**CORRESPONDENCE.**  
We do not hold ourselves responsible for the  
statements made, or opinions expressed by our  
correspondents.

**Inconsistency.**  
MR. EDITOR: I remark a curious  
inconsistency in the choice of cases for  
inquest by coroner's jury in  
this town. Wm. Gude died under  
circumstances strongly suspicious  
of violence—no inquest; — dies  
from causes clearly the result of  
an accident—a sand bank caves in  
with no possible suspicion attaching  
to anybody: an inquest is imme-  
diately ordered!!  
CRITIC.  
Honolulu, Aug. 4, 1892.

**The Postal Savings Bank.**  
MR. EDITOR: In the report of  
the Legislative proceedings pub-  
lished in your valuable paper of to-  
day, I observe that the Committee  
recommend the House to amend  
Section 10 of the Savings Bank  
Act so as to read that the depositor  
is required to give thirty days' no-  
tice prior to the withdrawal of all  
amounts under one hundred dol-  
lars (\$100) and six months' notice  
prior to the withdrawal of all sums  
over that amount! Is this not  
suicidal to the interests of the  
Bank? Now, many working peo-  
ple deposit their savings in this  
Bank. Work gets short and they  
find they have to look elsewhere  
for employment. Are they to wait  
six months for their money? Should  
this amendment become a law,  
the great usefulness of the  
Savings Bank is annulled—the en-  
couraging of thrift among the work-  
ing classes. In the event of its  
passage a run will undoubtedly be  
made on the Bank and the Govern-  
ment will find the depositors  
hungry for their money, unwilling  
to deposit the same under such  
conditions.  
A DEPOSITOR.

**Questions and Answers.**  
MR. EDITOR: We, the un-  
derigned having met, and having

formed quite a debating society for  
the evening on the general topics  
of the day, and having settled to  
our satisfaction all but one, we  
hereby request you to ascertain, if  
possible, answers to the following  
questions, which refer to the Amer-  
ican Flagship San Francisco, and  
one to the American Consul.  
(1) How many men is the San  
Francisco supposed to carry?  
(2) How many different national-  
ities do they represent, and  
what is the number of the same?  
(3) Are foreigners joining said  
ship in a foreign port entitled to  
full rights of an American citizen?  
(4) If not, why?  
(5) Do all American warships  
furnish a special boat for the use  
of the visiting public?  
(5) Has the American Consul  
in all foreign ports the power to  
give passage to an American in  
distress on any American vessel  
leaving such ports and bound for  
the United States?  
By answering the above ques-  
tions through the columns of your  
valuable paper you will greatly ob-  
lige, and interest the public.  
Yours truly,  
CONSTANT READERS.  
Honolulu, July 23d, 1892.

**ANSWERS.**  
(1) The San Francisco is supposed to  
carry, according to Navy regulations, 297  
enlisted men and 40 marines; total, 337.  
(2) Twenty-three different national-  
ities are represented, viz: United States  
179, Germany 28, Ireland 28, Sweden 21,  
Japan 19, England 16, Norway 8, Can-  
ada 5, Denmark 4, Italy 3, Switzerland  
3, Holland 3, Scotland 2, Finland 2,  
Chile 2, China 2, Russia 2, Austria 1,  
West Indies 1, Hungary 1, New South  
Wales 1, France 1, Belgium 1; total  
333. This is 4 enlisted men short of her  
full complement. There are also 33 offi-  
cers aboard, all American born.  
(3) Foreigners joining any American  
man-of-war, either in a foreign or home  
port, are entitled to American protec-  
tion while serving under her flag.  
But this does not make them Amer-  
ican citizens. When their term of  
enlistment (3 years) expires they  
can "declare intentions" of Amer-  
ican citizenship and receive papers  
for same, and after residing two years  
longer in the United States will be en-  
titled to full citizenship. In the Marine  
Corps, which calls for a 5-year enlist-  
ment, a foreigner is entitled to full citi-  
zenship thirty days after "declaring in-  
tentions" at the expiration of said en-  
listment. The same law applies to the  
Army.  
(4) Because, according to the Consti-  
tution of the United States he "neither  
gains or loses a residence" by so enlist-  
ing, but, after "declaring his intentions,"  
the time of his enlistment (either 3 or 5  
years) serves the same purpose as a con-  
tinuous residence in the United States.  
(5) The public are never furnished  
with special boats. They must secure  
their own transportation to and from the  
ship.  
(6) He has the power to give passage  
only on men-of-war, but generally, as a  
matter of courtesy, with the consent of  
the captain of same.

**The Illustrated Tourists' Guide**  
That popular work, "THE TOURISTS'  
GUIDE THROUGH THE HAWAIIAN IS-  
LANDS," is meeting with a steady sale  
both at home and abroad. Tourists and  
others visiting these islands should be  
in possession of a copy of it. It is a per-  
fect mine of information relating to the  
scenes and attractions to be met with  
here. Copies in wrappers can be had at  
the publication office, 46 Merchant  
street, and at the News Dealers. Price  
60 cents.  
Ten Dollars reward will be paid for  
information that will lead to the ar-  
rest and conviction of anyone steal-  
ing the DAILY ADVERTISER left at the  
office or residence of subscribers.

By Authority

FIRE DEPARTMENT NOTICE.

Session Laws of 1888.

The attention of the public is called to the following Fire Laws:

SECTION 20. No person shall, unless by permission of the Chief Engineer, kindle any fire, nor in any way authorize any fire to be made in any street, road, lane, market-place or other highway, or on any pier or wharf in the city, except for the purpose of boiling tar, which fire shall not be more than ten feet from the end of the pier or wharf; and no person shall kindle or light, or cause to be lighted, any rubbish or any bonfire in any place whatsoever within a radius of one mile of the present site of the Bell Tower of Honolulu without the permit in writing of the Chief Engineer.

