NASTY THINGS THE PRESIDENT LEARNED ON TOUR

Smuggling in Army and Navy Circles in the Island Possessions of America.

Political Quarrel in New York—The Civil Service—Business and Trusts—The Campaign Fund.

(MAIL SPECIAL TO THE ADVERTISER.)

WASHINGTON, D. C., April 25.—When President Roosevelt came out of Yellowstone Park a few days ago and left the snow bound trails for the rapid travel of his special train, he learned that a lot of things had been happening at the capital, and elsewhere, which have significance on his administration. He learned for the first time full details of the court decision on the Northern Securities merger suit and of the movements in that very important suit by his Attorney General, all of which will possibly affect his political prospects more than any single event since he entered the White House. He also learned some unpleasant things about his army and navy officers in Porto Rico and the Philippines, who have been smuggling silks, wines, liquors and cigars, and been not only trapped by the wary customs officers, but both at Manila and San Juan already facing criminal prosecutions, with remarkable efforts being put forth to save them from prosecution. The President also heard the details of a political war in New York State, which has broken out afresh during the past week, between Senator Platt and Governor Odell, and which threatens to disrupt the organization so that the President will lose his own state next year to the Democrats.

All of these matters prove how rapidly the world moves forward and how likely it is that when the head of the civil government of 70,000,000 retires to inaccessible places the procession of important events may pass him by. However, if the President had been in Washington all the while there could hardly have been any different management of the various affairs in question, and the people do not begrudge him his splendid outing.

OFFICIAL SMUGGLING.

Smuggling of wines, liquors, and cigars would not cause much of a sensation here under ordinary circumstances. The customs officials have such cases to deal with constantly, but for five years the high authorities of the government have prated extensively about the splendid lessons in honest government which we were teaching to the natives dwelling in our island possessions. There have been several rude shocks to these ideals, although it is not to be overlooked that extensive and far reaching reforms in government have been inaugurated by Americans in Cuba, Porto Rico and the Philippines. But at any rate, it is most unfortunate that the favored officials of the government should involve it in such embarrassment by violating the very laws which they are expected to enforce with dignity.

Special emphasis has been given to the recent cases because the Department of Justice is attempting to shield the army and navy officers in Porto Rico from prosecution, which the Porto Ricans happen to regard as unfair, when they are themselves prosecuted severely for like offenses. It is all true enough that the custom at the Treasury Department has been to assess double duty on those trying to smuggle goods for private consumption, whereas those bringing in goods without payment of duty for gain are prosecuted in the courts, but the average Porto Rican is not calculated to reason on such fine points. The cases in Porto Rico, where the grand jury went forward and indicted, notwithstanding the instruction of the Department of Justice to stop prosecution, have added significance, because they will undoubtedly figure on the Presidential campaign of next year. The prosecutions for importations of silks and other valuables at Manila by army officers had gotten well under way before the War Department got any knowledge of what was going on, and it has become a question whether the verdicts have not already been rendered. The Democratic orators will find those matters luscious for discussion on the hustings next year.

THE CIVIL SERVICE.

Since President Roosevelt plunged into the wilds of Yellowstone Park, there has also been an important advance in the administration of the civil service law, although it was inaugurated with his full knowledge and consent. For the first time since that law was passed by Congress about twenty years ago it is now in force with a severity never before known. In other words, every employe of the government who is doing anything like clerical labor is under classified service and beyond the reach of political influence. This applies to a large army of many thousands of clerks, men and women, not only in Washington, but in most of the cities of the country, wherever the government has offices for postal, customs, revenue, or legal business.

Theoretically this has been the case for several years, ever since different Presidents extended the classified service over various bureaus and departments, but in practice there have been many loopholes which the politicians of the dominant party not only guarded with great secrecy but used diligently for the smuggling of constituents into good places. The appointments of unskilled laborers were numerous, because ways could be found to promote them to skilled laborers and thus under the classified service, where they could be promoted without great difficulty. The hundreds of Presidential postoffices (post-offices where postmasters are appointed by the President) were also utilized as an underground railroad for the transportation of favorites into the classified service, and in the last three or four years hundreds upon hundreds of clerks have gotten into the classified service by that route. In both cases the Civil Service Commission was powerless.

(Continued on Page 2.)

TO STUDY LABOR ON THE GROUND

Mr. Sargent Arrives on City of Peking.

He Will Look Into the Labor Problem Here.

Commissioner of Immigration Wants to See With His Own Eyes.

"I have not come down here to raise any row nor to attempt to create any kind of a sensation," said Commissioner of Immigration Frank P. Sargent last night. Mr. Sargent had just eaten a good dinner at the Hawaiian Hotel, and the tropic world looked fair to him, under the round moon. As a matter of fact, Mr. Sargent impresses you as the kind of man to whom the world always looks fair. There is a certain force that compels the world to turn its best side to some men, and the former head of the Brotherhood of Locomotive Engineers, now high in the councils of the government of his country, has that force.

"I don't want any great fuss made over me. I'm rather small potatoes," Mr. Sargent must weigh something over two hundred, by the way. "As the head of the Immigration Bureau," he went on, "it is much more satisfactory to me to know personally the men in charge of the several stations when I have to deal with them away there at Washington. Honolulu is one of our more important stations, and when I am talking to a man over a wire I find that I can talk with better understanding if I know the man."

"Then, you know, the last Congress appropriated \$50,000 to build a station here, on an island in the harbor I believe, and I want to have the plans for that ready to take back with me so that

(Continued on page 3.)

ALL FOR BENEFIT OF THE SOLONS

Fire Laddies Did Some Smart Work.

Benefits of Honolulu Fire Telegraph System.

Engines and Wagons Made Quick Runs to the Pacific Mail Wharf.

House members of the Legislature had an ocular demonstration last night of the merits of the fire telegraph system when they stood within the fire stations at headquarters, Makiki and Palama, at a time when an alarm was turned in from Box 34, at the foot of Alakea street. At 8:30 last evening the majority of the members of the House, divided into three committees were present at the three named stations, which they had already inspected. The horses were enjoying their evening feed. Some of the firemen had gone upstairs to the dormitories and others were lounging about, when suddenly the gong sounded sharply. In an instant the three-station interiors were transformed into centers of activity. The horses, released from their stalls by the automatic dropping of their stall ropes, dashed forward under the harness, men came sliding down the brass poles from the dormitories, and there was a general rush to the various machines. Drivers mounted to the seats and before the last gong note of 34 had sounded, the doors opened outward and the teams dashed into the street.

At headquarters twelve seconds was the time required for the machines to gain the street from the first tap of the gong and about the same record was made at the other stations. Not a word was said by the firemen. There was

RUSSIA PUTTING TROOPS INTO THE CHINESE FORTS

Immense Preparations Being Made for Defensive War Against China and the Powers.

Fresh Outbreaks Feared at Salonica—Bubonic Plague at Callao—Bolivian Congress Called. Refined Sugar Drops Five Cents.

(ASSOCIATED PRESS CABLEGRAMS.)

TOKYO, May 8.—Leaders of the Nationalist party have telegraphed to the Chinese Viceroy advising the immediate opening of Manchuria by granting concessions to Anglo-Japanese-American syndicates.

PEKING, May 8.—Russia has heavily garrisoned the forts on the Liao river. Immense preparations are being made elsewhere. The Russian coup is interpreted as a declaration of resistance to the powers and to China. The Empress Dowager is greatly distressed.

LOS ANGELES, May 8.—President Roosevelt denies that Secretary Hay has requested authorization to make a joint protest against the Russian occupation of Manchuria.

The Russian coup of garrisoning the forts along the Liao river was engineered, in all probability, by General Kouropatkin, Russian Minister of War, as he left St. Petersburg on April 28 to inspect Manchuria. It was stated that he intended to look after the Russian fortifications on the Amur river.

Russian agents have purchased great quantities of food supplies in ports of the Orient and shipped them to Russian depots.

The Russian reoccupation of New Chwang indicates that the Czar does not intend to leave Manchuria. The Russians have cut the cable from New Chwang to Chefoo, and also the telegraph lines communicating with Peking. On April 20 the Russian troops were moved from New Chwang. It was then expected they were to leave that section of Manchuria, but the troops only marched one mile and made a new camp there, where they remained until they reoccupied New Chwang yesterday.

Gen. Kouropatkin, Russian Minister of War.

Explosion and Fire.

STOCKTON, May 8.—Three stores and offices were wrecked today by an explosion of gas. Fire broke out in the ruins. Twelve persons were hurt.

Collapse of a Building.

DENVER, May 8.—Six men were badly injured today in the collapse of a building which was being renoeded.

More Trouble for Turks.

SALONICA, May 8.—Owing to the withdrawal of foreign ships fresh outbreaks are feared.

Refined Sugar Down.

NEW YORK, May 8.—Refined sugar has been reduced five cents per hundred.

Bolivian Congress Called.

BOGOTA, May 8.—Congress has been called for June 20.

Plague in Peru.

CALLAO, May 8.—The bubonic plague has broken out here.

Millions for Transvaal.

LONDON, May 8.—The Transvaal loan has all been taken.

The Transvaal loan is for one hundred and fifty million dollars. The money is to be used in public works in the Transvaal and in part to assist the farmers there to restock their farms and secure farming implements.

CHANCE OPENING UP FOR A NEW FARMING COLONY

Byron O. Clark Working With the Land Commissioner to Get Settlers From California or the Northwest.

Small farming may be given another trial on this Island. Land Commissioner Boyd is said to be working with Byron O. Clark, who made Wahiawa a success, to bring colonists from California to take up 4,363 acres of good land at Pupukeya, Oahu. The land is now under lease to the Oahu Railroad Company, but the lease expires next month and Mr. Clark believes that he can induce settlers to come here from Southern California or from the Northwest. The scheme is yet in an embryonic state, but the land is to be set aside by Commissioner Boyd for colonization purposes and will not be put on the market again.

"The soil is very similar to that of Wahiawa," said Commissioner Boyd yesterday. "The tract at Pupukeya consists of 4,363 acres of rolling land and is now covered with rank grass, and has been used only for grazing purposes. The idea is to plant it with good fodder grass, and Byron Clark believes that one acre can be made to support from two to four cattle. The land is right on the railroad and the only difficulty is as to the water supply. There is plenty of water along the sea shore, however, and this can be forced back to the Pupukeya lands, which are but slightly higher. The government may itself attempt to show how the water can be carried to the land. Then there is some suggestion that the government take ten acres and demonstrate what can be grown there. The land is like that at Wahiawa, and has the advantage of being more accessible to the railroad. Mr. Clark believes that settlers can be induced to come here from California or the Northwest, and the government will hold the land and see what can be done with it."

The Buyer Knows

Where to buy the best materials at the lowest figure. It won't take long to learn if she doesn't. Our private opinion is that—considering the materials—the following prices cannot be equalled in Honolulu. Come and see the goods—then judge.

Alpacas

Plain and figured, width 42 inches. Excellent fabric, 75c yard.

Tweed for Skirts

Just arrived from England, \$1.25 yard.

Crepons

Beautiful and light material, upward from 90c yard.

Mosquito Netting

Width 90 inches, \$3.25 piece.

Lace Antimacassars

Very pretty assortment, 2 for 25c.

PRESBYTERIANS AT WORK RE-VISING CONFESSION OF FAITH

NEW YORK, May 8.—The proposal for a revision of the Presbyterian creed has been adopted.

The sentiment in favor of a revision of the Presbyterian creed has been growing for years, but it was not until last year that a decided step was taken in the matter. "That which men have formulated, they may revise," and this was practically the ground upon which the Presbyterian General Assembly, held in New York last year, stood upon the question of the revision of the Westminster Confession of Faith, which constitutes the body of the doctrine held by the Presbyterian church. The result of argument at that time was the adoption of eleven overtures, each embodying a change in the confession, to be submitted during the year 1903 to all of the Presbyteries throughout the United States for their approval or disapproval.

