EDITOR P. C. ADVERTISER, SIR: - As a sequel to the communication of mine, you kindly published in your issue of December 29 last, I wish you to allow me place for a few more facts, corroborating my own information, which I since found in the late Seattle papers.

About a year ago, J. R. MacDonald, President of the Washington Southern Railway Co., wanted to issue bonds for the purpose of giving a large development to his roads in the Olympic Peninsula and Southwestern Washington, so as to open that rich country and connect it with the various great transcontinental systems.

Although his enterprise offered every possible inducement and solid guarantees, he failed to obtain the money in America, and was consequently forced to go over to Europe, where he expected to place one million dollars of his bonds in two months. But, owing to the critical condition of all the money markets, resulting at that time from the immense Baring failure and others who followed, he found "everything against him," so that it took Mr. MacDonald ten months to place his bonds, but he did succeed completely, though not all in England, as he had anticipated, but principally in Brussels, La Hague and Amsterdam, secondary money markets, which I did not even think of mentioning at all in my article.

Mr. MacDonald confirms my assertion, when he reports that "it is a common saying among business men that they can get money in Amsterdam when they can't anywhere else," but Amsterdam suffered severely through the Baring trouble. However, Mr. MacDonald also noticed the abundance of capital without adequate openings for investment.

On this point that the "amount and way stored away in those little societies of Holland and Belgium

is something surprising. When I went there I was told that if our bonds were in smaller denominations than \$1,000, say \$250 or \$500, they could handle them better, as it is the people of small savings they reach. Every man in Holland with a small pile to invest is known to the bankers."

Now I wish here to make a query: If a private corporation, like the Washington S. R. Co., unknown outside of that state, and with no official backing has just succeeded in finding, during a most unfavorable period, one million of dollars in the secondary money markets of Belgium and Holland, when the money could not be obtained in America or London, would it not have been just as easy - and probably much more so - for a government like that of Hawaii, to raise 4 or 5 millions on the same markets or the neighboring ones, for the purpose of converting our debt and giving a large development to our resources, by the public improvements we all know of, roads, wharves, landings, water works, cable, railroad on Hawaii, etc.? Therefore, I more strongly than ever say that it is to Europe and its various secondary money markets, not to London or America - that Hawaii ought to appeal for our future loan, if our financiers want to serve the country, by reducing our obligations to a low and reasonable rate of interest; and I do hope that our present Minister of Finance will have patriotism and common sense enough to lay aside, in the interest of the country he now administers, all ideal preference or partizan feeling he may have in favor of America or England.

Mr. MacDonald concludes his report by some further remarks which, although not bearing exactly on the same subject, may yet be read with interest by our local financiers: "In dealing with business men abroad one finds out three things, that London is the executive office of the world at present; that America will rule the commercial world some day; and that the independence between all parts of the commercial world is steadily increasing. A nation cannot live to itself even if it wanted to. A nation should get its currency upon a business basis and leave it there. One of the obstacles to my success abroad was this silver business. I do not mean along the danger that the time might come when all our securities abroad might be paid in dollars worth from 70 cents up. I mean the danger involved in the Sherman Silver Purchase Act and the chance that, whenever it was repealed, jar and danger to business would result. Abroad whenever one makes a settlement in business it is common to say 'I will settle in Bank of England notes.' These notes go everywhere, and why? Because England is not perpetually tinkering with her finances."

A. MARQUES. The following certificate which was procured from the United States Brewers' Academy for the purpose of ascertaining the good quality of the "Budweiser Beer" brewed by the FRED. MILLER BREWING Co., Milwaukee, Wis., explains itself:

NEW YORK, April 9, 1892. FRED MILLER BREWING Co., MILWAUKEE, WIS. GENTLEMEN: The sample of beer which we examined for you contains in 100 parts:

Table with 2 columns: Substance, Per cent. Alcohol 5.41, Extract 5.45, Sugar 5.32, Dextrin 2.68, Albuminoids 0.36, Lactic Acid 0.10, Mineral Substances 0.14, Hop Extract, etc. 0.81

According to this analysis, we beg to state that in our opinion, the Beer has been well brewed, well fermented and well stored. It has a good life and shows good keeping qualities. The Beer has a good and nice round taste, and we can safely recommend it as a wholesome beverage. Yours respectfully, UNITED STATES BREWERS' ACADEMY, per M. Schwarz.

In addition to the fact that this Beer contains remarkably little alcohol, we beg to say that it is brewed of genuine hops and the very best Wisconsin barley, known as "Scotch Fife," and the water is taken from the celebrated Wawata mineral springs well known throughout the Northwest; in fact it is the only Milwaukee Beer brewed with mineral spring water. PACIFIC COMMERCIAL ADVERTISER

Six Pages.

Be just and fear not; Let all the ends thou aim'st at be Thy Country's, thy God's, and Truth's.

WEDNESDAY, : JANUARY 4, 1893.

THE Registration Act passed its second reading yesterday, and the attempt to take the pith out of it by treacherous amendments failed. Friday was set for the final reading.

HER MAJESTY still delays to attach her signature to the Appropriation bill, and speculation is rife as to the significance of the incident. It presents a curious reversal of the ordinary rule, for the sovereign is usually as eager to sign a supply bill as the people are loath to loose their hold of the purse strings. But in Hawaii, where the Crown Lands enable the sovereign to live and reign without supply bills, things are different.

JUDICIARY MATTERS.

This morning the two new Judges of the Oahu Circuit, W. Austin Whiting and Walter F. Frear, will be installed in office. Mr. Whiting is a lawyer of experience and acknowledged ability. Mr. Frear, though a young man, has earned nothing but golden opinions from all who have followed his professional career, and his appointment may be regarded as a well-earned recognition of merit. Mr. Frear is studious and scholarly, carrying an old head on young shoulders, and possesses in a marked degree the calm temper and impartial spirit which are the indispensable qualifications of a good judge.

The public will be pleased to learn that Judge Foster has consented to retain the position of Police Magistrate instead of retiring and taking up private practice. One of the greatest blunders of the Legislature was the reduction in the salary attached to this important office, and the next House should restore it to the original figure. The office is one which would offer great temptations to a corrupt magistrate, and that it should be filled by a man of incorruptible honesty is an advantage which cannot be rated too highly.

Judge Foster is to be entrusted with the compilation of the Penal Law, and this undertaking is one for which his abilities and experience peculiarly fit him.

THE TACOMA SUBSIDY.

A bill has been introduced into the House providing for the use to be made of the \$7000 appropriated as subsidy to the steamer line between Honolulu and Tacoma. The object of the bill seems to be practically to open the benefit of the subsidy to any company which will establish a line between this port and Tacoma, Portland or Vancouver, which shall place at least one

vessel under the Hawaiian flag and conform to other conditions specified.

It hardly seems worth while to change the terms upon which this subsidy is to be paid, now that it has once been granted. But if the matter is to be made the subject of legislation at all, we cannot refrain from making a final appeal for Hilo. The situation of the Government is such that the encouragement of further steam communication between Honolulu and other American ports seems hardly timely. What the Government should do, however, is to encourage direct communication between Hilo and the Coast, and thus bring the great areas of rich land in that district to a market. A steam line to Portland or Tacoma would make possible the cultivation of bananas, pineapples and other products for which the soil is well fitted, by affording a chance for the sale of the product. The establishment of the line would give the Hilo district an immense boom and increase taxable values tenfold. Experience, wherever railroads and steamers have gone, shows that providing the means of transportation soon makes freight and business where none were before.

