ENVOYS WERE SAFE ON THE FOURTH OF JULY

A Message From Conger of That Date Comes to Hand.

FOREIGN POWERS GENERALLY DOUBT ITS AUTHENTICITY

Severe Fighting At Tien-Tsin—Allies Lose One Hundred Men—Chinese Gunnery.

WASHINGTON, July 29.—The Chinese Minister has just received a cipher dispatch from United States Minister Conger. It is in the State Department cipher and is transmitted through the Taung li Yamen and the Taotai of Shanghai. It contains about fifty words and is signed in English with the name Conger. The date is July 4th, two days before the reported massacre. The contents of the message are as follows:

"Been besieged two weeks. British Legation. Grave danger of a general massacre of Chinese soldiers who are shelling the Legation daily. Relief soon, if at all. City without government except by Chinese army, which is determined to massacre all foreigners in Peking. Entry relief forces into city probably be hotly contested."

This message was transmitted to Washington by Capt. Charles M. Thomas, U. S. N., commander of the Brooklyn. No answer has yet been received from the second dispatch sent to Minister Conger through Minister Wu, but it is stated that when a reply is received it will probably set at rest all doubts as to its authenticity.

LONDON, July 28.—The tone of the European press with regard to the message dated July 4th received here yesterday from the British Minister at Peking, Sir Claude MacDonald, continues pessimistic and the endless and extraordinary succession of Chinese dispatches purporting to describe the situation at Peking only serves to bewilder. However, the earlier unquestioning belief that a massacre took place, is to some extent shaken, and it is now admitted, despite the heavy load of evidence supporting the reports of the massacre, that as Sir Claude MacDonald's letter disposed of the first story, alleging that the crime occurred June 20th, so Minister Conger's dispatch and other stories reporting the Legations safe July 13th, 14th and 18th, give some ground for assuming the possibility that the second reports were also unfounded. Another version of the story which reached General Li, commanding the Pei Tang forts, by a runner from Peking, who brought to him yesterday the report of anarchy in the Chinese capital, which General Li communicated to the British officer commanding at Tong Ku, says the British Legation was being shelled when the messenger left Peking, July 11. Prince Ching, this report says, was assisting the Ministers and his place was protected by 10,000 Chinese troops.

LATEST NEWS FROM CHINA TO AFTERNOON OF THE 26TH

LONDON, July 26.—While the latest impression derived from the array of conflicting telegrams from the Far East is that a portion of the foreign colony at Peking may have escaped slaughter, until a recent date, the general consensus of the best-informed opinion of Europe seems to continue to favor the acceptance of the worst news and prompt action thereon, the contention being that the only possibility of definitely ascertaining the truth is by the allied commanders inquiring at Peking. Judging from the news from Tien-Tsin, however, recording divisions among the Admirals there, the prospects for a speedy advance seem to be endangered unless the Governments speedily agree upon a supreme leader. Telegrams from Shanghai report that Li Hung Chang has taken up his abode at the arsenal, as a measure of precaution. It is not stated whether he feared attack by Chinese or attempts of the Powers to curtail his liberties. Apparently the foreign Consuls at Shanghai have informed the Viceroy that unless he obtained definite dispatches from Peking within five days they would conclude the Ministers had been murdered, and act accordingly.

Reports are recurrent that a number of missionaries, American or English, have been murdered in Shan Si. One of the dispatches from Shanghai, published here today, says: "The Canadian missionaries who escaped from Ho Nan had a terrible experience en route here. The natives everywhere were hostile. The rabble attacked the refugees, beat them and tore the clothes from their backs. The ladies suffered cruel indignities."

The dispatch continued: "Canton remains comparatively quiet. The natives, however, are beginning to fear that the reinforcements arriving at Hongkong intend to attack the Bogue forts and occupy the city. The military mandarin has asked the Colonial Secretary at Hongkong for assurance that Great Britain does not intend to take Canton."

A dispatch received here today from Yokohama states that the Japanese division will all be landed at Taku by July 21, and will reach Tien-Tsin August 2. The Legislature of New South Wales has resolved to dispatch a military contingent to join the Imperial troops in China.

WHEREABOUTS OF MISSIONARIES. NEW YORK, July 26.—The letters from missionaries in North China which have been received recently throw light upon the precise whereabouts of several missionaries about whom there has been uncertainty. It is now known that Rev. Horace Pitkin, Miss Annie A. Gould and Miss Mary S. Morrill, of the American Board (Congregational), were, when communication was cut, at Pao Ting Fu. Rev. and Mrs. Wm. P. Sprague were at Kalgan, and it is believed that they can escape through Russian territory. All those connected with the Congregational Church at Tung Cho, Rev. Dr. Chauncy Goodrich, his wife and three children, Dr. J. H. Ingram, his wife and two children, Rev. E. G. Tewksbury, his wife and children, Rev. Howard S. Galt and wife, and Miss Mary E. Andrews, Miss G. Evans, Miss Abbie A. Chapin, Miss Lella Miner and Miss V. C. Murdock, were taken to Peking under escort. Beside those stationed at Tung Cho, there were several other Congregational missionaries there at the time the Boxer break occurred, attending the annual meeting of the North China Mission. Among those known to have attended this meeting from other points were Rev. and Mrs. F. M. Chapin, of Lin Ching; Dr. and Mrs. Arthur H. Smith, of the Misses Gertrude and Grace Wyckoff, of Pang Chung, and Rev. James H. Roberts and Rev. Mark Williams of Kalgan. These went to Peking for safety. Letters from Miss Miranda Croucher and the Rev. Frederick Brown reached

take the conduct of affairs out of political hands." The British Premier and Minister of Foreign Affairs, Lord Salisbury, today notified the United States Ambassador here, Mr. Joseph H. Choate, that it was impossible to accept the evidence so far submitted by the Chinese or that transmitted by the United States regarding the safety of the foreign Ministers at Peking, and that until their safety was fully established the British Government would be unable to discuss any question of mediation or kindred matters.

WASHINGTON, July 25.—The message from Minister Conger which came over the wires from Captain Thomas was the first communication of unquestionable authenticity which has been received from the American Minister at Peking, since his urgent appeal for help of June 12th. It establishes clearly the fact that the American Minister and probably the other Legationaries were alive on July 4th, though in sore straits. Therefore it completely and finally disposes of the first stories that were published from Shanghai of the massacre of June 20.

WASHINGTON, July 25.—The State Department has received a cablegram from Consul McWade at Canton saying that the Viceroy Tak gives assurance that all the foreign Envoys at Peking were alive and well on July 21.

WASHINGTON, July 25.—The State Department has received a cable dispatch from Consul General Goodnow, but it is stated that it contained nothing to clear up the situation at Peking. Mr. Goodnow says that Li Hung Chang will remain in Shanghai for the present and will conduct his negotiations from that city. There is an intimation that Earl Li is detained at the request of the foreign officials, although this was not so stated by Acting Secretary Hill. No information has been received from Chinese Legation or Chinese Government in response to President McKinley's reply to the Emperor.

No answer has yet been received from the second dispatch sent to Minister Conger through Minister Wu, but it is stated that when a reply is received it will probably set at rest all doubts as to its authenticity.

SEVERE FIGHTING AT TIEN-TSIN

Allies Lose a Hundred Men But Gain Good Results.

TIEN-TSIN, Wednesday, July 11, via Shanghai, Tuesday, July 24.—The allies today sustained 100 casualties in repelling an early morning attack on the railway station across the river from the foreign settlement. A regiment of Japanese, a battalion of French from Tonquin and Hongkong Sikhs participated in the fighting, driving the Chinese before them at the point of their bayonets, killing, it is estimated, 300 of them.

The allies had planned a general movement against the Chinese position, and a contingent of the Ninth United States Infantry landed at midnight, prepared to advance. The movement was postponed, however, after a part of the troops had started, on account of the difficulties encountered in crossing the canal. The Chinese apparently had been informed of the plan and had gathered a large force opposite the station. These opened with rifles and field guns, and the foreigners advancing were met by a severe infantry fire, the Chinese creeping close to the station behind the cover of the buildings. The fighting began at 3 o'clock and lasted

four hours, becoming a hand-to-hand conflict. The Japanese company, leading the charge, lost all its officers. Five Japanese officers and fifteen privates and six Frenchmen were killed and three Sikhs were killed and six wounded.

Two British four-inch guns mounted at the lower end of the settlement bombarded the Chinese positions with lyddite, firing at the pagodas on the wall on the native city. Two more guns are being mounted. There is great need of more heavy guns to displace the Chinese artillery. Plenty of light batteries are arriving.

A British officer who was in Ladysmith throughout the siege by the Boers, says the severity and accuracy of the Chinese shelling the past week exceeded the bombardment of Ladysmith. The heat is intense.

CHICAGO, July 25.—A dispatch to the Record from Tien-Tsin, dated Saturday, July 21 (via Shanghai) says: Today's performance will break the backbone of the Chinese war party. At daylight this morning the combined forces turned their attack upon the Chinese left, which was penetrated. As the Russians failed to make a suitable passage across the canal, the Chinese made a smart counter-attack on our right and left outposts. This was repulsed by a handful or two of men, who fought with great bravery, but with heavy casualties. One American was injured.

By 1 o'clock in the afternoon the allies bombarded the native city, and after an hour of magnificent work by two four-inch guns and three twelve-pounders were in flames. Their destruction was complete. The fort replied feebly with a few rounds, when one gun got the exact range and fired several lyddite shells. This is the first that has been shelling Tien-Tsin since June 17.

The allied forces have spared the portions of the native city from which operations have not been directed.

SAD SCENES IN STRICKEN TIEN-TSIN

The Great City Presents an Appalling Spectacle of Ruin.

TIEN-TSIN, July 18 (via Shanghai, July 24).—Colonel Bower of the Chinese regiment, Colonel Wogack of the Russians and Colonel Aoki of the Japanese will form the joint provisional government for the city of Tien-Tsin, which it was recently decided to establish. They will be entrusted with the task of bringing something like order out of the existing chaos. Since the issue of the proclamation inviting well-disposed Chinese to return to their homes, a number have come back to the city, and many native servants are coming to the settlements, a majority of them returning to the service of their previous employers.

The native city this afternoon presents an appalling spectacle of ruin and desolation. The suburbs were completely destroyed by fire, mostly caused by the shells of the allies on the side facing the settlements. It is believed that not a dozen houses are intact, and the wall was damaged by the tremendous fire of the allies' artillery, which, however, was apparently not heavy enough to produce much effect. A curious spectacle is presented by a number of mud hovels immediately underneath the wall where the latter was most damaged, hardly one of them showing signs of having been hit. Inside the city the damage was terrific. The buildings nearest the wall were mostly gutted by fire and many were totally blown to pieces by the shells of the allies. Among the smoldering ruins are many charred corpses, which the pigs and dogs are eating.

The allies are busy removing the bodies.

(Continued on Page 2.)

ARE EAGER FOR PEACE

Britons Tired of Boer War.

THE COST IS TOO GREAT

Government is Said to be Keeping Back Knowledge of Frightful Deficits.

NEW YORK, July 22.—A Times cable from London says: Common people are disposed to scoff at the sudden return of the Duke of Norfolk from the seat of war. This valiant gentleman threw up his position as Postmaster General to go out to fight the Boers only the other week, as it seems, and here he is on his way home again. There is a good deal of what is called irreverent smile over this episode in his grace's career, but he is such an amiable man that nothing is said among his own class of an ill-natured kind, and it appears he was very badly hurt by that tumble from his horse. In the aristocratic world generally, however, there is now anything but delight over South African affairs. Some of the more far-seeing of these people begin to fear that when the reaction sets in "the sleeping seminars of our democracy," as Carlyle mockingly characterized the English common folk, may start up and inquire, "What is the use of all you ornamental people? We have let you govern us and behold the mess into which you have brought the country."

The South African enrollment is much where it was a week ago, only so many hundreds more of our troops are dead or broken for life, so many more marchings and countermarchings with no result, a cornered Dewet free again, and nearly 200,000 troops tramping around to subdue less than 20,000 farmers. Let us shuf the hammer down on the scene. Unfortunately at home one asks in vain what there is to cheer us. Parliament is churning about, endeavoring to kill time and do as little as possible. The Government is keeping back knowledge of its frightful deficits and spending much time and ingenuity in constituting a committee to inquire into medical scandals in South Africa, that may be certified not to get at the truth. For the rest, Milner has at last called his Parliament together in Cape Town and has greeted it with a bumptious optimistic speech which might have been borrowed from the men who played the roles of royal Governors in your Massachusetts or New York when you first began to think that the painter visiting you to the mother country would have to be cut. Of what temper the Cape Parliament really is we cannot yet tell, but the swearing-in of that poor tool of Rhodes, Dr. Jameson, was received with dead silence.

In England likewise several significant things have happened to indicate a rapid change in public sentiment, and most notable of these was the free and open South African conciliation meeting held last night in Bradford. There was a great meeting in London on Wednesday night under the same auspices, but it was a ticket meeting, and was only distinguished from previous gatherings of the kind in being left unmolested by the mob. In Bradford friends and foes of peace were welcome to come and the meeting was nearly unanimous for peace.

SEEK PORTO RICANS FOR HAWAIIAN PLANTATIONS

SAN JUAN, Porto Rico, July 21.—Lieutenant Alexander of Oakland, Cal., who is reported to be interested in Hawaiian plantations, and W. N. Armstrong of Honolulu, are here representing the Planters' Association of Hawaii, investigating the labor question. These gentlemen say that 5000 Porto Ricans are wanted in Hawaii and offer free transportation for laborers and their families on a three years' contract, agreeing to furnish houses, schools and medical attention, at \$15 per month the first year and after that at \$16 and \$17. The agents believe Porto Ricans are adapted to the work and represent that the climate and habits of life in the islands are similar. Conservative authorities considering the overpopulation of this island, the destitution of the people and the difficulty of procuring work, are favorable to the plan if the agents can be shown to be reliable. It is reported that Governor Allen has indorsed the scheme at Washington.

