STARS ARE OUT

Team Will Not Be in the 1898 Base Ball League.

SEASON OPENS APRIL 9

Honolulu—Regiments—Unions—Perhaps a Change of Grounds. Meeting a Lively One.

A meeting of the Honolulu Baseball League was held in the room of the Chamber of Commerce early yesterday afternoon. There were over 20 present. H. M. Whitney, Jr., president of the League, was in the chair. In the absence of the regular secretary, Lionel Hart was chosen secretary pro tem. By general consent, the reading of the minutes of the last meeting was dispensed with and the League proceeded to business.

Captain Coyne of the Regiment team stated the purpose of the meeting and announced that the Regiment team was in the field for the 1898 season.

President Whitney said he saw no reason for the formal reorganization of the League as there were enough of the representatives of last year's teams present at the meeting to do away with the necessity for such action.

J. O. Carter, Jr., manager of the Star team of last year, announced that he could not speak positively as to the position of the Star players. Perhaps they would and perhaps they would not, enter the League. They would have to hear of certain things within the next fortnight before they could decide finally. However, he did not think there was any chance for the Stars entering again this year.

President Whitney stated that this postponement of necessary work was not right. Enough notice had been given to allow the Stars to come to some definite conclusion already. If that team could not enter, the League would try to find another to take its place at once.

Captain Thompson announced the fact that the St. Louis team would not enter the field this year. Another had been substituted in its place.

Captains Coyne and James Thompson stated that they were not in favor of any further delay. The formation of the League of 1898 should be proceeded with at once. Captain Coyne moved that the old league be disbanded and the new league organized. This was unanimously carried.

Captain Coyne then renewed his announcement of the entrance of the First Regiment team in the season of 1898.

Chris. Willis announced the entrance of the Honolulu team and Fred. Goudie, appearing as manager for the Union team, stated that that team was ready to come into the League. With this announcement, there was silence for a few moments when the motion was made and unanimously carried that the entries close and no other teams be admitted. This shuts out the possibility of the entrance of the Star team.

The officers of the new League were then chosen. The result was a reelection of H. M. Whitney, Jr., as the president and Chan Wilder as the secretary and treasurer.

On motion of Captain Thompson, the playing rules of 1897 were unanimously adopted.

Captain Coyne echoed the sentiments of all the delegates present when he suggested that a committee of three be appointed by the chair to confer with the Association for the purpose of getting that body to grant the teams a larger percentage of the gate receipts. In case they could not get any terms, he was in favor of securing from the Government, the old baseball grounds at Makiki. A subscription could easily be raised for the payment of the expenses of the teams. He did not believe in the Association taking so large a percentage as last year. Captain Coyne then put this suggestion into the form of a motion which was carried unanimously. The following committee was chosen by the chair: Captain Coyne, manager of the Regiment team; James Thompson, captain of the Honolulu team and Fred. Goudie, manager of the Union team. They will report at a meeting to be called not later than the 15th of this month.

Captain Coyne, in speaking about umpires, said that these officials had not been all that could be desired last year. He was in favor of selecting some competent man and paying him a salary for his services. In case he

did not suit, he could be given his walking paper and another umpire secured. It was suggested that the matter of umpires be left until later as there were other matters that should be settled first.

After a great deal of talk it was finally decided to begin the season of 1898 on the 9th of April and that the schedule should be twenty-one games. J. B. Gorman of the Regiment team spoke about the advertising. The newspapers should be paid for advertising the games. Without the support of the newspapers, the crowds could not be attracted to the field to see the games. The matter of getting passes on the tram cars for the players was also suggested.

Along in this same line Captain Coyne suggested the appointment of a man by the three teams, whose duties shall be to see to all the advertising and matters of that kind and who shall assume somewhat the position of a general manager. The Association had no such a man. Besides that it was necessary to have a man to whom all protests can be referred. Nothing was done in this matter by the League and the meeting adjourned subject to the call of the president, the meeting not to be put off any later than the 15th of this month.

After the meeting, the captains of the various teams got together and drew lots for the first games of the season with the following result: First game, Honolulu vs. Union; second game, Union vs. Regiment. The remainder of the schedule will be arranged later. Some of the games will be played on holidays and it will require a special meeting of the captains to decide on the remainder of the schedule.

Following is the make-up of the teams as arranged at the present time: First Regiment—Hennessey and Gorman, (Captain), pitcher and catcher respectively; Harry Wilder, first base; A. H. Moore, second base; Percy Lishman, short-stop; G. A. Bower, third base; A. Duncan, right field; H. C. Davies, left field; F. Kiley, center field.

Union (positions not assigned)—Mangel Sebastian, M. K. Sylva, M. V. Souza, (Captain), S. Kahoiwai, J. Akim, M. S. Souza, J. Stone, J. Bento, Geo. Lewis. Substitutes: J. Tavaez, C. Aiwohi and M. Karossa.
Honolulu (positions not assigned)—D. Dayton, B. Lemon, Chris Willis, James Thompson, (Captain), S. Mahuka, Geo. Clark, Tom Pryce, C. Kaanoi, R. Pahau, Kaaua, Wm. Ahia and Chris. Holt.

With the Cabinet.