If the Oceanic S. S. Company send a steamer to Hilo, this will be a great step in advance. But it would not do anything to develop the agricultural resources of the island, because the return voyage would be made to the Coast from Honolulu direct. If any action on the bill now in the House is taken, we believe it will be wise policy to incorporate a provision requiring that at least the return voyage from Honolulu to the American Coast be made via Hilo. If one of the Oceanic S. S. Co.'s should touch at Hilo on the way down, as hoped, the result would be that Hilo would have direct steam connection with the Coast, both going and coming, and this would mean the beginning of a new era for Hawaii.

Clerks in Japan.

The civil servants of Hongkong may be interested in reading the following clipping from the Japan Gazette: A few days ago Count Ito altered the office hours of Government officials, and the Jiji commenting thereon says that it is popularly supposed that the high salaries obtainable in the Government service is the great attraction which makes so many anxious to enter it. But while this has always been one of the principal temptations, it is true, the short hours were another. Such light work could not be found in any private offices, continues our contemporary, as that hitherto enjoyed in the Government. Young men were enabled thereby to attend educational classes and lectures, and pursue various branches of study or indulge in proper recreation. Since the establishment of the Diet the hours have been extended and the emoluments decreased, so that the Government official has not such an easy time of it as he used to have. And now the hours have been still further increased, and it is further stipulated that should any pressure of work require it, all officials must remain to any hour of the day or night and carry it through. This has naturally taken the gilt off the ginger-bread for the official, who does not find himself much better off than in private employ, the lower officials being the ones to exhibit the most dissatisfaction. The higher officials do not appear disconcerted by the change.—Hongkong Daily Press.

Week of Prayer.

The present week is one of prayer at the Central Union Church. Interesting subjects will be discussed. The subject for to-day is "Nations and their Rulers."

From 11 to 12 A.M.—Prayer: That all needed reforms may be advanced, especially that the liquor and opium traffic may be abolished and drunkenness impurity and gambling may cease. Led by Mrs. Mary Clement Leavitt.

From 7:30 to 8:30 P.M.—Prayer: That all in authority may recognize their responsibility to God, and that righteous laws may be enacted and enforced. Led by Rev. H. W. Peck.

The Tourists' Guide for the Hawaiian Islands can be had at this office. This handy book is invaluable for strangers visiting this country. It contains descriptive matter pertaining to the different islands with handsome illustrations and maps. No tourist should be without the guide as it will save them a lot of bother and questions.

Parties who have been sending to the Coast for printing and blank books should get figures from the GAZETTE office.

A CAPTURE!

The Police Arrest a White Man for Burglarizing a Saloon.

Police Officer John Baker, while on special duty at about 1:30 A. M. this morning on Nuuanu street, saw a bare-footed man trying to open the rear door of the Royal Saloon. The officer climbed up a fence to watch him, and as he continued in his suspicious efforts, he discharged his revolver, at which the man made for a dark corner, the officer following him, again firing off his revolver at which the supposed burglar cried out "Oh, stop it!" Two more policemen came up, and he was arrested. The prisoner asked the officers to find his shoes. They found them in the back yard of the saloon. He was taken to the Station House, the officers returning to search the premises, and found an iron bar stuck in the wood work of the window. Prisoner, who is a white man, gave his name as William Cook, and is about 40 years of age and slimly build.

A Song: Heard on the Street.

The Register bill came up to-day, And Senator Marsden sped away, As he wouldn't vote yes, and couldn't vote nay— He "sloped"—ta ra ra boom de re! And up at the Club with the billiard cues, He whacked the balls and played the deuce, For his conscience bothered him, so they say, For "sloping"—ta ra ra boom de re! Lihue protests, an excuse is his, For he went home with the rheumatiz— He pos-i-tive-ly couldn't stay To vote—ta ra ra boom de re! The man from the Third was quite unstrung, To note the absence of Noble Young— But he was suddenly called away On business—ta ra ra boom de re! But one man sat and faced the fire, And that was the valiant Noble Dreier— He came down with a ponderous "stay" That settled the question—boom de re! December 30, 1892.

A QUESTION OF HEALTH

By last steamer our stock of Dr. Jaeger's Underwear for men has been replenished.

We are now prepared to fit any one be he a dude or heavy-weight.

You've been suffering long enough from that horrid cold; you've spent a small fortune for patent medicines and doctors' advice for that chronic rheumatism. Let us prescribe for you, we know what ails you. You're wearing underwear of dead vegetable fiber, no wonder you're sick.

Let us advise you to make a change. You should wear under garments of pure animal wool. Nature so intended it, but you've been running contrary to nature until at last, she has broken down. Do you wonder at it? Let us tell you something: Animal wool is the material devised by nature for animal covering and possesses, as the simplest experiments will prove the valuable quality of not attracting or retaining the noxious mal-odorous matters, which the animal body exhales. Moreover being a slow conductor of heat animal wool does not chill even when damp. Some friend will perhaps tell you that woolen under clothing is too hot for this climate. Don't be misled. That all-wool clothing protects the body from chill is intelligible to every one, but it is a common error to suppose that such clothing is hot in summer. Heat is felt to be oppressive when the natural action of the pores is hampered and the exhalation can not escape.

If the covering is impervious there is a strong desire to throw everything off from the stifled skin; but the wearer of porous woolen covering through which the skin can breathe is no more oppressed by it than is a cricketer by his flannels, which every athlete knows to be the coolest, safest, most comfortable wear for violent exercise in hot weather.

If you value your health, don't delay, but encase your body in garments of pure animal wool as made by Dr. Jaeger, and for sale by

M. McINERNEY.

December, 1892. FLOODED!

We can honestly say that we have been flooded with new goods during the past few weeks. The Martha Davis from Boston, had for us Oakum, Horse Shoes, kegs Wire and Cut Nails, Turpentine, Ship and Cut Spikes, Pitch, Benzine, Cotton Duck, Wrapping Paper, assorted Oars, Mast Hoops, assorted Handles, Rakes, Road Scrapers, Pick and Ax Mattocks, Axes, Hatchets, Forges, yard Brooms, Batteries, Shovels, Spades, and Scoops, horse Nails, boat Nails, Hinges, Sand Paper, ball Wicking, Tacks, Fodder Cutters, Scales, Blocks, copper Paint, mixed house Paint, dry orange Shellac and many other items.

Those Wostenholm pocket Knives we spoke of have come, and you are sure to find one among the lot to suit you in price and style. Our assortment of those fine drab Fish Lines is now complete from 0 to 9.

If you want a good pocket Cork Screw, we now have the article, compact and strong.

We carry the largest and most varied stock of Oils to be found in the islands, among which are several brands of Cylinder Oil, light and heavy engine Oil, black or Carbox Oil, Castor, Olive, Peanut, Colza, Cocoanut, Paraffine, Sperm, Polar, Dynamo, Sewing Machine, Mineral Castor, Lard, Neatsfoot, pale and dark boiled Linseed, Raw Linseed and Tar Oil. We can sell you anything from a quart bottle to a barrel of any of these oils. We have a Cylinder Oil and an engine Oil both of which give perfect satisfaction, and we will at any time send samples to any one wishing to try them, free of charge. While we are speaking of oils, we may as well say that we handle a good many thousand cases of Kerosene Oil every year.

