MOTT-SMITH FORMALLY OPENS FOR USE THE WATERWORKS EXTENSION

New Pipe Line and Safety Valves Accepted.

Yesterday afternoon, in the presence of government officials and engineers, Acting Governor Mott-Smith turned the big valve at the lower end of the new pipe from the new reservoir and allowed the first water to run into the reservoir at the power-house that came direct from behind the famous Nuuanu dam. Some weeks ago the dam was put into practical use and a section of the new pipeline was tested out, but the water in that case had to be switched at reservoir number three from the new main to the old.

Marston Campbell, Superintendent of Public Works, and James T. Taylor and Charles H. Kluegel, engineers of the department, spent all of yesterday morning going over the length of the new pipeline, watching it as the water poured into it from the temporary reservoir and noting how the immense strain was being stood. A few minor leaks, such as were to be expected, were found, but the pipe stood the test well and will be accepted as according to the contract, thus concluding Contractor E. J. Lord's connection with the reservoir and water supply scheme.

The big valves at the end of the pipe and the big perpendicular air chambers did what was required of them and held back the weight of the great column of water until the valve was officially turned and the water gushed out in a big flow into the lowest reservoir. When the pipeline was at first planned no such elaborate safety devices as were tested yesterday were thought of—or, at least, nothing was on file in the department to show that they had been contemplated. They were deemed absolutely necessary, however, by the engineers in charge of the department now, and their installation removes all possibility of the end of the pipe bursting because of the great pressure on it.

The big valve proper, which shows only its rounded top in the photograph herewith, is a massive piece of ironwork, weighing several tons. The main valve will not be opened until the direct connection is made with the electric power-house, the one opened yesterday being a side valve allowing the water to flow through a short pipe into the old reservoir. Another small valve on the opposite side will allow a connection to be made between the big pipe and the city mains, and can be used during the day when the water is not needed for power.

Standing above the valve are the air chambers, like two big engine (Continued on Page Seven.)

FLEET CHAIRMEN BEGIN WORK

Plans for Entertainment of the Sailors Commence to Take Form.

The first step toward adopting a definite plan of entertainment for the officers and men of the Pacific Fleet was taken yesterday afternoon when the chairmen of the various subcommittees gathered in the robin's egg blue chamber and talked over matters. No really definite plans resulted, but the various chairmen realized for the first time that there was definite work for each one to do and lots of it; and the program began to shape itself as the talk went on.

Acting Governor Mott-Smith presided over the meeting and James F. Morgan, of the executive committee and the following chairmen were present: F. L. Waldron, committee on entertainment; Samuel Johnson, committee on sports; Colonel J. W. Jones, committee on decorations; C. H. Dickey, committee on (Continued on Page Seven.)

JUDGE COOPER CANNOT ACCEPT A NOMINATION

After duly considering the question of agreeing to accept a nomination for the mayoralty of the City and County of Honolulu, at first suggested by the Advertiser and taken up and urged upon him by a large number of the leading taxpayers of the community, Judge Henry E. Cooper has decided that he can not be a candidate.

"The suggestion that I allow my name to be used as a candidate for the party nomination for Mayor came to me from so many of my friends and in such a way that it was worthy of consideration on my part," said Judge Cooper yesterday, "but after giving the matter careful thought, such as a proposal of that kind demanded, I have decided that I can not announce myself as a candidate nor accept a nomination.

"The reasons I have for this decision it is not necessary to announce, but they are sufficient to justify me in having to refuse to accept at this time the position of trust and responsibility that my friends have been good enough to urge upon me. Under ordinary circumstances I feel that it is the duty of every citizen to accept his share of civic responsibility, while every good citizen desires if possible to accept such a high position as the first Mayor of the city. I regret, however, that it will be impossible for me to consider a nomination.

"In this I am not influenced in any way by the considerations raised that the constitutionality of the Municipal Bill is in doubt. That is a phase of the matter I have not gone into at all except in the most casual way. I do not want it thought, either, that I consider that the nomination has been offered to me. It has been suggested to me, however, by so many of my friends and by responsible persons that it deserved consideration and a decision on my part."

LEFT TO LOCAL AUTHORITIES

Attorney General Bonaparte Writes to Rev. E. W. Thwing.

Attorney-General Bonaparte, in a letter to Rev. E. W. Thwing, in which he also encloses a copy of a letter to United States District Attorney Breckon, expresses the belief that the local authorities should be left to deal with such questions as were raised by Iwilei. He is not disposed to direct his department to interfere in the matter through the Edmunds Act.

His letter to Rev. Mr. Thwing was in response to one written by Mr. Thwing on behalf of the Ministerial Association and other organizations, urging the Attorney-General of the United States to direct the United States Attorney for Hawaii to interfere in Iwilei by means of the Edmunds Act.

The following is Attorney-General Bonaparte's letter to Mr. Thwing:

Washington, April 10, 1908. Rev. Edward W. Thwing, Honolulu, T. H.

My Dear Sir,—I am duly in receipt of your letter of the 27th ultimo, with enclosed statement, in reference to conditions in that portion of the city of Honolulu known as Iwilei. While I regret sincerely the condition of affairs you state to exist there, and desire that the assistance and influence of the Department of Justice should be uniformly exercised in the direction of public morals, I am of the opinion in this case that the Department can take no further action than is indicated by a letter which has this day been addressed to the United States Attorney for the District of Hawaii, a copy of which is enclosed herewith.

Yours very truly,
CHARLES J. BONAPARTE,
Attorney-General.

FISHMARKET IS TALKED OVER

Committee Takes Hold for the Purpose of Preparing a Definite Plan.

The plan of securing the fishmarket building for use as a public hall and putting permanent improvements upon it came down out of the clouds last night, and was steered off on a practical course. A committee consisting of F. B. McStocker, James A. Lyle, C. H. Dickey, L. C. Ables and G. Usborne have been appointed to get the matter into tangible shape for presentation to the various organizations of the city with a proposal that they assist and also to look into the status of the affair to see what guarantee there will be that money spent will not be wasted through the building being put to other uses by the government or disposed of.

This was not arrived at until after a great deal of time had been taken up in blowing bubbles at the meeting called by Mrs. Graham, chairman of the city improvement circle of the Ki-ohana Art League, at which about thirty people, members of that many organizations, were present. It had been Mrs. Graham's idea for each one of these to pledge their organization to "chip in \$25 to make up a fund to start work at once on the building according to a plan prepared, which was submitted. There was only one hitch in this arrangement, however, none of those present having any authority to speak for their organizations, and after a great deal of speaking this was at last made clear.

IMPORTATION OF SAKE IS BARRED BY FEDERAL ORDER

There is woe throughout all the length and breadth of the islands, consternation wherever there are Japanese and the news is known that the supply of sake from Japan has been shut off by Federal order. Prohibition, prohibitory prohibition, stares the joyous field hand and the festive coolie squarely in the face. The order went into effect quite recently, and it has not been felt in all its full force, but it will be just as soon as the present supply of the white rice juice gives out.

It is to preserve the good health of the sake imbiber that the Federal authorities have stepped in and said, "Thou shalt not," because it has been found that the favorite tippie of the Nipponese was doped. It contains the same brand of poison that is used in New England to keep apple cider from spoiling, the insidious salicylic acid, thus contravening the provisions of the Pure Food law. This is put into the sake by the Japanese manufacturer to keep it from turning sour, but the Japanese manufacturer didn't know about the Pure Food law, consequently the sake he has been sending to America has been met at the threshold of the country and turned back. So far there has been none denied admission at Honolulu, but the Mongolian had a large shipment of tubs of the condemned liquid aboard going back home, and according to the order of Washington, Honolulu will get no more until it arrives here in the pure and unadulterated state.

Inquiry among the Japanese yesterday led to the finding out that all sake put up for export in Japan is doped with the same salicylic preservative.

On that account the authorities here may seize the stocks on hand in the various Japanese wholesale stores and saloons, and the stocks on hand in the wholesale liquor stores of the haoles, nearly all of whom are big importers of the liquor. If they do and the tests show that the sake contains the drug, then a great sobriety will settle down over the land or the Japanese will have to forego patriotism for the time being and take to square face.

The great question as to whether sake is a wine or a beer will be lost sight of then in the greater calamity of it being called a poison.

The Federal order respecting it went into effect in San Francisco some days ago, long enough to have one shipment turned back. The San Francisco Call, speaking of the prohibition, says:

Anguish, woe and misery settled on some sections of the local Japanese colony when it was learned that a Federal order has been issued prohibiting the importation of sake preserved in salicylic acid.

Even in its native state, unadorned with the frills and furbelows of civilization, the national beverage of Japan is declared by experts to be a hilarious producer of happiness, and it is claimed that it will make a man climb a lamp post and yowl at passing policemen rather quicker than will the unadulterated reliever of rattlesnake bites on Arizona's plains. When to its potential qualities there is added the softening influences of salicylic acid the result is Texas.

Furthermore, it is a violation of the pure food laws, which the department of agriculture will not countenance, and the revenue department has been ordered to hold all consignments of sake until samples have been analyzed by Federal chemists.

