Federal Surgeons to Travel on A.-H. Steamships--War Talk Agitates Washington--Ship Subsidy and Philippine Bills Will Pass.

(Mail Special to the Advertiser.)

WASHINGTON, D. C., December 2.—The Marine Hospital authorities have been in communication much of late with the officers of the new American-Hawaiian line about precautions against yellow fever. Contagiousness, the Pacific port of the new Tehuantepec railway, is a yellow fever nest of the worst character. With the starting of the new line of steamers the danger of infecting ports like Honolulu is fully realized. Dr. Walter Wyman, the surgeon general of the Marine Hospital Service, said today, however, that precautions would be taken, certain to protect the Hawaiian Islands.

"Dr. Cofer, our officer at Honolulu, has been conferring over the matter," added Dr. Wyman. "Capt. Burnham, the manager of the steamship company is willing to co-operate with us to the fullest degree."

It is understood here that a surgeon of the Marine Hospital service will travel on the boats of the American-Hawaiian line, so as to keep the passengers under surveillance. The steamship company will be glad to have the doctor on board. His salary will be paid by the government but the steamship company will allow him free transportation as it does its own employees. As it requires only five days for yellow fever to develop, the Marine Hospital service believes its doctors will detect all cases before the boats sailing from Contagiousness reach Honolulu. The medical authorities will pay special attention to the destruction of mosquitoes en route and will see to it that none go into Honolulu.

President Diaz of Mexico is known to be in accord with plans to fight the fever, and so is the head of the Mexican health department. Some months ago when there was an outbreak of yellow fever on the Texan border, the Mexican authorities co-operated effectively with the United States authorities. Dr. Wyman will probably have a conference with President Diaz sometime during the winter, as he proposes to visit Mexico to attend a medical Congress.

THE MOLOKAI CONTRACTS.

The Supervising architect's office of the Treasury Department received a request yesterday by cable to postpone the bids for construction of the buildings for the leper sanitarium. It was then too late to grant the request and Supervising Architect Taylor so cabled in reply. The Department was much disappointed that there were no bids for the construction of the new building and roadway some weeks ago, as it was thought the completion of that work would reduce the cost of the buildings. Nothing is known here yet about the bids that have been filed, but they will be made public tomorrow.

THE WAR ALARM.

The alarm bells have been ringing. "War, war, war," they have been saying till there has come to be a very bellicose atmosphere in Washington. It sounded a little like the warlike days of the Fifty-fifth Congress—the War Congress as many are still fond of calling it.

All this was a second instalment of the Japanese war scare. It first started some weeks ago when President Roosevelt sent Secretary of Commerce and Labor Metcalf to San Francisco to probe the troubles over the Japanese school children. But that quieted down in a few days and the man in the street supposed that the Japanese question had become a secondary one. It could be adjusted in due season without disturbing the amicable relations between the Yankees of North America and the Yankees of the Orient.

SCARE RENEWED.

But a few days ago the scare was again abroad and the Japanese question has loomed as the largest and most interesting at the threshold of the session of Congress. Probably the Japanese exclusionists have been responsible for this. The California representatives started east with red-hot resolutions in their inside pockets. These resolutions were to be dumped into the House and Senate. The Pacific coast statesmen were going to have a hot time. Some impetus was also given to the opposition talk by the knowledge that leaked out that the President was going to take the side of the Japanese.

The administration was grave over this turn of affairs. And for pretty good reason. The President is confident that he can take care of the Japanese question but the newspapers began to print live war talk. Lurid interviews from overheated lawmakers and officials were getting into print. Cable tolls to Japan are over 50 cents a word for press matter, but there was danger that some of this lurid talk might be cabled across, even at 50 cents a word and inflame the Japanese. They are quite as excitable as are the people of the United States. While their government is a monarchy the Mikado and his ministers at Tokio are quite as responsive to public sentiment as are the President and members of his cabinet.

JOLLIFYING THE JAPS.

The secret was not generally known, but it was nevertheless the fact that President Roosevelt wanted Tokio to hear first what he had to say. He had written some very pacific paragraphs in his annual message to Congress, praising the Japanese and lauding their achievements in a manner sure to make the victors over Russia feel good. In plain English, the President has been planning to give the little Orientals a "nice jolly," certain that 50 cents a word would not be prohibitive against cabling those portions of his message to Tokio. But if Tokio first heard the warlike talk of the minor officials—Representatives in Congress, if you please—it would create a bad impression. It would also tend to offset the effect of the President's own utterances and might also seem as though the President had rushed into the breach to make the situation look less aggravated than it really is.

Things came to such a pass that the President had to make an example of certain of his enthusiastic exclusion callers. Representative Everis Anson Hayes of San Jose went to the White House offices Saturday, breathing defiance to Japan and predicting war. The President told him to contain himself for a little. He and others like him were spilling the soup into the fire. Their talk was making an adverse judgment of the situation more and more difficult. More in the same vein was said and Mr. Hayes went away from the White House offices somewhat subdued.

The President believes that friendly relations will continue with Japan. He does not want our jingo talk to be disseminated in Japan, apart from any embarrassment it might give the two governments in arranging the troubles in San Francisco. Such talk will inevitably react unfavorably upon the American people, in a commercial and sentimental way. The Japanese would not forget it and their merchants will be tabuing our goods and in a hundred little ways impeding our commercial progress in the Orient.

LOOSE NAVAL TALKERS.

There are some other motives behind the war talk. Officers of the navy, although prohibited from giving interviews on such topics, have been prognosticating ever since the Russo-Japanese war about the certainty of a fight with Japan. Their opinions get into the newspapers anonymously and so the impression grows that Japan wants to fight us, and that we must look out or we shall lose our possessions in the Pacific.

Of course it is natural for naval men, whose business is war, to speculate about the prospects of war. Armed conflicts bring them opportunities for promotion and for distinction. But if these men succeed in getting the impression in the popular mind that war is likely, the people are less critical of large naval expenditures and are not so likely to grumble if numerous new battleships are authorized and the naval establishment augmented by enormous appropriations. These navy appropriations now exceed \$100,000,000 a year and the problem with the navy is (Continued on Page Two.)

MAKAPUU LIGHTHOUSE

Plans Are Completed--Honolulu Harbor Lights.

The Makapuu lighthouse will be erected on the promontory known as the Makapuu Point, the structure to be but thirty feet in height. The final plans were completed yesterday by Captain Slattery and will be forwarded to Washington at once. Owing to the height of the promontory and the excellence of that site for the lighthouse it was finally decided to erect the light there. As the light will be of sufficient height above sea level almost at the extremity of the point the lighthouse will be only thirty feet high, just enough to clear the light and lens well above the ground and out of reach of any chance of pebbles being wind-swept against them.

Captain Slattery expects to have the controversy over the site of the Honolulu rear range light settled soon. He still hopes to have the light erected at the intersection of Fort street and the Esplanade, an ornament to the waterfront as he claims.

Work on the new front light for Honolulu harbor will be commenced shortly. This will be to seaward of the present harbor light and will be erected on the new made island on the Ewa side of the channel.

JUSTICE BROWN PROBABLY DEAD

WASHINGTON, December 13.—Brown dead.

The foregoing laconic cablegram came in the Associated Press service to the Advertiser, and for its indefiniteness was withheld from print by the night editor.

Probably the dead man is Justice Henry B. Brown, of the United States Supreme Court, who was lately announced as retiring on account of the infirmities of age. President Roosevelt nominated Attorney General Moody to succeed him.

Justice Brown reached seventy years of age this year. He was from Michigan and was appointed to the Federal supreme bench by President Harrison in 1890.

There is also a probability that the above despatch is duplicated with the explaining word "General" in the Washington news received last night.

AFTERNOON CABLE REPORT

SAN FRANCISCO, December 14.—The motion to set aside information against Siemsen, the gas-pipe murderer, was denied today, and Siemsen pleaded not guilty.

TOKIO, Japan, December 14.—General Nogi was today thrown from his horse. He struck his head and was rendered unconscious.

PARIS, France, December 14.—The cabinet is considering legislation for making the separation between church and state more effective.

GUAYAQUIL, Ecuador, December 14.—A mob at Guayaquil today attempted to rescue the rebels who had been captured. A volley was fired in repelling the effort. Colonel Vega, the rebel leader, was killed. The revolution is progressing.

WASHINGTON, D. C., December 14.—Major Penrose and Captain Macklin of the 25th Infantry have been court-martialed for failing to prevent the Brownsville riot.

SENSATIONAL TALK ABOUT SARGENT

"The reports concerning U. S. Commissioner Sargent are characterized by gentlemen with whom he was in close touch while in Honolulu as sensational in the extreme," said a gentleman yesterday who occupies an official position with the Federal government.