Sec. 27. All engines, carriages, and other movable apparatus of the Honolulu Fire Department shall have the paramount right of way through all streets, lanes, alleys, highways and byways, places and courts of the city and fire districts of Honolulu, when running to a fire, and such apparatus, together with all other vehicles thereto, excepting street cars, shall take and keep the right side of the street, unless the same be obstructed, and all street cars in the vicinity of any such apparatus going to a fire, shall retard or accelerate their speed, as the apparatus may require, in order to give the apparatus of the Fire Department the unobstructed use of the street for the time being.

Sec. 28. No person or persons having the control of any vehicle shall wilfully or carelessly permit the same to obstruct the progress of the apparatus of the Honolulu Fire Department going to a fire.

Sec. 29. Whoever wilfully, wantonly or maliciously obstructs or retards the passage of an engine, or any fire apparatus of the Fire Department, while going to or at a fire shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding one hundred dollars.

Sec. 34. Any person violating any of the provisions of this Act shall be deemed guilty of a misdemeanor, and on conviction shall, except where the penalty is otherwise provided herein, be punished by a fine in a sum of not more than one hundred dollars.

JULIUS ASCH, Chief Engineer Honolulu Fire Department.

DEPARTMENT OF FINANCE, HONOLULU, H. I., August 5th, 1892.

Notice is hereby given that all Hawaiian Certificates of Deposit of the denomination of Ten Dollars, issued on the 30th of July, 1892, will be redeemed at either of the Banking Houses of Bishop & Co., and Claus, Spreckels & Co. or at the Treasury, and all persons holding them are hereby requested to exchange the same at either of the above mentioned places.

H. A. WIDEMANN, Minister of Finance.

Information Wanted.

The undersigned, Chairman of Special Opium Committee of the Legislature, hereby gives notice that he will receive all information from any party or parties, that will lead to the obtaining and collection of such facts as will check smuggling and the illicit use and sale of opium in the country.

MONDAY, AUGUST 8, 1892.

REPORT OF THE MINISTER OF THE INTERIOR.

INSANE ASYLUM.

The total number of inmates during the period has been 147 of whom 24 were women, of whom 1 escaped, 16 have died and 55 have been discharged. March 31st there were 75 inmates. A building has been erected for refractory patients and also a hospital. A separate department is needed for the female patients, but meantime one part of a house has been set off for their use and with careful supervision has answered its purpose well.

One of the assistants received a blow which caused his death in July, 1891. A bill is now pending in the Legislature for a pension for his wife. Very little mechanical restraint has been found necessary although there are 3 violent patients. The methods of restraint used have been seating the patient in an armchair and putting a cross bar in front under the arms, an effectual method, or the use of leather bracelets or gloves fastened behind. It has been found that medical treatment has materially benefited some patients. Hawaiians constitute the greater proportion of the 77 cases admitted during the period, viz., 36. Japanese follow with 10, Portuguese 8, Chinese 9, American 5, S. S. Islanders 3, and several other nationalities 1 each. Ages range from 20 to over 60. There were 47 between the age of 30 to 45; 36 were single, 35 married, 4 widowed, 2 unknown. The causes of insanity have been various. Unknown 42, intemperance 8, opium 5, privation and starvation 2, domestic troubles, loss of friends, jealousy 4, religious excitement 2. One case has been in the Asylum 8 years, but most of the patients are there from 3 to 12 months.

The general condition of the Asylum and premises is said to be good. Many improvements have been made about the premises; a good deal has been done by willing patients. With due regard for economy the cost of the institution in the maintenance of patients has been 74 cents a day. The estimates for the current period are about \$45,450.

THE VETERINARY SURGEON'S REPORT makes known the fact that there have been five cases of glanders, which occurred with animals resident in the country. If there is no mistake about this statement, the fact is rather uncomfortable. It is also stated that the so-called "liver fluke," which has destroyed a good many cattle, is not new; also that there is no danger of contagion with the human animal. One hundred and two horses, 18 cattle and 1648 swine have been imported. The door seems to be open for further business in the line of stock raising in the country.

Mr. Thrum, the REGISTRAR OF CONVEYANCES, reports some interesting facts from the record office. The total number of instruments recorded, certified copies, etc., has been 6523, of which 423 were from the Interior office, consequently producing no revenue. The income of the office from all sources was \$18,051.75.

A comparison of the number of some instruments placed of record during the two periods past is interesting:

Table comparing conveyances of real property, mortgages, and other instruments for 1890-2 and 1888-9.

The amounts covered by some of the above transactions are as follows:

Table showing financial transactions: Deed, etc. \$1,644,900; Mortgages 3,774,874; Releases 1,417,930; Bills of sale 939,941; Leases, rentals 192,030.

The figures are significant and teach their own lessons of the times.

The importance of the position of Registrar of Conveyances is illustrated by some of the questions which arise and must be settled by that officer, such as the amount of stamps required, the proper execution and acknowledgement of instruments, the matter of indices, of identification of titles, etc. By vigilant supervision a series of frauds in conveying on Hawaii has been discovered. The revenue for the coming period is estimated at \$16,000, the expenditure at \$17,160. In view of its bearing on titles to real estate in the Kingdom the office is one of the most important in the Government, and should be filled, as it now is, by a man of well known integrity and business capacity.

COOL DRINKS FOR THE HOT DAYS.

