Favorably Considered By Committee-Speaker Reed May Not Oppose It.

A joint annexation resolution GEORGE R. CARTER, Mgr. has been introduced in the House of Representatives in Washington. The resolution incorporates the provisions for taking possession of the Islands made in the treaty sent to the Senate by the President.

> WASHINGTON, May 5.—The House Committee on Foreign Af fairs met today and considered various bills and resolutions re lating to annexation of Hawaji orable to annexation, but the meeting adjourned without defi nite action. The question will be considered again next Tuesday. It is said the Administration is pressing for early action. It is understood that if there should be a report from committee in favor of annexation the Speaker will not interpose any objections.

The chief fear is of a popular revolution, which everybody can see is rid got so alarmed at the attitude of the Republicans and Carlists that they frankly told Senor Sagasta they could not answer for order much longer.

The Barcelona authorities report a very serious condition of affairs there, the Republicans working upon the masses, who are discontented because of the rise in the price of all provisions and the closing of many factories in consequence of the loss of the Cuban and Philippine markets.

The Queen asked Senor Sagasta to remain in office. He consented to do so on condition that she would give permission to proclaim a state of siege in Madrid. Now martial law rules. Anyone circulating news about the war can be sent to a military prison. Court

cialists, one military, one Republican and one Independent paper have been seized and prosecuted by order of the military judges. If national feeling runs too high against Senors Sagasta and Moret, who really are in the most Navy Department Has Not Heard danger, the Queen probably will ask Marshal Campos to form a sort of government for the defense of the monarchy. The old marshal has told her that he will be ready to do so directly she sends for him. So the days of the SENSATIONAL REPORT DENIED Sagasta Cabinet are numbered.

ANXIETY ABOUT DEWEY.

Five Days Without News Makes Washington Think.

WASHINGTON, May 5 .- Although naturally anxious to hear from Commodore Dewey, the President and members of the Cabinet are not at all alarmed at the non-arrival of news of the Manila fleet. It is pointed out that the cable office is about 100 miles or more distant from the city and the connecting land line is in the hands of the Spanish, who, it is assumed, cannot be dislodged by the commodore with the force now at his disposal. The commodore it is said may have been compelled to send a slow vessel out, or he may be waiting to send news of the surrender of the island. In any event, the contingencies are such that no definite time can be fixed for the arrival

Nor are the President and his advisers disturbed at the situation of the Oregon and the Marietta. They have says: Four Spanish warships are reno fear that the Cape Verde fleet is en ported off the Barbadoes, prepared to route to intercept them as such a move intercept the Battleship Oregon. A would be the height of folly. In case naval battle is expected. of an attack it is confidently believed that the Oregon would sink at least one or two of the assailants, so that if the enemy were to succeed in defeating greater loss himself. This exchange the Spaniards are in no position to make. Although the Government has had no official news of the whereabouts ists it has returned to Cadiz as reported by the Lloyds. Wherever it is, the Government has no reason to hope that it will venture into these waters.

Dewey's Possible Fix.

CHICAGO, May 5 .- A special to the Journal from Washington says the fear that Dewey may be bottled up in Manila harbor is gaining ground. It is recollected that the entrance to Manila harbor is through a channel planted with mines. Dewey passed these in the night and no opportunity was given the Spaniards to fire them. Now if he has not forced a surrender of the city and gained control of the switchboards used in firing the submerged ex-Ladies will do well to replenish their plosives an attempt to leave the harbor by any of the ships composing the

Sensational Stories of Disaster Con-

demened. WASHINGTON CITY, May 5,-Navy Department officials are highly indignant at the San Francisco stories concerning the terrible loss of life of sailors on board the American warships at Manila. The officials say the dispatches were cruel and senseless and inflicted great misery on the wives, mothers and daughters and rel-

atives of the brave sailors of the fleet. The officials have about concluded news from Dewey directly today. They figure that presuming the dispatch boat sailed at the earliest moment after bombardment Monday evening and allowing three days for the passage the ship is not due at Hongkong or Mirs Bay until tonight. It is already tonight by our time in either place and possibly the McCullough or some dispatch boat is just entering the harbor. Other delays would occur before the receipt of a cable here, through many relay stations, so it is thought there is little chance of official news coming in during daylight

No Confirmation.