"One gentleman in particular who ought to know stated to me that Sargent told him just before he left that he was very much pleased with what he saw here, and according to this report he certainly did not say or do what has been printed in some of the papers. 'From what I can gather, Mr. Sargent will give a very favorable report concerning Hawaii, with perhaps a criticism concerning methods of disposition of people.'"

Bandits got away with \$5000 by robbing an express office at Exshaw, a station on the Canadian Pacific railroad.

TO TEACH MAINLAND

The Local Schools May Prepare Picture Lecture.

Secretary Wood and A. Gartley of the Hawaii Promotion Committee talked last evening at the meeting of the Territorial Teachers' Association held at the High School. Mr. Wood's principal plan was to have stereoscopic slides prepared of scenes about the islands, together with a descriptive lecture concerning them, to be sent by the schools to some state, as Nebraska, for instance. The slides and lecture to be started in the High School in Lincoln, then passed along to various other schools in that city and then sent to all cities and towns for use in each school.

Mr. Gartley spoke generally about the help that schools might give and dwell somewhat on the school-lecture plan. That is for pupils to write letters to pupils in schools on the mainland in exchange for others from there. This would not only help Hawaii and the pupils on the mainland receiving the letters, but would give the local school children an opportunity to learn the art of descriptive letter-writing at first hand.

Mr. Wood thought that Superintendent Babbitt of the Department of Public Instruction could readily prepare the lecture to accompany the slides.

He went on further to say that a list of all school teachers, in whatever state is selected, could be obtained from the State Superintendent. To them the Promotion Committee could send a folder concerning the plans of the local schools for such an illustrated lecture and follow it up with folders concerning the islands. In this way information about Hawaii could be imparted to thousands of teachers and scores of thousands of pupils. He believed that such a plan would meet with the hearty approval of teachers in mainland states. The State Superintendent could readily give the press statements concerning the lecture and the local school system would be given credit for what he considered a splendid educational plan.

Mr. Wood thought that if the teachers fell in with this plan they might devise ways and means to defray some of the expense attached in a way which would not be much to any of them, say ten cents a month from teachers and five to ten cents a year from pupils. He believed that this would appeal to the patriotism of heads of families.

As to letter-writing, Mr. Wood said that there was abundance of subjects that could be utilized and would be of the greatest interest to pupils elsewhere. There were topics such as sugar cane, rice, flowering shrubs, historical events, legends, island history, early engineering works of the Hawaiians, etc. These would be of the greatest interest to people on the mainland.

Mr. Wood personally offered a prize of \$5 to be made on his behalf by Principal M. M. Scott to the pupils of the High School for the best description of the flowers and shrubs surrounding the islands, to be passed upon by a committee.

He also stated that he would be pleased to offer the use of the promotion rooms to the Department of Public Instruction for an exhibit of school work. The fixtures used for the photographic exhibit would shortly be available. He suggested that a committee of teachers take the matter in hand. Superintendent Babbitt said he favored the idea, although he would not ask schools to make a special effort in future, but to take the work already in hand. There was a fine collection of past work and right up to the present to make a creditable display.

"Our schools are almost as little known right here in Honolulu as they are away," said Mr. Babbitt. "All sorts of criticism is offered about the schools and almost all of it is ignorant criticism. Those who visit the schools find little to criticize; those who don't visit them, criticize."

Prof. Scott spoke of a custom prevailing among some principals years ago of having their pupils write descriptive articles concerning things of everyday life, such as the water buffalo and what the animal was used for in the islands, the description accompanied by a drawing of the animal. Then the taro was likewise treated, sugar cane, rice. It was very interesting. Exhibits of branches of grade work, such as examples of writing, class work in history, mathematics, etc., did not appeal to the average person viewing an exhibit, but descriptions of that sort referred to, did. He said that the exhibit sent on to Buffalo, St. Louis and Chicago, attracted much attention, but, according to Miss Davison, who had charge of the exhibit at Buffalo, N. Y., the portion most interesting to visitors were those little illustrated descriptions of water buffalo, and other things he had mentioned.

MESSAGE ON SAN FRANCISCO JAPANESE

President Will Send Special Messages on Some Burning Questions--Coal Famine Serious ---Convictions for Peonage.

(Associated Press Cablegrams.)

WASHINGTON, December 15.—President Roosevelt will send special messages to Congress next week dealing with the report of Metcalf on the San Francisco school situation and Secretary Taft's reports on the Cuban settlement and the matter of the disbanding of the Twenty-Fifth Infantry, the regiment of negroes.

A special message will also be presented dealing with the conditions on the Panama canal zone as seen by the President.

FUEL FAMINE IS GROWING SERIOUS

MINNEAPOLIS, December 15.—Conditions throughout the Northwest owing to the fuel famine have grown desperate. The farmers are tearing down their outbuildings and burning the lumber. In some states appeals have been made for the Governors to order out the militia to move the coal trains.

SEATTLE, December 15.—The state university has been forced to close because of the impossibility of securing coal for heating purposes.

At this season of the year throughout the Northwest a coal famine is a most serious thing. Throughout several of the affected states there is certain to be a vast amount of suffering and serious loss of life from the cold. The state of affairs two weeks ago is shown in the following associated press report:

SEATTLE (Wash.), December 2.—As high as \$14 per ton is being paid by householders for coal and a premium is being offered delivery men if they can secure prompt supplies of fuel. Many dealers can now only provide coal by the sack, and at that rate some consumers are paying as high as \$21 a ton, but these are isolated instances of the effect of the most serious coal famine the Northwest has known.

Operators are absolutely unable to supply the markets, and coal which sold last summer at from \$3.25 to \$5 a ton commands the highest premium known. Steamships can only get the coal absolutely needed to keep up steam, and all factories are embarrassed. Seattle, though, is in far better condition than Eastern Washington, where coal riots have occurred at North Yakima, and where, in Colfax, wood has been sold as high as \$70 a cord. The Pacific Coast Steamship Company still refuses to increase its California shipments to take care of the northern famine.

SLAVE DRIVERS ARE HEAVILY PUNISHED

PENSACOLA, December 15.—Five masters of oyster fishing boats have been convicted of peonage. Each has been sentenced to serve eighteen months in jail and each has been fined, the amounts running from \$1000 to \$5000.

For many years reports have come from Florida that the masters of the vessels engaged in the oyster fisheries have practically made slaves of their negro crews and that some had even gone the length of seizing whites and forcing them to work on the vessels, mistreating them and not allowing them to communicate in any way with their friends or the authorities. At the present time the authorities are investigating the reports and indictments have been returned against several ship owners.

GENERAL BROWN IS DEAD.

WASHINGTON, December 15.—Brigadier General Justus M. Brown is dead.

General Brown joined the army in 1862 as an assistant surgeon, serving through the Civil War, being brevetted captain and major for meritorious services in 1865. He served on the frontier during and after the war, rising in rank to the position of Assistant Surgeon General. At his own request he was retired after forty years' service in 1903, being made a brigadier general by act of Congress. He was born in Ohio in 1840.

TRANSLATOR OF "QUO VADIS" DIES.

BRISTOL, Vermont, December 15.—Jeremiah Curtin, the author and celebrated linguist and philologist, died here yesterday.

Jeremiah Curtin is most popularly known as the translator from the Russian of Sienkiewicz's great novel "Quo Vadis." He was also a great author himself, his works dealing with ethnological subjects. He was actively connected with the bureau of ethnology of the Smithsonian Institution and was credited with being familiar with seventy different languages. He was 66 years old.

HOUSE INCREASES SALARIES.

WASHINGTON, December 15.—The House has passed a bill raising the salaries of the Vice President, the Speaker of the House and the members of the Cabinet to \$12,000 a year.

APPOINTED AMERICAN AMBASSADOR.

MEXICO, December 15.—Governor Creel, of the state of Chihuahua, has been appointed as the Ambassador for Mexico to the United States.

GOVERNMENT OWNERSHIP IN MEXICO.

MEXICO, December 15.—The Mexican government has assumed the ownership of all the railroad lines within the republic.

Sensible Gifts for Gentlemen

Never give a cigar clip to a man who doesn't use tobacco, nor a stop-watch to one who never saw a horse-race. But give clothes, hats, ties, without the slightest hesitation. Measure his old coat around the chest and pick out a "house-coat."

If you haven't the confidence to select a tie that will suit, buy an order for it instead; then he can pick one out to please himself.

We can help you to a remarkable degree in selecting suitable gifts for men and boys if you will come to our store. We have a better and larger assortment for Christmas than ever before.

Among the new goods that any man would like is:

Christmas Neck wear

A beautiful display in Four-in-hands, Club Ties, Bows, Stocks, etc. Colors are better than ever this Christmas. The blue polka-dot ties are popular always, and the solid colors are the favorites. Then we have black and white dress ties of all the proper shapes.

Our Neckwear is the famous "Kaiser" brand.

Bath Robes a Necessity

Perhaps he is getting along with an old kimono now? Then a handsome Bath Robe would be a joyful surprise. We have a large and entirely new variety of Bath Robes imported direct from London. This is one of the best Christmas suggestions we can give.

