Amusing Scenes in the House When Kumalae Gave What He Called Reasons.

Salaries Again Bring on a Spirited Debate. Dickey and Baldwin Don't Agree—Senate Confirms Governor's Nominations.

The Senate confirmed the nominations of the Governor on both the Dental and Forestry Boards yesterday without a dissenting vote.

There was another fight on salaries which lasted for almost the entire day, and resulted in a few cuts in the Educational and Treasury Departments. The pensioners of the government also suffered, though the Ex-Queen was not disturbed in her royal settlement of \$7,500 per year. Sergeant Peterson lost his pension entirely and there were reductions under the same head from the Governor's recommendations.

IN THE HOUSE.

The House session yesterday afternoon ended with a stormy debate over the tourist appropriation. A good deal of feeling was shown and Kumalae spoke at great length and with much excitement in opposition to the scheme. Chillingworth finally moved an adjournment in a somewhat novel way. "This debate reminds me of the day when I was a boy and played see-saw," he said. "We went up and down, up and down, and thought we were making a lot of progress, but we stayed in the same place all the time. That is what the House is doing on this proposition, and I move an adjournment." The speech made a hit and the House adjourned.

A previous motion for an adjournment brought out a strong effort to have a night session. The motion to adjourn was lost, and a recess to seven o'clock was proposed. Fernandez and Vida said they would not be able to attend on account of ill health, and Kuphea intimated that he would not show up. "The sergeant-at-arms will keep track of Mr. Kuphea and see that he is here," said Speaker Beckley, "placing him under arrest if necessary, and other members who are too ill to attend will have time to secure doctors' certificates and send them to the clerk." This silenced Kuphea as well as the others, and was an intimation to the members that when night sessions begin they will be made to toe the mark. Kellinot renewed the fight for a night session, but lost and a motion to take a recess also failed, so that the members were forced to do some more work. The work they did was listening to Kumalae and Kalama on tourists.

The morning session ended with very little progress made. The most important action taken was striking out the item of \$10,000 for defending the fishery right cases. Chillingworth presented the motion to strike it out, saying that he would later move to increase the item of general incidentals for the Attorney-General's department. He moved to raise the latter from \$9,500 to \$15,000. Kumalae moved to make it \$12,000 and Chillingworth accepted the amendment, and the item passed. "Not all of the cases will come up during the six months for which we are providing," said Chillingworth, "and \$12,000 will therefore probably be enough."

The item of \$1,200 for numbering houses in Honolulu was passed, while \$1,200 for traveling expenses in the Public Works department was cut to \$1,000, after much debate. The proviso was added that it must "be accounted for by vouchers."

Kanibo, under the impression that the fumigation plant item of \$1,000 had to do with cremation of the dead, moved that it be reconsidered. Harris explained to him that corpses were in no

danger from the portable sulphur fumigation plants named in the item, and he withdrew his motion.

AFTERNOON SESSION.

Speaker Beckley and Vice-Speaker Knudsen were both absent when the hour for the afternoon session came, and at 2:30 Kealawas, as the oldest member present, was prevailed upon to take the chair and call the House to order. He did so and work in committee of the whole was resumed at once.

Aylett moved to amend the item, "disinfectants \$1000," by making it disinfectants and vaccine, but the motion was lost.

Harris presented a report for the special committee on running expenses of pumping plants \$12,500 approving the item and stating details for expenditure of the amount. The report was approved, with an amendment by Fernandez and Kumalae, to provide that officers shall not be paid out of the \$12,500.

Aylett reported on the tug Eleu proposition stating that he had consulted the harbor master and had been told that she was worthless. Harris said a towage company was ready to do her work for \$350 per month and put up a bond in the sum of \$50,000 if necessary and the matter was referred back to the special committee for report on this proposition.

The Park appropriation committee's report, favoring \$1000 per month, for which itemized accounting is to be made, was discussed at great length. It was finally approved, with the following amendment offered by Vida:

"Provided, however, that no admission fee should be charged for admittance to horse races, picnics, entertainments or games of any kind in said park."

The lighthouse item of \$750 was passed on the showing of the following cablegrams between Stackable and the Treasury Department:

"Treasury Department, Washington, D. C.—Finance Committee House of Representatives Territory of Hawaii requests information relative to light-houses in Hawaii. Will department take charge of same on July 1, 1903, if so what conditions? Answer collect."

"CUSTOMS, HONOLULU.—"To Customs, Honolulu.—Treasury Department has no authority to and therefore cannot take charge light-houses in Hawaii in July next."

"R. B. ARMSTRONG, "Acting Secretary."

The special committee on the leper settlement appropriations reported as follows, and the report was adopted:

"1. The lepers asked that they be allowed \$16 a year for clothes instead of \$10 as at present, part to be in cash.

"Your committee would recommend the increase to \$16 but will leave the matter of giving some of it in cash to the discretion of the Board of Health and would therefore recommend the item to be amended so as to read as follows:

"Kalaupapa store, provided clothes rations allowance be issued to lepers

CHINAMAN HAD BOTH LEGS CUT OFF BY STREET CAR

The Pacific Heights Electric Road Scene of a Shocking Accident—Ah Hoy Was Drunk.

Ah Hoy, a well known Chinese hackdriver on the IXL stand on King street, sought repose on the track of the Pacific Heights Railway last night about 9 o'clock, and his life will pay the forfeit of his carelessness. Car No. 2 en route from the Heights to the terminus at Nuuanu street passed over him, severing both feet above the ankles, crushing in the man's skull and otherwise maiming him.

The car, in charge of motorman S. Fowbar, was on its way down the hill to Nuuanu street. On board as passengers were M. Cabral, a Portuguese, and H. L. Kerr, the architect, the former occupying a seat on the front platform. After passing the power house the track leads over the Nuuanu stream, and thence on to the avenue. Between the bridge and the street there are a number of trees and the moonlight cast shadows which often take the form of a human, being, and of these last evening there were many. Suddenly the car struck something, and it seemed lifted up for an instant. The brakes were applied, and the car was quickly brought to a stop and the motorman and passengers investigated the cause. Lying directly in the middle of the track they found Ah Hoy, groaning and bleeding. A wheel had passed over his forehead cutting deep into the skull, and the back of the head was also fractured. There was a smearing of grease from the running gear of the car on the right side of his face, showing that after being struck the body had been dragged, the head in contact with the machinery. Blood flowed copiously from these head wounds, but they were not the worst. Both feet had been cut completely off from the legs, being held only by a few thin shreds of flesh. It was a grewsome sight to see the two tan shoes holding only the stumps of the feet.

The police station was communicated with and Deputy Sheriff Chillingworth responded with the patrol wagon. He found Mrs. Mackintosh attending the poor fellow. The crushed and bleeding man was laid upon a stretcher and conveyed to the Queen's Hospital.

Ah Hoy has been a hackdriver in Honolulu for about fifteen years. He has often had trouble with the police because of a over-fondness for liquor. It was reported to the police that Ah Hoy was quite drunk on Sunday, and when the Deputy Sheriff picked him up last night he smelt liquor. Mr. Eckardt also detected liquor on the man's breath. Ah Hoy lives back of Punchbowl and was probably on his way home by way of the Pacific Heights railway when sleep overcome him and he sunk unknowingly upon the track.

MISS ELLEN STONE'S BRIGAND CAPTOR KILLED

(ASSOCIATED PRESS CABLEGRAMS.)

VIENNA, May 11.—Delitcheff, the Bulgarian leader who captured Ellen Stone, the American missionary, has been killed.

