## PAID PREMIUM FOR HIS CABIN

Emil Berndt Booked Sixty-Two Days Ahead on Steamer Alameda.

AND THEN HE PAID \$20 EXTRA

He Lost His Money—Hawaii Lost a Tourist—One Example From Many.

Booked sixty-two days before the boat sailed, Emil Berndt, a prominent business man, secretary of the merchants' association and treasurer of the Hawaiian Star Newspaper Association, was forced to pay twenty dollars extra for his berth in returning from the mainland. As he was booked, and traveled, on the Alameda the opponents of the suspension of coastwise laws who state that there "are other American boats beside the Pacific Mail" will be satisfied that there might be but that they are full up also.

Berndt arrived on the last Alameda and notwithstanding the long time ahead that he had entered his name in the company's books, he was forced to buy out another man who had secured a berth, paying him twenty dollars extra. Incidentally, the "other man" was again the only one to realize anything out of the transaction as he made a tidy profit. Hawaii lost another tourist and Berndt lost the extra money.

It was stated around town yesterday that the civic federation intended to call a mass meeting to consider the suspension of the coastwise shipping laws and again send its resolution to congress. W. R. Castle, the president, is in favor of the move.

Ed. Towse, secretary of the federation, stated last night that he as yet has not been notified of such a proposition. One of the reasons that might have caused Mr. Castle's reported resolution to call another mass meeting is that a private cable that reached town yesterday from Washington confirmed the news that the subsidy measure's chances of getting through congress this session were hopeless.

Those who are fighting for the suspension of the laws and for a greater (Continued on Page Four.)

## COUNTRY WATER SUPPLY NOW AT VERY LOW EBB

Not only is the water supply in the city running very short, but out in the plantation districts there is also a limited water supply just now. The plantations, of course, work their pumps and artesian wells, but the natural water supplies from the mountains are at a low ebb. The great Waihiwa dam has very little water, and the gulches which feed the main basin are merely trickling streams at present.

## MACHINERY PAU AND SHIPPED TO MILLS

The Honolulu Iron Works is rushing the machinery for several large mills to completion and has already finished several large contracts. All the machinery for the mill of the Hilo Sugar Company at Wainako near Hilo has been shipped. The sugar company is doing its own erection and the mill is going up promptly and satisfactorily. The location is a hard one to reach but the work so far has suffered no serious drawback. The balance of the machinery for the splendid mill at Honokaa has also been completed and is off to the place where it will be installed.

## ASQUITH ATTACKS THE LORDS

(By Associated Press.) LONDON, December 1.—Leading an attack on the house of lords, Premier Asquith today made public his intention to offer in the house of commons, at tomorrow's sitting, a resolution which has for its purpose the declaration that the action of the house of lords in rejecting the budget constitutes a breach of the constitution and is a usurpation of the rights of the commons.

## JUDGE DE BOLT IS ENDORSED

Bar Association, by Unanimous Vote, Favors Him for the Supreme Bench.

MATTHEWMAN A CANDIDATE

Reappointment of Robinson Is Also Urged by Lawers of Honolulu.

Circuit Judge John Thomas De Bolt yesterday afternoon received the unanimous endorsement of the bar association for the place on the supreme bench which will have to be filled next February, when Justice Wilder will resign.

Only two names were considered by the association, those of Judge Matthewman of Kailua, and Judge De Bolt of the first circuit. Other names were presented by the executive committee as available, but all but De Bolt and Matthewman were eliminated.

At the meeting held a week previous, the executive committee was instructed by vote to receive names of any that might be presented as available and report back to the association the names of such persons.

The committee reported to the association four men whose names had been presented as available. These were Judge De Bolt, Judge Matthewman, Judge Cooper and Robbins B. Anderson. The last named is said to be the candidate of Governor Frear and it was known that a few others were in favor of his endorsement. However, those back of him had evidently given up a losing fight, and he was not nominated, the only names placed before the association to be voted on being De Bolt and Matthewman.

A. G. M. Robertson nominated Judge De Bolt, and in a speech urging the candidacy of the circuit judge, he spoke of the long and valuable services of De Bolt. It was simply, he said, a question of a square deal for De Bolt; he deserved the position and no one would deny that he ought to have it; he ought to receive the unanimous endorsement of the bar association.

County Attorney Cathcart followed Robertson. Judge De Bolt, he said, was a man who had served long and faithfully at a small salary and he ought to be rewarded. It should be recognized as a principle of the bar association that a man who has served faithfully in such a position should be in line for promotion. He heartily endorsed the candidacy of Judge De Bolt.

George A. Davis took the same ground as Cathcart; the bar association should recognize as one of its principles that service should be rewarded with promotion.

De Bolt's nomination was seconded by Frank Thompson. He objected vigorously to the proposition of endorsing more than one man. If the association were to pick out three or four men, it would be merely damning them with faint praise and accomplishing nothing.

Judge Ballou objected to the motion to ballot on the names and endorse the name receiving the most votes, as he thought this looked too much like politics—though he was willing to admit that bar association politics is cleaner than ordinary politics. Ballou left the chair to speak on the subject, but failed to convince the other members. (Continued on Page Two.)

## GONKLING PRESENTS THE BAND WITH NEW MUSIC

Honolulu people who go out to the band concerts a few weeks from now are liable to get the surprise of their lives. They will hear some new music—some up-to-date music, some music that is said to be the very latest thing and that is guaranteed to make the listeners sit up and take notice.

When Treasurer D. L. Conkling returned from the East this week, he brought the music with him as a present to the band and to the people of Honolulu. Conkling says he has not played it himself, but he is reliably informed that it is good and strictly up to date. The band is going to put in some time practicing the new pieces, of course, but one of these nights they will open a new box on the public and the town will be astonished.