**TRUSTEES FOR
M'KINLEY FUND**

C. M. Cooke and Wm. Williamson Elected by Board of Education.

The Board of Education held a meeting yesterday afternoon at which considerable business was transacted. It was the last meeting at which Commissioner C. J. Hutchins will be present, he having resigned, to take effect April 30. Superintendent Babbitt spoke very pleasantly, and in a very complimentary way, of the usefulness of Mr. Hutchins as a member of the board. Other members expressed the same sentiments. Mr. Hutchins thanked his fellow members for their kindly words and expressed the hope that he might again become a citizen of the Territory, though compelled to leave it at this time.

There was some discussion of the resolution adopted by the McKinley Memorial Fund Committee giving certain funds to the High School for its library on condition that the school should be named the McKinley Memorial High School, and should erect a bronze statue of McKinley at a cost not exceeding \$9000. Superintendent Babbitt, who was away at the time this matter was voted on by the board, said he was not in favor of changing the name of the High School. The Legislature had appropriated about \$60,000 for a building and \$20,000 for furnishing the school, and he thought it ought to have something to say about the changing of the name. He said that he had talked with the Governor about the matter before the latter left, and the Governor had expressed the same sentiments as had the Secretary of the Territory.

Superintendent Babbitt also suggested that a part of the fund could be made available for the scientific department. He thought that in the course of a few years the library would have all the books it could reasonably use. If a part of the fund could be used for the scientific department it would be a good thing. As this was a part of the original plan, it met with approval by the board, and it was decided to ask the McKinley Memorial Committee to so modify its resolution.

C. M. Cooke and William Williamson were elected by the board as two of the trustees of the High School Library Fund. The third trustee under the resolution of gift is the principal of the High School, at present Prof. M. M. Scott.

H. D. Sloggett, school agent at Lihue, sent in his resignation, which was accepted, and Judge Charles S. Dole was selected as his successor.

Mrs. Florence Patton was awarded a life certificate on her application, she being entitled to it by length and quality of service.

The exchange of a schoolhouse site at Kalae, Molokai, for another site better situated, was approved. The matter has been under consideration for some time. The exchange is believed to be one greatly to the advantage of the schools.

A communication was received from Mrs. W. W. Hall, on behalf of the Daughters of the American Revolution, in regard to a competition proposed by the chapter for the purpose of stimulating interest in American history. The plan first proposed was that the competition should be limited to pupils of the eighth grade. But it had been found that these will be very busy during the time of preparation for the competition in preparing for their graduation, and therefore it is suggested that pupils of the sixth and seventh grades be permitted to enter the competition. The competition is to take the form of essays for a prize of \$5 on the subject of "What the Flag Means to America."

The superintendent was instructed to reply that while the board approved all means for stimulating interest in such subjects, it did not feel that it could take any other action in this matter than to permit pupils who desired to, to take part in the competition—it could not urge them to.

A communication was received from Mrs. Agnes Carter Galt, of the Red Cross, asking the board to appoint a nurse to visit the schools and give instruction in hygiene, sanitation, and first aid to the injured, and that Mr. Gulick's books on the subject be made the text books in the schools.

The superintendent was instructed to reply that an effort had been made

in the last Legislature to secure an appropriation for a medical inspector to visit the schools throughout the Territory and give instructions in these matters, but that the effort had not met with success. It was hoped that the next Legislature would view the matter more favorably. As to the matter of text books, that was something that the board would consider as it considered all other matters of text books.

Principal Macdonald of Lahaina-luna was authorized to close the term of that school June 9 instead of June 19, the school term having continued through the short vacation so that there would be no loss of time, and the pupils from Kona would be enabled to take the Mauna Loa that day instead of having to wait ten days.

An application from Miss Bernice Cook for a leave of absence from May 15 for the remainder of the term was denied by the adoption of a general resolution that no leaves of absence would be granted except in case of actual illness making it necessary. There are always a large number of such applications at this season of the year from teachers who desire to take a longer vacation than the regular school vacation.

Certificates as private schools were directed to be issued to the Castle Home and St. Mary's School. The Liliha street Chinese school applied for such a certificate, but as its sessions are not held during the regular hours of the public schools no certificate is needed.

The action of the superintendent was approved in releasing the two Hickey boys from the Boys' Industrial School in order that they may accompany their family to the Coast.

Leave of absence was granted Mrs. Blake of Koloa school because of illness.

**LEFT TO LOCAL
AUTHORITIES**

(Continued from Page One.)

The following is the copy of the Attorney-General's letter to the United States District Attorney:

Washington, April 10, 1908.
Robert W. Breckons, Esq., United States Attorney, Honolulu, T. H.

Sir,—I am duly in receipt of your letter of the 26th ultimo, relative to the portion of the city of Honolulu known as Iwilei. The Department is of the opinion that the Edmunds Act, to which you refer, ought not to be used in connection with a matter of purely local concern. The subject mentioned seems to be wholly a local consideration, and the Department is inclined to coincide with the view you indicate that it should be dealt with by the local authorities. At the same time, the Department refrains from giving you positive instructions in the premises, and must depend upon you for appropriate action, since it is evident that it cannot be promptly and accurately informed of any developments which may arise.

Very respectfully,
CHARLES J. BONAPARTE,
Attorney-General.

Before writing to the Attorney-General, Mr. Thwing had a conference with Mr. Breckons, and the latter showed him a copy of the letter he had already written to the Attorney-General on this subject. In that letter, Mr. Thwing says, the United States Attorney said that while, strictly speaking, the denizens of Iwilei had not been under police protection, they were under the surveillance of the Board of Health, and while complying with the regulations of the Board were not molested; and it was because of this implied recognition by the Board of Health or its President, that he, the District Attorney, had been asked to apply the Edmunds Act. His policy in the past had been, however, to enforce the Edmunds Act only in open and flagrant cases, and where graver crimes could be reached by it; such a use, in fact, as the breaking up of the "Ten Dollar Club."

The following is a part of a communication which will be sent to a large part of the American press:

Honolulu, T. H., April 24, 1908.
A great campaign, backed by the weight of every religious denomination, is being waged in Hawaii against a vice that has been carried on openly, and as a business, in direct disregard of the laws of the Territory. The ministers of Honolulu met together and decided unanimously to ask for the enforcement of the laws against this vice, so as to make the city cleaner in preparation for the coming of the great American fleet.

A committee of the Ministerial Union of Honolulu secured the hearty co-operation of the different denominations, both Catholic and Protestant alike. Other organizations, as the Civic Federation and the W. C. T. U., have taken the matter up, and are working to secure the enforcement of the laws against immorality. The President and United States Attorney-General at Washington have been appealed to for their influence toward the enforcement of the Federal law, known as the "Edmunds Act."

CANNOT SERVE AS CHAIRMAN.

P. C. Jones, chairman of the Committee at Large on Fleet Entertainment, notified Acting Governor Mott-Smith yesterday that on account of his health he would not be able to perform the duties of chairman, though he would be glad to remain a member of the committee.

C. G. Ballentyne, chairman of the sub-committee on transportation, also notified the Acting Governor that he would be unable to accept that position, as during the visit here of the fleet he would be so actively and constantly engaged in his duties with the Rapid Transit Company that he would not have time to give to the work of the committee.

The filling of these two vacancies will be referred to the Executive Committee.

In every business there are higher considerations than making profits, if men are willing to look for them. When these things are once found and appreciated, the question of success takes care of itself; you can afford to let it take care of itself if you take care of the other things.

A recognition of some moral responsibility to the user of the goods; of an obligation to see that he gets the worth of his money; and the purpose and ability to make goods that meet these requirements—these things are at the roots of business profit.

Goods made so are well advertised, even though you don't print a line in a newspaper or magazine; they get the enthusiastic, word-of-mouth advertising of men who know the goods by using them.

COLLEGE WON FROM TRANSPORT

St. Louis Boys Put Up Fast Game With Soldier Nine.

The crack St. Louis College team did the trick with the soldiers from the transport Crook yesterday afternoon at Aala park after one of the fastest baseball games seen here.
The score at the end was 3 to 2 in favor of the local boys, who played the best game in their history. The soldiers proved to be good players of the national game and notwithstanding their sea-legs they gave the college nine a stiff fight for the honors.
In the first spasm both teams failed to tally, but in the second and third innings, the college team scored 2 runs. The men from the transport didn't score until the fifth inning, when two runs were credited to them through errors. Things looked good for the soldiers for a while, until the crack first baseman, "Cy" Johnson, was injured and Baizer came in to fill the vacancy. The two pitchers, Schreiber for the visitors, and Wm. Espinda for the local team, did good work, especially the latter, who puzzled the soldiers with his benders.
Heine English, who piloted the college team to victory, should be given credit for the work he did.
Following is the line-up:
Transport Crook—Bunge, 2b; Marshall, rf; Cy Johnson and Baizer, 1b; Turner, c; Bensinger, ss; Rightmire, lf; Walters, 3b; Schreiber, p; T. Johnson, cf.
St. Louis College team—Clement, c; D. Archa, cf; V. Ayau, ss; Markham, 1b; English, 2b; Espinda, p; Hoopal, lf; Honap, 2b; Akana, rf.