Holiday Umbrellas

FOR MEN AND WOMEN

There is promise of plenty rain this winter. What more appropriate than a good Umbrella. Buy one for HIM and maybe you can borrow it occasionally.

Our stock of holiday Umbrellas was specially chosen for this Christmas and embraces a remarkable selection. No purse too small to buy a good Umbrella, and there are expensive ones to meet the more extravagant ideas. These Umbrellas are of good silk, steel rods and handsome handles.

Cravenette Rain Coats

They will keep him dry in rainy weather. Besides they will keep any man look handsome. The cut is the latest and they are just the thing to wear with evening dress.

New Style Panamas

If you get a panama don't neglect to see the new shapes. They are wonderfully becoming to most men.

New Leather Goods

Dressing Cases, Collar and Cuff Boxes, Perfumery Cases, all made from choice leather.

DIAGNOSIS NOT MADE

Judge Whitney Declines to Act as Medical Expert.

Judge Whitney had an attack of cold feet yesterday afternoon during the course of the trial of Chun Fook Yan for an assault upon Ah Moo, the old Chinese woman who peddles eggs around the town and who is commonly known as "Mama." Mama had limped into the witness stand to tell of the beating given her by the prisoner, describing the various bruises she bore as a result. W. Rawlins, her attorney, thereupon invited his honor to inspect these bruises for himself. Judge Gear, attorney for the defense, assured the bench that he had no personal objections to offer and Mama began to play with the buttons of her Chinese garments to show that she had no objections either. The judge stopped her hastily, assuring the attorneys that he had never been in Missouri in his life. In deference to his blushes Rawlins did not urge his request.

From the evidence brought out at the trial it appears that the feud between Mama and the defendant dates back to the time when they were rival agents for a che fa bank. Prior to this rivalry the pair had been upon such good terms that the man had been invited to drop in at her home and kick the husband out. Whether he did so or not was not made clear, the witness informing Judge Gear that his questions along this line were not seemly. A Chinaman who had acted as a peace-maker was put upon the stand, his evidence going to show that Mama herself had been the aggressor in the fight and had only got what was coming to her. After the witness had rescued the man from her attacks she had threatened to nail him with a rock and in being prevented in her purpose had pounded herself on the forehead with the missile. Her attorney wanted to know if she had also hit herself with her fist in the small of her back hard enough to leave a black and blue bruise, at the mention of which the presiding justice showed further signs of embarrassment. In view of the conflicting evidence of the prosecution's witnesses, the contradictory statements of Mama herself and the fact that on one or two occasions she forgot to limp as she moved around, the accused was pronounced not guilty.

The perjury charge against Chau Chang, the police court interpreter, was called yesterday afternoon, an imposing array of counsel being present for and against the defendant. The case was again adjourned, this time until the afternoon of December 19.

At the morning session Kajuta was committed for trial in the Circuit Court, the charge against him being assault with a dangerous weapon.

TO PROTECT HONOLULU

(Continued from Page One.)

committees of Senate and House is to prevent them from becoming \$150,000,000 a year. A big navy is tremendously expensive. In this country it has not yet become burdensome, because the revenues are enormous. But the cost of the navy, the army and of pensions now constitutes 65 per cent. approximately of the entire government expenses. Those figures are appalling to the legislators who have studied them, for apparently there is no possibility of turning back, and the time may come when the dominant party will be overthrown for what critics will style greater military extravagance than any other country of the world has been guilty of.

So while the officers of the navy are high-grade men as a rule, and also patriotic as the rest of their fellow citizens, their eagerness for a test of military strength is not shared by Congress or by the people of the country. Following the Philippine insurrection and the Spanish-American war, the war talk centered on Germany. It originated chiefly with naval officers who rung the changes on the hostile attitude of von Diederich toward Admiral Dewey after the battle of Manila Bay. For months the papers were full of the possibilities of a clash with Germany for supremacy on the seas, and all sorts of tales were printed.

Little has been heard of the German war talk since the peace of Portsmouth. The little oracles that declare war and describe naval campaigns have been busy imagining how we are to maintain control of the Pacific in the years to come and they have forgotten about the deep-laid plans of Kaiser Wilhelm to attack and humiliate us.

WAR TALK SILLY.

"Any idea that Japan wants a war with us is preposterous," said one of the leading Republican Senators recently. "Japan needs our friendship now more than we need hers. She has not forgotten the close shave she had with the Russians. It was all she could do to finance that war, although it seemed easy enough to the outsider. Japan could not raise money for a war against the United States. Her own financiers have not the many millions necessary. She could not persuade the money lords of Europe to lend it to her. A war with the United States could have but one ending, as the Japanese statesmen well know, and it would wreck the Japanese government financially."

"It is absolutely silly," continued this statesman "to talk about a war with Japan. It is almost as silly to talk about our going to war with any nation of the world. None of them want to fight us, because they would have

nothing to gain. We need only to keep our armament up to a reasonable standard and we need have no war for half a century."

CURRENCY REFORM.

Arriving Congressmen invariably influence the prevailing sentiment on congressional questions. Two or three weeks ago currency reform legislation was filling the Washington air. The bankers had been agitating for it. They had agreed upon a plan and thus confounded Speaker Cannon, who has been fond of observing nonchalantly:

"Well, I have never heard of any two bankers agreeing upon that question. Guess we had better let currency reform alone till the bankers find out what they want. Then we will try to find out whether the country agrees with them."

But the bankers have agreed and in the first flush of their victory it did seem as though some currency reform legislation would go through the House kiting. It may yet. But strangely enough, the statesmen in town this week for the only assemblage that ever brings 386 members and 99 senators into one city at the same time, are nearly all silent about currency legislation. It is giving them little concern. They must be waked up on the question if any legislation on currency is to be enacted.

TWO PRESSING SUBJECTS.

On the other hand two topics that made Congressmen weary toward the close of that session are now foremost in interest—ship subsidy, or ship subvention as the friends of the bill prefer to call it because it is a less offensive term, and Philippine tariff. It seems that the wires are already laid for both those bills to become law at this session. The President is behind them and the perils for arranging the details will begin forthwith. The friends of ship subvention are already thronging the hotel corridors. The Merchant Marine Committee of the House is to meet before the week is over and, although it was said that the committee was evenly divided over the bill last session, it is now freely predicted that there will be a majority for a favorable report to the House.

Nevertheless there will be a lot of pulling and hauling before the act is written on red bordered parchment, signed by Speaker Cannon and Vice President Fairbanks, and passed on up to the White House for the signature of President Roosevelt. Strong opponents are standing in the path; they will fight. The Democrats are opposed to it, almost to a man. So is Representative Theodore Burton, of Cleveland, Ohio, in some respects the strongest personality in the House. He stands high as a Republican and will probably have many Republican followers among the members from the Middle Western States. It is not believed, however, that his opposition will prevail, for the word has gone around that Speaker Cannon acquiesces.

That is a struggle for the House. It is the one thing that now enlivens that body. Otherwise legislative interest at that end of the Capitol is dormant. No other big measures are looming on the horizon, although there are many that look mighty big to the localities they affect.

The Senate's big struggle, on the other hand, promises to be the Philippine tariff bill. There will be other struggles for the Senate, before the session ends, but Philippine tariff is the one big administration measure pending there. Senator Hale, of Maine, quiet but sagacious, cooped that bill up in committee last session so effectively that Senator Lodge, the chairman, never quite understood how it was done till the committee vote had been taken. Mr. Hale held the reins well in hand till the last day of the session.

During the summer he has relented and other things have happened to help the Philippine tariff bill on its way and consequently to make big "Bill" Taft, Secretary of War, more cheerful, for if there is one thing Mr. Taft wants Congress to do it is to pass the Philippine bill. Mr. Hale still wants the subsidy bill, which the Senate passed last year, to become law, because Mr. Hale is a ship building and ship sailing state. The friends of Philippine tariff have been therefore trading favors back and forth between the two ends of the United States Capitol.

PHILIPPINE INDEPENDENCE. Some influential Republican senators believe the day of granting independence to the Philippines is fast approaching. They also hope it is, because they have found during the summer that the people are becoming tired of the large government expenditures in the Philippines for which we are getting little return. They would like a good valid excuse for turning the Philippines loose. When the legislative assembly is inaugurated at Manila next summer, many think it will be but a short time before the Filipinos come out strongly for independence. If the Filipinos govern well through the assembly, a great campaign for casting them adrift will begin forthwith in Congress. It will have many ardent Republican supporters.

Seeing this ahead the opponents of the Philippine tariff are relinquishing their opposition. The beet sugar growers and the tobacco growers are not enthusiastic about it. They will fight, but, as things look now, their opposition will not prevail. The Philippine bill will pass, the ship subsidy bill will pass and Congress will die March 4 next having rounded out a remarkable record for epoch making legislation.

