## AUDITOR'S OFFICE IS NOW OPEN

### Senate Acts on Committee's Plan.

### WILL RUSH THE OTHER REPORTS

### The Public Works Investigation May Be Finished Today.

With all the doubt and difficulty smoothed from about the Auditor's Office, it is said the first days of the week will be given by the Senate to completely clearing up the tangles at the executive building, so that there may be by the end confirmation of the appointments and then adjournment.

The committee which has been investigating the Department of Public Works has almost finished its report and it is unofficially talked about, the consensus being that the report when made will be so written that it will be signed by every member of the committee. The committee has been most thorough in its investigations, and the leaders of the party, including Prince Kuhio, have kept in touch with the progress of the work, and in consequence it is expected that there will be returned such a report that there will be no objection to its immediate passage.

There was some doubt expressed last evening that the report could be presented this morning, but there will certainly be little time lost in getting the matter before the Senate. The other important reports are in an advanced state of preparedness, and the first half of the week should witness action on each of them and consideration of appointments is expected to follow very quickly.

When the Senate met on Saturday there was a full attendance of the members now in the city. The business began at once with the submission of the report upon the members of the Tax Appeal Boards appointed by the Governor and submitted to the Senate for confirmation. Senator Achi presented the report, which provided for the confirmation in each case except that of R. H. Atkins of Kohala. It was said in the report that Kau should have one member of the board, while now Kohala had two. The report was adopted and the Governor was notified, the reasons for the refusal to confirm being given in the notification.

Senator Dickey reported in favor of the confirmation of the three Prison Inspectors named and the report was adopted, as was that of Senator Wilcox approving of the appointments of two members of the Board of Education. When this formal business had been done, on motion of Senator Dickey a committee consisting of Senators Dickey, Isenberg and Woods was named to consider the appointments on Boards of Election and Park Commissioners as there is no committee to which those names could be properly referred.

Senator Isenberg rose and read the following report of the committee appointed to investigate the Auditor's Office:

Honolulu, Nov. 29, 1902.  
To the President and Members of the Senate.

Your committee to investigate the Auditor's Department, to whom was referred the message of the Governor in regard to the Auditor, Mr. H. C. Austin, beg leave to make the following report:

After careful consideration we find that Mr. H. C. Austin, in the latter part of August or the beginning of September of the present year, attempted to borrow money from Mr. C. F. Chillingworth, Deputy High Sheriff of the Territory. Mr. Chillingworth, on being questioned by the committee, stated that Mr. Austin asked him if he

## FAIRMOS COMPOSER COMING

Throw out the life-line across the dark wave,  
There is a brother whom some one should save.

Rev. E. S. Ufford, author of "Throw Out the Life-Line," one of the most touching and celebrated hymns in the English language, is making a tour of the world, his mission being to sing his famous hymn wherever there are persons to hear it. He will probably arrive in Honolulu the second week in December and remain during the Christmas holidays. That the author looks forward to his visit in Honolulu is apparent from the statement of his plans, in which he says:

"In a few weeks I expect to be in Honolulu, where there is a Union Church, whose pastor has had the song translated into the Hawaiian dialect. I will sing the song to the natives in my own tongue and they will sing it for me in theirs."

The late Rev. Dr. Hyde translated the song into Hawaiian, and it is found in all the latest Hawaiian hymn books. When Rev. Dr. Ufford returns to his little parsonage at Holyoke, Mass., he will have visited Hawaii, Japan, China, India, Egypt, Palestine, Italy, France, Germany and England, everywhere singing his song, accompanying himself on an organ which he carries in his trunk. He started from Holyoke with \$10.11 in his pocket and by faith and unsolicited contributions has travelled successfully. In each place, before singing the hymn, he tells how it came to be written and explains the workings of the United States life-saving service, whence came his inspiration.

Mr. Ufford was born in Newark, N. J., in 1851. At the age of 21 he was converted to a Christian life, and at once began to hold open-air meetings on the sands at Bridgeport, Conn., for the benefit of sailors and fishermen. Many a "poor Jack" he converted from sin and dissipation to an upright and prosperous life. In 1879 he was ordained a pastor in the Baptist Church and has since preached in the towns around Boston. The hymn that has made him famous was written and first sung in the parsonage at Dedham, from where it has echoed around the world.

hadn't any money at all in the drawer. To which Mr. Chillingworth answered, "No; I haven't got anything in the drawer at all." When Mr. Chillingworth was questioned what the "drawer" meant, he stated that he took it for granted that Mr. Austin meant the government funds, because there could have been no other funds but the government funds in said drawer.

This evidence can be found on pages 32 to 36 of the report hereto attached.

The third charge in the message from the Governor accuses Mr. H. C. Austin of having passed a check of upwards of \$1,700, drawn by Mr. Austin in favor of Henry C. Hapai, Registrar of Public Accounts of the Territory of Hawaii, said check being drawn on the First Bank of Hilo. We find that Mr. Austin had no funds at said bank when Mr. Hapai through his bank, the Bank of Hawaii, presented the check to the First Bank of Hilo for collection. Mr. Hapai did not endorse the check, as he was afraid that as soon as he did so he would be made responsible for the amount. He, therefore, deposited the check, and endorsed on the back of it, "For collection only," and the Bank of Hawaii then sent the check to Hilo for collection, and it was returned, having been dishonored in Hilo.

The fourth charge was that Mr. Austin procured from Mr. William Vanatta, a public accountant residing in Hilo, the sum of \$255. Mr. Austin gave his check upon a bank in the city of Honolulu to said William Vanatta for said amount, well knowing at the time that he had no funds in said bank to cover the payment of same. And when William Vanatta, as Public Accountant, made his regular returns to the Treasury Department, they included said check for \$255. We find from the testimony of Mr. Hapai, Registrar of Public Accounts, that he received the said check and took it to Bishop & Co. for collection, and on the face of it was written "No funds."

This testimony can be found in the report attached, from pages 37 to 41.

There are also two letters, dated August 12th and August 15th, 1902, respectively, pertaining to this fourth charge, which are as follows:

"William Vanatta, Esq., Superintendent Hilo Water Works.

"Sir:—I enclose return draft of the banking house of Bishop & Co., issued payable to your order by H. C. Austin, for \$255. For the reason written on the face, 'Not sufficient funds.' You will find enclosed receipt for \$2,252.55, the balance of your remittance of \$2,507.55. Very respectfully,

"HENRY C. HAPAI."

