THE ELECTRIC FRANCHISE.

What the Projectors Intend to Do for Honolulu.

STREETS THE CARS WILL TRAVERSE.

What the Road Will Be Capitalized at—Work on the System Will Be Commenced Within a Year After the Franchise is Granted to the Company.

At the meeting of the Councils on Thursday, an Act to grant a franchise for an electric railway in Honolulu was introduced. Following will be found the most important portions of the bill.

SECTION 1. James Dunsmuir, John H. Turner, Thomas B. Hall, Frank W. McCrady, Robert Menaugh, Clinton Graham Ballentyne, all of the City of Victoria, in the Province of British Columbia; William N. Armstrong and James B. Castle, of the City of Honolulu, in the Hawaiian Islands; and any other persons who may hereafter become associated with them, are hereby constituted a body corporate under the name of the "Honolulu Electric Railway and Power Company, Limited."

SECTION 3. The capital stock of the company shall be six hundred and twenty-five thousand dollars (of which one hundred and twenty-five thousand dollars shall be non-assessable), and shall be issued in such manner as the directors may determine. The liability of any shareholder of assessable stock shall be limited to the upaid portion, if any, of his or her shares in the capital stock of the company. The non-assessable stock may be issued by the directors for the compensation and profit of the undertakers and promoters of the objects for which the company is formed, and no stock in excess of the amount of the capital stock shall be issued without the consent of the Executive Council of the Republic of Hawaii, upon good reason shown therefor, and with the approval of a majority, in value, of the shareholders The stock may be issued as above provided, with a preferential or qualified right to dividends.

SECTION 12. The Company are hereby authorized and empowered to construct, complete, equip, maintain and operate a single or double track street railway, with all the necessary switches, side-tracks, turn-outs, poles, wires, uuderground wires, conduits and other requisite appliances in connection therewith, for the passage of cars, carriages and other vehicles adapted to the same upon and along the following streets in the city of Honolulu, and upon and along the road or roads adjacent to the said city: Commencing at the junction of Judd and Liliha streets, thence in a southwesterly direction along Liliha street to King street, thence along King street in a southerly direction to the bridge crossing the Nuuanu stream, thence diverging across the Nuuanu stream to the northwesterly end of Hotel street, thence southeasterly along Hotel street to Punchbowl street, thence to Young street through the intervening block bounded by Beretania and King streets, thence along Young street and through Thomas square to Keeaumoku street.

Commencing again at the intersection of Alapai and Young streets, thence northeasterly along Alapai street to Lunalilo street, thence along Lunalilo street to Pensacola street, thence northeasterly along Pensacola street to Wilder avenue, thence easterly along Wilder avenue to Beckwith street and along Beckwith street to Metcalf street; or in the alternative continuing easterly along Lunalilo street, from Pensacola street to Keeaumoku street, instead of Pensacola street to Wilder avenue and Wilder avenue to Keeaumoku street.

Commencing again at the intersection of Wilder avenue and Keeaumoku street, thence southerly along Keeaumoku street to King street, thence westerly along King street to Sheridan street, thence along Sheridan street to the Beach road.

Commencing again at the junction of Hotel and Union streets, thence along Union street to and across Beretania street to Emma street, thence along Emma street to Punchbowl street, thence northerly along Punchbowl street to a point near Pauoa stream or road, thence through the intervening land to Judd street or Nuuanu avenue, thence along Nuuanu avenue to the Pali; or in the alternative, commencing at the intersection of Alakea and Hotel streets, thence northeasterly along Alakea street to and across Beretania street to Emma street, thence along Emma street as aforesaid, instead of Union street as aforesaid; also in the alternative, School street from its junction with Emma street, to Nuuanu avenue and Nuuanu avenue to the Pali, instead of Punchbowl street and intervening lands to Judd street or Nuuanu avenue.

Commencing again at the junction of Bethel and Hotel streets, thence along Bethel street to Merchant street, thence southeasterly along Merchant street to Richard street, thence southwesterly along Richard street to Queen street, thence southeasterly along Queen street and intervening lands to the Beach road, thence along the Beach road and intervening lands to the Waikiki road, thence along the Waikiki road to Kapiolani park.

Commencing again at the intersection of Hotel and Richard streets, thence southwesterly along Richard street to the water front, and upon and along such other streets and roads as the said Company, with the consent and approval of the President and Council shall determine, and for that purpose to enter into and upon the said streets and roads, and to do all necessary excavations and alterations upon the said streets and roads, subject, however, to the approval and supervision of the Minister of the Interior, or other officer duly appointed for that purpose, as to the location of all tracks, poles and other works of said Company; and to take, and transport and carry passengers, freight express and mails upon the said railway, by the force of electricity, either by overhead wires, storage battery, or underground conduits, or by such other motive power, other than horse or steam power, as the said Company may from time to time deem expedient, and to construct and maintain all necessary works, buildings, appliances, and conveniences connected therewith.

SECTION 17. The Company shall have the right to buy, sell, manufacture electric motors, cars, locomotives, electric heaters and electrical appliances of all kinds and to be general dealers in electrical supplies and apparatus of any kind whatsoever.

SECTION 18. The said Company shall commence the construction of the said tracks or railway lines not later than one year from the date of the charter herein granted, and shall complete and have thoroughly equipped, and in running order, not less than fifteen miles of such track or railway within two years from the said date, and if the said Company shall fail to comply with the provisions herein made, in this regard, they shall forfeit the right to use and occupy any streets not at that time used or occupied by them unless an extension of the time herein specified shall be granted to them by the Executive Council; but delays owing to litigation, strikes or other cause for which the said Company is not responsible, after exercising due dilligence, shall not be included in the foregoing time limit.

SECTION 25. The style of rail to be employed by the said Company in constructing and laying down the several railway tracks shall be such as is used in the best modern practice in the United States of America, and subject to the approval of the said Minister of the Interior, or other officer appointed for that purpose, as to the manner of laying the said rails.

SECTION 30. Wires along which the trolleys run shall be at a distance of not less than fourteen feet above the street.

SECTION 31. The said company shall have the right, and it shall be lawful for them, to cross the track or tracks of any street or other railway in the city of Honolulu or Island of Oahu, and for that purpose to lay their rails across the track or tracks of such other railway, subject to the supervision and approval of the Minister of the Interior, or other officer appointed for that purpose, as to the manner of laying the said rails.

SECTION 32. The said company, in addition to the powers hereinbefore expressed, may lay, construct and operate a single line of street railway over and along any bridge on the line of said railway in the said city of Honolulu or Island of Oahu, the tracks of such railway on any bridge to be flush with the flooring of the same; provided, that the location of any such bridge line, and the work done therein, and the material provided therefor, shall be to the satisfaction of the Minister of the Interior or other officer duly appointed for that purpose.

SECTION 33. The company shall have the power to purchase, lease, take over or otherwise acquire, all or any part of the property, real and personal, rights, privileges and franchises, of any other electric railway or lighting, or power, or other electrical company or companies, or any company having objects altogether, or in part, similar to those of this company, and shall have, when the same are acquired, all the powers, privileges, rights and franchises of any such company or companies under its charter or act of incorporation, so that the same shall be held, exercised and enjoyed by the company as fully as if specially conferred hereby.

SECTION 34. The company may unite, amalgamate and consolidate the stock, property, business and franchises, may enter into working engagements with, or may enter into a lease of, or take and hold shares in, or the right to operate the works of, any other electric railway, or lighting, or power, or other electrical company or companies, or any company having objects altogether, or in part, similar to those of this company, or any company generating, using or supplying electricity for any purpose whatsoever.

SECTION 35 The said company may purchase, lease, hold or acquire and transfer any real or personal estate necessary for carrying on the operations of the company.

The ADVERTISER is delivered by carriers to any part of the city for 75 cents a month, in advance. Subscribe now and keep up with the new year. Ring up Telephone No. 88.

NOT VERY ENCOURAGING.

A Belief That the Buyers of the Wreck Will Lose Money.

