THE GOVERNMENT ANSWERS, NEW CHAPTER IN REBELLION.

The Views of the Government Made Known to Mrs. Dominis.

HER INDIVIDUAL LIABILITY.

The Letter of Abdication Does Not Exempt Her from Punishment if She is Proven Guilty of Treason—Her Appeal for Clemency Will Be Considered.

The Government has replied to the ex-queen's letter of abdication. It was presented to her on Tuesday and reads as follows:

EXECUTIVE BUILDING, Honolulu, January 29, 1895.
MADAM:—A document executed by you purporting to contain an abdication and renunciation of all sovereign rights heretofore claimed by you has been delivered on your behalf to the President.

As you were under arrest at the time this instrument was signed it is desired before accepting and placing the same on file, to make clear to you in order that no misunderstanding may hereafter arise, the views of the Government in this matter:

1. The execution of this document cannot be taken to exempt you in the slightest degree from personal and individual liability for such complicity as due investigation and trial may show that you had in the late conspiracy against the Government and the consequent loss of life which position is recognized by you in your letter.

2. It cannot be conceded that such rights and claims as you now voluntarily relinquish have had any legal existence since January 14, 1893, when by your public announcement that you no longer considered yourself bound by the fundamental law of the land under which you took office, and by your acts in attempting by the mere exercise of your own will to establish a new system of government, the contract existing between you and the people was dissolved, and all sovereign rights theretofore vested in you were lost. The statement by members of your late cabinet that they could not control your proposed action, and their appeal to citizens of Honolulu for assistance, was the next step which led to a resumption by the people of the rights of government.

3.—So far as your communication may be taken as a notice to the disaffected that it is your desire that the Republic shall be recognized by them as the sole and lawful government of the country, it is fully appreciated. In this connection your unselfish appeal for clemency for those who took part in the late insurrection will receive full consideration.

(Signed), WILLIAM O. SMITH, Attorney-General.

To Mrs. Liliuokalani Dominis.

MARRIAGE AT ST. ANDREW'S. Dr. Walters, of Lihue, Joins the Ranks of the Benedicts.

At St. Andrew's Cathedral yesterday afternoon a very pretty wedding took place, when Dr. St. D. G. Walters, of Lihue, Kauai, and Miss Severina Lucy Herbert, daughter of Mr. and Mrs. Allan Herbert, were made man and wife. The ceremony was performed by the Rev. Vincent H. Kiteat, using the ritual of the church of England. The bride, who looked lovely in a white costume, was given away by her father. Wray Taylor presided at the organ and played Mendelssohn's Wedding March. Among those who witnessed the ceremony were Mr. and Mrs. A. Herbert, Mrs. J. F. Hackfeld, Senator Canavarro, Portuguese Consul, Mrs. F. W. Glade, Mrs. Neumann, Mr. and Mrs. A. M. Spruill, Mr. and Mrs. Kopke, Dr. and Mrs. G. Herbert, Messrs. Isenberg, S. Parker, H. Focke and Captain Albhorn. Dr. and Mrs. Walters left on the Australia on their wedding trip.

Settlers for Hawaii.

Mr. William Henry, of Oregon, who came to the islands as a representative of a number of progressive farmers in that State, returned home by the Australia. He carries a book full of valuable information to friends in the Oregon valleys. Mr. Henry will return in the course of a couple of months and will be accompanied by a number of well-to-do people from the State of Oregon. They will reside permanently in the islands and engage in different occupations.

V. V. Ashford Now on Trial for Misprision of Treason.

GOOD AND WHITE COURT MEMBERS.

Nowlein Said He Laid Open Whole Plan to Ashford—Chinese Hackmen Testify to Meeting of Ashford and Nowlein on the Waikiki Road.

The Military Court did not assemble until 10:40 this morning. Colonel Whiting announced that an adjournment would be made until 1 o'clock, as the personnel of the Commission was incomplete. The reading of the minutes would be omitted until the afternoon session opened.

AFTERNOON SESSION.

Promptly at 1 o'clock the court was called to order. After reading of minutes by Recorder Jones, Colonel Whiting stated that Captain John Good, of Company E, and Lieutenant Oscar White, of Company B, had been selected to sit as members of the Commission.

Attorney Neumann announced that the personnel of the court was satisfactory to defendant Ashford, and the proceedings commenced.

Samuel Nowlein was the first witness called. His testimony was as follows: Planned to have an army at Kakaako and one at the fish market; affair was to come off as soon as arms landed; afraid of being discovered if we waited; C. W. Ashford said V. V. Ashford had gone for arms; C. W. Ashford said Captain Davies told V. V. Ashford he was going out for arms; C. W. Ashford went on Likiepke Saturday; saw C. W. who wanted me to name place to meet V. V. for conference; said Waikiki road was nice place to meet; left him then; was going out to Waikiki in buggy; met V. V.; no special point of meeting was agreed upon; both carriages stopped; V. V. got out and came to think this a good place to have "talk"; told him did not think so either; said I would call at his house and have talk with him; left him and went out to long bridge; turned around and came to town; went to V. V.'s house that afternoon; saw V. V. and father at house sitting on veranda; never seen there before; went into small room; no one present but us two; laid open whole plan to V. V.; told him arms going to be landed at Kakaako and at fish market; told him Kakaako plans were laid out by me; asked him to help lay out plans for fish market; V. V. asked about best time to land arms; told him night time; V. V. said if had arms landed during night then we must have day attack; hard to keep natives from talking and giving everything away; agreed day time best; V. V. said would help make out plan of fish market; went to his office three times after call at house, to see about fish market plan; went there following Monday morning, the 31st; saw him in back room of office; no one there but us two; asked him if anything done to plan; said no; too busy with court matters and for me to call again; Wednesday morning, day since my confinement after I made statement about him; learned arms coming; heard Waimanalo succeeded in getting arms and would be in that night; thought better hurry matters and be ready by 1 o'clock next morning; found could not get ready; at meeting of Gulick, Rickard and myself, agreed to have Rickard go after to Waimanalo and bear orders; Thursday, went to see Ashford again; things must surely come off that night; he said sorry he could not help, but was suffering from rheumatism in the knee and would be unable; tried that night, but thing broke down; new breakwater on Waikiki side; time of assembly agreed on was 12 o'clock that night; natives began gathering from 7 to 7:30 p. m.; 9 o'clock received word of police interference; Chinaman drove Ashford to Waikiki; have seen man since my confinement after I made statement about him; Ashford had Chinese clerk in office; was there when witness called at office.