A two-thirds vote in each Presbytery, and two-thirds of all the Presbyteries, will be necessary to secure a revision of a Confession of Faith which has stood as the creed of the Presbyterian church since 1729.

The most important changes in the confession are indicated in the following statement issued by the General Assembly of the church for the information of all, and this was adopted by the assembly last year:

"While the ordination vow of ministers, ruling elders and deacons, as set forth in the Form of Government, requires the reception and adoption of the Confession of Faith only as containing the System of Doctrine as taught in the Holy Scriptures, nevertheless, seeing that the desire has been formally expressed for a disavowal by the church of certain inferences drawn from statements in the Confession of Faith, and also for a declaration of certain aspects of revealed truth which appear at the present time to call for more explicit statement, therefore the Presbyterian church in America does authoritatively declare as follows:

"First—With reference to Chapter III of the Confession of Faith: That concerning those who are saved in Christ, the doctrine of God's eternal decree is held in harmony with the doctrine of his love for all mankind, His Gift of His Son to be the propitiation for the sins of the whole world, and His willingness to bestow His saving grace on all who seek it. That concerning those who perish, the doctrine of God's eternal decree is held in harmony with the doctrine that God desires not the death of any sinner, but has provided in Christ a salvation for all, adapted to all, and freely offered in the Gospel to all; but men are fully responsible for their treatment of God's gracious offer; that His decree hinders no man from accepting that offer; and that no man is condemned except on the ground of his sin.

"Second—With reference to Chapter X, Section 3, of the Confession of Faith, that it is not to be regarded as teaching that any who die in infancy are lost. We believe that all dying in infancy are included in the election of grace, and are regenerated and saved by Christ through the Spirit, who works when and how He pleases."

Machen Suspended.

WASHINGTON, May 8.—A. W. Machen, Superintendent of the Free Delivery Department of the United States Postoffice Service, has been suspended from duty pending an investigation of the affairs of his office.

Machen recently stated: "I will not resign, and I court the fullest investigation. As a matter of fact, I have been under investigation for some six months. I have 268 clerks under me, and each and every one of them will testify to my integrity. The President or Postmaster General may dismiss or suspend me at any time, but when the investigation is finished I will be vindicated and restored to my original position. I am not a politician, and I have no 'machine.'"

Nasty Things the President Learned on Tour.

(Continued from page 1.)

because the President was not disposed to hold to the letter of the law.

President Roosevelt, however, is an enthusiastic believer in the civil service, designed to prevent the removal of clerks without cause, and was himself formerly the president of the Board of Civil Service Commissioners, three in all, under President Harrison. Therefore he has been in full sympathy with the efforts to perfect the system, now about as nearly complete as it can be. The intended conditions have been concealed as far as practicable in a new code promulgated recently by the commission and worded in exhaustive phrases that have not immediately conveyed a complete meaning to the public. The law officers of the government, however, are fully aware of the significance of the new code. It makes the Civil Service Commission supreme in determining the personnel of the enormous clerical force of the government, even over the heads of department officers. That remarkable state is made possible because the commissioners have sole power to say when the salary of a clerk shall be cut off, and even the Comptroller of the Currency, an officer who is supreme in matters of expenditure under the law, cannot interfere.

The new order of things will make the politicians howl, especially a considerable class of them who are openly and above board antagonistic to the civil service. However, it is almost certain to result in extensive benefits. The next two years and the four years after that, if Mr. Roosevelt is elected President in 1904, are bound to be the golden era of civil service.

POLITICAL PILIKIA.

The political quarrel with which New York State is just now ringing is a theme of the deepest interest to students of next year's presidential campaign. It looks as though history was again to repeat itself and the vote of the most populous state in the union be turned over to the Democratic party. The time was when as New York went, so went the Union, but that condition has long ago passed. President Roosevelt can be elected without the vote of New York State but it would be a humiliation for any President and a thing that has not happened, at least in recent years, to any man of either party who has entered the White House. It is widely realized that if Senator Platt, now an old and very feeble man, and Governor Odell quarrel to an extent that makes a Democratic victory possible in 1904, the influence of the demoralization will extend outside of New York State to New Jersey and Connecticut.

But there is still another important consideration. In a very broad sense it is true that lavish expenditure of money has been a powerful factor in determining the last four Presidential elections. Generally the Republican party has had the sympathy and support of great corporations, able to make big campaign contributions. President Harrison was undoubtedly elected by the use of money in 1889. But four years later, in 1892, when Mr. Cleveland came in on a ground swell, the bulk of campaign funds was with the Democratic party. Mr. Cleveland might have been elected without the money, but it nevertheless played an important part. Had it not been for the enormous campaign fund of 1896 Mr. McKinley might have never seen the White House as Chief Magistrate. Four years later his party also had the funds, but he could have been elected against Mr. Bryan without them.

BUSINESS AND TRUSTS.

In business and financial circles there is a deep resentment at the prosecution of trusts and the outcome of the Northern Securities case. This decision and a score of kindred matters have caused a widespread rage against President Roosevelt's administration. His nomination next year is regarded as a certainty, but it is very probable if the Democrats are conservative in their candidate and platform that the millions of campaign contributions will go to the Democratic managers, in which case there will surely be trouble for the Republican candidates, in spite of all that can be said about President Roosevelt's unwonted popularity and the great prosperity of the country.

White Rock Water Has No Peer !! It Is Used By King Edward

Since the King's illness he has been recommended by his physicians to dilute his wine, and at the Guildhall Luncheon on Saturday last two bottles of effervescent spring water, called "White Rock" were placed beside His Majesty's plate. The water comes from a natural spring in the western part of the United States called Waukesha, and is very brilliant and pleasant to the palate. It was sent to the King as a present by a friend, and His Majesty used it in place of the usual Roshach or Apollinaris.

LOOK OVER THE PARK

The Legislators See What Is to Come.

Possibilities Gone Over and Needs Are Outlined.

Members See the Entire Plot and Discuss the Methods of Making It Beautiful.

Members of both houses of the Legislature yesterday spent the afternoon in looking over Kapiolani Park. The trip lasted almost the entire afternoon and there were several of the most enjoyable features connected with the formal looking over of what should be and will be soon one of the greatest beauty spots of the city.

Filling two special cars of the Rapid Transit company yesterday at 2 o'clock, the members were taken to the park directly. The cars were run to the extreme end first, so that the members could see what was possible to be done with earth, water and care. The lands and lawns of Mr. Irwin and of Mr. Castle were carefully inspected and then the cars were brought back to the entrance to the park, where again there was an object lesson in what can be done in cultivation of a plot of ground.

Across the park the way was led to the stable's site and to the spot where it is planned to drill an artesian well. The object of the supply of water was shown to be the flushing of the waterways of the park, and the necessity for it was made apparent. The members were escorted by the members of the park commission and their attention was called to the vegetation and lack of it over the sandy plot.

After a look at the pretty lodge at the entrance to the park the visitors were escorted to Makee Island and there they partook of a light luncheon, and finally there was some talking done. Governor Cleghorn was the first speaker and he told of what it is hoped to do in the way of the making of the park one of the beauty spots of Honolulu. L. A. Thurston as well went over plans of the Board and outlined over procedure and the necessity for the artesian well and the allowance which is asked.

John Gandall spoke of the wisdom of giving the park commissioners what they needed, calling attention to the beauty of the spot and the possibilities for improvement. He said also that as the park was one of the lasting memorials to the Queen Kapiolani, one of the most beloved of chiefs, it would be fitting to make it as beautiful as possible. He was followed in similar strain by L. L. McCandless, Kaulakani, Crabbe, and Lewis of Hilo who said that he hoped that he would be able to secure the support of the Honolulu people for the Hilo park as he would support the local one, being a strong believer in parks. He said also that he expected great things of the Hilo park as he had been promised by the local board and Superintendent Young, that they would do all in their power for the Hilo grounds, Mr. Young saying that he would go down and assist in the laying out of the park.

TO STUDY LABOR ON THE GROUND.

(Continued from page 1.)
they can be considered at Washington. By looking over the ground I can find out what is the best disposition to make of that money—what is the best kind of building for the purpose.
"Of course I recognize that there is a serious labor problem here. I will make it my business to study that, too, on the ground. I want to meet the planters and the laborers. I shall go to the sugar plantations and see the work that is to be done there, and the men who do it and how they do it. I am not going to suggest any remedies, nor to attempt any. But I want to be able to discuss the matter intelligently with my superiors in office when they ask me about it. I can get a better knowledge of labor conditions here by

Afternoon Dispatches From Associated Press.

TOULON, May 8.—The French squadron of warships departed today for Salonica.
CONSTANTINOPLE, Turkey, May 8.—Twenty Albanian chiefs have been banished by the Ottoman government.
SALONICA, May 8.—A large supply of explosives gathered by rebels has been discovered and confiscated by the government.
PEKING, China, May 8.—Russia has made another aggressive move in the Oriental game by reoccupying New Chwang, one of the chief ports of Manchuria.
LOS ANGELES, May 8.—President Roosevelt arrived here today. The reception tendered him was no less brilliant than that given McKinley during his memorable stay in the city. The city is decked in its most beautiful array.
YOKOHAMA, Japan, May 8.—Japan has made a formal protest against Russia's advance in securing practical suzerainty over Korea. The competition between Japan and Russia to control the destinies of Korea has been very sharp, but up to the present carried on with purely diplomatic smoothness. The protest of Japan will prove another factor in bringing its opposition to Russian advance to a direct issue.

having come here than I could get at long range. I have been intending to come to Honolulu ever since I went into office, a year ago, and shall remain here until the 19th of next month. In that time I shall hope to obtain some knowledge of conditions here, and to have a chance to talk with the planters and business men and workmen.
"I am charmed with Honolulu, so far," Mr. Sargent continued. "I have only been here a few hours, but I have found it a most delightful place. I have met a number of your business men today, and shall meet many more, I hope. I do not know that I shall make my headquarters at the Custom House, or anywhere. I shall be here, there, and everywhere. There is much to be seen here, and I shall probably find my time pretty thoroughly occupied."

Chinese Charters.
Editor Advertiser: Upon reading your paper on the 6th inst. that Kwong Yee Society, which their right name is Kwong Yee Tong, about to receive a charter from the government. Are the Tongs to have charter privileges now-a-day? This government should be wise and not grant any charter to Chinese Tongs because they have already terrify many city from time and time again. The name of the Tongs having brand it. They are not only refused of their charter but to have their establishment condemned as well.
CITIZEN OF HONOLULU.

TWO LISTS FOR BOARD OF HEALTH

Both Senators and Republican Committee Submit Names.

There are two slates for the Board of Health appointments and the Governor will have them, both before him today according to the present outlook. There may be some delay in the making of the appointments as a result, for the lists each contain good names and there may be hard work for the executive in making up his list. The medical members, Drs. Cooper and May, are the same on both lists.

There is a prospect for a fight too, in that the Senate has been turned down on two of the suggestions that the majority of the Republican members made. Kaulukou was proposed by the Senators as one of the Hawaiian members, but the executive committee gave the place to one of its own members, W. H. Coney. Then too where the Senators named F. C. Smith for appointment, the executive committee named E. A. Mott-Smith, though that gentleman had made the statement that he would not serve again.

It is understood that the fight on Smith was owing to the fact that some of the members objected to the presence of so many members who represented one interest, as it is alleged Dr. Cooper, M. P. Robinson and Mr. Smith would do.