The wreck of the German bark G. N. Wilcox was sold yesterday for $1175 to a company composed of J. F. Bowler, Fred Harrison, E. B. Thomas, John Galloway and others. The first bid offered was $100; it gradually climbed up until it was knocked down at the above figure, which is more than the Underwriters expected. The buyers of the wreck immediately chartered the steamer J. A. Cummins which left for the scene of the disaster late in the afternoon. Three surf boats and six extra men were taken along. The wreckers expect to commence work this morning, but it is generally considered that they will not be able to secure anything of value, and as a man expressed it yesterday, "they paid eleven hundred and seventy-five dollars for the wreck, and they will be lucky if they get back eleven dollars and seventy-five cents." Some additional information arrived yesterday by the schooner Haleakala, a vessel that left here on last Wednesday morning. Her destination was kept a profound secret and nothing was known of her voyage until yesterday morning. It seems that she was chartered by several local people who thought they would make a small fortune by taking possession of the vessel. The schooner left here about 9 o'clock in the morning and reached the Molokai coast about 9 o'clock in the evening, after the tug Eleu and the Iwalani left for Honolulu. Early the following morning the captain boarded the wreck and took possession of her. He secured some blocks and the forecastle bell. He then set sail for this port, after the arrival of the schooner Mile Morris, which was fastened to the wreck at last accounts.

The Wilcox has changed her position considerably since Wednesday night; she has nearly toppled over, with her masts towards the sea, and it is said that the waves roll over the entire length of the vessel. The captain of the Haleakala is of the opinion that nothing can be saved from the wreck.

There will probably be a legal battle over the possession of the wreck, as the people who chartered the Haleakala claim ownership, while Bowler, Harrison and company hold a bill of sale from the Underwriters. The J. A. Cummins will return to port on Sunday morning if nothing happens.

The law regarding wreckage requires that the sheriff shall take possession of wrecked property. This law is for the protection of the owners and underwriters. In the case of the G. N. Wilcox, lost on Molokai, the owners and underwriters took possession of her before the police were notified, so that no enforcement of the law was necessary.

WILL JOIN HANDS.

The Rival Telephone Companies Will Consolidate at an Early Day.

For about five years the two local telephone companies have been anxious to amalgamate, as a means of saving expenses, so the officials say, and it seems that they have agreed on a consolidation at last. The matter has been discussed for several weeks, and it is just possible that the companies will join hands within a week or so. There are several important points to be decided, and one is the appointment of a superintendent. The Mutual people want their man, L. A. Aungst, while the Bell Company is desirous that John Cassidy should be retained, if the companies amalgamate. Judge Widemann and C. O. Berger, two large stockholders in the Mutual Company, are absent at present, and it may be necessary to wait until their return before the matter will be settled. At any rate the change would not take effect until the first of the new year.

Those Mysterious Trunks

Rumor has it that there is a party now in Honolulu who is intimately connected with the Joselyn opium seizure, which caused so much comment a few weeks ago. He is said to have known Joselyn in Victoria, and came here shortly after that gentleman, and is now supposed to be watching the interests of those interested in the deal.

Keep your friends abroad posted on Hawaiian affairs by sending them copies of the HAWAIIAN GAZETTE, semi-weekly.

A NEW WAR ENGINE.

Could Destroy Paris in an Hour it is Claimed.

Paris is still engaged in talking and speculating about M. Turpin's invention of a deadly engine of war, capable of wiping out an entire army in a quarter of an hour or so. It will be remembered that a few days ago three Parisian journalists who followed M. Turpin to Brussels persuaded him to give up all the plans of his invention for the good of France, and returning to Paris lodged the documents in the War Office, greatly, it is said, to M. Dupuy's relief and satisfaction.

Until some official report is made on the subject M. Turpin's alleged invention will doubtless remain shrouded in mystery, but meanwhile speculation is rife. People are asking one another whether Turpin has really invented what he says he has, whether he actually intended to play the traitor, whether he is not himself woefully mistaken as to the value of his scheme, or whether the whole affair is not a gigantic attempt to extort money from the Government.

The Figaro publishes an important communication from M. Francis Laur on the subject of M. Turpin's invention. "It was in prison," says M. Laur, "that Turpin gave me a glimpse of the scheme on which he was working. He was sufficiently explicit. Between what I am going to describe and the perfected apparatus there is all the distance which separates a mere study from a completed plan, but I believe that my account contains all the principal points."

"I have," said Turpin, "applied to the cannon the principal of the mitrailleuse, with absolute automatic loading apparatus. The gunner is done away with, and the liquefied gas or other explosive is at once my motor and my ammunition. It is only a question of machinery, but the trouble is with the supplies. To take my weapon into action I want an immense quantity of ammunition, and that is why I need a steamer or a train to carry all at once.

"The railways would thus become a line of defense and a hostile force might be inclosed in them as in a polygon of iron. An army on the march would only have to put in its front one of my weapons, armored of course, to be able to advance whither it liked with impunity. It is a fan of fire, covering, if need be, a circle twelve kilometers in diameter and sweeping away everything before it."

Turpin's many-tubed cannon would, says M. Laur, discharge little shells only a few centimeters in diameter. He seems to have started from the idea of the revolver cannons, fixed on a pivot, which are used in the navy, but he has found the means of loading automatically and keeping up a continuous and all destroying fire. That is why he requires a steamer or train to carry tons of ammunition.

By methodically turning the gun every inch of a circle twelve kilometers in the diameter can be covered, and as each shell contains an explosive, it would on touching the ground burst and scatter destruction around it. Such a weapon placed on the Opera could destroy Paris in an hour.—New York Exchange.

Elected New Officers.

The International Schuetzen Club met last evening at the old armory. The resignations of Captain Klemme and several of his associates were accepted. New officers were then elected: President, Harry Klemme; Vice President, William Fetter; Secretary, Sam'l Decker; Treasurer, B. Finnemann.

Divorces in Italy.

The Albany Law Journal says the following are grounds for which divorces are said to have been granted by the Italian courts: For calling his wife's sister a thief; for beating his wife's pet dog; for constantly chewing tobacco; for cutting his wife's curls without her consent; for refusing to take his wife out for a walk; for refusing to sew on her husband's trouser buttons; for forcing his wife to sit up until after midnight; for the wife's staying in bed until noon; for refusing to let her husband go too near the kitchen fire on a cold day; for dragging her husband out of bed by the beard; for the wife strolling around town and shopping instead of attending to her domestic duties.

A DISAPPOINTED CROWD.

The Steamer Monowai Sighted, but She Failed to Appear.

The Monowai was sighted last night about 10 o'clock—that is, Charley, the look-out, thought it was; but it turned out that he mistook Commodore McGregor's liner for the big mail steamer. As soon as it was announced that the Monowai was sighted, the young man who manipulates the fish horn went about town and made a big noise, with the result that a large number of stevedores soon gathered on the wharf; in the meantime a number of local people tramped down town and waited patiently but she did not come. About 10:30 o'clock the Mokolii steamed into the harbor and then the wise heads decided that they had been sold, or rather they had been misinformed.

The Monowai is overdue; she should have reached here on Thursday.

GETTING READY FOR RUGBY.

Yale Football Players Now Practicing at Traver's Island.

NEW HAVEN (Conn.), Sept. 4.—Nine of the leading candidates for the Yale football eleven are with Captain Hinkey at Traver's island today. The doughty captain, who has been here giving instructions for the reception of the eleven on a new field here later in the season, is complacent at the outlook. He thinks there will be material in abundance, and in addition sees little cause for alarm in the knowledge that every individual member of the eleven will return to Yale another year. One important announcement has just reached the silent captain which he does not relish. It is the resolution of Armstrong, the tackle and half back of last season, not to play this season, owing to the pressure of other work. Even more, he is captain of the Yale Eight for the coming year, and he thinks football is out of the question. He realizes, too, that an injury on the football field might incapacitate him from oarsmanship next spring.

Captain Hinkey says that among the new candidates for the Yale team are some stars. One of the remarkable features of the coming campaign will be the struggle of four brothers to oust elder scions of the same family from a position on the eleven, which they have filled one season already. The players who will have to fight the brothers in practice are Greenway, McCrea, Hickok and Hinkey Young. Greenway and Hinkey are from Andover. The other "two younger brothers" are to be McCrea and Hickok, who, like their elder fraternal relatives, were members of the St. Paul fitting school at Concord, N. H., and who have played on two Yale football elevens.

For the positions of tackles there are but two of the candidates who ever donned a freshman uniform—Rogers and Hazen, of the crack Andover eleven of last season. Murphy and Beard, the Yale players of last year in that position, will have a lively chase to keep their places in the face of this opposition, the announcement of which caused even Harry Holcolm, a fine candidate for a place as tackle last year, to say that he should decline to practice this season.