An explosion occurred just before noon, July 25th, in the five story building at 125 Dearborn street, Chicago. In a few minutes the building was a mass of flames. It is reported that several employes of the firms occupying the building were stunned by the shock of the explosion, and it is feared that several lives have been lost.

at the offices of the Methodist Missionary Society indicate those who escaped from Peking and those who could not get away. Rev. George R. Davis, Rev. Frederick D. Gamewell, Dr. George D. N. Lowry and Rev. W. F. Walker, Mrs. Charlotte M. Jewett and Dr. Edna G. Terry are among those known to be in Peking. There have been various rumors as to Miss Terry's fate, one being to the effect that she was murdered. This is the first definite news that she was in Peking. Among those who left Peking on the last train to go to Tien-Tsin before the line was torn up were Miss Miranda Croucher, Miss Anna D. Goss, Miss Ida M. Stevenson, Rev. J. H. Pyke, Rev. J. Frederick Haynes, Rev. Dr. N. S. Hopkins and Rev. Frederick Brown.

TROUBLE BREWING IN THE SOUTH.

NEW YORK, July 26.—A special to the Journal and Advertiser from Hongkong says: Consul General Wildman has been informed that the Chinese Governor of the Island of Hai Nan has served notice on the Consuls that he is unable to protect the foreigners any longer. The American missions have appealed to Consul Wildman to send a warship to Hoi How to bring away the foreigners.

It is believed that three men, three women and three children belonging to the American Presbyterian Board of Missions at Nodoo Nan, have been murdered by Chinese Imperial troops. The last news from there was dated July 12th, at which time they repelled the attack of the Boxers. Hongkong is full of refugees. An outbreak is expected on the west river.

GRAVE FEELING AT WASHINGTON.

WASHINGTON, July 26.—Notwithstanding signs of activity the State Department had nothing this morning of interest touching the Chinese situation. The Imperial edict promulgated yesterday by Viceroy Tak, at Canton, has left a disagreeable impression here. Despite the Chinese Minister's view to the contrary, this edict is looked upon as suspiciously like a preliminary to a formal declaration of war, and only one step toward securing time to move Chinese forces into a better position for defense against the internationalists.

The notice came to the State Department that Korea is free from the Boxer agitation; it is believed that Russia will thus be enabled to spare many more troops from her Siberian army for use in the international column. The Navy Department sent over a copy of a dispatch received from Admiral Remy, making some changes in the marine body, and Minister Wu came down, asked for half an hour with Acting Secretary Hill, but he declared he had nothing from home, though he was confident of important developments in the immediate future. The Chinese Minister expressed to Secretary Hill his continued hope that the Ministers in Peking were still safe, and said he believed he would soon be able to deliver to the Department a message from Minister Conger that would make that hope certain.

The State Department had no information of any kind from its officers in China. Acting Secretary Hill said the Chinese Minister had received no communications from China and had no information to impart, and that the conference between the Minister was simply an interchange of courtesies.

RIOTING OCCURS IN SHAN-SI

LONDON, July 26.—A dispatch from missionary sources, dated Shanghai, July 26, says: "Rioting has broken out at Ai Yuen Fu, the capital of the province of Shan Si. There are no details. Rioting has also occurred at Hui Loh, south of Chi Li. All the missions have been destroyed. Our friends safely escaped to the country, but are still in danger." It is reported here that Russia has borrowed nearly ten millions sterling from the Imperial Bank of Russia since the commencement of the troubles in China.

Insanity Experts are Scored.

JUDGE HUMPHREYS' WORDS

Warm Language in Oral Decision in Case Kilikea Against John Hapa.

Judge Humphreys paid his respects yesterday to the experts on insanity who have testified in the case of Kilikea vs. John Hapa et al., and the Judge used vigorous words in his characterization of the testimony of these gentlemen.

It was during the progress of an oral decision in the Kilikea case that the Judge jumped on the experts so harshly. He decided the case for the plaintiff, who had sued for the cancellation of a deed given by Kilikea, who is a demented woman.

"The expert evidence in this case," said Judge Humphreys, "with the single exception of that of Dr. Emerson, which was marked with some degree of candor and modesty, is absolutely worthless and reflects no credit upon the witnesses themselves or the profession which they represent. Take that of Dr. Sloggett for instance. He came into this courtroom and demanded a fee of \$50 before he went upon the stand. Then he went on and in his testimony admitted that he had no right to speak as an expert and he testified to things as to which a common laboring man would have been as competent to testify as he. He signed a certificate to the effect that this woman was half-witted and he did so without making any inquiry into her family history, or any physical examination of the woman herself. There was no evidence that he was required to give this certificate, but he did so at the request of some one into whose motives he had not even inquired. A man who occupies the position held by Dr. Sloggett and enjoys the privilege accorded by the Government to men of his profession, and who would then place himself in such a position deserves at the hands of this court the severest censure.

"Dr. Howard's testimony was little better. He went to this woman and had a talk with her in which she told him that she did not intend to sell her land as she believed that when the tramway lines were extended farther towards her lands it would be much more valuable. From that he concluded that she was sane enough to understand the management of her property, and he did not inquire or learn that she had already sold land which was admittedly worth \$600 and from which she was receiving an income of \$60 a year for the sum of \$100.

"Dr. Emerson reached the conclusion that she could manage her own property from a conversation he had with her. He did not make an examination of her because he said, he was only there to talk casually with her and the proprietaries of the occasion did not admit of such a thing.

"There has been much testimony concerning the fact of this woman's alleged vagaries, and a large number of witnesses have been on the stand whose testimony was to the effect that they never saw her do them. It reminds me of the case of the Irishman who was accused of a crime and who was asked if he had any witnesses who would help to prove his innocence. 'Oh yes,' he said, 'I can get a thousand who did not see me do it.'

"The facts that this woman was guilty of these queer actions and that she has been the mother of children who are half-witted and that she seldom speaks and that she has not the appearance of intelligence taken each by itself would not establish that she was incompetent to care for her own interests, but taking all of these threads and weaving them together and the court is forced irresistibly to the conclusion that she is non-compos mentis.

"Not only do I find this but also I am of the opinion that John Hapa was guilty of fraud in taking such an advantage of a woman unable to protect her own interests. The man Kapali, the minister, is also chargeable with due notice of her condition. The position taken by Kapali is most reprehensible, for he has clothed his rascality, and masked it by his profession of a minister of the Gospel. The petition of the plaintiff to have the deed in question cancelled is granted."

Richards Street Rounding.

Superintendent of Public Works McCandless has commenced tearing away the iron fence and composite wall at the corner of King and Richards street for the purpose of rounding the corner for the public good. He decided upon the 50-foot radius as sufficient for the addition to the street and sidewalk. This improvement will be appreciated by all who have occasion to drive either from or into Richards at this intersection. The 100-foot radius was thought too large a slice to cut off the Capitol grounds and further it would destroy the general conformity of the street lines.

IT SAVED HIS BABY.

"My baby was terribly sick with the diarrhoea," says J. H. Doak, of Williams, Oregon. "We were unable to cure him with the doctor's assistance, and as a last resort we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. I am happy to say it gave him immediate relief and a complete cure." For sale by Benson, Smith & Co., Ltd., wholesale agents.

ENVOYS WERE SAFE ON THE FOURTH OF JULY

(Continued from Page 1.)

ies, but in consequence of the great number of them many have not yet been buried. The streets throughout the city are strewn with all kinds of articles, and dozens of Chinese are digging in the ruins for money and other valuables. Most of the houses which are intact or little damaged display the flags of one or the other of the allied forces, the Japanese and French flags predominating. There have been many attempts to imitate the flags, which, under other circumstances, would be laughable. The houses which do not display flags show bits of cotton or paper bearing the names of the allied nations or the names of the allied nations with complimentary sentences. The French, apparently, are the favorites, many of the pieces of cotton and paper displayed bearing the inscription, "France" or "Vive la France." All are unmistakably in the handwriting of native clerks formerly employed by foreign Chinese firms.

It is stated that the Chinese losses since the troubles broke out are 11,000, most of whom have been killed by Boxers and soldiers. This is probably much exaggerated.

The Boxers are said to be gathering in large numbers in the neighborhood of the Heikou arsenal, captured by Admiral Seymour's column and now occupied by Russian troops, who have suffered several casualties through "snipers" concealed in the woods in that vicinity.

CHINESE FIGHTING THEIR COUNTRYMEN

Signs of Dissension Among the Campaigning Braves Near Tien-Tsin.

TIENTSIN, Friday, July 20.—Chinese coming in from the country report that the Chinese soldiers are killing the Boxers wherever the latter are seen, giving as a reason that the Boxers deceived them into embarking on a hopeless struggle. An intelligent Chinaman said he regarded this as a sign of widespread dissension. It was only a matter of a short time, he declared, before the same state would exist in Peking, when, in all probability, Jung Lu, commander in chief of the Chinese forces, and Prince Ching would be able to regain sufficient influence to make peace, especially if the foreigners in the capital were safe. This appears to represent the general native opinion here as far as it is possible to ascertain it.

In the meantime reliable news as to events in Peking and whether the foreigners are alive is entirely lacking, or is only obtainable from Chinese sources, and even this is most meager and contradictory.

It is now thought that the forward movement of the allies will probably take place earlier than was first intended, possibly by the end of this month; but nothing definite will be decided before the arrival of General Sir Alfred Gaselee, commanding the Indian contingent.

A runner who arrived from Peking yesterday reports that the foreigners were seen on July 16th and that there had been considerable fighting between the Boxers and soldiers inside the city.

MILITARY PLANS OF THIS COUNTRY

What Part United States Will Take in The War

NEW YORK, July 25.—A special to the Tribune from Washington says:

The most important official news received by the War Department from the Orient Tuesday was a dispatch saying that the transport Grant had been sighted in the Inland Sea of Japan, and would reach Nagasaki at an early hour Wednesday, twenty-two days out from San Francisco. Aboard the Grant are Major General Chaffee (who will learn of his promotion to that rank as soon as he steps ashore), two squadrons of the Sixth Cavalry and a battalion of marines. General Chaffee will receive telegraphic advices from the Secretary of War which will hasten the departure of the Grant for Taku, where she will probably arrive on Saturday. It is expected that General Chaffee, after a conference with Admiral Remy, will immediately proceed to Tien-Tsin, leaving the troops which accompanied him to follow as quickly as practicable. It is expected that the transports with two battalions of the Fourteenth Infantry and Reilly's battery of the Fifth Artillery from Manila, will reach Tien-Tsin by the time General Chaffee arrives there. After his conference with Admiral Remy and the commanders of the military forces at Tien-Tsin, General Chaffee will promptly and fully advise the War Department in regard to the details of the situation and the prospect of an early advance of the relief force toward Peking. It is understood that his instructions contemplate that he shall do all he can, with due regard, of course, to military considerations, to promote as early an advance as practicable, and it is expected that in doing this he will act with the hearty co-operation of the other commanders of the international forces.

That the military preparations of the United States for the rescue of Minister Conger and other American citizens in China, if they are still alive, and for the protection of other American interests there, will be pressed as vigorously as ever pending the suppression of the disorders which the Imperial Government has virtually confessed its inability to quell, is evident both from the President's dispatch to the Emperor and from the vigor and energy with which such preparations are being pushed. It is now conceded that Battery O of the Seventh Artillery, now at Fort Riley, Kas., under orders for Manila, will probably be diverted to North China. This battery is equipped with siege guns. Owing to the great size and weight of these guns and their carriages, their removal to China is a formidable undertaking and will require much more time than the movement of an ordinary battery of artillery. The military authorities still hope that it will not be found necessary to send these heavy guns to China.

They have been shipped from the Quartermaster's depot at Jeffersonville, Ind., to Seattle, Wash., for shipment to Taku, fifteen carloads of army wagons and parts and field ranges and twenty-five carloads of army clothing and other Quartermaster's supplies. The War Department has purchased in China a vessel of light draught and high speed for General Chaffee to use as a dispatch boat to carry messages between Taku, Tien-Tsin and places further up the Pei Ho, if he finds it necessary.

DELEGATES WELCOMED

Republicans Arrive on Australia.

GREETED AT THE WHARF

Bring News of McKinley's Intentions to Visit Hawaii When Cable is Laid.

Honolulu awoke bright and early yesterday morning to hasten to the water-front and receive the old reliable Australia from San Francisco bearing aboard the delegation of the Republicans of the Hawaiian Territory who attended the national convention.

The usual sounding of the warning whistle was the signal for everybody to rush to the Oceanic wharf. At 7 o'clock a great crowd had assembled there, enthusiastic, excited and glad to see the Australia once again and the many familiar faces which peered from her decks as the old boat pulled alongside the wharf.

The full delegation of Hawaii's Republicans returned. Alternate C. B. Wilson accompanied them, as did also National Committeeman H. M. Sewall. The other Democratic delegates to Kansas City came back to Hawaii not on the Australia, too. Larsen's launch was used by the Republican reception committee to meet the steaming steamer. They had armed themselves well with leis and near speeches of welcome home, and passed both over the side, and immediately after the doctor had passed the ship, scrambled aboard to grasp the hands of the returned ones, which them on the back and are a string of questions at them concerning the many things which interest Honolulu so deeply.

