ESTABLISHED JULY 2, 1858

VOL. XLV., NO. 7689.

HONOLULU, HAWAII TERRITORY, MONDAY, APRIL 1, 1907.

PRICE FIVE CENTS.

THE UNDATED RESIGNATION

Bill to Abolish It--The Married Women Teachers.

SENATE—THIRTY-FOURTH DAY.

The members of the Senate are satisfied that the taxpayers get only a one-man form of Government when each head of a department signs a resignation when he accepts the position which the Governor tenders him. They feel, further, that it is in direct violation of a clause in the Organic Act which says that certain officials shall be appointed "by and with the consent of the Senate," and removed the same way. Senator McCarthy thinks it would be an easy matter for the Governor to appoint a dummy during the session and accept his resignation the day after the Legislature adjourns and put in a person known not to be acceptable to the confirming body.

In order to put an end to the practice Senator Hewitt presented the following which passed first reading on Saturday:

Be it Enacted by the Legislature of the Territory of Hawaii:

Section 1. From and after the 30th day of June, A. D. 1907, it shall be unlawful for the Auditor to draw any warrant for the payment of any salary to any Territorial official or employe whose resignation as such official or employe, dated or undated, is in the official or personal possession of any heads of departments of the Territory of Hawaii, or in the official or personal possession of any official of this Territory authorized by law to fill the office covered by such resignation either by nomination or appointment. Provided, however, that nothing in this act shall be construed to prevent the bona fide resignation of any official or employe of the Territory.

Section 2. All laws and parts of laws in conflict with this act are hereby repealed.

Section 3. Any person who shall violate the provisions of this act shall be deemed guilty of a misdemeanor, and upon due conviction therefor, shall be fined not more than One Hundred Dollars (\$100.00) for each such offense.

Section 4. This act shall take effect upon the day of its approval.

There is not a doubt that the bill will go through a-humming but there is a question as to the effect. There is a fear that Governor Carter may send another resignation or refuse to entertain the Congressmen when they come here, but the Senators in the local Legislature are willing to take a chance.

The introduction of that bill was the real feature of the session on Saturday. The climax was when Senator Dowsett asked consideration of his married women teachers' bill. Senator Smith seems to be the champion of the teachers in this regard and no one knows just why he holds out. The other day he brought up the case of a teacher whose husband has deserted but that was found not to fit the bill, so he abandoned that particular stance as one that would be affected by the law. On Saturday he moved to amend the bill so the aim of the producer would have been entirely met by its adoption. Senator Dowsett said that to insist upon keeping married women in the schools is to encourage race suicide.

In a conversation after adjournment referred to a young lady, a graduate of a university, working in one of the schools at a paltry salary of forty-two dollars and fifty cents a month. She fitted to fill any position aside from principal, and youth is the only drawback to that, in any of the schools in city. One of the barriers to a teacher paying position than the one she holds is the married women who teach. One of them draws a hundred dollars a month in a school while her husband gets two hundred and twenty dollars a month in the same institution. The Senator is of the opinion that equally good, and perhaps better, salaries would be obtained if those salaries were divided among two families instead of being kept in one—all things being equal.

The Senator has a list of about twenty married women on this island, some of them getting as high as a hundred dollars a month.

KANIHO IS OBSTRUCTING

Wastes Time of House in Objectless Speeches.

The House spent the principal part of its morning session on Saturday in a long drawn out and objectless debate over a bill conferring on the counties the right of eminent domain. The bill was plain enough on its face and was also succinctly explained by Rawlins, but this did not prevent Kaniho from haranguing the House for over half an hour, nor keep Mahoe and Kaleo from following the lead of the member from Kohala. Sheldon, too, got in on the debate on the objecting side, but the measure finally came to a vote and the bill passed its third reading.

An interesting report was read by the clerk during the session, dealing with the status of the various House bills which had passed. These are seventy-one in number, of which the Senate has forty-five and the Governor four, while nineteen have become law through the Governor's signature, two are in force through the veto being overridden and one caught the veto and never recovered.

Of the bills which have already become law, six are credited to Sheldon, five to Rawlins, three to Kalelopu and one each to Pali, Kaluna, Lelewi, Kahana and Rice. There are two bills in the hands of the Governor which will have been held by him the limit by tomorrow, while two others of Sheldon's measures are being subjected to his scrutiny.

As the days pass the number of House bills not acted upon in the Senate grows larger instead of decreasing and the possibility of the session not concluding within the legal limit looms larger every day. For this reason the House members are issuing their reports, such as the above, disclaiming all responsibility for the delay.

Morning Session.

The House transacted its business Saturday morning with a new set of officials. Clerk Wise and his assistant being absent for some time, their places being taken by Stenographer Kearns and Interpreter Kaulukou, who filled double roles for the time being.

RESULT OF CONFERENCE.

Rawlins presented a report of the Conference Committee which considered the Senate amendments on his bill relating to private ways and water rights, amendments so voluminous that they were described in the House as "a book." The report recommended knocking out some of the many amendments and accepting the rest. Rawlins explained that the objectionable amendments increasing the costs in water right cases had been knocked out. The report was adopted on roll call.

LUAU INVITATION.

An invitation was received from the Hawaiian Relief Society to the members for a luau, to be held that evening at Brewer's wharf.

(Continued on Page Two.)

MR. THURSTON TALKS ON HILO BREAKWATER

Lorrin A. Thurston gave the following interview in Hilo:

"The position in which the Hilo breakwater proposition stands is just thus. General Mackenzie, chief of the engineers, has stated that he considers the breakwater a meritorious proposition and he has directed Captain Otwell, who is now stationed in Hawaii, to go ahead with his examinations and report as soon as possible. Of course no one can tell what will be done by the Board of Engineers with the report. It may be approved, or disapproved or modified. Captain Otwell has an extraordinary amount of work on his shoulders at present, what with the fortifications at Pearl Harbor, Walkiki and other points. Then, too, he has to look after the new lighthouse work. He certainly requires assistance.

"As to exact situation of the Hilo breakwater, that is not by any means decided, but wherever it is located, much stone will be required and the vital point is to get a quarry located here from which sufficient stone can be handled at a minimum cost. That is where they have the better of us at San Pedro. There, for their breakwater, they have a quarry from which they can blow off a three hundred foot front of granite, the very best of material. We took a hasty run round here with Captain Otwell, visiting the quarries at Wainaku, at the Hall hills and that beyond Waialea, as well as going out into Puna.

"When can work be started? That is a difficult question to answer. Captain Otwell's report may go forward in from thirty to sixty days, then provided everything is all right it might take another thirty or sixty days for the board to get through with it. Tenders have then to be advertised for and there are always possibilities for delays. It would be September or October at the very earliest in my mind before anything could be commenced. The main thing is, though, we have got the appropriation. Speaker Cannon is favorable to us and President Roosevelt wrote a personal letter to Chairman Burton commending the proposition. The force of all that cannot be overestimated."

EASTER DAY OBSERVANCE

Large Numbers Attend Most Impressive Services.

It was a delightful Easter Day in nature which Honolulu experienced yesterday. The weather was of the best, the spring affords in Hawaii—cloudy enough to differentiate it from the brilliance of summer sunshine, breezy enough to bring memories of the balmy spring of other climes. Services befitting the day were held in the churches, which drew large congregations.

ST. ANDREW'S CATHEDRAL.

Easter was a very happy day for the congregation which worships at St. Andrew's cathedral. There were in all six services. A very large number of people made their communions at 6 and 7 o'clock. At 11 a. m. and 3:30 p. m. the church was too small for those who desired to gain admittance. The offerings of the day, with the exception of the children's service, went to the building fund, the amount given being \$1680. The offerings of the United Sunday schools was for Missions and amounted to \$190. All over the United States the children of the Episcopal church make an offering for Missions. Last year the total amount given was \$137,000.

At 7:30 p. m. the Commandery of Knights' Templar attended in a body, the preacher being the Rev. E. T. (Continued on Page Four.)

Expedition Is Marred Only by Wallach Agitation.

There are a large number of the people at the Molokai settlement terribly in earnest in their plea that J. Lor Wallach, the quack doctor and pretended leper curer, be allowed to visit them and effect their cures. These people have been impressed with the large promises of this man, promises helped out by some of the patients who claim to have been helped by this pseudo physician, these claims being accepted in good faith, whatever motive may be behind the making of them.