ERNEST G. WALKER.

THE LANAI LANDS.

This is the last day for receiving applications, as announced in the Governor's notice, from persons having other real estate in the Territory which they are willing to exchange for the Lanai public lands. Commissioner Pratt is expected to return from Hawaii today. Shortly before he left town he stated that he had received none but oral applications, but only written ones would be accepted. Both James Gay, the Lanai ranchman, and his brother Francis Gay of Kauai have been in Honolulu this week and probably they are doing something in this matter.

Grinding of the 1907 crop was to begin at Ewa next Monday, but the heavy rains may cause a postponement. O. G. Traphagen, architect, returned in the Sberia from San Francisco, where he had been since the disaster.

"HONOLULU BUYING STOCKS" ISLAND SPECULATORS MEET WITH SUCCESS IN NEVADA MINES.

"HONOLULU, November 26.—Interest in Nevada mining stocks has been growing rapidly for some time past. It is said that, while a large number of men are buying and have bought stocks in the various concerns in Nevada, so far there has not been a single loss recorded.

"All of the stocks in which local people invested have advanced in value. In two or three instances men in this city are said to have cleared up \$50,000, while there are a number who have made smaller amounts, but still running into the thousands."

Daily fresh fortunes are wrested from Mother Earth. Tenderfoots and inexperienced men have become millionaires overnight; a few weeks ago they labored for day's wages. **YOU CAN DO THIS ALSO.** The chances are better now than ever before.

Many of our island clients have reaped stupendous profits by following our advice,—in substantiation of which we reproduce, the above from the San Francisco Call.

The early youth of '07 will see more and quicker huge fortunes made than since Comstock days. This is not speculation—**THE GOLD IS THERE.** We are right where you need us—in San Francisco where the market for Nevada shares is made. SHOES

Make Sensible Christmas Gifts

Christmas giving is rapidly becoming more practical. The bestowal of useless gimcracks upon friends and relatives is usually unappreciated and people are beginning to recognize that such things are money and good intentions thrown away. Give; but give something useful and sensible.

Under the head of useful, sensible, practical, sure-to-be-appreciated gifts is a pair of shoes. The popular way of giving them is to present one of our "Shoe Orders" so that the recipient can select the style and fit to suit.

There is nothing ordinary about giving shoes. The one who gets an order will usually select a pair of Shoes for dress occasions.

SHOES FOR WOMEN

Anticipating a big Holiday business we have a splendid assortment of women's shoes. Dainty shapes and leathers for dress and house wear, and stronger and sturdier kinds.

SHOES FOR MEN

Men, even more than women, are pleased with a practical gift. A pair of dancing pumps, a pair of dress shoes; or even shoes for ordinary wear, are sure to suit.

If he loves horseback riding give him a pair of

RIDING LEGGINS

We have the largest assortment in the city. It consists of English and American putties, oil grain and cow-hide cowboy leggins, dark tan cap spring leggins, etc.

Also; we have fine tramping and outing shoes for men, women and children.

INFANTS' AND CHILDREN'S SHOES

Children often get so many toys as to be bewildering to their little minds. Give them shoes. We have pretty little pumps and shoes of every description.

THE BANNER FOR KOREANS

Young Christians of the Hermit Kingdom Win Trophy.

About two hundred were present at the Young People's convention last night at Kamehameha Memorial chapel.

The native Hawaiian societies were the ones most affected by the rains. The new banner was awarded to the Korean Epworth League.

The other banner, now always awarded to a societies of Mills Institute and Kamehameha Boys' School, each of which had 100 per cent. of membership present despite the weather.

The officers of the Union are Peter Tosh, president; S. K. Kamalopili, vice president; Wong Hin, secretary; David Ai, treasurer.

For the convention the theme was "Advancement," and the text, "Study to show thyself approved unto God."—2 Timothy 2:15.

Address: Mr. Chester Livingston, 2121 Broadway, Honolulu, Hawaii.

Moses Paaluh, a native child of eight years, died at the Queen's Hospital yesterday from accident. On Tuesday the poor little chap was chasing a sodawater wagon for a ride, near the Palama fire station, when a box of empty bottles fell on him and caused fatal injury.

COLLEGE VERSUS DIAMOND HEADS

Oahu College and the Diamond Head Athletic Club will play intercollegiate football on Christmas and New Year's Day.

The matter was arranged yesterday and practise by both teams will commence at once.

The college team will be the same as won the interscholastic championship with the exception of Lydgate who will be on one of the other islands when the games are played.

The Diamond Heads have yet to make their debut at the intercollegiate game but can claim the services of a number of seasoned warriors and should be able to put a very fair team in the field.

SPORTS

TO HAVE FIELD DAY

Chinese Athletic Club Has an Enthusiastic Meeting.

The Chinese Athletic Club at a large and enthusiastic meeting held in the Chinese Y. M. C. A. last night, decided to hold a field and track meet on Chinese New Year's Day which falls on Monday, February 11.

The club has a cash balance from the last field day to go ahead with and the Chinese consul has kindly promised to furnish medals for the different events.

The meeting will be open to members of any Chinese society in Honolulu.

The following committee was elected to draw up a program and arrange other details:

John Lo, E. S. King, chairman; P. Wong, K. Y. Ching, W. Tin Yen.

This committee will report at a special meeting to be held on the first Friday in January.

On the second Friday in January the club will hold its annual meeting at which officers for the ensuing year will be elected.

The Chinese Athletic Club was organized in May, 1905, and has now a membership of over one hundred.

Its officers are as follows: President, A. K. F. Yap; vice president, E. S. Kong; secretary, K. Y. Ching; treasurer, En Fee Pung; auditor, J. Y. T. Zane; corresponding secretary, E. Ayau.

E. S. Kong is captain and manager of the baseball nine and En Sue is manager of the track team.

This year the club nine won the championship of the Riverside Baseball League, defeating the Palamas in the final game by the score of 10 to 2.

The second team is at present competing in the Aala Baseball League series.

It is proposed by the C. A. C. members to build a clubhouse in the near future.

SECOND HALF STARTS TODAY

If the weather holds out well today there will be some good football at the baseball park this afternoon, when the Males meet the Y. M. C. at 2:30.

The first game between these teams resulted in a victory for the former by 3 to 1. Since that time, however, the Y. M.'s have strengthened their team considerably. This afternoon's game will no doubt be a magnificent one from start to finish, with the winners hard to pick.

The second game is between the Diamond Heads and Infantry. If the soldiers would only combine more great things might be expected of them.

Following are the teams: Males—Goal, R. Chillingworth; backs, McGill, Anderson; half-backs, Davis, Center, Kellet; forwards, Freeth, Gray, Catterall, Jamieson, F. Bailey.

Y. M. C. A.—Goal, Dixon; backs, Turner, S. Beardmore; half-backs, Gill, Ziegler, B. F. Beardmore; forwards, Oss, Blackman, Churton, Macaulay, Waterhouse. Reserves, Spalding, Super.

Diamond Heads—Goal, Chilton; backs, Grune, Gleason; half-backs, J. Clarke, Ed. Desha, J. Anderson; forwards, Fernandez, Williams, Woo, Fiddes, Geo. Desha.

Infantry—Goal, Bishop; backs, Swift, Dougherty; half-backs, Kimball, Kolb, Thompson; forwards, Landis, Smith, Moon, Van Vliet, Ewing.

COLLEGE VERSUS DIAMOND HEADS

Oahu College and the Diamond Head Athletic Club will play intercollegiate football on Christmas and New Year's Day.

The matter was arranged yesterday and practise by both teams will commence at once.

The college team will be the same as won the interscholastic championship with the exception of Lydgate who will be on one of the other islands when the games are played.

The Diamond Heads have yet to make their debut at the intercollegiate game but can claim the services of a number of seasoned warriors and should be able to put a very fair team in the field.

LAST SKATE FOR A WEEK

Next week the rink will be given over to the "Birds." So tonight will see a big crowd on hand for the band concert. The Poverty (Rags and Tatters) Masquerade will be December 31.

Franz Wilczek, the noted violinist, who gave a series of concerts in Honolulu a couple of years ago, and who is announced to visit here early in the coming year, was married in Los Angeles recently to Miss Lena Newton of that city. Mr. Wilczek only recently was divorced from his first wife.

Mr. Wilczek has written W. D. Adams, who is to manage his concerts here, of his marriage and the certainty of his coming to Honolulu. Mr. Wilczek has many personal friends here.

THE FARMER KING.

Beyond all doubt the farmer is still king in the United States. As the greatest producer of wealth he rules the economic realm and he has the voting power to take the political reins whenever the occasion seems to him to demand.

The economic revolution in the art and science of agriculture continued during 1906, with tremendous results on the national prosperity. The value of crops continues to rush forward beyond comprehension; crops are straining the freight-carrying ability of the railroads; and the farmer, alive to the importance of the place that he occupies in the nation, offers this yearly account of himself to the people.