ROBERTS PUTS ON WEIGHT

Sailor Roberts weighed 175 pounds when he started training for his wrestling bout with Mitsuka. After working yesterday he tipped the beam at 177 pounds, and Pete Baron, his trainer, says that he will send his man onto the mat weighing 182 pounds. His policy is to build the sailor up as much as possible in order to offset the extra avoirdupois of the Japanese.
Baron has cut down Roberts' weight-lifting stunts and is giving him extra doses of skipping, stair-climbing, floor work and bridging. He worked an hour and twenty-five minutes yesterday morning and half an hour in the afternoon.
Professor Baron is giving him plenty of massage with most satisfactory results. The sailor has lost nearly every trace of muscle-bound and moves about as lithely as a cat.
There is great confidence in Roberts along the waterfront. The Iroquois boys bet odds on his chances on Saturday night and he is anxious to back himself for all the money he can secure. Professor Baron said yesterday that Roberts has been underestimated as a wrestler and that he can handle him easier than Hans Froelicher could. And Baron ought to know, for he has trained both men.
Today Roberts will do some road work on the sand makal of the Healan boat-house, and in the afternoon may wrestle with Frank Kanae, who wants to learn as much about the game as possible.

OUTRIGGER CLUB PROCEEDS

Committees Appointed to Secure Lease and Draft By-Laws.

A meeting of the committee on organization and plans for the Outrigger Club was held yesterday at the office of A. L. C. Atkinson at 11 a. m.
Those present were A. H. Ford, L. E. Pinkham and Dr. Hand.
Mr. Atkinson was appointed as a sub-committee of one to draft a constitution and by-laws to be submitted to the general committee at its next meeting on Thursday morning at 11 o'clock.
Mr. Ford was made a committee of one to secure an option of lease at nominal rent of the property at Waikiki upon which the club expects to erect its lanai and store its canoes and surfboards.
Mr. Pinkham was entrusted with the drawing up of plans for the proposed lanai clubhouse.
It was decided to suggest dues of five dollars per annum for club members, this for current running expenses. A building fund will be raised by other means. The committee will make its report to the Outrigger club at the meeting called for one o'clock next Friday afternoon at the Promotion Committee rooms.

LORENE C. IS GRANDLY BRED

Eddie Finn expects to send his Lorene C. to the races this summer. Lorene C. is a chestnut with a blaze face and white snip. She is very racing looking, but on the small side.
Royal Fan came here in foal, being imported by G. S. McKenzie. In California she ran a half in 0:47. After foaling the mare died.
Lorene C. was foaled May 18, 1902. Her sire was Taranto and her dam Royal Fan.
Taranto was by Imp. St. Blaise out of Imp. Tarantula. Royal Fan was by Prince Royal out of Fanfare.
On her sire's side Lorene C. claims relationship with Touchstone, Bee-wing, Gladiator, Voltiguer, Harkaway, Pocahontas, Kremlin, Hermit, Galopin, Newminster and King Tom.
From her dam she possesses strains of the blood of Kingfisher, Lexington, King Tom, Planet, Kingston, Harkaway, Pocahontas, Touchstone, Revenue and Idlewild.
Owner Finn may race the mare himself at Hilo or Kahului. If, however, he does not do so, Lorene C. may be leased for the races. She is a promising animal and should graduate from the maiden class.

TRACK ATHLETES MEET TOMORROW

The following notice is being sent to all members of the Y. M. C. A. track and field team:
Honolulu, T. H., April 25, 1908.
Dear Sir: There will be a meeting of the Y. M. C. A. field and track team Wednesday, April 29th, 8 p. m., Y. M. C. A.
Be sure to be on hand, as we will elect officers and will discuss entering a team to compete against the U. S. Fleet during July, which must be attended to as early as possible, in order to notify the Fleet and arrange a date on city program.
Yours truly,
E. H. HAND,
Physical Director.

KAMS MAINTAIN WINNING STREAK

Defeat High School Nine and Look Like Interscholastic Champions.

The team which Kamehameha was not satisfied with won another game yesterday afternoon. The nine representing the High School suffered an overwhelming defeat at their hands, 13-2 being the score.
The game was played on the winners' ground and that may account in some measure for the Kams taking the first two games.
Interscholastic fans are awaiting with some interest the day when the Kam team will meet the Punahou on the latter's field. Things are expected to turn out a bit differently than at least, that is what Punahou's supporters are saying and hoping.
The Highs were the first to bat. Sin Hun was first with the club. No High School man had a run chalked up to his credit until the eighth inning, when Sin Hun redeemed himself somewhat by a hit which brought in the first run for the wearers of the black and gold. Chee, who pitched, followed the example set him by Hun and also managed to get a run. That ended the run-making as far as the Highs were concerned.
Scoring honors with the Kams have to be divided between Mackenzie, Kamaiapili, Naeole, Mijikaa and Josiah. With the exception of Naeole, who scored three runs, these batters made two runs apiece.
In the eighth inning the Highs switched about a lot, shifting positions in the hope of strengthening their team. The change was a good one, and had the Highs made it earlier in the day a better showing in runs might have resulted, as it was in the eighth inning that the Highs scored their two runs.
The game was devoid of sensational features. Errors a-plenty were made by both teams.
The personnel of the nines follows: Kamehameha—Mackenzie, Kamaiopili, Naeole, Mijikaa, Lota, Kallimapehu, Ordenstein, Akana, Josiah, High School—Sin Hun, M. Chee, Norton, Chillingworth, Rice, White, Marulich, Andrews, Gilliland.
Score by innings:
Kamehameha .. 123456789
High School .. 000000020-2

MANY BOXERS ABOARD CROOK

Jack Weday and Charlie Webber Both Matched to Fight at Sea.

There promises to be something doing aboard the transport Crook on her way to San Francisco, in the way of boxing.
Three good bouts are arranged, and are looked forward to with keen interest by those aboard the troopship. Wells of Co. D, Second Infantry, will go three rounds with Webster (colored) of the Tenth Cavalry. The men are bantamweights.
In the lightweight class, Sterne of E Battery, Fifth Artillery, is matched with Charlie Webber of the Crook. The principal match will be between Jack Duffy and Jack Weday, two middleweights.
Charlie Webber is well known on the Coast as a clever boxer and has figured in a number of preliminaries. He has backing to the amount of \$1000 aboard the transport, and his friends wanted to match him against any man of his weight in Honolulu until they learned that the game was tabu here.
Jack Weday is working aboard the Crook. He was round town yesterday shaking hands with his old friends. Jack fought a number of good fights in Honolulu several years ago and was always a trier. On this account and because of his pleasant disposition Weday was very popular here.
After leaving here he went to China and then to Australia. His last call here was on his way home to San Francisco from the Colonies.

SYNDICATE TO BACK MITSUKA

Mitsuka did a lot of road-work yesterday and then wrestled with a couple of his husky countrymen in Japanesetown. He is coming down in his weight and looks much harder and fitter than he did a week ago.
Today he will work at the Orpheum with Will Prestidge, whose injured ankle has got all right again.
Two of the biggest and strongest Japanese wrestlers in Honolulu have been engaged to wrestle with Mitsuka this week and he expects to derive much benefit from the work he does with them.
Mitsuka won the Hawaiian wrestling championship by defeating a man who had thrown three of the best men entered in the competition. His countrymen declare that he is the best wrestler who has ever come to the Territory.
There is great keenness among the four big Japs who have been booked for the wrestling preliminary on Saturday night. They are all good men and the winner will challenge Mitsuka for the local championship under Japanese rules.
From present indications there will be plenty of money to back Mitsuka against Roberts, and it is said that a couple of Japanese gambling syndicates are going to wager heavily on their countryman.

JEFFRIES BEAT PETER JACKSON

Sporting Editor, Advertiser: To settle a bet, please state whether Jeffries and Peter Jackson ever fought. FIGHT FAN.

[Peter Jackson fought Jeffries in San Francisco on March 22, 1898, the latter winning in three rounds. This was the great colored fighter's last battle. Shortly afterward he returned to Australia to die.—Ed.]

Short and Sweet

The transport boys say that the St. Louis College boys are as good a young baseball nine as they have seen in a long while.
Jack Weday still carries his iron jaw with him.
T. L. Manion is promoter and referee of the boxing bouts aboard the transport Crook.
Lex, one of the gamest little sports of his inches that ever hit the Pacific Coast, is aboard the transport Crook.
The Diamond Head baseball nine will practice at the ball park this afternoon at 4 o'clock.
The Diamond Heads meet the Kams on Saturday in a big league engagement.
Shortstop V. Ayau made a bad error in the fifth inning of yesterday's game at Aala park and came near losing the game right there.
A cable is expected on Friday stating whether the transpacific yacht race has filled or otherwise.
Chi Bul has been elected captain of the Chinese Athletic Club.
There will be a meeting of the Hawaiian Kennel Club at the Young Hotel tonight at 7:30 o'clock.

THE KOREANS AND BISHOP HARRIS.

The Federal government, which is keeping a sharp eye on anarchists here, would do well to include the political Koreans of Hawaii within its sphere of observation. It is not at all certain that these gentry, or some of them, are less dangerous, in their way, than those who wear the red ribbon; and their openly expressed sympathy for the murderers of D. W. Stevens gives point to the opinion, already expressed, that they might have known something about the tragedy in advance.

