liquors; that the Government be allowed to make treaties with foreign countries, but that no privilege be given of coal mining; that the Government establish a national bank; that laborers be introduced into the country without any restrictions; that educated natives in Government schools; and that the Hawaiian language be made binding. All referred to Committee on Miscellaneous Petitions.

Rep. Nahinu presented a petition from Malokai, containing fifty names, praying that \$3000 be appropriated for improving the landing at Pukoo; also that the sum of \$2000 be appropriated for the road from Halaia to Kanae, Malokai. Referred to Public Lands Committee.

Rep. Kamaoaha presented a petition from Honolulu, asking that Mr. Lowell be made Government physician, and also visiting physician at Kalia Receiving Station. Referred to Sanitary Committee.

Rep. Pua presented a petition from Iwilei, praying that \$2000 be appropriated for laying water pipes at that place. Referred to Public Lands Committee.

STANDING COMMITTEES.

Noble Neumann from the Judiciary rendered the following report of that committee to Rep. Albert Horner's credentials: The committee to whom was referred the credentials of the Hon. Albert Horner respectfully report that said credentials are in proper form and order, and that therefore it appears that the Hon. A. Horner is prima facie elected as representative to the Legislature from the district of North Hilo. Signed by P. Neumann (chairman), A. P. Peterson, W. O. Smith, Wm. White.

The report was adopted on motion of Rep. Kamaoaha.

Noble Neumann moved that A. Horner be sworn in.

The President requested the same Credentials Committee consisting of Reps. Kamaoaha, Iosepa and Noble Cornwell to wait on the Chief Justice.

Noble Neumann filed an affidavit

as an amendment to the Constitution. Noble W. Y. Horner presented a minority report on the Military bill, as follows: The minority members of your Military Committee, to whom was referred the matter regarding the Queen's Guards, hereby report: We have visited and carefully examined the quarters of the military, and feel to commend the order, cleanliness, efficiency and personal of the guard. It is a well recognized fact that all business of the Kingdom is much depressed. Your committee most respectfully suggest that this House should use all due diligence in carrying out legitimate measures to assist in creating labor and to cheapen food for those now much in need of such things. A force much to be dreaded at all times are idle and hungry men. The committee are of the opinion that the Queen should have a small guard sufficient to guard the Palace and to return courtesy to foreign nations in the way of salutes, etc. Therefore your minority committee report that as retrenchment and economy are financial demands, and stern necessity our guide. The committee recommended that the item in the Appropriation bill relating to the pay of the Queen's Guard be reduced to \$25,000. The committee found that there are now eighty-three men all told comprising the Queen's Guard; \$50,000 supporting eighty-three guards on the same basis \$25,000 will maintain about forty guards. If this report be adopted the House will make a saving to the treasury of \$25,000 over and above the recommendation of your majority committee. Signed W. Y. Horner, Jas. Anderson. Rep. J. W. Bipikane having signed the majority report under misapprehension also signed this report.

At 11:49 A. M. Associate Justice R. F. Bickerton entered the Assembly Hall, the House standing. Hon. Albert Horner then took the oath from His Honor to support the Constitution of the Hawaiian Kingdom.

Rep. Bush moved the minority report be laid on the table to be considered with bill on same subject.

Noble Cornwell claimed that his report, presented on Saturday, was a majority report because Bipikane, Kamaoaha and himself signed it.

SELECT COMMITTEES.

Rep. Iosepa asked for further time to consider bills Nos. 26 and 31. Granted.

RESOLUTIONS.

Noble Macfarlane read an Act authorizing the Minister of the Interior to grant the Sailors Home the use of certain land in Honolulu.

The Attorney-General read the first time an Act to provide for the opening, improving and closing of highways.

Rep. Kamaoaha read the first time an Act to amend Chapter 7, Session Laws of 1887, relating to public health.

Rep. Kamaoaha read by title for the first time an Act to amend Chapter 23, Session Laws of 1874, allowing applicants of different nationalities to distill spirituous liquors.