For more than four hours yesterday the Cabinet was in session. All of the work was by way of preparation for the Legislature, which is to sit next week. Most of the time of yesterday's session was spent in consideration of the several appropriation bills that will go to the Senators and Representatives. Mr. Damon, Minister of Finance, presented his budget and made explanations.

A Crossing Alarm.

Superintendent George Dennison has just placed a bell alarm at the Oahu Railway crossing leading to the prison and the Iwilei district. A loud clanging is started automatically when a train is a hundred yards or so from the crossing and continues till all possibility of an accident is gone. All the Iwilei and prison people are much pleased with the improvement. There had been no accidents, but it was difficult to say when there might be one.

The Resignation.

A Central Union business session was held last evening following the regular mid-week prayer service. The first action of a formal nature was taken on the resignation of Rev. D. P. Birnie as pastor. Very general regret was expressed over the determination of Mr. Birnie to leave. The matter will now proceed to a conclusion in accordance with the rules of the society.

"Manoa" At It.

John Sylva (Manoa), just recovering from his accident of ten days ago, is in hard training for a trial at George Martin's record for the third of a mile paced flying start. Martin, paced by Terrill and Whitman, made it in 37 1-5 seconds, the same as Sharick, and will try once more, hoping to chop off a second. Manoa, in work last evening, paced by Jones and Bilmartin, made the third in 36 4-5.

More Swipes.

Early last evening, Detective Kaapa went down into Kakaako and there succeeded in arresting three more people for selling swipes. Two of these are natives and one is a Chinaman. The total swipes arrests for yesterday were seven. Kaapa is creating a small epidemic.

COUNSEL HAS ASAY

Attorney Differs From Judgment of the Court.

THE KAUAI MURDER CASE

Mr. Robertson Further Insists On His Points—Alleges Error in Two Courts—Instruction—Jury.

MR. EDITOR:—In this morning's Advertiser, you favor the public with an editorial on the subject of "The Kauai Murder Case," the object of which seems to be to assure your readers that the defendants in that case received "a full and most impartial trial," and that no errors have been committed by either the trial Judge or the Supreme Court.

Permit me brief space in which to differ with you.

You refer more particularly to the point as to whether the trial Judge was wrong in instructing the jury that they must convict the principal defendant, Kapea, if at all, of murder in the first degree.

Our statute says that "murder is the killing of any human being with malice aforethought, without authority, justification or extenuation by law, and is of two degrees, the first and the second, which shall be found by the jury."

But in the face of that express provision, the Supreme Court approved of the degree in this case being found by the Judge who, in effect, told the jury that if the evidence proved anything, it proved murder in the first degree, and that they could not, therefore, convict of murder in the second degree. The effect of the decision is to nullify, to a large extent, if not completely, the last seven words of the statutory provision above quoted.

Furthermore, under our statute (Ch. 56, 1892), the jury are the exclusive judges of the facts in cases tried before them. It is their undeniable prerogative to believe as much or as little of the testimony as they, upon their consciences, may see fit. In no case can they lawfully be compelled to believe either all the testimony or none of it, for the law gives them the right, and it is their duty, to disregard so much of the evidence as they may consider unworthy of credence. Yet in this case the Judge told the jury, in effect, that if they believed that a murder had been committed they must also believe that it was done with deliberate premeditation, and should therefore convict in the first degree—thus forcing the jury to give effect to all the evidence when it was their right to reject so much of it as they disbelieved.

You say that "the opinion of the Court is sustained by many decisions of the Federal and State Courts." But such is not the fact. There is no Federal statute dividing murder into two degrees and allowing the jury to find the degree. And no State Court decision, so far as I am aware, under a statute like ours, sustains the position taken by our Supreme Court. On the contrary, the Courts of Pennsylvania, Ohio, Connecticut, Nevada and North Carolina, have repeatedly taken the opposite view in construing statutes worded substantially like ours, holding that for the Judge to determine the degree of murder as was done in this case is to trespass on the functions of the jury.

Our Court seems to have confused the point here considered with another one that was raised, for in discussing this point the Court quotes the instructions of the trial Judge in regard to aiding and abetting and ignores the instructions given on the subject of the degree of the crime.

The change in regard to aiding and abetting presented a question of equal importance.

The theory of the prosecution was that Kapea shot the deceased while his cousin, Iokepa, held their horses near by. Kapea's defense was an alibi. He claimed that he was at home at the time the murder was committed. There was absolutely no evidence in the case that Iokepa committed the murder and that Kapea was present assisting. Nevertheless, the jury were told that if they believed that Iokepa killed the deceased and that Kapea was present and aiding and abetting they should convict Kapea of murder in the first degree, thus allowing the jury to convict Kapea upon either of two theories, when they could properly have convicted upon one theory only. The Supreme Court holds that the instruction

was proper because there was a conflict of testimony as to the ownership of the pistol that was supposed to have been the one used in committing the deed, and also because Kapea did not know where Iokepa and his brother Johnny were on the evening of the murder. How in the name of common sense the fact that there was a dispute as to who owned the pistol could tend in the slightest degree to prove that Kapea aided and abetted in the murder is more than several members of our bar can understand. And the fact that Kapea testified that he did not know where Iokepa and Johnny went to that evening, instead of tending to prove that Iokepa did the deed and that Kapea helped him, does just the reverse.

