ROOSEVELT MAY ARBITRATE THE MINERS' STRIKE

President Said to Be Considering Steps to Avert Trouble Threatened in Coal States.

(Associated Press Cablegrams.)

WASHINGTON, March 31.—President Roosevelt is considering the arbitration of the coal miners' strike.

LESSENS THE EFFECT.

INDIANAPOLIS, Indiana, March 31.—Several of the mine operators have announced that they will pay the scale of 1903, which will lessen the extent of the strike. Nevertheless, the announcement was made yesterday afternoon that the anthracite coal miners had been ordered to go out on Monday. This probably means the beginning of the largest strike of coal miners the United States has ever experienced.

It is entirely possible that President Roosevelt may succeed in his plan of arbitration between the miners and the mine operators before the strike reaches a stage where its hardships will be felt by the people at large. Certainly a strike now, at the opening of spring, will not be attended with the suffering among the poor that would follow a strike in the winter months. This strike, indeed, was threatened in the winter, when the miners and operators were at swords points, but were persuaded by the President to hold a fresh conference in an effort to arrive at a satisfactory adjustment of the wage scale.

As showing how far apart the miners and the operators are, the following account of the last meeting of the Indianapolis joint conference, taken from the last Coast files, will be interesting:

INDIANAPOLIS, March 20.—The second joint conference of the coal miners and operators of the district comprising the States of Illinois, Indiana, Ohio and Western Pennsylvania, which was the result of the efforts of President Roosevelt to effect a permanent peace in the coal industry throughout the United States, adjourned this afternoon after referring the demands of the miners to the joint scale committee, which will begin its deliberations tomorrow morning at 9 o'clock.

After the conference had effected organization, President Mitchell delivered a brief address. He outlined his views as to the purpose of the extraordinary joint conference, at the close of which he moved the adoption of the scale of wages demanded by the miners in the joint conference which adjourned on February 2. The scale provides for an increase of 12½ per cent. The motion was lost on a strict party vote, the operators voting unanimously in the negative, while the miners voted as a unit in favor of its adoption.

John H. Winder of Ohio, the newly elected chairman of the operators, moved the adoption of a resolution which provided that the present scale, with all its attending conditions, be adopted for a period of one year beginning April 1. The motion was defeated. The miners voted against the proposition to a man. The operators voted "aye," with the exception of those from Illinois.

Robbins then moved that the matter be referred to the joint scale committee, which will meet tomorrow morning at 8 o'clock, and that the conference adjourn to reconvene at the call of the committee. Mitchell seconded the motion, which was carried unanimously.

HONOLULU AS SEEN BY AN OREGONIAN

On entering the business part of Honolulu the feeling comes involuntarily over one upon seeing the narrow streets joining each other at all angles and narrower stone sidewalks, without any regard to size of blocks—one street may be 100 feet from the next, or more likely 1000—that this is a foreign city. Again when the residence part is seen the feeling is intensified. Large grounds, as a rule; houses built well back from the streets and low; surrounded by luxuriant growth of all kinds of tropical foliage, of which a goodly proportion is banana, cocoanut and papaya (pronounced papaya), a most delicious fruit resembling in appearance an oblong muskmelon, and finally while waiting at a street-car junction for a car and seeing the major part of the crowd are native Hawaiians, Japanese, Chinese, Portuguese and all shades of mixtures of these with more or less white blood the feeling is irresistible this is a foreign city.

Without warning from a cottage well back from the street across the way came the strains of the tune of all tunes, to an American especially, when away from home. "The Star Spangled Banner." A Chinese woman richly dressed stood near. The feeling that this is not America was instantly dispelled by this woman taking up the air and singing in the most perfect English the words of our National hymn; low to be sure, but sweet and clear. I could not but think, What will be the end? for surely this is a conglomeration to be absorbed into our body politic.

CHINESE AND JAPANESE CONTROL.

The city of Honolulu, although controlled by Americans, is decidedly foreign. It has 40,000 inhabitants. Only one man in ten in the islands is of white blood. There are about 25,000 Chinese and 60,000 Japanese. In Honolulu there are 85 saloons. About one-half are run by Japanese and Chinese. This seems to be a fair sample of the general condition here. These

two peoples by their brisk competition are controlling many lines of trade; in fact, there is at least one case where a young man well established is going out of the hardware business to enter some other field on account of this kind of competition. Still this is only one phase of commercial conditions here.

DOMINATION OF THE SUGAR KINGS.

Portland is run, so the Oregonian intimates, by the "first families." Hawaii is run by the sugar kings. It is manifest at every turn. Five sugar firms practically own the islands, and as far as their operations are concerned, it might just as well be one firm, and I will say no one can enter this field, in a producing capacity, without taking their opposition into account; in fact, it is one gigantic trust. So between this and the labor problem here—what of these beautiful islands. Surely new conditions must arise before Hawaii can accomplish only a little where the possibilities are so great.

One of the important questions here now is the tariff rebate that is being agitated in Washington by a committee from Honolulu. There can be no doubt of the need of judicious expenditure of large sums of public money, for example, for the improvement of this harbor. Yet I do not think the Government can ever endorse the principle of refunding 75 per cent or any other per cent of the revenues to a state or territory, but rather meet the requirements of liberal appropriations.

FIELD SHOULD BE OPEN TO WHITE MEN.

Before leaving for home I felt that annexation with the United States was a good thing for Uncle Sam, but was it for these islands? Since my arrival here I am sure of the first and most uncertain regarding the latter. Some royalists—those who are opposed to annexation—feel it is a good thing for them, while some annexationists are in doubt about it. Upon the surface it seems as though different laws regarding foreign immigration should

NO MONEY IN SIGHT FOR GRAFTERS

Nothing for Interpreters in \$30,000 Appropriation.

There has been a lot of comment about town over the fact that in making the appropriation of \$30,000 for legislative expenses in Hawaii, the Congress of the United States has made no provision that any part of this sum shall be expended for translating or interpreting. Evidently, Congress looks upon Hawaii as a part of the United States, whether the Home Rulers and the cafe au lait crowd of politicians generally do or whether they do not. The estimate in the bill upon which the appropriation was passed, as submitted by the Secretary of the Treasury, reads as follows:

"Legislative Expenses, Territory of Hawaii.

"For legislative expenses, namely: Furniture, light, stationery, record casings and files, printing and binding, indexing records, postage, ice, water, clerk hire, mileage of members, incidentals, pay of chaplain, clerk, sergeant-at-arms, stenographers and messengers for the fiscal year ending June 30, 1907.

"Provided, That the members of the Territory of Hawaii shall not draw their compensation of two hundred dollars for any extra session held in compliance with section fifty-four of an act to provide a government for the Territory of Hawaii, approved April 30, 1900, \$30,000."

LEGITIMATE EXPENSES.

That is, the money may be expended, provided the statesmen consent to forego their extra session graft and thereby save the Territory another \$9000 at the rate of \$200 a head for them, for furniture, lights, stationery, record casings and files, printing, binding, ice, water, clerk hire, mileage of members, incidentals (which does not mean interpreting or translating, by any stretch of elastic political conscience) pay of chaplain, clerk, sergeant-at-arms, stenographers and messengers.

These are the legitimate expenses of an American legislative session. None of the money can be expended for expenses that are not legitimate. It can not be drawn, if that is done. And, if it is attempted to be done by any subterfuge, the person or persons making the attempt will run up against the laws of the United States. Which are not nice to the malefactor. Not even a Territorial Legislature is as big as a Federal grand jury.

Perhaps this will bring up once more the old question of the existence in the Legislature of that anomalous condition which permits of the employment of interpreters, and the use of two languages and the consequent waste of time where one language should serve. There can be no question that this condition was never contemplated in the creation of the Territory. The land is

GOES INSANE TRYING TO LEARN ENGLISH LANGUAGE

Japanese Passenger on the America Maru Ate and Drank Nothing for Eight Successive Days.

There is a demented Japanese aboard the liner America Maru whose case has attracted considerable attention among the officers. For eight days, up to 11 o'clock yesterday forenoon, he refused to eat or drink anything. He wasted away and is now but the wreck of a man. To make his case harder he speaks a strange dialect which none of the Japanese aboard seem to understand. Once in a while there are words similar to theirs, but generally it is a meaningless jargon. On the other hand, he speaks a little English and this little knowledge is believed to be the cause of his brain disturbance. In other words, he has become insane trying to learn the English language. In his baggage is a Japanese-English dictionary and other books telling how to acquire English. Dr. N. P. Crooks, surgeon of the America Maru, attributes the man's misfortune to his endeavor to learn English. "Once in a while he makes a desperate attempt to talk English," said the surgeon, "and does speak some words fairly well. I think his ailment is due to overstudy. "Sometimes people who are inclined to be mentally unbalanced do not show signs of it until they are at sea. The sea, if nothing else does, has a strange effect on people when they are inclined to be insane. The sea brings their mental vagaries out, and yet when they are on terra firma again, many get all right again. "This man seems to have been studying up on American politics," said the surgeon, "and speaks English as well as he says President Roosevelt is his friend, and assures us the President will meet him at the wharf in San Francisco." Yesterday afternoon the surgeon induced the man to take a little milk, and at 1 p. m. one of the Japanese officers gave him more, but it was very little. The man's case has been laid before the Japanese Consul, and he may be returned to Japan by the next steamer.