The complete list as submitted by the Senators was: E. C. Winston, M. P. Robinson, F. C. Smith, J. L. Kaulukou. The executive committee list was: E. C. Winston, W. H. Coney, M. P. Robinson, E. A. Mott-Smith. Winston and Coney are members of the executive committee.

WILL BE DECIDED ON APPEAL CASE

Captain J. Tremaine Smith of the Siberia will not have his trial today for permitting three Japanese immigrants to escape while he was the master of the Peking. By a stipulation filed yesterday certain facts are admitted as being true and the trial will be postponed until a decision of the Circuit Court of Appeals on a similar case appealed to that tribunal by Hackfeld & Co. is decided. In the event of Judge Estee being sustained Captain Smith will have to pay his fine, while if he is reversed the information will be dismissed.

In the stipulation as filed yesterday it is admitted that Captain Smith was master of the Peking on January 15, 1901, and that three Japanese were brought by the ship and ordered deported by the Board of Immigration. The escape of the immigrants is admitted and also "that said escape of said immigrants did not occur by inevitable accident; nor did the said escape occur by reason of any negligence or lack of proper care on the part of said defendant."

LADIES' BLOUSE SUITS

Manufacturer's sample line of Ladies' Wash Blouse Suits, in sizes, 32, 34, 36. At half price.

FIGHT FIRES FROM ALOFT

Aerial Ladder for Use of the Department.

Honolulu's first aerial fire-truck arrived yesterday in the Alameda, a light, handsome affair made by the Hayes company of San Francisco, the manufacturer personally coming to Honolulu to set up the machine. The truck proper came down all set up, and all that was needed to be done with it after it was lowered to the dock and taken out to the street, was to arrange the ladders and Pomper scaling ladders.

It is a truss-ladder truck with extension ladders reaching respectively fifty and sixty-five feet. There are two side ladders, thirty-two and thirty-six feet in length respectively. Four scaling ladders of the Pomper type, with grappling hooks accompany the truck and there is a full equipment of life-belts for the Pomper-laddersmen, axes, poles and ropes.

The firemen of the local department have now to learn the "monkey-drill" on the Pomper ladders, a difficult exercise even in practice, but quite dangerous when applied during a fire.

Each ladder is about twenty feet long, a mere central pole with wooden peg steps. At one end is a metal notched bar, looking like a nicked scythe blade. The Pomper-laddersman pokes this metal tooth through a window on the outside wall of a building, and the lower end falls against the wall. The man climbs this, raises another scaling ladder, thrusts it through the window above him, climbs to the next story, and so on. He wears a life-belt and can snap a hook attached to it to the ladder, which will hold him securely thereby giving him free use of his hands. The aerial ladders are provided with pulleys and ropes and with the life-belts these are used

Expert Eye Service

We have the necessary instruments, and behind all the adequate knowledge, to give you the most expert eye service. Our facilities are unsurpassed and our reputation for doing the best work at most reasonable prices thoroughly established. Our reputation is our own, but we can't sell it or give it away, or get another—yet it's worth much to you, when in need of eye work. We charge for the work only—nothing for the reputation.

Beautiful Hair makes Beautiful Women

NEWBRO'S HERPICIDE MAKES BEAUTIFUL HAIR, because it destroys the deadly microbe at work upon the hair roots, thus making dandruff and falling hair impossible, and promoting a thick, luxuriant growth of hair, increasing the owner's good looks fully 100 per cent.

It will also cure your father, brother, husband or sweetheart of any scalp affection they may have, even baldness, for it works like a charm upon the balding patch. Use it yourself, then you will surely recommend it.

WALTER G. SMITH - - EDITOR.

SATURDAY : : : MAY 9

AS TO MANCHURIA.

Opinion on the mainland seems to be that Russia did intend to continue the occupation of Manchuria indefinitely despite the disclaimer from St. Petersburg that followed the prompt protest from Japan, England and the United States.

And the Russ does not change his nature as he advances across Central Asia. This characteristic of the Russian, this cold persistency in the following of an aim that halts, that bends to adverse winds, but that never retreats began to be recognized as long ago as when Catherine named one of her grandsons "Constantine" as a kind of confirmation of the claim of Russia to be considered the heir of the Eastern Empire.

And Russia, in the meantime, strengthens her position in the Balkans at every move on the board. She may be held back, for the present, from the Dardanelles. Within recent time, she has been held back by the diplomacy of Disraeli.

LIGHT ON HISTORY.

So far the resurrected vessels of Montojo's fleet show that little execution was done at the battle of Manila bay by Dewey's guns. The hulls of the once-sunken ships are not badly damaged and it is shown that they were sunk by the opening of valves to prevent their falling into the hands of the enemy and perhaps to give the noble Dons an excuse for premature desertion which would satisfy the national pride.

USEFUL BIRDS.

A suggestion has been made to introduce the nighthawk here to help in the warfare on noxious flying insects. The Louisiana Audubon Society has been looking into the matter and has declared on the authority of Prof. Beal that the nighthawk is remarkably useful to man and in no way a detriment to him.

The examination of the stomachs of nearly one hundred nighthawks showed that one of the most conspicuous elements of the food of these individuals was flying ants. Remains of flying ants were found in thirty-six stomachs, in twenty-four of which the number ranged from 200 to 1800.

In addition to these positive benefits done by the nighthawk, Mr. Beal points out that it is impossible for it to be destructive in any way. It never touches any vegetable products, not even taking a blade of grass for its nest, as it lays its eggs on the bare sand, earth or rocks.

Reckoning from the fact that eighty-seven stomachs collected for examination contained 20,000 ants, Prof. Beal says that the number of such insects destroyed in spring and summer must be something enormous.

No doubt the nighthawk would be of value in Hawaii as elsewhere but its increase could hardly be looked for owing to its habit of laying eggs within reach of the mongoose.

It is of local interest to note what the Audubon Society says of the value of the common wild or mourning dove, which is found here.

"Is there a farmer in the country who, after a hard day's work with hoe or cultivator, has not wished that some other means could be devised to prevent the rapid growth of noxious weeds, and at the same time emancipate him from the sweating brow, the blistered hands, and the aching back? There is one means of weed destroying that has been entirely overlooked by the agriculturists, probably because they never seriously considered the food habits of the dove.

Itemizing the contents of the stomachs of three particular doves, an agent of the Audubon Society, Mr. Dutcher, shows that they prevented the possibility of the growth of 23,000 noxious weeds. Here in Hawaii they feed largely upon lantana seeds.

Says Mr. Dutcher in conclusion: "It is a question for the farmers to settle whether they will permit anyone to kill on their land birds that annually destroy tons of the seeds of pigeon grass, ragweed, smartweed, bindweed, and many other noxious plants, and are thus worth so much as helpers on farms. The matter resolves itself into a question of figures, i. e. dollars and cents to the farmers. If three doves at one meal destroy 23,100 weed seeds, and thus prevent the growth of the same number of prospective weeds, how much good will all the doves on a farm or in a State, or in the country at large accomplish? Or, to present the case in another way, how much will it cost in time, labor, and actual cash, to destroy what the doves will eat if they are protected and encouraged to remain on the farms.

The Bulletin apparently does not know the difference between books and booklets, save when it has a book it wants to work off on the Government. As the Advertiser said the other day, booklets of about twenty pages, well illustrated, are among the desirable methods of local advertising.

Some friend of the surviving Czolgosz should advise him to change his name before he gets in the way of another Presidential journey.

ADVERTISING.

There are now before the Legislature two separate and distinct proposals for advertising matter and one resolution looking to a general and comprehensive plan. The suggestion of Mr. Harris for a specific appropriation for advertising, is in conformity with the suggestion of Governor Dole in his message, that there be set apart a sum for the assistance of the business men in carrying through their plans for attracting tourists to Hawaii.

The magnitude of this work may be understood when it is known that in the older states when such a plan is undertaken there is spent from \$20,000 to \$40,000 in one year, by the central committee in charge. The plan as outlined by the committee has been to place throughout the United States a mass of material for advertising purposes, the very first thing contemplated being an edition of a pamphlet of 100,000 copies, for free and general distribution.

It would seem to be putting the cart before the horse to buy books without a system of distribution.

One of the best suggestions made at this session is that of Senator McCandless to the effect that Congress should amend the Organic Act so there will be no pay for extra sessions of the Legislature. If that is done the legislators will finish their business in sixty days.

Whenever the expected war gets right at the jumping off place, Turkey withdraws a note or Russia makes a pledge, and at once the white goose of peace snuggles on the eggs of harmony.

It was not Mayor Ames of Minneapolis who was crazy, but the voters who gave him four terms.

THE KAULUWELA RELIEF CAMP

Editor Advertiser: Kindly allow me to say a few words on the article written by Jennie C. Winston about the Kauluwela Relief Camp and copied by you from the Western Christian Advocate. After a conversation with Miss Blois, whose name was connected with the article, she said that she had never written or said anything of that kind.

During the two years of which I have been connected with this camp, I have not seen a man or woman going about entirely nude, and at the same time that may have happened. We all know that it is a common thing to see a Jap with half clothing or with a kimono on, and it is a manner that the Japanese have to learn. The relief camp has done what it can and I believe that we all are responsible for there should be laws made strictly forbidding them from going about half naked.

I admit that there is crap shooting once in a while, and cheap tickets sold among the people here, but that is commonly seen everywhere in town, especially along the waterfront and River street. I believe the latter is the headquarters, and what is going on here is comparatively small.

I am glad to say that since the gambling headquarters were broken up, and the leaders were arrested, there is hardly any gambling going on. Most of the Japanese families are respectable, the women keep themselves busy in washing and ironing for they depend part of their living from it.

In comparing the class of people here, I can positively say that the Kauluwela Camp is one of the most quiet places in town. Occasionally, on Saturdays, the people make a little more noise, but they have not gone beyond the limit, and such things are happening daily along Fort and King streets.

During these two years, there is no case of disturbance of peace being arrested from here. We have all kinds of people living here, and many of them are respectable, and the majority of them are uneducated, and we certainly cannot expect too much of them, and what has happened here, that is also to be seen all over the town, but to say that the camp is a gambling den, a hotbed of vice, a place where immoral practice is carried on, I will say no further than to invite the public to call at any time during the day or night when they are at leisure.

The person who wrote the article had certainly forgotten the ninth commandment. Very sincerely yours, CARL ONTAI, Superintendent Kauluwela Camp.

THE NEW FRENCH REMEDY. THERAPION. This successful remedy, used in the Continental Hospitals by Ricord, Robin, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. THERAPION No. 1 maintains its world-renowned and well-merited reputation for derangements of the kidneys, pains in the back, and kindred ailments, affording prompt relief where other well-tried remedies have been powerless. THERAPION No. 2 for impurity of the blood, liver, pimples, spots, blotches, pains and swelling of joints, gout, rheumatism, & all diseases for which it has been too much a fashion to employ mercury, sarsaparilla &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates all poisonous matter from the body. THERAPION No. 3 for exhaustion, sleeplessness, and all distressing consequences of dissipation, worry, overwork, &c. It possesses surprising power in restoring strength and vigor to those suffering from the enervating influence of long residence in hot, unhealthy climates. THERAPION is sold by the principal Chemists and Druggists throughout the world. Price in England, 2s. 6d. and 4s. 6d. In ordering state which of the three numbers is required, and observe that the word "THERAPION" appears on the British Government Stamp (in little letters on a red ground) affixed to every genuine package by order of His Majesty's Hon. Commissioners, and without which it is a forgery.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed and I have never had any trouble of the kind since." Mrs. K. T. Snyder, Troy, Ohio.

Hood's Sarsaparilla and Pills

Will rid you of Scrofula, radically and permanently, as they have rid thousands.

