KONA MAY BE FREED

Plan to Withdraw Receiverhip Suit.

CREDITORS ARE STILL FIGURING

Plan Said to be the Making of an Assignment—Damon is Wanted.

When the Circuit Court opens this morning there is an even chance that the first thing to be done will be the filing of a motion to withdraw the suit for a receiver for the Kona Sugar Co. The matter is still in abeyance and not until this morning will final decision be made by the men whose interests are most involved.

This move in the matter of the corporation was decided upon yesterday, after there had been held many meetings of the stockholders and creditors of the concern. There is not yet the money to finance the plantation in sight, but there is a chance that it will be ready for the concern when the receivership is paid. The creditors of the company are doing all in their power to secure the consent of some banker to take up the matter, and the negotiations which were inaugurated by B. F. Dillingham yesterday are being pressed, though there was no development which is sufficient to give more than a hope that the outcome will be favorable.

There was started yesterday a petition among the stockholders of the company asking Mr. S. M. Damon of the firm of Bishop & Company, to accept an assignment for the plantation. This was liberally signed, but Mr. Damon yesterday afternoon said that he had heard nothing of any such move, and that there had been no change in the status of the plantation in so far as he was concerned. There is some feeling that Mr. Damon will yet be persuaded to undertake the matter, failing which there is another prospect, that Dillingham & Company, or some other firm of factors, will be induced to make the step.

As it looks now there will be such an arrangement as will enable the plantation to continue its work. The creditors are said to be ready to make such arrangements as will permit the work to be prosecuted. This will mean the running of the railroad and the operation of the mill. The representatives of the labor say that interest in the harvesting of the cane, and they will guarantee that the estate will furnish the cane to the mill as contemplated in the contracts.

Receiver Wundenberg said yesterday that he could see nothing to do but to liquidate the plantation, as he had made every endeavor that a man could make in this city to secure the money to carry on the operations. The letter which went forward to Manager Cowan in the Mauna Loa yesterday is based on the last order of the court, which permits the receiver to incur expense for the purpose of preserving the live stock and personal property of the estate. The letter says only that the "employees around the place shall be suspended for the present, and this, according to Mr. Wundenberg, will not affect the cane, except in that it will render it harder to mill the product, when such steps are undertaken. The cane is not grown by the plantation but by private planters, and these are located all over the country, and so are responsible for the holding together of their own men. The regular labor of the plantation will not be affected, speaking in the general sense, as for the past four months there has been a practical stoppage of the work and the men have found existence easy in the Kona country.

Mr. Wundenberg, however, arranged for a credit for the manager, with the local branch of the property of the company, which will enable the men who are retained to be kept in shape. There will be plenty of food, but this has little effect upon the laborers, as they subsist largely upon the products of the country. It was found that of the supplies which were provided by Receiver Wundenberg when he was there, much of flour and other groceries which were drawn were sold later for half the regular price, as the men were not in need and wanted the supplies only for the return which they could secure from their sale.

Receiver Wundenberg has now closed his labors until there is a hearing on the part of the bill. He has he says exhausted the financial resources of the company to obtain the money needed, and when that was done he considered that

the very best thing was the reorganization of the estate. He said of the negotiations yesterday: "I have tried to induce every one of the big houses to undertake the matter. There are so many things which must be looked to. As I see it there are difficulties in the way which when ascertained by the local agencies have had the result of deterring their taking hold of the plantation."

"I considered Hackfeld & Company the natural agents for the place, since they have a big store in the vicinity and would be able to handle the matter without expense. That firm, after looking into the case, replied that there was no use of further discussing the matter, for they would not be able to undertake any more work than they now have on hand."

"Bishop & Company are interested in the plantation, and Mr. Damon had an examination made of the estate. I went to him for the purpose of making an arrangement. I offered him every financial advantage from the handling of the business. There would be loans, which would pay interest, the percentages to the agent, which I was authorized to pay, and then I was willing myself to give the bond, and permit him to absolutely take charge of the business. I giving my time freely for the benefit of the plantation, which I have an interest in saving. His force would have had charge of the business and the bank would have had the opportunity of making all the commissions which could come from the transactions. Yet he could not see his way clear to do the work."

"This will show that I have given every attention to the matter, and when there was an objection taken to the plans which I proposed after making these effects, I of course expected that there would be some plan suggested by the stockholders or creditors of the concern. I would have been very glad to find some firm to undertake the work of the plantation, but I could not find one, even after making the most favorable proposals."

"I have received notice to come into court, and shall go there and stand by my report upon the plantation. If there should be any offer of the cash to advance for the development I shall be ready to undertake any plan which will be for the benefit of the estate."

WOMAN INSULTS A PRIEST

Last evening there was choir practice at the Waikiki Catholic chapel, and Father Valentine, who had it in charge, took tram car 33 at 7 o'clock. A drunken white woman and a soldier from Camp McKinley boarded the tram somewhere between Punchbowl street and Thomas Square, and filled it with bad language. Seeing a priest in a corner seat, the woman went to sit beside him, all the while using the foulest words. Father Valentine protested, whereupon the woman threw her arms about him. The insulted clergyman rang for the car to stop, and asked the driver to interfere, but the latter would not do so. The woman went back to her seat near the soldier and filled the car with blasphemy until the end of the line was reached, when she went with the soldier towards Camp McKinley.

Father Valentine will bring the affair to Manager Pain's notice tomorrow.

THE PACIFIC CABLE.

The Mackay Company Favored by the Merchants' Exchange.

SAN FRANCISCO, Feb. 27.—The board of directors of the Merchants' Exchange, as the representative of the principal commercial organization of San Francisco, has adopted resolutions in regard to the construction of a telegraph cable between the mainland of the United States and Hawaii and the Philippine Islands.

It is to the effect that the Merchants' Exchange desires to make known its deep concern that the project of a Pacific cable is in danger of being delayed, and takes this method of urging the United States Senators and Representatives from the Pacific coast to use all lawful means to obtain for private enterprise the right to construct a cable at its own expense, and prevent any obstructive legislation which can only result in indefinitely postponing a project of so vital interest to the Pacific coast, to all the United States and to its insular possessions.

Tillman and McLaurin.

WASHINGTON, February 26.—The Senate is in a quandary as to what to do with Tillman and McLaurin. The Committee on Privileges and Elections spent practically the entire day in consideration of the case, and when the members separated they had not reached a conclusion concerning the nature or extent of the punishment which should be inflicted on the belligerent South Carolina members. In the meantime the Senate is marking time awaiting a decision. It is felt that no other business should be transacted until this matter is disposed of.

KNOX NOT TO BE FOOLED BY KOHALA DITCH BILL

Congress Will Not Help to Establish an Octopus Water Monopoly Here—The Wilcox Bills Ignored.

(Special to the Advertiser.)

WASHINGTON, D. C., Feb. 22.—The Committee on Territories has not yet disposed of the Hawaiian ditch bill, but Chairman Knox made a statement this afternoon to me which indicates the probable action.

"We propose," said he, "to grant a general right for this company to construct its ditches across public lands of the Territory, but we shall not confer upon the company the power of eminent domain. That is provided for in the laws of the Territory, and should be sufficient for all purposes. It is not our intention to allow this company nor any other to have a monopoly, but we intend to put in the bill such a provision as will allow other owners along the route of the ditch to tap it for water at a compensation to be agreed upon between the two parties interested. If they cannot agree we propose to allow the courts to settle the figure."

"The Hawaiian Ditch Company," continued Mr. Knox, "came to us with plans to develop an enormous project. The paid-up capital of the company is \$1600, which would hardly be enough to pay the expenses of Mr. J. T. McCrosson here this winter in the interest of the bill. There is provision in its incorporation, however, for an increase of the capital stock to \$5,000,000. Just think of that! It would enable the company to create a great monopoly out there in the use of this water."

"Two rival companies have appeared before our committee," added Mr. Knox, "and Mr. McCrosson made some pretty strong charges the other day in the committee again Mr. Gehr, who has organized a company from Chicago. We want to grant some general authority to the Hawaiian Ditch Company to go ahead with its work and develop the country there, but it has looked to me as though the company was formed and developed for the purpose of selling out to the highest bidder, as soon as authority is given from Congress to construct the ditch. We don't want to be party to any grand schemes of that character."

Mr. Knox does not speak very encouragingly of other Hawaiian bills before his committee, introduced by Delegate Wilcox and urged by home rulers. He spoke in a rather disparaging tone of that party but added that the county and school bills were resting quietly because there was nobody to push them.

"Wilcox may be given a hearing by

BOTH SIDES CLAIM THEY WILL HAVE THE MAJORITY

With both elements in the First National Bank of the opinion that they will poll a majority vote at the meeting tomorrow, there is some feeling in both camps that the outlook is problematical. The best judgment of the street is that the control of the stock lies abroad, though the margin is small.

In the event of the success of the San Francisco holders of shares it is impossible now to name the new officials for the organization. Only one is certain, and that is W. T. Summers, who will be the manager of the bank. Mr. Summers has for many years been the banking manager of the Alaska Commercial Company, and recently has been in control of the national bank which the company has at Juneau. He is a college man, one who has studied the national banking systems of the country, and is a great friend of Lewis Gerstle, of the Alaska company. Mrs. Summers is one of the Diblees of Southern California, and the connections of the new banker are of the very highest.

The question of the presidency is still in doubt. It is understood that negotiations have been entered into by the mainland people, when they believed that there was no chance of retaining the valuable services of Mr. Brown, looking to the securing of a New York man, one who has acquaintance with local people, and at the same time familiarity with sugar men the world over.

The gossip of the street yesterday held G. W. Macfarlane responsible for the rumors that one of three men would be chosen to the position. It was emphatically denied that J. O. Carter was in the race for the place, or that he was seeking it in any way. Col. Mac-

his old home, Clarksville, Miss., is not far from that city.

During his residence here Mr. Hancock was promoted from a second lieutenant to his present rank. He is popular in social circles, and was the leader of the recent cotillion. He is a polo enthusiast, and has been a member of several teams this season, although his favorite is known as the Artillery team. He has several good polo and driving horses on his hands, and the rest of the polo players are now casting lots as to who shall make the best bid for them. It is probable that Lieut. Hancock will not again see service in Honolulu, and he will therefore bid his friends a permanent farewell. He will leave here for San Francisco on the Alameda on March 19.

1902 League For Baseball.

A meeting was held last night in the Honolulu Athletic Club rooms on Alakea street, by various athletic club delegates, at which the preliminary discussion over the formation of a 1902 baseball league was held. The clubs were represented as follows: Honolulu Athletic, P. Gleason; Maile Ilima, Geo. Lucas and Carl Taylor; Custom House, Scanlon and Gay; Artillery, Mr. Berg; Elks, F. M. Brooks and Al Moore. Another meeting will be held at the same place next Tuesday night, when the league will be organized, possibly with six clubs, but there is likelihood of eight clubs being listed. Notices will be sent today to Kamehameha School and Punahou College, asking that each be represented.

Warren Repairs.

