AMERICAN AUTO REACHES CHICAGO IN GREAT RACE

First of the Six Teams That Are en Route From New York to Paris via Alaska and Siberia.

(Associated Press Cablegram.)

CHICAGO, February 25.—The American automobile was the first of the number entered for the New York-Paris race, via Alaska, to arrive here.

The New York to Paris automobile race started on the 12th inst. Six teams are in the race, consisting of three French crews, one German, one Italian and one American. The race was started by Mayor McClellan of New York. Speaking of the route to be traveled, General Linevitch says: "The country in the northeast of Siberia is almost completely uninhabited. This applies especially to the interior of the Tchoukotsk peninsula. There are, indeed, a few occupied posts on the east coast, but they are very far apart and number but few inhabitants. There are to be found there only a few Russians, who have come from Nijni Kolymsk or from Guifigue.

"In and about these posts there are also a certain number of natives, who assist the Russians in carrying on their commerce with the American Eskimos. The post which has the largest population is the village of Ouveine, on the Bering Strait. The village of Oumelyne, 450 versts further south, is also a considerable trading center, the population sometimes amounting to 3000 men and women. The richest citizens of these two villages occupy houses such as we understand the term, but most of the inhabitants live in dug-outs. When the weather is not too severe, houses are deserted for tents of reindeer hide.

"Oumeyne is regarded as the principal center of commerce on the east coast of the Tchoukotsk peninsula. Some years ago as many as sixty steamers call there. In the interior of the peninsula are to be found only a few scattered camps of Tchouchikiss. These natives are nomadic and are almost in constant movement. In winter, strangely enough, they go north as far as the Arctic Ocean with their herds of reindeer. In summer they come south again into the interior. Almost the entire extent of the peninsula is an immense marsh, or tundra, which is difficult to cross in the three summer months. In winter the marsh is frozen solid.

"When the contestants in the New York-Paris race have once crossed Bering Strait they will find themselves on the coast of Siberia, near the vil-

lage of Ouehyn, from which point they can organize their route to Nijni Kolymsk over one of two trails. One of these leads directly across the peninsula to the point of destination. It should be said at once that this road is extremely difficult, for from one end to the other the travelers will not see a single inhabited village. Only from time to time they will meet an occasional group of natives with a herd of reindeer. These natives, the Tchouchikiss, as I have already said, generally spend the entire winter on the coast of the frozen ocean. But it is possible that even this early in the spring a few of them will have begun their migration southward.

"Although the road leads almost constantly across the tundra, a fairly important mountain chain will also have to be crossed. For this part of the trip guides will be necessary. The road is not impossible, as it has already been made by one traveler, a man by the name of Bellings, over a hundred years ago—in 1791. He started out with a herd of 156 reindeer. How many he still had when he reached Nijni-Kolymsk is not stated. Again, in 1823, Admiral Wrangel traveled west along the Indirky River as far as Bering Strait while engaged in cartographical research on the Arctic Coast.

"The second route, which passes from Ouehyn to Nijni-Kolymsk is as follows: From Ouehyn directly south to the village of Oumeyne; from there crossing Holy Cross Strait, to the village of Novo Maryinsk; through the Anadyr Valley to Markovo and Niouish and then to our point of destination. The second route is somewhat longer than the former, but it will be much easier, for although it passes through much uninhabited country more people will be found along it than on the other. By the same token it will be easier to find guides.

"All traffic in North Siberia is carried on exclusively by dogs or reindeer. The usual dog team comprises twelve animals and one dog is worth twenty-five rubles. There are no horses in this part of the world.

"In the Spring time, that is to say, (Continued on Page Four.)

WU TING FANG BEFORE CHINESE

Talks to the United Society About Modifying Exclusion.

Following is a part of the address given by Wu Ting Fang last Saturday before the United Chinese Societies. It is translated from a local Chinese paper:

"Five years ago I visited you here, and I now have the great pleasure of coming again, it is more than I could have anticipated. I can hardly express my deep feelings on this occasion. My countrymen and brothers, you must come closer together in mutual affection. Don't be divided into factions! Don't quarrel over small matters! This leads to hatred and ridicule, by outside people. It ought not to be. One thing that to me, and to you my brothers, gives great dissatisfaction is the Exclusion Law. This came about through the weakness of our government. But not alone can we blame the government, you people have something to do with it. How? Reform cannot belong alone to the upper classes. It must also take place among the people. You can see this in the history of all nations. So the people long for reform in the government, and the government wishes for reform among the people. So you see that true reform must come from hearty cooperation between those above and those below."

THE GOVERNOR'S VIEWS ON MANA LAND SALE

Governor Frear left the Capitol for a ride out Waiatale way yesterday before the usual calling time of the Advertiser representative. On the matter of the proposed Mana land sale, an evening paper quotes the Governor as follows:

"The sale as advertised was postponed for two weeks pending the report of the Attorney General on the objections of the von Holts, who are interested in the present lease upon the property. Aside from the legal phases involved, the matter will be considered in the light of the new objections which have been raised.

"It is a question simply whether or not it would be to the advantage of the Territory to allow the land to be tied up under the present lease for the next twelve or thirteen years, and then possibly not be able to do any better with it than under the present plan, or to sell it now, through the Knudsen's agreement to surrender their lease, under conditions which will insure a business of from \$25,000 to \$50,000 from it.

"The statement of Representative J. I. Silva and Mr. White that the Knudsen have a corner on all the sisal plants in the Territory for a term of years, was news to me. What we want, however, is to get the unproductive lands to produce something as soon as possible, and it would seem that sisal is the only thing that there is any assurance could be made a success. With this crop less than 500 acres of land could scarcely be cultivated at a profit. I am told that Knudsen's experiments in coconuts on the land was not encouraging, the elevation being great enough to prevent the young plants at least from getting down to water. For cane or other crops it would have to be irrigated, and the porous character of the land makes it inexpedient to put water on it which may be used to better advantage on other lands. Wells drilled produce brackish water which would be harmful on most crops."

SCREAMING INFANT ROUSED THE TOWN

A screaming baby in the Makiki district gave the chemical and Makiki engines a run last night and incidentally brought a number of people on foot and in rigs to the scene of the alarm.

About 8:30 o'clock, somebody passing a house on Young street heard a baby scream and took it for someone yelling "fire." One room of the house was brightly illuminated and this together with the screaming settled any doubt in the mind of the individual, who yelled "fire" lustily.

Two young men named Benny who live nearby heard the cry and running to the nearest box, at the corner of Beretia and Kapiolani streets, turned in an alarm.

When the fire department and police patrol arrived on the scene the Bennys explained just what had happened and after a few remarks by the firemen and others, goodnights were exchanged and the crowd went home.

FRANCE'S NEW CONSUL ARRIVES

Arrived Here With His Household From Marseilles on the Malte.

Monsieur Rene Menant, the new Consul for France, with his wife and his wife's mother, arrived yesterday by the French steamship Malte to take up his consular duties. They embarked on the Malte at Marseilles, December 11, coming all the way by that steamship, touching at some eleven ports on the way. The trip through the Mediterranean was somewhat rough but since entering the Indian ocean nothing but the pleasantest seas have been experienced.

Consul and Mrs. Menant will at once establish themselves housekeeping, and they were out house hunting within a very short time after their arrival here. Both Consul and Mrs. Menant speak several languages, but it was not until the present voyage that they began to learn English. The consul found in Dr. Gatzell, a fellow passenger, his tutor, teaching the doctor French, as the doctor taught him English. The consul made surprising progress and during the seventy-five days of the voyage acquired a very serviceable command of English.

Consul Menant was vice consul at Manila during the Spanish war and called a number of times on Admiral Dewey aboard the Olympia during the days when Dewey, having destroyed the Spanish fleet was holding the bay awaiting the arrival of troops, not to take the city but to police it after he took it. Consul Menant speaks very enthusiastically of Admiral Dewey. Shortly after this he was sent to Santiago de Chile. His last post of duty before coming here was at Bourgas, Bulgaria.

Consul Menant saw former French Consul Vizzavona shortly before starting. He says that Mr. Vizzavona expects to settle down to private life, his retirement from the consular service having been accepted by the French government.

Both the consul and his wife were very enthusiastic over the view the island of Oahu presented as the steamship sailed along the southern side of it.

The consul and his party were met at the steamer by Dr. A. Marques who has been the acting French Consul for some time, and Mrs. Marques sent a handsome bouquet to Mr. Menant.

CENTRAL COMMITTEE DELAYS APPOINTMENT

At a meeting of the Republican Central Committee, Frank Kruger moved, seconded by W. R. Farrington, that the endorsement of Charles T. Wilder for tax assessor, requested by Treasurer A. J. Campbell, be given by the committee. The motion being opposed by E. J. Crawford, John C. Lane, David Kanaha and Wm. Ahia, action was postponed until Thursday.

Treasurer Campbell stated yesterday that he sent Wilder's name to the committee for endorsement last Friday afternoon. That was the day on which Governor Frear informed an Advertiser reporter that some action had been taken but there was nothing to give out.

Chairman A. G. M. Robertson informed the meeting that Wilder had been endorsed by the Republican club of his precinct on his appointment as deputy tax assessor and had signed the roll of the club.

ANOTHER M'KINLEY FUND PROPOSAL

L. Tenney Peck, in speaking of the McKinley memorial yesterday, inclined to a statue and quoted George R. Carter and Clive Davies as also favorable to the erection of a figure or bust of the martyr-President in front of the contemplated Federal building. Provision might also be made there for the women. "It would seem to be very appropriate," said Mr. Peck, "to place a statue of McKinley in front of the first American public building erected in these islands. Hawaii was annexed under his administration."

DR. POTTIE PLUCKED.

Dr. J. H. Pottie, who recently applied for an examination for license to practise as a veterinary surgeon, was examined by the Board of Examining Veterinarians the other day. The examination was in writing. As a result, the board refused to recommend Pottie for a license.

GREAT BRITAIN AT ODDS WITH OTTOMAN PORTE

The Situation Is Critical Owing to the British Demand for Reforms in Macedonia--- Converse Refutes Criticisms.

(Associated Press Cablegrams.)

LONDON, February 25.—Earl Grey stated in the Commons yesterday that the government is pressing Turkey for the acceptance of reforms in Macedonia and that the situation is critical.

CONVERSE REFUTES REUTERDAHL.

WASHINGTON, February 25.—Rear Admiral Converse, addressing the Senate Committee on Naval Affairs yesterday, refuted the Reuterdahl criticisms of the navy.

