ANOTHER SESSION WILL FINISH UP THE COUNTY BILL

Senate Does Some Fast Reading and Many Sections Are Passed.

House Pushes Through the Hackmen's Bill After Some Warm Talk and Then Goes Into the Resolution Game.

With more than two-thirds of the County bill out of the way and the members working together handily, there being no translation needed, the outlook is that the County Act will pass the Senate finally this evening, and go to the House tomorrow morning. It then will have two readings in that body before the end of the week. Meanwhile the County Committee of the lower body has its report ready, so that there will be something to work on at once.

Yesterday was a day of labor in both houses, though the accomplishment was not great. The House gave most of its time to the handling of the Hackmen's bill, which went through finally, after some warm talk. There was some good work in the upper house in the way of reports, the Torrens land bill passing second reading and there being a hitch over the proposed exemption of coffee lands. The Hilo electric franchise was reported favorably, as were a number of other measures.

Both houses will resume this morning and the order of the day in each contains a list of a large number of measures.

IN THE HOUSE.

Business began in the House within a very few minutes after the opening hour, as the journal was very short. Under communications Superintendent of Public Works Cooper notified the House that the government electric plant did not generate sufficient power to admit of the placing of a light outside the house of members, Pulaa and Kaniho.

In relation to school houses of Kau, Superintendent Atkinson reported that out of an appropriation of \$107,075 only \$9,100 was allowed and disbursed. In the matter of teachers, the superintendent said that a complete list was in the hands of the committee, having been furnished March 12.

SENATE BILLS PASSED.

The Senate reported the joint resolution asking Congress to make Hawaiian the official language as passed, and the following bills, which were passed first reading: To prevent the wanton destruction of food fishes; relating to the exemption of certain personal property from attachment and repealing rent collection laws; for a Fish Commissioner; the Diamond gas franchise; repealing certain laws of trial by referee.

The Senate reported the passage finally of House bills relating to desertion; industrial and reformatory schools; waiver of trial by jury; jurisdiction of district and circuit courts; guardians and wards; notice by publication.

MANY COMMITTEES REPORT.

Knudsen wanted to proceed under the order of the day, but the Home Rulers would not, and reports of committees were in order.

Chairman Chillingworth, from the committee on public health and education, reported, favoring \$1,000 for repairs of school houses in Koolau-poko, which the House adopted. Petitions from lepers were recommended to be referred to a committee of 9, to be appointed by the chair to visit the leper settlement. A teachers' cottage in Waipio valley was recommended. The Serrao claim petition from Hilo was laid on the table to be considered with bill No. 122. The salary of the physician at South Kohala was recommended to be \$100 instead of \$50 a month. For repairs on Hana school house, \$1,500 was recommended.

As to the Kumalea bill for the sending abroad of youths for education, the committee recommended several changes in wording and placed the amount to be expended on each youth at \$500 a year, and asked that the bill

go to the judiciary committee as well. Kumalea wanted the bill considered at once, and got through a motion ordering this, but then arose a question of legality, Chillingworth saying there was a section in this bill which once before had been declared illegal.

Kumalea opposed sending to the judiciary committee, saying the report was hasty and the committee simply wanted to delay action. He said the children of the poor had no chance for education in the schools here. He charged that Chillingworth was shirking responsibility in not reporting fully.

Chillingworth resented the imputation of Kumalea, dressing down the Fourth District man in a well deserved manner, telling him that if it had been the desire to kill the bill all that was necessary was to pass it just as he had drawn it, as certainly it would be a dead letter. The bill was tabled pending an opinion from the Attorney General.

AGAINST CREMATION BILL.

On the cremation bill, the majority report, signed by Chillingworth and Keilinoi, recommended its being tabled. Paele and Nakaleka did not concur, and Kaniho refused to sign the report. The matter was tabled, to be considered with the bill.

The finance committee reported in favor of the passage of the Damien bill designating two pay days in a month, and this was accepted.

The Kupihea bill, exempting fathers of five children, "of their own or by adoption," from personal taxes was recommended to be indefinitely postponed, and this was done. The committee recommended the refunding of \$5.50, personal taxes twice collected from A. McLennan, and the House agreed. On the Kaniho bill repealing poll, road and school taxes, the committee recommended its being tabled, but the report was tabled, to be considered with the bill. Henry Smith's petition for refund of excessive taxes, \$24.42, was approved and the report laid on the table, to be considered with the bill. On the brewery bill, the committee favored its tabling as the Senate bill had been advanced.

ST. LOUIS FAIR COMMISSION.

The Kupihea resolution providing for a commission to the St. Louis Exposition was approved, with the recommendation that at least two be Hawaiians, that the club of singers be sent on, and that their pay come from the St. Louis appropriation. The joint resolution was first declared lost, 16 ayes to 13 noes, there being required a two-thirds vote to make it effective, with the signature of the Governor as well.

(Continued on page 3.)

BOARDS CONTROL ROAD CASH

Double Payment for Anahola Grade.

Made to Prevent Distress Among Hawaiian Laborers.

Hundley Explains Why the Tax Fund Was Applied—How Local Office Ruled.

An interesting chapter of the investigation of the Wilcox shortage is disclosed in a series of letters which while they were in possession of the man who made the investigation for the House Committee did not come out. They acquit Superintendent Cooper entirely of connection with the second payment of moneys.

The correspondence shows that S. N. Hundley, chairman of the Kawahau road board, was notified by Superintendent Cooper that the bills unpaid were included in the shortage in the office under Wright, and that he would ask for an appropriation for them, and notifying him that the department could not accept a memo, which he had placed in the account as a voucher. In answer to this in letters, one under date of December 4th, Mr. Hundley says that on June 14 or 15 James H. Boyd told him to take money out of the road taxes and use it to pay laborers on the Anahola grade, and to replace it when the appropriation was received. Not until the signatures of two members of the Board were received to tags showing this disposition of the fund, would Mr. Cooper approve the accounts. Mr. Cooper called attention at that time to the fact that "approval of expenditures from the Road fund rests with the Road Board and not with the Superintendent."

All this is summarized by Chief Clerk White in a letter to Sims, the man who made the report assailing the legality of the second payment, which after going over the fact that Hundley submitted the statement of the board with the entries for advances to pay the defaulted items, shows these were sent back to him with orders to charge himself with them as the office could not approve the same, and continues:

"Subsequently on showing made by him, he was allowed in accordance with

(Continued on Page 2.)

AN AUTHOR TRAVELS ON THE COPTIC

Writer of "Helmet of Navarre" in Honolulu.

Will Make No Stay En Route to Orient.

Miss Bertha Runkle and the Won- derful Literary Success She Made.

One of the notables on board the Coptic, which reached port last night, was Miss Bertha Runkle, author of the "Helmet of Navarre," one of the literary successes of last year. The young woman has been visiting friends in San Francisco, and is on the way now to Japan. Miss Runkle is a tall young woman, of the best American type, cordial and most pleasant in manner. She is but twenty years old, though she has already gained a measure of fame, and should be able to do some clever work in American fiction, more particularly as she does not appear to have been spoiled by excessive praise, the gravest danger that a young writer who leaps it once into success has to meet.

The young woman is traveling for rest and the pleasure of it, and is not writing at all. It is true that she has well under way another historical romance, of an earlier period than the "Helmet of Navarre," but of this she said, recently: "I got to a point where my story seemed dead. I was just writing words, words, so I put it away, and will not take it up again until I am quite rested. Since the appearance of the 'Helmet of Navarre' I have done nothing for publication but a few magazine articles."

Probably Miss Runkle is not yet over her surprise at her own success. "I have never been abroad before," went on the lady, "excepting to England and Ireland, but my acquaintance with some of the more subtle things in the history of France came from reading crusty old romances. My knowledge of French is not perfect, but I can read understandingly in it. I was always fond of history, and probably got more out of it than some girls."

"As for the 'Helmet of Navarre,' I had not the slightest conception that I was doing anything remarkable, although the writing was absorbing.

IRISH LAND BILL CALLS FOR VAST SUMS OF MONEY

Tidal Wave at Bristol Bay, on the Sound, Wrecks Thirteen Canneries.

Revolutionists Hold San Domingo's Capital. General Wood Starts for Philippines. Great Telegraph Combine.

(ASSOCIATED PRESS CABLEGRAMS.)

LONDON, March 25.—The Irish land bill provides that \$60,000,000 be granted to enable tenants to buy their farms, the tenants to pay 3 1-4 per cent interest to the Government. The scheme involves, ultimately, between \$500,000,000 and \$750,000,000. Three commissioners will supervise the operations of the law, which will become effective on November 12. There is great interest in the measure and it is conceded that it will pass. Press and party comment is favorable.

New Trusts Formed.

CHICAGO, March 25.—It is rumored that the Western Union, Postal and American Telegraph companies will combine in a \$250,000,000 trust. A packer's trust is forming with a capitalization of \$15,000,000.

Wood for the Philippines.

WASHINGTON, March 25.—Major General Leonard Wood has left this city en-route to the Philippines.

Tidal Wave on Sound.

SEATTLE, March 25.—A tidal wave swept into Bristol bay today and wrecked thirteen canneries.

Rebels Control Capital.

SAN DOMINGO, March 25.—The rebels now control the city. Two warships are here.

Bonilla's Success.

PANAMA, March 25.—The Atlantic seaboard of Colombia is in the hands of Bonilla.

Opera House Burned.

TORONTO, March 25.—The opera house was burned today with a loss of \$150,000.

Sugar Factory for Phoenix.

PHOENIX, A. T., March 25.—A big sugar factory is to be built here.