Early yesterday morning the stump of the transport Warren's broken propeller blade was removed and by today it is hoped that the new blade will have been put in place. Special gear to handle the heavy mass of metal was erected on the wharf yesterday. The hub of the screw is still under water, which makes the work of screwing on the new blade both difficult and tedious.

ROMANCE OF TWO WORLDS

While a man in the prime of life, gray moustached and smiling faced, pines the lanais of the Hawaiian Hotel thinking of the future, there is speeding this way upon the Alameda a fair young woman whose thoughts are of that same future. When the priest pronounces the pair man and wife, there will be finished a romance of two continents and the mid-ocean, and there will begin its sequel which will be lived out under oriental skies.

L. Muraour, of Yokohama, arrived in the America Maru for a short visit to Honolulu, "for his health." The burning of the Oriental Hotel of that city, of which he has been the proprietor for many years, caused him to take the enforced absence from business, while its successor is being erected. There was an engagement then existing between the host of so many Oriental travellers and a young maid, of French family, but residing in the United States, which was to culminate in an early marriage. So it was that pending the construction of the new Palace Hotel of Yokohama, it was decided that the two should journey, the one east and the other west, that they should wed here, and that the honeymoon should be passed in these summer islands, so that they might return to their future home together.

M. Muraour is a modest man, and refuses absolutely to discuss his approaching wedding, for, as he puts it, "I came here for privacy," but he has already attended to the legal formalities and looks forward with eager anticipations to the arrival of his fiancée. Nor will he discuss the romance, as that "is not all my property," but it is said that the two met while both were visiting in France. The suitor from the Orient, for he has spent 37 years in Yokohama, won the heart of the young American, and they have waited long for this consummation, partly owing to the fire, which made it necessary to have the hotel rebuilt.

"I shall not call the new hotel the Oriental," said M. Muraour, "as my friends have convinced me that the name is an unlucky one. Three times the hotel of that name has been burned, each time from a fire which originated outside the building. The last building was a brick faced structure, and two stories high. The next time it will be of brick and steel, of three stories. We cannot build high owing to the frequent earthquakes. The hotel will be the finest possible, costing what would be expressed here about a half million dollars. The name will be the Palace, as I want to get away from the ill fortune which has attached to the old one."

Jersey Wars on Mosquitoes.

NEW YORK, February 26.—The New Jersey Assembly after a long and humorous debate has passed the mosquito extermination bill by a vote of 48 to 9. The bill appropriates \$10,000 to the State experiment station for the purpose of making a scientific investigation of the habits, origin and breeding places of the mosquito and their relation to malarial and other diseases.

THE METEOR LAUNCHED

Prince Henry Gets the Freedom of City.

HIS SPEECH AT EDITOR'S BANQUET

After the New York Festivities He Goes by Special Train to Washington.

NEW YORK, Feb. 25.—The all-important event in the itinerary of Prince Henry of Prussia today was the launching of the schooner yacht Meteor, built at Shooters' Island for the Prince's brother, the German Emperor. The christening ceremony was performed by Miss Alice Roosevelt, daughter of the President of the United States, in the presence of the President, the Prince, German Ambassador Von Holleben and a brilliant assemblage.

After the ceremony, which did not run altogether smoothly, the Prince called on the Mayor and received the freedom of the city.

NEW YORK, Feb. 26.—Prince Henry was gorgeously entertained at the Waldorf-Astoria by the leading editors of the United States. Many eminent men outside the realm of journalism were present, and Whitelaw Reid made an elaborate speech, as did Charles Emory Smith and Charles W. Knapp. Prince Henry spoke as follows:

"Mr. Toastmaster and Gentlemen: I am fully aware of the fact that I am the guest and in the presence of representatives of the press of the United States, and in particular the guest of the New York Staats Zeitung, both of which I wish to thank for the kind invitation and reception I have met with tonight."

"Before entering into details I should like you all to understand that I consider this meeting, though it may be looked upon as official, as a private one, and that it is my wish that none should you be taken advantage of what is said or spoken after leaving this table."

"Undoubtedly the press of our day is a factor, if not a power, which may not be neglected, and which I should like to compare with ever so many submarine mines which may blow up in many cases in the most unexpected manner; but your own naval history teaches us not to mind mines, should they ever be in our way. The language used on this memorable occasion was stronger than I would venture to reproduce here tonight. I need only mention the name of Farragut."

"Another comparison might be more to your taste, gentlemen, and is, in fact, more complimentary. It is one which his majesty, the Emperor, used before I left. He said: 'You will meet many members of the press, and I wish you, therefore, to keep in mind that the press men in the United States rank almost with my generals in command.' It will interest you, I know, to learn something about the nature of my mission to this country."

"His majesty, the Emperor, has minutely studied the recent and rapid development of the United States, and his majesty is well aware of the fact that yours is a fast-moving nation. His sending me to this country, therefore, may be looked upon as an act of friendship and courtesy, with the one desire of promoting friendlier relations between Germany and the United States. Should you be willing to grasp a proffered hand, you will find such a one on the other side of the Atlantic ocean."

BERLIN, Feb. 26.—Official circles are highly pleased with the reception to Prince Henry.

WASHINGTON, Feb. 27.—The second chapter in the national capital's welcome to Prince Henry of Prussia began today. Arriving at 9 o'clock this morning, he and his suite at noon attended the McKinley memorial services at the Capitol, and at their conclusion made a flying visit to pay tribute to Washington at Mount Vernon. He will be the guest of President Roosevelt at a dinner at the White House this evening. The weather this forenoon was delightful.

Defendants Have a Good Day in Court.

CRIMINAL CASES HURRIED THROUGH

Twenty-Four Defendants Given Their Liberty in the Circuit Court Yesterday.

Yesterday was another good day for criminals in the Circuit Court. Altogether, 24 defendants were given their liberty on dismissals by Judge Gear, nolle prosequi by the Deputy Attorney General, and upon the directed verdict of Judge Robinson.

Victor Gunn was charged with assault and battery, but the witnesses against him could not be found, and were said to be out of the jurisdiction of the court. A nolle prosequi was entered by Mr. Douthitt.

Hun Chun and nine other Chinamen, convicted in the District Court of gambling and fined ten dollars each, were released by Judge Gear. Mr. Douthitt stated that the witnesses had been subpoenaed but had not appeared in court, and he wanted the trial delayed for a short time. Mr. Brooks, who appeared for the defendants, said he would like to accommodate the prosecuting officers, but he did not believe there was any testimony against the defendants any way, and the court dismissed the case. Judge Gear said he was willing to assist in every way possible in compelling the attendance of witnesses. The same action was taken in reference to H. Sintaro and six other Japanese, the witnesses not being present in court when the case was called. Just as all these defendants were leaving the building the witnesses appeared on the scene, but then it was too late.

Attorney General Dole was called in to court and asked why another prosecuting officer had not been furnished to appear in Judge Robinson's court. Mr. Dole explained that Mr. Cathcart had been taken ill, and that he was compelled to appear before the grand jury, but a special deputy would be appointed for Judge Robinson's court. Mr. Mathewman was later appointed as special deputy to prosecute and he appeared in the afternoon in Judge Gear's court, while Mr. Douthitt prosecuted before Robinson.

In the afternoon Abraham Pull pleaded guilty to the charge of the larceny of a revolver and \$30 in cash, and was sentenced by Judge Gear to a term of six months in Oahu prison. Mr. Mathewman then entered a nolle prosequi against Jos. Magel, Kamalua Adam, Moses Adam and James Toomey, who had been indicted with Pull. In the case of James Ward, indicted under two charges of larceny, a plea of guilty was entered and sentence was suspended by Judge Gear until the May term, after he had severely lectured the defendant, who is a mere boy.

In the case of M. H. Kauwe and Mrs. M. N. Manuel, charged with adultery, Judge Robinson instructed the jury to acquit the defendants because of lack of evidence.

LAY IT TO WHITE.

The Queen's hospital trustees filed a motion yesterday to compel Ellen McCully-Higgins to answer whether she has in her possession a power of attorney executed to E. O. White. In the affidavit it is alleged that White did hold such a power of attorney, but loaned it to the attorneys of Mrs. Higgins, and they refuse to return the document. This is the suit in which plaintiff seeks the return of a note for \$50,000, held by the hospital, and for which she had received no consideration.

MONEY RETURNED TO COURT. Judge Gear has ordered Thomas Fitch to repay into court \$486.78, which was paid to him November 25, 1901, for the heirs of Jose Antonio da Silva. The former order of distribution is set aside, it appearing that Jacinthia da Silva is a sister of the deceased, and

therefore the widow is not the sole heir. An affidavit having been filed by Mr. Fitch showing that he had paid to the attorney for Jacinthia da Silva \$229.16, and the latter is ordered to pay that sum back into court.

PAHIA CASE.

An answer has been filed by the defendant in the case of Palupaka Malama Guerrero vs. Frank Pahia, in which he admits the purchase of the property alleged to have been fraudulently obtained, and says that he paid her \$400 in cash for it, and that the deed was executed freely, voluntarily and understandingly.

BRECKONS ADMITTED TO PRACTICE.

A petition for admission to the bar has been filed by United States Attorney Breckons with the Supreme Court. Petitioner says he is of the age of 35 years, and was born at Kowane, Ill. He graduated from the Georgetown University in 1890, and in the same year took up the practice of law in Wyoming, continuing until February, 1902. Mr. Breckons has been admitted to practice in the District Courts and Supreme Court of Wyoming, the Eighth District United States Circuit Court of Appeals, and the United States Court for Hawaii. The application for admission has been granted.

AN APPEAL.

An appeal has been taken to the Circuit Court from Judge Dickey's decision giving the Honolulu Stock Yards Company judgment for a hack and damages of one dollar against H. H. K. Keohokalote.

DOLE GIVES AN OPINION

Holds That Powers of Attorney Must Bear the Dollar Stamp Tax.

Attorney General Dole, in an opinion given to Treasurer Wright yesterday, held that stock proxies must bear the one dollar stamp specified in the Hawaiian statutes. Mr. Dole says: Honolulu, H. I., March 5, 1902. Honorable Wm. H. Wright, Treasurer of the Territory of Hawaii. Dear Sir—In response to your letter of March 3d, requesting my opinion as

"You Push the Button--It Does the Rest"

THE IDEAL AUTOMATIC TELEPHONE SYSTEM.

1. Only the subscriber wanted is called.
2. You connect yourself with the telephone desired.
3. While you are talking, positively no one can interfere or listen to your conversation.
4. It is entirely automatic. You press the button and it does the rest. Any number of telephones up to 35 can be connected on one line and operate successfully.
5. It restores itself to normal condition by simply hanging up the receiver.
6. It is a central energy system. No batteries in the telephones to get out of order.
7. It costs less to install than any other system, Only two wires necessary.
8. Your telephone rings only once when you are wanted, and then only. It is not ringing day and night while others are being called, and while you are talking you know that no one else on the line can hear you, which alone is a great advantage over the old systems.

DIRECTIONS.

To call, remove receiver from the hook, and press the button located directly under the dial.

This starts indicator pointer to moving about the face of the dial one number at a time, starting with number one.

When indicator reaches the number desired, remove your finger from the button and ring the desired party. All others are cut out. Immediately upon hanging up the receiver the indicator and telephone is restored to normal condition, ready for the next call.