Rep. R. W. Wilcox asked permission be allowed to amend his resolution read on Saturday, there being an omission. Granted.

The Attorney-General gave answers to questions propounded by Rep. Kapahu, as follows: Said questions were referred to the Marshal, and for answer to questions 1, 2 and 3, he referred to the letter of the Marshal, which is attached hereto. Question 4 is couched in such vague language that he found it impossible to understand its purport.

tins of opium in the Police Station now. They have not been sold yet. I have received no complaint whatever from any informer or police officer for failing to receive his share of fines. If anyone had not received their share they would have notified him (the Attorney-General) of the matter.

Rep. Kauhi was satisfied with the explanations made by the Attorney-General. At 12:01 P. M., on motion of Rep. Kauhi, the House took a recess until 1:30 P. M.

AFTERNOON SESSION.

The House reassembled at 1:30 P. M. Rep. Kapahu said that he was the introducer of the questions relating to opium asked of the Attorney-General. The idea was simply to get an opinion about the opium and liquor.

The questions and answers were ordered to be printed. At 1:50 P. M. Rep. Kamaoaha moved that the House sit in Committee of the Whole, to consider the Appropriation bill. Carried.

The House then went into Committee of the Whole, Rep. Kamaoaha in the chair, and proceeded to the ORDER OF THE DAY.

Noble Marsden moved consideration of the item on the Queen's Guard. Noble Cornwell asked that it be deferred until Wednesday, as the minority report was only presented to-day. Carried.

Noble Marsden moved the consideration of permanent settlements. Carried. Noble Cornwell read a reply from Dr. Trousseau, agent of Queen Dowager Kapiolani and of the late King Kalakaua, as follows:

DR. TROUSSEAU'S REPLY. A wrong impression seems to prevail among the honorable members of the Legislature as to the exact situation of the Queen Dowager Kapiolani. As one who exactly knows her financial position, I feel it is my duty to enlighten the Committee and the House on the true state of affairs.

The principal income of the Queen Dowager is the sub-letting to Portuguese tenants of the Palace of Panchanah (Crown Land of Auaiolimo, I think). Until twelve months ago the income from that source was somewhere about \$4,500 to \$5,000 a year; but on account of the large exodus of Portuguese in 1891 the income has been reduced to one-half, and I venture to say that for the year 1892 it will be still much reduced. Most of the houses are for sale and find no purchasers. Outside of this lease the Queen personally owned a very little property. As heir to the King I can state exactly her situation.

The debts paid so far amount to \$100,000. The Estate owes one firm that she will have to pay 5,000. There are several law suits still pending, and probably there will have to be paid not less than 5,000.

Grand Total.....\$116,000. The balance of the Estate is completely mortgaged, with no exception, partly to Hon. A. S. Wilcox, for \$30,000; partly to Hon. J. A. Widemann, for \$10,000; total, \$40,000. The interest is 9 per cent, or \$3,600 a year. The income of what is left of His late Majesty's Estate will just about pay the interest on the notes and a little towards the mortgage, so that for the present and for the next four or five years she will be reduced to a very precarious situation, unless, which is highly improbable, she can get, as before, a good income from her Portuguese tenants. As far as that income is concerned, I will state on each, if necessary, that it is now below \$2,500.

Her Majesty has not only to look after herself, but also has to provide for her sister, Princess Poamakekani, who has no income and is the two young Princes, Kalaniana'ole and Kamehameha. It would be justice, therefore, to help her along for the next two years, and this for two reasons:

1. That she has lived a spotless life, and is one of the noblest of her race, and also the founder of three beautiful enterprises, at her personal cost. 2. That she is the widow of one, who if he had been more provident, ought to have left her wealth and without care, and who, nevertheless, has not withstanding many faults, has been the means of bestowing upon our little country a prosperity that seems to have vanished at the same time as his life.