RAPID TRANSIT RATIFIES DEAL

Without dissent, the stockholders of the Rapid Transit Company, there being 8,514 out of 10,000 shares represented, yesterday ratified the action of the board of directors in the matter of the negotiations for the purchase of the rights and property of the Tramways Company.

The special meeting of the stockholders was held in the office of Castle & Cooke, Ltd., and the expressions were all along the same line. The agreement which was thus ratified calls for the transfer to the Tramways company of \$150,000 of 6 per cent bonds of the Rapid Transit Company, and at the option of the Rapid Transit Company either \$150,000 in cash or in the stock of the corporation. The stock at the option will be part common and part preferred.

Immediately after the meeting a cablegram was sent to the office of the Tramways Company in London announcing the result of the meeting. Proxies are being signed here by all the local stockholders in the Tramways Company, authorizing the voting in the meeting of the corporation there, of all the shares, so that there may be a unanimous vote in ratification of the agreement at that end.

WILL INVESTIGATE THE TELEPHONES

The investigation of the Mutual Telephone system under the direction of the committees of the Chamber of Commerce and the Merchants' Association will begin next week. This was decided yesterday, when the expert committee was chosen and consented to act.

The men who will report on the technical side of the system are J. W. Pratt, R. J. Pratt and Charles S. Crane. Of these men, all have had wide experience in electrical matters, and two have intimate acquaintance with the system upon which they will be called to pass. Perhaps none will be able to identify the good work better, for they have watched it grow and some of it was put in under their supervision.

Before the committee was chosen arrangements were made for the granting of the rights to go into the matter closely, and the result is expected to settle the fate of the franchise of the opposition company.

The police gathered in one more of those wharf crap games on the Mail dock yesterday. The players arrested were M. Perlas, A. Rodriguez, J. Pawa, Pait, Pae and Kapuki.

TWO MONSTER SHIPS FOR THE PACIFIC OCEAN TRADE

At last something definite has come concerning the monster ships recently acquired by the Pacific Mail Company to put in the service across the Pacific. A dispatch from Philadelphia to the San Francisco Chronicle, under date of March 18 says:

"The two largest steamships ever laid down on the Delaware river have been bought from the International Marine Company by the Pacific Mail Steamship Company. They are the Minnelora and the Minnekahta, each of between 12,000 and 13,000 tons burden and 26,560 tons displacement. They are sister ships of the Minnetonka and Minnehaha of the Atlantic Transport Company.

They were ordered from the New York Shipbuilding Company about a year and a half ago before the absorption by the Marine combine. The price at which they were sold to the Pacific Mail Steamship Company has not been made public, but it is understood to be an advance of that paid for the Atlantic Transport vessels, which is believed to have been \$1,500,000.

It is expected that one of the ships will be launched in June and the other in August. Both will be ready for service before the end of this year. The new steamers will undoubtedly ply between San Francisco and Honolulu, Manila and Japan. In all probability their names will be changed when they are launched.

Some Good Opportunities

The most essential feature in buying
Mixed Paints is Quality

Color cards that look very attractive may represent paints that will not stand even ordinary wear. The opportunity to buy

Sherwin-Williams Paints

is appreciated by all who have ever used them and they will use no other. The guarantee is on every can of S-W-P—Your money back for cost of material and applying same if paint is not just as represented. Call or send for a color card, they cost you nothing and are well worth looking at.

SWOLLEN FINGERS AND PAINFUL JOINTS CAUSED BY RHEUMATISM.

A Severe Case at Candie, N. H., Cured by Dr. Williams' Pink Pills for Pale People.

"A few years ago," says Mrs. F. D. Rowe, of Candie, N. H., "when I had been suffering the agonies of rheumatism for two years, I found relief in Dr. Williams' Pink Pills for Pale People. Before I tried this remedy my fingers were swollen and all my joints pained me terribly. The disease affected my stomach so that I became troubled with indigestion and constipation, my nervous system became unstrung and I found myself melancholy and morose and in a generally miserable condition. And all the time I was in pain from the rheumatism.

"An account in the papers of a person cured of troubles like mine by Dr. Williams' Pink Pills, led me to try them, and before the first box was all taken the pain and soreness seemed better. A few boxes more drove the rheumatism away and now I feel well. My husband also took this medicine for rheumatism with gratifying results."

The real cause of rheumatism is the presence of acid in the blood, which irritates the sensitive tissues that unite the joints and cover the muscles, thus causing those indescribable tortures which rheumatic sufferers endure. Dr. Williams' Pink Pills for Pale People go directly to the seat of the trouble, purifying and enriching the blood by eliminating poisonous elements and renewing health-giving forces, thus making a potent remedy for curing this disease.

Dr. Williams' Pink Pills are a positive specific not only for rheumatism, but for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, nervous headache, the after-effects of the grip, of fevers and other acute diseases, palpitation of the heart, pale and sallow complexion and all forms of weakness either in male or female. Dr. Williams' Pink Pills for Pale People are sold by all dealers or will be sent postpaid on receipt of price, fifty cents a box; six boxes for two dollars and fifty cents, (they are never sold in bulk or by the hundred) by Dr. Williams Medicine Co., Schenectady, N. Y. Be sure to get the genuine; substitutes never cured anybody.

BOARDS CONTROL ROAD CASH

(Continued from Page 1)

letter from this Department to include the amount of \$1258.85 in his statement of December 31, 1902. Vouchers for the respective amounts of \$475.65, \$359.10 and \$424.10 were accordingly returned with financial statement of December 31, 1902, with signatures of two members of the Road Board. The following note appears at the foot of each voucher:

"These amounts were paid to the above parties and their individual receipts are on voucher sent to the Public Works Department. Warrants were issued in payment of same, collected from Treasury and deposited with R. H. Wright, who defaulted for same. Payments now made out of the Road Tax Fund. If payment of loss is made by Legislative appropriation the same will appear as a receipt of the Fund."

"I cite you to Instructions to Road Boards, etc., which while it places control of appropriations in the hands of the Superintendent of Public Works, also provides for disbursement out of the Road Tax Fund at the absolute discretion of the Road Board. The Road Board was not directed by the Superintendent to disburse the amount of \$1258.85. This was left to the discretion of the Road Board, the correspondence thus principally resulting in substitution of vouchers for cash tags.

"It would indeed be a hardship if the men who performed the labor should be kept out of their money by an office shuffle. In making this disbursement the Road Board assumed the risk of reimbursement by the Legislature.

"In view of the above I maintain that the action of both Superintendent of Public Works and the Kawaihau Road Board was legitimate and proper."

AN AUTHOR TRAVELS ON COPTIC.

(Continued from page 1)

From the time I was a little girl I was always trying to write stories, but I was rather suppressed by my mother, who thought a literary career a hard one. My mother used to write editorials for the New York Tribune in the days of Horace Greeley. She only writes occasionally, now, but whatever talent I have, you see, must be inherited."

INFLUENZA is always more or less prevalent at this season of the year. This disease is very similar to a severe cold and if allowed to take its course is liable to cause serious results. The best treatment for influenza is to avoid exposure and take Chamberlain's Cough Remedy. This medicine gives immediate relief and if used as directed, will ward off all dangerous consequences. It leaves the system in a natural and healthy condition. It always cures and cures quickly. Benson, Smith & Co., Ltd., wholesale agents, sell it.

ANOTHER SESSION WILL FINISH UP THE COUNTY BILL

(Continued from page 1.)

Later the Speaker reversed his ruling, and declared the resolution adopted.

The Serrao claim came up again from the finance committee. As the claim was considered by the fire claims court, the committee was opposed to opening up that question and recommended that the matter be indefinitely postponed. It was shown that Serrao had accepted the 10 per cent payment. The report was adopted.

SHORT LIVED FRANCHISE.

Partial reports were made by the committee on agriculture and manufactures on the electric franchise bills, approving both with some changes, the most important being the limiting the life of both the Hawaiian and Oahu Ice to 15 years. Kellinohi objected on the grounds that a longer time was necessary to insure the investment of capital. The reports were laid on the table, to be considered with the bills.

HACK BILL PASSES.

The afternoon session opened with the sending of the bill providing for the purchase of the Pauoa Valley springs by the government to a special committee of five. The Speaker named: Messrs. Kumalae, chairman, Aylett, Kalama, Damien, Pulaa.

The hack bill came up and was freely discussed. Kumalae tried to insert a section providing that nothing in the bill should affect drivers who hold licenses at present. Speaker Beckley ruled that this was class legislation, and immediately Kumalae moved to strike out the clause providing that the applicants should speak and read English or Hawaiian. He argued that many persons who now had hacks and horses, who could not secure licenses under the law, would be compelled to sell their property at low prices. This, he said, would drive them to robbery, and the people of substance would suffer. He said the law would strike Chinese, Japanese and Portuguese. He said there were 400 hacks in the Territory, and the valuation based on two horses, staples, etc., was \$1,000. The only fair thing was to appropriate \$400,000 to pay for the property made valueless.

KUMALAE DRESSED DOWN.

Chillingworth, in a strong speech, answered Kumalae, saying that if the hack drivers to be thus confirmed in their possession of licenses were robbers, as pictured, they should be got rid of at once. He denounced this kind of "Americanism," picturing the heartfelt sympathy of Kumalae for the "poor" Japanese and Chinese, but not one tear for the Hawaiian who was being driven to the wall by the rate cutting of the Orientals, like whom they would not live.

Vida likewise went after Kumalae, saying the members were here to protect the Hawaiians, and he did not know before that any legislator had been elected by Orientals to protect their interests.