Center Stillman, who has held the place for two years, must strike a fast gait and keep it to drive from the field Stanford, the runner and oarsman, who played center on the eleven three years ago, and behind the line two magnificent players will take the field in the persons of Hine and Letton of last year's Andover eleven. Hine is the Andover 100-yard dash man and will make a fine half back to take the place of Armstrong, and Letton will be remembered as having kicked a goal from the field against Harvard last year, the first time the crimson was scored against it during the year. The candidates will practice at Traver's Island till September 19th, when they will be reinforced by the linemen, and all will come to Yale field and the season will begin.

Music at the Square.

The following is the programme of the Hawaiian Band at Emma Square this afternoon at 4:30 o'clock:

1. Overture—"Joan of Arc".....Verdi
2. Waltz—"My Friend"..... Gassmer
3. Selection—"Lohengrin"....Wagner
4. Fantasia—"Musical Lyrics"..... (new).....Eilenberg
5. "Ten Minutes With the Minstrels (new).....Bowron
6. Schottische—"Pretty Women"..... Berger

"Hawaii Ponoi."

There were 20,015 newspapers published in America at the end of last year.

HONOLULU, H. I., Sept. 19, 1894.

MR. JOHN H. PATY, General Agent, MANHATTAN LIFE INSURANCE COMPANY, Honolulu, H. I.

DEAR SIR:—We hereby acknowledge through your Agency from the MANHATTAN LIFE INSURANCE COMPANY of New York, their prompt and satisfactory settlement of the Insurance on the life of JAMES K. KEKAULA (deceased), insured under Policy No. 65,771, dated October 7th, 1889.

In this settlement we have received not only the $3,000, the full amount of the policy, but also "dividend additions" amounting to $550.50, or equivalent to the *return of the entire premiums* paid on this Policy, making a total of $3,550.50. This settlement gives us a very kindly and friendly feeling towards the benefits accruing from Life Insurance as a protection and investment. It supplies immediate funds for the benefit of his Estate and Family. We thank your Company for its handsome settlement and cheerfully add our indorsement to the many others who have received substantial benefits from the Policies issued by the OLD MANHATTAN LIFE INSURACNE COMPANY of New York during the past twenty-five years, to the resident citizens of the Hawaiian Islands, through your Agency.

MRS. WAILUU KEKAULA,
JNO. K. KEKAULA, JR.

EDWARD TOWSE,
CARL BUSCHJAST,
3773-tf DAN LYONS.

HAWAIIAN HOP BEER.

The great cooling, health preserving, generous drink of the Islands, recommended by the medical profession. The late Lord Tennyson (Port Laureate) of England in "unpublished poems" thus pathetically and charmingly refers to Hop Beer, which His Lordship in preference to the port wine allowed his office from the Royal Table of Queen Victoria:

HOP BEER.

The poet he'll sing of babbling brooks,
And sparkling water clear;
The lady fair will sip champagne,
But give me good HOP BEER!

The Dutchman loves his Lager,
In it he has no fear;
The Englishman will quaff his bass,
But give me good HOP BEER!

The American his whiskey straight,
Will drink and not feel queer;
The Irishman his Pothcen loves,
But give me good HOP BEER!

The Scotchman revels in hot Scotch,
His "mountain dew" so dear;
The Hawaiian was content with swipes,
Till he tried good HOP BEER!

Then ring up Mutual 318,
And then you need not fear;
Your orders will be promptly met,
With the only temperance Beer!

☞ Head offices and stores: Hotel street, near Bethel. Delivered daily by our carts to any address in Honolulu, pints 50, quarts 80 per dozen. Mutual Telephone 318.

C. A. FOGARTY,

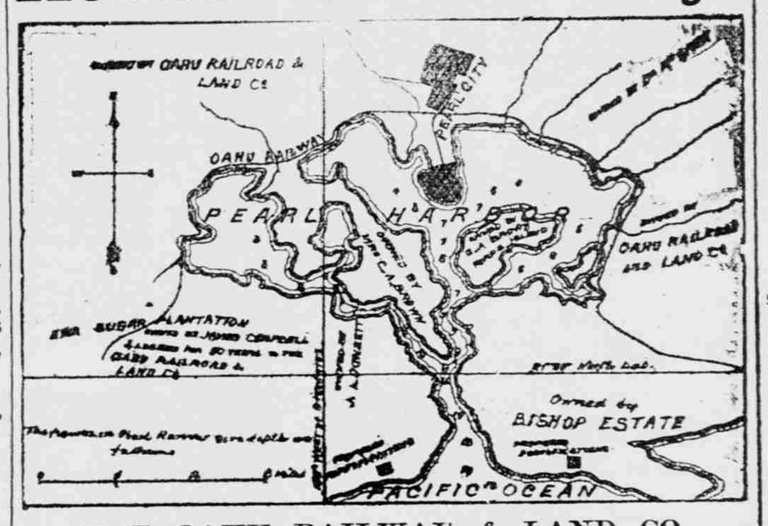
Homes at Pearl City!



THE OAHU RAILWAY & LAND CO.

Offer the Public Another Great Opportunity to Secure Homes in One of the Most Delightful Localities to be Found in the Paradise of the Pacific.

As a healthly resort—PearlCity has already established an enviable reputation. Many good citizens in this community have experienced the wonderful effect produced by a few days sojourn in that dry, cool atmosphere, and give grateful testimony to the relief they have almost instantly gained from severe and long continued attacks of asthma. Physicians acquainted with the climate of Pearl City recommend it as a natural sanitarium.

The Water Supply is Ample.

And can be increased to meet the needs of a population equal to the largest city in the world.

PROF. A. B. LYONS of Oahu College is our authority for stating that the water supply is the purest yet discovered in this country.

SPECIAL INDUCEMENTS TO EARLY SETTLERS!

For ninety days from date we will sell LOTS ON SPECIAL TERMS favorable to bona-fide settlers. For a term of three months from date, lumber and all building materials will be supplied, and delivered at Pearl City at much lower price than ever before obtained.

For further particulars, call at this office or on any of the lumber dealers in this city. Those who now own lots as well as those who propose to become residents of that growing city, will do well to embrace this opportunity. These who avail themselves of this offer, within the time named, will be entitled to, and will receive the following benefits:

For a term of ten years, this Company will carry such residents and their families from Pearl City to Honolulu in the morning [arriving a little before seven o'clock], and from Honolulu to Pearl City in the evening [leaving Honolulu station a little after five o'clock], for ten cents each way, a rate less than one cent per mile. The rates on all other passenger trains running during the day or night will be 1½ cents per mile first class, and 1 cent per mile second class.

A good school is about to be opened in the Peninsula, in the fine, large, new school-house erected by Mr. J. T. Waterhouse. Residents living at Pearl City heights, [above Pearl City station] and those having homes on the Peninsula, will be allowed to ride free on regular trains between Pearl City stations to and from the Peninsula.

Those who want to continue to send their children to schools in Honolulu, can have transportation on all regular trains to and from Pearl City, for the purpose of attending school at five cents each way for each pupil. This is equal to 24 to 26 miles ride for ten cents.

Equal inducements for those desiring to secure homes in this country have never before been offered to the public.

This Company has been requested from abroad to name the price of all their unsold land in that locality.

Should a clearance sale be made to a syndicate, no opportunity like the present would again occur for the purchase of homes at Pearl City.

"A word to the wise is sufficient."

SOMETHING MORE ABOUT SODA WATER.

The First Requisite in Making Soda Water is Pure Water.

HOLLISTER & COMPANY'S FACTORY was the only one in Honolulu that made use of the most improved method of purification—the Hyatt System—that removes all animal and vegetable matter, even *microbes*, and this is the kind of water we use in *our* Factory for *our* customers.

As for the Gas,

it is immaterial whether it is obtained from chalk, marble, whiting, marl or bi-carbonate of soda, the gas will be identical in either case.

Bi-carbonate of soda has been used exclusively by HOLLISTER & COMPANY for over 26 years, and the TAHITI LEMONADE WORKS since its foundation, because

It is Cheaper

than any of the other sources, and easier to handle. But the gas must be cleansed before mixing with the water.