Delitcheff's work in capturing Miss Ellen Stone, the missionary, was one of the most unusual acts of brigandage committed in recent years. With his band of Balkan brigands Delitcheff captured the missionary, evaded troops sent to punish him, and kept Miss Stone and her companion in hiding for five and one-half months in the mountains. He forced Americans to pay a tremendous ransom for her release and it was stated at that time that the amount of this ransom was to go into the hands of the Macedonian leaders to be used in purchasing arms and ammunition for the war they are now waging against the Turks.

The brigand chief did all in his power to make Miss Stone comfortable during the time of her captivity and they made her companion, to whom a child was born during the period, as comfortable as circumstances would allow. The brigands, it is said, wished to impress all the world with their work for Macedonia and this they certainly accomplished. The Macedonian committee by this means wished to let the whole world know that the Sultan could not guarantee one's safety in this portion of his realm and that a change in government was needed.

Delitcheff has long been known as a notorious brigand, or according to Macedonians a "patriot", and he lived the greater portion of his life around the Bulgarian town of Dubnitsa.

Pershing Kills 300 Moros—Australian Mail Contract—Salonica in State of Siege—Epidemics Among Seamen.

(ASSOCIATED PRESS CABLEGRAMS.)

SAN FRANCISCO, May 11.—Two Presidents of local high-binder tongs have been arrested for murder. They confess a plot to kill 300 members of the Chinese Educational Society for a compensation of \$300 apiece.

MARQUIS ITO SAYS THERE IS TROUBLE JUST AHEAD

TOKYO, May 11.—The Marquis Ito, former premier, and now leader of the political party in power, stated today that there is serious trouble ahead as Japan, under any circumstances, will maintain her treaty rights in Manchuria.

LONDON, May 11.—It is announced in the Commons that the Manchurian situation is satisfactory.

SHANGHAI, May 11.—The treaty revision commissioners have been instructed to decline further discussion with the American commissioners in regard to opening ports in Manchuria to foreign trade.

EPIDEMICS ON THREE U. S. RECEIVING SHIPS

NEW YORK, May 11.—There is an outbreak of scarlet fever on the receiving ship Columbia among one thousand sailors. The Columbia lies at the Brooklyn navy yard.

PHILADELPHIA, May 11.—Spinal meningitis has broken out among the 1200 sailors on board the receiving ships Minneapolis and Puritan. Several are dead.

MEANS BIG LINERS ON THE AUSTRALIAN ROUTE

VANCOUVER, May 11.—The mail contract between Australia and Vancouver has been granted to the Union Steamship Co.

The renewal of the Vancouver-Australia mail carrying contract with the Union Steamship Company of New Zealand, which is at present running the steamers Moana, Aorangi, and Miowera between Vancouver and Australia, via Honolulu and Fiji, means that the company's plans for putting larger steamships in this service will probably be carried out. It is designed to replace the Moana with a much larger vessel. The new liners will probably be run on a faster time schedule.

Shamrock III Wins.

GOUROCK, Scotland, May 11.—The cup challenger Shamrock III easily defeated the Shamrock I today in a race over a course laid out in the Firth of Clyde. The Shamrock III has received a complete new rigging, made necessary by the disaster at Weymouth in which she had her rigging swept overboard by a heavy squall, and she showed better form today in the race against the first Shamrock than she exhibited in any of the former trials. The work of repairing was rushed so that it will not now be necessary to postpone the date of the race for the American cup.

Kills Three Hundred Moros.

MANILA, May 11.—Captain Pershing's column has captured Taraca, killing three hundred Moros. There were few American casualties.

War Scenes at Salonica.

SALONICA, May 11.—Ten warships are here and the city is in a state of siege. Troops are everywhere and more are constantly arriving.

quarterly at the rate of \$16 per year for each person, \$14,000." "The increase of \$2,750 is in the opinion of your committee sufficient to cover the increased allowance asked for if we may be allowed to base the same on the showing of the past year as shown on page 292 of the report of the Board of Health.

"2. Regarding the item for segregation, support and treatment of lepers, \$60,000, your committee would recommend the following changes in order to satisfy the reasonable petitions of the lepers for a slight increase in their food allowances. After careful consideration your committee deemed it wise to subdivide said item and to amend the same to read as follows, to wit:

"Segregations, support and treatment of lepers, \$24,500.

"Provisions and ration supplies for leper settlement, provided that paial ration be twenty-five pounds and the beef ration be eight pounds per weekly ration, \$35,500.

"Your committee was assured by the Superintendent of the Leper Settlement that the estimates as originally submitted included an increase sufficient to pay for the proposed increase of weekly ration allowances, but would recommend these changes in the wording of the items to show to the lepers that their petitions for food have not gone unnoticed but have received careful consideration.

"SAMUEL F. CHILLINGWORTH,
"R. W. AYLETT,
"J. K. PAELE,
"Special Committee."

After the failure of motions for recess and adjournment, Kellinoi presented the following report of the committee on the tourist appropriation:

"Your committee is of the opinion that the time has come when something should be done in the way of systematically advertising the islands. Your committee finds that the tourist committees of the city have plans to open tourist information bureaus in this city, San Francisco and Los Angeles, California, and if there is enough money then also one office in an eastern city, the expenses of maintaining said offices to be paid by said tourists' committee. They would like to get the co-operation of the Territorial government in furnishing money for printing advertising matter.

"The result directly and indirectly which will accrue from the expenditure of this money will be of great benefit to the Territory, and your committee therefore recommends that an item to read:

"Advertising the resources and advantages of the Territory, \$10,000, be inserted in the Current Expense bill for six months, under the Department of Secretary of the Territory and another item to read: 'Advertising the resources and advantages of the Territory, \$10,000, be inserted in the Current Expense bill for eighteen months under the Department of Secretary of the Territory.

"S. KELLINOI,
"Chairman,
"J. K. PAELE,
"W. W. HARRIS."

Kumalae opposed the appropriation in a long speech in which he complained of the sending of Weedon to lecture on the Mainland. He aroused Harris by stating that the Chamber of Commerce and Merchants' Association were asking a lot of things, mentioning among them the wireless subsidy, which Harris stated neither organization had endorsed at all. Kumalae talked of sending a "haole to Amelika," and repeated several times that Weedon had done no good.

"What harm did he do?" interrupted Kellinoi.

"He spent a lot of money," said Kumalae.

"The people who sent him put it up," Harris interjected, and then the Kumalae speech went on. Kumalae said there were no accommodations for tourists here anyhow, and made a lot more arguments which were not interpreted. He thought the money proposed for advertising should be spent on public improvements in the islands.

Kalama moved to strike out the

items, saying that he didn't believe tourists would come, as there were not enough people who had money. This was shown, in his opinion, by the fact that there are people in the islands today who have never got as far as to see the Volcano.

Harris called attention to the great success of Los Angeles in attracting tourists and prospering on them, and then Kumalae got the floor again and talked till Chillingworth sprung his see-saw motion, which ended the day's work.

IN THE SENATE.

Senator Paris for the Expenditures Committee presented two bills appropriating money for current expenses for six and eighteen months respectively.

BOARD OF HEALTH.

Senator Baldwin presented the majority report of the special committee to investigate the Board of Health items in the six months' salary bill. The committee reported in favor of the items in the bill with but one or two exceptions. Kalue, Baldwin and Woods signed the report which went into the duties of each officer in detail.

On motion of Senator Paris the report was laid upon the table to be considered with the bill and the minority report. Senators Dickey and Achi signed the minority which favored a reduction in salaries to those in vogue during the past biennial period. The committee said this was a poor time to raise salaries and that the work had been efficiently done on the old scale. Sanitary officers were placed at \$85 per month and an increase was recommended for the chief sanitary officer.