A Bad Skin

Prick your skin with a needle. You will see it is full of blood, full all the time. But what kind of blood? Rich and pure? Or thin and impure? Pure blood makes the skin clear, smooth, healthy. Impure blood covers the skin with pimples, sores, boils, eczema, eruptions, tetter, salt-rheum.

Mr. Frank Hewett, of Kaloogie, W. A., sends his photograph and tells what cured him. "When a boy my skin broke out in bad sores about my hands. After trying a great many remedies in vain, I took Ayer's Sarsaparilla and was quickly cured. Recently I was troubled again with severe boils, but on a bottle of the same old remedy completely cured me. It's the greatest blood-purifying medicine in the world."

AYER'S Sarsaparilla

There are many imitations "Sarsaparilla." Be sure you get Ayer's. Aid the Sarsaparilla by keeping your bowels in good condition with Ayer's Pills. Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

PEKING'S ENGINE DELAYED VESSEL

Two vexatious delays on the Peking's present voyage, the breaking of an important part of the machinery at the San Francisco dock just as she was about to start, which held her for five hours, and another breakdown in mid-ocean which delayed her twelve hours longer, prevented the vessel from arriving at this port until yesterday forenoon at 10:30 o'clock, 7 days and 16 hrs. out from San Francisco. She brought a large number of passengers for Honolulu, and considerable freight, and departed for the Orient again at 9 o'clock last night. The Peking carries a cargo of about 3,000 tons.

WHARVES SMELL OF DECAYED MATTER

The picayune treatment by the legislature of several items of expense in the Public Works Department has had its result already on the Oceanic Steamship dock, where decayed vegetable matter thrown out by steamers and sailing ships lying alongside has rotted and spread odors about, because there is no one to sweep the refuse away. As long as the wharves have been there a gang of men has been employed by the Public Works Department to keep them clean, because they are government property. Since May 1 there have been no laborers to clean the Oceanic dock, and manure has necessarily been scattered over many places which were over-offensive, and in other places, chaff has been spread. Captain Clark, superintendent of the wharf, was making an effort to have the debris cleared away yesterday about the time the Alameda came into port. The reason for the non-appearance of the sweeping-laborers is that there is no appropriation from which the laborers can be paid.

Alameda Makes Port.

The Alameda reached the Oceanic dock from San Francisco shortly before noon yesterday, a trip lacking in incidents, with fair weather experienced throughout. The following vessels were sighted:
May 4th, p. m., in lat. 32.42 N., long. 137.12 W., met three-masted ship standing east by north; May 4th, 11:24 p. m., in lat. 32.02 N., long. 138.24 W., met str. Nippon Maru bound northeast; May 7th, 4:44 a. m., in lat. 24.11 N., long. 141.24 W., met a steamer bound northeast.

Included in the passenger list are Bremont Morse of the United States Geodetic Survey, accompanied by Mrs. Morse, who comes to continue the work of correcting the longitude started at the Naval Station recently by Mr. Edwin Smith, the gentlemen exchanging posts to carry on the same observations; Miss Kincaid, daughter of Rev. Mr. Kincaid, returns from school; A. Koebel, territorial government entomologist, returns from an extended trip in California and Mexico, in the interest of his department; Captain A. P. Cattet, engaged in the Tahiti trade, accompanied by his wife, arrived to visit with Captain Chapman, formerly of Tahiti; F. W. Smith, formerly chief clerk at the Hawaiian Hotel, arrived to take a similar position with the new Young Building Hotel; Mr. and Mrs. Elleford came to strengthen the Elleford company at the Orpheum; M. S. Gribbaum, the well known capitalist, and wife, will make a visit here.

Death of Capt. Brokaw.

The death of Captain Gilbert H. Brokaw of the Spreckels towboat service caused many expressions of regret yesterday along the water front. For several weeks he had been suffering from pneumonia, and had had two relapses, the illness toward the last developing

VALUABLE RESIDENCE PROPERTY AT Public Auction

ON MONDAY, JUNE 1, 1903
AT 12 O'CLOCK NOON,

At my salesroom, 42 Queen street, Honolulu, I will sell at Public Auction, by order of Miss M. A. Burbank, those most desirable premises on Wylie street, Honolulu, formerly occupied by Mrs. M. L. Hoffman, as a residence. The lot has a frontage of 234 feet on Wylie street, and a depth of 397 feet with an area of over two acres, and lies between the homestead premises of Mrs. J. T. Waterhouse and the stream.

The buildings on the premises consist of a good one-story cottage of seven rooms, and outhouses, and all in suitable condition for immediate occupation. The grounds are improved with many fruit trees, ornamental trees and plants, the view of mountains and sea is very fine and the drainage excellent, and there is a fine spring of pure water on the place.

The Liliha street line of electric cars run within 100 feet of the premises. The terms of sale will be all cash; or, one-third cash and the remaining two-thirds on two notes for equal amounts payable in two and four years respectively, secured by mortgage on the premises, with interest at the rate of six per cent per annum, payable semi-annually, with privilege of paying sooner.

An unusual opportunity is thus offered for obtaining a beautiful home upon most advantageous terms. For further particulars inquire of W. O. Smith, Judd Building, Honolulu, April 27, 1903. 6469

JAS. F. MORGAN.
AUCTIONEER.

YOUNG KAULUKOU A NATURAL ORATOR

The Oakland Herald says: Kalani Kaulukou, a full-blooded Hawaiian, born in Honolulu, was awarded last night the Cottle elocution medal in the oratorical contest at St. Mary's College. He won the coveted prize after a struggle in which about sixty of the brightest students were originally competitors.

Oregonian's Fine Trip

The American-Hawaiian Steamship Company's big freighter Oregonian, Captain Carty, arrived yesterday, fifty-seven days from New York. Fine weather was experienced until the last three days of the trip, when a succession of heavy gales was encountered. She brought 8000 tons of general cargo.

WHARVES SMELL OF DECAYED MATTER

The picayune treatment by the legislature of several items of expense in the Public Works Department has had its result already on the Oceanic Steamship dock, where decayed vegetable matter thrown out by steamers and sailing ships lying alongside has rotted and spread odors about, because there is no one to sweep the refuse away. As long as the wharves have been there a gang of men has been employed by the Public Works Department to keep them clean, because they are government property. Death of Capt. Brokaw.

The death of Captain Gilbert H. Brokaw of the Spreckels towboat service caused many expressions of regret yesterday along the water front. For several weeks he had been suffering from pneumonia, and had had two relapses, the illness toward the last developing

VALUABLE RESIDENCE PROPERTY AT Public Auction

ON MONDAY, JUNE 1, 1903
AT 12 O'CLOCK NOON,

At my salesroom, 42 Queen street, Honolulu, I will sell at Public Auction, by order of Miss M. A. Burbank, those most desirable premises on Wylie street, Honolulu, formerly occupied by Mrs. M. L. Hoffman, as a residence. The lot has a frontage of 234 feet on Wylie street, and a depth of 397 feet with an area of over two acres, and lies between the homestead premises of Mrs. J. T. Waterhouse and the stream.

The buildings on the premises consist of a good one-story cottage of seven rooms, and outhouses, and all in suitable condition for immediate occupation. The grounds are improved with many fruit trees, ornamental trees and plants, the view of mountains and sea is very fine and the drainage excellent, and there is a fine spring of pure water on the place.

The Liliha street line of electric cars run within 100 feet of the premises. The terms of sale will be all cash; or, one-third cash and the remaining two-thirds on two notes for equal amounts payable in two and four years respectively, secured by mortgage on the premises, with interest at the rate of six per cent per annum, payable semi-annually, with privilege of paying sooner.

An unusual opportunity is thus offered for obtaining a beautiful home upon most advantageous terms. For further particulars inquire of W. O. Smith, Judd Building, Honolulu, April 27, 1903. 6469

JAS. F. MORGAN.
AUCTIONEER.

RESTORED THEIR CIVIL RIGHTS BY AUTHORITY.

EXECUTIVE NOTICE.
FIRE CLAIMS.

Whereas, public notice having been given for the purchase of Fire Claims Bonds, issued by the Territory of Hawaii under an Act of Congress of January 26th, 1903, and

Whereas, insufficient bids have been received for the purchase of said bonds under the terms of said Act, or the Rules and Regulations prescribed by the Secretary of the Interior under date of March 2nd, 1903;

Now, therefore, by direction of the Governor, under the option given him, public notice is hereby given to the Judgment Claimants, or those claiming through them, that until twelve o'clock noon, of Saturday, May 9th, 1903, applications will be received at the office of the Secretary, Capitol Building, for the purchase of the Fire Claims Bonds at par—preference being given to the Claimants; payment to be made by the surrender in full or not less than 24.575 per cent. of any Certificate or Award issued by the Fire Claims Commission.

Applications to be made in the following form:

.....Date.
To the Secretary:
The undersigned hereby subscribes for and agrees to take at par (No.) Bonds, amounting to..... \$..... Under preferential right of Fire Claim or Claims No..... No..... No..... amounting to..... \$..... and stipulates to pay the same by the full surrender of a like amount of the aforesaid claim or claims.

Witness
.....
The right to reject any or all bids and waive technical defects and to accept any part of any bid and reject any other part is hereby expressly reserved.

G. R. CARTER,
Secretary of the Territory.
Capitol, Honolulu, May 2nd, 1903.

COURT NOTICES

MARIA G. ALFONSO.
MORTGAGEE'S NOTICE OF INTENTION OF FORECLOSURE AND SALE.

Notice is hereby given that pursuant to the power of sale contained in that certain mortgage dated June 2nd, 1898, made by Maria G. Alfonso, of Kailua, North Kona, Island of Hawaii, as Mortgagor, to me, Mary Isabella Brown (widow), of Honolulu, Island of Oahu, as Mortgagee, and of record in liber 180 on pages 122 and 123, Hawaiian Registry of Conveyances, I, the said Mary Isabella Brown, intend to foreclose the said mortgage for condition broken, to wit: non-payment of principal and interest when due.

Notice is likewise given that the property conveyed by the said mortgage will be sold at public auction at the auction rooms of James F. Morgan, Queen street, Honolulu aforesaid, on Saturday, the 9th day of May, 1903, at 12 o'clock noon.

The property covered by the said mortgage and to be sold as above consists of:

All that certain tract, piece or parcel of land situate at Hanaolu, North Kona, Island of Hawaii aforesaid, containing an area of 96 acres, and being the same premises described in Royal Patent (Grant) No. 1752, and the same premises that were conveyed to the said Maria G. Alfonso by deed of J. K. Nahale, Deputy Sheriff of said North Kona, by deed dated February 22nd, 1895, and recorded in the said Registry of Conveyances in liber 152 on page 367; and further confirmed to the said Maria G. Alfonso by decree of Judge S. L. Austin, Circuit Judge of the Third Circuit, in the suit entitled "Maria G. Alfonso et al. vs. E. K. Kaalawamaka et al. Bill to Cancel Deed and remove cloud from Title," which said decree is dated June 17, 1896.

By her attorney in fact, J. O. Carter. Terms: Cash, United States Gold Coin; Deeds at the expense of purchaser.

For further particulars apply to Holmes & Stanley, attorneys for Mortgagee.
Dated Honolulu, April 11th, 1903.

YACHTSMEN WILL RACE OVER A NEW COURSE ABOUT THE PEARL LOCHS

Prizes and Cups Are to Be Competed for Sunday.