"Prince" David and National Committeeman W. H. Cornwell of the Democrats were happy to once more behold the hills of Oahu and the beautiful harbor of Honolulu. The greater portion of Berger's immortal band was on hand and did their proud turning out patriotic airs and tunes of welcome and aloha. The wharf was profusely decorated with American and Hawaiian flags and the McKinley and Roosevelt banner showed up to good advantage and was the first thing that the returning delegates cast their eyes upon.

After the gangway had been run aboard, the Republicans, with United States Circuit and District Judge M. M. Estee and United States District Attorney Baird, were conducted to carriages and driven to the Hawaiian Hotel.

The boat was tastefully and appropriately decorated for the occasion. Mayor Allen had seen to it that Old Glory was well to the fore and that the Hawaiian colors joined with the Stars and Stripes in making a beautiful display. A brief rest was indulged in on the veranda of the Hawaiian Hotel, where Col. J. Boyd proposed to the health of the delegates and President McKinley, the national leader. Col. Parker's response was brief. "We have a great deal to talk about, but we'll save it all until Saturday night. We enjoyed our trip and it was a good one in every way. We are exceedingly glad to get home, Aloha, aloha."

H. M. Sewall's reply to a toast was, in brief, to the following effect: "The Republican party has in those delegates three men of whom it has reason to be proud. They have been enthusiastically received all along the Republican line and they have upheld the honor of Hawaii with dignity and care. In the convention and during the call upon the President our delegates made a lasting impression that has raised Hawaii's standard higher than ever. I repeat, Hawaii has reason to be proud of the record made by the representative Hawaiians whom the Republicans sent to Philadelphia. The President McKinley made the delegates happy by the cordial reception which he extended to them. He said that he was desirous of seeing Hawaiians in office and that should a cable be laid by that time, he would most certainly come to Hawaii next year. The delegates went as far out as New York."

SHARPERS GETTING READY.

Nearly Two Hundred Masons To Come to Honolulu.

SAN FRANCISCO, July 26.—The Shriners excursion to the Hawaiian Islands, in October, under the auspices of Islam Temple, A. A. O. T. M. S., is quickening the notes compelling the membership into wonderful activity. The committee in charge are kept busy answering letters and telegrams from the interested and inquires from the resident members. There have been various rumors circulated relative to the Zealanda, the steamer of the Oceanic Steamship Company, chartered for the excursion, one being to the effect that the vessel would be used as a transport and that the needs of the United States Government for ships would necessitate the abandonment of the excursion. The company has given the assurance to R. P. Hurlbut, potentate of Islam Temple, that the Zealanda will take the Shriners to the islands, agreeable to the terms of the contract, which is now a matter of fact.

FREAKS OF A KING.

Alexander of Serbia Betrothed to an Elderly Court Functionary.

NEW YORK, July 23.—A cable to the Sun from Vienna says: The announcement by King Alexander of Serbia of his betrothal to Mme. Maschin, formerly lady in waiting to Queen Natalie, caused a sensation throughout Serbia and a commotion in Vienna. She is of obscure birth and twelve years older than King Alexander. The Serbian Ministry upon learning of the betrothal on Saturday promptly resigned, and the King as yet has failed to find successors to them. The match is regarded in Belgrade as preposterous and a menace to the State. Feeling is so strong that the King has placed a guard around Mme. Maschin's house, fearing that an attempt might be made to abduct her.

Ex-King Milan, King Alexander's father, who was taking the waters at Carlsbad, learned of the betrothal with utter amazement last night. Within ten minutes he telegraphed his resignation of the command of the Serbian army. Milan is now in Vienna en route to Serbia. It is rumored that King Alexander will stop him at the frontier. In an interview Milan expressed regret and grief for his son's action.

Later telegrams from Belgrade state that public opinion is divided on the subject of the King's betrothal. Many people approve of it, and they have visited the King and Mme. Maschin and congratulated them. The Town Council went in a unanimous congratulatory. Many houses are decorated.

A San Domingo dispatch says: A plot to assassinate the Governor of Santiago, Ramon Caceres, has been discovered and twenty-five of the conspirators have been imprisoned. Several military officers are involved. The accused will be tried by court-martial. President Jimenez is visiting in the interior. The country generally is quiet.

ESTEE AND BAIRD HERE

Federal Courts to Open Saturday.

BEGIN WORK AT ONCE

The Judge Wishes to be Ready for Business as Soon as Possible.

On Saturday afternoon at 1:30 o'clock the United States Circuit and District Courts for the Territory of Hawaii will be formally opened for business. Judge M. M. Estee, Judge of the United States Court, together with United States District Attorney John C. Baird, arrived on the Australia yesterday morning and after visiting Governor Dole and inspecting the new court rooms in the Judiciary building, and conferring with United States Marshal Ray, he decided to open the courts for business as soon as possible.

The new Federal Court rooms will not be the scene of the opening ceremonies, as they will not be ready for occupancy for another week or more. Therefore Judge Estee has decided to make use of the Circuit Court rooms for the occasion, and yesterday he saw Chief Justice Frear and Judge Humphreys and they readily consented to allow the use of the Circuit Court for the purpose.

Judge Estee is anxious that as many of the members of the Honolulu bar be present at the opening as possible. He will suggest that a committee of the bar be appointed to suggest rules for the practice in the District Court, so that these rules may be perfectly and mutually satisfactory. The rules for the Circuit Court are established by the Federal statutes, so no action will be taken in that respect.

"It has been a matter of regret with me that I was not able to come to Honolulu sooner," said Judge Estee yesterday afternoon. "I had planned to come on one of the transports and had made all arrangements to take the Sumner, but she was suddenly ordered to go direct to Nagasaki and so I had to change my plans. I found considerable difficulty in securing passage on any of the outgoing steamers for they were all crowded. On the Rio we were unable to get any kind of accommodations, so we had to wait for the Australia."

"I am anxious to get the Federal Courts into operation as soon as possible, for I understand that there is much business waiting to be taken up, and as soon as the courts have been formally organized, I shall be ready for any matters that may come before me. It was in order that the court might be delayed no longer than could be helped that I decided not to wait for the completion of the new court rooms."

Col. John C. Baird, United States District Attorney, was with Judge Estee when the Advertiser reporter called. "I have little to add to what the Judge has told you," he said, "for of course all of the work here will be new to me. We hope to get the machinery of the Federal courts in operation as soon as possible, but that there may be no delay in any litigation that may come within the jurisdiction of the court."

Col. Baird is a Wyoming man, and has for many years been prominent in that State. He was born in Pittsburg, and began life as a newspaper man, doing his first work as a reporter for the Pittsburg Dispatch. He moved to Cheyenne, Wyo., about twenty years ago, and was the managing editor of the old Sun, afterwards the Sun-Leader, the most influential Republican paper in Wyoming. While retaining his newspaper interests he studied law and was admitted to practice. He was active in political work, being for two terms District Attorney of Laramie county, member of the Legislature, Judge Advocate General of the National Guard and a prominent member of the Cheyenne Board of Trade. He was head of the Pacific Jurisdiction of the Woodmen of the World and is well up in the Masonic fraternity.

The other members of the party accompanying Judge Estee and Col. Baird were Mrs. Estee, Miss Ryan, Judge Estee's private secretary; W. B. Mallory, clerk of the Federal Courts; B. K. Baird, son of Col. Baird, who will be the Colonel's secretary; and C. F. Reynolds, official stenographer of the Federal Courts.

WORD OF ALEX. YOUNG.

He is in Oakland, California, with His Two Daughters.

SAN FRANCISCO, July 20.—Alexander Young, who was Minister of the Interior in Hawaii, has arrived with Miss Bertha Young and Miss May Young. They are at their home, Rosecrest, on Vernon Heights, Oakland. Mr. Young comes up on business connected with the large block he is to erect in Honolulu. It will contain, besides business stores, a hotel and theatre. As soon as the specifications are ready, Mr. Young will go East to make contracts for the steel to be used in the massive structure.

Mr. Young states that Hawaii will enjoy a prosperous season this year, as the cane sugar crop will be large. The only cloud in the sky of Hawaii's favorable prospects is the uncertainty with regard to the labor supply. It will not be serious this year, but next year it would become troublesome to deal with should many of the present laborers depart.

Mr. Young reports that the islands had been looking for Porto Rico as a probable source of a fresh labor supply. The planters have been told, however, that there is a legal difficulty with regard to the introduction of laborers, because it has not yet been decided that Porto Rico is a part of the United States. The same difficulty may exist with respect to Guam and the Philippines islands. One plan proposed is to make contracts with the Italian immigrants arriving in New York City. Mr. Young reports having strong faith in the sugar business and weak faith in the coffee. Mr. Young said that there was much uncertainty with respect to politics due to the fact that the law establishing a Territorial government was so amended as to give universal suffrage for all citizens, including the native Hawaiians.

Madame Janauscek Paralyzed.

NEW YORK, July 24.—Mme. Janauscek, the actress, who was stricken with paralysis a week ago, is improving steadily and will be out in two weeks, it is hoped. She is in her seventy-first year.

ESTEE AND BAIRD HERE

Federal Courts to Open Saturday.

BEGIN WORK AT ONCE

The Judge Wishes to be Ready for Business as Soon as Possible.

On Saturday afternoon at 1:30 o'clock the United States Circuit and District Courts for the Territory of Hawaii will be formally opened for business. Judge M. M. THE SPORTING NEWS

The Healanis showed up in force at their boat house last evening. They had a crew out in the barge and two men, coached by Klebahn, were in the practice boat.

The Myrtle's Junior aggregation put in some good work in the harbor yesterday afternoon.

The match next Saturday between Bones, Mongoose, Lustre and the Stockyards' pacer has quite a sporting aspect. The distance is a mile. Bones, owned by Samuel Decker, and Mongoose, owned by Jimmy Hewson, go for a purse of \$100 to the winner, wherever they finish.

An investigation of the Brock-Manuelli race was held yesterday afternoon in a down-town resort, most of the officials concerned being present. After minutely going over the circumstances of the alleged foul, and hearing all obtainable evidence, the judges, Messrs. Clunay, Judd and Campbell, adjourned till this morning, when they will render their decision.

SOLD MUCH STOCK.

E. B. McClanahan Disposed of Many Shares of Wahiawa.

E. B. McClanahan succeeded in disposing of \$2,500,000 worth of the stock of the Wahiawa Sugar Company during his recent trip to San Francisco, from which he returned yesterday. A number of San Francisco capitalists were interested in the enterprise and there is but little doubt now that the plantation will be a go.

Mr. McClanahan states that an expert engineer will come to Honolulu shortly to examine and report on the property. In the Spring Valley Water Company, will be the man sent to make the examination, and he will be assisted by Mr. O'Shaughnessy, who is now in the Islands.

Wahiawa is located at Waiwala, and was organized by J. Emmeluth, Dr. Nichols and other Honoluluans, but in order to successfully float it it was found necessary to secure additional capital. For this purpose Mr. McClanahan was sent to the Coast and his trip resulted most favorably for the plantation.

Whale Wrecks Boat.

SAN FRANCISCO, July 22.—A monster whale struck the pilot boat Bonita head on at 9:40 o'clock Friday night six miles southeast of the Farallon Islands, causing the vessel to leak so badly that she sank six hours later. It was a thrilling experience for the pilots and men on the Bonita. They were thrown down with considerable violence, and the man at the wheel was so badly scared, according to one of the pilots, that he could not speak for five minutes. Pilots Swanson, Scott, Wallace and Miller were on the Bonita at the time, all but Miller in the cabin, and on deck were pilot Miller and the five sailors.

The school of whales was first noticed by the pilots on the Bonita when they were moving down toward the German bark J. C. Pfleger, which Pilot E. M. Freeman was to board. There were at least forty of the big fellows, and all seemed to be wild, and were

splashing around in the water at a great rate.

After Freeman had boarded the bark the boat again got in the school of whales, and it was then that the disastrous blow from one of the mammals was struck. The men were below deck, just beginning to retire, when they heard a terrific noise, as though the whole port side of the boat had been torn away, and it was only a moment before all were on deck. Even before they reached the deck they were satisfied among themselves that one of the whales had done the business. Though willing to save the pretty little boat if possible, it was soon seen that the leak was a fatal one, and that there was nothing to do but to take to the yaws.

After watching the Bonita disappear up to the tops of her masts the pilots and men rowed to the Gracie S, which was cruising at a distance of at least six miles from the point where the Bonita was when she sank.

Kamasias Return.

Otto Isenberg and his wife and family were among the passengers on the Australia. Mr. Isenberg went to Germany some time ago for treatment for an injured leg. He visited some of the best known specialists on the European continent and has returned much improved in health. Mr. Isenberg is the manager of the Kekaha mill on Kauai, and he and his family will receive a warm welcome on their return to the Garden Isle. They were welcomed by a crowd of relatives and friends at the wharf yesterday. While in the city they will be the guests of Mrs. James Campbell.

Anglican Church.

A meeting will be held in the school room of St. Andrew's Cathedral on Thursday at 8 p. m. at which addresses will be given on "The Work of the Anglican Church in China." The speakers will be the Rev. Hamilton Lee, Rev. Kong Yin Tet, Rev. William Lee, Rev. V. H. Kitcat and others. In view of the recent events that have taken place in China and of the many ties that link the work in these Islands to the labours of the church there, it is felt that the subject will be one of deep interest to the members of the church.

H. M. Sewall Returns.

Harold M. Sewall, National Republican Committeeman for Hawaii, returned on the Australia, accompanied by his brother Oscar T. Sewall. Mr. Sewall will remain in Honolulu but a few weeks, and will return to the States to take the stump for McKinley and Roosevelt in the fall. While in the Islands he will transact some personal business. He is staying at the Hawaiian hotel, where he held quite a levee yesterday many friends coming to pay their congratulations to him.