WASHINGTON CITY, May 5 .- No confirmation is obtainable of the various reports concerning the movements of Admiral Sampson's fleet. Persons supposed to share the confidence of the Administration declare that Admiral Sampson has gone to seize Porto Rico. while others, with equal positiveness, say the fleet has gone to meet the Oregon and escort her north. Still another report is to the effect that Sampson has gone to seize Matanzas, to use it as a base of operations. The officials absolutely refuse to make public the plans of the startegy board.

Another Prize.

KEY WEST, May 5.- The Spanish fishing smack Do Septembre was brought in last night by a prize crew from the Helena. She was taken eight days ago in Yucatan channel by the gunboat. Adverse weather was encountered, during which the charts were blown overboard, and the captors with their little prize cruised aimlessly about the waters of the Gulf until Tuesday, when the British steamer Jamaica was encountered and put them on their course.

Alfonso XIII Arrives. MADRID, May 5, 3 p. m .- It was announced officially today that the Spanish steamer Alfonso XIII., said to have troops and a valuable cargo on board, had arrived at Porto Rico. It was feared she would be captured.

Prisoners of War

WASHINGTON CITY, May 5 .- Secretary Alger has directed that the ten Spanish officers and the privates and non-commissioned officers taken from the Spanish steamer Argonauta, and now at Key West, be taken to Fort McPherson, just outside of Atlanta, Ga., for confinement until they are either exchanged for any American officers and sailors who may be taken by the Spaniards, or until some other method for their disposition is reached. Was No Quorum. It now turns out that there was no quorum at the meeting of the Hawaiian Tennis Association on Thursday afternoon, so that the business transacted then cannot be held as binding. According to the Constitution of the association it is necessary that there be at least one delegate from the following clubs: P. T. C., B. T. C., V. T. C. Punahou and Kamehameha. Only the Keys Fitted, Locks Repaired first three named clubs were represented at the meeting. It is easily enough seen that, although the requisite number, namely ten, were present, no business transacted can be considered as

Big Knots Swelled Up in Parts of Her Body-Where the Swelling Exists the Skin is Pink and There is a Pain Like a Bee Sting-The Case Puzzles Physicians.

From Herald, Batesville Ind.

Mrs. William Seib is the wife of a prominent citizen of Batesville, Indiana. A reporter recently called to interview her regarding her serious illness, of which he had heard so much. Mrs. Seib seemed to be in perfect health, having no indication of any recent illness. She is nearly fifty years

THE JOINT RESOLUTION.

These Islands may ride into annexation on the war wave. The introduction of the joint resolution for annexation at the present time, may be due, as we suggested several days ago, to the military needs of the country, without reference to the general merits of the case. Anyone acquainted with the temper of Congress will not be surprised if Congress flung aside its doubts, and with heated blood acted promptly and decisively. The lessons which nations learn most quickly are object lessons. Millions of Americans, for the first time, study the maps of the Pacific ocean, and know something about its geography. The proposition that Hawaii is a strategic base, is meaningless to politicians until they look on the map for the point where Dewey fought what may prove to be the most brilliant battle of the latter half of the century. Then strategic points have a meaning. If there springs up in Congress a sentiment that even for the needs of the present war, if only for its needs during a month, Hawaii may be of real value, there will be little opposition to annexation and the debate will be short. This aspect of the case depends wholly on the temper of Congress. We do not know what that is. But we infer that the joint resolution has been introduced, under the sudden conditions which have arisen within the last few days.

### THE LABOR QUESTION.

Ugly questions about the labor supply are not confined to our own planters. One reason for their ugliness is that the relations of capital to labor have, as a rule, been governed by a hand to mouth policy. Capital has simply squeezed labor, and labor, when it gets a chance, has squeezed capital. Here and there in the civilized lands, have been rare men who put Capital and Labor into harness together, and made a fine working team out of them.