Within the past day or two the Honolulu contingent has lashed itself into a fury over Bishop Harris' utterances, as they appeared in the Advertiser, on the Korean situation. Bishop Harris was quoted as saying that the hand of God could be seen in the Japanese occupation of Korea, and that he meant to see President Roosevelt and tell him of the good work, in the Hermit Kingdom, of Ito and Hayashi. This natural and reasonable statement has awakened profound resentment among the Koreans, and their expressions have been so bitter as to alarm local friends of Bishop Harris as to his personal safety. He is on the sea, just now, and will learn of the trouble when he reaches San Francisco. Meanwhile a committee of Koreans is about town trying to find out who wrote the interview with the Bishop, and whether it fairly expressed his views. The tone of this committee, in making a demand upon the Advertiser, was far from amiable; and it would seem that, if the Koreans could convince themselves that the Bishop had not been misunderstood, they would hold him to personal account.

It is well for these Koreans to understand that if a hair of the head of Bishop Harris is injured, there will be an investigation here which will not be to their taste. So much can be predicated of the Federal power. But apart from that, it is time for these semi-civilized Orientals to understand that the Territory of Hawaii is no place for them unless they are here to obey the laws. We have seen too much of their semi-political intriguing. We have seen far too much jubilation over the killing of Stevens. And Hawaii does not care to have any visitor who only offends in that he exercises the American privilege of free speech, either set upon physically or marked down on a secret blacklist by irresponsible denizens of the Korean type. If anything like an Oriental Mafia is set up here, or any Mollie Maguiredom instituted, those who are responsible for it will find that American law has a keen eye, a long arm and a mailed hand.

GAMBLERS AND THE LAW.

A recent despatch from Vancouver, British Columbia, describes how a raid on a Chinese gambling joint was carried out. The place was barred the same as are one or two in Honolulu and some in the country districts, but the police there had no damage suits to confront them, and attacked the doors with sledge hammers. The doors resisted the pounding, whereupon the officers literally chopped their way through the side of the building and effected an entrance. They smashed up the gambling paraphernalia and arrested eleven men found in the joint. These were fined \$50 each by the magistrate, and after this fine had been paid, the Chinese were immediately rearrested and charged with obstructing the police, their refusal to open the doors and the fact that their room was barricaded being the grounds for the charge.

Honolulu appears to be about the only city where the law-makers throw up their hands and acknowledge their inability to cope with the law-breakers or to furnish the police authorities either with the power to suppress known law-breaking or with laws that will protect them in the discharge of their duties. Every gettable gambling game in the city has been raided so often during the past sixteen months that that feature of the gambling evil has been about eliminated, but it is notorious that in one or two instances percentage games are carried on in places where it is physically impossible for the police to gain an entrance and secure the proof of gambling demanded by the local courts.

Behind doors three and four inches thick, strapped with iron, with all approaches to the building guarded by sentries, who have electrical bells to warn the players of any danger, and secure in the knowledge that the laws as framed protect them in their law-breaking, the gambling hui can laugh at the efforts of the police to suppress them. Although with a full knowledge that gambling is going on night and day behind these barricades, the police dare not raise an axe to break through. No informer can be induced to give evidence against the hui, because of the threats against the life of anyone who dares to do so. Practically there is nothing that Sheriff Iaukea can do except harry the games by outside surveillance and run the constant danger of a damage suit should anyone of his men overstep the absurd bounds of the law.

Even when the gamblers are caught and convicted, the fines imposed are only nominal, five or six dollars with costs. Those who know the workings of the gambling hui know that these fines are paid out of the earnings of the banks, time after time the prosecuting authorities being approached after a raid with the proposal that the arrested ones will not fight the cases if the fines are made light.

Such laws and such penalties will never stamp out the gambling, although the strict enforcement of even such laws as we have mitigate the evil appreciably. It is only the top-notchers, the higher-ups of the gambling fraternity that are to be handled now.

UNKNOWN RESOURCES.

The announcement that the Survey Department of the Territory is soon to make extensive surveys of government lands in South Kona, calls attention again to the developing resources of that region. The entire lack of data regarding the most of the government lands of South Kona was brought out in a striking way by the application of J. B. Castle to the Board of Agriculture and Forestry for a license to cut timber for lumbering and other purposes on the government lands of that region. The committee of the board to which this application was referred reported back that, while the application proposed reasonable and suitable use of the government forests, still the extent and limits of the government holdings in that region was so uncertain, and there was so little known of it, that a contract could not be wisely made until the region had been properly surveyed. It was also stated in the same report that until a survey was made it would be impossible to determine the forest reserves that ought to be made in that region.

Territorial Surveyor Wall makes more definite the lack of data when he says that the country is so thickly and heavily forested that neither natives nor white men have penetrated or explored it, and that even the boundaries are largely a matter of conjecture. He is of the opinion that there will be found within this terra incognita soil and locations suitable for every product of the islands.

There seems every probability that South Kona now to be surveyed and opened up so far as surveyors' trails can open up a region, will offer lands suitable for homesteading to an extent not hitherto realized. The truth is, we are just beginning to wake up to the extent and variety of our natural resources, and to feel an interest in creating conditions that will make possible the elements of an American State.

Horace Davis, formerly President of the California State University, is taking sharp issue with the management of Stanford, and the leading prohibitionist at Palo Alto defends the student body from the charge of drunkenness. Meanwhile the disorganization of the college has become such that Berkeley seems certain to profit still more at Stanford's expense. Even now that university has more than double the attendance of Stanford, and it may have treble next year.

It is a matter of regret that Judge Cooper should not permit his name to be used in the mayoralty fight. He is the kind of a citizen whom Hawaii wants to see in the front of her politics—the kind of a citizen of whom the Republican party in the other islands has been somewhat more prolific than Oahu. If the municipal act is valid, its evident design of graft can only be defeated by the election of first-class men under it.

If an additional Federal Judge cannot be had, it does not follow that the Department of Justice will give Judge Dole no assistance. Some Federal Judges on the mainland have small calendars, and they are often detailed to help a Federal Judge who is overburdened. Quite likely if Judge Dole should ask for help he could get it from among the members of the judiciary of which he is a part.

THE JAPANESE ARMY TODAY.

General Chanoine, formerly Minister of War of France, and now the military attache of his government at Tokio, has alarmed Europe with the statement that the Japanese army has become as efficient as any in the world, which means that it is a better army than any in Europe, with the possible exception of the German. And touching the value of the latter force, it is a question with foreign military men whether German adherence to the tactics and mass formation of 1870, would not expose the army to the same disaster, in conflict with an up-to-date enemy like the Japanese, that befel the German troops who inherited the organization of Frederick the Great when they had to meet the combinations of Napoleon.

The French critic, General Chanoine, knows the Japanese well, having, at one time, been chief instructor of their forces. Writing of the recent maneuvers to the Paris Gaulois, he says:

These maneuvers were participated in by about fifty thousand men, divided off into two armies, who carried on their military operations in view of the Emperor. The impression of the foreign officers present was that the Japanese army had made vast progress since the last war. In an order of the day posted by the Mikado at the close of the maneuvers it was said: "In an era of incessant advancement, it is not for the army to stand still. Your constant aim should be to win new success and make preparation for new tests of your efficiency." It is certainly in the spirit of this proclamation that the Japanese army has been improving.

In the artillery arm, General Chanoine declares that there is nothing lacking. Among other things, he says:

Among the numerous improvements introduced into the Japanese army since the last war we have particularly to notice their powerful and splendid field artillery. Their new rapid-fire guns, much superior to those employed in the Russo-Japanese War, are effective at a range of 4000 meters, a thing unknown in the battles of Manchuria. The artillerymen who serve these pieces, four to each gun, are completely protected by a shield of steel. These guns are entirely manufactured in Japan and issue from the arsenal at Osaka. Each regiment of foot is also provided with four mitrailleuses, very superior to the old Hotchkiss guns as regards the simplification and improvement of their machinery.

Japan was not particularly strong in cavalry during the war with Russia, and did practically nothing with it in the war with China. But progress has been steady, and now General Chanoine says:

The Japanese cavalry is improving, especially in the horsemanship of the officers, and rivals the infantry in the exactitude of its tactics, its mobility, its readiness in seizing a position and the individual enthusiasm and alacrity exhibited by soldiers and officers alike.

The French General also says of other branches of the army:

The engineer corps, divided into battalions, comprises also a troop of pontoniers equipped with materials for making bridges of extreme length. To the Japanese army of the East a balloon corps is attached, rendering that army really as efficient as any in the world.

There is nothing in this tribute which will seem strained to anyone who has followed the Japanese army in the field or studied, comparatively, the course of its fortunes. Marvel as we may, the Japanese army which, fifty years ago, was fighting in armor, has taken the same status in 1908 that Napoleon's army had in 1808. Various reasons of race and custom account for this. In the first place, the Japanese soldier has, for centuries, been taught not to fear death or value life. His has been the custom of the hara-kiri. His State religion gives his soldiery a touch of the fanaticism which once made the Moslems invincible. Death in battle for the Emperor, the half-deified head of the State, is an end to be coveted, a distinction to be sought. In feudal centuries the commoner implicitly obeyed the chiefs of his clan, and in this century and the last, he has transferred such obedience to military commanders. He asks no questions, but does as he is told, and does it gladly. Thus discipline comes by nature. Born of a nation of pedestrians, the Japanese soldier can outmarch a European; and his frugal life enables him to go to war on simpler and fewer rations than white troops require. His movements are not encumbered by wagon trains. Finally, he combines the brute fighting strength of the barbarian with the scientific knowledge, the acumen, the trained apprehension of the means to the end which distinguished the most highly civilized races. No wonder that the European military critics are beginning to identify him with the yellow peril.