In generating the gas, the material is sometimes carried over with the gas and must be thoroughly eliminated. Most Soda Water manufacturers are satisfied by running the gas through one purifier. We are not. We run it through three. In using any one of the lime carbonates it would do no harm to any one if some did slop over as they are all insoluble and can be seen in the glass; but with bi-carbonate of soda it is different, because the bi-carbonate is converted into sulphate of soda (Glauber Salts) a very good *horse* medicine, but not very agreeable to have in a glass of Soda, and which is soluable and therefore cannot be detected by the eye.

We do not dispense Soda Water ourselves, but furnish the pure Soda Water to every fountain in Honolulu but *one*, and we guarantee the Soda Water to be pure.

Each dispenser of soda will use the kind of syrup that suits his trade, but this has nothing to do with the purity and wholesomeness of Soda Water.

W. N. ARMSTRONG, : : EDITOR.

SATURDAY, : SEPTEMBER 22, 1894.

THERE is no trouble whatever in obtaining native jurors, in Honolulu, who will take the oath and serve under the Republic. They may, or may not, be sincere about it. On the whole, it indicates that which we have always believed—the general indifference of the natives to the political situation.

MR. MARSDEN'S REPORT.

The report of Mr. Joseph Marsden, the Commissioner of Agriculture, to the Minister of the Interior is, in many respects, the most important document issued by the Government during this year, because it contains subjects which touch the life of the land. It was one of the unpardonable crimes of the monarchy that it paid no attention to the development of small agricultural industries, through which natives with little or no capital could make a decent living. Nor did it establish agricultural schools, for the education of the native boys, so that they could master the rudiments of horticulture. The monarchy erected a palace, costing over $300,000, but it could not find a way of establishing simple industrial schools, which would enable the natives to fight their losing battle against the industrious white man. Besides, the white men exclusively went into sugar cultivation, which involved capital, and let everything else alone.

Now, Mr. Marsden, with great intelligence, and with an enthusiasm which has no limit, is doing that which should have been done many years before. He is testing the value of many trees, grasses, fruits and grains, and, also, the capacity and value of soils. It is strange, indeed, that the early teachers of the natives did not see the value of the physical environments of man, in his moral development. But in the early days it was not considered, and the native was left to his old ways.

Mr. Marsden is a true missionary, and has a great and attractive field of labor before him. If he succeeds in introducing one new industry of general value, it will put him well ahead in the list of Hawaiian benefactors.

FREE SPEECH.

The question is often asked, at the ADVERTISER office, "Why do you notice the Opposition press? It only makes them important." The ADVERTISER, as a journal of events, must keep a record of what men are doing and thinking about, in these changable times. People look to the papers for the news of the day. The loss of a yellow dog, or the giving of a luau, or the running away of a horse, or the beating of a wife, or the serious views of the Opposition press, may be very trifling matters, but this makes up the humble tale of life. Many little, almost insignificant events, are the small rills which gather together, and make up the stream of history. Besides, there is a very rich vein of humor in the Opposition press, and our readers should enjoy it.

All the Opposition papers, and all are published by men who are not pure natives, are rather tempestuous over the simple and innocent statement of the ADVERTISER—that the only paper published in the native language, and edited by a pure native, is loyal to the Republic. The Ka Leo, at once, calls the pure native, who edits that paper, a monkey, that has been "captured and taught to do tricks and dance." Mr. Bush really does not mean to call the natives monkeys, from whom one has been captured and trained to do tricks. But, then, he is not a pure native himself.

The Holomua (foreign editor) joyfully unites with the Ka Leo in a frantic condemnation of the editor of the ADVERTISER for being happy and wicked, while travelling with King Kalakaua in France. It seems to regard a visit to the Cafe Chantant as a much greater crime than the upsetting of the monarchy, just as the old darkey felt that the stealing of his chickens was a crime worse than murder.

It hopes "that it has done untold harm to the Republic," and then cordially and pathetically invites the Government to enforce the sedition laws against its editor.

Prisoner (to the judge who has just given him ten days for vagrancy): "Say, judge, if I calls yer a bloody thief, will you put ten days more on me? It's mighty cold weather and I likes the luxooray and free vittles of the penitentury."

Judge: "No, prisoner, governments are not in the business of providing free board for tramps. Mr. Clerk, take five days off that sentence. I'm not going to soothe the feelings of the criminal classes."

The Government will find, we presume, that there is less trouble with the Holomua in full blast than in locking its editor up, where he may corrupt the morals of the prisoners. Something is due to them.

CHURCH SERVICES.

ST. ANDREW'S CATHEDRAL.

The services of the Cathedral Congregation of St. Andrew's Cathedral for tomorrow are as follows: 6:30 A.M., Holy Communion; 11 A.M., Holy Communion and sermon; 7:30 P.M., evensong and sermon.

SECOND CONGREGATION.

The services of the Second Congregation of St. Andrew's Cathedral tomorrow (Sunday) will be as follows: 9:45 A.M., morning prayer, with sermon; Venite, Stainer in F; Te Deum, Buck in B; Benedictus, Turner in A; hymns 178 and 220; anthem, "God is a Spirit," by Bennett. 6:30 P.M., evensong with sermon; Magnificat, Walmesley, in G; Nunc Dimittis, Crutch, in A; anthem, "Blessed are the Merciful," by Hiles; hymns 183 and 22. Rev. Alex. Mackintosh, pastor. All are cordially invited.

CENTRAL UNION CHURCH.

Sunday, September 23. — Rev. Robert G. Hutchins, D.D., will preach at 11 a.m. and at 7:30 p.m. Morning topic, "Is prayer a force in the universe of God?" Evening topic, "Recreant children of righteous parents."

All are cordially invited to attend.

Sunday School at 9:45 A.M.

Y. M. C. A. SERVICES.

Sunday, 11 A.M., at Oahu Jail; 1:15 P.M., at the Barracks; 3:30 P.M., Bible study at Y. M. C. A.; 6:30 P.M., Gospel praise service at Y. M. C. A.

LATTER DAY SAINTS.

Reorganized Church of Jesus Christ of Latter Day Saints; Mililani Hall, rear of Opera House. Services will be held on Sunday as follows: 10 A.M., Bible class; 11:15 A.M. and 6:30 P.M., preaching.

CHRISTIAN MISSION.

Meetings at Harmony Hall on King street, between Fort and Alakea streets.

Preaching by T. D. Garvin at 11 A.M. and 7:30 P.M.

Morning theme: "God calling the assemblies." Evening theme: "The missions of John the baptizer and Christ the healer."

Bible class at 10 A.M.

All are invited to attend. Seats free.

The ordinance of Christian baptism will be administered at 3:30 p. m.

An electric plant is to be put in at the canyon of the Santa Anna River, near Rodands, Cal., which will furnish light and power to cities and towns within a radius of fifty miles. It will also supply the power for several trolley lines connecting neighboring towns.

What will prove to be the most useful industrial development is the application of electricity to the cleansing and preservation of boilers. The method employed is the sending of electric currents periodically through the shells of the boiler. By this means the scale formed on the shell and tubes is disintegrated and easily removed.

Lagar beer was so named because, in order to ripen, it was allowed to lie in a lager or cellar.

☞A full list of articles to be seen at my Auction Room, Queen street.

TERMS CASH IN U. S. GOLD COIN.

Jas. F. Morgan,

3787-2t AUCTIONEER.

September 18, 1894.

If the wet season has begun and will continue until about the time it usually ends the result will be marvelously beneficial to the sugar planters. Last year in Hamakua there was but six inches of rain in six months; this year it starts in a little better. The ground has been dampened and the prospects a few days ago were favorable. If there is one section of the country that needs rain Hamakua is the one. There are some fine plantations in the district and in the days when the conditions were favorable and the rainfall all that could be desired they paid their owners handsomely. Nowadays the rain comes from the Northeast, salutes the landsman and then goes on to Hilo.

Forests are known to attract the rain clouds and Hamakua was once blessed with an abundance of trees. A few years ago the people began cutting down the timber and before they were stopped there was scarcely enough left to supply lumber for a cabin. The suffering through this falls not alone upon the plantation: the residents in the villages must go with a short supply for toilet purposes and their clothing has to be sent to Honolulu to be laundried. We remember that less than a year ago the fortunate owner of a well was dispensing the water at five cents a gallon.

