VOL. XXXVIII. NO. 6621. HONOLULU, HAWAII TERRITORY, TUESDAY, OCTOBER 27, 1903. PRICE FIVE CENTS.

WENT ASHORE IN A FOG

The Fate of Old Time Pacific Coast Vessel.

SEATTLE, Wash., Oct. 26.—The steamer Centennial, Captain Klitgaard, is ashore on Alki Point. The vessel struck the land during a dense fog.

The Centennial is owned by the Charles Nelson Company of Seattle and has been engaged in the coastal trade. The vessel is 1,184 tons register, is 324 feet long, thirty-five and one-half feet in width, and draws 13 feet. The Centennial is a very old steamer, having been built in London in 1859.

The Centennial is engaged in the passenger and freight traffic between San Francisco and Seattle. The vessel is also known in Hawaii having made several trips to Maui ports.

JIMMIE TAKES ANOTHER FLOP

Jimmie Boyd, the renegade Republican who deserted to the Home Rule camp, has professed to be a friend of High Sheriff Brown. But he made an attack on the latter last night in a speech on the Kakaako sand lot. He drew the color line sharply when he said, "Why don't you vote for a man of your own color?" referring to John Wise.

The reason which Boyd gave for his sudden antagonism to Brown, was that the latter had arrested "two of his workers" during the afternoon.

Reference to the police record for yesterday discloses the fact that the "two workers" were arrested at the Fishmarket for being drunk and disorderly. It was brought to Boyd's attention when he gave this reason, that it was a poor return for the kindness shown by High Sheriff Brown to Boyd when the latter was arrested on a charge of embezzlement of public moneys.

THE DATE IS FIXED

Ex-Delegate R. W. Wilcox May Have State Funeral.

The date of the Wilcox funeral was definitely set yesterday for November 8th, a week from Sunday. The date was fixed with reference to the coming election, the object being to allow Home Rule voters a chance to go to the polls, which those from the other islands would not have a chance to do had the time been set for next Sunday.

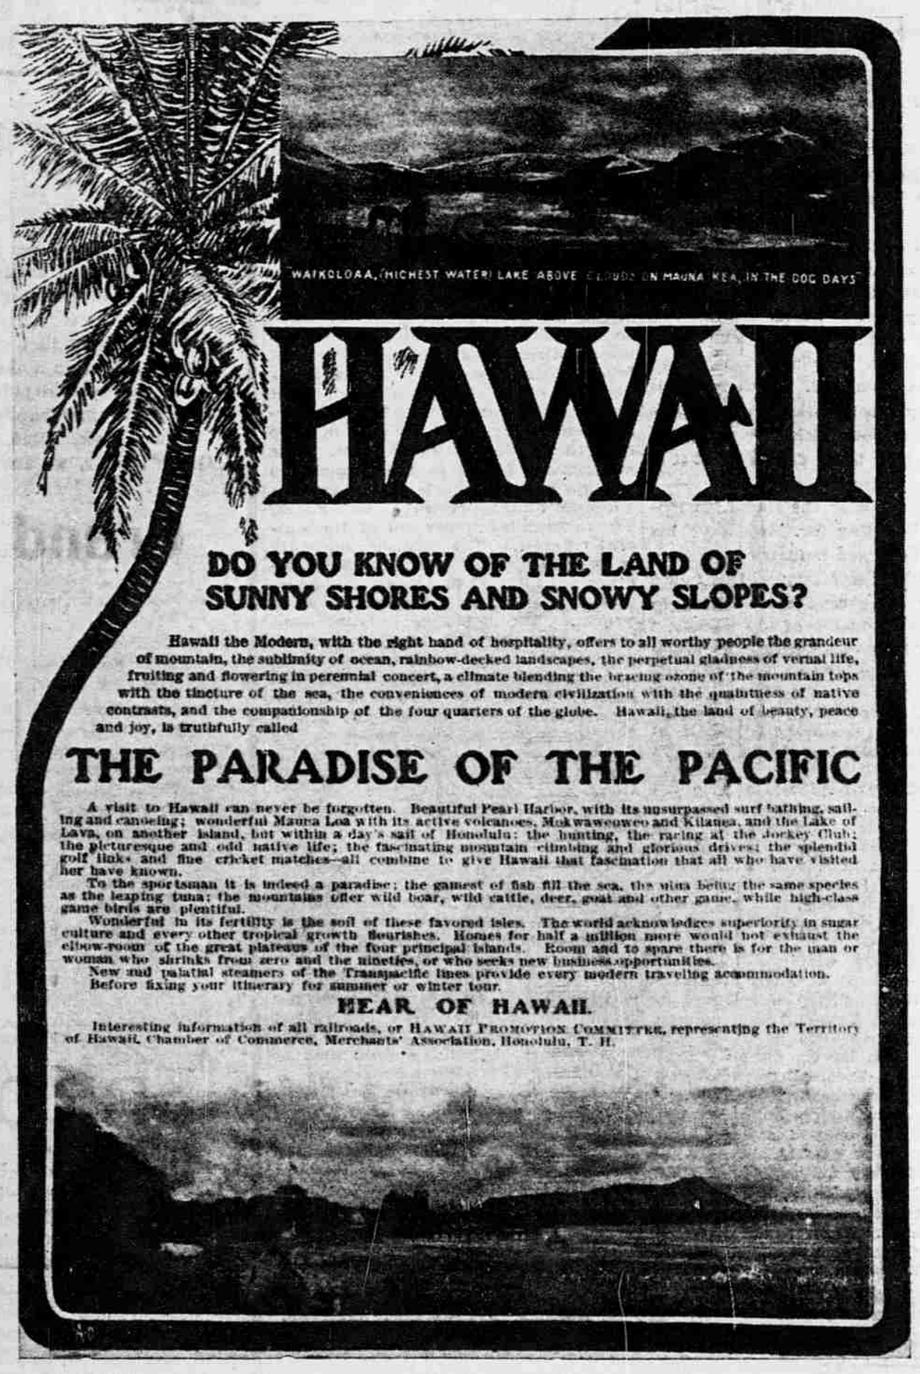
A meeting of the committee having the matter in charge was held yesterday afternoon at Jas. H. Boyd's office. The date was then fixed definitely for a week from Sunday, and if Governor Dole consents the ceremony will be held in the old throne room at the Capitol building. A committee was appointed to call upon the Governor with a request for the use of the room for the funeral and for several days preceding the service. It is the intention to allow the remains of the Home Rule leader to lie in state at the Capitol, and if permission is not received then at the Punchbowl residence of the deceased.

The National Guard, the government band and the police will take part in the funeral procession. The Catholic church, Bishop Libert, will be in charge. Delegate Wilcox was a member of that church and he will be buried in the Catholic cemetery on King street. It is possible that the St. Louis College band will also take part in the services. Bishop Libert will officiate at the services in the Capitol.

The body will lie in state at the Wilcox residence Wednesday, Friday and Sunday of this week after nine o'clock in the morning. It is the intention also of the committee to permit other religious bodies to hold services at the house next Sunday if they so desire.

A guard of honor is stationed at the bier of the dead leader constantly. Besides the police guard, the Home Rulers are themselves watching at the side of the dead chieftain. A detail of one leader with six Home Rule standard bearers has been made, and the guard is changed every two or three hours. Wilcox's father is here in Honolulu. He has been living with his son for the past two years.

MORE SNOW FOR PEOPLE WHO SEEK TROPICS



Tourists who will be looking around next winter to find snow and cold are having the low temperature facilities of Hawaii advertised as above in Ainslee's Magazine. An arctic landscape tops the picture but the rest is disappointing to the blizzard-seekers in that it introduces rainbows, vernal life and a perennial concert of fruits and flowers. "Worthy people," who are the ones especially invited here, will be in doubt whether to bring furs and flannls or muslin and shade hats. The opportunity for advertisers to get in on the leaflets with a fine line of skates, sleighs, wolf robes, warming pans, steam-heaters, Tom and Jerry and grate coal is equally good with those who wish to sell refrigerators, ice-cream freezers, fans, mosquito-netting, straw hats, negligee shirts, linen-dusters and the sheet music of "A Hot Time in the Old Town."

GOVERNOR DOLE REPORTS TERRITORY PROSPEROUS

Substantial Increase in Production of Sugar and Shipments of Products for the Year Ending June 30, 1903.

Governor Dole, in his report to the Secretary of the Interior, Washington, transmitted the first of this month, gives facts and figures revealing substantial progress, both industrially and commercially, made by the Territory of Hawaii for the fiscal year ending June 30, 1903.

The following quotations, together with abstracts of tables not reproduced here, are from the Report:

DECIDED IMPROVEMENT.

"There has been an increase in the value of shipments out of the Territory, not including specie, over last year of $1,481,703. The main part of this increase is in the one item of sugar, its increase in value over the shipments of the last period being $1,390,571. This is a decided improvement over the comparative statistics of the years ending June 30, 1901, and June 30, 1902, which show a falling off in the value of sugar shipped in the latter as compared with the former of $3,173,810.41, although the weight of sugar shipped in the latter year was greater than that shipped in the former by 29,674,123 pounds.

SUGAR PRODUCTION INCREASE.

"The statistics for the last three periods show a steady increase in the production of sugar, the increase in the year ending June 30, 1903, of sugar shipped being 54,272,063 pounds over that of the previous year, and 83,931,186 pounds over that of the year ending June 30, 1901.

(Continued on Page 3.)

JUDGE ESTEE IS VERY LOW

Doubtful if He Can Survive Very Long.

Judge Morris M. Estee is dying at the Sanitarium of Miss Johnson.

His wife and United States officials are at his bedside and his chances for many hours of life are very slim. Shortly after midnight his condition became very critical and it was stated that he might die within an hour but could not live for more than four hours.

At two o'clock this morning the Advertiser called up the sanitarium by telephone. Dr. Mays in response to an inquiry stated that the condition of Judge Estee had undergone a very critical change and that it was doubtful if he could live very long.

Later United States Attorney Breckons and United States Marshal Hendry went to the bedside of the dying judge, accompanied by Miss Ryan who has been his stenographer for many years.

At half past two o'clock it was stated that Judge Estee might die within an hour but that he could not live more than four or five hours. His case was hopeless.

The judge has been ailing for a couple of weeks, but prior to that time had been in ill health, and on Saturday it was decided that his only chance for life would be through an operation. He was attended by Doctors Mays, Wood and Day and was operated upon at Miss Johnson's sanitarium on Saturday. Judge Estee rallied from this but never improved to any great extent.

Shortly after midnight the condition of Judge Estee took a bad turn for the worse. At two o'clock this morning the Advertiser telephoned Miss Johnson's sanitarium and it was stated that Judge Estee's condition was very critical and that it was doubtful if he could survive for more than a few hours.

Dr. Mays told an Advertiser reporter that the Judge had had a very critical turn for the worse and that it was doubtful if he could live very long.

GEARS STILL FIGHTING CAMPBELL ESTATE IN CALIFORNIA

Big Suit Filed at San Jose in Which Charge of Conspiracy Is Made.

Rebellion Going at a Whirlwind Pace in Santo Domingo---Rebels Capture Santiago.

(ASSOCIATED PRESS CABLEGRAMS.)

SAN JOSE, Oct. 26.—Attorney Gear today filed a suit against Miss Alice Campbell, Mrs. Samuel Parker, and trustees Carter and Brown of the James Campbell estate, in which he alleges a conspiracy in connection with the transfer of the title of the St. James Hotel from the estate to Miss Campbell. He asks that the minor children be declared half owners of the hotel and that the defendants be adjudged trustees of the property.

REAR ADMIRAL BOWLES RESIGNS.

WASHINGTON, D. C., Oct. 26.—Rear-Admiral Bowles has resigned from the navy and will become president of a shipbuilding company.

Rear-Admiral Francis T. Bowles was chosen by President McKinley nearly three years ago to succeed Rear-Admiral Hichborn as Chief of the Bureau of Construction and Repair of the Navy Department. Mr. Bowles was born in Massachusetts in 1858, and is of an old New England family. He entered the Naval Academy at Annapolis in 1875 and paid especial attention to the work of naval construction. In the last year of his course he applied for permission to attend the School of Naval Architecture at the Royal Naval College at Greenwich, England, and the Secretary of the Navy secured permission from the British Government for Mr. Bowles and a classmate to take the three years' course there. Returning to the United States in 1882, Mr. Bowles was appointed Secretary of the Naval Advisory Board. For four years he held the position, and was an ardent advocate of the new ideas in naval construction that have made the strength of what is termed our New Navy. In 1886 he was made Naval Constructor at the Norfolk Navy Yard, and in 1895 was detailed as Chief Naval Constructor at the New York Navy Yard—or the Brooklyn Navy Yard, as it was then termed. During his career he has not only superintended the construction of battleships, but an interesting fact is that during the Spanish War he personally superintended the fitting out of nearly fifty auxiliary cruisers.

REBELS CAPTURE SANTIAGO.

CAPE HAYTIEN, Hayti, Oct. 26.—The Santo Domingo rebels by a vigorous move have captured the town of Santiago. The rebels are moving with surprising rapidity in their attacks upon the chief towns of the country.

Santiago, the Dominican city which has fallen into the hands of the rebels, is the most populous inland city of Santo Domingo. It is 85 miles from the capital, Santo Domingo, and is situated in the most thriving and richest portion of the Republic.

TO INVESTIGATE NEW YORK POSTOFFICE.

WASHINGTON, D. C., Oct. 26.—A rigid investigation is to be made soon into the affairs of the postoffice at New York. It has been rumored that there has been laxity in the methods of conducting the office and that there has been extravagance.

AFFIRM HAWAII VERDICT.

SAN FRANCISCO, Oct. 26.—The Circuit Court of Appeals has affirmed the verdict of the Federal Court in Hawaii District in the case of Campbell vs. Hackfeld.