## HOW AUSTIN MET CHARGES

(Continued from page 1.)

he found it was drawn on him personally, not as Registrar of Public Accounts, he placed it in the Bank of Hawaii for collection, and it came back to Hilo in that capacity. As it had not done the business for which it was issued, I asked the bank to retire it, and I would take it up in Honolulu, which was done later on. There was no endeavor to pass any check, to receive any money from him on the transaction; in fact, I was ready to meet the check when it came back to Hilo.

Mr. Kalauokalani: Q. Did you get the amount which is mentioned here, seventeen hundred dollars?

A. I did not.

Mr. McCandless: Q. When you gave that check didn't you intend Hapai should put \$1700 to your credit in Honolulu?

Q. Do you know why he didn't do it?

A. Because he didn't want to endorse the check, I expect.

Q. I asked him if he didn't expect that check to be paid by Hapai in Honolulu?

A. Not paid by Hapai; that would be collected by Hapai; the Bank of Hawaii is the collecting agency for the First Bank of Hilo, I believe; in fact, a number of checks I had sent the Bank of Hawaii were paid.

Q. Then you expected the Bank of Hawaii to honor your check on the Hilo bank?

A. I thought they would, yes.

Q. But they did not honor the check but took it for collection?

A. Mr. Hapai simply put the check in the bank for collection, so they had sent it to the Hilo bank for collection.

Q. And there were no funds in the Hilo bank to pay it?

A. Yes, I had funds on hand to pay it, but as it performed no service for me in Honolulu I retired the check; and as Mr. Hapai hadn't received money from me and I hadn't received money from him, I asked the Bank of Hilo to send the check back and I would take it up in Honolulu.

Q. So the Hilo check was sent to Honolulu afterwards and retired here?

A. It was sent through the agency from which it came; the check was not honored in Hilo, but I had the money there to meet it.

Q. In fact, the check was not honored in Hilo?

A. That is true.

Q. And then afterwards you settled the check in Honolulu?

A. Yes, I asked them to retire it, and I took it up from Hapai who hadn't paid any money on the check; no money passed between us whatsoever.

Q. Well, it was issued from you on the Bank of Hilo, came to Honolulu, and sent to Hilo for collection; instead of being collected in Hilo, the check was sent back unhonored from the Hilo bank?

A. That is true.

Q. And then you paid the check in Honolulu yourself?

A. There was no necessity for paying it; there was no money passed on it; I simply took it up again.

Q. It was simply withdrawn from the bank?

A. Yes, sir, withdrawn from the bank.

THE THIRD CHARGE.

The Chairman: "That on or about the 6th day of July, 1902 you procured from one William Vanatta, a public accountant residing in Hilo, the sum of \$255, giving therefor your check upon a bank in the city of Honolulu, well knowing at the time that you had no funds in said bank to cover the payment of same, and that the said William Vanatta, as public accountant, did return to the Treasurer of the Territory of Hawaii said check for \$255 as a part of the Government funds, and upon presentation of said check for payment it was dishonored."

What have you to say in regard to that?

A. I went to Mr. Vanatta and asked him if he had any funds he could give me on a check; he said he had; I got two hundred and fifty-five dollars from him, and gave him a check on the bank of Bishop & Company, where I had a balance. I won't be positive, however, if there was quite enough to meet the check, and as I was going to Honolulu from Hilo, would make a deposit which would cover the amount of the check. As a matter of fact the check came down before I expected it would from Hilo, and was presented on the bank, and returned to the treasury, and I took it up there at the treasury.

Q. At the treasury here in Honolulu?

A. Yes, I took it up. There was no other intention on my part to collect any money from him without getting it at the banks.

Q. And did you get the \$255?

A. Certainly.

Q. And it was repudiated by the Territorial Treasurer on the grounds there was no money in the bank when he offered the check for payment?

A. The bank returned it "not sufficient funds," and I paid the amount into the Department and took up the check. \* \* \* I don't remember excepting one instance where I sent money to Honolulu excepting through checks. There was only one time where I sent money to Honolulu by steamer and paid freight on it.

THE FOURTH CHARGE.

The Chairman: "That while you held office as said Auditor of said Territory you have procured money from B. H. Wright, Chief Clerk of the Department of Public Works, knowing that said Wright had no means of his own, and no money to lend, except public money in his official custody, you borrowing at one time, from the said Wright as aforesaid, the sum of seven hundred and fifty dollars for your own personal use, knowing that the same was taken from public funds."

Do you deny that you procured money from said B. H. Wright the Chief Clerk of the Department of Public Works?

A. No, I do not deny it; I do not remember—I do not think the amount given there is correct as the total amount at one time, but I did at one or

**BUDDHISTS ARE ACTIVE****Take Church From Christians on Maui.****JAPANESE THE CAUSE OF TROUBLE****New Court Term Will Open. Rival Minstrel Troupes on the Garden Isle.**

MAUI, Nov. 29.—Christianity among the Japanese of Maui is having a setback and Buddhism is becoming aggressive. At Hamakauapoko some six weeks or more ago, a new Japanese church and school were dedicated under Christian auspices; though at the dedicatory exercises of the school the Wailuku Buddhist priest was present. Now in spite of the fact that a Japanese Christian minister has been holding regular services in the church, the Buddhists have, so it is stated, laid claim to both church and school and successfully maintained it.

It is also reported that the Hamakauapoko Japanese minister will immediately proceed to build another church.

At Wailuku since the completion of the Buddhist temple, the large and hitherto thriving Sabbath school under the charge of a Christian Japanese minister has been well-nigh broken up, nearly all the Japanese children going to the Buddhist Sunday school at the temple. Now it is stated that the Buddhists of Wailuku will soon open a kindergarten in opposition to the one at Alexander House.

The Japanese Buddhists are fighting the Christians with their own weapons. Their ability to imitate is more to be feared than their inventive powers, their patriotism more than their religion's belief which is cold, lifeless and unattractive at least to ignorant minds.

**NEW COURT TERM OPENS.**

The December term of the Second Circuit will begin on Wednesday, Dec. 3d, at Lahaina Court House, Hon. J. W. Kalua presiding. A calendar of seventy cases will be presented, though it is probable that the twelve "fishery" suits will not come to trial owing to the recent adverse decision of the Supreme Court.

The only murder case is that of Fujita Kichitaro, who in the lower court confessed to the killing of a Japanese woman at Kihel.

In most of the criminal cases to be heard Porto Ricans are concerned. Quite a number of attorneys are expected from Honolulu as there are several important matters to be determined by judge and jury.

It is thought that the term will not continue longer than ten days.

**TEACHERS MEET.**

Monday afternoon, the 24th, the regular monthly meeting of the Makawao Teachers' Association took place at the Makawao school house, fourteen being present.

The following was the program of the day:

1. "How English Should be Taught in the Primary Department," by Miss Eva Smith.