This was brought out during the visit of the members of the Legislature to Kalaupapa and Kalawao yesterday and was helped on by the injudicious and mischievous speeches of Kahana and Kaleo, who actually extolled the ability of Wallach before the sufferers and held out the hope to them that he would be allowed to cure them. Both speakers made election speeches instead of addresses of counsel and moderation.

With the exception of this more than annoying feature of the situation, the affairs at the Settlement are in excellent condition and the residents there as well satisfied and happy as could reasonably be expected.

WELCOMED THE VISITORS.

"Aloha" was the first word to greet the legislative visiting party which landed, nearly seventy strong, from the steamer Kinau at Kalaupapa yesterday morning about seven o'clock, having reached the Molokai settlement about an hour before. The landing was smooth, although a strong offshore wind made the pull from the steamer a stiff one. The voyage, too, had been a comparatively smooth one and few of the passengers had more than a qualm of the internal economy.

The Kalaupapa band and the majority of the citizens of the pretty little town were at the landing and every face shone with a welcome as boatload after boatload of visitors pulled in and hopped ashore. The visitors, after exchanging greetings with their friends among those gathered to welcome them, went straight to the residence of Superintendent Jack McVeigh, where breakfast was served to all those who had felt unequal to the occasion on board ship. During this time the excellent settlement band played in the square before the Superintendent's house, their numerous selections being praised and applauded by the visitors.

In the meanwhile the citizens had gone for their horses and vehicles and shortly after eight o'clock the legislators and others started across the settlement for Kalawao, riding and driving past the many neat cottages and gardens, the occupants of which were at their gates to shout an "aloha" to their guests.

Kalawao was reached just as the Easter service in the little Roman (Continued on Page Seven.)

CLEVELAND, April 1.—John D. Rockefeller has given Forest Hill city 600 acres of land.

CHEMULPO FIRE WAS EXTENSIVE

It is reported from Chemulpo that the official investigation shows that the number of houses destroyed in the conflagration reported in our last issue was about four hundred, over two hundred and fifty of these being Japanese. As the scene of the fire was the business quarter, many of the buildings demolished were of importance, and the loss is estimated at about 2,000,000 yen. The Japanese authorities are sending boiled rice and other provisions to the sufferers. Three children of Mr. Nakamura, a dealer in fancy goods, on whose premises the fire originated, were killed, and two other persons are missing. The outbreak extended over an area of about ten acres.—Kobe Herald, March 7.

The launch Brothers left early yesterday morning for Eleele point, where an attempt will be made to save the engines of the Hawaiian Sugar Company's wrecked \$3500 launch, John Young, Pete Baron and Harry Gahan form the salving party.

THE UNDATED RESIGNATION

(Continued from Page One.)

dred dollars a month. In one instance a mother and daughter are employed by the Board of Education and the husband draws a good salary for a clerical position in a business house on Fort street. Still another is the teacher whose husband is drawing a good salary in an institution while she teaches school because she would rather hire the household work done than have the bother of looking after it herself. And yet she has not a child who is an expense. The married white women get the best salaries while the single ones are shunted into places where the pay is small.

Much has been said in the Senate about discrimination shown by the Superintendent of Public Instruction. One Senator said on Saturday that if there was better judgment and more discrimination shown the need for such a measure as that introduced by Senator Dowsett would not be so great. With more of the better schools to offer the teachers who would come from the universities this Senator believes the standard could be raised materially. And he believes that in the positions in the schools paying two hundred dollars a month men and women with superior training for the places could be obtained without much difficulty.

THROUGH THE MORNING.

Senator Lane stole a march on his colleagues by watching the clerk while he was reading the journal. Directly he said "adjourned" the tall young man from Palama moved adoption. It was the first time he had looked natural for a week.

A communication from the Superintendent of Public Works in answer to an inquiry by Senator Coelho, relative to the pay of laborers on Maui for October and November, 1906, was not satisfactory and a few remarks were made on the subject. Coelho was for sending it at once to the Judge of the Second Circuit and have the matter investigated by him. In his opinion the superintendent was trying to cover up a deal by which the men had been kept out of their pay. He had merely replied to the query by saying the vouchers are on file. Senator Coelho remarked that vouchers are always signed but the men are sometimes kept out of their money by the person who uses it in the payment of his personal debts and who returns it when convenient for him to do so.

Senator Chillingworth contended that the reply of the superintendent was in due and correct form and opposed the action of sending the matter to the circuit judge. If the men have not been paid it is a case for the grand jury, not for the judge.

Senator Kalama suggested that it be sent to a committee for investigation and suggested the Ways and Means. Senator Dowsett agreed with him but thought the Public Expenditure committee was the one to handle it, and to that one it went.

THE GRAB BILL.

A rather lengthy debate followed the reading of a request for the return of House Bill No. 136, relating to salaries of the county officials. When first called the request was filed and afterwards taken up. Senator Makekau made a stiff fight against returning the bill to the House, claiming that as it had passed first reading in the Senate it was too late for any such action. The House rules say a bill may be returned within twenty-four hours but it happens, also, that the House rules do not govern the action of the Senate. The request to return was granted. The action of Senator Makekau was not understood by his colleagues. It seems the House would reconsider the question of the salaries of the county officers with a view to decreasing them under the amount provided by the bill. The Senator from Hawaii believes in the decrease and for that reason it is not known exactly why he objected so strenuously to the bill going back.

Senator Coelho made a short statement relative to the Molokai trip, warning the Senators against any risk of accident and adding that the Board of Health would not be responsible. There are certain rules of the Board, he said, which would have to be observed by the Senators and in the event of an infraction the Senators would be treated as ordinary citizens. Senator Lane objected to the remarks and asked to be given the same freedom of action that is allowed the committee.

Senator Smith made the following re-

port on House Bill 103, which afterward passed first reading:

"Section 1895 reads 'All judges' and clerks' fees, provided for in this chapter, shall be accounted for, quarterly, to the treasurer for the benefit of the public treasury.'

"The bill under consideration amends this section by providing that all fees collected by judges, clerks, high sheriffs, sheriffs and police officers, shall be accounted for to the treasurer, except as otherwise provided in Section 1566 'and except such fees as are intended to reimburse such officers for actual expenditures made by them.'

"Section 1566 provides that the high sheriff, sheriffs and deputy sheriffs may retain certain fees which are specified in the section."

The same Senator reported as follows on House Bill 103:

"The Judiciary committee have had under consideration House Bill No. 103, entitled 'An Act relating to terms of Circuit Courts, amending Sections 1644 and 1645 of the Revised Laws as amended by Act 34 and 37 respectively of the laws of 1905,' and we recommend the passage of the bill.

"The bill relates to the terms of court to be held in the several circuit courts of the Territory and provides for certain changes in the dates at which the terms shall commence. These changes are set forth in detail in the bill.

"There is also a provision by which the terms in the first and fourth circuits shall continue from the time of their commencement until the commencement of the next succeeding term, which practically keeps them in session continuously.

"The proposed changes are approved by the Judiciary committee."

Senator Chillingworth made an oral report of the visit of the committee to the Governor relative to the undated resignations and on motion the report was accepted.

Senator Knudsen gave notice of his intention to introduce a bill to amend certain chapters of the Revised Laws and did so introduce and the bill passed first reading by title.

THE MUNICIPAL BILL.

The municipal bill was called in its regular order and Senator Dowsett moved to defer on account of press of other work. Senator Coelho was willing to adopt the report of the committee, and all of the pages of amendments, hokus-bokus, but Senator Smith said the bill was too important for any such action. Senator Chillingworth, seconded by Senator Dowsett, moved that the Senate go into night sessions during the week but before a vote was taken Senator Smith asked that action be deferred on the motion until Monday when the Senators would know just what amount of work would be left for action.

Senate Bill No. 76 passed third reading unanimously as did House Bill No. 41, which will give the outside papers a chance at the publication of the legislative enactments. House Bill 52 also passed third reading but when No. 91 was called a motion was made to defer until Tuesday, so the bill went over.