Senator Paris moved the adoption of the majority report, Achi wanted the report considered item by item. Cecil Brown said the object of the committee was to make a report and it was a waste of time to consider each item separately. Either one report or the other should be adopted, but the committee's work should not be ignored. Senator Baldwin said the members were acquainted with the reports, the minority wanted economy but were slashing in the wrong direction. He said the Board of Health was doing good work and should be supported by the Legislature. Dickey objected to considering the thing wholesale and moved to lay the minority report on the table to be considered with the bill. Carried. Brown moved to adopt the report of the majority. Dickey amended to consider the bill immediately. Achi moved to adjourn. McCandless moved to consider both reports with the bill.

There were more objections by the minority and the president finally said: "You are beaten now and might just as well know it."

Achi again moved to adjourn, but only Kalauokalani voted with him. The motion to consider both reports was adopted and C. Brown moved the adoption of the majority report. Achi objected at length. Baldwin replied that Achi misquoted figures; that he didn't talk like a business man. Dickey said he did not wish to cripple the Board but objected to increases of salaries. McCandless also favored the minority report.

The majority report was adopted, 9 to 4. Ayes—Brown, Baldwin, Wilcox, Paris, Woods, Kalue, Kalauokalani, Nakapaahu, Crabbe, 3. Noes—Achi, Dickey, Kaohi, McCandless, 4.

FORESTRY NOMINATIONS.

The following nominations for the Agricultural and Forestry board were read: L. A. Thurston, Walter M. Giffard, Jacob F. Brown, Alfred W. Carter and James D. Dole. Senator Crabbe moved that the message be taken up at once so that the Board could organize immediately as the Agricultural Department is now

White Rock Water Has No Peer !! It Is Used By King Edward

Since the King's illness he has been recommended by his physicians to dilute his wine, and at the Guildhall Luncheon on Saturday last two bottles of effervescent spring water, called "White Rock" were placed beside His Majesty's plate. The water comes from a natural spring in the western part of the United States called Waukesha, and is very brilliant and pleasant to the palate. It was sent to the King as a present by a friend, and His Majesty used it in place of the usual Roshach or Apollinaris.

ADJUTANT GEN. CORBIN BLACKBALLED AT CLUB

Aftermath of the Sensation in the Aristocratic Club Circles of the National Capital—Not Much Light on the Mystery.

(MAIL SPECIAL TO THE ADVERTISER.)

WASHINGTON, D. C., April 25.—Every social club in the country and in Europe has been notified through the press that Major General Henry C. Corbin, Adjutant General of the army, and destined to be the Commander in Chief of the American military forces within the next year or two, has been denied membership in the Metropolitan Club, the most exclusive social organization at the nation's capital, at which nearly all the prominent visitors from Hawaii to Washington have been entertained.

Naturally universal interest is felt in an organization which would be so bold as to refuse membership to a person occupying the high official and social position that Major General Corbin enjoys. Various reasons have been given for his rejection, but members of the club regard it as "bad form" to discuss for publication the secrets of a purely social organization. Official and social jealousy have been assigned as the reasons for the unexpected opposition to General Corbin's application for membership, and by many the allegation is believed to be true. The nearest approach to a semi-official explanation from members of the club supposed to be familiar with all the circumstances surrounding this now national, as well as international, topic is "that General Corbin was not refused membership because of any official, social, or petty jealousy, but simply because a certain number of gentlemen in the club did not desire him to become a member."

Of course all Clubdom throughout the land is discussing the whys and wherefores which led to the exclusion of a gentleman who is practically the ranking officer of the United States Army when so many officers of both the army and navy of inferior rank are now, and have for a long time, enjoyed the privileges of membership in this supposed-to-be very exclusive organization. It is alleged that General Corbin had previously been suggested for membership in this club, but before action was taken his name was withdrawn. Personal friends, including President Roosevelt, General Wood, several members of the Cabinet, and probably a large majority of the fourteen hundred members of the Metropolitan Club, would have gladly welcomed General Corbin as a club-mate.

Some of his most enthusiastic sponsors go to the extent of claiming that the Metropolitan Club is a semi-official organization because it admits without distinction or qualification to honorary or active membership all Presidents and ex-Presidents of the United States, all Ambassadors and Ministers sent to the United States by foreign powers and also makes a special diplomatic list for all of the members of the diplomatic corps. Of course these exceptions are what is termed as ex-officio members. The honorary members are not required to pay the initiation fee of one hundred and fifty dollars nor the annual dues of fifty dollars. The diplomatic list, however, requires that foreign representatives below the rank of Ambassador or Minister Plenipotentiary may be admitted to membership at the usual rates, not so much because of their personal popularity but because of their official position. Some of the friends of General Corbin bitterly complain that an unjust discrimination is made against American officials in favor of foreigners on account of the latter's official position.

WHAT FRIENDS SAY.

Many of General Corbin's friends contend that his official rank and social position should entitle him to membership aside from all considerations in view of the extraordinary courtesies extended to the official representatives of foreign powers. They also assert that American Ambassadors and representatives in foreign countries are denied similar privileges at social clubs in London, Paris, Berlin, and other European capitals simply because of their official position. The few diplomatic representatives sent from the United States who receive social club privileges in Europe are accepted on purely personal grounds and not in accordance with the "semi-official open door policy" extended to foreigners by the Metropolitan Club. Instances are cited to show that it is a rare occurrence for American representatives abroad to be accepted to membership in the social clubs of Europe similar in rank and exclusiveness to that of the Metropolitan Club.

The denial of membership to General Corbin by a certain element in the Metropolitan Club has given rise to the question of whether it is a purely social organization or semi-official in its character. The agitation of this question has been going on within the club for a long period, and it has even been suggested that the by-laws of the club should be amended so that the official status of an applicant for membership should be entirely eliminated. The object of this would be that the club would grant no greater privileges or courtesies to a foreigner than would be extended to an American citizen, and especially one occupying the high rank of that held by General Corbin. In club circles this question has been so sharply discussed that it is said that the club parlor is occupied almost exclusively by the American members, while the foreign and diplomatic contingent usually frequent the "lloggia," just across the hall from the parlor. Of course, this may be a mere circumstance, but it has been frequently remarked by the daily habitues of the club.

ELASTIC RULES.

While it is generally conceded that the Metropolitan Club is the most exclusive association of its kind in Washington, its rules and regulations are like many other similar organizations, elastic and may be stretched to meet certain contingencies. A striking incident is recalled in the case of Senor Quesada, at present the Minister from Cuba. A short time before he became the official representative to the national capital he was denied membership. Now he enjoys the ex-officio membership given to Ambassadors and foreign Ministers.

A contrary incident may be cited in connection with a millionaire citizen of New York, who was elected to Congress. Acting under the impression that his official position as a member of the House of Representatives entitled him to membership in the club, he telegraphed Washington to have his name proposed, and so confident was he that he would be acceptable that he ordered his mail to be addressed to him care of the Metropolitan Club. This display of assurance on his part, unintentional perhaps, resulted in his overwhelming rejection.

Numerous other incidents of a similar nature might be given to show that the directors exercise their own democratic discretion in passing on the credentials of American citizens proposed for membership in this famous organization.

NAMES OF DIRECTORS.

The present board has distinguished itself, recently, by turning down no less than twenty-one candidates for membership. Among the latter were General Corbin; Harry Thaw, the Pittsburg millionaire, who is soon to become the brother-in-law of the Earl of Yarmouth; two prominent Federal officials, and several well known society men. The board is composed of Brigadier General S. C. Kellogg, retired; Captain W. S. Cowles, U. S. N., brother-in-law of President Roosevelt; J. M. Wright, Marshal Supreme Court of the United States; R. S. Chilton, Jr., former chief of the Consular division, State Department; Rear Admiral Walker, retired, President Canal Commission; Arnold Hague, Geological Survey Bureau; W. A. Day Assistant Attorney General; General G. L. Gillespie, Chief of Engineers, U. S. A.; J. K. McCammon,

MAJOR GENERAL HENRY C. CORBIN.

general attorney for Cramp & Co., ship builders; Ralph Jenkins, lawyer; F. E. Chapin, lawyer; Archibald Hopkins, clerk Court of claims; Thomas Nelson Page, author; Nathaniel Wilson, lawyer; Paymaster General A. S. Kenny, U. S. A.