TO MAKE TEST ON WITNESS FEES

Does the Territory or the County Foot the Bills?

A test case is to be made to decide whether the Territory or the counties shall pay the expenses of witness in criminal cases. Perhaps the validity of the County Act may be called in question, but that is unlikely.

The question as to the payment of witnesses is a great question, although it is contained in this instance in a very small bill. The expense, in fact, is something like fifteen dollars, and it was incurred by Chief Clerk Buckland, of the secretary's office, who was ordered by his chief to go down to Kauai a couple of weeks ago to be a witness and as the custodian of record documents in the case of the Territory against Kanehili, the Garden Island Supervisor accused of forgery in the securing of signatures to his election petition.

Kanehili was acquitted, and when Clerk Buckland returned he put in a bill for his expenses as a witness, which he had been ordered to do. This claim was rejected by Territorial Auditor Fisher. It was passed up to the Attorney General's department, where it was supposed to properly belong, and with a view to making a test case, Attorney General Peters promptly refused to pay it.

THE COUNTY ACT.

It seems that when the law was passed to finance the counties, the Legislature considered that all criminal business, the prosecution of criminals and the conduct of criminal cases, should become the duty of the County Attorneys, and so cut out from the allowance of the Attorney General's office the appropriation of seven thousand dollars out of which witnesses and their expenses in criminal trial had heretofore been paid. This left the Attorney General but a small allowance for witness fees in civil cases, and \$500 for incidentals. The County Act provides that the County Attorney shall be a deputy of the Attorney General, but it also provides as follows under Chapter 21:

"Section 90: The County Attorney is the public prosecutor for the County in which he shall have been elected and he, or his deputy, shall:

"1. Attend the Circuit Court in and for said county and conduct on behalf of the people all prosecutions therein for offenses against the laws of the Territory of Hawaii and the ordinances of the Board of Supervisors of the County."

That is the provision of the Act. Everybody at all familiar with local conditions knows that the county attorneys have done nothing of the kind, and that the Attorney General has been compelled, in the interest of law and order, to keep the matter of criminal prosecution in the Circuit Courts in his own hands.

If this had not been done, there

AWFUL STORIES OF STARVATION IN FAR NORTH

Chukchi Tribesmen, at Extreme Northeastern Point of Siberia, Driven to Cannibalism by the Pangs of Hunger.

(Associated Press Cablegrams.)

ST. PETERSBURG, March 31.—Horrible stories of starvation and cannibalism come from the country of the Chukchi tribes, inhabiting the peninsula at the extreme eastern point of Asia. Travelers arriving from there state that many of the heads of families killed their wives and children rather than see them suffer, and then committed suicide. One father and daughter lived for weeks upon the bodies of a mother and nine children who had died of starvation.

This is a gruesome condition of affairs, certainly. The Chukchis, who are related to the Esquimaux, inhabit a cold, barren, desolate stretch of country running between the mountains and the Arctic ocean for a distance of nearly a thousand miles from Chaou bay to Bering Strait. Life, at the best, is a series of hardships with the Arctic tribes. When the fisheries fail them, and famine comes to them, their state is pretty nearly hopeless. The nearest Russian town of any importance to the country of the Chukchis is probably Vladivostok—and the Russians there are in no condition to relieve anybody's distress.

LABORITES IN PARLIAMENT SCORE FIRST VICTORY

LONDON, March 31.—The government has decided to support the bill of the Laborites holding the funds of trades unions immune.

This probably means that the reserve funds of the English trade unions shall not be taxed or shall be exempt from attachment. The cablegram is really important as signaling the first victory gained by the Labor party in the new English Parliament. John Burns, the Laborites' leader, has justified the faith of his followers, and it is clear that the Campbell-Bannerman Cabinet does not propose to take any chances upon alienating that large section of its friends in the Commons represented by the labor men. Just how far the Liberal party will follow the Premier in a policy of conciliation to labor is, however, a debatable question. And just how much the Laborites will ask from the government, having been granted one demand, is another problem. Nobody can say where they will stop—and there is probably

JOHN BURNS, LABOR LEADER.

a very well defined line beyond which the government will not go.

## STILL ANARCHY RULES IN THE CZAR'S REALM

### SMOLENSK, Russia, March 31.—The assistant chief of the gendarmes here has been murdered in the street.

The cable yesterday afternoon carried a dispatch to the effect that Premier De Witte had at last resigned his position in the Cabinet. The reason for the resignation given in the cablegram was ill-health. All the world knows that De Witte has been forced to relinquish the task which he had set for himself in Russia by the hostility of the reactionaries on the one side, and by the opposition of the extreme revolutionary party on the other. What will happen in Russia now, no one would be bold enough to attempt to predict. The assassination of the police official at Smolensk is merely another indication of the lawlessness that prevails in all parts of the empire.

It is believed, at all events, in the United States, that while Witte had a most arduous task ahead of him, he was the only man in Russia who could have hoped to cope successfully with the diverse forces now rending the Czar's empire.

### WOMAN HELD ON MURDER CHARGE.

(Associated Press Cablegrams—Afternoon Service.)

STOCKTON, Cal., March 30.—The verdict of the coroner's inquest in the case of McVicar was made public today. It is to the effect that McVicar was drugged with morphine and chloral, his body forced into a trunk, and death by suffocation followed. Mrs. Ledoux is held responsible and it is held she had no accomplice.

STETSON

The ranchman without a Stetson is like his brother without a horse. One is as necessary as the other. In fact, he values the hat so highly that if there was only one left, he would trade the horse to get it.

We have the Stetson Soft and Derby Hats in all the latest styles.

For the city our "YALE" styles with colored ribbons to match are very popular. Also we have a new line of summer styles in straws.

## GRAND JURY ON GAMBLING

### They Put Suppression of It Up to the Authorities.

Yesterday at noon the grand jury of the January term of the First Circuit Court filed into Judge Robinson's courtroom and, after presenting the following report—with eight indictments for the secret file—were discharged with remarks by the court cordially appreciative of their services:

#### "FINAL REPORT OF GRAND JURY.

"Now comes the above-named grand jury and desires to report to your Honor, the presiding Judge at term, as follows:

"Having been duly sworn and charged by His Honor W. J. Robinson, Third Judge of this court, they duly retired for the purpose of considering cases duly coming before it. That a report of bills and no bills of indictment found accompanies this report, hereto attached and made a part hereof. Consideration of criminal cases barely took one day each week, as is evident by the number of criminal cases considered.

"Relative to gambling in Honolulu, within this circuit, we have the following to report:

#### "GAMBLING.

"We have made an investigation into alleged gambling being conducted in this city, and find that the most serious of the games being run is the lottery known as 'che-fa.' At the beginning of our inquiry there were four banks running full blast, each having two drawings daily, and the winning word for each of these banks for each drawing was being almost publicly announced. Tickets for this lottery were being purchased by both sexes of practically all nationalities, and the amount of money staked each day must have reached thousands of dollars. This is shown by the fact that the agents' tickets deposited at only one of several designated places, for one drawing, represented an amount exceeding \$800. Agents of these banks were located in all parts of the city, and in many instances openly solicited residents to purchase chances.

"These banks are no longer doing business as far as we can ascertain, and it is to be hoped they will remain closed, for they are a serious menace to the moral and financial welfare of the community. As the efforts of the grand jury in getting at the root of the gambling evil have resulted in the cessation of these games and the closing of the che-fa banks, it is now up to the proper authorities to be alert in their duties, as by so doing the gambling games and che-fa banks can be kept forever closed.

"Operating as a grand jury it was extremely difficult to obtain sufficient evidence to indict in che-fa cases, due to the cessation of the games upon our institution of the investigation, but we firmly believe that constant vigilance and vigorous prosecution on the part of the proper authorities will result in the desired end being attained. The amounts placed in these banks reach such vast proportions that the grand jury feels that this community should be informed and become aware of the menace which this evil presents, in order that it in future insist upon the stamping out of these nefarious institutions. We believe this can be accomplished by the means above suggested, and by the infliction of the maximum penalty provided by law in cases where conviction may be obtained.

"In this connection we also desire to report that valuable assistance would have been rendered this grand jury had the Supreme Court, after its decision in the case of Y. Ah Nin, amended its rule governing the proceedings of grand juries, so that an oath of secrecy might lawfully be administered by the grand jury to witnesses appearing before it. Without such an oath it is often impossible to accomplish the object intended by the inquiry or investigation and the work of the grand jury is unnecessarily hampered and impeded.

"In conclusion, we desire to express our appreciation of the able assistance and cooperation by the Attorney General and his efficient staff during the course of our investigations.

"Respectfully submitted,

(Signed) "W. A. Bowen, foreman; Quintus H. Berrey, R. L. Gilliland, W. H. Heine, F. E. Blake, Elmer E. Paxton, J. J. Byrne, J. S. Low, Aug. Ahrens, F. M. Lewis, J. T. Holladay, James W. Robertson, Chas. S. Weight, Wm. Mutch, S. C. Dwight, Clinton J. Hutchins."

## NO ORDERS YET TO REPAIR BANDSTAND

"I have not got out my hammer and saw to repair the Capitol bandstand yet because I have not received my orders," said Superintendent of Public Works Holloway yesterday. "But I have three hundred and ninety subscribers to Country Club stock, and will have over four hundred before the thing is organized."