Peninsula Course: Start from line off Railroad wharf: Thence to buoy No. 1 off Ferry wharf, keeping same on port side; thence to buoy No. 2, keeping stake A, off Peninsula shoal, on port side and keeping buoy No. 2 on starboard side; thence to buoy No. 3, rounding the same keeping it on port side; thence, keeping stake A on starboard side, to buoy No. 4, rounding same keeping it on starboard side; thence repeat the course, crossing line for the second time and rounding buoy No. 1 as on first round; finish at starting line after rounding buoy No. 4 for the second time. In crossing line boats must pass between the Railroad wharf and stake B.

Races will start as follows: Thirty minutes before the start of the races a flag will be hoisted on the flag pole at Railroad wharf. When, at the expiration of the thirty minutes, this flag is hauled down, the fourth class is considered to have started. This flag will remain down one minute after the start of each class, being then rehoisted. Fifteen minutes after the start of the first class the flag will be hauled down and the third class considered to have started. Fifteen minutes later the flag will be hauled down for the second class and fifteen minutes later still for the first class.

In the third class this race embraces the final for the Roth cup and the final round of the Kamana cup. Yachtsmen whose boats are not already at Pearl Harbor will sail down to the rendezvous appointed at the Peninsula today so as to be on hand for the races. Some will possibly make the run tomorrow morning all arriving in time to start in the projected race, which will begin approximately at 10:30 o'clock, the time depending on the wind, which usually starts up about that hour.

The new Peninsula course is to be tried for the first time in this event. This has been carefully drawn up with a view of making yachting affairs more interesting for the general public and as laid out the yachts will be in full view of all spectators during the race, which takes in the course twice. Ford Island, as will be seen by a glance at the chart, is eliminated from the course. Other arrangements have been made with a view to picnic parties. The new dancing pavilion, shady and cool, is admirably adapted for such affairs and Commodore Macfarlane has arranged for the sale of soda water for the thirty ones. Those who leave on the 9:15 train from town will be in ample time for the races while those who take the later one at 11:05 will find them in full blast. The method adopted of starting the boats will furnish a vista of white winged yachts of all sizes constantly crossing and recrossing each other as they fight for first place. Aside from ordinary prizes, two cups are to be competed for in the third, and largest class. These are the Roth and Kamana cups, the second round of the latter and the final round of the former. The Princess is in the lead of points for the Roth cup but the Wikiwiki, Malihini and Myrtle all have a good fighting chance.

The Regatta Committee has arranged a scheduled program of events for this year gotten up in handy shape for the pocket and including a time table of the trains. The sails of the competing yachts will, after the coming race, be furnished with distinctive numbers which will be given to inquiring captians by the Regatta Committee on application. There is no time allowance in the race, yachts sailing on individual merit according to classes, a fact which should be appreciated by spectators who will have the satisfaction of knowing that the boat crossing the line first is the winner. It is expected that a number of people will run down to the Peninsula to watch the races and make a day of it.

How Polo Men Will Play.

The polo game at Kapiolani park will begin at 2 o'clock this afternoon, and there promises to be as good a game as could be wished by any one, for a between-season's contest. The teams will be called the Yellow and the Blue, and they will play thus: Yellow—Damon (2) Judd (1), Castle (2) Ballo, (1), the figures indicating the number of horses; Blue—Dillingham (2), Potter (1), Dole (2), Giffard (1), Dennison (1), will alternate in each team.

"PLAY BALL" WILL BE SHOUTED NEXT SATURDAY

But one more week must elapse before the baseball season will be on and the outlook is for the best season that the game has seen in Honolulu for many years. Owing to the time consumed before the work upon the League grounds could be commenced the season's sport will be inaugurated when Umpires Newton and Bowers go on the field for the game between H. A. C. and Kamehameha at 1:30 o'clock one week from today at Punahou. It will be recognized that the game is only at the College grounds for a short stay, and that there will be a regular home for it within a very few weeks.

The condition of the terms could not be better. The men are all in fine shape, the club feeling is high and at the moment of the call "Play Ball," until the last out in the concluding game, which by the way, making no outs for contested games or postponed ones, will be between the same teams which open the season and on September 19th. There is a deal of feeling that it would be a good thing if the H. A. C. could be beaten this year, as its winning would mean the annexation of the cup, it having won for two successive seasons.

The H. A. C. team, which will play under the management of Thompson and the Captancy of Williams, known last year as "Sure Shot," has perhaps a shade the best of the argument on form, in the opinion of the players and outsiders. The mainstay of the team is Joy, the pitching wonder. The absence of Cunha behind the bat will be felt of course, but Louis is showing form in the place and should be able to hold the shoots and curves of the pitcher. Kaanoi and Williams will be change pitchers, and the rest of the team will be made up from the following list, as handed in to the Secretary of the League: Hansman, Aylett, Pryce, Luahwa, Ensue, Fernandez, Mana, Leslie, Kia, Thompson and Gleason.

The Malle Ilmas have turned in a list which is very small when it is considered that 15 men are allowed. Captain Kiley is one of the good men of the game here, his former professional experience standing him in stead to hold down his team. It is not regarded that near all the men of the team have been listed, though the following will follow Capt. Kiley: Wood, Koon, Dixon, Rogers, Akau, Delle, Smith, White, Wilbur, Silya. The team has been practising hard but there will be plenty of time as it does not play until the second week, and this will be used for brushing up.

The Punahou Athletic Club's team will be in many respect the same as that of last year, though there have been at least three additions from the ranks of the Customs, and one newcomer will be in the game. The team will play under the captancy of Steere, the phenomenal second baseman, and should prove one of the very best. There may be a little bit of doubt as to the lasting qualities of the batteries, but there should be some fast ball put up by the collegians, who have made good their condition and enter in fine shape. Captain Steere will choose his team from the following, according to the list he has filed with the League: J. P. Soper, J. L. Woods, J. Waterhouse, A. Q. Marcellino, J. Marcellino Cooke, McCorriston, Lishman, Babbitt, Hemenway, Tucker, Forbes, McChesney, Campbell, Homan.

The best of them will have to be on their guard for the schools, for the Kamehameha men were never better fixed upon the opening of a season. Manager Wise has had his men out as frequently as possible, and he has been able to get a lot of practice with the regular school team. He is well pleased with the condition of his men and is certain that his men will give a good account of themselves in whatever company they may be placed. Captain Lemon will have his arm with him and he is said to be pitching in fine form. Reuter has also rounded into condition and will be hard to touch, according to those who have watched his work. Others of the team will be A. Richards, D. Kekuewa, J. Kekuewa, O. Jones, Kaahu, Vanatta, Fern, F. Cockett, H. Wise, Sheldon, Plunkett, D. Kaai.

The baby team of the league will be the Elks of whom much has been said during the recent weeks by the men of the opposing clubs. This team is gathered about Cunha, who is a host in himself, and has found some of the

highest class men possible to fill in the vacancies. Kaal, who is one of the best pitchers will be a wonder with Cunha behind, if the fans may be believed, and Brown will change in the box. There are several of the best known of local players on the list, those submitted being, in addition, Ewaliko, Taylor, Gorman, C. Cunha, King, Loucks, Moore, Meyer, A. Kia, Bush. Some of the enthusiasts are touting this team as the pennant winner, and imputing all kinds of actions, trivial to the league to them, but the team is said to be ready to play and to have only the best men and to be without feeling of antagonism to any club in the league.

According to the men who tried to force through the resolution in the League providing that there shall be no member of any team in the league who has not been in the country for at least three months, the reason for that fight appeared on the streets yesterday in the person of F. G. Perrine, who arrived from his home in Oakland. Perrine is here to accept a place, he goes to work on Monday. He is well known to many young men here and having played ball at home is expected to get into the game here. He will probably go out and watch the practice game of the Elks today, and may warm up, but it is not thought he will try his pitching arm. Perrine will be given a chance to try for the team, as has been done with at least three newcomers recently. It is said that he has never played ball professionally, although as others here he has played on teams where there were professional men.

There promises to be some good hard play this year, the game as it now stands seemingly being a pitcher's battle. The Kams are perhaps as well equipped as any other team in tried men, the Elks being close up, though seemingly neither team has as fine a pitcher as is Joy. What is needed is several good pitchers, no matter, from where they come, to brighten the game.

BASEBALL GAMES FOR AFTERNOON

There will be plenty of baseball this afternoon; the tuning up of the teams of the big league and the regular game of the school league, which will be at Punahou between that school and the High School. The Punahou Athletic club nine will later play the school, reinforcing by some of the change players. There will be a practice game at the Kamehameha school between the athletic club and the school. The Elks will play at Kapiolani park and the H. A. C. will get into the play at Makiki, the Mailes doing some work later in the day.

CHILD'S MEDICINE—WHY?

Because Scott's Emulsion relieves such an extraordinary variety of children's diseases all the way from slight colds to the serious hip disease.

Because Scott's Emulsion is as harmless as milk. Well borne even by the delicate stomachs of babies.

Because children respond so quickly to its action. A medicine peculiarly suited to their sensitive nature. It is wonderful how rapidly delicate children improve in every way while taking Scott's Emulsion.

Because children like the taste. Most of them like Scott's Emulsion at once. The rest soon learn to like it. Little daily doses bring the results.

We'll send you a little to try, if you like. SCOTT & BOWNE, 409 Pearl street, New York.

MURPHY HELD FOR MURDER

Grand Jury Makes a Partial Report.

Chas. Wilcox Is Freed From Blame for Shortage.

Man Among Those Indicted. Man Indicted for Promise of Police Protection.

The grand jury after having practically completed its work made a partial report to Judge Robinson yesterday afternoon. Thirteen indictments were returned and in sixteen cases no bill was found. Two indictments were placed on the secret file.

There was one indictment for murder in the first degree, that of Pat Murphy who is alleged to have shot Joe Perry at Makua. Lieutenant E. J. Wilson, formerly of the Kamehameha Schools, was indicted for the larceny of a sewing machine from the Von Hamm-Young Co. Lee Loy was indicted for gross cheat, he having been bound over to the grand jury for extortion. He is the man who is said to have received ten dollars apiece from Japanese for an alleged promise of police protection.

All the cases against Chas. Wilcox who was alleged to have embezzled road board money were dismissed, no bills being returned. A. W. Neeley charged with robbery, Chow Kong charged with perjury also were found to be not guilty by the jury.

The following is the report of the grand jury:

Your undersigned, foreman, hereby respectfully presents the above named Grand Jury has found true bills in the following cases:

- Territory of Hawaii vs. Pat Murphy, murder 1st degree.
- Territory of Hawaii vs. Kauhane, assault and battery with weapon.
- Territory of Hawaii vs. Ito, larceny 2nd degree.
- Territory of Hawaii vs. Lee Loy, gross cheat.
- Territory of Hawaii vs. John Lua, larceny 1st degree.
- Territory of Hawaii vs. John Revera, larceny 2nd degree.
- Territory of Hawaii vs. Jose Rego, attempt at burglary 1st degree.
- Territory of Hawaii vs. E. J. Wilson, larceny 2nd degree.
- Territory of Hawaii vs. Fred Streen, larceny 2nd degree.
- Territory of Hawaii vs. Ly Foon, larceny 2nd degree.
- Territory of Hawaii vs. Keola, larceny 2nd degree.