Fernandez supported the bill, saying Japanese made money by selling sake on their drives and Chinese by selling opium, while the Hawaiian coach driver obeyed the law and could not live in the face of competition.

Pall opposing and Aylett favoring the measure closed the debate and the bill passed: Ayes 24, noes 5, they being cast by Kumalae, Kanoho, Pall, Pulaa and Wright.

REMOVAL OF EMPLOYEES.

Damien asked the rules be suspended for a resolution and presented the following: That a special committee of three be appointed to investigate the discharge of certain government employees. He said many employees of long service had been removed, one Makelona, who had been discharged from the Auditor's office after the Auditor had told members of the House that the man would be returned to office. Kumalae supported the resolution, saying he could not understand the action of officials; they must be crazy, discharging men without cause, and they ought to be put where they deserved. He thought a resolution of want of confidence should be passed, so that the United States government would have attention called to these officials. He attacked Auditor Fisher, saying he had brought a pet from his private office and put him in government employ, though he was not a citizen. The resolution passed.

Kanoho got the rules suspended and presented a resolution setting forth that an appropriation had been made for a road from Pahala to the Volcano House, that Superintendent Cooper be asked to tell why the road is not completed, how much has been expended, and why the balance has not been expended.

WANTS VISIT TO KALIHU.

He then introduced a resolution that the House visit each department of the government, including Kalihii Detention Station, the latter visit to be made today. He supported this in a characteristic speech.

Greenwell said the time had come to stop this thing of resolutions which were purposeless. He said work should be done, and the House could not go on

with this kind of business, and he moved to table the resolution. This was lost, and Harris moved to make it a committee of five. The Speaker said that as a committee of nine had been provided to go to the leper settlement, that committee would look into the conditions at Kalihii. The Speaker told Kanoho that his resolution was vague, and under it the whole House would have to go about so the chair would not entertain the resolution, so Kanoho got it back.

The House then adjourned.

IN THE SENATE.

House Resolution 7 calling upon Congress to increase legislative sessions and the pay of legislators was referred to the Judiciary Committee.

Senator Crabbe presented a petition from 133 Hilo residents protesting against the granting of the electric railway franchise.

Senator Paris presented two petitions from North Kona citizens asking that the county seat of West Hawaii be located at Kanahui instead of at Kailua; also that a \$10,000 court house be built there. Senator Baldwin inquired if there were any houses there now.

INSURANCE POLICIES.

Senator Baldwin reported for the Committee on Ways and Means recommending the passage of the insurance bill, after striking out the first section. This section provides practically that no policy can become invalid by reason of statements made by the insured. The bill will be read for the third time today.

The same committee reported against the bill requiring two payments of taxes each year, but recommending that the provision be inserted in the County bill.

TALK OVER COFFEE.

Senator Baldwin reported favorably also the bill exempting coffee and ramie lands from taxation but with the remark that in the Kona there wouldn't be anything left to tax to carry on the county. Senator Achi said he had coffee lands in Kona but did not favor the exemption. Senator Paris favored the bill saying that in a few years the value of the coffee lands would be enhanced and the tax receipts therefore increased.

Senator Baldwin said that the property tax amounted to only \$8,000 in both Kona and milderly suggested that probably the coffee men there were getting "foxy."

"I don't know that they are any foxier than the sugar men," replied Senator Paris.

Senator McCandless argued against the coffee exemption and said that Senator Paris wanted \$75,000 for roads in Kona and yet the total taxes were but \$18,000.

Senator Kalauokalani favored the bill and said that the time might come when the sugar men too would want exemption.

Senator C. Brown said that great care should be taken in cutting off revenues or the Territory might have a bankrupt county on its hands.

Senator Paris said that where there was one acre of coffee land in Kona there was a thousand acres of ranch land. The report will be taken up with the bill.

THE HILO FRANCHISE.

Senator McCandless for the Public Lands Committee reported favorably the Hilo Railway franchise bill with a number of important amendments. Any motive power but steam can be used, and the road may be built to Hakalau if after two years the Kohala-Hilo Railway has not done so. Police and firemen may ride free, and school children at half fare. The speed in Hilo shall not exceed eight miles an hour, and after five years the company is to pay 2 1/2 per cent of its gross receipts into the Territorial treasury. To be considered with the bill.

TORRENS LAND LAW.

Senator Dickey for the Committee on Miscellaneous Business reported favorably the bill for the Torrens land registration system, saying that under it land could be transferred as easily as stock now is. The report was adopted; to be read a third time on March 30.

JUDICIARY REPORTS.

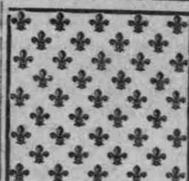

The Judiciary Committee reported favorably the following bills: Relating to the validity of wills; relating to change of name; for the redemption of mortgaged property with an amendment permitting waiver to right of redemption; relating to garnishment; making judgments liens upon real property; allowing amendments to process.

All reports were adopted and the bills will be put on their passage Friday and Saturday.

AFTERNOON SESSION.

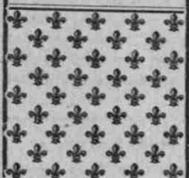

Consideration of the Hilo Electric Company's franchise was taken up after the noon recess. The committee amendment prohibiting the use of steam passed. Senator Baldwin was against any interference with the Kohala Railway. Senator J. T. Brown objected to the committee recommendation that the terminus be Kawiki road, and wanted it made five miles from the court house. Senator McCandless read a letter showing that the Kohala right of way had only been affirmed in October, 1902. Senator Dickey moved an amendment that the bill be changed so as to allow the building of tracks two miles from the Hilo Court House.

Senator Woods wanted the company limited to carrying passengers, and not

LEIVINGSTON'S

merchandise as he wanted the Kohala railroad to belt the Island. Senator Dickey opposed this. Senator Baldwin suggested that bundles could be carried anywhere, as is done in Honolulu. President Crabbe said that the carrying of mail could not be prohibited. The amendment was finally carried, allowing the carrying of personal baggage and packages. The substitute section providing free passage for police and firemen and half fare for school children passed. The committee amendment limiting speed within the city limits of Hilo was lost. Another amendment, making the construction of the road subject to the approval of the Superintendent of Public Works, was passed.

The amendment providing for the payment of 2 1/2 per cent of the gross receipts to the county government passed. The bill will be put on its final passage today.

NEW BILLS.

Senator Baldwin introduced his bill providing for bonds for public officers.

Senator Dickey introduced his bill repealing the law relating to the importation of foreign goods; also relating to protection of birds.

THIRD READINGS.

House Bill No. 28, reducing the penalty for concealing the death of an infant to one year failed to pass, the vote being six to six. C. Brown, Achi, Kalauokalani, Kaohi, Woods and Crabbe voting no.

The House bill reducing the penalty for larceny passed third reading unanimously.

The House bill reducing the penalty for assault and battery passed 12 to 1. Kalauokalani voting no.

The House bill fixing the penalty for receiving stolen goods passed unanimously.

The House bill relating to felonious branding of cattle passed unanimously. The bill relating to embezzlement passed unanimously.

The burglary act and the bill repealing the opium law passed unanimously. The Senate bill prohibiting the sale of liquor to minors or to inebriates passed unanimously.

A 4 o'clock recess was taken until 7:30.

THE COUNTY BILL.

Tonight will see the close of the third reading of the county bill. When the Senate adjourned last evening there were seventy-four pages of the 307 still left to read.

A number of important changes were made. The first was one requiring all taxes to be paid in the county. Another provided that all fees received by either Territorial or county officers shall be paid into the Treasury.

The entire section providing for the sale of awa licenses at auction was stricken out and an amendment carried making the general license \$25, which any one can take out. The penalty was reduced also, the minimum fine being \$25 and the maximum \$100.

Senator Paris's amendment to reduce the auction license fee for East Hawaii from \$50 to \$25 was lost. The amendment changing the West Hawaii and Kauai auction fee to \$25 carried.

Senator Achi's motion to reduce the annual boatmen's fee from \$8 to \$4 was lost.

The license fee of \$5 for hunters was raised to \$10, upon motion of Senator Isenberg.

The fee for lodging and tenement houses was raised from \$2 to \$10.

When the Senate adjourned, chapter 56, on marriage licenses, had just been reached.

THE PACIFIC
Commercial Advertiser
 WALTER G. SMITH - EDITOR.
 THURSDAY MARCH 26
EXPERT FARMERS NEEDED.

Honolulu, March 25, 1903.
 Editor Advertiser: I do not like to appear in print, but yet I sometimes consider it my duty to publish my experiences and opinions, when they may benefit my adopted country. My opinion is that,
 1. Potatoes cannot be raised as good and as cheap here as in California.
 2. Pina can be imported cheaper than produced here.
 3. Sisal I hope will pay.
 But why not cultivate plants which guarantee a good return for all outlay and work, for instance:
 1. Alligator pears on high lands.
 2. Limes on middle lands.
 3. Coconut palms on beach lands.
 4. Tobacco on suitable lands.
 5. Vanilla on suitable lands.
 6. Wine grapes on suitable lands.
 All of these will pay, if properly managed, but the latter three products not only require planting and cutting, but skillful manipulation after the crop has been taken off. There is the weak point of diversified industries. We have no men here who are able to cultivate and prepare tobacco, wine, vanilla, etc., properly. It is not so important to import plants, as it is to bring experienced men for said business. I am confident that we can produce tobacco here of the Havana and wine of the Madeira and Oporto quality.
 Chickens are the best destroyer of cut-worms in the country and other insects and will handsomely pay any planter even without feeding them much.
 Alligator pears are as good as a bonanza and grow without any trouble (except in windy places).
 I did not succeed with every plant mentioned above, on account of being unable to secure the services of an experienced man, who must be also intelligent and diligent.
 Please excuse me for occupying so much of your valuable space, but I am interested in the welfare of Hawaii.
 Yours truly,
 MALUHIA.