Twenty-Fifth Year.

The Annual Review of the Daily Commercial News and Shipping List, Commercial Publishing Company, San Francisco, has been received. It is a most valuable reference and is artistically gotten up affair that is indispensable to the complete newspaper library. This marks the twenty-fifth year of the publication whose daily sheet is ever replete with reliable and

exhaustive information in the world of commerce.

GOOD MEDICINE FOR CHILDREN.

"Through the months of June and July our baby was teething and took a running off of the bowels and sickness of the stomach," says O. P. M. Holliday, of Deming, Ind. "His bowels would move from five to eight times a day. I had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house and gave him four drops in a teaspoonful of water, and he got better at once." Sold by Benson, Smith & Co., Ltd., wholesalers agents.

Purser McComb gives the following report of the Australia: "Left San Francisco July 25, 1900, at 2 p. m., with 67 cabin and 68 steerage passengers, as well as 96 packages of mail. Experienced moderate to light breeze, smooth sea and fine weather all the way. Time, 6 days and 16 hours."

Corporal E. Mabey, of the 2d Somerset Regiment, was wounded at Colono. He had a bullet in each arm, two bullets in his head, another through one of his thumbs, and a sixth one in his leg. He lay four weeks in the hospital at Mool River, but is now quite well again and on his way to the front.

The DAILY ADVERTISER is delivered to any part of the city for 75 cents a month.

WALTER G. SMITH - - EDITOR.

THURSDAY :: :: :: AUGUST 2

Judge Estee is welcome to Hawaii, as an island resident may be Estee perpetua.

Our impression that Judge Humphreys would stir things up is not abated by events.

Nobody ought to complain in Servia over the fact that King Alexander has married somebody who can bring him up.

The Peace Conference at The Hague seems to have been a sort of curtain-raiser for a kaleidoscopic series of the most remarkable wars of history.

Judging from the warlike habits of the Colombians it will probably be easier for the United States to run a canal in Nicaragua than in Panama.

Let us hope that the news of good loot in Tien-Tsin will take away enough of our job-chasers of all parties to give the municipal raiding scheme a rest.

When John E. Bush hailed his "peerless leader, Wm. Cullen Bryant," he showed that his information about the Democratic nominee for President was fully as complete as John Wise's data about the silver plank.

The Republican party of Hawaii is favored with a visit from Mr. Harold M. Sewall, who hails from New York. It is always pleasant to receive visiting statesmen and we trust that Mr. Sewall will come again.

When "the people" find that municipalities will make new taxes which the landlords will recover from their pockets in rents, their anxiety to get "a voice in affairs" will subside. But not so the job-chasers. They can be trusted to keep on agitating.

We ventured the opinion that John Wise could not tell the silver plank from a cabbage salad and it turns out that way. Somebody asked John at the Democratic reception to explain 16 to 1 and he balked like a skittish colt. John said, as he vaulted away from the subject, that he didn't believe Bryan could answer that question.

It is three years the 20th of this month since Andree disappeared and now the story comes of the discovery of a wrecked balloon and the bodies of three men on the shores of Hudson's bay. If the tale is true the Danish aeronauts crossed the pole. Quite likely they made copious notes of the event which may yet be found.

Great Britain needs an army corps in China more than she does in South Africa and on that account, partly, is taking of the Boer war. Kruger's men, encouraged by the British em-barrasment, are as active as wildcats and may carry on a guerrilla fight indefinitely. Their chances seem better than at any time for two months past.

Gen. James H. Wilson, who will have a command in China, is familiar with the ground. He was there years ago as an engineer and wrote a book on the country which men like Hon. John W. Foster regard as the best one in its high class. As a soldier General Wilson got no fair chance in the Cuban war to show his qualities but his time may now be coming.

Wise may not know much about some Democratic principles but he is firmly grounded in the Jacksonian idea that every Democratic patriot should have an office. So Wise will run for Congress in place of Wilcox, providing he can manage to trip the gas-tank statesman up. What alarms us about this affair is the fear that Wilcox may become a Republican. He has helped upset every other party.

Mr. McClanahan says that the Bry-anites are in favor of 16 to 1 but will make the campaign on other issues of their own choosing. This reminds us of the gentleman who was up for housebreaking but declined to judge and jury that he had decided to waive that question altogether and be tried for trespass. It was a matter of long-standing displeasure with him that judge and jury overruled him.

The Chinese officials protest that the Envoys are alive but do not explain why no messages come from them. The officials get letters and telegrams from Peking, so they say, and most reassuring ones at that. Yet not a word has been had from the Legations except the disputed Conger message, written, if at all, two days before the reported massacre. The conclusion seems perfectly fair that the envoys are dead and that the Chinese are playing for time.

A Yokohama dispatch of July 19, says: "Mount Azuma, near Bandaisan, which was the scene of a volcano disaster in 1888, broke into eruption Tuesday, July 17. Two hundred persons were killed or injured. Several villages were engulfed by the strength of the lava from Mount Azuma, and great damage was done in adjacent districts." Quite likely we shall hear of other eruptions soon, one of them near home. Pele has had a nap and there have been recent signs on her part of a desire to be up and stirring.

The worst feature in the war outlook in China is the sudden development of a national feeling among the Mongol tribes. Hitherto there had seemed to be no bond of union in the empire. When the Japanese invaded the North of China six years ago the Southern and Central provinces did not worry over the matter and declined to send troops. Now the whole of China seems to be making, or to be on the point of making, common cause. The news of trouble in Hai-Nan, in the extreme South, and in one of the middle provinces, is most disquieting for anything like a common front among the Chinese would dismay a larger army

THE WORLD'S NEWS TOLD IN PARAGRAPHS

The Venezuelan war is over. Many Filipinos are surrendering. Sanitary conditions at Nome are very bad.

Mary E. Lease has denounced Populism. Ex-Governor Blaisdell of Nevada, is dead.

Portugal has paid the Delagoa Bay award. Speaker Henderson is visiting in San Francisco.

There is likely to be a stampede from Cape Nome. Japan can put 300,000 men in the field in a month.

The United States flour trust is to be reorganized. It is thought the fight for Congress will be close.

John W. Farr, the famous young bar-tone, is dead. Hoyt, the playwright, has been ad-judged insane.

Alaska towns are quarantining against Nome. Towns will not withdraw from the Populist ticket.

Embassador Draper has resigned the Italian mission. The inhabitants of the Seal Islands are dying of gripple.

The collier Brutus was on a reef at Guam, but was saved. Geronimo, the imprisoned Apache chief, has gone insane.

A business block at Yuma, A. T., has been destroyed by fire. Great Britain is tiring of the expen-sive war in South Africa.

The Oriental war may double the price of coal in California. Mexico is sending a new expedition against the Maya Indians.

The President is considering a plan to form the Cuban Republic. Mrs. Potter Palmer has lost a neck-lace in Paris valued at \$17,000.

Nine cases of yellow fever have ap-peared at Pinar del Rio, Cuba. Bellamy Storer may become embassa-dor to Italy, succeeding Draper.

MacArthur says the effect of the am-nesty proclamation has been good. "Mr. Dooley" will be put on the stage with Charles Hopper in the title role.

Professor Brooks of Geneva, N. Y., has discovered his twenty-second com-et. Kansas Populists refuse to indorse Jerry Simpson's candidacy for Sena-tor.

London is astonished at the invasion of Christian Endeavorers from Amer-ica. William A. Clark of Montana, says he expects to take his seat in the Sena-te.

The German press is shocked at the "growing brutalization" of the Boer war. American crews may be sent to Paris to compete in the international regatta.

Major Louis Seymour, a noted Amer-ican engineer, has been killed by the Boers. New York "pants-makers" have struck for a ten per cent increase of wages.

The speaking in the Republican Mainland campaign will begin about August 20. Bryan is assured of the help of com-mercial travelers in his fight against the trusts.

There will be a constitutional conven-tion in Havana the first Monday in November. The trouble with the Steveston, B. C., striking fishermen has been settled by the militia.

A family party of six were drowned in a Ventura lake while trying to nav-igate a raft. Albert Saleza succeeds to Jean de Reszke's place, the latter singer having lost his voice.

Heavy rains in India have greatly de-creased the death rate in the provin-ces of Gujarat. Princess Anna Halverson, a cousin of King Oscar of Sweden, has secured a Dakota divorce.

Bryan has refused to give a Sunday address at Asbury Park, as he wishes to rest on that day. The American Federation of Labor will support the strike of the St. Louis street car employees.

Three young children were scalded to death by a boiler explosion on a yacht near Syracuse. All the large publishing houses of the United States have formed a trust to stop the cutting of prices.

Supervisor J. E. A. Holmes of San Francisco died of apoplexy while in a sleeping car at Port Costa. Col. William Cary Sanger is in Eu-rope studying the British and Swiss system of auxiliary forces.

Bryan has accepted an invitation to attend the G. A. R. National Encamp-ment at Chicago in August. The United States Steamship Phila-delphia may go south to protect Amer-ican interests at Panama.

Astor's apology did not avail and his social position has been destroyed by his attack upon Captain Milne. The Prince of Wales approves the marriage of Lady Randolph Churchill and Lieutenant Cornwallis West.

The famous Castle Crag tavern in northern California, has been burned to the ground. It may not be rebuilt. The Czar declares a state of war in Siberia, Turkestan and Semiretchensk, and has summoned all reservists to the colors.

The Michigan Democratic State Con-vention has 750 delegates. Mayor May-bury of Detroit, is leading for Gov-ernor. The withdrawal of German lines from the Atlantic for transport service has a stimulating effect on freights at New York.

The drouth prevailing in the New England States and in New York, New Jersey and Delaware, has had a serious effect on the hay and corn crops. A convention of the United States League of Building and Loan Associa-tions is being held in Indianapolis. Car-roll D. Wright is one of the prominent men present.

Col. A. D. Kimball, Assistant Quar-termaster General of the Department of the East, is charged with conspiracy to defraud the Government through fictitious shipments. Kansas Democrats and Populists have named a fusion ticket with John W. Breidenthal for Governor, David Martin for Associate Justice, and Con-way Marshall for Treasurer.

Indians report finding the wreck of a balloon and the bodies of three men, not English, on the east coast of Hud-son's Bay. This may solve the Andre mystery. A party has been sent out from Fort George to investigate.

The liner Campania struck a vessel in the English channel loaded with dynamite and sunk her. The dynamite was in the bow, and the damage was done amidships. Eleven of the crew went down with the sinking craft. The National Committee of Gold Democrats will reiterate the platform of the East, but will probably not favor a ticket. The anti-Imperialists want their help and, in case they do not get it, will put up a third ticket.

Porto Ricans had a celebration on July 25th in honor of St. Jago, the patron saint of Spain. Spanish flags were everywhere displayed and the enthusi-asm for the mother country was great.

THE BOXER CRISIS TOLD IN ITEMS

Admiral Remy has gone to Tientsin. China asks the United States to med-iate. Many British favor pulling out of China.

Gen. Fred D. Grant has been ordered to China. There is a good road for troops from Taku to Peking.

The French expedition to China will number 13,500 men. Remy says American marines did no looting at Tientsin.

If Conger is alive he will be made Senator from Iowa. Under Secretary Broderick thinks the Conger message false.

An imperial edict declares the attack on Tientsin unwarranted. A cable is being laid from Wei-Hai-Wo to Chefoo and Taku.

The English believe the allies cannot advance until September. Sir Francis Grenfell may command the British troops in China.

The First United States Infantry will leave Cuba and go to China. Corea denies officially that the Boxer movement has extended there.

The Russian railway staff in Man-churia is said to be hemmed in. A plot has been discovered to murder the Chinese envoy to France.

Gen. James H. Wilson will go to Chi-na to command American troops. The Russian railway guards in Man-churia may have been annihilated.

Secretary Hay says peace is possible even if the Ministers are murdered. Lieut. Col. C. F. Robe succeeds Col. Liscum in charge of the Ninth Infan-try.

The worst feature of the situation is the patriotic spirit which prevails all over China. If the partition of China is undertak-en the whole empire will rise against the foreigners.

A second division of Japanese troops has embarked for China, accompanied by siege guns. The Emperor of China has telegraph-ed Emperor William, deploring Von Ketterer's death.

It is said and also denied at Wash-ington, that the Chinese Government had Conger's cipher. The Seventh Battery of Heavy Artillery, stationed at Fort Riley, Kas., has been ordered to China.

Li Hung Chang arrived at Shanghai July 21, and was coldly received. The Consuls declined to call. If the story of the massacre is con-firmed a Russian squadron will bomb-ard Chinese coast towns.

It is reported that an entire Rus-sian army corps is being mobilized at Odessa for transport to Taku. Li Hung Chang declares that the en-voys are alive, but an advance on Pek-ing would mean their death.

It is asserted that the foreign troops, except Americans and Japanese, looted the native quarter of Tientsin. An alleged message from Prince Tuan declaring the Ministers safe on July 18th has been received at Shanghai.

The Japanese Foreign Minister strongly advises the southern Viceroys to march to the assistance of the al-lies. Li Hung Chang says if the Manchu party is responsible for a massacre of the foreigners he will not try to make peace.

The Russians bombarded the fortified Chinese post at Lauschi, Manchuria. The garrison fled and the walls were destroyed. Captain Robley D. Evans, U. S. V., says the United States ought to be su-preme in the East because it holds the Philippines.

If the Ministers are alive China may demand the retirement of all foreig-ners from the empire, as the price of their safety. Germany expresses surprise and dis-appointment at the willingness of the United States to accept news from Chinese sources.