It is doubtful if the fleet can coal in seven days, so Honolulu may reasonably expect a longer visit than the despatches indicate. Besides, if coast towns can get the fleet to stay a bit overtime, Honolulu need not despair of doing so. It is chiefly a matter of pull.

ALBATROSS NEEDS \$30,000.

Army and Navy Journal—It is estimated that \$30,000 is needed for the repair of the U. S. fish commission steamer Albatross, and this amount was asked for so long ago as December, 1906. A telegram has been received from the commanding officer of the Albatross, dated Manila, March 10, in which he asks for an appropriation this session of \$18,000 for the deck and engines. From this telegram it is assumed that repairs have become immediately urgent, and it will be necessary to undertake them at an early date and prior to the return of the vessel to the United States. On account of the length of time required for letters to reach Washington from Manila it was decided advisable to act on the telegram at once in order that the matter might be brought before Congress without delay.

GOVERNMENT SURVEY IN KONA

Large Tracts of Heavily Wooded Land Are to Be Explored.

Territorial Surveyor Wall is preparing to make a vastly more complete survey of South Kona than has ever been made before. "Below the government road," he said, "South Kona is fairly well known. But above the government road practically nothing is known."

"The survey we shall make will settle the boundary line between Kona and Kahuku ranch, a matter which has never been definitely settled. "One of the greatest difficulties we anticipate is the lack of kamaaina testimony as to ancient boundaries. This region is so heavily wooded that neither whites nor natives for years and years have penetrated it to any extent, and hence there is likely to be breaks in the continuity of traditional knowledge of landmarks and boundaries."

Chinese Immigration to Hawaii

By Tseng Hai, Chinese Consul, Honolulu. Address Given at Chinese Mass Meeting.

This matter of securing a few more Chinese laborers for Hawaii, is an important one, and I am pleased to be with you, and say a few words on the subject. I am glad to know of others who are working hard for the benefit of our people. Speaking of Chinese who are now in Hawaii, their numbers are less than those of some other nationalities who live here, yet more are needed for the work of rice planting, that only the Chinese can undertake.

As the Chinese were among the very first to come from abroad to Hawaii, and aid in its development, is it not fair to ask that a few more should be allowed to come? It will benefit all, and as Mr. Thwing has said, it cannot hurt the labor conditions on the mainland. The Chinese are the only ones who can do the hard work in the wet rice fields. They have worked faithfully to reclaim and cultivate large tracts of land in Hawaii, and have built up this great industry. Suddenly they are stopped from coming here, where for so many years they have come and gone at will. Labor is getting scarce. Those who go back for a visit to China cannot return. No new ones can come. Is it fair to our people? It works a great hardship on this

GIVEN UP BY SPECIALISTS

CURED BY DOAN'S BACKACHE KIDNEY PILLS.

Miss Emma Shirley, of Kill Buck, N. Y., says: "Kidney trouble mysteriously fastened itself upon me and I ran down so rapidly that in a short time I was a nervous wreck. I had no strength and was so weak and had so much pain I could hardly totter about. I was down in bed for weeks, and could hardly turn over. When I got up I was so nervous, that if anyone looked at me I was ready to cry. My eyesight failed, headaches and dizzy spells racked me, and I had terrible pain in the side. I could not retain my food, my complexion was pasty, and all the time the kidney secretions were awfully irregular. I went to Buffalo and was treated by renowned doctors, but only sank lower and lower until my friends gave me up to die. Through a friend I learned of Doan's Backache Kidney Pills, and after taking two boxes, felt very much better. I kept on until I had used twelve boxes, and was then so greatly improved that I was able to go home to Kill Buck. This was within four weeks after I left my bed, and I hardly dared hope I was well, but so it proved. Though I had lost 18 pounds while in bed, I recovered that and six pounds more. Doan's Backache Kidney Pills saved my life, and I shall never quit praising them."

Doan's Backache Kidney Pills are for sale by all chemists and storekeepers at 50 cents per box, six boxes for \$2.50. Mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Mr. and Mrs. James Shaw celebrated their silver wedding at their home in Paia last Saturday. There were a great many of their friends present to extend congratulations and best wishes. A pleasant evening was enjoyed.

An officer was sent around last week to collect for hauling rubbish from the various residents and business houses, and much to the surprise of all there was much more voluntarily contributed by Orientals than all others combined.

Joe Silva, one of the well-known residents of Kaneohe, Oahu, died there Wednesday of last week at the age of 83 years. He was born on February 24, 1825, and came to the Islands in 1848. On September 10, 1872, he married Miss Watson of Kaneohe. He leaves sixteen children, twenty-four grandchildren, and ten great-grandchildren. The deceased was a resident of Kaneohe for 60 years, and was universally liked and respected.

How the Label Tells the Story

Most all drugs are loaded with poisons. This was a great secret among dope manufacturers until Uncle Sam stepped in and exposed everything. Now, all these compounders of nostrums are forced by law to print their formula on the label. Look for it and see what you have been loping your stomach with. You won't take another dose when you find out. Poison will not cure anybody of anything. Every dose is a nail in the coffin of life. Every time you swallow a drug containing poison you put a brake upon your heart action and weaken your nerves and vitals.

ANNOUNCEMENT

To the Electors of the Third Senatorial District of the Territory of Hawaii: Gentlemen.—At the election to be held in November I shall be a candidate for the office of Senator. If I am returned at the polls, I shall endeavor to redeem every political pledge I make to the people so far as I am able.

One of the measures I shall demand is the repeal of the acts providing for a penalty of 10 per cent, and an additional 10 per cent, interest upon all delinquent taxes, and 10 per cent, penalty upon delinquent water rates payable in advance. This damage and unjust legislation finds no precedent in any State or Territory of the Union. This unjust legislation bears heavily upon the clerk, the laborer, and the Hawaiians.

I will introduce an act to amend the present liquor law and provide therein for the abolition of the present license commissioner, and vest the power to grant licenses in the mayor of the City and County of Honolulu (limiting the number), and also provide therein that the mayor and the several boards of supervisors shall issue all licenses in the several counties, and shall issue to any reputable person a license to sell light wines and beer upon payment of a fee of \$250 and furnishing a good and sufficient bond to conduct an orderly place, and the sheriffs of the several counties shall be the chief inspectors under the law, thus cutting down the expenses at present incurred.

I will demand the passage of an act giving full power to assess and levy taxes by the several boards of supervisors upon the people for municipal purposes, and will urge other necessary amendments to the County Act, so that the people shall have municipal government in fact as well as in name.

From time to time between now and election day, after careful study and consideration, I will announce the several measures that I will introduce and urge the passage of by the Legislature of this Territory. I shall go to the people as an Independent Republican, supporting any good measures introduced by Republicans or Democrats. I shall make no pledges or enter into any political engagements that will in any way impair my obligations to the people of this constituency.

I am a firm believer in the future of this Territory, and in equal and exact justice to the people as a whole, and will only support such legislation as I believe will benefit the poor as well as the rich. The business interests of the country need have no fear that I will urge legislation that will impair the rights of property holders and citizens. I solicit your support in the campaign and your votes at the polls. Yours respectfully, GEO. A. DAVIS.

IMPROVEMENT IN TIME WHISTLE

Error Reduced to Two-Tenths of a Second by New Device.

Since the fire in Lucas' mill, which put the time whistle out of commission for a very short time some months ago, improvements have been made which greatly increase the accuracy of the whistle as a means of giving time to shipping. Formerly the whistle was sounded by a man in the boiler-room of the mill from an electric signal given from the survey office. But now the whistle is sounded automatically by electricity from the survey office. The automatic arrangement is the design of County Electrician W. L. Frazee, and is so delicate and effective that the whistle now sounds never more than two-tenths of a second out of the way, an error that need not be taken into consideration in navigation.

The automatic device consists of a very heavy weight at Lucas' mill which is released by an electric current set in motion by a button at the survey office, the weight as it is released sounding the whistle.

Formerly a man stood at the whistle and at a signal by electricity from the survey office pulled the throttle valve. Thus the accuracy of the whistle was subject to the variation of two persons' equations, that of the man at the survey office, who gave the signal, and that of the man at the whistle who obeyed it. Yet, notwithstanding this, the accuracy of the whistle was phenomenal. Antone Andrade for years sounded the whistle in response to the signal from the survey office, and the fidelity and accuracy with which he performed this duty were remarkable.

"We have tested the matter frequently," said Surveyor Wall, "and, allowing for the time it takes the sound to travel the distance, we know that the whistle now is never more than two-tenths of a second in error. When it is considered that the time-ball in New York city is sometimes reported as having fallen a second too soon or too slow, this is most remarkable. As near as we can figure out, this two-tenths second error in the whistle is just about the time that elapses between the release of the weight and the beginning of its fall. Mr. Frazee has carefully arranged a very ingenious and a very effective means of sounding the whistle, and one that is appreciated by the shipping in the harbor.