PHILIPPINE CUSTOMS RECEIPTS.

WASHINGTON, D. C., Oct. 26.—The Custom House receipts for the past six months in the Philippines have amounted to $4,500,000.

SUGAR INDUSTRIES OF HAWAII AND TRINIDAD

William Kay, a Planter From West Indian Island, Gives His Impressions of Plantations in These Islands---Visited Oahu and Hawaii.

William G. Kay, a sugar planter of Trinidad, who has been spending three weeks in the islands in a study of the principal industry here, visited Honolulu plantation with Col. G. W. Macfarlane on Friday and again went down the Oahu Railway line for a visit to Ewa plantation. Previously he visited nearly all the plantations on the Hilo and Hamakua coast, and before he returns home intends to inspect the Kauai properties. Mr. Kay is more than pleased with the opportunities given him for a study of methods in use in what he calls the most up-to-date sugar country in the world, and he has been given many new ideas which will be of benefit to his plantations, when he returns to Trinidad. What impressed Mr. Kay most while in the islands was the enormous yield per acre, the production here being double what it is in his own country.

In an interview at the Hawaiian Hotel Friday evening Mr. Kay gave his views of the sugar industry both here and in Trinidad and they will be found interesting by everyone interested in the principal industry of the islands.

"I came here primarily to study steam cultivation and to look into the methods of production in Hawaii," said Mr. Kay. "Your country has a world-wide reputation as being foremost in methods of sugar production, you know.

"We tried steam plows in Trinidad about twenty or twenty-five years ago, and they were not a success. The plows used were crude and there has been great progress since. So I came down to study their use. Mr. Fowler who visited Trinidad some time ago gave me letters of introduction to some of your planters.

"Conditions are widely different in Trinidad and Hawaii. There is a difference in the condition of soil and in the rainfall. In Trinidad our average production is two tons of sugar per acre—here you have double that amount. Porto Rico, Demerara and Cuba are much above the two ton average. Porto Rico figures on about the same production as you do here and they average four tons to the acre.

"Our soil is very different from that you have to do with here. A large portion of the sugar land in Trinidad is flat or bottom lands, which are difficult to drain. We have no irrigation or pumping machinery, and depend entirely upon the rainfall. Our average annual rainfall is eighty inches. We have a wet season and a dry season; the three months of the dry season are utilized for grinding our cane. Without the dry weather we would have a hard time cutting cane because of the water on the bottom lands. It is generally dry a portion of January, February, March and a part of April. The wet season breaks early in May. The grinding has to be done in the early part of the year. We generally plant in October and November and the early part of the dry season and reap the crop the following year, giving it from fourteen to fifteen months to mature.

"The total sugar output of Trinidad is about 60,000 tons yearly. It used to be larger but has dropped. That was in the day of the smaller plantations, from four hundred acres and up. They couldn't be run on a paying basis though, and now we have large estates. Some of them are as large as those on Hawaii, although as a rule they are smaller.

"Cocoa and asphalt are exported as well as sugar, these three being our principal exports. Lately too we have been boring for oil in the asphalt district and some oil has been found, but not in flowing quantities. We could use oil very well as fuel, as coal costs considerable with the duty, and there is also a heavy duty on oil. The plantations could make good use of oil as fuel, as is being done here now.

"Sugar costs us from forty-five to forty-eight dollars to produce—the average cost here I am told is from forty to forty five dollars per ton. It is almost impossible to say what sugar nets us. Last year during the depression due to the bounty-fed beet sugar, we had to meet the competition and sell our sugar at cost price on the estate. The planters have been hanging on now for some years; some of them at a loss, waiting for the bounty system to end, for naturally with no prospect of the continental bounty being abolished capital was loath to invest in our main industry. In Hawaii you have the benefit of the protection given by the United States.

"Our fields are worked almost entirely by negro and East Indian labor. Our negroes I consider to be much superior to the southern negro of the United States. Unskilled field labor in Trinidad costs from forty to seventy cents a day, although it is hard to strike an average, because we have so little day labor, doing our work almost entirely by the piece. Our field labor costs from forty to forty-five cents a day. Our indentured East Indian immigrants cost about twenty-five cents a day, and the cost of keep runs the expense to forty cents. The government brings in the immigrants and we pay two-thirds of the expense through an export duty on sugar. The other third comes out of the general revenue. The term of indenture is five years, after which the East Indians are allowed to do as they please. About one fourth of them go back yearly. We get four or five shiploads annually, each trip bringing six or seven hundred laborers. About one-third of the immigrants brought in are women. Generally the East Indian remains with us and engages in farming, many of them going in also for shop keeping and other pursuits. There are no skilled artisans among them, that class comes from the negroes. The East Indian becomes a good citizen.

"Our fields are planted in twenty or twenty-five foot beds with drainage canals down each side. We have no pests to contend with of any moment, although the borer does some damage. Our chief danger is to the young cane from droughts or floods.

"I spent a fortnight along the Hilo and Hamakua coasts since coming here," continued Mr. Kay, "and visited many of the plantations along the way. This week I visited Honolulu plantation and after seeing a few more of the Oahu estates will go to Kauai. From my observations so far, I believe the Hawaiian planters go in for more intense cultivation; they cultivate far more than we do; that is probably because the soil is more fertile. I drove through the Hamakua district from Hilo to Waimea. The most prominent impression one gets is the yield—the large amount of cane standing. Many of the estates are broken up by ravines and gulches and I think are more difficult to work than our plantations. In Hilo the grinding plants are superior, although I did not like the arrangement of the mills. The Honolulu mill is splendid though, I like the arrangement of it immensely, especially the labor saving devices and the arrangement of the interior, requiring a minimum of supervision.

"In the West Indies triple crushing is the exception, while here I find it to be the rule. In Trinidad the double rollers are used almost entirely. Your plantations are larger also in acreage and tremendously larger in output. I was impressed with the purity of the juice in the Hilo and Hamakua districts. I was struck also with the great kindness and courtesy shown everywhere, and I certainly appreciate it."

Mr. Kay will go to Kauai this week.

Talk by Mr. Edgar

The special meeting of the Hawaiian Engineering Association at Castle & Cooke's hall last night was well attended, a large number of plantation men being present, as the papers and discussion were directly in line with the problems confronting them in the production of sugar. The principal paper was that of Mr. Edgar of the Dearborn Chemical Company on "The Treatment of Boiler Feed Water," and another was on lubricating oils. Both subjects were interestingly treated from a scientific standpoint. A discussion of the papers was entered into by W. W. Goodale, Mr. Hedemann, Mr. Gartley and Mr. Fuller.

AFTERNOON DISPATCHES FROM ASSOCIATED PRESS

BREST, France, Oct. 26.—The French bark Savoyard, with thirty-one members of the crew and five women passengers, was lost today.

YOKOHAMA, Japan, Oct. 26.—The Korean Government has lodged a formal protest against the Russian fortification of Yongampho.

CONSTANTINOPLE, Turkey, Oct. 26.—The military commander at Azir reports that the Turkish troops have been routed by Arab forces.

SHERIDAN, Ore., Oct. 26.—The local bank at this place was dynamited today by a workman named Scroggins, who succeeded in carrying away $7,000.

CAPE HAYTIEN, Oct. 26.—Rebels have established a provisional government in Northern Santo Domingo. The revolt in favor of ex-President Jiminez is spreading.

TOKIO, Japan, Oct. 26.—The Russian Minister at Seoul, Korea, has issued orders that the Japanese Secretary refused a landing at Yongampho shall be allowed to land.

LONDON, England, Oct. 26.—The officials at St. Petersburg state that there is no occasion for war insurance among the marine insurance companies. The tenor of all advices from St. Petersburg are of a decidedly pacific tenor and indicate a belief in Russian circles that the danger of war with Japan has passed.

Moving to Our New Store

The world moves perpetually and men and institutions must keep pace with it to attain success. This thought has been constantly before us in building our commodious new store in Alakea street, which will be formally opened about November 15.

Everything that skill, experience and enterprise could accomplish has been done to make this Honolulu's leading store and we will soon invite the general public to inspect the new building with its display of elegant merchandise.

In the meantime, at our temporary quarters, corner of Fort and Queen streets, we are holding a

Grand Removal Sale

COMMENCING MONDAY, OCTOBER 26.

Remember this—that all our stock is absolutely new, but, rather than move it we will sell the entire line at a liberal discount. Opportunity is here with immense bargains—the same chance cannot come again. Here are sample bargains in our household department that are certain to sell on sight:

Good quality Honey Comb Towels, 85c. dozen.
Extra Heavy Turkish Towels, 18 x 52, $1.90 dozen.
Big Value, Turkish Towels, 23 x 52, $2.00 dozen.
Fine Quality Turkish Towels, 23 x 52, $2.25 dozen.
Can't be Beat—Turkish Towels, 24 x 52, $3.50 dozen.
Extra Superior Turkish Towels, 24 x 52, $4.50 dozen.
10-4 Bedspreads—Removal Sale Price, 85c.

LIMITED

Temporary Premises, FORT AND QUEEN STREETS.

BARBERS TO HAVE REST.

The man with a stubby beard or long hair who waits until 7 p. m. after Monday next, to have tonsorial attention, will have to go without either. The boss barbers of the city have decided that on and after November 2 they will let their journeymen barbers off at 7 p. m. instead of at 8 as heretofore in order that the razor wielders may have opportunity for rest and recreation.

Formerly the journeymen worked from 7 a. m. to 8 p. m. with an hour for lunch and half an hour for supper. Now the journeymen will forego their half-hour for supper and the boss barbers will meet them half way by cutting off a half hour.

The boss barbers have recently been confronted with the problem of getting men from the coast where the hours are from 7 a. m. to 7 p. m. but at less wages. The prospect of higher wages here, but longer hours has not struck the coast barbers favorably and one or two shops here have been disappointed in getting men. The new schedule here will not lower the wages of the barbers. It does not apply to Saturdays or evenings before holidays.

The shops which have signed the agreement are the Young Hotel, Hawaiian Hotel, Silent, Criterion, Union, Waverley, and Pantheon. Only two shops failed to enter the agreement.

PROPHECY HIDDEN IN THE ERUPTION.

The Aloha Aina says with reference to the present eruption of Mokuaweoweo:

Madam Pele is displaying her wonderful beauty with her unheard of antics; she has gone home to her distant castle in the heart of Mauna Loa; the queen of the genii of Hawaii is showing us how she rejoices—rejoices for what?

Is it rejoicing for the wonderful news, for the new life that this nation has received for this great boon of balloting that has been returned to us, giving us the power to select and regulate our government affairs? We, the people who will have the responsibility of the civil government of the people of the county in their hands? If not, is she rejoicing for the benefits to be received by our beloved Queen next year?

Oh, Sentinel, what has the night? Is this a prophecy of a dream that is being shown to us of what is to come to her offspring?

Yes, it is, so says the sentinel.

There is One Make of Clothes

that in every way equals the expensive custom tailor's products, yet costs but a trifle more than the common ready-made kind.

They are the clothes that bear this label—

The Stein-Bloch Co. Tailors REGISTERED 1900

a label that has become famous throughout the country as the "imprint" of the makers of

The Most Superb Apparel

that high class tailoring-skill and human ingenuity ever produced.

We are the agents for Stein-Bloch Smart Clothes here, and invite you to call and examine every feature of the garments as critically as you know how. You will be mightily pleased and sure to learn something about "fine clothes-making" that will be worth while knowing.

POSSIBILITIES FOR FRUIT GROWING IN HAWAII

Byron O. Clark Says That the Banana, Mango, Pineapple and Alligator Pear Are All Profitable Articles of Export.

There are wonderful openings for the fruit grower in Hawaii according to Byron O. Clark, the head of the Wahiawa colony. Mr. Clark read a paper at the Farmers' Institute meeting on Saturday last upon "The Possibilities of Fruit Growing in Hawaii," in which he sees success for those who wish to make the experiment. Mr. Clark has shown that fruits can be successfully grown in Hawaii and what he says is the opinion of an expert.

Mr. Clark's paper was as follows:

The possibilities of fruit growing in Hawaii are to be measured by the ability of those engaged in the industry to make the most of whatever advantages for production are possessed climatically, and of our location as a distributing point for the world's markets: and on the other side, their ability to overcome the natural disadvantages that exist.

FREEDOM FROM FROST.

Our immunity from frost and devastating storms is an advantage that Florida and California would pay millions to possess. If they could secure the same protection by any scientific means they would gladly give the half of their possessions and consider it a good investment. But our climate is not perfect for fruit growing except in the sheltered valleys or to the leeward of sheltering timber: the one great climatic drawback is the wind during the spring months. Not by its force is it destructive, so much as from some property—excess of chlorine or other element—with which it is laden during that season of the year. With protection from this wind, the long list of tropical fruits and many of the temperate zone can be grown on these Islands to perfection, by selecting proper soil and altitude. The withering effect of the wind is not confined to the tropical fruits, for three days of this wind will destroy a most promising crop of peaches when they are first setting, if the trees are unprotected by a wind-break of some kind. It is not unconquerable as are the elements our mainland friends have to contend with; a good break-wind of any suitable tree, will, in three or four years, give almost complete protection to such trees and plants as are injuriously affected by it, and it is not such an obstacle to overcome as to in any way prevent the planting of all kinds of fruits in their proper location.

MUST FIGHT PESTS.