General Doward, the British com-mander at Tientsin, highly commends the gallantry of the Ninth United States Infantry. Li Hung Chang says the Chinese Government is arranging to guarantee the retirement of foreigners in Peking towards Tientsin.

Sir Claude MacDonald reported the legations safe on July 4, but said there had been forty-four deaths and double that number of wounded. Two thousand American troops and eight transports full of British troops have arrived at Taku. Both detach-ments are deficient in artillery.

Chang Yi has unsuccessfully tried to arrange with the general commanding the Pah Tang forts for their surrender. The general refused to surrender the forts, but said that if the foreigners did not attack him he would agree to maintain a neutral attitude.

A Chinese who was employed at the British legation has arrived at New-chwang and declares that at the time he left Peking most of the members of the legations were dead and the condi-tion of the rest was hopeless. He says that Sir Robert Hart died on July 2nd. Adjutant General Corbin received a cable dispatch July 25th from General Chaffee, announcing his arrival on the transport Grant at Nagasaki. He cables all well. As soon as the Grant is coaled she will proceed at once to Taku. General Chaffee on his arrival received the cable dispatch announcing his appoint-ment as a major general of volunteers.

How Liscum Fell. NEW YORK, July 21.—The Evening World has a dispatch which tells as follows how Col Liscum fell: At 12:30 o'clock the line had just reached the shore of the canal and thirty yards separated them from the houses when the color-bearer fell. Col. Liscum picked up the colors and stood looking around apparently for a ford.

"Better get down or they'll hit you," shouted Major Regan. "I guess not," was Liscum's reply. The next instant a sharpshooter's bul-let went through the Colonel's abdomen. "I've got it," he said, as he fell. "Get at them if you can," the dying officer said, and added, as his last words: "Don't retreat, boys; keep on firing."

Regan was hit immediately afterward. The funeral of Charles Newbury of Chicago, over whose body his widow stood guard with a revolver to prevent an inquest, has been held. The widow finally relented. Newbury's death, which occurred in his bathtub, was due to locomotor ataxia.

"The Thorn Comes Forth With Point Forward."

The thorn point of disease is an ache or pain. But the blood is the feeder of the whole body. Purify it with Hood's Sarsaparilla. Kidneys, liver and stomach will at once respond. No thorn in this point.

Scrofula—"I was almost bedfast with scrofula and catarrh. Had no appetite. Hood's Sarsaparilla soon made me stronger, and later all the sores disappeared and catarrh stopped." Nellie Osman, Des Moines, Iowa.

Can Eat—"Was tired out, had no appetite until I took Hood's Sarsaparilla. It built me right up and I can eat heartily." Etta M. Hager, Athol, Mass.

Hood's Sarsaparilla Never Disappoints

Hood's Pills cure liver ills; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

A COUGH CURED

If this could be said of all cough medicines there would be no need to study out a new formula.

Many however bring about a certain amount of relief and many more claim to cure, but effect none.

Cummins' Cough Cure

has never failed to cure. In its manu-facture no attempt has been made to cheapen its cost by the use of inferior qualities of medicine.

We believe this is the reason for its success.

BOERS GO BACKWARD

Roberts Reports English Advance.

HARASSED BY FLANKERS

Krueger's Men Said to be Anxious to Quit but Foreigners Persist.

LONDON, July 25, 12:45 p. m.—The War Office has received the following dispatch from Lord Roberts: "VANDERMEER WEST STATION, July 24.—We made a general advance yesterday from the position we have been holding, east of Pretoria, since June 12th. Ian Hamilton, from the north, reached Rustfontein, seven miles north of Bronkhurst Spruit on July 23. This so completely surrounded the enemy's line of retreat that they abandoned the strong position they had been occupying in front of Pole Carew. Stephenson's brigade advanced yesterday unopposed to Elands River Station. Our right was protected by the First and Fourth Brigade of cavalry under French and Hutton's mounted infantry. The former crossed east of Wilge river.

"Telegraph and railway communication were restored last night.

"In the supply train captured at Roodewal were 200 Welsh Fusiliers, most of whom had been prisoners. Dewet's force is continuing to move northeasterly. It was at Roodewal, July 23, with Broadwood not far behind, and Little's cavalry brigade following Broadwood.

"Baden-Powell reports as follows: "MAGATA FARM, July 22.—Colonels Arey and Lushington, with 450 men, drove 1,500 boers from a very strong position and scattered them with considerable loss. Our casualties were six killed and nineteen wounded."

It is not clear whether the supply train and scattered them with considerable loss. Our casualties were six killed and nineteen wounded."

The following dispatch from Lord Roberts has been received at the War Office: "BRONKHURST SPRUIT, Tuesday, July 24.—We marched here today. This is the place where the Ninety-fourth was attacked December 29, 1880. The graves of the officers and men are in fair preservation and will now be put in good order. The march was unopposed, but French's cavalry and Hutton's mounted infantry, making a wide detour on our right, met bodies of the enemy. These were driven back, leaving several dead and wounded. A good many were also captured. Our casualties were one killed.

"Broadwood reports that he captured five of Dewet's wagons today. He was waiting at Vrededorp until Little joined him."

BOERS FOLLOW KRUEGER. BRONKHURST SPRUIT, Tuesday, July 24.—The boers, having got wind of the British advance, have evacuated all their positions and are reported to be moving to the northeast, towards Leydenberg, whither President Krueger is going. A portion of the Boer's remnant north of Bushveldt, whence they attempt to interrupt communications on this line.

The bridges here and smaller bridges to the east have been destroyed. The British force comprises two brigades under General French and a brigade and a half under General Hamilton. It is not likely that the advance upon Middleburg will be contested. The Boers remaining upon their farms state that most of the burghers are anxious to bring matters to a finish but that the foreigners are persistent.

ROBERTS' NEW TACTICS. NEW YORK, July 26.—A dispatch to the Tribune from London says: The campaign in South Africa has taken an unexpected turn. Lord Roberts' army has advanced to Bronkhurst Spruit, about half way between Pretoria and Middleburg. He is leaving Pretoria and Johannesburg under a strong guard, and acting on the theory that the Boers profit by his halts and lose whenever his columns are in motion. The Boers have attempted to thwart his plans by raids west and north of Pretoria and to hold him back by hanging on his flanks, just as they did when he set out from Bloemfontein to Pretoria. He has again pushed ahead, and is striking for the gateways to the Leydenberg district, leaving Lord Methuen and General Baden-Powell to suppress the raiders in the western district and Colonel Broadwood to pursue General Dewet across the Vaal.

It is not clear whether General Dewet has made a fresh haul of 200 prisoners belonging to the Welsh Fusiliers, near Roodewal, or whether this incident is an amended form of the previous account of the capture of 100 Highlanders.

The situation is most confusing, and veterans are shaking their heads over it, but apparently Lord Roberts has decided that the best method of suppressing guerrilla warfare is to follow the railway to the westward to the Leydenberg district, and to cut off Boer communications with the only remaining base of supplies at Delagoa Bay. The plan is a bold one, since commandoes of raiders are prowling about in many directions, but Lord Roberts counts, without doubt, upon effective support from Sir Redvers Buller, and also upon the paralyzing effect of a renewal of the advance toward Mr. Krueger's last stronghold.

LONDON, July 26.—Lord Roberts reports to the War Office, under date of Balmoral, July 25, as follows: "We marched here yesterday without seeing the enemy. The Boers on July 24, engaged French and Hutton, six miles south of Balmoral. While Anderson's mounted infantry attacked the Boers' right, French made a turning movement around their left. Seeing their retreat threatened, the Boers broke and fled. French and Hutton followed and proposed to cross Oliphants river today at Naauwpoort.

"Our casualties were one wounded." Lord Roberts reports to the War Office that General Donald Hunter's command was heavily engaged July 24 and July 25 in the hills south of Bethlehem. The Boers strongly entrenched and fought and repelled the British to retire from some of their positions with about fifty casualties. At last accounts General Hunter had worked around into Brandwater basin, in the rear of the Boers, while Hector MacDonald and General Bruce Hamilton were blockading outposts on the front of the Federals, who had evacuated their position at Witnek.

The greatest wealth is health. Many a rich man suffering and sick would give all his wealth for the re-

turn of good health. Rich and poor can keep healthy if they pay attention to nature's warnings of approaching disease. If your liver is sluggish, if you feel dull, drowsy, or inactive; if your heart doesn't pump right, palpitates, thumps, sometimes vigorously, and sometimes faintly; if your bowels are inactive, or overactive; if your stomach falls you; if your kidneys fail to act naturally; your health is threatened; but there is still help for you if you will take Kickapoo Indian Sagwa. You must act quickly. Disease is progressive; you must stop it at once. Kickapoo Indian Sagwa will do it. Hobron Drug Co., agents for Kickapoo Indian Remedies.

SAVED FROM MAELSTROM.

Marvelous Experience of Michael Ryan in Chicago Canal.

CHICAGO, July 26.—Drawn into the maelstrom of the great Windage basin of the drainage canal at Lockport, carried twenty feet beneath the surface of the whirlpool; rising again, only to be caught by the current that was pouring hundreds of thousands of cubic feet of water into the valley below and hurled through the great sluice gate opening and carried 200 feet through the foaming rapids of the open channel to be finally rescued alive and in a fair way to recover, was the experience of Peter Smith of Joliet. Michael Ryan, who is superintending the work at the controlling works, and his assistant, John Herman, escaped the same perilous journey by the narrowest margin.

Smith, Ryan and Herman were in a boat crossing over the basin and had their backs to the whirlpool. Suddenly the boat was sucked into the maelstrom. Herman and Ryan sprang into the water and swam to shore, but Smith was thrown by the force of the whirling boat into the whirlpool, disappearing from sight instantly. Down through twenty feet of water he shot. With tremendous force he was caught by the current and hurled through the gate. Luckily his knee was the only part of his body to come in contact with any of the masonry, otherwise he certainly would have been crushed to death.

Below the gate he was caught in the rapids and carried 200 feet through the swirling, turbulent waters, tossed about like a rubber ball.

Finally Smith's feet struck the rocks in the shallows and he managed to hold on until rescuers reached him.

NEW ORLEANS IN HANDS OF A MOB

Murder of Policemen Provokes Whites Who Kill Negroes.

NEW ORLEANS, July 26.—After being in the hands of lawless mobs for several hours, with the police apparently powerless to maintain order, New Orleans at daybreak again assumed a peaceful and orderly condition, the violence apparently finally ceased. The last disturbance occurred about 5 o'clock, when a white baker, whose name is unknown, was shot in the leg while a crowd of rioters were chasing a gang of negroes. The mayor, police and citizens are arranging today to take precautions against a recurrence of last night in the scenes of disorder. The mob was composed of boys and hoodlums, and was without a leader. The rioting grew out of the intense feeling engendered by the murder of Captain Day and Patrolman Lamb and the wounding of Officer Mora by the desperado, Charles. The occurrences of last night are greatly deplored by the best elements of the community. They represented in no sense an uprising of an outraged community against wrong. One man was killed, three others will die, and fifteen wounded.

A delegation of citizens today went to the city hall and asked the mayor either to call out a posse of citizens or appeal to the Government to order out the militia. The mayor decided immediately to prepare a proclamation, calling for 500 volunteer citizens to assist the police in preserving order. The movement last night started from a gathering of men at the Lee statue, corner of St. Charles avenue and Howard street. Being ordered to disperse the crowd moved up St. Charles street, gathering force as it went and gradually becoming inflamed to the point of desperation. It was not until after they had stopped in Morrison Square on Washington avenue and Franklin street, near the scene of the assassination of Captain Day and Officer Lamb that they listened to a speech from a man hailing from Kenner, and then started out to waylay the negroes. Most of the colored population had taken warning from the excitement of the night before and kept indoors, but there were some returning to their homes from work, and it was one of these who was the first victim.

The main crowd continued on down town, heading for the Parish prison. They were met a block away by a squad of police who stopped them. Then they began breaking into the second-hand stores on Rampart street in that neighborhood hunting for arms and ammunition. The police made a demonstration and drove them off. After lingering around Rampart street for an hour the mob divided, one section going down town, and the other starting back up town.

The down-town mob did terrible execution, and kept up its fiendish work until half-past 3 o'clock. A notorious character took the lead and they headed for the neighborhood of Franklin and Custom House streets. They saw a negro in a crowded Villier street car. He was dragged out and filled with lead, being instantly killed. They moved out in the vicinity of the old Basin on Toulouse street and terrorized that neighborhood, but evidently found no negroes. Then they went down as far as Kelerec and Dauphin streets, where they found an old negro, seventy-five years old, named Baptiste Pileau, whom they beat almost to death.

Coming up town again they met a negro on Decatur street, whom they beat into an insensible condition and left for dead. They located the porter of the L. & N. pay car and chased him up the levee. Acting Mayor Mehle issued a proclamation at 11:30 o'clock, calling on all good citizens to keep the peace, but it did not stop the rioting.

THE DEAR GIRLS. Tess—"She was boasting that she was a very good listener." Jess—"Yes, what you might call a fluent listener. She loves to hear herself talk."

OLAA TO BE BONDED

Million And a Quarter Issue.

STOCKHOLDERS ASSENT

Reports of Prosperous Condition of Plantation by Agents and Officers.

A meeting of the stockholders of the Olaa Sugar Company was held yesterday morning at the Chamber of Commerce, to consider a proposition to issue bonds for the purpose of assisting in the development and equipment of the plantation. Stockholders were present or represented by proxy to the number of 150,301 shares.

A recommendation of the directors was presented to the stockholders that they authorize the issue of bonds not to exceed \$1,250,000, bearing interest at the rate of 6 per cent, the same to be issued from time to time as they were needed.