I believe that our Court has done what other able Courts occasionally do—made a serious blunder. In my opinion the verdict of time will relegate the decision in the Kapea case to a place beside the case of the Queen vs. Lau Kin Chew, et al. (8 Haw. 370), and "In re Appointment of Cabinet," (8 Haw. 579), under the head of "Bad Law." But unfortunately for Kapea and Kaio, they will have, in the meantime, paid the penalty at the gallows.

One other point in the Courts' decision is worthy of notice, and that is the refusal to interfere with the action of the prosecution in imprisoning its principal witnesses and refusing access to them by defendants' counsel. If two witnesses can thus be rendered inaccessible, then every witness who knows anything about a case can be disposed of in the same way. If this practice is allowed to continue by way of supplement to the cowardly quizzing process which the police are so fond of subjecting prisoners to, we might as well repeal at once the presumption that every man is innocent until proven guilty, and compel every prisoner to prove his innocence or take the consequences.

A. G. M. ROBERTSON.
Honolulu, February 9, 1898.

[The above communication is printed only in the interests of "free speech." The points made by Mr. Robertson are those made in his brief, and a fair tribunal, regardless of human life has overruled them. The discussion is therefore at an end. The public are in no way whatever in a position to judge of the force of these points, unless they read also the points made by counsel for the Government, and besides that, read the full text of the opinion of the Court. The common sense of the community, mistaken at times, has not faltered in the slightest in reaching the conclusion in this case, that the persons charged with the offense are clearly guilty.]

With due respect to able and zealous counsel, we must say, that in a score of murder cases, of which we have had some intimate knowledge during the last 20 years, we do not recall one in which the counsel for the convicted party, naturally influenced by his zeal, believed that his client was justly or properly convicted. In the late celebrated case of Carlyle W. Harris, convicted and executed for poisoning his wife in New York City, his counsel did not dare to put him on the witness stand in self-defense, and after his case had been thoroughly examined by 11 different judges, who were unanimous in convicting him, his counsel appealed to the public on exparte statements, and petitions signed by many thousands of people asked for his pardon on the ground that he was innocent.

It is pretty safe to stand by our judges in such cases. If they do not know their business, surely the public don't know it.—THE EDITOR.]

A CHANGE NEEDED

In Method of Preserving the Court Documents.

Now in Wooden Cupboards—Fire-Proof Vaults Recommended By Chief Justice.

In his report, now in the hands of the printer, Chief Justice Judd will recommend that suitable and adequate provisions be made at once for the preservation of the Court documents and records. The present conditions at the Judiciary Building are considered scandalous. Three sides of the Circuit Clerks' office are lined with cupboards. There is nothing pretentious about them,—nothing is pretentious in appearance in that very much unswept building. They are ordinary wooden cupboards about four feet square, with folding doors and an arrangement within resembling post office boxes, for containing documents. The cupboards were originally placed in rows, side by side. When the first were filled, others were added as fast as it was necessary, until a corner of the room was reached and then another row was begun above the first, until now they are three deep and the clerks have to climb a step-ladder to reach the top row. At night the cupboards are locked. Each has its key, which is left in the lock. There is apparently no reason why the key should not be left in the lock as anyone wishing to pry open the doors could easily do so with an ordinary large bladed knife.

These wooden cupboards are the safety deposit vaults of the Judiciary Department. In them are contained the accumulated documents of nearly 50 years of litigation, in fact the papers filed in all the cases brought before the Court since its establishment in 1852. There are filed no less than 5,000 law cases, 4,000 probate cases, 3,000 divorce cases and 1,000 equity cases. All of them are original documents, the majority of them are the only copies in existence, there have been some abstracts into record books which are preserved in the cash safe. Many of the documents are very valuable, especially in the equity and probate cases, as they concern the titles to land and other property, and were they lost or destroyed might involve the owners in an endless search of records, with a possible loss of the property itself.

Constant reference is made to these documents. The business of the Courts is large and additional suits necessitate an examination of previous cases. As term time approaches one clerk is very frequently kept busy climbing the ladder in response to a request for permission to examine the papers in a suit, or returning other papers to their proper places. With the additional cases of the present term a new cupboard must be added and the documents rearranged to fill it.

It is thought that there is little danger of fire in the Judiciary Building. Should one get well started it would probably be with great difficulty that even a small portion of the records could be saved. At present it would be an easy matter to destroy or mutilate a document even while the clerks are present.

Chief Justice Judd has been making recommendations, similar to the one he will now make, for the past ten years. He has even had consultation with the proper department on the subject and has suggested plans. Just off the clerk's office is a long lobby which is used only as a passage to the hallway. The Chief Justice said a few days since that this lobby could easily be converted into a fire-proof vault by building brick walls from the foundation of the building. The shelves could be of iron and the height is sufficient to permit two floors if necessary. This would furnish ample room for storing documents for many years to come. The documents would then be on the same floor with the court room and close at hand. Were the papers stored in the vaults in the Assessor's office on the first floor, as it was suggested some time since by the Government, it would be necessary for at least one clerk to be in attendance all the time and at the same time inconvenience the Judiciary Department.

