RULE OF FUTURE

Views of Men Who Will Practically Legislate for Hawaii.

ENTER UPON WORK UNHAMPERED

Program of Commission—Organization—Private Sittings—Chairman Cullom—To Visit Islands.

COMMISSION PROGRAM.

At 9:30 this morning the Hawaiian Commission will meet at the home of Justice Frear, in Punahou. President Dole and Justice Frear will there qualify as members by taking an oath. The oaths of office of Senators Cullom and Morgan and Representative Hitt are already on file at Washington. The residence of Justice Frear is visited because that gentleman is ill. So soon as all members are regularly listed the Commission will proceed to elect a secretary, a stenographer and a sergeant-at-arms. Senator Cullom is chairman. The men for the clerical positions and the sergeant-at-arms have been brought from Washington.

Senator Cullom and Congressman Hitt are at the Hawaiian hotel. Senator Morgan is the guest of S. M. Ballou at Overseas.

So soon as the formalties at the residence of Justice Frear are finished the four other members of the Commission will adjourn to the Hall of the House, the old Throne Room, in the Executive Building and there hold the opening business session. There are no plans for conference further than this.

Next week the Commission will visit Hawaii. They will be on the big Island six or seven days. The Commission will later make trips to Maui and Kauai and may also see Molokai.

THE CHAIRMAN.

One has to but catch a glimpse of Senator Cullom to understand why he has the reputation of being one of the most active members of the upper house of the Congress of the United States. He is a middle-aged man of almost youthful presence or manner, is decidedly pleasant, is frank and quick, rather in expression and appears to be always on the alert, to be "up to his work." The Senator spoke freely upon almost all subjects introduced.

Senator Cullom said that the sessions of the Commission would be private excepting when there were hearings. When individuals or delegations wish to present views or open up discussions, either in person, by spokesman or by attorney, the hall will be open to all. The Senator gave the impression on inference that hearings would be granted to all having any reasonable claims.

The work of the Commission will not be of a secret nature, but it is felt the business can be transacted more expeditiously and better in every way by having closed doors. Many views that will be tentative will be expressed and there may be sudden changes at times. The body is a small one, there will be no speechmaking. The members will simply sit about a table and proceed with their task in more of a conversational than any other manner.

It is likely, according to Senator Cullom, that there will be prepared by the Commission one organic act corresponding to the constitution of a state, describing the territory, the manner, method and limitations of legislation. This organic act will be supplemented by many congressional laws, bearing upon customs, land, taxation, the Judiciary, etc. It is by no means contemplated that there shall be any radical chances in the system here.

THE CONGRESSMAN.

Mr. Hitt, member of the House of Representatives at Washinugton, is a man who for years has made a special study of the relations of the United States with other countries and who has always been known to hold and use positive views on foreign policy. He has long been an ardent annexatoinist and is greatly pleased that the American flag is now floating over the Islands. Mr. Hitt has been a hard worker at Washington as Chairman of the House Committee on Foreign Affairs and was regarded by President McKinley as having peculiar qualifications for service on the Hawaiian Commission. The Congressman has been in public life many years, is a typical American of what might be called the legislative class. He has been called a "good mixer" and is one of the most approachable of men. He has almost white hair, but a springy step and a bright eye and of course a strong intellect at its best. He is a close observer, and is credited with being a clear, rapid and impartial reasoner. Mr. Hitt is a man practical in his ideas of legislation and government and will most likely be in favor of recommending for Hawaii such a rule as the conditions, review of the past and estimate of the future suggest as best for all the people and for the interests of the United States.

HAWAII'S OLD FRIEND.

Senator Morgan looks in much better health and is in much better health than when here before. He was glad to meet his old friends and gave a cordial welcome to the new ones calling to converse with him or to pay respects to the distinguished American. Mr. Morgan is one of the best known members of the Senate in the mainland as he is the best known here. He is intensely in earnest in all that concerns Hawaii. He said yesterday that his views on the Islands and what should be done for the future were or ought to be familiar to all who have had an interest. He believes there is a place here for a model Government, but would not be in favor of such changes as would unbalance affairs or create confusion or disturbance of business, social, political, educational systems. The Senator made a study of Hawaii when here before and intends to pursue the subject with all the ardor that has marked his handling of issues during his long career as a Senator.

THE PRESIDENT.

The three commissioners from the States met President Dole and his Cabinet at the Executive Building by appointment yesterday afternoon. The compliments of the President and his colleagues had been sent to the Senators and the Representative earlier in the day. The informal conference in the President's room was a pleasant affair. At its conclusion, with results reached as given above, the visitors were shown through the building and when the Treasury was reached Mr. Hitt asked about the liabilities. President Dole, when the three commissioners has gone said, with Ministers Cooper, Damon, King and Smith that it was a privilege to have here such representative members of Congress as President McKinley had selected for the work here. There had been no difficulty at all in arranging for a day ahead and Mr. Dole said that at the session today it was likely there would be outlined a plan for a considerable time. For himself, and he believed he could say the same for Justice Frear, the Hawaiian members would agree at once to arrangements that would best suit the visitors. President Dole has said that he believed the best for the future here would be to make such changes as were necessary to be made in a way that would not be sudden or disconcerting. There are in the conduct of this Government many advanced and admirable features that have been developed slowly. It is supposed that upon President Dole will fall the burden of supplying the material for the land legislation, as he is quite familiar with that subject.

The sole purpose of the commission at present is to gather data upon which to base recommendations to Congress for such legislation as will bring the Republic of Hawaii within the American political system. The Commission is unhampered by instructions. It has a free hand and the men seem to be of the caliber to attend to the grave matter entrusted to them.

THE FIVE COMMISSIONERS.

These are the faces of the men selected by President McKinley to prepare for submission to Congress at Washington the drafts of acts for the orgnization and government of Hawaii as an element of the American Union.

GEORGE EBERS IS DEAD.

Famous of His Works on Egyptology and His Novels.

MUNICH (Bavaria), August 8.—A dispatch from the Villa Ebers, near this place, announces the death of George Ebers, the Egyptologist and novelist.

George Ebers was born in Berlin in 1837. He devoted nearly all his life to ancient history especially the records of Egyptian civilization. His works made him famous among archaeologists and in 1870 he was installed as professor of Egyptology at the University of Leipsic where he remained nineteen years. It was while carrying on his work that have made his name a household word in many countries. His best stories are "An Egyptian Princess," "Uada" and "Serapis." During the last years of his life he was practically physically helpless through paralysis of the lower limbs.

From Joe Marsden.

At last Joe Marsden has been heard from. Wray Taylor received a letter from him by the Mariposa. He has not been eaten by the Spaniards nor has he yet arrived in Europe. For several week the genial ex-Commissioner of Agriculture has been sight seeing and fishing in Yellowstone Park. He was accompanied by friends and had an immense time. The letter was written in the East and mailed at New York. Mr. Marsden stated that he expected to sail shortly for Europe. His health is much improved.

ARIZONA AND SCANDIA.

Will Be Along in a Few Days With Troops for Merritt.

When the Mariposa left San Francisco it was expected that the Arizona would sail in two days time with 1,600 more men for Manila. This was in response to an order received from the War Department to dispatch at once all troops available. The Scandia was slated to sail on Aug. 18.

On the Arizona will probably be recruits for various organizations now in the field, regulars of the Eighteenth and Twenty-third United States infantry and a large number of the hospital corps, who will take with them extensive supplies for an establishment in Manila. The Red Cross Society will send besides quantities of delicacies and luxuries for the sick.

The Scandia will bring the Seventh California with recruits and others to make up her complement. It is said the Government will buy no more ships. The Sydney and Australia are due in San Francisco on August 15th and 17th, and the City of Peking on the 23rd. They will be loaded with troops and stores, and, needing no fitting, will be in port only a few days before they start again to Manila.

LACES AND ORGANDIES.

Valenciennе laces, 25c a dozen yards; fine French organdies, 5c a yard. The clearance sale will be continued one week longer and new goods, just received, per Warrimoo, will be added to the list of bargains. L. B. Kerr, Queen street.

A PROTOCOL READY.

High Officials Believe That Peace Is Now Assured.

SUBJECT TO APPROVAL OF TERMS

Word From Madrid Awaited—Armistice to Ensue—Hard and Fast Conditions Made.

NEW YORK, August 10.—A special to the World from Washington says: The Department of State has been informally notified that M. Cambon, the French Embassador, has received authority to sign the protocol on behalf of the Spanish Government. In diplomatic circles the statement is made that the French Embassador received his authority tonight and will tomorrow formally attach his signature to the instrument.

This document was drawn up today, and when it is signed hostilities will cease.

Secretary Day stated today that a protocol had been agreed upon embodying the proposed terms for the treaty of peace and that the protocol would be executed.

In substance the protocol provides for the withdrawal of the Spanish forces from Cuba, cession of Porto Rico to the United States, cession to the United States of an island in the Ladrones and surrender to the United States of the city, bay and harbor of Manila, to be held pending the negotiation of the treaty of peace. These are the American terms without qualifications. All suggestions contained in the Spanish note as to the Cuban debt and other matters are utterly ignored in the protocol.

Every high official of the Government, from the President down, regards peace as assured. Cambon has provisionally agreed to the terms of the protocol in behalf of Spain, and has cabled to Madrid for authority to attach his signature to the document as Spain's representative. It is regarded as certain in Administration circles that this consent will be given immediately, and that the formal signing of the protocol will occur shortly.

PEACE COMMISSIONERS.

WASHINGTON, August 10.—So far as can be gathered, but one name has been positively determined upon for members of the Peace Commission, namely, that of Secretary Day who will head the Commission. Beyond that point there is no certainty, although some prominent names have been brought forward. Woodford, late Minister to Spain, has been so mentioned.

One of the names that finds universal approval among persons versed in diplomacy is that of Eustis, ex-Embassador to France, whose stanch Americanism, combined with diplomatic knowledge and legal ability, are urged as fitting him especially for appointment as Peace Commissioner.

STRIPPING FOR ACTION.

NEW YORK, August 9.—A copyrighted dispatch to the World dated Manila, August 4th, via Hongkong, August 9th, says:

The United States monitor Monterey arrived here today. Manila will fall as soon as the monitor Monadnock comes here. She is expected by next Thursday.

Admiral Dewey's ships are stripping for action. Owing to the high wind and heavy seas the troops of the third expedition have not yet landed. Two lighters were capsized in the attempt and three natives were drowned. Immediately after the arrival of the expedition General Merritt organized all his forces for an attack on Manila. The troops were formed into one division under command of General Anderson.