"When the fleet comes here, we will let it know how accurate the whistle is, and by calculating their distance from the whistle and allowing for the time it takes the sound to travel, the vessels of the fleet can adjust their chronometers. Perhaps by that time we may have a time-ball. We are working to that end now."

KAUAI PEOPLE THANK THE STEAMSHIP PEOPLE

To the Officers and Directors of the Inter-Island Steamship Co., Ltd., Honolulu, Hawaii.

Gentlemen: We, the undersigned recipients of your hospitality on the trip around the island of Kauai, taken by your new steamship, the Mauna Kea, on March 21, 1908, hereby desire to convey to you our great appreciation of your public spirit and kindly motives in extending to us residents of Kauai the pleasure of this very interesting and memorable journey around Kauai on your fine new boat. To most of us this was the first opportunity we have had to get acquainted with our island on its inaccessible Napali side, with its beautiful mountains, lofty cliffs and deep gorges, and we all join in conveying to you our sincerest thanks for the privilege with which you have favored us in company with the distinguished and representative body of Honolulu citizens.

W. F. POGUE APPOINTED A MAUI SUPERVISORS

Acting Governor Mott-Smith yesterday appointed W. F. Pogue a member of the Board of Supervisors of Maui County, in place of T. M. Church, resigned. The appointment is to take effect April 30. The commission will be sent by the steamer today, so that it will be on Maui in time for Mr. Pogue to qualify.

Mr. Church resigns because he has accepted a position with Alexander & Baldwin in Honolulu and will come here to live.

The Democrats of Maui asked the Governor to appoint Edward Wilcox. The new supervisor comes of an old missionary family and has lived practically all his life on Maui. He was a member of the Legislature during the Republic of Hawaii, and has been actively engaged in agriculture on Maui for many years. He was recommended for the appointment by the Republican organization of Maui County.

MARINE

Men of the transport Crook who have been wondering what was to be the disposition of the troopship were yesterday relieved of any anxiety by cable orders to the effect that the Crook was to take on 1100 tons of bunker coal here and, leaving Thursday morning, proceed to San Francisco, whence she will be sent to Alaska, taking a regiment, probably the Twenty-second.

It had been thought by some of the ship's company that she might be ordered from San Francisco around the Horn to take the run between New York and Havana.

BARKENTINES FROM NEWCASTLE.

Barkentines Aurora and Benicia yesterday arrived from Newcastle, the former making the run in 54 days and the latter in 59 days. The ship St. David, barkentine Benicia and Aurora, schooner R. C. Slade and barkentine Jos. L. Eviston all left Newcastle within sixteen days of each other, the Aurora, Captain Samuelson, winning out in splendid time, with the Benicia, Captain Trainor, but five days longer on the run and arriving here the same day as the Aurora.

Captain Samuelson, upon arrival yesterday, stated that he had left the barkentine Benicia and the schooner R. C. Slade about fifteen and twenty miles outside, respectively. The Benicia came in within a few hours of the Aurora, but the Slade was not sighted during the day.

The Benicia entered port with one more life aboard than she had when she left Newcastle, a son being born on March 24 to Captain and Mrs. Trainor. He was born in latitude 35-25 south and longitude 168-25 west, during a storm. He was christened George Benicia Meridian Trainor.

The Benicia suffered from bad weather. She ripped a few spreads of canvas and lost a couple of spars.

The Benicia and Aurora both brought coal consigned to W. G. Irwin & Co.

MEN AND MAIDS AFOAT.

A perusal of the passenger list of any transport will reveal the mention of the presence aboard of persons whose names are not always given. As for example Mrs. So-and-so and maid.

The "Crook is no exception. It sometimes occurs that a woman, wishing to secure passage on a transport and yet not in anyway being connected with the government service and so not entitled to the transportation, will take a nominal position as 'maid to some woman who is a passenger, nor is the position necessarily nominal. A man desiring passage and not being entitled to the privilege, being outside the government service, can sign articles in some department of the ship's service, as a nominal butcher, baker, steward, waiter or pantryman. This often explains the presence of men and maids aboard whose names do not appear in the passenger list.

SKIPPER'S HAPPY MEETING.

J. C. Dow, a passenger aboard the transport Crook, who is a nautical expert in the United States Coast and Geodetic Survey, and Captain Williams, commanding the transport, discovered that they had known each other thirty years ago. This trip of the Crook was their first meeting since they were masters of competing steamships running between New York and the West Indies. During the run they naturally found much to discuss.

SHIPPING NOTES.

The steamer Likelike sails at noon today for Hawaii ports.

The T. K. K. S. S. America Maru is expected from the Orient on Friday.

The steamers Mauna Kea and Mauna Loa sail at noon today for Hawaii and Maui ports.

Having left here at 5 p. m. Sunday, the A. H. S. S. Nevada arrived at Kahului yesterday morning.

Tomorrow morning the Nevada is expected back from Kahului, to sail for San Francisco at 5 p. m. Thursday.

The steamer Kinau has been thoroughly overhauled and will leave at 5 p. m. on Thursday for Kauai ports, on the Mikahala's run.

The steamers W. G. Hall and Iwani sail at 5 o'clock this evening, the former for Kauai ports and the latter for Maui and Molokai ports.

The fore wheels of the tender of a locomotive went off the track on the railway wharf yesterday afternoon without any damage resulting.

The barkentine Kikikit, Captain Cutler, yesterday morning at 9 o'clock sailed for the Sound in ballast. Tug Intrepid gave her a long tow out.

"Peanuts," whose real name is Thomas Ogen, and who stowed away with the Lilliputians in the Ilongkong Maru, had much difficulty in getting ashore in San Francisco.

Captain Rosehill has quit the command of the tug Kaena, which is chartered by the government for Pearl Harbor work, and will be identified with the work of raising the wireless mast at Kahuku.

The Texas-Tehuantepec S. S. Co., contemplating running a line of steamships between Tehuantepec and Japan, is inquiring what inducements Honolulu has to offer for steamships of the line to stop here.

The local agents of the Canadian-Australian S. S. Co., Theo. H. Davies & Co., yesterday cabled Vancouver to ascertain when the S. S. Marama would leave. The Marama, as stated in yesterday's Advertiser, put back on Sunday with her air pumps broken, having left Vancouver for Honolulu on Friday.

FLEET CHAIRMEN BEGIN WORK

(Continued from Page One.) committee on information; Henry E. Cooper, committee on clubs and fraternal organizations; Alexander Young, committee on hotels and accommodations; Walter F. Dillingham, committee on commissary; and W. R. Farrington, press committee.

Several of the chairmen reported that informal meetings of their various committees had been held and that all were in readiness to get to work as soon as some general scheme of entertainment was outlined. Colonel Jones, of the decoration committee, stated that his committee had met and were only awaiting a report from the finance committee as to how much money they would have to work on before detailing their plans. It was pointed out by the Colonel that in San Francisco thirty per cent of the total entertainment fund went for decorations and he hinted that the same should be done here. His idea was to decorate lavishly along the main streets and to use as much electricity as could be got from the government plant, the Hawaiian Electric Company and the hotels. From the electrical company power for 5000 lights could be had and this with the other lights from other available power would make a good display.

BEER AS LIGHT REFRESHMENTS.

Walter Dillingham, of the committee on commissary, sprung a conundrum which admitted of and promptly received two answers.

"What the commissary committee wants to know is whether beer is a soft drink or not?" he asked.

"No," answered Senator Dickey, very promptly, "the commander has asked that no liquors be given the sailors."

"Yes," answered James F. Morgan. "I will say yes just to keep the vote a tie. That's a matter of detail."

FISHMARKET AVAILABLE.

Colonel Sam Johnson, of the sports committee, asked what share of the old fishmarket building his committee might consider itself entitled to.

"The building is altogether at the disposal of the fleet committee during the time the fleet is here," said the Acting Governor. "No one else will have any rights there at all."

CANNOT SERVE.

The regrets of a number who had been asked to serve as chairmen of committees were read. P. C. Jones will not be able to act as chairman of the committee at large, his health not admitting of the work; C. M. Cooke regretted being unable to head the ways and means committee, and C. G. Balleynne stated that he would have enough work in keeping the street cars running without acting as chairman of the transportation committee.

COMMITTEE ROOMS.

It was announced that the robin's egg blue chamber and the Chamber of Commerce rooms were available at any time for meetings of any of the committees, while the clerical staff in the Governor's office is at the disposal of the chairmen of committees who have notices to send out.

DECORATION COMMITTEE MEETING.

The subcommittee on decorations held the meeting reported by Colonel Jones at the Governor's office at noon. There was a general discussion of decoration plans, but no definite plan was adopted. Subcommittees were decided on to take up definite portions of the work. Those present at the meeting were Colonel J. W. Jones, Secretary G. W. R. King, R. J. Buchly, G. K. Euk, W. A. Love, Chuck Hoy, Albert Afong, Roscoe Perkins and John C. Lane.

The following subcommittees were appointed:

Electric Power and Illumination—J. W. Jones, Merle Johnson, G. W. R. King.

To Interview Business Houses—R. J. Buchly, W. A. Love, Albert Afong, Chuck Hoy, Y. Soga, S. Kojima.