At this point of the examination, the Chinese driver was brought in. Nowlein continued:—Know this man to be driver spoken of; learned Waimanalo off Diamond Head from Bertelmann; were to be 150 men at Kakaako, and same number at Fish Market; men going to get arms at these places; told Ashford all plans; Kakaako plans given to Bertelmann; witness told Ashford that Walter was to take Police Station with his squad; everybody to move at 1 o'clock in the morning; arms landed at Diamond Head used in the fight on 6th and 7th.

On cross examination, Counsel Neumann asked Nowlein if he had been offered any price for the betrayal of his colleagues.

Captain Kinney objected to the word "betrayal" and the objection was sustained by the court.

Mr. Neumann changed his language and asked Nowlein what promises had been made him.

Nowlein answered that he was told his life would be saved if he told the truth.

his life would be saved if he told the truth.

Lee Tong—Have been in city from sixteen to seventeen years; drive hack; stand at Castle & Cooke's corner; known Ashford for several years; drove him on 30th of last month at 10:35 a. m.; telephone boy sent me from stand; Ashford told me to drive him to Waikiki; did not state any special place; drove him as far as road leading to J. F. Brown's; told me to turn to right; when got down to last house told me to turn to right again; went past John Ema's place and came out on King street again; told me to turn to right again; got out near where street cars stop; told me to turn round; came toward town; just outside Chinese bannan field on road leading to J. F. Brown's; saw Nowlein coming from town in buggy; Ashford told me to stop; both carriages stopped at once; Ashford got out and walked across to Nowlein; talked for few minutes; number of my hack 135.

On cross-examination counsel for defense brought out the fact that Lee Tong did not know the date of his engagement with Ashford until after he was called upon by the police. He recollected that it was in the morning about the end of December, but that was all.

Manuel Andrade—Am 17 years old; work at City Carriage Company's office; take telephone messages and send out hacks; keep record of where-ever they go; know V. V. Ashford; remember he called us up; knew his voice; received message and told Lee Tong to his house; put entry in book.

On cross-examination nothing new was brought out.

Sing Fook—Work for Ashford; began clerking there in March of 1894; know Sam Nowlein; remember Nowlein made visits at office previous to revolution; during two weeks previous to rebellion he called three times.

Cross examined—Called once and Ashford was away; came back during day; Friday morning was called by Marshal to police station; had no bribes or threats offered; swore there upon oath to tell truth; made statements of own free will.

Captain Davies—Commanded Waimanalo before trouble; made agreement with Rickard at Walker's office on 27th of December; know Ashford; saw him Friday afternoon previous to trouble; met him on Bethel street and spoke to him; asked him if he knew anything about political troubles; said only heard something was going on and was trying to find out more about it; told him then witness would look after sea part and would want good person to look after shore; said better look into matter more carefully before going to sea; finished conversation in back room; someone was there at time; waited until through and then entered; went to sea same day; got arms and landed them at Waikiki.

Sam Stone—Live at Kukuluaeo about 500 yards from old court works on Queen street; Ashford used to come to my house; remember hearing something about trouble on 28 of January; 7:30 that evening Ashford called; stayed about five minutes; talked first about a mortgage between me and another man named Kaapana.

At this point Interpreter Luther Wilcox was introduced on account of Stone's imperfect English.

Stone continued—Ashford asked me if I was acquainted with the situation of the royalists; told him I had heard of politics for the last two years, but had no idea of what was going on and didn't care. Ashford got up suddenly and said he was going home; said he would not send mortgage up until Kaapana sent up \$10 more, which would close up matters.

Detective Larsen was called, but Mr. Neumann objected to him on account of his name not being on the list of witnesses for prosecution.

After deliberation the Court decided that Larsen's testimony would be allowed.

Wm. Larsen—Was in employ of police department on 3d January; had heard of meeting of natives; was stationed with another man on road leading to leper settlement at 8:20; remained there thirty minutes; first fifteen minutes counted forty men coming down two roads.

Captain Kinney asked Larsen if he spoke to any of them, and if so, what they said; whereupon Mr. Neumann objected to the last question as being irrelevant.

The objection was sustained by the Court.

Mr. Neumann asked for adjournment on account of the physical state of his client.

The Court adjourned until 9:30 a. m. today.

Searching Party.

H. Mossman and Kekai returned last night from a searching journey along the beach toward Moanalua. They found one new Lee-Remington carbine, the only one of the kind seen for some years, in a house occupied by a Chinaman; and located near Charles Hopkins' second fishing station.

They will go out again today, and expect to be absent a week and a half searching the entire country from Kahuku to Waimanalo.

CLEVELAND CHANGES FRONT.

He Was Once in Favor of an Hawaiian Cable.

MR. BLAINE'S EARNEST SUPPORT.

A Committee Regarded the Project as a Measure of High National Concern—A Danger That Trade May be Diverted to Canada if the English Succeed.

The willingness of the Hawaiian authorities to grant cable concessions to Great Britain is due to their great desire to establish quick communication with this continent, coupled with their belief that the United States Government will give no financial aid to an independent cable line between the United States and Hawaii, says a late Washington Star.