HAD A LITTLE SCRAP.

COAMO (Porto Rico), August 10 (via Ponce).—Troop C of New York pursued the party of fleeing Spanish engineers after the capture of Coamo yesterday a distance of four miles along the road to Aibonito. The Americans were checked at the Cuyon river, where the Spaniards had blown up the bridge, and were shelled from a Spanish battery on the crest of the Azonite mountains. The dismounted cavalry returned the fire, receiving no damage and holding the positions. A battalion of the Third Wisconsin Volunteers went to their support.

TACOMA COMING.

SAN FRANCISCO, Aug. 6.—The ship Tacoma sailed today for Manila, with

horses and mules for Gen. Merritt's army. She is expected to reach Honolulu about August 20.

EVE OF BATTLE.

PONCE (via St. Thomas), August 8.—General Miles is slowly but surely closing in on San Juan. His army, in five sections, is gaining advanced ground every day. The General has the Spaniards in complete doubt. Several thousand Spanish troops are still at Aibonito, and, unless they make a hasty flight for San Juan, they will be captured. General Miles' army will be ready to take San Juan by Friday.

SPANIARDS SENT HOME.

WASHINGTON, August 8.—Information was received by Adjutant-General Corbin from Colonel Humphrey, in charge of the transportation arrangements at Santiago, that the Spanish hospital ship Alicante sailed from there today with 800 of the Spanish prisoners for Spain. The Alicante carries a majority of the sick and wounded of General Toral's army. Others follow at once.

WILL PAROLE PRISONERS.

NEW YORK, August 8.—A special to the Tribune from Washington says: The United States has magnanimously offered to parole the 1,300 Spanish naval prisoners taken at the destruction of Admiral Cervera's fleet whenever Spain is ready to repatriate them, with the exception of the officers who are enjoying American hospitality within the limits of Annapolis.

SICK IN CUBA.

WASHINGTON, August 10.—The War Department tonight made public the following from General Shafter:

"SANTIAGO DE CUBA, August 10.—Adjutant-General of the Army, Washington: Sanitary report for August 9th: Total number of sick, 2,830; total number of fever cases, 2,043; total number of new cases, 233; total number of fever cases returned to duty, 327.

SAMPSON A LIGHTWEIGHT.

NEW YORK, August 10.—Captain Philip of the battle-ship Texas yesterday visited the family of Admiral Sampson at Glenridge, N. J., and told Mrs. Sampson that the Admiral was in the best of health, but the tropical heat had reduced his weight from 170 to 130 pounds.

CURZON APPOINTED.

LONDON, Aug. 10.—The Foreign Office this evening formally announced the appointment of George N. Curzon, until now the Parliamentary Secretary for the Foreign Office, as Viceroy of India, in succession to the Earl of Elgin.

PEACE SIGN.

WASHINGTON, Aug. 10.—The naval officers have made up their minds that peace is at hand and are planning for a reduction of the naval establishment to a peace basis. The first step to be taken will be the retirement of the monitors from active service.

FORMAL SURRENDER.

NEW YORK, August 9.—The Sun's advices from Guantanamo say: The city was formally surrendered to the Americans today. Brigadier-General Ewers took possession as Military Governor and the Spaniards evacuated the blockhouses.

E. J. PHELPS.

BENNINGTON, Vt., Aug. 10.—E. J. Phelps, the former Minister to England and professor of law at Yale University, is seriously ill at North Bennington. The trouble is in the region of the heart and physicians are in constant attendance.

THE POPE ILL.

ROME. August 10.—Owing to the sudden fall in the temperature the Pope has contracted an internal chill. On the advice of his physician, Dr. Lapponi, who recommended rest, his holiness has suspended all audiences.

CAPT. BARKER.

WASHINGTON, Aug. 9.—Capt. Albert S. Barker has been detached from the command of the cruiser Newark and ordered to take charge of the battle ship Oregon, filling the vacancy made by the invaliding of Capt. Clark.

WASTE OF MONEY.

LONDON, Aug. 9.—The Spanish Government has asked Messrs. Firth & Son of Sheffield to supply it with 220 thirteen-inch shells.

TORAL'S REWARD.

NEW YORK, August 9.—A Sun cable from Madrid says: Priliminary steps have been taken to court-martial General Toral, who surrendered to Shafter.

IN SOUTH AMERICA.

PANAMA (Columbia), August 9.—Advices from Guatemala state that Government troops won in encounters at Quesaltemango and Olos at a loss of eighty killed to 120 of the enemy.

A military company has been organized at Hilo with J. L. Carter as captain. Carter was at one time a line officer in the First Regiment.

Several of the engineers now here with the United States garrison are members of the Masonic fraternity.

LET WISDOM NAME THE PRICE.

There is a point in bicycle value to go below which means a cheapening in quality. Modern methods and large output brings low price and high quality together in STERLING BICYCLES. At present prices there is more value for the money in Sterlings than any other bicycle in the world. Pacific Cycle & Mfg. Co., Agents.

MIDNIGHT BATTLE

Spaniards Attack American Troops in Trenches.

Stars and Stripes Victorious—Heavy Spanish Loss—Nine Americans.

NEW YORK, August 9.—A copyrighted cablegram from Manila bay, August 4th, via Hongkong, August 9th, to the Evening World, gives the following particulars of the fighting near Malate on the night of July 31st:

General Greene's force numbering 4,000 men, had been advancing and intrenching. The arrival of the third expedition filled the Spaniards with rage, and they stood to give battle before Camp Dewey could be re-enforced. The trenches extended from the beach, 300 yards to the left flank of the insurgents.

Sunday was the insurgent feast day, and their left flank withdrew, leaving the American right flank exposed. Companies A and E of the Tenth Pennsylvania and the Utah battery were ordered to re-enforce the right flank. In the midst of a raging typhoon, with a tremendous downpour of rain, the enemy's force, estimated at 3,000 men, attempted to surprise the camp. Our pickets were driven in and the trenches assaulted.

The brave Pennsylvania men never flinched, but stood their ground under a withering fire. The Utah Battery, the First California Regiment with two companies of the Third Artillery, who fight with rifles, were sent up to re-enforce the Pennsylvanians. The enemy were on top of the trenches when these re-enforcements arrived, and never was the discipline of the regulars better demonstrated than by the work of the Third Artillery under Captain O'Hara. Nothing could be seen but flashes of Mauser rifles. Men ran right up to the attacking Spaniards and mowed them down with regular volleys.

The Utah battery, under Captain Young, covered itself with glory. The men pulled their guns through mud axle deep. Two guns were sent around on the flank and poured in a destructive enfilading fire. The enemy was repulsed and retreated in disorder. Our infantry had exhausted its ammunition and did not follow the enemy.

Not an inch of ground was lost, but the scenes in the trenches was one never to be forgotten. During flashes of lightning, the dead and wounded could be seen lying in blood-red water, but neither the elements of heaven nor the destructive power of man could wring a cry of protest from the wounded. They encouraged their comrades to fight and handed over their cartridge belts.

During the night the Spanish scouts were seen carrying off the dead and wounded of the enemy. The American dead were buried next day in the convent of Maracaban.

On the night of August 1st, the fighting was renewed, but the enemy had been taught a lesson and made the attack at long range with heavy artillery. The Utah battery replied and the artillery duel lasted an hour. One man was killed. He was Fred Springstead of the First Colorado, and two men were wounded.

On the night of August 2d the artillery duel was renewed. Two men were badly wounded and are this morning reported dead, which brings the total dead to thirteen, with ten in the hospital mortally hurt.

The list of dead and wounded as reported by General Merritt is as follows:

Tenth Pennsylvania—John Brady, Walter Brown.

United States Infantry—William E. Brinton, Jacob Hull, Jesse Noss, William Stillwagon.

First California—Maurice Just.

Third Artillery—Eli Dawson.

First Colorado—Fred. Springstead.

Seriously wounded: Tenth Pennsylvania—Sergeant Alva Walter, Privates Lee Snyder, Victor Holmes, C. S. Carter, Arthur Johnson.

First California—Captain R. Richter, Private J. C. Edwards.

Third Artillery—Privates Charles Winfield and J. A. McElroth.

Thirty-eight were slightly wounded.

Secretary Alger regards the Malate fight as the beginning of the general attack on the Philippine capital.

ADOLPH SUTRO DEAD.

For Nearly 50 Years Prominent in San Francisco History.

Adolph Sutro, builder of the famous Sutro tunnel, Mayor of San Francisco for two years and owner of the Cliff House and Sutro Heights, died early Monday morning, August 8, at the residence of his daughter and guardian, Mrs. Dr. Emma Sutro-Merritt, Van Ness avenue and Sutter street. The body was removed to Sutro Heights a few hours after death.

While the end came unexpectedly at the last, it has been known for several months that it was never far away.

Adolph Sutro was born April 29, 1830, in Aix-la-Chapelle, Prussia, where his father was a prosperous cloth manufacturer. He received a liberal education. On the death of the elder Sutro in 1847 the family emigrated to the United States. On the voyage over Adolph learned of the gold fever in California. He set foot in San Francisco November 21, 1850. After engaging in mercantile business he established in 1859 a small metallurgical works on Market street and began laying the foundations of his future fortune.

While in this work he developed the scheme of tunneling through the heart of the mountain where lay the famous Comstock. The successful tunnel drained the mines and Sutro sold out his interests for many millions of dollars.

For a quarter of a century he invested his money in securing the land to the westward of San Francisco, including what is now Sutro Heights. The baths at the Cliff House alone cost $1,000,000. In 1894 he was elected mayor of San Francisco. He retired from office and public affairs in 1897. With all his eccentricities he was public-spirited. Among other things, he was instrumental in the campaign to have Kentucky revoke the franchise of the Southern Pacific. His library is classified as the fourth great library of the United States. It contains 216,000 volumes and cost more than a quarter of a million dollars. His career was a most remarkable one.

A HORNELLSVILLE MAN

Has a Novel Experience With an Old Acquaintance.

If ordinary mortals—and Hornellsville, N. Y., mortals are no exception—get a cinder in the eye, or if some dangerous wound or compound fracture of a limb fall to their lot, every available means is employed to dislodge the former and the best known expedients are used to bind up or set the latter. If the average citizen has a corn or backache, he wants to get rid of it as it is an annoyance; but if it eases up a little and flirts with him for a short time the anxiety to part with it diminishes in direct ratio to the flirting. Now, if this meets the eye of the reader who has backache, and there are ninety chances out of a hundred that it will, if that reader is anxious to get rid of it, follow the simple plan adopted by Mr. Wm. B. Van Dusen, of Van Dusen & Marvin, of 15 Church street, Hornellsville, N. Y. He says: "I fully realized the danger of neglecting kidney difficulties, and when I began to have pains in the back, followed by bladder trouble that was growing serious, I procured Doan's Backache Kidney Pills and used them with beneficial effects. The kidney secretions had been very high in color and contained a good deal of brick dust sediment. This was quickly corrected, and the pains in my back were cured. I have recommended these pills to others, who have used them with most satisfactory results."