## CHOOSE RING SITE TODAY.

(By Associated Press.) NEW YORK, December 1.—Today bids were opened from various cities and towns throughout the United States for the big fight scheduled between Jim Jeffries and Jack Johnson, the negro champion. The bids are complicated, the moving picture rights figuring in the matter of determination. It is expected, however, that by tomorrow a decision will be reached and it will be announced where the famous pugilists are to meet.

JUDGE J. T. DE BOLT

Endorsed by the Bar Association to Succeed Justice Wilder on Supreme Court Bench.

## LEAL DISMISSED FROM POLICE FORCE AND THE CASE GOES TO THE GRAND JURY

Sheriff Satisfied, From Statements Made to Him, That Leal Is Not One Fit to Hold Office—Evidence in Hands of City Attorney.

Yesterday, Joe Leal, chief of detectives, who has been under suspension since his return from the Coast, was dismissed from the police service by Sheriff Jarrett. The sheriff has been investigating certain charges against the officer and has become convinced that Leal is not the one he wishes to retain in a position of trust or on the force in any capacity.

This morning the county attorney will present the charges against Leal to the grand jury, the sheriff yesterday having turned over to the prosecuting branch of the city's government the evidence in his possession. This evidence charges Leal with having solicited and accepted bribes and hush money from certain professional gam-

blers, with having agreed to shield them in their fleeing of the suckers in the game, and with having agreed to warn them of any police activity in their direction.

The evidence will also intimate that Leal offered to go into the business of protecting vice.

Leal was notified by the sheriff yesterday afternoon that he need consider himself no longer connected with the police department. He was instructed to turn in all police property he might have by this morning. Leal notified the sheriff that his dismissal would be aired in the papers.

Sheriff Jarrett is now looking for a capable man to place in the office of chief of detectives. He has a good (Continued on Page 8.)

## SPOOK SHIFTS UP TO MANOA

Flames in the Grass and Voices in the Air Are the Only Manifestations.

A mysterious phosphorescent fire, apparently emerging from the bowels of the earth and then spreading over a wide area of ground, has caused Hawaiians and Japanese in the upper end of Manoa valley to wonder whether the Waikiki ghost had changed its habitat for the time being and taken on a new form in which to manifest its unseemly self. Whatever it is or was, it has had an unseemly effect upon the people of that far district, and many are distinctly scared.

A Japanese yardboy who was in the upper part of the valley on Tuesday night told his employer yesterday of the strange occurrence, and was asked if he would not pilot the head of the family to the place last night. His eyes grew big with terror and he declined with a positiveness that set aside any opportunity of getting in touch with this new ghost. The Japanese yardboy of a neighbor got the full particulars from the witness, but when he was asked to make a visit he declared he was not brave when it came to mixing with what he believed to be beings from an unknown world.

The Japanese boy said that about half-past ten o'clock a particular section of the upper part of the valley was suddenly lighted up. It was not a strong light, but, being the only fire thereabouts, the glare attracted attention. (Continued on Page Four.)

## FINANCIAL.

With the exception of the fact that the Hawaiian Electric paid an extra two-per cent dividend over and above its regular monthly dividend, there was no feature of interest on the stock exchange yesterday. McBryde closed at 64, asked and a three-eighths bid, and traded at various figures, 80 shares selling between boards at 63 7/8 and five at 62 1/2. Haiku, Paia and Pioneer paid their regular two-per cent monthly dividend. Hilo R. R. 6s sold at 100.50, their highest mark last month, and 240 Ewa changed hands at 31.75.

## NO BANQUET TO BE GIVEN HERE

Japanese Commission, Dined All Over the Country, Requests Its Omission.

Surfeited with the hospitality of a nation, the members of the Japanese commercial commission who have been touring America and who are now on their way here, have requested that a banquet be omitted from the program arranged for them by the local entertainment committees.

At a meeting of the board of directors of the commercial club yesterday in its room, it was decided that the banquet which had been planned by the merchants' association and the other organization be called off and the entertainment of the distinguished visitors be left to the chamber of commerce.

It is, perhaps, just as well that the commissioners so expressed themselves for no intimation has as yet been received from the company or agents that the Chiyu Maru will be able to remain over a night. A message was forwarded to the party by wireless by Consul Uyeno stating the status of affairs and the answer was to the effect noted. The entertainment committee of the

BARON K. TAKASHI

President of the Yokohama Specie Bank and Vice-Governor of the Bank of Japan.

chamber of commerce has been working hard and the program is materializing according to the lines laid down the day before. Ex-Governor Gleghorn has extended the invitation requesting the presence of the party at his Waikiki home, Aiehanu, where afternoon tea will be served, so this part of the program is assured.

Negotiations are under way for permission to visit the Ewa mill and part of that plantation which will be done after the party returns from Waihiwa. Mr. Damon's permission is also being sought to visit the pavilion at Moanala where on a fresco lunch is planned. That lunch is occupying a good deal of attention of the committee and the details are being thoroughly worked out.

Will J. Cooper and Editor Sheba of the Hawaii Shinto, have been appointed as a subcommittee on programs and press and will have this branch of the work in charge. Other subcommittees will be appointed shortly.

While at San Mateo, California, Baron Shibusawa formally dedicated the gates erected by Henry P. Bowler. (Continued on Page Four.)

## STRIKE THROWS OUT THOUSANDS

Tie-up of Railroads Brings People Face to Face With Famine.

(By Associated Press.)

ST. PAUL, Minnesota, December 2.—It is estimated here that twelve thousand men are idle in this city as a result of the railroad tie-up from the switchmen's strike, and that ten thousand men employed in the iron mines of Minnesota are idle owing to train-freight service being blocked and the impossibility of moving the output of the mines. It is the opinion, also, that within forty-eight hours some towns will face a famine owing to nonarrival of supplies.