2. "Life of Bulwer Lytton and Introduction to 'Last Days of Pompeii,'" by F. W. Hardy.

3. "How to Teach Pupils to Write Well," by Antone de Souza.

**STRAY NOTES.**

On Maui there was generally pleasant weather during "Thanksgiving." The day was celebrated by quiet family dinners here and there over the island. There were no sports, inasmuch as the Makawao polo players were in Honolulu and the enthusiasm over football in Wailuku is at present most quiescent.

Last Saturday, the 22d, East Maui had a very heavy rain—five or six inches. Both crossings at Alelele (Makawao) at Kaluanui and Kokomo were impassable.

At Maliko, in Haiku, the current was running so swiftly and so high that only horseback riders could pass over, a most unusual occurrence. Mrs. C. H. Dickey and Miss Belle Dickey, who were bound for Honolulu from Haiku, were obliged to leave their carriage, cross the stream on horseback, and enter a "hack," specially engaged, on the other shore, and so were able to reach Paia railroad station.

The Kentucky Minstrels will give an entertainment this evening at the K. P. Hall in Wailuku.

Tomorrow afternoon at Wells' Park, Wailuku, the minstrels will attempt to beat the "Morning Stars" at baseball.

Maui has a surfeit of negro minstrels at present. The Orpheum Co. gave a show in the Wailuku Pythian Hall last Saturday night, the 22d, and then went on to Hawaii intending to return to Wailuku in time to play in the Pythian Hall tonight. They arrived this morning only to find that their rivals, the Kentucky "constellation," had outwitted them and had possession of the hall. The Orpheum minstrels departed for Lahaina and will exhibit there.

Some Hawaiians and Japanese of Kula and Makawao celebrated the 25th—Hawaiian Independence Day—with horse races. These scrub contests were run on a level tract just below F. G. Correa's house in Kula.

The young ladies of Paia and vicinity are talking of organizing a basket ball club.

Weather: Showery and threatening. Kamainas all prophesy a heavy Kona storm soon.

WALTER G. SMITH - EDITOR.

## THE EXECUTIVE AND THE SENATE

The sitting of the Senate in special session immediately following the victory of a political party at the polls, which had previously held only a minority representation in the local legislature, has enlisted a special interest in the principles under which official appointments are made in the American system, and the comparative influence of the executive and the Senate in the matter.

Those who would sponge the slate and make a complete new departure undoubtedly regard such a plan to be in the line of a good as well as vigorous party policy. They may or may not have answered to themselves the larger questions whether such action is sound from the standpoint of the interests of the whole public.

Such a proposition brings up the question of who has the initiative, the executive or the Senate? Is the authority of the executive in making appointments "by and with the advice and consent of the Senate," so limited that he must follow such advice in making his nominations? There are those who hold that the word "advice" in the law may mean this.

It may not be directly argued by the radical constructionist that the power of the Senate in the matter of appointments is paramount to that of the executive, yet, would not the right of initiation give such paramount authority? And if the Senate has the initiative, of what use is the right of veto as expressed in the word "consent?"

It can hardly be seriously argued that their powers are equal, as it has been ascertained by experience that the scheme of investing two officers or official bodies with the same executive powers to be exercised at the same time has ever been a failure. If they are supposed to form one body for the time being, there appears no provision of law for the relief of the inevitable occasional deadlocks that would occur, as presumably they would each have one vote and but one.

Inasmuch as the responsibility for the execution of the laws and the maintenance of order is placed upon the executive, it is not unreasonable to suppose that Congress intended that he should have full freedom in the selection of his subordinates on whom he must depend for the due execution of the laws, subject only to the Senate's veto and the provision as to its advice. Even if this means that the Senate shall be consulted, there are no words requiring the executive to follow its advice in making nominations and thereby destroying his initiative.

This conclusion is borne out by the words of the organic act which place the appointing power in the hands of the executive, limited only as aforesaid, and not in the Senate, and still more pointedly in the provision requiring the executive to nominate certain officials; which provision is without any limiting words. It is as follows: "The Governor shall nominate and, by and with the advice and consent of the Senate of the Territory of Hawaii, appoint" etc.

Undoubtedly there is an element of safety in a rule or custom that requires a responsible official to seek advice, such practice tending to check rashness and promote wise and conservative action.

While, however, it is desirable from the standpoint of good administration, that the executive shall be in touch with his party, any attempt to weaken his initiative or cause a transfer of his responsibility, wholly or partially, to others, who are without any legal responsibility, can only tend to government by a Boss.

## PUBLICITY OF INVESTIGATIONS.

The Advertiser agrees with the Senate in its conclusion in the Austin case, but it cannot agree with the method adopted in arriving at that conclusion.

In the first place, public charges made against a public official, were being investigated. Under these circumstances the official and the public were entitled to a public investigation.

No good could be achieved by a private hearing that would not have been obtained by a public one, while there is always an opportunity for suspicion and charges of unfairness if hearings are secret.

In the second place, no matter what the circumstances and the charges, Mr. Austin was entitled to hear the evidence presented against him, and to cross examine the witnesses. This is not only a fundamental principle of Anglo-Saxon justice, but it is a procedure without which there can never be absolute certainty that the whole truth is told.

The utmost publicity concerning public affairs is the best guaranty of fair methods and honest results; while the fullest opportunity to defend can never jeopardize public interests, but affords that protection from secret attack which should be the assured privilege of every citizen.

## AUDITOR AUSTIN.

While Mr. Austin has done nothing which appears to bring him within the clutches of the criminal code, the Governor, the Grand Jury, the Senate and public opinion join in holding him responsible for much of the loss and disgrace that has recently befallen Hawaii through official defalcations.

Briefly stated, Mr. Austin having unfortunately gotten into private financial difficulties, adopted methods for relieving himself which cannot be squared with correct business methods and principles, and which necessarily speedily brought about a crisis. Among other things he took to making payments with checks on banks where he had no funds. Still more reprehensible action was borrowing money in considerable amounts from public officials and attempting to borrow it from others, when he must have been morally certain that the money was public funds in their charge, which by law they were required to pay into the Treasury, and which by law it was his duty to require payment of into the Treasury. If Chillingworth had taken the fines and costs in his possession and loaned them to Austin he would have been guilty of embezzlement. It is claimed that a large part of the money which B. H. Wright is charged with embezzling was loaned out by him to different persons. He loaned several hundred dollars on two occasions to Austin.

It is the prime object of the audit law to secure a rigid and strict compliance with law and to protect the public funds from loose methods and corrupt practices. The whole value of the audit law and system depends upon the strictness and bona fides of the auditor. What wonder is it that with the auditor himself conniving at loose methods, a slackness should have grown into public accounting which speedily led to positive defalcations. The whole sorry affair is but a repetition of the old lesson that only by the strictest and promptest accounting and checking can public finances be protected.