The practicability of a cable line between the United States and Hawaii is fully established by four surveys made by the Tuscarora, Albatross and Thetis. The surveys of the Tuscarora were made many years ago, but those of the Albatross and Thetis were made between October, 1891, and May, 1892.

There is a trans-Pacific cable already laid and working between Queensland and New Caledonia, a distance of about 800 miles, and the French company that built it is planning to continue it by way of the Fijis and Samoa to Hawaii and thence to this continent.

In February, 1891, Mr. Chipman, from the Committee on Foreign Affairs, submitted a report recommending the passage of the bill to incorporate the Pacific Cable Company for the purpose of laying a submarine telegraph from San Francisco to the Hawaiian Islands, and thence via Samoa to New Zealand, and also to Japan, and providing an annual subsidy of \$150,000 for fifteen years.

In concluding their report the committee said: "Your committee regard the establishment of a submarine electric telegraph between San Francisco and Hawaii as a measure of high national concern, which will be an efficient factor not only in securing Hawaiian autonomy as long as the interests of the United States require, and a firm and permanent American influence in the Hawaiian Islands, but in securing for our country the commerce of the Pacific ocean and the trade of the Australasian continent."

In a letter to the committee, dated January 22, 1891, Secretary Blaine summarized his support of the proposition in the following vigorous words: "I have no doubt of the great importance to the United States of possessing cable communication with Hawaii. Besides subserving the close interests which we maintain with those islands, and tending to exert a positive and potential influence on the political autonomy of the Hawaiian group, such a cable would be a necessary factor in a great scheme of direct communication with China and Japan, and with Australasia by way of the Samoan Islands."

In the course of events, telegraphic communication throughout the Pacific ocean and with the shores of America, Asia and Australasia is indispensable and certain to come. The section joining Hawaii to the American continent, besides being the shortest and least costly link in the general chain, is by far the most important from political points of view; and I deem it of the highest consequence to the United States that it be promptly constructed by American effort, and with the sanction of our government."

political history of the United States the following extracts from the message of President Cleveland to Congress, dated December 3, 1888, indorsing the American cable project, have a strange and unnatural sound: "Proclamation was duly made on the 9th day of November, 1887, of the conventional extensions of the treaty of June 3, 1858, with Hawaii, under which relations of such special and beneficent intercourse have been created."

"In the vast field of oriental commerce now unfolded from our Pacific borders no feature presents stronger recommendations for congressional action than the establishment of communication by submarine telegraph with Honolulu."

"The geographical position of the Hawaiian group, in relation to our Pacific States, creates a natural interdependency and mutuality of interest which our present treaties were intended to foster, and which make close communication a logical and commercial necessity."

That President Cleveland may now be justly expected to exercise his "good offices" in giving Great Britain a manifold advantage over the United States, in the matter of quick communication with the Hawaiian Republic, is evidenced by the message he sent to Congress on the 9th instant. In that message he indorsed the proposition for a British cable station on the islands in the following words: "I hope Congress will see fit to grant the request of the Hawaiian Government, and that our consent to the proposed lease will be promptly accorded. It seems to me we ought not, by a refusal of this request, to stand in the way of the advantages to be gained by isolated Hawaii through telegraphic communication with the rest of the world, especially in view of the fact that our own communication with that country would thereby be greatly improved without apparent detriment to any legitimate American interest."

A KILOHANA SOCIAL.

Mrs. Edgerton the Honored Guest of the Evening.

The members of the Kilohana Art League held a most enjoyable social gathering at the residence of Mrs. W. H. Graham on Tuesday evening. Mrs. Edgerton, the celebrated elocutionist and exponent of Delsarte art was the honored guest of the evening.

This talented lady entertained the guests present by a talk on the principles of Delsarte and gave several of her select recitations from different authors with her usual inimitable grace, power and expression, and received the unqualified praises and commendation of all present. It is expected that this accomplished and talented lady will again visit our island home at an early date.

JULIAN LANDS A RICH WIDOW.

Mr. Hayne, of Local Fame, Married Down in Florida.

SAID HE WAS A COFFEE PLANTER.

The Son of the Woman Will Make an Attempt to Have the Bonds Declared Void—Hayne's Career While in this City—A Case of Infatuation.

Julian D. Hayne has been heard from again. This time he is the hero of a romance, if it can be called such. He is married. The name of the deluded woman who joined hands with him is withheld, for the reason that her relations will make an attempt to have the marriage declared void.

The wedding took place on Nov. 22d last in a small town in Florida. It seems that Hayne had been in the place before. He met a widow, who is well connected in the North. It appears that she was well off—in fact, she owned a comfortable cottage on the river front, several valuable town lots and a good-sized bank account. This was too much for the impetuous Hayne, who immediately laid siege to the widow's heart, and finally came out victorious.

He represented himself to be a rich coffee planter on one occasion, with his residence at Hilo; at another time, he told the widow that he had resided in Honolulu, part of the time practicing law.

His victim believed every word he said, and accepted his representations without a murmur. Hayne is now in clover, but just how long he will be so pleasantly situated depends on the efforts of the woman's son, who is not a bit pleased with the turn of affairs. He says he will make an attempt to have the marriage annulled.

Julian D. Hayne is well known here. He arrived early in 1893 and put up at the Hawaiian Hotel. He did not have much money, but he had gall, which is just as good in many cases. His bill rolled up as fast as waves on the Waikiki beach; but that fact did not "cut any ice" with him. He was like many others—he expected a remittance. It did not come. It was said at the time that the vessel in which the money was sent foundered and went down to the bottom of the sea to furnish a good resting place for the new cable. At any rate the boat did not come, so the manager of the hotel gave him to understand that he would have to move. He did so. Previous to this Hayne allowed himself to be quoted as the author of a successful comic opera.