Mills Shut Down. MINNEAPOLIS, December 1.—Over a thousand men have been dismissed from the mills on account of the strike of the twenty-three hundred switchmen of northwestern railways. Freight traffic on the lines is blocked. Many thousands more workers will be thrown out of employment if the strike is not broken. The situation is critical.

No Settlement in Sight. ST. PAUL, December 1.—There are no signs of a settlement being reached between the twenty-three hundred striking switchmen on northwestern railways and their employers.

## PRACTICALLY A NOTICE OF WAR

Nicaraguan Charge d'Affaires Handed His Passports by Knox.

ZELAYA BITTERLY DENOUNCED

Called International Brigand, and Notified That America Holds Him Responsible.

(By Associated Press.)

WASHINGTON, December 2.—Felipe Rodriguez, the Nicaraguan charge d'affaires here, has been given his passports accompanied with a letter from Secretary of State Knox scathingly denouncing the Zelayan administration.

Secretary Knox, in this letter, branded President Zelaya of Nicaragua as a violator of all international conventions, a disturber of national and international peace, a tyrant and an international brigand, whom the United States holds personally responsible for the torture and execution of Grace and Cannon, the two American colonels of the revolutionary army, who were condemned to death by a drumhead court. President Zelaya indicated broadly enough, recently, that the execution of Grace and Cannon is not a subject for the discussion of indemnity nor apology.

The state department and the President have replied, notwithstanding Zelaya's attitude, "that such treatment of American citizens can not be tolerated for a moment." What Zelaya will do when he receives the ultimatum is problematic, but his course has been such as to indicate that he will not yield except to force. The dramatic aspect of the punitive expedition against President Zelaya for his insults to the United States was furnished by President Taft's order for marines to be dispatched to Corinto. This in itself is perilously near an act of war.

In fact negotiations with Zelaya were closed when, according to his message to the United States, he said that Leroy Grace and Leonard Cannon were executed in due military style and under the form of international law. Retaliation on the part of the United States, may take the form of seizure of either Greytown or Corinto, or both.

The United States ship of war Prairie, carrying marines, will sail for Panama today. A steamship from New York, carrying arms and ammunition for the revolutionists against the Nicaraguan government troops, arrived at Bluefields yesterday.

Stuck on the Way. WILLAPA, December 2.—The gunboat Princeton, en route to Nicaragua, went aground during a fog while entering the harbor. The warship was pulled off and a casual examination shows that slight repairs only will be necessary to put her in trim again. The Princeton, a vessel carrying ten guns, commanded by Commander Charles H. Hayes, was placed in commission November 5 at the Bremerton navy yard.

# The Originator of Stein-Bloch Clothes

Nathan Stein began making clothing when sixteen years old. At sixty he was making better and finer garments than any man in America.

He passed out at eighty, the supreme pastmaster of his craft, yet always a worker, always a learner. He has imitators, but no competitors.

Nathan Stein was the Nestor of the modern clothing business, and a Prophet of the Better Day \* \* \* The garments he made were works of art, thought out and dreamed out \* \* \*

The Stein-Bloch Company is the lengthened shadow of Nathan Stein. He lifted the business of making ready-to-wear clothing out of the realm of the booth and the bazaar, and placed it beyond haggle and barter.

He made it a matter of friend supplying friend with exquisite garments at a fair price.

From "THE TALE OF TWO TAILORS" By Elbert Hubbard

The above quotation furnishes the reason which actuated a great London merchant in offering Stein-Bloch clothes exclusively to his London patrons.

The new styles are ready; the price is within reach of your pocketbook and your self-respect. Try on these clothes.

Look for this Label. It means 55 years of Knowing How.

## COOLED FROM THE SOUTH POLE

Posthumous Publication of Dr. Sereno Bishop Advances New Theory.

Unlike all other ocean areas, this northeastern section of the Pacific derives its surface waters almost direct from the enormous Antarctic Glacier. Our abode is at the terminus of a mighty current system of cold sea water which received the sun's final warming in this Hawaiian region. At a uniform temperature of 35°, that vast cold current has slowly crept along the whole breadth of the Pacific Ocean from the Antarctic Glacier which originated it, and after 8000 miles of submarine journeying has finally emerged to the surface along the north-west coast of North America against which it has been pushed by the globe's rotation. There this cold current has been spread abroad over the surface of the Northeast Pacific. It has ultimately drifted down over 2000 miles to Hawaii, still cool, reaching us at a temperature of 50° in March and 70° in September.—Dr. Sereno E. Bishop.

With one stroke of the pen the late Dr. Sereno E. Bishop, the venerable scientist of Hawaii, discoverer of the famous "Bishop Rings" about the sun and author of various scientific works, disputes the old theory that the Arctic current cools the air of the section of the Pacific in which the Hawaiian Islands lie moored, and advances the theory that it is a current sweeping up from the Antarctic ocean which gives the Hawaiian Islands their incomparable climate. This theory is set forth in a paper written by Doctor Bishop shortly before his death and is now being issued by the promotion committee as a promotion pamphlet. In the opening portion of the paper Doctor Bishop says:

"This climate is unique. How many people know, or how many ever tell, that there is no other such mild, uniform, comfortable climate on any other island or continent of our globe? Yet such is the simple truth. Both for moderation and uniformity of temperature, there is elsewhere nothing like it within the tropics, not in other zones. And there is a specific reason for this remarkable fact, which this paper will duly set forth.

"With very slight variations from year to year, in the cool suburbs of Honolulu, our August mercury ranges between a maximum of 85 deg. and minimum of 65 deg. In February, its maximum and minimum are 80 deg. and 55 deg. You ask, how can this be true? Why should the climate of Hawaii be the one exception to all other climates within the tropics? Why is it quite devoid of the sweltering heats always found elsewhere within the Torrid Zone? And why should it enjoy such almost unvarying uniformity?"