The officers are: Rear Admiral Walker, president Messrs. Hopkins and McCammon, vice presidents; Paymaster General Kenny, treasurer, and Mr. Chilton, secretary.

The first president of the club was W. W. Corcoran. He was followed by Rear Admiral C. R. P. Rogers, U. S. N. Then came Rear Admiral John L. Worden, U. S. N. The late Judge John Davis was president from 1892 until 1899. He was succeeded by Admiral George Dewey, who held the office of president until 1901 when he was succeeded by John A. Kasson. The membership includes President Roosevelt, Secretary Root, Secretary Hay, Secretary Moody, Secretary Hitchcock, and Attorney General Knox, General Miles, General Scofield, Rear Admiral Schley and many other officers of the army and navy, and also many Senators, Representatives, department officials, some of the latter at present occupying low grade clerkships. The membership also includes many distinguished men not in official life, who by their wealth, social standing, or good fellowship, have been able to receive membership in this exclusive organization.

REV. MR. HARDIN'S VIEWS ON LATE TRANSVAAL WAR

Editor Advertiser:—The Rev. Mr. Hardin is this morning reported in your paper as saying in his yesterday's sermon at the Central Union Church that "In America, where we were free from the blinding power of prejudice, it is safe to say that nine out of every ten intelligent men condemned the war of England (in South Africa) as unjust and unnecessary."—I am not aware, sir, that plenitude of numbers necessarily carries with it a correct apprehension of truth, or is better fitted than a minority to realize the nature of facts and conditions when presented to observation. No nation is free from prejudices any more than are the individuals that compose it, and one of the happiest events is when they so confess. The Rev. gentleman, himself, it would appear is very prejudiced, as were a great many at the time of the war in South Africa. Why he should call it the "war of England" and stigmatize it as "unjust and unnecessary" is hard to understand, seeing that the ultimatum of the Boer Government was one of studied defiance, and was immediately followed by an invasion of Natal, a self governing colony! It was the ultimatum that snapped the last frail thread of the negotiations. The Boer governments commenced war upon the British Empire, not it upon them.

Under such conditions it would have been imperial suicide, to have allowed the well known, though undervalued, military preparations of the Transvaal to pass unnoticed, and defiant oppression to continue, . . . until the favorable moment for revolt should be found in a day of imperial embarrassment."

ROBBIE ON ADAM.

Adam, Mr.—born at Eden, (Fla.), July 4th, A. M. His advent was at once recorded on the birthpage of Webster's unabridged. Lived to be several times old. Later on married one of the Eve girls, since deceased. Took part in many engagements and had a pass to Thermopylae. Favorite occupations, saying he "didn't done it," and climbing trees. In his latter years he opened "The Mode" and built suits to suit. His original sign has been lost but excellent photographs taken about that time or earlier are hung on the walls of the Museum of Antiquity, inside. About the time of his death he succumbed. Begat two sons, one of which got "slewed" because he wouldn't buy a Douglas Patent Closet.

A Story on President Hadley.

One pleasant day last fall, so the story goes, President Hadley, of Yale, was strolling through the beautiful campus of Dartmouth college with his wife on his arm. They were admiring the beautiful buildings which dot the campus, several of them having been erected by wealthy alumni. Presently they came to an especially noble hall, built of stone and occupying a commanding site. Over the main entrance was a marble tablet which announced that the hall had been erected by "John C. Blank as a memorial to his beloved wife." President Hadley stood and looked at the noble pile for a moment. Then he heaved a sigh that was almost envious. "Ah," he said, "that is what I should like to do for my college." And to this day the boys declare President Hadley cannot understand why his wife should have looked so horrified.

TIME AND MONEY. — Sickness causes a loss of both time and money. You lose the time and have the expense of medical attendance, entailing a double loss. This can be avoided by using some reliable remedy at the first stage of the sickness. The purchase of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy often proves a profitable investment, for, by its use at the first appearance of any unusual looseness of the bowels, a severe attack of diarrhoea or dysentery may be averted that might otherwise compel a week's cessation from labor. Every household should have a bottle at hand. It never fails and is pleasant to take. Get it today. It may save a life. Benson, Smith & Co., Ltd., wholesale agents, sell it.

Frame Fitting

Much really depends upon the proper fit of the spectacle frame, and yet strange to say, few recognize this fact, and consequently understand but little of the about it.

To derive the greatest amount of aid and comfort from the lenses, the frame MUST fit the abutment perfectly, both face and nose.

To attract attention to LITTLE things—after good ball, the GREAT things—helps make our fit perfect right.

Attentive We fit frames to the face as carefully all, thus we do lenses to the eyes. WE are work to be pleased and satisfied as well as YOU.

ORPHEUM SMOKE IS CLEARING AWAY

May 10th, 1903.

Editor Advertiser: We are very grateful to the kindly souls who took to their pens in defence of our plea against smoking at the Orpheum. "The Considering Man" was quite right. Hundreds of us are working women—stenographers, clerks, teachers, etc., with many calls upon our slender purses; and a visit to the Opera House means a serious outlay to some of us. So the Orpheum remains the only place where we can enjoy dramatic entertainments without feeling too extravagant. Now it seems to me a remedy for our troubles is to be found in our all-men and women—making a resolve to be just angelically considerate for the opposite sex in future. Some of my young friends have made another attempt to enjoy an evening at the Orpheum, and have returned home full of admiration and gratitude for the self-denial and consideration displayed by the gentlemen present, who, almost to a man, refrained from smoking during the entire performance, or at least confined their smoking operations to the intervals between acts. We are all warmly grateful, and we earnestly hope that other young women will join us in resolving never again to use any kind of cheap perfumery, nor to wear a hat at the Orpheum.

The wearing of a large hat in any theatre as a wholly unpardonable breach of good manners.

It not only annoys the sterner sex but other women also. None of us should so far forget the sweetness of true womanliness as to make herself an object of annoyance and indignation to the neighboring population.

With our cordial thanks to the well-bred men who so kindly considered and acted upon our plea against smoking I remain the original

ONE HONOLULU WOMAN.

Conan Doyle's Big Earnings.

Till a few years ago Rudyard Kipling was probably the best-paid writer in the English language. Since the South African war, however, it is possible he has had to give place to Sir Arthur Conan Doyle. It was stated the other day on good authority that the creator of "Sherlock Holmes" has been commissioned jointly by the proprietors of an English and American magazine to write twelve stories of 10,000 words apiece, for each of which he is to be paid \$9,000. This works out at the rate of \$900 per 1,000 words, and the big gulf that now separates Sir Arthur from other writers of fiction may be measured by the fact that hitherto \$250 "a thou" has been considered a good price for even the most widely read novelists.

Free to Men! A Book Full of Facts About

Dr. McLaughlin's Electric Belt for Weak Men

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE he wants to; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe it, and I want you to have my book in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

A HAPPY MAN

Dear Sir: Having used your famous electric belt for thirty days, I have received the greatest benefit that a man could gain—that is, health and strength. The tired, despondent feeling has gone. I feel the beginning of a new life, and am ever your debtor.

P. O. Box 482, Tucson, Arizona. W. E. CLARK.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, varicose or any ailment of that kind that weakens you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed free, if you send this ad. Call for free consultation.

TO SEARCH FOR SETTLERS

Governor's Idea to Assist Small Farming.

Sent a Special Message to the Legislature Yesterday.

Pupukea and Paumalu Lands Are Suitable for Settlement.