Strawberry Syrup—Crush a pint of fine ripe strawberries and press the juice from them. Add a pint of simple syrup (which is made by boiling sugar and water together), and boil gently for an hour, then cool and bottle, cork and seal it. When ready to serve add chopped ice and water enough to make a pleasant drink.

Strawberry Punch—Mash fresh ripe strawberries and pass through a fine sieve and then through a coarse one. To a quart of juice add a quart of water and powdered sugar to taste. After the sugar is dissolved strain again. This will keep some time in the ice-box. When ready to serve add plenty of cracked ice.

Orangeade—Squeeze the juice out of a dozen sour oranges and add the peel of one orange, three-quarters of a pound of loaf sugar, a pint of chopped ice and water, enough to make a pleasant drink. Let it stand half an hour before using.

Pineapple Punch—Boil together one pound of sugar, one quart of water and two or three bits of orange rind for fifteen minutes. Strain and when cold add the juice of one orange, a grated pineapple, one pint of cracked ice and water enough so it is not too sweet; set in the ice-box for one hour or more, then strain and use.

Russian tea is a very cooling drink, and differs but little from ordinary tea. It is served in small glasses with a slice of lemon on top.

Egg Drink—One quart of cold water, a cupful of sugar, an egg, a teaspoonful of tartaric acid. Beat the egg to a froth, beat in sugar, add the other ingredients, stir well and drink at once.

Mead—One-fourth pound of tartaric acid, four pounds of sugar, two quarts of boiling water; when cold add one-fourth ounce of any essence and bottle. This will fill four bottles.

Gelatin Jellies—Orange Jelly—The juice of four oranges, grated rind of one, juice and rind of one lemon, one and one-half cupfuls of sugar. Put one-half a box of gelatin in cold water, let it stand two hours, add a pint of boiling water and the other ingredients, pour into moulds and set on ice to cool.

Lemon Jelly—Soak one-half box of gelatin, as in preceding rule, and with the hot water add the juice and grated rind of five lemons, two cupfuls of white sugar and the beaten whites of four eggs.

Pink Lemonade—A change from the ordinary lemonade may be made by coloring it a pretty shade of pink with cochineal coloring, made in the following manner: Boil together for 20 minutes one ounce of cochineal, one ounce of cream of tartar, one-fourth of an ounce of alum, one-half pint of water. A small quantity will suffice to color the lemonade, and will not materially change the taste.—Exchange.

The ADVERTISER has the largest circulation and prints more live news than any of its alleged contemporaries. Its advertising columns prove that business men know a good thing when they see it. If you do not take this journal you are behind the times.

FINE SOAPS For Family Use.

AN INVOICE JUST AT HAND.

ROYAL SAVON. It is made only from purified oil, upon an entirely new principle—boiled and thoroughly saponified—giving it a very agreeable odor. As a Laundry Soap and Grease Eradicator, it stands unrivaled in the market, requiring a less quantity of Soap and less work to do the washing of a small family than any ordinary rosin Soap. It will wash equally as well in hard as soft water. OIL and BORAX—guaranteed to be the finest oil and Borax Soap in the market; not adulterated with any material to cheapen its cost. Full weight. WHITE CASTLE SOAP—Harness Oil, Salad Oil, Worcestershire Sauces, Putz Pomade, Ipanha Water.

The above consignment will be closed out at very low prices.

PACIFIC HARDWARE CO., L'D., Cummins New Building, FORT STREET.

Hawaiian Hardware Co., L'd.

Monday, Aug. 8, 1892.

The multiplicity of goods in the respective lines which we carry, enables us to respond to the demands of our customers with an alacrity unknown in the average business house in Honolulu. It takes grit in these times to keep lines well filled. We have the grit and the full lines.

Weddings, birthdays and one thing or another, recently, has made our stock of Piano Lamps look like a Kansas dwelling after hob-nobbing with a cyclone. But our foresight was in the right place and we are able to show you as good an assortment as will be found in Coast stores devoted entirely to lamp goods.

The new lot is made up of new designs in brass, old silver and nickel. Piano lamps are no longer considered a luxury—they come under the head of necessities. We will wager anything that the "Ophthalmic Specialist" has not among his patients a single one of our customers who reads by the light of one of our piano lamps. Those people have no use for glasses. If you wish to preserve your sight get one of them.

We're selling a "light wire" Lantern that will save more burnt fingers and broken globes in a year than you have any idea of. They're not new in Honolulu, but new to us. Other people have sold them and we've been asked for them, now we sell them and you'll come to us. If they're as good a thing as the French rat trap the stock will soon run out.

We also commend to the public afflicted with very young babies who require "one cows milk" a new style nursing bottle called the "Health Nurser." The bare idea of having one in the house will tickle a kid almost to death, because it will appreciate sweet milk after an occasional dose of sour stuff made so by your not being able to keep the bottle clean. With these nursing bottles the task is made as easy as to wash a cup and can be done in an instant. The bottle divides in the center and is made milk proof by a rubber band and a spring. Try one of them and surprise yourself—and the baby.

Another lot of bird cages opened up last week will probably meet with your idea of really artistic cages. Matching or single as you wish.

There are lots of things in the store that occasionally dodge out of sight—Lawn Sprinklers for instance. We haven't mentioned them for an age. Twenty odd styles are made, nearly all on the same principal, but none quite as good as the California. They irrigate more land for less money than any sprinkler in the market.

We've a regular forest of Agate Ware Pots, Pans and Kettles. Every imaginable article in agate ware suitable for the kitchen is to be found in our store. Agate ware that won't blister and peel off a week after you first try it. It isn't every make of this ware that will last in this climate; Ours does.

It's the same with every thing else we sell—B-E-S-T is the way the people express it, and they put a b major accent on the B.