"In giving such explanation of the source of this well known cold surface current from the Pacific Coast, the writer is, of course, aware that he contravenes a long accepted doctrine of the physical geographers. Their theory recognizes the constant arrival upon the North Pacific Coast of America of a vast body of cold water extending far out into the ocean. They admit that it is of such extent as profoundly to modify the climate of that whole coast, both in summer and winter. But these scientists have entirely failed to note the real and only adequate cause of that cold ocean area and have attributed its existence to a source which is physically an impossible one.

"This long accepted theory, which is taught in all the school geographies, is that this vast cold ocean area, nearly as large as Australia, is merely an extension of the warm Japan current or Kuro Siwo. That current sweeps past the Aleutian Islands and becomes chilled in passing the Southern Coast of Alaska in latitude 40 deg. north. It is then deflected southward by the American coast and turns down south-east along Oregon and California carrying with it to those States a portion of the cold climate of Alaska.

"This absurd and impossible theory, in the absence of any competing suggestion, has gained universal acceptance. That it is 'absurd and impossible' that these terms precisely describe it, I now proceed to prove.

"In the first place, it is physically impossible for any current existing in either the atmosphere or in the ocean to turn southward toward the equator as the assumed Japan current is alleged to do without being at once deflected to the westward by the globe's rotation. It would be impossible for the alleged current to proceed southeast along the coast to Oregon. It would necessarily become a southwesterly current, wasting itself in midocean. It would follow the invariable laws of all currents.

"To specify more closely. As this Japan current began to move southward, it would at once encounter an ocean surface of lower latitude which was rotating eastward with greater speed than itself, because at greater distance from the earth's axis. That swifter surface would immediately leave behind the oncoming current from the north, which had slower eastward rotation. In other words that current would slip westward.

"Secondly, an actual inspection of those cold waters along the Pacific Coast shows that they are moving northward and not southward. The regular current outside the Golden Gate sets strongly to the north. Past the mouth of Columbia River it invariably sets northward. This is proved by the fact that the long ocean beach north of the river mouth is densely crowded for thirty miles with trees and logs from the river, while the splendid

# Military Point

If Honolulu had nothing else but her military future to boast of, it would be sufficient. It is difficult for any one to estimate Honolulu's military possibilities with her favorable geographical position and the enormous amount of work contemplated by the U. S. Government. When you consider the extensive improvements under way, the large appropriations that have been made by Congress, and the number of barracks and forts being established, you can readily see that Honolulu is going to be the greatest military point the world has ever known.

**SCHOFIELD BARRACKS, FORT SHAFTER, FORT RUGER, FORT DE RUSSY, FORT ARMSTRONG, THE NATIONAL GUARDS, MARINES, ARTILLERYMEN, AND BATTALIONS OF ENGINEERS** may some day number TWENTY-FIVE THOUSAND MEN, increasing the present monthly payroll of \$50,000 to \$500,000 or more.

### GREATER PEARL HARBOR MEANS A GREATER HONOLULU.

WASHINGTON, November 11, 1909.—President Taft's first work on his return from his tour abroad was to give his attention to matters relating to the development of American interests in the Pacific. One of the vexed questions of the administration and departments has been the relative amount of work that should be done in shaping the plans for the fortifications of Hawaii and the Philippines. President Taft today gave his approval to the recommendation of the joint army and navy board making Pearl Harbor the great naval center of America in the Pacific. Temporary equipment only will be provided for the Olongapo naval station in Subig Bay, and the improvement of Cavite and Manila harbor will be abandoned, the theory of the board being that the Army will be relied upon to protect the Philippines.

This decision is very important in its bearings on the development of the naval and military policies of the country in the Pacific. All the great work for the Navy will go on at Pearl Harbor. Admiral Sebree's fleet during its recent visit distributed over \$300,000 in Honolulu within one week. This will give you some idea of what may be expected when the Pearl Harbor Naval Base is completed and Honolulu becomes the naval center of the entire Pacific. The payrolls of the fleet that will be stationed at Pearl Harbor, together with the regular monthly payrolls of the several forts and barracks in the city, will make Honolulu's military income run into many millions of dollars annually. With such a promising military future you will find us correct in our claim that property purchased in the KAIMUKI NEW OCEAN VIEW DISTRICT today is sure to increase to many times its present value. Our prices, \$500 for corner lots and \$400 for inside lots, size 75 ft. by 150 ft., with liberal installment terms, gives you a splendid opportunity to make a safe and profitable investment, and secure a beautiful ocean view homestead.

## Kaimuki Land Co., Ltd.

ROOMS 37 AND 38 YOUNG BUILDING, HONOLULU, T. H.

beach to the south of the river is entirely clean. A Japan current from the north is a manifest figment.

"Thirdly, the enormous volume of the cold water, which constantly occupies the Pacific Coast, can not possibly be derived from the very limited remainder of the Kuro Siwo current after it reaches Alaska. The existing body of cold sea water at 35 deg. or 40 deg. of temperature occupies an area of 1500 miles in length from San Diego to Sitka and of many hundred miles out to sea constituting an immense area of cold ocean surface, always and unvaryingly present. It is of such enormous quantity as totally to alter both the summer and winter climates of that long coast for more than thirty miles inland, keeping them at a comparatively uniform temperature of from 40 to 50 degrees. Such a vast area of cold water can not possibly be derived from the last remainder of a surface current wasted by six thousand miles of ocean travel.