HUDSON TUNNELS OPENED.

NEW YORK, February 25.—The tunnels under the Hudson river have been opened for traffic.

ROOSEVELT SUSTAINED.

WASHINGTON, February 25.—President Roosevelt's dismissal of the negro battalion of the Twenty-fifth Infantry, because of their part in or refusing to divulge their part in the Brownsville riots in which fatalities occurred, was today endorsed by the Senate Committee on Military Affairs.

FIFTY WARSHIPS.

SAN FRANCISCO, February 25.—Fifty war vessels, including Admiral Evans' fleet, are expected to be anchored in the bay here when the fleet arrives.

STOESSEL ASKS PARDON.

ST. PETERSBURG, February 25.—General Stoessel, the defender of Port Arthur, sentenced to death, has petitioned the Emperor for pardon.

ANARCHISTS ARRESTED.

DENVER, February 25.—Thirty arrests of anarchists are expected to follow the assassination of Father Heinrichs.

JUDGE DOLE WILL BE ORATOR OF THE DAY

It has been decided by the High School Alumni Association to hold the ceremony of laying the corner stone of the new High School building on Thursday, March 5.

Judge Sanford B. Dole has consented to deliver the address of the day and, as previously reported, Prof. M. M. Scott will give a historical sketch of the institution of which he has been the principal since its start.

The complete program of the ceremony will shortly be published.

WELLS WOULD MEET FRIENDS IN MANILA

Manila Times, January 25.—C. B. Wells, the millionaire sugar merchant of Honolulu, is en route to Manila on the steamer China and is accompanied by his wife and daughter. Mr. Wells is the managing director of the Wailuku Sugar Company and is coming here upon request of Secretary of Agriculture Wilson to investigate the possibilities for the development of the sugar industry in the islands. Mr. Wells is a prominent Elk and has many friends in this city. He will probably remain here for a couple of weeks.

THE RITHE'S NEW MASTER.

The bark R. P. Rithet, which sailed last week from San Francisco for Honolulu, will come into port without Captain Drew, who has so long piloted this vessel across the sea. He is now port superintendent in San Francisco for the Matson company. He has been succeeded as master by Mr. McDonald, who has been for a long time first mate under Captain Drew. Captain McDonald is well known in Honolulu, and he will receive many congratulations on his promotion.

SIXTO LOPEZ RETURNS TO THE PHILIPPINES

Manila Times, January 25.—Sixto Lopez has returned to the Philippines for the third time since American occupation. Twice before he has come to his home, but on both occasions has been denied landing on account of his persistent refusal to take the oath of allegiance.

His third arrival has been marked by no attempt to have him take the oath. He came in on the Binh Thuan from French Indo-China as a member of the crew of that vessel—not as a passenger.

It is inferred that he "signed on" in order to attend to the cattle on board in which he is interested. Inquiry at the custom house shows no effort to interfere with his movements and he has not been required to take the oath.

However, it is understood that he has become more reconciled to conditions here. It is said he has letters from the governor general which practically give him permission to return to the islands. Whether he intends to remain here or return from whence he came is not known, as all efforts to locate him in Manila have so far proved fruitless. The fact remains that he is here—and may stay.

TONG CASE PUT OVER.

The Chinese tong case came up in the District Court yesterday morning, but was continued until March 2. Ah Mau, for an assault and battery which seems to have been a side issue of the tong war, was fined \$10 and costs by Judge Andrade.

CHRISTIAN AND THE BEER.

John Christian was arrested yesterday on a warrant charging him with stealing two dozen bottles of Primo beer, the property of the Honolulu Brewing and Malting Company. The complaint was sworn to by C. G. Bartlett, the brewery manager.

THE MOANA MAY OPEN AGAIN TODAY

Korea and Siberia—Are Booked Full for Honolulu This Voyage.

It was reported yesterday with the greatest of certainty that the Moana Hotel is to reopen, possibly today, certainly within a day or two. In connection with this report it is known that the bookings for the Korea, which sailed yesterday from San Francisco for Honolulu, and for the Siberia, which is now on her way from this port to San Francisco, are largely for Honolulu, so that the opening of the Moana becomes a virtual necessity. It looks as though the tourist traffic, which it seemed to go by this year, may yet amount to considerable.

The new Inter-Island steamer Mauna Kea has not sailed yet from San Francisco. There is a plan under discussion to use her on her arrival here for a great excursion. The idea is that before she is put on the Kinau run she shall be sent out, say on Saturday afternoon, returning Sunday evening or Monday morning, to Nihaui, or some other point to which regular steamers do not run frequently, on an excursion. A trip around the island of Kauai, giving a view of the famous Napali, is one of the suggestions made.

CONSUL TSENG BY THE SIBERIA

Succeeds Consul Chang Tso Fan as Representative Here.

By the Siberia last Saturday arrived the new Chinese Consul to Hawaii, Mr. Tseng Hai. He is accompanied by his two secretaries, Mr. Sung Poo Tung and Mr. Lo Man Chang.

The new Consul is a man of large frame, though somewhat spare, and wears glasses. He speaks English excellently. He was for several years in the legation at Washington and has been in the Chinese public service for many years.

He was met by Consul Chang Tso Fan at the steamer. Consul Chang expects to leave for Canton by the Manchuria, due here March 30. He and Mrs. Chang will be very much missed by a large circle of friends in Honolulu.

The Consulate will remain where it is, on Sheridan street. A brother of one of the new Consul's secretaries was one of the large number of students who accompanied Minister Wu Ting Fang. He is going to attend Cornell University at Ithaca, New York.

FISHING WILL NOW BE BETTER

Tabu on Harbor Netting is Pleasing to Rod-and-Liners.

Much satisfaction was expressed round town yesterday over the action of Superintendent of Public Works Marston Campbell in stopping the Chinese net-fishing in the harbor.

Prior to the recent tabu on harbor fishing, the place seemed to be cleaned out of fish of every description. This was due to the persistent netting of the harbor by Orientals. Big fish and small all looked alike to the Chinese and Japanese fishermen, and some of the nets used were of such small mesh that nothing surrounded could escape.

After the tabu had been in force for a week or so the harbor became full of fish, schools of which, playing around the wharves, attracted considerable attention.

As soon as the tabu was removed the Chinese resumed their fishing with renewed vigor. Just about that time thousands of papipio or little ulua came into the harbor, as they do every year, and these were caught by the bushel by the Chinese fishermen. Ever since then they have kept on fishing and have made some enormous hauls. As a consequence, the poor natives who fish around the wharves and to whom a fish or two means a meal, have had little or no reward for their patient efforts.

When the hahalaui were running last fall the Chinese had succeeded in surrounding the school and caught so many that they could find no market for them. In previous seasons when the hahalaui were running they provided good sport for days for all who cared to go fishing for them with rod and line. Last time the school came into the harbor, there was a marked falling off in the quantity of fish hooked.

By protecting the harbor fishing against netting the sport of rod and hand-line fishing will be inestimably benefited and millions of small fry will be given a chance to grow up and become fish of such size as to have a food value.

CAR ACCIDENT OF A JAPANESE VISITOR

Following is a translation from the Hawaii Jiyu Shinbun:

Mr. Kuraichi, proprietor of a Japanese store at Lahaina, met yesterday with a serious accident while going on a transit car. He was bound for Beretania avenue where he was going to make a call at Mr. Takakuwa's home. As he was coming off the car near Thomas Square, he missed a step and fell off the car which was still in motion. He fell with much force and lay unconscious for a while. While he was lying on the ground two white gentlemen with a lady passed in an automobile and picked him up. They helped him into their car and did everything to revive him. The lady even cut off her skirt to make a bandage for the unfortunate man. They drove up to the Queen's Hospital where Mr. Kuraichi was given the best of care. One of the gentlemen who looked like a minister said repeatedly: "Yamato damashii, shikkari nassai," which means, "Brace up for the sake of Japan's spirit, brace up." Mr. Kuraichi today found the gentleman who helped him so kindly to be Dr. E. O. Wall, who has a dental office at Love's building and made a call to thank the doctor and his wife for their kindness. He told our reporter that he shall never forget their kindness.

We know such act of kindness will add to the popularity of Dr. Wall who has already many friends among our countrymen.

HOW A SOUTH AFRICAN MERCHANT WARDED OFF AN ATTACK OF PNEUMONIA.

There is always cause for alarm when a severe cold is accompanied by pain in the chest. Mr. H. L. La Grange, who is manager of a store at Jansenville, C. C., believes Chamberlain's Cough Remedy is better than the prescription of a physician. He says: "I had a boy in my employ who had been suffering from cold and a pain in the chest, and got so bad he had to go to bed. I had the doctor attend him and used several other remedies, but he got no better. I finally tried Chamberlain's Cough Remedy, and in a short time he was up and about his work. We sell lots of it in the store." For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

BIBLE READING MOVEMENT, READING FOR FEBRUARY 26

ACTS 9.

32 And it came to pass, as Peter went throughout all parts, he came down also to the saints that dwelt at Lydda. 33 And there he found a certain man named Aeneas, who had kept his bed eight years; for he was palsied. 34 And Peter said unto him, Aeneas, Jesus Christ healeth thee: arise, and make thy bed. And straightway he arose. 35 And all that dwelt at Lydda and in Sharon saw him, and they turned to the Lord.

36 Now there was at Joppa a certain disciple named Tabitha, which by interpretation is called Dorcas; this woman was full of good works and almsdeeds which she did. 37 And it came to pass in those days, that she fell sick, and died: and when they

Home Life in Hawaii

Mary H. Krout in Sydney Herald.

Honolulu, with its background of mountains, whose tops touch the clouds, is one of the most beautiful spots in the globe, girt round by the blue Pacific and its fringe of snow-white surf. The people, cut off from the mainland, are largely dependent upon social functions for their entertainment, and which are therefore often very elaborate. While it might almost be called an educational center, the inhabitants of California sending their children here to school long before schools and colleges were established there, yet both men and women have little priggishness or pedantry. They take their culture lightly. There are the great Kamehameha manual training schools, superbly equipped, housed in magnificent modern buildings, with an admirable teaching force; St. Louis College for Catholic youth; the old missionary college, with several hundred students, also liberally endowed by the rich planters, with its group of fine buildings; St. Andrew's Priory and Iolani College, under the control of the Episcopal Church; Pacific Institute for Chinese, Japanese and Hawaiians; with the public schools, which are also supplied with several beautiful artistic buildings, the course of study conforming to that prescribed in the United States. With all these facilities at hand, the young men and women of the wealthier families are sent to Yale, Harvard or Princeton, the young women to Wellesley, Vassar or Smith, often finishing abroad. The University Club, one of the largest clubs in Honolulu, has in its roster members who have taken degrees in the institutions above named, at St. Andrew's and Edinburgh, London, Oxford and Cambridge. Clubs flourish to an astonishing degree, and other such organizations are the Commercial, the Merchants' Club, and the Kiloahana Art League, with its cultured membership of local writers, artists and musicians. It takes its name most cleverly from the kilohana, which was the finest native cloth, the outermost coverlid on the native bed, and which illustrated the highest Hawaiian conception of decorative art. The Kiloahana Art League has a good building of its own, one room of which is the permanent exhibition room, a library, an audience room, where musical and other entertainments are given, and where the Symphony Society, of which the German citizens are the moving spirits, hold their rehearsals.