The policy of the Pennsylvania coal and coke men has been that of securing the cheapest labor to be had. In this they did as we have done. Instead of building up on their properties communities of contented families, they imported the lowest class of Hungarians and Poles, and established a flourishing barbarism in a civilized State. Now guard is kept over it with the policeman's club and the bayonet of the militiaman. In the crude mathematics of the uneducated iron masters, cheap and ignorant labor was more profitable than high priced, but skillful labor. The latter was never tried.

It is now generally accepted that the price of labor is steadily rising in all countries. Some time ago, we published the figures showing that within a few years wages had risen 40 per cent. in Great Britain; 50 per cent. and more in Germany; 50 to 100 per cent. in France; and 22 per cent. within a very few years in the United States. Including a longer period, the rise in the States ranges from 50 to 200 per cent.

This rise in the rate of wages is very rapid in Japan, owing to the industrial revolution. It has not so far seriously affected the agricultural laborers, although it has reached them, through artistic qualifications, is its lasting the rise in the price of food.

The significant phase of this rise is that it is the highest in connection with skilled labor. It is now conceded that it is the brain and not the muscle Have just received a large consignthat determines the value of labor. ment of Platinum Paper which in-And the more the industrial situation sures that the photograph will absois considered, the more apparent it be- lutely not fade-In fifty years the comes that cheap labor is the most photograph will be as clear and as expensive of all labor. The planting interest here has had Asiatic labor "on tap." If the faucet was turned it spurted. It involved little friction, and no sacrifice. It came without any of the irksome obligations that enlightened labor creates. The heathen were happy in their comparative prosperity. But the conditions change. What the planting interest, and we nearly all are directly or indirectly interested in it, regards as a comfortable disposition at present of the labor question, other and stronger interests regard as hostile and dangerous to the supremacy of Occidental civilization.

These glittering generalities disclose the nature of the situation, but do not disclose the remedy. The remedy must be more and more severe every year. Perhaps there is no remedy. Perhaps the Oriental tinge in the blood of the body politic cannot be removed. One thing is certain, the more formidable the obstacles are, the less disposition

there is to tackle them, Regarding white labor, one of the

serious, but not insurmountable diffi- preaching, 11 a. m. Subject: "Christ environment of the laborers. The Por-'small' American farmer has the same to all. Seats free.

One of the chief drawbacks in securthe last 30 years, is the reluctance of the white settler to make a home among the negroes. They furnish him no companionship, and directly, or indirectly make the standard of wages, just as the Asiatics make the real standard of wages here, in spite of statements to the contrary. An intelligent cotton planter said in one of the industrial conventions in Atlanta: "Raise the price of negro labor and

you raise the price of white labor." Once in a while among the many railway corporations is one, managed by strong men, which suspends dividends, in spite of the protests of stockholders, and invests its surplus in "betterments." Its stock declines in value. At the end of a few years, it resumes dividends, and is ready to face any financial or industrial panic. But it may be observed that corporations of this kind are always managed by "benevolent despots."

These "benevolent despots" are very wicked in theory, but they do much good in practice.

Mr. Lange of E. Hoffschlaeger & Co., was then secured. At evening the woman was still on the stand. It is questioned if her fatal gift of beauty which aroused the chivalry of Messrs. Wright, Norrie and Sellner of the Press and Messrs. Creighton and Gear of the law, will have the same effect on the jury. Mr. Kinney, attorney for the State, does not seem impressed unduly by it. Attorney Creighton, on the contrary, is of well known gallantry and it is noticed that he is putting up the legal battle of his life.

Kinney and Creighton have grown up together in Honolulu and before the Courts of Hawaii. Their relations just at present need not estrange them at all. In all likelihood it will simply weld their friendship. Both common interest and utility suggest this and it is not at all probable that legal ethics will be violated. When they get through with the present case they can just exchange papers, referwhat Creighton has maintained for the liberty of the Press and people and Creighton can repeat, without it losing any force or application, what Kinney now says about the bad writers and their inaccuracies and their general worthlessness and unreliability as viewed from the standpoint of the injured.