G. TROUSSEAU, Administrator of the Estate of Kalakaua, deceased.

P. S.—I will add that some \$12,000 of private property, the late King's, are still in the possession of the Chamberlain at the Palace. All the carriages, most of the coronation presents, a good deal of furniture and the electric light plant. About the private property at the Palace I have written the ministers repeatedly, but got no satisfaction.

G. T. Noble Marsden said he favored assisting the Queen Dowager, but he would amend by changing it to \$60,000. Rep. Smith favored the last motion, but thought that Dr. Trousseau had not given full statements of the Queen Dowager's income. To say that her only income is \$2500 a year is misleading, as he (Trousseau) had left out the rents from her lands. She gets about \$6000 per annum from her mortgaged lands.

The motion of a permanent settlement in aid of Queen Dowager Kapiolani \$8000 was then put which resulted in a tie vote the votes standing 20 for and 20 against.

The Chairman cast his vote in favor of the item. Salary Clerk to Sheriff of Hawaii, \$1800. Passed at 12:00.

Salary Clerk to Sheriff of Maui, \$1800. Passed at 12:00 as recommended by the committee.

Salary Clerk to Sheriff of Kauai, \$900. Committee recommended \$500. Rep. Smith said that that was very small potatoes from Kaloepelo for a big committee. Passed at \$600 as in the bill.

Pay of Police of Hawaii, \$80,000. The committee recommended it pass at \$71,720.

A motion was made to defer its consideration, and also that of items for Maul and Kauai.

Rep. Smith said that the Attorney-General and Marshal are in a much better position to judge what salary should be paid the police. The House could not tell the merits of each policeman. He thought it very unwise for the House to fix the pay of each policeman. He favored recommendation by the committee.

Rep. Nawahi did not agree with the previous speaker. He considered that the representatives of each district ought to know what should be paid the principal police officers of his district. That would do away with the present practice of favoritism.

He condemned the undignified manner of the Judge at Laupahoehoe (Swain) of sitting at his court. Rep. Waipulani said that he

looked to him that there is impartiality practiced in the pay of native and white police officers. He had been told that native officers, if needy, could receive help from friends, and also that they could live on poi and salmon, whereas a white man could not do that. In the Police Department, while the native officers get \$75 per month, the white officer is paid for doing the same service \$150 per month. That is unjust discrimination. Noble Baldwin said that the Committee of Ways and Means (a committee of mean ways, some say) said that a little more latitude ought to be given the Marshal in regard to pay of police officers. Nobody in this House could apportion the pay of each police officer. It is absurd to regulate the pay of officials in all the departments. At the end of the period it would take an endless amount of work to apportion their pay.

Rep. Kamehili said that the Representatives were chosen from their districts because they were men of intellect. Yet they had been called ignorant because they favored apportioning the pay of each of the police. If we don't apportion the pay from the highest to the lowest officer, the same abuse would continue as heretofore. The whole police system is rotten.

Noble J. M. Horner said that the native brethren, although smarter in some instances, commanded less business experience. He deemed the native members inexperienced with regard to a business proposition of this nature, but he did not doubt their honesty in their belief. The committee were also sincere.

Rep. Kaunamano said that if \$100,000 be given to a plantation manager, the same abuse would exist as in our Police department. The practice of passing pay in lumpsums has caused untold abuses. He favored postponement of consideration of the item till the bill comes up.

Rep. Bush said that it was necessary that the House should study well the way of disposing of this money. The natives have larger experience in the duties of police officers. I have been informed by gamblers that the police officers go there to collect \$50. Four banks are paying \$200 to police officers. Every day on Maunakea street you will find policemen standing and engaging in che-je-games. The Police department is rotten (I am sorry to say so), because the police do not arrest gamblers. The Cabinet has not protested against the actions of his appointment by the Queen because they hope to get their salary. There should be at least three different grades in the Police department. J. H. Stelling came down from Maui this other day and surprised everybody in this city by receiving \$150 a month as a special officer. The value of a seat must be determined by its worth. It is high time to put a stop to the arbitrary way of the Marshal in creating appointments of secret service—spies, or something else.