Honokaa is a nice little place and the residents are progressive enough to be up with the times; they want water but they have not yet hit upon a plan for getting it. We have canvassed the situation quite thoroughly and know that the water from the spring at the gulch near the landing can be forced to the village by simply using a series of Aermotors. These would not only pump as great a supply as a steam engine but it would do it at a very little cost either for the plant in the beginning or in maintaining it afterward. The Aermotor consumes no fuel, just a little free air and the water flows like—water. The 16 foot Aermotor, either pumping or geared is in use in several public and private institutions, as well as on plantations and it has always given satisfaction. The only power used by the Water Works Co., of Waimea, Kauai, is a 16 foot Aermotor. The promotors of the scheme have no trouble in collecting their water rates because they give the consumers an abundance of water. There are plenty of villages on the islands that could be supplied in the same way and as long as the well or stream lasted there would be no danger of running short. We don't get the statements we make regarding the wonderful possibilities of the Aermotor from our imagination; we have demonstrated in many different places that the galvanized Steel Aermotor will do all that is advertised for it and more than can be done by any wooden mill of larger diameter. The Steel Aermotor has other advantages over wooden mills; being lighter it will run in less wind; being constructed of galvanized steel it will not rot away and cause the bolts to drop out. The Aermotor is galvanized after it is put together so that there is no part unprotected.

Another advantage is in the fact that we have every size Aermotor and pump in stock and we can deliver them on thirty minutes notice. Can you get these advantages with other windmills.

WOMAN'S WORLD IN PARAGRAPHS.

The Tea and Pie Complexion—What Tea Wrinkles Are.

A complexion specialist was lately praising his preparation. "It will take out tea wrinkles," he said. "What are tea wrinkles, pray?" asked the young lady to whom he said this. "Did you ever notice the lines and corrugations that cross the faces up and down and in every direction of women who are great tea topers?" he asked in return. "Strong tea has a ruinous effect on the skin, especially the tea that the old soakers take, a decoction which is boiled and allowed to stand hour after hour and be warmed over. The tannin in it oozes out and spreads like a pigment under the skin, tanning it literally like leather. The astringent quality of the tannin also draws the skin into furrows. I know one of these inveterate tea drinking women the moment I set eyes on her sallow, shriveled face." The specialist ought to have added pie eating to tea drinking as a means of ruining the skin. Wherever you see a woman whose face is almost greenish in its sallowness, clouded over with dark patchs and pinched into puckers like a joint of corrugated stovepipe, you may set her down as a case of tea and pie complexion. A lady whom I know entered a shop not long since and was waited on by a woman with just such a complexion. She said to herself, "I will wager anything that woman eats loads of pie." Sure enough, while she was still there, the baker delivered to the woman a huge pie, one of your regular grindstone sort, with hog's lard and poor white flour crust. A civilized person would not have eaten the thing for $10, yet doubtless the woman and her unfortunate family made a good share of their next meal off it and washed it down with boiled or warmed over tea. If it were the complexion only that suffered from tea drinking, it would not be so bad. But tea makes others than those who are addicted to it suffer too. The tea drinking habit is responsible for much of woman's irritable temper, tempestuous gushiness of emotion and lack of control of her nerves.

The young men students at Cornell university are inclined to sneer at the young women students there, it is said, and look on the girls as beneath them socially. This need not surprise anybody. The average young man in the gosling age, from 18 to 25, has only distorted and unjust ideas of women. There is a particular reason why the youths at Cornell should feel a little ugly toward the girl students just now. One of these strong, fine girls, Miss Harriet Chedie Connor, has won from the whole lot of them the $100 Woodford gold medal for oratory. This is given annually to the best speaker among the Cornell students. When the Cornell boys become men, they will realize the injustice and cruelty of their conduct.

The middle aged man, who knows woman best, is the one who is most just and kindly to them generally.

I hope several fine, intellectual women students will take advantage of the opening to our sex of the new school of biology connected with the University of Pennsylvania.

According to an interview in the New York Evening Sun, the ladies the summer hotel proprietor wants at his establishment are the silly women who burn gas all night, wear loads of clothes and order up quantities of drinks. These are liked because the hotel proprietor makes money out of them. The money is made out of "extras" that are charged. Do people go to summer hotels for the benefit of the hotel proprietor?

"Civilization is the power of good women," says Emerson. Women are nearly all good; therefore women should take part in all the affairs of civilized life, politics particularly.

The New York World has a column devoted to instructing women in current politics. The great questions of the day—silver, the tariff, the Sugar trust, the income tax and other matters—are taken up and explained in a manner so simple that all may understand them. The papers are eminently readable, too, showing that the driest subjects may be made interesting. Women will be glad to know that the author of these papers is a woman, a young woman at that—Lida Rose McCabe.

Women ought to learn landscape gardening.

Nothing has been more pleasant reading lately than an editorial in The Household Realm. Alice Webster is editor and manager, owner as well, it seems, of the paper. She narrates its history in the editorial. She established it herself in 1886 with money she had earned as a printer. She bought out a small printing plant and started The Realm. For the first year she did all the work on it—typesetting, editing and bookkeeping. At the end of three months she had 1,300 paid subscribers, and from that day to this the paper has prospered steadily. Within five years she moved her office three times through need of larger quarters. The paper has been enlarged and a neat cover put on. It is owned by women, edited by women, and the mechanical work on it is done by women. The success of the publication shows, in fact, that there is a great amount of business talent among women, needing only development.

Can anybody tell the reason why a principal of a girl's public high school must always be a man?

One of the best indications of what women will do in politics is shown in the "campaign for good government" which the ladies of Colorado are making. It is wholly nonpartisan and was organized by the Colorado Equal Suffrage association. Its object is to awaken the women of the state to see that only able and devotedly patriotic candidates are put in nomination for the offices, state and municipal, in Colorado this fall. Another object will be to bring out the strength of the newly enfranchised women voters at the primaries as well as at the polls. ELIZA ARCHARD CONNER.

Almost Blind

Inflamed Eyes and Running Sores

The Success of Hood's Causes Great Rejoicing—A Perfect Cure.

Miss Cora B. Ebert
Barnesville, Pa.

"C. I. Hood & Co., Lowell, Mass.:
"I feel it a duty to state what Hood's Sarsaparilla has done for me. I was almost blind, being compelled to stay in a darkened room on account of inflammation of the eyes. I also suffered with running sores on my body. I was in terrible condition. My mother tried every thing she knew about and I was attended by two doctors but without helping me. Finally Hood's Sarsaparilla was recommended and I had not taken two bottles before I began to get better. The inflammation left my eyes and the sores healed, and the result was that

I Became Stronger,

and was restored to perfect health. At that time I was only twelve years old; now I am nineteen and I have not since been troubled with my eyes or noticed any sign of a return of the sores on my body. I can recommend Hood's Sarsaparilla as an excellent blood purifying medicine." MISS CORA EBERT, Barnesville, Pa.

Ladies' Column.

"Whene'er I take my walks abroad how many poor I see."

Dr. Watts was the author of many hymns, but the learned and revered versifier was never in truer tune than when he wrote the lines we quote. He saw the class he described, just as they are seen now, and many of the causes which in those days created poor people, operates in exactly the same manner today—the greatest cause was undoubtedly INJUDICIOUS BUYING, mad waste of money in pursuit of the will o' the wisps of trade, neglect of opportunities, not taking advantage of a QUICK SALES and SMALL PROFIT system. Goods sold on that basis mean a positive saving to you. There is no denying this, and no one ever was made poor by economy.

We hardly know when to commenee when it gets to mentioning goods.—Our stock is so full of new goods. Our White Linen and White and Colored Cotton Ducks are well worth mention.

We also have some lovely patterns of Cotton Crepes in Morning and Evening Shades. These Crepes are new goods and will please you.

Also a full line of Furniture Covering. We want you to look at them, SILK PORTIERES, CHENILLE PORTIERES, and as for RUGS we have almost any kind you want.

☞Next week WOOLEN GOODS will be heard from.

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS.

The attention of Planters and Agents is called to the following letter from Mr. JOHN A. SCOTT, Manager of the Hilo Sugar Co., regarding the working of the National Cane Shredder, which he has just introduced into the Mill of that Company:

WAINAKU, HILO, HAWAII,
January 22d, 1894.

HON. WM. G. IRWIN, HONOLULU, H. I.

DEAR SIR:—In reply to yours of the 16th inst. regarding the National Cane Shredder furnished by the Universal Mill Co. of New York, and erected by the Hilo Sugar Co. this past season,

I would beg to say, that it has now been in operation day and night during the past three weeks working on plant cane, and also hard ratoons, and it is giving me the greatest satisfaction. The more I see of its capabilities, the better pleased I am that I put it in, as I am satisfied that it will repay the original outlay in a short time, in saving of labor, higher extraction, etc.