The Country Club is a new departure. It has a membership of several hundred, both men and women being eligible. It owns 200 acres of land, which within the short space of a year has been redeemed from a wilderness of lantana, set in grass, which now clothes a fine, smooth lawn. There are wonderful golf links and good tennis courts, an artistic clubhouse, from the verandas of which are unsurpassed views of mountains, deep narrow valleys, the sea, and the distant roofs of the city. Here may be heard the entrancing song of the skylarks, which were introduced from England a few years ago, the nests of which are carefully protected. The Country Club is about four miles from the business district, up the Nuuanu Valley, at the foot of the mountains, a pleasant drive, or a short run by motor.

There is a good deal of taste for music, a native band and orchestra being maintained by the Territorial Government, and which plays in the parks, at the departure of the steamers, and on all public occasions, but there is nothing approaching the enthusiastic and generous patronage which Sydney, Melbourne and other Australian cities give, almost as a matter of course, to an artist deserving the name. Luncheons and dinners are ceremonious and frequent, and are served with great elegance. The frequent presence of distinguished men and women who visit Hawaii on their way to the Orient, or in making the tour around the globe, is an occasion of much entertainment of this nature. A certain local color is given the dinner by including native dishes in the menu, especially some one of the many fine varieties of fish wrapped up in a thick leaf, baked breadfruit or taro. The pleasure of the guests is enhanced by the presence of the singing boys—native vocalists, who, clad in white, wearing thick leis or garlands of fragrant plumeria or tuberoses around the throats, sing native songs to the accompaniment of the ukulele or Hawaiian mandolin and guitar. They also furnish the music for balls, the singing being peculiarly effective, the dancers keeping step to

the perfect time of the singers. The frequent visits of warships, of the American and other navies, is also an occasion of much entertaining, the citizens of Honolulu giving a round of dinners, picnics and balls in honor of the officers, which they return by invitations to dinners, teas and dances on board.

With the ordinary conventional entertaining is the native feast, or luau, still in high favor amongst the wealthy natives, for which the fish, pork, fowl and taro are cooked on hot stones in an improvised oven, over which water is poured, the earth being heaped above it so that the steam may not escape. The food cooks slowly, nearly twenty-four hours, each morsel of flesh being wrapped in a leaf, which gives it a delicious flavor.

The life on the great plantations is delightful. In some respects it resembles that upon the large Australian stations, where every corner is made welcome—or was, in the old days. I recently visited "Molokoa," which must not be confused with the leper island, Molokai, on the island of Kauai, which is deservedly called "the Garden Island."

The estate contains 47,000 acres of the richest cane lands in the group, and 1800 laborers are employed. It is owned by a stock company, most of the stock being held by one family. The whole country round about is a picture of high prosperity, in which all share. While the estate yields annually an enormous revenue, millions of dollars have been spent in developing it, the most scientific methods having been applied to the cultivation of the cane. Annexation has interfered with the labor. The Japanese, however, are still largely employed. Men receive 18 dollars in gold a month, a house, a plot of land for a garden, upon which they raise bananas and vegetables—a large part of their food. They are also supplied with the services of a physician free of charge, and there is a model hospital, with trained nurses, to which they may be sent when seriously ill. Their children are given excellent instruction in the public schools, which, in the buildings and tuition, are fully equal to the best in the United States, and this without money and without price. Their religious opinions are scrupulously respected, and with the churches of the Christian converts are the temples of those who still adhere to Buddhism and Shintoism.

The American families on the large plantations live in a surprisingly simple fashion. While there is nothing lacking that is necessary for comfort, and the houses are tastefully and well furnished, being lavishly supplied with books, which are occasionally ordered, 50 or 100 at a time, from the lists of late publications, yet there is no ostentatious luxury. People with equal incomes in the United States, England, or the colonies, would indulge in a retinue of liveried servants, in equipages of all sorts. Here there are horses to spare, usually a motor, but carriages and American "buggies" and "Surreys" are plain and simple. The reason is that immense sums are given away, either to the needy, for the education of promising boys and girls, to educational institutions, in the maintenance of the old and helpless, in the support of hospitals and churches.

People travel a great deal; and there is nowhere on the plantations anything approaching the illiteracy still to be found in some agricultural regions in the United States, especially in the south. One is impressed with the good, grammatical English which one hears everywhere, though it must be confessed that the quick ear recognizes, now and then, the familiar "Yankee twang."

Horseback riding and swimming are universal accomplishments, both sexes, young and old, galloping up and down trails steep as a roof. Nearly every estate has its deep, cold swimming pool, which is a favorite resort early in the morning, and to which guests repair when they choose, properly habited in bathing suits, which can be supplied, of all sizes, at a moment's notice by the obliging hostess. Picnics are a favorite pastime, the picnickers starting at daybreak for some picturesque valley or favored beach, miles away, where there is probably a bungalow in readiness for their accommodation if they wish to remain over night, as they usually do. The wealthier classes often have several residences in the mountains, at the beach, in or near the town, of which servants are left in charge, and which may be made ready for any number of guests on short notice.

The amount of labor and money expended upon "Molokoa" has been enormous. There are beautiful, smooth roads everywhere, water has been brought in pipes from a distance of thirty miles, tunnels constructed for the mains under the hills which, strangely enough, require no masonry except at the mouths. One such tunnel through which the water drips from overhead, has been in use for fifty years. Splendid iron bridges, sent out from the United States, and put in place by the laborers, span the deep gullies. The cane is conveyed to the mills by portable railway lines that are moved as required from field to field. Formerly, oxen were used, but both as to their care and the land required for their pasturage, they were found to be too costly, and the railways were introduced. On the Molokoa Estate is an immense mill, lighted throughout by electricity, operated by steam, the waste cane, which is compressed and dried after the juice is extracted, being used for fuel. Competent chemists are employed, both in the mills and to watch the land that it may be supplied with whatever fertilizer it requires from time to time. Within ten years, by the employment of the newest scientific methods, the maximum yield on the best lands has been increased from five to eight tons to the acre.

**DUAL MEET TO
 TAKE PLACE SOON**
**Interscholastic Track and Field
 Meet Will Come Off Next
 Saturday.**

Those interested in track athletics will be treated to an interesting session on Saturday at the Boys' Field when Punahou and the High School meet in the dual league which has been formed to discover which school has the best runners and track and field men in general.

The meet is to be pulled off promptly at 1:30 p. m. No admission will be charged.

The names of those who will take part in the meet follow, together with the events and the list of the officials:

100 YARD DASH.
 Oahu College: Lyman, W. Desha, Pa. D. Townsend, Mon Yin. High School: W. Rice, O. H. Ingalls, Sing Hun, Hung Yau.

ONE-MILE RUN.
 Oahu College: R. Smith, Dodge, Hannestad, Genoves, High School: Wa Chan, A. K. Norton, S. Pratt.

440-YARD RUN.
 Oahu College: J. Pa, J. Desha, D. Fraser, Sing Chong, Vincent, Guard, Jakins, Ho Tong, W. Hattie. High School: W. Rice, E. Andrews, A. K. Norton, Hung Yau, O. H. Ingalls.

120-YARD HIGH HURDLES.
 Oahu College: W. Desha, Pa. J. Desha, C. Lyman. High School: Hung Yau, Haruki Okumura, L. Aehieu, H. Chillingworth.

220-YARD DASH.
 Oahu College: C. Lyman, W. Desha, J. Pa, D. Townsend, Mon Yin. High School: W. Rice, Hung Yau, Sing Hun, O. Ingalls.

880-YARD RUN.
 Oahu College: R. Smith, S. Dodge, S. Hannestad, Fraser, Vincent, Sanell. High School: A. K. Norton, Scott Pratt, Wa Chan.

HIGH JUMP.
 Oahu College: W. Desha, R. Hitchcock, P. de Brettville. High School: Sing Hun, E. Andrews, G. Mossman, W. King, H. Chillingworth.

SHOT PUT.
 Oahu College: Davis, Lidgate, Desha, Lowrey, Williams, Brown, Akina, Lyman, High School: Andrews, White, Aehieu, Mossman, Hung Yau, W. King.

HAMMER THROW.
 Oahu College: Lidgate, Desha, Lowrey, Lyman, Williams, Davis, Brown, Akina. High School: R. Gilliland, W. King, Andrews, White.

RUNNING BROAD-JUMP.
 Oahu College: Pa, Mon Yin, Desha, D. Townsend. High School: W. Rice, D. King, W. King, Sing Hun.

POLE VAULT.
 Oahu College: J. Desha, H. Hitchcock, R. Hitchcock, Pa, W. Desha. High School: E. Andrews, H. Ingalls, L. Aehieu.

HALF-MILE RELAY.
 Oahu College: Lyman, Townsend, W. Desha, Pa, Sing Chong, J. Desha, Mon Yin, R. Smith, Ho Tong. High School: W. Rice, E. Andrews, Sing Hun, Hung Yau, O. H. Ingalls.

OFFICIALS.
 Clerk of course, Sam Johnson; referee, T. A. Bath; field judges, Dr. Hand, J. McCandless, Wm. Campbell; timers, Geo. Fuller, Ben Clarke, Chas. Pitts; track judges, Frank Mackenzie, Paul Super, Chas. F. Brissel; announcer, John Anderson; scorer, H. M. Ayres; starter, E. W. Coffin.

**BOYS' GAMES
 ARE POSTPONED**
 Interscholastic basketball for boys, which was to start on Friday, has been postponed until a week from Saturday. The Normals realize the fact that their opponents, the High

WILLIAM WEBB. HE DEFEATED TRESSIDER AT WANGANUI YESTERDAY FOR THE WORLD'S SCULLING CHAMPIONSHIP

School will give them a run for their money, and they have asked for a week more in which to polish up.