Doan's Kidney Pills are for sale by all dealers; price 50 cents, or will be mailed by Hollister Drug Co., Ltd., general agents for the Islands. Remember the name—DOAN'S—take no other.

REWARD OF MERIT.

At the CHICAGO CYCLE SHOW in 1897, each visitor on entering the Show was handed a coupon reading as below:

"After viewing the exhibits, kindly fill in the name of the Bicycle which pleases you best as regards beauty and mechanical merit, and deposit the coupon in ballot box near exits. Name of Bicycle,....."

The "Shirk" received 17,489 ballots against 12,377 the next highest. When it is known that all the leading makes of wheels in the United States were on exhibition at this Show, the above speaks for itself. The HONOLULU BICYCLE CO. have secured the Agency for this strictly high grade wheel.

IT WILL INTEREST YOU TO CALL AND SEE IT.

The SHIRK is the best thing that ever happened.

Bring Your Family

Success

Is the Butterfly which all men are chasing and which but few catch. . .

That is the reason why we all take off our hats to success. The Stein-Bloch Co., the famous wholesale tailors whose label you will find on all the good clothes in our store, has succeeded in doing in a large wholesale way at the minimum expense what the merchant tailor does in a small retail way at the maximum expense. Where the merchant tailor buys one suit pattern they buy 10,000. Where the merchant tailor employs one tailor they employ 1,000. These are some of the reasons why these clothes, though as good as the best made-to-measure sort, can be sold at one-half their price.

MEN FOR THE POST

Additional Forces for Honolulu Garrison Arrive.

More Engineers-Supplies and Lumber—Steam Schooner—The Mariposa Military Passengers.

The little steam schooner Lakme arrived just after daylight yesterday morning and docked a short time later at the Irmgard wharf. She brought the remaining companies of the third battalion, Second Regiment of United States Volunteer Engineers, 350 men, supplies for themselves and for the New Yorkers and lumber for the buildings of the new garrison quarters. As the men were fed by the Johnson-Locke Co. they demanded good fare and received it. Barring the crowded condition of the vessel the men really got along well.

Soon after docking the work of discharging the supplies began. The huge boxes were loaded on big drays as fast as possible and sent, some to the store room in town and some to the camp at Kapiolani park. A detachment of New Yorkers, acting under direction of Lieut. Winthrop, separated and took charge of their own supplies at the dock.

Maj. Langfitt, already here, is in command of the engineers. First Lieut. C. A. Coolidge is the adjutant, and First Lieut. F. C. Turner is battalion quartermaster. First Lieut. J. E. Barrett is assistant surgeon. The company officers are as follows:

Company I, of Denver, Col.—Capt. T. W. M. Draper, First Lieut. Keiss, Second Lieut. Charles Kerns.

Company K, of Salt Lake City—Capt. H. A. Sprigett, First Lieut. Mills, Second Lieut. Tom Kooney.

Company L, of San Francisco—Capt. F. J. H. Rickon, First Lieut. F. S. Brittan, Second Lieut. L. B. Hamilton.

Company M, of Portland and neighboring towns in Oregon and Washington—Capt. George Freeman, no first lieutenant, Second Lieut. E. T. Tannatt.

It may be stated that these engineers come from over most of the Pacific Coast States. Every man is an expert in some line of mechanical or professional work. Many are civil engineers of wide reputation. A private in Company M was city surveyor of Spokane. There are in the battalion nearly 100 college graduates. In the party are many expert carpenters, masons, bridge-builders, etc. Some are contractors and architects of position and wealth.

MORE NEW YORKERS.

The Mariposa brought 155 additional officers and men of the New York regiment. Company E is in command of Capt. Packard. Forty-four members of Company D are in charge of Second Lieut. Smith. Adjt. Strevell was also in the party. The men were embarked promptly from the mail liner and marched out to camp at Kapiolani Park. The remaining companies of the New York regiment will arrive on the Alliance, which should be here about September 1.

Stenographer Marx.

B. L. Marx, who has for over three years been the efficient secretary of the Executive Council, will retire from the position this week. Mr. Marx goes to the law office of F. M. Hatch. In his position with the Cabinet Mr. Marx has been a hard worker and has always been courteous and obliging to those with whom he came in contact. He will be missed about the Foreign Office and President's room. Mr. Marx was in the '95 "affair" here and afterwards made a trip to the States with Minister Cooper. Before going to the office of Mr. Hatch the stenographer will have a vacation on Kauai.

Mr. Cassidy to Make a Trip.

At a meeting on Tuesday of the directors of the Mutual Telephone Co., Ltd., it was voted that Superintendent John Cassidy should make a trip to the United States in the interest of the corporation. Mr. Cassidy will leave next month and will inspect the telephone exchanges in all the large cities with a view to gathering information for use in making changes in the local system. The exchange here as it now exists is the work of Mr. Cassidy, he having built it of material selected here after the fire seven months ago.

Sugar Stocks.

Fifty shares of Pioneer sold yesterday for $350, which was an advance of $50 a share in three days. Honokaa, new stock, sold for $200. Kahuku yesterday morning was $120 and in the afternoon $125; asked, $130. Honomu advanced five points during the day. There was a sale at $305. Late in the afternoon there was a rumored sale of Paia at $345. All the new stock of Ookala has been floated, the last being taken yesterday.

Oahu Railway Change.

A marked change is to be made in the main line of the Oahu railway. The distance from near the depot and to the Fertilizer Works in Kalihi will be covered by a rail section soon to be built. The old or present line will not be removed, but will cease to be a part of the main line. The new line will be from 200 to 300 yards makai of the present line. A heavy grade will be avoided. Proceedings in securing right of way have been inaugurated.

Charles Bellina, manager of the Club stables, returned by the Mariposa from a short visit to his home in California.

THURSDAY : : AUGUST 18.

THE LAW COMMISSIONERS.

The high character, ability and political experience, of the Commissioners who are now here and who will undertake to draft laws for the government of the territory, is not only acknowledged, but appreciated by the white population. The natives will for a while at least, regard them with some suspicion, as they listen, unfortunately, to those who grossly misrepresent the situation, and take a malicious delight in exciting their fears. Time only will bring them to an understanding of the purposes of the Commission.

The Commissioners have before them the task of preparing what is to be, substantially, the organic law for this territory, if it is approved by Congress. If it were dealing with an average Anglo-Saxon community, it would simply draft the laws which are usual and acceptable to Anglo-Saxon communities, and quickly close their labors.

The Commission could, indeed, follow the theory that what is good enough for the Anglo-Saxon is good enough for other races. That is, it could make an iron political bed, and force this entire community to lie in it.

But the Commission will be guided by the later and better political thought of writers and statesmen on the true theory of organic law, which regards government as only the expression of the ideas of the people who are to be governed.

The Federal Constitution is no longer regarded as a clever document invented by learned scholars, but the very best expression of the average thoughts, habits and usages of the colonists for a long time previous to the adoption of the Constitution. The new or novel provisions of that Constitution did not arise out of any theories, but out of existing and painful experiences, such, for instance, as the inability of the old confederation to execute its own laws.

"Constitutions and laws are the expressions of the customs and general ideas of the people."

The Federal Constitution is, therefore, not ideal, but a compromise in many ways, an adjustment of political forces. It has already been amended fifteen times, as its defects and needs become apparent. It was, however, the organic law of a homogeneous race.

These Commissioners must deal, in drafting an organic act, or laws, with mixed races, of which about only two per cent have Anglo-Saxon habits and thoughts "in the blood." It deals with entirely new conditions.

The great South American, Bolivar, said: "A Republic cannot exist where the snow does not fall." He spoke of a race of which not a man, it may be safely said, comprehended the principles of self government.

Though the snow does not fall here, excepting on the mountain tops, the guarantee by the Constitution of a republican form of government to each State, and, by inference, to each territory, must be enforced here.

The work of the Commission, therefore, is to create and preserve, in the laws it shall draft, the form of government designated by the Constitution.

In doing this, it may be called upon to more clearly define what the limitations are of a republican form of government, and to what extent even the franchise may be qualified.

The suggestion of a new form of government, generally described as the Colonial form, may be considered. Admirable as it would be in the case of Hawaii, it would be a departure from the old and well settled forms of territorial government, and excite the opposition of the democratic spirit which prevails in Congress.

Cuba and the Philippines are the school masters who are now abroad. What they will teach is on new lines.

GOOD FRIENDS.

The names of the Commissioners from the Mainland, appointed to draft organic laws, are almost household words with us. Senator Collum is well known by reputation, as a man of broad views and large legislative experience. Regarding Senator Morgan, we cannot say anything that is unknown to the residents of the Islands, owing to his recent visit here, during which he commanded the respect and love of all those who were friendly to the cause of annexation. The natives found in him a warm friend, who placed an unusually high estimate upon them, and their capabilities as citizens.

Mr. Hitt is singularly well informed regarding these Islands. At the time King Kalakaua visited Washington in 1881, Mr. Hitt, as Assistant Secretary of State received him, and h's suite, and attended the King during his visit to President Arthur.

Among Mr. Hitt's warm personal friends was the late James G. Blaine. It is well known how highly Mr. Blaine estimated his knowledge and experience in matters of foreign policy.

Another of Mr. Hitt's strong personal friends was the late Wm. Walter Phelps, at one time Minister to Austria, at another time Minister to Germany, and one of the Commissioners in adjusting the Samoan difficulties. He was one of the most promising men of his times. For he was a student, a natural orator, and a man of great wealth; one of the younger American statesmen, of whom much was justly expected, but who went to his grave before the shadows had lengthened.

We can recall the earnest and far reaching views of these men, and intimate friends, all statesmen, formed and expressed many years ago in advance of the times, regarding the relations of Hawaii and the United States —the need of these Islands as the sword tip of American power in the Pacific.

Mr. Blaine is dead. Mr. Phelps is dead. Mr. Hitt remains to witness and, and take a part in establishing that policy which is in no sense mere territorial expansion, but a wise precaution to anticipate and guard against the occupation of these Islands, by a peaceful invasion of Asiatics, which our own short sighted and selfish policy persistently invited. The dead statesmen cannot see the finish of their work. But their associate and friend lives to share in it, and himself write some of the closing history of the first movement made by the Great Republic to extend its dominion almost a thousand leagues beyond the surf line of the Mainland.