Governor Dole in a message to the Legislature yesterday strongly approves of the small farmer agitation and recommends liberal appropriations for the purpose of making the search for new settlers a success. He asks for funds for advertising our lands on the mainland and also to investigate the condition and capabilities of the public lands of the Territory.

The following is the message of the governor:

A MESSAGE
To the Legislature of the Territory of Hawaii:

Act 69 of the Session Laws of 1903, entitled "An Act to regulate and license insurance business in this Territory," provides in the 14th section, that "the Insurance Commissioner shall appoint a deputy, and in the absence of the Commissioner or his inability from any cause to exercise the powers and discharge the duties of his office, the powers and duties of the office shall devolve on the deputy."

As no salary has been provided for such deputy and no provision made for the expenses of the office for account books, blanks and stationery, I recommend that items be inserted in the proper appropriation bills covering such needs, for the twenty-one months from October 1st, 1903.

I renew my suggestion for a statistical bureau in the Department of the Secretary of the Territory, and recommend that items be inserted in the appropriation bills for salary of statistician and for the necessary expenses of the office.

The public lands known as Pupukea and Paumalu on the island of Oahu are suitable for settlement purposes. It is necessary in order to make them available for this use, that at least two roads should be constructed leading up the bluff into these lands from the line of the railroad near the seashore.

I recommend that an item be inserted in the appropriation bill for current expenses or in the loan appropriations for this object.

I further recommend the appropriation of funds for advertising on the Mainland such public lands as may from time to time be opened for settlement in Hawaii and for expenses of agents to promote immigration from the Mainland for the settlement thereof.

Also an appropriation for expense of investigating the condition and possibilities of the soils of public lands, both by soil analysis and experimental cultivation of different crops, with the view of furnishing definite information on the subject to intending settlers.

Also an appropriation for salaries and commissions of Deputy Tax Assessors and Collectors, the estimate for which was inadvertently omitted from the Treasurer's estimates for the first six months of the coming biennial period.

Also an appropriation to refund Kini Koukoula (w) for over payment through mistake on account of purchase of land.

Estimates for Appropriations to Carry Out the Foregoing Recommendations.

Salary for Deputy Insurance Commissioner \$ 3,150 00

Incidentals, Department of Insurance 250 00

Salary of Statistician 2,400 00

Incidentals, Statistical Bureau 250 00

Roads, Pupukea and Paumalu lands 4,000 00

Advertising public lands and expenses of immigration agents 5,000 00

Expenses of investigating the condition and possibilities of the soil of public lands 5,000 00

Salaries and Commissions of Deputy Tax Assessors and Collectors \$1,250 00

Overpayment of Kini Koukoula (w) on land purchase 10 45

Executive Chamber, Territory of Hawaii, May 9th, 1903.

DIARRHOEA is more to be dreaded than diphtheria. It attacks all ages and is equally fatal to young and old. The great mortality resulting from diarrhoea is due to the lack of proper treatment at the first stages of the disease. Chamberlain's Colic, Cholera and Diarrhoea Remedy is a reliable and effective medicine, and if given in time will prevent serious consequences. This remedy never fails and is pleasant to take. Every household should have a bottle at hand. Get it today. It may save a life. Benson, Smith & Co., wholesale agents, sell it.

without a head. The nominations were approved unanimously.

AFTERNOON SESSION.
The following nominations on the Board of Dental Examiners were submitted by Governor Dole and upon motion of Senator Brown were unanimously confirmed: J. M. Whitney, M. E. Grossman and G. H. Huddy.

EIGHTEEN MONTHS SALARIES.
The eighteen months salary bill was taken up on second reading.

Upon motion of Senator Baldwin the bill was made to read from January 4th, 1904, instead of Jan. 1st, to prevent double payment of salaries for the first three days under the County bill.

BAD DAY FOR PENSIONERS.
Senator Dickey wanted to know why Mrs. Emma Barnard was given \$600 instead of \$400 as two years ago.

"It's in the Governor's message," said Crabbe.

"Probably a mistake," put in Brown. "I presume the Governor put it in at that figure to give Senator Dickey a chance to cut it down," said Baldwin.

The item for eighteen months was changed to \$300, and the item of \$720 for Mrs. Mary R. Stolz was also questioned and reduced to \$300.

On motion of Dickey the item of \$900 for Sergeant H. E. Peterson was stricken out, Senator Dickey stating that the settlement was for the loss of eyesight, which accident occurred during a sham battle. Peterson had now recovered his sight and was in business for himself.

Senator Brown suggested that the Senate had passed a bill providing extra compensation for circuit judges at the rate of \$500 each which had been violently killed in the House and asked if the Senators had any wish now to insert these items in the appropriation bill.

"I am just throwing this out as a hint," said Brown.

No one took the hint.

COURTS OUT OF POLITICS.
Senator Brown suggested also that salaries be appropriated for clerks in the Judiciary Department in order to keep the courts entirely out of politics.

Senator Dickey moved to insert items for clerks, stenographers and interpreters in the bill, to be a charge upon the revenues of the counties. Action upon the judiciary items was finally postponed.

The item for jailor Oahu Prison was increased from \$2700 to \$3000.

SALARY FIGHT AGAIN.
Senator Dickey moved to reduce the salary of treasurer from \$6750 to \$4200. "The idea is utterly ridiculous," said he. "We are paying heads of departments twice what is being paid in States getting in ten times the amount of taxes."

Dickey quoted salaries in other States showing but two paying more than \$3,000 a year for treasurers.

Senator Brown replied that these officers had perquisites, and besides living only cost half as much in the States. He didn't believe in making officers live from hand to mouth; they should be permitted to maintain the dignity of the office. "I believe in paying a man what he is worth," said Brown. "That's what we do in this world unless it is some people who were born with a silver spoon in their mouths and a gold brick under their arms."

"I was a Dickey at one time," said Baldwin. "I belonged to a committee that reduced all the salaries in the government on first reading, they were all Dickey's in the House then. It was all a farce though and before the third reading, some one had a friend on Kauai who couldn't live on the salary, then another had a friend in Honolulu and a third had a friend on Hawaii and before it was over we had the salaries all back again."

Dickey thought the treasurer could live on \$300 a month; many others lived on less than \$200. "They can live in Oklahoma on \$200," he said. "I don't believe there is over \$100 difference in honor. We are not a monarchy now, we had to spend money before for fuss and feathers but we are only the smallest Territory in the Union now."

Dickey suggested that it be made \$5400 and Achi said it should be \$6200. "Baldwin couldn't decrease salaries," said Achi, "and the government was overthrown. We don't want to be overthrown."

Kalaauokalani moved to pass as in the bill which carried.

On motion of Senator Baldwin the salary of registrar was reduced from \$4500 to \$4050. The deputy registrar was fixed at \$3150, Achi pleading for the increase because of new duties.

The items for clerks, etc., were stricken out.

The corporation clerk was put in at \$2250. Recording clerk and stenographer were each put in at \$1350. An item of \$2700 was inserted for deputy insurance commissioner.

The item of \$31,800 for tax commissions was stricken out. Superintendent of Public Works salary carried at \$6700. The assistant was stricken out and supervising engineer was inserted at \$4000.

NO MONEY FOR LIGHTS.
Senator McCandless moved to strike out the \$8,000 for lighthouses which carried. President Crabbe stated that he had been informed by the Governor that the federal government would be asked to make a survey and take over the lighthouses.

CRABBE THREATENS TO RESIGN.
The item for gunpowder keeper, Hilo, was carried at \$900. McCandless asked for a standing vote on the item. Crabbe objected to the continued questioning of his count or hands. "If it happens again I shall resign," said the chairman. "I think I'll resign anyway."

Dickey arose to a question of privilege and said that it was no aspersion on the chair to ask for a count of the vote. There were three methods of voting and a Senator had a right to ask for a standing vote.