Corn remains by far the most valuable crop, estimated at eleven hundred million dollars. Next comes the cotton crop, which, including seed, should be worth to the growers nearly six hundred and forty million dollars.

The farm still overshadows the mill, the factory, and the workshop in providing exports, and with his surplus beyond the nation's need the farmer has loaded the fleets of oceans. For the fiscal year ended June 30, 1906, this surplus has been exported to the value of nine hundred and seventy-six million dollars.

The imports of agricultural products consist mainly of the same articles year after year and reached their highest value in 1906—five hundred and fifty-four million dollars. These included packing-house products, ninety-six million dollars; sugar and molasses, eighty-six million; coffee, seventy-three million; silk, fifty-four million; vegetable fibers, fifty million; wool, thirty-nine million; tobacco, twenty-two million; fruits, twenty-one million; tea, fourteen million.

It is with respect to some of the articles just mentioned that Hawaii's great opportunity for developing its latent resources appears. And it is already beginning to improve the opportunity, by its increasing production of coffee, fibers and fruits, and its promising starts about simultaneously in rubber and tobacco cultivation.

For 1906 the agricultural exports exceeded similar imports by four hundred and thirty-three million, while products of all other industries secured a balance in our favor of only eighty-five million. During the last seventeen years the exports of the farmer have exceeded the agricultural imports by six billion dollars, while all other producers find themselves at the end of the same period with a total on the debtor side amounting to four hundred and fifty-nine million.

If real estate, domestic animals, other live stock, implements, and machinery are included, the farmer's capital has increased since the census valuation by probably eight billion dollars, the present valuation being probably twenty-eight billion.

FEDERAL AGRICULTURAL WORK HERE.

In his annual report for 1906, Secretary Wilson of the Department of Agriculture has the following reference to the Hawaii Experiment Station: "The Hawaii Station reports an increasing appreciation of its efforts toward diversifying the agricultural industries of the islands, and as a direct result of three years' experimental work with tobacco it is said that this year fully 200 acres were planted.

Secretary Wilson also puts in the following plea for more assistance to the station here, as well as to those of Alaska and Porto Rico: "The work of the stations in Alaska, Hawaii, and Porto Rico is now so well established that they can profitably make use of increased funds. Considering the fact that all buildings, equipment, and live stock must be provided for these stations from the Federal funds, there is even greater need of more liberal appropriations for their maintenance than in the case of the State experiment stations.

Hawaii has no reason to complain of the consideration it receives from the Department of Agriculture. Not only in its own practical operations here, but in the counsel, encouragement, assistance of experts and agricultural literature it furnishes to the Territorial bureau of agriculture, the Federal department is promoting the development of our soil resources to a grand extent. The good results of it all to the prosperity of the Territory have already begun to appear and will multiply as the years pass.

Gladstone's famous dictum that the House of Lords must be ended or amended has been paraphrased by the present British premier, Sir H. Campbell-Bannerman, though with less catching assonance than the Gladstonian epigram. In a letter to an emergency meeting of the General Committee of the National Liberal Federation, convened to consider the action of the Lords on the Education bill, the premier said: "On one thing you may rest assured—we can have no tampering with the main principles of the bill. If within those limits and without injury to education an arrangement is possible, well and good; if not, it is for us to see in connection with this and other questions whether a way is to be found whereby the wishes of the country can be made to prevail, and the battle will continue until the House of Lords is greatly modified or annihilated."

The coming exhibition of the Hawaiian Poultry Association promises to be even more successful than its predecessor. A feature this year will be an exhibit of fruits, flowers, silk cocoons and samples of honey, under the auspices of the Farmers' Institute of Hawaii and the Board of Commissioners of Agriculture and Forestry.

President Diaz of Mexico would seem to be as thin of cuticle as some old-world monarchs. Lately three Mexican newspapermen were pursued into Texas and arrested there by United States marshals at the request of the Mexican Government. One of them is alleged to have displeased the Government with caricatures of the President.

SIBERIA BROUGHT MANY PASSENGERS

A large number of well known local people were incoming passengers on the S. S. Siberia yesterday, returning to spend their Christmas in Hawaii. The big liner also brought in a number of tourists, some of whom will spend the winter in Honolulu.

Among the returning Honoluluans are J. B. Castle, who went to the mainland a short time ago on the S. S. China, O. G. Traphagen, a local architect, who has been on the Coast since the earthquake, E. Faxon Bishop, Jas. A. Low, manager of the Honolulu Plantation, A. N. Campbell, H. P. Baldwin, and other business men.

Mr. and Mrs. Crehore and family and Miss C. J. Carter were among the arriving passengers. These ladies are sisters of Governor Carter, who met them on the arrival of the vessel.

Miss M. Fairweather, sister of Dr. Fairweather, and Mr. and Mrs. Hermann Focke were also returning passengers.

Among the through passengers are two consular representative returning to the Orient. H. P. Miller, the consul general for the United States to Japan, is returning after a visit with his relatives in Oregon, and C. E. Pfaffius, an attaché of the Amur territory, has also been visiting on the mainland.

Together the Siberia brought 91 passengers for Honolulu and has a through list of 78 cabin passengers and nearly 400 Asiatics.

She carries a big cargo for the Orient, having 3000 tons aboard, including a big shipment of cottons.

Supervisors meet tonight at 7:30. Three new autos arrived on Maui last week.

The yacht race for the Commodore's Cup takes place tomorrow. Mr. and Mrs. F. J. Cross and son returned home in the Siberia.

Another heavy rainfall, 2.11 inches, is registered by the Weather Bureau. James B. Castle was among the Honolulu people returning home in the Siberia.

Professor Benton, the Federal apirist, did not arrive in the Sherman as expected. Mr. and Mrs. Herman Focke returned in the Siberia from a prolonged tour abroad.

Mrs. Mannie Phillips returned yesterday on the Siberia from an extended visit on the Coast.

It is estimated that the damage done to the Nuanuan dam by the storm amounts to about \$1500.

The St. Louis College Alumni Association will hold its regular quarterly meeting tomorrow at 10 a. m.

A rumor round town yesterday to the effect that Charles Gay of Lanai was dead proved to be unfounded.

L. H. Cook of the Kahului Railway Co.'s office staff has resigned his position and may settle in Honolulu.

H. M. Wells, who recently met with a severe accident on Maui, is to be brought here for expert treatment.

Frederick O'Brien, formerly with the Advertiser and later with the Manila Cablenews, has recently visited the States, going thither via Suez on the transport Kilpatrick.

J. B. Sledge, who sojourned in Honolulu among the passengers of the transport Sheridan when she was on the reef, returned in the Siberia to make his home here.

Mrs. Daphne Whitin, formerly of Honolulu, returned yesterday in the Siberia. She is a stop-over passenger and intends to resume the voyage to the Orient in the near future.

On account of the overflowing of fishponds in the Makiki district on Thursday, fish were carried by the flood onto King street, and several were run over by the electric cars.

At the request of the officers and ladies of the transport Sherman a dance will be given at the Moana hotel tonight. All those who attended last night's dance at the Young and the many whom the inclement weather prevented joining are cordially invited.

The Inter-Island steamer Claudine departed for Maui and Hawaii ports last night with a big list of passengers, most of whom were pupils from the Honolulu schools returning home for the Christmas holidays.

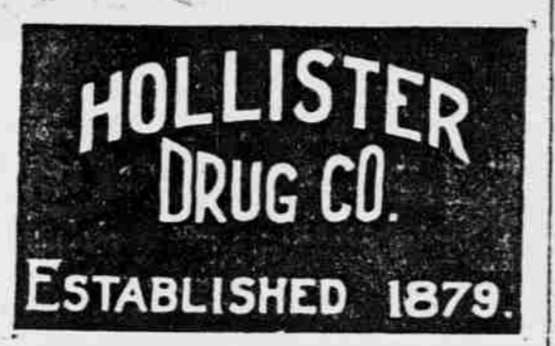

A delightful transport dance was given last evening at the Alexander Young Hotel in honor of the officers and ladies of the transport Thomas and the passengers of the Siberia. The mauka ball pavilion was used, owing to the rain, and Kaa's orchestra furnished the excellent music to which the guests danced until after midnight.

MRS. DUNBAR DIED OF ICY WATER SHOCK

News of the death of Mrs. Stuart Dunbar, formerly Miss Genevieve Dowsett, a belle of Honolulu, has been a great shock to college and town society of Berkeley, where the bride of a few months was well known. Her death occurred last Saturday in Belvedere, as the result of her falling into the bay a week ago. At the time of the accident Mrs. Dunbar was endeavoring to board her husband's yacht, which had gone adrift. She fell into the icy waters, and when taken out lapsed into an unconscious state, from which she never rallied.