Insect pests of many kinds have been imported, (as also have their parasites in many cases). These are to be found in all fruit growing sections and it is only by constant warfare that any merchantable fruit is produced in most sections of the civilized world, today. We shall have to enter the field and fight the same as others if we expect to be successful. It is only a question of methods, scientifically applied, to assure us the same degree of success that other countries attain. It should be easier to maintain a comparative degree of successful warfare in a small insular country like ours than on the mainland with thousands of miles under cultivation and with unlimited transportation facilities, which accelerate the dissemination of insect pests as well as the commodities of commerce. Five years ago in my report as commissioner of agriculture, I called attention to the increased danger of importing various agricultural enemies with the advent of annexation and the consequent increase of commerce. This prediction has been verified already in a marked degree, and it is gratifying that our present agricultural board are alert to the situation and have already nipped in their incipiency several dangerous importations, and have established safeguards for the future.

FEWER DISADVANTAGES.

The foregoing presents the main features of the situation pertaining to the possibilities of fruit growing in Hawaii: there are fewer disadvantages than in most countries, and as many advantages,—including a good local market for more than is at present produced. Outside of pineapples and bananas we export no fruit worth mentioning, while we import many thousands of dollars' worth of citrus fruits than can be grown here if the same care and attention is given as in California; moreover, these fruits can be supplied to the mainland at a season when their fruit is out of the market. The finer varieties of mangoes would find as excellent market on the Coast, yet we do not produce enough for our own use. Grapes can be put upon the coast markets at a season when there are none to be had there, and no doubt would command fancy prices. To grow these we have the Japanese beetle to contend with, but it is becoming less troublesome each year and the prices obtainable warrant extraordinary care in growing them and protecting them.

BANANA CHANCES.

There has been much said of late about the Bluefield banana. My recollection of this fruit in California was that the Hawaiian variety (Dwarf Cavendish) was preferred for eating qualities, though not so large. Dealers on the Coast say their banana market from October to May is at our command if we will only send our best fruit;—we have many choice kinds that have never been seen in California that would bring fancy prices there. Yet we do not grow enough for our own trade. Why not grow these choice kinds in quantity for export?

THE ALLIGATOR PEAR MARKET.

Alligator pears retail in our own local market for from five to fifteen cents each, and command three to six dollars a dozen in San Francisco for choice fruit. The tree thrives well in most places in the Islands and will fruit well if protected from the blighting winds when it is blooming, and when the fruit is young. They fruit younger than an orange tree: a ten-acre orchard in good bearing would be better than sugar stocks or a gold mine.

PINEAPPLE PROSPECTS.

I might continue to point out special kinds of fruit that thrive with good care and attention to necessary conditions, but I will close by naming the pineapple, the one fruit that is receiving the attention of horticulturists on the Islands to any considerable extent.

This fruit comes into bearing in from eighteen to twenty-four months for the first crop and will fruit each year thereafter from the rattoons for from three to five years when given proper space. It has a few enemies, which are easily controlled, and is easy of culture.

Five years ago it was impossible to get the average man of Hawaii to "talk pineapple" as there was "no money in it." "Had it not been tried and proved a failure?"

The fruit was all right but could not be sold. What has brought about the change of sentiment that prevails today? Merely the stick-to-itiveness of a few individuals who continued to plant and sell the fruit for what they could get, often at a loss. They made people acquainted with the fine quality of the Hawaiian product, just as the pioneer growers of fruit in California did, and now the fruit sells itself, and the problem is to supply the demand.

Pineapple growing and packing is destined to be next to sugar in line of importance of Island industries. They grow to perfection and are pronounced superior to those produced in other pine-growing sections.

They require no protection of any kind and a plantation can be established here for one-half as much as in Florida, and this, too, with positive immunity from cold snaps such as periodically visit that country.

The market is constantly enlarging, as a quality of fruit that is fit for food is available. The average fresh or canned product found in the markets today is not such as to encourage the use of the fruit as an article of regular diet. The Hawaiian product, once used, creates demand for more, and it will become as common on the tables of consumers as are peaches, apricots, and the other standard fruits of California. If we maintain the high standard of quality now being put upon the market and look to the proper distribution of it, we should control the American market at least, as we can produce the fruit as cheaply as other pine growing sections. California is able today to compete in the world markets, successfully, as to price and quality, with fruits that, twenty-five years ago, it was believed could not be produced profitably in competition with the cheap labor of Europe.

The same general rule will prevail with our pineapples and other special lines of fruit culture we may take up. The country having the greatest natural advantages for producing a given crop, need not fear the competition of its less fortunately situated rivals in the production of that crop.

Daniel Nuuanu, the Hawaiian who killed Kaaihue at Puuloa on Sunday afternoon, appeared in Police Court yesterday and waived examination. Judge Lindsay committed him to the Circuit Court.

A CONTENTED WOMAN.

Aside from form or features, she has an attractiveness all her own. The bloom on her cheek, the elasticity in her step, the ring of her voice, her enjoyment of life—all these are magnets which draw others to her side. Wonderful and valuable as it is, health is not so difficult a thing to obtain as some discouraged ones think. Most of the troubles of women arise from impure blood, impaired nutrition, low vitality and general debility. Modern science furnishes the most successful of remedies for these conditions, namely WAMPOLE'S PREPARATION. It is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Taken before meals it improves the appetite, makes fat, restores vitality, enriches the blood and cures those weaknesses peculiar to the sex, which are the seat of their troubles. It is a blessing to Tired Wives, Nursing Mothers and Girls growing into womanhood. It colours the pale faces and rounds out the hollow chests. In a word, it nourishes and develops the entire body, and brings happy surprises to feeble, hopeless and discouraged sufferers. Dr. E. J. Boyes says: "I have found it a preparation of great merit. In a recent case a patient gained nearly twenty pounds in two month's treatment, in which it was the principal remedial agent." It is the typical medicinal success of our age, for time has proved our claims are supported by results, and a remedy which acts in harmony with nature's own efforts and processes. No demand has been made upon it for relief and cure, that has not met with instant response. Effective from the first dose. "You cannot be disappointed in it." At chemists.

GOVERNOR DOLE REPORTS TERRITORY PROSPEROUS

(Continued from Page 1.)

"The shipments of coffee show an increase of 720,456 pounds over the shipments of the previous period and a falling off of 689,615 pounds from the shipments of the year ending June 30, 1901. The shipments of coffee the past year were worth $110,216 more than the shipments of the year before, and $75,037 less than the shipments of the year ending June 30, 1901; all of which would indicate a partial recovery in this product from the depression of the year to June 30, 1902.

"Rice is inevitably a diminishing product, both from the competition of the new rice fields in Texas and Louisiana and the decreasing numbers of Chinese in the Territory."

IMPORTS AND EXPORTS.

The total value of all shipments received from the United States for the year ending June 30, 1903, was $12,675,026, and the total value of imports from foreign countries was $3,142,013, making the grand total of merchandise brought into Hawaii $15,817,039. The total value of articles exported from Hawaii to the United States mainland for the same year was $26,242,869, and to foreign countries $32,569, making the grand total of $26,275,438.

The following table shows the total value of domestic products shipped to the United States mainland and exported to foreign countries from Hawaii during the fiscal year ending June 30, 1903:

Article.	Quantity.	Value.
Sugar, raw	774,825,420 lbs.	$25,310,684
Coffee	1,930,554 lbs.	236,860
Rice	234,980 lbs.	10,220
Fresh fruits	.....	66,398
Honey	.....	15,424
Hides	917,663 lbs.	80,190
Wool, raw	364,794 lbs.	43,552
Other articles	.....	464,876
Total value		$26,228,204

All of the sugar, hides and wool went to the United States mainland. Domestic products sent to foreign countries consisted of coffee valued at $9,574, rice at $2, fresh fruits at $248, honey at $144, and articles not named at $17,061, a total of $27,029.

THE CARRYING TRADE.

The following table shows the value of the carrying trade to and from Hawaii for the year ending June 30, 1903:

	Imports.	Exports.
American	$ 985,694	$26,261,003
British	1,114,986	11,642
French	24,989	.....
German	351,328	.....
Norwegian	86,789	.....
Other	578,245	2,793
Totals	$3,142,013	$26,275,438

NAME OF WISE GOES ON BALLOT

John H. Wise's name will appear upon the official ballot for Oahu county as candidate for sheriff. He is put up by the Home Rule party in place of Robert W. Wilcox, deceased, and in opposition to A. M. Brown, the Republican candidate. An opinion by Attorney General Andrews was rendered yesterday morning, which held that the nomination of Wise presented in due form on October 24 at 11:50 a. m., the election to take place on November 3, was within the ten days' limit required by law.

Many decisions in the United States in such cases exclude both first and last days, but the Supreme Court of Hawaii held in the Hocking case, decided in 1892, that a nomination filed on November 15 for an election held on November 29 was valid where the law required an interval of fourteen days between nomination and election. The Attorney General concludes:

"This case is directly in point, and while there are a number of decisions to the contrary, I do not believe that we are justified under the circumstances in concluding that the court would reverse itself, and therefore advise you that the nomination of Mr. John H. Wise, for county sheriff, has been made in time."

The course advised, which Registrar Buckland adopts, will prevent a great deal of trouble, loss of time and the defeat of secrecy in balloting, as under another provision of the law a candidate may be substituted for one dying between nomination and election times by having his name written upon the ballot.

Kohala Water Franchise.

The public lands notice of sale of land license to develop the water in Kohala mountains has been amended so as to make the upset percentage on net revenues five instead of ten per cent. Governor Dole has sent a report of the Government's proceedings in the matter to Washington, and A. C. Gehr leaves in the Alameda for the national capital to try to stop the advertised sale of the privilege.

Ke Aloha Aina, the Home Rule newspaper, has come out strongly in favor of High Sheriff Brown for County Sheriff.

WALTER G. SMITH - EDITOR

TUESDAY : : : OCTOBER 27

PROSPERITY AND THE ELECTION.

The most signal proof of increasing confidence in the future of this Territory is the late action of the Treasury Department, in ranking Hawaiian bonds, to the extent of ninety per cent. of their face value, with Federal bonds, as security for banking operations. The Treasury Department is necessarily unaffected by politics, and its operations are strictly held within business lines. Its endorsement, therefore, of the Hawaiian loan is convincing evidence of Territorial solvency and credit, and evinces practical faith in reviving prosperity as the result of annexation and improving conditions.

There are numerous other indications of a turn in the local tide. The sugar crop has proved satisfactory. Many new enterprises are started, and in some of them rapid progress is being already made. The erection of substantial buildings shows confidence in real estate investments. The extension of street railroads, in several directions, to the suburbs of Honolulu corresponds to an increasing demand for such facilities and implies an enlarging population. All branches of industry are becoming more active. Heavy firms in San Francisco and in other large cities of the Union have established and are establishing connecting agencies in Honolulu. Capitalists in different States and in foreign countries appear to have lost the distrust which was so plainly manifested a year ago.

The Promotion Committee, aided by other local bodies, has done excellent work towards securing a large share of the tourist travel during the coming winter. Eastern and Western magazines and newspapers are specializing the opportunities for recreation and enjoyment that the Hawaiian Islands offered, and do not ignore statistics of our productions and suggestions of permanent settlement upon unoccupied lands. The railroad and steamship companies are cooperating heartily with these different movements for the spread of information and for the attraction of visitors to our shores. The local hotels have adopted schedules that insure comfort, without any necessary extravagance.

The immediate outlook is brighter than it has been for years. The foundation, however, of all our prospects that are worth having, is our identification with American communities. If this fact be not assured, the advancing waves of prosperity will soon recede. The election, so close at hand, is politically unimportant, but it is of material and vital consequence to the Territory itself. The Federal Administration and the Republican party do not specially need Hawaii, which cannot seriously influence the Presidential choice of next year, but Hawaii needs them. The spurious Home Rule of these Islands, on the mainland stands for no recognized interests. It is generally regarded as an effort at insulation, at a complete separation from the mass of the people throughout the United States. It is neither Democratic nor Republican, and depends for its success upon an anti-American policy, methods and aims, upon a false and exaggerated idea of local independence, which practically stands for the defunct monarchy and republic. It is a deliberate attempt to sacrifice territorial interests for the loaves and fishes, which are small in themselves and will not be expanded by any American miracle.

The success of the Home Rulers, of the stripe now in control of the organization, which was not even true to the memory of its dead leader, while it would probably be followed by Congressional restriction of the suffrage, would also hit prosperity in its tenderest spot, and should be sternly resisted by all voters, without distinction of party, who are true to the country and the flag and also desirous of promoting our solid interests. We need the minimum of laziness and tax-eating and the maximum of energy and accumulation. The policy of our suspended legislature, if perpetuated, would bankrupt Golconda.

FRUIT GROWING IN HAWAII.

There is probably no man in the Islands better qualified to speak on "The Possibilities of Fruit Growing in Hawaii," than Byron O. Clark, the head of the Wahiawa colonists. This was the subject of a paper read by Mr. Clark at the last meeting of the Farmers' Institute held Saturday at Wahiawa. Mr. Clark fully supports the position of the Advertiser—that there are splendid opportunities for the small farmer. Speaking from his own experience Mr. Clark finds that mangoes, bananas, alligator pears and pineapples are profitable export crops for the small farmer, and he points out possibilities in fruit growing which the average citizen of Hawaii seems slow to recognize.

Mr. Clark truthfully says that the farmer in Hawaii has fewer pests to contend with than the average agriculturist, a statement which the enemies of the small farmer movement will no doubt criticise from lack of comparative data. A war on pests, which is the chief hardship, Mr. Clark believes should be more successful in an isolated country, like Hawaii, than on the mainland, where that menace to agriculture is being rapidly eliminated. Immunity from frost is another advantage which this country has over Florida and California, and Mr. Clark is sanguine of the ultimate success of the fruit grower in Hawaii.

WINTER AND WAR.