Prices Furnished on Application.

WANT PAY FOR SHORT RATIONS
Suit Filed in United States Court
Yesterday and Marshal Hendry Prevents Departure.

The American ship A. J. Fuller was seized last evening by Marshal Hendry upon a motion issued by Judge Estee upon the complaint of thirteen seamen who made the voyage from Sydney and allege that their rations were cut down by one-third during the trip. By reason of this they claim that they are entitled to the sum of \$20 each.

The complainants in the case are Jacob Mosley, K. Olsen, Thomas Smith, O. Schack, Thomas Hawthorne, August Lindholm, Charles Johnson, John Badenhuizon, Timothy McNamara, Gio Borruso, Franck Leonard, Cionfrini Cisare and Luigi Savarese.

The libel was filed in United States Court by George Davis yesterday afternoon and Judge Estee issued the motion for immediate service. The hearing is set for Monday morning, March 12th.

The libellants allege that they joined the ship at Sydney, New South Wales, December 6, 1901, as seamen, and served on the voyage to Honolulu until Feb. 28, 1902.

The seamen further allege that they are entitled to be discharged from the said ship at this port of Honolulu, the said voyage being ended and determined.

That your libellants allege and say that the master of the said ship and the said ship are indebted to them the said libellants severally in the sum of twenty dollars each for the money due and payable to them by the said libellants from the said libellants by force and virtue of the statute of the United States to wit, section 4568 of the Revised Statutes of the United States, for that the provisions which the said seaman stipulated for under the agreement entered into before the commencement of the voyage were reduced during the said voyage for the space of forty days by one-third of the quantity which the libellants in and by said agreement were bound to provide and which they neglected and refused to provide without lawful excuse.

That the said ship is now lying in the harbor of Honolulu, and within the jurisdiction of this Honorable Court. Your libellants therefore pray that your honor and this honorable court will award each of said libellants the said sum of twenty dollars in accordance with the provisions of the said section of the Revised Statutes of the United States and the cost of this suit.

That the said ship will soon proceed to sea and out of the jurisdiction of this court.

That all and singular the premises are true and within the admiralty and maritime jurisdiction of the United States and of this honorable court. Wherefore, the libellants pray that process in due form of law according to the practice of this honorable court in cases of admiralty and maritime jurisdiction may issue against the said ship, her tackle, apparel, furniture and boats, and all persons claiming any right in the said vessel and especially the said master may be cited and summoned to appear and answer the matters aforesaid upon oath and that this honorable court will be pleased to decree the payment of the amount due to the libellants with costs.

**PATRICK WALSH
IN MORE TROUBLE**
Man Who Held Athletic Records
Fights His Father-in-Law.

Patrick J. Walsh, whose name has been prominent in the Circuit Court in connection with the divorce suit brought against him by his child-wife, has had considerable trouble since the marriage was annulled recently by the Circuit Judge. Under instructions from his attorney, Mr. Fitch, Walsh says, he went to the house of his former father-in-law, Da Silva, to obtain the \$300 worth of furniture which he had purchased when the marriage took place last October. The father-in-law objected to his removing the same, and as Walsh says, struck him with a club. A fight ensued, but Walsh failed to get his furniture. Yesterday a warrant for Walsh's arrest was sworn to by the father-in-law, and the case will come up in the District Court this morning. Walsh says that his former wife also proposes to have him arrested for using threatening language to her.

Walsh was once known to fame as one of the greatest athletes of modern times, and for fourteen years he held the record for high jumping, 6 feet 6 1/2 inches. He was also the winner many years ago of the six-day walking match held in Madison Square Garden. He then had a record of six minutes and a fraction for a mile. He was known first as P. J. Devan, but changed his name to Walsh when he entered professional athletics.

TONGS OR GLASSES?
Every inch one pushes off beyond the normal distance of twelve inches, after eye failure begins, means an inch of danger. Ninety-nine persons out of a hundred may do it safely; you may be the one who can't. Those having the best eyes when old age comes will be those who heed the first call for help. Eyes Examined; Glasses fitted.

COLLEGE HILLS
LOTS FOR SALE.

The Trustees of the Oahu College offer for sale at very low prices, and on
VERY FAVORABLE TERMS
(One-third cash; one-third one year; one-third two years' time, with interest at 6 per cent per annum) some very choice lots at College Hills. The
RAPID TRANSIT
Company performs a twenty minute service through the property; the College has provided a splendid and abundant supply of artesian water reaching over the entire tract, and the charges are reasonable. This is
A MOST HEALTHY LOCATION
and is entirely free from objectionable surroundings. No saloons, wash houses, ivery stables, poi shops and other nuisances of like character are allowed, and by all means is the most attractive suburban district near Honolulu.
Persons desiring lots in this locality will be able to secure full particulars in regard to these lots by applying to Mr. P. C. JONES or Mr. JONATHAN SHAW at the office of the Trustees, No. 404 Judd Building.
P. C. JONES, Treasurer.

THE PACIFIC
Commercial Advertiser

WALTER G. SMITH - EDITOR

FRIDAY : : : : MARCH 7

The chances are pretty fair that Great Britain will see Germany and go her one better by sending over the Prince of Wales.

The Democrats will run a candidate for the Gillilan vacancy if the Republicans do, but most of them hope the Republicans will know better.

The remarks of Chairman Knox on the Kohala ditch job and about Wilcox's bills, shows that distance has not clouded his official views of things Hawaiian.

It is pleasant to know that Kona has a chance, not only to escape the wreckers, judicial and otherwise, but to go on doing business. The conspiracy to ruin it has awakened an amount of popular resentment which bids fair to become the means of the rescue and upbuilding of the property. In that event the press which called public notice to the bunco game which was going on, should have the credit for a most satisfactory piece of public service.

The owner and manager of a disorderly house may be indicted, but those who run disorderly tram cars are supposed to go scot-free. Two occurrences reported in today's Advertiser throw a heavy responsibility upon the management of the local trolley line. In other cities the man in charge of a car, whether driver or conductor, is supposed to eject any one who disturbs the peace, but here a drunken woman may hold carnival among her fellow passengers, and even publicly insult a priest without causing any other emotion on the driver's part than that of mirth. The only passenger a driver will lay hands on is one who refuses to pay his fare. All others, whether drunk, disorderly or riotous, may do as they please.

The arrangements at New York for the entertainment of Prince Henry were bad, and at Shooters' Island, where the Meteor was launched, everything went wrong. Americans generally lose their heads when they try to give the royalty and aristocracy of Europe a good time. At the ball tendered to the Prince of Wales in 1860, he was nearly mobbed, and incidentally part of the dancing floor fell. The Grand Duke Alexis was made to shake hands with all comers, and the Infanta Eulalia, to her Bourbon horror, found herself at a ball in Chicago, where, as she complained, her hostess was the wife of her inn-keeper. Apparently there has not been much advance in Eastern etiquette since the first Turkish ambassador was entertained by the New York Board of Aldermen with ham sandwiches and beer, delicacies which, as a Mussulman, he could not touch.

CARE OF THE BODY.

A doctor in Kansas is delivering lectures on the best means of caring for the human body. He says we eat too many things, and gives a novel illustration of this fact. The whale, he says, has seven stomachs with which to digest all kinds of fish. The cow has four stomachs for the digestion of the different kinds of grass. The dog has one stomach for the digestion of meat. The monkey has one stomach for the digestion of nuts and fruits. That makes thirteen different kinds of stomachs required for as many different kinds of food, yet man will shovel all these foods, and more, too, into one stomach and expect it to digest them well. One rule laid down by the doctor is that we should eat nothing that is hot when it is cold; that is, pepper, ginger, mustard and such warm-cold things. "It is said by a French scientist," announced the doctor, "that pepper has six times the power of alcohol in creating what is known as a 'liver'."

Nature shows in the structure and variety of his teeth that man was intended to use a mixed diet, and he has done so without the impairment of his health. Saying nothing of the more or less apocryphal tales of Scriptural longevity, it remains true that the span of life is lengthening rather than contracting. In the nineteenth century it averaged longer by ten years than in the eighteenth, and the nineteenth saw the widest possible diffusion of the world's edible products. We eat a greater variety of things in Hawaii today than they did in London a century ago—and we live longer. So, no matter about the absence of plural stomachs. The one stomach the human animal possesses performs its functions as well as do the four stomachs of the cow; and one generation of man is equal to three of the bovine species.

As to the rule of the Kansas doctor that pepper, ginger and mustard should be eschewed, there is something to be said for and against. Where the climate is cold and the body active, the use of condiments may be dropped without depriving the body of anything it needs. But not so in warm countries where, sooner or later, lassitude binds one like a chain. When active exercise is not or cannot be taken, something must be done to energize the liver. With brute animals, nature often compels such exercise, as by giving fleas to dogs. But for these insects dogs in the tropics would die young from the effects of indolence. There is no exterior compulsion for man, however, but in all warm countries he has found substitute in the stimulating properties of spice. In the case of India he ate curries and

REV. DR. SERENO E. BISHOP
RETIRES FROM EDITORIAL DUTY

The current number of The Friend

It is with the greatest satisfaction that we make the announcement that after the present issue, The Friend will pass into the hands of editors appointed by the Hawaiian Board. The responsible editor will be the Rev. John Leedingham, the able principal of the North Pacific Mission Institute, who will enjoy the co-operation of several other members of the Board. Mr. Theodore Richards, the Treasurer of the Board, will be the business manager of the paper. A program of the new plans will appear in the April issue. The present editor greatly welcomes this change. With a markedly increasing abatement of both bodily and mental strength, at the age of seventy-five years, he has been growing very sensible that it must be only a short time before this pleasant duty, which has occupied him for nearly fifteen years, must be resigned into stronger hands. It has been a cause of much anxiety, which could be found to undertake it. At

the influence of Spain, his food is cooked in red pepper. Other regions of the sun are noted for their spicy drinks; all have some natural liverwort, and without it they would die. So what is sauce for Kansas, as our medical friend should observe, may not be sauce for those whose lives are spent under the vertical sun.

DR. BISHOP'S RETIREMENT.

The current number of The Friend, the oldest paper west of the Rocky Mountains, announces the retirement of its editor, the Rev. Sereno E. Bishop, D. D. For fifteen years Dr. Bishop has carried on The Friend, and in its columns has done service for religion, morality and good government that even the honor in which his fellow citizens hold him cannot adequately repay. No good cause, appealing in any strong particular sense to the people of these Islands, or to humanity at large, has failed to find in The Friend an earnest, powerful and scholarly advocate. Dr. Bishop retires gratefully, and respects the future of the paper, hopefully. At the age of seventy-five, he finds the burden of editorial responsibility too great, and is glad that younger men, competent for such a task, have relieved him of it. Hereafter the Rev. John Leedingham will be the editor, and Theodore Richards the business manager. Under their care The Friend will suffer no abatement of its vigor.

Telegraph Notes.

Charles Tiffany left an estate of \$2,000,000.

There is now no plague in the city of Manila.