The ADVERTISER afterwards proved that he was not. The expose caused Hayne's few friends to drop him, so he decided to get out in the first boat leaving this port. It happened to be a sailing vessel. He had his baggage taken to the wharf and placed on board, and after doing so he returned up town and made a few farewell calls. It was an unfortunate move on his part, as the vessel left port without him. The loss of his limited wardrobe did not daunt him in the least, and later he secured passage on another vessel and departed for new fields.

Nothing has been heard of his movements until the other day, when the mail brought the news of his marriage.

His statement regarding the ownership of property in this country is refreshing. When he was in this city he owned what he had on his back and that was about all.

There are a great many homes having zinc-lined bath tubs that are in good condition with this one exception: they lack the features of a porcelain lining. How to overcome this without going to the expense of getting a new tub, has been a question that has worried a great many.

One pot of our WHITE ENAMEL PAINT will do the work, forming as it does a GLOSSY SURFACE, almost equal in hardness and durability to that of porcelain itself, being at the same time hardly distinguishable from porcelain.

Consult your physician and he will tell you by all means to paint your bath tub with Enamel Paint.

The KEYSTONE EGG BEATERS are little gems. Try one if you want your eggs quickly and thoroughly beaten.

We also call your special attention to our economical BARREL and CYLINDER CHURNS, they are easy workers, have all sizes and prices.

We have a handy CLOTHES DRIER, having ten arms made to fasten on the wall, when not in use by a simple pull these arms fold up like a fan, thus taking up but little room.

Remember we sell Standard Oil Co's PEARL OIL at \$1.80 per case, C. O. D., delivered to any part of the city free.

DECEMBER TERM, 1894.

BEFORE JUDD, C. J., BICKERTON, J., AND COOPER, CIRCUIT JUDGE WHO SAT IN PLACE OF FREAR, J., ABSENT FROM ILLNESS.

HANG FOOK, PLAINTIFF IN ERROR, VS. THE REPUBLIC OF HAWAII, DEFENDANT IN ERROR.

WRIT OF ERROR.

In a charge of Selling Opium against two defendants, one receiving the money and the other delivering the opium, they having a full knowledge and understanding of what each was doing, the sale was complete; as they both "took part" they were both guilty. Where several join in an offence they may be jointly or severally indicted. The fact that several are indicted jointly renders the indictment none the less an indictment against each of them individually. The Court will not reverse a verdict on error where the record shows that it was based on the credibility of witnesses or the weight of evidence.

OPINION OF THE COURT BY BICKERTON, J.

The plaintiff in error, Hang Fook, and one Ah Kau, were charged jointly and convicted in the District Court of Honolulu, on a charge of selling and furnishing opium contrary to law; an appeal was taken to the Circuit Court of the First Circuit and the case tried at the August Term of said Circuit Court with a jury on the same charge as that made in the District Court, the verdict being a unanimous one of guilty. A motion for a new trial was made by Hang Fook, which was denied, and exceptions were taken to the denial of said motion, which exceptions were heard by this Court and overruled, and the matter is now here on a writ of error, allowed by this Court and addressed to the Clerk of said Circuit Court.

The assignments of error are—First. "That the record shows that the petitioner and said Ah Kau were jointly charged with and convicted of selling opium contrary to law, whereas the plaintiff in error claims that there is in law no such joint offence."

Second. "That the record shows that the petitioner and Ah Kau were jointly charged with and convicted of selling opium contrary to law, whereas the plaintiff in error claims that the evidence in the case as shown by the record fails to show that any such joint offence was committed."

As to the first error assigned, the counsel for Hang Fook in his brief says—"The first error assigned is upon examination of the cases not especially relied upon." We are of the opinion that it cannot be relied upon. The rule is that where several may join in the commission of an offence they are properly united in the same indictment.

Com. v. Tower, et al., 8 Met. 527. Our statute also provides that "All who take part in the commission of any offence * * * shall be deemed principals therein."

Fenal Code, Ch. 5, Sec. 1. In selling or dealing in opium there is nothing to prevent several persons taking part in the sale, thereby taking part in the commission of an offence. This might be illustrated in many ways.

As to the second error assigned. It appears from the evidence that one Chun Choy (an informer) visited the house of Hang Fook and Ah Kau on two occasions within one hour on the night of July 12th, 1894; the first time he purchased 50 cents worth of opium from Hang Fook, who delivered it to him. The money was put in the tray. Ah Kau was laying on the floor, but had previously opened the door for Chun Choy. The second time he went, the same man Ah Kau opened the door, there were three or four men in the room,—he asked Ah Kau where Hang Fook was, he answered that he was in the back room and asked what Chun Choy wanted; he told Ah Kau he wanted to buy more opium and gave him 50 cents. Ah Kau then told Hang Fook to give him the opium, which he did. Hang Fook heard what was said, for he was only a short distance off, from the description given—only a very few feet. Hang Fook told Ah Kau to take the money and then delivered the opium himself. The money that was paid was marked and afterwards came from the possession of Ah Kau. The evidence of Ah Kau corroborates the testimony of Chun Choy as to the second sale, he having gone with Chun Choy on that occasion and remained on the veranda but saw and heard all that took place. The evidence of Ah Kau is clear and positive as to the fact that Chun Choy was there that night and bought opium from Hang Fook, but Ah Kau denies that he had anything to do with the sale, but admits that Hang Fook told him to take care of the money for him. In our opinion the evidence clearly shows that the two men (defendants) acted in concert and with a full knowledge and understanding of what each was doing. In a charge of selling opium against two defendants we hold that if one received the money and the other delivered the opium, with a full knowledge and understanding of what each was doing the sale was complete, and as they both "took part" they were both guilty. "If several be engaged in the commission of the same offence, they may be joined in the same indictment, or may be separately indicted." 1 Archibald

(Waterman) p. 315 and cases there cited.

It is contended by the prosecution that it is immaterial whether the sale was made jointly or by Hang Fook alone, as it is well settled that in an indictment against two or more the charge is several as well as joint, and cites a number of cases in support.