Before her marriage to Stewart Dunbar, a university fraternity man and scion of a San Francisco family, the engagement of Miss Dowsett to Prentice Gray, a popular university of California football man, was announced. The engagement was the result of the saving of the life of Gray by the young woman while he was swimming in a river in the northern part of the state. In the course of a few months the engagement was broken off by the parents of Gray.

It was but a few weeks after Miss Dowsett and Gray parted that she and Stewart Dunbar slipped quickly to Stockton and were united in marriage in that city. The day following the marriage Dunbar and his bride sailed for Honolulu. Mr. and Mrs. Dunbar had resided at their Belvedere home but a few weeks before the death of the young bride.

According to reports, when the storm of a week ago broke in the cove of Belvedere, Dunbar's yacht was cast adrift and floated out into Raecoon Straits. Mrs. Dunbar took a yawl and rowed out to the vessel in the storm. It was while she was trying to board the yacht that she slipped and fell into the bay. Although she is an expert swimmer, she was weakened by the cold waters and had to be rescued. —S. F. Chronicle, Dec. 5.

HOURS OF IRRIGATION.

Editor Advertiser: Kindly inform me the hours I am permitted to water my yard. CIVIS SECUNDUS.
Honolulu, Dec. 14, 1906.

The answer would probably depend on where you live and the state of the reservoirs at a given time. Notices on the subject for different localities are published by the superintendent of water works, Department of Public Works, from time to time as occasions require. An inquiry by telephone to that department would probably bring a definite answer. An odd time has been taken for the above question, as during the present spell of weather one would think the drainage rather than the irrigation of yards should be the problem to bother citizens.—Ed. Advertiser.

Metrostyle Pianola or a Pianola Piano

(An Upright Piano of the highest grade with a Metrostyle Pianola inside its case.)

There are many families who, if they could have their choice of all the many desirable articles now displayed in the shops, would decide without a moment's hesitation upon either a Pianola or the new Pianola Piano.

The person who makes a Christmas present of one of these instruments gives an unending source of pleasure,—not merely an article to be admired today and later forgotten. It is conferring upon the recipient the opportunity to enjoy all of the world's masterpieces of music, for practically everything that has ever been written for the piano, from the greatest compositions of Beethoven to the latest bit of operatic melody, just having its vogue, has been arranged for these instruments.

In giving the Pianola or the Pianola Piano, one is secure in the knowledge that he is giving the standard article of its class, the one that has endorsement of all the great authorities, is to be found in the palaces of royalty abroad and, in this country, in the homes of the most discriminating music-lovers and musicians.

The desirability of a Pianola as a Christmas gift is proven by the great demand which occurs each year at this season.

The \$250 model of the Pianola now contains the Metrostyle—originally placed only upon the highest priced style. This is a feature which not only simplifies the playing of the Pianola but adds immensely to its interest. No other form of piano-player has anything even approaching this most important improvement.

PIANOLAS, \$250; PIANO PIANOS, \$550 TO \$1,000.
Purchasable on moderate monthly payments.

GOOD SUGAR PROSPECTS

Indications That Prices Will Range Higher Till June.

Willlett & Gray's Journal for Nov. 28 is the most optimistic number in a long while regarding the sugar market prospects. The following are extracts:
A decidedly firmer tone and tendency has developed in the sugar market during the week under review. Instead of waiting for the new Cuba crop sugars to open at 21-4c. c. and f. for 96 deg. test basis, as was anticipated a few weeks ago, buyers chose to come in on the basis of 23-8c. c. and f., and later paid 27-16c. c. and f., 96 deg. test, for December shipment, equal to 374c. and 380c. landed, to the extent of some 100,000 bags. These purchases have gone away with any prospect of pressure of early delivery sugars and imparted a firmer tone to the whole situation.

Sellers are now asking for Cuba sugars 21-2c. c. and f. for December, 27-16c. for January and 23-8c. c. and f. for January-February shipment, basis 96 deg. test.

There are several influences at work contributing to the improvement side of sugar conditions.

Our advices from Louisiana indicate that the domestic cane crop will result in something like 100,000 tons less than last year, which means that increased shipments to New Orleans will be required next year from Cuba, Porto Rico and Europe.

Latest advices from Brazil indicate that the northern crop of Muscovados will result poorly this year. The uncertainty regarding the labor situation in Cuba adds an influence of firmness to the market, notwithstanding the fact that our latest advices from the island indicate the largest quantity of cane in the fields of any crop ever raised in the island. Of course, the labor question will only develop from week to week.

Extraordinary efforts are being made, however, to bring in laborers from Spain, the Cuban government being appealed to by planters to grant a portion of the cost of transportation of such laborers.

The European markets show decided strength also, and particularly for future months, quotation being now for May contracts 98. 51-4L, with increasing demand from speculative quarters. All signs point to a higher range of values in January to June, 1907, than those ruling during the same time in 1906.

Considering the natural increase in consumption in the United States, there is a very fair probability of America drawing some part of her supplies from Europe before the end of the present campaign.

In this connection we might say that the shipments of sugar from Java to America will be much smaller than in recent years because of the increased demand from eastern countries, where consumption is gaining each year and must be supplied principally from Java crop; hence America takes less Java from year to year, in the future, than in the past.

This week's summary of the statistical position shows stock in the United States and Cuba together of 145,924 tons, against 143,617 tons last week and 150,624 tons last year, a decrease of 157,700 tons from last year.

Stock in Europe, 1,633,000 tons, against 1,681,000 tons last year.

Total stock of Europe and America, 1,778,924 tons, against 1,982,624 tons last year at the same uneven dates. The decrease of stock is 203,700 tons, against a decrease of 219,838 tons last week. Total stocks and afloats together show a visible supply of 1,908,924 tons against 2,032,624 tons last year, or a decrease of 123,700 tons.

PRESENTS OF CIGARS.

The Hayselden Tobacco Company has a new lot of cigars put up in packages suitable for holiday gifts. The quality is unquestionable and the selection is carefully made. There is a bit of money saved by walking to the Young Building to buy your gifts for gentlemen at this season.

CAUGHT COLD WHILE HUNTING A BURGLAR.

Mr. Wm. Thos. Lanorgan, provincial Constable at Chapleau, Ontario, Canada, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles, I was completely cured." For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

SHE STOWED AWAY ON HONOLULU TRIP

ALAMEDA, December 5.—Mrs. Grayson Willard Heidt, niece of the late President McKinley, who recently stowed away on the United States transport Buford at Seattle in order to accompany her husband from that city to Midway Reef, where the Buford was ordered to the assistance of the transport Sheridan, is, with her husband, the guest of her cousin, Mrs. H. R. Cooper of 1240 St. Charles street.

Captain and Mrs. Heidt arrived here a few days ago from Honolulu and will remain in Alameda until Captain Heidt receives definite orders as to where he is to be stationed in Cuba.

Captain and Mrs. Heidt, who was Miss Grace McKinley, were wedded at Des Moines a few months ago and were on their honeymoon when the groom was ordered to report at Seattle. Upon arriving there Captain Heidt was, on emergency orders, placed in military command of the transport Buford, that was to depart immediately for Midway Reef to assist the stranded transport Sheridan. Not wishing to be separated from her husband, Mrs. Heidt conceived the bold plan of stowing away on the Buford. She boarded the transport at 3 o'clock on the morning of the sailing day and secreted herself until the vessel was far out at sea. Then she sent word to her husband that if he desired to see her he could find her in a certain part of the steamer.

Although Mrs. Heidt's presence on the transport was in violation of a naval regulation, she was permitted to remain aboard the Buford and made the voyage to Midway Reef.

THE AGRICULTURAL EXHIBITION ENTRIES

HOLIDAY BOXES OF HAVANA CIGARS

Any Man Who Smokes Will Be Happy as a King to Get a Box for Christmas.

We have had all the favorite cigars packed in special holiday boxes bearing "HOLIDAY GREETINGS." They contain 12, 25, 50 and 100 cigars. Such brands as General Arthurs, Van Dycks, Robt. Burns, La Fama Universal, etc. Those imported from Cuba are: Bock & Co., Henry Clay, Cabanas, Villar Y Villar, La Africana, Manuel Garcia, etc.

Other Presents for Smokers

Take notice that a man smokes because he enjoys it. Anything you give him in the smoking line adds so much to his pleasure. As he lapses into reveries over pipe or cigar, think how frequently the donor of a pleasing addition to his smoking room is gratefully remembered. Anything you give in the following line will touch him in the right spot.

We especially solicit trade from the ladies who are looking for suitable gifts for men. Here are a few suggestions:

- Imported Egyptian Cigarettes packed in boxes of 50 and Turkish Cigarettes in boxes of 100.
- Handsome Tobacco Jars bearing University Crests ---Yale, Harvard and Stanford. Plain and fancy Tobacco Jars in splendid variety. Smokers' Sets of French Stag and Metal. Also Ash Trays and Cigar Jars in same materials.
- Beautifully carved and plain Meerschaum Pipes. Handsome Briar Pipes, single and companions. Table Hookahs or Turkish Water Pipes. Cigar Humidors; a handsome box for keeping Cigars from drying out, in mahogany, teak, ebony, birds eye maple, etc.