THE LAW MAKERS

Beginning of Session Fixed, But Ending Indefinite.

THE CONSTITUTION ON TIME

Not Longer Than Ninety Days—Extensions—Powers of Lawmakers. Restrictions Placed—Money.

It is now pretty generally known that the Legislature will convene at noon on Wednesday of next week. Unless a message is received from President Dole by the steamer today, the address to the Senators and Representatives now being prepared by Acting President Cooper, will be heard as the voice of the Government and the advice of the Chief Magistrate and his associates in the conduct of executive affairs.

When will the session end? This question concerning the Legislature has been asked a good many times. It would take a rather wide individual to make anything like a correct answer, even by approximation with weeks as leeway. A couple of weeks might suffice to handle the business. It is of record abroad, however, that Legislatures generally sit right up to the time limit. The Hawaiian Constitution says on this subject:

Each session of the Legislature shall continue not longer than ninety days, excluding Sundays and holidays.

Provided however, that the President, with the approval of the Cabinet, may extend such session for not more than thirty days.

A prominent Government official says it is quite safe to assume that even in the event of annexation, the Legislature will continue in session for some time. It would then be required to revise several Hawaiian statutes and would enact a number of laws "not in conflict with the constitution of the United States." After the annexation treaty is passed at Washington there must be an exchange of ratifications finally and the whole process of altering the conditions will occupy several months.

These are some of the restrictions placed on the Legislature and some of the privileges given it by the fundamental law of the Republic:

The Legislature has the power to enact wholesome laws not inconsistent with this Constitution.

The first regular session of the Legislature shall be held on the third Wednesday in February, 1896, and biennially thereafter, in Honolulu.

Neither House shall adjourn, during any session, for more than three days, or sine die, without the consent of the other.

If either House shall so adjourn without the consent of the other, the other House may proceed to legislate as though it were the sole legislative body, and may exercise the full powers of the Legislature.

Special sessions of the Legislature shall be held at such times as may be indicated by the President in manner herein provided; or upon the call of the Presiding Officer of the Senate, when requested in writing so to do by two-thirds of the members of the Senate; or at such other times as are hereinafter specially provided.

Appropriation bills can be introduced by members of the Cabinet only. To become a law an act must be voted for by two-thirds of the "elective members."

The President has the right of veto. The Legislature consists of a Senate and House of Representatives, with a President and Speaker respectively and other officers. W. C. Wilder will doubtless continue as President of the Senate. John Lot Kaulukou will probably be Speaker of the House. Members of the diplomatic and consular corps and officers of the navies represented in port will be invited formally to attend the opening of the Legislature next week.

Prompt Payment of a Big Sum.

Dec. 4th, Rouse Hazard & Co. mailed their attorney a Chicago draft for \$17,810.96, payable to the Western Wheel Works, that being the amount which had been in litigation between the two Companies for several years. The ability of Rouse Hazard & Co. to forward this large sum just at this season of the year, when the pay rolls and other expenses of Bicycle Manufacturers are very large, and receipts very small, is certainly a most convincing evidence of the solvency of one of the oldest bicycle concerns in the United States. Of the manufacturers and jobbers of bicycles who were in business when Rouse Hazard & Co. entered that line, more than 18 years ago, the number that still exist can be counted on the fingers of one hand. Rouse Hazard & Co. report that their present prospects are the brightest of any time during all the years they have been in business. They now have bona fide orders from gilt-edged concerns for a larger number of machines than they ever had orders for at any one time. Their export trade has been growing in all parts of the world, and if any one of the several large export deals they have in sight is closed, they will have orders for all the wheels they can possible turn out during the season of 1898.

The next Australia will bring us a full line of these wheels, Sylphs and Overland Specials. They will have more than their share of up-to-date features, and will make up the most elegant line of 1898 wheels that will

be seen here this year. We shall also receive a line of "KENSINGTONS." It will pay you to wait.

Can't be done!

Try to make some baking powder yourself. Buy the cream of tartar and soda, mix them in the right proportions.

Then imagine that you are the manufacturer, and have to make a profit, and besides, sell it to the grocer at such a price that he can make a profit too.

Ask your grocer to sell you his best cream of tartar, see what it costs, and see if you can make pure good baking powder for 25 or 30 cents a pound.

It can't be done.
Schilling's Best—at your grocer's—is the best of the right-price baking powders.

W. N. ARMSTRONG, - EDITOR.

THURSDAY : : FEBRUARY 10.

GOING BACK TO THE SOIL.

The Typographical Union of New York city undertakes to deal with the surplus labor among its own members in a very rational way. It has purchased a large tract of land in Pennsylvania, suitable for diversified farming, and proposes to colonize it with the surplus laborers of the Union. Some brainy fellow among the printers, is pushing a scheme which the social theorists are always talking about, that is, to get men out of the cities back upon the land, where if any sort of intelligence is used, a living may be made. The cities are the political sores on the American body politic. The problem is to preserve the equilibrium between the city and country forces. A body of men, workingmen, undertake it. Of course its success depends upon the sagacity of the men who supervise the movement. If it succeeds, on a large scale, it will be another piece of evidence of the steady evolution of social life towards the good, whenever and wherever men try to find out what the real difficulties of the social problems are.