J. A. Fillmore, for many years general superintendent of the Southern Pacific Railroad, is dead.

The Republican members of the House discussed the Cuban bill, but reached no understanding.

The Boers captured a convoy of empty wagons, consisting of a force of British imperial yeomanry, three companies of fusiliers and two guns.

Governor McSweeney of South Carolina scores Tillman and McLaurin, and regrets that he did not accept their resignations when they were tendered.

Lieutenant Governor Tillman, of South Carolina, brother of the Senator, has asked the President to withdraw his acceptance of an invitation to present a sword to a South Carolina hero of the Spanish war.

The Transports.

SAN FRANCISCO, Feb. 26.—The transport Egbert sailed from Manila for this port on February 18, and will come by way of Honolulu, bringing two battalions of the Twenty-eighth Infantry and 312 short-term men. The Sheridan left Manila last Sunday, bringing 97 sick, 6 insane, 1,189 short-term men and the headquarters of the First and Third Battalions of the Twenty-eighth Infantry. The Twenty-

the opportune moment, the Hawaiian Board enter with this most welcome proposition. It has seemed as a special interposition of Providence, to continue the existence of the valued paper, which has long been the oldest newspaper west of the Rocky mountains.

The Friend was started in January, 1833, by the Rev. Samuel C. Damon, who had arrived in Honolulu during the previous year as chaplain to seamen. At first it bore the title of "Temperance Advocate." To this name in February were added the words "and Seamen's Friend." In January, 1844, it became "The Friend of Temperance and Seamen," and in January, 1845, simply "The Friend," under which title it has continued as a monthly journal to the present time.

Under the new management and plans we are sanguine of a great increase in the value of the paper, and of a large addition to its subscription list. There can be no doubt that this long and greatly valued journal is about to enter upon a new and most prosperous period. Our best heart wishes go with it.

ordered to sail on the Meade and Hancock from this port soon, will be held until further orders.

The classical cannibal: "But why," asked the sub-chief of the Cannibal Isles, "do you insist upon having the man who fell while leading the charge against us served up at the banquet this evening? He seems to be hard as nails." "Huh!" answered the chief of the Cannibal Isles, "I read in a book of poetry left by our last meal that 'the bravest are the tenderest.'"—Baltimore American.

Why he returned: "Did you come back for something you forgot?" asked Mrs. Darley, when her husband returned to the house a few minutes after leaving. "No, my dear," replied he, "I came back for something I remembered."—Town Topics.

Collapsed building: "Kape alive, We're rescuin' ye." Voice from the debris—"Is big Clancy on there wid ye?" "Sure he is." "Ast him wud he be so kind as t' step aff the roofin. I've enough on top av me widout him."—Brooklyn Life.

Parvenue—I hear the Newriches claim to be better off than we are. Mrs. Parvenue—That's perfectly ridiculous. Everybody knows we have more money. Why, we receive over twice as many begging letters as they do.—Town Topics.

Sore Throat

For sore throat and pains in the chest there is no medicine that gives relief so quickly and does so much good as Halpruner's Pain Remover. There is nothing like it to drive pain and inflammation from the body—it does it so quickly and it does not do you any harm.

Rub Halpruner's Pain Remover into the pores of the skin of the throat and chest, also take a tablespoonful in a wine glass of water or milk every hour—you won't have to take it long.

Don't let the druggist talk you out of Halpruner's. It is prescribed and compounded to cure your illness and is a medicine you ought to have. Demand genuine—50c and \$1 a bottle—25 California St., San Francisco.

Halpruner's

"TO THE PUBLIC—I suffered with a severe sore throat four days after the opera 'Theodora' at the Tivoli Opera House. I used Dr. Halpruner's Pain Remover as a gargle and to bath my neck, and found instant relief; in fact, I was almost immediately cured and was able to continue my role in the opera." SIGNORITA IDA VALEGA, 12

Rheumatism

Is a rack on which you need not suffer long.

It depends on an acid condition of the blood, which affects the muscles and joints, causes inflammation and pain, and results from defective digestion and a torpid action of the liver, kidneys and skin. Sciatica, lumbago and stiff neck are forms of it.

"Hood's Sarsaparilla has cured me of rheumatism. I was so I could not lift anything and my knees were so stiff I could hardly get up or down stairs. Since taking three bottles of Hood's Sarsaparilla I have never felt a symptom of rheumatism, and I gladly recommend Hood's for this disease." MRS. HATTIE TURNER, Bolivar, Mo.

Hood's Sarsaparilla and Pills

Neutralize the acidity of the blood, perfect digestion and excretion, and radically and permanently cure rheumatism.

The New Prism Reflector For Incandescent Lamps.

If it is illumination you want—not decoration alone—you should use a prism reflector. They are made under a scientific principle, from superior white glass and not only increase the efficiency of your lights from fifty to one hundred per cent, but give a complete diffusion and consequent softening of the light. The Prism Reflector removes all glare and the light is both hygienic and agreeable in quality. They are very beautiful in appearance; cast no shadow like ordinary reflectors. In three sizes @ 60c, 75c and \$1.00. We have them attached to lamps in our office for the purpose of showing them to visitors.

M'MAHON DEPARTS FOR SAMOA

F. MAURICE M'MAHON, athlete, dreamer and writer of things, took passage on the Souma yesterday for Apia. McMahon is well known in Honolulu and Hilo, in both of which places he has been engaged in business during the last three or four years. He made a mark as an athlete on Hawaii, running distances up to 440 yards in record time for the Hilo track. In Ireland, the land of McMahon's nativity, some of his athletic records stand today, and on the cinder paths of the mainland he has also been recorded a winner. McMahon has been from time to time a contributor to the local press, and during a recent visit to the Coast published a book of poems entitled "From Fair Hawaii" which has found an extensive sale here. Of late he has been suffering from an attack of pleurisy which he has been unable to shake off, and it is in hope of effecting a complete recovery, and also with the idea of doing some literary work in Stevenson's country, that McMahon has left his friends in the land of "Aloha" to make fresh ones in the land of "Talofa".

TRANSPORT FESTIVITIES

Officers Give a Ball in the Town.

The army officers of the U. S. A. transport Warren proved themselves capital hosts at Progress hall last evening, where they received their town guests and enjoyed an evening of dancing. The hall was appropriately decorated in honor of the semi-military occasion, and the walls were brilliant with the colors of the national flags, interspersed with smaller signal flags, which came from the Warren's lockers. The handsome tricolor flag of the United States transport service with the blue fouled anchor emblazoned thereon, occupied a conspicuous place beneath the arch of the musicians' platform. The American and British colors were also shown, and Hawaiian flags were in close proximity to each. Beautiful pandanus, palms ferns and other tropical shrubbery in boxes were arranged around the hall.

The reception and dance was originally planned to have been given upon the decks of the transport, but when the vessel's stern had been raised so high out of the water to repair the propeller the decks were at an incline which prohibited dancing and the affair was transferred to Progress Hall. It was a graceful compliment of the army officers to those who have entertained them during their stay. Captain Cannon, army quartermaster on the Warren, ruled the hall for the evening. The music was good, the dancing enjoyable and the refreshments, served by Mr. Havery of the Hawaiian Hotel, were of the best. Punch, salad, cake, ice cream and sandwiches were the menu.

The dance was given by Captains Dunning, Smiley, Brooke, Vance, Ulme, Arnold and Cannon, First Lieutenant Moore, Surgeon McVean, Surgeon Garlinton, Second Lieutenants Taylor, Jones, Shaw, Boyce and Gasser. Their guests were Major Robinson, U. S. A., and office staff; Mrs. Robinson, Admiral Merry, U. S. N.; Paymaster Hall, U. S. N.; Captain McK. Williamson, U. S. A.; Captain Pearce, Lieut. Hancock, and Dr. McAdory, Artillery Corps, Camp McKinley; Captain Barnesson of the transport; Mrs. Colwell, Mrs. Evans and Mrs. Kimbrew, army ladies, and Miss Moore, a navy lady on the transport; Miss Landegan of New York, Miss Elsie Dodge, Miss May, Colwell, Miss Louise Gerard, Miss Agnes Gerard, Miss Marcella Warren, Miss Lillian Bacon, Miss Rosie Cunha, Mrs. Boettcher, Miss Boettcher, Miss McMullin, Miss Braydon, Miss Angus, Miss Grace, Miss Roth, Miss Reynolds, Mr. and Mrs. A. F. Judd, Mr. and Mrs. H. W. Lake, Mr. and Mrs. Emmet May, Mrs. E. B. McClanahan, Mrs. H. W. Howard, Mrs. Winters, Mr. and Mrs. Aggasiz, Mrs. Wagner, Wentworth Buchanan, Byron Baird, C. H. W. Norton, Harry Wilder, Sexton, N. B. Kooser, A. R. Cunha, W. A. Coney, W. D. Adams, George Paris, George Angus, Fred Angus, Mr. Maddux.

A Utopia to which Dr. Francis Galton confesses having given much thought is the idea of a great society, publishing intelligence and memoirs, holding yearly elections, administering large funds, establishing personal relations like a missionary society with its missionaries, keeping elaborate registers and discussing them statistically with honest precision. The purpose would be improvement of the human breed. An effort would be made to apply the known principles of evolution, as in the rearing of domestic animals, but further scientific inquiry. Such inquiry, necessarily on a vast scale, would be justified by one of the highest objects within the view of man. Not least of the plans for the world's betterment is one that has been already strongly advocated—the segregation of all habitual criminals and degenerates of the anarchist type, and the resolute denial to them of all opportunity for producing offspring.

The author's privilege: An author wrote to his publisher: "Can I hope for any royalties from my book this year?" The publisher replied: "Yes, you can hope. There's nothing in the world to hinder you."—Atlanta Constitution.

THE PLAN IS SUCCESSFUL

Economy in Expenditures Will Carry Territory Through the Year.

The Executive Council was occupied yesterday with matters of finance. The end of this month is the close of the quarterly period for which a pro rata allowance was made to all departments in order that the money now in the public treasury may suffice for the entire year. The indications are that the plan of economy enforced by Governor Dole will be in every way successful. The cut to be made in the appropriations for the next quarterly period will not need to be so large as upon the first pro rata, which was much in the nature of an experiment. It has been found now that by keeping all expenditures within the proper limit, all required work may be easily accomplished, and all necessary improvements made without imperiling the financial condition of the Territorial treasury. Supt. Boyd stated after the meeting yesterday that the plan was working well, and that there would be no difficulty in providing for all expenditures until the close of the year, or until the tax levies for the present year become available in November. At the next meeting the new pro rata scale for all departments for the coming three months will probably be adopted.

REVISED VERSION.

Israel Zangwill, with especial reference to London, thus amends a well known old nursery rhyme:
Little drops of water,
Little grains of sand,
Make the milkman wealthy,
And the grocer grand.

The startling phenomena in Perseus have opened a fertile field for speculation. A British astronomer assumes that different portions of the meteoric matter forming the nebula have been successively lifted up from the flash of the explosion that produced the "new star," and that the apparent expansion must have had the velocity of light. On this hypothesis, the new star is so distant that light requires 213 years to reach us!

BY AUTHORITY.