The Society for the Amelioration of the condition of the Tired-of-Dole patriots will give a picnic in September for the benefit of its treasury. Mr. Dole will be an invited guest. The only beverage used will be the grateful liquor which "removes that tired feeling."

THE PASSING HOUR.

Honolulu cheers the First California.

• • •

Five years and a half ago a Commission went from Hawaii to Washington. Time works its changes.

• • •

More of the home builders for the First New York have arrived and the location for the permanent garrison must soon be selected.

• • •

Peace in Washington, possession in Cuba and Porto Rico, murderous night attacks in the Philippines. This is the stretch and story of the war.

• • •

The American soldiers on the Pacific side have so far escaped the sickness to which the Cuban forces have been subjected, but weeks upon some of the transports has been just about as bad.

• • •

It is a barren fortnight these times that does not develop a new plantation scheme for the Island of Oahu. The bigger or heavier producing sugar districts must soon look to their laurels.

• • •

It seems that the Commission proposes to maintain a free field. The Commission, by the way, is not itself a legislative body, either administrative, judicial or executive. It will collect information and propose laws.

• • •

Spain has ordered a few dozen thirteen-inch shells for the use of her one remaining squadron. This is a grimly funny thing.

• • •

Unless some new factor comes into the business field, it will, unfortunately, be a considerable time before the foreign steamer service affecting Hawaii will be again so good as it was before transportation of troops to Manila began.

Waialua Plantation.

Plans are being quietly matured for the new Waialua plantation, about which something has been said from time to time during the past two years. Some of the most prominent plantation factors here are in the deal. The new property is to include the present Halstead plantation, the upper levels of the Mokuleia land lately bought by Henry Waterhouse and the Gay and the Dickson lands. This will make a plantation large as the new Oahu.

Will H. Coney, of the Evening Bulletin, is down with a fever and his work is being looked after by Lloyd Conkling, of the Bulletin business office.

RAINIER BEER

Is a winner with the "boys." They drink as much of it as they like—without fear of having a "large" head next day. Rainier leaves no unpleasant after-effects. It's the most delightful of all fine beers. On tap or in bottles at the Criterion.

SHIPMATES, ATTENTION!

You are all welcome to make your headquarters at the Commercial Saloon, Beretania and Nuuanu streets. Strictly pure liquors and celebrated Wieland Beer.

PADDY RYAN,
Manager.

THE SPICE OF LIFE

May come from many a source. We all enjoy a good laugh and when one considers how easy it is to assume duties which tend to create ill health it is not remarkable to find so many who are suffering.

MALT

Close attention to one's duties, no matter the nature, sooner or later the labors will soon become a task in this climate. You feel tired, can't eat and relish your meal; imagine you are unfortunate and long for a change.

NUTRINE

Just think a moment and consider whether the cause of your ill feelings are not due to lack of tone to your stomach, thereby overtaxing your nerve force, which eventually wrecks the whole organism.

NEVER

Try a few bottles of a true and tried remedy which has no equal as a system toner and health producer. Your physician endorses it. It will build you up and make you feel well again.

TIRES

Your druggist carries it in stock. If not ask him to get it. It has no superior.

Single bottle, 35 cents.
Three bottles for $1.00.

Remington Standard Typewriter!

WHAT IS IT?

A simple, compact, and durable machine, which successfully performs the work of the pen, with a tremendous saving of time and exertion.

WHAT WILL IT DO?

It produces, with speed and certainty, in clearly legible printed characters, one or many copies of any kind of writing, excepting such as must be done in books.

TO WHOM IS IT USEFUL?

To every one who has writing to do. In business circles its desirability is assured. Lawyers and journalists cannot do without it. Professional and scientific men realize its worth to them. The author and thinker find it invaluable. It conserves the most potent kind of energy—that of the brain—by reducing to a minimum the mechanical labor of writing, and distributing it among all the fingers of both hands. Writer's cramp disappears where it is used. It presents the printed appearance of the work to the mind at once.

WHO CAN OPERATE IT?

Any one of ordinary intelligence. A very few trials enable any one to write upon it readily. Thereafter it is only a matter of practice.

TO FRAME LAWS

Five Men Who Will Prepare Hawaii's Organic Act.

COMMISSION A STRONG ONE

Senator Cullom is Chairman—The Veteran John T. Morgan—Congressman Hitt—Island Men.

SENATOR CULLOM.

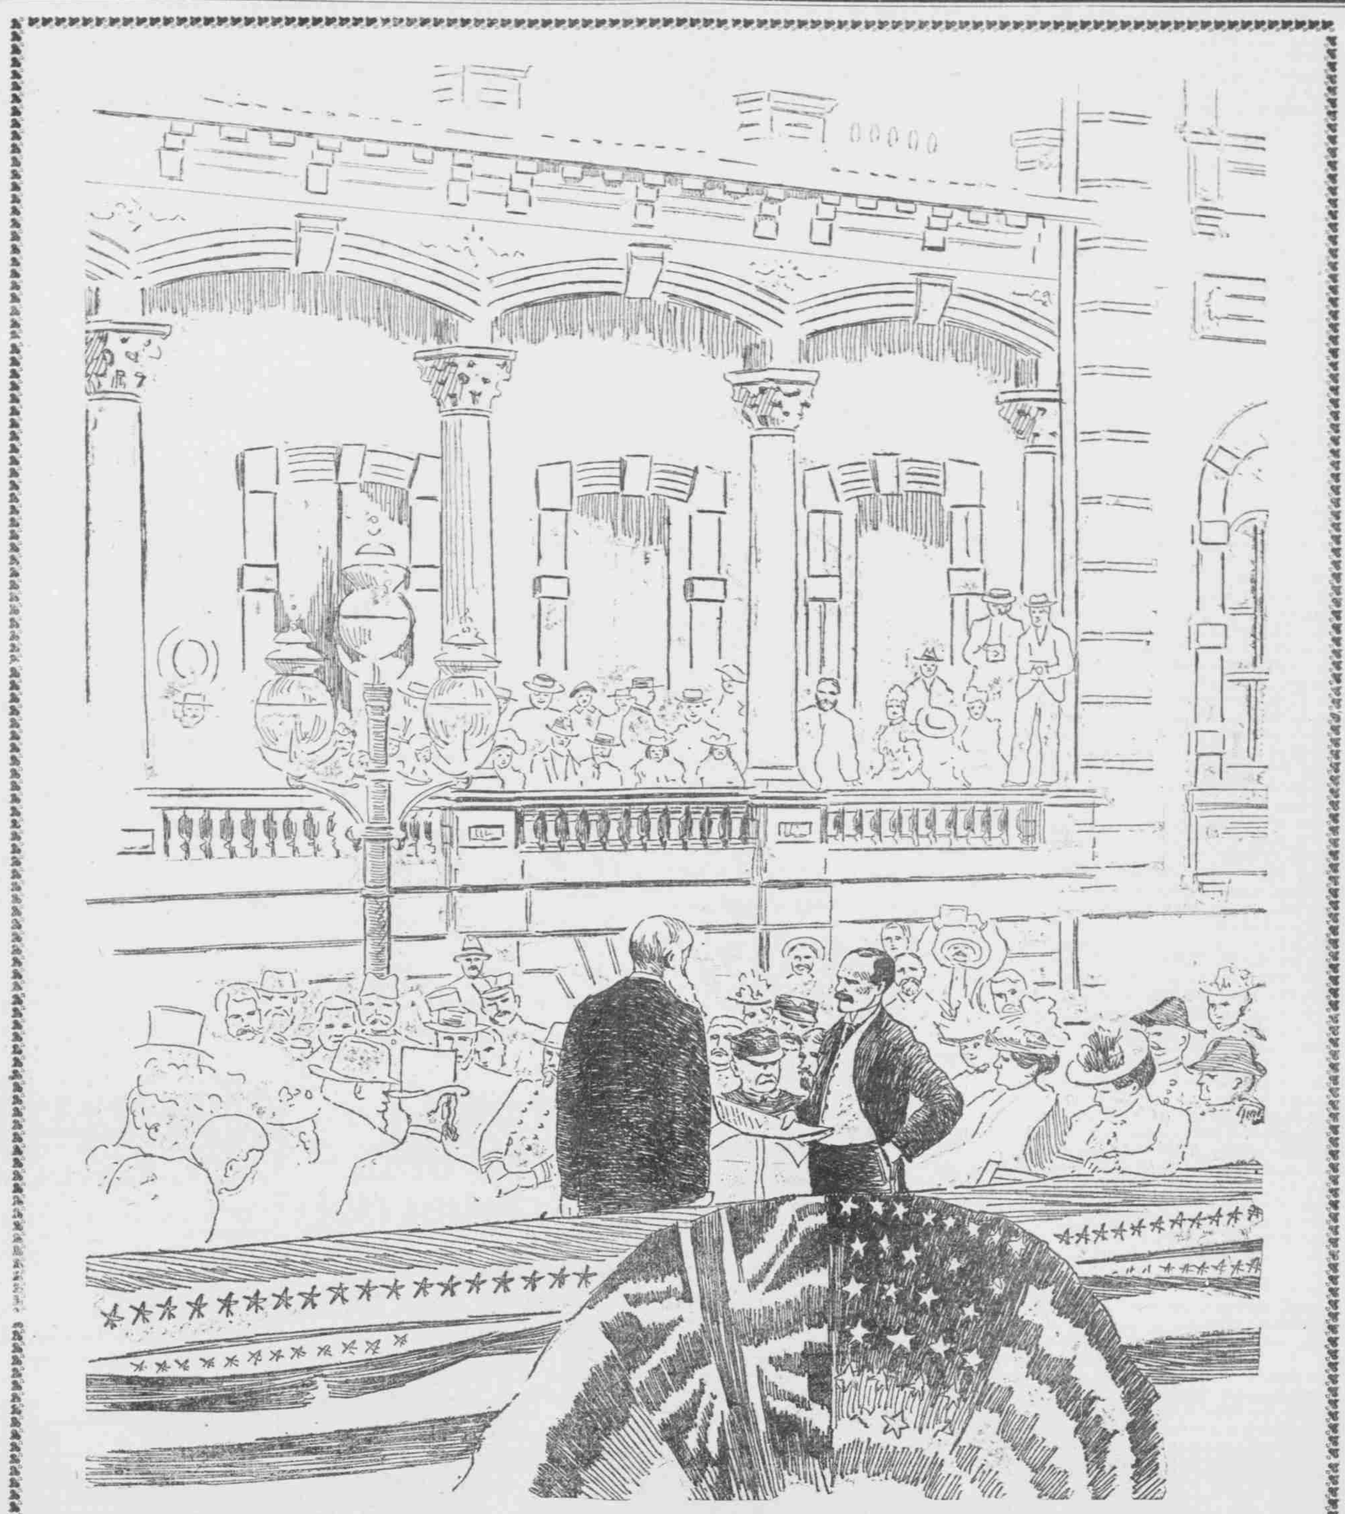
Shelby M. Cullom chairman of the Hawaiian Commission was born in Wayne County, Ky., November 22, 1829. His father removed to Tazewell County, Ills., the following year. He received an academic and university education. In the fall of 1853 he went to Springfield to study law and has since resided there. Immediately upon receiving license to practice he was elected city attorney. He continued to practice law until he took his seat in the House of Representatives in 1865. He was a presidential elector in 1856 on the Fillmore ticket. He was elected a member of the House of Representatives of the Illinois Legislature in 1856, 1860, 1872 and 1874 and was speaker in 1861 and 1873. He served from Illinois in the House of Representatives at Washington from December 4, 1865 to March 3, 1871. He was a delegate to the first Republican convention at Philadelphia in 1872, being chairman of the Illinois delegation. He placed General Grant in nomination. Mr. Cullom was elected Governor of Illinois in 1876 and was re-elected to the United States Senate as a Republican, to succeed David Davis, independent Democrat. Mr. Cullom took his seat in the Senate December 4, 1883 and was re-elected in 1888 and in 1894. His term of service will expire March 3, 1901. Mr. Cullom has always been prominent in the field of national politics. Both as a representative and as a senator, as well as while at the head of his State Government, he has shown himself to be a keen publicist of the stature of a statesman.