We were going to say something about Wood and Schultz Powder Cartridges this time, but it's no use, we had a sample lot of five thousand by the Mariposa and have only 600 left of the lot. We will tell you when the next lot comes, in a few weeks; it will pay you to wait for them. To those who load shells we would say that we have just received a lot of Dupont's & Hazzard Powder, also new lot of Metal and Paper Shells, Wads, Chilled Shot, etc.

By the Australia yesterday we received a large lot of goods, including nine rolls of Leather.

We are putting away Goods received by the Albert and we have a lot more on the Transit due next week.

Yours truly,

E. O. HALL & SON, L'D., Corner of King and Fort sts.

COURT NEWS

The New Circuit Judges Will Be Installed this Morning.

The newly-appointed Circuit Judges, Messrs. Whiting and Frear, took the oath of office yesterday.

Booked to Leave.

The following persons are booked at the office of Wm. G. Irwin & Co. to leave on the Australia to-day.

LOCAL AND GENERAL.

Beware of counterfeit Kalakaua dollars. They are in circulation.

In the absence of a Judge, there was no session of the Police Court yesterday.

The esplanade from Queen street to the wharf is one large pool of very soft mud.

Hon. C. W. Ashford left for Hilo yesterday to defend John and Anna Costa, charged with murder.

At Levy's store on Saturday evening, number 53 won the dress and the lucky number for the doll was 71.

George Nawaakoa has been appointed a clerk at the Police Station, in place of Archie Mahaulu, promoted.

The Japanese Bazaar on Hotel street has just received per the S. S. Rio de Janeiro a new lot of silk and crepes and some laquer ware.

The U. S. S. Boston will leave to-day for Hilo for target practice. It is not known just when she will return to her anchorage in the harbor.

To-day, at noon, at his sales-rooms, Lewis J. Levey will hold a sale of a seaside residence. The property is described elsewhere in this issue.

The HAWAIIAN GAZETTE contains the full account of the laying of the corner-stone of the new Masonic Temple. Send a copy with your letter to-day.

Ladies who wish to avoid a cold should wear a coat during the rainy season. A good assortment can be found at N. S. Sachs', from \$2.75 and upwards.

Tax payers are notified that on and after the 15th day of the present month, ten per cent. will be added to all delinquent taxes. A word to the wise, etc.

John Costa, who is charged with murder, left for Hilo yesterday to stand trial along with his wife, who is also under arrest for the same crime. Judge Lyman will try the case.

Masuda, the Japanese murderer who is now at Oahu Prison, will be hanged on the 30th inst., unless another respite be granted him. He has received two reprieves already.

On Wednesday, the 18th inst., an auction sale of valuable lands situated in the district of Waialuku, Maui, will take place at Waialuku. A full description of the property can be found elsewhere.

In the House yesterday the bill compelling the Board of Education to employ only Hawaiians to teach in the primary schools was killed. The fleeing lottery bill will share the same fate.

A native named Kapo, who has kept a fruit stand for a long time on McIntyre's corner is no more. He died on Sunday and was buried on Monday. Alcoholism is supposed to be the cause of death.

The Kilauea Club was to give a concert at Kilauea, Kauai, on New Year's Eve for the benefit of the Church Fund. Their concert at Kealia the previous week was poorly attended owing to rainy weather.

Owing to the inclement weather the Band Concert did not take place last evening at the Hotel. The usual serenade will be given this morning on the Oceanic wharf previous to the departure of the Australia.

A burglar broke into the office of Hustace & Co. the other day, but he left without taking anything. He evidently came to the conclusion that it was cheaper to buy Department Bay coal at \$12 a ton delivered free, than to steal it.

The Supreme Court in Banco heard the case of F. W. Wundenberg as Receiver of C. E. Williams & Co. vs. James Campbell yesterday. The action was brought to prevent the defendant from levying on the stock for rent alleged to be due.

At the request of the Cabinet, Judge Foster of the Police Court has accepted a re-appointment to that office. His commission was delivered yesterday. In lieu of a reduction in salary, Mr. Foster will have the compilation of the new Penal Code. His re-appointment gives general satisfaction.

The stockholders of the Oahu Railway and Land Company held a special meeting yesterday to consider the question of increasing the issue of new bonds, authorized at the meeting held on November 5, 1892. It was decided, if found necessary, to increase the issue of new bonds to the amount of \$2,000,000.

The Illustrated Tourists' Guide

That popular work, "THE TOURISTS GUIDE THROUGH THE HAWAIIAN ISLANDS," is meeting with a steady sale both at home and abroad.

The following persons are booked at the office of Wm. G. Irwin & Co. to leave on the Australia to-day.

John Wood, Dr. Freeman, Mrs. Long, Hon. J. N. S. Williams, G. L. Jackman, C. H. Richardson, W. S. Maltby, C. C. Conwell and wife, Miss E. Lee, Mrs. E. F. Bishop, A. J. Magoon, wife and child, Miss Minter, S. T. Alexander, J. N. White, Mrs. R. C. Hoos and child, J. M. Hind, F. C. Heath, A. R. Mackintosh, S. H. Blouger and wife, J. E. Miller, Colonel Z. S. Spalding, Louis D. Sloss, Jr., Dr. O. F. Lee, S. Ehrlich, R. R. Hind and wife, Mrs. James B. Castle and son, Dr. S. L. Lee, Rudolph Neumann.

BON VOYAGE.

Personal Mention About Outgoing Passengers.

Among the passengers leaving to-day is Mr. J. N. S. Williams, who goes to Scotland, to assume a position in a large manufacturing establishment, for which he is well fitted by education and long experience.

He holds the honorable position of Noble in the Hawaiian Legislature, and has during the present session been one of the most indefatigable workers in that body, from which he will be greatly missed.

Mr. S. T. Alexander is well known as one of our sugar planters, who makes his home in Oakland, California, being also largely interested in various enterprises in that State as well as here.

He has been looking into the prospects of the coffee industry in Hawaii, and personally inspecting various lands on Hawaii and Maui, said to be adapted for coffee, and is well satisfied that this is destined to become one of our leading industries in the near future.

Persons abroad wishing information regarding coffee cultivation in Hawaii, cannot do better than to interview him.

Miss E. Lee, of Salt Lake City, who has been spending a few weeks here for a winter vacation, has the honor of being a member of the bar, in that city, where she has practiced law as a profession for several years.

Judge Sutherland, of the U. S. Circuit Court of that Territory, is her brother-in-law, and she is thus enabled to enjoy equal rights among perhaps more ambitious attorneys.

Miss Lee has made a tour of the islands, and gathered a fund of information regarding Hawaiians, their ways and methods, and expresses herself delighted with the sights and scenes she has witnessed.

Mr. W. S. Maltby, the monocylist, leaves to-day, after having ridden his vehicles on both Maui and Hawaii. He hopes that when he returns, in the course of a year or two, to be able to speed his bicycle over the entire length of the new Volcano Road, and, if Mr. Lee is so fortunate as to build a smooth trail from the bluff to the burning lake, perhaps he will be able to show Madam Pele what a "Columbian roadster," with a Yankee mounted on it, can do.

Mr. Rudolph Neumann and Mr. Louis Sloss, Jr., leave to-day, after spending a pleasant visit in this city. The first named is a nephew of Hon. Paul Neumann. His home is in Alaska and dealing in furs is his business.

Mrs. J. B. Castle and son, with Mr. Joseph White, his son and daughter, and Miss Nellie White, are also outgoing passengers.