It is in intelligent work of this kind that the radical "socialists" are silenced in their attacks on capital and wealth. The owner of an acre of well tilled land is a conservative. The 6,000,000 of small farmers in France are anti-socialistic. The cities are filled with men without homes, men who have no rule in the social and moral life of the state.

One may indulge in extreme optimism regarding the future of the United States, when a body like the Typographical Union does some practical work in the place of shouting over the wrongs of the workingman.

DEFEATING ITSELF.

Although the N. Y. Evening Post rejoices in saying nasty things about us, it heartily advocates doctrines which, if generally adopted, would compel annexation in spite of its angry protests. The Post shows conclusively that the territorial expansion of Great Britain is entirely due to the demands of commerce. Foreign stations are occupied simply as commercial outposts, and are armed simply to keep off enemies.

Then the Post shows that the American policy of building up home markets, and the keeping out of foreign goods, is all wrong; that it forbids American ships from bringing cargoes home from foreign ports; that it prevents other nations from prospering and kills off their means of making money with which to buy American products; that it treats foreign nations as if they were simply oranges to be sucked, and then thrown away. The Post claims that the contrary policy would make American ships abound on the Pacific, and would restore the splendid commercial marine which was killed by the protective tariff.

The logic of this argument is that if the condition existed which the Post desires, the American merchants would mob any man who opposed annexation. America would demand annexation with unanimous consent, for the possession of this great exchanging depot of the Pacific. The existence here of a half million of Asiatics would even be an advantage to the United States, if they consumed American goods. The American merchant wants money, just as our merchants want it, and he will take it from any race that will part with it.

With a large American commerce in the Pacific, the Post's arguments against annexation, would be the opposition of a grass-hopper to a cannon ball train.

The economic doctrines of the Post, the Nation and Harper's Weekly are entirely in the line of territorial expansion. Their political doctrines, confined to Hawaii, are opposed to it. Fortunately for us, the American merchants are beginning to watch the rim of the dollar, just rising like the rising sun, above the horizon of the Orient. In order to snatch that dollar, there must be a foothold in these Islands. Will this be seen at the present hour in Washington?

A WILD EDITOR.

A man, under excitement, and cutting loose from the moorings of fact, is, as Artemus Ward said, a "funny cuss." Mr. Watterson of the Louisville Courier-Journal is one of them. Having taken an unusually large dose of gun powder and Kentucky corn juice, he tells his readers what he thinks about Hawaii. In his hatred of her, he even adores the savage Indian. He says:

"There is no naming the Indian with the foul children of the archipelago (Hawaii) who were born with the cholera, nurtured on poison and doomed in the cradles of their remotest ancestors to die of leprosy. We could meet and beat the Indian in the open field. He fought well and he fought fair. But we cannot fight the cholera with rifle cannon."

When he says the American Indian "fought fair," he knows perfectly well that he contradicts every page of history on Indian warfare, from the massacre of Wyoming to that of General Canby. He is like the small boy, who celebrated the Fourth of July by making a small bonfire at the corner of his father's house, and then set the house on fire in order to give his patriotic bonfire a good send off.

Mr. Watterson makes a fire of a hundred volumes of Indian history in order to cast a lurid light over our "miserable condition."

Now it would be exactly as truthful for us to say, in retort, that every child in Kentucky was brought up on a decoction of whiskey and tobacco, that the noted blue grass of that State came from seed of the grass on which King Nebuchadnezzar fed; that every Kentuckian was a lineal heir of that herbivorous monarch and in his leisure moments, got down on all fours and reverently chewed it, if he was not drinking whiskey and chewing tobacco.

On the whole, lies get "nailed" in the long run. Congressman Berry has a heavy hammer, a pocket full of nails, and a vigorous arm. "Truth crushed to earth will rise again," and when he does, and gets his breath, will not hesitate to imitate the noble Indian

The Great Medicine that Gives Nerve Strength

Hood's Sarsaparilla Makes the Blood Rich and Pure, Creates an Appetite and Restores Health, Vigor and Vitality.

"I feel that I ought to write a few words in praise of Hood's Sarsaparilla, which has done great things for me. I was in a delicate condition and was sick at my stomach and constipated. I tried remedies highly recommended for female weaknesses, but the medicines brought on other troubles. I was so weak I could not attend to my household duties, and I then determined to try Hood's Sarsaparilla. After I had taken this medicine a short time I began to gain strength. I

Grew Stronger Each Day

until I was able to work all day without any inconvenience. I have taken Hood's Pills for constipation, and I am better today than I have been for five years. Since taking Hood's Sarsaparilla and Hood's Pills I feel rested in the morning. I am less nervous and am sure I have richer and purer blood. I have always been bothered with scrofula, but now I am rid of it. Before my last child was born I took Hood's Sarsaparilla, and my girl baby was fat and strong, while my other child was not well and lived to be only two years old." Mrs. E. P. DEAL, Box 419, Missouri Valley, Iowa.

JONES VS BILMARTIN.

New Cyclomere Champion Will Race the Visitor.