These cases support this contention. In a very recent case from Rhode Island decided December 1892 it was held that "where several join in the commission of an offence they may be indicted either jointly or severally, but the fact that they are jointly indicted renders the indictment none the less an indictment against each of them individually." See State v. O'Brien et al., 25 At. Rep. p. 910.

We are of the opinion that the evidence in the case as shown by the record, not only shows a sale by Hang Fook alone, but also a joint sale by Hang Fook and Ah Kau, on the date charged.

Sec. 5 of the Act "to define Writs of Error," laws of 1892, p. 272, reads: "There shall be no reversal on error of any finding depending on the credibility of witnesses or the weight of evidence." The verdict of the jury in the case at bar could only have been based "on the credibility of the witnesses or the weight of evidence." These are matters for exception; but there might be a case where there was no evidence to support the verdict, and then a writ of error might be the proper method of procedure; but, in the case at bar, there is considerable evidence on which the jury could find the verdict they did.

The writ is denied. Hartwell-Ashford, for plaintiff in error. Deputy Attorney-General Robertson, for defendant. Dated Honolulu, January 19, 1895.

JUST A FEW WORDS

on a subject which we know will interest every one: For years we have done the fine watch repairing in Honolulu.

Difficult work of every description which had formerly been sent to the Coast, was first properly handled in our Repairing Department. Such work as

CHANGING KEY TO STEM WINDERS

repairing complicated watches of every description; demagnetizing; making by hand any lost part of a complicated watch; in fact any difficult work pertaining to the repairing of fine watches is our especial forte.

The number of watches which find their way into our Repairing Department after having been through the hands of numerous EXPERTS (?) beyond belief. Whilst we are at all times ready and willing to do every conceivable kind and condition of a job—would it not pay you better to bring your watch to us in the FIRST PLACE and be assured of an honest amount of work at a reasonable price, rather than take it from one to another, causing you delay and annoyance, to say nothing of the greater expense?

We Charge Less
For Perfect Work

than you have been used to paying for inferior work right along. As a matter of fact, the EXPERT (?) who cleans your watch with a pair of bellows and a crow-bar for 50 cents makes more money than the honest workman who does an honest job and charges an honest price.

Because your watch is returned to you running fairly well, it is no criterion that it has been properly repaired. The great annoyance attendant upon the repairing of a watch, is that 99 out of 98 cannot tell if the work is well done—but are satisfied if the watch is keeping somewhere near the correct time.

Who can see the jewel protruding half way out of the plate, or worse, sunk down through the plate, fastened in with a little glue, or hammered in with a sledge. How often the EXPERT grinds off the broken staff, sinks the jewel a little lower, tells you he has put in a new staff and charges you a little less than the price and you go on your way rejoicing. But some day you will discover the fraud, such work cannot last long. It is dear at any price, which you soon discover to your sorrow.

Moral: Make no mistake; take it where you know it will be well treated and that is the Repairing Department of

THURSDAY, JANUARY 31, 1895.

As we have before suggested, the most serious problems of the rebellion have yet to be met and solved. In view of this fact it is the duty of every well-meaning citizen to give the Government officials a moral support equaled only by the ardor and enthusiasm of the physical backing which has been displayed. But do not let the feelings of the hour run away with calm judgment. Think twice and stand firm.

WHAT FOREIGN MINISTERS ARE FOR.

In general it may be said that a nation looks upon its foreign ministers as representatives of sister nations stationed at the capitol to transact such diplomatic business as it may be necessary to perform. The foreign minister is the working arm, so to speak, of the body of people from whom he derives his power, and to whom, as a resident among those people, he claims allegiance. Outside the usual routine of his office, the foreign minister is looked upon to see to it, not only that his flag is respected, but to keep a careful watch over the lives and property of his fellow citizens who may have seen fit to cast their lot within the confines of the country where he is stationed. In his personality is condensed the dignity, the diplomacy, the business and commercial interests of a nation. It is a position of no small moment and calls for a man of discerning, well-balanced and careful mind.

In event of the threatening of any of the personal or national interests he represents, the foreign minister is in duty bound to make his personality as prominent as possible and bring to bear all the dignity and diplomacy which he represents to protect those interests.

So far as the internal affairs of the country do not directly concern him or his people, however, it is his business to keep as far in the background as he knows how, not attempting or having the appearance of attempting to influence the action of public men. In short it is manifestly his business to keep out, thoroughly and completely out of local politics, or legal and legislative proceedings never taking advantage of the fact that he is the resident figure head of an overpowering nation, to embarrass or have the semblance of embarrassing the action of men whom he has every reason to believe are conducting political or judicial affairs with proper deliberation and following the dictates of the national conscience they represent. It is not his business to dabble in local politics or go so far as to clothe himself with the dignity of his nation and give expression to personal views before the cabinet or any other officials of the Government.

When a foreign minister lowers his dignity to this point it becomes a question whether or not his recall would not be for the best interests of his home government and that within which he is exercising the powers delegated to him.

MR. CLEVELAND'S ORDERS.

While President Cleveland has seen fit to send a man-of-war to this port he has couched his instructions in such words as to make, so far as possible, the commander of the ship's forces as powerless to act as possible. He has told Rear Admiral Beardslee to come to this port and look on while American citizens sell their lives if necessary to protect the property of men who cast ballots in and claim allegiance to the United States; he is practically to act in the capacity of a nonentity

so far as within him lies. He is to sit quietly in his cabin and fiddle, if such amusement suits his fancy, while a gin-crazed rebel applies the torch to the house of his brother American, provided the owner of that house is fighting in the field.