The Normals have but little time for practise. Their long school hours shorten the play hour, and what practise they do get has to be taken off the time usually devoted to home work.

The High School team has not as yet got down to practise, but intend beginning soon. They will have more time to devote to their training, and in this respect will have an advantage over their opponents.

Games are scheduled to begin promptly at four o'clock. The first game is to be pulled off at the High School ground, and every alternate game at the Normal ground. The Normal courts are not to be compared with the High School's, and it is unfortunate that all the games are not to be played on the latter ground, as spectators have but little chance to see the fine points of the game owing to the small space between the Normal School building and the courts.

The following schedule has been decided upon:

March 7, High School ground; March 11, Normal School ground; March 14, High School ground; March 18, Normal School ground; March 21, undecided.

There will be a toss-up to decide the ground on which the last game will be played, a few days previous to the contest.

**PUNAHOU IS
 AGAIN WINNER**
 After a game lacking in what the referee called "ginger," the High School II. lost a soccer game to the Punahou II. yesterday afternoon by a 3-0 score.

Individualism and not team work characterized the game which the Highs put up, and neither side indulged in any spectacular playing. On the contrary, yesterday's game was one of the slowest which has been played in the Junior Interscholastic League.

For the Highs, Marcus Monsarrat, a first team man, played the best game. His training on the elder team stood him in good stead yesterday. Norman Oss missed several good chances at the ball through being unable to keep on his feet.

Genoves, for Punahou, was a star. With the aid of Webster, some good plays were effected by him.

The personnel of both teams follows: Punahou—Ahrens, Genoves, Schumann, Webster, Paty, Ballentyne, Barns, Wilcox, Austin, Rothwell, Dodge.

High School—White, Girdler, Alan Davis, King, Marks, Tatsu, Parker, N. Oss, Nat Blatt, Monsarrat, Dyer.

**THREE NEW CLUBS
 IN ASSOCIATION**
**Hilo, Ewa and Puunene Join the
 Governing Tennis
 Body.**

At a meeting of the Hawaiian Tennis Association, held yesterday afternoon at the clubhouse of the Pacific Tennis Club, it was decided to admit out-of-town clubs to membership in the association.

Secretary Bockus read letters from the Hilo Tennis Club, Ewa Tennis Club and the Puunene Athletic Club, asking to be allowed to join the association. The meeting was unanimous in deciding to grant these requests.

It was decided that the annual dues of members of the association be \$10 per year, payable on May 1 of each year.

This action will do much to stimulate interest in tennis throughout the Territory, and may lead in time to the annual championship tournament being played on Hawaii or Maui.

The Puunene Athletic Club is arranging a tennis tournament between Maui and Honolulu players, to take place at Puunene on a date satisfactory to the local players.

There will be a tournament between the Pacific and Beretania tennis clubs on March 7 and the Puunene games will be played some time thereafter.

**TRESSIDER A
 VETERAN ROWER**
 (Associated Press Cable.)
WANGANUI, New Zealand, Feb. 25.
 —Webb defeated Tressider today in a world's championship sculling race.

Tressider has held the sculling championship of Australia for over five years. His race with William Webb of Wanganui for the championship of the world and stakes of \$2500 a side.

Webb won the championship from Charlie Towns, George Towns handed the title over to Charlie.

For a number of years sculling was practically dead in Australia, but it has revived remarkably during the last couple of years. A new crop of aspir-

TO SECRETARIES
 Secretaries of local athletic organizations will greatly facilitate the sporting news service of the Advertiser if they will send in announcements of meetings, games, schedules and personnel of teams.

Next Monday will see the opening game of what promises to be an interesting tennis tournament at the Miller Street Tennis Club's court.

Nineteen men have signed for places in the tournament, to compete for a handsome copper cup which E. O. Hall & Son have put up as a prize.

The first man winning the cup three times, will own it outright. Much interest is being evinced in tennis circles concerning this latest addition to the local tennis ranks. There are some fine players in the new club, and good work is expected of them.

Those playing in the first round of the tournament are:

**TOURNAMENT
 BEGINS MONDAY**

March 2—M. J. Serpa vs. M. Phillip.
 March 5—F. Branco vs. H. Faria.
 March 8—C. Branco vs. F. P. Mellim.
 March 12—R. Soares vs. I. Faria.
 March 14—A. Serrao vs. J. E. Santos.
 March 16—A. Branco vs. L. Franks.
 March 21—H. Phillip vs. J. B. Freitas.

In the second round, M. Ferreira, Geo. Madeira, Frank Freitas, Oliver Soares and Charles Gilliland will meet the winners of the first series.

**BRITT GAVE
 NELSON BONUS**
 The fight at Los Angeles last night between Battling Nelson and Jimmy Britt was ten rounds in duration and was pulled off before the Pacific Athletic club.

The weight was 133 pounds at six o'clock.

Britt conceded Nelson a 5-per cent bonus of the fighters' share of the money.

The signing of the articles was due to a concession on Britt's part of the bonus asked by Nelson. The Battler and Willis Britt had squabbled for two hours over the question of bonus and parted without reaching a conclusion. Willis then called up Jimmy on the long distance phone. Rather than lose the fight Jimmy said he would grant Nelson the bonus. Nelson said frankly that he was not looking for the fight.

**KENNEL CLUB
 HAS MEETING**
 The Hawaiian Kennel Club held a meeting last night at the Young Hotel, which was well attended.

President Paul Isenberg was in the chair.

Matters pertaining to the coming bench show were discussed and it was decided to address a circular letter to all the island fanciers, asking them to patronize the show.

W. Chong Hoon Jr. and Joseph Francis, were elected members of the club.

The show will probably be held in July, at any rate during the stay of the Pacific feet.

The next meeting of the club will be held on March 28.

 BENSON, SMITH & CO., Agents.

**The Beautiful
 Liliulalu**
 The beautiful Liliulalu appears to have a number of friends in the community judging from the speedy response made to an enquiry for more information regarding Miss L., published in these columns yesterday.

William Wickham appears to possess some inside information for the lim-ericks thusly:

The beautiful Liliulalu
 Was at a loss to know what to do;
 As she hadn't a maid
 She couldn't see the parade,
 So gave way to her grief with a boo.

That the tearful Lil wasted no time in supplying herself with the services of a lady-help is evidenced by yet another lim-erick from the same talented author, which runs as follows:

The beautiful Liliulalu
 Had only one lover—not two,
 And being afraid
 He'd fall in love with her maid,
 She told the poor girl to skidoo.

The following arrives from the pen of one who elects to hide his light under a bushel:

The beautiful Liliulalu
 Was known as the belle of Oahu,
 Yet single she waited
 'Till a rich man she mated—
 I call her clever, don't you!

You bet we do. Such discrimination on the fair Lil's part might well serve as a pattern to other eligible daughters of her race.

Now here's something with a green-eyed monster lurking 'twixt the lines. B. W. M., who contributes, has evidently been turned down hard by Miss L., and he gets back at her in the following despicable way:

The beautiful Liliulalu
 Was certainly something quite new;
 She was yellow and flutened and fat,
 And yet in spite of all that,
 Her mama had labelled her "kapu."

Whom shall we have the pleasure of hearing from next?

Short and Sweet
 The Kalih Athletic Club will hold a meeting this evening.

High School and Allotani play soccer at Kaimuki tomorrow.

Waldo J.'s record is 2:09, made in the eighth heat of a race paced in California. Among celebrated horses in this race were W. Wood, Diablo and Chehalis. He holds the local track record of 2:12 and a fraction.

Faro Bank's record is 2:16.

The Benedicks and Bachelors may be the names of two teams of golfers performing at the Country Club in the near future.

The Transpacific yacht Hawaii is progressing slowly but surely. Equipment from the east is being waited for and the date of launching cannot be determined till it arrives.

The pennant of the Hawaii Yacht Club has been fastened to the end of the yacht Hawaii's bowsprit.

Cowboys Angus McPhee and Johnny Winters left for Hawaii by the Mauna Loa yesterday. They may go to work.

Eddie Tait says that a match will be arranged between Hans Froelcher and Willie Vida's Jap. Arrangements will probably be made at a meeting of the managers on Thursday. April 4 is a probable date for the bout.

Froelcher is training at the beach.

Willie Vida says that he is willing to post a \$250 forfeit at any time and to put up the balance of the side-bet the day before the match.

The Kamehameha Schools athletes expect to make a good showing in the field-day events of March 14 and 21.

The Manoa Valley Tennis Club's opening occurs next Saturday from 4 to 6 p. m. Judging from the work that the committee on arrangements has accomplished, a good time will be enjoyed by all who attend. Some of the best tennis players in the city will be seen on the courts, stroking and smashing the balls to Berger's most popular airs. All friends of the club are invited.

The Kalih Athletic Club write that they did not put in an appearance at Kapiolani park last Sunday to keep a Valley's League date, because as no schedule had been arranged they did not know with whom they were to play or if they were to play a game at all.

A MORNING PAPER.

WALTER G. SMITH - - - - - EDITOR

WEDNESDAY : : : : : FEBRUARY 26

MISSIONARIES AMONG ASIATICS.

Mrs. Elizabeth Goodnow, the young widow of John Goodnow, who was for nine years United States consul at Shanghai, China, is back home, preparing to take up settlement work on the lower East Side of New York city. After nine years of observation of missionary work in China, said Mrs. Goodnow, "I am convinced that I can do more good among the poor of New York than I could in China. I can not give you a very good opinion of the American missionary workers in China. Of course, there are some who are doing a noble work, but as a rule they are a little, narrow-minded lot, and I do not blame the Chinese for often looking down upon them. Their ideas of Christianity would never be accepted by our people, and it is little wonder to those who observe their methods from close range that they make no greater headway than they do among a people so advanced in religious thought as the Chinese are."

Travelers are of many minds about the Protestant missionaries in China, but it seems to be a fair criticism that the home boards have not always differentiated between the missionary needed to combat a non-Christian civilization and one to instruct an aboriginal heathendom, sending to the former teachers more suitable to the latter. A simple Christian worker with industry and a good heart will do for Indians, bushmen and South Sea Islanders; but a Christian philosopher, skilled in dialectics, is called for in a field of work like China or Japan or some parts of India. The Jesuits were quick to learn this and the knowledge served them well before Protestant missions were born.