It will be Jones vs. Bilmartin, now, Terrill having been disposed of so easily by the gleeful racer. The distance will be five miles and there will be pacing by tandems and a triplet. Bilmartin challenged the winner of the gift enterprise match of Tuesday evening and found that Jones "was willin'." Details will be arranged today and the match fought out on Tuesday or Wednesday evening of next week.

Of course Bilmartin is a veteran at the game of five miles or over. Jones has been in a few races of that measure and has noticed a good many as they were going on in and around San Francisco. Jones has used good generalship in all this racing and should be able to go the five miles all right and have reserve for a battle royal down the home stretch.

It may be necessary to pull two or three men from the ranks of the amateurs for the acting. Good, cool riders are needed for this work. The requirement is not so much speed as steadiness, for uneven pacing will kill the best rider.

Jones said last evening, that he was pleased to have the opportunity to meet Bilmartin and would try his best to vanquish the visitor. As to conditions, he only wanted what was right and believed there would not be a great deal of trouble in fixing on details.

SUICIDE.

A Plantation Japanese Laborer Hangs Himself.

At about 6:15 last evening, a telephone message from Ewa plantation to the effect that a Japanese laborer had committed suicide at that place, was received at the police station.

It seems that when the Japanese laborers returned from work in the fields they found the fellow hanging by a rope suspended from one of the rafters in his house. From all appearance, he must have been dead for some time. The body was cut down and prepared for burial.

The Japanese was in the city last week and left for the plantation some four days ago. There he found employment and seemed to be perfectly contented. Even on Tuesday he was out in the fields working. No motive for the suicide has yet been found.

The Favorite

IS THE FAVORITE place for the finest liquors only, and the best distillers of the United States, Canada and Great Britain are represented. Best brews of Beer, either on draft or in bottles, may be had at all times.

W. M. Cunningham, Proprietor of this well-known resort, has been in the business for many years, and is a connoisseur in liquors. His establishment is always orderly, and, with the services of his assistant, Mr. Thompson, customers are promptly supplied. Bethel and Hotel streets is a Favorite corner for the lovers of cold Beer or fine Wines and Liquors.

Three Baby Boys.

The wife of Ah Chong, Chinese sexton for St. Andrew's Cathedral, gave birth on Tuesday night to triplets—boys. There are now four male children in the family. The three new boys and the mother, who is an intelligent Christian woman, are doing well. Ah Chong has a host of friends all over town and has received many congratulations and messages of aloha for the triplets.

New Theosophical.

A beginners' class in Theosophy will be started this Thursday, at 7:30 p. m., at the residence of Dr. Shaw, King street, near Mr. Bowler's. All who intend to join are requested to be present or to communicate with Dr. A. Marques, telephone 550. Quite a number of adherents have already been received. The text book used will be "Ocean of Theosophy."

Police Court.

In the Police Court yesterday there was a large number of natives up for selling swipes but their cases were all put off until today. Detective Kaapa has four more natives to add to the list. These were caught in Iwilei yesterday.

Pahoa and Hulu, the two Manoa hoodlums, charged with assault and battery on a Chinaman, were discharged.

Almost a Big Fire.

Frank Godfrey found a trash pile fire back of the Fort street Odd Fellows building about 6 o'clock last evening. Instead of turning in an alarm Godfrey utilized a handy water tap and an oil can and did good service as captain and crew of a fire brigade. In a few minutes more, had not the fire been noticed, it would have been communicated to the frame buildings opposite Wall, Nichols Co.

Pua Again.

Pua, the long haired native of Kalalaw, was released from the Insane Asylum on furlough a few days ago, but was found to be still unsafe. In consequence of this, he was returned to the retreat yesterday. Some of the natives living near his home declare they saw him several times with a spear, a bible and a bundle of clothes walking about and talking to himself.

THE SAVING POWER

In every business is the correct representation of Goods sold.

Mistakes might occur, the possibility is there, but so is the eagerness to correct every mistake.

It is so at this store. That's what we're here for.

For instance: If you bought a fine

ELGIN, WALTHAM Or HOWARD WATCH

And for some reason or another it did not give entire satisfaction, no matter in what particular, we are happy to make an exchange, or as many as may be necessary, until we add to your happiness also.

Surprising how good a watch can be bought for

Ten Dollars

And more surprising how close the time they keep.

New styles reach us, as soon as out, often before they reach the Coast.

Supposing you discard your old one, and try a change?

THREE DECISIONS.

**Supreme Court Sustains the Cir-
cuit Court.**

The Supreme Court overruled the
exceptions taken to the Circuit Court
verdict in the case of Kaulahi vs. G. K.
Kaiopaha, et al. yesterday and de-
cided that a mortgagor is entitled to
possession as against all persons other
than the mortgagee and those claiming
under him. Payment of the mort-
gagee debt when or before it is due
revests the title in the "mortgagor
without a reconveyance.

The Supreme Court has overruled
the exceptions taken by Charlotte
Boyd to the verdict of the Circuit
Court in favor of John Gandall. The
Court holds that it is not contrary to
the Constitution for a Judge to pre-
side over a jury on a second trial of a
case, when on the first trial, the same
Judge presiding, there was a dis-
agreement of the jury and the Judge
had given no judgment. The action
of a jury in a former case affords no
rule for their action in the case before
them. Bribery cannot be inferred from
the expenditure by a juror who is a
poor man, in improvements on his
premises, without other incriminating
evidence.