In the meantime the bandstand looks more and more dilapidated every day. The same old broken pieces of board are lying about, and there is the same old wheelbarrow there, half filled with trash and half hidden, and the air of decay is enough alone to tumble the structure to the earth.

#### LIMITED PAYMENT LIFE POLICY.

By the terms of this contract the amount of the insurance is payable upon the death of the insured, and the premiums are payable during a limited number of years—twenty, fifteen or ten years.

The Limited Payment Life Policy is in many respects and for a large class of insurers a most desirable contract, providing as it does that the premiums shall all be paid in the early and productive years of life, thus the policy becomes fully paid-up for the whole amount in a fixed number of years. Dividends are payable annually, or at the end of 5, 10, 15 or 20 years.

#### HOW MUCH WILL IT COST?

Between the ages of 25 and 31 years, inclusive, six to seven cents a day will be the "first cost" of \$1000 good life insurance.

Between the ages of 32 and 52 years, seven to fifteen cents a day. Between the ages of 53 and 65 years, sixteen to twenty-nine cents a day.

Is there any healthy man or woman in America at work for wages who can not afford this "first cost" of a good \$1000 policy in the best and strongest company on earth?

A little self-denial in small things—pleasant things, perhaps, but unnecessary things—will pay the bill easily.

Different forms of policies cost various prices.

Our Twenty-Year Distribution Policy on continuous life and limited payment plans affords the maximum of security at the minimum of cost;

Our Guaranteed Income Policy provides a guaranteed income, secure investment, and absolute protection;

Our Endowment Policy provides a certain guaranteed sum, payable with profits at a fixed time;

Our 4 and 5 Per Cent. Bonds furnish the best and most effective forms of indemnity and fixed annual income to survivors;

Our Continuous Instalment Policy so adjusts the payment of the amount insured as to create a fixed income during the life of the beneficiary;

Our Annuity Policies offer an excellent opportunity for persons to obtain a high rate of interest on their capital for the remainder of life; an income safe beyond mishap. This form of investment is particularly recommended to those who desire to make provision for declining years, and to be free from business cares.

We have prices to fit all known wants. All we want to know is what you want. If you do not know, tell us enough of your condition and surroundings and we can suggest the policy best suited to your purpose.

Rates and guarantees cheerfully furnished on application.

**NEW TRIAL**  
**IS REFUSED**

**Judge De Bolt Tells All**  
**About Newspaper**  
**Surprise.**

In a lengthy oral decision rendered late yesterday afternoon, Judge De Bolt overruled the motion for a new trial made by defendants in the ejectment suit of C. A. Brown against John D. Spreckels and others. Mr. Kinney noted exceptions and the case will bob up again in the Supreme Court.

The hearing on plaintiff's bill of costs—a large one covering six jury trials and some appeals decided by the Supreme Court—was set for this day two weeks at 9 a. m. Mr. Magoon fought for an earlier hearing, but the court thought the time given only reasonable.

**JURY'S MISCONDUCT.**  
Judge De Bolt started with his decision immediately on the conclusion of argument which had taken the regular court hours of two days. Technically the motion for a new trial was based on alleged "misconduct" of the jury. This, as Mr. Kinney urged, consisted in the jury's disobedience of the "admonition of the court" not to read the evening papers of March 7 or the morning paper of March 8, particularly that part of their contents which gave Judge De Bolt's remarks to counsel, in the absence of the jury, intimating a possibility that if a verdict were returned for the defendants he might grant a motion for a new trial. These remarks were made while the court was overruling a motion for a directed verdict for the plaintiff.

The court's remarks, moreover, when their publication was made known in open court were the occasion of a scene between counsel one afternoon, and explanations demanded and given, followed by an exchange of apologies and restoration of serenity the following morning. Then the case went to the jury, resulting after some hours in a blanket verdict for plaintiff.

**DISCOVERIES.**  
Shortly afterward counsel for defendants made discoveries which caused them to repent of their concessions regarding the new remarks. They filed a motion for a new trial, backed by affidavits to show that the publication of the Judge's "remarks" was not so innocent as they had conceived and conceded.

Counter-affidavits were filed in profusion, including a batch from all of the twelve jurors, individually, saying that the court's "remarks" had not influenced their verdict. Then, yesterday morning, Mr. Kinney filed—Mr. Magoon strongly resisting—responsive affidavits from two of the jurors to the effect that they really had been influenced and that their previous affidavits were in a manner coaxed. One went so far as to say that six jurors were holding out for the defendants, but that the other six metaphorically put their backs against the stone wall of the court's "remarks."

**HISTORY OF TROUBLE.**  
Judge De Bolt gave a detailed history, partly from the record and the rest from the best of his recollection, of the facts and circumstances bearing on the motion. He made the admitted remarks while cutting Mr. Lightfoot short in arguing for a directed verdict, by way of explanation to him for not desiring a conclusion of his argument while ruling against him. As a matter of fact, he having followed the case closely from day to day, he was strongly impressed with the force of Mr. Lightfoot's argument, yet all things considered thought the jury should be allowed to decide the facts. At the time he made the "remarks" only two or three spectators were present, and especially no newspaper reporter.

heads. The "remarks" were not intended to be published but they were published and he placed blame on nobody.

**VERDICT WAS JUST.**  
One element to be considered was whether the verdict was just or unjust. Having closely followed the evidence and critically observed the manner of witnesses, as well as taken notice of the atmosphere surrounding the case, he was bound to say, as he felt, that the verdict was a just one.

**THE COURT'S PRIVILEGE.**  
There was another feature that presented itself to him. Presuming without stating that the "remarks" were comments on the facts, or presuming without stating that the court could make the same remarks to the jury—as at common law in England, in the Federal courts and in the courts of many States was the practice, the judge while summing up the facts advising the jury that they might disregard his advice on the facts—would the circumstances at issue now justify the granting of a motion for a new trial? In constructively answering this question in the negative Judge De Bolt read lengthy extracts from articles by former Associate Justice Brown of the U. S. Supreme Court in the American Law Review.

**COLORADO RIVER,**

Many fine colored photographs were shown by stereopticon lantern last evening in Y. M. C. A. Hall to illustrate a lecture on India and the Grand Canyon of the Colorado, given by Dr. Emily Noble. The slides of the Grand Canyon were exceptionally attractive, showing colors that were marvelous, the pictures arousing the audience to considerable applause.

Dr. Noble's lecture on the castes of India, confining herself to the Brahmins, was quite interesting. She told of the brighter side of social life as she had found it during a long residence in India. She stated that she was able to get much data concerning the inner life of Hindoo homes by having been permitted to mingle with the high caste women. Things there were not so bad as they had been painted. Many stories concerning child-wives, the throwing of live babies into rivers teeming with crocodiles, etc., were much exaggerated. The river into which a child was supposed to have been thrown alive into a crocodile's mouth, she had seen, and her investigation showed that a crocodile had never been known to come into that river. As to child-wives, she said that girls at very tender ages were married, in name only, to those of their own caste, but did not become wives in reality until they were older.

The lecture was preceded by a program of musical numbers, which were very enjoyable, and were as follows:

**NEW OFFICERS OF**  
**HONOLULU ELKS**

The election of Honolulu Lodge of Elks, No. 616, took place last night at the lodge hall. A very large attendance of members was reported. The election of officers resulted as follows:  
Exalted Ruler, H. E. Murray; Esteemed Leading Knight, F. E. Richardson; Esteemed Royal Knight, W. W. Harris; Esteemed Lecturing Knight, Jas. G. Dougherty; Secretary, H. H. Simpson; Treasurer, E. W. Quinn; Tyler, Mr. Sullivan.  
George Angus, the retiring Exalted Ruler, was selected as trustee for three years to fill a vacancy, and he was also elected as the representative to the Grand Lodge.  
The Elks are increasing their membership rapidly and their popularity was never so great as at present.

There will also be selections by the string band, as well as songs and testimonies.  
Everybody is cordially invited.

**HONOLULU AS SEEN**  
**BY AN OREGONIAN**

(Continued from Page 1)

be enacted for these islands, as under the present conditions it is impossible to get white men to do the field labor. But with the subdivision of these large plantations when the present leases expire and the land reverts to the government, as very much of it will, it can be disposed of to the actual settler the same as any of the public domain in the United States. There is also a movement here among some to get the plantations to encourage emigration, especially from Portugal, and work allotments of land on the share system. There can be no doubt that this is the solution of the labor question in these islands. To be sure, the sugar interest is demanding Chinese and Japanese labor, and that of really the slave class. The United States has forever turned its back upon its laborers being forced to compete with that class of labor, I trust. (Now I hope General Killfeather and Judge O'Day will not think I am entering the political arena in opposition to them.)

**A COUNTRY OF CONTRADICTIONS.**  
This is a country of apparent contradictions. It is a land of sunshine, and in many parts of the island they have more than twice as much rainfall as in any part of Oregon; frost and fog unknown; a land of flowers and practically no roses; an island in the midst of the Pacific Ocean, where they catch their best food fish out of ponds; a land of fruit and no apples; pears, cherries, plums, prunes, peaches in abundance; where mush (poi) grows in the ground and muskmelons (papaia) grow on trees.

The reason there are so few and poor roses here is because of the Japanese beetle, brought here in or with shrubs from Japan. However, I am also informed that their introduction was premeditated by some one to destroy a certain obnoxious shrub. If the latter is true, I am not surprised that they should deny it, for as a plant destroyer these bugs are a success, but only after there are no more roses and grapevines to eat.