Now then study it out—make a memorandum of what you need and come to the store now, before it is too late, and buy them. We have not enough of the potato slicers to supply every one who likes "Saratoga chips" and there's no reason in the world why you should be left.

KAWAIAHAO CHURCH For the same purpose as the first production.

On Saturday Evening, August 13 AT 8 O'CLOCK. Tickets will be found at the Hawaiian News Company's; Hobron, Newman & Company's; Hollister & Company's; and Elite Ice Cream Parlors.

Brewing Association

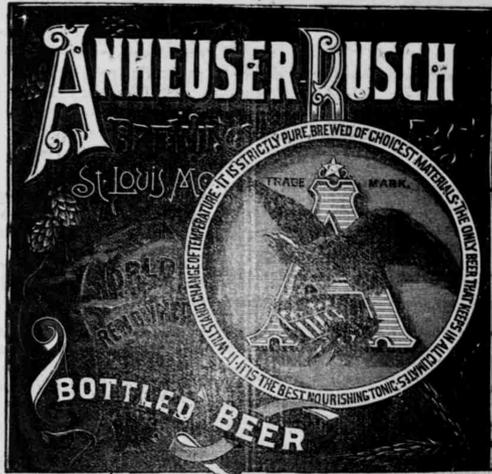

ST. LOUIS, MO.,

Brewers of Fine Beer Exclusively

— MANUFACTURED FROM —

Pure Malt and Highest Grade Hops.

No Corn or Corn preparations used in place of Malt, as is done by other Eastern Breweries, in order to cheapen the cost of their Beer, and to compete with our world-renowned and justly famed article.

With the Completion of the New Brewhouse, the Brewing Capacity is the Largest of any Brewery in the World.

BREWING CAPACITY: 6 kettles every 24 hours, 6,000 Barrels, or 1,800,000 Barrels per year.

CONSUMPTION OF MATERIAL: Malt, 12,000 bushels per day—3,600,000 bushels per year. Hops: 7,500 lbs. per day—2,250,000 lbs. per year.

No Corn or Corn Preparations are used in the manufacture of the ANHEUSER-BUSCH BEER. It is, therefore, the highest priced but the most wholesome and really the least expensive for its superior quality. ANNUAL SHIPPING CAPACITY: 100,000,000 Bottles and 5,000,000 Kegs.

The Anheuser-Busch Co. have carried off the highest honors and the highest class gold medals wherever they have competed. At all of the International Exhibitions, throughout the world, their Beer excelled all others.

This Company have prepared a special brand of their highest grade Beer, for the Hawaiian Islands, known as "SPECIAL BREW" with a handsome label and in white bottles, which with their best "EXPORT ANHEUSER" in dark bottles, heretofore imported, we will now supply to the trade in quantities to suit.

"German Syrup"

Here is an incident from the South - Mississippi, written in April, 1890, just after the Grippe had visited that country. "I am a farmer, one of those who have to rise early and work late. At the beginning of last Winter I was on a trip to the City of Vicksburg, Miss., where I got well drenched in a shower of rain. I went home and was soon after seized with a dry, hacking cough. This grew worse every day, until I had to seek relief. I consulted Dr. Dixon who has since died, and he told me to get a bottle of Boschee's German Syrup. Meantime my cough grew worse and worse and then the Grippe came along and I caught that also very severely. My condition then compelled me to do something. I got two bottles of German Syrup. I began using them, and before taking much of the second bottle, I was entirely clear of the Cough that had hung to me so long, the Grippe, and all its bad effects. I felt tip-top and have felt that way ever since." PATTER J. BRIDGES, Jr., Cayuga, Hines Co., Miss.

THE LEGISLATURE.

Fifty-Seventh Day. SATURDAY, Aug. 6. The House opened as usual at 10 A. M.

STANDING COMMITTEES.

Noble Williams reported that the English report of the Committee to the Leper Settlement was printed.

Noble Thurston rose to a question of privilege. One of his constituents had been trying to scalp him because he had read a report in the Advertiser...

Noble Cornwell also rose to a question of privilege. It had been brought to the notice of the House that the reports in the Advertiser were not correct.

Rep. Kamaoia moved reference of the two matters to a select committee, which should have authority to eject the Advertiser reporter.

The President ruled the matter out of order. Rep. White, in order, as he said, to switch the matter off, presented, under suspension of rules, two petitions from Lahala, asking for a new constitution.

Rep. Kanealii presented a petition from Wailuku, praying that marriage contracts be annulled when either party has leprosy.

Rep. Kamaoia presented a petition asking for \$1000 for a road at Waihee. Referred to Public Lands Committee.

Rep. Kanealii presented a petition from Wailuku, praying that marriage contracts be annulled when either party has leprosy.

Rep. Kanealii presented a petition from Hamakua asking for a new Constitution. Referred to Constitution Committee.

Minister Spencer announced that Her Majesty had signed the following bills: 1. Relating to keeping of stations. 2. Relating to disease among animals. 3. To provide for completion of criminal law.

Notice of meeting of Opium Committee No. 2 was given. The President said Opium Committee No. 1 was overdue.

Rep. Ashford said he had spent part of his vacation writing a report. A number of distinct matters had been submitted to the committee, some of them very complicated.

Noble Marsden resolved that the Ways and Means Committee be authorized to employ assistance in drafting a bill to increase the revenue.

Rep. Kanealii did not favor the resolution. A lawyer had been employed to draft the election law. See the result.