Minister Widemann said that he supposed that the gentleman was speaking from his experience when he was a Minister. He denied in toto all his allegations.

Rep. Bush said that there was no tender for the building of a vault in the Police Department.

Minister Widemann replied that he would repeat that Rep. Bush does not know what he was talking about. Rep. Bush continued that the Minister had not given good advice to the Queen. Gambling is being carried on openly, probably with the approval of the administration.

Noble Marsden moved at 4:10 P. M. that the committee rise and report progress which was carried. Report of the committee was adopted.

Notices of various committees. The House adjourned at 4:14 P. M.

KAUAI INDUSTRIAL SCHOOL.

An Excellent Report for the Last Term of that Institution.

Kauai Industrial School closed its second year July 1st.

The health record for this period has been remarkable, not a single case of serious illness having occurred in the whole time. This is due in part, to the excellent location, but perhaps more to the variety of the daily routine of shop and farm, school-room and recreation.

The results of the farm work are visible in acres of sweet potatoes and other vegetables, which will furnish a considerable portion of the food for the students the coming year.

A more important result of the farm work, however, is on the boys themselves. The three-and-a-half hours a day on farm and garden is not the least valuable factor in their education.

A visit to the workshops and laundry is interesting to the visitor. The smallest boy soon learns to wash and iron his own clothes and keep his bedroom neat and tidy. It is evident that special attention has been paid to neatness and deportment, habits and manners.

The programme on closing day consisted of the usual daily classes in arithmetic, English, business forms, geography, and the Holt system of singing. The work in drawing and paper folding and cutting was on exhibition, as also the work from the blacksmith and carpenter shops. Commendable progress was shown in the various departments. The manual training gained in the drawing and paper work is a great assistance to the Sloyd work given in shops, and is indeed a part of it.

After examinations, an attractive programme, consisting of recitations and singing, was rendered. The singing was much praised by the audience. The four parts were well sustained by the boyish voices. The Holt System is beyond question the best feature of the Tonic Sol Fa with the ordinary notation.

A pretty flag drill gave variety to the programme and a wand exercise was rendered in exact rhythm and time.

Altogether the exercises showed the results of faithful and expert teaching and helps to explain the reluctance with which Hampton parted with two of its finest teachers.

The trustees greatly regret the necessity which compels them to accept the resignation of Miss Kenwill who has been in the school from the beginning, the last year as principal.

School will re-open September 5th with Miss Bachelor and Mrs. Clara Benfield Smith in charge of the school work, and Miss Juliette Smith in general charge. Mr. F. P. Farley will continue to be instructor in carpentry and agriculture.

BOLD CHE FA FIENDS.

A Police Officer Invades Their Territory with Disastrous Results.

The police—it must be said to their credit—have been for some days attempting to gather in an assortment of the che fa fiends. A general raid was arranged for last Saturday morning but the officers returned empty handed. Louis Toussaint, an officer, decided yesterday morning that he could make a capture single-handed and alone, but as he returned to the Station in a battered condition, he has good reason to change his mind.

He took a tour through Chinatown and about 11 o'clock he came in contact with a bank presided over by two natives. The bank was in a house in a small lane off Smith street near the church. Like a good sharp officer, he grabbed as much paper evidence as he could and hurriedly placed the same in his inside pocket and was about to transfer about \$180 in coin that was lying on the table to his jeans when the natives objected, they called for help and in less time than it takes to write it, about twenty natives including some women pounced on him, and while the men were pounding him into jelly, the women with that true instinct removed about three dollars' worth of his looks. After tearing the officer's coat and recovering all of their property, the natives allowed Toussaint to depart. He immediately returned to the Station and had a warrant issued for one of the leaders on a charge of assault and battery, the man was arrested and gave the name of Aiono.

How Lepers are Treated in Siberia.