"Fourthly, the uniform temperature of this great cold ocean area can not possibly be derived from a remote surface current subjected to many storms. It must come from some source of great magnitude, which is protected from all varying influences. No adequate source can be less than that of the vast abyssal current generated at the foot of the Antarctic Glacier, and creeping up the bottom of the Pacific Ocean, uniform in velocity and unchanging in temperature until the shoaling Pacific Coast forces it to the surface.

**Positive Evidence for This Theory.**

"For positive evidence of the existence of such a submarine cold current under the Pacific, we have:

"First, the results of numerous deep-sea temperature soundings. Hundreds of such soundings have been made and recorded at different times and places in the mid-Pacific. They have invariably revealed the fact of the existence of a thick stratum of sea water, lying below an average depth of 10,000 feet and having a very uniform temperature of 35 deg.

"Second, similar Atlantic soundings have established the fact that similar currents of like temperature are moving under that ocean from each of the poles and are meeting in a region north of the equator pushing each other to the surface so that the low 35 deg. of temperature is there met at the depth of only 3000 feet. But access to the Pacific being practically shut off from the Arctic, the vast Antarctic cold flow enters the North Pacific unobstructed to pursue its course along the ocean bottom until some northern coast forces it to the surface.

"Thirdly, that point of emergence must necessarily be found upon the northwest coast of North America. This is so because any current moving northwards after passing the equator is necessarily deflected to the east-

## JUDGE DE BOLT IS ENDORSED

(Continued from Page One.)

bers of the association that his reasoning was correct.

George A. Davis thought that while some middle course might be adopted, yet practically, if more than one man were nominated, it would be throwing the whole matter into the hands of the executive, who would still be able to have his own way practically unopposed.

Judge Matthewman was nominated by A. Lewis Jr. Lewis, however, made no speech, merely nominating the Hawaii judge formally.

On the ballot being taken, it was found that De Bolt had received thirteen votes, Matthewman two, and three had not voted. On motion the nomination of Judge De Bolt was made unanimous.

The bar association also by unanimous vote endorsed Circuit Judge Robinson for reappointment to the position he now holds. Judge Robinson's term expires about next March.

Those present at the meeting were: Judge Lindsay, A. L. Castle, John W. Cathcart, George A. Davis, J. L. Coke, T. M. Harrison, A. G. M. Robertson, S. M. Ballou, C. F. Clemons, P. L. Weaver, A. D. Larnach, C. F. Peterson, J. A. Magoon, Frank Thompson, W. C. Parke, E. A. Douthitt, L. J. Warren, A. Lewis, Wade Warren Thayer.

### TRANSPACIFIC RACE TO BE RUN

Hawaii Yacht Club Meets and  
Decides to Ask Hobron  
to Work.

There was a well attended meeting of the Hawaii Yacht Club at the Bungalow last night. The principal matter under discussion was the transpacific yacht race for next year. It was unanimously decided to work up the race.

Means to this end were discussed and it was decided to write to every yacht club on the Coast and ask them if they can enter one or more yachts in the race. The place of starting the race will be decided on later.

A letter was read from the promotion committee offering cordial cooperation with the yacht club and an answer was ordered sent to the committee, thanking them for their action and stating that the yacht club would be only too glad of the committee's help.

Hobron a Representative.

Tom Hobron is now in San Francisco. He is a member of the Hawaii Yacht Club and he has been written to, asking him to use his very best efforts to promote the race. A motion was carried last night to the effect that Mr. Hobron be appointed special representative of the club on the Coast and, as he is an enthusiastic and experienced yachtsman, as well as a man of the world, there is no doubt that he will be able to arrange matters satisfactorily.

One Yacht Certain.

There is a certainty of one yacht entering the race. Francis Hay's new yawl was built especially for the race and she will fly the flag of the South Coast Yacht Club. Up in San Francisco there are dozens of yachts that might well enter the race and would do so if the owners received a little proper urging.

The matter of financing the race was talked over and various suggestions were made, but there is no apparent difficulty about this end of it.

The present care of the yacht Hawaii was brought up for discussion. Alee Lundquist, the caretaker, has left and there is nobody to look after the yacht. A squad of volunteers was called for and there was a prompt response. Three days a week certain members of the club will go down aboard the boat and do the necessary cleaning, polishing and sweeping.

Howard Prize for Wrens.

A communication was received from F. K. Howard stating that he would like to present a trophy for sea-wrens to be raced for next year. This makes the second trophy offered for wren races, as the Spalding cup series is waiting until all the wrens are in the water.

It was decided to have another wren race next Sunday morning for the prize offered by Doctor Sanford. This prize is one of the most appropriate yet offered, being a year's subscription to the Rudder, the well-known yachting periodical.

The matter of a new site for the clubhouse in Pearl Harbor was brought up, also that of a place in Honolulu harbor and many other matters were informally discussed. The sense of the meeting, which was more largely attended than any meetings of the club for a long time, was emphatically in favor of not letting the transpacific race die out.

### TOWNIE-MARINE GAME CHRISTMAS

The latest football suggestion is for the Marines and Townies to have another game on Christmas day. All those who would like to play for the Townies are urgently requested to notify Bill Chilton at once, so that he can figure on what kind of a team he can put out.

Another game between the two teams would certainly be a good one. There is talk of an entente cordiale between the football players and the soccer team, so that the game can take place at the league grounds.

There are two propositions on foot. One is to have the intercollegiate game take place in the morning and have separate gate receipts, the other is to have an amalgamation of forces and make one grand football show.

The soccer people have two games scheduled for Christmas day. Each game takes up about one hour and fifteen minutes. By cutting their halves short they could easily allow the intercollegiate game to be played between their two games.

It would mean starting at one o'clock sharp for the first soccer game. Then the intercollegiate game could be played with fifteen-minute halves and the second soccer game could be started easily by half past three.