Noble Thurston seconded the resolution. A lawyer should be employed to devote his time to the subject. The license system had grown up piecemeal, and was very unequal in its application.

ries, etc. Resolved that the Finance Committee examine and report as to all facts connected with the issue of such certificates, and also as to the amount of cash in the treasury and the relative proportion of gold and silver.

The member said that the law provided that no certificates should be issued except in return for silver, which should be made a special deposit.

He had reason to believe that the certificates likely issued had not been issued in return for coin. If that were true the House should know it, and if not the Minister should have an opportunity to deny the rumors current.

Large numbers of these brand new certificates had been used to pay salaries last Saturday. He had been informed on excellent authority that the intent of the government was to create money in this way, as there was not gold enough to pay salaries.

Noble Thurston said he would like to see the certificates issued, but there was an agreement between the government and the bankers to deposit silver against the certificates by and by.

He knew of no law by which anything of that kind could be done. The certificates were not legal tender. He was further informed that two firms had agreed to anticipate \$50,000 of taxes which were due from parties whom they represented.

Minister Widemann said he courted the inquiry proposed. Week before last Bishop Co. had deposited \$80,000 in silver, for which certificates had to be issued.

He had signed certificates in the denomination of \$10, \$20 and \$50, and \$25,000 remained unsigned because he had not had time. As to how the certificates came to be in the possession of the Government he could not say without consulting the Registrar of Public Accounts.

Minister Widemann answered the questions of Noble Thurston as follows: (1) That I pay no attention to newspaper reports, and consequently do not know what they may have published.

There is, however, a notice at the Treasury counter to the effect that the payments due on the 30th of July, 25 per cent, in gold would be paid. This notice was taken by virtue of necessity, as there was not nearly gold enough to pay all dues on that day.

Respectfully yours, H. A. WIDEMANN, Minister of Finance.

Noble Thurston submitted that the Minister had not answered his last question at all. The law made all debts above \$10 payable in gold. The Government was enforcing this law against its debtors, but not paying its creditors in gold.

He proposed, and he says he proposes to pay gold as long as he has it, although he has admitted that he has no gold. Does not the situation demand a policy? We are drifting to the coast and a few years ago, with exchange at 10 per cent. Do you call that a cabinet, or a policy? You might as well put the messenger there at \$2 a day.

One is as good as the other. We are not only without an Attorney-General, but without a Minister of Finance. I submit that this House and the country are entitled to a further answer from the Minister.

Minister Widemann said he could not look into the future. His eyes were perhaps too old to see as far as the member from Maui. The Treasury had been paying gold right along. For once it had not been able to do so.

What would the Noble from Maui have done under the circumstances? The same thing. He had not thought of basing a policy on a single accident. Suppose he had asked the House to allow him to buy gold, what a howl the member would have raised. The member might abuse him all he liked; it would not stick. His coat (turning round and showing it) was clean. The public did not believe in the dirt thrown by the Noble.

tious opposition to the Cabinet. He brought the matter up, because it was imperative to get something done, just because the situation was so serious.

President Walker said there was no rule to compel the House to adjourn on Saturday. Progress was very slow, slower than he had known it for a long while, and the House should look on it from its serious side.

The motion to refer to a select committee was carried. The President appointed Rep. Ashford, Nobles Thurston and Ena, Minister Widemann and Rep. Kamaoia.

Noble Thurston was excused. Noble Young declining, Rep. Wilder was appointed. The Secretary read an additional statement as to the receipts from the garbage carts, setting forth the rules and regulations adopted by the Board of Health in the matter.

Noble Baldwin moved the Finance Committee be authorized to have their report translated and printed. Carried. The Secretary read the reply of the Minister of the Interior to questions of Noble Thurston regarding the Waikiki well as follows:

The answers show that the cost of the well with fittings was \$8978.95; that no guarantee of fresh water was given; that the water is at present unwholesome, containing certain (not unwholesome) minerals which make it unpalatable, and that the expectation is that the water would after a time become pure.

The House adjourned at 12.30. A Boston Women's Club. A newspaper women's club has been formed in Boston under the name of "Boston Women's Press Club," to distinguish it from the New England Women's Press association, with which it in no way conflicts.

In fact the new club is made up principally of the members of the N. E. W. P. A., who find the latter too large an association and wish too widely diversified interests to give attention to the details of newspaper work or technical journalistic work.

The officers of the new club are appointed from month to month, and instead of being styled president, secretary, etc., after the ordinary approved club style, they take the names and offices of editorial officers.

For the month of March, for instance, Mrs. Evelyn Greenleaf Sutherland (Dorothy Lindt) was city editor; Miss Belle Grant Armstrong, religious editor; Mrs. Elizabeth Merritt Gosse, sporting editor; Miss Helen M. Winslow, financial and railroad editor; Miss Katherine S. Parks, fashion editor; Miss Alice Stone Blackwell, literary editor, etc.

Each person is to bring in to the regular meeting either a story or some helpful hint or happening in her particular field, and the little informal dinner over which the discussion goes on is a very pleasant episode in the life of these busy and bright workers.

Membership in the Boston Women's Press club is confined to workers on the daily and weekly Boston papers, and is effected only by invitation.—Boston Letter.

The Office Boy's Excuse. There is an office boy who caused a great deal of trouble for the corresponding secretary of a woman's club. The lady felt sure she should make some mistakes at first in the performance of the duties of her new position, but was totally unprepared for the avalanche of criticism, remonstrances and fault-finding which overwhelmed her after the first meeting for which she sent out the call.

Hardly anybody, it seemed, had received a notification, and twenty-five or thirty of the 150 members had not even heard there was to be a meeting. The corresponding secretary interviewed her husband's office boy, to whom had been given the list of members, the circulars and other requisite stationery, with orders to address the envelopes and mail them as promptly as possible.