The president stated that the object of the proposed issue was to obviate the necessity for calling assessments as rapidly as would be required during the next few months for developing the plantation and paying for the mill, if assessments alone were relied upon.

The original estimates of the amount necessary to bring the plantation up to a paying basis were being followed very closely, the expenditures up to July 1st having exceeded the estimates by only \$30,000, with the exception, that the taking over the Kihel mill at an earlier date than a mill would have been otherwise ordered had necessitated an additional payment of about \$250,000. If all the expenses of the plantation were to be met, from now until January next, by assessments, it would require the levying of about 35 per cent.

The directors, said the president, had given careful consideration to the financial situation and had ascertained that it would be difficult and in many cases impossible for the assessable stockholders to meet this large demand in so short a time, and in order that there might be no delay in carrying on the development and equipment of the plantation, it had been decided to recommend this method as being the one most beneficial to all concerned.

It was not intended to discontinue assessments entirely but to call them in slowly so that stockholders would be better able to meet them. In pursuance of this policy the ten per cent assessment which had been levied for August first and been revoked and a two and one-half per cent or 50 cents a share payable August 10th levied instead.

STATUS OF PLANTATION.

The president said he had made frequent visits to the plantation and had just returned therefrom. The cane was in splendid condition.

The area planted for the first crop was in round numbers 2,400 acres, and by the first week in September the manager expected to have the full crop of 3,000 acres in the ground.

In addition to this amount, the Olaa mill will grind at this crop 500 acres for the Puna Sugar Company, 500 acres being planted by outside contractors who were planting on shares on company lands, and several hundred acres being planted by outside landowners, making a total crop of between 4,000 and 4,500 acres.

AGENTS HAVE CONFIDENCE.

Mr. J. P. Cooke of Alexander & Baldwin stated that he wished on behalf of the agents to correct a rumor which had come to him that the agents did not have confidence in the plantation. He wished to say, on the contrary, that the agents had every confidence in the plantation, and that in his opinion an enormous amount of work had been economically accomplished by Mr. McStocker; that no other plantation that Alexander & Baldwin were connected with had more than 200 acres of cane in for the crop of 1902, while Olaa had about 2,400; that this was a remarkable showing, which he had not deemed possible. He thought the stockholders had every reason to be pleased with the condition of the plantation and the work which had been done there.

Mr. W. O. Smith stated in substance that he had just visited the plantation and that the lands appeared very fertile. There was no question that cane grew well upon them at all elevations, from 250 feet up to 2,000 feet; that Olaa had the advantage in this respect of the experience of Waialua and Wainaku immediately north and of Pahala on the immediate south; that on Pahala plantation cane was doing well at a much higher elevation than was proposed to be planted on Olaa; that different kinds of cane had been planted at all elevations on Olaa, and it was demonstrated that they would do well at all points.

The speaker visited the water-heads, where there was a flow of 16,000,000 to 20,000,000 gallons a day, and from his observation he believed that a very much larger amount would be developed. There seemed ample water for all the plantation needs but he believed that the combined railroad and fluming method of transportation of cane, which was being calculated upon by the company, would be probably the best way of transporting the cane.

The speaker thought that the best method of meeting the demand for labor was by the share contract system, which had been very successfully inaugurated on the Pahala plantation, and which was being inaugurated at Olaa.

A resolution authorizing the directors to issue bonds to the amount recommended by the directors was unanimously adopted.

A MINISTER'S GOOD WORK.

"I had a severe attack of bilious colic, got a bottle of Chamberlain's Colic,

Cholera and Diarrhoea Remedy, took two doses and was entirely cured," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor, who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix that they had been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, and he said 'No.' I went home and brought him my bottle and gave him one dose; told him to take another dose in fifteen or twenty minutes if he did not find relief, but he took no more, and was entirely cured." For sale by Benson, Smith & Co., Ltd., wholesale agents.

Charles Macklin, the noted English actor, was on one occasion boasting of the perfection of his memory, declaring that he had so trained it that he would undertake to recite anything upon once hearing it. Samuel Foote offered him the following sentences as a test, a test to which he proved unequal: "So she went into the garden to cut a cabbage-leaf to make an apple pie; and at the same time a great she-bear coming up the street poked its head into the shop. 'What! no soap?' So he died, and she very imprudently married the barber, and there were present the Pieninnes, and the Joblilles, and the Garynlies, and the Grand Panjandrum himself, with the little round button at top; and they all fell to playing the game of catch-as-catch-can 'till the gunpowder ran out of the heels of their boots."

MYRTLE AND EVA WILL NOT RACE

Elephant Says The Flea Is Not Quite Big Enough.

T. W. Hobron has forwarded the following answer to the challenge of Messrs. Crozier and Brotherton, who are desirous of being permitted to race their yacht, the Myrtle, for the Hawaiian Challenge Cup, now in the possession of Mr. Hobron, who won it last year with the Gladys (now Eva):

Honolulu, August 1, 1900. Mr. George A. Crozier and R. H. Brotherton, owners of yacht Myrtle.

Gentlemen: In reply to your letter and challenge for the Hawaiian Challenge Cup, would say that after conferring with a number of the owners of the larger yachts, I find that they are opposed to allowing a boat of your class to compete against them.

As there will not be less than three of the large craft contesting for this cup in the September regatta, I think that the yachtsmen and the public will have their interest sufficiently kept up without permitting boats of an entirely different class competing.

The deed of gift distinctly states that the boat, to be eligible, must not be less than five tons, and I therefore believe that the intention of those who gave the cup was to permit only the larger yachts to compete for this valuable trophy. I shall therefore have to respectfully decline your challenge.

Yours truly, T. W. HOBRON.

The history of the Hawaiian Challenge Cup is, briefly, as follows:

In 1889 the contesting yachts were the Healanl, Spray, Helene and Hawaii. The Healanl won this race in 4 hours 8 minutes and 32 seconds.

The same four boats sailed for the trophy the following year, on which occasion the Hawaii won in 3 hours 43 minutes and 52 seconds.

Only the Healanl, Helene and Hawaii competed in 1891, when the Healanl won the cup for the second time in 3 hours 28 minutes and 42 seconds.

The year 1892 brought a new factor into the race in the shape of the Bonnie Dundee, who won from the Healanl, Helene and Hawaii in 3 hours 34 minutes 45 seconds.

From 1892 to 1899 the Bonnie Dundee's title to the cup remained undisputed, but in the latter year the Gladys (now Eva) arrived on the scene and wrested the trophy from the Bonnie Dundee, in the best time ever made in the competition, 3 hours 15 minutes 15 seconds. The Hawaii and Bonnie Dundee also sailed.

The race for this cup has always been sailed on the fourth of July, with the exception of last year, when it took place on September 13th.

Oscar White, the present owner of the Eva, sides with Mr. Hobron in his view of the challenge. He thinks an acceptance of the challenge would be most unfair to the owners of the bigger boats, who would be put to a much greater expense in preparing for a race than would the owners of the Myrtle. Mr. White thinks that if the Myrtle held a valuable trophy and another boat of superior class swooped down upon it, the owners of the Myrtle would do much good and enthusiastic kicking on their own behalf. As it is, the sandal is on the other pedal extremity.

REPUBLICAN RALLY

AT 6:30 O'CLOCK,

Saturday Evening

to take part in the parade and

McKinley and Roosevelt

Ratification Meeting.

Returning Republican Delegates to National Convention will take prominent part.

Parade will form on Miller and Bere-tania streets.

DOAN'S BACKACHE KIDNEY PILLS

Which is Better: To Try an Experiment, or Profit By a Honolulu Citizen's Experience?

Something new is an experiment. Must be proven to be as represented. Be successful at home or you doubt it.

The manufacturer's statement is not convincing proof of merit. But the endorsement of friends is. Now, supposing you had a weak back.

A lame, or aching one. Would you experiment on it? You will read of many so-called cures.

But they come from far-away places. It's different when the endorsement comes from home.

Always remember, Home endorsement is the proof that backs every box of Doan's Backache Kidney Pills.

Mr. H. S. Swinton, of this city, says: "I was a long sufferer from backache, having been afflicted with it for twelve years. Taking this as a symptom of kidney trouble, and seeing Doan's Backache Kidney Pills advertised as being good for complaints such as mine, I procured some of them at the Hollister Drug Co.'s store. I found upon taking them that they were doing me good, and was thereby encouraged to keep on until now I am cured of the backache. The merits of Doan's Backache Kidney Pills have been strikingly shown in my case, and I recommend them to other sufferers."

Doan's Backache Kidney Pills always have the picture of a leaf on the wrapper. In asking for Doan's Backache Kidney Pills ask for the kind which cured Mr. Swinton, and see that the leaf is on the wrapper.

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

A PRODIGY.

"My boy Jimmie, aged 9, is a corker in psychology—and it's only his second term at it, too."

"Indeed?"

"Yes. The other day he said he was certain that the higher moral influence had nothing to do with my being a good citizen."

"Then how did he account for it?"

"He said I was afraid of the police?"

A correspondent sent the following narrative: A festive bluejacket was seen from a ship in Malta Harbor dancing on the top of the parapet wall at Fort Ricasoll. First his hat blew over, and then, leaning over to look for it, he lost his balance and fell after it—asher drop of thirty feet or more. The surgeon on duty was landed with a party to bring off the remains for identification. They found them crawling about on hands and knees, and inquired if he was seriously hurt. "Hurt be blowed!" was his reply. "Where's my hat?"

Weak Children

How sad it is to see weak children—boys and girls who are pale and thin. They cannot enjoy the sports of childhood, neither are they able to profit by school life. They are indeed to be pitied. But there is hope for them.

Scott's Emulsion

has helped such children for over a quarter of a century. Your doctor will tell you it is both food and medicine to them. They begin to pick up at once under its use. Their color improves, the flesh becomes more firm, the weight increases and all the full life and vigor of childhood returns again.

CANNOT SUE TERRITORY

Government May Keep Land.

EJECTMENT DOES NOT LIE

Decision of Supreme Court in Case of Much Importance—Hilo Land Case.

Actions in ejectment may not be prosecuted against the Territorial Government unless it consents to be sued. This principle was established yesterday by a decision of the Supreme Court in the ejectment case of John E. Bush et al. against the Territory of Hawaii.

MUST DELIVER DEED. The Supreme Court yesterday handed down a decision in favor of the defendants in the case of John Bohnerberg et al. vs. Anna Zimmerman et al. The case was for the cancellation of a deed delivered in escrow and for the forfeiture of a cash payment made on account of the purchase price of the land.

SILK GOWNS FOR JUDGES. When the Supreme Court next sits its members will be gowned in the finest of silk gowns. When Judge Perry went to the Coast he took with him the measurements of the three Justices, and the gowns were received by Henry Smith, clerk of the Judiciary Department, yesterday.

COURT NOTES. The Oki & Ota Company has brought suit against Wilson & Whitehouse on two promissory notes, amounting in value to \$500.

WAR IN EARNEST AT PANAMA CITY. Two Hundred Killed and Wounded During Part Of a Day.

NEW YORK, July 25.—A dispatch to the Herald from Panama, dated July 24, says: Fighting is now going on in the outskirts of this city.

Government forces are making a strong resistance in the entrenched positions they have occupied for several days. It is calculated that 200 men have been killed or wounded so far, among them being many well known residents of this city.

The Red Cross hospital here is filled with wounded and dying soldiers. All available doctors and nurses and sisters of charity are caring for them. These are being aided by many private persons, both Colombians and foreigners. Their assistance is invaluable, and is worthy of the highest encomiums.

da. formerly in command of the Government troops, who took refuge with others on the cruiser Leander on Saturday. He returned to shore today and took the place of a private in the ranks, fighting with the bravest.

General Herrera, commander in chief of the revolutionists, is still at Corozal, but it is believed he will soon join his forces now in action. If he does so, the attacks will undoubtedly be more vigorous, and the fighting more general, with disastrous results to the city proper.

Panama's streets are almost deserted. Stray bullets are constantly falling in the streets, and several persons have been struck by them.

Railroad traffic has been interrupted. This morning's train from Colon bringing passengers for New York, had great difficulty in passing under the bridge on account of the risk from bullets and shells. Passengers had to lie flat on the car floors to avoid the bullets.

The Pacific Steam Navigation Company's steamer Guatemala, which arrived this morning with several passengers for New York, and the French steamer was unable to proceed to New York because of the firing in the neighborhood of the wharf at the old station of the Panama Railroad.

Today's fighting followed an indecisive battle which lasted most of yesterday afternoon at La Boca, between the regular and rebel troops, who were landed from warships in possession of the revolutionists.

The fighting was hard, but both sides maintained their positions last night. The rebels held several points on the railroad, their purpose being to intercept the regular troops coming from Colon, numbering 150, under General Sarria.

All business places in Panama are closed up. Provisions and other necessities of life are growing scarcer and are hard to get at high prices.

Public excitement is intense. Many families are residing in the Grand Central Hotel for safety in case of an outbreak of trouble in the city.

At the request of the foreign Consuls all foreigners here have placed their national flags over their business houses and residences. The resulting display of bunting gives the city a gay appearance.

The Government has issued a decree calling to arms all Colombian citizens between the ages of eighteen and sixty years. All public employes not complying with the decree will be heavily fined.

No American war vessel is at Panama or Colon.

It is impossible to foretell what will be the outcome of the present fighting or the end of the struggle. Reinforcements expected by the Government have not yet arrived.

The gubat Boyaca is supposed to be still outside of Buena Ventura.