SENATOR MORGAN.

John T. Morgan was born at Athens, Tenn., June 20, 1824. He received an academic education, chiefly in Alabama, to which State he was taken when nine years of age, and where he has since resided. He studied law, was admitted to the bar and practiced until his election to the Senate. He was a Presidential elector in 1860 for the State at large and voted for Breckenridge and Lane. He was a delegate in 1861 from Dallas county to the State convention which passed the ordinance of secession. He joined the Confederate army in May, 1861 as a private in Company I, Cahaba Rifles, and when that company was assigned to the Fifth Alabama regiment, under Col. Robt. E. Rodes, he was elected major and afterwards lieutenant-colonel of that regiment. He was commissioned in 1862 as a colonel and raised the fifty-first Alabama regiment. He was appointed a brigadier-general in 1863 and assigned to a Virginia brigade, but resigned to rejoin his regiment, whose colonel had been killed in battle. Later in 1863 he was again appointed a brigadier-general and assigned to an Alabama brigade which included his regiment. After the war he resumed the practice of his profession at Selma, Ala. He was chosen a presidential elector for the State at large in 1876 and voted for Tilden and Hendricks. He was elected to the United States Senate as a Democrat and took his seat March 5, 1877, was re-elected in 1882, in 1888 and again in 1894. His term will expire March 3, 1901. Senator Morgan is well known in Honolulu, having visited here for several months last year. He has been an annexationist for thirty years and has been one of the very foremost of all men in advocating and working early and late for the union of the United States and Hawaii.

CONGRESSMAN HITT.

Robert Roberts Hitt was born at Urbana, O., January 6, 1834, and was taken by his parents three years later to Ogle County, Ills. He was educated at Rock River Seminary; now Mount Morris college and at De Pauw university. He was the first secretary of legation and charge d'affaires ad interim at Paris from December, 1874, till March, 1881. He was Assistant Secretary of State at Washington in 1881. Mr. Hitt was elected to the Forty-seventh Congress November 7, 1882, to fill the vacancy occasioned by the death of R. M. A. Hawk. Mr. Hitt has been in Congress as a staunch Republican ever since and has been a leader both in the branch and in his party. He has shown ability of the first order in shaping legislation touching the contact of the United States with other Governments. Mr. Hitt and Senator Cullom, as well as being political associates are fast friends and both of them have been earnest advocates of the annexation of Hawaii by their country.



"BY THE TERMS OF THE JOINT RESOLUTION ——"

American Minister Sewall Reading the Annexation Proclamation to President Dole, August 12. (Photo by Williams. Chalk Plate Engraving by Harry Roberts).

PRESIDENT DOLE.

Sanford Ballard Dole was born in Honolulu of American parents, in 1844. His father and mother were missionaries, and landed in Honolulu in the year 1840, after a long and tedious voyage from their home in the far-away State of Maine. Upon his arrival in Honolulu, Mr. Dole the elder took charge of the Punahou College, which was then about to be started, and which is today an enduring monument to his intelligence and care, for it is alma mater of many well-known men. Mr. Dole received his primary education at this institution and remained there and at Kauai, with a year meanwhile spent at Punahou, until he had more than attained his majority. A the age of 22 he went to Williams College, in Massachusetts, and took the general course for a year; after which he entered the law office of William Brigham of Boston. There he pursued his legal studies under that gentleman, and attended the different sessions of the courts. He applied himself closely, and at the end of a twelvemonth was admitted, after a rigid examination, to practice in the courts of Suffolk County, Mass., which comprises the city of Boston. Soon after this he returned to his native Islands, and was duly admitted to the bar of the Hawaiian Kingdom. He began a general practice, and followed his profession until 1887, when he was appointed to the Supreme Bench.

In the year 1884, he first became a member of the Legislature, and during the campaigns which followed he took a lively interest. He was also a member of the Legislature of 1886, and the duties of the position were faithfully performed. He took a prominent part in the reform movement which culminated in the revolution of 1887. He was a member of the Executive Committee of the Hawaiian League, and by his conservative course and counsel restrained rash action advocated by some of its members.

Mr. Dole has not confined himself exclusively to law and politics, for he has contributed considerably to literature. Among several articles from his pen, one appearing in Johnson's New American Cyclopaedia on the Hawaiian Islands is remarkable for its brevity and perspicuity, requiring an intimate knowledge of the subject, which was handled with exceptional ability.

Mr. Dole was married in 1873, to Miss Anna P. Cate, of Massachusetts.

In 1893, Mr. Dole was made President of the Provisional Government and in 1894, elected President of the Republic.

In January of the present year Mr. Dole made a trip to the United States in the interest of annexation and everywhere was most cordially received. He was the guest of the Nation and by his demeanor made a most favorable impression.

JUSTICE FREAR.

The youngest member of the commission which will present to Congress legislation for the Government of Hawaii, is Justice Walter F. Frear, for the Supreme Bench of the Republic. Justice Frear is an Island man. He came here when a child with his father, who was for several years pastor of the Fort street, now the Central Union Church. Justice Frear is a graduate of Oahu College here and of a law university in the United States. He returned from abroad to the Islands with a certificate entitling him to practice before courts of the State of Connecticut. This was in 1890 and he at once entered the local practice. In 1892 Justice Frear was appointed to the Circuit Bench and a year later to the Supreme Bench. He is now first Associate Justice. Justice Frear is a scholarly, studious, thoughtful, impartial man and the decisions he has written have been remarkably clear and able. Because of his thorough knowledge of the laws and the courts here he will be a peculiarly valuable man to the commission. Personally Justice Frear is a man of retiring nature, preferring his books to all other things. He is happily married, his wife being the daughter of B. F. Dillingham.

C. J. LYONS.

N. B. Observers are requested to forward their reports promptly at the end of each month, that they may appear in the published report on the fifteenth of following month.

A comparatively small number of handkerchiefs are manufactured in the United States, and those that are made there are mostly of the cotton and inferior silk varieties. The finest silk goods are imported principally from Japan, which country sends annually between 17,000,000 and 18,000,000 Japanese pongees. The best cambric article comes from France and Belgium, and linen handkerchiefs come from the north of Ireland and also from St. Galls, Switzerland.

BIG SEWALL SHIP

Four Masted Iron Merchantman Launched at Bath, Me.

GIVEN A RATTLING SEND OFF

Named for a Friend of the Owner. Sticks 200 Feet High—Captain Graham to Have Command.

The launching of the big four-masted Sewall ship took place the afternoon of July 26, at 5:20, says the Bath, Me., Times. The large vessel made a most graceful dip in the Kennebec amid salutes and cheers from an immense crowd. Several excursion boats and yachts were in the river, representing the different summer colonies.

The ship was decorated with signal flags and many of the boats on the river displayed their bunting, making the scene a festive one. The tugs Seguin and Perry were on hand to dock the ship.

Among those present at the launching and guests of Mr. Arthur Sewall were: Hon. Erskine M. Phelps, of Chicago, for whom the ship was named, his friend, Chief Justice Fuller and daughter, who are summering at Bar Harbor, D. B. Dearborn, the New York agent for the Sewalls, and George S. Dearborn.

The formality of christening was omitted.

The handsome, four-masted iron ship Erskine M. Phelps, one of the finest vessels afloat, has won the admiration of all, including several veteran sea captains, who have had an opportunity to view her immense hull and lofty masts of steel. The ship's dimensions are as follows:

Length, over all, 330 feet; measuring length, 312 feet; breadth, 44 feet 2 inches; depth, 25 feet 6 inches. Her gross tonnage is 3,000 tons and she has a carrying capacity of 4,600 tons, weight. The masts, far superior in strength to those of other sailing vessels, average about 200 feet in height from keelson. They are 32 inches in diameter at deck and 26 inches at heel. The lower yards are 94 feet, lower topsail, 85 feet, 6 inches, upper topsail 78 feet, top gallant 65 feet, royal 55 feet and skysail yards 46 feet. The bowsprit, also of steel, is 68 feet in length. The ship has three decks and four hatches, two of the latter being 12x16 feet and the remaining two 8x6 feet.

The forward deck house is 46x18 feet. In the forward section is the forecastle, the sailors' home, with twenty bunks. Skylights above give good light and ventilation. The rest of the forward house is devoted to the galley, donkey engine room and coal bunker of seven tons capacity.

In the midships house, 26x18 feet, is the carpenter's shop, extending across the house, and six rooms for the petty officers.

Aft is the commodious cabin, the home of Capt. Graham and his officers, forty-eight feet long and thirty-eight feet wide, extending the entire width of the ship. The place is excellently lighted by skylights. In the forward cabin is the dining saloon and aft the main saloon, tastefully finished in white. The captain's apartment, officers' staterooms, steward's pantry, bath rooms and lavatories are adjoining the saloons.