## AUDITOR'S OFFICE IS NOW OPEN.

(Continued from Page 1.)

If it is the purpose of the Home Rulers in the Senate to vote in favor of every derelict official whom the Governor removes for cause, it will be many a long year before their party gets enough confidence from the public to enable it to return to power. Parties are not built up by coddling men whom the people distrust and rebuke.

of funds in bank, I would say in reply that I have received a letter from him dated August 12th wherein he states that he would deposit the amount with you on the following day. Trusting he has done so, I will await your reply, respectfully yours,

WM. VANATTA,  
Superintendent of Water Works."

On further questioning Mr. Hapai we found that on August 18th Mr. Austin paid said check of \$255. The check was presented on August 11th.

We further found, on questioning Mr. Hapai, that Mr. Austin had given other checks to people, which were returned to the Government, as remittances, but were refused, as there were no funds to meet such checks in the banks.

We further found, on questioning Mr. Hapai, that Mr. Austin had given other checks to people, which were returned to the Government, as remittances, but were refused, as there were no funds to meet such checks in the banks.

We further find that said H. C. Austin has, to a great extent, neglected to audit the accounts of the different departments, as he was by law required to do.

We find in our examination that Mr. Austin has never counted the cash in the Treasury. We believe the first duty of an Auditor is to call for the cash balance and verify it, as we consider it one of the most important things to find out your cash balance, then count your cash and audit the books to see if everything is correct.

In the Auditor's own statements, he says he did not think it was the duty of the Auditor to count the cash in the Treasury Department unless requested to do so by the Treasurer.

From his own statement we also find that he has never audited any of the Government departments on the Island of Kauai, and that Maui and Hawaii have only been visited once by him.

We think that the different departments on these Islands should be audited at least every four months, and, from information which we have received from the deputy auditor, as well as from the bookkeeper, it can easily be done, without any additional expense to the Government. It only took Mr. King, who went to Kauai, nine days to audit all the books of the various departments, going as far back as one year.

Your committee has also been very much surprised to find out that the Department of Public Works was not audited during the months from February to September. The deputy auditor, who had audited these books every three months before February, informed your committee, when he was asked why he had not been in this department between the months of February and September, that the Auditor was away from the office so much he could not find time to go down and audit the books of said department.

We are of the opinion that the grave defalcation which has occurred in the Department of Public Works was largely due to the neglect of the Auditor in not being at his office, so as to allow the deputy auditor time to audit the accounts of the Department of Public Works.

We further find that the Public Lands Department's books have not been audited since the 31st of December, 1901;

and then said auditing was practically of no value, because of failure to check up the Government leases from which revenues were received. And since De-

ember 31, 1901, there has been no auditing whatever in said Public Lands Department.

We severely criticise this work, as thousands of dollars pass through the Public Lands Department, a careful record of which should be kept, and the books of said department should be audited at least every thirty days.

We further find in our investigation that the Judiciary Department and the Department of Public Instruction have never been audited.

We severely criticise the neglect of the Auditor, in not having both of these Departments thoroughly audited and would recommend that hereafter these Departments be audited at least every four months.

In conclusion, your committee endorses the action of the Governor of the Territory of Hawaii in suspending Mr. H. C. Austin from office of Auditor and respectfully recommend and advise the Governor to remove the said H. C. Austin from the office of Auditor of the Territory of Hawaii.

Respectfully submitted,

D. PAUL R. ISENBERG,

Chairman.

L. L. McCANDLESS.

When the translation of the report had concluded Senator Kalauokalani rose to ask that there be no consideration of the report until he had filed a minority report, and moved to lay on the table. He said he had not had time to consider the evidence, and it would take him until Monday to do this. Senator Isenberg explained that Senator Kalauokalani supposedly had the evidence before the other members of the committee, as the stenographer said he had said that he had sent some pages of the transcription to the minority member before the others got it. He told how Kalauokalani oplo had been instructed to notify his father of the early morning meeting of the committee, and that he (Isenberg) would pay the hack expense.

Senator Baldwin laid stress upon the necessity for prompt action and said he would act as he thought his duty, despite the fact that his inclination was to pass the matter by and not take it up. He said that the reports indicated that Judge Gear intended to summon the executive officers of the Territory before him for refusal to comply with his orders, and under the circumstances the time had come for speedy action on the part of the Senate, which could settle the questions at once if they only would.

Senator Kalauokalani wanted to know if it was the intention of the majority to use its power to suppress the minority, saying that the responsibility was upon them. Other discussion was cut off by the point of order against debate or an amendment to proceed with the report, and the motion of Kalauokalani to lay on the table was lost on a vote of 7 to 6, the lines being straight party one. The motion then recurring on the adoption of the report, as moved by Senator Isenberg, the report was adopted by 8 to 6, the lines being those of that party.

The Governor was ordered notified of all the acts of the Senate, and adjournment was taken until this morning at 10 o'clock.

On reviewing the foregoing testimony, we, your committee, believe that these acts of the Auditor are improper for a Government official of high standing in this community, and do condemn such acts.

We further disapprove of the Auditor, Mr. H. C. Austin, borrowing money from Mr. B. H. Wright, which Mr. Austin acknowledges he did several times.

We further find that said H. C. Austin has, to a great extent, neglected to audit the accounts of the different departments, as he was by law required to do.

## NEW RAILROAD STATION PLANNED

**B. F. Dillingham Makes a Gift to  
the Hilo Library—Other  
News of Hawaii.**

HILLO, Hawaii, Nov. 29.—Porto Ricans resident in and about Hilo held a meeting Sunday evening in the Japanese theater, at which they discussed ways and means of returning to their native country. Many of the Porto Ricans are homesick and the laborers on the plantations are egged on to make trouble by the men out of work in the city.

Some of the men present at the meeting suggested that the sugar planters should pay their return passage, having brought them here in the first place.

After a general discussion it was decided to ask the United States to provide transportation facilities for their return to Porto Rico and a committee was appointed to prepare a memorial, which will be presented to the Washington government.

There are now nearly four thousand Porto Ricans in the country and it is said that a majority of them are in favor of going back to their old homes.

### HILO RAILROAD DEPOT.

The depot building of the Hilo railroad at the corner of Front and Wai-anneue will be a great improvement to that part of Hilo. The structure will be of two stories, with a tower 100 feet high, and will be in imitation of stone. The ground floor will be divided into express and ticket offices, and there will be a large waiting room for passengers. The depth of the station will be 160 feet, so that it will be large enough to accommodate a full train.