One of the best uses to which the Territory could put money would be in the establishment of an agricultural school where experts in the production of tropical crops would teach anybody who wished to learn, all that is known about raising such products as are enumerated above and many more. Experts in fruit, vanilla, tobacco, sisal, pineapples, banana and cocoa culture, experts in dairying and chicken raising and in the analysis of soils, could find plenty to do in such a college, one of the adjuncts of which would be an experimental farm.
 Our correspondent has the right idea about small farming. He does not confound it as so many do with market-gardening; nor does he suggest the raising of crops here for export that would have to compete with California and the Pacific Northwest. It would be a blunder even if Irish potatoes did well here to use land for their production which would yield pineapples, vanilla beans or alligator pears instead. Hawaii should raise the crops it can export, cultivating vegetables mainly for domestic use.
 Some of the expert instructors needed are now available at the United States Experiment Station. But they are not men who go out to manage farms for people; their usefulness will take the form of giving pointers and, if an Agricultural College is started, they may be depended on to assist in every possible way.

TIME TO WAKE UP.

The time has come for the moral people of this city to get together and determine whether Honolulu is to be a wide-open town or not; whether the ancient safeguards of its respectability are to be maintained or demolished; whether vice shall be compelled to hide in dark corners or shall be permitted to flaunt itself in the open day and in the chief thoroughfares.
 It is bad enough to have gambling games running at full pressure all over the city and illicit drinking places all over the Territory, but when worse places are opened on the finest avenues and invitations to visit them are mailed to the young men of the town, with hints that the law will not annoy them, it is time for respectable Honolulu to be up and doing. If this affront to morality and order is tolerated, Honolulu will soon pass into the worst category of seaport cities and it will be no place in which to bring up families, to make homes or to invite friends. The blow lately struck is with a wedge which the enemies of social order hope to use further in demolishing all the guarantees of decency in this town; and the city cannot afford to condone it.
 Fortunately the law department is in the hands of a man of conscience, vigilance and energy; and the public will look to him to use all the authority conferred upon him to close disorderly houses, however gilded and make the proposed tenderloin unprofitable.
 When the investigation of the Auditor's office is made by the committee which is in to look into the discharges of old employees, it will not find an alien in the place of a former employe, but a registered voter.
 Why should an easy and expressive name like Kona or Kohala be passed over for Kaniapuni as a substitute for West Hawaii in county nomenclature?

THE TELEPHONE QUESTION.

The joint committee of the Chamber of Commerce and the Merchants' Association have been delayed in their investigation of the status and possibility, or probability of improvement of the present telephone system, by inability to secure competent experts to assist them. This difficulty has been overcome, and the services of the Messrs. Pratt and C. S. Crane have been secured for this purpose. J. W. Pratt, now tax collector for Honolulu, was formerly manager of the Mutual system; Mr. R. J. Pratt is an electrical engineer in the employ of the Honolulu Iron Works, while Mr. Crane, now secretary of the Hawaiian Gazette Company, was formerly in charge of the construction department of the Mutual Company. These gentlemen should in a very short time be able to place the status of the Mutual plant in a clear and unbiased light before the Merchants' committee and enable them to recommend an intelligent course of action to their respective organizations.
 If they find that the existing company can promptly remedy the present intolerable condition of affairs, and give such assurances that the community can feel a certainty that the remedy will be in fact as well as on paper, then a charter should be refused to those seeking a new franchise, for two telephone systems are such a nuisance that sheer necessity is the only excuse for even thinking of it. One greater nuisance, however, is to have a telephone system that can never be depended upon. As between the two, the former is preferable.
 Once it is determined that the existing system can not be remedied, if it is so determined, the business community should lose no time or effort, in pushing the construction of a second system which will give a perfect service, and in rendering every assistance necessary to make it a speedy success.
 Meanwhile the people await the report of the experts, which should be published in full, and the recommendation of the committee based thereon.

AS TO PURE WATER.

Here is the preamble to a petition signed by many of the leading physicians of Honolulu and sent to the Legislature:
 To the Senate and House of Representatives of the Territory of Hawaii.
 Your petitioners, citizens of the Territory of Hawaii and residents of Honolulu, respectfully show:
 That it is a notorious circumstance, freely commented upon throughout this district, that a large portion of the drinking water furnished to the residents thereof is gathered in ponds underlaid with mud and overgrown with vegetable matter and containing the accumulations of the washings of the slopes of the Nuuanu valley adjoining the ponds, or so called reservoirs, and such water is furnished to the citizens of Honolulu, filled with green scum and other vegetable and extraneous matter. It is believed by your petitioners that a large portion of the prevalent illness and debility is caused to the residents of this district by drinking such impure and contaminated water.
 If this is true—and the Advertiser has no reason to believe otherwise—the sooner the Legislature applies itself to the water question the better. It is not necessary, however, to commit the Territory to any definite purchase in advance. Locality, water supply, extent and nature of the watershed, etc., are matters to be referred to engineers; after which the question of cost should be taken up. It might be that the government land near the Pali would be most suitable or that an adequate supply could be had at no great expense from upper Manoa. Artesian pumping might be approved after investigation by experts. The point now is that the Legislature should not buy "a pig in a poke;" should not purchase in haste and repent at leisure.
 Meanwhile if the city water is as bad as the doctors say, danger of a typhoid fever epidemic, such as is now ravaging Ithaca, N. Y., may be regarded as imminent. In that case the thing to do is for every householder to boil and filter his drinking water; and for the authorities to see that this is done for the schools and that the use of boiled and filtered water is enforced upon the manufacturers of soda, etc., of which the community absorbs some 25,000 bottles per day. No chances should be taken with a supply which "is gathered in ponds underlaid with mud and overgrown with vegetable matter and containing the accumulations of the washings of the slopes of the Nuuanu valley * * * filled with green scum and other vegetable and extraneous matter."

FOR THE ST. LOUIS FAIR.

With their attention recalled to the matter of the St. Louis Fair by the Kupihea resolution, which went through the House yesterday, some of the members of the Legislature are coming to the opinion that the provision made by the House for this great exposition is too small. The Senate made the amount \$40,000 for the construction of the Territorial building and all the other expenses of the exhibit which all agree should be made by the Territory.
 The Kupihea resolution is, in itself, a peculiar sort of an affair at the best. It cannot be said to have any bearing upon the representation of the Territory, beyond the sending of a double quartet of singers, to be selected by Prince Kuhio, and their salaries and expenses to be fixed by the Governor. Beyond that it is vague, as was said of one of the resolutions from the same source by the Attorney General.
 The provision for three commissioners, one to be appointed each by the Governor, the President of the Senate and the Speaker of the House reads all right as to the naming of the men, but there it stops. There is not a word as to their duties, excepting that they are to represent the Territory. There is nothing as to how they are to conduct their work, no suggestion as to their pay or expenses nor the organization of the commission, and in consequence, if the appropriation does pass, there will have to be an organization provided.
 What is needed now is a realization of the necessities of the occasion. There must be a complete machine prepared if the exposition is to be of value

to the Islands. There are few enough days left for the work of the session, and it remains for the business men of the Legislature to take up the matter and push it along to successful termination.

It is to be hoped that the play of politics will not be carried so far as to cause the creation of an alms house in the fifth district. It should be remembered that no pauper may vote, and as well that Hawaii has the unique distinction of not having within it a poor house or a beggar.

E. P. DOLE TALKS OF CABLE CHANGES

"The Pacific Cable has put the people of Hawaii in touch with the rest of the world," said Attorney General E. P. Dole of Hawaii, at the White House offices today. General Dole is a cousin of Governor Dole, and has been making an extended tour of the United States, having sailed from the Islands nearly two months ago. He was introduced to the President by Senator Foster of Washington, who also presented Arthur C. Gehr of Honolulu and S. M. Bruce of New Whatcom, Wash.
 "Since the completion of the cable," continued General Dole, "we have enjoyed a new participation in world affairs. Think of having had to wait a week for news! When President McKinley was shot the news was brought to us with reports on his condition for the first few days after the affair had taken place. Then there was a week intervening before the next steamer arrived. The report was so reassuring that we began a celebration and planned services of thanksgiving for the President's remarkable recovery from the wound. When the next steamer came it brought news of Mr. McKinley's death and funeral.
 "When King Edward was about to be crowned the English people in Hawaii got up a monster celebration. News by steamer told all of the late preparations for the coronation, and on the appointed date Hawaii celebrated in royal fashion. When the next steamer came it brought the unexpected tidings that the King was desperately ill and had not been crowned. Since then we have not been holding celebrations until assured that plans elsewhere had been realized in full."—Washington Times.

HOSTETTER'S
 CELEBRATED

STOMACH BITTERS
 HEALTHY BLOOD

The blood is the source of strength. If you are weak you need a medicine to tone up your stomach and make plenty of rich red blood. The medicine to do this is Hostetter's Stomach Bitters. It will not shock the system, and it cures INDIGESTION, DYSPEPSIA, HEARTBURN, BELCHING AND MALARIA, FEVER AND AGUE. A fair trial will convince you of its value.
HOSTETTER'S STOMACH BITTERS

Ringing Noises

In the ears (how disagreeable they are!) become chronic and cause much uneasiness and even temporary distraction. They are signs of catarrh; other signs are droppings in the throat, nasal sounds of the voice, impaired taste, smell and hearing.
 Catarrh is a constitutional disease, originating in impure blood, and requires a constitutional remedy.
 "I suffered from catarrh in the head and loss of appetite and sleep. My blood was thin and I felt bad all over most of the time. I decided to try Hood's Sarsaparilla and now have no symptoms of catarrh. I have a good appetite, and sleep well. I heartily recommend Hood's Sarsaparilla to all my friends." R. Loxo, California Junction, Iowa.
Hood's Sarsaparilla
 Cures catarrh of the nose, throat, bowels, &c., removes all its effects, and builds up the whole system.