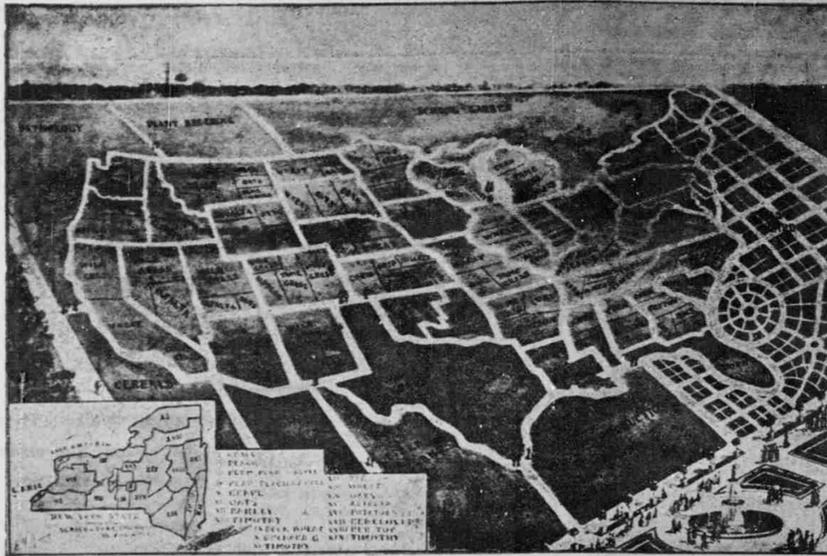

NO BILLS.
Your Grand Jury further respectfully presents that no bills have been found in the following named cases:

- Territory of Hawaii vs. Yamamoto, malicious injury.
- Territory of Hawaii vs. Solomon, larceny 2nd degree.
- Territory of Hawaii vs. Leonard Mitchell, embezzlement.
- Territory of Hawaii vs. Jose Boshung, larceny 2nd degree.
- Territory of Hawaii vs. Paha, assault with a weapon.
- Territory of Hawaii vs. Santos Utera, assault with a weapon.
- Territory of Hawaii vs. J. W. Carroll, assault with a weapon.
- Territory of Hawaii vs. Wilcox, embezzlement.
- Territory of Hawaii vs. Wilcox, embezzlement.
- Territory of Hawaii vs. John Silva, assault with weapon.
- Territory of Hawaii vs. Chow Kong alias Chum Kong, perjury.
- Territory of Hawaii vs. Frank Madetos, malicious injury.
- Territory of Hawaii vs. A. W. Neeley, robbery.
- Territory of Hawaii vs. Mona Kaleklu, Moku Kahala, Pahu and Kahalo, larceny 2nd degree.

Under the new law copies of indictments must be furnished to the indicted persons before arraignment and this was done for the first time yesterday. Nearly all of the offenders were arraigned and will plead this morning. Pat Murphy will plead on Tuesday morning.

TIME AND MONEY.—Sickness causes a loss of both time and money. You lose the time and have the expense of medical attendance, entailing a double loss. This can be avoided by using some reliable remedy at the first stage of the sickness. The purchase of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy often proves a profitable investment, for, by its use at the first appearance of any unusual looseness of the bowels, a severe attack of diarrhoea or dysentery may be averted that might otherwise compel a week's cessation from labor. Every household should have a bottle at hand. It never fails and is pleasant to take. Get it today. It may save a life. Benson, Smith & Co., Ltd., wholesale agents, sell it.

HAWAII LEFT OUT

A Map of the United States Showing the Products of Each State and Territory, Except Hawaii, to be Laid Out as a Garden at the St. Louis Fair.

CHICAGO SCHOOL CHILDREN WRITE HONOLULU PUPILS

The Chicago Record-Herald of April 5 contains the following article of interest here:

A few weeks ago Miss Amy Owens, sixth grade teacher in the George William Curtis school in Kensington, forwarded twenty or more letters written by her pupils to the native girls' school at Honolulu. Last year Miss Owens spent several months on the islands and made frequent visits to the schools. Replies to the letters were promptly received, together with many pictures of Hawaiian scenes. Extracts from each letter are given. They usually began "Dear Friend." The penmanship is uniformly good and the general appearance would be creditable to almost any school of the same grade.

From Nana Haal to Margaret Hill:—I am very glad to tell you about my school. Our teachers are Miss F. Albright, Miss C. Albright, Miss Forsythe, Miss Rocheford, Miss Lemmon, Miss Van Norstrand, Miss MacCracken, Miss McPherson, and Miss Pope is our principal. I haven't seen snow, and do not know how cold it is. The name of this school is the Kamehameha School for Girls. There are two other schools, called the Kamehameha Manual and the Kamehameha Preparatory schools. They were all founded by Mrs. Bernice Pauahi Bishop, the Manual in 1888, the Preparatory in 1889, and ours in 1894. It was through her love for the Hawaiians that she provided these buildings for the Hawaiian girls and boys. We do not have school on Monday, for that is washing day, but we have school on Saturday. We study about our country and you study about our islands, isn't that nice? In our school here we get up at 6 and have our breakfast at 7. But on Sunday we sleep a little later. We have a weaving class here and make fans, card cases, waste baskets, etc., and sell them. The people like them because they are Hawaiian things.

I send a picture of a taro plant. It is what the Hawaiians make into poi for food. Perhaps you children haven't seen poi, but Miss Owens knows how it looks and will tell you what it is. We like poi as much as you like bread.

From Augusta Miller to Effie Matthews:—We have no snow here. Our yard is very pretty. There are many algeroba trees. Honolulu is a very pretty place. I will send you a picture of one of the streets—Merchant street. In the corner on the left is the picture of the postoffice.

From Julia Lazaro to Edna F. Hillstrom:—This school is in the valley and the name of this valley is Kalihi. There are about ninety-seven girls in school, besides ten teachers and three assistants. The Hawaiian people live on different parts of the Hawaiian Islands. They are very skilful in weaving fans, baskets, hats and mats. Have you seen any one of these things?

From Esther Cockett to Sigrid Danielson:—At 3 o'clock we have singing class in the assembly hall, and the class is dismissed at half-past three and the higher grades come in and they are dismissed at four. At this time we have basketball and tennis. Some of the girls are in the hockey game.

From Lucilla Kamakauwoole to Charles Ness:—I was very glad when our grammar teacher, Miss Albright, read to us what you boys and girls are doing in school. I was also very glad to answer one of them. In this school we do not go home every day like you do, but we board here all our school days until we have vacation in June. For boarding each girl has to pay \$5 every year. I send you a picture of part of the Kamehameha School for boys, and part of the museum. The building on the left is where the boys have their classes. On the right is the entrance to our Bishop Museum. It is a very large building, and also the largest museum on the islands.

From Edith Dunn to Adelgunde Vogt:—Isn't it nice that you are studying about our islands? I know you will find it very interesting, for I found it so when I studied it five years ago. I was going to a day school then at Hana on the island of Maui. My parents are all living there yet. I've got four brothers and three sisters, and when we are all home for our vacation we have lovely times together. We go sea bathing, horseback riding, climb the mountains

for land shells and wild flowers, and gather wild fruit for mamma to make into jelly.

From Lualani Kuki to Ida Hard:—We do not have snow on the ground, but we do have snow on the high mountains of Maunakea, Maunaloa, and Haleakala. We get ice here from Oahu, but it is manufactured in ice mills. There are lots of beads and shells on this island. These things are often made into leis.

From Achoy Ahu to Sarah McGaghie:—In our back yard we raise lettuce, cabbages, beets, peas, onions, beans and sweet potatoes. Right near them are many flower beds, and many yards from there is our hockey field. I am one of the girls that play hockey and we enjoy this sport very much. It is played by twenty-two girls. Our principal is very kind to us.

From Mattie Rowland to Hattie Tyler:—We were all happy to hear the sweet letters that you children wrote to us. Our school is four stories high. There are three stairways. We wash and iron in school—on Mondays wash and on Thursdays iron. This is all done in the basement. This is a beautiful school. The cars run past our school. In the tower only one class meets, the lace-making class. Will you please tell me your age? I am fourteen years old. My home is in Honolulu. I hope when this letter reaches you you will be in good health.

From Helen Kaiwinea to George Tyler:—Your kindly letter was received and I read it with pleasure. I think you children are very thoughtful to write to us Hawaiians about your school. We have a chapel, to which we girls and boys gather every Sunday morning to hear the sermon. Each girl has her own work to do in the morning. Some are cooks and some prepare the tables for meals. We have devotions before we go to our classrooms. The outdoor games begin at 4 and stop at 5 o'clock. At 7 in the evening the girls are gathered together in the assembly hall, where we study our lessons. The retiring bell rings at 9 and at a quarter past 9 the second bell rings, and every part of the house must be silent. The teacher who takes the study hour comes to every room and says good night.

From Helen Nahielua to Lawrence Meyers:—I am in the second grade. In geography we are now studying about the southern states. In arithmetic in decimals. Our lessons are manual training, nature study, Hawaiian history, sewing and grammar. In the evening while we are studying our lessons the mosquitoes are biting us. We have plenty of mosquitoes here in the night. Miss McCracken is our matron and Miss McPherson is our nurse. Will you please tell me what kinds of flower do you have at your home? I remain, your unacquainted friend.

From Daisy Sheldon to Joseph Navigator:—We have a museum just across the street. There is a beautiful vine growing over this building, and certain times of the year the flowers of the vine are in bloom. Our teacher took a picture of it and I am going to send that picture in my letter. There are many stuffed animals and birds in the museum, and also some idols of ancient times. It is very interesting to look at the idols, although some smaller children might be afraid of them. I remain your unacquainted friend.

From Mary Aea to Thilo Welshons:—I shall tell you of our founder's day. It is the day that Mrs. Bernice Pauahi Bishop founded these three schools. At that day the boys and girls all went to the mausoleum to decorate her grave. Some of the boys played the band while the other boys and girls marched. This day was also her birthday. When the boys and girls all had got there we would sing the song, "Only Remembered," and after that some of the girls would read some references, and after all the things are done we all would return and had a picnic and the boys and girls eat and associate together. After the picnic is over the boys went home and some girls took rest for the evening and a reunion is held in our chapel, and after the sermon is over the girls all would return and get ready for bed, then founder's day is close.

From Maud Cushingham to Rutheda Green:—You don't know how much I

enjoyed myself by reading your letter. Yes, I think Honolulu is a fine place. We have our windows and doors open all day. I have seen snow far off. I saw it on Haleakala on the island of Maui when I was up Maunaloa Seminary. The studies I like best are language and arithmetic. The trees we have here are mango, papaya, cocconut, algaroba, orange, kukui, mountain apple, rose apple, koa, kou, kamani, guava, bamboo, hau, monkeypod, kaula, tamarind, vi and alligator pear.

From Mikahala Awana to Estella Kranzky:—I am glad to have the privilege of writing and telling you something about our country and school. I have seen snow from a distance but I have not felt any. We do not have frosts, but we have very heavy dew sometimes, although it does not destroy plants. We have no large rivers on the islands, but we have a few small waterfalls. In the valleys are a few small streams around which many wild flowers grow, and the scenery is beautiful. In the country where there are a few people they travel from place to place on horseback, for there are no street cars or carriages. It is lots of fun to ride on horseback. We have Christmas here as well as you people. For Christmas I got a doll, cards, books and pictures, and I did not have any Santa Claus. It must be lots of fun to go skating over the snow. I have no idea what snow feels like and I cannot imagine.

FRANCES E. OWENS.

Crying for Help

Lots of it in Honolulu But Daily Growing Less.

Backache is one of the first indications of kidney trouble. It is the kidneys' first cry for help. Heed it.

Doan's Backache Kidney Pills are what is wanted. Are just what overworked kidneys need.

They strengthen and invigorate the kidney; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Honolulu citizen.

Mr. Charles Comey, of Cyclomere street, this city, one of the many persons who have tried Doan's Backache Kidney Pills with great advantage, relates his experience thus: "I have been a hack driver for a number of years past and this is an occupation in which, through exposure to weather and much jumping up and down from the vehicle, one is particularly liable to kidney complaint. I suffered myself from a lame back for a long while, and in my anxiety to get rid of it tried several things which did not reach the root of my trouble. An advertisement acquainted me with what grand work Doan's Backache Kidney Pills were doing, and I got some of them at the Hollister Drug Co.'s store. I used them and with very much profit, for they relieved my back wonderfully."