Many years ago in College a young Japanese said: "Why do you send us preachers whom you have no patience to hear yourselves? We have our own theologians and seers. If you want to convert us you must convert them; and for that task you need to send your Beechers and Chapins, Emersons and McCosh's, not your pulpitless rural clergymen, your young divinity students and your sickly women who, failing of marriage, enter the foreign mission field."

That was sound criticism; a voice of protest from an ancient religion which has inculcated peace among men, honesty, frugality and philosophy against frivolous treatment from the advocates of a newer religion, which the philosophers of Asia find trouble in accepting as one better suited to their racial conditions than their own.

WINDS AND NERVES.

An old deacon back East once complained that he never grew in grace while the east wind blew. The east wind along the north Atlantic shore, like our south wind, is the kind that does nobody any good excepting seafaring men who are making haste to port. Back in New England, the old Middle States and the South, there are more murders, more affrays, more family rows, more divorce suits, more devilry of all sorts when the east wind blows than at any other time of the year. That unholy meteorological visitation accounts for some of the vagaries of politics, statecraft and business. Panics have been accelerated by the east wind. Wars may come of it. If it blew into the White House for two weeks running, we should expect the President to declare war on Japan without waiting for the assent of Congress.

Some man in Hawaii with a taste for statistics could find much to instruct himself and the public by taking account of our south wind periods during the past fifteen years and comparing their dates with those of our biggest Honolulu reactions. How, for example, did the weather affect the Queen when she proclaimed the new constitution? Where did the weathervane stand when she insisted on the headsman and the block for some of our missionary leaders? How many times, when the carpet-bagger row was on, did the "sick wind" as the natives call it, earn the burden of responsibility. How much southerly weather did the Carter administration imbibe before it cut those curious capers that gave it such a unique place in local history? And isn't it the south wind that has turned the lighter heads of the Republican Central Committee on the subject of Wilder?

And women! Get them together in south wind times and there is hardly enough human reputation left for seed.

The mere announcement that the wind is veering southward makes everybody captious, cross and querulous.

Southerly weather, now and then, is scolded by women and cursed by men.

Lane, Kanuha, Ahia and Crawford, of the Executive Committee of the Republican Territorial Committee, are the statesmen who oppose the endorsement of Wilder. Every mother's son of them will probably turn Democrats if a Democratic President is chosen next year, their interest in the Republican party never having risen superior to jobs. It is almost an opera bouffe to hold up an executive measure to await the conclusions of those fellows.

Since the Ohio primaries went against Foraker on the Brownsville issue, there are none so poor as to do him reverence. Yesterday the Senate Committee on Military Affairs, to which Foraker had referred his resolutions of investigation, endorsed the President's dismissal of the negro troops and dropped the whole matter. Exit Foraker.

The Cement Age Company of New York, in writing to the Asst. Supt. of Public Works here, squandered three extra cents in postage. Whereupon the New York Postoffice affixed a stamp reading "Foreign, 5 cents half ounce." Evidently the campaign of education will have to proceed.

No better suggestion has been made here for the entertainment of the fleet than a three-day barbecue for the men and a banquet for the four highest grades of officers. And it would be well to have them both before the fleet creates a famine.

This paper had not been advised of any plan to exempt Hawaii from the operations of the Edmunds law, but if such a one exists it deserves the opposition it is promised locally and the defeat it is certain to get in Congress.

It is a rather large undertaking to prevent the sale of liquor in the Territories and the District of Columbia, but since Georgia and most of Kentucky have been won to Prohibition nothing seems impossible in that line.

The reason why the Italian government objects to emigration is that the taxes of the country now amount to thirty per cent of total incomes. The more people who go away the heavier the burden is on those left behind.

J. P. Morgan need not be expected to visit Hawaii for quite awhile yet. So long as Roosevelt is president Mr. Morgan does not care to travel more than eight blocks from Wall street.

Dr. Stokes, having got command of the hospital ship Relief, there would seem to be an opening for some competent coal-dealers to command the auxiliaries.

Mosquitoes are getting busy again, which goes to show that the people who gather tin cans and other containers about town are quite the other way.

If Mr. Roosevelt gets Mr. Taft nominated this time, Mr. Taft may return the compliment eight years hence.

England's pressure on Turkey over Macedonia comes at a time that must suit Persia very well indeed.

It is a pity to have to waste a good pigeon-hole on Bishop Potter's memorial against the navy.

People who plant the most vegetables in time for the fleet will make the most money.

AMERICAN AUTO

(Continued from Page One.)
the middle of April, all traveling is done at night. This is owing to the fact that during the day the temperature rises to the neighborhood of freezing point and the snow becomes so soft that the dogs can no longer secure a good foothold. Moreover, during the day the effect of the sun on the pure white snow is so brilliant that dogs and drivers are sometimes blinded.

"In order that an automobile be taken across this part of the country it should be so constructed that it can easily be taken apart. In this way, in case of need it could be transported a part of the distance piecemeal on sledges. In organizing these dog trains it will be necessary for the contestants to look out not only for their own wants, but to provide food for their animals also sufficient to last until the next post is reached. With a good dog team travelers can make as much as 100 versts a day.

"If the contestants decide to travel in their machines, one or two sledges will have to be sent on in advance so as to properly pack the snow. In case that the route be not thus marked out in advance the road through the Anadyr Valley will be found to be the preferable one. The Russian villages which exist along this road are not very big, it is true, but the travelers will always be able to find provisions, guides, dogs and other things necessary.

"The distances in versts may be stated as follows: From Ouelhyn to Ouneyne, about 430 versts; from Ouneyne to Novo Maryinsk, 250 versts; from Novo Maryinsk to Markovo, 470 versts; from Markovo to Nijni-Kolymsk, 450 versts. The total is 1600 versts.

"The ice in the Arctic Ocean north of Siberia does not begin to break up until May 1, Russian style. Throughout the month of April, in North Siberia, although the temperature is often mild by day, it becomes cold at night-fall. Contestants in the New York-Paris race should take along with them a good supply of fuel. The road from Nijni-Kolymsk to Iakoutsk will be comparatively easy after the hard journey from East Cape.

"I am convinced that Northeast Siberia will be no harder to traverse than Alaska. If the contestants can cross Alaska they can cross Northeast Siberia."

FEARFUL SEIZURES OF PAIN

Doan's Backache Kidney Pills Removed a Dozen Large Stones and Relieved the Pain.

Joseph Deloge, of Renton, Wash., U. S. A., writes of his wonderful cure.

He says: "I think the alkali water of the West affected my kidneys. I began to have pain in the back, headache and dizzy spells. I was so stiff and lame it hurt me to work. I came to Seattle, but the change of climate did not help me. It was dangerous for me to work at my trade. Once I was taken with a dizzy spell when walking along the joists of a building. I had to get down on my knees to avoid falling to the ground. The urine at this time was thick, red and ill smelling. Soon I was taken with an awful pain in the groin. I thought I had appendicitis. In agony I went to a doctor. He said gall stone, and administered morphine to ease my pain. He gave me some effervescent salts and said it would dissolve the stone, but it didn't.

"Soon after this, I heard about Doan's Backache Kidney Pills, and began using them faithfully. The treatment very quickly began to dissolve the stone. It crumbled and came out in the urine, in the form of a sandy, gritty sediment. For several days this continued, and the grit was so thick it could be scraped off the bottom of the vessel in large quantities. One day the urine stopped flowing, and I was taken with a frightful pain. It kept up all through the hours of the night. There was constant desire to urinate, but could not pass a drop. In the morning that big stone I sent you came out, and was followed with a gush of blood in the urine. Next came the smaller stones, and then more sand and grit.

"The suffering was something terrible, but I began to feel well right after. Backache, headache, and dizziness disappeared, and I picked up in health and strength. My whole system felt the benefit. I am sure Doan's Backache Kidney Pills saved my life. I have never had an attack of gravel or kidney trouble since."

Doan's Backache Kidney Pills are sold by all chemists and storekeepers at 50 cents per box, six boxes \$2.50, or will be mailed on receipt of price by the Hollister Drug Co., Honolulu.

Pa Twaddles—"Tommy, I am not at all pleased with the report your mother gives of your conduct today."

Tommy Twaddles—"I knowed you wouldn't be, an' I told her so. But she went right ahead and made the report. Jest like a woman, ain't it?"—Cleveland Leader.

Sally Gay—"What a cunning little fellow Mr. Callipers is!"
Dolly Swift—"Cunning! Why, look at him—he's dreadfully bow-legged."
Sally Gay—"Yes; but that gives him such an arch look, you know."—Pick-Me-Up.

Have you secured your copy of Picturesque Honolulu? It is the most beautiful souvenir of Honolulu ever issued. Fifteen cents a copy ready for mailing.

A Thermos Bottle

for the Baby Carriage will prove very handy in a great many ways.

When the Baby takes his airing, just put a Thermos Bottle full of warm milk in the carriage.

Then you will be sure not to interrupt baby's diet, and keep him happy and healthy.

You can take him out for any length of time, or on a visit, without his fretting for his Bottle; he'll always be happy and contented.

The Thermos is a boon to travelers on long or short journeys. Keeps liquids for days at the same temperature at which they were first put in it.

GRAVE IN KENT OF ONE OF CAPTAIN COOK'S OFFICERS

Kaneohe, Feb. 24, 1908. Editor Advertiser: The article relics of the world-famed Captain Cook, R.N., is most interesting, and it is very probable that future years will bring to light more.

In the churchyard, of the Parish church, Lyid, Kent, England, of which my uncle the Rev. B. Cobb was in charge in the 60's and 70's there is the tombstone of an officer who was with Captain Cook when he was killed. The stone is or rather was in good repair when seen by the writer in 1900, and is greatly thought of by the parishioners who keep it up and photos are sold in the village stores as well as those of the neighboring villages.

As a boy, when staying at the Vicarage, it was a pleasure to me to read and reread the inscription. The church is one of the most ancient in Kent or rather in all England and is likely to stand as such as well as a landmark to the Channel shipping for centuries yet. The great Cardinal Wolsey was vicar of it at one time, and its tower was used as a watch tower during the wars of the Roses.

Many of the stones in the churchyard show dates of 1300 and 1400 odd, whilst the brasses, vault stones and raised tombs inside are older yet.

The following is the inscription written from memory:

Sacred to the memory of Lieut. Tom Edgar of the Royal Navy, who departed this life, Oct. 15, 1805.

He came into the navy at the age of ten, was in that memorable engagement with Admiral Hawke, and sailed round the world in company with the unfortunate Cook of the Resolution in his last voyage when he was killed by

the Indians in the island of... in the South Seas, Feb. 14, 1778.