It is shredding from 350 to 400 tons of cane every 22 hours with the greatest ease, and it could shred a much larger quantity if necessary. It delivers the shredded cane in an even uniform feed to the three roller mill, which receives it without the intervention of any labor, and as the cane is thoroughly shredded or disintegrated it relieves the mill of a great deal of strain, thus reducing the liability of broken shafts, gearing, etc.

There is a saving of four (4) men daily on the mill, as only one man is required to regulate the amount of cane delivered by the carrier to the shredder. It has increased the extraction from 4 to 5 per cent.

The economical use of steam is generally a serious consideration in adding new machinery, as in most mills the boiler power is taxed to its highest limit, as it was in this mill, and any increased demand necessitated an additional boiler. But I find that the shredder and the three roll mill engines combined use no more steam than the three roll mill engine did when working on whole cane, while doing better work and more of it, and owing to the uniform feed on the mill, the engine demands very little attention.

The Megass from the shredded cane makes superior fuel, and the fires require less difficulty in maintaining a uniform pressure of steam than formerly.

I will be pleased to have a call from parties interested, as it is necessary to see the machine at work to fully appreciate its capabilities.

I remain, very truly yours,
(Sig.) JOHN A. SCOTT,
Manager Hilo Sugar Co.

☞Plans for erection of these shredders may be seen at the office of the Agents, where prices and other particulars may also be obtained.

OUR MINISTER TO CHINA.

Has Held the Office Nine Years and Is Experienced In Diplomacy.

Hon. Charles Denby, United States minister to China, believes the Celestials will score a knockout in the war with Japan, and that, although the battle may last a great number of rounds, China's immense resources and staying powers will give her the victory in the end. Mr. Denby was on leave in this country when the war began, but he is now hastening back to his post at Peking, which he expects to reach about Nov. 1. During his absence his son, Charles Denby, Jr., is charge d'affaires as secretary of the legation.

CHARLES DENBY.

Minister Denby, who is now a citizen of Evansville, Ind., was born in Botetourt county, Va., about 68 years ago. He was educated at Georgetown college and was such a good student that he captured three medals for the merit of his work. His education was finished at the Virginia military institute, and in 1853 he followed Greeley's advice and went west to grow up with the country. He located in Evansville, where he wrote for a newspaper and studied law. He was admitted to the bar and dabbled in politics with such success that he was sent to the legislature. In 1858 he married a daughter of ex-United States Senator Fitch of Indiana and was surveyor of the port of Evansville under President Buchanan.

When the civil war began, Mr. Denby entered the Union army and made a gallant record in the field. He was lieutenant colonel of the Forty-second regiment, Indiana volunteers, and colonel of the Eighteenth regiment and was twice wounded while in the thick of the fight. He left the service in 1863 and resumed the practice of his profession. After over 20 years of work at the bar, in 1885 he was appointed minister to China, a post he has held ever since, although ex-United States Senator Henry W. Blair was appointed as his successor by President Harrison. China, however, politely informed the United States that, owing to his anti-Chinese legislative record, Mr. Blair would be considered non persona grata in the Celestial Kingdom, and consequently Minister Denby remained at his post.

WILL BE QUEEN OF TRINIDAD.

How an American Girl Married a Baron Who Aspires to Kingship.

One of the numerous ambitious American girls who angle for the lords and barons of the monarchies of the effete east has married a prospective king and will be queen of the new kingdom of Trinidad. To be sure, the island she is

BARONESS HARDEN HICKEY.

to assist in ruling over "has neither goats nor hogs nor any people," but the people and the pork will come later, and as for the goats—the winds of Trinidad will doubtless get on very well without bewhiskered billys.

The name of the prospective queen of Trinidad was Miss Anna Flagler before she became the wife of Baron Harden Hickey, who is to be James I of Trinidad, and she is the daughter of John H. Flagler, the Standard Oil magnate. Trinidad is about 23 miles long and 3 miles wide. It is rocky and mountainous, but has a fertile soil, and despite the fact that it was taken possession of in the name of Great Britain by Dr. Halley, the explorer, in 1700 no one seems to care for it except Baron Harden Hickey.

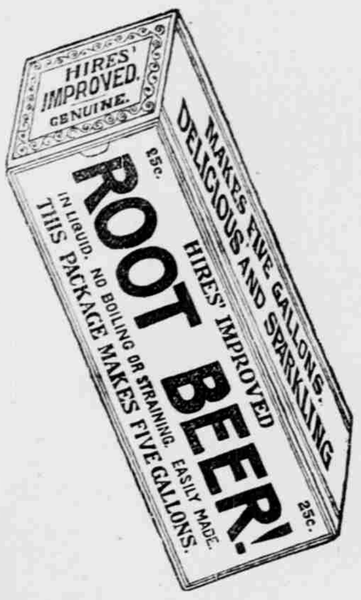
The island is about 700 miles off the coast of Brazil and should not be confounded with the Trinidad near Caracas, Venezuela. It has no good harbor and may only be approached by shipping when the sea is calm. The shores are thronged with huge turtles, many of which weigh 700 pounds, and the sea is full of palatable fish.

Baron Harden Hickey is 40 years old, was born in France, although his ancestors, the Hickeys, originally came from Ireland. He was educated at the college of the Jesuits at Namur, and afterward at Leipsic, where he became well known as a duelist who would fight at the drop of the hat. In 1873 he devoted himself to sculpture and literature, and later founded a royalist paper in Paris which involved him in a dozen duels, for which he paid government fines aggregating 300,000 francs. He then took a long sailing voyage, was cast upon Trinidad, became a Buddhist in India and married Miss Flagler of New York in 1891. The baron will people the island with subjects chosen by himself and will be monarch of all he surveys, providing Queen Victoria does not call a halt on the seizure of her territory.

More than half the street railway mileage in the United States is now operated by electric power.

England has 36,000 physicians.

"If It's Hires' It's Good."



When folks drink more Hires' Rootbeer than all other rootbeers combined, there must be something in Hires', and there is—delicious flavor and public confidence.

Undoubtedly the reason of the popularity of Hires' Rootbeer is, because it surpasses all other preparations for making a delightful home-beverage. It is very easily prepared, and if the plain directions are followed, it will always be good. Every member of the family, from the baby to the grandfather, can enjoy this excellent summer drink. Children especially delight in Hires' Rootbeer. Its preparation interests them, and its use does them good. In thousands of homes, "Hires' Rootbeer that mother made," will be among the happiest recollections of childhood.

What others say will carry conviction:

A DOCTOR IS SURPRISED WITH THE RESULTS.

"About three months ago I bought a package of your Rootbeer, and after making it according to directions, I found it a very delicious beverage. Not only this, but I was so much pleased with it that I gave it to some of my patients, and was much surprised with the result. I have now used about 12 dozen. Dr. M. A. Somers, Plano, Ill."

SAYS ITS GOOD FOR DYSPEPSIA.

"I find great relief in drinking your Rootbeer, as I have been troubled with dyspepsia, and should feel very sorry if I could not keep myself supplied with it. I drink it when it is fermented. R. F. Scott, 2519 Meredith st., Philadelphia."

NEVER FOUND ITS EQUAL.

"I have used your Rootbeer for seven years, and have found it a superior article. I have sampled other rootbeer, but have never found any to equal Hires'. I have so much faith in it that I have persuaded ten different families to use it. Mrs. R. Stevenson, 1027 Lincoln Ave., Chicago."

This is typical weather for rootbeer drinking. Drink all the other beverages and you will die of disappointment if you don't try Hires'.

Just sample some once when rightly made, and we know the result—you will endorse Hires'.

It is doing more to advance practical temperance than many people realize. It is used and recommended by the most cautious and conservative temperance people. The most scrupulous abstainer can enjoy it and recommend it to others as an agreeable and healthful substitute for the strong drink which he opposes.

Storekeepers will find Hires' the only Rootbeer extract that has a good sale and can be recommended to their patrons. We give elegant pictorial advertising matter with each order. Liberal discount to the trade.

Electric Lights for 21 Cts. a Month.