The building will front on Wai-anneue street and extend around the post office so that the freight and express offices will be on Front street. There will be large offices on the second floor for the use of Superintendent Lambert and heads of departments. The beauty of the building may be marred by the presence of the ramshackle postoffice, but as there was no other suitable site available for the station it was decided to go ahead with the work. The designs are being made by Mr. Richley-Herald.

### DILLINGHAM'S GIFT.

### THE BALDING RECEPTION.

The storm of wind and rain that swept over the city last Saturday afternoon was not a bar to the success of the "At Home" given by Mrs. W. T. Balding of Wainaku in honor of Mrs. E. T. Balding.

The guests were received by Mrs. W. T. Balding and Mrs. E. T. Balding, assisted by Mrs. Severance, Mrs. Hyde and Miss Severance.

Miss Sutton is the guest of Miss Margaret Farquhar at Honokaa.

Mr. and Mrs. Marlin are expected to return to Hilo by the S. S. Enterprise.

The Wilder's Steamship Company will probably take one of the Peacock stores next month.

W. J. Bates will begin driving piles for the railroad bridges over the Waiakea this week.

The Bishop of Panapolis was a passenger by the Claudine. He will spend several days here on business connected with the Catholic mission.

One of Hilo's young business men is contemplating a cruise in the South Seas shortly in a yacht.

Smoke was seen issuing from the Dewey crater on Mauna Loa on Tuesday and there was a rumor that there was some activity there.

All of the lessees of land on the shore of Reed's bay will join in the petition for an annulment of the Waiakea lease.

C. A. Peacock, formerly a Honolulu business man, is in the city. Mr. Peacock is on his way to Australia where he has been in business since leaving Hawaii. He has made up his mind to change again and this time will settle in San Francisco. Mr. Peacock says Hilo has relatively made a bigger growth in the past six years than Honolulu. He believes that tourist trade will prove one of the most valuable assets of the Islands and that the best way to get tourists is to treat them royally when they are here.

Albert Horner's string will not be represented at the New Year races. Princess Leota is in foal and Alpheus is not in racing condition this fall.

A carriage appropriately decorated was awaiting them. They were driven at once to their home on Church street, which was in readiness.

Captain Lake arrested two Japanese Wednesday on the charge of neglecting the condition of the harness on their teams hauling licensed vehicles. The laws of Hawaii are very strict on the point of safety to travellers in licensed vehicles. Nowhere are these laws more strictly enforced than on this island, where the roads traverse gulches and declivities that would tax the dexterity of a Rocky Mountain stage driver.

Invitations are out to a ball to be given by Co. D, N. G. H. on Friday evening, December 5, at Spreckels' Hall. The boys intend making it a very swell affair and with that end in view Captain Fetter and the various committees are at work arranging decorations, music, refreshments, etc.

## HIS LAST CHANCE GONE

Even Judge Gear De-  
cides Against  
Austin.

The action of the Senate in removing Auditor Austin forestalled any action on the part of Judge Gear in punishing for contempt those who had prevented Austin's entrance into office.

An application for a contempt citation was made on the part of Austin by his attorneys on Saturday. In affidavits signed by Austin and C. W. Ashford it was set out that Auditor Meyers, High Sheriff Brown and Officer Elvin had forcibly refused to permit Austin's entrance or to obey the writ of mandamus. Officer Elvin, it was alleged, had told the attorneys that he was acting under the orders of the Governor. Judge Gear denied the motion on the following grounds:

"First, because it appears from the affidavits that one Elvin, acting by order of the Governor, is keeping Mr. Austin out of his office, and as the Governor is not party to the above action the writ does not bind him; and it is doubtful if a writ such as issued in this case could bind the Executive, even if a party."

"Second, The Senate committee has recommended the removal of Mr. Austin, and its action would render the citation useless, as defendants can only be imprisoned until he (they) has (have) rendered obedience to the writ."

"As it is evident that they cannot obey the writ and their refusal to obey it is punishable under the statute by a sentence limited to their ability to perform, and is not punishable as ordinary contempts, the motion as above stated is denied. GEAR, J."

### COURT NOTES.

A nolle prosequi was entered Saturday in the case of Becky Houghtaling and Ben Haeho, charged with adultery. The male defendant was sent to prison a few days ago for assault upon Mrs. Houghtailing, though she refused to testify against him.

Judge Robinson heard the case of Nakuna vs. Schnack on Saturday. The hearing may be concluded today.

Judge Robinson has ordered the sale of the Star block in the suit for partition brought by Lee Chu and C. K. Ai vs. Isaac Noar.

The trial of Alexander D. Thompson on the charge of embezzlement of Government funds will be resumed this morning before Judge De Bolt.

### MEMBERS' FIRST VIEW DISPLAY

Kihohana Art League Opens Its Fall Exhibition of Pictures.

The members' first view on Saturday evening at the Kihohana Art League rooms of the winter exhibition of pictures was successful from the critical point of view. A great many oil landscapes and marine paintings were on exhibition, as well as a large number of water colors. There was no modeling or wood carving, as the year before.

D. Howard Hitchcock was the main exhibitor, and his subjects from peaceful valley and cold mountain views and marine sketches to vivid colorings of the active volcano. His pictures of the Island of Hawaii were well liked. Mr. Gurrey had several marine sketches which were greatly admired. In the center of the wall devoted to water colors was one showing a double row of date palms, the work of Mrs. Helen Kelley, which attracted much attention. Miss Parkes has some very fine things on display, as have also Mrs. May Mott-Smith Bird, Mrs. Dodge, and Miss Decota. Miss Ferner is a new exhibitor.

The League rooms were prettily decorated by Miss Edna Kelley. The attendance of members was quite large. The guests were met at the entrance by Mrs. W. M. Graham, Mrs. Henry Waterhouse, Mrs. E. D. Tenney, Mrs. Helen Whitney Kelley, Mrs. W. R. Castle, Sr., Miss A. Parker and Mrs. F. Howard Humphris. Light refreshments were served.

The rooms will be open today from 9 to 5, and this evening those attending the polo ball will make use of the league room as a reception room. For the rest of the week the exhibition will be open to public inspection from 9 to 5, and on Tuesday evening a public reception will be held.

### MEMORIAL SERVICE BY ELKS LODGE

Arrangements have been completed for the Elks' memorial service to be held next Sunday at the Opera House. The services are to commemorate the memory of Elks who died during the year, and are similar to services to be held on next Sunday by every Elks' lodge in the United States.

Addresses will be made by F. E. Thompson and Lorri Andrews. It was intended to have Bishop Restarick take part, but his absence on Maui will prevent this and Mr. Thompson was substituted.