The chances of war grow less in the Far East. Compromises are now proposed and besides, winter is in the air. Eight years ago the Japanese made a winter campaign in northern Korea and Siberia and they know, as Napoleon found out to his cost, that snow and ice are more dangerous foes than bullets and shells. Besides snow is the traditional ally of the Russ and extends scant friendship to the Japanese as was last shown in the Amori disaster. During the war of 1894-95, the little brown men, though successful on the coast, were not able to do much in the north. They failed to reduce Moukden and their commander, Yamagata, was frozen out and had to return, with his task uncompleted, to the warmth and cheer of his own country. Throughout the campaign the Japanese hardships were terrible and there was no such enemy as the Cossack to contend with.

For a war in Manchuria, northern Korea and along the Siberian line, the opening of spring is the proper time. Then if an invading army does well in its summer battles it will be able to establish itself in the comfortable, stone-built and walled cities for the winter, prepared to sally out in the succeeding spring and engage the enemy. But to begin a campaign in the winter against a numerous foe already intrenched in such places, would be to repeat the blunder of the Napoleonic invasion of Russia. It is nothing unusual in coastwise Manchuria to have the thermometer 20 degrees below zero; and the blizzards that blow down from Siberia are certainly as trying as any to be encountered in the northern part of the United States. The great majority of the Japanese, being people of a mild climate, find it hard to accustom themselves to the boreal blasts which are the breath of home to a Cossack of the Steppes.

While it is not alone the approach of winter which inclines the little brown men to compromise—there are financial considerations also—it has its strong bearings on their attitude. In fact climate has played an enormous part in the decision of war or peace ever since Napoleon's retreat from Moscow. Zero has settled more international troubles than cabinets or peace congresses, and its approach has within the past fortnight had a noticeable part in quieting the fiery spirits of the Balkans. If it should now bring Japan and Russia to terms, a statue of the Frost King should be erected at The Hague.

THE MERCHANTS' ASSOCIATION.

[The Official and Commercial Record].

The third quarterly meeting of the Merchants' Association of Honolulu for the year, held last week, was an exceedingly gratifying one. The list of work accomplished is one to be proud of. The matters which the association is still devoting its attention to are full of hope for the community.

The work accomplished in the legislature was:

The passage of an act allowing the garnisheeing of the salaries of government officers;

The repeal of the act which exempted wages and property of such high value from execution, as to make the collection of an honest debt from the average citizen an impossibility;

The passage of an act allowing suits to be brought in the district where the creditor lives, instead of his being compelled to go to the district where the debtor lives;

An act requiring foreign corporations doing business here, to pay a license, thereby placing them on an equality with local merchants who have to pay not only a license fee, but a property and income tax as well;

The principal work of the association other than legislative, has been:

An endeavor to secure the improvement of the telephone system. This effort has been only partially successful.

The securing of congressional assistance toward payment of the fire claims, in which the highest success has been achieved;

The establishment of a tourist promotion bureau, which is beginning to make itself felt, with every prospect of becoming a power in the land.

The work laid out for the future is so comprehensive that if but a small part is accomplished during the coming year, a substantial advance will have been made.

The following is an enumeration of the main points which the association is now working for or intends to take up during the year.

1. Beautifying Honolulu;
2. Systematic and thorough street cleaning;
3. Securing the removal of poles and underground installation of telephone and electric wires;
4. Revision of the tax laws;
5. Regulation of awnings, signs and sidewalk curtains;
6. The early and thorough reformation of the telephone system;
7. An Annual Territorial Fair;
8. The building of coal bunkers on the wharves;
9. The adjustment of inter-island freight rates, so that inter-island produce can be shipped at a profit, now almost impossible by reason of prohibitive rates;
10. To secure a longer stay in port of the through steamers, and get them to run on schedule time;
11. A campaign to secure a naval station at Pearl Harbor and an Army Post at Honolulu.

The Merchants' Association is a credit to Honolulu and its officers and Board of Directors deserve the thanks and hearty support of this community in their public-spirited work.

COMMITTEES FOR JAPANESE FAIR

The following named ladies will have charge of the various departments of the Japanese fair to be held this week Thursday and Friday, afternoon and evenings:

American Fancy Goods—Mrs. John Waterhouse, Mrs. Philip Frear, Misses Dillingham, Roth, Angus, Dickey, Hall, Jones, Waterhouse.

Hawaiian Table—Mrs. H. H. Williams, Mrs. Clarence Crabbe Mrs. Dr. McDonald, Mrs. Dr. Hoffman, Mrs. Henry Berger and Miss Alice Campbell.

Paper Flowers—Mrs. Parmelee and Mrs. Dr. Wayson.

Flowers—Mrs. Herbert Aitkin, Mrs. Josephine Marques, Mrs. Dr. Camp, Miss Catton and the High Chiefess Miss E. Kuwailanimamao Cartwright.

Candy—Mrs. Fred Smith, Miss Ada Whitney, Mrs. Wm. Whitney, Mrs. Crane and Miss Lyons.

Lemonade—Miss Minnie Downing, Miss Edith Lyle.

Ice Cream—Mrs. Bagwell, Mrs. Stone, Mrs. High, Mrs. McChesney and Miss Blois.

Lunch—Mrs. A. Coyne, Mrs. M. G. Johnston, Mrs. A. Lyle, Mrs. Bryant, Mrs. Kerns, Mrs. Ingham.

Rummage Booth—Mrs. Pearson, Mrs. Wm. B. Thomas.

The ladies having charge of the Japanese booths are Mesdames Kobayashi, Kawasaki, Komitsu, Ono, Isoshima, Fukuroda, Kumada Nakashima, Susuki, Sokomoto, Higaki, Ieshima,, Hida, Daimara, Katsunuma, Tasaka, and Kishimoto.

Proceeds will be used to build a new school and church for the Japanese. A liberal patronage is earnestly solicited.

BECKLEY TOURING ISLAND OF OAHU

Speaker F. W. Beckley has started on a tour of Oahu speaking in favor of M. K. Nakuina for clerk. Nakuina accompanies him.

Harry Murray, Republican candidate for clerk, objected to Beckley speaking against him from a Republican platform and so Beckley agreed to quit, although he is supporting the other Republican candidates in his tour.

Japanese Poison Case.

Tanaka, a Japanese, is under treatment at the Queen's Hospital for poisoning, and George Katoyaki is held at the Police Station under investigation. Katoyaki is believed to be concerned in the matter. On Sunday night Tanaka, accompanied by a friend, visited Mrs. Tanaka who is employed on Hackfeld street. Yesterday morning Hanaka was invited by Katoyaki, who is employed in the place next to where Mrs. Tanaka works, to go over to his place and have a drink of coffee. Tanaka drank the coffee and started for town. At Thomas Square he became violently ill and lay down on a bench. He was discovered and sent to the hospital, where the doctors said he was suffering from strychnine poisoning. A chemist is analysing portions of the contents of the victim's stomach.

NO OPI-M IN CHAMBERLAIN'S COUGH REMEDY.—Many cough cures contain opium. The effect of this drug is to diminish secretion of the mucous, and the relief afforded is only temporary. As soon as the effect of the opium passes off, the malady returns in a more severe form. The system is also weakened and rendered more susceptible to cold. Chamberlain's Cough Remedy does not contain opium in any form. It affords relief and leaves the system in a healthy condition. It always cures and cures quickly. Benson, Smith & Co., wholesale agents, sell it.

A 4 H. P. Fairbanks-Morse gasoline engine in first class condition, also 15 H. P. horizontal boiler for sale at a bargain. Consult our Classified ads for particulars.

The Alameda sails for San Francisco tomorrow morning at 9 o'clock from the Hackfeld wharf.

An Ancient Foe
To health and happiness is Scrofula—as ugly as ever since time immemorial.
It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.
"A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed and I have never had any trouble of the kind since." MRS. K. T. SNYDER, Troy, Ohio.
Hood's Sarsaparilla and Pills

The beauty of Carrara
Carrara paint is noted not only for its beauty, but as well for its lasting quality, its general superiority on every point over all other paints and the cheapness with which it can be used.
It lastslonger, spreads farther, looks better, has a permanent gloss and has more brilliancy than any other paint made.
It does not require a varnish to keep it bright and fresh. It preserves and brightens colors, and is the best wood preservative known.
It does not crack, chalk, fade or peel. Always the same in all kinds of wind, sun or weather.
It is not affected by any climate conditions, dust or dirt, and when washed does not stain or lose color or brilliancy.
It cannot be corroded like white lead paints.
It is the ideal paint for house, barn or fence, interior and exterior work.
Look at the houses in Honolulu painted with Carrara and compare them with those painted with other paints.

MOKUAWEOWEO—FROM A RECENT SKETCH BY GEORGE STRATEMEYER.

There is given below the record of the second party to reach Mokuaweoweo, the summit crater of Mauna Loa, which was furnished by members of the party to F. B. McStocker, manager of Olaa plantation, who had supplied them with horses for the journey. The illustration is by Stratemeyer.

THE PARTY STARTS.

"H. A. Gerloch, P. E. Dorland, B. L. Jones and C. J. Giddings went by wagon from Olaa to Dollaway's Halfway House 15 miles beyond the Volcano House where we left the wagon. Taking saddle and pack animals, with our guide met here, Shern Kinuakua, we went two and a half miles to Ainapo, about 3800 ft. elevation. Left here at 11 a. m., Oct. 16th, through very pretty ranch lands of the Hawaiian Agricultural Co., with nearly continuous koa groves for about ten miles. Between six and eight thousand feet we went through a very heavy thunder shower, flowing water down trail half way to the animals' knees. Last water hole at about 8000 feet.

"Our guide and another native, Oulu Lono, who was making the trip to learn the trail, named our camp Hale Huli. It was on pahoehoe about one mile above the ranch land. Some bushes and scrub ohia and grass for animals were found about 9500 feet elevation, some 12 miles from Ainapo. The weather did not clear after the shower but did during the night, and we had a beautiful clear morning. No frost and the elevation did not affect any of us.

CLIMBING HIGHER.

Breakfast. Left part of our packs and started at 7:45. Soon struck barren pahoehoe where one could see neither up nor down the mountain for any great distance, except in a few places. Trail is nearly all pahoehoe, some narrow a-a flows. The pahoehoe gives way in places, and is quite liable to break an animal's legs. Pahoehoe has a great variety of peculiar formations and it is all the eye can see, like water on the ocean, and makes one appreciate a guide and realize that he earns his $50, and that animals for the trip are reasonable at $25.

"Cooler as you proceed and more clothing needed. Two hours from crater we struck rain and sleet, turning to snow with very heavy thunder and sharp lightning. Snow not soft but hard; the round, stinging kind. Some fog made us all uneasy lest we should get stuck in fog or heavy snow. Lost trail once, but arrived at Mokuaweoweo at 2 p. m.

ON THE SUMMIT.

"Pitched tent at once and made ourselves and animals as comfortable as possible for the night and all ate heartily except one of us who did not eat for 24 hours. Did not feel comfortable but none of us got real sick. All suffered a good deal from cold. One slept in a cave, others close as sardines to keep warmer in tent.

"Arranged stone about 50 feet from edge of crater to break the wind and wrapped our blankets about us, to watch the numerous fountains of fire and rock three-quarters of a mile distant and 800 feet below us that no one can satisfactorily describe. Stayed till so chilled we had to huddle in our tent to get warm but got out occasionally to witness the fascinating fire. One of our party had four blankets but said if he went again he would take two or three more. Can't have too much clothing.

THE FIRE FOUNTAINS.

"Should judge there were from 25 to 40 fountains and never less than 15 playing at once. They extend from a cone on the left about 300 feet high, still spouting, to another cone about 200 feet high, should say 800 feet to the left, to a point 200 feet beyond this second cone. The fountains around the second cone are active all the time but for 300 feet from the cone on the left there were no fountains. I judged these fountains were from 20 to 250 feet high of molten lava, and rocks were thrown out to double that height. A lake of lava around the fountains and a lava flow about three-quarter mile long of irregular shape, but should judge average width of 500 feet. The flow is running almost directly east across the big crater toward one of the highest points on the cliff surrounding the crater.

WATER STRANGELY LOCATED.

"Found plenty of water in peculiar place, about 60 feet from the edge of crater in a crack about 3 feet wide at a point some 300 feet from where we camped. Cut through ice and took out 10 buckets at one time which had no effect on the supply. Did not get the least breath of heat or smoke from the crater and no hot cracks we could get near. The fountains roared like a heavy surf, accompanied by sound like falling stone walls of buildings.

NOTES OF JOURNEY.

"Was 26 hours from Ainapo to Mokuaweoweo, 10 1-4 hours were actually traveling. Returning to Ainapo 8 1-4 hours. Mr. Monsarrat has no hotel of any kind and people should go prepared to rough it. We found all whom we met accommodating and were much pleased with our treatment everywhere. The best way to make trip is to go to the Volcano House, where you can get the best of accommodations and from there by an 11 1-2 mile trail through O. H. Shipman's ranch to Ainapo. Rest over night and take two days to the crater and one back to Ainapo. Could go through to the Volcano House where you would find much needed rest, by having fresh horses at Ainapo."

ANOTHER PARTY'S RECORD.

The following letter, giving the record of a party who made the ascent from the Kona side, shows the merits of that route:

Editor Advertiser: We have just returned from a most successful trip to the summit of Mauna Loa, being a party of twenty-two including seven ladies.

Leaving Kainaliu at 2 p. m. Tuesday, Oct. 20, we arrived at Mr. Greenwell's dairy about 5 p. m. and spent a most enjoyable night. Thence we proceeded the following morning at 6:20 a. m. for the summit of Mauna Loa, arriving there (after stopping an hour for lunch) at 1:45 p. m. and prepared our camp at the edge of the crater for the night. We beheld a most awe-inspiring sight, hundreds of feet below us, of a lake of fire with innumerable fountains ejecting molten lava hundreds of feet high.