While not trying to induce the soccer people to do anything they do not like, it might be suggested that this would be a good idea. Many people who would not care to see either game would come out to see the both of them. A division of gate receipts would doubtless be satisfactory to both leagues.

At any rate the people want to see another Marine-Townie game. They have made a great showing on the football field and, though the Townies have won two out of three, there is plenty of room for another game.

Bill Chilton is hot after this event and wants to see the event made a success. Haole Sumner, one of the cleanest sportsmen in town, is also anxious to have another game. As for Sergeant Camp and the boys down at Camp Very, they are only too anxious to retrieve their laurels and show that they can work open plays and end runs as well as the best of them.

### POSSIBILITY OF A FINE CUP

There is a prospect of a fine cup being put up for the winner of the Kalakaua avenue walking race. The details are not yet settled, but a prominent local sportsman yesterday suggested that he would like to put up a cup worth having and stated that he would do so if, after having a talk with the committee in charge of the race, his conditions were complied with.

These conditions are nothing more nor less than that the judges should exercise the strictest surveillance over the walkers and see that none of them get into a dog trot. He does not ask that offenders should be disqualified but merely warned. There is no doubt that these conditions will be complied with and so there is little doubt that the cup will be put up.

Entries for the race are not coming in very fast and those who intend to walk should hurry up and get in. The event is purely a sporting one. There is no prize money and all the prizes will be of small value intrinsically, but something to be kept as a memento of the race.

Entering the race for the value of the prizes to be obtained is deprecated by the committee in charge. The race is purely and simply for the fun of the thing and not for any gain. The actual list of prizes will not be published until after the entry list closes next Saturday night.

### NO OPIUM IN CHAMBERLAIN'S COUGH REMEDY.

There is not a particle of opium or other narcotic in Chamberlain's Cough Remedy, and never has been since it was first offered to the public. It is as safe a medicine for a child as for an adult. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

SO THERE.  
There are no ghosts at Waikiki—  
So there.  
Admission to the show is free—  
That's fair.  
But, if the ghost would only walk  
As often as the people talk,  
The actor folk would proudly stalk—  
So there.

But there are other ghosts besides,  
Though rare.  
They often take their midnight rides  
On air.  
They sometimes land upon a chest  
Of some poor man without a vest—  
To overeat he's done his best—  
So there.

To Waikiki are ghosts that fit—  
Hot air.  
And, in the tonneau, screeching, sit  
The fair.  
They wail and shriek with all their  
might  
And hideous make the starry night.  
Resolved—those ghosts are just "A  
Fright"—  
So there.  
—JACK DENSHAM.

THE Pacific Commercial Advertiser A MORNING PAPER.

RODERICK O. MATHESON EDITOR THURSDAY DECEMBER 2

SCHOOL PROBLEMS.

The work of the school fund commission, a body authorized by the legislature and appointed by the Governor and now in session weekly in this city, deserves more attention from the general public than is being paid to it.

There are innumerable problems for the commissioners to wrestle with, a task they are undertaking and devoting themselves to without any apparent encouragement from the public at large or any considerable portion of it.

In a recent issue of The Advertiser was published a statement from the commissioners inviting comment on a proposal to raise school funds through a specific additional tax.

The Advertiser will be glad to publish any communications, regularly received, on the subject.

RESPECTING EVIDENCE.

Sheriff Jarrett, believing that as a result of his recent investigations he has sufficient evidence to warrant the action, has dismissed Leal, the head of his detective force.

Already, before the evidence against Leal has been presented, efforts are being made to discredit it on the ground that it is made up wholly of the statements of gamblers and lawbreakers, and, as such, should not be given credence.

This is an old and too often a successful defense for grafters. Why, only a person capable of reading the minds such an argument influences could tell.

That a grafter only does business with lawbreakers is surely as patent a fact as that a butcher sells meat, a preacher teaches the gospel, or that a lawyer has business in the courts.

The Advertiser has no desire to prejudice the allegations to be made against Leal today. It objects in the name of common sense, however, against the campaign started already against the witnesses to be called to testify against him.

A contemporary, with a wondrous sense of the fitness of things, wants to know why those Spokane millionaires did not try some other boats if the Pacific Mail refused to accept their January bookings.

Local naval officers can not understand the cabled announcement to The Advertiser that the orders of Secretary Meyer abolish the bureaus of construction and equipment, stating that these bureaus are established by law.

Further proof of the superiority of the men of the West over those of the effete East comes in the news from New York, where it is claimed that the Chinese of that city have had to import hatchet men from San Francisco to do their fancy tong work.

When thinking over the condition Honolulu finds itself in, in regard to a water supply, it would be well if everyone would give some thought to the question: "Where does the money that is raised in taxes go?"

If there is anyone a candidate for Judge De Bolt's shoes on the circuit bench, we hope they will hasten to tell the Bulletin. This habit of secrecy so many have is to be abhorred.

PAID PREMIUM FOR HIS CABIN

(Continued from Page One.) tourist trade for Honolulu realize that if no move is made on December 7, the date of the convening of congress, Hawaii will have to wait for a long time before it gets any relief.

SPOOKS SHIFT UP TO MANOA

(Continued from Page One) tion. Many Hawaiians and Japanese went over to investigate. Some stayed and others fled. They saw a bluish-red flame appear to come up through a crack in the ground, take the form of a circle, and then break into phosphorescent tongues, which spread over the ground and wound about the tufts of Hilo grass.

Letters From the People

THE BAHAI MOVEMENT.

Editor Advertiser:—The followers of the Bahai teaching read with interest the scholarly account of the early days of the movement which appeared in your issue of Tuesday, November 30.