If the owner sits quietly at home and says or does nothing, the Admiral is to land his forces, surround the house and keep the incendiary at proper distance. Should the adjoining dwelling be in flames and the American's house threatened thereby the Admiral has only to say, "God help you, the United States won't." Supposing the Admiral has 100 men and there are 100 houses in different sections of the city to protect? Naturally if he follows out the spirit of President Cleveland's orders, he is to detail one man to a house and let mob law, or any other law that may arise, take its course and say or do nothing. The absurdity of this method of procedure is only equalled by the narrow-minded, unparalleled spirit displayed by President Cleveland's instructions.

If there is any nation in the world from which the supporters of this Republic, the majority of whom are Americans, has well-founded reason to expect moral and physical aid and support, that nation is the United States. Congress knows it, the American people know it, but President Cleveland's diplomatic eyesight has become so seriously dimmed by the dazzling personality of Liliuokalani that he can see nothing but the wreck of his pet scheme and has acted accordingly. We do not anticipate that Admiral Beardslee will be called upon to exercise protection over American person or property, but should the emergency arise, we believe he would conduct himself as a loyal American citizen, and not as one anxious to interpret the spirit of orders by reading between the lines.

January 30, 1895.

The necessity for a revenue cutter for Honolulu and vicinity has been materially felt during the past few weeks more than ever before. Nor will the feeling die out while opium is contraband. Scarcely a week passes but what some "long, low, rakish craft" is sighted off the islands by officers of the island steamers and the next we hear is that opium has fallen in price. Nearly every one believes that a revenue cutter would be a factor in reducing the quantity of the drug landed on these shores. It has long been said that if opium may be landed other things could be; from disclosures recently made the opinion may be changed to read: "if arms can be landed opium can." With a revenue cutter capable of making 12 knots an hour, there's no reason why, with the amount of information the Government receives from men at the coast, regarding the shipment of opium into this district, that the traffic could not be checked. There could be no "job" in providing for such a department because it could be let out on tenders, and the best bid accepted. There is no necessity for a large steamer, it would only be in the way, something about the size of and on the same lines as the Iwalani would answer the purpose admirably. Besides being used as a patrol it would be ready at all times for such emergencies as have been felt for a steamer during the past year or so. The Government has had to pay considerable money to transportation companies for steamers, and this sum could have been saved the Government if it had owned a cutter. If Necker island should be used as a cable station, there may be other occasions when a vessel of this character may be needed.

Did you ever see such a collection of beautiful pieces of Haviland China as we show in our window this week? Just examine the decorations and see their character! Oyster plates with delicate sprays of forget-me-nots twined in beautiful combinations of old gold and smylax around the edges. If you are giving a dinner your table will look better, and you will still more win the admiration of your guests if you have the dishes to set it with. If you will notice the illustrations in any of the magazines showing interiors of fine dwellings you will see on all the dressing tables pictures of a half dozen bits of China on a tray. These are known as Boudoir Sets and contain 11 pieces. We have them in chrysanthemum and Marguerite patterns, and sell them at \$4.50. They contain boxes for puffs, pins and all sorts of things used on a dressing case. Another pretty set is called "Solitaire" and is designed for the use of one person. It contains a sugar bowl, creamer, teapot and cup and saucer on a very pretty tray. They are decorated in really exquisite designs.

The dinner set shown in the upper window of our store is the handsomest in Haviland we have ever had. It contains 156 pieces and is rather different in design from anything we have ever imported. The decorations are in pure gold in a sort of scroll design. The coffee cups both large and small, are very pretty in shape, as are the rest of the dishes. This set is especially commended to people who entertain and who want a proper outfit for their tables.

The regular annual meeting of the Central Union Church was held last night in the parlors of that church. The main business of the evening was the reading of church reports, which were voted placed on file and printed. Mr. W. W. Hall, as church clerk, made the first report, as follows: 462 members of Central Union Church in regular standing, as reported Dec. 31, 1893; additions during the year 1894 by letters from other churches, 18; additions on confessions of faith, 11; making a total membership of 491; losses by dismission to other churches, 24; losses by death, 4; leaving on the roll of membership, 463.

Besides the figures just given, Mr. Hall's report contains other very interesting points.

"Notwithstanding the large number of members who have taken letters to churches of other denominations established in Honolulu, during the past year, so many have joined the church by letters and on confession of faith that our total membership has been increased by one."

"There have been thirteen infants and one adult baptized during the year."

"Although Central Union Church has had no settled pastor during the year, the usual Sabbath services and the Wednesday evening prayer-meetings have been regularly held and well attended."

"It was during the joy and excitement of the Fourth of July, when our new Republic first took her stand among the nations of the earth, that Rev. L. B. Penrose arrived here from the State of Washington, to act as our pastor for three months, just before Mr. Penrose left us, on September 15th, Dr. R. G. Hutchins came to us from Southern California. For over four months he has gone in and out among this people and has filled the pulpit in a very acceptable manner."

"At a church meeting held December 19th, it was voted to send a call to Rev. Douglas P. Birnie, of Allston, Mass., to become our pastor, and we trust that in a few weeks we shall have a pastor settled over this church."

Mr. Lowrey, as treasurer of the church, read the following report: Receipts, \$4,080.94 and disbursements \$3,801.09, leaving a balance on hand of \$279.85.

The balance of \$101.64 on hand at the beginning of the year, stood \$100.37 to the credit of the Poor Fund, and \$1.27 to the credit of Incidentals. Of the receipts, \$139.50 was from the special collection taken up for Home and Foreign Mission work, which, with the balance referred to, deducted from the total receipts, leaves \$3,838.80, which was appropriated: fifty-five per cent. to the Hawaiian Board (in addition to the special collection); twelve and one-half per cent. to Poor Fund; twenty per cent. to Central Union Sunday School; five per cent. to District Sunday Schools; and seven and one-half per cent. to incidentals. After making the payments there stands to the credit of Poor Fund, \$155.34, and incidentals, \$124.51, which represents the balance now on hand, \$279.85.