The "one man one job" bill was up and Senator Smith moved that it be amended so that one person should draw but one salary from the Government. The amendment was accepted and the bill passed thirteen to one. House Bill 152, relating to the fees of jurors at coroner's inquests passed third reading and Senate Bill No. 10, relating to pounds, passed second reading by the adoption of the committee's report published on Saturday.

Senate Bill 10, relating to married women being employed as teachers in the public schools, was called and Senator Smith moved, seconded by Senator Knudsen, an amendment that would have wiped out the kernel to the measure and the teachers would have not been interfered with. The Senator remarked that such a law might work a hardship but as it happens that the husbands of the married teachers in the Honolulu schools are all doing well the statement had no effect upon the champion of the single girl's rights. He said it was the duty of married women to stay at home and look after the household cares and bring up their children properly instead of neglecting them by leaving them to the care of Oriental servants or allowing them to run wild. The fact that these ladies are willing to teach causes discrimination on the part of the Superintendent of Public Instruction and the younger and just as capable teachers are sent out in the country. When Hawaiian girls get married they give up teaching and look after their homes as a rule.

Senator Smith moved to amend the bill so it would reach the women whose husbands support them but this was

Home Made Lace Curtains

People often in furnishing a home must economize and stretch dollars as far as possible. A common way of doing this is to buy one pair of curtains and then put a half pair of curtains on each of two windows. This arrangement seldom appears nice. There is a way around it. Arabian colored curtains are all the go. And better still a curtain is in style if it is absolutely devoid of ornament. Simple, plain Arabian net is hemmed at top and bottom and constitutes a curtain. It jibes well, too, with the many mission homes which have been erected and are in course of building in Honolulu. J. HOPF & CO., the furniture people in the Alexander Young Building, have just received a large lot of imported Arabian net. It is sold by the yard and comes in the following widths: 54 inches, 72 inches and 108 inches. They also have a nice assortment of plain Arabian curtains at moderate prices and some very handsome hand-made curtains.

KANIHO IS OBSTRUCTING

(Continued from page One.)

Kalelopu, as a member of the society, explained that the society had nothing to ask for from the House except the honor of the presence of the members at the luau.

The Clerk was instructed to thank the society for the invitation.

LIBRARY BILL.

A report was presented from the Committee on Education relating to Hughes' library bill, and was adopted. The bill provides for the establishment of the Hawaiian Library and provides for its care and management.

REGULATING PRIVATE SCHOOLS.

The same committee reported favorably on Senator Hewitt's bill to put all private schools under the same regulations as those governing public schools so far as hours of attendance are concerned, and also requiring private schools to be recorded with the Department of Public Instruction.

LABORERS' PAY.

A bill to take the place of the one vetoed by the Governor, respecting the pay of road laborers, was introduced by Nakaleka. This bill provides that the daily pay for each working day of each laborer engaged in constructing or repairing roads, bridges or streets, waterworks or other works either by contract or otherwise for the Territory of Hawaii, or for any political subdivision thereof, shall not be less than one dollar and twenty-five cents. The bill passed its first reading and was put on the special order of the day for Monday.

THIRD READINGS.

There was only one House bill on the order of the day, that being Long's act relating to negotiable instruments which was deferred until Tuesday. Two Senate bills, numbers 73 and 44 were also on the calendar. The first of these confers the power of eminent domain on the counties in certain cases, the intention of the bill being to allow the counties to condemn lands needed for county purposes, a power at present only vested in the Territory.

DRAWN OUT DEBATE.

The consideration of this bill drew from Rawlins the remark that he wouldn't give the snap of his finger for his chances when represented by one man against two appointed by the government in the matter of arbitrating prices of condemned lands. Hughes and Mahoe asked a number of questions on this bill, which Rawlins answered, but Mahoe could not grasp the purport of the bill. A motion to postpone until Monday was lost, whereupon Kaniho moved to indefinitely postpone because of defects in the bill detected by his honorable friend Mahoe.

Kaniho said the law was a land grabbing measure which might work an injury against the kulana owners. He rambled on in his remarks for a considerable time.

"I want to see a county a county, not a half-grown babe that has to be fed by the Superintendent of Public Works or any other Territorial official," said Rawlins, who described the present system of having to come up and knock at the Superintendent's door and wait for him to say "come in" and have to say "please" to him to get land needed by the county. The only point in the bill was in transferring to the counties the power now limited to the Public Works department.

Sheldon thought the law a good one although he had an idea that some sections might be amended to make it more fair. The matter of publication of notice might be made longer than for three weeks. He favored a delay in order that these defects might be remedied.

Kaleo took a hand in the debate, explaining that the law was a land grabbing measure which might work an injury against the kulana owners. He rambled on in his remarks for a considerable time.

plaining why he agreed with Kaniho. ELECT GOD SUPERVISORS.

Pall wanted to know why some members agreed with the bill but wanted to delay it. So far as he was concerned, and he spoke for the Maui delegation, he was ready to vote for the bill now as it stood. If the members from Oahu and Hawaii elected supervisors they could trust they should also be able to vote now for the bill. Possibly the honorable member from Wailua had become misled because of the County Beacon cartoons.

Mahoe objected strenuously to his remark, and forsook his usual demure demeanor to emphasize his objection.

Kalama reviewed the bill and heartily disagreed with the proposition that it was a land grabbing measure.

A vote on roll call showed the House divided in favor of the bill by twenty to six.

DIVERSIFIED INDUSTRY BILL.

Senate Bill 44, exempting from taxation property used for the production of vanilla, starch, pineapples, sisal, copra and castor oil, was passed as amended in the House.

NIGHT SESSION THREATENED.

Senate Bill 30, the Territorial salary bill, was given a first reading and ordered sent to the Printing committee, the amendments in the Senate having made the measure a different bill to that originally drafted and introduced into the House as House Bill 73.

In discussing the necessity of haste over this bill, Rawlins said that if necessary he was ready to move for the holding of night sessions this week.

COURT INTERPRETERS.

A communication from Henry Smith, clerk of the Judiciary Department, gave the information that C. L. Hopkins and Fred W. Beckley, the Hawaiian interpreters, were Hawaiian born and true citizens. Chang Kim and George Yamada, the Chinese and Japanese interpreters, were not citizens. The former had been a resident for thirty-one years and the latter for twenty-three years.

SECOND READINGS.

The following bills passed second reading: House Bill 164, authorizing the manufacture and distribution of electricity on the island of Maui;

House Bill 167, requiring the Supreme Court to render opinions to the Legislature and the Governor on important points of law and upon "solemn occasions";

House Bill 168, another electricity bill for Maui, incorporating a company for establishing an electric light and power plant;

House Bill 169, authorizing a clerk of the court to enter judgment immediately upon the rendition of a verdict and allowing an execution to issue thereon at any time thereafter, unless stayed as provided by law; and

House Bill 170, placing the license fees on trust companies in the Territory at \$250 per annum.

STATUS OF BILLS.

The Clerk reported on the status of the House bills sent to the Senate and to the Governor.

The Speaker called for the minority report on Sheldon's first bill to make the office of road supervisor an elective one, the introducer asking for a recess to confer with his colleagues. The minority of the Judiciary Committee. The report, when submitted, asked the tabling of the bill, as the subject was covered by House Bill 117. The report was adopted.

BUREAU OF CONVEYANCES.

The House went back to the order resolutions to allow Kalelopu to give notice of the introduction of a bill to establish a Bureau of Conveyances, superintendent to be appointed by the Governor, to serve for four years or less, unless removed.

The bureau is to be a branch of the Treasury Department and deputy registrars are to be appointed by the superintendent, for whose official acts he shall be responsible. The bill passed first reading, after which the House adjourned until Monday morning.

KAHALUI CHURCH IS DEDICATED

Meeting Evangelical Association--Gun Clubs Compete for Cup--Notes.

MAUI, March 29.—Last Sunday afternoon, the 24th, the new foreign church at Kahului, a pretty chapel of Gothic design, was dedicated in the presence of two hundred and fifty people from all parts of central Maui.

Rev. Dr. Doremus Scudder of Honolulu preached the sermon and Rev. B. V. Bazata of Paia, Rev. R. B. Dodge of Wailuku, Rev. D. W. K. White of Lahaina, Rev. Mr. Santos of Paia, and Rev. John E. Dodge, all assisted in the dedicatory ceremonies.