Hundreds of other suitable gifts for the Holidays. Come visit our store.

UNCOMMON WISDOM

SOME HONOLULU PEOPLE PROFIT BY NEIGHBORS' EXPERIENCE.

It's a wise man who profits by the experience of his friends and neighbors. Here is a chance to do it, and every man, woman or child in Honolulu who knows the misery of a bad back, the nervousness and restlessness caused by kidney complaint or the annoyance of urinary disorders, will show uncommon wisdom to profit by this citizen's advice.
Rev. J. Nua of Kawaihau informs us: "I suffered from kidney trouble, which was, I believe, caused by my lifting heavy weights. Pains in the small of my back were one of the symptoms of my complaint. My trouble extends back to the time when I was 28 years of age, and as I am now 49, that is a considerable period. During all this time I was subject to pains in the back. They continued despite the fact that I consulted several physicians and took numerous remedies. No relief thus gained can be compared to the benefit obtained from using Doan's Backache Kidney Pills. I have got on wonderfully well since taking them. I am quite satisfied with the result, and shall always have some of the pills by me, even when going from Honolulu to other missionary fields in the South Pacific. There is no other remedy like Doan's Backache Kidney Pills for kidney complaints, including backache."
Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes for \$2.50), or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

SHRINERS TO PARADE

Sixteen Victims Are to Tread the Hot Sands.

Watch for the great Shriner parade this afternoon. This marvellous aggregation of sheiks and bedouins from the desert, with the three Wise Men of the East in the van, and leading captive sixteen bloodthirsty prisoners who were taken in battle, will be the greatest scene in the history of Honolulu (weather permitting).

The sixteen captives will be tied to the triumphal chariot of the Potentate and, like slaves, led through the streets as trophies of war.

The great phalanx of soldiers, known as the Arab Patrol, will pass in review before the populace, led by the greatest warrior of the Pacific, Captain Samuel Johnson, he of the long string of medals and military chest, the Adonis of the Paradise of the Pacific. No Patrol ever excelled this one of Honolulu in the brilliancy of its maneuvers and its clocklike spear drill. When formed in line of battle these seasoned veterans (rookies two weeks ago) will strike terror into the breasts of all who behold them.

In rich apparel the Potentate and his chief officers will be seen in procession. Their robes rival the shimmering costumes of the princes of India. The captives, or victims, as the Shriners facetiously term them will appear in any old thing, from a "Pop" Spitzer "handme-down" to a wornout suit from Picadilly. The victims are not particular how they look just before initiation, and the Shriners don't care just how they might look after they get through with them.

The procession will be headed by the Hawaiian band. It will pass down Fort street from Progress hall, to King, out King to Palace square, then through the Capitol grounds to Hotel street, to Alakea street, up Alakea to Beretania and thence back to Progress hall. From then on the veil will best be drawn over what will happen to the captives. Every known torture employed by the Indians, all degrees known to the police, and every form of imparting exquisite agony used on the cannibal islands, will be wreaked upon them. The windows will be stuffed with cotton so that their cries may not be heard. The police are to be drawn from their beats in that vicinity so that no help may be given the sixteen. That there will be plenty of noise in Progress hall during the initiation is certain. The torture chamber has been filled with cannon, revolvers, dynamite, drums and anything else that will make a noise.

ANNIE OAKLEY

The World's Greatest Lady Rifle Shot
USES AND RECOMMENDS

Newbro's Herpicide

THE ORIGINAL REMEDY THAT KILLS THE DANDRUFF GERM.

"Traveling as I do continuously, I have been troubled a great deal with dandruff and falling hair, and until I tried Herpicide I never found a remedy that was satisfactory. Herpicide is a delightful preparation that fulfills the claims made for it, and no lady's toilet is complete without it. I highly recommend it to my friends."
(Signed) ANNIE OAKLEY.

It is certainly significant that Miss Oakley, the celebrated rifle shot and theatrical star, who has traveled so extensively abroad, should choose Newbro's Herpicide as the most efficacious toilet remedy for the scalp. No one will doubt her opportunity to choose the best and those who have seen the natty and winsome Miss Oakley, will not doubt her power of discrimination in matters of this sort.

Newbro's Herpicide is a scientific germicide and prophylactic for the hair and scalp, it destroys the germ of microbe that causes dandruff, itching scalp and falling hair, after which the hair will grow as nature intended, except in cases of incurable baldness. Extraordinary results sometimes follow the continued use of Newbro's Herpicide.

If your hair is dull, brittle or lusterless, don't wait until it begins to fall, but save and beautify it with Newbro's Herpicide. In addition to its wonderful medicinal qualities, Newbro's Herpicide is the daintiest and most delightful refreshing hair dressing available. The first application proves its goodness. Try it.

Herpicide contains no grease, it will not stain or dye,

Among the victims are Robert Lewers, Harry Armitage, Jared Smith, D. Maconachie, Fred. C. Smith, Emil Waterman, E. M. Scovell, August Hamburg, Tom Sharp, Judge Kingsbury, Mr. Grindell, J. W. Pratt, J. W. Waldron, George Angus, Mr. Welborn.

Seriously, however, the drill of the Arab Patrol may be a surprise to the public. For the past two or three weeks, Captain Johnson has been instructing the patrolmen in the use of their pikes and in various evolutions, and for a new company he believes that it will make a fine showing. The drill will take place on Palace square. Should the drill prove satisfactory it is not unlikely that the whole company may go to the Shriner Convention to be held at Los Angeles next May. Such a visit is already spoken of among the Shriners and it is understood that one man has already announced his determination to donate \$1000 toward defraying expenses. A visit of this kind would be a splendid advertisement for Hawaii and the Promotion

Committee would have an ally that would be of the greatest value, for Shriners are great boosters of their own communities.

AN ATTACK OF CROUP WARDED OFF.

"Our little girl, two and one-half years old, woke up coughing with the croup one evening recently. We happened to have some of Chamberlain's Cough Remedy on hand and gave her two doses of it. She went back to sleep and woke up next morning without a trace of cold. It is certainly a great medicine," says A. J. Luginbill, editor of Star, Villa Rica, Georgia, U. S. A. An attack of croup can always be warded off by giving this remedy as soon as the croupy cough appears. It has been in use for many years and has never been known to fail. It contains no harmful drug and may be given to the smallest child with perfect confidence. For sale by Benson, Smith & Co., Ltd., agents for Hawaii.

A Kodak Makes A Merry Christmas

Pictures telling of past good times are treasures now. Present pleasures will soon belong to the past. Are you collecting pictures of the good times you are now having? You enjoy pictures. So does your friend. Then get him a Kodak. It means the beginning of enjoyment that grows greater with time and is shared equally by old and young.

Kodaks, \$5 up; Premo Cameras, \$3 up; Brownie Cameras, only \$1 up.

Has your friend a Kodak already? Then get his a protecting sole-leather carrying case for it, having both hand and shoulder straps.

Has he both these things? Then give him a tank developing machine, by which he can develop his own films in an ordinary room.

Among the other suggestions we can give are: Fine genuine seal-grain leather-covered album in which to preserve and display his pictures; or an album to preserve and register his film negatives; or a portrait attachment enabling him to take large portraits with his Kodak

Also an album made specially for displaying souvenir postcards is the proper thing these days, and who among your friends has not a number of cards to start the album with?

MARINE

With less than one sack of flour aboard, out of vegetables and down to salt horse as a steady diet, the American ship W. F. Babcock arrived off port yesterday afternoon, having put in here for provisions and to land two of her sailors, one of whom is down with beriberi and the other suffering with a broken leg, the result of a recent accident. The Babcock is from Baltimore, bound for Astoria with coal, having arrived this far via the Cape of Good Hope. She left Baltimore on June 9, since which time she has only been spoken once, that being on August 3 last, when the vessel was in the South Atlantic near the island of Trinidad.

The vessel is in distress, having encountered severe weather since rounding the Cape. In one of the storms through which she passed a sailor was washed overboard and lost and one other member of the crew died from illness. In addition to these fatalities, the cargo of coal has shifted in the continued pitching of the ship and the vessel is altogether in bad shape.

One of the members of the crew is Rose, a son of a well known Hilo family. It is probable that he will leave the ship here as Captain Bailey is in need of five sailors to make up his crew for the rest of the passage to the Sound.

The Babcock was reported yesterday morning, dropping anchor outside the harbor shortly after 1 o'clock. Captain Lorenzen from the pilot office meeting the ship and bringing her to her anchorage. The water outside was much too rough at the time of the arrival of the vessel for the quarantine officers to go out to her, the news of her condition being brought in by the pilot. In view of her distress permission was given by the port physician for her skipper, Captain Bailey, to come ashore. Young Bros. launch being sent out after him. The captain spent some hours ashore making arrangements to secure supplies and purchasing some fresh meat and vegetables for the crew's supper.