A spiral stairway leads to a chart house 14x16 feet on the quarter deck, with numerous ports, affording plenty of light and ventilation. Here are two bunks for passengers. Aft of the chart house is the wheel house, 10x14 feet. The various houses of the ship are composed of iron with wood finish. The ship is supplied with all modern improvements including steam pumps and hose for washing decks. A steam winch, two portable cranes to weigh anchors and steam capstan are forward and two hand capstans aft. The bulwarks of the ship are "stiffened" every four feet with round iron two and one half inches in diameter. Forward are two imported lighthouses for the side light.

Mr. Phelps is a Democrat and has ably served for several terms on the National Democratic Committee. He is an intimate friend of Hon. Arthur Sewall and during the recent campaign was one of Mr. Sewall's strong supporters.

Capt. Robert J. Graham, of Philadelphia, commander of the Erskine M. Phelps, was formerly commander of the ship William T. Babcock, and as such has visited Honolulu. When a boy of 15 he began his successful seafaring life in the Bath ship Idle Lilly, of which Capt. C. J. Carter of that city was then mate.

Previous to commanding the Babcock Capt. Graham was master of the Bath ship Reuce.

Capt. Graham is a young man who has confidence in the welfare of American shipping, a firm believer in the advent of that old time prosperity which will come with the restoration of our merchant marine.

The average yield of wine in France in 1897 was 180 gallons per acre, which is about one-third less than in 1896. The value of last year's vintage is estimated at $132,000,000, about $10,500,000 of which is for the high brands. The total acreage planted decreased during the past 12 months nearly 100,000 acres. It is now some 600,000 acres less than it was ten years ago.

A FUND IS NEEDED

Appeal for Endowment of the Missionary Institute.

A CHILD OF HAWAIIAN BOARD

Best Method of Support—Value of the Seminary—Basis for Effective Work That Will Last.

At a meeting of the Hawaiian Board held on the evening of August 2nd, it was voted on recommendation of the Education Committee, to authorize the raising of an endowment whose income shall be sufficient for the maintenance of the Theological School now known as the North Pacific Missionary Institute.

As this is somewhat of a radical step, and as an appeal must now be made to the friends of religious work for this endowment, a few words in regard to the work under the direction of the Hawaiian Board may be in order, as, by this means, the reasons for its action may be made to appear.

Aside from a slight oversight and aid given to a few schools, the work of the Board falls naturally into two branches—evangelistic service and theological education. The evangelistic branch includes the care of the native churches and of the home and foreign missions. The home missions are established among the various alien races now on Hawaiian soil—the Portuguese, Chinese and Japanese. The foreign missions are mostly confined to the Gilbert Islands, only a remnant of the force which once labored in the Marquesas Islands now remaining.

The department of theological education is designed for the training of pastors and leaders in these different fields of service. The object aimed at is to raise up religious leaders for each of these races from their own ranks. In the native work this has been practically accomplished. The pastors of the Hawaiian churches, with one exception are natives, most of whom have been educated in the North Pacific Missionary Institute. A slight beginning has also been made in educating men for the Portuguese and Chinese work. As yet the evangelists in the Japanese stations have been brought from Japan. In time, however, when the ties between the Japanese here and their fatherland have become less close, we may expect to see Japanese students among the others.

As thus organized it will readily be seen that the work of the Hawaiian Board depends in great measure for its success on the leaders which can be trained in its theological school. This is especially true of the native work, and should become increasingly true among the other races as well. It is very evident, therefore, that these pastors should be well trained and made as effective as possible for the places they are to fill.

But the work of the Hawaiian Board is in a transition stage. The people among whom its labors are carried on are passing from a more or less primitive condition to one of broader outlook and more general intelligence; due to the system of Government schools, a change in language, and the manifold influences of outside civilization. This is all in the line of advancement and a natural result of past effort. Such change is desirable; but it is also critical, because it indicates the presence of a new state of things, which will bring new problems, call for more effort, and such a readjustment of method as will meet the new conditions. This is only the natural consequence of a growing work, but in the present instance, it will probably be complicated by the new political relations into which these Islands have recently come and the new influences now liable to be dominant in the Pacific Ocean. Just what new problems will arise no one can say. They may come in the way of new difficulties to be overcome, or new duties to be met, or they may come in both forms.

But whatever shape the religious work of the Islands may assume in the future, it should be prepared for now. The raising up of ministers, and the adaptation of methods of action are not the work of moment or a day, and to wait till a crisis comes is to invite defeat in meeting it.

But the opportunities are not wholly in the future. Much could be done at once if the means were at hand. In the evangelistic field, there are many openings for new work and opportunities for strengthening the old. The number of Japanese evangelists could with advantage be nearly or quite doubled. New stations could be opened among the Chinese and Portuguese. It is also well known that the greater part of the native pastors are very poorly paid. In this fact lies another difficulty for the Board. As the younger men who have been educated in the higher schools for boys offer themselves for service in the native ministry, as some are already doing, it will be necessary to provide them with a better support. Otherwise merely natural obstacles will close the door of the ministry against them. There will be nothing to induce a capable and worthy man to enter the field, and the native ministry will fail as a logical result. But the native churches are poor, and cannot in many cases pay a living salary to a good man; and so, until a new generation arises with sufficient skill in agriculture and other kinds of labor to make the churches self-supporting, the Board will be obliged to assist in supporting the pastors.

The present needs of the Theological School are just as pressing. The call for an additional instructor is imperative. With the coming in of students able to use the English language, arises the necessity for more books in class room and library. Some regular instruction in music, by a competent teacher, so that the students may acquire the ability to lead in singing, is desirable. A considerable sum is required for the furnishing of students' rooms and repair of buildings. A still larger amount is needed for the compensation of the students for the work performed on the school premises, and for the missionary service rendered in and about the city on Friday afternoons and Sundays. It is on this stipend, small as it is, that they depend for their support. The total amount which the school should have to cover all expenses, including salaries of teachers, is about eight thousand dollars a year. At present a little less than one-half of this sum is used, and of this only about three hundred dollars comes from funds already in hand. The rest is drawn from the treasury of the Hawaiian Board.

Reasons will now begin to appear why an endowment should be raised. It should be borne in mind that the chief end of the Hawaiian Board's existence is its evangelistic work. All else is subsidiary to this. The Theological School is a means to this end. But as the work of the Board is organized, nearly everything depends on its effectiveness. When it is weak, all is weak. If it fails everything, pertaining at least to the native work, must fail too.

It is desirable that the school should be carried on with the greatest possible degree of efficiency. But, as we have seen, it is now for the most part dependent for its support on the treasury of the Hawaiian Board, and for the greater part of the time there is a deficiency in that treasury. Now what can be done? No teacher can ask for money to push the work of the school when he knows that in order to get it some other object must be sacrificed. Much less can he plan for enlargement when he knows that there is no money in the treasury at all to pay for it.

But the work of the school should go on without interruption and with such strengthening and enlargement as the case calls for, and apparently the only way to make this possible is to secure in some way a fund by which it can be carried on with reference to other expenditures. The advantages of this course would seem to be great. Not only would the school be free to go on in the line of its normal development, but the setting free of the funds which are now used in its support, would greatly stimulate and strengthen the evangelistic work, and the total result would be an all round progress.

From a broad view of the situation, a strong economic reason would seem to exist for this course. For merely prudential reasons, if for no other, strong and active churches are a necessity. The Government schools furnish no religious instruction. In the philanthropic and charitable institutions, such as the Kindergartens and the industrial and other schools for boys and girls, moral and religious influences are brought to bear upon those gathered into them, and the rudiments of right character and living are instilled. Now where is the institution which is to supply the element in the child's training not furnished by the Government schools, and which will also be the conserving force that gathers up and continues in the right direction the early impulses implanted in the children and young people from the other institutions? When these young people pass out from under the fostering influence of teachers and wholesome associations, many of these tendencies toward right character and life will be diverted into other directions unless some power is at hand to take them up and continue them. It is safe to say that in a land like this where the home influences which make for righteousness are still feeble, there is no power working toward this end equal to that of an active church under the lead of an efficient and sympathetic pastor. As a means, therefore, of saving and continuing the growth in character already begun elsewhere, every effort should be made to have well-trained and wide awake pastors in the churches, and hence the need of a well-equipped school in which to train them.

But it may be suggested, why have an endowment? Why not, rather, depend on the voluntary aid which can be gathered year by year among the friends of the cause? It may be admitted in this connection that voluntary aid in religious work is a factor of the greatest importance. It would be a vast misfortune if all such labor was carried on by the avails of invested funds. Aside from the pecuniary value of the aid contributed, it is a means of moral growth in a people to have the responsibility of supporting such work in this way. But there is a limit to the amount that can be done by this method. There is no means of enforcing the payment of such funds. Their amount depends upon the ability and sense of duty and generosity of the people, and so is always an uncertain quantity. It comes about therefore that, as any community becomes civilized and settled in its manner of life, certain kinds of institutions, especially those devoted to purposes of education, tend to take on established and permanent form, as the colleges and theological seminaries of the older countries, while the voluntary contributions are used in aid of newer and simpler forms of activity, such funds go further in this way. The higher institutions require a better equipment than the simpler work, and, hence, become too expensive to be supported by annual voluntary gifts.

We have probably reached the stage here when some of these institutions for higher work must take on this more permanent form. If the attempt were made to find the support which the Theological School now needs, through an annual appeal to its friends, it would in all probability be a failure. Even if it were possible, it would entail an intolerable extra burden upon those whose duty it would be to raise it. And, again, even if it were possible, it is too expensive. If eight thousand dollars were collected year by year for sixteen and two-thirds years, the total sum would amount to one hundred and thirty-three and one-third thousands of dollars. This sum placed at interest at six per cent would yield eight thousand dollars annually. Thus it appears that if the school were to be provided for from voluntary gifts, or from any general fund, enough money would be expended every sixteen and two-thirds years to provide an endowment that at six per cent interest would support the school perpetually on the same basis. Sixteen years, however, is a very short time in the life of an institution of this kind, and to use up such a sum of money during each recurrence of that period is too costly a manner of support. The cheaper and more effective method is to provide an endowment once for all.

Some may still object that the obstacles to religious work here are too great and the possible result is not worth the effort. It cannot be denied that there are obstacles in the way. But the Hawaiian Board has never stopped for obstacles, and no important work will ever go on under any agency that does. And as to results, the influences of moral and religious effort are too subtle and far reaching to be measured. It is safe to say that they are not lost. One element in ultimate success is intelligent persistence. There can be no doubt whatever that these Islands are destined to hold a place of commanding influence in this ocean, and the moral religious life here will be one powerful factor in that influence. What form that life will take no one can say, but it should grow naturally out of the present conditions. The way to make it strong in the future is to embrace to the utmost the opportunities of the present.