Miss Ormerod sang a solo and the choir of the Paia Foreign church sang an anthem. An interesting part of the exercises was the passing of the keys of the new edifice by W. J. Moody, the contractor and builder, to H. P. Baldwin, chairman of the building committee, who in turn delivered them to Rev. John E. Dodge, the pastor of the church. Brief and appropriate addresses were made by each of these gentlemen.

The Kahului R. R. Co. ran special trains for the occasion.

UNLAWFUL FISHING.

On Sunday, the 10th, two Hawaiians, two Portuguese and one Japanese, all residents of Kihai, went fishing with giantpowder at Keonioio, some fifteen miles away from their home, on the seashore makai of Uluhalakua. To use giantpowder in fishing is directly against the provisions of the law but this cosmopolitan company, so it is alleged, not only did this, but also did most of their fishing at a private fishpond stocked with the fattest of mullet.

They exploded some of the powder over the sea but most of it did execution within the sea-wall of the mullet pond of David Kapohakimohewa.

At any rate, so the story goes, they took away six bags of spoil, consisting mostly of mullet. Deputy Sheriff Edgar Morton has been working up the case for some time past and the five men will be tried at the Uluhalakua court before Judge George Kunukau, the latter part of this week. The minimum penalty for giantpowder fishing is \$25 and the maximum fine, \$50, with a short term of imprisonment at the option of the magistrate. Police officials state that the offense should be punishable only by imprisonment for a long period.

GUN CLUBS MEET.

On the 24th, at the new traps at Wai-kapu, a contest between neighboring gun clubs took place for a silver cup offered by the Maui Hotel. It was a shoot between representatives of the Punnene club on one side and those of the Kihai and Wailuku clubs on the other.

The Punnene marksmen were G. L. Keeney, G. W. Mayfield, W. W. Westcott, A. Betts and Wm. Lougher, and the Kihai-Wailuku "shots" were P. J. Bell, W. A. Sparkes, M. Moura, E. M. Keeney, and F. A. Mayfield.

Kihai-Wailuku won by thirteen points. Another match and perhaps more will be necessary to decide the permanent ownership of the trophy which must be won twice by the same team.

EVANGELICAL MEETING.

Today will see the close of the March meeting of the Evangelical Association of Maui, Molokai and Lanai held at Paia church during the 23rd, 24th, 25th, 26th, 27th, 28th and 29th. Aside from much business transacted the principal events were as follows:

On the 23rd, there was an address by the Secretary of the Hawaiian Board, Rev. Doremus Scudder, D. D.; on the 24th, there was a sermon by Rev. O. H. Gulick, and Lord's Supper; on the 25th, there was an exegesis of Col., Chap. I, by Rev. Dr. Scudder; on the 26th, there was an exegesis of Col. 2, by Rev. John E. Dodge; on the 27th, there was an exegesis of Col. 3, by Rev. O. Nawahine; on the 28th, there was an exegesis of Col. 4, by Rev. R. B. Dodge; and today will take place the second in a series of lectures on the

Vapo-Cresolene

Established 1879

Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure disease of the breathing organs than to take the remedy into the stomach? It cures because the air rendered strongly antiseptic is carried over the diseased surface with every breath, giving prolonged and constant treatment. It is invaluable to mothers with small children.

Those of a consumptive tendency find immediate relief from coughs or inflamed conditions of the throat.

Sold by druggists. Send postal for booklet. VAPOR-CRESOLENE CO., 180 Fulton St., New York, U. S. A.

history of the Bible by Rev. B. V. Bazata.

The committee in charge of the convention were Peter N. Kahokuoluna, moderator; Rev. D. W. K. White, president S. S. Association, Mrs. P. N. Kahokuoluna, president C. E. Association, and Rev. R. B. Dodge, agent.

NOTES.

John Gossin has become postmaster of Kahului. Mr. Gossin is well known and has been most popular as a salesman in the Kahului Store for several years past.

E. Deinert of Punnene is the official examiner on Maui of the qualifications of drivers of automobiles.

Mr. and Mrs. H. P. Baldwin and Miss Charlotte Baldwin, of Punnene, will depart for a several months' trip to Japan next week.

Lieutenant Johnson is in charge of the Salvation Army station on Maui with headquarters at Wailuku. He took the place of Capt. Lyman, who is at present in Oakland.

S. R. Dowdle of Kula is the architect of the new Kahului foreign church. He also designed the Masonic temple.

Rev. Dr. Scudder of Honolulu preached at the Paia Foreign church last Sunday morning.

Dr. G. S. Aiken, the Makawao dentist, is in Hana for two weeks.

Last Saturday night a most pleasurable dancing party was given at the pretty home of Mr. and Mrs. E. O. Born of Kahului. A band of native musicians furnished excellent music and the party was in every way a success.

The Kahakuloa road, leading into Waihee from Lahaina, is in a bad condition. There is not only a heavy growth of lantana to impede the way but recent washouts have rendered journeying still more difficult.

The pig-raisers of Kula are becoming somewhat discouraged. Since the departure of many Chinese laborers from the plantation camps, the local market has become limited and the price of pork has lowered.

The steamer Texan arrived in Kahului last Monday, stayed a few days and departed.

Weather: Strong March winds.

SPORTS

C. A. Cs. Lose Championship

After a brief conference between the captains of both teams, the game which was scheduled to be pulled off promptly at two o'clock, between the Kiloanans and the C. A. C.'s, was played. The Chinese seemed to have had an idea that defeat stood outside of their door, for they wanted to be allowed to put in three new players whose names do not appear in the official lists. It was finally decided to allow them to have their way, and the game began.

A large number of Chinese witnessed the game, which was exciting throughout. The C. A. C.'s had won the first series and the Kiloanans the second, and the game yesterday was to decide the championship.

Espinda of the Kiloanans struck out fifteen men with his puzzling curves.

The line-up was as follows:

C. A. C.'s—Kong Chew, lf.; Ah Koin, c.; Joe Kong, p.; C. Ping, lb.; Ah Hong, 3b.; Sing Chong, ss.; Tai Chau, cf.; Apia, rf.; Ho Lin, 2b. Kiloanans—W. Espinda, p.; Kupa, 2b.; Kapral, 3b.; Chuna, cf.; Bill Bailey, ss.; M. Shultz, c.; Zebre, lf.; Joe Bronco, lb.; Dschulligan, rf.

Second Teams Whack the Ball

The minor baseball teams and leagues had their innings yesterday. The Chinese Alohas and the Kaalaa were the first to cross bats, and the entire day was spent in that district by witnessing baseball games at Aala Park.

The Chinese put up a good game, Chang Yen's pitching being especially good, as the 11-9 score shows.

The line-up for the Alohas, follows:

Quan Chan, c.; Chang Yen, p.; Ny Sing, lb.; Ah Kee, 2b.; Sul'Chen, ss.; Ah Yap, 3b.; Ah Hoy, lf.; Ho Tong, cf.; Hang Nanu, rf.

Saloon Men at Baseball

Kapiolani Park was the scene of what one of the spectators called "a red-hot game of baseball," between the Encores and the Fashions. Six runs was all the Encore nine could make, while nine was that which the scorer chalked up to the Fashions' credit.

The men who played were:

Encore—Mockett, 2b.; Howard, 3b.; Milton, p.; McGuire, c.; Hilton, lb.; Lawton, ss.; Riley, cf.; Maughby, rf.; Fashion—Vida, 2b.; Matt, rf.; Bower, c.; Grimes, p.; Buckhnan, lf.; Scully, cf.; Osborn, ss.; Soy, 3b.; Strein, lb. Umpire—Ringland. Scorer—M. Lambert.

THE FILIPINO'S LABOR STOCK IS GOING UP

(From the Manila Times, Feb. 25.)
 "We are now employing on our road construction work in the Visayas about 4000 native laborers and expect to increase this number very shortly to 8000 for we have found their work thoroughly satisfactory. Better and more results for the money expended can be obtained with Filipino labor than with that afforded by any other part of the world."
 Coming from such a competent source as President Charles M. Swift of the Philippine Railway Co., the foregoing statement, made at the Quill Club banquet, strikes with something of a shock.
 It hits another blow at one of our cherished preconceptions or misconceptions of the Filipino.