"Did you fold the circulars and put them in the envelope?" "Yes, m." "And direct the envelopes and stamp them and mail them?" "Yes, m." "Did you do it promptly?" "Yes, m."

"Then how do you suppose so many of the ladies failed to receive their circulars?" "Oh, the envelopes didn't hold out to go around," replied the boy innocently.—Boston Herald.

ACCIDENT TO No. 1 ENGINE.

A Bad Corner and a Wet Street Topples Her Over.

On Saturday afternoon at about 4:30 o'clock No. 1 Engine, while turning the corner of Maunakea and Beretania streets, toppled over on its right side, but luckily very little damage was done the machine.

From eye-witnesses it is learned that the engine came along Beretania street at an ordinary rate of speed on its way to No. 5 Engine house, where a drill was to take place; when rounding the corner into Maunakea street, which is a dangerous turn to make, the hind wheels of the engine would not answer the brakes as the ground was very wet, and they commenced to slip, and before the driver could avoid it the engine turned over on its right side, damaging the nickel plate sheathing around the top of the boiler and bending the pipe connected with the steam whistle.

The damage in all will not amount to \$100. Jack Warner, the driver, was thrown to the ground and received a number of bruises, but he pluckily held on to the lines, thereby preventing the frightened horses from breaking away from the engine.

Pat Hughes, the engineer, Jack Hughes, and the stoker, who were all on the rear platform, were thrown off, each receiving some slight injury. Jack Warner is an old San Francisco fireman, and is looked on as one of the best drivers here, and people who witnessed it claim that he did everything in his power to avoid the accident.

ADVERTISING HAWAII.

Suggestions for the Meeting This Afternoon.

As a meeting has been called this afternoon for the purpose of forming a Bureau of Information for the purpose of advertising the Islands, many might be interested in knowing how the object of the organization could be accomplished. A few methods that have proven successful in the United States will be briefly outlined.

(a) By inserting a short ad. in one or more Sunday papers published in Philadelphia, New York and Boston, the ad. to read something like this:

PARADISE OF THE PACIFIC—For information concerning the Hawaiian Islands as a pleasure and health resort address BUREAU OF INFORMATION, Honolulu, H. I.

Such ads. should run every Sunday in the year in four or five papers; they would bring thousands and tens of thousands of letters of inquiry. To answer these a brief pamphlet of six or eight pages should be prepared. This should be sent to all enquirers, together with any other suitable literature. To follow out this method would probably cost from \$750 to \$1500 per year.

(b) The English and American magazines would doubtless publish occasional articles on Hawaiian topics without cost, if proper representations were made to them by authorized persons.

(c) A series of illustrated articles could be published in some first-class magazine by arranging with the publishers, and these articles and illustrations could be again published in pamphlet form at cost of paper and presswork. Such a publication distributed over the United States would certainly reach a vast multitude of readers and aid greatly in making known the attractions of Hawaii.

(d) A systematic and persistent effort should be made next year at Chicago to present the claims of Hawaii as the Paradise and Inferno of the world.

(e) The claims of local publications should be carefully considered and assistance rendered according to merit.

(f) A branch office of the Bureau of Information should be established permanently in San Francisco, in a prominent locality. It should be in charge of a competent person; his business should be to induce travelers and tourists to visit the rooms of the bureau, and to carry out the objects of the organization.

The office should be filled with Hawaiian curios, views, productions, etc. Each traveler should receive, the morning after his arrival, a unique invitation to call and examine the Hawaiian collection; should he do so, he should carry away some new ideas, some literature, and a very strong impression that he should visit Hawaii at once if not previously.

Space will not permit a full discussion of the objects and benefits of such a bureau in San Francisco. But it is a necessity and must be established sooner or later; it must be open at all times to furnish information concerning Hawaii; it must become one of the standard institutions of that city as well known to tourists as a standard guide book. Such an office could find many ways of performing its work, and if in charge of a conscientious manager it would be dollars for every business in Honolulu. Of course it would be under the direction and control of the home organization.

(g) During the Chicago Fair an information bureau or office should be open there to work in a similar way, with the same aim and objects.

Such are some of the methods by which a country can bring itself into prominence as a resort, and many other plans could be considered. Without exaggeration it is safe to say that the sum of \$10,000 judiciously expended would increase the tourist travel to 2500 per month within a year. Estimating that each visitor spends an average of \$200 during his stay in the kingdom, we have \$500,000 per month left in the country, or \$6,000,000 per year. These are not fancy figures. With proper facilities, a cable, weekly steamer service and mammoth hotels, we could expect 50,000 visitors annually, and these visitors would leave within the boundaries of this country not less than \$10,000,000.

Other countries and communities reap such a harvest, why should not Hawaii?

Let everyone attend the meeting this afternoon, and all assist in speeding on those 50,000 visitors. They are ready and waiting, like the Israelites of old (only our tourists have a valise and kodak), to be led to the promised land. Where is the Moses?—[Com.]

Fine Coffee.

At the W. C. T. U. coffee rooms at Queen Emma Hall, corner Nuuanu and Beretania streets, delicious coffee, sandwiches or bread and butter and rolls are furnished for 10 cents.

Open from 6 to 8 A. M., from 11:30 to 1:30 noon, and from 6:30 to 9:30 P. M., from Tuesday, May 10.

HOUSE NOTES.

The three-legged-stool Ministry is tottering to its fall. Who will saw another leg off?

There is said to be \$60,000 left in the Treasury—just enough for the military, and \$10,000 over for a grand state ball.