Uncle Sam should be especially careful about admitting plants and soil from here or Japan, as in that way these bugs could be easily introduced into the United States.

**THE FOOLKILLER NEGLIGENT.**  
The foolkiller has neglected his duty here, as well as in Oregon. The carp and English sparrow have been brought here, rats were accidentally brought in ships, then some wise one brought the mongoose, a kind of weasel, to kill the rats. Now the authorities are offering 10 cents a head for the mongoose, as he confines his labors principally to eating eggs, both domestic and wild. The ringneck pheasant was introduced into these islands and did exceedingly well. Now, because of the mongoose, they are almost extinct. If this weasel would attack the nest of the sparrow, he would not be an unmixt evil. However, as the sparrow nests on and near houses in the city, they are practically immune from his raids.

Notwithstanding these mistakes, which in time will be remedied, these islands are justly entitled to be called the "Paradise of the Pacific," and for that matter of the world. It is difficult to conceive of a more lovely spot, and one with a more enjoyable climate. If one could take a perfect Oregon May day and a day in August and make a homogeneous mix, tempered with a soft seaside breeze, the result would be Honolulu the year round.

**A WONDROUS FRUIT.**  
Of the various fruits that attain their perfection in these islands only, I think the papaia the most wonderful and delicious. It was previously referred to as "the muskmelon that grows on trees," resembling that melon in many ways. It is very refreshing and wholesome, containing a large amount of pepsin, the leaves of the tree being often used for wrapping tough steaks and stuffing old turkeys previous to cooking, to make them tender, which it is maintained they will do. From these well established facts, no doubt, has originated the story that if a papaia tree is planted near a chicken-house, the chickens, when cooked, will always be tender. I am afraid if that had been known previous to the coming of the missionaries the Methodists, instead of the Congregationalists, would have been the first preachers here.

**ICTHYOLOGICAL WONDERS.**  
The aquarium here is one place a visitor should never miss. If I were a Walton or an artist, I might in words or with a brush give a faint idea of the fish here, both in the markets and in the aquarium, especially the latter. There are almost all shapes, sizes and colors, even to the most fantastic. I really think if one should take all the known colors and try to paint the most grotesque to the most symmetrical and graceful, with the most brilliant imagination, spots, stripes, blotches and bands, the counterpart would be found here and then one would convey only a faint idea of these wonderful and beautiful fish. There is the "frog fish" that walks on four legs, and the little fellow about the size of a man's hand, so beautiful in form and color, yet almost transparent with a slender, thread-like spine projecting upward and backward from the back of his head, equaling about his own length at the end of which floats a flag-like fin, of which he seems to be very proud. He is such a dandy. Then their ways are so interesting; some will perch on the sides of the rocks or lie flat upon the sand, as it were, to rest. Others again suddenly and so quickly bury themselves in the sand completely except the tip of the nose and eyes. It is surprising how quickly one of these delicate-looking ones can bury itself in the sand simply by standing as it were up on his tail fin, and working it from side to side in the sand. This, too, when to look at them, one would think they could no more stand such usage than a butterfly.

GRAND JURY ON GAMBLING.

The report of the January grand jury, while colorless in tone, shows that gambling was rife when the jury began its investigation, that the vice has now abated and that it is within the power of the police, if they will exercise it, to stamp out public games altogether.

SECOND CLASS TRAVEL.

We are in full accord with a writer whose letter appears in this issue, in his advocacy of a second cabin with a rate of \$60 or \$65 for the round trip on the projected local steamer between here and San Francisco.

The eastern excursion car tourist and homeseeker, traveling to the coast at half-rates, makes up the bulk of the immigration there. People who travel thus are not necessarily poor any more than are the many excellent people who journey back and forth between Honolulu and San Francisco in sailing vessels.

A function of the second cabin, not to be overlooked, is that it enables a man of moderate means to travel with his family. To pay first-class rates for five people requires a long purse; but where five people could make a round trip comfortably between San Francisco and Honolulu for \$300 the five would be far more likely to come than at a rate of \$500.

First cabin, second cabin and steerage, is the trans-Atlantic way. Steerage passage on the new boat would be useful in bringing back Japanese laborers who are disgusted with California.

LABOR, LAND AND AMERICANISM.

It should be known at the outset that the Bulletin's attempt to belittle and misconstrue Acting Governor Atkinson's labor plans, is due to a desire on the part of the Bulletin writer to defeat any hopes Mr. Atkinson may have for the Governorship.

Now as to Mr. Atkinson's official course upon which the Bulletin's complaint is ostensibly based. Acting for President Roosevelt, who wishes to develop Hawaii along "traditional American lines," Atkinson is trying to arrange with the plantations to sell in fee simple small truck patches to white laborers who will work in the cane fields and at the same time establish themselves on the soil.

Governor Carter, upon these points, has as closely followed the lines laid down by President Roosevelt as has Acting Governor Atkinson. Some of his interviews with the ultramontane class of planters would have made rich reading. He gave these gentlemen to understand that, with the President and Congress at his back, he was strong enough to win and his policy is winning now.

TO MAKE MURDER LAWFUL.

Mighty few people will want to call in Iowa doctors, if the bill to legalize murder by physicians, lately introduced at the request of a physician by a member of the Iowa legislature, becomes a law.

"What I propose," says Dr. R. H. Gregory, in whose behalf Representative Buckingham of Adams county introduced the bill, "is no more than you are now practicing in the exercise of humanity to dump animals. A friend of mine who suggested this bill to me told of a relative who had been paralyzed for three years, dying a lingering death which was as certain as it was slow.

It may be more humane, doctor, but who is to anesthetize the conscience of the physician? It may not be, but it is still possible that your friend who suggested the bill to you has an interest in the death of the paralytic which is something other than humane.

Dr. Gregory's bill is one of the most remarkable in many respects ever introduced into a legislative body. According to the terms of the measure, any sane person over ten years of age suffering from incurable disease must himself ask to be killed, and he is then examined by two other physicians besides the one whom he requests to kill him, and the county coroner.

It is gravely to be feared that the doctor has gone a step too far in this proposed legislation. Life is held too cheaply already, in this country—and the control that the doctors have of it in other people is about all that the laity will be willing to entrust to their hands.

No; no Iowa man, particularly if he have property, will dare to call an Iowa doctor if this bill should become a law. It might be to the interest of his heirs to have him adjudged an incurable lunatic, even if he be suffering from an ulcerated tooth or a bad case of gout, and his next of kin, being his chief heir, could very readily request the doctor to put the patient out of the way under the provisions of the Gregory law.

SECOND CABIN PASSAGE NEEDED

Editor Advertiser: In view of the general discussion now going on respecting the merits and advantages of increased local steamer service between San Francisco and Honolulu, it is rather surprising that no one seems to have suggested, or thought of, an intermediate or second cabin fare for the benefit of people with limited means at their command.

This is a very important feature of the transatlantic service, and would doubtless, by investigation of the records and experience of the principal steamship lines, prove one of the secrets of their financial success. On nearly every passenger steamer crossing the Atlantic the second cabin passengers form a large proportion of the total number, generally exceeding that of the first class passengers in the ratio of 2 to 1, and there can be very little doubt that the establishment of a second cabin rate, say of \$45 one way and \$60 to \$65 for the round trip, would attract to these islands a large number of very desirable tourists, who would spend in purchases of curios, etc., the \$35 or \$40 saved on steamer fare, but who otherwise would either not have this extra amount to spend, or by the higher rate be wholly debarred from making the trip.

Refined, intelligent and educated people of limited means, but with a desire for travel, are constantly going second class on the Atlantic steamers, as anyone can testify who has ever crossed the big pond, and there is no doubt that with the facilities thus afforded them a large number of this class, which when all is said constitutes the bulk of the traveling public, would turn their faces toward these sunny shores, thereby insuring the steamer a steady and very material source of revenue and the business men increased prosperity.

This suggestion is respectfully referred to the Promotion Committee and the Merchants' Association for their consideration.

BUSINESS MAN. Honolulu, March 30, 1906.

TO MAKE TEST.

(Continued from Page 1)

would have been a condition in Hawaii now bordering very closely upon anarchy. County Attorney Dan Case of Maui is the only one who has ever shown any very strong purpose to act as public prosecutor, in fact. And if he had not been called away to Washington so suddenly, a test case might have come from Maui.

WANTS A TEST.

"I have been trying for a long time to get a decision on this point from the Supreme Court," said Attorney General Peters, yesterday. "If I have to sign vouchers paying the expenses of witnesses in criminal cases, I want the backing of the Supreme Court in doing it. My office has no fund from which these expenses can be paid. I do not want to face the next Legislature with a big deficit on this account unless I have a Supreme Court decision at my back. And so this case is to see whether the counties or the Territory is to pay these witnesses. And I don't want people to keep on giving credit to the Territory when there is no money in sight to pay the bills. The agreed statement of facts will be prepared next week, and we will invite all the county attorneys to come into the Supreme Court and argue the matter, if they see fit."

And so John Cathart has been retained to represent Chief Clerk Buckland in the test case that is to be prepared in the form of a mandamus proceeding to compel Attorney General Peters to sign the claim of Buckland to his expenses as a witness. And if the Supreme Court holds that the Territory must pay, then the next Legislature must make proper provision for the matter in future, and the County Attorneys will become rather more ornamental even than they are now. If the counties must pay, it will relieve the Territory of a burden.