SALE OF LEASE OF GOVERNMENT LOT SITUATE AT KAILUA, NORTH KONA, HAWAII.

ON SATURDAY, APRIL 5, 1902, AT TWELVE O'CLOCK NOON at the front entrance of the Capitol (Executive building), will be sold at public auction the lease of the premises known as Kamakahonu, near the sea beach, situate at Kailua, North Kona, Hawaii, and containing an area of 7-10 of an acre, a little more or less.

The government reserving the privilege of taking upon sixty days' notice for the purpose of public improvement, the strip of shore line extending at a right angle from the end of the Government wharf at Kailua, along the waterfront of said lot.

Terms—Lease for five years; permission given June 8, 1902. Upset Rental—\$250 per annum, payable semi-annually in advance.

JAMES H. BOYD, Supt. of Public Works, Office of Superintendent of Public Works, March 5, 1902. 6110

**THE STORM
BREAKING UP**

**Ninety-Five Trees
Down in the
Park.**

**NOT MUCH HARM
DONE UP NUUANU**

**A Block Near the Hawaiian Hotel
Lost Many Trees and Other
Growths.**

Forecast for Today—The storm appears to be breaking up, but the weather is still uncertain.

After a six days' intermittent gale the wind died down considerably yesterday morning, and by afternoon, came only in light gusts. The rain drizzled off and on during the entire day and evening, and kept the streets in a soggy condition. Often during the day patches of blue sky were exposed and rain-soaked people heaved a sigh of relief, but the blue vistas were of the briefest kind, for rain clouds soon closed over them.

Commissioner Wray Taylor made an inspection of Kapiolani Park yesterday to ascertain the extent of the damage. In a general drive around the park he found ninety-two algaroba trees down, and only three ironwoods. The central part of the park seems to have stood the storm better than the edges, and he does not believe that many of the trees on the inside of the tract were felled. The ironwood trees that were blown down were on the banks of small lakes and were easily uprooted. He said these should have been taken up long ago instead of waiting for the storms to overturn them. He expresses the opinion that the result of the comparison between the ironwoods and algarobas is that the former are the best for windbreaks. The algarobas have only surface roots, and when the ground around them becomes soaked a wind can easily topple them over.

He found no damage to speak of in Nuuanu Valley. The young ironwood trees there stood the test admirably. Through the Fall came the most terrific wind and hardest driving rain he has ever experienced.

In the big block bound by Alapai, King, Punchbowl and Beretania streets, through which the Rapid Transit track runs from Printers Lane to Alapai street, algaroba trees and small bushes were down in all parts. Several fell almost upon the tracks, and the limbs had to be cut away to permit the cars to have clear headway.

**DEFENDANT
HAS A SAY**

**Plantation Men and Sugar Experts
Place Values Upon Pearl
Harbor Land.**

Plantation values touched high figures in the evidence given yesterday in the Honolulu Plantation Company trial. The witnesses who testified at the first hearing of the case were again on the stand yesterday, and their estimates were practically the same as given before. The trial is still progressing rapidly, and although it cannot be finished this week, it is very possible that the case will go to the jury by Monday or Tuesday of next week. It has now been definitely decided that the jury will make its visit to Pearl Harbor Saturday, though if the rain continues as it threatens to do they will have a most disagreeably muddy experience.

The estimates placed by sugar experts and plantation men upon the leasehold interest of the Honolulu Plantation Company in the former Bishop Estate land yesterday, varied from \$200,000 to \$300,000. The witnesses were W. T. Souer, W. R. Castle, W. W. Goodale, G. F. Renton, L. A. Thurston, F. Meyer, A. Ahrens, J. T. Crowley and others. Crowley is a chemist and gave the results of a chemical examination of the soils upon the condemned land. He said that from his examination he was convinced that it was very good cane land.

W. R. Castle estimated the value of the leasehold at \$250,000, F. Meyer \$200,000, and A. Ahrens \$275,000. None of the witnesses for the defendant made any change in the figures given at the first trial. L. A. Thurston placed a value of from \$600 to \$700 per acre on the arable land. Manager Low finished his testimony the first thing in the morning, and the remainder of the day was occupied with expert testimony. Judge Estee is keeping long hours in trying to finish the case, opening at 9 o'clock in the morning and at 1 in the afternoon.

**SOCIETY AT THE
BISHOP CONCERT**

All the boxes for the song recital of Madame Geneva Johnstone-Bishop in the Opera House next Monday night have been taken, and a large number of the best seats in the house, including the loges, have already been disposed of. The sale of seats is progressing most favorably although it has only been a couple of days since the box plan was opened.

The society people of Honolulu will be well represented, a large number having already secured seats. One of the boxes will be occupied by Princess David Kawananakoa and Jonah Kalaniana'ole and their party.

CANAVARRO IS HOME ONCE MORE

Had an Enjoyable Vacation and Returns in Excellent Health.

Consul A. de Souza Canavarro, who has spent the past five months in travel, arrived home yesterday in the Sonoma. Senhor Canavarro was very ill when he left the city, but is in fine health now, and looks better than he has for many years. He suffered somewhat from the voyage and caught a cold on the coast, but this does not bother him greatly and he says he is better than he has been in years. "I had a most enjoyable trip," said he yesterday; "though there is much of sadness in going back, where one has been absent for a score of years. I was received most impressively in Lisbon, and had an exceedingly pleasant vacation, visiting my friends and relatives. The government was very kind to me, and I received a promotion while at home. There was also the greatest satisfaction expressed with the condition of the colony here, and the officials of my government look with pleasure to the prosperity and contentment of the people."

While from modesty Senhor Canavarro will not talk of his reception at his home, it is known that he was given many honors. The fact that he had kept his station here for 20 years was a feature which attracted the greatest attention at Lisbon, where a consul home on furlough every two or three years is the usual thing. In consequence not only of this exceptional record, but as well the fact that the colony here prospered so greatly, there was utmost satisfaction felt and expressed with the official. He was given repeated audiences by the king and his advancement was made, almost by the royal direction. His new rank makes him a practical head of bureau, but he returned here, where he has so long made his home, at the personal solicitation of his superior officers, who felt that the interests of his people were safer in his hands than those of any other.

BUSINESS LOCALS

H. May & Co. advertise many choice biscuits and crackers in this issue.

Hawaiian Lodge No. 21 will hold special meeting tonight. Work in first degree.

For Island jams and jellies, go to the Kona Orphanage Coffee Store, 165 King street. Phone Blue 1621.

Olaa Sugar Co., Ltd., adjourned annual meeting, will be held next Friday, March 14, at 2 o'clock.

Amazing prices offered this week by Coyne Furniture Company on iron bedsteads. See stock at store.

An unusually fine assortment of gentlemen's bathrobes displayed in the windows of the Kash Clothing Co., Ltd.

James F. Morgan will today hold a clearance sale of dry goods, shoes, jewelry, etc., at his salesrooms, at 10 o'clock.

Honolulu Brewery want your order for Primo Lager. They promise that you will want more after the first has been used.

Mr. George Lycurgus has given his power of attorney to Mr. George Andrews, who has power to act for him in all matters.

Ehlers & Co. will hold a special reduction sale beginning on Monday next. Black hosiery this time. See their windows.

The annual meeting of the Hawaiian Engineer and Construction Co., Ltd., will be held Saturday, March 8, in offices of W. R. Castle, Stangenwald building.

The new prism reflector for incandescent lamps is a great invention. It increases the illumination, softens the light, and is a beautiful decorative globe. See Hawaiian Electric Company's ad.

IT WASN'T HIS DOG.

The Chinese Mounted Police and the Tramp.

A Chinese policeman, bundled in a military coat and riding a big horse, galloped up Nuuanu street about 6 o'clock yesterday afternoon. On the curb stood a tramp, happy with his load of Primo beer. Near by was a yellow dog, which, when the horse came along ran out and barked. The policeman drew up suddenly and tried to ride down the dog, which barked all the more. Then, with dignity sadly ruffled, the mounted Celestial hit at the cur with the slack of his reins, thus bringing out a canine chorus. By that time a crowd had gathered and the broad red grin of the tramp was reflected in other faces up and down the block.

"Callee off your dog!" yelled the policeman.

"Hey?" blandly inquired the tramp.

"Callee off your dog, I say, or I'll—"

"Ah, gwan, you Chink," came the discouraging reply.

Upon this the guardian of the peace climbed down from his horse and hurrying to the tramp, yelled, "I arrest you if you don't hold that dog!"

"Say," queried the tramp unabashed, "you tink I got nuthin' better to do than hold dawgs every time er cop wants to run away from 'em? That ain't my dawg."

It took the policeman only a minute to remount and go clattering up the street with the yellow dog in full chase.

Hyades Here.

After a very rough passage from San Francisco, the American-Hawaiian Steamship Company's big freighter Hyades arrived about 9 o'clock yesterday morning and docked over by the Railroad wharf. She would have come right into the harbor had not her reversing gear been damaged, on which account she was kept outside until the necessary repairs were made.

LOCAL BREVITIES.

Open cars, with every seat wet, were run on the tram lines yesterday.

The Sonoma was delayed a day in San Francisco for the British mails.

F. W. Macfarlane and wife did not arrive on the Sonoma, as was expected.

A daughter was born to Mr. and Mrs. Dan H. Case yesterday morning.

The Catholic Aid Society will meet at the convent on Fort street, at 3 o'clock this afternoon.

Mr. and Mrs. James A. Palmer, of Makaweli, Kauai, are visiting at the home of Mr. and Mrs. George Goodacre, San Jose, Cal.

Grocers say that Island eggs were never so plentiful as they are now. More people are keeping hens, and are doing well with them.

The regular weekly rehearsal of the Philharmonic Society of Honolulu, will be held Friday evening at 8 o'clock, March 7th, in Pauahi Hall.

Kamehameha School, Punahou College, Honolulu Athletic Club, and the Artillery post at Camp McKinley have teams in steady training for the field day.

The men of the Fifteenth Infantry, now here, will be given an opportunity to have target practice at the Camp McKinley butts next week, if there is a clearing up.

The jury in the case of Paris vs. Magoon left the courtroom yesterday afternoon at 4 o'clock, and not arriving at a verdict at 12 o'clock last night, was taken to the Hawaiian Hotel.

The regular meeting of the Free Kindergarten and Children's Aid Association will be held this morning at 9:30 o'clock in the Young Women's Christian Association rooms, in the Boston building.

The regular monthly meeting of the Kamehameha Alumni Association will be held this evening at the clubhouse on Fort street. Baseball will be the principal subject discussed, and there promises to be a large meeting.

At the semi-annual meeting of the Arion Society, held yesterday, the following officers were elected: H. Mehr, president; B. Gebauer, vice president; C. Schoellkopf, secretary; Fred Klein, treasurer; C. Harbarth, librarian.

Mr. and Mrs. T. J. King announce the engagement of their daughter, Miss Juliet King, to Mr. Clifford Kimball. The announcement was made Wednesday evening at a dinner given by Mr. and Mrs. S. E. Damon and Dr. and Mrs. Cooper in honor of Miss Mauds Gillette and Mr. A. A. Young.