Respectfully submitted, F. J. LOWREY, Treasurer Central Union Church, Honolulu, Jan. 28, 1895.

J. B. Atherton, treasurer to the Board of Trustees, reported receipts of \$3,940.24, and disbursements of \$3,910.03, leaving a cash balance on hand of \$30.21.

Mr. Atherton, as treasurer of the Building Fund of the church, reported also the receipts of \$2,749.55, and disbursements of \$2,474.16, leaving a cash balance on hand of \$275.39.

C. M. Cooke, as superintendent of the Sunday school, reported a total attendance during the year of 22,021, an average of 423 each Sabbath. On December 9th, 510, the largest number at one time, were present and on July 22d only 311, the lowest number, were present. The faithfulness of attendance on the part of teachers and those who have so ably assisted in the music is worthy of special mention and thanks. In place of receiving Christmas gifts this year, the children decided to give where needed. Their offering for this purpose up to December 16th amounted to \$108.25 with additional donations of \$156.

Wm. J. Forbes as Sunday school treasurer, reported total receipts of \$1728.03 and expenses of \$1550.49, leaving a balance on hand of \$177.54.

The report of Mrs. Hyde on the Women's Board of Missions contained a detailed account of missionaries that have called in this city from various places, of the addresses delivered before the Board by prominent persons, of the correspondence between this and other ports, of books and pamphlets sent and received, of the work on these islands, of Dr. Talmage's address here, of the establishment during the past year of the free kindergartens and of other interesting points in connection with the work.

The report of the Missionaries, a society formed twenty years ago, was presented by Miss Belle F. Jones. In it she spoke of the meetings as being specially interesting. The past year was spent in the support of four girls at Kawaiahoi seminary and a native bible reader. It is the intention of the society to support others this year if possible. The annual membership has been twenty-four for this year, advancing seven over last year. The life membership of forty-four is one more than the previous

year. This makes a total membership of sixty-eight for 1894.

The Makiki Sunday school report by Miss Ella B. Snow showed a total of seventy-one names enrolled, with an average of twenty for each Sunday. Chinese formed the largest proportion. The rest were Japanese, Portuguese and Hawaiians.

Dr. N. B. Emerson gave a very interesting report on the work among the Portuguese, the full text of which is printed below:

The progress in this Sabbath school during the year has been most encouraging, justifying the hopes and expectations of its friends and giving promise to still greater growth and usefulness in the future. When one considers what a numerically strong and prolific factor the Portuguese element is in our composite population, it needs no argument to prove the necessity of lifting to a higher plane of education and Christian civilization the individuals that compose it. The hopes of the statesmen and philanthropists alike for the future of the Republic of Hawaii are centered in the virtue, intelligence and religious enlightenment of its people, and especially of those who, like the Portuguese, are destined to be numbered among its permanent residents, citizens and voters.

It may seem almost a work of supererogation to adduce arguments in advocacy of the special needs of this work among the Portuguese. It may also be thought by some that the gain in Christian belief and character, which it is sought to confer upon the Portuguese colonists who come to our shores, is so slight and nominal as not to warrant the efforts made, or to justify the danger of antagonizing and irritating those among them who still cling to what is called the mother church. It seems, however, to the writer of this report that no one, however libeled he might be, would continue to be of that opinion after becoming acquainted with the facts of the case.

To adduce but a single instance or illustration: The superstitious observances of the so-called annual festival of the Holy Ghost (Espiritu Santo) are so abhorrent to all Christian ideas of the methods of imparting or receiving divine influence as to breed in one who looks into them feelings of aversion that must be akin to what Martin Luther felt when he denounced the sale of indulgences by John Fitzel in the sixteenth century.

Among the added facilities that have been generously provided, either by means furnished by private individuals or by this church, in aid of the Portuguese Sabbath school and church—both of which are so closely linked together in their fortunes as to represent an important part of the Christian enterprise of this Central Union Church, should be mentioned the extensive repairs and additions made to the church building on Miller street during the year that has passed.

The result has been a substantial gain in convenience and in seating capacity, a change much appreciated by the occupants, who meet there for divine service each Sunday morning, and who likewise come together at the same place for Sabbath school in the afternoon. This increase of seating capacity, however, has not been so great as to be much ahead of the growth of the school, and the time is close at hand, if it has not already arrived, when still greater accommodation will have to be provided in order to give the classes that elbow-room, freedom and separation from each other which are required for efficient class work.

As an offset to the loss sustained in the school by the departure of Miss Arcina Fernandes to her home in Illinois, should be mentioned the reinforcement of the school's strength by the arrival of Miss Laura Pires from Jacksonville, in the same State, who comes well equipped mentally and morally to carry on the work done by her predecessor in conducting the kindergarten during the week, and in helping to conduct the primary department of the school on Sunday.

She was accompanied by Mrs. Tarbell and by John Ferreira, her brother, to the latter, both of whom have strengthened the school by enlisting as teachers.

The recent departure of Mary Ferreira to Ewa, to take a position as teacher of a Government school newly established in that district, while to be reckoned as a loss to the Portuguese Sabbath school in Honolulu, from a higher point of view is to be counted a great gain, as being a practical illustration of the old proverb: "There is that scattereth abroad yet increaseth." She goes forth with the expectation of soon being able to start a much-needed Sabbath school work in the district that is to be her home.

Among the public exhibitions and entertainments which the school has enjoyed during the year, largely as a result of the bounty of this church, should be mentioned the Easter and Christmas festivals, which were occasions that emphasized the dramatic and lyric talent that naturally belongs to the Portuguese people and at the same time marked the growth of the scholars in Bible knowledge.

The school also very much enjoyed the annual outing and picnic which it took in August at Independence park. On behalf of the school, the superintendent desires, at this late date, to return thanks to the superintendent of the Oahu Railroad for kind accommodation in the way of cheap transportation, and to the many friends who on that occasion, as well as on other occasions, freely gave their personal services or provided substantial material for entertainment.