NOTHING EQUAL TO CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY FOR BOWEL COMPLAINTS IN CHILDREN.

"We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in our family for years," says Mrs. J. B. Cooke, of Netherlands, Texas, U. S. A. "We have given it to all of our children. A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—a break-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; the more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is INCREASED VITALITY—VIGOR—VITAL STRENGTH AND ENERGY to prove that an night succeeds the day this may throw off these morbid feelings, and experience be more certainly secured by a course of the celebrated life-reviving tonic

# A Valuable Book Free

Ask me to send you sealed, free, a book just completed, which will inspire any man to be bigger, stronger, younger (if he is old), and more manly than he ever felt. I am a builder of men.

I can take any weak, puny man and make him feel like a Sandow. Of course, I can't make a Hercules of a man who was never intended by nature to be strong and husky. I don't mean that.

But I can take a man who started with a fair constitution and before it got fully developed began tearing it down. That fellow is weak-nerved, slow, poky, lacking in vim, ambition and self-confidence. I can make a man of him in three months so that his own friends won't know him.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, or any ailment of that kind that unmans you, it would assure your future happiness if you would look into this method of mine. Don't delay it; your best days are slipping by. If you want this book I send it closely sealed free if you inclose this ad.

## M'FADDEN MUST FIGHT

### Nelson Is After Him With Blood in His Eye.

Tonight young Nelson and Jack McFadden will face each other in the roped arena for the second time, the occasion being a fifteen-round bout at 128 pounds and five added rounds if no decision is arrived at at the expiration of the fifteenth.

The contest takes place at the Orpheum and will be prefaced by six-round bouts between Kid Lani and Kid Vierra, and between Trescott and "Frenchy," and a 10-round go, in which "Red" Dixon and Jack Jeffries will participate.

Nelson and McFadden went ten rounds at the Opera House some time ago. Referee "Smiling" Metzner being unable to pick a winner. Both factions claimed that their lad had the better of the argument and another match was the outcome of the discussion.

McFadden has gone through a very satisfactory course of training, under the watchful eye of Dick Sullivan. He will have no excuses to make on the score of condition if the battle goes against him tonight.

Nelson's preparation has been superintended by Billy England and the Portuguese boy will strip in superb shape. He appears to be even stronger and to have filled out since his last bout with McFadden.

Nelson, with the confidence engendered of his splendid showing against his opponent on the occasion of their first meeting, will probable force matters from the tap of the gong and endeavor to win by the knockout route.

McFadden, on the other hand, will strive to outpoint his swarthy antagonist and rely on his larger experience to annex the long end of the purse.

Taking the form of the first bout into consideration, it looks as if Nelson should win handsily.

"Red" Dixon who is on the card to box 10 rounds with Jack Jeffries, is a Kakaako product and made his debut in the ring by drawing with "Ice Wagon" Lang. Jeffries is another Punchbowl wonder and fancies that he detects a shorter cut to ease and affluence by swinging the mitts than by manipulating a sledge-hammer at the Iron Works. Both men are pronounced heavyweights.

Kid Lani and Kid Vierra are two hustling bantamweights who should keep the crowd amused for several rounds. Vierra has been sparring with McFadden and shapes well for a novice.

Trescott, who goes six rounds with "Frenchy" of the U. S. S. Manning, is a bluejacket from one of the British men-of-war now in port. He is an elderly individual and is said to possess a heap of ring experience.

"Frenchy" is a rangy welterweight who boxes with his right hand out, a style which is odd but which in the case of the user is far from ineffective. He should keep the Britisher moving this evening.

Last night no referee had been chosen and an individual will probably be selected to officiate, at the ringside.

## GO-AS-YOU- PLEASE RACE

There is a prospect of Honolulu being treated to an athletic novelty in the future in the shape of a nine-hour go-as-you-please race, to be held at the skating rink.

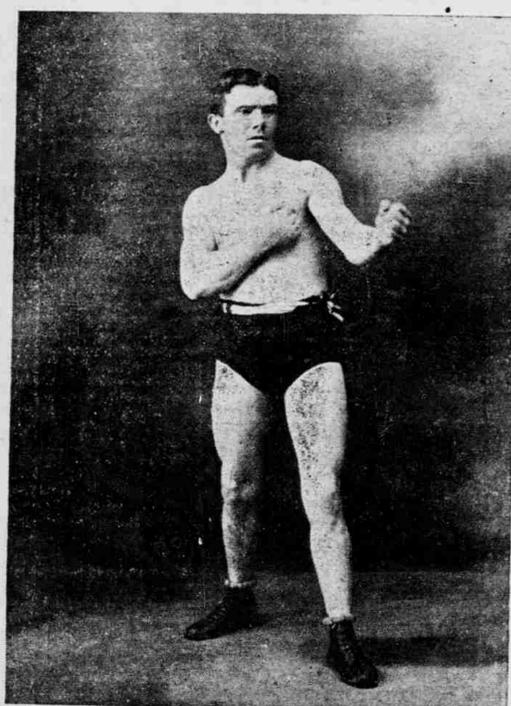

Clifford Kimball has the matter under consideration and thinks that such an event would be largely entered and would attract great attention.

The idea is to mark out a track on the floor of the rink and to start the race at noon one Saturday, the contest finishing at 9 p. m. Prizes would be offered for the competitors covering the greatest distance in the specified time. Competitors would be allowed to either walk or run as they saw fit, and their progress would be recorded by a corps of lap scorers, the distance covered by each competitor being announced from time to time.

Such a contest held before the baseball season starts should be well patronized by local athletes. It would be a matter of endurance and there would undoubtedly be intense excitement to see which nation or club would furnish the winner.

## ROW TODAY FOR PURSE

At 3 o'clock this afternoon there will be a whaleboat race from the bell buoy to an imaginary line drawn from the mauka end of the channel wharf to the lighthouse, between crews of the United States revenue cutter Manning and the British cruiser Flora. It is said that a purse of \$30 has been put up. The race, being international in character, is attracting considerable attention and a large crowd is expected to be on hand to take it in.

JACK M'FADDEN, WHO BOXES FIFTEEN ROUNDS WITH YOUNG NELSON THIS EVENING.

## BOYS WILL RACE TODAY

The annual field day of the Boys' Clubs will take place at the Boys' Field this afternoon, commencing at 2 o'clock. The entries for the different events number 117 and some exciting contests are certain.

Clubs taking part are Kauluwela, Kawaiahaeo, Palama, Excelsior and Kamehameha Preparatory.

The customary events will figure on the program, with the hammer throw omitted. The walking race will be half a mile for both seniors and juniors.

The club securing the most points will be presented with a handsome banner and silver medals will be presented to the highest individual scorers in the junior and senior classes. The winners of the senior and junior events will receive bronze medals.

The officials will be as follows: Referee, E. B. Turner; clerk of the course, Theodore Richards; starter, W. H. Babbitt; scorer, J. A. Ruth; timers, Albert Waterhouse, F. E. Steere; track judges, P. L. Horne, Major R. C. Van Vliet, C. R. Hemmaway; field judges, R. A. Robbins, R. Leach; judge of walking, H. M. Ayres; announcer, John Anderson.

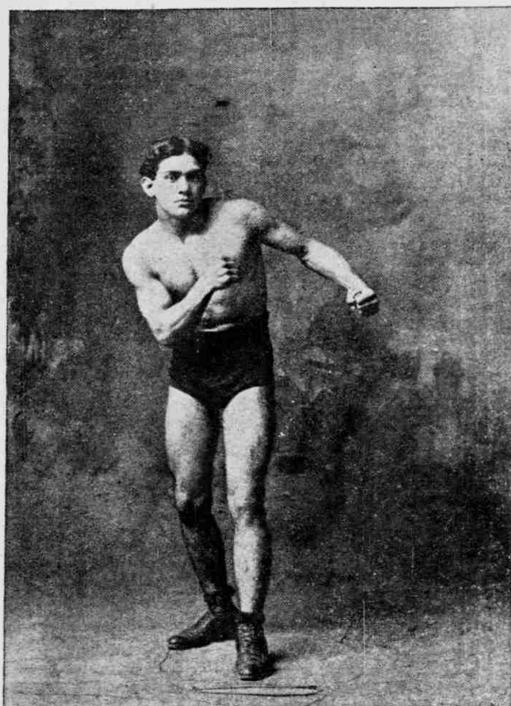

Admission to the ground will be free, but a charge of 15c. will be made to the grandstand.

## THE RETURN MATCH TODAY

The return match between the Honolulu cricketers and the eleven of H. H. S. Cambrian and Flora will be played at Makiki today, commencing at 1 p. m.

The teams will be as follows, the asterisk indicating those who played in the first game:

H. C. C.—W. L. Stanley, R. Anderson, J. Broadfoot,\* A. J. Clunie,\* C. P. Morse,\* S. Beardmore, R. A. Jordan,\* J. Hall,\* E. W. Barron,\* T. Gill,\* H. L. Herbert.\*

YOUNG NELSON—HE WILL ENDEAVOR TO DEFEAT JACK M'FADDEN TONIGHT.