A WANDERING SPIRIT.

A Burglar Makes Three Calls in One Night.

Several weeks ago a small store on Fort street, presided over by an old gentleman, was entered by a thief and robbed of \$20—all the money there was around. The same robber, or possibly a different one, paid a second visit to the store on last Sunday night, and after gaining entrance through a rear door, which was forced open, the thief made a thorough search, but was not rewarded this time by finding any money.

He then left the place in disgust, and next turned his attention to a rear door of L. J. Levey's auction rooms, but it would not open, so the robber paid a visit to the front of the building and walked off with a rope which was attached to a flag pole.

The young man then thought he would even up things, and his next call was at Morgan's auction room, which he entered from a rear door. He carefully inspected some of James' bargains in furniture and other things, and finally came across two bottles of liquor which he took and then departed.

Harry Armitage was the happiest man in town yesterday because the burglar was foiled in not getting the flag of Erin which usually adorns the wall of Morgan's office. He had placed the green ensign in the large safe the day before.

Harry is not sure whether the stolen bottles contained sam shu, or striped carriage paint, but in either case he says if the man drinks it, he will furnish an opportunity for a coroner's jury to bring in a verdict of "death caused by heart failure."

Monkeyed With Acid.

Last evening about 9 o'clock a young man named James R. Holt was supposed to have taken poison with the intention of ending his life. A visit to his home in a lane off School street brought forth the intelligence that he had spilled some carbolic acid on his hands, and nothing more. His wife denied that he had taken poison and gave the foregoing explanation of the affair.

WHARF AND WAVE.

DRAGON HEAD, Jan. 3.—9 P. M.: Weather, hazy & wind, calm.

The steamer Pele is being re-caulked. The barkentine Amelia, the clipper Ward, leaves to-day Capt. D. H. Sugar for San Francisco with a cargo of sugar.

The schooner Robert Lewers was docked at the wharf yesterday to be re-caulked.

The Hawaiian steamer, R. P. Rithet, Capt. San Francisco, will sail to-morrow for San Francisco with about 30,000 lbs. of sugar for San Francisco. James Makee will bring some to care for her to-morrow.

The steamer Waialeale will probably leave to-morrow for Lahaina and Hanakula.

The barkentine S. N. Castle will load sugar for San Francisco after the departure of the R. P. Rithet, and the schooner Transit will load after the Amelia.

It is reported that two vessels of Admiral Gherardi's squadron, now at Valparaiso, will be retained in the Pacific, owing to the unsettled condition of affairs on the west coast of South America. The condition in Hawaii and Samoa may also be taken into consideration.

It is certain that the ships are likely to be more needed in looking after our interests on the Pacific Coast than in taking part in a parade in New York Harbor.—Ex.

United States District Judge Morrow has rendered an opinion that the payment of advance wages to seamen is one of the great evils of the merchant marine service, and the purpose of Congress is neither obscure nor uncertain. It clearly intended to prohibit the payment of advance wages in every case except where the employment is on a whaling vessel. The seamen on the ship Eclipse at San Francisco who brought suit for their wages in full, are entitled to recover.

CUT IN TWO.

Sinking of a Japanese Cruiser By a Collision.

The S. S. Rio de Janeiro brought further news of the sinking of a Japanese cruiser on December 2. The marine accident occurred in the Inland Sea and the particulars are about as follows:

The superintendent of the P. & O. Co. at Yokohama received telegraphic advices from the company's agent at Kobe that the Commander of the Ravenna reports having been in collision with a Japanese cruiser in the Inland Sea, and that the former sustained serious damage to her bows and the latter sank immediately.

The Ravenna left Kobe at 5:30 P. M. on Tuesday, November 29, and all went well until 4 o'clock on Wednesday morning, when while steaming at full speed she collided with tremendous force with the Chishima, which was coming from the south under full steam. At the moment of the collision it is stated that the Japanese cruiser was endeavoring to cross the Ravenna's bows, and that the latter had no time to realize this sudden intention and avert the catastrophe. The force of the impact cut the Chishima clean in two and she sank in a few moments. The Ravenna lowered her boats, and sixteen of the crew, including the captain of the cruiser, were picked up. The total loss of life is computed at about sixty-five. The awful suddenness and force of the collision rendered it almost hopeless to render much help, for nearly all were below at the time and the cruiser sank immediately. The cruiser was a vessel of 750 tons and carried fourteen guns.

Installation of Officers. Last evening Excelsior Lodge, No. 1, I. O. O. F., held a meeting, when the following officers were installed: C. J. Fishel, P.G.D.D.G. "German Syrup"

Here is something from Mr. Frank A. Hale, proprietor of the De Witt Hotel, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes, and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled Hereditary with colds, and he often makes him sick at his stomach. Whenever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."

THE LEGISLATURE

One Hundred and Sixty-First Day.

TUESDAY, Jan. 3. The House met at 9 A. M. Roll call, twenty-three members present. Quorum at 9:15 A. M. The minutes were read and approved.

Rep. Nabiu presented a petition from Waialua, Molokai, praying for the erection of an English schoolhouse. Referred to the Educational Committee.

Rep. Iosepa presented a petition from George Kekipi, superintendent of Sunday schools on Molokai, praying that he be permitted to enter the Leper Settlement on certain occasions. Referred to the Sanitary Committee.

Clerk McCarthy read the following communication from the members of the Board of Education:

BUREAU PUBLIC INSTRUCTION, HONOLULU, Dec. 31, 1892. Hon. J. S. WALKER, President of the Legislature.

The undersigned members of the Board of Education beg respectfully to present to the notice of the honorable members of the Legislature, in view of an Act limiting the appointing power to the Board of Education, the following facts:

In presenting this petition the Board does not wish it to appear that it desires to dictate in any way, but solely to present the facts for the consideration of the honorable members of the Assembly.

The principle has been well established for years in all the appointments that our Hawaiians and those of Hawaiian descent, when fitted to occupy positions, should receive the preference.

From many Hawaiian parents and guardians communications have been addressed to your petitioners praying that foreign teachers may be sent, who can instruct their children in the English language correctly, for though they do not complain of their present teachers as to deportment, they still desire that the young children shall learn the first principles from a person versed in the language to be taught.

Your petitioners would also present the fact that the supply of Hawaiian teachers, skilled in the art of teaching, has as yet never been equal to the demand, and we do not know of a single case where a properly qualified Hawaiian has been refused a position when there has been one available.

At the present time the Board has 250 teachers on its roll, of which 120 are Hawaiians or of Hawaiian descent, and 23 of Hawaiian birth. This law, if enacted, will apply to all but three Government schools in the Kingdom, and out of 7,148 scholars in the Government schools, only 612 are not in the primary grades.

It will thus, we trust, appear to your honorable body that the Board has always endeavored to carry out the general policy indicated in the proposed Act.

In view of these facts we respectfully submit that the proposed action on the part of your honorable body would be an unnecessary and injurious interference with the appointing power of the Executive branch of this Government.

(Signed) WALTER HILL, WM. W. HALL, W. D. ALEXANDER, S. M. DAMON. Tabled with the bill.

SELECT COMMITTEES. Noble J. M. Horner reported on Bills 131 and 115, both bills having for their object the licensing of carriages for carrying of passengers in the district of Waialua, Maui.

Rep. Smith read for the first time a bill relating to administrators and guardians (introduced by ex-Minister Neumann). The bill took the usual course.