SCHOOL SALARY CUTS.
Dickey moved to reduce the salary of Superintendent of Public Instruction to \$5400 as it was two years ago. Carried.

The salary of secretary of the School Board was cut from \$3600 to \$2700. The item for school agents was reduced

LAND OFFICE CUTS.
Senator McCandless moved the inspection of an item of \$2700 for book-keeper land office, which would be needed in case lands were sold to settlers.

The salary of land agent second district was reduced from \$1350 to \$900. Clerk first land district was stricken out. Ranger third district was cut from \$900 to \$540. Salary rangers 4th district was also stricken out.

An item of \$4500 for forestry superintendent was inserted.

A motion by Senator Kaohi to adjourn was lost, 6 to 5.

BOARD OF HEALTH.
The salary of President Board of Health passed at \$4500. The executive officer passed at the same figure; the secretary was reduced to \$3000, registrar was fixed at \$2700.

Senator Baldwin moved that other changes be made according to the majority report on the six months' bill

but Brown got an adjournment before discussion had fully begun on the question.

In Victoria, B. C., the owners of slate roofs near the water front have been having much trouble of late because the slates were continually breaking and falling from their roofs, and then the buildings were damaged by leaks.

A man was recently given the job of investigating, and worked in vain, until one day he accidentally heard something fall on the roof which explained the trouble. It seems that great flocks of crows dig claims on the beach at low tide, and when one caught a bivalve he flew high in the air with it, dropped it on to a slate roof, which smashed the shell and a piece of slate, and then flew down and sucked up the opened clam.

TUESDAY, MAY 12

AS OTHERS SEES US.

One of the advantages of a quarrel is the development of candor. Friends rarely tell the truth about each other, to each other; but when they fall out, then justice gets her due.

Herein are the advantages of the little tiff with Germany that followed the criticisms made by Admiral Dewey of the Kaiser's fleet. Before that our German friends were nothing if not smooth-spoken.

The republic's fleet included but six battle-ships of various and partly antiquated types. The United States navy, moreover, does not include one genuinely modern armored cruiser.

The personal aspect of the problem is glanced at by the count in a manner equally unflattering to American self-esteem. He finds that crews of United States war-ships are apt to desert in a body.

Nobody will seriously deny that America commands the first place in the field of brag, and that Admiral Dewey does not belie this distinction.

So here we have the candid German expert view: Our navy counts upon some battleships that are growing out of date; our fleet-maneuvering is child's play; our seamen cannot be depended on to serve any longer than they please.

THE OTHER FELLOW'S GAME.

Every young man should stop and consider in the light of Sunday's developments whether gamblers who are ready to expend \$72,000 per year for the protection of the law, who employ from two hundred to three hundred men as "cappers" and who expect dividends enough to satisfy a hul one hundred

THE REMEDY OF RAIDS.

The Attorney General has uncovered the designs and methods of the Chinese gambling hui in this city. He has shown that the Paka Pio fraternity, now out of business, is eager to bribe the authorities and get in again; and at the same time he has shown how thoroughly the situation is in the hands of the police.

AGENT—IF WE ARE GOING TO BE ARRESTED TWO OR THREE TIMES A WEEK IT IS NO USE FOR US TO KEEP OPEN. THE CHINESE ARE SCARED NOW SINCE THAT RAID. THEY GOT THEIR FINGERS BURNT THEN.

The gambling places were closed because of police raids; they will not reopen until their owners get assurances that the raids will either cease or come infrequently.

There was some excuse for not raiding when the former Circuit bench assured the Chinese gamblers that they would be at liberty to shoot a policeman who invaded their resorts without a search warrant; but the bench has since been cleansed and it no longer gives encouragement to crime.

The only argument now made against this drastic method of abating crime is that damage suits may follow. But this bugbear will not frighten a sincere guardian of the law.

The sum of the whole matter is that, if the police make a regular business of raiding gambling hells and houses of prostitution, such places will close for want of trade.

strong. INTEND TO PAY VERY MUCH OUT BESIDES AS WINNINGS TO THE PLAYERS.

After meeting such an immense bill of costs, the gamblers look to their customers to make them good; they do not toist more expenses upon themselves for the sake of sending the chance-takers home with full pockets.

Men, white men as well as Asiatics, who have been investing their money in Chinese games, may regard themselves as philanthropists, but they cannot flatter themselves upon having business prudence or common sense.

FOR HAWAII'S PROGRESS.

In a special message yesterday the Governor made three recommendations which public policy should persuade the Legislature to adopt.

I further recommend the appropriation of funds for advertising on the Mainland, such public lands as may from time to time be opened for settlement in Hawaii nei and for expenses of agents to promote immigration from the Mainland for the settlement thereof.

THE NORTHERN SECURITIES CASE.

The United States Circuit Court of appeals, consisting of four judges, has unanimously held that the Northern Securities Company, a corporation, cannot lawfully hold the control of the stock of Northern Pacific and the Great Northern Railroads.

The law and the facts in the railroad case are entirely different from those affecting local conditions. The two railroads in question are competing roads running between the great lakes and the Pacific coast and doing an interstate business.

To a great extent they are also the only means of access to the country which they cross. Their amalgamation would therefore remove competition and create a monopoly in restraint of trade, which is contrary to United States law.

The creation of a "holding company," that is, a company which is formed for the purpose of holding stocks in other companies, in Hawaii, for the purpose, for example, of holding the control of the stock of two or more sugar plantations does not infringe the interstate law, because without considering any other point, they are not doing an interstate business.

The Bulletin, true to its ownership, took a "Success to Crime" position as soon as it found that the Republican Attorney General had got the Chinese gamblers on the hip.

The Bulletin, like the man it champions on the bench, is never in favor of exposing or punishing law breakers. Every rascal the public life of Hawaii has developed during the past three years has been defended by the Bulletin; every rotten cause has been advocated by it; every effort to purify politics has been opposed by it; and even the corrupt Home Rule Legislature found it a friend in need.

Every young man should stop and consider in the light of Sunday's developments whether gamblers who are ready to expend \$72,000 per year for the protection of the law, who employ from two hundred to three hundred men as "cappers" and who expect dividends enough to satisfy a hul one hundred

All Stuffed Up

That's the condition of many sufferers from catarrh, especially in the morning. Great difficulty is experienced in clearing the head and throat.

No wonder catarrh causes headache, impairs the taste, smell and hearing, pollutes the breath, deranges the stomach and affects the appetite.

To cure catarrh, treatment must be constitutional—alterative and tonic.

"I was afflicted with catarrh. I took medicines of different kinds, giving each a fair trial; but gradually grew worse until I could hardly hear, taste or smell. I then concluded to try Hood's Sarsaparilla, and after taking five bottles I was cured and have not had any return of the disease since." EUGENE FORBES, Lebanon, Kan.

A TALE OF HARD LUCK

VICTORIA, April 30.—Sealing schooner Geneva, which had such a trying voyage to Honolulu, where she put in leaking and distressed, returned to port last night after one of the most unprofitable voyages which any sealer has made. She left here on January 10 on a sealing cruise to the Japan Coast in charge of Capt. D. L. Jones, but the voyage was an ill-starred one, and she put into Honolulu five weeks out with her main boom broken and water pouring into her hold. Seven of her crew stole a boat and deserted, rather than remain in her. She was condemned as unseaworthy by a board of survey at Honolulu, and then Capt. Grant, manager of the Sealing Company, went to the Islands, and had her hauled out and repaired at a cost of \$4,000, and she left Honolulu for this port on the 6th. After a passage of 22 days from the Islands, she dropped anchor in James Bay last night. Her crew were sent north by steamer and she was brought North by a crew of Japanese and Kinakas.