The President of Switzerland gets three thousand dollars a year for ruling 3,000,000 people; the Queen of Hawaii gets nearer a hundred thousand for ruling less than that number. The President of Switzerland costs the population 1-10 of a cent apiece, while the Hawaiian Queen costs them a dollar a head.

What is the little Major's fighting weight?

Rep. Waipuilani called attention to the fact that only \$4000 of the legislative appropriation remains. In point of fact, only about \$2000 is left.

Colonel Carter, of Cartersville, regrets to observe the pugnacious and sanguinary disposition towards the ADVERTISER of that great warrior and strategist, Colonel Cornwall. Whom the gods would destroy they first poke in the ribs with a quill, which, by the way, may sometimes prove to be the quill of an eagle, instead of a goose.

Questions and Answers in the House (overheard).—Query by one Legislator from another: "Who is that long, sick-looking object holding up the door post?" Reply: "That; oh! that is a huntsman weary with the chase."

ARRIVALS:

Many of the arrivals by each "Australia" go to the Hawaiian Hotel, still a great many put up at E. O. Hall & Sons for a short time.

Our arrivals by the last "Australia" were from several parts of the world. A large excursion party came to us from Sheffield, England, by way of Panama and San Francisco: they were the Pocket Knife branch of the Knife family, \$525 worth in Sheffield, not a very big sum you may say, still enough to get a few dozen each of thirty-three different styles, and if you want to see some choice Knives drop in and look them over, they are right near the Fort Street entrance. People that happened in the day we were opening them up evidently thought they were good, as we sold 39 to different ones during the afternoon. The above family wishing to be in Sharp Company on their long trip, started, and came all the way in the same compartment with over a gross of assorted Razors. All we have to say about these are that they are the three famous makes, "Rogers," "Bengal," and Wade & Butcher. Every "little Shaver" knows these makes, and uses them. But you want to know what our arrivals we had by the last Australia, so let us run down the list together; besides Knives and Razors from England, we had Brass Cup Hooks, Hall's Rice Sickles, Eley's Cartridges, Inray's Charts, Clark's & French Horse Clippers, 65 dozen assorted Stubs Saw Files, 32 dozen assorted Stubs Jewelers' Files, Mattress Needles, 100 boxes Shoe Thread, 100 lb. Emery Powder, assorted, Stubs Plyers.

Now from Boston (by rail) via San Francisco we had, 64 assorted Bailey's Patent Planes, and some 48 in. Cotton Duck. A big lot of rail goods started from Boston the same time as above but in the race overland these two items must have beaten the balance to San Francisco as nothing more on this invoice came along by the Australia. We have an idea the Planes (which we were short of) and the Duck (which we were all out of) knew they were badly needed and took a "Vestibule Train," and hurried through. The balance of this invoice, which will come along by the "Mariposa," have among the items No. 1 and 2 Ship Pumps, Metaline & Roller, Bushed Sheaves, Diston's Files, Saw Screws and Saws, Binnacle Lamps, Galvanized Rowlocks, Carpenters' Hammers, Top Mauls, Fodder Cutter Knives, White Shellac, Coopers' Vices, Horse and Barbers Clippers, Bronze Powder, "Thoms Navigator", Hand Levels, and Pedometers, Whip Sockets, Grommets, Steel Letters and Figures, 1/4, 1/2, 3/4, 1, 1 1/2, 2, 2 1/2, 3, 4, 5, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000.

Last of all comes our list of arrivals from San Francisco: Leather, 39 rolls of Sole, Harness, Saddle, Splits, Buff and Lace; 45-70 405-500 grain Frankfort Arsenal Bullets, Turkey and Ostrich Feather Dusters, Cotton Hose, Block Tin, Tin, Phoenix Horse Shoes, Mill and House Brooms, Horse Collars and Collar Pads, Paper Bags, Rifles, Revolvers, Belting, Carriage and Machine Bolts, Log and Wood Screws, Brass Stencil Combination, 1 to 2 in., Fence Wire Pullers, 2 1/2 and 3 in. Clinch Nails, Blue Stone.

You now see we had our share of the arrivals by last Australia. Many of our arrivals started in, soon after putting up at our place, to see the islands, a number having gone to Hawaii and Maui, and the 39 members of the Knife family are skipping all over town, in the pockets of their owners. Come in and see some of our Goods and take some with you, if you wish.

**HILO LETTER.**

A most delightful musicale was given on Tuesday night last by Mr. and Mrs. H. C. Austin, at their fine new residence at Homelani. The parlors and verandas were brilliantly lighted for the occasion. Beautiful roses were artistically placed around the rooms, and the large company present were very appreciative, and enjoyed the happy scene to the full. It was a brilliant moonlight night with only a gentle zephyr blowing. The programme was as follows:

1. "Reveries of Love".....Lichner Miss Esther Lyman.
2. "Creole Lover's Song".....Buck Dr. Wiggins.
3. "Berceuse".....Chopin Miss Dale.
4. "Ave Maria".....Mendelssohn Mrs. H. C. Austin, and Misses Lyman and Hitchcock.
5. "Good Night, Farewell".....Kucken Mr. Ernest Lyman.
6. "La Serenata".....Tosti Miss Dale.
7. Duet—"Far Away".....Lindsay Miss Dale and Mr. Lyman.