At 9:32 A.M. the House proceeded to the ORDER OF THE DAY. Third reading of Bill 167, the Registration Act. Deferred for the moment, as interested parties were not present.

Third reading of Bill 222, relating to the appointment of school teachers in primary schools in this Kingdom. Rep. Smith moved for the indefinite postponement of the bill. He considered it, from a Hawaiian standpoint, a great mistake to employ only Hawaiians in primary schools.

The policy of foreign teachers is not to give too much English to natives, because they would become too smart.

Noble Cornwell did not think the bill a good one. He added the following amendment to Section 1: "If found competent in the opinion of the Board of Education."

Rep. Nabiu said that Noble Cornwell's amendment takes the gist away from the bill. The bill is a dangerous one. There are 250 teachers employed in this country, nearly all of whom are in primary schools.

Rep. Nabiu enumerated the scandalous habits of several persons in the employ of the Board of Education. Noble Thurston said that Rep. Bipikane has kicked all the bushes.

There was a great deal of truth in what the member from Hilo said. He sympathized with the opposition to continuously importing teachers.

There had been a great deal of rubbish in the way of imported school-teachers. But this law would not meet the difficulties. He favored establishing first of all a normal school in this Kingdom.

He offered the following resolution: "Be it resolved that a committee of five persons be appointed to examine into the present system of supplying teachers to the common schools of the country, and to report to the next Legislature whether or not some method may be devised whereby a supply of permanent teachers can be better obtained, and more particularly to examine into and report the advisability of establishing a local normal school for the instruction and training of teachers for the primary schools; and, if the same shall be found advisable, to formulate legislation necessary to carry the same into effect, together with an estimate of the additional expense of such position, and that bill 222 be laid on the table."

Rep. Smith seconded the resolution. With all respect to the Board, there are some things which are not altogether satisfactory.

Rep. Kamaoaha appreciated the remarks of Noble Thurston, who had proved his aloha for Hawaiians. But \$5000 had already been passed in 1890 for normal instruction for teachers.

Rep. R. W. Wilcox favored the resolution, and moved the previous question. Carried. The ayes and noes were called on motion to indefinitely postpone the bill, which was lost on the following division:

Ayes—Ministers Wilcox, and Jones; Nobles Ena, Cummins, Williams, Kauhane, J. M. Horner, Hind, Marsden, Young, Baldwin, Walbridge, Anderson, Thurston, Kanao and Dreier; Reps. Ashford, Smith and A. S. Wilcox—19.

Noes—Minister Berger, Pua, Peterson, Maile, Hoapili and Cornwell; Reps. Bipikane, Aki, Pua, Kauhane, R. W. Wilcox, Nawahi, Kanao, Kamaoaha, Waipulani, Nahinu, Kanealii, Edmonds, Kalua, Iosepa and Akina—22.

Absent—Minister Robinson; Nobles Hopkins, W. Y. Horner and McBryde; Reps. Wilder, Bush, Koahou, A. Horner, Kapahu and White. Noble Thurston's resolution was carried on a standing vote of 20 to 21, the President giving the casting vote.

The President announced the commission: Nobles Thurston, Baldwin and Kauhane, and Reps. Kamaoaha and Smith. The Clerk read Rep. Ashford's amendment to the Registration Act.

Rep. Smith criticized Rep. Ashford's remarks the other day, and considered them scandalous. Noble Thurston considered Rep. Ashford's amendment as an injurious one. Why does the member from the Third Ward want to protect Chinese in this town whom the House wishes to tie up?

That is a mea lapuwale. Rep. Ashford's amendment would take the meat of the whole bill, and if it passed, he would move to indefinitely postpone the bill. It was traitorous for a man to say that he favored the bill, when at the same time he wanted to stab his constituents in the back.

The member from the Third Ward ran on the platform in the interest of mechanics. He said that he loved them and would hug them. We passed a bill the other day allowing 5000 more Chinamen to come into the country. It was too much to expect that the member from the Third Ward would withdraw his amendment, but he would like to see a unanimous vote against it.

Rep. Ashford said Noble Thurston's intimation that he was working in the interest of Chinese was entirely false. He was there in the interest of native Hawaiians and Anglo-Saxons. Noble Young claimed that his constituents did not favor the bill. At 12 M. the House took a recess until 1:30 P. M.

Dreier; Reps. Aki, Kauhane, R. W. Wilcox, Waipulani, Kapahu, White, Edmonds, Kalua, Iosepa, Akina, Smith and A. S. Wilcox—21.

Absent—Ministers Robinson and Brown; Nobles Hopkins, Peterson, Cummins, W. Y. Horner, McBryde and Kanao; Reps. Wilder, Ashford, Bush, Koahou and A. Horner. The motion to indefinitely postpone was lost on the following division:

Ayes—Minister Jones; Nobles Berger, Pua, Peterson, Maile, Hoapili, Cornwell; Reps. Aki, Pua, Kauhane, R. W. Wilcox, Nawahi, Kanao, Kamaoaha, Waipulani, Nahinu, Kanealii, Edmonds, Kalua, Iosepa and A. S. Wilcox—21.

Noes—Ministers Robinson and Brown; Nobles Hopkins, Peterson, Cummins, W. Y. Horner, McBryde and Kanao; Reps. Wilder, Ashford, Bush, Koahou, and A. Horner. Rep. Bipikane refused to vote.

The bill passed, to be read a third time on Friday. Under suspension of rules, Noble Thurston introduced a bill to protect forests. The forest along the Volcano road was being absolutely destroyed.

The bill was read a first and second time by title and referred to the Judiciary Committee. Noble Cornwell, under suspension of rules, read by title a bill fixing the compensation of Representatives at \$500. Under suspension of rules, the bill passed to engrossment, to be read the third time on Friday.

Third reading of Bill 228, to provide a fire department for Hilo. The bill passed. Third reading of Bill 230, to consolidate and amend the law relating to homesteads. The bill passed to engrossment. The bill introduced by Noble Thurston, to protect forests. The committee recommended the bill pass. The bill adopted and Thursday set for the third reading.

Under suspension of rules Rep. Smith, for Noble Thurston, presented a resolution setting Wednesday, January 4, for the consideration of the Electric Light Franchise bill. The resolution was adopted. Second reading of Bill 213, to amend the law providing further security for Postal Savings Bank depositors. Minister Jones explained the object of the bill was to permit the Minister of Finance to issue promissory notes without advertisement. It also lowers the denomination of the notes.

The bill was considered section by section and passed to engrossment with a trifling amendment, to be read again on Thursday. Second reading of Bill 224, relating to bankruptcy. Referred to the Judiciary Committee. Second reading of Bill 235, to authorize a national loan. At 4:10 P.M., no quorum being present, the House adjourned until 9 A.M. Wednesday.

Blanket Your Horses. As every reader is aware, a pair of fine horses is sometimes seen standing unblanketed before one of our large stores in cold weather, their bodies steaming from the effects of fast driving, while comfortably seated on the box of the carriage are butler and driver smothered in furs. To correct this, the Massachusetts Society for Prevention of Cruelty to Animals has adopted a most ingenious and effective remedy. It has provided a man with a sign, "Please Blanket Your Horses," and when a team is found unblanketed, the man simply takes position in close proximity to the equipage, a crowd soon collects, and the character of the remarks made by the assemblage are not calculated to make the practice popular. The horses are either blanketed or driven away to more congenial quarters, and the banner man quietly goes in pursuit of other offenders.—Boston Commercial.