We have heard of the annexation of these Islands to the United States, and have seen the American flag unfurled in the air above us. By these acts this land has become a part of a nation whose stability and power rest professedly on the morality and intelligence of her people. Is Hawaii nei to become a vital member of the Great Republic, or remain an appendage and an excresence? The fathers of the American nation laid the foundation of her greatness in the school house and the church, and she has become the successful nurturer of the poor and oppressed of all nations. The fathers of civilization and Christianity in this land built upon the same foundations. If these new possessions are to be a fitting exponent of American ideas and American liberty to the people of the Pacific Ocean and its borders, we must see to it that the dominant principles of American life are vigorously maintained. To this end, as well as for the Christian life of the various people here, let us have a school in which the pastors of the land may be thoroughly trained for their work.

TROOPS SUFFERED

Men Die En Route From Honolulu to Manila.

All the Voyage Fire in Morgan City's Coal Bunkers—Intense Heat of Sun.

NEW YORK, August 9.—The World's advices from Manila, dated August 4th, by steamship to Hongkong August 9th, says: The third Philippine expedition is here, twenty-two days out from Honolulu. Never did an expedition encounter more dangers or endure more perils. On the voyage six men and one officer died and fifty more were taken sick. Typhoid and meningitis played havoc on the transports. Two firemen went insane and leaped overboard. But a fire on one of the ships was the worst peril of all.

The dead at sea were:

Ralph Bowers, Signal Corps, of Los Angeles, died July 20th.

Ernest Bower, Wyoming Battalion, died on July 20th.

Frederick Buckland, Thirteenth Minnesota, of St. Paul.

Lieutenant R. Kerr of the Engineers, West Virginia, died July 21st.

Stephen Roddy, Twenty-third Infantry, of Dallas, Tex., died July 14th.

W. D. Kelley, fireman, of San Francisco, died July 19th.

John Stockville, fireman, San Francisco, died July 14th.

The fleet of transports and their convoy, the monitor Monterey, were three days out from Hawaii when fire was detected aboard the transport Morgan City. One of the crew reported to Captain Dillon that there was a blaze in the coal bunkers. "Get out the hose," whispered the captain to the first mate. At midnight, when all the troops were asleep, Captain Dillon assembled the crew and told them the news. Every man was pledged to secrecy. The next morning the fire was as fierce as ever. The heroic crew fought the flames night and day and still the troops knew nothing of the fire.

The Morgan City fell off in speed and the whole fleet was delayed. Captain Dillon did not signal the flagship. He kept his men at work fighting the flames in the bunkers, while the troops went about on deck all unconscious of their peril. The bunkers were still burning when the Morgan City arrived here. Then for the first time the troops learned of their danger. The flames were extinguished after the ship had been in port a few hours.

On board the Morgan City were 600 men of the Idaho volunteers and a detachment of Nebraska volunteers.

The next most interesting incident of the voyage was the sight of the active volcano Frallon de Pajaros. The ships passed it on the night of July 23d, when it was in full operation.

The stores of the ships were carelessly packed at San Francisco, and about 12,000 pounds of fresh beef were spoiled on the Indiana and several thousands pounds more on the other transports.

For 1,000 miles the heat was intense and stinging. The ships steamed along the twentieth parallel of latitude on a sea like glass, with a temperature in the 90s. The breeze was easterly and did no good. The heat moderated on July 26th, when Cape Engano was sighted, by the cooling breezes from the China sea. The fleet received a great welcome in Manila bay from the war ships under Admiral Dewey, and another from the transports there, and a third from the troops ashore. The sick are improving rapidly.

Death of Mrs. Hocking.

Mrs. Mary Hocking, wife of Senator A. Hocking, died at her residence, Hassinger and Pensacola streets, at 5 o'clock yesterday morning. Death came unexpectedly and under circumstances that made it particularly sad. Besides the bereaved husband a little daughter survives the estimable woman.

Senator and Mrs. Hocking were married about two years ago, and left soon after for an extensive tour of America and Europe. They were gone over a year. Returning they remained for a time on Maui and this Spring settled in Honolulu. A niece of deceased, Miss Genevieve Pensinger, arrived by the Mariposa yesterday to visit her aunt and upon her the blow also fell particularly hard.

The funeral will take place from St. Andrew's Cathedral at 3:30 this afternoon. The remains will be interred in Nuuanu cemetery.

Leilani Boat Club.

President David Kawananakoa presided at a meeting of the Leilani Boat Club held at the Hawaiian hotel last evening. Ten members were present. After routine business it was decided to go into training at once for the championship races at Pearl Harbor on September 10. After some practice here the crews will move down about the 29th inst. to John F. Colburn's place.

If arrangements can be made with one of the other two boat clubs for the loan of a shell the Leilanis will enter a crew on Regatta Day.

It was decided to postpone boat house matters until after the races. About $700 has been raised to date.

Ex-Government Official.

John U. Smith, ex-collector of customs of Alaska, and family are at the Arlington. They arrived by the Mariposa yesterday and are on a pleasure visit to the Islands. The Smiths are from Portland, where they occupy a prominent social position. In his government duties Mr. Smith was stationed at Dyea.

CIRCUIT COURT.

Important Estate Cases—Decision on Demurrer.

In the jury waived case of S. M. Ballou vs. Ah Sun and Wong Tai Poon, assumpsit, Judge Stanley yesterday filed a decision in favor of plaintiff for $129.77. E. A. Mott-Smith for plaintiff; J. T. DeBolt for defendants.

The trustees of the Charles R. Bishop estate have filed their annual account, charging themselves with $53,372.02 and crediting $45,919.73, leaving a balance of $7,452.29.

J. M. Monsarrat has petitioned for letters of guardianship to issue to him of the persons and estates of Samuel, Marion and Genevieve, the minor children of the late James I. Dowsett. Petitioner is a cousin of the parties named.

Defendant in the assumpsit matter of Young John Ying vs. W. W. Ahana has moved for a new trial and filed a bond for same, with Ching On as surety, in the sum of $200. Magoon and McClanahan for defendant.

In the case of A. Moritz vs. Elizabeth and Charles Cockett defendants have been granted twenty days from August 15 in which to make answer. Kinney & Ballou for plaintiff; De Bolt and Henshall for defendants. Defendants file an answer by way of demurrer.

Yesterday afternoon Judge Stanley filed a decision on demurrer in the debt action of the Kahului Railroad Company vs. Hawaiian Commercial and Sugar Co. and J. F. Hackfeld, overruling said demurrer. This action was brought to recover $5,000, being a bond filed by defendants in a previous case which they finally failed to establish in court. Kinney & Ballou for defendants: Hartwell and R. D. Mead for plaintiff.

Before Judge Stanley, John Gouvia pleaded guilty to the charge of practicing medicine without license and sentence was suspended to next term.

Opium Case.

In the Labrador opium case in Judge Perry's Court yesterday the prosecution finished its case and the defense will begin this morning. The witnesses called thus far were: W. E. Beckwith, F. B. McStocker, Kanuha, the Japanese cook, George Stratemeyer and Lee Chong. Marshal A. M. Brown for plaintiff: Davidson and Clarke for defendants.

Captain Richter.

Capt. R. Richter, of Company I, First California, who was shot through the head at Manila and perhaps mortally wounded, is well known in Honolulu. He is a San Francisco merchant and while here was entertained by several old friends. George Grau and others in Honolulu received short letters from him by the Belgic announcing the safe debarkation of his regiment at Cavite.

Private Jas. L. Dobner, who was invalided by the First California here, has been pronounced physically sound at San Francisco and is ordered to his command.

Captain Parker will appear today as a witness in the Hamilton case.

If Uncle Sam

. . . . . drops in on Friday at noon, he will see an inspiring sight: the lowering of one flag, the hoisting of his own.

Flags

. . . . . will be the order of the day.

You will see them everywhere; on house tops, on tree tops, on the lawn.

Flags

. . . . . of all shapes and sizes. The dinky cotton one, the tin one, the brass one, and some of silk.

YOU will see many of a certain kind upon the lappel of men's coats, and upon the ladies' blouses, noticable because of the beauty of coloring and perfection of finish. These are the kind we are interested in, and the kind you will want. Don't wait until Friday, we'll be closed then, and it will be too late, besides wouldn't be surprised if they were all gone then, and we do so hate to disappoint you.

Needless to tell you that

H. F. WICHMAN

Sells Them,

We don't disdain to sell a very cheap one also, but then, that's another story.

RISDON IRON AND LOCOMOTIVE WORKS, San Francisco, Cal.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Plows, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Chandeliers and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.

IN MISERY AT SEA

Opening Hardship of a Trip to Klondike.

August Conrad Writes to His Brother Joseph—Three Days Stormy. Out of Coal—Salmon.

August Conrad, recently with the Union Feed Co., who left in the Spring for the Klondike, has written a letter to his brother, Joe, dated at Kodiak, July 20. He was then about 1,000 miles from St. Michaels. Conrad says he has had good health and has gone up in weight from about 165 to 186 pounds. Speaking of the trip he states: "After leaving San Francisco on the 23rd of June we encountered a storm, which kept up three days. Water kept coming into the cabin and we poor, sick sailors had to keep bailing all the time. I tell you it's an experience not easy to forget, for the sufferings and miseries we had to endure was something terrible. It was all I could do to stand up, and when called on deck just managed to crawl around. Some of the expedition had to give up, but a few of us stuck it out, and had we not the ship would surely have sunk. The poor firemen were so bad they could not keep up fire and our little boat was only able to make about a mile an hour for the first two days. A lot of coal was wasted then, for they did not care how they shoveled it in.

"After steaming ten days we discovered we did not have coal enough to carry us to Dutch harbor, so had to shut down steam and sail for Kodiak, a coaling and fishing station. We were then about 800 miles away and it took us just sixteen days to make it, having met with such unfavorable winds and calms, rendering it impossible to make much headway. On the 18th sighted land at last and started steam again with the little coal we had reserved, reaching port yesterday and making the trip in 26 days. Kodiak is a pretty place with a population of about 300, mostly white and a few Esquimaux. We have had fresh salmon every meal since yesterday and am sick of it already."

ENGLISH CHURCH.

Movement to Make a Change of Administration Here.