At night, our camp being only a few feet from the edge of the crater, the display we witnessed was beyond description. Reports about it overflowing are not correct, as all activity is still in the main crater.

At 6:45 a. m. on Oct. 22, just before leaving, we heard an explosion and on looking down we saw the top of a new cone blown off, which was a grand sight.

We encountered very good weather but extremely cold with ice and snow. Every one of the party arrived on horseback at the crater without any inconvenience and beheld the grand display.

The party who made the ascent were: Mrs. Thos. C. White, Miss E. Low, Miss Lilinoe Roy, Miss Mary Ackerman, Miss Betsy Ackerman, Miss Fannie Stephens, Miss Hola Ka, Thos. C. White, Allen Wall, Henry Greenwell, Arthur Greenwell, William Roy, Mr. Woods, E. Edwards, David Paris, Walter Ackerman, Charles Ka, David Nahale, Mr. Naluahine, John Keka, Mr. Kuhea, Mr. Killnahe.

THOS. C. WHITE.

Kealakekua, South Kona, Oct. 22, 1903.

PACIFIC LINERS AND THEIR STAY AT HONOLULU

Hackfeld & Co., Reply to Criticisms by Hotel Men and Merchants Which Have Appeared in These Columns.

Honolulu, Oct. 21, 1903.

Editor Advertiser: In your issue of October 18th we notice an article under "Sea and Shore" which, like many others published in the past, is inclined to lead the public to believe that the three steamship companies represented by our firm discriminate against this port in not allowing through passengers to stop over here for sight-seeing, etc. On the face of it, this article plainly shows that the writer thereof not only does not possess the least knowledge of shipping, but has not taken the pains to make inquiries to ascertain the circumstances surrounding the rapid dispatch of the O. & O. S. S. Coptic on her last trip from the Orient.

This steamer arrived alongside the wharf at 1 p. m. sharp and left at 6 p. m. the same day, which was mainly due to the fact that she had for this port a cargo consisting of but eight tons of merchandise; on the other hand, however, she had a very valuable through cargo for San Francisco and other places in the United States, which it was to the interests of the steamship company to get to destination at the earliest possible moment. The schedule of our steamers distinctly reads that dates of arrival and departure are only approximate and the business community, which your writer evidently represents, knows very well that practically all the steamers represented by us can be depended upon to arrive at this port from a half to a day ahead of schedule time.

The O. & O. S. S. Co. and the Toyo Kisen Kaisha, you are aware, are not allowed to do any business between San Francisco and Honolulu and have to consider, greatly, the competition arising in the Orient from the Canadian Pacific—the so-called "Empress line"—in the matter of handling through tea and silk for New York, which business in former years was practically all done via this route, but which, through quicker service via the northern route, has been transferred to a considerable extent to the Empress line. What little there is left with our steamers the companies are only too eager to hold.

In addition, we believe that the through passengers also have a word to say in the matter, as most of them are anxious to get to their destination.

The remark in your article, that the passengers were hardly given time to run up town, we have to dispute as our representative, with the captain of the Coptic, in walking up Fort street found a considerable number of them in different stores buying curios and other little articles, and outside of one curio store they saw two gentlemen passengers awaiting their turn until their friends from the Coptic, who were inside, got through with their shopping. The writer of the article claims that the steamer should have stayed here at least until Friday morning. Will you kindly tell us what benefit the stores in town would have derived if she had? Do not practically all the stores in Honolulu close at 5 p. m.?

The writer of the article further mentions the brief stay of the S. S. Korea in our port and the small number of passengers she carried on one trip to the Orient, taking away from here 100. For your guidance we beg to hand you the arrivals of steamers Korea and Siberia since their initial trips, from which you will undoubtedly see that no unnecessary haste has ever been made by either of them.

In regard to the remarks as to the striking and discriminating contrasts in the favoritism shown to Chinese and Japanese ports, we are positive that, if Honolulu gives the steamers the same amount of business as the Chinese and Japanese ports, the companies would not only be glad to have the steamers stay here for a longer period, but would be compelled to do so in order to complete steamers' business.

As to the privileges which the local government and private wharf owners have always extended to the steamship companies, must say that we have never seen any such up to the present time.

The business of Mr. Arundel, the recent arrival from London, must have been of very great importance, but from all appearances he did not finish his work until late Monday, therefore a stay of the Coptic until Friday morning would hardly have done this gentleman any good. In addition to which, is not the cable laid between Honolulu and the mainland, connecting our Islands with the entire world, of which he could avail himself at any minute.

The remarks made as coming from Mr. Schwerin that this gentleman, as Vice President and General Manager of the Pacific Mail Steamship Co., thought ten hours a long enough stay for his company's steamers at the port of Honolulu, are not correct, as the above official knows that whenever business holds the steamer no time limit is given. The business community of this town knows better than to think that the steamers should always stay in port at least 24 hours, as business men are too well posted and know what it means to a steamship company to have its steamers lying idle.

The Hawaii Promotion Committee's advertising of the Hawaiian Islands, w must say, is of a very recent date while the steamship companies, on th other hand, have for years given in their folders, with an edition of ap proximately fifty to one hundred thou sand every six to nine months, a con siderable space to the advertising of the Hawaiian Islands, distributing such folders not only in the United States, but practically all over the world.

In conclusion, we beg to say that, in our opinion, a lengthy stay of throug steamers in the long run is not as ad vantageous to the port of Honolulu an the Honolulu trade in general as a lim ited stop of say eight to ten hours Supposing a steamer remains in thi port for twenty-four hours, giving pas sengers a lot of time to see considerable of Honolulu and its surroundings; very many of them will conceive the idea that they have seen everything and with this idea will simply continue thei trip, while, if the steamer stays a short time only, there will be more layovers, who remain here for at least eight days spending money all the time. Wha the Hawaiian Islands want are tourists who stay here for some time, and lay overs.

We remain, dear sir,
Yours faithfully,
H. HACKFELD & CO., LTD.

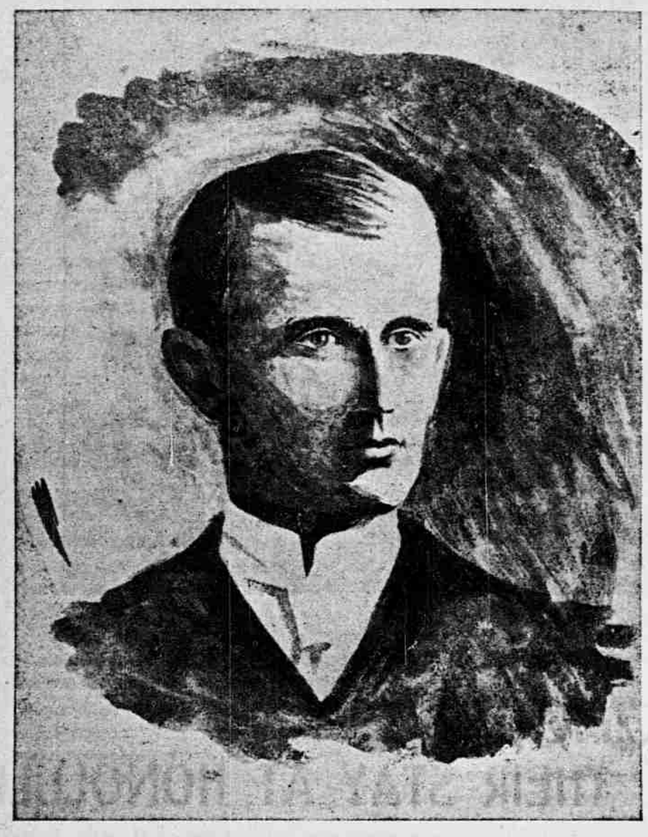
M. M. M.
MONSTER MASS MEETING



HON. R. W. BRECKONS.

The Young Men's Republican Club has in charge the monster mass meeting to be held at the Orpheum Wednesday evening the 28th, and if there is any drawing power in good speakers and good music it should be the banner meeting of the campaign.

Such popular speakers as R. W. Breckons and A. G. M. Robertson need no booming as the simple fact that they are going to speak is sure to draw a crowd and the announcement that they are to be heard in all the glory of their forensic eloquence next Wednesday evening should be sufficient to pack the Orpheum.

The Hon. John K. Gandall, famous as the silver tongued orator from Kauai and acknowledged premier of Hawaiian speech makers, will be heard in one of his characteristic addresses, while other well known first class speakers, both Hawaiian and English will be heard during the evening.

Committees of the Young Men's Republican Club are hard at work on the various details of music, decoration, etc., and the public is promised something especially unique and fetching in these lines.

President Lorrin Andrews will be the chairman of the meeting which is in itself an assurance that there will be something doing all of the time. The ladies will be made very welcome and places reserved for them as the young men of the club plead guilty to a weakness for

HON. A. G. M. ROBERTSON.

the fair sex and are more than willing to share good things with them. If the ladies smile upon their cause, they say, they will be assured of victory.

All fair minded Home Rulers are invited to be present and hear good sound reasons showing that not only is the Republican the true party of home rule but that it has been the true and only party standing for home and country, ever since it was organized.

Election day is drawing near and it is of great importance to the general public that everyone should turn out and by their presence show that they really take an interest in seeing a ticket elected that can be depended upon to work for the good of the entire community instead of for any one particular faction, race or creed.

Important Notice.

The Island Meat Co. on Fort street, opposite the Love building, is the only concern authorized to sell the products of the Kahikinui ranches in the city of Honolulu. It must not be inferred from the advertisement of any other meat market using the name Kahikinui that the well known "Kahikinui beef" is sold there, as it is not.

KAHIKINUI RANCH,
Per J. H. Raymond, Manager.

The stock books of the Pioneer Mill Co. Ltd. will be closed to transfers from the 27th to the 1st of November, both dates included.

THE NEW DESCRIPTION OF REAL PROPERTY BY TRUE AZIMUTHS.

By Philip L. Weaver, Judge of the Court of Land Registration.

It is of interest to the owners of real property to know that the surveyor of the Court of Land Registration has included in his rules of survey for the court an important and simple change which will alter descriptions of real property hereafter to conform to the more modern methods of the United States Geodetic Survey. Almost all of the surveyors of Oahu have been interviewed and have approved the change on account of its great simplicity. It is proposed by these surveyors hereafter, to follow the rule of the Court of Land Registration in their surveys by describing all land by true azimuths. The surveyor of the Territory has issued orders that all descriptions of government land be made with true azimuths.

J. B. Johnson on the Theory and Practice of Engineering has the following definition, page 11:

"The azimuth of a line is the angle it forms with the meridian, and is measured from the south point, south, west, east, south, to 360 degrees It becomes a definite direction when the angle alone is given."

To illustrate what this method is, let us take a compass with the circumference of the dial divided into 360 degrees, beginning to number at the south, which is marked 0. West is marked 90 degrees; north, 180 degrees; east, 270 degrees and south, 360 degrees, or zero. Let us suppose that the minute hand of a clock be attached to the compass with the hand pointing due south, or at VI. o'clock. The direction taken by the hand is described as zero, or 360 degrees. This pointer may be supposed to move from left to right, as the hands of a clock, on the dial. The direction taken by this pointer is the direction of the line described. The direction of the pointer is indicated by the number of degrees it has traveled from the south, as read on the dial; as for example, due west is described as "90 degrees," or due east as "270 degrees." To take another example, let us look over an old description of the northerly line of Thomas Square on King street, Honolulu. We find that it reads: North 20 degrees 42 minutes east; this becomes by azimuth 200 degrees 42 minutes.

By moving the pointer from south around by west and north, we have passed 180 degrees, and we move the pointer 20 degrees 42 minutes eastward in addition thereto, or a total of 200 degrees 42 minutes from the starting point.

The measurement of the direction of the line on the ground is always taken to begin at the center of the dial and to run toward the circumference, as in this case from the center toward the mark 200 degrees and 42 minutes.

The method is simple in itself, and avoids the many chances of mistake which arise by interchanging the letters E and W in the old method of descriptions. Many errors are made also by describing the line running on the ground, as going north when the intent is to go south. Let us illustrate by reference to an old fashioned description of Thomas Square in Honolulu:

Beginning at the south corner of this land and running: 1, north 20 degrees 42 minutes east 650.5 feet along Victoria street; 2, north 58 degrees 12 minutes west 447.6 feet along Beretania street; 3, south 20 degrees 42 minutes west 644.5 feet along Kapiolani street; 4, south 69 degrees 18 minutes east 447.6 feet along King street to the point of beginning.

The new description would read:

Beginning at the north angle of King and Victoria streets, said point being 56.0 feet from a concrete post at the east angle of King and Victoria streets, as shown on government surely registered map No. 1100, of Kulaokahua, Honolulu, made by C. J. Lyons, surveyor, in 1873, and running by true azimuths:

1—200 deg. 42 min., 650.5 feet along Victoria street; 2—111 deg. 48 min., 447.6 feet, along Beretania street; 3—20 deg. 42 min., 644.5 feet along Kapiolani street; 4—290 deg. 42 min., 447.6 feet along King street to the point of beginning. Area 6 6-10 acres.

It may be noted that this description ties the corner to a government fixed monument, and refers to the surveyor's name with the date of survey, all of which are required by the rules of survey.

This method simplifies the getting of the angle of two lines such as one and two above. Subtract 111 deg. 48 min. from 200 deg. 42 min. and the difference 88 deg. 54 min., gives the angle at that corner. It can thus be seen that this method is simpler and more direct than the old one of dividing the compass into quadrants, and describing by them, and has the indorsement of many surveyors experienced in Hawaiian descriptions. Letters have been written to all the known surveyors on other islands, and all the replies received have been favorable. The reform is only launched and meets with the general approval of surveyors.