In those hours of ease in club or office when the "hammer" is out and we delight to do the Filipino honor by pounding him into a gloriously disreputable impossibility shorn of every virtue that goes to make a man, one of the failings that we most love to smite is his worthlessness as a laborer. The very suggestion that he might be counted on as a factor in helping develop the islands is greeted with a contemptuous snort with the implication that the speaker who ventures the suggestion is a tenderfoot who has "everything to learn."

When it comes to a question of labor, however, we can not put Mr. Swift in the tenderfoot category. His dictum

KOHALA CRIES OUT FOR CONVENIENCES

Editor Advertiser: Your Kohala correspondent writing recently called us an up-to-date community. Will your readers compare the following facts and draw their own conclusions:
 Throughout the whole of the Kona coast, each port of call boasts a Government wharf and shed, yet Kohala, with its two ports—Mahukona and Honouliuli—doing twice as much business as the whole of the Kona put together, has neither the one nor the other. Certainly we have at Mahukona a so-called landing but, on account of its unfitness, little used. Also we have the Hawaii Railway Co. with its wharf and ample sheds.

I think I hear my readers say: Well, is that not enough? Not quite. Suppose you happen to land your goods on the Government landing and wish to store them prior to taking them up on your own wagon in preference to sending them up by rail. What is going to happen? I need not say.

We, as a business people (apart from plantations), at present are seriously controlled by the Hawaii Railway Co. What we would like to know is:

- (1) Has the Government any land available at Mahukona, for a wharf and shed?
- (2) Are we to be passed over because a private company has those commodities there?
- (3) Are we not entitled to the same benefits as Kona?
- (4) Will some of our legislators now in session look this matter up (and not be lamed by a wealthy private corporation if they do)?

LET THE PLANTERS SAVE THEMSELVES

Editor Advertiser: To my surprise I read in the Star of March 27, that Mr. McCarthy proposed to the Legislature of Hawaii to pass a law to increase the income tax in order to raise funds for helping so-called immigrants and settlers to come here. Will you kindly allow me a few questions in regard to this.

What do the people of Hawaii islands understand by settlers? All over the United States of America we call a settler a man settling on a piece of land (which generally consists of 160 acres) which is furnished him by the U. S. Government, as a homestead free of charge.

Do you have any such lands here and do you give them away under such conditions?
 Answer will be no, but you will say—but, Well, let us come to the naked truth and find out what they really do want. They want plantation laborers and want a lot of fools—that is, the tax

merits attention and must be given weight.

From Hawaii, also, comes a report similarly disquieting to our preconceived ideas of the Filipino as a laborer. Mr. Judd, the Honolulu labor missionary who was looked upon as little short of lunatic when he announced his intention of recruiting Filipinos for the Hawaiian sugar plantations, is said to be delighted with the results thus far obtained. The Filipino in the cane brakes is "making good."

Verily, it begins to look as if the stone which we, the earlier builders, in our sublime ignorance rejected, were about to become the chief cornerstone in our temple of material development.

And who knows but that in other ways the Filipino will yet agreeably disappoint us.

Five years ago, had anyone mentioned such an anti-climax as we are now meeting, he would have been hoist with a petard of surprised incredulity. The very idea of the Filipino proving acceptable as a laborer could find no place in our cocksure lexicon of Filipino abilities and disabilities. We knew him utterly—he was "no good."

Possibly with the years will come a little more charity in our judgment of the Filipino. Possibly we will admit a little doubt into our dogmas and qualify our sweeping condemnations. Possibly we oldtimers may question whether we have not grown "over-wise and over-stale," and again resolve to give the Filipino "a chance."

payers—to pay for getting them. Is that it?

Don't the plantation people know that they have ransacked the furthest corners of the whole universe? Did they not bring laborers here from everywhere over the globe? Where are they now, did an epidemic attack these islands and all those people die out? I guess not.

But, where are they and why did they not stay? Because those poor devils soon found out that they hardly can keep soul and body together with wages paid them.

Now these people have the gall to call on the public to help them to furnish them the means to carry out their selfish scheme.

This is a free country and every branch of industry has to meet keen opposition more or less, and if an industry can not exist it has to go down, that is all.

The only salvation these plantations have is to combine and make every plantation pay the share, according to size and acreage, to raise such a fund and if they have to do that every six months, they may get tired of that, but the taxpayer has nothing to do with that. Perhaps if they pray to the Lord he may help them; if not—the devil may get from Mars some people, when that planet comes near enough.

THE APRIL TERM CIVIL CALENDAR

It Will Be Called by Judge Lindsay at 10 A. M. Today.

Following is the calendar of civil cases for the April term, which will be called by Judge Lindsay at 10 o'clock this morning. As there is no printed calendar for distribution this term, attorneys can make a substitute by cutting out this list and pasting it in a notebook:

- 441. J. P. Mendonca v. George Markham. Ejectment. Holmes & Stanley for plaintiff; C. C. Bitting for defendant.
- 6023. Wm. W. Bierce, Ltd. v. Clinton J. Hutchins, trustee et al. Assumpsit. Kinney, McClanahan & Cooper for plaintiff; Cathcart & Milverton and Smith & Lewis for defendants.
- 5250. The Good Hope Building Association v. F. J. Amweg and Blanche E. Amweg. Assumpsit. Holmes & Stanley for plaintiff; D. H. Case for defendant.
- 5840. Wilder's Steamship Co., Ltd. v. Kamalo Sugar Co., Ltd. Assumpsit. Kinney, McClanahan & Cooper for plaintiff; Magoon & Lightfoot for defendant.
- 6166. Francis M. Hatch v. Samuel Morris. Assumpsit. Ballou & Marx for plaintiff; A. S. Humphreys for defendant.

MARINE

In the better than mailboat time of 7 1/2 days, the British cableship Restorer made the run from Esquimalt to Honolulu, arriving here at 9 a. m. yesterday and anchoring in the stream. The steamer, which, by the way, arrived here first just two years ago, left for Esquimalt in December last to undergo a thorough overhauling. That she got it was evidenced by the splendid time made on the trip from the north and by her spick and span appearance as she entered the harbor. The weather was fine all the way to Honolulu and in great contrast to the dirty atmospheric conditions which rendered the voyage to British Columbia very disagreeable.

Captain Combe returns in charge of the Restorer, but many familiar faces are missing in the ship's company, including First Officer Barnesson, Second Officer Clunie and Third Officer McMunn. The new officers are First Officer Larnder and Third Officer Horsfall. Dr. Sheldon, Chief Engineer Rowell and Chief Steward Robb remain with the ship.

First Officer Larnder brought his wife and son with him and Mrs. Combe and daughter accompanied Captain Combe. Two cable operators, one for Honolulu and one for the Guam station, arrived by the Restorer.

A ROUGH TRIP.

After one of the roughest trips in her history, the steamer Neocau got in from Honokaa at 5:10 a. m. yesterday. She left Honolulu March 19, arriving at Mahukona the following day. After leaving Mahukona very bad weather was experienced, with days wasted in trying to make a landing, until March 29, when the vessel left Honokaa on the homeward trip, leaving with great difficulty landed freight and shipped 4350 bags of sugar. One day's work shipped only 32 bags, another day's only 176 bags, while a third day saw 1000 bags shipped. Although very heavy seas were met with no accident of any note occurred. A boat was capsized at Honokaa, but was saved having been but slightly damaged. An anchor and fifteen fathoms of chain were lost at Mahukona. Judge Hart and Mr. Hall were passengers from Mahukona to Kailua. Beside the sugar, the Neocau brought 34 head of cattle.

THE WRECKED LAUNCH.

The steamer W. G. Hall arrived from Kaula ports at an early hour yesterday, bringing 6000 bags of sugar, 12 bags of empty bottles, 2 pigs and a horse. Purser Grube reported that the new gasoline launch for Makaweli plantation went ashore on Eleele point on her way to Makaweli from Eleele last Friday afternoon. She is a total wreck, but the plantation people will try and save her engines. The breakdown of her engines was the cause of her drifting on the point. The S. S. Nebraskan was reported at Eleele loading sugar.

WATERWITCH'S JAUNT.