There is this peculiar thing about our Hair Vigor: it's a hair-food, not a dye. It doesn't turn your hair suddenly black and make it look dead and lifeless. But gradually the old color comes back, all the rich color it used to have. And it also stops falling of the hair. Even if your hair isn't coming out, isn't turning gray, isn't too short, yet you certainly want a fine dressing for it, and here it is.

Ayer's Hair Vigor

It keeps the scalp clean and healthy, removes all dandruff, makes the hair grow rapidly, prevents it from falling out, and does not allow a single gray hair to appear.

Do not be deceived by cheap imitations which will only disappoint you. Make sure that you get the genuine Ayer's Hair Vigor.

COAL THIEVES AT WORK ON WHARVES

A lot of Hawaiians developed a new industry yesterday which bade fair to grow most pleasantly, for them, had not Detective McDuffie got next and put his oar in, to the great hindrance of the enterprise. The men, five of them, had a couple of wheelbarrows and were sacking coal on the Mall dock and loading it upon the barrows preparatory to taking it away when McDuffie found them and gathered them in. Of course there was no harm in sacking coal and loading it upon wheelbarrows. There is even no harm in wheeling it away and selling it after it has been loaded, provided it is your own coal. In the case of the natives, the coal belonged to somebody else and that laid them liable to the charge of larceny, which was preferred against them.

Thus a collateral fact sometimes spoils a great scheme. The five men arrested were M. Kaleikini, Moku, Kalaui, Pailu and Kahauleui. They did not kick against the fate that had overtaken any of them, save Kahauleui. He said he was a wharf sweeper in the Department of Public Works, and he really was because a note arrived at the prison, presently, from Marston Campbell, assistant to Superintendent Cooper, upon which the man was released. More than that, Kahauleui said he was not in the coal stealing combine, but that remains to be shown at his trial. He was in the Department of Public Works, anyhow.

COPTIC IN PORT RIGHT ON TIME

The steamer Coptic, of the Occidental and Oriental Steamship line, came in port at seven o'clock last night, and will sail for the Orient at 4 p. m. today. The Coptic is loaded down with freight, and carries a big list of passengers for Oriental ports. Of these F. M. Govey, booked for Kobe, and Mr. and Mrs. Z. G. Dunn, booked for Hongkong, will lay over one trip in this city.

The Coptic left San Francisco on March 12, and brings six days' mail. She had a pleasant run all the way down, meeting smooth seas and favorable winds, and the voyage was without event, save that on March 21, in latitude 34 degrees north, longitude 134

FOOD NOT ALL

Food is not all the thin man needs. Maybe he's sick. You can't make him eat by bringing him food. But Scott's Emulsion can make him eat. That Emulsion gives a man appetite and feeds him both. It brings back lost flesh.

No trouble about digestion. The weakest stomach can digest Scott's Emulsion. It tastes good, too. Scott's Emulsion paves the way for other food. When wasted and weakened by long illness it gives strength and appetite that ordinary food cannot give. Not only food—medicine, too—Scott's Emulsion of pure cod-liver oil.

We'll send you a little to try if you like. SCOTT & BOWNE, 409 Pearl Street, New York.

Rupture

Dr. Pierce's Electric Belt is a Marvel. Nothing like it. Best in the world on earth. A Genuine Cure for Rupture. World renowned. Improvement is rapid. Investigate at once. Call or write for "BROOKLYN" N. Y. MAGNETIC E. TRUSS CO., 33 West 24th Street, New York, N. Y., or 206 Post Street, San Francisco, Cal.

degrees west she passed the British ship Hutton Hall, bound from Liverpool for San Francisco.

Among the Coptic's passengers are the Bishop of Japan, Rev. S. C. Partridge, who is returning with Mrs. Partridge to the scene of his labors in the Orient after a vacation trip to his home in the United States. There are a number of army doctors on the Coptic, also, going to join their commands in the Philippines, and W. C. Bunner, a well known San Francisco newspaper man, who is bound for Hongkong.

Shipping Notes.

The Alameda is due from the Coast on Friday with two days' later mail than is on the Coptic.

The S. G. Wilder sailed for San Francisco yesterday afternoon with four passengers and her hold full of sugar.

The Wilder steamer Lehua came in from the Ieper Isle yesterday, and the Maui from ports on the island of that name.

The Inter-Island steamer Mikahala came in from Kauai ports yesterday, bringing a good list of passengers but no sugar.

Having been given a pretty thorough overhauling, the big steamer Hanalei, of the Inter-Island line, has gone back into the Row, for the present.

About the middle of April, a cable steamer will leave San Francisco and Honolulu with supplies for the proposed station on Midway Island.

The whaling bark Gayhead was off the port again last night, and the supplies purchased by her skipper will in all probability be put on board her today.

The barkentine Mahukona, which left here on March 20 for Eleele, has not got wind enough yet to make that port, although she has been sighted from there drifting about in the channel.

The R. P. Rithet was taking sugar from two steamers at once at the Inter-Island wharf yesterday. When the Rithet goes away, and the bark Alden Besse, the only square rigger left in port will be the Ivanhoe—that is, unless some of the coal fleet come in the meantime. Of course there is the Parmita, but she is a cripple in the Row, and does not count.

The San Francisco Chronicle of March 18 has this: "The large freight steamship American, Captain Nichols, sailing Monday for Puget Sound, Honolulu and New York, was principally laden with freight for Honolulu, a notable consignment being 10,000 cases of coal oil. Other large shipments were made for the islands. At Honolulu the American is to take aboard a large cargo of sugar for New York."

The San Francisco Call of March 14 has this: The Matson Navigation Company's ship Marlon Chilcott has just completed loading at Alcatraz Landing a cargo of fuel oil for Honolulu, Captain Johnson, formerly commander of the Roderick Dhu and at present acting as marine superintendent for the company, supervised the loading. He says the oil was placed on board at the rate of 2000 barrels an hour. The loading apparatus was designed specially for the Matson Company and has proved a big success.

The San Francisco Chronicle of March 18 says: Following its custom, the Toyo Kisen Kaisha has begun an overhauling of its liner while in port, in this instance the steamship being the America Maru. An expensive in-laid oak floor is being placed in the dining saloon, and artisans are employed elsewhere in the vessel making notable improvements. The America Maru is the last of the company's three liners coming here to receive a thorough overhauling, though all are comparatively new steamers and apparently in no need of alterations.

MISS WALDORF PLAYS CAMILLE

There was considerable force and great pathos in Miss Waldorf's "Camille" as it was played last night at the Orpheum Theater. She seems to possess the power of compelling tears, even more than laughter, and although she doubtless finds comedy pay better than tragedy, it is in the latter sphere that she reaches her true level. It was fortunate that Miss Waldorf had really excellent assistance in the leading supports. Mr. Norval McGregor's Armand was right up to the high water mark of the "star" performance throughout. This is an actor who has the rare gift of playing on the emotions of his audience at will and who possesses "the art to conceal the art" by which he gains his effects. Nor was there anything lacking in Mr. Wilson Forbes's finished performance of M. Duval, Armand's father, his scene with Camille being particularly impressive. Mrs. Dow-Currier's Madame Prudence was an extremely artistic performance, the brutal callousness of the character being admirably portrayed. Miss Amy Stanley was again irresistibly charming as Nanine, while Mr. St. Clair Bayfield was effective in the thankless part of the Count de Verville. The play throughout was well received, and added to Miss Waldorf's successes here.

Tonight "Pygmalion and Galatea," that delightfully witty comedy of Gilbert's, will be played and should prove a strong attraction.

GOOD WILL CASE IS ON

The Supreme Court Opens a New Session.

The Supreme Court opened its special March session yesterday. In the afternoon the court began the consideration of the appeals of C. Brewer & Co. and Castle & Cooke from the tax appeal court, which are being argued together. These are the good will cases, in which Assessor Pratt made the assessment on the market value of the corporation stock. The Brewer & Co. assessment was increased over a million dollars, and Castle & Cooke several hundred thousand dollars.

The motion for rehearing in the case of Jessie Makainai vs. Goo Wan Hoy was argued and submitted.

Mrs. Anna Gertz made her appearance again yesterday, when the Gertz vs. Magoon case was called up. Magoon was not in court and Mrs. Gertz wanted the case to go to her by default, as she said had been done by him while she was away. Chief Justice Frear said that he only wished to hear whether or not she was ready at this time.

The Palolo water case was called up on a motion for a bill of particulars, which the Supreme Court immediately denied.

COURT NOTES.

Julie J. Swanzy has asked that she be appointed appointed administratrix to distribute 40 shares of stock of the Hawaiian Tramways Company left by C. H. Judd and hitherto not administered.

W. L. Stanley has been appointed guardian ad litem of the minor children of Margaret V. Carter, deceased.

George F. Renton has sued R. M. Austin and H. C. Austin for foreclosure of a \$10,000 mortgage on Honolulu property.

A jury has been waived in the case of Robert Fuller vs. Honolulu Rapid Transit Company. Maleka Miner and Edward Miner have been granted leave to adopt Kahua Kaimoo. Judge De Bolt approved the decree.