Doan's Backache Kidney Pills are for sale by all dealers or sent by mail on receipt of price, 50 cents per box, by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands. Remember the name Doan's and take no other.

ROBBIE'S ESSAY ON NOAH.

Noah was first born on the banks of the Deluge. As a boy he had a passionate love for houseboats. Several years later he married a girl who became Mrs. Noah. They had three sons. One day when Noah was reading the cable news to his family a terrible roar of rushing water drove them into a panic. But Noah was ready. Driving his family and the rest of the animals into his houseboat he cut the hawser and was carried out to sea. Noah had an arc light on Mount Arrowroot. This is the first record of electricity. When Noah went back home he found that the rush and roar of the water had been caused by a defective closet. He at once put in the Douglas Patent Closet and lived happy ever after and died in the last chapter.

Lumbago 30 Years

A Remarkable Cure Performed by Dr. McLaughlin's Electric Belt.

Dr. McLAUGHLIN—Dear Sir: I suffered from lumbago pains and sciatica for 30 years before using your Electrical Treatment, and in two months your wonderful Belt entirely cured me. Appreciating the excellence of your method, I am, yours truly, HUGH FRASER, 219 1/2 Elm Avenue, San Francisco.

And some people are content with pasting porous plasters on their backs to get the little relief they give. Lumbago is a condition which can be cured by Electricity as I apply it. I can tell you of hundreds of other cures. My Belt pours a gentle, glowing heat into the back and cures it to stay cured.

A man recently told me that he had lumbago for twenty years, and I had never laid him up yet, though he felt badly at the time. He was carried from his work in a hack two days after, and was in bed when he sent for my belt. It cured him. Get it before you are laid up. It will cure you quickly, and your trouble will never come back. Call and see it; or send for book of proof. Send this ad.

Dr. M. G. McLaughlin, 906 Market St. San Francisco U. S.
Office hours: 8 a. m. to 8:30 p. m.; Sundays 10 to 1.

SENATE BELIEVES THE HOUSE SPENDS TOO MUCH MONEY

Appropriation Measure Is Sent to a Special Committee for Investigation—House Passes Several Items in Its Appropriations.

In its two hours of work yesterday the House went over a few points of the appropriation bill, but did not finish that measure. There was a little bit of a fight over the appropriation for the traveling of the Auditor, but this was soon settled. There was a greater one over the Associated Charities item, but that, as well, was carried later.

The Senate adjourned after sending the House expense bill to committee for investigation. Incidentally the need of investigation of the extravagances of the House was plainly shown in the discussion which followed the attempt of the Home Rulers to force the bill through on second reading.

The adjournment of the Senate prevented the Governor from sending in the nominations already prepared, but they will go in today. Governor Dole will also send to the Legislature today a message recommending supplementary appropriations to those already requested.

IN THE HOUSE.

When the House began business the first thing to be laid before the body was a communication from Secretary Carter saying that he had no copies of the Constitution of the United States but that if desired by the House he would include in the pamphlet which is to contain the county law the constitution and the Organic act.

Collector Stackable replied to the House's inquiry as to whether or not he would take care of the lights of the Territory, by stating that in his opinion the inquiry should be addressed to the Secretary of the Treasury. The request of the Merchants' Association for reimbursement for money spent in sending J. G. Pratt to Washington, to press for payment of the fire claims, in the amount of \$10,000, was received and laid on the table.

The special committee which has considered the claim of E. van Senden, for \$1,210, for the purchase price of a lot in Nuuanu valley, which same was afterwards taken by the government, reported in favor of repayment of the sum. Chairman Harris said also that he would report that Collector Stackable had cabled to Washington for information about lights and that on his receiving an answer he would make further report.

MONEY FOR ADVERTISING.
Harris presented a resolution asking for \$20,000 for advertising the islands, which was referred to a special committee of three, Kellinoh, Harris and Paele. Kealawaa asked \$3,000 for teachers' cottages in Puna and North Hilo; Aylett asked \$300 for building for turkey at Hauula; petition for \$8,000 for roads to Hauula homesteads.

Frank Davey presented a petition asking that there be appropriated \$3,000 for the purchase of an edition of 100,000 of "Glimpses of Hawaii and Hints to Tourists and Travelers." This was referred to the same committee as the former advertising proposal.

As soon as this business was finished the House went into Committee of the Whole, with Wright in the chair. He at once declared a recess for a smoke and as he did not return in time to resume the sitting, Speaker Beckley called the House to order again, summoning Mr. Long to the chair and work was resumed.

On motion of Mr. Vida an item of a claim was offered from the Honolulu Rifles, of \$250, for a shed burned by the Board of Health, which was referred to the Health Committee.

MILITARY AND BAND.

Under the Military appropriations the first item was for general incidentals and there was a little trouble but it passed as in the bill at \$1250 as did ordinance at \$500. Band incidentals passed at \$600, but when it came to trips to other islands, \$2,000, there were many motions to strike out, the item being eliminated by a large majority. There was an item of \$625 for running expenses of the Associated Charities, and this brought up some opposition. Beckley suggested that rooms in the Executive building or at the Waikamilo camp could be presented to the society. He moved to strike out the item saying it was in the line of pauperizing the people. Kellinoh moved to increase the amount to \$1250 which was asked by the Associated Charities. Paele cited the Organic Act and the constitution and Kanioha made a long argument against such assistance saying it was unlawful, and that if this is done here there should be help on other islands too. The motion to strike out was lost, there being only seven votes. The attempt to increase the amount to \$1250 failed and then the item was passed.

TO CUT OUT TRAVELING.

Greenwell moved to cut the item of incidentals and traveling expenses in the Auditor's office from \$1,500 to \$1,000, but Harris defended the paragraph, saying the books should be audited each three months and especially should there be investigation before the County law goes into effect. Beckley followed with a strong plea for the item saying that investigations of the books of the counties must be made and arguing strongly for the passage of the item. Before this could be done the committee rose, reported progress and the House then adjourned.

IN THE SENATE.

The august Senate jumped on the House in good shape yesterday morning. There wasn't anything else for the Senate to do, and as the time had to be put in some way it was utilized for the purpose of puncturing the extravagance of the lower house with bayonet thrusts.

Senators Achi and McCandless led the attack upon the extravagance of the representatives and J. T. Brown was their only defender, though when it came to a show down all the Home Rulers voted to uphold the House and pass the bill appropriating \$20,000 for their expenses upon second reading. The Republicans won out, however, and the Ways and Means Committee will proceed to investigate the purposes to which the \$20,000 are to be applied.

House Bill No. 1 was the only matter on the order of the day yesterday. The six months salary bill was to have passed third reading, but the committee chairman, Senator Baldwin, who was to report on Board of Health items was not present. There are to be two reports, one recommending the adoption of the Board's recommendation, by the majority, the other by Senator Dickey, recommending a cut all along the line.

JOHN BROWN EXPLAINS.

Senator J. T. Brown moved that the \$20,000 House expense bill pass second reading. He was quickly seconded by Kalaokalani when Achi asked that it be referred to committee, to investigate. He said the bill provided for expenses and unpaid bills, and he understood that there was \$1,800 left from the \$40,000 so he did not understand the wording of the bill. "It's all right," said Senator J. T. Brown, "I investigated it myself. I asked the House Clerk and he said that there had been no provision by the House for the printing of the Journal, and there were unpaid bills besides. It will take at least \$18,000 he told me."

ACHI SCENTS A STEAL.

"I don't understand it," replied Achi, "they have only \$6,000 for salaries and then they want \$14,000 to spend besides. Yet they have \$1,800 left for the printing of the Journal. We ask for only \$5,000, \$3,000 for salaries of members, and that leaves us only \$2,000 for other expenses. The House has got no more work to do than we,—the same appropriation bills, and yet they want \$14,000, while we spend only \$2,000. It isn't right, it isn't fair to the public, it isn't business, and it's nonsense to say that all that money should be spent. They say if anything is left, it will remain in the treasury, but there won't be anything left if the House gets it. Look at the regular session, we gave them \$40,000 and they spent it all. The Clerks and interpreters are loafing about the streets now, and they want this \$20,000 again for the extra session. They say that they will hold up our bill if we don't pass this \$20,000. All right left them to do it, if we don't get any money for our expenses we will go without it. I for one am willing to go home without any salary for the extra session."

MCCANDLESS GOES FOR HOUSE.

"I agree with Senator Achi," said Senator McCandless. "The Senate only had \$25,000 for both the special and regular sessions and then left a small balance in the treasury, after paying for the Journal and everything. And the House was given \$40,000 or \$15,000 more than the Senate spent on both sessions. They are a little bit extravagant it seems to me, spending \$60,000 for the one House alone. That is entirely too much, and there should surely be some investigation of how this money goes. If they want to hold up our bill let them do it and we will go away without any pay. I am willing and know the other Senators are too. I only hope that Congress will amend the Organic Act so that there will be no pay for extra sessions then we will finish all our work in sixty days, as would have been done had the House done its duty and passed the appropriation bills at the regular session."

WEIGHT ON HER HEAD MRS. EGGLESTON FEARED HER REASON WOULD GIVE WAY.

Solicitude of Her Neighbors Resulted in the Relief of the Unfortunate Woman—Mrs. Eggleston Interviewed

"There seemed to be a heavy weight crushing down on the top of my head," said Mrs. Kate Eggleston, of No. 126 Ohio street, Indianapolis, Ind., "and for days and days at a time I was obliged to stay in bed. Every attack of this trouble would leave me weak and worn out. So many excellent doctors treated me without success that I just resigned myself to my fate—I lost hope. There were many times when I feared my reason would give way. "A nervous affliction developed which affected my muscles and at times I could not control them. I could not sleep soundly, I lost flesh and appetite and was miserable.

"A neighbor called one day and told me of some of the cures that had been made by Dr. Williams' Pink Pills for Pale People and I promised her to try them. Relief came with the first box and I improved steadily until, by the time four boxes were taken I was perfectly cured and I have had no return of the trouble since."

The pills which cured Mrs. Eggleston are not a patent medicine, but a prescription used for many years by an eminent practitioner who produced the most wonderful results with them, curing all kinds of weakness arising from a watery condition of the blood or shattered nerves, two fruitful causes of almost every ill to which flesh is heir. Acting directly on the blood and nerves these pills have proved a boon to women, invigorating the body and regulating the functions of the exhausted patient.

Dr. Williams' Pink Pills for Pale People have been proven to be a certain remedy for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent postpaid on receipt of price, fifty cents a box; six boxes for two dollars and a half, by addressing Dr. Williams Medicine Co., Schenectady, N. Y. Look for the full name on every package you buy.

One Jackey's Prayer

Admiral "Bob" Evans tells this one: "Among the 'jackies' of the American fleet that did the business at Santiago was an extremely pious chap—a lad from Vermont. We had been telling him all along that each day would probably witness the long-looked-for battle between the American and the Spanish vessels. When he prayed that night he placed special stress upon the plea that the vessel upon which he and his comrades-in-arms were serving might escape disaster, saying, among other things: "O Lord, shield us from the shells and other projectiles of the enemy; but if any shell and solid shot do come to our vessel I pray Thee that they may be distributed as prize money is distributed—mostly among the officers."

A Miserly Chauffeur.

"They say he's a trifle 'close,'" "Close? Why, he won't run his 'auto' on a road where the fines are over five dollars!"