Honolulu uses the electric current for lighting purposes more generally than do most American cities of its population. The reasons are found partially in the climate conditions which urge the adoption of a light unaccompanied by heat or an offensive odor. Furthermore, no gas company has found our city an inviting field for investment chiefly because of its scattered condition and the consequent large cost of reaching consumers; and electricity has thus met no competitor except the original oil lamp and the tallow candle. A third cause we believe to be largely the fact that when electric lighting was first introduced by the Government, it was offered to consumers on a basis of rates, which in many cases of commercial lighting and especially for night lighting, considerably discounted the cost of oil for the same amount of illumination. The demand thus created soon reached the limit of that Government supply.

Today the Hawaiian Electric Company possesses working capacity equal to more than three times the present combined incandescent output of the Government service together with our own.

We offer lighting at the Government flat rates as follows:

Stores and offices per 16 c. p. light per month $1.00

Residences per 16 c. p. light per month—to 5 lights 90cts.

Residences per 16 c. p. light per month—excess of 5 lights 60cts.

We do much better than this for our consumers. We place lights in every nook and corner of your premises if you wish, measure the light you use, and charge for actual consumption only. You use light when and where you need it and you don't forget to shut it off when that need is satisfied, nor do you feel bound to keep the lights going from dusk till dawn in order to secure the value of a stipulated bill. We in turn know exactly what we have delivered to you and can figure with certainty upon a definite and rock bottom basis.

The cost of a 16 c. p. light per hour is 1¼ to 1½ cents, varying with the efficiency of the lamp.

The probable cost to you per month is clearly indicated by the following analysis of total charges made for residence lighting during June. Average number of lights per consumer, June 30, 22; average amount paid for month's lighting per consumer $4 54; average cost per light for the month 21cts. In view of these prices and the positive advantages of safety, convenience, simplicity and comfort, you can ill afford to use candles or oil. We furnish fittings and wiring of only the best grades and for obvious advantages at the lowest reasonable figures.

16 c. p. lamps reduced from $8 to $6 a dozen.

Call at our office foot of Alakea St., o r particulars or ring up 390.

ACCURATE! | THE Hawaiian Revolution. | IMPARTIAL! | THE Hawaiian Revolution. | BREEZY!

DEDICATED BY SPECIAL PERMISSION

—TO THE—

Provisional -:- Government

The Crisp photo process, by which "The History" will be illustrated, is acquiring a well-merited reputation for excellence, the productions being artistic trimuphs.

An instantaneous success ! ! ! The project received by the business men of Honolulu in a most enthusiastic manner.

Art connoisseurs warm in its praise. "An artistic gem of the purest ray serene" TO BE PUBLISHED IN 1894.

The historians have commenced with the frame-work of the construction, setting forth the remote causes of events and the motives of human action; and follow up their connection with other developments, and present the whole in a finished exterior of hich literary worth. The foundation principles of government, the predominant sentiments swaying human minds at different epochs, the physical condition of different parts of the land, the nature of different influences brought to bear upon the people, have all been closely studied, and the effects philosophically traced. Accuracy of statement, soundness of reasoning, clear presentation, and high literary merit will be the commanding aspect of this ambitious effort. It will be published in an attractive form containing over 200 pages,—fully illustrated, supplied with many maps and plans, containing tables of useful information and a complete index, it comprises all the accompaniments necessary to complete a work of its character.

SYNOPSIS:

Chapter 1—Prof. Alexander's History of King Kalakaua's Reign.

Chapter 2—Prof. Alexander's History of Liliuokalani's Reign.

Chapter 3—A Brief Account of the Revolution of 1893.

Chapter 4—A Brief Account of the Provisional Government to date.

Chapter 5—Minister Willis' Letters to President Dole to abdicate.

Chapter 6—President Dole's Reply.

Chapter 7—Willis and Dole's Correspondence.

Chapter 8—Minister Thurston's Protest issued at Washington.

Chapter 9—Minister Thurston's Statement of the Hawaiian Case.

Chapter 10—President Dole's Specifications.

Chapter 11—Morgan's Report to the Senate.

Chapter 12—The Senate's Action on Hawaiian Affairs.

The publishers have the honor to announce that arrangments are being made for the insertion of the following Bodies:

A photograph of the wreck of the G. N. Wilcox is on exhibition at the Hawaiian News Company. It attracts a great deal of attention.

W. M. Cunningham will sue the alleged conspirators for $20,000 damages. The famous conspiracy case has gone over until next week.

The sale of seats for the Dailey Stock Company will open on Monday morning at L. J. Levey's. The Two Orphans will be the opening bill.

An underwriters' sale of effects, recovered from the bark G. N. Wilcox, will be held at the mail wharf on next Monday morning at 10 o'clock.

C. A. Fogarty, a hop beer man, has been arrested on a charge of embezzlement. The defendant is charged with juggling with the firm's books.

A social was tendered Miss Richards last night at the residence of Chief Justice Judd. Miss Richards was recently elected president of the Christian Endeavor Society.

There is more water in the Nuuanu reservoirs at present than there has been for the past five months. The rainfall on Thursday night added materially to the supply.

The American Union Party will meet this evening to formulate plans for the approaching election. It is expected that delegates will be named who will make the nominations.

A free Temperance Concert will be given this evening, under the auspices of the Y. M. C. A. Messrs. Mackford, Whitney, Dr. Hutchins and Mrs. J. T. Lewis will take part in the programme.

C. J. Wall, an Inter-Island engineer, leaves for San Francisco on the Monowai to join the new steamer for the Inter-Island Company. His place on the Hall has been taken by L. Wesner.

E. Bedford Thomas, royalist, fell off a street car yesterday and broke his pledge; he immediately started out to do up employees of the Government, and, at last accounts, he was chasing a Custom-house officer around Brewer's wharf.

Several sugar companies will hold meetings on Monday to make reports to the different stockholders. It is understood that most of the plantations made money last season, notwithstanding the now defunct McKinley bill.

A. W. Van Valkenburg and Miss Mamie Paty were married yesterday morning at the home of the bride's parents. The ceremony was performed by Rev. H. H. Parker. The newly-wedded couple left for Wailuku on the steamer W. G. Hall.

The members of Geo. W. de Long Post, G. A. R., will hold a camp fire this evening at Independence Park. The feast will commence at 7:30 o'clock. Visiting Veterans are invited to be present. Smith's 'buses will be in waiting, so people will not have to hurry away.

LOCAL BREVITIES.

The Kinau will be in this morning from Hawaii.

The Hyacinth is expected to return to port this morning.

J. S. Walker and H. Holmes have a notice in this issue.

Charles L. Carter is expected home on the Warrimoo, due here on next Monday.

C. Metts, of Bishop's bank, left on the steamer J. A. Cummins last night to see the wreck.

E. R. Hendry, the manager of the Hawaiian Hardware Company, left for Hawaii yesterday on a business trip.

The bark S. C. Allen will leave for San Francisco on next Wednesday. This vessel has superior passenger accommodations.

Theo. Severin, a Custom House officer, left on the Cummins yesterday to ascertain just what the wreckers obtain from the bark.

Ah Gim, a chicken fancier, was brought up with a round turn yesterday by Detective Larsen. He is accused of stealing a fowl belonging to Charles Lind.

Henry Holmes was elected assignee of the bankrupt estate of M. R. Colburn yesterday. Twenty-seven creditors proved claims amounting in all to $4150.32.

Thomas Lindsay, a prominent Forester, has been presented with a handsome medal by his fellow members of the order. Mr. Lindsay has been a Forester for a quarter of a century.

A SONG TO BAILEY

THE WOVEN WIRE MAN!

Give me a Campbell's fire a Petriach's grace,
Still vain the task thy matchless charms to trace;
When poets have passed away, and heroes all are dead,
The clarion note will ring "Bless Bailey's Woven Bed!"

Our cherished darling sleeps, her little cares forgot,
Her dimpled cheeks a dream of love in Bailey's Woven Cot;
Dear mother in a hammock swings, of it she'll never tire,
'Tis a restful, pleasant "lovely thing," in Bailey's Woven Wire!

Dad's chair's a "lap of luxury" to which the god's aspire,
Made right in Honolulu of Bailey's Woven Wire!
Then let us stick to Bailey, and help him all we can,
He's the President of Comfort—the Woven Wire Man!

Woven Wire Bailey

New Advertisements.