The Supreme Court also overruled
yesterday the exceptions taken to the
overruling of a motion to arrest judg-
ment made by William P. Hickey in
the First Circuit Court. W. P. Hickey
was indicted for manslaughter in the
Fourth Circuit Court for the alleged
causing of the death of a Chinaman
employed in the cane field. In the
opinion of the Attorney-General, and
upon his motion to that effect, a
change of venue was granted on the
ground that owing to the excitement
at the scene of the action a fair trial
could not be secured. After convic-
tion in the First Circuit Court, the de-
fendant moved in arrest of judgment
on the ground that the Court had no
proper jurisdiction, that the case was
properly triable in the Fourth Circuit
Court, and the venue was changed
without sufficient reasons.

The Court holds that the motion in
arrest of judgment was properly over-
ruled. At the trial, the defendant
made no motion for change of venue
nor did he claim that he could receive
no impartial trial. The Court rules
that the change of venue is in the
sound discretion of the Court, and, if
such discretion is not abused, its exer-
cise is not ground for arresting judg-
ment.

TWO PAPERS.

**Paul Neumann and Thos. G.
Thrum as Historians.**

The public generally is invited to
attend a special meeting of the Ha-
waiian Historical Society to be held
tomorrow evening. The large assem-
bled hall of the Y. M. C. A. has been
secured in anticipation of an audience
of unusual proportions. These open
meetings are held when the Society
managers believe they have a feature
or attraction which the public should
share. Invariably those responding
to the general call have been enter-
tained and instructed and the Society
has become better known and more
popular.

There will be two papers by town
men on Friday evening. The authors
are well known citizens of ability and
with records of always giving some-
thing good for a public occasion. The
gentlemen are Paul Neumann and
Thos. G. Thrum.

Mr. Neumann modestly says he will
treat of an incident in the history of
the country. This incident is nothing
more nor less than: "The making of
the first treaty by Kamehameha I, the
first ruler of the Islands; a treaty offen-
sive and defensive, of amity and com-
mercial relations." The first country
with which Hawaii made a treaty was
the Argentine Republic, then—in the
first quarter of this century—just freed
from Spanish dependency.

Mr. Thrum's paper is certain to be a
treat. He has written upon old Hon-
olulu. Mr. Thrum is a regular reser-
voir of information and reminiscence
when it comes to chronicles of Hono-
lulu. He is the owner of hundreds of
valuable papers on the subject and has
culled from a number of the documents
for this occasion.

GLEE CLUB.

**Coelho's Company On Saturday
Evening.**

Coelho's company of native talent
will give its concert and specialty en-
tertainment at the opera house on
Saturday evening.

The boys have had on account of
the postponement of the concert, time
for more practice and are, in conse-
quence, in very good shape to give
the people some fine music. This is a
particularly good chance for strangers
to hear good Hawaiian music as sung
by the Hawaiian. Aside from the mu-
sical part of the program will be the
dramas which it is promised, will con-
stitute a feature.

Up On Hawaii.

The Tribune says: The Hamakua
portion of the Ooakala gulch new road
is nearing completion. When this cut
is finished people will be able to drive
from Maulua straight to Kawaihae or
Mahukona.

The new Ahualoa school, back of
Honokaa village, has been lately com-
pleted. The school has three rooms
and now houses over 150 children
from the homesteads. Mrs. Estep, as-
sisted by two other teachers is in
charge.

There is talk of forming a Forest-
ers' Club in town. A gentleman of
the order of Honomu is putting his
shoulders to the task and expects to
carry it through.

ROW AFTERMATH.

**Proposed to Discipline Two of the
Cyclists.**

There was all sorts of talk about
town yesterday about the brawl of the
evening before on Cyclomere track.
Tom King's side of the story was heard
for the first time. He says that the
Giles boys and one other rider delib-
erately pocketed him in the race and
that he heard one of the riders shout
plainly the signal to do this. He re-
gretted very much that he had been a
party to a "scene" in front of the
grandstand.

The two Giles boys, Damon and two
or three others signed an address or
agreement to the effect that they would
not ride on the track again till King
made amends. This document was left
with the management. King's reply
was that he expected the first concili-
atory move to be made from the other
side.

At some sort of a grand council held
yesterday by the management and a
few of the Cyclomere officials it was
practically decided to discipline both
King and Giles by suspending them for
a time. Unless there is an arrest or
alteration of judgment they will be
sent letters to this effect today.

The disposition of the more cool
headed friends of both Giles and King
and of the disinterested friends of the
sport is to put the affair out of the way
with as little friction as possible.
However, there is considerable bitter
feeling.

GOOD SHOES!
GOOD SHOES are health producers. Poor fitting ones not only torture the feet but look badly. Think of this when you start out to buy them. We show you nothing but what a first-class store ought to have, and our assortment of styles comprises everything desirable. Our prices are the lowest. We pick the good things out of the world's library of remunerative facts. And can view with complacency the feeble attempts of eager rivals to counteract our successes.

The Manufacturers' Shoe Co. BIG SHOE STORE.
WHOLESALE AND RETAIL SHOE DEALERS.