BETTER LATE THAN

never. The Wise Man says there comes a time in men's lives when they are "afraid of that which is high; when fears are in the way; when desire fails and the grasshopper is a burden." In these days we call it nervous prostration; but it is the same old thing and is brought about in the identical way so popular with Solomon himself. The nerves collapse and the man's force and fire die out of him. It is nature's punishment for the sin of excess—and all sorts of "overdoing." With the majority this state of things is not constitutional and may be corrected. Even in old men, when it has taken the form of general debility, a revival of the powers is virtually certain so long as there is no breakdown of any important organ. The grasshopper soon ceases to be a burden and ghosts resolve into gas, with those who rely on that popular purifier and restorative WAMPOLE'S PREPARATION

As a tonic and builder this article is easily superior to any other. It promotes the rapid and complete digestion of food and thus enriches the blood, and so feeds and invigorates the nerves and all parts of the body; the impurities are thrown out through the Lungs, the Bowels, the Kidneys and the Skin—these four outlet doors—and health returns. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It is no patent medicine as formula is printed on bottle; you need have no hesitation in buying it and trusting to it. It is effective from the first dose. "There will be no disappointment." Sold by all chemists here and throughout the world.

KOEBELE IS HOME AGAIN

Brings a Fine Bug Collection Along.

Found Parasites for Most of Hawaii's Pests.

Entomologist Walked Thousands of Miles Alone and on Foot Through Lantana.

Professor Albert Koebele, government entomologist returned yesterday on the Alameda from his lantana-exterminator hunt in Mexico. Professor Koebele sent the living trophies of his seven months search on ahead although he brought several hundred mounted varieties of the same species of bugs which have been let loose by Professor Perkins in the lantana wilds of Hawaii. In fact he brought many more kinds of mounted lantana and other pest exterminators, than could be used here, for many of his choicest specimens died en route.

Professor Koebele's expedition was more than successful—though he doesn't talk much about it himself. The professor is of a rather retiring disposition, and said he preferred not to talk to an Advertiser reporter yesterday. The Alameda only docked a little before noon, but at one o'clock Mr. Koebele was in his office displaying the results of his trip to Professor Perkins, who will now be relieved of his duties. Mr. Perkins has been acting for both the Commissioner of Agriculture and the government entomologist, and that without remuneration, so no one was more pleased than he to see Professor Koebele, to whom he immediately surrendered his duties. Both Professors Perkins and Koebele spent the afternoon in the Nuuanu Valley bug house, and Koebele was much pleased with the condition in which he found the living specimens so laboriously collected by him.

During his absence of thirteen months Professor Koebele spent over seven months in the lantana covered hills and canyons of Mexico. He travelled thousands of miles during that time, always on foot, and always alone. Besides bringing back a valuable collection of mounted insects for the Territory, he also sent valuable specimens to the Department at Washington. And this does not take into account the work he has actually done for the islands. He sent back not only numerous blights to prey upon the lantana, but also parasites for the cut worm and for scale diseases. Now that he has returned he will give all his time to making his remedies effective.

"Let me see—I have been gone just a year, maybe it was thirteen months," said Professor Koebele. "I spent about seven months in Mexico, from May to November I think. What part of Mexico? Mostly in Vera Cruz, Morelos and Guerrero. The city of Mexico was my headquarters and I worked out from there. No, I traveled all alone. On horseback. No—always on foot. Always had to wear rubbers too, so slippery you know. Then the hillsides were steep, and the canyons some of them perpendicular for five hundred feet. And it was fearfully slippery and the lantana was hard to work through. Right at the start I lost all of my instruments—and so was handicapped, but I got a new set in the City of Mexico. I worked through the whole country, always from some city where I could get my supplies. I always went back to the cities to breed the parasites I got, and also to ship them to Honolulu. I did not bring any living specimens with me, all were shipped ahead, but have some mounted specimens here."

Professor Koebele brought back five large cases of mounted specimens containing several hundred varieties, some of them small and hardly recognizable, others as large as a dragon fly but beautifully colored. Mr. Koebele had them all classified, with scientific names of from three to a dozen syllables. The collection brought back is said to be one of the most complete ever made in Mexico for that country has not often been given such an investigation as that undertaken and carried through by Professor Koebele.

DIARRHOEA is more to be dreaded than diphtheria. It attacks all ages and is equally fatal to young and old. The great mortality resulting from diarrhoea is due to the lack of proper treatment at the first stages of the disease. Chamberlain's Colic, Cholera and Diarrhoea Remedy is a reliable and effective medicine, and if given in time will prevent serious consequences. This remedy never fails and is pleasant to take. Every household should have a bottle at hand. Get it today. It may save a life. Benson, Smith & Co., wholesale agents, sell it.

BISHOP & CO., BANKERS

ESTABLISHED IN 1858.

Banking Department.
Transact business in all departments of banking.
Collections carefully attended to.
Exchange bought and sold.

Commercial and Travelers' Letters of Credit issued on the Bank of California and N. M. Rothschild & Sons, London.

WILL PLAY FOR CHARITY

This evening a private performance will be given at the Schaefer residence in Nuuanu Valley by a score of young ladies, of a play entitled "Reginald". This is an original composition of Miss Schaefer, and now produced for the first time.

Mr. and Mrs. Schaefer have kindly given the use of their home "Rosebank" for a benefit performance of "Reginald" on Monday evening, when the play will be given for the benefit of the Kona Orphanage. The Kona Orphanage is one of the most deserving charities in the Territory and the chance of helping it and of witnessing this pretty play at the Schaefer home has already secured the sale of a large number of tickets.

BUSINESS LOCALS.

Saddles, bridles, bits, etc., for polo players at Collins's saddlery on King street.

Camara & Co. have moved to the northeast corner of Merchant and Alakea streets.

Hot? Not when you have an electric desk fan. Hawaiian Electric Co. sell them for \$15.00 each.

Lovejoy & Co. are agents for the celebrated Bartlett Water. It is unequalled as a table water or for mixing highballs.

Mrs. Le Beuf, who does fine ironing, dyeing, cleaning, etc., is located at 587 Beretania street, between Punchbowl and Alapai streets.

L. B. Kerr & Co., Ltd., are opening ex Siberia shipment of their famous pineapple silks all colors at 50c. yard. On show Monday.

The list of officers elected at a special meeting of the stockholders of Castle & Cooke, Ltd., is published elsewhere in these columns.

Ladies' models, large and small mirrors, sewing machines and plaiting machines below cost. Everything must go at Montano's, on Hotel street.

A ladies' gold watch and chain was lost at the Honolulu Plantation store yesterday. A liberal reward will be given to the finder if left at this office.

Monuments of all kinds on hand at J. C. Axtell's, on Alakea street. All that is necessary is to have the lettering put on. Decoration Day will soon be here—send in orders at once.

The Hawaiian News Co. has opened up a new store in the Alexander Young Building. Fine society stationery, pianos and music is the line carried and all these goods are very attractively displayed.

DOWN THE SLOPE.

New Play Contains Many Attractive Specialties.

"Down the Slope" attracted a big audience last night at the Orpheum and the performance was punctuated by frequent marks of approval in the shape of applause. The play is a comedy-drama, more comedy than drama and contains an international mixture of humorously delineated character who keep the audience in a constant laugh.

Corrigan is a typical gypsy as are Myrtle Selwyn and Pauline Maitland. Edler is an Irish major, trying to avoid matrimony. Niece is a dandy and Blair an Englishman, with a troublesome eye-glass. Soso and Miss Elliott play the heroic leads with Lando as the villain. Mrs. Claire Washington in an unusual role for her, that of an old maid, achieves success.

The performance is plentifully interlarded with specialties, Myrtle Selwyn and Baby Maitland presenting a charming Japanese song. Fanny Poole Boardman also sings alone and with Miss Selwyn. The play is repeated to-night and this afternoon Baby Maitland holds a reception on the stage after the performance. Lost in New York is the first bill for next week with Jessie Norton appearing in a principal role. She, with Elleford himself, arrived on the Alameda and will take place in the closing performances.

Pretty May Party.

The May party of the Catholic Ladies' Aid Society at Progress Hall last evening was an enjoyable affair and a financial success. The hall was prettily decorated, and one attractive feature was a May-pole erected in the center of the floor the base covered with ferns, with many-colored ribbons hanging from the upper end. The May-pole dance, given by twenty young ladies wearing Grecian costumes, was prettily executed and won rounds of applause. The dance which followed lasted until midnight. Mr. A. E. Murphy was master of ceremonies. Ice cream and punch were sold and quite a sum of money was raised in this way.

Perfumery at the Orpheum.

The man who complains of too much perfumery in the theaters, as a reply to female protests against tobacco, "gets back" at complaints very wittily and effectively. The drug store smells that too often emanate from feminine finery are as obnoxious to many persons of both sexes as tobacco smoke can be to any body.—Star.

Band Notes.

The band will play this forenoon at the departure of the steamer Siberia. In the afternoon as usual the concert will be at the Fishmarket. Tomorrow afternoon the concert is scheduled for Makee Island.

LOCAL BREVITIES.

William McKinley Lodge meets to-night in Harmony Hall.

A smoker will be given by the Healan Boat Club this evening.

The Alameda will leave for San Francisco on Wednesday at 9 a. m.

Marshal Hendry yesterday arrested H. Terayama charged with violation of the Edmunds Act.

W. O. Crowell, former deputy sheriff of Waimea, Kauai, was admitted to practice by Judge Gear yesterday.

The Spanish War Veterans will hold an important business meeting next Monday evening in their rooms in the Oregon block.

The hearing of the Markham vs. Johnson case was continued in Judge Gear's court yesterday because of the illness of the defendant.

J. M. Dowsett has purchased from the Department of Public Works what are known as the Lualualei lands on Oahu for \$32,000 on an exchange basis. The government is to receive Honolulu land needed for street widening in exchange.

After the arrival of the steamers yesterday the beach hotels and resorts were filled with people and the bathers were legion. The surf was excellent and the people enjoyed the fine sport of surf-riding to the full, several canoes being out.

The Men's meeting at Y. M. C. A. Hall Sunday afternoon will be addressed by Mr. Theodore Richards. The subject will be "Inspiration Borrowed From Many Pulpits." Mr. Richards has recently returned from a trip all through the East.

The sale of the Lewis estate lands will take place today. There were no prospective bidders to be found yesterday for the downtown lots, one of the reasons assigned by several persons being that an upset price made it impossible for all to get into the bidding.

Judge De Bolt was still engaged yesterday in the hearing of the case of Lucy Peabody vs. Bishop Estate. The court denied a motion to strike out the testimony of plaintiff's first witness on the ground that he had obtained his knowledge of plaintiff's genealogy from Lucy Peabody herself.

Henry T. Phipps, of Pittsburg, partner of Andrew Carnegie when the style of the great iron and steel firm was Carnegie, Phipps & Company, is a passenger in the Siberia, on his return from a trip around the world. Mr. Phipps said that he had taken the trip for pleasure and did not want to discuss matters at all. He is accompanied by his son and daughter.

Rev. Doremus Scudder, who is to work as a missionary among the Japanese in the Islands, arrived yesterday from Japan, accompanied by Mrs. Scudder. Rev. Mr. Scudder passed through Honolulu several months ago en route to Japan where he desired to get into close touch with this people. He found many Japanese there who have relatives here, and to these latter he brings messages. This will give him an opportunity to meet a large number of the Japanese here in a friendly way, which he hopes will bring him success.

Ad. Agency Moved.

The Pioneer Advertising Co. of which Chas. R. Frazier is proprietor, has removed its office to 122 King street. The business of the agency has been steadily growing and the new quarters give plenty of room for additional equipment.

BICYCLISTS should never start out without a bottle of Chamberlain's Pain Balm in their tool bags. This liniment is excellent for all flesh wounds and sprains. One application gives relief. Try it. All Dealers and Druggists sell it. Benson, Smith & Co., Ltd., Agents for Hawaii.

Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.