Tom Edgar at last has sailed out of this world. His shroud is put on and his topsails are furled. He lies snug in Death's boat, without any concern. And is moored for a full one ahead and astern. O'er the compass of life he so merrily ran. His voyage is completed, his reckoning's done.

He was Master's Mate of the Resolution or Discovery and I have often wondered why he was only a lieutenant at his death unless he "came ashore" as a young man, for he lived in stormy days when promotion was rapid. But he is at rest in one of the prettiest of God's acres: For many years there have been no interments in the churchyard, the graves being near to one another and close to the venerable church. Some thousands of the graves have no stones but there is the raised earth or mound above each so that each grave is easily discernable (a practice that Hawaii might copy) and many the scolding has my dear mother given me for jumping over them when a little boy.

Many years ago I lent a photograph of Tom Edgar's gravestone to a Mr. Mather Montgomery of the Advertiser with the understanding that he would print the inscription in the paper, but he never did it nor did he return it. Should the Bishop Museum desire a photograph of the stone and church I will send to England for them.

Respectfully,
HENRY COBB ADAMS.

FORCING GROWTH OF CROPS BY CARBONBISULPHIDE

Editor Advertiser: Following is a translation of a German extract from the "Echo" Technical Review:

Formerly the opinion prevailed that carbonbisulphide used as a soil disinfectant had only a temporary stimulating irritative growth effect on the roots. Since, it has been proven that a far reaching dissolution of the nutritious elements in chemical form is accomplished, but principally an absolute change in the biological actions takes place. By fertilizing with carbonbisulphide, as explained by P. Gordan in the "Westp. Ldw. Mitteilungs." the largest part of the bacteria and their compositions are destroyed. First of all, except for the remarkable reduction of the micro-organisms, the soil is momentarily damaged, but in a short time the reviving bacteria capable of resistance, multiply enormously at the expense of those perished. In this way, it was possible, through the continuous treatment with carbonbisulphide of increasing the bacteria of gelatine growth from five to ten millions to a gram of soil to forty (40) millions and with this in proportion increase the fertility of the soil. With a field planted in potatoes, treated with carbonbisulphide, the crop of potatoes was almost doubled. In the Deidesheimer District of the Rhine, 45,000 kgs. were sold to wine growers, but not for the

killing of the grape blight which does not exist there, but for the "poisoning" of the soil" as the winegrowers were through former experiences, convinced and aware of the fact, that carbonbisulphide has an exceedingly intense effect on the growth of the plant. The carbonbisulphide gives particularly excellent results when used for a force growth, for instance, when it is found necessary in a vineyard to replace old plants for young ones which latter should be brought to quick bearing. The effect of such a carbonbisulphide treatment extends also to the old plants in the neighborhood of those treated, and are easily noticeable for their remarkable growth and dark green foliage. The results obtained through the application of carbonbisulphide (according to Gordan's Experiences) on vineyards is an extraordinary crop increase; however, if this is at the expense of the quality of the vine, is a matter as yet undecided. Similar as with carbonbisulphide, according to Gordan's Experiences, act also other poisons on the fertility of soils, as alcohol, ether, arsenic, carbolineum and chloroform, although with the exception of carbolineum and carbonbisulphide, as to the cost of the material, the others may be excluded for practicable purposes.

THE WORRIED WOMEN.

"They say men must work and women must weep; but alas, in this too busy world women often have to work and weep at the same time. Their holidays are too few and their work heavy and monotonous. It makes them nervous and irritable. The depressed and worried woman loses her appetite and grows thin and feeble. Once in a while she has spells of palpitation and has to lie up for a day or two. If some disease like influenza or malarial fever happens to prevail she is almost certain to have an attack of it, and that often paves the way for chronic troubles of the throat, lungs and other organs; and there is no saying what the end may be. Let the tired and overladen woman rest as much as possible; and, above all, place at her command a bottle of **WAMPOLE'S PREPARATION** a true and sure remedy for the ills and maladies of women. It is palatable as honey and contains all the nutritive and curative properties of Pure Cod Liver Oil, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. Search the world over and you will find nothing to equal it. Taken before meals it improves the nutritive value of ordinary foods by making them easier to assimilate, and has carried hope and good cheer into thousands of homes. It is absolutely reliable and effective in Nervous Dyspepsia, Impaired Nutrition, Low Vitality, Wasting Conditions, Melancholy, Chlorosis, Scrofula, and all troubles of the Throat and Lungs. Dr. E. J. Boyes says "I have found it a preparation of great merit. In a recent case a patient gained nearly twenty pounds in two months' treatment, in which it was the principal remedial agent." It carries the guarantee of reliability and cannot fail or disappoint you. At chemists.

WANTS BRONZE STATUE AT CAPITOL GATE

Editor Advertiser: I wish that you be kind enough to allow me a space in your valuable newspaper. I want to express an opinion in regard to the McKinley memorial.

It is very difficult for the trustees to decide what to do when there are so many ideas and such a cosmopolitan community to satisfy.

The Hawaiian Islands owe a great deal to the late President McKinley, and a fitting monument should be erected to his memory—one that the coming generation will recognize and understand that it is the statue of the man that brought these beautiful islands under the protection of the Stars and Stripes. As an American citizen, I would suggest that a full-length standing bronze statue, in a speaking attitude, be placed at the King street gate of the Capitol, known as the old Palace Grounds, facing the statue of Kamehameha the Great, so that when people go to either building, or pass along the street, they will take notice of the statues of the two men that were the instruments of making these islands progressive.

My experience on bronze statues is that in 1854 I saw the statue of our great Simon Bolivar, the George Washington of South America, at my old home in Bogota, the capital of the United States of Colombia—and during my visit there seven years ago I found the statue in as perfect a condition as it was in 1854, a length of forty-seven years, and during the forty-seven years it has gone through a series of earthquake shocks.

The pedestal for the statue can easily be found at Mikilua, near Wailanae, or at Washio, Manoa, on this island, where there are large single boulders of beautiful blue stone.

Thanking you in advance, respectfully,
A. A. MONTANO. Manoa, Oahu, February 23, 1908.

HEAVY TRIBUTE PAID LAWYERS

Squabbles Over Control of a Spendthrift's Estate Cost \$2000.

J. Alfred Magoon, guardian of Kalua Kapukini, a spendthrift, filed his account up to February 18, 1907, covering a period from August 26, 1901. Receipts are \$2749.10 and payments \$468.56, leaving the estate indebted to the guardian in the sum of \$1919.46. Judge Lindsay approved the accounts and, on the petition of the ward herself, granted his discharge.

In the payments out of income an immense proportion of the "spendthrift's" estate has been dissipated for her in law expenses, as witness the following items:
June 20, 1901. To fee J. Alfred Magoon for resisting application for discharge of guardian in Circuit and Supreme Court brought by Humphreys & Gear, decided May 31, 1899, \$150. The amount of this charge made two years after the event is entered in pencil.

July 13, 1901. To master's fee on account, \$50.
Sept. 23, 1901. To witness fees, \$15; 30, to subpoena, \$1; Oct. 2, to witness fees, \$7.60; 4, to transcript of evidence, \$23.75; 8, to costs, etc., \$12; 17, to costs appeal guardianship, \$50; total, \$110.36.

Jan. 17, 1902. To balance transcript re guardianship, \$13.70.
June 14, 1902. To car fare J. Lightfoot searching for Kalua to appear in court, \$0.15.

July 2. To fee J. Alfred Magoon for resisting application for discharge of guardian in Circuit and Supreme Court brought by Thos. Fitch, decided in Supreme Court May 7, '02, and on motion for rehearing July 9, '02, \$250. This struggle to retain hold of the spendthrift, it will be seen, is deemed worth \$100 more than the other. Probably Tom Fitch gave the guardian a harder run for the money than had Humphreys & Gear. Again the amount, not the item, is entered in pencil.

Feb. 4, 1903. To Barenaba, services attorney in District Court, Kaneohe, \$5.
April 4. To costs in re guardianship, \$50.

May 7. To paid Fitch for writ of error, \$25.
The total income spent in litigation is \$654.21 but that is not all. Charged to principal there are these items:
October 14, 1901. To cash paid Gear & Humphreys in full of fee, \$500.

July 15, 1902. To cash paid Thos. Fitch, \$436.50.
July 12, 1904. To cash paid Thos. Fitch acc. fee, \$250.
Aug. 2. To cash paid Thos. Fitch in full, \$250.

This is \$1436.50 paid to lawyers out of principal, which added to the \$654.21 for litigation out of income makes a grand total of \$2090.71, or more than the amount of the spendthrift's alleged indebtedness to her guardian, which has been absolutely thrown away so far as the poor woman is concerned.

Mr. Magoon charges his ward, also, with \$327.39 as interest on overdrafts, computed at the rate of eight per cent. Still, the ward says in her petition that she has examined the accounts and approved them. J. Alfred Magoon was appointed her guardian by Judge Alfred W. Carter on February 26, 1894, and she gives the following reasons for asking that the guardianship be now terminated, as has been done:
"That petitioner is now thirty-two years of age and upwards, and is married and desires to make certain provisions with reference to her property which she cannot make while the guardianship continues, and that the contemplated provision will, as petitioner believes, be greatly to her advantage and will increase petitioner's income from her property.

That petitioner has for some months last past been working steadily in Honolulu for wages, and through manual labor has learned the value of money."

By Authority.

NOTICE OF SALE OF PUBLIC LANDS AND LEASES OF LANDS.

At 12 o'clock noon, Monday, February 24, 1908, at the front entrance of the Judiciary Building, Honolulu, there will be sold under the Provisions of Part 4, Section 17, Land Act 1895, (Section 276, Revised Laws of Hawaii), each of the following described tracts of land located at Mana, Kauai:

- Lot No. 1, area, 512 acres; upset price, \$1024.00.
Lot No. 2, area, 510 acres; upset price, \$1020.00.
Lot No. 3, area, 510 acres; upset price, \$1020.00.
Lot No. 4, area, 320 acres; upset price, \$1040.00.

Terms cash or at the option of the purchaser, ten per cent (10%) of the purchase price to be paid at time and place of sale, an additional ten per cent (10%) of purchase price to be paid one year from date of sale, and the third, fourth, fifth and sixth instalments of twenty per cent (20%) of purchase price each, to be paid in two, three, four and five years respectively, from date of sale.

Interest on unpaid balances at rate of six per cent (6%) per annum, to be paid annually.
Provided, however, that instalments may be paid before they are due, thereby stopping corresponding interest.