To Be Depended On

Because It Is the Experience of a Honolulu Citizen and Can Readily be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is a natural consequence of experience; it's like a ship in a strange port—a trusty pilot familiar with the harbor is always called upon to bring her safely to her moorings. So it is with endorsement; we doubt the sayings of people living at a distant point because we can't investigate, but public expression of local citizens can be depended upon, for 'tis an easy matter to prove it. Evidence like the following is beyond dispute:—

Mr. W. F. Williams of this city, is a light-house keeper, and he has held this position for the last 30 years. He says: "I was for a number of years, one of that numerous army of people who suffer with their backs. Mine ached and pained me to no small extent, so that I was glad when I heard of a remedy for it, Doan's Backache Kidney Pills. I obained some of these at the Hollister Drug Co.'s store, and took them. They gave me great relief, and I make this short narration of my experiences for the benefit of others who perhaps do not know that nearly all backache arises from the kidneys, and the best medicine for it is Doan's Backache Kidney Pills."

Doan's Backache Kidney Pills are 50 cents per box, for sale by all druggists; sent by mail on receipt of price by the Hollister Drug Co., Honolulu wholesale agents for the Hawaiian Islands.

In the program for "Musical Pictures from Many Countries," "Hawaii" was omitted by an oversight. The Hawaiian tableau will be very pretty and two songs will be sung by the Misses Rosina Shaw, Elizabeth Kahonu, Lahapa Kaleimakalii and Helen Kawaiea.

CATARRH IS ALWAYS THE RESULT of a neglected cold. Chamberlain's Cough Remedy will not cure catarrh, but will cure the cold and so prevent that disagreeable malady. This remedy not only relieves the local irritation of the throat and lungs, but removes the causes of the diseased condition. It leaves the system in a natural and healthy condition. It always cures and cures quickly. Benson, Smith & Co., wholesale agents, sell it.

I RESTORE STRENGTH

Thousands of men are mere pygmies of what nature intended them—backward, over-sensitive, fearing to venture, delicate, easily discouraged, short of breath, weak-nerved, lacking in grit, the "sand" which is the possession of vigorous health. They need Electricity, which is animal vitality. It is the foundation of all vigor. It is the fuel to the engine which runs the human machine. Electricity, as I apply it, is a source of new life to all parts of the body. My

Dr. McLaughlin's Electric Belt

Restores the snap, the vim and vigor of youth. Any man who wears it can be a giant in mental and physical development. Men, are you weak, have you pains in the back, varicocele, weak stomach, constipation, lumbago, rheumatism, enlarged prostate gland, or any of the results of early dissipation or over-work? My method of applying Electricity while you sleep at night will cure you. It fills the nerves with the fire of life.

Read This Evidence:

The nervous weakness I complained of th last six or seven months has entirely gone. Your Belt cured me in two months. The Belt has also done wonders for my son, who had a bad case of rheumatism. Since my cure I have praised your Belt to many doctors as well as others, and will continue to do so. Yours sincerely,

H. W. YOUNG, Port Harford, Cal.

Dr. McLaughlin's book is published for free distribution to those interested in the development of vigorous health in men and women. It is profusely illustrated and describes my method of treatment and appliances. Sent sealed free on request. Send for it today.

A Woman's Wealth.

Paine's Celery Compound

GIVES VIGOR AND STRENGTH TO DEBILITATED AND RUN DOWN WOMEN.

It is maintained by many distinguished writers that the greatness of a nation depends much upon the physical condition of its women. The general conditions which contribute to health and long life, are those which do not imply a rapid and unequal exhaustion of those powers by which life is maintained. While we assert that the women of our land stand peerless for beauty and the virtues that make them lovable, we cannot hide the fact that there are thousands in our midst who, owing to overwork, worry, household cares, and an unequal exhaustion of life power, have become weak, nervous, sleepless, and debilitated.

We bring to the attention of all weary, despondent, hopeless, and sickly women earth's great rescuer and health builder, Paine's Celery Compound. Thousands of healthy women around us owe their present vigor, activity, and robustness to Paine's Celery Compound. Mrs. Stephen Smith, St. Paul, Minn., tells how she was snatched from the grave; she says:—

"I had a bad attack of la grippe this spring and was at death's door, and no one ever expected me to recover. I was so weak that as soon as they brought me out of one faint I was in another. I could not take any nourishment, and doctors' medicines did me no good. A friend advised my husband to get me a bottle of Paine's Celery Compound, which he did, but had no faith in it. The second day after taking the Compound, I began to get real hungry and took an interest in things. I had everything that money and loving care could supply, and with that and Paine's Celery Compound, I am now doing my own work, while three months ago I was almost in the grave. I know that I owe my health and strength to Paine's Celery Compound, and shall always recommend it."

MISSING SEAMEN ARE SAFE

Boatswain Rault and six men, the last of the missing seamen of the French ship Conetable de Richmont, wrecked on the French Frigate Shoals on October 10, were rescued on Sunday by the Inter-Island steamer Mikahala, and will be brought here on Wednesday morning. President Kennedy of the Inter-Island Company received the following wireless message from Kauai yesterday morning:

Lihue, Kauai, Oct. 25, 1903.
Mr. Kennedy, I.-I. S. N. Co., Honolulu.
Arrived from Niihau at 5 p. m. Got the missing boat's crew on board.
CAPT. GREGORY,
S. S. Mikahala.

The telegram indicates that these seamen were out about fourteen days, although the telegram did not state whether they were picked up in the open sea, or found on the island of Niihau.

President Kennedy stated yesterday that Capt. Gregory of the Mikahala had asked permission on leaving here during the week to cruise around for the Frenchmen in Kauai and Niihau waters on Sunday, and the privilege had been granted.

The presumption among shipping men is that Boatswain Rault's boat must have met with an accident after parting company with the boat of Captain Rault, for the two boats when last together were 100 miles from Kauai, having travelled more than 100 miles a day since leaving the wreck.

The men saved are: Rault, boatswain; Orteuil, Daniel, Destrichsen, Dugipern, La Corne and Charlers, seamen; Siven, galley boy.

ISLAND BOY KILLED IN CALIFORNIA

Melville Monsarrat, only son of Mr. and Mrs. Julian Monsarrat, Kapapala, Hawaii, died in California on Sunday from the effect of having been accidentally shot on Saturday. No details beyond the foregoing were given in the cablegram received on Sunday, but it is surmised that young Monsarrat was hunting when he met with the sad accident. The news was cabled by Sam Monsarrat, uncle of the unfortunate lad, who has lived in San Francisco many years and was probably with his nephew when the latter died.

The Hawaiian boy who came to such an untimely end was eighteen years of age and of fine promise from his character and attainments. Three years ago his parents sent him to school at Belmont, California, and he came home last year for his vacation.

Yesterday a physician accompanied relatives in the Iwalani for Kau, with the purpose of breaking the news to the parents and bringing them to Honolulu. Their son's body will be brought here in the Sierra due a week from tomorrow. The Advertiser yesterday kept its promise to withhold the sad tidings from publication so as to prevent a sudden shock to the bereaved parents.

Insurance Licenses.

Deputy Insurance Commissioner Geo. E. Smithies has given insurance agencies notice of the ruling made, under the opinion of the Attorney General previously reported in the Advertiser, with regard to licenses of insurance writers. According to this ruling a salaried employe of an insurance agency, who writes insurance at its office, acts under the license of the agency without having to take out one for himself. A solicitor working on the outside on commission, however, must have an individual license and pay the $2 fee therefor.

IRIS, A FLOATING NAVY YARD, ARRIVES

A floating navy yard arrived in port yesterday from Manila via Guam, en route to San Francisco. This novel adjunct to Uncle Sam's navy is the U. S. supply ship Iris, which came into the harbor flying a homeward bound pennant which streamed far astern of the vessel as she berthed at Naval Dock No. 2.

The Iris had a tempestuous voyage from Manila, being thirty-one days out from Manila and twenty-two days from Guam. The vessel's peeled sides bear evidence of the hard trip, and the officers show the strain to which they were subjected in the past three weeks. There were but two line officers, a surgeon, two boatswain and a warrant machinist, to navigate the ship and during the succession of gales encountered they had to put in all the time possible. Sleep was at a premium, but in spite of difficulties the ship was brought safely to port.

Lieut. H. P. Price is in command, with Ensign R. T. Manners, his executive officer. Assistant Surgeon Peck also was impressed into active sea service, beside looking after the ills of the crew. Boatswain Clancy, Boatswain Leerdorf and Warrant Machinist Barentson completed the list of officers. Lieut. Price was formerly in Honolulu on the Baltimore.

As soon as the Iris docked yesterday he went ashore and reported his arrival to Admiral Terry.

The Iris has been on the Asiatic station since 1898. She was bought by the Navy early during the Spanish war and converted into a distilling shop. It was the province of the Iris to carry on board almost anything in the line of repairs needed by the warships on the Asiatic station. When minor repairs were necessary aboard a war vessel, the Iris was despatched to her. Supplies of a thousand kinds were kept in store, and about 2,000 tons of coal was about the average cargo she carried to be supplied to vessels in need. There was ammunition, fresh distilled water, and a complete machine shop. The latter was taken out and left at Cavite just before the vessel started on her homeward bound trip. About 237,000 gallons of water can be distilled per day.

The vessel will remain in port about a week and will then proceed to Mare Island where she will undergo extensive repairs.

About a dozen military prisoners are aboard in irons and under guard, en route to Alcatraz.

At Guam three seamen were taken aboard to be carried to San Francisco. These men were left at Guam sometime ago by a whaler. It is claimed they were purposely left behind, or as one of the "distressed seamen" expressed it, "Marooned."

The vessel was extremely light and top heavy and consequently rolled heavily—at times, about forty degrees.

MICHAEL SAVED THE RECORDS

The latest reports from Midway island are that the remains of the schooner Julia E. Whalen have entirely disappeared. Nothing of the cargo was saved but a case of gramophone records in Operator Michael's charge. When the Whalen struck the reef and began to break up there was little time to save anything but lives. However, like the pilot hero of Mark Twain who saved his flute when a Mississippi steamboat blew up, Michael went below, secured and carried safely into the boat the precious case of gramophone records.

VESSEL PLANNED TO DESTROY DERELICTS

It is more than likely that, at the coming session of Congress, an appropriation will be made for the construction of a derelict destroyer for the Bureau of Navigation of the Department of Commerce and Labor. The proposition affects the Atlantic ocean for the present, although in the course of time a vessel of the same type may be required for the Pacific.

Jap Fishermen in Peril.

Two Japanese fishermen almost lost their lives at the mouth of the channel on Sunday morning, through their sampan capsizing. They were cruising about with sail up, when a heavier gust than usual struck the boat and turned it completely over. Young Brothers saw the accident and went to the rescue in a launch. A fleet of sampans also went to the aid of the overturned craft, and finally took the men off, and towed the boat in. Young Bros. stood by until the men were saved.

Iroquois Ordered Back.

Upon receipt yesterday of information concerning the safety of the third boat load of French sailors, Admiral Terry sent a wireless message to intercept Capt. Rodman of the Iroquois. It is probable that Capt. Rodman received the message last night and may return to Honolulu today. The Lehua may also hear of the matter at Kauai, and return to port immediately.

Thomas May Be Delayed.

The chances are that the transport Thomas, which was about due today from Nagasaki, may be delayed for two or three days owing to the severe weather to the westward. The Jap liner America Maru and the U. S. supply ship Iris both experienced unusually bad weather coming in from the west, and the Thomas has undoubtedly had a share in it.

Shipping Notes.

A bark was reported off Diamond Head last night about 11 o'clock. The French bark Paris is now out 169 days from Hamburg.

Repairs are being made to the seawall between Naval Docks 1 and 2. A portion of the seawall broke away several weeks ago.

CAMPAIGN'S LAST WEEK

The last week promises to be the hottest of the campaign. Both parties are planning a strenuous week of meetings.

Last night the Republicans held a big meeting at the junction of King and Hotel streets in Palama and tonight they go to Pearl City for a monster luau.

The meeting last night was attended by hundreds of voters. John Gandall, the silver-tongued orator from Kauai, was the speaker of the evening. Gandall talked for an hour and held the attention of his speakers all that time, being frequently interrupted by applause. Gandall is not only a magnetic orator, but he is quick-witted and answered the sallies from the crowd without a moment's hesitation.

"You are a bird," yelled one Home Ruler derisively from the crowd.

"Yes, and I am on the highest perch," replied Gandall from the platform.

Gandall likened the County Act to a royal child, born of the Republican party and said that the Home Rulers should not be allowed to destroy it. The Republicans gave the people county government and they are the ones to carry it through.

Judge Kaulukou presided at the meeting and the Republican candidates also spoke.

PUBLIC LANDS NOTICE.

Commissioner of Public Lands.

A land license for a period of 50 years, to collect, divert and sell the surface water and power produced therefrom, upon and from the public lands, situate on the Island of Hawaii and lying between the sea on the north; Waipio Valley on the East; Waipio Valley and the boundary line between the lands of Laupahoehoe 1 and 2, Nakooka, Apua, Walkapu and Honopue on one side and the lands of Puukapu and Kawaihae 1, on the other side, until such line reaches an elevation of 4,200 ft., thence a contour line of 4,200 ft. elevation to Honokane on the South, and the land of Honokane and the private land of Awini on the West, subject to existing vested rights of private parties in such waters, will be offered at Public Auction on Monday, November 30, 1903, at 12 o'clock noon, at the front entrance of the Judiciary Building.

Persons competing at this sale will bid upon the rate per cent. of the net revenues of the enterprise carried on under such license, to be paid annually to the Government of the Territory of Hawaii, from and after the third year of the term of such license.