BERLIN, June 12.—Kate Marsden, who is interested in a project to establish a leper colony in Siberia, has arrived here from St. Petersburg en route to the United States. In an interview to-day she gave a graphic description of her six week's tour of the leper colonies of Siberia. She says that as soon as any persons shows signs of the disease, the victim is at once driven into the depths of the forest, there to live upon tree bark and upon rotten fish. This food is furnished by relatives, who deposit it a distance from the miserable and filthy huts of the victims. The huts are one-half under ground for the sake of warmth.

Miss Marsden and thirty guides were obliged to cut a path for themselves through the undergrowth of the forests and to proceed in single file. They found the lepers ill-clad and living in indescribable filth and vice, dragging out a horrible existence for years, until they die of disease or starvation, after becoming so loathsome that they have lost all semblance to humanity. Miss Marsden says that there has been found in Yakutsk a plant that is reputed to cure leprosy, but she has not been able to test it as yet. She intends to return to Yakutsk to establish a colony at Vleusk.

TRADEMARK CASES

Hiram Walker & Sons, of Canada, Get an Injunction Against a Chicago House.

A case recently heard before Judge Cresham, of the United States Circuit Court for the First District of Michigan, goes to show that persons who use whisky must be on the alert if they would escape being imposed upon.

The plaintiffs are Hiram Walker & Sons, Limited, of Walkerville, Canada, distillers and bottlers of a whisky known as "Canadian Club." Under the Canadian excise regulations whisky may remain in bond indefinitely, and the distiller may, if he so wishes, bottle it while still in the custody of the government officers, and thereby obtain an excise certificate of the age and genuineness of the liquor in the form of an official stamp over the cork of each bottle. This guarantee is naturally very much prized by the distillers who have the old whisky to secure it, and all whisky bottled by the Walkerville establishment is so guaranteed.

A Chicago firm have put up a spirit which they call "Montreal Club," alleged to be made by the "Montreal Distilling Co.," which was shown to have no existence. In all but name, the Walker labels were closely imitated, as was also the official stamp of the Canadian excise. The proceedings were rendered somewhat novel by the appearance of Mr. Z. A. Lash, Q. C., of Toronto on behalf of the Dominion government, to support the application of the plaintiffs to restrain defendants from further use of the counterfeit certificate. The defendants were promptly enjoined from continuing to infringe upon plaintiff's trade-mark or labels, or to copy the Dominion excise stamp.

A significant feature of the case was the production by the defendants of affidavits by several liquor dealers of Chicago, who could hardly be ignorant of the character of the goods in question. It would appear that the consumer must depend upon his own care and judgment for immunity from such attempts to defraud.—Bonfort's Wine and Spirit Circular.

IN ORDER

To be a true follower of Hahnemann and obtain the best results in using Homeopathic Remedies, several things must be considered. In the first place, the Medicine must be fresh. While a few months will not impair the medicinal properties of Homeopathic Remedies yet it is evident that with age it value as a medicine will have depreciated. Secondly—Homeopathic Remedies must have proper care. Being very sensitive to light and atmospheric changes, they must be protected from strong lights and damp air.

That they should be kept separate from odors of strong and powerful drugs, must not be ignored. When these precautions have been complied with, Homeopathic Remedies will have a fair chance in combating diseases. We have recently added to our stock, not only a complete line of Boericke & Runyon's Home Remedies, but a full line of Humphreys' Specifics, both domestic and veterinary.

In Boericke & Runyon's line we have the different remedies of the Materia Medica, and many of their specialties, such as Schuessler's Tissue Remedies, in single bottles or cases.

Homeopathic Cough and Croup Syrup, commonly called B. & S. Syrup. Homeopathic Preventive for Seasickness. Quillaya Pellets for cold in the head.

Homeopathic Santonine, a vermifuge. Homeopathic Arnica Porous Plasters. Homeopathic Tincture Calendula for cuts and bruises.