There will also be a musical program, an orchestra led by Mr. Wray Taylor contributing to the occasion.

There will also be songs by Mr. Lovett Rockwell and Mrs. Turner.

ORGAN RECITAL AT CENTRAL UNION

The auditorium and gallery of Central Union church were crowded to overflowing last evening upon the appearance of Mr. Alfred Appling Butler, the noted organist. His appearance on the program for the first time in Honolulu gave music lovers a rare treat, the services being almost entirely given over to musical selections. Mr. Butler made a very favorable impression. The program, which contained selections also for the choir and its soloists, was as follows:

Organ Preludes—

(a) Invocation ..... Alphonse Mailly

(b) Allegro con brio ..... Dudley Buck

Mr. Alfred Appling Butler.

Hymn—"From Every Stormy Wind That Blows" ..... Mrs. Otis and Choir.

Organ Solo—"Chorale and Fugue" ..... Alexander Guilmant

Mr. Butler.

Anthem—"Thou Crownest the Year With Thy Goodness" ..... Mrs. Otis, Mrs. Whitney and Choir.

Offertory—"But the Lord is Mindful of His Own" (St. Paul) ..... Mendelssohn

Mr. Rockwell.

Organ Solo—"Benedictus Nuptialis" ..... Alfred Hollins

Mr. Butler.

Quartet—"Come Unto Me" ..... Cowen

# OAHU WINS THE CHAMPIONSHIP

THE VICTORIOUS OAHU POLO TEAM.

THE MAUI POLO CLUB MEN.

## The Local Polo Men Defeat Maui's Four in a Fast Game, Through Superior Team Work.

Oahu, 14½; Maui, 4½.

In a game full of spectacular plays and startling incidents, fine drives and fast rides, the local polo four, playing with magnificent team work and in several instances illuminating the game with truly star flashes bested the best of the visiting teams by a really remarkable score. The advantage gained by the Blue and White was quite beyond the expectations of the heartiest admirers of the local men, and the credit is due in largest part to the fine exhibition given in combination.

And the game, so well worthy of the Championship Day, was the magnet which drew to Kapiolani Park a record crowd of spectators. The strings of carriages were longer and the occupants more enthusiastic perhaps than any such gathering ever seen here, except on the annual race day. It was a well mounted and gowned company too, for the brilliant colors flashing from every kind of vehicle, from cart to coach, added to the general beauties of the scene.

Everybody was there. To attempt to enumerate the visitors to the quarter-stretch will be impossible, for the company was a constantly shifting one, the men spending a good portion of the afternoon passing about through the lines of vehicles greeting friends and making a species of Reception Day out of the occasion. The earliest comers found places along the fence at the center of the field and soon the lines of vehicles were strung out until they included every inch available on the Diamond Head side and then the city boundary was covered, late comers being compelled to stand their horses in the race track or to give over an attempt to see the game from vehicle and take it in from the benches along the lines.

Before the game the early comers were treated to a view of the ponies which have been worked during the week. Led by Master of the Horse Gerrit P. Wilder and Master of the Field C. W. Dickey, the more than a half hundred animals passed completely around the field, each in charge of a groom. First came the octet which came down from Hilo and after these the Maui contingent, led by the famous Foxy Grandpa and Tom Thumb, they in turn being followed by the Kauai animals, the Melina brothers, of such fame from the Tuesday's and Thursday's games, being in charge of the ponies from the Rice stables. Last of all came the Oahu horses and many of these were recognized by name and greeted with applause as they passed along the lines, the honors being divided between the Kauai animals and men and the local ponies.

After a ten minutes' wait the game was on and then for an hour and a half the white lined space was full of flying horses, stick swinging men and a bounding sphere. Before the game was

on there was some little speculation on the result, the Oahu team being the favorites on account of the superior team play which has been shown in the preliminary games. There was little betting, though an occasional bottle or hat was in evidence to make the play more interesting to those who looked on from the side lines. The Maui men were not entirely discouraged however, for they were of opinion that their speed might give them advantages which would over-balance the play of the locals, or at least make it a game in which a narrow margin alone would tell who had the victory.

The first quarter hour's play settled the convictions of those who watched the contest. From the time the ball was dropped into play the first time the work of the locals seemed to put the result beyond question barring the ac-

cidents which must figure in all such contests. The play was never allowed to lag, the men getting into it with decision and speed, riding fast and in some instances recklessly, as is shown by the number of fouls allowed, three being marked up in one period. The stick work was not of the highest order all the time during the first period, for the misses were many and in many cases unaccountable.

Maui disappointed most. The work of the canary clad men was not up to form. Neither was it possible for them to make their horses show the speed that they are known to possess. Frank Baldwin had to ride Foxy with a whip, and then he was held safe by Shingle very often, on one occasion Dillingham clearly outriding him on Puuloa, in a race down field. This was of course not the rule, for often Baldwin was able to make such a spurt that he could clear the field and bankhand a ball on the goal line, saving the score which seemed certain for Oahu.

Von Tempsky was most seriously out of form in the first half of the game. He missed with frequency when the stroke was fair and its failure was fatal. Later, especially in the last period he was in better shape and some of his stops and passes forward were fine as any seen on the field. Harry Baldwin played the careful and consistent game that has marked his work since he entered the list of games, but Dole could not be held. Wilbur both rode and drove well, but on the whole there were some eight goals missed by the narrowest of yards, the Maui men driving too hard in their approach shots.

To Dole must be given the greatest individual credit for the victory of Oahu. He was in the play from the moment the ball dropped and never did he slack his work. His driving and placing was excellent, and he saved goals time and again for the team, by his heady play. Dillingham has not been seen in such fine form recently. He was everywhere, and in the slang of the day, "was there with the goods" at that. He made some of the most brilliant strokes of the entire play, once driving 100 yards by a cross stroke as he passed the ball on the gallop, for a goal. Likewise he gave a splendid exhibition of horsemanship, for his pony slipping down at one time he kept his seat and raised the horse, keeping on in the play without losing his right of way.

Shingle played a game which was brilliant in spots, steady and consistent. He drove fairly well, but had ill-luck with horses and gear. He received the severe fall of the day, his horse going down and rolling over him but without serious injury to him, on another occasion he losing a stirrup when he was needed. But withal he played the position in better form than in practice. Judd was too much for von Tempsky most of the time, riding off in form and on more than one occasion when the ball was up to him stroking well. Once deliberation cost him a goal, but generally speaking he was in form.

Of the riding in general it must be characterized as fast. Many strokes regarded as misses must be credited as to the rider who sometimes only by the hardest work got up in time to throw the would-be driver out of position for the hit. In this sense the exhibition was a fine one and too much credit cannot be given to the local four for its fine team work, which gave each man knowledge just where his fellows were on a particular play.