A Small Piece of Justice. In a small town not many miles from Erie, Pa., there was a case before the justice of the peace that was settled very summarily. It appears that a Mr. Jones had beaten Mr. Brown's dog with a club for chasing his chickens. They met at the office of the justice, each accompanied by a lawyer, and bound to see the thing through, no matter what it cost. As Jones and Brown were prominent citizens of the town a large crowd assembled at the trial, expecting to hear some great oratory from the lawyers. The justice was a very pompous and ignorant old fellow, who was great on big words, no matter whether appropriate or not. The case was called, the witnesses who had seen the clubbing gave their testimony, and Jones' lawyer arose to open for his client, when the justice said: "Hold on, Mr. Lawyer, there is no use arguing or disputing about this matter, there is no case of assault for it. Mr. Jones was highly unwise in beating Mr. Brown's dog, so I find him ten dollars for cruelty to dumb animals, and that is all there is about it."—Detroit Free Press.

An Impressive Part of a Funeral. A very beautiful and impressive adjunct to an aristocratic official Parisian funeral is the presence in the procession of the corpse of the deceased, the horse or horses, led by groomers in mourning liveries, and the lanterns lighted and veiled in long streamers of semitransparent crape. The effect is at once somber and picturesque, and is especially striking at the obsequies of some great personage, such as M. Thiers, Gambetta or Victor Hugo. Nobody, not even the nearest relative of the defunct, is permitted to occupy the vehicle.—Paris Letter.

A Bright Four-year-old. The clergyman was a guest at dinner one day. Cream was offered him with his dessert, but he declined, gallantly saying "that would be painting the lily." A few days later Hattie's aunt, who had artistic tastes, sent the child to pick for her a lily which she wished to copy. The little four-year-old started on the errand, but as she reached the foot of the piazza steps she turned, looked up at her aunt and said, "Would you paint the lily?"—New York Tribune.

What the End Will Be. According to the theory of Sir William Thomson, the end of the world, which is 10,000,000 years in the future, will not be brought about by excessive heat, as hinted in the Bible, but by the remnant of humanity being frozen to death.—St. Louis Republic.

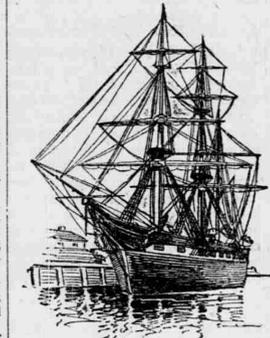

THE NEW CABLE SHIP.

The Wonderful and Strange In Our Midst!

LIVELY TIMES ARE COMING

A Tidal Wave is Predicted. Read On

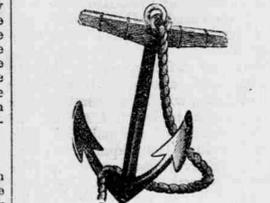

Our Special Artist has not been idle, as may be known by the following cut which is a gem in its way:

THE BARK PROGRESS.

This is the bark Progress. It is the bark that will bring the cable to Hawaii, and Progress is what we all want. There cannot be any progress unless you buy your hosiery from Fishel.

A girl will wear hose with a hole in the heel, but ducks like rainy weather, and FISHEL'S bargains are the talk of the town.

What's the matter with the anchor? FISHEL has an anchor in low prices and steady sales. He don't sell anchors, but peanuts should be roasted before eaten.

Why does an anchor resemble an old tomato can? Because it don't. Buy toys of FISHEL. Goats like tomato cans, and hard times melt away when bargains are offered. FISHEL has 'em—not tomato cans, but bargains.

Now we have a cunning little fellow who is waiting for Christmas. He has a bald headed doll, and papa is going to see FISHEL about some new toys. FISHEL is the man for these times. He doesn't want the earth by any means, but will sell everything in his store for Kalakaua Dollars. Horner's money won't go.

WOMEN WHO PROPOSE

HOW FAIR WOMEN SOMETIMES WOO RELUCTANT SWAINS.

Ells Wheeler Wilcox Thinks That Progress Is a Very Good Thing, but Women Should Draw the Line When It Comes to Love-making—Some Interesting Incidents.

Copyright, 1892, by American Press Association. All rights reserved.

ONLY recently has it seemed among the possibilities to me that a woman of sane mind could make love to a man in any way save with her eyes and her arts of coquetry, which are as old as time and love.

But during the last two years some strange cases have come to my direct attention which I propose to relate in this article, hoping it may fall under the eyes of those referred to and cause a reformation.

It is very well for woman to break some of the old fetters forged by ignorance and tyranny, but all right minded people must draw the line when it comes to love-making or giving of attention. The moment a woman is the pursuer and man pursued sentiment becomes grotesque and romance ridiculous, and the sweetest and dearest illusions of life are destroyed.

A young man of my acquaintance met a very pretty young lady while he was on a business trip to one of the smaller cities adjacent to New York. Their acquaintance was but slight when he was surprised at receiving a letter from her. However, he regarded her writing the first letter as a mere girlish freak and paid no attention to the matter until she wrote again in a most unmistakably tender manner.

In fact she told him that it had been a case of love at first sight on her part, and she hoped it was the same with him, and assured him that her parents would render them very comfortable in life, as she was an only child.

The young man knew that she was a good girl morally; that she would inherit money, and that she was exceedingly pretty. But he never replied to her letter, feeling only disgust at her boldness. Her virtue, beauty, youth and wealth were all lost upon him through her having taken the initiatory steps. A man resents a woman's robbing him of his rights of pursuit.

Another man of my acquaintance was somewhat fascinated by a handsome woman a few years his senior. He was thinking seriously of proposing to her when she anticipated his intention by a bold suggestion of wishing they might always be together, which drove him instantly from her side.

The young women who ask men for attention and compel them to become escorts are alarmingly on the increase.

Although the chaperon system is prevalent in the small, exclusive circles of our largest cities, there are still hundreds of thousands of cultured, charming young ladies in New York and elsewhere who attend theaters and operas and receptions with gentlemen escorts unaccompanied by a chaperon. It will require another hundred years before this custom is relegated to the grisettes and peasants, as in other countries.

Young women who come to New York to study for a career seldom come chaperoned, and depend upon the opportunities afforded by gentlemen friends to attend places of amusement.

One of these young women brought letters of credit to me, and I found her so bright and charming I invited her to my house. To my astonishment I heard her ask a young gentleman in my parlors to take her to hear a popular actress then playing in the city. The gentleman of course promised to do so, and during the next month he was her escort to half a dozen places of amusement, all on her invitation. This young woman I have heard spoken of as "so enterprising," "so popular" and "such an energetic creature" by many people, but for me she had spoiled herself by her methods of obtaining attention.

Another young woman of excellent family came to New York to study music. She was quite a belle in her own smaller city, and she found it impossible to live without social life in the metropolis. She complained so bitterly to me of her lonely evenings that I took her out with me upon two or three occasions. I was surprised to find her making a tour of all the theaters and places of amusement after that in company with a gentleman of my acquaintance. When rallied upon his devotion, he seemed uncomfortable, and finally confidentially informed me that the young lady had asked him to take her to these places, and he could not well refuse. He begged me to give her some counsel. Men are such cowards about these matters, but it is their gallantry to the sex which renders them cowards. They have not the courage to refuse, yet they severely criticize the women who ask for their attentions. It is the greatest mistake a woman can make.