The instrumental solo by Miss Esther Lyman, who made her debut among her friends here, was well received. Dr. Wiggins sang most beautifully the "Creole Lover's Song," while Miss Dale played with much expression an instrumental solo, for which she was recalled. "Good Night, Farewell," as sung by Mr. Ernest Lyman, showed well the effect of the recent culture of his voice, and gives great hopes for the future. In place of the piece set on the programme, "La Serenata," Miss Dale substituted "Too Young for Love," and her fine soprano voice filled the hearts of all present with the richness and sympathy of the melody. On being encored, she responded with that homely old song, "You had better bide a wee." The last number, "Far Away," was finely rendered by Miss Dale and Mr. Lyman, and brought forth a deserved encore, to which they individually responded. It has been a great treat to have had Miss Dale with us, as she has been so liberal in singing when asked, and has given so much pleasure. It is with regret that we hear she leaves this week for Kohala, and we will be pleased to extend her a hearty welcome should she return again to Hilo. After refreshments were served and a short time for social chat, the party broke up, after spending a most enjoyable evening and listening to a great musical treat.

Tennis has taken a boom since the advent of so many teachers among us. The weather has been most propitious and the game may be seen almost any morning or afternoon going on in the Court House yard.

The Wall-Preston party returned a week ago from the summit of Mauna Kea where they spent an enjoyable week camping alongside the crater on the summit and taking observations.

Mr. H. C. Austin who has just returned from a tour around the island reports dry weather on all sides of the Hilo district. Kau is dry and Kona since the abundant rains of a few months ago has got back to its usual dry state. Kohala is beginning to show the sere and yellow leaf particularly towards the southerly end of it, while Hamakua with the exception of around Paaulo is looking very bad. The cane is very yellow and the water very scarce. Hilo, the beauty district of the islands, luxuriates in a bountiful supply of rain during the nights, with fine days, and bright sunshine tempered by the refreshing trades. Vegetation is just booming at present. The weather is perfect for ensuring a full crop for next season.

A picnic at Coconut Island on Saturday was much appreciated by Mrs. S. L. Austin's friends who enjoyed the quiet outing and the sea-bathing.

Mr. and Mrs. Severance have been entertaining their friends at their seaside house at Seconnet during the past week.

We understand Mr. P. L. Lord has resigned his position as Principal of the Union School here and has left to take a more remunerative place at Riverside, Cal. Mr. Lord during his incumbency has brought the school into a front place among the schools of the kingdom and has also been instrumental in no small degree in getting for Hilo our fine school building, the finest on the islands.

Mr. and Mrs. H. S. Townsend arrived on the Kinau to spend the balance of their vacation with their relatives here. Mr. Townsend intends to turn his time to practical benefit by planting coffee on his own account at Bouganville.

The reports from the Volcano are of continued activity. The lake is very large, and almost constantly breaking up in some portion, or sending out flows on the sides. It is a good time to see it, and the large parties that are continually going there now, are never disappointed.

Hilo, August 4, 1892.

**STAND BY PABST BEER.**

Workmen Say it is Purely a Union Product.

No Reason Why it Should be Boycotted.

The Federated Trades Council Declares that the K. of L. Boycott is the Result of Rivalry Between the Pabst and Anheuser-Busch Co.'s—The Pabst Company Much More Favorable to Labor than the St. Louis Brewers.

The Federated Trades council at its meeting last night listened to a report from a delegation from the local Journeymen's Brewers union, and then passed by a unanimous vote the following resolutions:

"Whereas, The Executive board of the Knights of Labor, in session at Pittsburg, Pa., May 14, 1892, placed a boycott upon the Pabst beer of Milwaukee in favor of the Anheuser-Busch beer of St. Louis, alleging that the Pabst beer is a non-union made product; and

"Whereas, the situation relative to the employment of labor by the two breweries is as follows: The Pabst Brewing company's beer is an exclusively made union product. All its ingredients are prepared by union labor, while the malt used by the Anheuser-Busch company, as alleged, is bought largely at malt houses located in small towns, where non-union labor is employed at a greatly reduced figure. Within the year unions in every branch of labor employed by the Pabst Brewing company have been formed, and such labor is now working under a scale perfectly satisfactory to them and which continues in force one year from its adoption. The Anheuser-Busch labor, which is represented both in the union and Knights of Labor, operates under the jurisdiction of the International Brewers' association. The labor employed by the Pabst Brewing company also operates under the jurisdiction of the same association. The labor employed by the Pabst Brewing company, in settling its scale for the present year, secured all requests sought by it and no dissatisfaction exists relative to it among any of said employes, and

"Whereas, There appearing no reason why organized labor in any form should complain at the Pabst Brewing company's method of dealing with its employes or with the rights of organized labor, the Pabst Brewing company being only one of the brewing concerns of this and other cities in which the same scale is in use, all working under the same jurisdiction of the International Brewers' union; therefore

"Resolved, That by selecting the Pabst Brewing company for a boycott under the above circumstances, the Executive board of the Knights of Labor has perpetrated not only a manifest injustice on the Pabst Brewing company, which employs only union labor throughout, but upon the cause of organized labor which can offer no valid reason for the placing of said boycott.

"Resolved, That it is the sense of this council, that it is the duty of all organized labor to give the same protection to employers of such labor in the distribution and sale of their product that is demanded by such labor of employers in the recognition and employment of such organized labor.

"Resolved, That inasmuch as we know the charges that Pabst beer is a non-union made product to be utterly false and without foundation, and believe that the boycott placed at Pittsburg has been incited and instigated by and through the agents of the Anheuser-Busch company because of the rivalry existing between it and the Pabst company, we hereby appeal in the interest of fairness to the Pabst company as well as in the interest of organized labor which cannot prosper under the employment of such diverse and unfair methods, to the International Brewers' union to demand that the Executive committee of the Knights of Labor lift immediately said boycott, and that widespread public announcement be made of the same when done.

"Resolved, That a copy of these resolutions be sent to the officers of the American Federation of Labor at once with the request that they adopt the same or other resolutions to the same effect."