One of the passengers by the Mariposa yesterday was Rev. Alexander Mackintosh, rector of St. Andrew's Cathedral, who left on that vessel for the Coast on the up trip last month. Regarding the status of the Episcopal Church here under the new regime Mr. Mackintosh has made full inquiry of Bishops Nichols and Johnson of California and at a meeting of the Synod of the Episcopal Church here, which will be called soon, delegates will be elected, lay and clerical to attend the convention of the church at Washington, which meets next October. Although Mr. Mackintosh, owing to his short stay in San Francisco, could not see personally many of the Episcopal clergy, through correspondence he was promised a strong support in the extension of a branch of the church from that of the United States to Honolulu.

A movement is on foot among the laity of Mr. Mackintosh's congregation to raise his stipend to such a figure as will permit him yielding up the Royal School of which he has been master for nearly thirty years, and devote his whole time to St. Andrew's.

Happily Mated.

Chas. A. Bon, who is with the Bishop & Co. bank, and Miss Rebecca Johnson, who arrived from Laramie, Wyo., yesterday morning, were married at 2 in the afternoon at the home of Mr. and Mrs. W. J. Cranwell, Alakea street. The ceremony was performed in the presence of a few intimate friends of the couple by Rev. G. L. Pearson. The bride was accompanied to the Islands by Mr. and Mrs. E. T. Duffey and Master Donald Gilmore, of Laramie, Wyo. Mrs. Duffey and Mrs. Bon are sisters. Mr. Duffey, who will remain some weeks for a visit, is a chief train dispatcher for the Union Pacific railway, and has held responsible positions in the company's train service for many years. In the evening a wedding dinner was given at the home of Mr. and Mrs. Cranwell.

Arizona Visitors.

Honorable J. B. Erly, a prominent attorney of Arizona; P. K. Hickey, a capitalist and real estate dealer, and Lloyd Johnson, clerk of the Supreme Court of Arizona, all of Phoenix, arrived by the Mariposa yesterday morning. They found an old time acquaintance here in Rev. G. L. Pearson of the Methodist Church. Though coming from one of the "garden spots" of America these gentlemen appreciate very highly the climate and beauty of this Island, and are surprised at the great volume of business done here. They are quartered at the Arlington and will probably remain in the city several weeks.

Japanese Shot.

Superintendent Buck and a friend were indulging in some pistol target practice at the Government Electric station yesterday forenoon. They placed the weapon on a bench and a Japanese laborer picked it up for a look. The Japanese fooled with the machinery and as a result discharged the pistol and wounded himself in the thigh. The hurt is not a serious one.

A Great Sufferer from General Debility and Weakness Says

DR. AYER'S SARSAPARILLA SAVED HER LIFE.

We give below a testimonial from Mrs. M. Cracknell of Hilton, So. Australia, who also sends us her portrait:

"Some two years ago I was suffering from general debility, weakness, etc., and was so ill that I thought I never would be well again. I had the advice of two medical men and took much medicine, but I derived no good whatever. My husband was telling a friend how very ill I was and this friend told him to get for me

Ayer's Sarsaparilla

He did so and I took three bottles. I felt a great deal better. I continued taking it and in all I took eight bottles and was able to resume my household duties as well as I ever was. I feel sure that Ayer's Sarsaparilla was the means of saving my life. I strongly recommend it to anyone who is suffering as I did and if they will only persevere in its use I feel positive it will cure them."

For constipation take Dr. Ayer's Pills. They promptly relieve and surely cure. Take them with Dr. Ayer's Sarsaparilla; one aids the other.

Come to Attention!

At this time, when the minds of the people are absorbed with greeting and aloha toward the army of visitors, attention should not be forgotten to personal wants. Note the attitude of the soldiers when attention is called. They are all business, so should be the civilian when attention is called to their personal needs. Newspapers are the medium of attention and thought and through them we call the public to attention. Shoes need attention, your feet need consideration. We have shoes to suit everybody in price and style. We ask your attention and patronage.

Olaf Sorenson and Miss Nicholson will be wedded at St. Andrew's Cathedral September 1.

Mrs. Wm. Haywood, Mrs. J. S. McGrew and Mrs. Robt. Grieve returned by the Mariposa.

A good paying cash business centrally located is for sale. Address "K 2" this office.

Mrs. C. S. Desky is quite ill at San Francisco and Mr. Desky on this account leaves by the Moana.

Gus Schuman has sent his pacing mare Judah and the stallion Vola Clair to Auckland in care of Walter Bagby.

Harry Armitage, stock broker, offers 20 shares of Pioneer Mill Co. and 22 shares Kahuku Plantation stock for sale.

The Rev. Alexander Mackintosh, who returned yesterday by the Mariposa, is visiting Mr. and Mrs. W. M. Graham at Waikiki.

This is the evening of the Sharpshooter banquet in Progress hall. All members and ex-members are expected to be present.

Maj. Geo. Ruhlen has been appointed post quartermaster for Honolulu garrison and will come here by either the Scandia or Arizona.

The California Fruit Co., George Andrews, proprietor, received ex Mariposa a shipment of fresh California fruits, vegetables, etc.

Eczema, scald head, hives, itchiness of the skin of any sort, instantly and permanently cured. Doan's Ointment. At any chemist's. 50 cents.

Company D, First New York, has an all round concert and minstrel troupe. The contingent was the life of the Mariposa on the voyage down.

Wm. A. Love is now devoting all his time to the brokerage business, having retired from the employ of Lewers & Cooke after a long and faithful service.

Albert S. Berry, who is to be sergeant-at-arms for the Commission, is the son of Congressman Berry, who was out here with a party a year ago.

H. F. Goldsmith, with the hospital corps of the First New York, is correspondent for his home paper, the Poughkeepsie Evening Enterprise and Courier.

On account of the mails there was no meeting of the Board of Health yesterday afternoon. The Commissioners of Education will hold a session at 2:30 this afternoon.

A large, strongly bound book, containing the proceedings of the Berlin Leprosy Congress, to which Dr. Alvarez was a delegate for Hawaii, has been received here.

There remains at the Queen's hospital now but one United States patient and at the Red Cross three. All will be taken to the new hospital so soon as they can be moved.

Two ex-Ministers to the United States from Hawaii were at the wharf yesterday morning to meet the Commissioners. The Honolulu men were F. M. Hatch and W. R. Castle.

Capt. Zeigler drilled Company B Tuesday night. Capt. Kenake was detained with the mails. Lieut. Petrie was under the weather and Lieut. Cottrell was on a belated train from Wailalua.

Minister Cooper inspected the regular troops and quarters yesterday morning. He was accompanied on his rounds by Col. Fisher, N. G. H., and Col. Barber, of the New York regiment.

P. J. Barth, a well known auctioneer of San Francisco, leaves for his home by the Moana, after having a pleasant visit here. Mr. Barth did not think there was a business opportunity here for him.

Thomas F. Hope and Mrs. Amy Leonard were married at the Methodist parsonage by Rev. G. L. Pearson at 7 o'clock last evening. They will leave by the Moana for the coast, to be gone two months.

A meeting of foot ball players will be held at the office of J. Q. Wood at 11:55 this forenoon to discuss a program for the coming season. There is a strong team in the New York Regiment, which will doubtless enter the series.

Judge Stanley yesterday sentenced George L. Edwards to five years' imprisonment at hard labor and to pay court costs. Appeal was taken to the Supreme Court on a contest of the jurisdiction of court and jury and the character of the verdict.

Walter C. Weedon, an old Kansan, has become interested in the plan to send a Hawaiian queen to the Topeka Carnival. Miss Harrison, of Topeka, Kas., is the guest here now of Rev. T. D. Garvin and wife and may accompany the queen to the throne town.

W. Hancock, here from Hongkong to botanize on Oahu and Hawaii, is in the Chinese customs service under Sir Robert Hart and has held responsible positions for many years. At the end of each five years of service the men in the Chinese customs have a vacation of two years.

At 12 o'clock noon today, J. F. Morgan will sell at public auction at the old Fishmarket wharf, the clipper schooner Norma with all sails, anchors, chains, etc. The schooner has just had a thorough overhauling and is in excellent condition. She has a capacity of 60 tons.

Capt. Freeman, of M Company of the engineer corps, is an old friend of Ed Dekum. Ever since the troopships have been coming to this port Mr. Dekum has had one or more friends on every one of them. M Company is from Portland and will be stationed here, so Mr. Dekum will be happy to be with his friends.

L. A. Rostin, with the California Feed Co., is back from the coast.

The Moana was a day late leaving her New Zealand port and should reach Honolulu before noon today.

A wee little native girl fell into the bay from the Pacific Mail wharf last night and was rescued by Alapaki, a pilot boat boy.

Police arrests last night were: Chinaman, selling cake without license; a hackman, for violating a section of carriage regulations.

PER MARIPOSA.—California Fruit Co., George Andrews. Cherries, Peaches, Apricots, Plums, Oranges, Lemons, Nectarines, Bartlett Pears, Onions, New Potatoes, New Crop Nuts, Raisins, etc. Tel. 484.

FORT STREET.

A Baby's Skin

Is the most delicate of all delicate things, and is more subject to external influences than a grown person's.

The quality of the soap used in the baby's bath is of great importance, because it means a happy, healthy child or a fretful one, with skin full of irritation caused by the excessive alkali in the soap.

Curative-Skin Soap means much to the mother. It is as pure as it is possible to make a toilet soap. It will not cause skin blemishes, but possesses a soothing effect; it cleans but does not irritate. Try a cake. It is its own best advertisement. Made in America, too. Get it of

Hobron Drug Company.

Absolutely Pure

ROYAL BAKING POWDER CO., NEW YORK.

WHARF AND WAVE.

The steamer Kilauea Hou is due tomorrow from Hilo.

The bark Andrew Welch is loading sugar at Fort street wharf and will sail August 24th for San Francisco with a full cargo.

The bark Alden Besse docked at Oceanic wharf at 10 o'clock last night with some passengers and a cargo of general merchandise.

The bark Edward May arrived Aug. 9th at Port Townsend from Vladivastock and is now under charter for lumber and merchandise from San Francisco to Sydney.

The schooner Aloha, barkentine S. N. Castle and brig J. D. Spreckels were up and loading for Honolulu, in San Francisco, by last advices. The S. N. Castle was to sail August 11th.

The deck load of onions on the Mariposa which caused so much disquiet to the prominent passengers of that vessel on the trip down, were taken from the deck and placed between decks yesterday before the steamer sailed for the Colonies.

BORN.

HOCKING—In this City, Aug. 17, 1898, to the wife of Senator Alfred Hocking, a daughter.

DIED.