BY AUTHORITY.

WARNING. All persons are warned not to cut, break, mutilate or otherwise injure any tree, shrub, plant or other vegetation growing in any public ground, park, cemetery or forest, under the custody or control of the Superintendent of Public Works. All trespassers will be prosecuted. Parents are requested to call the attention of their children to this notice. HENRY E. COOPER, Superintendent of Public Works. Department of Public Works, Honolulu, T. H., March 24, 1903. A6438

COURT NOTICE

JUDD ESTATE.

IN THE CIRCUIT COURT OF THE FIRST CIRCUIT, TERRITORY OF HAWAII—AT CHAMBERS—IN PROBATE.

In the Matter of the Estate of Charles H. Judd, Deceased—Order of Notice of Hearing Petition for Appointment of Administratrix de bonis non with the Will annexed. On reading and filing the Petition of Julie J. Swanzy of Honolulu alleging that Albert Francis Judd, sole executor of the last Will and Testament of Charles H. Judd, deceased, died on the 20th day of May, A. D. 1900, leaving certain property and assets of the estate of said Charles H. Judd, deceased, still unadministered, and praying that Letters of Administration with the will annexed of the estate of said Charles H. Judd, deceased, not already administered, issue to her, or some other suitable person. It is ordered that Monday, the 27th day of April, A. D. 1903, at 10 o'clock a. m., be and hereby is appointed for hearing said petition in the Court Room of this Court at Honolulu, at which time and place all persons concerned may appear and show cause, if any they have, why said petition should not be granted, and that notice of this order be published in the English language for three successive weeks in the Pacific Commercial Advertiser newspaper in Honolulu. Dated at Honolulu, March 25, 1903. J. T. DE BOLT, First Judge of the Circuit Court First Judicial Circuit.

Attest: P. D. KELLETT, JR., Clerk of the Circuit Court of the First Circuit. Hatch & Silliman, Attorneys for Petitioner. A6437—Mar. 25, April 2, 9, 16.

OFFICERS OF LAW SCORE FIRST BLOOD

Seven Chinese Are Convicted of Gambling.

Men Who Said That They Paid for Protection.

They Learn That Their Protector Has Lost His Pull With the Police.

It is really a most alluring game, that game of Pakapio, known colloquially on the mainland of the United States as "China lottery," but it is receiving strong discouragement at the hands of the local authorities just at the present moment.

For it was concerning the game of Pakapio that some indiscreet Chinese gambler asserted that he was paying for and receiving police protection, and that boast led Attorney-General Lorrin Andrews and High Sheriff Brown to plan and carry out a raid upon three of the leading Pakapio banks in town at a time when it was known that the men who ran the banks would themselves be on hand to fall into the police net. And they fell in. There were seven of them, bankers, namely, Ah Ting, Ah Chung, Ah Ping, Ah Ngui, Ah Lai, Ah Kim and Tong Kai, and in battle with these seven Attorney-General Andrews drew first blood in the Police Court yesterday, the accused men being found guilty and fined, each one, \$250. Each one took an appeal, to be sure, but that will only bring their cases before a jury in the Circuit Court, and it is hoped some action may be secured there that will so disgust them with the protection they are not now receiving that one or more of them may be induced to "squeal." Then there will be some hope of finding out who is receiving the money, if anybody is.

In finding the men guilty yesterday, Judge Wilcox said he was glad to see that at least an effort was made to reach the heads of the Chinese gambling games. While he had been on the bench, and that is a long time, he said these raids had only resulted, heretofore, in bringing in a lot of players, whereas the really guilty and responsi-

ble men had got off scot free. In this case there had been a vigorous prosecution, and a most welcome disposition shown to reach the seat of the gambling business.

Attorney-General Andrews said: "These men have boasted, your honor, that they were paying for police protection in their nefarious business. Neither myself nor the High Sheriff can endure talk of that kind for a moment. No law-breaker will be protected, while I am in office, and I propose to find out, if it is possible, if money has been paid for protection, and who has been receiving and who paying it. I hope therefore, that your honor will see your way clear to imprisoning these men because I think that will be the quickest way to bring the matter to a head."

"I must take the evidence as it is presented," said Judge Wilcox, who has himself shown a determination to hold up the hands of the law. "So far as the cases have been presented, I believe a heavy fine will reach the difficulty. The seven defendants are therefore sentenced to pay a fine of \$250 each."

The Nevada Case.

The hearing of the Nevada case was continued yesterday. Captain Olsson of the Fearless was on the stand for the greater part of the day. An evening session was held, at which the plaintiff's case was practically concluded.

The plaintiff has introduced in evidence two models, showing the relative positions of the freighter and the tug, and with a tow line between.

COUNTY BILL IS READY FOR REPORT

The House Committee on County Bill should be able to close up its report today and present it to the House immediately. The work of consideration has been finished and the amendments to the bill are neither many nor radical.

As the amended bill now stands the alterations which are momentous are four in number. These are the incorporation of the Kaula school bill, as introduced into the House as a supplemental act by Kellinoh, into the County bill to replace the provision for Territorial control of the Department of Public Instruction, the provision placing district magistrates and road boards under the control of the county supervisors, and providing that the supervisors are to be elected from districts or wards. These districts are variously divided. On this island for instance the district east of Nuuanu street is given three supervisors, from Nuuanu street to Moanalua two, and the outer districts two. On Maui Waialuku has two and each of the other districts one.

The county of West Hawaii is wiped out and its name made Kaniapuni, with Hamakua substituted for Kau, in the constitution, and the county seat placed at Waimea.

The other changes are minor ones and will not cause fights on the floor, though the school matter and the alteration in the district magistrates and road boards may raise some little discussion and cause division of the vote. The House may not attempt to consider the bill until that of the Senate has been sent down, so that there may be speedy action had.

The committee which has been investigating the Kailih Detention Camp will report this morning favoring the consideration of the Vida bill providing for the erection of an almshouse from the camp, in committee of the whole house, as there are several opinions as to the proper future of the camp.

The committee which is investigating the Rapid Transit Company will meet this morning to hear the evidence of the officials of the company.

Residents of Honolulu, like other American citizens, in making an investment want to be sure of getting the worth of their money. They want to know all the whys and wherefores, and in a direct ratio to the value of the investment they burrow and ferret until satisfied with the collateral. Take an instance in the realm of proprietary articles. If we know of a friend who has been cured we have some faith in the preparation; if we know of two or three our faith increases. If the cures reach scores all well known citizens, anyone who still maintains that there is nothing beyond ordinary merit in the said preparation, can safely be left to the care of his fellow tax-payers. If he wishes to pick a quarrel with them on the question of their judgment and veracity, he has ample opportunity in Honolulu to do so. Begin with this case.

Mr. H. H. Smythe, of Inter-Island S. S. Co., this city, writes to tell us that he was afflicted with a lame back for a number of years. "Ascribing the cause of this to the kidneys and hearing about Doan's Backache Kidney Pills, I got some of them at the Hollister Drug Co.'s store. They relieved me so much that I am perfectly satisfied with the result of having taken them, and can recommend the pills to others, suffering from backache."

Doan's Backache Kidney Pills are becoming popular in Honolulu because they are always endorsed by Honolulu people. Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

DIGS HIS OWN GRAVE

A Hauula Native Anticipates Death.

Thinks He Heard His Dead Daughter Calling.

Youth Drowned at Waialea—New Deputy Sheriff Gets to Work.

HAUULA, March 24.—A native man named Kama, who in monarchy days enjoyed an enviable reputation as a cooker of pigs, being indeed, at one time hog-victualer-in-chief to Kalakaua, has furnished the district of Koolauloa with a sensation which has set tongues a-wagging, from Kahuku to Kahana bay.

This morning, apparently in possession of health and faculties, he commenced digging his own grave and at sundown rested from his completed task.

To any one who chose to ask him the reason of his strange action he vouchsafed a reply to the effect that at midnight last Sunday he was awakened by the voice of his recently deceased daughter Mary, calling, "Kama, Kama, come." This he took to be an omen of approaching dissolution and accordingly proceeded to set his house in order and to prepare the place of his final rest.

Kama's wife died last December and on Feb. 4, his daughter, a girl of seventeen summers, followed her home. They were buried side by side and the new grave is adjacent to the other two. The spot is in the shadow of the walls of a ruined church situated upon the wind-swept hill-side. To the left rise sombre mountains while on the right is the sea. Few houses are near the place and almost its only visitors are the gray doves, the mynahs and perchance a mongoose.

It was here that Kama wrought his lugubrious work and heedless of heat or hunger, paused not until his self-set task was accomplished.

The natives here say that in old times, it was not unusual to select a burial-cave long before the time of its expected occupancy, but they can call to mind no parallel of the case of Kama.

DROWNED AT WAIALEA.

Yesterday a half-witted native boy named Pelelilli was drowned while fishing in the sea at Waialea. At an inquest held today a verdict was returned to the effect that deceased was seized with a fit while in the water and so drowned.

BROKE THE SABBATH.

Richard Lane, the new deputy sheriff of Koolauloa, is stirring things up in this section with his new broom. On Sunday eight Japs were arrested at Punaiuu for breaking the Sabbath. When interrupted they were working in a rice field.

FREE TO MEN! A BOOK FULL OF FACTS ABOUT

Dr. McLaughlin's Electric Belt for Weak Men

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE he wants to; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe --, and I want you -- have my book in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

A HAPPY MAN

Dear Sir: Having used your famous electric belt for thirty days, I have received the greatest benefit that a man could gain—that is, health and strength. The tired, despondent feeling has gone. I feel the beginning of a new life, and am ever your debtor.