## CAPT. ROGERS WON'T SAIL

### Changes His Mind About Navigating La Paloma.

Contrary to expectation, La Paloma, Hawaii's representative in the trans-pacific yacht race, will not be ready for launching today. Her overhauling has kept her on the ways longer than was anticipated and work in her will not be completed for two or three days. On this account it is probable that the little vessel will make no formal trial trip, as she departs for San Francisco on Saturday next.

Captain E. T. Rodgers, who had been engaged to make the trip as navigator, has changed his mind and will not go. Captain Mosher will, therefore, act as navigator.

The crew has been secured with the exception of one man. H. D. Couzens will accompany Captain Macfarlane as guest. He expects to write some magazine articles on the trip to the Coast and the race back to Honolulu.

The yacht race is already calling the attention of the mainland to Hawaii in no uncertain manner and every mail brings letters of enquiry and papers and magazines containing articles on the great sporting event.

## MORE OPEN EVENTS WANTED

The great trouble with track athletics in Hawaii is that there are not enough open meetings to compensate a man for keeping in regular training.

There is the annual championship meeting and a meeting in December and at both of these events are open to all who care to enter. Outside of these two field days, however, the unattached athlete has no chance to enter a contest the year round.

There are, it is true, other meetings, St. Louis, the Boys' Clubs, Oahu College, the Chinese Athletic Club and Kamehameha Schools all have their own field days but entries are confined strictly to members of these institutions.

It would be a good thing for sport in every respect if every organization or institution holding sports would include in its program a number of open events to be competed for by all caring to enter.

An entrance fee could be charged and this would go to provide prizes. Handicap events could also be introduced and would furnish such sport that the public would readily pay to see it.

## ATHLETICS AT BALL GROUND

There is considerable talk among athletes at present of a request being made to the trustees of the baseball park that the next annual athletic championship meeting be brought off under their auspices at the baseball ground.

The track would be turf and could be roped off for the occasion without difficulty or permanent damage to the grounds. This is done at Shanghai, which possesses one of the finest athletic grounds in the world.

The crowd which would attend the sports would make the proposition a paying one and the promoters of the meet would probably see their way clear to offering medals and trophies of such nature and value as would make them worth striving for.

A two-dollar medal and a ten-dollar cup are poor emblems of championship and the importance of such contests surely merits better recognition of the winning performance.

## BATH TO BE GOOD LENGTH

The proposed swimming bath is taking definite shape and \$7000 has already been subscribed, while the remaining \$3000 needed to float the enterprise, is said to be in sight.

A meeting will be held at the end of next week for the purpose of incorporation.

It has been decided to make the pool 75 feet long instead of 60 feet as at first proposed, with a breadth of 45 feet.

There is a good prospect of Dan Renear returning from the mainland to take charge of the tank.

In connection with the bath, a swimming club will be organized, one of the requirements of membership in which will be that an applicant must be able to swim 100 yards in 1:12. If the candidate possesses unusual ability on the spring-board or trapeze, the speed condition may be waived.

### RHEUMATISM CAN BE CURED.

Many sufferers from this painful disease have been surprised and delighted at the prompt relief obtained by applying Chamberlain's Pain Balm. A permanent cure may be effected by continuing its use for a short time. It will cost you but a trifle to try it. Sold by Benson, Smith & Co., Ltd., Agents for Hawaii.

# PATRIOTIC PROGRAM FOR SCHOOL OBSERVANCE

Plan to Observe Days Notable in American History, and Teach the Children the Love of Country.

As a means of inculcating patriotism in the schools, the Board of Education has agreed upon a plan of patriotic observance to be followed in the celebration of notable days in American history, this plan being a composite drawn from the several submitted by teachers in the department for the consideration of the Board. It will be remembered that at the time of the celebration of the birthday of Benjamin Franklin, an agitation was begun looking to a better observance of these notable national days in the schools, as tending to inculcate patriotism in a school population that needed that kind of teaching, perhaps, more than the mainland children do—although patriotism is inculcated in the schools there, also.

The matter was taken up by the school department, at once, and the teachers were asked to submit their views upon it. The result is embodied in the "patriotic program" printed herewith, which represents the best educational thought of the Territory. The program follows, and will be sent out officially in pamphlet form as a guide to teachers in the observance of national days in the schools:

## I. FORMATION AND SALUTE TO FLAG.

(a) At three minutes to nine o'clock the children assemble in front of the school, the classes forming a circle (or circles) about the flag pole or facing the building over which the stars and stripes are to float. The principal gives the order, "Attention!" or "Face!" The boys remove hats and the teachers, and pupils watch the flag hoisted by two of the older boys. When it reaches the top of the flag-pole, the principal gives the order, "Salute!" or three cheers may be given for the flag as it is being raised.

At nine o'clock the pupils march to their class rooms to the beating of a drum or to some march played by the pianist or school band.

On reaching their class rooms, the children may stand by their seats and repeat in concert the following salutation:

"We give our heads and our hearts to God and our Country! One Country! One Language! One Flag!"

(NOTE: The flag is dipped while the children raise the right hand, forefinger extended, and repeat the pledge. When they salute, the flag is raised to an upright position.)

(b) All the children to be drawn up in line before the school building.

A boy and a girl each holding a medium-sized American flag, stand one on the right and one on the left of the school steps. Boy on the right and girl on the left. The flags should be held military style.

The children at a given signal by the principal or teacher in charge, file past the flags, saluting in correct military manner. The boys to the right and the girls to the left, entering and taking their positions in the school. The flag bearers enter last, and take their positions right and left of the principal, remaining in that position during the salutation, "We give our heads and our hearts to God and our Country! One Country! One Language! One Flag!"

The flag bearers place the flags in position at the head of the school. The boy and girl who carry the flags should be chosen from among the pupils for good conduct during the hours of school.

(c) Pupils attention! at chord on piano or organ, or stroke of drum or bell.

The teacher will call one of the pupils to come forward and stand at one side of desk while the teacher stands at the other. The pupil shall hold an American flag in military style.

At second signal all children shall rise, stand erect and salute the flag, concluding with the salutation, "We give our heads and our hearts to God and our Country! One Country! One Language! One Flag!"

## II. MORNING PRAYER (IN UNISON).

(a) THE LORD'S PRAYER;

Or

(b) Dear Lord we thank thee for the night  
That brought us peaceful rest,  
We thank thee for the pleasant light  
With which our day is blessed;  
We thank thee for our native land,  
The dearest in the world;  
We thank thee for our starry flag  
For freedom's sake unfurled.

O, make us worthy, God, to be  
The children of this land,  
Give us the truth and purity  
For which our colors stand,  
May there be in us greater love  
That by our lives we'll show  
We're children true of God above  
And our country here below.

Or

(c) "Hawaii's land is fair,  
Rich are the gifts we share.  
This is our earnest prayer  
O Lord of Light,  
That as a noble band  
We may join heart and hand  
Till all Hawaii's land  
Stands for the right."

P. H. DODGE.

## III. PATRIOTIC SONG.

Any one of following:

- AMERICA;
- STAR SPANGLED BANNER;
- THE RED, WHITE AND BLUE;
- BATTLE HYMN OF THE REPUBLIC;
- RALLY ROUND THE FLAG;
- YANKEE DOODLE;
- HAIL COLUMBIA;
- HOME, SWEET HOME;
- COLUMBIA, THE GEM OF THE OCEAN;
- GLORY—GLORY—HALLELUJAH;
- MY OWN UNITED STATES;
- JOHN BROWN'S BODY.

## IV. PATRIOTIC TOPICS FOR DAY.

(a) FORMAL TALK BY THE TEACHERS ON—  
1.—Presidents and Famous Men;

- 2.—Great Events in History and Science;
- 3.—Current Events in United States;
- 4.—Vivid descriptions (illustrated whenever possible) of Great Industries, Cities, Famous Localities, Physical and Climatic Conditions.

## (b) QUOTATIONS OR RECITATIONS.

It is the idea that on each Monday morning a new text be introduced in a brief talk by the teacher, written on the board, and during the week repeated by the pupils each day.

### QUOTATIONS.

Our parents are dear to us; our children, our kinsmen, our friends are dear to us, but our country comprehends alone all the endearments of all.—*Cicero*.

"I was summoned by my country, whose voice I never hear but with veneration and love."—*George Washington*.

The union of hearts, the union of hands,  
And the flag of our Union forever.

—*G. P. Morris*.

And never shall the sons of Columbia be slaves,  
While the earth bears a plant, or the sea rolls its waves.

—*Joseph Thrumbull*.

One flag, one land, one heart, one hand,  
One nation ever more!

—*Holmes*.

Our fathers brought forth upon this continent a new nation, conceived in Liberty, and dedicated to the proposition that all men are created equal.—*Abraham Lincoln*.

Liberty and Union, now and forever, one and inseparable.—*Daniel Webster*.

Let our object be our country, our whole country, and nothing but our country.—*Daniel Webster*.

Our Country—to be cherished in all our hearts, to be defended by all our hands.—*Robt. C. Winthrop*. (Given as a toast in Faneuil Hall.)

Lose then the sense of your private sorrows and lay hold of the common good.—*Demosthenes*.

In peace there's nothing so becomes a man as modest stillness and humility; But when the blast of war blows in our ears, then imitate the action of the tiger.—*Shakespeare*.

You cannot, my lords, you cannot conquer America.—*Wm. Pitt, Earl of Chatham*.

If I were an American as I am an Englishman, while a foreign troop was landed in my country, I would never lay down my arms—never, never.—*Wm. Pitt, Earl of Chatham*.