S. S. SILDRA FROM THE SOUTH.

The Norwegian S. S. Sildra, seventeen days out from Newcastle, arrived last night, docking at the channel wharf. She brings 4500 tons of coal for this port, consigned to Hind, Rolph & Co. The steamer had a good trip with fair weather for most of the passage, striking the bad seas only when nearing the islands.

At the time of her arrival it was raining heavily and Captain Macaulay, the pilot, who went out to meet her, plunged into a fog through which he could make out neither the incoming vessel nor the land behind him. Fortunately the pilot boat had been pointed in the right direction and ran within hailing distance of the Sildra, "otherwise," remarked the pilot last night, "we would have been going south yet looking for her."

The Sildra, commanded by Captain Christensen, is making her first visit to this port. She is a vessel of 2007 tons. Her last trip, before coming to Honolulu, was from Manila to Newcastle.

FEARS FOR THE BLACKHEATH.

Some anxiety is being felt along the waterfront concerning the British S. S. Blackheath, which is coming here for bunker coal from the Sound. The vessel is bound for Australian ports, but was unable to secure a coal supply on the Sound. She was due to arrive here on Tuesday last, according to advices received by the harbor master, and it is known that she had only a supply of coal sufficient to make this port. The fear is that she has exhausted her fuel in bucking the heavy southern winds of the past few days and that she may be by this time out of coal and in distress.

FOGS DELAY THE SIBERIA.

The Pacific Mail S. S. Siberia, which arrived yesterday morning from the Coast, was delayed twenty-two hours in her passage owing to heavy fogs encountered at each end of the trip. She sailed from San Francisco on time, leaving the slip on Friday afternoon at 1 o'clock. In the bay, however, she ran into the fog, being obliged to lay to until 5 o'clock on Saturday morning. Throughout the whole trip down the coast the weather was nasty and on arriving yesterday morning off the Molokai channel another dense fog was encountered, it being impossible to pick up the liner lay to, the fog breaking sufficiently after that for the officer on the bridge to pick up Makapuu Point and proceed in. Since the Manchuria and the Mongolia affairs General Manager Schwerin has given positive orders to the captains of all the Pacific Mail boats not to attempt to approach the land unless absolutely certain of the position of the vessel. Acting under these orders the S. S. Korea was held outside for six hours on her last visit. The Siberia is making a long stop here, not being timed to sail until today at noon. The reason for the delay is that a full supply of coal must be taken on here, the fuel famine on the Coast preventing her securing her supply at San Francisco.

AMIRAL HAMELIN SAILS TODAY.

The French S. S. Amiral Hamelin will sail tonight for the Coast and Puget Sound ports, continuing her round-the-world trip. Yesterday the Bishop wharf was jammed with the freight being discharged from her, the whole place being aromatic with soy, about a score of the tubs having been smashed open in getting them piled up on the wharf. In addition to the several thousand tubs of this commodity the Hamelin has discharged nearly a thousand tons of rice which will have to be inspected and probably fumigated.

MARINE NOTES.

The barkentine Coronado will sail for San Francisco on Thursday next, by which time she will have taken on a full cargo of sugar. It is doubtful if the C. A. S. S. Miverva will arrive today from Vancouver, the liner having sailed from that port some hours behind time. The arrival of this steamer is being looked forward to by the music lovers of the town, among the passengers aboard her being the members of the Besses' of the Barn Band, a famous British band

which is en route to the Colonies to take part in the Christchurch international exhibition. If the liner fails to arrive today, these are hoping that it will lose enough time on the trip to delay the arrival until Monday, thus giving Honolulu an opportunity of hearing the British musicians.

T. H. Davies & Co. are notifying importers that the ship Tillie E. Starbuck will sail from New York direct to this port on or about February 15. General Manager Schwerin of the Pacific Mail line has contradicted the report that the P. M. steamers are to make San Pedro a port of call or a transpacific terminus of their service. W. G. Irwin & Co. received word by the Siberia yesterday that, owing to the length of time required for making repairs to the Hilonian, the Matson Line will discontinue the Portland service for the time being.

ENA ESTATE IS \$188,000

Real Estate in Long Beach and in Honolulu.

The estate of John Ena, who, according to an Associated Press Cablegram published in the Advertiser Thursday morning, died at Long Beach, California, is estimated to be valued at about \$188,000, according to a petition filed yesterday in the Circuit Court asking that letters testamentary issue to Rev. Father Valentin of the Roman Catholic Mission, and the Hawaiian Trust Company. In their petition they allege that Mr. Ena died at Long Beach, California, leaving an estate in Honolulu and Long Beach, as follows: Honolulu, real estate, \$75,000. Long Beach, real estate, \$50,000. Personal property, stocks, bonds, life insurance policies, etc., \$63,000. The heirs are named as follows: Marie Ena, widow; Mabel K. Mary K., Clarise K., Daisy M., Anna D., daughters; Thomas F. and John D. Ena, Jr., sons. Ballou and Marx filed the petition on behalf of Father Valentin. FR. SYLVESTER'S ESTATE. Judge Perry, attorney for the Bishop of Zeugma, yesterday filed a petition in the Circuit Court for letters testamentary to issue to the Bishop in the matter of the estate of the Rev. Father Sylvester Stappers, who died on Maui, November 12, 1906. The estate comprises a note secured by a mortgage for \$3000; one watch valued at \$25; cash, \$74.15; advancing on account, \$43. At the time of his death Father Sylvester was 57 years of age. LEFT COMFORTABLE ESTATE. Joseph L. Pa yesterday filed a petition that letters testamentary issue to himself in the matter of the estate of Mary Ann Pa, deceased, who died at Honolulu, November 29, 1906. The property consists of real estate in the territory valued at \$2500; cash with Castle & Withington, \$171; money loaned on mortgage, \$810. The heirs are Daniel and Joseph, sons; Bernice, daughter, and T. K. Pa, husband. YEE HAW AND CHIN. Information filed in the United States District Court of Honolulu against Lee Chin brings to light a story to the effect that Yee Yaw, alias Yee Law, is in the Territory of Hawaii unlawfully, that is against the exclusion laws. While Lee Chin alleges that she is his 18-year old daughter, it is intimated that she is his wife. She is held for deportation unless Mr. Chin can disprove the charges preferred. He is connected with the firm of Wo Sing Company. DR. DAY'S ESTATE. The total value of the estate of the late Dr. Frank R. Day as inventoried in a document filed in the Circuit Court is \$17,630.68, as follows: 175 shares of Waiakula Agricultural Company's stock valued at \$65 per share, \$11,375; 1100 shares of Olaa Sugar Company's stock valued at \$2.50 a share, \$2750; surgical instrument, \$450; medical library, \$100; drugs, \$50; office furniture, \$100; one half interest in sanitarium, \$100; one half interest in accounts of the medical firm of Drs. Day and Wood, \$2705.60. APOLIONA HEDGES. Defendant in the action of the Territory vs. Sam'l Apoliona, who pleaded not guilty Thursday to the grand jury indictment for conducting a gambling house, yesterday filed a motion to withdraw said plea on the grounds, first, that when he was arraigned he was not represented by counsel, and second, that he is informed and believes that the indictment is improperly drawn and does not contain allegations sufficient in law to compel him to plead thereto. The motion will be presented to Judge Lindsay this morning. TRANSIT EXCEPTIONS ALLOWED. Judge Robinson yesterday filed an order in the case of Omoto Bunhichi vs. Honolulu Rapid Transit & Land Company allowing the exception filed by the defendant against the verdict in the trial court, wherein the jury found for the plaintiff. The concluding paragraphs of the order are: "And now comes the defendant above named and further hereby alleges exception to the aforesaid order and ruling of the court denying its said motion that judgment non obstante veredicto be entered in favor of said defendant and against the plaintiff above named. "And the foregoing exception being alleged, reduced to writing and presented as by law provided is, and the same is hereby found conformable to truth and the same is hereby allowed."

THE LAHAINALUNA CASE.
D. L. Withington will leave in the next Alameda for Washington to argue the claim of the Hawaiian Board of Missions against the Territory of Hawaii, which is for \$15,000 on alleged violation of contract regarding Lahainaluna Seminary. The Board conveyed the school property to the government of Hawaii many years ago, on the condition that nothing should be taught in the school at variance with the doctrines of the missionaries who founded it. As sectarian religious teaching of any kind has long since been ruled out of the Hawaiian public schools, the Board contends the condition has been broken and sues to recover the value of the property. A decision of the Hawaiian Supreme Court having been rendered adversely to the claim an appeal was taken by the Board to the United States Supreme Court. Deputy Attorney General Prosser is preparing a brief for the Territory.