The Young Brothers' launch Waterwitch took a pleasure party down to Ford Island yesterday, returning to Honolulu in the afternoon.

A BUSY WEEK.

This will be a lively week along the waterfront, two Canadian boats and the steamers Ventura, Korea and Alameda all being due to arrive.

ARIZONAN HERE.

The A.-H. S. S. Arizonan, Tapley, from Seattle, arrived off port at 10 p. m. yesterday and anchored outside.

MARINE NOTES.

There are at present ten sailing vessels in the harbor. The British barkentine Helga is sixty days out from Newcastle for this port. The American bark St. Katherine is 25 days out from San Francisco for Honolulu. The S. S. Doric should arrive from San Francisco today, with eight days' later mail. The following sugar is reported on Kaula: Mak., 28,749 bags; G. & R., 1798; McB., 23,154; K. P., 4560; P. L., 990; G. F., 14,205; H. M., 27,281; M. S. C., 38,000; K. S. Co., 5000; W., 800.

Report To Governor

The Superintendent of Public Works reports that the interior of the wash house is regularly scrubbed out, but in some of this it is almost impossible to reach the buildings in a thoroughly sanitary condition due to method of washing clothes, adopted by the Chinese; previous to being put into a boiler, each garment, after being soaped, is twisted into shape similar to that of a rope, then swung in the air and thrust against a table top, which operation results in suds and filth being deposited about the walls and ceilings, leaving the several apartments in a very uncleanly condition.

This statement is on page 199 of the report of Superintendent Holloway and refers to the wash house used by Chinese laundrymen. The conditions at the Government wash houses are evidently bad. At the Hartman Steam Laundry the cement floors are as sanitary as can be made and there is no sign of filth anywhere in the building. An inspection of the premises and the method of washing is invited.

THE MOLOKAI SETTLEMENT VISITED

WARD PRESENTED BY C. E. BIS HOP—DUPLICATE JUST BUILT BY THE BOARD.

(Continued from Page One.)

Catholic chapel was about to commence and many of the legislators attended. The service was led by Father Dutton and his earnest assistants. After the service the grounds and buildings of the Baldwin Home for boys was inspected, the committee finally coming to business on the lanai of the Baldwin Hall, before which the residents of the Kalawao settlement had grouped themselves. During the inspection of this place it was seen that things were in about as perfect a condition as possible, conveniently arranged, splendidly kept up, clean and comfortable. The boys' band played a number of well-rendered airs.

RECEIVING PETITIONS.

Chairman Coelho of the Senate Health Committee acted as spokesman of the delegation, taking up the various petitions which had been received by the Senate from the settlement and getting the views of the residents upon them.

The residents had a number of things to ask for. Their yearly allowance for clothing of \$10 was desired increased to \$16 and made payable in cash instead of in warrants negotiable only for goods at the government store. They wished the goods at this store to be sold at cost and not at an increase of ten per cent., as at present. They wanted their weekly allowance of palai increased from 21 pounds to 25 pounds, and meat from seven to eight pounds. These things all were agreed upon.

PRAISE FOR OFFICIALS.

The Kalawao residents were equally agreed in their praise of the settlement officials, the President of the Board of Health, the superintendent of the settlement, the resident physician and the other officials with whom they had dealings.

LIQUOR QUESTION.

A petition had been presented to the Legislature asking that the sale of pure liquors in the settlement be allowed, and this led to a spirited debate, the majority of the residents being seemingly against any such a movement. The speakers in favor of the free importation and sale of liquors argued from the standpoint that at the present time the settlement was full of swine joints, to prevent and abolish which was beyond the power of the police. Pali of Kaula, who spoke plainly on several of the questions at issue, said that he would never vote to allow liquors in the settlement, as it would be as criminal as would be the giving of poison to the patients.

"Give us more food and keep the liquors out," shouted Kahaekukona, being cheered by his fellow patients for the sentiment.

WALLACH AN ISSUE.

One of the presented petitions asked the Legislature to prevent the granting of permission to J. Lor Wallach to practise on the people of the settlement, presented to counteract the prayer of the citizens of Kalaupapa, who desired Wallach's aid. The good sense of the petitioners of Kalawao was praised by Coelho, Long, Kalelopu and Coney, but the good advice of these speakers and the exposure they made of the fake doctor were to some extent neutralized by the injudicious and mischievous speeches of Kaleo and Kahana.

Kaleo told the sufferers that he was decidedly in favor of allowing Wallach to come to the settlement and practise. Wallach had cured himself of leprosy and should be allowed by the Board of Health to come and cure others.

Kahana went even further in making ill-timed remarks, his speech proving to be a plea for the quick and showing a desire to inflame the patients with the hope that by using the medicine man's specifics of Wallach they might be cured. He declared that Wallach had satisfied him of his ability to cure and that the Legislature was not fair to Wallach, inasmuch as it had never asked him to make good his claims.

A petition for increased pay was presented, Senator Smith stating that the same was now under discussion in the House and that the item for free

postage stamps had been passed in spite of the Governor.

GROUNDS FOR DIVORCE.

Polikapu, the spokesman for the Kalawao residents, asked for an explanation of the bill before the Legislature making leprosy a ground for divorce. The impression prevailed that by the bill divorce proceedings must be brought against any one sent to the settlement, and there was a general air of relief when it was explained that the proceedings were optional, not compulsory.

A quartet club then sang a song of welcome and thanks for the visiting legislators, composed for the occasion.

LEPROSARIUM SITE.

The visitors then accompanied Dr. Brinckerhoff to the site of the proposed leprosarium, a beautiful level stretch of ground at the foot of the towering, verdure-clad pali, which here rises even more precipitous than at any other point along the green ramparts. When it was seen on the ground the amount of space that the Federal building will occupy, the committee were decidedly impressed with the scope of the proposed work.

THE BISHOP HOME.

Returning to Kalaupapa, the committee visited the Bishop's Home for Girls, the inmates of which played and sang for the visitors. It was here, of all places, that the terribly pathetic side of the settlement life was impressed upon the committee, and, in the one or two addresses that were made, the voices of the legislators trembled and there were many bedimmed eyes.

Sister Marianne showed the visitors through the schoolrooms and wards of the home, assuring the visitors that the inmates were happy. The quiet way in which the Sister and her assistants spoke of their duties, eliminating all reference whatever or suggestion of the sacrifice of their lives in their work for others, was one incident of the visit which will live long in the memories of those who heard.

NOONDAY LUAU.

An elaborate luau was spread at noon in the yard of the superintendent's house, and here, for a short time, the surroundings were forgotten, for the visitors had been on the move since early breakfast and were hungry enough to enjoy even less enjoyable provender than that before them.

KALAUPAPA'S DESIRES.

Immediately after the feast, during which the Kalaupapa band again played, the petitions of the residents were

again taken up. The desires covered much the same grounds as those discussed at Kalawao, but here the petitioners were more insistent and those opposed to them more emphatic in their opposition.

LIQUOR AND POLICE.

The petition asking for the free sale of liquor brought forth a stormy protest from one of the settlement women, who asked what would become of the women if the men were allowed to frequent a saloon. The spokesman for the liquor men urged the swipes argument. During this discussion it was brought out that the five police on the force could not keep down the illicit sale nor catch the sellers, a disclosure which brought a demand from Senator Smith that Sheriff Walamau be brought up to explain.

WALLACH'S PATIENTS.

In discussing Wallach two men come forward who said they had been patients of his and had been greatly helped by his medicine until they had been arrested and sent to the settlement. Both these men were Chinese.

Ah Noi told of being treated for two weeks, during which time he had regained the use of his hand. He had been promised a cure in six weeks and believed it would have been accomplished if he could have continued the treatment. He had been brought to the settlement in July last.

Kalani Ah Fah told a somewhat similar story. He had had the disease since 1893 and yet Wallach had done wonders for him in two weeks. There was a warm debate, Charles Kawainui leading those who desired to have Wallach attend them. Pressed closely about him were many other patients, hanging upon his words and searching the faces of the legislative committee to see if the last straw for which they were grasping was to be withdrawn from them. They added their remarks to their leader's, their earnestness being such as would come from those pleading in a cause of life and death. The sight added appreciably to the detestation which must be felt for a man who would play upon the feelings of these unfortunates and hold out the draught of Tantalus to them.