P. O. Box 482, Tucson, Arizona. W. E. CLARK.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, varicocele or any ailment of that kind that weakens you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed free, if you send this ad. Call for free consultation.

DR. M. G. McLaughlin, 906 Market St., Above Ellis, San Francisco. Office Hours—8 A. M. to 8 P. M.; Sundays, 10 to 1.

BY AUTHORITY

EXECUTIVE NOTICE.

FIRE CLAIM BONDS OF THE TERRITORY OF HAWAII.

By direction of the Governor sealed bids will be received at the office of the Secretary of the Territory until twelve (12) o'clock noon, on Monday, April 20, 1903, for Three Hundred and Twenty-six Thousand (\$326,000.00) Dollars of Territorial Coupon Bonds, in denomination of One Thousand Dollars each, authorized by an Act of Congress.

DESCRIPTION.

These Bonds are to be dated May 1, 1903, and may be redeemed by the Territory of Hawaii after the first day of May, 1908, and are payable on or before the first day of May, 1918, bearing interest at the rate of four (4) per cent per annum, payable semi-annually on the first day of May and November of each year, both principal and interest being payable in United States Gold Coin of the present standard of weight and fineness, at Wells, Fargo & Co.'s Bank in the City of New York. These Bonds are signed by Territorial officials and the Secretary of the Interior.

AUTHORIZATION.

These Bonds are to be issued in pursuance of an Act of Congress, approved January 26, 1903, entitled: "An Act to pay in part judgments rendered under an act of the legislative assembly of the Territory of Hawaii for property destroyed in suppressing the bubonic plague in said Territory in eighteen hundred and ninety-nine and nineteen hundred, and authorizing the Territory of Hawaii to issue bonds for the payment of the remaining claims," by which they are EXEMPT FROM ANY AND ALL TAXES, and the payment thereof constitutes a charge upon the revenues of the Territory of Hawaii.

SECURITY.

The average annual revenue of the Territory for the past two years has been\$ 2,420,128 95
The present assessed valuation of the taxable property of the Territory is 123,000,539 38
Present actual debt, not including above proposed new issue, is 931,970 31

RESTRICTIONS.

Tenders will be received for the whole issue, or any part thereof. Each bid must be accompanied by a certified check, payable to the order of the Governor of the Territory, for at least ten (10) per cent. of the aggregate amount of the amount bid upon, the amount of said check to be forfeited to the Territory of Hawaii in the event of failure on the part of the bidder, after notification of acceptance of the proposal, to carry into effect the terms thereof. Bidders whose proposals are accepted will be required to pay ten (10) per cent in U. S. Gold Coin upon the amount of their bids as soon as they receive notice of acceptance; and to pay in like coin twenty (20) per cent at the expiration of each ten days thereafter, until the whole is paid. But they may, at their option, pay the entire amount of their bid when notified of acceptance, or at any time when an installment is payable. The price the bidder proposes to pay, the place where he desires the bonds shall be delivered, and the office—whether that of the Treasurer of the Territory of Hawaii, at Honolulu, or Wells, Fargo & Co.'s Bank, New York City—where it will be most convenient for the bidder to deposit the amounts of his payments, must be specifically stated in the proposal. No offer for the purchase of the bonds for less than their face value will be considered.

RIGHTS RESERVED.

The right to reject any and all bids, to waive technical defects, and to accept any part of any bid and reject the other part is hereby expressly reserved to the Governor of the Territory of Hawaii.

HOW ADDRESSED.

All proposals must be addressed to the Governor of the Territory of Hawaii, and must be distinctly marked "Proposals for the Purchase of Four Per Cent Bonds." Blank forms for proposals and copies of the Act of Congress and the Rules and Regulations published by the Secretary of the Interior may be had upon application.

ALEX. G. HAWES, JR.,

Secretary to the Governor.

Executive Chamber, Territory of Hawaii, March 19th, 1903.

The Measurements of the Supply by Experts.

Dr. Shorey's Analysis of the Water and the Recommendation of Dr. C. B. Wood.

Honolulu, March 25, 1903.

Editor Advertiser: In your paper of yesterday morning appeared an article signed "Citizen and Taxpayer," treating of the water supply of the Pauoa springs and while an article to which a man is ashamed to sign his own name carries no weight with the thinking reader, there are some who might be misled thereby and in refutation of his figures it is only necessary to publish the report of the engineers on the supply and of the Government Chemist on the quality. These reports are attached hereto and will be recognized as authentic.

C. W. BOOTH.

MEASUREMENT OF WATER IN PAUOA VALLEY.

Honolulu, H. T., Nov. 15th, 1902.

To Whom It May Concern:

Measurement taken at the mouth of two perpetual streams, the source of which are two springs at an elevation of between 550 and 600 feet, situated in Pauoa Valley, about two miles mauka of the terminus of the Pacific Heights Railroad. These springs are not affected by a lack of rainfall, give an output of 859,920 gallons in 24 hours, and by developing could be increased by conservative estimate to ten times this amount.

Measurement taken from a stream at an elevation of 250 feet in the same valley, but lower down, the source of which stream is several small springs, gives an output of 253,700 gallons per 24 hours.

These springs are all located in Pauoa Valley, which is a natural water shed and would be a valuable reservoir site for the Government.

Very truly,
GRIMWOOD, RICHARDSON & HOLLOWAY, LTD.,
Per Richardson.

EXTRACT FROM ANALYSIS OF WATER FROM PAUOA VALLEY. SAMPLES TAKEN FEBRUARY 23, 1903, BY E. C. SHOREY—ANALYSIS MADE FOR MR. C. W. BOOTH.

The Nuuanu water while it contains less total solids than the waters from Pauoa, contains a large amount of albuminoid ammonia, and this in connection with the presence of nitrites indicates rather serious organic contamination.

It should be said in this connection that water from Nuuanu valley varies greatly according to the amount of rainfall, surface wash, etc.

The samples from Beretania street and Palama both contain a larger amount of solid matter in solution than do the waters from Pauoa, and in each case more than one-half is made up of chlorides.

The interpretation of the analysis of the two samples from Pauoa may be stated as follows:

1. The waters are organically as pure as it is possible for natural water to be.
2. They contain less mineral matter than the artesian waters here; and this mineral matter is less objectionable in quality than that usually present in artesian water.

3. The difference between the two samples is slight and is such as can be accounted for by difference in location and surroundings of the springs. On comparison of these two samples of water with the two present sources of supply for the city, viz: artesian water and storage reservoirs of rain water, there is absolutely no question that so far as quality goes the Pauoa water examined is much superior to either.

It is superior to artesian water because the mineral matter is less and is made up largely of carbonates in place of the more objectionable chlorides and sulphates common in artesian water.

It is superior to Nuuanu Valley or any storage water because free from organic impurities. It is true that filtration of Nuuanu water will greatly improve it and the value of a filtration plant for that water so long as it is used cannot be overestimated; but it is much better to use if possible a water that does not require filtering. Wa-

ter filtration will render fit for use a water which could not otherwise be used, but such filtration does not remove absolutely all germs, e. g. typhoid, and a filtered surface water can never be absolutely safe as regards water carried diseases, while a spring water with the source properly protected is so.

The questions of amount of water, availability, elevation of source, character of surroundings of springs are questions for the engineer rather than the chemist.

(Signed) EDMUND C. SHOREY, Chemist Hawaii Territory. Honolulu, Feb. 26th, 1903. Mr. C. W. Booth, Honolulu.

Honolulu, T. H., March 23rd, 1903.

Mr. C. W. Booth.

Dear Sir: In response to your request for an opinion regarding the water from your springs in Pauoa Valley, allow me to state that after personal inspection of the springs and their surroundings, an examination of specimens of water taken from them and more especially after reading the report of Mr. E. C. Shorey and his analysis of the water, I take pleasure in recommending the water as an unusually pure and wholesome natural water for drinking or other domestic purposes.

I am yours, Very truly,
C. B. WOOD, M. D.

BAD COMPANY

Not a Home in Honolulu Where This Visitor is Welcome.

The most unwelcome visitor in Honolulu.

Is any itching skin disease.

Itching piles is known in nearly every household.

And eczema is no stranger.

They're both bad company.

They come early—stay late.

We always say "good riddance" when they go.

Know how to keep them away? Use Doan's Ointment.

Doan's Ointment cures piles and all itchiners of the skin.

A Victoria, Australia man endorses our claims.

Mr. William Preston has been a resident of Victoria for over half a century and therefore will be known to many of our readers. Mr. Preston is at present residing at No. 68 Argyle St., St. Kilda. He says: "For some considerable time I have been troubled with Eczema on my legs. The irritation at times was very great especially at night, and it caused me considerable annoyance. I obtained a pot of Doan's Ointment and I must say that it allayed the irritation almost immediately. Doan's Ointment is a good remedy and I can highly recommend it for Eczema."

Doan's Ointment is splendid in all diseases of the skin, eczema, piles, hives, insect bites, sores, chilblains, etc. It is perfectly safe and very effective.

Doan's Ointment is sold by all chemists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Agents for the Hawaiian Islands.

SYMPATHY FOR LATE GEO. HONS

The Supreme Court paid its respects yesterday to the memory of the late George Hons, of Walluku, Maui. The following resolution offered by W. O. Smith was unanimously adopted:

"Whereas, it has pleased Almighty God to remove by death George Hons, Esquire, a member of the bar of this court.

"Resolved, that deeply deploring our loss we desire to place on record our kindly remembrance of our departed friend and brother, and to tender to the family of the deceased our sincere sympathy, and that the court be moved to enter these resolutions upon the records of the court."