THE TARO PLANT furnishes a complete food on which man can live without other diet. No other food possesses this feature. Its merit as a food is told in the fine physiques of the Hawaiian.

TAROENA is a concentrated food made from taro. It is cooked, ready for instant use. It will keep without change. The ease by which this food will be assimilated by the weakest stomachs, places it in the front rank as a complete food for the invalid and the infant.

TAROENA has undergone a rigid test in the United States during the past year. It has been tried by physicians, in hospitals and sanitariums and proved beyond doubt to possess all the merit that we claim for it. Physicians are prescribing it freely in their practice wherever we have introduced it. Its value to the medical profession is evidenced by the letters which we are receiving from doctors. Some of the letters are voluntary; others we asked for.

Get our new direction leaflet. It tells more about Taroena. When you need a food for your baby, or a diet for yourself, when stomach is out of order, Try TAROENA.

For sale by druggists and grocers.

WHARF AND WAVE.

DIAMOND HEAD SIGNAL STATION, February 9, 10 p. m.—The weather is cloudy; wind, calm. Five-masted schooner bound in.

The schooner Defender hauled alongside Wilder's wharf yesterday morning.

The Mauna Ala went on the marine railway yesterday morning for the purpose of being cleaned.

The Edward May hauled alongside the Mauna Loa at the Inter-Island wharf yesterday and took on her sugar.

The former second mate of the Tillie E. Starbuck who came Honolulu on the Nuanuu, is now second mate on the Arago.

The Fort George is alongside the Henry E. Hyde at the fishmarket wharf taking on the latter's ballast, preparatory to departure.

The Alameda should be in from San Francisco at an early hour this morning. She will have quite a number of passengers for this port.

A five-masted schooner was telephoned late yesterday afternoon. She is from the southward and will, in all probability, be in this morning.

The J. A. Cummins sailed yesterday for her usual Oahu ports after another cargo of sugar. Her good record seems to be continuing indefinitely.

The W. G. Hall, Mikahala and Noeau are all expected in from Kanai ports some time during the day. The Hall will probably be in quite late.

The Kaena took out a very large cargo of general merchandise and coal for Oahu ports yesterday afternoon. So crowded was she for room that she was forced to leave part of her freight on the wharf.

The schooner Ka Moi was towed to sea late yesterday afternoon by the steamer Helene. She was to have gone in the morning but the wind was not right and she was forced to postpone going out until she could be towed by the Helene.

Cornell, first mate of the Fort George, is now first mate of the Edward May, while the first mate of the Edward May is now second mate of the Tillie E. Starbuck. The latter has made this change so as to get back to New York where his family resides.

The American barkentine S. G. Wilder, McNeil master, sailed for San Francisco with a full cargo of sugar yesterday afternoon. The American bark S. C. Allen, Johnson master, got away a little before the Wilder. There was considerable betting along the water front as to which vessel would reach the other side first. The Wilder seems to be the favorite.

The Arago, now in the stream, will haul alongside this morning for the purpose of taking on her last installment of sugar and will probably sail on Friday or Saturday with a full load for San Francisco. The Arago looks like a new ship entirely. When she first came into port from Westport, she was a sorry looking spectacle, but now she is one of the neatest looking vessels here.

The James Makee arrived from Kapaa yesterday morning with a cargo of sugar which she discharged into the Martha Davis. She sailed again in the afternoon for her usual destination. The James Makee reports as follows on sugar left on the Garden Isle: Kihaua, 6,200; Kapaa, 8,000; Lihue, 2,600; Hanamaulu, 3,600; Koloa, 2,500; Kekaha, 6,200; at various mills, 9,100. Total of 38,200, this not including Makawell and Waimea with which places the Makee could not get communication.

AUCTION SALE OF Lots at Waikiki!

UNLESS SOONER DISPOSED OF, on MONDAY, MARCH 7, at 12 noon, Mr. James F. Morgan, will sell the Leaseholds of Eleven of the Finest Lots on Waikiki Beach: The remaining term is about 22 years, and each Lot will pay \$30 per annum rent.
 It is time now to begin to prepare your Summer retreat at Waikiki. It is nearly impossible to get anything in that favorite locality and it is doubtful whether such a chance will ever again be offered. These lots are all in one block and are so arranged that each has an ownership on the beach, sufficient for bath houses and a lanai if desired.
 The 40-foot road opened from the beach to the fine macadamized street in the rear is a new and desirable feature: a water pipe runs down this road and each Lot is connected. Arrangements have been made with the

Water Works Bureau for a single rate for the lot and beach front.
 These Lots are all fenced, sidewalk built, and road in fine order. The location is healthy, and the sea bathing good. The block lies in Kalia, adjoining the Waterhouse premises.
 Do you object to a leasehold? Have you figured out the expense and actual cost? Do you know that you can have a beautiful home for the next 22 years at a cost, covering building, repairs, insurance, taxes, everything of from \$12.50 to \$25 per month? The lots are each ample for a family, ranging from 85 feet on the street and 190 feet deep to 95 feet on the street and same depth.
 Buildings already stand on two of the lots, which will be sold with the ground.
 Applications have been made for a few lots already. Now is your time!