McVEIGH PLEASURES.

Of Superintendent McVeigh the residents had nothing but good to say, although there was a criticism of the manner in which the milk supply was distributed, the dairymen being accused of discriminating in favor of the whites.

The bandboys asked for pay for themselves of \$5 a month and a small amount was also requested to move

SETTLEMENT ATHLETIC CLUB.

MOTHERHOOD

The first requisite of a good mother is good health, and the experience of maternity should not be approached without careful physical preparation, as a woman who is in good physical condition transmits to her children the blessings of a good constitution.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound, which is made from native roots and herbs, more successfully than by any other medicine because it gives tone and strength to the entire feminine organism, curing displacements, ulceration and inflammation, and the result is less suffering and more children healthy at birth. For more than thirty years

Lydia E. Pinkham's Vegetable Compound

has been the standby of American mothers in preparing for childbirth. Note what Mrs. James Chester, of 427 W. 35th St., New York says in this letter:—Dear Mrs. Pinkham:—"I wish every expectant mother knew about Lydia E. Pinkham's Vegetable Compound. A neighbor who had learned it and I did so, and I cannot say enough in regard to the good it did me. I recovered quickly and am in the best of health now."

Lydia E. Pinkham's Vegetable Compound is certainly a successful remedy for the peculiar weaknesses and ailments of women. It has cured almost every form of Female Complaints, Dragging Sensations, Weak Back, Falling and Displacements, Inflammation, Ulcerations and Organic Diseases of Women and is invaluable in preparing for Childbirth and during the Change of Life.

Mrs. Pinkham's Standing Invitation to Women suffering from any form of female weakness are invited to write Mrs. Pinkham, at Lynn, Mass. Her advice is free.

Beretania Hall and put it into shape for public use.

Among the other requests made was permission for the Protestant and Mormon ministers to visit the settlement as often as they desired, the putting in of a machine for cutting firewood, more frequent calls of steamers, the repairs to cottages recommended by President Pinkham, an increased reservoir service to provide fire protection and an investigation into freight rates, the rate now being \$3.50 a ton for Board of Health supplies and \$7.50 a ton for private supplies for the lepers. The committee promised to consider these things.

The Kinau was reboarded about half past three, reaching Honolulu at nine last night. The party consisted of the following named persons: Senators W. O. Smith, W. J. Coelho, J. C. Lane, Hons. A. D. Castro, A. S. Kalelopu, J. Kalana, W. B. Naillima, C. Akau, J. Nakaleka, S. Kahana, P. Pali, J. H. Coney, H. L. Holstein, S. P. Correa, J. T. Paoo, Secretary A. L. C. Atkinson, High Sheriff Wm. Henry, Sheriff C. P. Laukea, Dr. Brinckerhoff, H. P. O'Sullivan, Mr. Ludloff, B. Kelekolio, J. M. Brown, John Clark, Cecil Kulehua, Rev. Lono, D. Sheldon, M. De-cocto, G. Kallikane, J. H. Boyd, T. R. Mossman, E. L. Like, J. M. Poepe, E. Kruger, J. H. Wilson, T. Onodera, R. O. Matheson, E. P. Irwin, C. T. Rhodes, D. Kalauokalani Sr., H. A. Juen, W. K. Simerson, S. Camp, J. D. Marques, F. J. Testa, L. S. Connors, Kimo Poai, Kekumu, S. Nuuanu, J. Emmeluth, Gus Rose, E. Stiles, Wm. Savidge, C. Clark, Norman K. Lyman, T. P. Joseph, R. C. Coelho, J. H. S. Kaleo, Kalani, J. R. Rodrigues, T. P. Mellin, A. Fernandez, E. Woodward, J. H. Kakuole, President L. E. Pinkham, Supt. J. D. McVeigh, E. Van Lil, Mrs. Rose Lahaina, Mrs. S. K. Kaunamano.

THE RECEPTION COMMITTEE.

The official committee to arrange for the reception and entertainment of the Congressional party is now complete and will probably get to work right away. It consists of Governor Carter, Secretary Atkinson, Delegate Kulo, President Bishop, Messrs. Lane, Woods, Knudsen and Coelho of the Senate; Speaker Holstein, Messrs. Coney, Akau, Pali and Correa of the House of Representatives.

By Authority.

OUR NEGLECTED OPPORTUNITIES

Annual Outlay for California Butter and Eggs--Big Island News.

HILO, March 29.—"Our firm sends about \$75,000 a year to California for butter and eggs," said Secretary Ed. Ingham, of the Metropolitan Meat Company, who has been spending a vacation at the Parker ranch and is now at the volcano, "but the big Parker ranch of this island is capable not only of supplying our big order, but probably of supplying the whole Honolulu market with these products, as well as producing other things which are imported."

"I have been making quite a stay at the ranch. They tell me that they can not make anything by producing butter, eggs or that kind of stuff because it can not be got to Honolulu. I understand, however, that the new Inter-Island steamer is likely to have cold storage holds, which will make it possible for such produce to be shipped between the islands. The matter has been taken up, and I was given to understand at the ranch that such provision for shipments would be made."

"Even with steamers prepared to carry the product, however, it would probably not be practicable under present conditions, for such a place as the Parker ranch to go into the business. There is no way to get the freight to the steamer at reasonable cost, or in reasonable time. I expect there will be a railroad up the Hamakua coast ere long, and that will make the proposition entirely different."

"In the meantime, the importing goes on, and thousands of dollars are lost to the islands monthly. There is no reason in the world why the islands should not use their own produce, except the lack of means of distribution. The California product is excellent, but the island product ought to equal it."—Hawaii Herald.

ROAD INQUISITION.

Chairman Todd of the Board of Supervisors had a session with the grand jury last Tuesday, which was not altogether a pleasant one. The jurors had taken up the matter of the condition of some of the county roads and when they questioned the chairman of the board they suddenly bumped up against a remarkable explanation. The entire March appropriation for roads has been held up, it appears, because of an error in ordering it. The error was discovered after the adjournment of the last meeting, over three weeks ago, but though a special meeting could have rectified it in a few minutes, nothing has been done, and matters have gone from bad to worse.

Road Supervisor S. K. Kanoe was subpoenaed as a witness to tell of a terrible bit of road near Ooakala which he is said by some to have made worse by putting earth, which quickly turned to mud, on it instead of rock. There

MOTHERS

should know. The troubles with multitudes of girls is a want of proper nourishment and enough of it. Now-a-days they call this condition by the learned name of Anemia. But words change no facts. There are thousands of girls of this kind anywhere between childhood and young ladyhood. Disease finds most of its victims among them. Some of them are passing through the mysterious changes which lead up to maturity and need especial watchfulness and care. Alas, how many break down at this critical period; the story of such losses is the saddest in the history of home. The proper treatment might have saved most of these household treasures, if the mothers had only known of WAMPOLE'S PREPARATION and given it to their daughters, they would have grown to be strong and healthy women. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. In building up pale, puny, emaciated children, particularly those troubled with Anemia, Scrofula, Rickets, and Bone and Blood diseases, nothing equals it; its tonic qualities are of the highest order. A Medical Institution says: "We have used your preparation in treating children for coughs, colds and inflammation; its application has never failed us in any case, even the most aggravated bordering on pneumonia." The more it is used the less will be the ravages of disease from infancy to old age. It is both a food and a medicine,—modern, scientific, effective from the first dose, and never deceives or disappoints. "There is no doubt about it." Sold by all chemists here and throughout the world.

was, however, no crushed rock and no money to get it.

Lanakila Ross of Kukaian has been indicted for forgery of a road pay warrant for \$8.

LARCENY OF BACON.

At a meeting of the Los Angeles luau committee a touch of humor was given by the troubles of the Rev. S. L. Desha, who, it was stated, had been accused by a local publication of the horrible crime of swiping luau supplies. Mr. Desha admitted the loss of half a side of bacon, and deeply regretted it. It appeared that he had secured a whole side of bacon and had cut it in half. He admitted having left one-half out of his sight for a few minutes, and said that when he next looked for it the place where it was knew it not. This tragedy was the only thing that attempted to mar the general pleasure which the committee took in the acknowledged fact that the luau was a success and had been excellently managed.