PAKA PIO GAMBLING PAYS; TONG KAI IN POLICE COURT

WAS FLORENCE IN COLLISION?

SAN FRANCISCO, April 22.—Was the overdue French bark Couedic in collision with the American ship Florence and did both vessels sink in mid-ocean? That is the question which is just now puzzling the underwriters. Both ships are missing, the Florence being given up for lost, while 85 per cent. is being paid to reinsure the chances of the Du Couedic, which is also given up as lost.

The Florence sailed from Tacoma for Honolulu on December 1 last, while the Du Couedic sailed from San Francisco for Sydney, N. S. W., on December 24 with a cargo of wheat for J. J. Moore & Co. Wreckage from a ship supposed to be the Florence was sighted in latitude 34 N, longitude 123 W.

This was several months ago, and about that time the Florence and Du Couedic must have been in company. Heavy southwesterly weather prevailed at the time and the supposition among shipping men is that the Florence and Du Couedic collided and went down with all on board.

The Du Couedic was laden with wheat, valued at over \$100,000, while the Florence had a cargo of Roslyn coal for one of the sugar refineries. Both vessels being heavily laden, the shock must have been terrific if they came together.

The Florence being now out 141 days from the Sound and the Du Couedic 119 from San Francisco, lends an air of probability to the supposition that the two vessels were in collision.

YOUNG'S ISLAND IS AN ORPHAN

The Organic act specifically designates that the site for the \$30,000 U. S. Immigration station, for the establishment of which U. S. Immigration Commissioner Sargent is now in Honolulu, shall be "on land adjacent to the Channel Wharf." The "land adjacent" is the Naval Reservation which extends seaward from behind the Channel Wharf and Myrtle Boat house. Young's Island does not properly come under the term "adjacent," and it will probably be abandoned for some time.

The Japanese Army.

According to the Asahi of Japan, the standing army of Japan at the end of 1902 had 105 generals, 799 staff officers, and 5,749 subalterns, a total of 6,553 officers, which represents an increase of ten generals, four staff officers, and 566 subalterns, or 580 officers, as compared with the number at the end of 1901. This is rapid increase, but it is said that it does not meet the increase which was decided upon after the war with China, and which has been provided for in great part.

PAKA PIO GAMBLING PAYS; TONG KAI IN POLICE COURT

The expose of the attempt of the Chinese gamblers on Sunday to bribe the Attorney-General's Department to prevent any of their number from being convicted in the upper courts startled Honolulu yesterday morning. The expose was complete and the methods of the bribers were laid bare to the community.

One thing was brought to light. This was the magnitude of the revenues received from the gambling tables of the Orientals from Paka pio alone. That a few hui of gamblers could afford to settle the sum of \$6,000 per month upon an official of their choice, just to eliminate prosecution in the upper courts, seemed incredible. But when it is taken into consideration that ninety-nine out of every hundred Chinamen are practically born gamblers and that the majority of them will risk their money daily in tempting fortunes, no matter how often they may lose, some idea can be gained of the enormous profits in the business. The four hui which were in the league to bribe the Attorney-General's department had a membership of about one hundred men, and these hui employ about 300 Chinese to distribute the lottery tickets daily. It is a small army in itself, and the receipts must necessarily be enormous to cover the expenses.

Tong Kai, the Chinaman who was arrested in the Attorney-General's office Sunday afternoon after offering to bribe Deputy Attorney-General Peters for \$1500 per week, was arraigned in the Police Court yesterday morning on a charge of violating section 25 of the Penal Laws of 1897, which reads as follows:

Whoever corruptly gives or promises to any executive, legislative or judicial officer, or to any master in chancery, juror, appraiser, referee, arbitrator or umpire, any gift, gratuity, service or benefit, with intent to influence his vote, judgment, opinion, decision or other acts as such in any case, question, proceeding or matter pending, or that may by law come or be brought before him in his capacity as aforesaid, shall be punished by imprisonment at hard labor not more than two years, or by fine not exceeding five hundred dollars.

On motion of his attorney, F. M. Brooks, the case was continued until tomorrow morning.

Former Deputy Attorney-General Cathcart is quoted in the Star as saying:

The way in which the proposition is stated seems to be an insinuation that there was a fund used under the former administration of the department. As a matter of fact gambling cases never got to the upper office at all. The new situation, which made it necessary for the Chinese to fix the upper office, developed when Attorney-General Andrews took hold of the gambling proposition personally.

Mr. Cathcart says that in quoting him in yesterday's Star, his remarks might be construed so as to reflect on the police department. Nothing was further from his thoughts. What he intended to convey was that as the enforcement of the laws against gambling, as well as all other laws, was left with the police, there was no reason to approach the Attorney-General's office, and so any insinuation against that office was easily disposed of.

Paka pio is a lottery played with red tickets generally on which are marked eighty Chinese characters. The player is permitted to mark a certain number to the characters, and his chances for making a winning lie in his drawing at

COURTS ARE NOT BUSY

Lottery Agents Get Off Easy.

Judge De Bolt Will Not Continue Cases Longer.

Attorneys Will Have to Be Ready. Sumner Sued for House by Contractor.

The so-called lottery agents got off easy in the Circuit Court yesterday. Rothenberg, the Alameda's barber whose alleged interest in the escape of Treasurer Wright created much talk, pleaded guilty and escaped with a fine of \$100. In the lower court he had been fined \$500.

Joaquin Silva, who was alleged to have sold lottery tickets which he received from Rothenberg, was acquitted by the jury after a trial which lasted for the entire day. Silva denied that he knew what was in the package given him by the barber and his statement was sustained by Rothenberg. The jury was out but a short time before agreeing upon the verdict of "not guilty." Silva also had been fined \$500 by Judge Wilcox.

The indictment against Lee Loy was quashed upon a demurrer by the defendant. It was claimed that the indictment did not charge a crime specified on the statute books of the Territory, also that the indictment was grammatically defective. Judge Robinson sustained the demurrer.

Lee Loy is the Chinese who is alleged to have collected ten dollars from a Japanese woman on pretense of giving her police protection.

IN OTHER COURTS.

Judge Gear was engaged yesterday in the hearing of another phase of the Hind-Low controversy and Judge De Bolt was still hearing the case of Lucy K. Peabody vs. Bishop Estate.

A NEW ORDER.

The following order was made yesterday morning by Judge De Bolt:

1. It is ordered that, during this term, or extension of the same, upon the calling of the civil jury calendar, all cases in which neither party answers ready will be preemptory continued for the term.
2. Cases in which either party answers ready will be for trial in their order unless a continuance for the term is granted for good cause shown.
3. Applications for continuance must be made in writing and copies of the moving papers must be served on the

NO NEED TO SUFFER SO:

"She bears her sickness patiently; she makes no complaint." How often we hear that said and how it stirs the pity in our hearts. There are plenty of sufferers of whom it is true,—of both sexes and all ages. The success of modern science, however, in combating disease is at once a cause for gratitude and wonder. It is well to bear pain patiently, yet is it not better not to be obliged to bear it at all? "Yes, say we all," if we can only prevent suffering or get rid of it. Well, the medical art is making a great record along this line in these days. Remedies have been discovered within the past few years which prove how sincere and persevering has been the search after knowledge, and how rich the reward. Chief among these splendid results is **WAMPOLE'S PREPARATION** now known and used all over the world. For one thing it solves the vexed question of how to employ cod liver oil in consumption and other wasting diseases without doing more harm than good. This alone is a victory second to scarcely any in the history of medicine. Dismissing the objectionable peculiarities of this otherwise valuable drug, the preparation, which is palatable as honey contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It expels the germs of disease from the blood and supplies flesh and strength to the wasted and feeble body. It creates appetite and causes your food to nourish you. It is a wholesome medicine guaranteed to do what is claimed for it. Effective from the first dose. "Never disappoints." Sold by chemists here and everywhere.

other party two days before the hearing.