What is the individual man, with all the good or evil that may betide him, in comparison with the good or evil which may befall a great country?—*Daniel Webster*.

I advise you not to believe in the destruction of the American nation. (Time of Civil War.)—*John Bright*.

I believe there is no permanent greatness to a nation except it be based on morality.—*John Bright*.

Our business is like men to fight. And hero-like to die.—*Wm. Motherwell*.

A star for every state and a state for every star.—*Robt. C. Winthrop*.

I call upon yonder stars which shine above us to bear witness—that liberty can never die.—*Victor Hugo*.

Four years ago, O Illinois, we took from your midst an untried man, and from among the people. We return him to you a mighty conqueror; not thine any more, but the nation's; not ours, but the world's.—*Henry Ward Beecher*. (On Lincoln).

If it be the pleasure of Heaven that my country shall require the poor offering of my life, the victim shall be ready at the appointed hour of sacrifice, come when that hour may.—*By Daniel Webster*.

There's freedom at thy gates, and rest

For earth's downtrodden and oppress,

And shelter for the hunted head;

For the starved laborer, toil and bread.

(America). By *Wm. Cullen Bryant*.

We mutually pledge to each other our lives, our fortunes, and our sacred honor. (Declaration of Independence.)—*Thomas Jefferson*.

Let us have peace.—*U. S. Grant*.

Fondly do we hope, fervently do we pray, that this mighty scourge of war may soon pass away.—*Abraham Lincoln*.

I was born an American; I live an American; I shall die an American; and I intend to perform the duties incumbent upon me in that character to the end of my career.—*Daniel Webster*.

Seek the forests where shone the sword of Washington. What do you find? A place of tombs? No, A World. Washington has left the United States as a trophy on his battlefield.—*Chateaubriand*.

The man who loves home best and loves it most unselfishly, loves his country best.—*J. G. Holland*.

I know not what course others may take; but, as for me, give me liberty or give me death.—*Patrick Henry*.

Breathes there a man with soul so dead  
Who never to himself hath said,  
"This is my own, my native land!"  
Whose heart hath ne'er within him burned  
As home his footsteps he hath turned,  
When wandering on a foreign strand?—*Sir Walter Scott*.

Ye people, behold, a martyr whose blood—pleads for fidelity, for law, and for liberty.—*Henry Ward Beecher*. (On Lincoln.)

Stand by the flag, all doubt and treason scorning,  
Believe with courage firm and faith sublime,  
That it will float until the eternal morning  
Pales in its glories all the lights of time.

*John Nicholas Wilder*.

There is the national flag. He must be cold indeed who can look upon its folds rippling in the breeze without pride of country.—*Charles Sumner*.

We cannot honor our country with too deep a reverence; we cannot love her with an affection too fervent; we cannot serve her with faithfulness of zeal too steadfast and ardent.—*Thos. Smith Grimké*.

My angel—his name is Freedom,  
Choose him to be your king;  
He shall cut pathways east and west  
And fend you with his wing.

Let us animate and encourage each other, and show the whole world that a freeman contending for liberty on his own ground is superior to any slavish mercenary on earth.—*George Washington*. (In a speech to his troops before the battle of Long Island.)

— that the nation shall, under God, have a new birth of freedom, and that government of the people, by the people, and for the people shall not perish from the earth.—*Abraham Lincoln*.

Proclaim liberty throughout the land to all the inhabitants thereof.—*Inscription on Liberty Bell*.

Park Expert Robinson, in his report, did not touch upon the question of PAINTING. This is a very important question indeed in this land of tropical coloring. In the making of Paint, Honesty is required, but in regards to the proper harmonious coloring of your property, a peculiar knowledge of color is important, a knowledge that is not only a gift but must be acquired by experience and study. We claim without fear of contradiction to be experts in this line, and have at your service an expert who has had thirty years' experience and who will willingly give you his advice free.

**MARINE**

The Japanese liner America Maru came into port yesterday afternoon at 3:45 from Yokohama and docked at the Hackfeld wharf and will continue her voyage to San Francisco at 10 a. m. today. The trip was devoid of interest and the passage was fine until five days ago, when heavy seas were encountered.

Among those of interest aboard are Dr. J. P. De Bruler, U. S. N., who, until recently, was attached to the American gunboat El Cano, now doing duty along the Chinese coast.

Mr. Edwin Grunow has been detached from the German legation at Peking and assigned to the legation in CHH.

Surgeon Bergher and Surgeon Lehmkul are Russian naval surgeons who have been on duty at the naval hospital at Vladivostok for several years. They were stationed there during the war. The officers attracted considerable attention, as they wore their Russian caps and long tailed coats, although without insignia, and one wore his military boots with the trousers legs stuffed inside them.

George S. Andres is the general manager of the American Coconut Oil Company of Toledo, Ohio, returning home from a business trip to the Orient.

Alfred Pazolt, all-round athlete, yachtsman, and a native of Boston, is traveling around the world for pleasure.

Miss H. Limby is en route to San Francisco to be married to Mr. Hargreaves of Shanghai. Both will return to the Orient in the near future. Miss Limby enjoys the distinction of being the only white woman aboard, save the stewardess.

T. G. Longstaff is a London surgeon, connected with several leading hospitals of the metropolis. He is on a year's leave of absence for recreation and is making a leisurely tour of the world.

T. Suzuki is a Japanese naval officer, who, prior to the war with Russia, was superintending the building of Japanese warships in England. He was called home to participate in the war and is now returning to London to continue his former work.

Capt. W. E. B. Thorsen is a Norwegian ship-captain who recently sold a vessel to Japan and is returning to Christiania.

Rev. W. B. Godbey is an American missionary, traveling about the world on an inspection tour. The reverend traveler goes light-handed, that is, he carries little baggage to encumber his movements.

Commissioner Railton of the Salvation Army is returning to London after having completed an inspection of the situation in Japan. During his visit here he is the guest of Adjutant Bamberg. The Commissioner intended remaining in Japan only a short time, but stayed there six months. He states that he believes Japan is in the proper receptive mood at present to make the work of the Salvation Army count. He also states that he was simply astounded at the people of such a great nation being so temperate and well-conducted.

The Commissioner was interested in cable news concerning General Booth, whom he says may visit Japan. It is the one place he desires to see before joining the great majority, and if he goes it will be over the Siberian Railway.

Commissioner Railton is one of the highest ranking officers in the Army. First there is the General and his chief of staff, his son, and then come the Commissioners. Some are in charge of sections of the world; others travel. Commissioner Railton is one of the latter kind.

The America Maru has 600 tons of freight for Honolulu and 1800 for San Francisco. There were 455 Japanese immigrants for Honolulu.

**HAS HONOLULU PHOTOS.**

When Captain G. H. Stewart, master of the American bark Gatherer, now in port, retires from the sea, he can find plenty of material from which to draw memories of his busy career from the mass of photographs which he has taken in all parts of the world. Captain Ewart is an expert photographer and his specimens are far superior to many turned out by professionals who are earning their living with the tripod and camera. For years the mariner has made a study of the art and he has reached that stage of perfection which entitles him to first rank among the "profes."

During his thirty-five years at sea, the old bark's present master has visited every section of the globe. Unlike most seamen, he has something to show for it.

Scenes of interest in almost every country of the globe are stored away in Captain Ewart's albums. South America, Africa, Honolulu, Japan, the United States, Europe contribute unique pictures to the captain's extensive array. They range from photographs of the natives of South Africa to scenes in Golden Gate park, from a moonlight picture taken in Brazil to scenes in beautiful Honolulu. And the best of it is that Captain Ewart has posted himself on the history of all these places, and can tell one off-hand all the details in connection.

Honolulu scenes include the big government building, for which stone was imported from California. This was formerly the palace of Kamehameha, the first king who ruled over the entire Hawaiian group. Another scene shows the magnificent statue erected in memory of this ruler. He was originally the chief of Hawaii. Being ambitious, he followed Napoleon's example and conquered all the islands, setting himself up as king of the group. This feat is depicted before the judiciary building at Honolulu. Kamehameha lived about 150 years ago.

Messrs. Trent & Co.,

Agents, The Volcano Lines, Honolulu.

Gentlemen:

For the benefit of those who are in doubt as to taking the volcano trip, we unhesitatingly say that any one who does not take it will make a very serious mistake, as it is interesting, entertaining and instructive. The quaint little city, Hilo, is worth seeing. The railway trip through the cane fields with their flumes and settlements, and farther on the clearing of the land, presents a new picture. The stage ride through forests of palms, bananas, ferns, trees, fruits and vines is past description. Up to when we arrive at the Volcano House we have been more than repaid for the expense of the trip.

The volcano with its sulphur beds and thousands of acres of lava is beyond description and must be seen to be appreciated. Mr. William Ellis, our Hawaiian guide, contributed largely to our entertainment and pleasure. In fact the boat, hotels, railway, and stage service was first-class and all we could expect.

Yours truly,

American, and there is but one official language in America.

**GRAFTERS BEATEN.**

Also, it will knock out the grafters in one round. The graft in the Legislature of Hawaii has been various in time past, but the worst of it and the most of it has attached to the twin evils of interpreting and translating. A crowd of unworthies has thriven upon this graft at each session, and has come pretty close to living from one session to the next upon the profits of its nefarious schemes. If the Territory is to accept Uncle Sam's gift, this kind of thing will have to stop—or the Legislature will have to make brazen appropriation for the grafters.