Conley was also a cabbie. Some trouble arose between the pair, but for reasons known only to themselves they failed to resort to a settlement by force. Going to the quarters of the pair a few hours after the row, Conley found that some one had been "doing all kinds of things," as he says, to his wardrobe. His reserve clothing was cut and slashed and torn worse than a sugar mill or a harrow could do the job. Conley hastened to the police station with the complaint that Dunbar had made the raid on the clothing. Mention was also made to Colonel Fisher that Dunbar had not even spared a suit of N. G. H. cut, color, material, trimmings, etc. Dunbar was arrested and the case came before a jury yesterday. Deputy Attorney-General Dole prosecuted and Paul Neumann was for the defense. The examination of witnesses for both sides was concluded just in time to properly or correctly adjourn for lunch. During the noon hour Mr. Neumann suddenly became so ill that he was unable to return to Court and sent word to that effect. In view of this fact the attorney for the Republic expressed willingness to submit the case to the jury without argument and the defendant agreed. A verdict of guilty was returned for the jury by Foreman A. E. Murphy. The judge stated that Dunbar would not be sen- supplies. tenced until Attorney Neumann could be in Court.

### Electric Stoves.

While on the Coast recently Theo. Hoffman, manager for the Hawaiian Electric Company, placed an order for a consignment of novelties and the goods came by the Zealandia. In the office at the works now may be seen | \* electric cook stoves, bath heaters, \$ chafing dishes, immersion coils, substitutes for hot water bottles and bags and the tailor's goose by the flock.

Heat is secured direct from the common current. The stoves, etc., are fitted with fine resistance coils and heat in a few seconds. An express stipulation was made, endorsed by the committee, that the course of the Nuuanu all over Palestine on horseback and stream be not turned and that none of the money be expended for building a dam for that purpose. Senators You can not be too careful Baldwin, Brown and McCandless endorsed the view of the committee.

the bill. Strictly interpreted the bill was not an exclusive franchise, as the bill specified within what bounds the cable could be laid. He said the Isl- pany. ands must have a cable. The war between the United States and Spain had shown more than anything else how necessary to the safety of commerce a cable is. He said he knew that a part of the Executive was opposed to the exclusive feature but an amendment had been proposed making the exclusive provision inoperative unless the company secured a franchise from the United States.

Minister Cooper stated that the Executive was united in its opposition to an exclusive franchise, to a specific company for a specific contract.

The first section, granting the franchise to the Pacific Cable Company with the exclusive feature was passed. An amendment was added providing that the contract shall not take effect and no rights granted by the act to the Pacific Cable Company, shall be vested or secured until the approval of the contract by the United States Government, shown by a written approval thereof signed by the Secretary of State.

At 12 o'clock, the Senate adjourned

been held. Extension of time granted. THE HOTEL STREET TAILORS. Third reading of House bill 55, relating to electric street railway. The bill was read carefully when Rep. Richards inquired as to the law relating to franchise. Rep. Robertson answered "not more than 50 years." The bill passed third reading unanimously.

The resolution introduced by Rep. Robertson and looking toward the enforced cessation of the dredger work now going on near the old fishmarket wharf, was a red rag to some four or five of the members.

The first thing done was the introduction of an amendment to the resolution by Rep. McCandless to the effect that the Government be given power to condemn any of the land of the O. R. & L. Co. necessary for wharf purposes. He withdrew this and then introduced another amendment to the effect that the Government condemn, if necessary, any other property necessary for wharf purposes in Honolulu.

Rep. Robertson spoke in favor of the Government control of all the wharves but against the present work of diminishing instead of increasing wharf space. For that reason he was in favor of the cessation of the present work of the dredger until proper investigation could be made and a

course laid out. Minister Damon favored the plan of placing all wharves in the hands of the Government. He was in favor of a Board of Public Works to look into all such matters. The members of the not pass expert judgment on matters of the kind.

At about 12:30, the resolution of Rep. Robertson with the additional clause of the committee and the amendment of Rep. McCandless passed and the House took a recess until

In Palestine.

An American traveling away from the City of Jerusalem met an Englishman on the way to the chief town of the Holy Land. Of course they exchanged notes. Said the American: "Don't go to Jerusalem. It's the deadest town you ever saw. Why, they haven't even a daily paper there." The Englishman went on and afterwards when his cousin came to think of it again the conclusion was that Rev. M. L.