Maui lacks the completeness of organization, in that the men, individually fine players, cannot get together without more constant work and this is not afforded them. The field on which they work too, is not up to the local one either in surface or turf, and the result is that there is a great deal lost in placing. With all these drawbacks the

## For Pains, Sprains and Bruises, Halpruner's

There is no more simple way of curing a bruise or sprain than using Halpruner's—rub it in well—until you know it has penetrated—saturate a flannel with Halpruner's and bind it about the injured parts—that's all and that's enough.

## Halpruner's

All druggists should sell Halpruner's—if yours refuses to supply you the Halpruner Medical Mfg. Co., 28 California St., San Francisco, will send you a large bottle by prepaid expressage on receipt of \$1.

I have used Dr. Halpruner's Pain Remover for poison oak, sprained ankle and a very troublesome corn. I also gave a little to a friend who has been troubled with muscular rheumatism for months. He used your remedy for four days and the rheumatism has entirely disappeared. I can recommend it to remove all the above ailments, as I have suffered from all of them. I never found any remedy that would cure so quickly and thoroughly.

## KONA-KAU RAILROAD

### One and a Half Miles Are Graded.

### RESULT OF TEN DAYS' LABOR

#### Contract Calls for Construction of 120 Miles in Two Years.

One and a half miles of the proposed 120 miles of the Kona-Kau Railroad on Hawaii have been graded, according to a report received here yesterday from Kona. The work is going ahead rapidly. Jacob Coerper, the promoter, was in town yesterday but he has little to say regarding the project, except to confirm the news of active work.

A large force of men is at work grading the road from the seashore at Napoopoo up to the upper Government road, where the main line is to be constructed. Grading has covered practically one and a half miles of this stretch during the past ten days, and the work is being pushed as rapidly as possible.

Four parties from the Coast interested in the development of the project are already on the ground in Kona and others will soon arrive to carry on the construction to the utmost capacity of the builders.

A contract has been let for the construction and equipment of the entire line, by the terms of which the road is to be finished within two years.

The building of this road is one of the greatest enterprises of the kind yet attempted in the Islands, and Mr. Coerper is deserving of credit for his continued faith in the project.

#### TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having a Permanent Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to remove dandruff, but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, you remove the effect."

## HOW THE SAILORS HANDLE CATTLE

### Interesting Scenes at the Live Stock Wharf in Honolulu.

Anyone not familiar with the way that cattle are shipped from the island ranches to Honolulu for slaughtering should pay a visit to the stock wharf over at the other side of the harbor when a steamer is alongside unloading, for the work is the most interesting and exciting of any performed in the port.

These cattle are usually very wild, and being handled high in the air with ropes drawn tight about their bodies does not tend to subdue them in any particular. From the time they are taken aboard a steamer until they are discharged on land again, these animals make a big fight at every opportunity. They would gore every man who approached them if they were not held in severe check, yet the natives go among them fearlessly.

Native and Japanese sailors and longshoremen go to the cattle, grapple with their horns, push their way in barefooted and place ropes about them, dodging kicks and angry thrusts, and seldom meet with any mishap.

Island steamers frequently bring cargoes of cattle from the ranches to Honolulu, yet one of the largest cargoes to arrive was that brought by the steamer Helene from Kawaihae yesterday morning. Early in the day the steamer Noeau brought thirty-one head of cattle from Napoopoo, and the gasoline schooner Eclipse also had cattle.

No arrangements have been made that will enable the cattle to be driven off the steamers over gangplanks, so that a dangerous method of handling them with ropes, booms, and winches is in vogue.

"Hold fast to that stern line! HI, Japanese, tackle his bow. That's right. Get your cradle under him. Now heave away with that winch." The "stern line" is an animal's tail, the "bow" is his head and horns. And before you have time to count two a gang of Japanese and natives have got out of the way and are watching a wild Hawaiian steer, horned and angry, whizzing through the air, supported by a rope attached to a yard and controlled by a winch. The steer kicks and wiggles, but cannot escape from the ropes that are slipped strongly around its body. But the legs and head are free and it uses them freely.

A moment, and the steer sets its hind feet on the cattle wharf. Two native rush in and, seizing the horns, unslip the rope that is attached to them and at the same time a native boy attaches a rope to the gear around the animal's body so that the gear can be pulled off when the winch rope is slackened. The steer plunges in all directions, using horns and feet freely, but the natives seem to be absolutely fearless, and get out of every tight corner without injury.

The Helene had both fore and after decks filled with cattle. The cattle were tied to the bulwarks. One gang of men had charge of the work of putting gear around each animal in order to use the winch in lifting it ashore. In this party were natives and Japanese, and they seemed to vie with each other in taking risks. Two men, standing on the bulwarks, would seize a wild steer by the horns and hold its head while four or five got hold of the same animal's tail and held it, or tried to hold it, while a native or two cautiously got the rope around its body. The steer would plunge backwards, giving the men at the rail a hard tussle, with the barefooted men holding its tail being dragged about. It would kick and it would lie down. It would paw almost every inch of the deck, yet the barefooted cattlemen were uninjured. Meanwhile, the good natured captain of the boat would once in a while take a hand in the holding of a steer's "stern line." The captain is a heavy man, and it was comical to see him being jerked about the deck by a big animal. And once in a while an animal would be swung clear up against the bridge and then far back on top of other cattle and men, so that a general scramble had to follow. If an animal got its head rope loose a rough house would ensue, for those island steers are lively, their horns are long and sharp, and they know how to use them very effectively. They gore each other terribly and it is miraculous how the natives escape being struck.

When the steer is swung to the wharf the work of getting the gear off of him is very ticklish. Other animals charge at the workers. A steer sometimes comes down very quickly, almost on top of the workers, yet they make a quick get away and a second later one sees a couple of them wrestling with the animal's horns, another is managing the tail, and a native boy is trying to attach a rope to some other ropes tied around the struggling mass of flesh.

When released, the animal makes a wild rush to join the others that have been taken off the vessel and, occasionally, in butting into the herd, it goes some animal which retaliates and makes matters very interesting.

When an animal has been picked up from the deck, and all the smaller contact lines have been released, the others sometimes slip, and Mr. Steer is swinging by his hind quarters. He is lowered to the deck and shows the crew an interesting time for a few minutes, until he is again secured.

But this work of discharging the animals is much harder than that of getting them aboard the steamers, for at the small island ports the animal is made to swim out to the steamer and then moored alongside, where natives can easily pass lines around it, and the steam winch and stout ropes soon land it on deck.