Flags and Bunting—Roscoe Perkins, W. H. McInerney, G. Kam Fook.

Greens and Palms—John C. Lane, Chun Chu Yee, U. Kobayashi.

Subcommittees were ordered to report back at noon on Thursday.

MEETINGS CALLED.

Following the general meeting yesterday the following committee meetings were announced:

Press committee, to meet in the Chamber of Commerce room this afternoon at four o'clock.

Information committee to meet this afternoon at the Commercial Club at four o'clock.

Committee on clubs and fraternal organizations to meet tomorrow afternoon in the Governor's office at four o'clock.

ABARENDA A "HELL SHIP."

Army and Navy Journal—From all accounts the U. S. collier Abarenda, with a complement of merchant officers and crew, was a perfect "Hell ship," and frightful tales of the brutality of officers to the crew are told. The Federal grand jury at San Juan, P. R., on March 30 returned an indictment against George Worley, the master of the Abarenda, charging him with inhuman treatment of his men at sea in violation of the Federal statutes. A warrant for Worley's arrest has been issued, but he has left the vessel and at last accounts could not be found. His home is in Bremerton, Washington. The indictment is the result of the grand jury's investigation of the murder of Walter Weichert, chief officer of the collier, who was killed at San Juan by Carpenter Alexander Dickson on February 29 last. Dickson was acquitted of the murder of Weichert. A jury composed of Americans and Porto Ricans brought in a verdict of self-defense. Members of the crew of the Abarenda testified at the trial that Weichert had treated the prisoner in a brutal manner. On the occasion in question, after some words had been passed between the men, Dickson swung at Weichert with an axe and completely severed his head.

WEEKLY WEATHER BULLETIN

For the Week Ended April 25, 1908.

GENERAL SUMMARY.

Honolulu, April 27, 1908. The mean temperatures were higher than those of the preceding week, 1.0 deg. to 2.8 deg., in the southern portion of the Hilo district of Hawaii, at Hana and Kahului, Maui, and on Kauai, and lower, 2.0 deg. to 2.2 deg., in the Hamakua and the extreme northern portion of the Hilo districts of Hawaii. Elsewhere in the section the changes were less than 1.0 deg., and varied on Hawaii, from -7 deg. in the eastern Puna to +8 deg. in the northern Kau districts; on Maui from -8 deg. at Puunene to +6 deg. at Haiku and Wailuku; on Oahu from -4 deg. in the Waianae district to +6 deg. at Kahuku and Ewa; and on Molokai from +1 deg. to +4 deg.

The rainfall, as a rule, was in the form of light showers, the only reported rains of 1.00 inch or more in 24 consecutive hours being at Honokaa and Ooala, Hawaii. Light to brisk "trades" generally prevailed, shifting to light variable or southerly the latter part of the week at several stations. It was generally cloudy on Hawaii and Molokai, clear to partly cloudy on Maui and Oahu, and generally clear on Kauai.

Weekly rainfalls of 1.12 to 2.50 inches occurred on Hawaii at all stations in the Hilo and Hamakua districts, and at Waimea, and Kaueleau; and on Maui at all stations in the Hana, Hamakualoa, and Hamakua districts. Elsewhere in the Group less than 1.00 inch fell, the amounts ranging on Hawaii from .00 inch in the Kau district to .76 at Kealakekua (Davis); on Maui from .00 inch in the Kula district to .97 in the Koolau; on Oahu from .00 inch at Ewa and Waianae to .76 in the Koolau district; on Kauai from .20 inch in the Kona district to .82 in the Puna, and on Molokai from .31 to .60 inch.

At stations having a record of ten or more years the amount was above the average, on Hawaii: .46 to .49 inch at all such stations in the Hamakua district and .91 inch at Waimea; and on Kauai .09 inch at Makaweli; at all other like stations it was below by the following amounts, .36 to .85 inch on Hawaii, .15 to .79 inch on Oahu, and .71 inch in the Koolau district of Kauai.

As compared with the preceding week, the total rainfall was considerably less: from 1.53 to 0.66 inches in the northern portion of the Kona district of Hawaii, and from 1.86 to 4.33 inches in the Koolau and Hamakua districts of Maui, and 1.41 in the Koolau district of Kauai. Elsewhere the changes did not amount to 1.00 inch, and ranged on Hawaii from .03 to +.91 inch; on Maui from -.65 to +.23 inch; on Oahu from -.72 to +.24 inch; on Kauai from -.63 to +.11 inch, and on Molokai from -.40 to +.07 inch.

The following table shows the weekly averages of temperature and rainfall for the principal Islands and for the Group:

Table with columns for Island, Temperature, and Rainfall. Includes data for Hawaii, Maui, Oahu, Kauai, Molokai, and Entire Group.

At the local office of the U. S. Weather Bureau in Honolulu measurable rainfall occurred on two dates, amounting to .10 inch, .04 more than last week's, and .50 below the normal. Southwesterly winds prevailed on the 23d and 24th, and NE. to E. on the remaining dates, with an average hourly velocity of 8.6 miles. The mean temperature was 72.6 deg., .5 deg. below the normal, and 2 deg. higher than last week's; a maximum temperature of 82 deg. occurred on the 25th. The mean relative humidity was 69.1 per cent and the mean daily barometer 30.08 inches.

FISHMARKET IS TALKED OVER

(Continued from Page One.) Nearly every one of those present expressed their appreciation of the efforts that the art league was making in the matter and their sympathy with the cause. George W. Smith of the Merchants' Association stating, however, that "enthusiasm had run ahead of judgment." This cheered Mrs. Graham, acting as chairman of the meeting, who, after calling upon nearly everyone to speak, said:

"Well, let's say that it's moved and seconded that we all want the building. All in favor say so."

Every hand went up for this original motion.

"Well, now that we're all agreed, can't you all call your organizations together and report back here next Friday so that we can get the Lanai ready for the Congress of Song?"

The ones present to represent the Shriners, Elks, Merchants' Association, Chamber of Commerce, Engineers' Association, Eastern Stars and the others explained in turn that this was impossible and there was much further discussion. Finally, to bring the matter into shape, George W. Smith moved that "the chairman be empowered to communicate in writing with all the organizations of the city, public and private, and submit a tentative plan for the acquiring of this building."

Mr. Smith explained that this gave Mrs. Graham the right to appoint a committee to draw up the plan or prospectus, whereupon she promptly named him as one of that committee. He suggested that his motion had not yet been seconded. Mrs. Graham named Mr. McStocker as another member of the committee just as that gentleman rose to second the motion, and the whole committee was named before the motion was finally passed. Mr. Smith explaining that he was not

boilers, sticking up into the air for thirty feet. Their use will come in when for any reason the water will have to be shut off suddenly at the lower end of the pipe, when, under ordinary circumstances, the force of the water would rip the pipe and possibly the machinery in the power-house to pieces. Now the weight of the water will be held by the air cushions in the two chambers, the air balancing the weight of the water and taking up all the force from the pipe. The chambers are tested to stand a pressure of two hundred and forty pounds to the square inch, much more than they will ever be subjected to.

Soon, when the new Pelton wheel ordered by the county arrives and is installed, the connection with the power-house will be made, and the additional water and the greater force it will have from its added drop will increase the electrical capacity of the power plant to allow of five hundred arc lights in the city.

There were present yesterday at the testing of the pipe and valves and the turning on of the water, Acting Governor Mott-Smith, Mrs. Mott-Smith, the Superintendent of Public Works and his assistant, C. H. Kluge; James T. Taylor, government engineer; J. M. Little, superintendent of waterworks; Walter Bromley, assistant superintendent; J. L. Robertson, government inspector; W. L. Frazee, superintendent of electric lights; Attorney General Hemenway, Contractor E. J. Lord, Electrician S. C. Stubbard, John Gribble, representing the Honolulu Iron Works; D. L. Conkling and Roscoe Perkins.

ONE JURYMAN KEPT THE REST

Trial of Ah Wan Keeps Twelve Good Men and True Out of Bed.

The trial of Ah Wan, charged with illicit distilling, continued throughout the whole of yesterday. The case was given to the jury early in the afternoon, after Judge Dole had refused to direct a verdict of acquittal. The jury after being out two hours returned saying that they stood eleven to one on both counts, the questions of the foreman indicating that the majority was for conviction. Judge Dole sent the jury out again, urging them to agree on a verdict.

The jury is as follows: W. L. Hopper, A. J. Gonsalves, Guy F. Rankin, Alfred H. Smith, H. R. Macfarlane, J. M. Riggs, Joseph Aka, M. Rosenbleit, E. A. R. Ross, John E. Coffey, E. J. Weight, Charles K. Notley.

FEDERAL COURT WORK.

Judge Dole feels the pressure of work which the constant trial of cases in court imposes on him. He said yesterday:

"The first case in which I will be able to give a decision is that of the libel against the Manchuria by the owners of the tug Fearless. If I had a week in which I could work on this case I could complete it, but with the present rush of criminal work which is taking up so much time in court it seems impossible to get much time for anything else."

"The next case after the Manchuria libel will be that of the Chiusa Maru, which will be followed by the dredger Pacific case. These matters I feel should have the first attention, because there are many different interests involved in insurance claims and the like. I should like to get this work done at once, but can not say just when I shall be able to do it."