When

A man strikes a red pepper in his soup he receives an impression, and impressions are lasting. How can we impress it upon you that it is really your duty to trade with us, that our prices and service are better than elsewhere? Perhaps we can impress you in this way: Money talks, talks cents too. It persuades the stubborn and convinces the skeptic. We know of no such pleader as a LOW PRICE and we have tried to make its voice heard in every nook and corner of our store. It would only tire you if we gave you a list of the many different articles we have just received per "Senta" from England, "Amy Turner" from New York, and the "Rithet" and "Australia" from San Francisco, but we have the goods, and if you call on us you will get an impression or two. First, they are FIRST-CLASS and second, that our prices are LOW.

For that tired feeling—not Hood's Sarsaparilla, but more exercise—a gun, a rifle, or a boat if you take it out of doors, or dumbbells, chest weights, etc., if indoors. Our shot guns range from $12 to $65 in price, but we find the $35 gun gives just about the right amount of exercise for this climate—that is we judge so from the way they sell. After using one of our Winchester Military Rifles till you can get inside an 8-inch bull's eye, 8 out of 10 shots, you will find not only is the tired feeling gone, but you have learned to be cool and careful—things that will serve you well in other ways than rifle shooting.

Have you heard of the story of the Irishman? He bought apples for one cent and sold them for two and said he made one per cent. profit. We do not commit business suicide by trying to make the Irishman's one per cent.

If you prefer boating and yachting to shooting, you will find we have most of the material needed to either build a yacht or boat or keep it in repair when built, and you do not have to buy any more than you need, as we have everything handy to retail as well as wholesale.

BETTER fence wire is now made than ever before and as POOR fence wire is now made as ever has been before. The BEST can be had right here in Honolulu, and—yes—the WORST. We sell the GOOD KIND.

Wait for our remarks about barbed wire. We have plenty now, but will soon have a lot of the best in the world and it will pay you to wait for it.

Estate of F. S. Pratt, Deceased

NOTICE OF SALE OF REAL ESTATE

PURSUANT TO AN ORDER OF the Honorable Henry E. Cooper, Second Judge of the Circuit Court of the First Circuit, Republic of Hawaii, in the matter of the Estate of F. S. Pratt, deceased, made and entered on the 10th day of September, 1894, the undersigned, a Commissioner appointed for that purpose by said order of said Circuit Judge, will sell at public auction, to the highest bidder, certain real estate of the said F. S. Pratt, deceased, described as follows:

The premises at Waikiki, Honolulu, Oahu, described in the following deeds, recorded in the Hawaiian Registry of Conveyances, viz: Deed from E. H. Allen to F.S. Pratt, dated June 5, 1873, recorded in Book 37, pages 222 and 223: Deed from H. Giles to F. S. Pratt, dated March 30, 1878, recorded in Book 54, pages 294 and 295.

The sale will take place at the front door of the Judiciary Building, in Honolulu, at noon on TUESDAY, the 9th day of October, 1894. Upset price, $15,000. Terms Cash in U. S. Gold Coin. Sale subject to confirmation by the said Circuit Court. Deeds at expense of purchaser.

For further information, enquire of the undersigned at the Judiciary Building, in Honolulu.

For Maui and Hawaii, per stmr W G Hall, Sept 21—A W Van Valkenberg and wife, T C Wills, A Gramberg, J P Lino, Mrs Young, Mrs Johnson, Mrs Kauakale, E R Hendry, J W Preston, J D Paris, G C Hewitt, W Berlowitz, C A Kelii, J Kakaula and wife and 40 deck.

IMPORTS.

Per stmr James Makee—2218 bags paddy, 297 bags rice, and 14 pkgs sundries.

WHARF AND WAVE.

DIAMOND HEAD, Sept. 21, 10 P.M.—Weather, thick; wind, fresh E.

The German bark J. C. Glade left San Francisco for Queenstown on the 4th instant.

The family of Capt. Thompson, of the bark S. C. Allen, accompanied him on this trip.

The James Makee arrived from Kapaa yesterday. She will not leave port again until Monday.

The W. G. Hall took away a heavy cargo yesterday, and was detained until eleven o'clock in consequence.

Frank Scott, the keeper of Wilder's warehouse on the Esplanade, is taking a vacation; his place will be filled by John Hare.

A team belonging to Hustace & Co. tore away a stanchion at the Inter-Island wharf on Thursday evening. The horses were frightened by an officer of a vessel, who blew a shrill whistle.

The sailors of the wrecked bark G. N. Wilcox has been fitted out with clothing, and, in addition, have received four months' advance pay. They will leave for San Francisco on the Monowai. The apprentices will be sent home to Germany.

NEW YORK, Sept. 2.—The steamer Saginaw brings news from Puerto Plato that on August 15th the Hamburg-American steamer Colonia, in attempting to change her berth, struck a sunken steamer in the harbor, and will probably prove a total loss.

J. F. Bowler & Company, who purchased the wrecked bark G. N. Wilcox, wanted the two mates of the lost vessel to accompany the wrecking expedition, but they did not offer money enough, so the men remained behind. The mates wanted $10 a day for their services, instead of $2, which was the sum offered.

LAS PAMAS (Canary Islands), Sept. 3.—Advices received here from Cape Juby, opposite the island of Fuerteventura on the Caraha coast, say that a band of Kabyles have attacked an English brig while the latter was landing a cargo at the English factory at Cape Juby. The cargo of the brig was plundered by the Kabyles, who wounded several of the English employees of the factory. The latter took refuge on the brig.

The British ship Primrose Hill arrived at San Francisco on the 4th inst., sixty-two days from Newcastle, N. S. W. She had a very eventful trip on the way over. Three men were thrown to the deck from the cross-jack yard, and one man, named C. Abraham, was killed instantly. He was buried at sea the next day. The ship sailed from Newcastle on July 3d, and had westerly and southwest winds to latitude 19 south. She caught the southeast trades in latitude 17 degrees south, and worked them up to latitude 9 south. She crossed the equator in longitude 120 west, and caught the northwest trade winds in 9 north. She carried them to 20 degrees north, and from there to port she had light and variable winds.

The City of Peking made the trip straight across from Yokohama in nineteen days in 1890, says the Chronicle in speaking of trips across the Pacific. The City of Peking is not the fastest craft afloat in the China line, and in the early part of this year she came over by way of Honolulu in twenty-one days. It took her seven and a half days to come here from the islands. The Oceanic came over in the early part of this year in nineteen days. She is one of the swiftest boats in the Occidental and Oriental line, yet it took her eleven days and forty-nine minutes to make the trip from Honolulu. The China made the best trip this year, coming over here from Yokohama in sixteen days. This was by way of Honolulu, and the crack ship of the Pacific Mail fleet came up from the islands in just six days. The Gaelic made the spin from Yokohama in eighteen days, making the voyage from Honolulu in six and one-half days.

RECOVERING LOST ANCHORS.

A Number of Vessels Engaged Exclusively in This Pursuit.

One of the queer occupations of mankind is that of dragging for lost anchors. It is carried on in bays and rivers, and even in the open sea along the coast. Several sloops and schooners are engaged almost exclusively in this pursuit. The hunters are as familiar with the ground where anchors are to be found as fishermen are with the favorite haunts of the living inhabitants of the sea. It is said that the stretch of sea off the Delaware breakwater is most fruitful in dropped anchors.

This is owing to the fact that so many vessels are compelled by the state of the weather or of the tide to ride off the breakwater, being often caught in gales while stationed there. The manner of fishing for lost anchors is most simple. A chain is let down in a loop long enough to drag along the bottom and the vessel goes on her way with all hands on board alert for a bite, and a bite usually ends in a catch. The recovered anchors are usually sold again at a price of about 4 cents a pound, which is a cent under the market price for new anchors. A big anchor will weigh 6000 pounds, so that the fisherman make $240 out of it.—New York Post.

Has a Queer First Name.

Governor Hogg, of Texas, who is making a tour of the Eastern States, is accompanied by his daughter. The young lady's name attracts attention wherever she is introduced. It is certainly a queer combination, and those who hear it for the first time refuse to believe that it is her real name.

It is true, however, that Ima Hogg is the only name the lady has ever had. Her mother found the name Ima in a novel that she was reading when Miss Hogg was a baby. She admired the name, and so did her husband, and it was given in baptism to the infant before the parents realized that the Christian and surname made a queer combination.

"She is satisfied with it now," says her father dryly, "but she may possibly change it some day."—New York World.