At the end of one year from date of sale the purchaser to have and thereafter during the period of the agreement to maintain in good growing condition not less than Seventy-five Thousand (75,000) sisal plants, equally distributed over not less than Seventy-five (75) acres of the premises.

At the end of each succeeding year, up to end of period of the agreement, the purchaser to have and thereafter during the period of the agreement, to maintain in good growing condition not less than Seventy-five Thousand (75,000) sisal plants, equally distributed over not less than Seventy-five (75) acres of the premises in addition to the number of plants and acres required to be planted or maintained at the end of the preceding year.

At the end of five years from date of sale the purchaser to have in good growing condition not less than Three Hundred and Seventy-five Thousand (375,000) sisal plants, equally distributed over not less than Three Hundred and Seventy-five (375) acres of the premises.

For information regarding other conditions and full information regarding the land sale, apply at the office of the undersigned, Judiciary Building, Honolulu.

At the same time and place, and under the same part of the Land Act, there will be sold at public auction, Lot 98, Kalaheo Tract, Kauai, area 5.2 acres, upset price, \$10.00, plus cost of Patent and Stamp. Terms cash, United States gold coin.

The Government reserves a right-of-way ten (10) feet in width for the proposed ditch line through this lot, and a right-of-way sixty (60) feet in width, occupied by the Kauai Electric Company's power transmission line through said lot.

At the same time and place, there will be sold at public auction under the Provisions of Part 5, Land Act 1895, (Sections 278 to 285 inclusive, Revised Laws of Hawaii) General Leases of the following described lands:

- (1) 158 acres a little more or less of the agricultural and grazing land of Ukumehame, Maui.
Terms of lease, five years from June 1, 1908.
Upset rental, \$540.00 per annum, payable semi-annually in advance.

- (2) 5.25 acres more or less of the Government Remainder of the land of Alamihii, Lahaina, Maui, consisting of about 4.25 acres of pond and about 1 acre of kula land.
Term of lease, five years from March 1, 1908.

Upset rental, \$30.00 per annum, payable annually in advance.
The usual reservations regarding land required by the Government for settlement or public purposes will be embodied in these leases, and an additional condition in the lease of the Alamihii land will require the Lessee to maintain the pond and kula in a sanitary condition.

For plans and full particulars apply at the office of the undersigned, Judiciary Building, Honolulu.
JAS. W. PRATT, Commissioner of Public Lands.
Honolulu, Oahu, T. H., January 22, 1908.
7945—Jan. 25, Feb. 1, 8, 15, 22, 24.

The sale of Lots Nos. 1, 2, 3 and 4, Mana, Kauai, total area 2092 acres, is hereby postponed to Monday, March 9th, 1908.

JAS. W. PRATT, Commissioner of Public Lands.
Honolulu, February 21, 1908.

HAWAIIAN GAZETTE CO.

The French steamship Maite, the largest and finest of the Chargeurs Reunis line of around the world vessels which has yet been in this port, arrived early yesterday morning and is at the Bishop wharf. The Maite is in command of Captain Benard, and is a very handsome vessel. She is fitted for both passengers and freight. Her cabin accommodations are extremely commodious and comfortable, and her dining saloon, social hall, smoking room and officers quarters are all roomy and well arranged. She brought three cabin passengers for Honolulu, besides twenty-nine steerage, and five cabin passengers for San Francisco. Her passengers for here are Monsieur Menant, Consul for France for these Islands; Mrs. Menant, and Mrs. Hurez, Mrs. Menant's mother.

Among the passengers for San Francisco are Mr. and Mrs. Maury. He is the son of a very rich French merchant and is touring the world for pleasure. The Maite was built at Wallsend on Tyne by Messrs. Swan, Hunter and Wigham Richardson. Its length over all is 305 feet; beam, extreme 35 feet, 8 inches; moulded depth 36 feet, 11 inches; maximum draft 28 feet, 6 inches; displacement 16,000 tons, gross tonnage 8213 tons; net tonnage, 5243 tons.

This is her first voyage on this route. She sailed from Antwerp December 1, 1907, touched at Dunkirk, La Pallice, Marseilles, Genoa, Naples, Port Said, Perim, Colombo, Singapore, Hongkong, Shanghai, Chinwangtao, Kobe, Yokohama, and Honolulu. From here she will sail to San Francisco, and thence to Seattle. Returning she will touch again at San Francisco and thence at Mexican and Central and South American ports on both sides and thence to Liverpool and Dunkirk. She will load copper in the Gulf of Mexico. The officers are a fine looking lot of

LOCAL OFFICE OF THE UNITED STATES WEATHER BUREAU.

Honolulu, Tuesday, Feb. 25, 1908.

Table with columns for Year, Month, Day, Thermo, Wind, etc. showing weather data for Honolulu.

W. M. S. STOCKMAN, Section Director.

TIDES, SUN AND MOON.

Table showing tide and moon data for Honolulu, including high and low tide times and moon phases.

Next quarter of the moon Feb. 24.

The tides at Kahului and Hilo occur about one hour earlier than at Honolulu.

Hawaiian standard time is 10 hours 36 minutes slower than Greenwich time, being that of the meridian of 157 degrees thirty minutes. The time while the sun is above the horizon is 1:30 p. m., which is the same as Greenwich 0 hours 0 minutes. Sun and moon are for local time for the whole group.

METEOROLOGICAL RECORD.

Issued Every Sunday Morning by the Local Office, U. S. Weather Bureau.

Table with columns for Day, Max, Min, etc. showing meteorological records for Honolulu.

Note.—Barometer readings are corrected for temperature, instrumental errors, and local gravity, and reduced to sea level. Average cloudiness stated in scale from 0 to 10. Direction of wind is prevailing direction during 24 hours ending at 8 p. m. Velocity of wind is average velocity in miles per hour. T indicates trace of rain.

W. M. S. STOCKMAN, Section Director.

men and most of them speak three or four languages. The captain is Benard, the First Officer Abrent, and the Purser Finet. The vessel carries a purser, a surgeon and a stewardess, and all the accommodations of a first-class passenger steamship. It is probable that the Maite will not sail before Thursday morning. She can make fourteen knots an hour.

The Ceylan, a sister ship will arrive here in March, and then, according to present plans these large steamers of the service will sail from Japan direct to Vancouver and thence down the coast, while the Honolulu and San Francisco business will be taken care of by smaller steamers.

HILONIAN DEPARTS.

The Hilonian promptly at four bells, 10 o'clock, began to move out of her berth at the Matson wharf yesterday morning and was away, loaded down with freight, but carrying a smaller list of passengers than usual. On this account, probably, the number at the wharf to see the vessel sail for San Francisco was not as large as has been usual on her departure in the past. The band was on hand and played the steamer off. The principal items of freight were 200 tons of refined sugar and 1200 tons of raw sugar. Besides these there were pineapples, coffee, rice, hides, empty barrels and other island produce.

THE DESPATCH.

The steamer Despatch is due from Makaweli this morning and will sail again in the evening for another load of sugar. Captain Kokerwitz reported that the barkentine Hawaii was expected to get away from Makaweli last Saturday for Aberdeen, Washington. She had been delayed considerably getting ballast.

THE CONCORD.

The little schooner Concord, Captain Ulnahale, arrived early yesterday morning with thirty-five cords of algaroba wood from Kaunakakai, by way of Lahaina. In the Maul channel she fell in with the barkentine Fullerton, and the two came along together on this port. The Concord will sail on Thursday for Kaunakakai.

FULLERTON'S FINE TRIP.

The old barkentine Fullerton arrived here yesterday morning from Oleum, on San Francisco bay, with 15,000 barrels of fuel oil for the Union Oil Company. She made the voyage in the splendid time of sixteen days. Captain Aas says that he had good winds all the way and as fine a voyage as he could wish. Nothing was sighted on the way. The Fullerton was cleared from San Francisco, as reported in the San Francisco papers, for Honolulu via Port San Luis. But after clearing orders were received to go to Oleum to load instead of to San Luis. Captain Aas expects to finish discharging his cargo this afternoon and to get to sea again before dark.

THE ALASKAN FOR HILO.

The American-Hawaiian S. S. Alaskan, Captain Nichols, was expected to sail yesterday evening from Kahului for Hilo, and no doubt did, although her sailing has not yet been reported. She took 150 tons of sugar at Kaunapali, and 2000 tons at Kahului, and will take the remainder of a 12,200-ton cargo at Hilo, sailing the latter part of this week for Sallina Cruz.

THE NEBRASKAN.

The Nebraskan will be the next of the American-Hawaiian steamers to sail from Seattle for this port. She is scheduled to sail from Seattle on March 4, arriving here on March 13. This will probably be her last trip over the triangular run, she and the Nevada beginning the biweekly service direct between Honolulu and San Francisco.

NEXT STEAMER TO THE VOLCANO

The Inter-Island Company have a notice conspicuously placed in their office window that the next steamer to the volcano will be the Claufline, on Friday. The reported increase of activity in Kilauea has stimulated interest anew in that wonder, and the Kilauea yesterday took a large number of people, tourists and others, to the volcano. Professor Vladimir Sviatowsky, the Russian savant, who came here in connection with the recent discovery of some Captain Cook Hawaiian relics in St. Petersburg, changed his transportation from the Mauna Loa to the Kilauea, in order to get to the volcano as soon as possible. He was going by the Mauna Loa to visit the scene of the stirring adventures and death of Captain Cook, at Kealahou Bay. But he has now to the volcano first and will return by way of Kealahou Bay.

Other visitors for the volcano were Mr. and Mrs. Clay of San Francisco.

Mr. Clay is secretary of the Bank of California.

TAKEN FROM THE MAUNA LOA.

The police took a young Portuguese off the Mauna Loa just before that vessel left her wharf yesterday at noon. He gave his name as Frank Williams and he is charged with the larceny of a bicycle from the store of K. Daimaru, corner of Nuuanu avenue and Kukui street, on February 13. Yesterday Daimaru saw the wheel in Diamond's lane, and got a policeman, who took it and the boy that had it. The boy said he bought it of Frank Williams for five dollars. Inquiry for Williams led to the discovery of the fact that he was going away on the Mauna Loa. The police think it was an effort to make a quick get-away. Williams says he bought the wheel from a soldier who went away on the Thomas. But the Thomas went away on February 5, while the wheel was not stolen until February 13.

THE MIOWERA.

