If you have passed our store at night during the past week, you have noticed lights burning and the force of clerks at work opening boxes and cases and marking goods. The customers took all of the time the clerks had during the day, and the only opportunity we have had to get to bed at night is an after dinner nap.

Lots of novelties have been brought in by recent vessels from the Coast and we are already ready for our spring campaign. The beauty of our novelties lies in their usefulness; there's no wear out, and no one ever figures a want. The Primus oil stove is the best thing we are able to reach, and it is destined to revolutionize the cooking industry. It burns nothing but kerosene oil and on the principal of gasoline but without the danger. The Primus will boil water in three minutes.

Many green-bone cutters is not much use anywhere but in the pulpit and house, and there it is a necessity. No other store in Honolulu handles this article. Soap is the cleanest in the kitchen, unless a soap saver is used. We have made them of wire that will not rust.

The Crown self-basting pans are well known as not to require moisture, butter, or anything that we sell them. The same thing of course with our iron picks—nothing like them have ever been sold here for the money or convenience. Exterions toast forks belong in every house where toast is eaten.