Mr. and Mrs. F. J. Lowrey will entertain this evening at their beautiful home on Lunallo street. The entertainment is planned as one of the most novel affairs yet given in Honolulu. It is called a "Patent Medicine" evening.

Each guest is to represent some well known patent medicine and everybody's pills, plasters, oils and remedies in general will be in evidence.

Complaint has been made of the action of the hackmen who occupy the stand opposite the Hawaiian Hotel, on Hotel street, in blockading the sidewalk for passers. The horses are allowed to stand entirely across the footwalk, and people are required to walk around them into the muddy street.

One impudent Jehu calmly told one man who protested against the blockade, that hacks were made before sidewalks.

At the regular meeting of the "1902 Club" last night the following officers were elected: President, A. E. Jacobsen; secretary, Fred Noyes; board of directors, Mrs. Luning, Carl Taylor, A. F. Lynch. Final discussion was had on the masquerade ball to be given Thursday evening, March 13, at Elks' Hall. The event is an invitation affair, and an evening of fun is anticipated.

The meeting last night closed with dancing, which continued until midnight.

Edwin Fernandez, of Honolulu, and Miss Lydia Roberts, of Provo, Utah, were married in the Mormon Temple at Salt Lake City on February 23. Mr. Fernandez is the son of Abraham Fernandez, manager of the Hawaiian Hardware Company of this city, and his bride is the daughter of Delbert Roberts, of Provo, Utah. The groom has been a student in the Brigham Young Academy at Provo, and while there met his bride. They will come to Honolulu next June or July, accompanied by the young man's mother and his sister.

The Maile Hima Athletic Club held a directors' meeting in their new hall on Fort street on Wednesday night. There was considerable discussion over the coming field day, and the manager was instructed to notify all members who wish to make the team to meet at the Robertson premises on Nuuanu street, Friday afternoon at 5 o'clock to commence training. If it is thought that the club can make a good showing and a team will be entered for the sports, C. Cheek has offered his services to the club to train the team for the sports.

... A NEW ... HYGIENIC SHOE FOR WOMEN

Have you seen it? A neat Oxford tie made of the softest kid, with elk hide sole and rubber heel; just the thing for house wear or for those who are on their feet a good deal. It is also, properly, a shoe for misses.

Taroena

Is a prepared food made entirely from taro by a unique process which preserves all the valuable nourishing qualities of the root. It is highly concentrated, thoroughly cooked and ready for immediate use. Unlike artificial food compounds, Taroena will keep in any climate for years after being opened. It is prepared under the most hygienic conditions and is completely sterilized. Taroena is essentially a pure, wholesome, natural food and is supplying a long felt want.

Taroena

Is rich in the phosphates. It is a wonderful nerve tonic and nerve fibre builder. It is the best of brain foods. Business men who have overworked, and suffer from loss of sleep and appetite, nervousness, headache and a general prostration of the nervous system, will promptly improve on a diet of Taroena. Physicians who have prescribed Taroena in cases of this description, have been both delighted and astonished with the rapid recovery of their patients.

Taroena

Is absolutely unlike all other invalid foods in this important essential; it contains, placed there by nature, a digestive ferment peculiar to itself. In no other way, than by the presence of a natural ferment, can the wonderful digestibility of Taroena be explained.

STEAMERS TO LOAD OIL FOR HAWAII

Murphy Still at Work—Votes for the Wahines—Hawaiian Geography.

(Special to the Advertiser.) SAN FRANCISCO, Feb. 27.—The United States Fish Commission expedition to Hawaii will sail in a day or two from this port for Honolulu. The party will continue the work so ably begun by President Jordan of Stanford University, and Professor Jenkins, last summer. Charles H. Gilbert who is the head of the zoology department at Stanford University, will be in charge of the expedition, and will be assisted by Professor C. C. Nutting of the zoology department of the University of Iowa, J. O. Snyder, instructor at Stanford in zoology, and Walter K. Fisher, a Stanford graduate, who has done special work in natural history investigations.

EUGENE FIELD'S WIDOW HERE. On the Sonoma will arrive in Honolulu Mrs. Julia S. Field, widow of the distinguished dead poet, Eugene Field, whose verses have made a world laugh and weep. Mrs. Field has been in Alameda for some days, visiting the family of Henry K. Field, cousin of Eugene Field.

Mrs. Field is well known to all those who love the work of the Western poet, and who are familiar with his life, as the sweetheart whom he wooed so impetuously and won against the protestations of her relatives. She was Julia Sutherland Comstock, and lived in St. Joseph, Mo. She was but sixteen years old when Field met her, and shortly afterwards he went to Europe. He stayed six months, and then returned and wedded Miss Comstock, despite barriers interposed. Often in his writings he has sung her praises, and told of her struggle to keep the family purse from being continuously emptied by his improvidence.

Mrs. Field lives in Chicago, where her husband spent the last years of his life. Her daughter who made quite a reputation as a reader of her father's poems, is now married, and the other children are at college. Mrs. Field is accompanied on the Sonoma by a party of Chicago friends. They expect to remain about three months, and may go on to Samoa and Fiji.

MURPHY STILL AT WORK. Francis Murphy, the apostle of temperance, is in Los Angeles, conducting gospel temperance meetings in the Young Men's Christian Association Hall. Mr. Murphy is not as strong as he was in Honolulu, and finds his work telling on him. A Los Angeles paper says of him:

During the early years of the Pennsylvania oil fields excitement, when life in the Alleghany mountains was as strenuous as ever was lived in a western mining camp, a name that was known from Pittsburg to Scranton was Francis Murphy, the keeper of dance halls and saloons. Murphy was great in his work of creating intemperance, as he has been since in promoting total abstinence.

In 1879 Mr. Murphy delivered his first

HOSTETTER'S BITTERS HEALTHY BLOOD

The blood is the source of strength. If you are weak you need a medicine to tone up your stomach and make plenty of rich red blood. The medicine to do this is Hostetter's Stomach Bitters. It will not shock the system, and it cures INDIGESTION, DYSPEPSIA, HEARTBURN, BELCHING AND MALARIA, FEVER AND AGUE. A fair trial will convince you of its value.

HOSTETTER'S STOMACH BITTERS

AMENITIES OF THE SENATE

temperance lecture. He began then a crusade against drunkenness that swept on and on, till the name of Francis Murphy was known as wide as the world. At one series of meetings in Pittsburg 45,000 people signed his pledge and became "Murphys."

Mr. Murphy is now 66 years of age. His hair is almost snow white, and he shows in a growing feebleness the weight of hard work that he has done. But he has no thought of giving up the work. He has returned only lately from a trip to Australia and New Zealand, and before coming south held meetings at Sacramento and other cities in the northern part of the State. During the Spanish-American war he served as a chaplain with the army in Cuba.

Mrs. Murphy, who for a number of years worked with her husband, has given up traveling, and makes her home at Fair Oaks, near Sacramento, where they own a large ranch.

TO LOAD OIL FOR HAWAII. The Standard Oil Company, it is understood, is in a project to build an electric railway from Ventura to Bakersfield. The purpose of the road is to carry oil from the Bakersfield wells to the port of Ventura, where a line of tank steamers will receive it for Hawaii and the Orient. The original surveys were for a pipe line to carry oil from the Kern and Sespe wells to the seaboard, but it was found that the production of the wells is too heavy for economical transmission through pipes, and the determination to build an electric railroad to haul the oil was reached.

TO SET THE WAHINES FREE. At the National Women Suffrage Convention in Washington some days ago, Susan B. Anthony made an eloquent plea for the carriage of the gospel of women suffrage to the benighted heathens in Hawaii. She pleaded that the "long-suffering women of the Islands" be given an opportunity to know fully the saving grace of suffrage. Susan, who is, of course, the best known suffragist in America, worked herself into a very frenzy of pity for the wearers of the holoku, and it would not surprise me if she herself took a trip to Honolulu to investigate conditions. Speaking of the school teachers who have gone to the Philippine Islands, she said: "Think of them being put under the heel of barbarians of the Philippines, and the barbarians sent from this country, who are worse than the Filipinos."

Susan Anthony wants to correspond with some wide awake woman in Honolulu, in order to stir up sentiment in favor of woman's right to vote. I have sent her the address of Princess Wilcox, and informed Mrs. Anthony of the strenuous life being led by the Princess in Hawaii, as an example of the possibilities for women even in a semi-tropical climate.

CIGAR DEALERS ALARMED. At the big dealers in cigars here who have had a profitable trade with Hawaiian tobaccoists are very much alarmed over the statements that an immense quantity of Manila cigars are coming to Honolulu, on account of the ruling that there was no duty on them. They fear that the smokers of Hawaii will acquire the taste for Manillas, which they had before the tariff of the United States was put in force. With a fine Manila cigar for five cents, it is

SPIRIT OF THE HAWAIIAN POLITICAL NEWSPAPERS

In the Home Ruler of March 1, appears the following paragraphs written or uttered by Delegate Wilcox:

The brainless hooles whom I meet in Hawaii are unknown here in America. R. W. W.

Of all the missionaries in Hawaii, none are fit to black my boots. R. W. W.

The greatest honor ever bestowed upon me is that I am of the race—a Hawaiian—one of yourselves. R. W. W.

No money in this world could ever purchase my heart, but a mite from Hawaii's native poor, can win it. R. W. W.

The day will come when those who have abused and trampled me underfoot will bend the knee to me and pray to me as if I were their God. R. W. W.

Home Rulers must continue to be steadfast; be united as one. As a result, the future of our country will be in your hands. R. W. W.

I am not a man made from wood, but a man made from steel. R. W. W.

A PLEA FOR THE DEMOCRACY. The following article, which incidentally exposes the Wilcox game at Washington, is from Ke Aloha Aina of March 1:

It was Cleveland, the Democratic President of the United States of America, who sent her Commissioner Blount to Hawaii to make investigations into matters concerning our overthrow. And he also sent the American Minister A. S. Willis with instructions to restore the monarchical government of Hawaii and Queen Liliuokalani.

It was J. H. Blount, a Democratic commissioner with paramount powers sent to Hawaii, and by him the American flag was pulled down from where it was wrongfully placed by those who had wrongfully overthrown our lawful government, and the beloved flag of Hawaii was again hoisted. Not likely that Islanders will pay 10 cents or 15 cents for a fairly good Havana cigar. WORDS STRANGELY DISTORTED. 'Tis curious what little knowledge of Hawaiian geography is possessed by the average resident of the mainland. Constantly in the newspapers and in the weeklies I read of happenings in Hawaii, or interviews with people from the Islands, in which appear the queerest names of towns and places in the Islands. The average editor in the United States seems to have but a glimmering idea of how many ports there are in Hawaii. Especially in the reports of sugar plantations are the geographical names strangely bungled. For instance, in the Examiner this morning it is recorded that the bark S. C. Allen and the bark Himalaya ar-

ried up to its place on high. This act of love and justice by him will never be forgotten by the Lahul. Many a patriotic tear was shed by those present on that memorable day for this gracious and rightful act.

It was Newlands, another Democrat, who presented the resolution of annexation which passed, and if it had not been for him the republic of Hawaii would never have lost that power of oppression exercised by them upon the nation in those days.