It is all very well when a fashionable young woman, properly chaperoned, invites a gentleman to occupy her box at the theater or opera; but it is quite another thing when a girl with a "career" asks a man to devote time and money to her entertainment.

It seems to me that no woman with a spark of refinement or good taste or sentiment could do such a thing.

This growing evil is no doubt one of the disasters attendant upon woman's transition state from a useless toy to a more enlarged sphere. She oversteps the limits of the present enlightened age, however, when she attempts to be the lover.

Because many noble women are progressing into wider fields of usefulness and liberty, a great crowd of unbalanced girls and women, lacking in refinement and restless with a craze for excitement and publicity, are elbowing their way

into public notice and overruling all ideas of propriety in their desire to see everything and do everything. Good and delicate minded women ought to cry down this brood, and men ought to snub them in their efforts to obtain attention which is not voluntarily given. Whatever changes occur in the world, let the good old custom of men doing the wooing and asking continue.

"THE PICTURE OF HEALTH."

Hints for Women Who Desire to Earn That Title.

Besides the trip—fresh air, sunshine and exercise, which are well known and sparingly used—there are many other hints and helps ready for those who long for perfect health. Most women desire it not only because they would be a clog upon the lives of others, but also because without it the highest beauty cannot exist, while with it the lack of beauty is scarcely regretted.

One cardinal rule to remember is never to stand when one can sit, nor to sit with the feet touching the ground if one can rest them upon a stool or brace. The idea is to remove the weight of the body from the feet as often as may be, so in any household task it is not only preferable to sit when possible, but likewise to use a rather high stool, where the rounds may serve as a brace. To most women nothing proves more tiresome than shopping. The standing is the hard part, not the walking from store to store. If they took pains always to secure any available seats, they would find "that tired feeling" of which patent medicines speak greatly lessened at the day's end.

Plenty of nutritious, easily digested food is another important factor of a sound body. Women are proverbially careless as to what and what they eat. It need not run into the rankness of health foods, but should certainly include beef and mutton and strong, sound vegetables and fresh fruits, all of which nowadays are readily procurable almost any day in the year.

It seems scarcely necessary to say that light but sufficiently warm clothing should be worn. Yet this does not mean, for instance, the still popular fur capes which envelop one's throat and leave the arms and small of the back absolutely unprotected, nor the great coats which again wrap up the neck that grows tender thereby and afford no other warmth. The lungs must be most carefully guarded—if in no other way, by a layer of flannel underneath the gown, back and front—during severe winter weather. In summer quite as much care should be taken to avoid sudden chills after overheating. An eternal vigilance is required in the matter of dress.

Another essential is the striving after what is not a feminine belonging—a placid temper. Those who "take things easily" who are not soon perturbed nor annoyed, make little drain upon their nervous system. And, after all, the nerves play the greater part in the health of women.

RUTH HALL.

A Prominent Club Woman.

The president of the Women's club, of Orange, N. J., holds an important position, both on account of the age and standing of the club and the good work it is doing. This office is now held by

MRS. THEODORE F. SEWARD.

Mrs. Theodore F. Seward. She is the wife of the man who first introduced the tonic sol fa system of music into this country, and who is the founder of the great "Brotherhood of Christian Unity" movement.

The Women's club, of Orange, is twenty-one years old, nearly the age of Sorosis, and has included or still includes as members and officers some distinguished women—Mrs. Charlotte Emerson Brown, president of the Federation of Women's Clubs; Mrs. Antoinette Blackwell; Mrs. Dr. Lusher, now president of Sorosis; and Mrs. Adelaide Emerson Thompson, president of the College Settlement association.

Mrs. Seward disclaims any publicity in connection with herself up to the time of her election last March, but her name has been frequently seen as the composer of words for her husband's music. She wrote as "Agnes Burney" for years, until so many of her works were pirated that she thought best to use her real name. She now signs herself Mary C. Seward. The words of one Christmas hymn of hers, beginning,

Ring the bells, the Christmas bells, Chime out the wondrous story, seem to have been a favorite with musical composers, her husband says. They have been set to various music, and the original hymn has been published in various countries abroad.

ANNE ISABEL WILLES.

A Race of Giants in Old Gaul.

In the year 1890 some human bones of enormous size, double the ordinary in fact, were found in the tombs of Castellana (Herauld), and have since been carefully examined by Professor Krieger, who, while admitting that the bones are those of a very tall race, nevertheless finds them abnormal in dimensions and apparently of morbid growth. They undoubtedly reopen the question of the "giants" of antiquity, but do not furnish sufficient evidence to decide it.—London Globe.

Canada's Muskmelon.

The muskmelon season has just closed in Canada. The Montreal market shows some of the finest cantelopes raised anywhere. The wagers of the inhabitants stand about the Nelson monument, piled high with splendid fruit. The warm lands along the St. Lawrence produce them beautifully. They beat Hackensack.—New York Recorder.

GO AHEAD!

There is only one way to do anything; and that is the right way; it is the best way, AND IN THE END THE CHEAPEST. With the New Year, I inaugurate a new departure in my business, viz:

The Optical Business

Having first perfected myself by a study of the eye and its need; and further by a scientific study in the use of the latest and most approved instruments for the testing of the eye; I am ready to fit your eyes with proper Glasses, correcting ALL ERRORS OF REFRACTION, whether simply NEAR or FAR sight, or the more complicated SIMPLE or COMPOUND ASTIGMATISM from which so many patients suffer, and which few Opticians TREAT.

I feel that the public will appreciate the above announcement as it has been a felt want here for years. My intention is to give Optics a large share of my attention, and each case separately conscientious time and study, so that the wearing of Glasses will do what they are intended for, relieve the strain, and not to tire the eye. Please bear in mind that there is NO CHARGE for testing the eye, and that my prices for all Glasses are the same as in the States.

In the Supreme Court of the Hawaiian Islands. In Banco. HEARING NOVEMBER 29, 1892. BEFORE JUDD, C. J., BICKERTON AND DOLE, J. J. THE QUEEN VS. JOHN COSTA AND ANNA COSTA.

A vote of want-of-confidence in the Cabinet was passed by the Legislature on the 1st November, 1892. The Cabinet tendered their resignations to the Queen on the same day, but continued to attend to the duties of their offices until the 8th of November, when their successors were appointed. On the said 1st of November the Attorney-General, one of said Cabinet, before the passage of the said vote of want-of-confidence, commissioned a deputy for the Circuit Court of the Third Judicial Circuit, who presented to said Court on the 7th November an indictment against the defendants. On a motion to quash, Held, the Attorney-General was not removed, or his resignation made complete by acceptance until his successor was appointed on the 8th November. Therefore the acts of his deputy on the 7th were valid and the motion to quash overruled.

OPINION OF THE COURT PER JUDD, C. J. The defendants were indicted for the crime of murder on the 7th November last before the Circuit Court of the Third Judicial Circuit. The following motion to quash the indictment was made, and the question thereby raised was reserved to the full Court by Presiding Justice Dole.

And now come the said defendants John Costa and Anna Costa, in their own proper persons, and move the Court here that the indictment presented against them this day in the above entitled case, be quashed, and in support of said motion, said defendants allege the following facts, viz:

1st. That said indictment is not signed or presented by an Attorney-General of the Kingdom duly, legally and constitutionally appointed to and holding office at the date of the signing of the same and its presentation against these defendants.