4. When a case comes up in its order and neither party is ready, the case will go to the foot of the calendar.

5. When a case comes up in its order and but one party appears the trial shall nevertheless proceed if the party appearing demands it.

SUMNER IN MORE TROUBLE.

John K. Sumner is made the defendant in a suit brought by W. M. Campbell for building a house for him in Kalihi. Campbell claims that there is a balance due him of \$1365 out of the contract price of \$2865.

Sumner began the construction of the house at the time he received his money from Bishop Robert. Then the amount was tied up in court and he was unable to pay for it.

Antonio da Estrella has brought suit against C. M. Le Blond of Hilo alleging that the attorney caused him to lose \$7,000 in permitting the appeal to lapse in a suit by him against the Hawaii Mill Co. Estrella sued the Hawaii Mill Co. on a lease and lost in the lower court. He claims that Le Blond, his attorney, neglected to perfect an appeal and he asks \$7,000 damages in consequence.

FAIR EXCHANGE.

A New Back for an Old One How it is Done in Honolulu.

Sometimes the back aches with a dull, indescribable feeling, making you weary and restless; sometimes pain shoots across the region of the kidneys, and again the loins are so lame to stoop is agony. No use plastering or rubbing the back in this condition. You cannot reach the cause. To exchange a bad back for a new and stronger one, follow the example of this Honolulu citizen:

Mr. A. J. Cahill, of Fort street, this city, night watchman in the employ of Messrs. T. H. Davies & Co., Ltd., says: "Whilst a young man I was a sailor and at one time worked for the Inter Island service. I was, however, obliged to give up sea life on account of severe suffering from my back and kidneys. For this I had tried various remedies, but the one which restored me to health was Doan's Backache Kidney Pills—procured at Hollister's Drug Store. They relieved me completely after years of suffering. If any one desires further particulars he may apply to me. I am to be found at Van Dorn's Ship Chandlery, Fort street."

You should get the same medicine which helped Mr. Cahill. See that the full name **DOAN'S BACKACHE KIDNEY PILLS** is on the wrapper and refuse any imitation.

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

LABOR AT WORK AGAINST ASIATICS

At the monthly meeting of the Builders' and Traders' Exchange held last evening, L. E. Pinkham was appointed a committee to wait upon Commissioner Sargent and ascertain a time and place when the members of the Exchange may confer with him upon Island labor conditions. The Exchange has recommendations to make in regard to labor here, and it will draw the Commissioner's attention especially to the employment of Asiatic labor upon United States government work performed here in the past two or three years.

Secretary Avery, who was re-elected the ensuing year, was instructed to write to the trustees of the baseball league, asking that in the contract for the construction of the grandstand and fitting up of the new grounds, a clause be inserted that no Asiatic labor shall be employed thereon, and any violation of this clause shall nullify the contract.

The Secretary was also instructed to write similar letters to the secretaries of the Y. M. C. A. and Y. W. C. A., asking them to employ non-Asiatic labor on the cottages about to be erected at Wahiawa as vacation homes. The request in the latter two instances is to be made on the ground that the funds so far raised have been largely contributed by non-Asiatics and the benefits will be mostly for non-Asiatics.

It was stated that the Exchange has no objection, as a general thing to Americanized Asiatics, but it is largely the coolie class to which it is opposed.

The Directors decided that the Exchange was large enough in membership to reduce the dues from \$5 to \$3 per quarter, and this was so ordered. A sliding scale for initiation fees was also recommended. This proposed that the fee be \$5 until the membership reaches 100 persons, and after that \$25.

The collection of accounts was taken up. The secretary was authorized to collect accounts from members of the Exchange, whether accounts are against members or outsiders. The Exchange has had a system of account collecting between members. Members were given ten days to pay and if not then paid their names were to go on a delinquent list.

His miscue: "I would be happy if I might just sit and look at you all day," he said. "That's nothing," she replied; "I know people who would be glad if they might just sit around and stare at nothing all day."—Chicago Record-Herald.

MACLENNAN HAS RECORD

Delay Before Fire Claims Are Paid.

The Certificates and Receipts Must Be Made Out.

Clerical Work May Still Delay Payment of Million Dollars a Week.

Secretary Carter turned over to Treasury Agent MacLennan yesterday the transcript of the fire claims awards duly signed and certified by Governor Dole as correct. With the record was also turned over the pro rata estimates made by the Territory for the use of the treasury agent in paying out the million dollars and the \$326,000 in bonds in equal proportions.

Though Mr. MacLennan now has the record it is very doubtful whether the payment of the money will begin this week. There is a considerable amount of work to be done first and this may take a week or even longer.

In the first place it is not expected that the treasury agent will begin the payment of the million dollars until he knows how he is going to come out of the affair. That is the receipts and the treasury warrants will first be made out according to the pro rata and it will then be ascertained whether the sum total of the treasury certificates to be issued will figure out more than the million dollars at the disposal of MacLennan for this purpose. The work will be expedited however by the assistance already rendered by the Territory and also by the generous offer of the First National Bank which institution has agreed to prepare the receipts and also the certificates which require only the signature of the treasury agent. The First National Bank has also offered to place office room at the disposal of Mr. MacLennan and to assist in facilitating the payment of the money in every possible way.

It is probable now that no further efforts will be made to pace the remainder of the bonds. It has been pointed out that once the million dollars are paid the claimants will be anxious to dispose of their remaining interests which will be covered by the bond issue. If they sold their claims now the banks would of necessity have to buy up the entire claim for cash, while after the million dollars has been paid the claimants would gladly take ninety per cent for the remainder.

The task of making out over six thousand receipts and as many more treasury certificates will be an enormous one for each warrant must be signed by Mr. MacLennan. The assistance of the bank will, however, greatly assist in the completion of this work.

Rural sport: "Yes," remarked the citizen of Sandy Lane, "our parson claims that these here racing automobiles are keeping some of his flock away from meeting." "You don't mean to say any one owns a racing automobile around here?" asked the drummer, in surprise. "No, they don't own them, but they sit on the fence all day Sunday and throw stones at those that pass."—Chicago Daily News.

COMMON SENSE AND CONSUMPTION

The treatment of consumption is every year becoming more successful. The majority of cases can be cured if taken in time. Not more medicine but more common sense is the cause of the improvement.

Fresh air, good climate, food, clothing, exercise, all these are important features of common sense treatment.

As a builder of flesh and restorer of strength Scott's Emulsion is still unequalled. The special action of Scott's Emulsion on the lungs is as much of a mystery as ever—but an undoubted fact.

Common sense and Scott's Emulsion is good treatment.

Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes and Locks are the Best.
The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.

COLLEGIANS DISCIPLINE A STUDENT

On Saturday the Punahou baseball team was to play the High School team. Shortly before the game began a telephone message came to one of the team members from "Toots" Cunha, saying that he was ill and could not play.

Yesterday forenoon at the short recess, about 10 o'clock, four of the young collegians met "Toots" on the steps of the school building, and two of them putting their arms into his, invited him out to the campus. There was a ring of determination in their voices, and "Toots" wondered what was up.

The Coptic left Hongkong for Yokohama, Honolulu and San Francisco on April 25. NEW SCIENTIFIC PROCESS. A Preparation Discovered That Will Destroy the Dandruff Germ.

For some time it has been known that dandruff is caused by a germ that digs up the scalp into little white flakes, and by sapping the vitality of the hair at the root, causes falling hair, and, of course, finally baldness.

Its "uplifting mission: "Of course," said his intimate friend, "you succeeded in making the Senate postpone its action to the last possible moment with your four week's speech, but what practical good did you accomplish by it?"