To those familiar with this teaching, however, it was quite evident that the author had had access only to certain literature which dealt but imperfectly with the earliest phase of the teaching. He was writing of the Bahai movement, which was the forerunner of the Bahai movement, giving the impression to the reader that the latter was subordinate to, and an outgrowth from, the former; whereas those who have kept in touch with the matter know that the Bahai movement is the teaching to which the Bahai movement was but the door.

As in the early days Christianity was for a time misunderstood and supposed to be a Jewish sect, so in the early days of the present day movement, it was misunderstood and supposed by many to be a sect of Islam. Such was the view taken by Count de Gobineau and Prof. E. G. Browne who wrote histories of the Bahai movement. By them the spirit of the teaching was not understood.

As the writer of the said article seems only to have had access to the writings of these two early historians, it is not surprising that he should have incorporated in his article some of their mistakes. For example he states that the teaching is pantheistic, that it teaches of the absorption of the righteous into the Godhead, and of the annihilation of the wicked.

These are misconceptions. As Christianity spread and proved itself to be for the whole world, so has the Bahai movement proved itself universal. No one, upon studying its teachings, would recognize it as being other than a world movement. The fact that it is uniting in one faith Christians, Jews, Moslems, Zoroastrians, Buddhists and Brahmins proves its universality.

In the article in question mentioned was made of a Bahai "Mosque" to be erected in Chicago. One of the writers of this article has for ten years devoted his life to this work during which time he has lived, traveled and taught in many countries, both occidental and oriental, yet this is the first time that he has ever heard the term "Mosque" applied to a Bahai temple. The Bahais have no priesthood, ritual nor congregational worship. Their temples are for reading, prayer and meditation. The dependencies of the temple comprise schools, hospitals, asylums and various other charitable and philanthropic institutions. Such a temple has recently been erected in Russia.

Those who desire to study this matter for themselves can find an abundance of literature upon the subject published by the Bahai Publishing Society, P. O. Box 283, Chicago, Ill. HOWARD C. STRUVEN, CHARLES MASON REMEY.

NO BANQUET TO BE GIVEN HERE

(Continued from Page One.) commemorating the victories of the Japanese during the late war with Russia.

There will be a hundred in the party that will make the automobile trip around the Palms, Punchbowl, Waikiki and other points. The Japanese will make no attempt to entertain the party besides having their principal organizations represented in the entertaining party. They believe that as the commission has been touring America and has been America's guests during this time, the Americans should continue to do the honors until the commission leaves the country.

WATCH FOR SYMPTOMS OF CROUP

Do not allow croup to develop. Chamberlain's Cough Remedy will prevent the attack. Watch for the first symptoms, which is usually hoarseness, and give this remedy freely. It should always be kept in the home where there are young children. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

# WATERFRONT NEWS

## OIL ON THE WATER CAUSED BY A SACK

Considerable oil spread over the surface of the harbor waters on Tuesday. This was due to a pipe from the associated oil tanks leading to the steamship Alameda bursting. Before the oil could be shut off about two barrels flowed into the harbor. Investigation showed that a piece of sack had been carried through the pipes, possibly from the tanks, and was jammed against the screen in the pipe where it passed into the ship. This caused the oil to back up and the pipe gave way. Manager Davidson of the oil company will put in a screen at the tank of the pipe so that in future no foreign substances may get into and clog the pipes.

### Thomas May Be Late.

Although Captain Falls, depot quartermaster, looks for the arrival of the transport Thomas on Saturday at daylight, she may not arrive until Sunday morning. The troopship left Nagasaki on November 22. November being a thirty-day month the troopship may not be here until the fifth day of this month.

### New Chinese Port.

VICTORIA, B. C.—According to advices received by the Tangu Maru, a new Chinese port for Manchuria has been proposed and is actually being surveyed at Hulatao, seven miles from Lienshan, a station on the Imperial railways of North China, which is nine-

Alameda on Way to Coast.  
The Alameda departed for the Coast at ten o'clock yesterday morning carrying a full cargo of Island stuff, and a fair-sized list of passengers. The Hawaiian band was present and gave the popular liner a fine send-off.

### Shipping Notes.

The Matson steamer Larline sails from San Francisco for Honolulu tomorrow.

The next British steam collier bringing coal from Norfolk for the naval station may arrive about December 19.

The schooner S. C. Allen has almost finished discharging her lumber cargo, brought from Fort Bragg. She will prepare for going to sea after Friday.

Canned pineapples formed a portion of the cargo of the steamer W. G. Hall which arrived from Kauai yesterday morning. She also brought ten cabin passengers.

At eight o'clock Tuesday night Captain Fredericksen of the steamship Hilonian, sent a wireless message that the ship was then 115 miles out and everybody aboard was well.

## Vapo-Resolene

(Established 1879)  
**FOR WHOOPING COUGH, CROUP, ASTHMA, COUGHS, BRONCHITIS, SORE THROAT, CATARRH, DIPHTHERIA**  
Vaporized Cresolene stops the paroxysms of Whooping Cough. Ever-deadened Croup cannot exist where Cresolene is used. It acts directly on nose and throat, making breathing easy in the case of croup, soothes the sore throat and stops the cough. It is a boon to sufferers from Asthma. Cresolene is a powerful germicide, acting both as a curative and preventive in contagious diseases. Cresolene's best recommendation is its thirty year's successful use.  
For Sale by all Druggists  
Send Postal for Descriptive Booklet.  
Cresolene Antiseptic  
Throat Tablets, simple and soothing for the irritated throat.  
The Vapo Cresolene Co.  
180 Fulton Street,  
New York City.

GAY YOUNG MEN SEND ALOHA TO THEIR CREDITORS

When the steamship China left for Yokohama two well-dressed young men, quite swagger in the very latest sartorial offerings from New York, stood upon the promenade deck and waved farewells to those on the wharf, both saying in unison: "Don't forget to give our deapest farewell to all our creditors."