LATER PARTICULARS. NEW YORK, July 26.—A dispatch to the Herald from Panama, June 25th, says:

Fighting between the Government troops and the revolutionists which began early yesterday morning, when the rebels attacked the outskirts of Panama, continued all night with heavy casualties on both sides.

Efforts begun yesterday to bring about an armistice in order that the night might be buried and the wounded collected, were kept up during the night, and proved successful this morning.

It was agreed by the leaders that hostilities should be suspended for twelve hours, so that each side might care for its dead and wounded.

After firing had ceased under this agreement, Hezekiah A. Gudge, the American Consul General and the British Consul, acting in behalf of the entire consular corps, had a long and important conference with the revolutionary leaders. Through the intervention both sides consented to extend the armistice until noon tomorrow.

The Consuls are using every effort to prevent a bombardment of the city by the insurgents. Consul Gudge is especially active in this work because of the treaty obligations which require the United States to insure the neutrality of the Isthmus of Panama and preserve freedom of transit on the railroads.

General Campo Zerrano, Titular Governor of Panama, has arrived in Colon with 1,000 troops from Brancquilla. He is expected to reach Panama with these reinforcements during the night.

The armistice has brought great relief to the panic-stricken citizens of Panama. It has enabled them to appear in the streets with safety, which would not be done while the fighting continued, for stray bullets were constantly dropping in the city. Several persons were wounded by these bullets.

THE BANK OF HAWAII. LIMITED.

A Few Facts About Vehicles

It is not the wheels or the axles or the springs or the painting or the trimming that makes a high-grade vehicle. It is a perfect combination of these various parts. A vehicle to withstand the effects of our tropical climate must be provided with ALL these important essentials.

OUR VEHICLES HAVE THEM.

We are the sole agents for the just celebrated O'BRIEN VEHICLES. These are the Buggies and Runabouts that have won medals and diplomas wherever exhibited, and are the only vehicles which are equipped with the O'Brien Patent Spring, the strongest and easiest riding spring made.

We have also in stock at all times a full line of Surreys, Phaetons, Buggies, Runabouts, etc., direct from the factory of the H. H. Babcock Co., N. Y.

These Vehicles are built by skill-d mechanics, from carefully selected stock, and are the perfection of the carriage-builder's art; are fitted with Babcock Patent Self-Oiling and Dust-Excluding Axles, Bradley Quick Shift Shaft Couplings, Balley Fifth Wheel, and Happy Thought Gear. We have been appointed SOLE AGENTS for these Vehicles in the Territory of Hawaii, and are prepared to guarantee them in every respect.

Don't get one just as good. Get THE BEST for business or pleasure. It costs as much to import cheap Vehicles as it does good ones.

New stock has been received ex "Australia," "Irmgard," "Helene" and "Mary E. Foster."

Come and see the latest in up-to-date Vehicles, and get our prices before you make a purchase.

KING STREET ABOVE BETHEL.

Movements of Army Transports. Whale Wrecks Bonita. General News.

Germany is rushing steamers to San Francisco. Two of them are now on the way and more will follow. Horses, mules and fodder and black diamonds from the Puget Sound collieries are to be rushed to China, and as the Kaiser cannot charter vessels in America he has to send over some of his own merchantmen.

The Bosnia is now on her way to San Francisco from Baltimore and the Silesia from Yokohama. Both of these are enormous carriers and will take away about 15,000 tons of freight between them.

NEWS OF TRANSPORTS.

SAN FRANCISCO, July 25.—Uncle Sam is about to rush coal to China for the men-of-war. That article is getting very scarce in Chinese waters and a supply is wanted at once. The naval colliers Nero and Justin have been put in commission and the former vessel will get away with a full cargo inside of a week. Each vessel will be commanded by a naval officer, but all the remainder of the crews will be civilians. The first, second, third and fourth officers will all come from the merchant service and the engineers will come from the Marine Engineers' Association. Some little work has to be done on the Justin, but the chances are that August 1 will see her on her way to China.

The orders in regard to the transport Hancock have been changed. Instead of landing her passengers at Nagasaki she will push through to Taku on a rush order, and will probably make a record run to the Chinese coast.

SAN FRANCISCO, July 24.—Uncle Sam has chartered the transport Siam for six months. She will make one more trip to Nananimo for coal and will then be fitted out to carry horses and fodder to China. The Siam was for quite a while in the Manila trade and had an unfortunate experience on her first trip. She was caught in a typhoon and nearly every one of the cattle was killed.

The transport Warren sailed for Nagasaki on July 16 and the Logan on July 17, both for San Francisco. It was the intention of the Government to send the Logan back to China, but she got away from Nagasaki before the orders arrived. The Warren should reach here about August 2 and the Logan about thirty-six hours later. Both vessels will be given a hurried overhauling and will get away again about August 15 or 16.

SAN FRANCISCO, July 23.—There will be busy times around the transport wharf for the next week to come. The Hancock docks this morning and the work of loading her will begin at once. She is scheduled to sail next Sunday and will carry 500 marines, three batteries of artillery and 350 recruits, all for China. From here the Hancock will go to Nagasaki and from there to Taku. If the trouble in China is over before the transport reaches Nagasaki the men will be sent to the Philippines.

As soon as the Hancock is away the Meade will go into the berth and she will be rushed away also. The Warren is expected in from Manila about Aug. 1 and if it is possible she will sail again on August 15. In the meantime the Aztec, Strathgyle, Universe and Belgrade will be loading mules and horses and supplies for the soldiers, so that the quartermaster's department will have its hands full for some days to come.

FOUR COLLISIONS.

SAN FRANCISCO, July 24.—The British ships Champion and Lord Kinnaird were in collision off the South American coast some time in June last, but the news only reached here from London yesterday. Both vessels reached Antofagasta in a badly disabled condition. The Champion sailed from Port Hadlock on April 21 for Antofagasta in charge of Captain Jones. From that point she was to bring a cargo of nitrate to San Francisco. The Lord Kinnaird sailed from Newcastle, Aus., on April 1 for Antofagasta in charge of Captain Mutch. From that port she also was coming to San Francisco with nitrate. The Champion had for a cargo 1,070,130 feet of lumber, and the Lord Kinnaird carried about 1500 tons of coal. A telegram to the Merchants' Exchange states that both vessels are almost wrecks and that it will take months to repair them. This is bad news for the powder makers, who never wanted nitrate worse than they do now.

BELFAST, July 22.—In a collision last evening outside Belfast Lough, between the local passenger steamers Dromedary and Alligator, five passengers were killed and more than fifty more or less seriously injured, in many cases the amputation of legs being necessary.

There were 600 passengers on board the two vessels and terrible scenes followed the collision. It is feared that some others have been drowned.

LONDON, July 22.—A dense fog hung over the Irish Channel yesterday morning and the Cunard line steamer Campania, en route from New York for Liverpool, struck the Liverpool bark Embleton, bound for New Zealand, amidships, cutting her in twain. The Embleton sank immediately.

Seven of the crew were rescued, but it is believed the other eleven members of the ship's company, including the captain, were drowned.

The Campania had her bows stove in,

but arrived safely at Liverpool five and a half hours late.

SAN FRANCISCO, July 20.—The collier Tellus, which was in collision with the transport Belgian King, was docked at the Dunsuir coal bunkers yesterday and work of unloading her was begun at once. Every ounce of coal will be first taken out of the forward hatch so as to enable the inspectors to get a good view of the hole in her bow. A rough estimate by an expert places the damage to the Tellus at \$30,000, while \$10,000 will have to be spent on the Belgian King in repairs. The latter vessel is still in the bay with four holes in her bow, punched there when she crashed into the Tellus. Neither captain will talk about the accident, but to-day the captain of the Belgian King will make a report to the British Consul, while the captain of the Tellus will make his to the Norwegian Consul.

G. B. Hunter and the Wallsend Slipway Company filed a libel in the United States District Court yesterday against the Tellus, claiming reasonable salvage. The complaint states that on July 17 near Point Reyes the Belgian King and the Tellus collided, the collision tearing a hole in the bow of the Tellus, and that the Belgian King stood by and towed the Tellus to port.

GENERAL SHIPPING.

HONGKONG, July 22.—The Second Indian Brigade has been ordered to remain here. The British first-class battleship Goliath and the Indian transports with troops have arrived off Hongkong.

The new schooner Ludlow was launched at Port Blakeley and the new schooner R. C. Slade at Grays Harbor, July 19.

SAN RAFAEL, July 21.—The real thing in the sea serpent line was found on the beach near Point Reyes lighthouse this morning. An employee while patrolling the beach came across it high on the sand where it was stranded after being washed in.

The animal was 7 feet long and 20 inches in circumference in the thickest part of the body. It had two large horns which protruded from the large head, large teeth and massive jaws. It was alive when found. It was killed with stones and taken to the lighthouse and will be preserved.

SAN FRANCISCO, July 20.—The bark C. D. Bryant arrived in port yesterday, after a long passage of thirty-eight days from Honolulu. Light winds and calms delayed the vessel. Besides she is very foul from not having been dry-docked for a long time, and that helped to keep her back.

WASHINGTON, July 19.—The Navy Department has completed the circular calling for bids for constructing armored cruisers of the first class. These will be the largest ships in the navy, the tonnage running over 14,000. The ships will be enlarged New Yorks, a type found to be better than any other of the armored cruisers, and lacking only in size, a defect which it is proposed to make good in the new designs. The circular calls for bids to be opened December 8.

PANAMA, July 19.—The Pacific Mail steamship Costa Rica this morning came successfully alongside the new Panama Railroad wharf at La Boca, near to the entrance to the canal. She came in loaded through the canal channel and drew fifteen feet of water. The depth of water at the wharf was thirty feet. This is the first time a large vessel has come to the wharf. Other ships of greater tonnage will probably follow.

The new system will completely revolutionize the handling of freight, which, since the opening of the Panama Railroad, has been done by means of lighters and steam tugs down the bay.

VALLEJO, July 24.—Lieutenant Hirschinger of the United States marine corps has been ordered to China and will leave on the Hancock on Saturday. He will be adjutant to the Fifth Battalion, United States marine corps.

Dr. Payne has been detached from the naval hospital at Mare Island and ordered to China on the Hancock. Surgeons Stepp and Payne, who were among the four surgeons who received temporary appointments in the navy during the Spanish war, have been regularly appointed in the navy.

Workmen are being taken on at Mare Island. Orders have been received to rush work on the gunboat Alert.

SHIPPING NOTES.

The Eidsvold shifted from the Pacific Mail dock early yesterday to the Embleton wharf.

The Australia, Captain Lawless, moored to the Oceanic wharf at 7:45 a. m. yesterday.

The barkentine Archer arrived yesterday, twenty-three days from Honolulu, with 23,526 bags of sugar.

The American bark Mauna Ala, Captain Smith, now at San Francisco, has been partly condemned and it will be several weeks before she leaves that port.

SAN FRANCISCO, July 22.—The bark Annie Johnson, which has been off the port for several days, came in- side yesterday, twenty-one days from Honolulu, with a cargo of sugar.

Steamer Coptic arrived in port shortly after 3 o'clock yesterday afternoon from San Francisco and hauled alongside the Pacific Mail dock. She left San Francisco on the 26th instant, one day later than the Australia and brought that much later news. There are several layover passengers for Honolulu.

SNEEZE

And sneeze again. Then keep on sneezing. Perhaps you think you can sneeze La Grippe out of you in this way! But the trouble is La Grippe isn't in your head alone. It's in your back, your blood, your nerves, your muscles; all through the body, everywhere.

It don't take a doctor to let you know you have it. And it don't take a doctor to cure you, either.

Ayer's Cherry Pectoral

is the cure. It's a sure cure and a quick cure. It quiets your restlessness, controls your fever, stops your coughing, and drives La Grippe right out of the system. One dose relieves; a few doses cure.

In Large and Small Bottles. A cure is hastened by placing over the chest one of Dr. Ayer's Cherry Pectoral Plasters. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

THE PEOPLE WILL PROFIT

Improvements are under way in Thomas Square which when completed will give Honolulu a pleasure ground that will compare favorably in beauty and other respects with the parks of Mainland cities.

The straggling hibiscus hedges have already been taken down, and work on the following improvements has commenced:

Inside the curbing will be a four-foot wide grass plot which will extend around the square. Next to the grass plot will be laid down a concrete sidewalk, six feet wide. A gradually sloping bank of grass will extend inward from the sidewalk. The silk oak trees now growing in the center of the strip of soil, intended for the four feet of grass, will be allowed to remain and where a gap mars their regularity the vacancy will be filled with new trees. This will provide for a handsome row of silk oaks at both the King Street and Beretania street ends of the square.

Round the other two sides will be planted gorgeous flowering Poncaiana Regia trees, while here and there will appear Golden Showers, palms and others of the many brilliant blossoming trees which grace Honolulu's gardens and grounds. The trees will be arranged according to a carefully planned color scheme.

A general weeding out of trees in the square is taking place and only the best will be allowed to remain; the rest will cease to cumber the earth.

In a short time there will be a good supply of water available in the square and there will be none of the difficulty experienced in the past in keeping the grass green.

In the center of the square the band stand will occupy its old position, and the four banyan trees growing around it, which form, as it were, the corners of a Maltese cross, will be trimmed.

The idea is to make the square perfectly open. The walks will be trimmed and covered with black sand and new seats will be put in.

The Superintendent of Public Works is attending to the alterations in the square proper while Wray Taylor, Commissioner of Agriculture and Forestry, is looking after the matters arboreal.

When these improvements are completed Thomas Square should become the favorite concert square in the city, as Emma Square, though conveniently situated, is uncomfortably inadequate to hold the big crowd that always turns out when Kappelmeister Berger introduces a new selection into his program.