I am informed by the treasurer of the Portuguese Sabbath School (Mr. A. F. Cooke), that the school has been aided by this church in providing the entertainments above mentioned to the amount of \$73, of which sum a small balance still remains unused, which it is proposed to use in the purchase of books for the school.

The collections made by the school during the year amount to the sum of \$47.61.

I am happy to state that Mr. William A. Bowen has kindly consented to enter upon the duties of superintendent in my place.

N. B. EMERSON. Honolulu, Jan. 29, 1895. After benediction by the pastor, the meeting adjourned.

WHARF AND WAVE.

DIAMOND HEAD, Jan. 30.—10 P.M.—Weather, clear; wind, south.

The bark Paul Isenberg will leave today.

There is very little sugar at the wharves now.

All the island steamers are away at their various ports now.

The bark Martha Davis is at Dillingham's wharf. Three vessels are there now.

There are four vessels due here now from San Francisco and one from Liverpool.

The German bark Paul Isenberg has finished loading coal and will leave today for San Francisco.

There was very little work along the water front yesterday, aside from that carried on at the Australia's wharf.

W. K. Vanderbilt has been awarded by the Master in Chancery at Boston \$225,000 against the Metropolitan S. S. Company, as damages for the sinking of his pleasure yacht Alva.

BELFAST, Jan. 12.—The Harland Shipbuilding Company are in negotiations with a Liverpool shipbuilding company for the construction of two Atlantic line steamers, each to be 1000 feet long.

A large diamond fish, weighing about a hundred pounds was harpooned by one of the men on the tug Eleu yesterday morning. The fish has been about for three or four days and two or three attempts have been made to harpoon it without success. It required the combined strength of three men to get the fish out of the water.

BARK CALIFORNIA.

One of the Pioneer Fleet Wrecked Off the Coast of Peru.

SAN FRANCISCO, Jan. 17.—A dispatch has been received in this city reporting the total wreck of the bark California on the rocks near Pacasmayo, Peru. The California is the first vessel that came around the Horn with a delegation of miners who had decided to cast their fortunes in the new Eldorado. This was in 1848. The vessel was then a steamer, but about 1887 she was converted into a sailing vessel, and placed under command of Captain Davis, who remained on her for several years. On Admission Day, 1874, all the pioneers of the State who came to the coast on the California held a grand jubilee and formed a society, which to this day holds its annual meetings and celebrates the date of their advent to the State.

The California was built at New York in 1841. She is owned by Nicolas Richard of this city. She left Port Dadlock some weeks ago for Peru with a cargo of lumber. The cargo was valued at about \$3000 and the vessel at \$5000. Both are insured in a sum total of \$5000. All of the crew of the vessel were saved.

A Woman's Wit Saved the Ship.

Captain Williams, commanding the schooner Isiah Hart, now in port from Trinidad, laden with asphaltum, tells of a novel, but unpleasant, experience had on his voyage north to this port, which caused them to be without lights for three nights, the result of an accident to the barrel containing the kerosene oil. At sundown, when the steward went to fill the lamps he found the bung out and the barrel empty, the contents having run down into the hold.

This was on the night of November 24th, and in a sea alive with passing craft. The Hart was in imminent danger of being run down at any moment, but the vessel was navigated in safety, and when daylight came Captain Williams thought he would have no trouble in signaling a passing vessel and getting a fresh supply. To his astonishment, when daylight came the vessels had all disappeared. There was not the sign of a sail and night fell once more. The next morning Captain Williams' wife conceived the idea of making oil from the pork drippings, or what is known on shipboard as slush, which is used for oiling the masts. And this was done.—Philadelphia Press.

Little May Bentley

Born a Genius

Disease Threatens to Cut Short a Noble Career

But Hood's Sarsaparilla Restores Good Health.

Little May Bentley is an accomplished elocutionist and natural born speaker of only 12 years of age. She is the only child temperance lecturer before the public. Her genius, however, did not exempt her from an attack of a disease of the blood. Her own words best tell the story: "C. I. Hood & Co., Lowell, Mass. I heartily join with the many thousands that are recommending Hood's Sarsaparilla. I had been troubled from infancy with gatherings in the head. I was compelled to leave school upon the doctor's advice. He thought it was the only thing to save my life, but I

Continued to Grow Worse.

I was persuaded finally by a friend to try Hood's Sarsaparilla. The use of one bottle acted effectually upon the blood and I began to improve. After the use of three bottles the gathering ceased and I am cured of my former trouble. I owe my life and will always remain a true friend to Hood's Sarsaparilla." National Cane Shredder

(PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS)

Mr. John A. Scott, Manager of the Hilo Sugar Company gives the following wonderful record of the working of the NATIONAL CANE SHREDDER, which was erected by their works at the commencement of the crop just harvested:

"During the past week the Hilo Sugar Company's mill exceeded any of its former records by closing the 125 hours grinding with an output of 3000 tons. This is fully 10 per cent. more than the best work of former years.

"The three roller mill being 26 in. by 54 in. and the two roller mill 30 in. by 60 in. The first mill doing this amount of work in an efficient manner and with great ease, compared with work on whole cane, owing to thorough preparation of the cane by the National Cane Shredder, recently erected by the Company. And by its use the extraction has been increased from 3 per cent. to 5 per cent. on all kinds of cane, and in some cases 80 per cent. has been reached; the average being 75 to 78 per cent., according to quality.

"I continue to find the megass from shredded cane better fuel than from whole cane.

"The shredder has been working day and night for seven months and has given me entire satisfaction, having shredded during that time about seventy thousand tons of cane, and a large part of it being hard ratoon.

"The shredder and engine require very little care or attention."

Plans and specifications of these shredders may be seen at the office of

Wm. G. Irwin & Co. L'd.