2d. That at the time when said indictment was signed and presented by W. Austin Whiting, Esquire, and for the deputy of Charles Creighton, Esquire, therein described as the Attorney-General of the Kingdom, he, the said Charles Creighton, was not the Attorney-General of the Kingdom, and was not constitutionally holding the said office of Attorney-General, or constitutionally or legally discharging its duties and functions.

3d. That at the date of his said signature to and presentation of said indictment, as and for such deputy as aforesaid, he, the said W. Austin Whiting, was not the deputy legally and constitutionally appointed, and holding place and office as such deputy of the Attorney-General of the Kingdom.

4th. That the finding of a true bill against these defendants upon such indictment so as aforesaid, unsigned by and not presented by the Attorney-General of the Kingdom, or by the deputy of such Attorney-General, constitutionally and legally holding office as such at the time of such signing and presentation, was and is irregular, invalid and void.

This motion is based upon the records and files herein, upon the commission under which said W. Austin Whiting purports and purported to act as and to be the deputy of the Attorney-General of the Kingdom in this behalf, upon the affidavit of O. W. Ashford hereto annexed and made a part hereof, and upon events which have occurred in regard to Her Majesty's Cabinet since noon on the first day of November, instant, of which the Court here is respectfully asked to take judicial notice.

The essential facts as appear by the affidavits filed are as follows:

On the 1st day of November, 1892, Her Majesty appointed and commissioned a Cabinet in which Mr. Chas. Creighton was Attorney-General. At 11:30 A.M. of that day Mr. Creighton commissioned W. Austin Whiting as his deputy for the Third Judicial Circuit, and Mr. Whiting proceeded by steamer at 2:30 o'clock in the afternoon of that day to the island of Hawaii, where the November term of the Circuit Court of the Third Judicial Circuit was to be held in pursuance of the statute. At about 12:30 P.M. of the said 1st of November, the Legislature passed a resolution of want of confidence in the said Cabinet. Whereupon the Cabinet, through their head Mr. W. H. Cornell, tendered their resignations to the Queen. The affidavit of Mr. Creighton is to the effect that their resignations were not accepted by the Queen until the 5th of November, when their successors were appointed, and Mr. Creighton says he continued to perform the duties of Attorney-General until that date.

The indictment in question was signed "Charles Creighton, Attorney-General, by his deputy, W. Austin Whiting."

Mr. C. W. Ashford, counsel for the defendants, contended that the passage by the Legislature of a resolution of want of confidence in a Cabinet, more especially when followed by resignation of the Cabinet, terminated their official career, and a request by the Queen to the Cabinet to hold their offices until their successors were appointed had no greater effect than commissions ad interim would have had. Commissions of this character were held by this Court, in Reg. vs. H. F. Poor, 8 Haw., to be, under the present Constitution, invalid. Acceptance of the resignation is not essential to its completeness. Mr. Creighton resumed the duties of his office, whereas no new commission was issued to him. Consequently his appointment of Mr. Whiting as his deputy was invalid.

Attorney-General Brown per contra. BY THE COURT. The Constitution (Article 41) pro-

scribes that the Cabinet "shall be appointed and commissioned by the King and shall be removed by him only upon a vote of want of confidence passed by a majority of all the elective members of the Legislature," etc.

We held in Reg. vs. H. F. Poor that as the tenure of office of a Cabinet Minister was no longer at the pleasure of the sovereign but was subject to the vote of the Legislature, the Queen could not for such an appointment infer that the tenure was at the sovereign's pleasure. This case, therefore, has no bearing upon the present issue. We consider that the sound and sensible view of this Article of the Constitution is that whenever a vote of want of confidence in a Cabinet is passed by the Legislature it is incumbent upon the sovereign to make new appointments of Ministers. Now if the sovereign can only in the event of a resolution of want of confidence or conviction of felony, remove the Cabinet, the plain intention is that when such contingencies arise she must remove them and appoint their successors. Having found this to be her duty, a formal resignation by the Cabinet is unnecessary. She was free to appoint a new Cabinet as soon as notified of the passage of the resolution, whether her Ministers had tendered their resignations or not. In the case before us the Cabinet's resignations were promptly tendered on the 1st November and new appointments were made on the 8th. It is undoubtedly good law that an acceptance of a resignation may be manifested by acts of those authorized to receive it, as by appointing a successor.

Van Orsdall vs. Hagar 3 Hill 243. We have no Article in the Constitution nor statute that provides that a Cabinet officer shall continue to hold office until his successor is appointed. According to the common law in England a person elected to a municipal office was obliged to accept it and perform its duties and he subjected himself to a penalty by refusal. Edwards vs. United States 103 U. S. 473. In the above case the Supreme Court of the United States per Mr. Justice Bradley say: "As civil officers are appointed for the purpose of exercising the functions and carrying on the operations of government, and maintaining public order, a political organization would seem to be imperfect which should allow the depositaries of its power to throw off their responsibilities at their own pleasure." "An office was regarded as a burden which the appointee was bound, in the interest of the community and of good government, to bear. And from this it followed of course that, after an office was conferred and assumed, it could not be laid down without the consent of the appointing power." This was required in order that the public interest might suffer no inconvenience for the want of public servants to execute the laws." The authorities cited are numerous. See id., p. 474. This learned Court goes on to say: "In this country, where offices of honor and emolument are commonly more eagerly sought after than shunned, a contrary doctrine with regard to such offices, and in some States, with regard to offices in general, may have obtained, but we must assume that the common law rule prevails, unless the contrary be shown."

The common law doctrine is held in Hoke vs. Henderson, 4 Dev. (N. C.), L. L. in Van Orsdall vs. Hagar, 3 Hill, 243; and in State vs. Ferguson, 31 N. J. L., 107, that an acceptance is essential to the completion of a resignation. We do not go to the extent of holding that a public officer may not be finally effectual, though it be not accepted by the appointing power. Such an event would rarely happen. But in the case before us we have held it to be the sovereign's duty to make new appointments. This should be done reasonably soon. There should be no hiatus in the four most important executive offices of the Government. Public business, the interests of the entire community require that the routine of government be carried on. There are stated terms of court prescribed by law at which accused persons must be presented for trial or the interests of justice would suffer. The wheels of government should not stop or anarchy would result.

It is most reasonable to hold that the Cabinet must continue to hold office after a vote of want of confidence until their successors are appointed. The good of the people require it, and we find it necessary and the wisdom of such a rule sustained by principle and authority. The question how long a Cabinet, in such a position, may continue to conduct the business of their offices, the sovereign not making new appointments, we do not find it necessary to discuss further than to state our opinion that they are obliged to remain a reasonable time. The appointment of the new Cabinet on the 8th November, their having resigned, can be considered as an acceptance of the resignations of the former Cabinet, or, if the resignations are treated as unnecessary, the new appointments were a removal of the former incumbents. In either view the official life of the former Cabinet did not cease until the 8th November when their successors were appointed and assumed office. The fact that Mr. Creighton continued to attend to the duties of his office until his successor was appointed goes to show that he did not consider his resignation as then terminating his official appointment.

We therefore hold that the authority of Mr. Whiting to act as the deputy of the Attorney-General continued good until the successor of the Attorney-General was appointed, and his act in signing and presenting the indictment was valid.

We overrule the motion to quash the indictment. Attorney-General Brown for the Crown; C. W. Ashford for the defendants. Honolulu, December 23, 1892.