HERPICIDE
The Latest Scientific Discovery
is based on the principle, "Destroy the cause, you remove the effect."
Herpicide kills the germs that cause dandruff by digging up the scalp as they burrow their pestiferous way to the hair root, where they finally destroy the hair. Without dandruff your hair will grow luxuriantly.
Newbro's Herpicide
stops dandruff and falling hair, and starts hair growing within 10 days. One bottle will convince you of this.

A WORD TO FARM TOILERS.

PAIN'S CELERY COMPOUND

The Home Friend of the Farmer and His Family.

After the labors and toils of the summer time, and harvesting of crops in the early autumn, many of our farmers, their wives, daughters, and sons, find themselves in a condition of health demanding careful attention if suffering is to be avoided later on. Many experience kidney trouble in some form; with some the liver is torpid; there is biliousness, nausea, and vomiting, with loss of appetite and depression of spirits. Thousands who have been exposed to cold, damp winds and rains while toiling in the harvest fields, now feel the twinges of terrible rheumatism; others run down by worry, overwork, and irregular dieting, are tormented with the pangs of dyspepsia. To the thousands of run down, sickly, and half dead men and women in farm homes we recommend with all honesty and confidence the worker's friend, Paine's Celery Compound, the only medicine that can quickly and fully restore strength to the weak body and vigor to the muscles. Paine's Celery Compound tones the weak and diseased nerves and banishes neuralgic tortures; it purifies the blood and gives true vitality and life. The use of Paine's Celery Compound in autumn means the establishing of a perfect physical vigor to withstand the rigors of a severe winter.

COULD NOT SUSPEND

The Attorney General Gives Opinion as to Boyd.

Attorney General Andrews yesterday rendered an opinion to Auditor J. H. Fisher to the effect that James H. Boyd was entitled to his salary as Superintendent of Public Works during the time of his suspension and prior to his removal by the Senate. The ruling does not take into consideration the former holding of the Auditor that the Territory can withhold salary, or any money due an employe, when such employe owes money to the government. The Attorney General holds that the Organic Act gave the Governor no power to suspend. It concludes: "It seems clear, therefore, that the Superintendent of Public Works could not be removed without the consent of the Senate. Nor does it seem that he could be suspended. There is no reference to suspension in the Organic Act, and it has been held that a power of removal would not include the power of suspension. Hence, with no reference to suspension in the Organic Act, and with an absolute rule with respect to removal, an attempted suspension would appear to be illegal and void. "James H. Boyd was undoubtedly the officer de jure up to the date of his

removal by the Governor, by and with the advice and consent of the Senate. By an officer de jure is meant one who has a legal right to the office. It is very doubtful whether the acting Superintendent of Public Works was even an officer de facto, as his occupation of the office was consummated by force. He did not claim to be Superintendent of Public Works, for he was in fact the Secretary of the Territory. It has been held that where the title to an office is in dispute and the one in possession steps out with no intention of abandoning the office, or of giving it to the other person, who with full knowledge of the facts steps in and immediately proceeds to do business, as though he were in fact the officer, as between two such persons, the one previously in office must be regarded as the officer de facto. Looking at it in this light, James H. Boyd was not only the officer de jure during this period, but the officer de facto as well. "Admitting, however, that the acting Superintendent of Public Works was the officer de facto, and that the salary had been paid to him, the situation would be a doubtful one. While the authorities agree that the officer de jure is entitled to the salary, yet there is conflict as to how he shall pursue his remedy. Some of the decisions hold that he can collect from the government, notwithstanding the fact that the salary has been paid to the officer de facto. Other decisions hold that he must seek his remedy against such de facto officer, and that the government is not liable when the salary has been paid to the officer de facto. But in this case no such question is presented, the salary has not been paid to the acting Superintendent of Public Works, and under the circumstances the right of the de jure officer to collect is beyond question. "It is my opinion, therefore, that James H. Boyd is entitled to the salary attached to the office of Superin-

tendent of Public Works and unpaid to him from the date of his appointment to the date of his removal by and with the consent and advice of the Senate." CHAMBERLAIN'S COUGH REMEDY is intended especially for coughs, colds, whooping cough and influenza. It has become famous for its cures of these diseases over a large part of the civilized world. The most flattering testimonials have been received giving accounts of its good works; of the aggravating and persistent coughs it has cured; of severe colds that have yielded promptly to its soothing effects, and of the dangerous attacks of croup it has cured, often saving the life of the child. The extensive use of it for whooping cough has shown that it robs that disease of all dangerous results. It is especially prized by mothers because it contains nothing injurious; and there is not the least danger in giving it, even to babies. It always cures and cures quickly. Benson, Smith & Co., Ltd., wholesale agents, sell it. **SAVED BY A CRATE.** They dubbed him "Scituate Bill," as it was on Scituate Beach that he had been found, a fisherman, washed up from out of the sea. They worked over "Bill" and brought him to. He had a story, "Bill" did. "Twas this: "We were out fishin,' ma an' Joe, 'n th' dory—'gan to blow—first thing we knowed a schooner bore down on us—spilled us out—dory sank—so'd Joe waves high's mountings—schooner stood by—trun a crate overboard—I boarded it—cum 'shore on—" "On what, "Bill"?" "On a name, blow me hawsepipes," said "Bill." "Yep, in that crate was one of them Douglas Patent Closets—'f been 'nother kind, sunk sure." And the Douglas will save you expense and annoyance if you have one installed. Fully guaranteed against

JAPANESE ART AND TEA MAKING

The odd, Japanese invitations which members of the Kilohana Art League have received this week will introduce them to an At Home on Saturday afternoon of a most interesting character. The letters of a young American woman, written while studying Japanese art in its own land, are in the hands of some friends in Honolulu, and it was felt that their contents were too good to confine to private circles. Their fresh enthusiasm, local coloring, and grateful information will be much enhanced by Mrs. K. J. Imanishi, who will read them on this occasion. Mrs. Imanishi's acquaintance along these lines will add much to the original charm of the correspondence, and it is only to be regretted that the reader is so soon to leave our shores for those of that artistic land, some of the phases of which she will describe.

The rendering of the Japanese tea ceremony is something not often witnessed, and through the kindness of Mrs. Hoshina this is also to be anticipated.

BUSINESS LOCALS.

Rooms and board can be had at 588 Beretania avenue.

The all wool suits from \$4.50 at Kerr's are marvelous values.

Boys' and men's clothing sale this week at Kerr's an immense success.

The former residence of H. E. Waity on Beretania street is offered for rent by James F. Morgan.

A moose head steel plate engraving and two fine stallions will be sold at public auction on Saturday at Morgan's salesrooms.

Montano, the milliner and dress-maker, is closing out his entire stock. Everything must be sold within the next sixty days.

Household sale of furniture and furnishings tomorrow at residence of A. W. Beattie, 1494 Fort street; sale will begin at 10 o'clock.

Money saved by ordering billiard tables and supplies through A. W. Howe, agent for Brunswick, Balke, Collender Co. Address room 10, Arlington Annex.

A young man who has had some experience in a dry goods store, especially the gents' furnishing department, can secure a good position by calling at Ehlers & Co.

Don't be misled into paying large profits for clothing when Kerr's offer first class suits, well made and highly finished, at less than half the ordinary prices.

No burglar can enter any door or window without alarming the household if you have the Handy Burglar Alarm that is sold by Whitman & Co. Call there and see how simply it works.

Prudent people are taking advantage of the special sale being conducted this week by the Charles F. Herrick Company, Ltd., and are supplying their wants in the carriage and harness line. Never before have the people of Honolulu had presented to them an opportunity to purchase vehicles and harness at such remarkably low prices.

BAND AT THE SEASIDE.

The Concert of This Evening Will Take Place at the Moana.

The band concert this evening will take place at the Moana Hotel. There will be many parties at the seaside resort for dinner and the music feature will attract many more for the evening, and delight the visitors who are in the city. Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.

ITINERARY OF ROOSEVELT'S TRIP

The itinerary of President Roosevelt's Western trip has been published, and it does not include a visit to Honolulu. According to the schedule as it is given out, the President's special will pull out from Washington on April 1.

The first ten days will be spent in a speechmaking tour, which will begin at Chicago. The first stop of importance will be at Milwaukee. This was to have been the last place the President would visit on his trip last autumn if the tour had not come to an untimely end at Indianapolis.

The party will traverse Wisconsin, part of Iowa, Minnesota; North and South Dakota, Nebraska, Montana and Wyoming.

At Cinnabar the train will be sidetracked and the President and Secretary of War Root, leaving all other members of the party behind, will enter Yellowstone park under an escort of cavalry officers having charge of the park. Two weeks will be spent in the park by Mr. Roosevelt and Mr. Root, who are seeking absolute rest.

Leaving Yellowstone and boarding the train once more about April 20, the speechmaking journey will be resumed and the President will traverse Nebraska and parts of Kansas, Missouri, Illinois and Indiana, arriving at St. Louis just before April 30.

The President will start through California from the south. He will spend two or three days in Yosemite Park, visit San Francisco, Sacramento and other cities and take a run into Nevada and Utah.

Returning to San Francisco, he will proceed north through Oregon and Washington, stopping to attend the exposition in Portland, which celebrates the Lewis and Clarke expedition.

PASSENGERS. Passing through per steamer Coptic: For Yokohama: J. T. Bigelow, H. R. Barnard, J. L. Brett, Mrs. J. L. Brett, C. W. Clifton, A. Corbin, Mrs. A. Corbin, Surgeon O. Diehl, Jas. Mulhall, H.