## NEBRASKAN SAILED FOR THE COAST

### Carried 3,500 Tons of Sugar, Bananas, and Other Freight.

The steamer Nebraskan, which sailed for the Coast last night, had a rough experience while discharging her cargo at Kahului and taking on a new load of sugar. She lost one of her big anchors, but this lies in such position in Kahului harbor that it can be recovered again without any great difficulty. The vessel had to lie at Lahaina for two days because of rough weather at Kahului.

When the vessel sailed for the Coast last night she carried a good cargo, consisting of 3,500 tons of sugar, 1,500 bunches of bananas, and quite a quantity of miscellaneous freight. She arrived at Honolulu early Sunday morning and the stevedores did quick work on her so that she was enabled to get away about 9 o'clock in the evening.

#### Work of Hilo Tug.

The tug Charles Councilman is doing some good work at Hilo and has recently had some heavy duties to perform. She towed the schooner Serena Thayer from Hilo to Punaluu through rough seas and against a head wind. On the home run the tug was towing a large Whitehall boat. This got adrift during the night and the tug had to search for it. The searchlight was used and when the boat was located a Japanese at the risk of his life, jumped into it from the tug and succeeded in getting a new line attached. The remainder of the trip was uneventful.

#### Hongkong Maru Due Today.

The well known Japanese liner Hongkong Maru is expected to arrive from San Francisco some time this afternoon. The vessel will bring ten days news of the outside world and will probably have word concerning some matters which Honolulu is very much interested in at present. The British cable ship Silverton probably arrived in San Francisco from London before the departure of the Maru and Honolulu will probably know tomorrow almost the exact date that the cable will be landed here.

#### New Hilo Wharf.

The copper sheathing for the piles of the new Hilo wharf will be taken to Hilo by the Enterprise and as soon as that steamer arrives work on the new wharf will be started.

#### Shipping Notes.

Ilihue plantation started grinding on Nov. 27th.

Arriving steamers report fine weather on Kauai.

Purser Friel reports 5,696 bags of sugar ready for shipment on Kauai.

The barkentine Benicia arrived at Eleele on November 26th and Purser Friel states that she is well along on the work of discharging her cargo of coal.

**CHARON  
CHEATED**  
Vincent Played Suicide  
Trick on His Wife.

Tying a handkerchief around his neck, falling to the floor at the feet of his wife, who had left him, and crying out that he was killing himself because of his love for her, Charles Vincent endeavored yesterday morning to convey the impression that he knew how to commit suicide. The dodge frightened Vincent's wife, who is a comely Hawaiian, and she called out to Officer Spencer of the police force, who lived near by. When Spencer arrived he saw Vincent on the floor with a handkerchief about his neck and supposed he had a bad cold. When Vincent found that he had a man instead of a woman to deal with, he jumped up, a very lively suicide. For safe keeping, however, Spencer took Vincent to the police station.

The Vincents have resided in the Kewalo section. Vincent was at one time watchman for the Magooon block, but lately has not been doing much work. His wife left him and Vincent has made every effort to get her back. At 2 o'clock yesterday morning he telephoned to Deputy Sheriff Chillingworth, saying that if that official did not get his wife back for him instantly he would kill himself. Just what the deputy answered has not been recorded, but in effect he informed him that he was not in the habit of losing Oahu on a chance to get a job, especially when given a hunch. Vincent told his troubles yesterday morning and then went to the house where his wife is at present residing. After hearing her refusal to live with him, Vincent then made his spectacular play at suicide.

OAHU WINS THE CHAMPIONSHIP.

(Continued from Page 3.)  
crowds witnessed as good polo as has been played here and that they enjoyed it was shown by their enthusiastic reception of the players between periods and after the conclusion of the game.

HOW THE GAME WAS PLAYED.

In opening the game Dillingham got the ball and in three strokes carried it through for the first goal. There were two hot scrimmages on the next fall of the ball, von Tempsky backed it and Dole cleverly caught it. He also got F. Baldwin's drive and carried it down field for a goal. Maui had to take a safety during the rallies. The play continued fast and hard, the ball going up and down field, over the line at each end, and finally Dillingham with a long drive out was able to follow on, picking up stop of von Tempsky's and forcing the ball over for the third time. There was a lively scrimmage on the next try, each man getting into the play, and in the fast work in front of the goal, F. Baldwin crossed Dillingham for the first foul. The play following was all Baldwin's however for he drove the length of the field, the ball striking one of the posts where Wilbur pushed it through for Maui's first point. In the next skirmish Shingle showed, driving down and finally scoring, taking the ball from von Tempsky's backhand. Another foul by Wilbur and one for Maui on account of Shingle's cross ride made the score for the period 5½ to 1½.

When the second period was only twenty seconds old Dillingham scored by a great cross drive from Shingle's forward stroke. It took twelve minutes to add the next point, for the driving was hard but not accurate. There were a half dozen crossings of the field and Oahu had to take a safety on one rally at the line, and was given a foul for Dole's cross ride. Finally Dole got a clear stroke and sending the ball toward Dillingham made the count. With clear drives Maui got the ball down field but missed the goal, the period closing with the score 7½ to 2½.

For the third Wilbur and F. Baldwin cleverly backed the ball as advanced by Shingle, but he at last got control and scored in quick time. There were a couple of scrimmages down field, the ball being carried over by each side, until on a drive out of von Tempsky Shingle sent forward and on F. Baldwin being unable to drive and accomplishing only a stop Judd scored the goal in eight minutes. There was a deal of mixup in the next try and it was only after three minutes that Judd, aided by Dillingham and Dole got the goal. Wilbur got the ball out of the next bunch at the center and in three strokes, in thirty-five seconds, scored the goal. After some fine work by all, Wilbur having the control of the ball most of the time, he was able to make the last goal for Maui at the very close of the period. Maui having fouled Oahu the score was now 10½ to 3½.

The last period saw four points added to Oahu's score. It took three minutes of hard play to get the first, one stop being made when F. Baldwin outraced the field and killed the ball, but Dillingham was fast behind and scored the point. By hard team work the next was taken in about the same time, Dillingham getting the ball and by fine dribbling keeping it under control and driving over the line. Less than a minute was occupied for the next, Dillingham getting the ball after Dole had handled von Tempsky's stop, and sending it through, duplicating the feat on Wilbur's drive out of scrimmage just a minute later. The ball was on Maui's goal line at the end.

The only seemingly serious accident, that of Shingle, was caused by his horse stepping on the ball as he and F. Baldwin raced down field. A foul allowed Oahu because of a ride of Baldwin win was not due to any collision at that time.

Owing to the refusal of Captains Rice and Prouty to act as the same officials had charge of the game who acted in all the preliminary contests of the tournament.