Morgan, also a Democrat. Were it not for him Hawaii would have been without the rights of suffrage. He was one of the commissioners who came out here and worked hard in giving the Hawaiian nation the right to vote by ballot, without property restriction, and with only a slight educational restriction.

Robinson, another Democrat, was the attorney who defended Delegate Wilcox in the charges made against him by the Republicans here to the Congress of the United States of America.

Those of his most intimate friends and those in close touch with the Delegate at Washington are Democrats, and as they are at present in the minority in Congress, the Delegate IS NOW WORKING HIS WAY IN WITH THE REPUBLICANS, AS THEY ARE IN THE MAJORITY, IN ORDER TO GAIN FAVOR, AND BY IT CARRY OUT HIS IDEAS AND PLANS WITH THE HOPE THAT ALL HIS BILLS WILL BE PASSED BY THEM.

The Ke Aloha Aina therefore states that his hoped-for wishes and desires will never be realized, and that he will return by next June with empty hands, having accomplished nothing.

Therefore you, the Hawaiian people, must all vote as Democrats at the next regular campaign to preserve our very existence. And it is for the good work done by these Democrats that the Ke Aloha Aina makes this request to show our appreciation and gratitude towards the Democrats, and above all things we must look to this political party, as they will act right and justly with the Lahul, as we are now recognized by and a part of this organization.

Adapted for the stage by the Hawaii Fono Dramatic Company, to be presented in English by Native Hawaiians on Saturday evening, will be produced a melodrama in two acts, entitled

The Lady of the Twilight New Scenes! New Costumes! New Songs! A musical interlude by the Company. PART II. LANDING OF LONO AND HIS DEATH. Characters by the Company. A scene of realistic accuracy has been specially designed and painted for these representations. RESERVED SEATS to be had at Wall Nims & Co.

corner of Broadway and Baker streets. The house will be a very handsome one, and will overlook the bay. It is not expected that it will be ready for occupancy before fall, but Miss Dillon is gathering many beautiful things with which to decorate it. FREDERICK O'BRIEN.

CAUSE OF FALLING HAIR. Dandruff, Which is a Germ Disease—Kill the Germ.

Falling hair is caused by dandruff, which is a germ disease. The germ in burrowing into the root of the hair, where it destroys the vitality of the hair, causing the hair to fall out, digs up the cuticle in little scales, called dandruff or scurf. You can't stop the falling hair without killing the dandruff, and you can't cure the dandruff without killing the dandruff germ. "Destroy the cause, you remove the effect." Newbro's Hairicide is the only hair preparation that kills the dandruff germ. Hairicide is also a delightful hair dressing.

The Elks will hold their regular weekly social tonight in their hall on Miller street.

NEWS OF THE WATERFRONT.

STRANGE ROMANCE OF A STOWAWAY

Tried to Beat His Way to London After Thirty Years Absence.

On the Sonoma for the Colonies last night sailed one Surrey, a stowaway who arrived on the Ventura and was detained for safe keeping at the police station until the Sonoma arrived from the Coast, when he was transferred to that vessel.

Surrey told an Advertiser reporter a hard luck story yesterday. He said that his father and mother lived in London, England, and that he was trying to get home, after an absence of thirty years. He shipped from London to Australia as a cabin boy in 1872. He deserted his ship at Sydney and made his way inland, where he has been grubbing along around sheep stations ever since, never having accumulated enough money, however, to pay his passage home.

He would not ship back, as he contracted a deadly dislike to the life of a sailor, the result, he said, of brutal treatment meted out to him on his first voyage. Surrey is today a man of about forty-five years of age, somewhat stout, with a fresh complexion and a stubby red beard. As he sat on a bench in the courtyard of the police station, he looked a typical American farm hand. During the thirty years he has been away from home he has heard nothing from his folks until a month ago, when he met, in the bush, a man, who, like himself, was scratching out an existence on Australian soil. This man told Surrey that he came from that part of London where his relatives resided and that both his father and mother were alive and well.

This information made Surrey homesick, and he decided to attempt to beat his way back to England and see his father and mother before it was too late. He accordingly stowed away on the Ventura, and being discovered, was returned on the Sonoma to the place from whence he came.

The fact that the police took Surrey into custody is a curious one, for according to the law governing immigration he should have been detained on the ship, or in some place especially appointed for that purpose, and not suffered to land. Instead, he was arrested on the wharf and taken to the police station, where he occupied a cell over night. High Sheriff Brown said yesterday that he took the man in charge at the request of the agents of the steamship company, Irwin & Co., with the understanding that they should pay all expenses. The customs officials on duty at the gangplank state that he passed from the ship to the wharf in the capacity of a coal-passer. Had he succeeded in passing a little further, and evading the officers who were waiting for him, made good his escape, the consequences would have been serious for the company.

Surrey was very indignant yesterday at having been locked up in a cell for violating a regulation, the only punishment prescribed for which, is a return by the steamship company to the place where he started from. He seemed to feel his humiliation deeply, and departed with the avowed intention of making some one pay for his night in jail.

CUT A MAN ON THE HIGH SEAS

Barkentine W. H. Dimond Arrives With Colored Cook Richardson in Irons.

The barkentine W. H. Dimond arrived yesterday morning after a stormy passage of twenty-six days from San Francisco. For nine days after leaving port she encountered bad southerly weather. Four days ago, however, the northeast winds caught her and she made a run to port of over a thousand miles.

On board, in irons, when the vessel arrived, was a colored man named Richardson, the cook of the barkentine, who, during a row, slashed another seaman with a knife.

Charles E. Richardson was arrested by Marshal Hendry yesterday afternoon on information charging him with assault upon the high seas. The prisoner was taken before United States Commissioner E. S. Gill, and his preliminary hearing set for Monday morning, the defendant going to jail in default of bond for \$2,500.

It is alleged that on March 3, while near the port of Honolulu, Richardson made a murderous assault upon one Charles H. Wheaton with a knife. Wheaton is said to have been quite badly cut by the negro, who was sailing around with little regard for the property or lives of anyone else. The information charging the crime is signed by Capt. P. A. Hanson, the commander of the vessel.

Assault with a deadly weapon on the high seas is a serious offense, and the maximum punishment under the section of the revised statutes which Richardson is said to have violated, is a fine of \$3,000, or three years' imprisonment, or both, within the discretion of the court.

SHIPPING NOTES.

A big party of tourists are expected on the Alameda.

Captain Ellsen is in charge of the missing schooner Alice Kimball.

Tommy McComb is again purser on the Australia, now on the Tahiti run.

The barkentine Wrestler is now seventy-three days out from Sydney to Kahului.

A shack back of the Healan boat-house was blown away Wednesday morning.

The American-Hawaiian freighter Hyades arrived yesterday from San Francisco.

Tomorrow's third-class yacht race has been postponed on account of the bad weather.

The new propeller blade of the Warren will probably be in place by Saturday night.

The schooner Eclipse reported that she towed the schooner Moli Wahine to shelter along the Kona coast.

The Healan coaching may be done from a 13-foot launch this season. Arrangements are being made for the boat.

No local advices have been received regarding the reported entrance of the steamer Albion into the inter-island trade.

There are those along the waterfront who fear that the Warren may turn turtle on account of being so top-heavy.

The Kinau, Claudine and Lehua, which had been held since Tuesday on account of the weather, got away on their regular runs yesterday morning.

Messrs. Brown and Kenake's 1,000 Manila cigars are still held up, as the custom-house demand revenue stamps which the owners of the weeds find it difficult to obtain.

Captain Greene, of the steamer Iwaki, has received the appointment as chief officer on the steamer Nevada, or Nebraska, of the American-Hawaiian Company's line. They are 5,000-ton boats.

Sonoma Comes and Goes.

The Sonoma arrived from the Coast yesterday morning with two days' later mail and files. She left San Francisco at 2 a. m. on February 28, cleared the Golden Gate at 3 a. m., and discharged the pilot at 4:17 a. m., arriving off Honolulu at 11:16 p. m., on Wednesday night.

Fine weather was experienced after leaving the Farallones until the morning of March 1, when the Sonoma ran into a whole gale lasting until noon of March 2. Thence strong trades and rough seas to arrival.

Among the passengers for Honolulu on the Sonoma were J. B. Castle and wife, Alexander Young, Mrs. Eugene Field, widow of the Western poet; Mrs. F. H. Humphris and T. A. Pettus, the contractor.

The Sonoma sailed for the Colonies at 6 o'clock yesterday evening. Among those who went south on here was P. Morris McMahon, the local poet, who goes to Samoa to do literary work.

They Got Away.

The weather broke yesterday, and the Island boats hustled out of port like scared cats. The Mauna Loa left about 9 a. m., followed by the Lehua. About the same time the Kinau headed out, and an hour later the Claudine was under way. During the morning the steamer J. A. Cummins and the schooner Lady sailed for Koolau ports. At 5 o'clock in the afternoon the steamers Mikahala, Waiialeale and Iwaki left. All the boats are from eighteen hours to two days late sailing.

Broke His Thigh.

John Walsh, chief officer of the Sonoma, fell down the forward hatch of the vessel yesterday morning, and striking on the keelson, fractured his right thigh. He fell a distance of over twenty feet. Walsh was going below to attend to the discharging of the Honolulu freight, when the ladder slipped, precipitating him to the keelson. He is now in the Queen's Hospital, being too badly injured to be able to accompany the vessel to the Colonies last night.

Fast and furious: Backstop—I'm glad to see that you are making a name for yourself as an author, old man. Scribble (modestly)—Yes. Honors are being heaped on me. Why, it was only yesterday that I learned that my latest book had been thrown out of the Boston Library.—Bazar.

DISCRIMINATION AT GANG PLANK

Men With Business Excluded from Ventura While Others Are Winked at.

There was the usual growling on the wharf on Wednesday prior to the Ventura's sailing, about the discrimination shown in allowing people to go on board the vessel.

No one was supposed to be allowed to go up the gangway, but notwithstanding an iron-clad order to this effect, a number of individuals managed to gain access to the ship. These persons in the majority of cases had no business on board other than of a personal nature. People who did have a legitimate excuse for going on board were in almost every case peremptorily denied access. The members of the press were rigorously excluded, while Chinese washmen, darning clerks and Cuning, the hypnotist, who probably practiced his art on the gangplank officials, came and went at their own sweet will.

Here is a sample fragment of conversation on the wharf between a lady who wanted to be allowed to go on board and kiss her daughter goodbye, and the individual who was supposed to hold the plank against all comers:

"Please let me go on board?"
"Can't do it, ma'am."
"But you let Mr. — go up, and why can't I?"
"My orders, ma'am; the other man let Mr. — go up; he had a pass, anyway."
"Can I get a pass?"
"You must see the agent, ma'am."
"Five minutes later."
"I saw the agent and he would not give me a pass. How did Mr. — come to get a pass?"
"You'd better go and ask him."
Just then the whistle blew and the favored ones scurried off the ship, the gangplank was drawn up, and the mother on the wharf wept for her daughter.

At Auction

MONDAY, MARCH 10, 1902,
COMMENCING AT 10 A. M.