A bond of $10,000 will be required on surety satisfactory to the Government, conditioned on the due performance of the requirement that $10,000 be expended on construction within 18 months. From the beginning of the term of the license $500 shall be paid by the holder thereof to the Government, semi-annually in advance irrespective of such rate per cent; the first payment of $500 to be made at the fall of the hammer, by paying the same to the Commissioner of Public Lands. Upset 5 per cent. on the net revenues. Any bid than on percentage of the net revenues will not be entertained.

Full information in regard to other conditions of such license will be furnished at the office of the Commissioner of Public Lands.

E. S. BOYD,
Commissioner of Public Lands.
Public Lands Office, October 22, 1903.
6618.

Commissioner's Sale

OF

Valuable Real Estate

IN

North Kona, Island of Hawaii.

Pursuant to a Decree made by the Honorable J. T. De Bolt, First Judge of the Circuit Court of the First Judicial Circuit, dated on the 16th day of October, A. D. 1903, in a cause entitled M. F. Scott against E. K. Piliho and others, Equity Division, the undersigned as Commissioner duly appointed, will expose for sale at Public Auction, subject to confirmation by the Court,

ON SATURDAY, DEC. 12, 1903,

AT 12 O'CLOCK NOON,

At the mauka (front) entrance of the Judiciary Building in Honolulu, all the rights, titles and interests of all parties interested in said suit and each of them in that portion of the lands of Holualoa I and II in North Kona, on the Island of Hawaii, covered by L. C. Award 7713, Apana 43, to V. Kamamalu, situated mauka of the 1000 Acres set off to M. F. Scott adjoining and mauka of the Upper Government road in said North Kona; the premises to be sold being described as follows, to wit:

Beginning at the N. E. corner of the 1000 Acre lease and running as follows by true bearings:

1. N. 55° 15′ 42″ E. 22118 feet along Puapuaanui and Puaa 1st to Puu Laalaau trig. Station, thence
2. S. 28° 00′ 45″ E. 10841 feet along Keauhou 2 to the N. E. corner of Kaumalumalu;
3. S. 56° 48′ 56″ W. 18850 feet to the S. E. corner of Holualoa 4;
4. N. 22° 04′ 00″ W. 1716 feet;
5. S. 72° 00′ 00″ W. 5180 feet;
6. N. 14° 50′ 00″ W. 7550 feet, to the initial point, and containing an area of 5189 Acres.

Said premises shall be sold at an upset price of Five Thousand Dollars Cash. Deeds at the expense of purchasers, and also subject to the remaining unexpired term of a certain lease of the said premises made by William R. Castle to M. de Gouveia and recorded in Liber 140, page 437.

The above premises is one of the best grazing lands in Kona if not the best.

For further particulars apply to the Commissioner, or to J. K. Nahale, Kailua, N. Kona, Hawaii, or to W. C. Achi, Honolulu, Oahu.

W. A. WALL,
Commissioner.

W. C. Achi, Attorney for the Commissioner.

Honolulu, Oct. 23, 1903. 6619

GOO HOY.

MORTGAGEE'S NOTICE OF INTENTION OF FORECLOSURE AND OF SALE.

Notice is hereby given that, pursuant to the power of sale contained in that certain mortgage, dated September 14th, 1901, made by Goo Hoy, as mortgagor, of Honolulu, Island of Oahu, Territory of Hawaii, to Annie S. Parke, as mortgagee, of said Honolulu, and recorded in the Hawaiian Registry of Conveyances in Honolulu aforesaid, in Liber 227 on pages 94-97, the mortgagee intends to foreclose the said mortgage for condition broken, to-wit: for nonpayment when due of principal and interest.

Notice is likewise given that after the expiration of three weeks from the date of this notice, the property covered by said mortgage will be advertised for sale at public auction: such sale to be held at the auction rooms of James F. Morgan in said Honolulu on Saturday, November 7, 1903, at 12 o'clock noon of said day.

The property covered by said mortgage and intended to be sold as aforesaid is described as follows:

All that certain pieces or parcels of land situated at Kauluwela, Honolulu aforesaid, being portions of R. P. No. 6817 L. C. A. No. 2177 to Nika, more particularly described as follows:

First: Beginning at the S. E. corner of this lot on North side of lane, and running by magnetic bearings:

1. S. 47° 00′ W. 66 feet along lane;
2. N. 54° 00′ W. 105 feet;
3. N. 22° 50′ E. 6 5-10 feet;
4. N. 39° 15′ E. 61 2-10 feet;
5. S. 53° 00′ E. 116 7-10 feet to the initial point, containing an area of 6423 square feet, and being the same premises conveyed to the said mortgagor by deed of J. H. Kunewa, dated April 19th, 1901, and recorded in the Registry Office in Honolulu aforesaid, in Liber 222, pages 183-184.

Second:

1. N. 43° 32′ W. 165.6 feet;
2. N. 44° 58′ E. 80.3 feet;
3. S. 47° 02′ E. 167.3 feet;
4. S. 39° 28′ W. 34.1 feet;
5. N. 42° 32′ W. 1.6 feet;
6. S. 48° 53′ W. 60.3 feet;
7. S. 23° 18′ W. 6.5 feet, to the initial point, containing an area of 14,168 square feet, and being the same premises conveyed to the said mortgagor by deed of J. H. Kunewa, dated June 19th, 1901, and recorded in the Registry Office, in Honolulu aforesaid, in Liber 223, Pages 267-268.

The above pieces being in one lot, and containing an area of 20,591 square feet.

Terms: Cash in gold coin of the United States. Deeds at expense of purchaser.

Further particulars can be had of W. C. Parke, attorney-in-fact of Annie S. Parke, mortgagee.

Dated Honolulu, October 9, 1903.

TWO KINDS OF CHILDREN

Children that grow too fast and those that seem hardly to grow at all, both need Scott's Emulsion.

It gives that rich vital nourishment which is the secret of all healthy growth. It rounds out the long limbs, and helps children to grow without using up all their strength in growing.

Mothers ought to know more about the wonderful help which Scott's Emulsion would give their children.

There is no secret about Scott's Emulsion. Nothing is covered up by obscure references to "active principles" or "alkaloids."

Scott's Emulsion is simply an emulsion of the best Norwegian cod liver oil combined with the hypophosphites and glycerin.

We'll send you a sample free upon request.

Axtell vs. Hendricks. Continued till Saturday next at 9 a. m.

Board of Hawaiian Evangelical Association and R. Maka vs. Pang Chong. Motion to dismiss appeal of defendant granted.

Austin Publishing Co. vs. Healani Yacht & Boat Club. Transferred to jury waived calendar.

Enterprise Mill Co. vs. Emmet May and W. H. G. Arnemann. Judgment confessed for $600.

C. C. Bitting vs. Vincent Fernandez. Appeal of defendant dismissed for lack of prosecution.

HAGEY CURE TRIAL.

Judge Robinson yesterday morning denied the motion of plaintiffs in the Hagey cure case, Harrison vs. Magoon, et al. When the case came on for trial, it was found that a jury could not be obtained out of the regular panel. A special venire was therefore issued for 25 additional jurors returnable at 10 o'clock this morning.

T. M. Harrison, plaintiff, filed a counter affidavit to that of L. C. Ables on the motion for security. He alleged that he was licensed to practice law before the Supreme Court and all other courts of this Territory, being at present engaged as an assistant of Henry E. Highton; that he has been a resident of Honolulu at various times since March, 1900; that on the 29th day of October, 1900, he filed a declaration of his intention to become an American citizen, and that he was possessed of sufficient property to pay all costs or liabilities that might be incurred in this action.

THE EXTRA JURORS.

Following are the names of the additional jurors summoned to appear before Judge Robinson this morning:

Emmet May, S. Ehrlich, Edward Baker, L. Tobriner, Harry Armitage, W. H. Babbitt, John Emmeluth, David K. Hoapili, Charles Lewis, Edward B. Friel, W. Wolters, Charles Molteno, Joseph Andrade, F. Rowland, Antone Recard, Frederick Booth, John H. Jones, E. W. Van Valkenberg, Henry J. Harrison, E. Faxon Bishop, C. A. Vierra, Henry Zerbe, John Chalmers, Eli J. Crawford and W. B. McCormick.

CLEARANCE CIVIL CASES.

At 9 o'clock this morning Judge De Bolt will call the following cases for the purpose of having them finally disposed of: Elizabeth K. Wilder vs. J. O. Carter et al., George Lycurgus vs. Charles Phillips, Poi Kan vs. Svea Insurance Co., Solomon Kahawaii vs. Kukea et al., Lui Naehuelua et al. vs. Kapahi et al., S. M. Damon et al. vs. C. H. Brown, Frederika Nolte vs. J. A. Magoon and Kahalewai vs. Tong Yau.

LARGE INVESTMENT APPROVED.

Judge De Bolt yesterday approved the investment of $170,000 of Robinson estate funds in Hilo Railroad Company bonds, which was disallowed by former Judge Humphreys. The petition of the beneficiaries thus acted upon stated their willingness to waive the objections of Judge Humphreys. Following is the order made by Judge De Bolt:

"Before a Circuit Judge of the First Circuit. At chambers. In probate.

"In the matter of the estate of James Robinson, deceased.

"Order approving investment.

"Upon reading the petition for the approval of the investment of the funds of the estate of James Robinson, deceased, to the amount of one hundred seventy thousand dollars ($170,000) in bonds of the Hilo Railroad Company, Limited, at par, filed herein by Mary E. Foster, Victoria Ward, Bathsheba M. Allen, Mrs. Matilda A. Foster, Mark P. Robinson, Mrs. Annie Jaeger and Lucy H. McWayne, all the present living beneficiaries in the will of James Robinson, deceased, and it appearing to the court that said investment was disallowed on the ground that, at the time of the purchase, said Mark P. Robinson, one of the trustees of the said estate, was treasurer of said Hilo Railroad Company, but that said Mark P. Robinson has no longer any official connection with said Hilo Railroad Company, and it appearing to the court that said petition should be granted;

"It is therefore ordered, adjudged and decreed that said investment of one hundred seventy thousand dollars in bonds of the Hilo Railroad Company, Limited, at par, be and the same is hereby approved and allowed.

J. T. DE BOLT,
"First Judge of the Circuit Court of the First Circuit.

"Honolulu, October 26, 1903."

Judge De Bolt granted the motion of Frank Andrade for a commission to take the testimony of N. Gordon Monro, Chris Holgate, William Edward Bishop Taylor and E. C. Bellows, all residing at Yokohama, Japan, in the matter of the estate of Frederick I. Cutter, deceased.

In the action to quiet title of Lucy K. Peabody vs. Emily P. Judd and others, Judge Robinson allows the plaintiff thirty days in which to file her bill of exceptions to the Supreme Court.

Return of summons as duly served has been received from P. L. White, a deputy sheriff of Alameda county, California, in the divorce case of William E. Hadley vs. Rose A. Hadley.

A general denial of all the allegations in the complaint has been filed by defendants in the suit of Kamakee (w), vs. J. H. Schnack, Harry Juen and William Savidge, claiming damages for wrongful ejectment of plaintiff from a house.

For value received C. C. Bitting assigns judgment in his favor against Vincent Fernandez for $262.40 to James E. Fullerton.

ACQUITTED T IS TIME.

Joe Kekipi was put on trial in the afternoon before Judge Gear for assault and battery. W. S. Fleming, assistant Attorney Genaral, appeared for the Territory; C. F. Peterson for the defendant. After seven or eight challenges for cause and peremptory had been exercised, the following jury were accepted: D. F. Thrum, Jas. H. Davis, G. W. Hayselden, L. R. A. Hart, C. B. Lemon, James B. Pakele, L. J. Nahora Hipa, M. C. Pacheco, W. M. Bush, Jas. D. Cockett, E. H. Wodehouse and W. A. Hall.

This case was tried at a former term of court, when a mistrial took place. The complaining witness was Frank Davenport, whose evidence showed that, while he was driving the defendant to the funeral of the defendant's mother at Kaneohe, Kekipi interfered with him to make him drive faster and, after grabbing the reins out of Davenport's hands, attacked him viciously so as to mark his face.

The jury retired at 3:40 and returned twenty-five minutes later with a verdict of not guilty.

SANTOS SENTENCED.

Judge Gear yesterday morning called up F. J. Santos, convicted of embezzlement, for sentence. There was a recommendation of leniency from the jury and the court stated that he would not impose the full penalty of six months, but would sentence the defendant to imprisonment at hard labor for five months and twenty-five days.

It will be remembered that Santos was acquitted on another indictment for embezzlement, immediately preceding his trial in the case wherein he was now sentenced, the jury having been out about twenty hours, standing most of the time, as they divulged, seven for acquittal and five for convicion. In that case Sartos had served one of three months to which Judge Gear sentenced him, on appeal for mitigation, for the very same offense as that for which he was indicted after the court's "infamous offense" decision.

INTERPRETERS CITED.

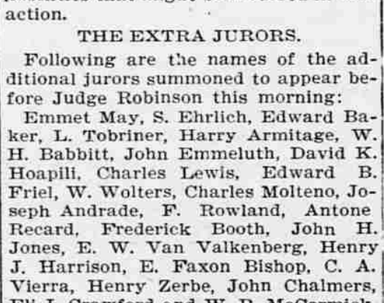
These four Circuit Court interpreters —John E. Bush and C. L. Hopkins, Hawaiian; Joseph de Frias, Portuguese; and Chester A. Doyle, Japanese—and P. Maurice McMahon, stenographer, were lined up before Judge Gear under a citation to sho--- cause why they were absent from court on Saturday. The interpreters put it on the clerk, saying he informed them there was nothing doing on Saturday.

Judge Gear refrained from giving a reprimand but gave the officials to understand that they must not be absent when the court was sitting. Further, he objected to the Japanese interpreter's acting for the police court. In answer to Mr. Doyle, he stated the hours of court to be from 9:30 to 12, and 1:30 to 4.