The old Canadian-Australia liner Miowera has made sixty-three voyages from Australia and in her fifteen years service covered 1,000,000 knots of sea space. The Miowera was built in 1892 by Swan & Hunter on the river Tyne, and was the finest steamer they had turned out up to that date; therefore, her commander, Captain Hemming, impresses on his passengers that she is the mother of the Mauretania, the swiftest greyhound of the Atlantic, turned out by the same shipbuilders fifteen years later, and marking another stage in the wonderful advances made in shipbuilding. The Miowera in her palmy days could average fourteen knots an hour and in 1894 broke all previous records from Plymouth to Sydney via the Cape, steaming with only three boilers, making the trip in thirty-nine days and six hours. Her descendant, the Mauretania, travels at a clip of about twenty-five knots.

The Miowera was built for the New Zealand-Australian Steamship company, and for the first year was operated on the run between Australia and New Zealand ports. This company was absorbed by others, and May 18, 1893, the Miowera, commanded by Captain Stott, departed from Sydney on her first voyage to Vancouver, arriving June 9, 1893. The only serious accident she has suffered in all the years she has been buffeted by the rollers of the Pacific was on her second passage, when she went ashore on the reef at Honolulu, Captain Stott being in command. The steamer was sent to England for repairs and on the voyage out again in 1894 was joined by F. A. Hemming, her present captain, as third officer.

In 1897, on her nineteenth voyage, Captain Hemming was placed in command, which he has remained ever since with the exception of a break of eight months when Captain Free had the ship. Lieutenant H. C. Hammon, R. N. R., chief officer of the Miowera, also commanded on a couple of voyages while Captain Hemming was away, on leave, illness being the cause on one occasion. Lieutenant Hammon has been chief officer with Captain Hemming for ten years. For a time in the early days of the Miowera with the Warrimoo, maintained the same monthly service that is now given by three steamers, the vessels' stay in port being limited less than a week at either terminus, and this heavy strain, with no time to properly overhaul the engines at the end of each voyage told severely on the vessel. She has, however, proved a credit to her builders, voyaging without accident for so many years the wide reaches of the Western ocean, and still, though with slower pace, fulfilling her duties.

fronting on Union Square—the heart of San Francisco—is a fine example of the artistic treatment of a utilitarian idea, which, to the traveller, typifies the high value San Franciscans place upon entertainment, and in spite of the fact that the hotel probably unites under one roof more advanced ideas

of hotel service than any other caravansary in America, the rates are perhaps lower in proportion to the attention offered than can be found elsewhere in the United States.

WEEDON LOSES DAMAGE SUIT

Jury Out Nearly Six Hours—A Decision of McBryde Case Today.

At twenty minutes after nine last night, having been out nearly six hours, the jury in the Weedon-Chapin case returned a verdict for the defendant.

There was a mistrial of this case last term, following a nonsuit granted in Weedon's suit for \$5000 damages against the husband of the defendant who has won now.

At five minutes after five the jury came into court to say that they could not agree. Judge De Bolt said there ought to be a verdict.

Argument was heard by Judge Lindsay yesterday in the injunction suit of McBryde Sugar Co. vs. Koloa Sugar Co. relative to water rights.

Wm. Henry, High Sheriff of the Territory, returns the execution for \$616.35 in the suit of Hark Hak See vs. Pak Lung Kwon, Kim Sung Kwon and Yee Nai Soo.

THE KOREAN CASE. Wm. Henry, High Sheriff of the Territory, returns the execution for \$616.35 in the suit of Hark Hak See vs. Pak Lung Kwon, Kim Sung Kwon and Yee Nai Soo.

CONTEMPT IN DIVORCE. Marion Myhre by her attorneys, Thompson & Clemons, will present a motion before Judge Lindsay on Saturday morning for an order citing her husband, George C. Myhre, to show cause why he should not be punished for contempt of court for disobedience of the order to pay her alimony pending a decision of her divorce suit.

ONE WEEK'S BLISS. Maria Aki Kanohi sues Joseph Kanohi for divorce for non-support. They were married on August 31 last, but she says that since September 6 he has utterly failed, neglected and refused to supply her with food, clothing, money or other necessary supplies.

HABEAS CORPUS. Judge Lindsay denied the motion to quash the return of High Sheriff Henry to the writ of habeas corpus in behalf of Eupakoshi. Also denied the motion to admit the prisoner to bail.

COURT ITEMS. Margaret Hoogs petitions that she be appointed administratrix of the estate of her late husband, Frank Luster Hoogs, which is valued at \$13,940.

FIELD DAY FOR LARCENY. Yesterday was a sort of field day for larceny in the second degree in so far as the police were concerned.

Easter Hats. WILL BE SHOWN AT Mrs. Dunn's Millinery Shop ON ARRIVAL

CHINESE MODE MARRIAGE VALID

Judge Dole Repeats Former Ruling—Need of Second Judge Discussed.

Lee Sa Kee, otherwise known as Sha Kee, indicted for adultery, was put on trial before U. S. Judge Dole yesterday morning. Assistant District Attorney Rawlins appeared for the United States, and Messrs. Magoon and Lightfoot for the defendant.

Hugh H. Walker, Eugene K. Allen, W. G. Ashley, J. M. Dowsett, Walter Waiamau, John F. Colburn, P. Macdonald, J. D. Coekett, Luther Severance, David B. Macdonachie, Charles Hibert and Harry Murray.

Judge Dole, in the proceedings, reaffirmed his former ruling that a marriage between Chinese, according to their national custom, in this country, is valid in law even if no license for the marriage was taken out.

Mr. Breckons points out the large and important calendar of criminal cases for the present special term, to which many additions are anticipated from the work of the grand jury.

Further, Mr. Breckons says it must occasionally be absolutely necessary to have another judge on account of the disqualification of the present judge.

THE LO SUN CASE. The examination of Lo Sun, the Chinese editor and teacher, for being unlawfully in the country stands continued before Commissioner Hatch until Monday, March 9.

LOCAL BREVITIES.

Judge Dale's stolen flag has been recovered.

In police court yesterday Joe de Nultz was fined \$3 and costs for drunkenness.

A. F. Judd of the Tax Commission complains of apathy of citizens regarding the work of that body.

The Governor's adjourned hearing on the Waialae car schedule will be held at three o'clock this afternoon.

Eagles! Don't forget that the meeting commences at 7 o'clock this evening, and not at half-past seven.

The Gleaners will meet at Miss Rose Richard's at 3 p. m. today. Dr.ingham will speak on the Gilbert Islands.

J. P. Cooke, not L. T. Peck, was elected third vice president of Alexander & Baldwin. W. R. Castle was chosen a director.

Honolulu Aerle No. 140, F. O. E., will be in session at 7:30 this evening, in Waverley Hall, for the purpose of initiating a flock.

A passenger on board the steamer Hiloian at sea sent a wireless to Honolulu, asking that his missing trunk be forwarded on the next boat.

A Japanese from Maui fell in alighting from a car and received a cut in the head. He was taken to the hospital, but his injury was found not serious.

A sale is recorded of 2622 square feet of land at King and Kekaula streets by Annie K. Hart and husband, E. H. Hart, and James R. Love, to Ah Leong for \$5250.

Governor Frear may get away for his saddle tour of Maui next week. When he goes he will be accompanied by Land Commissioner Pratt and probably others.

William F. Williams, keeper of Honolulu light for many years, was reported yesterday to be dying at his home in Artesian street. He is seventy-five years of age and a G. A. R. veteran.

Forty-eight persons are now enrolled in the evening classes of the College of Agriculture and Mechanic Arts. D. L. Van Dine on entomology and Jured G. Smith on botany were the lecturers last night.

Henry De Fries was the lowest bidder out of five for building a schoolhouse at Keolu, Maui, his bid being \$3885. Otto Oss was the lowest of six, his figure being \$2258, for a schoolhouse at Keolu, Maui.

Theo. H. Davies & Co., Ltd., received cable advices yesterday that the S. S. Moana was on time at Suva and would have accommodations for fifty first-class passengers, but none for second-class or steerage.

Henry F. Vila, in connection with a change of residence from the Fifth to the Fourth district, has definitely withdrawn his name from his private Republican club and from all the records of the party in which a day appears.

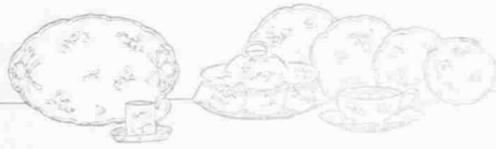

Manager Akai, of the local branch office of the Yokohama Specie Bank, has invited representatives of all the Japanese newspapers to meet at his residence tonight for the purpose of discussing plans of entertainment for the Pacific fleet.

The Wireless Telegraph Co. is receiving bids for the erection of a long-distance wireless station on this island. There will be two towers 200 feet high and 250 feet apart. Manager Rabin anticipated that conditions will soon call for a long-distance service with ships.

Chinese and Japanese residents will cooperate in the reception of the fleet. Representative men of both nationalities have been named on committees for the purpose. President James E. Morgan of the Chamber of Commerce is in touch with the movements of the Orientals.

Land Commissioner Pratt is quoted as saying that if Judge Parsons' decision in the Hapai case be affirmed by the Supreme Court it will knock the bottom out of the government's homestead plans. In his opinion it throws homesteads open to unbridled speculation by land-grabbers.

At their meeting yesterday the directors of the Hawaiian Maternity Lumber Co. decided to cable an order for a sawmill adapted to cutting hardwood. This was heretofore done. The plant will cost about \$2500 and be suited to other work than its primary use of sawing timber for the big Sixties-Eighties contract.

Elks' Building, : King Street,
Phone 651.

TICKETS IN DEMAND FOR BOTH NIGHTS

Tonight the call boy at the Open House will give the signal "Absolutely ready" for an entrance. The showman will be a dress affair and will be a success.

An inquiry at the box office yesterday brought the information that the demand for the seats for Saturday night is quite up to that for Thursday, an evidence that the public will accept the company's seasonal reception. "Everything goes" well at the rehearsal and the company shows better every day.

The costumes are elaborate in one or two instances but the best of all is the perfect using of the players. Mrs. McLendon who cannot fail to remind the audience of the late Mrs. Gilbert, holds the center of the stage in several scenes and holds it well but not better than other members of the company. A feature of the play is in giving every one an equal opportunity to show their dramatic ability. It is by no means a one-sided affair such as has been frequently seen here.

To have eleven people (including the director) in the same scene is a feat not often achieved in a play. The company is well equipped for a play of this kind. The scenery is well adapted to the play and the costumes are well adapted to the play.

The company is well equipped for a play of this kind. The scenery is well adapted to the play and the costumes are well adapted to the play.