Upon the premises, 1255 Lunalilo, opposite Kewalo, and just beyond Pitko, I will offer for sale at auction,

E. S. BOYD'S LAND DISCUSSIONS

The Wilcox Leper Bill Will Not Pass—Delegate at the Queen's House.

(Special to the Advertiser.)

WASHINGTON, D. C., Feb. 29.—Hon. "Billy" Hoogs, of Honolulu, departed a few days ago for Philadelphia and New York, where he expected to meet Mr. Rodiek, of Hackfeld & Co., Honolulu, and whence he will travel to Minneapolis and Seattle, before proceeding to San Francisco and to the Hawaiian Islands. His friends persuaded him to break into one of the local prints, the Evening Star, with the following:

Mr. W. H. Hoogs, a member of the first Legislature of the Territory of Hawaii, from the Fourth District, has arrived in Washington en route for New York. He will remain at the national capital for several days. Discussing the conditions now obtaining in the Hawaiian Islands, Mr. Hoogs today said:

"Our people are deeply interested in the proposition to apply the present United States land laws to the Islands, and there is much opposition. The land laws of the United States are not applicable to the conditions in Hawaii for the reason that there are no large areas of public land at the disposal of the Territorial government. If the United States land laws were applied in Hawaii it would work endless confusion and tend to have the remainder of the public lands pass into the hands of a very few owners, as there is not enough arable land on the Islands to provide homesteads of 160 acres each to those desirous of acquiring such rights.

"The country is of volcanic formation and is broken up by numerous mountains and ravines, the greater part of it being like Bill Nye's 'perpendicular farm,' standing on edge. Our land problem is a most serious one, and the bill now before Congress will, in my opinion, prove a source of much litigation, should it become a law.

"We will never get what we are entitled to until Congress sends a commission to the Islands to look into and thoroughly investigate the conditions. Should this Congress send a commission headed by such a man as the present land commissioner, Mr. Blinger Herman, who has had a number of years' experience in the adjustment of land controversies, I am sure, would get such a recommendation to Congress that would enable us to get a land law that would be thoroughly satisfactory to the citizens of Hawaii, and enable us to fairly and impartially apportion the remainder of our public lands.

"Any land laws that may be enacted for us should have special features looking to the preservation of the present forest land and the planting and cutting of the woods that are essential to the future welfare and the development of the Hawaiian Islands."

Mr. Hoogs declined to discuss the rumored possible change in the head of the Territorial government. "I saw Governor Dole only a few days before I departed," he said, "and I never saw him looking better."

Concerning the general conditions of the Hawaiian Islands, Mr. Hoogs said: "We are having a great deal of trouble because of the shortage of labor. We cannot begin to farm our lands for lack of labor. Chinese, Japanese, Portuguese and negroes, make up the laboring element of the Islands to a very large degree.

"The past year has been a bad one for Hawaii. Probably not half a dozen sugar plantations have made money, owing to the scarcity of labor. It has been hard to borrow money because of this, and the Territory suffered thereby. Then the low price of sugar has had its effect.

"The United States government is making preparations for a great amount of work building wharves. The naval reservation is certainly a credit to the United States. There are no finer navy wharves in the world than those at Honolulu, which were constructed under the direction of Captain Merry.

"The dredgers for deepening the bar at Pearl Harbor are no doubt at work by this time. Everything was being gotten in readiness about the time I sailed. The dredging is the beginning of operations at Pearl Harbor, which will include the navy yard and coaling station."

While he was in Washington Mr. Hoogs talked with lots of people about Hawaiian affairs, especially with men prominent in public life. He had a long chat with Commissioner Herman about the land bill which Mr. Wilcox introduced, and learned something of that gentleman's wishes. Mr. Herman is not friendly to the Wilcox measure, and it is safe to say that he will not recommend any radical provisions.

In that connection it is probably opportune to say that those people of Hawaii who recognize the impracticability of the Wilcox bill, are not helping their cause at all by having so many fingers in the pie. Land Commissioner Boyd, who came here under specific instructions from the Territorial authorities as to his program and method of procedure, is working conscientiously, but it is no discredit to him to say that exactly what his superiors in office in Hawaii desired was assured before he came. Often there is a great deal of letting a subject alone here in Washington. Agitation and publicity often defeat the

very ends desired. In the view of some Hawaiian people here, who want exactly the same thing that Mr. Boyd wants, he has not been following his instructions, and has been endangering the situation, which was secure, by calling attention to it anew and stirring up the members of the committee, who supposed that it was pigeon-holed for good.

Those who oppose the Wilcox bill have convinced themselves that the department officials and heads of committees in Congress do not sanction its provisions and, if they favor any action at all this session, will favor the sending of a commission to the Islands to inspect the situation. Unless the bill is agitated too much, it might happen, in fact, probably would happen, that Congress would do nothing at all on the subject this year.

As far as the Wilcox bills for county organizations and schools are concerned it can be stated that neither of these bills will see the light of day in this Congress, unless something very radical happens to change the situation. The leper bill, as was stated in a previous letter, has no chance in the world of passage. All those measures are being carefully looked after and assurances have been given that their slumbers will not be disturbed. The details of such matters can not wisely be stated, but those who know the intricacies of legislation at the Capitol, will understand.

I have had no opportunity to discuss with Delegate Wilcox the authorship of the school and county bills. He has been too ill to receive callers. A few days ago he had sufficiently convalesced to move to the residence of ex-Queen Liliuokalani, on O street, near Twenty-first, and there he is making rapid progress towards recovery. Moreover, he has there more kindly care and attention than would be possible at his own apartments on H street, where he spent the greater portion of his serious illness.

Running Full Almost Overflowing BUT OUR CAPACITY FOR WORK GOOD WORK IS UNLIMITED.

NUMBERS OF WATCHES come in daily requiring our attention, and receive it to the lasting satisfaction of the owners; and why not YOURS? While this department is running almost to its full capacity, we are keeping pace with the increase by adding new experts right along. Experts only are employed, which has gained for this department a reputation of which we have right to be proud, and which will be maintained under all circumstances.

We keep your watch only as long as necessary to enable proper work to be done on the same. There are no long and tedious waits; nothing is delayed, nothing neglected.

Let us impress you with this truth; that no matter how simple the work necessary on your watch may appear to you, have the same done by an expert; it will add to the life of your watch, to say nothing of your own satisfaction.

Our charges as low as any, only OUR WORK IS BETTER.

LANDINGS ON HAWAII

Repairs Will be Made By Boyd.

FOR BENEFIT OF SHIPPING

Wharves at Island Ports Will be Rebuilt and Sheds Added to Protect Merchandise.

Immediate improvements are to be made on the Island of Hawaii at the landing places where repairs are most urgent. Supt. Boyd of the Department of Public Works has mapped out a plan which will be hailed with delight by all the shippers and merchants of Honolulu and other ports of the Islands, as well as coast firms trading here. Before the end of the present year all landing places on Hawaii will be placed in good condition, and the improvement will very likely extend to all ports of the Territory.

Supt. Boyd yesterday received a report upon the condition of the landing places of Hawaii made by the Engineer's Department after a special investigation. The Kailua, Ke Au Hou and Napoosoo landings are all in a dangerous condition, and repairs are to be made at once.

Of the Kailua landing it is reported that ten of the piers are defective and liable to give away at any time, and should be renewed as well as the upper work of the wharf.

The necessary repairs recommended which include an open shed 144 x 30 feet, roofed with galvanized iron, would cost about \$1810. It is intended to put in ten piers 14 inches in diameter, 12 feet in length and filled with concrete, and also to renew the upper work.

The landing at Ke Au Hou has been completely washed out and a new one must be provided. A landing 12 x 40 feet is recommended, consisting of a copped pile wharf of five bents of two which would necessitate the drilling of holes for piles.

The location of this landing could be advantageously changed to a point northerly of the former position and on a line with road running to landing. An open shed 12 x 14 covered with corrugated iron roofing could be constructed over the wharf, the approximate cost of the entire improvement being \$2075.

The landing at Napoosoo is nearly demolished and its renewal is a matter of immediate necessity. It would require seven cylinder piers of 14 inches diameter, about 12 feet long, sunk into the rock bottom, and seven caps 12 x 12, one end embedded in rock, the other anchored to the pier, to put the landing in proper condition.

A fender plank at each cylinder is also recommended. There is at present a substantial shed over the landing, and the estimated cost of the needed work of renewal is \$2000.

The Hookena landing consists of a rock pier off shore and not connected with land, the sea washing between it and the mainland. The landing could be easily made accessible by making a rock fill about 50 feet long and 10 feet wide. An open shed 12 x 30 feet with corrugated iron roofing is recommended. The cost of the fill and shed would only be about \$525.

The landing at Hoopuloa is a rock pier the same as at Hookena, and is now being connected with shore by a rock fill. There are no suggestions to make regarding this landing excepting the construction of an open shed 16 x 30 at a cost of \$290.

Supt. Boyd said yesterday that the repairs most pressing will be made immediately, and all the work of improvement will be completed before the close of the year.

Mizner Said Goodbye.

Addison Mizner, whose corpulent figure, broad brown sombrero and plaid golf stockings have been familiar objects in Honolulu for more than a year past, departed yesterday for San Francisco. Mizner wore quite a number of leys when he boarded the Ventura yesterday, and likewise wore a happy, contented smile, to think that he was soon again to reach the Market street pavements. The young man is something of an artist, and an artist's model, and besides retouching all the royal portraits in the Capitol building, has posed for many a camera. His favorite pose was a side view wherein he was depicted with his coat under his arm, sleeves rolled up, and the ever-present sombrero tilted artistically over his right ear.

COME TO SEE THE PARADISE

Two Well Known Western Mining Men in This City.

John Q. Packard, one of the best known mining men of Utah, and Captain Lusk, a wealthy mining man operating on the Wood river in Idaho, arrived yesterday in the Sonoma, and registered at the Hawaiian Hotel. They will spend a few weeks sight-seeing around Honolulu and on the other Islands, and intend to visit the volcano. Both are here for pleasure and recreation, and their coming to Honolulu was mostly the desire to experience summer weather in the winter time and escape for one season, at least, the blizzards and snows of the Rockies.

John Q. Packard has lived in Utah and California for many years. In the seventies and eighties Mr. Packard was one of the largest operators in mining in Utah, and still controls valuable properties in the famous Tintic district, which is having a boom after a period of semi-depression. He is quite enthusiastic over the recent developments at Park City, Utah, where the famous Silver King mine is located. This mine, he says, has just developed wonderful copper, gold and silver ore, which will materially increase the already immense fortunes of the owners, among them being United States Senator Kearns, of Utah.

Captain Lusk says that Idaho is also enjoying a mining boom, and that it is in line to become one of the greatest mineral producing States in the Union. He says that Thunder mountain is the most recent acquisition to the list of wealthy districts, where copper, gold and silver ore is found almost everywhere upon the mountain. His own district, Wood River, is forging ahead and producing wealth rapidly. The scarcity of fuel in many of the mining camps, which has been quite a drawback in recent years, is now being substituted by great electric power plants, which supply current for power at great distances, enabling the camps to work their machinery by electricity.