Officers of the court, as well as attorneys, have frequently been held in attendance on Judge Gear's court all through the morning recess, with the result that he officers suffered from going without any refreshment between early morning and late afternoon. They will be glad now that regular hours have been fixed.

THE PARKER DIAMONDS.

Ben. Gallagher and Hugh Rooney were arraigned before Judge Gear yesterday upon indictments—Gallagher for burglary, second degree, and larceny in the first degree, and Rooney for receiving stolen goods—in connection with the Parker jewel robbery. Defendants, represented by Henry Hogan and Geo. A. Davis, were allowed to reserve their pleas until tomorrow morning. A schedule of the jewelry in question appears in the indictment, showing a total valuation of $6,570.



PLEASING RESULTS

always follow the use of **Newbro's Herpicide,** the new scientific cure for dandruff and falling hair. It possesses certain properties that kill the germ or microbe that causes all the trouble by sapping the oil out of the hair bulb. With this parasite destroyed, dandruff and the falling hair cannot exist. A thick, soft growth of hair springs forth where formerly thin, brittle hair, or perhaps total baldness held sway.

One bottle will convince you of its merits.

For Sale at all First-Class Drug Stores.

TEN DOLLAR CLUB PEOPLE ARRESTED

Two more arrests of "Ten Dollar Club" people were made by U. S. Marshal E. R. Hendry yesterday. Isa, a woman, and Tabata, a man, were gathered in as members of the Japanese organization for preventing the prosecution of offenses against the Federal statutes relating to the crimes of peonage, importation of women for immoral purposes, etc.

The prisoners were taken before Commissioner E. A. Douthitt, who after examination committed them to the Federal grand jury under bonds of $2500 each.

The Federal grand jury was in session all day yesterday.

BOYD WANTS HIS SALARY

He Appeals From the Decision of Auditor Fisher.

Robert N. Boyd has been refused his salary as deputy registrar of the land court and he has appealed to the Supreme Court to settle the differences between himself and Auditor Fisher. Auditor Fisher bases his refusal on the ground that the appropriation of $22,500 made by the extra session of the Legislature is not available before January 1, 1904. Under this ruling the land court will have no fund for expenses until the first of the year, although the salaries are not affected.

Lorrin Andrews appears as attorney for Boyd and W. O. Smith for Auditor Fisher. A letter from the auditor is attached to the petition, Mr. Fisher saying in response to Boyd's demand for money:

"I regret to inform you that I cannot comply with your demand for the reason that the Legislature at its present session failed to make an appropriation out of which the same could be paid."

The appeal to the Justices of the Supreme Court contains the following statement of the case by the appellant:

Your appellant, R. N. Boyd, hereby appeals to the Honorable, the Justices of the Supreme Court of the Territory of Hawaii, and respectfully shows that a difference of opinion has arisen whereby your appellant has become aggrieved by a decision of the auditor refusing to allow a demand presented by the said R. N. Boyd, for salary, from July 20 to September 30, A. D. 1903, both inclusive, and alleges as follows:

That he is and has been since the 20th day of July A. D. 1903, the duly commissioned, qualified and acting deputy registrar of the Court of Land Registration under and by virtue of his appointment by Wm. Savidge, registrar, with the sanction of the court acting by authority of Sections 7 and 8 of Act 56 of the Session Laws of 1903.

II.

That His Excellency, Sanford B. Dole, Governor of the Territory of Hawaii, duly fixed the salary of said office to be fifteen hundred dollars per annum.

III.

That said R. N. Boyd duly qualified by filing an approved bond and taking an oath of office and that Hon. J. H. Fisher was duly notified of the appointment of said R. N. Boyd to said office, of his having qualified and of the salary fixed by the Governor as aforesaid.

IV.

That said R. N. Boyd thereupon and after July 31, A. D. 1903, demanded of said Hon. J. H. Fisher, as auditor, a salary warrant to cover the period of July 20 to July 31, 1903, at the rate of one hundred and twenty-five dollars per month.

That said J. H. Fisher refused to deliver to said R. N. Boyd a salary warrant to cover said period or at all.

V.

That said R. N. Boyd again on October 15, A. D. 1903, demanded of said Hon. J. H. Fisher as auditor aforesaid, salary warrants to cover the period of his employment from July 20 to 31, both inclusive, and from August 1 to September 30, A. D. 1903, both inclusive, a copy of which is hereto annexed, marked Exhibit "A" and made a part hereof, and that said J. H. Fisher refused to deliver to said R. N. Boyd or to any one warrants to cover said salary, alleging and claiming that there was and is no appropriation out of which the salary of the deputy registrar under the registrar of the court of land registration may be paid; that Act 10 of the extra session of 1903 makes no appropriation for the expenses of the land court; that Act 13 of said extra session appropriates $22,500 for such expenses (page 423) under the Treasury Department; and says that said last named appropriation for expenses of said court of land registration is not available until January 1, A. D. 1904, a copy of his written refusal is marked Exhibit "B," attached hereto and made a part hereof.

VI.

Your appellant alleges and claims that the said sums so appropriated are and became immediately available as appropriations for the payment of expenses of the said court from the time of the approval of the Act, July 11, 1903, and so continue during the full biennial period or until June 30, 1905, inclusive.

Wherefore your appellant takes this appeal, and prays that said appellee be commanded by their Honors the Justices aforesaid, to audit and allow the salary of appellant, as provided by law, for and during the period above set forth.

Dated this 24th day of October, 1903.

(Signed) R. N. BOYD, Appellant.

Nearly a Political Tragedy.

What might have been a serious local disturbance, with a sorrowful ending, was averted this morning by the prompt action of one of our prominent citizens.

About 10 a. m. a handful of politicians were standing near the corner of King and Fort streets, discussing the merits of their several candidates, painting their virtues in glowing colors, until one of their number took offense at a supposed insinuation relative to a family skeleton. The discussion waxed very warm, several blows were exchanged, and the argument gave promise of being a lively one, until a bystander proposed that the subject under discussion be submitted to arbitration, and be peaceably settled, the warlike aspirants for political laurels agreed, and Bath the Plumber was called, and decided that the Douglass Patent Closet was the best on earth.

JAS. F. MORGAN, Auctioneer and Broker

SUDDEN DEATH OF CAPT. JACOBSEN

Capt. Jacobsen, well known in Marine circles, died suddenly yesterday afternoon in a Chinese store on Queen street of heart disease. He had been under treatment for some time. Capt. Jacobsen went into the store to purchase cigars. During the transaction, he complained of illness and asked to be permitted to lie down. He was taken to a bedroom and shortly after lying down, expired.

BABY'S COUGH MUST NEVER LINGER.—Nothing is more distressing than to see a helpless little infant suffering with a cough, and to be fearful of using a remedy which may contain some harmful ingredient. The makers of Chamberlain's Cough Remedy positively guarantee that this preparation does not contain opium in any form, or any other harmful substance. Mothers may confidently give this remedy to their little ones. It gives prompt relief and is perfectly safe. It always cures and cures quickly. Benson, Smith & Co., wholesale agents, sell it.

BUSINESS LOCALS.

LOCAL BREVITIES.

Secretary Carter is expected back on Thursday.

Mrs. J. T. De Bolt is booked for passage on the Alameda.

The Supreme Court adjourned yesterday for another week.

Excelsior Lodge meets tonight in Elks hall on Miller street.

Tournament matches will be played at the meeting of the Honolulu Chess Club in the Young Hotel this evening.

W. H. Edgar lectured before the Honolulu Engineering Association last night on "Boiler Feed Water Treatment."

Mr. and Mrs. Grange and Miss Swett who have been guests at the Moana, leave for San Francisco tomorrow in the Alameda.

Mrs. Coffee, who has been a guest at the Young hotel for a month, will leave in the Sierra to join her husband, Col. Coffee, in Sydney.

Mr. Anthony Ahlo wishes to convey his thanks for the kind expressions of sympathy extended him by many friends in his recent bereavement.

The fine photograph of the officers of Excelsior Lodge No. 1, published in the Advertiser of yesterday was by Williams, the well known photographer.

Man Chung, indicted for liquor selling by the First Circuit grand jury, was brought to town from Kahana yesterday in custody of Deputy Sheriff Lane.

The Hawaiian Woman's club will meet today at the residence of Miss Eva Kinney, Hotel Annex lane, Waikiki, at 3:30 p. m. All members are requested to attend.

Musical pictures of many countries with songs in characteristic costumes at Punahou Preparatory next Friday at 8 o'clock for the Free Kindergarten fund. Tickets can be had at Wall, Nichols Co.

The building for school and library erected on the grounds of the Lutheran church, Beretania street, by the German School Association will be opened with appropriate ceremonies at 3 p. m. next Sunday.

Bert Wilson, the eleven-year old son of H. E. Wilson of Kalapana, Hawaii, after doing the toilsome journey to and from the summit of Mauna Loa without scath, fell off the school house railing and broke his collar bone.

An amendment to the charter of the Robert Grieve Publishing Co., Ltd., has been filed in the Treasurer's office, changing the name to the Robert Grieve Printing Co., Ltd., and the capital stock from $25,000 to $12,000.

George Lucas, first deputy clerk of the Judiciary, acted as clerk for Judge Gear yesterday. There are many applicants for the vacant clerkship, some of whom were forehanded in capturing the signatures of attorneys to their recommendations.

Suit has been brought by the Oahu Railway & Land Co. against the Waialua Agricultural Co. for $4800 on account of coal supplied. The defendant does not dispute the claim but declines to pay the bill, as it has a counter claim for a much larger amount, something like $17,000, against the railway company on account of pasturage.

There will be a devotional service Wednesday afternoon at 4:15 at the Y. W. C. A. rooms. This is the first of the monthly devotional meetings which will be held this winter. At this meeting Miss Kate Kelley will be the leader, Mrs. Caroline Austin will give a brief talk, Miss Ada Whitney will sing a solo and Mrs. Grace Waterhouse will play the accompaniments. All ladies are cordially invited to attend this meeting which wil last only half an hour.

Charles McCarthy, warned by the example of his fellow shipping master, Turk, consulted J. J. Dunne, U. S. Assistant District Attorney, as to his own methods. He was advised that it would be unsafe for him to detain the baggage of sailors as security for board bills, under a written contract with certain sailors upon which advice was asked. Turk, before alluded to, was fined $75 and costs a few days ago, for receiving a commission on the wages of sailors he shipped.

Edgar Caypless Ill.

Edgar Caypless, the Home Rule candidate for county attorney, has been ill for some days past with ptomaine poisoning. He is not yet able to be out but hopes to be on the stump again in a day or two. Mr. Caypless expects to deliver an oration over the body of Robert Wilcox, friend and counselor of whom he was in Washington.

THE TRUE CRITERION IS QUALITY

The attention of connoisseurs is called to the superlative quality of

Pommery Champagne

which is being shipped into this country. In London, the acknowledged home of wine connoisseurs, where

QUALITY REGULATES PRICE

Pommery commands from two to six dollars more a case than other leading brands, as per figures taken from Ridley's Wine and Spirit Trade Circular, London.

POMMERY, Vintage 1893, 86s. to 91s.
G. H. MUMM, Vintage 1893, 70s. to 76s.
PERRIER JOUET, Vintage 1893, Extra Cuvee G, 65s. to 66s.
MOET AND CHANDON, Vintage 1893, Extra Cuvee 20, 79s. 3d. to 84s. 3d.
LOUIS ROEDERER, Vintage 1893, Extra Cuvee J, 68s. to 74s.

In Honolulu, however, Pommery is sold at the same prices as other leading brands.

First quarter of the moon Oct. 27th.

Times of the tide are taken from the United States Coast and Geodetic Survey tables.

The tides at Kahului and Hilo occur about one hour earlier than at Honolulu.

Hawaiian standard time is 10 hours 30 minutes slower than Greenwich time, being that of the meridian of 157 degrees 30 minutes. The time whistle blows at 1:30 p. m., which is the same as Greenwich, 0 hours 0 minutes. Sun and moon are for local time for the whole group.

The Discovery Of a New Volcano!

Few people are aware that within our midst we have a volcano which produces more hot air and steam in one day than Mauna Loa. The illumination is something wonderful. Every person who has witnessed it says there is nothing like it.

Reclining upon a lattice work bench, and, peering through the dense steam, you are able to see the electric light which keeps the room cheerful and reminds you of a volcano in the distance. After remaining in this room for a few minutes you are put into the hot air room, and if very fleshy, rolled in a blanket, this causes a greater flow of perspiration and draws on the adipose tissue. After remaining in the blanket from 15 to 20 minutes you are put on the sub down board and gradually cooled, when you are given a thorough massage, after which you will leave the WOODS' INSTITUTE feeling more invigorated or refreshed than you have in many years.

As a skin beautifier the Turkish Bath has no equal. For reducing the corpulent, it is without doubt the only means in existence.

MAUI PARTNERSHIP PLAN CARRIED OUT

Meetings of the stockholders of Paia and Haiku plantations were held yesterday in the offices of Alexander & Baldwin, and the partnership agreement with the five corporations taking over the Kihei lands, was formally ratified.

The committee composed of John Watt, L. Barkhausen and A. W. Bottomley reported, recommending the values placed by Mr. Baldwin in the proposed partnership, and advising that it be carried through. Senator Baldwin then stated that with a view to overcoming objections made and to create a better feeling he would propose that the five recently formed corporations instead of taking one-sixth of the stock be given but one-seventh, the Haiku and Paia stockholders to get the remainder. The division of interests thus made gives Haiku plantation twelve thirty-fifths, Paia plantation eighteen thirty-fifths while each of the five other corporations get one-thirty-fifth. The resolution embodying this disposition was adopted.