DEPENDANTS ARRAIGNED.

A number of persons lately indicted by the Territorial Grand Jury were arraigned before Judge Robinson yesterday morning.

Chin Yee, charged with violation of the age of consent law, and represented by A. S. Humphreys, reserved his plea until next Friday.

Kamiki Kakalia, a woman charged with the embezzlement of \$1000, was represented by W. W. Thayer and J. L. Kaulukou. Plea in this case was also reserved until Friday.

Blanche Martens and Paul Dumuis, charged with assault and battery, were represented by A. S. Humphreys. They pleaded not guilty.

The case against David Lokua, which has been pending for a long while, was not-prosecuted by Deputy County Attorney Milverton.

SCHOOL BOARD'S GREAT LOTTERY

Thirty Capital Prizes and a Few Approximation Prizes.

The Board of Education is to conduct a big lottery.

There are to be thirty capital prizes, each consisting of free transportation to the Coast and back by transport, the winner merely paying a dollar a day while en route for subsistence.

The drawing is to be soon after May 15, and there will be an indefinite number of approximate prizes, depending on how many of those who draw capital prizes shall not be able to take advantage of them.

At yesterday's meeting of the Board of Education it was decided that the thirty teachers who are to be given transportation to San Francisco and back shall be chosen by lot from among those who apply.

The application list shall be kept open until May 15.

Then forty-five names shall be drawn by lot.

The first thirty names drawn are those entitled to transportation. If any of these are unable to go, then No. 32 the next, and so on.

The following is the list of those who have already applied:

Jean Angus, Harriet Needham, Alice Steinhauser, Mrs. L. M. Walker, May Paty, Jennie Allen, Lena Whitford, Ena McGregor, Alice Walker, Mrs. J. N. Bell, Margaret Mossman, Marion Bell, Ida Ziegler, May Kuegel, Mrs. L. Marshall, Mabel Ladd, Alice E. Mudge, Juliet Taner, Mr. and Mrs. J. Vincent, Mrs. J. B. Alexander, Mrs. Laura Seary, Mr. J. B. The Board of Education is to conduct a big lottery. There are to be thirty capital prizes, each consisting of free transportation to the Coast and back by transport, the winner merely paying a dollar a day while en route for subsistence. The drawing is to be soon after May 15, and there will be an indefinite number of approximate prizes, depending on how many of those who draw capital prizes shall not be able to take advantage of them. At yesterday's meeting of the Board of Education it was decided that the thirty teachers who are to be given transportation to San Francisco and back shall be chosen by lot from among those who apply. The application list shall be kept open until May 15. Then forty-five names shall be drawn by lot. The first thirty names drawn are those entitled to transportation. If any of these are unable to go, then No. 31 shall have the next chance, No. 32 the next, and so on. The following is the list of those who have already applied: Jean Angus, Harriet Needham, Alice Steinhauser, Mrs. L. M. Walker, May Paty, Jennie Allen, Lena Whitford, Ena McGregor, Alice Walker, Mrs. J. N. Bell, Margaret Mossman, Marion Bell, Ida Ziegler, May Kuegel, Mrs. L. Marshall, Mabel Ladd, Alice E. Mudge, Juliet Taner, Mr. and Mrs. J. Vincent, Mrs. J. B. Alexander, Mrs. Laura Seary, Mr. J. B. Alexander, Mrs. O. L. Holland, May Francy, Alice Greene, C. A. Mumford, Mrs. E. H. Douglas, J. E. Snow, Emma F. Porter, Ena S. Shaw, Maude Woods, Jane Winne, Nora Keawe, Bertha W. Stevens, H. K. Cathcart, Kate Trowbridge, Lillie Nicholson, Mrs. Grace Crockett and child, Ellen Sobey, F. J. Nobriga, Annie P. Chung, Moses Kauhima, Mrs. C. F. True, Mr. and Mrs. C. E. Copeland, Mabel Dean, Louise Gulick, Mrs. H. L. Lewis, Mr. and Mrs. J. V. Marcel, Anne Z. Hadley, J. N. Taggard, Maria K. Pihoi, Mabel Kau, Mrs. J. N. Taggard, Miss Payne, Elsie Flemming, Thomas Nahwa, Nellie McLain, Mollie McLain, Allie Felker, Mrs. Creighton, Miss B. Cooke, Emma Lyons, J. M. Weights, Mrs. E. Deacon, Mrs. Lillian Bickford, Miss N. P. Adams, Miss M. Angus, Miss M. Dean.

PETITION FOR PROBATE.
Emalia Silva, widow of Jose Silva, late of Kaneohe, yesterday filed a petition for the probate of her husband's will. The will was made when the decedent was upwards of 72 years of age. It disposes of lands in Kaneohe, lands in Cape de Verde Islands, and personal property, all valued at about \$2000. The heirs are the widow, a son, Thomas, residing at Cape de Verde Island, Charles Silva, John Silva, George Silva, sons, and Rosey Maloney (nee Ohara), Mary Ann Homer, Hattie Doan, Emalia Enos, and Lelia Lopes, and Anne Richard, adopted daughters.

The hearing was set for June 1 by Judge Lindsay.

ADMINISTRATOR APPOINTED.
Chuck Wai Sen was yesterday appointed administrator of the estate of his deceased brother, Chock Yoo Sen, by Judge Lindsay. The estate consists of a third interest in the partnership of Chock Look Company on Nuuanu Ave., cash in bank, and stock in trade. The heirs are Lan Shee, the widow, who is in China, and Chock Ah Hoon, a son, fifteen years old. Bond was fixed at \$800.

GUARDIAN APPOINTED.
Judge Lindsay yesterday appointed Ben Poepe guardian of the person and property of Abraham Keaulana, a minor, fifteen years of age, who is a relative of the guardian's wife, and has an interest through his father in a piece of land in Koolau.

DIVORCE GRANTED.
Judge Lindsay yesterday granted a divorce to Yo Takuhara from her husband Nakaemon Takuhara on the ground of non-support. The libellant was represented by A. L. C. Atkinson.

KILAUEA VOLCANO

Another Popular Excursion To This Great Natural Wonder.

Leaving Honolulu by the fine new steamer MAUNA KEA Tuesday noon, April 28th the party will arrive at the volcano the next evening where it will remain until Sunday morning when stages will convey the visitors across the old lava flows, to Honaupou where the fine steamship MAUNA LOA awaits them, and which will arrive in Honolulu Tuesday morning, May 5th. The volcano is now more active than it has been for years. Visitors are appalled by the awful grandeur which the scene presents. The pit is filling rapidly and local residents are flocking to the crater to view this unusual eruption. Don't miss this great opportunity to see the burning mountain.

NO FURTHER NEWS FROM THE MARAMA

No word has been received by Mr. Adams relative to Kubelik, nor have Theo. H. Davies & Co., Ltd., agents for the Canadian-Australian line, had any advices from the steamship agents in Vancouver relative to the delay of the Marama. This seems strange, but as the news published yesterday recounting the accident came through the agent of the Marine Exchange, there can be no doubt of its correctness. It is probable nothing will be cabled until the steamer leaves Vancouver, as it would be a useless expense to telegraph her possible leaving time. Mr. Adams again assures the public that the concert will take place, the time alone being doubtful. Those who have not already had seats laid aside should do so at Wall, Nichols Co., Ltd.

MASCOTS DID WILL IN THIS REHEARSAL

The dress rehearsal of "The Mascot" held last Saturday night proved what a brilliant success that opera will be. There were many present on that occasion who have been connected with most of the comic operas since they were first taken up by amateurs in Honolulu. All these were unanimous in their opinions that "The Mascot" dress rehearsal went off in a more satisfactory manner than any they had previously witnessed. The whole affair equaled many finished productions which have been given here, and it was hard to realize that it was only a rehearsal and not the finished article.

Mr. Herzer expressed himself as entirely satisfied with the manner in which it went through, and when he does that, it is safe to predict that the production as it will be presented will satisfy everybody.

All the extras and specialties were run in at the rehearsal with all scenic and light effects, as they will be seen on Thursday next, and they were voted splendid.

Chief of these specialties was "Ma Cherie" and the ballet included in this turn.

It is safe to say that a prettier or better carried out ballet than this has never been produced previously in Honolulu, either by professionals or amateurs. Here it should be mentioned that the greatest credit is due to Miss de Lartigue, who not only originated all the figures of this ballet, but trained all the members of it as well. Certain it is "Ma Cherie" will cause a great sensation when witnessed on Thursday next, and Honolulu should deem itself lucky in possessing one who is capable of producing such an exquisite spectacle, as will then be presented.

To enumerate all the hits in "The Mascot" would be to great an undertaking altogether. The whole comic opera is so particularly fetching that it is nearly impossible to take any one part of it in preference to another. In regard to scenic effect though, it may perhaps be said that the second act is the most telling.

The court scene in this act is most gorgeous, every person on the stage being in velvet and silk.

Then, however, the rural scene in the first act and the tavern in the third are both exceedingly pretty pictures, and so we can swing backwards and forwards between the three, unable to come to any definite preference, but agreed that all in all, "The Mascot" is a combination of wonderful and startling brilliancy.

Leaving here yesterday morning, the oil S. S. Lansing reached Kihel on Sunday evening.