The alterations will be rushed along as quickly as possible by Superintendent McCandless, and it is expected that everything will be in shape in less than two months from now.

A statement has just been issued by the New South Wales Government statistician of the hands employed in the various manufactures and works during 1899. The figures show a gratifying increase during 1899, and the employment afforded in that year was larger than in any preceding year, and, taken in conjunction with the population figures and the trade returns, give conclusive evidence of the revival of trade. Every branch of industry shared more or less in this expansion, but the largest increase was in the trades grouped under the heading of metal works and machinery.

The DAILY ADVERTISER is delivered to any part of the city for 75 cents a month.

THE PEOPLE WILL PROFIT

David opened wine and beer for those Southern politicians until their mouths watered in envy," said Wise.

Wise then squared himself and announced that he would answer any questions put to him regarding the Democratic platform. Someone shouted, "Explain what 16 to 1 means!" Wise looked blank and peered at McClanahan. He shifted from one foot to another, and finally said in faltering tones: "Well, I don't believe there is a man in Honolulu or Hawaii who can explain that. I am afraid I am not well enough posted on the question; I put myself upon the exalted plane of William J. Bryan. I think you will have to excuse me on that point. Bryan himself couldn't meet it." Wise sat down and was relieved when Chairman McCarthy took his place behind the table.

Prince David spoke feelingly of the treatment he and his compatriots had received at Kansas City. Hospitality and loyalty to the Hawaiians were the features which had impressed him most. "Prior to the journey to Kansas City," said the Prince, "I was on the fence. I didn't know what to say. But I have come back to the Islands a full-fledged Democrat, and shall always remain a Democrat." Applause greeted the popular Hawaiian's statement.

John E. Bush launched forth and began to rip the Republicans and local government to pieces. If Bush is to be believed by the drilled satisfied that he had soundly shattered the standing of the Republicans in Hawaii. Trusts, railway and street car trusts, land trusts, anti-imperialism, anti-everything, were handled with the ease of a savant in political economy by the erstwhile Ambassador to Samoa.

"I did not like the idea of being taken by the scruff of the breeches and the back of the neck and being thrown into the Union. As an officer of the Government today I stand out fearlessly and proclaim against the acts which have been done during the last seven years," said Bush.

E. B. McClanahan spoke of his being an unattached member of the delegation from Hawaii, and having taken his seat on the floor under the name of W. S. Withers, having counterfeited that name for himself at the suggestion of the delegates. He pointed a moral. There were six delegates from Hawaii to the Kansas City convention and but two at the Philadelphia convention allowed to take seats, which to his mind showed the proportion of respect which the two parties were given at that point in 1896, and that through their legislation during the past four years they have made it impossible for us to do anything on that issue at present, yet we still believe in 16 to 1. But there have arisen conditions under the Republican Administration which we Democrats believe to be in line to be mounted even to the money question, and that these paramount issues must be settled in the coming election, after which we will again take up our fight on the money question. The great plank in the Democratic platform and upon which the issues must be fought with the Republican party is that plank which touches the truth and wisdom of the American Constitution, and that plank which says wherever the American flag goes and into whatever country it is taken, the Constitution, too, must follow."

Orator McClanahan's argument settled the meeting and Chairman McCarthy announced that the "reception" was over. Prince David when interviewed by an Advertiser reporter in regard to his experiences at the first national political convention he has attended, said:

"It was great. We were received in the convention and elsewhere with all honors of the 48 seats were reserved for us in the convention. When we displayed the banner of Hawaii, the outburst of applause spoke more than words as to American sentiment in regard to the new Territorial acquisition. I have never witnessed the like of the enthusiasm which prevailed when Bryan's name was mentioned in the convention for the first time. The house remained in an uproar of cheering for over half an hour. We went to support Bryan, we were the main plank in the platform free silver or any other, and we never wavered in our allegiance.

"Bryan would accept the nomination only on the understanding that the 16 to 1 silver issue was adopted. Personally I am of the opinion that it will be dropped. The political engine in the States is a great machine; so great that even an experienced politician may well remain in ignorance of some of its inner workings. I don't think that McKinley will by any means have the walk-over he did in 1896. Indications were plentiful that many of the Gold Democrats who voted for McKinley last election will fall in line with Bryan in November. On the other hand, the President's chances for a second term will be undoubtedly strengthened by the outbreak of the present trouble in China. The American people as a whole are too wise to permit of the swapping of horses in the middle of the stream."

Col. W. H. Cornwell, who was interviewed, said: "I would not have missed the convention for \$500. I received a political schooling I shall never forget, and I only wish that I could be in Chicago in November to top off, as it were, my political education. I am aware that Hawaii as a unit will not cut a great deal of ice in national politics; but that as it may, the Democratic delegates to the Kansas City convention could not have been more royally treated. The delegates from every State in the Union called for 'Hawaii' and our response was always greeted with tumultuous cheering. Bryan was our man by previous agreement and we would be satisfied with no other, whatever his platform. Richard Croker told me in a conversation that he expected the Democrats to carry New York City and possibly the State.

"I am in a position to state that W. J. Bryan will include among his supporters many of the Gold Democrats who voted for McKinley in 1896."

New of Policeman Cox.

SAN FRANCISCO, July 24.—Tommy Cox, the clever Australian fighter, is having trouble with his right hand. It was broken some time ago, but the bones were not set properly, and the usual tenderness was felt. In sparring for the Cole fight with his trainer, Tom Tracey, he injured his hand, and it was so sore that a few days before the fight Tracey had to cut his meat for him. To-day the bones will be broken by a doctor and set again. Cox showed considerable gameness to enter the fight with Cole in such a condition. It is believed he would have finished the local man in short order had the hand been in good condition.

Cattle King Parker.

SAN FRANCISCO, July 20.—Sam Parker, the wealthiest native land owner and cattle king in the Hawaiian Islands, arrived from the East last night in company with C. B. Wilson and A. N. Kepoikal, influential citizens of Honolulu. The three gentlemen attended the National Republican convention as delegates from the new Island Territory. They are much pleased with the hearty reception they received and the cordial manner in which they were treated Mr. Parker and his friends are registered at the Palace.

THE PEOPLE WILL PROFIT

STUBBS ON THE SCENE

Agricultural Problem
His Study.

SENT BY UNITED STATES

Scientist will Report on Hawaii to
Secretary Wilson After
Investigation.

William Carter Stubbs, agent of the United States Department of Agriculture and Director of the Louisiana Experiment stations, arrived on the Australia yesterday and is registered at the Hawaiian hotel with his wife. Dr. Stubbs was appointed by Secretary of Agriculture Wilson for the important post of inspecting the agricultural possibilities of the Hawaiian Islands and making recommendations for the establishment of a United States Experiment station in the islands.

"I am here to look up the agricultural prospects of Hawaii," said Dr. Stubbs to an Advertiser representative yesterday afternoon. "I have about four pages of typewritten instructions, but to put them in a nutshell, I will say that I am sent here to study every agricultural possibility. After that such details as these: We understand that you buy all your vegetables in San Francisco? Our query to this is why cannot they be raised here?"

"Then all your hay and fodder for your animals comes from the States. Why cannot these staples be raised here? You import nearly all your fruits from California? Why cannot the bulk of these luxuries be made to grow here?"

"The next question is in regard to economical irrigation. We propose to look up the question of the use of water to the fullest extent and ascertain if too much water is used here in irrigation. Cannot the planters and all users of water for agricultural purposes economize on these lines?"

"Then the next thing is to recommend a suitable place for the establishment of an experiment station. Then to look up the land valuations and ascertain what property the government owns. It is also my purpose to see what can be done toward amalgamating the interests of the planters and the United States in the establishment of such an experiment station which would accrue to the benefit of the general public. It may be that if the planters can come to an agreement with the government of the United States the experiment station which they have had under their control may be merged into that about to be established by the Department of Agriculture."

"The Normal and Kamehameha schools are also on my list for inspection. I will also see as many planters and farmers as possible during my stay which will extend possibly for five or six weeks. I will consult them freely as to their wants."

"Secretary Wilson has instructed me to deliver a message to the people of Hawaii that he will do anything he can to advance the agricultural interests of the Islands."

Dr. Stubbs is not a stranger to the planters of the Islands although this is his first visit. He knows most of them, as nearly all of them have made pilgrimages to Louisiana to observe the experiments in cane culture, and it was through Dr. Stubbs that Dr. Walter Maxwell, director of the local experiment station was sent to Hawaii.

Dr. Maxwell was connected with the laboratory of the Louisiana Experiment station under Dr. Stubbs. When the Hawaiian planters sent a request for a scientist, accompanied by a check for \$1000, Dr. Stubbs selected Dr. Maxwell and Prof. Crawley.

The planters have also selected another pupil of Dr. Stubbs to succeed Dr. Maxwell who leaves shortly for Queensland, Australia. This is Robert Emmet Blouin, whom Dr. Stubbs describes as a man of splendid scientific attainments, and who will be a worthy successor to Dr. Maxwell.

Dr. Stubbs has been engaged for the last fifteen years in running the sugar experiment stations of Louisiana and in connection with this work has made experiments with sub-tropical plants; hence his appointment, as the agricultural conditions of Louisiana and Hawaii are so closely allied.

Among others who have been sent to Hawaii by Dr. Stubbs, or who were pupils in the school in which he is a professor, are Prof. Shorey, Messrs. Clark, Robertson, Olden, Collins, Rodriguez, Dr. Stubb's titles are legion. He is director of the experiment stations at Audubon Park, Baton Rouge and Calhoun; State Chemist; Director of the State Geological Survey and Professor of the State University.

About \$10,000 has been appropriated by Congress for preliminary experiment work in Hawaii for this year. Upon Dr. Stubb's recommendations, Secretary Wilson will ask Congress for appropriations for the establishment of the Hawaiian Experiment Station and a full staff of officers.

Another Ruling.

Judge Humphreys established another new rule of court decorum yesterday. It has been the custom for attorneys and others to step to the desk of the clerk for information, even during the progress of a trial. Yesterday when Edmund Hart went forward to speak to Clerk J. A. Thompson Judge Humphreys took occasion to administer a severe rebuke to him and he announced that such a thing would not be permitted in future from any person, attorneys or others, while he was trying a case.

Latest Sugar Prices.

LOCAL BREVITIES.

C. S. Desky, of Pacific Heights fame, is again in the city. Dr. W. H. Maya, a physician of San Francisco, is in the city. The St. Louis College Literary Society met last evening at 7 o'clock. The laying of the brick work of the Stangenwald building began yesterday. The mortuary record shows 113 deaths in Honolulu during the month of July. Mrs. A. F. Cooke and Miss Margaret Cooke returned on the Australia from California yesterday. Enumerator Lockwood was keeping track of the traffic on King street opposite the Capitol yesterday. The postponed ball and reception of Company A, N. G. H., will take place at the Drill Shed this evening. John Bush, principal of the Kilauea School, will return to Kauai today after a stay of two weeks in the city. There will be a meeting in the school room of St. Andrew's Cathedral at 8 o'clock this evening, at which addresses will be given. The engagement of H. Wedemeyer of Kona plantation, and Miss Henrietta Christian, daughter of Mr. and Mrs. C. Christian of Hanalei, has been announced. A well known young Chinese of this city will apply for a position as a scout for the allied forces in China. He will send his application to the British authorities through Commissioner Hoare and to the American forces through Governor Dole. The police were yesterday looking for a man who was reported to have "rolled" an employee of the Oahu Sugar Company for \$50 at the rear of the Empire saloon on Tuesday night. The sugar employe was drunk, and was led into the rear area by the robber and the theft committed. Although there was over \$100 in the sugar man's pockets, but \$50 was abstracted therefrom. The "roll" is well known to the police, and it is expected that he will be caught in the police drag-net some time today.

The engagement of H. Wedemeyer of Kona plantation, and Miss Henrietta Christian, daughter of Mr. and Mrs. C. Christian of Hanalei, has been announced. The sugar employe was drunk, and was led into the rear area by the robber and the theft committed. Although there was over \$100 in the sugar man's pockets, but \$50 was abstracted therefrom. The "roll" is well known to the police, and it is expected that he will be caught in the police drag-net some time today.

The body of Dr. Hugus, Government physician at Keala, Kauai, for six years, and physician for the Mahee Sugar company was brought to Honolulu yesterday by steamer in charge of Mr. Hargley of the plantation. The dying wish of Dr. Hugus was that he be cremated in Honolulu and his desire will be carried out to the letter. His death was caused by hemorrhage of the brain. Dr. Hugus was sixty-one years old and had been in Hawaii many years. Mrs. Hugus accompanied the body to Honolulu.

A solid vestibule passenger train southbound on the Chicago & Eastern Railway, was wrecked near Benton, Ill., at 11 a. m., June 25. Otto Neimel was killed and twenty-five other passengers were injured.

Apple, Plums, Nectarines, Peaches, Apricots, Grapes, Pears, Crab, Plunders, Salmon, Oysters (in tin and shell), California Butter, Celery and Cauliflower, Chickens, Etc.—CAMARINOS' REFRIGERATORS.

ALSEN PORTLAND CEMENT WE HAVE JUST RECEIVED a large shipment of this celebrated cement, which is the STURONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand gravel, with less loss of strength, than any other brand; it is therefore the most economical. ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements. It is therefore an economical cement to use, and specially adapted for fine concrete work. The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the sea wall arounds; seven days, 500 pounds; thirty days, 600 pounds; 60 days, 650 pounds; 90 days, 700 pounds; 120 days, 750 pounds; 150 days, 800 pounds; 180 days, 850 pounds; 210 days, 900 pounds;