In Humphreys' line we have the Domestic Remedies which sell at 25c. a bottle and the Veterinary Remedies which sell at 60c. a bottle.

We have a large number of Homeopathic Guide Books, which can be had for the asking.

HEARING MARCH 9TH, 1892.

IN THE MATTER OF THE BOUNDARY OF KAOHE.

BEFORE JUDD, C. J., BICKERTON AND DOLE, J. J.

Evidence upon which the boundary between the Crown Land of Humuula and the Government land of Kaohe was settled by the Commissioner of Boundaries for the island of Hawaii discussed.

OPINION OF THE COURT PER JUDD, C. J.

On the 16th August, 1873, the Commissioners of Crown Lands made application to Hon. R. A. Lyman, Boundary Commissioner for the Island of Hawaii, for settlement of the boundaries of a number of lands belonging to the Crown situated in the district of Hilo, on the island of Hawaii, and among them was the land of Humuula.

After the lapse of some years another commissioner, Hon. F. S. Lyman, was appointed, and on the 14th August, 1891, the Hawaiian Government made application to him to settle the boundaries between the Crown Lands of Humuula and the adjoining Government tract extending from Pohakuhana to Maunaloa to the head of Kaala in Hamakua, known principally as the Government land of Kaohe.

Judge Lyman took such evidence as was presented, and on the 3d October, 1891, made a decision establishing the boundary between Kaohe and Humuula, locating it by reference to known places and stating that surveys were to be made and filed before the certificates of boundaries should be issued.

Besides the interests of the contending parties, the Government and the Crown Land Commissioners, the determination of this boundary is a matter of public importance, as the western boundary of Humuula along the Kaula gulch and thence on to near the summit of Maunaloa is the division between the districts of Hamakua and Hilo. It is established by the evidence that Humuula is a Hilo land and that Kaohe is a Hamakua land.

All admit that the line where the dense forest ceased and the scattering mamane trees grew was the line of Humuula eastward and on the westward the line was where the mamane trees ceased, above the limit of vegetation. This general view is not controverted and the boundary line from Pohakuhana to Maunaloa to Kanakaleonui as found by the commissioner is not seriously controverted by either party.

It is agreed that the starting point of the western boundary of Humuula on the sea coast is where it joins the land of Ookala and that the boundary runs along Ookala until it comes to the Kaula gulch and follows this gulch up to the upper boundary of the land of Kaala near a place called "Lahohina," not far from "Ned Gurney's" hut.

the land of Kaala close to the Government road leading from Hamakua to Laumala and Kalaeha.

No witness goes quite to the extent thus claimed. Some, however, take the line from Iolehaehae to Poopua or "Ahuapoopua" and thence to the agreed point "Lahohina."

On the other hand Simmons and others give the line as going from Iolehaehae direct to the Kaula gulch where it enters the woods. Opposed to either of these views is the testimony of Nakupuna, said to be 100 years old, who takes Kaohe to Iolehaehae, and says that at Waikulukulu Humuula joins Kaohe.

This view is sustained by Mr. Lyons' testimony. He says that in 1858 when he surveyed Kaala and Kaiwika for Hon. John II, who was guardian of Leleiohoku 2d, he went through the woods following the Kaula gulch till he struck the main road and the kamaainas pointed out to him two peaks as the boundary of Kaala. One was Iolehaehae and that he took a sight on, and the other was one to the east of it whose name he cannot give.

It is significant that the neighboring lands of Kukaia and Koholele have been established as running up beyond the woods to a line of three tufa cones, or hills, Puukea, Puoikihe and Iolehaehae, and it would seem natural that Kaala originally took in its share of this territory and ran from Iolehaehae to Puukalepa. These four hills or cones are conspicuous landmarks and can be seen at a long distance.

The question is not easy to determine, but we think on a review of the whole case that the Commissioner's decision should be sustained on this point. The only other point in dispute is whether Humuula on the slope of Maunaloa extends to Omasoiki hills or only goes as far as Puhululu.