ITEMS.

Mrs. Marsh entertained the Piano Club at the home of Mrs. R. I. Lillie Wednesday afternoon, March 20. Those taking part in the program were Mrs. R. T. Moses, Mr. and Mrs. Carl Smith, Mrs. Dranga, Mrs. Marsh, Mrs. Jarrett T. Lewis, Mrs. Siemsen and Mrs. W. H. C. Campbell.

F. J. Cross, head of the Inter-Island Telegraph Co., arrived on the Kinau, accompanied by Mrs. Cross.

Rough weather has been delaying the working of cargo by the Enterprise, and she will not leave until some time next week.

W. H. C. Campbell, otherwise known as "Billy," manager of the Hawaii Mill Company, has been elected Exalted Ruler of the local lodge of Elks.

W. D. McWayne, a well known citizen of Honolulu, is to remove to Honolulu with his family. He is manager of the McWayne estate and is well known to travelers as the host of the hotel in Honolulu.

Mr. and Mrs. L. A. Thurston are the guests of Mr. and Mrs. W. H. Shipman. They will be here about a week longer.

R. W. Shingle, president of the Waterhouse Trust Co., was again a passenger by the Kinau this week.

The rains up Hamakua way have been heavier and more constant than in Hilo and roads are in very bad condition in many places.

A valuable scow, owned by the Matson Navigation Co., went ashore last Friday at Wainaku. It was being towed to the landing by the Lurline, when the cable parted. Much of the freight aboard the scow was saved, but efforts to pull the scow off were fruitless.

Alexander Young states that he has no intention of opening the Hilo hotel. He has been looking into the matter, he says, and believes that the hotel would pay, but has not had any serious intention of entering the local field, having enough to look after at Honolulu.

The Hui Owi, which was reported as disbanded some time ago, owing to disagreements with the Honolulu lodge, has reorganized and held a meeting last Monday night.

The list of cases on the criminal calendar of the present term has already dwindled considerably. In the Chinese cases arising out of the disinterment of a human body, a stipulation was made by which none should be tried prior to April 15, as R. W. Breckons, who is in the case, can not get here until then. In the case of Kim Moon Sun, the Korean convicted of embezzlement, the defendant has withdrawn his appeal. In four other cases the appeals have been withdrawn.

REPORT OF PALAMA DISTRICT NURSING

The district nurse of Palama Settlement submits an exceptionally good report for the month of March, 1907. In all, one hundred and twenty visits were paid by the nurse and her assistants. The pure milk depot for infants will very soon be an assured fact. It is hoped by the starting of this depot to reduce to some extent the present large infant mortality.

It is in aid of these projects that a fair is to be held at the Palama Settlement. Several well-known ladies are to assist the workers. In the evening there will be an entertainment. Cakes, jellies, ice cream and all sorts of delicacies will be sold, in addition to fancy articles of Hawaiian, Japanese, Chinese and European make.

The report of the nurse is as follows: Number of cases seen, 34. Number of calls made by district nurse, 102. Number of calls made by assistants, 15.

Cases sent to doctor, 3. Nationalities treated—Hawaiian, 23; Portuguese, 4; American, 7. Districts visited—Palama, Punchbowl, Kalihi, Diamond Head.

Cases sent to hospital, 1. Sat up one night with patient. Cases as follows—Typhoid, 1; tubercular hip disease, 2; pulmonary tuberculosis, 3; dengue, 2; bronchitis, 2; eczema, 1; worms, 1; dog bite, 1; scabies, 1; impetigo contagiosa, 7; ill-nourished baby, 1; pneumonia, 2; grippe, 2; sore eyes, 1.

The expert hat cleaner is still at the old stand on Fort street where he cleans and blocks hats in all styles. Has just received a line of genuine Porto Rico hats. Call and see them.

PLEA FOR MARRIED WOMEN TEACHERS

Editor Advertiser: Should the married women be allowed to teach in our public schools? This question seems to be taking up a lot of the valuable time of our legislators and from the merits of the bill it seems that they might better be putting their time to some more needed legislation. The promoters of this bill have admitted that they were aiming their efforts at the teachers employed in the larger districts, first of all, the district of Honolulu. Therefore let us confine ourselves to a few figures for this district alone.

From the latest "Report of the Superintendent of Public Instruction," it will be found that we have twenty-seven married women teaching in the public schools of Honolulu. Of this number, from fifteen to twenty are wholly dependent upon themselves for their support. In three or four cases, the women have taken up teaching in order to help make both ends meet. In every instance but one, these married women hold first-class certificates or better. For years, teaching has been their life work. Must they now be cast aside for the reason that in one or two cases a woman is teaching whose husband is earning a good salary? Must they be cast aside for the simple crime of matrimony? Does matrimony make them unfit? If so, how many of the young lady teachers of today will in the future hesitate at getting married because, if ever necessity demand that they again take up school teaching, they must first, as one of our senators suggested, "get a divorce"? Last of all, the claim of our legislator is that the married woman is keeping the single or unmarried girl from holding a position on

the teaching staff. If this be the case, if there be so many efficient and competent teachers seeking positions, why is it that there are today fully a hundred teachers in the employ of the board who hold no certificates whatever? Yours for

FAIR PLAY.

IMPORTANT ANGLO-JAPANESE BUSINESS

Has the following item from the Kobe Herald any relation to the news received by a Japanese hotelkeeper in Honolulu, in a letter from a member of the Japanese Parliament, to the effect that Japan was expecting to negotiate new treaties with Great Britain, France and Russia?
"According to the Yozodzu, it is stated that Admiral Yamamoto, who left Tokio for England some days ago, will remain in London for some time after H. I. H. Prince Fushimi's mission is over in order to discuss with the British government a certain question of the highest importance. It will be remembered that Admiral Yamamoto was Japanese Naval Minister throughout the late war."

HAWAIIAN FOLK TALES.

By the Nebraskan has been received Mr. Thos. G. Thrum's looked-for volume of Hawaiian legends that has been compiled from such various sources as carries with it authoritative reliability. The collection embraces twenty-five legends and traditions, and five original Menehune stories, literally translated, the whole enriched with a series of sixteen full page half tone illustrations. It is being well received and is worthy a place in every home, for such knowledge of the land we live in is fast passing from us.

HAWAIIAN FEAST WAS GARGANTUAN

A Thousand People Ate Eleven Hundred Pounds of Pig and Ton of Poi.

The luau given on Saturday night in the new Brewer's wharf building by the Hul Hookuonoono o na Olwi Hawaii, was the largest affair of its kind ever held in Hawaii.

Over a thousand people were fed and \$26 sat down at the first tables. There were five tables each two hundred feet long and waited on by fifty young native ladies.

The tables were spread with ti-leaves and ferns and hundreds of lei plants decorated the walls of the building. Eight hundred calabashes were made out of ti-leaves, to hold the poi.

Two thousand pounds of poi were consumed and eight pigs aggregating in weight 1125 pounds. There were three pigs weighing 200 pounds each, three weighing 125 pounds each and two tipping the beam at 75 pounds apiece.

Four hundred large mullet, two hundred and forty dried opelu, 18 fat chickens and 800 lalauas helped out the solid courses and 600 bottles of soda water, sixty big cakes, seven great bunches of bananas, two cases of oranges, two cases of apples and two boxes of nuts and raisins furnished the dessert.

Everything served at the luau was cooked in three hours in an immense imu constructed at the home of Supervisor Joe Fern, with the exception of the lalauas which were prepared on the premises of the Waterhouse Poi Company at Kailih.

No less than 3700 dishes were dirtied by the company whom it took over eight hundred chairs to seat. Seven hundred and sixty-eight chairs were hired for the occasion, the remainder being loaned by friends.

The Hawaiian band and the Ellis Glee Club played their liveliest airs while the folks ate.

Yesterday numbers of poor natives dined richly on what was left over from the feast and many a savory lalau was borne thankfully home to a hungry family.

All day yesterday a bevy of native women cleaned the mountain of dishes and tidied up the erstwhile banquet hall, laughing and chatting blithely, the while.

ARRIVED.

Sunday, March 31. Str. W. G. Hall, S. Thompson, from Kauai ports, 5:30 a. m.