It will not be an expense that can be hidden under any other. Also, if the gift of the United States is to be accepted, the double language business is mighty apt to be done away with, to enable the Legislature to get through its business in sixty days, and earn the money—and the nine thousand additional. If the proceedings were all in English there would be no question about the ability to finish up the work in the time set. And so it will be seen how much of a benefit Delegate Kubio has conferred upon the Territory in securing the passage of this legislative appropriation bill. He was the first to agitate it, and the credit properly belongs to him.

In the Matter of the Guardianship of RIX MAURER and MILDRED L. MAURER, Minors.

**ORDER TO SHOW CAUSE ON GUARDIAN'S APPLICATION TO SELL REAL ESTATE.**

On reading and filing the Petition of A. Lewis, Junior, of Honolulu, Oahu, Territory of Hawaii, guardian of the property of Rix Maurer and Mildred L. Maurer, Minors, praying for an order of sale of certain real estate belonging to said wards, situate in said Honolulu and described as follows:

- A one-fourty-eighths (3-48) part or portion each of all that piece or parcel of land situate at Punahou, said Honolulu, being a part of the land described in Royal Patent 1931 and bounded and described as follows: Beginning at a point on the line of the north side of the Manoa road which bears N. 77° 25' east and is distant 450 feet from the concrete post which marks the junction of Punahou road and Hastings avenue, the boundary runs:  
1. N. 12° 58', West 288 feet along Swanzy premises to Ualakaa street;  
2. S. 79° 15', West 187 feet along Ua-

- lakaa street;  
3. S. 12° 58', East 393 7-10 feet along Wai'ly lot;  
4. N. 77° 25', East 187 feet along Manoa road to initial point, and containing an area of 1.671 acres.

And setting forth certain legal reasons why such interests in such real estate should be sold, namely, that it would be for the benefit of said wards. It is Hereby Ordered, That the next of kin of said wards and all persons interested in their said estates appear before this Court on Monday, the 2nd day of April, A. D. 1906, at 2 o'clock a. m., at the Court Room of said Court then and there to show cause why an order should not be granted for the sale of said real estate.

And It is Further Ordered, That notice of this order be published twice a week for two successive weeks before the day of said hearing in the Pacific Commercial Advertiser, a newspaper published in Honolulu, on the following dates to wit: March 21, 24, 28 and 31, 1906.

**ANOTHER WITNESS**

**Chinese Servant After Mrs. Wharton on the Stand.**

Mrs. Wharton's evidence, under cross-examination and redirect both, was concluded if the Johnson murder trial before Judge Robinson yesterday forenoon.

Tuck Hong, a Chinese domestic in the employ of Mr. and Mrs. Wharton, parents of the little victim, was next called.

In the midst of Tuck Hong's direct examination, Mr. Harrison suddenly objected to photographs as being secondary evidence. The witness was then in the act of pointing out the mango tree in Wharton's yard under which, on January 3, he saw the children playing.

"What do you want?" Attorney General Pefer asked. "The mango tree brought into court?"

Mr. Harrison said he wanted to have the jury taken to view the premises, as but a very imperfect idea of the physical conditions of the premises could be obtained from photographs.

This was in effect a renewal of a motion denied on Wednesday. Judge Robinson, in answer to Deputy Attorney General Prosser, said argument was not required. He overruled the objection.

Nothing surprising happened in the proceedings yesterday. Mrs. Wharton stated that Johnson, prior to the killing of Simeon, had been kind to the children. Sometimes he gave them candy and little presents, Simeon having received candy from him before Christmas. After he became sulky about the pay for his washing, as previously testified, he did not bring any candy to the children. Mrs. Wharton had never permitted Johnson to take the children away from the premises.

At 4 p. m. the trial went over until 10 o'clock Monday morning.

**RIGHT OF WAY CLAIM SET UP**

Wahiawa Water Co., Ltd., by its attorneys, Ballou & Marx, file an answer in the Court of Land Registration to the petition of Martha E. Holloway. Its prayer is that the certificate of title issued may be made subject to a permanent right of way granted by T. L. Holloway and others to this respondent for its ditches and water courses across the land at Wahiawa in question. The deed of such right of way, given for a valuable consideration, was dated April 18, 1903, and recorded December 12, 1904. It is further shown that by deed of August 27, 1902, Holloway conveyed the land to W. P. Thomas, and that by deed of January 22, 1903, Thomas conveyed the land to the petitioner, Martha E. Holloway. Then it is alleged:

"That neither of said deeds were put on record until September 9, 1905, and that said Wahiawa Water Company, Limited, had no actual notice of either of said conveyances until the recording thereof;

"That said conveyances from said T. L. Holloway to said William P. Thomas and from William P. Thomas to Martha E. Holloway are void under the provisions of Section 2380, Revised Laws of Hawaii, as against the rights acquired by said Wahiawa Water Co., Limited, under the aforesaid conveyance from said T. L. Holloway and others to it."

**WHOOPIING COUGH IN JAMAICA.**

During the epidemic of whooping cough which was prevalent in Jamaica, Chamberlain's Cough Remedy was freely used. Mr. J. Riley Bennett, Chemist at Brown's Town, Jamaica, says of it: "I cannot speak too highly of this remedy. It has never failed in a case where I have recommended it and grateful mothers are daily thanking me for advising them to use it." For sale by Benson, Smith & Co., Ltd., Agents for Hawaii.

**THE BANNING ESTATE.**

It is ordered by Judge Lindsay that ancillary letters testamentary on the estate of Clara H. Banning, deceased, issue to Bernhard Rudolph Banning. The will was probated in California. The estate within this Territory consists of land at Waikiki valued at \$6640 and notes and cash amounting to \$8693.82, a total of \$15,333.82. Heirs and devisees named in the will are as follows: Bernhard Rudolph Banning, son, sole heir at law, also legatee and devisee, 37 years of age, residing in Oakland, Cal.; Mrs. Caroline P. Beckwith, sister, 71, Hamakua, Maui; William N. Armstrong, brother, now deceased, Hampton, Va.; Mrs. Ellen A. Weaver, sister, 60, Honolulu; Miss M. Jennie Armstrong, sister, 69, San Francisco; Miss Amelia H. Armstrong, sister, 59, Oakland; Hampton Institute, Hampton, Va.

**CONSPIRACY CASE.**

One of the last cases examined by the grand jury yielded the first indictment of the final batch to come off the secret file. This is a charge of conspiracy in the first degree against Hirota, Narahara, Ueno and Hioki. It is presented that these four persons did, on February 12, with force and arms unlawfully, feloniously, wilfully and maliciously conspire to make an assault with deadly weapon on Kato. The weapon is mentioned as a knife.

**COURT ITEMS.**

W. R. Castle, trustee, by his attorneys, Castle & Withington, has discontinued his ejectment suit against Kapalani Estate, Ltd.

**PATRIOTIC PROGRAM**

(Continued from Page 6.)

A man's country is not a certain area of land, but a principle, and patriotism is loyalty to that principle.—Geo. Wm. Curtis.

Through all history a noble army of martyrs has fought fiercely and fallen bravely for that unseen mistress, their country.—Geo. Wm. Curtis.

With malice towards none, with charity for all, with firmness in the right, as God gives us to see the right, let us strive on to finish the work we are in: to bind up the nation's wound; to care for him who shall have borne the battle, and for his widow and orphans; to do all which may achieve and cherish a just and lasting peace among ourselves and with all nations.—Abraham Lincoln.

The ends I aim at shall be my country's, my God's and truth's.—Daniel Webster.

I love my country's good, with a respect more tender, more holy and profound, than my whole life.—Shakespeare.

Be just, and fear not; let the ends thou aim'st at, be thy country's, thy God's and truth's.—Shakespeare.

"Then conquer we must, for our cause it is just, And this be our motto, In God is our trust."

**IT'S YOUR KIDNEYS.**

Do Not Mistake the Cause of Your Troubles—A Honolulu Citizen Shows You How to Cure Them.

Many people never suspect their kidneys. When they have a lame, weak or aching back they think that it is only a muscular weakness. When urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disease. That is just where the danger lies. You must cure these troubles because they are certain to lead to more serious ills.

Doan's Backache Kidney Pills is the remedy to use. It cures all troubles city, is attached to the Hawaiian incised by weak or diseased kidneys.

John E. Bush of Punchbowl st., this terpretation staff at the Supreme Court. He says: "I had kidney trouble, and, acting on the recommendation of a friend, who had tried your invaluable remedy, I got some of Doan's Backache Kidney Pills at Hollister Drug Co.'s store. They were just as beneficial to me as they had been to my friend. It is well the virtues of these pills should be made known, for they really

are an excellent medicine for kidney trouble."

Doan's Backache Kidney Pills are for sale by all dealers. Price 50 cents per box, or sent by mail on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands. Remember the name—DOAN'S—and take no other.

**LAST DAY TO PAY POLL TAX**

This is the last day upon which you can pay your poll tax, and avoid the ten per cent. penalty. If you let it run fifteen days longer you will have to pay interest at the rate of ten per cent. per annum in addition to the penalty. The office of the Tax Assessor in the Judiciary Building will be kept open until 5 o'clock this afternoon, and there will be two poll tax collectors at the Fort street office of Trent & Co., all day long, so that whoever wants to pay down town will be given the chance.