WILL DESCRIBE HALLEY'S COMET

The merchants and business men of the city will rest awhile tomorrow at the commercial club and listen to the tale of the tail and the other things appertaining to and a part of Halley's comet, which will be visible here in January.

WHAT THE PRESS AGENTS SAY

There will be an unusually interesting variety of animated photography on at The Bonine tonight; the best effort of the best European and American producers and depicting daring attempts into the Historical, Dramatic and Pictorial.

Attractive Program. Tonight is the opening of the new bill at the Orpheum—forty minutes of farce comedy, forty minutes of vaudeville, fifty minutes of musical comedy, two hours and ten minutes of solid fun.

Band at Waikiki. The Hawaiian band will give a public concert this evening at the Moana Hotel at half past seven, the program to be: March—Free Lance..... Sousa Overture—Semiramide..... Rossini Intermezzo—Samson and Delilah..... Saint-Saens Selection—Ernani..... Verdi Vocal—American Songs..... H. Berger Selection—Three Twins..... Hoscha Gavotte—Glowworm..... Lineke Waltz—Gesundheit..... Heif The Star Spangled Banner.

ACCIDENTAL DEATH VERDICT OF JURY

Accidental death is the verdict of the coroner's jury rendered last night in connection with the death of Alexander Morrison, who died lately from injuries received in the foundry of Catton & Neill.

TWO HIGHWAYMEN ARE CAPTURED

For a crime committed on the seventeenth of last month, Antone Phillips and Tom Richards were yesterday lined up by the police. The latter was arrested Sunday and the former was placed in the cooler yesterday. Both boys are part Hawaiian and part Portuguese and both are charged with robbing a Chinaman at Kalihi on the night mentioned.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs and Elixir of Senna, which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies, when required, are to assist nature and not to supplant the natural functions, which must depend ultimately upon proper nourishment, proper efforts, and right living generally.

HAVE YOU HAD  
A GLASS OF THE  
FAMOUS  
**A---Y---P**  
NOW ON DRAUGHT AT  
**THE CRITERION**  
C. J. MCCARTHY, Prop.  
Corner of Hotel and Bethel Sts.

**THE LITTLE WORLD**  
Will be at home at  
**THE HOPP SALESROOMS,**  
King Street,  
on  
**FRIDAY, 3rd, and Saturday 4th,**  
of December.  
And ready to welcome its Honolulu  
friends.

These little people have been dressed for the occasion by the ladies of St. Clement's Parish in a variety of dainty costumes; everything from the most exquisite Parisian lawn down to the simplest form of Waikiki bathing suits. There will also be on hand a number of pieces of old English furniture, graceful in design and perfect in proportion, which will invite your inspection, demand your admiration, and in fact everything will be there which is necessary for miniature housekeeping, even the larder is supplied with delicious candy, made by the same skillful and versatile fingers. This is an opportunity not to be missed.

**BUSINESS LOCALS.**

H. P. Robinson Jr. of Paia, Maui, has a notice in this issue.  
An Edison phonograph is for sale. See classified advertisements.  
A young lady advertises for position as milliner. See classified ads.  
A case of Mrs. Kearns' Gold Medal preserves makes a fine Christmas gift. Order early.  
Boys' overcoat and shoes are for sale at a bargain. See classified advertisements.  
A house at the corner of Kapiolani and Lumaililo streets is for rent. See classified advertisements.  
A young Hawaiian or half Chinese is wanted to do light housekeeping. See classified advertisements.  
Palace Cafe, corner Richards and Merchant, has been reopened by D. MacRae. First-class meals and short orders.  
Oat and Mossman have just received a large collection of Christmas cards which is now ready for your inspection. Call while the assortment is large.  
If you have a house that you want to rent furnished let Bishop Trust Company know at once. They have several applicants for furnished houses. Office on Bethel street.  
Gentlemen, who wish to make their wives a Christmas present of a beautiful hat, are invited to see the handsome display at the millinery parlors of Miss Power, Boston building.  
Have you had a glass of the famous A---Y---P which is now on draught at the Criterion? It is probably the best ever served in Honolulu and it's like the Criterion, you know, to serve only the best.  
If your automobile, carriage or wagon needs repairs or painting you can leave it at the shop of W. W. Wright Co., Ltd., knowing that only the most expert workmen will be employed on the job.  
There is to be a sale of goods at the City Auction rooms, Merchant street, at ten o'clock tomorrow that should interest everybody for the lines include everything for the house and for men and women.  
See the fine line of leather goods at Hawaiian News Company. Numerous leather articles imported especially for the holidays are on display. You can find some nice things among this lot to fill out your Christmas list.  
Be on the safe side and buy Eastman Kodak films. They are unquestionably the best films on the market and if you expect the best results from your kodak or camera you should use no other. Sold by Honolulu Photo Supply Company.  
Too great stress can not be laid on the importance in business transactions of the instant communication afforded by the wireless. Many an important deal has fallen through because of the long intervals between mails. Remember wireless is instantaneous.

**LOCAL BREVITIES.**

The jurors of the federal court are excused until Friday, December 3.  
The vestry of St. Clement's church will meet in the parish house at eight o'clock this evening.  
Hawaiian Tribe No. 1, I. O. R. M., will meet in K. of P. hall at half-past seven this evening.  
The Red Cross stamp committee reports \$2000 in sight. The committee expects to clear off the stamps by Friday.  
A fine parlor organ has been presented to the city and county jail by the trustees of Excelsior Lodge of Odd Fellows.  
Mrs. P. L. Weaver's second lecture on the modern drama, "A Doll's House," will be given this afternoon at three o'clock at the Y. W. C. A. rooms.  
Deputy Sheriff Charles Rose is back at the police station for duty after being laid up for about ten days with a badly lacerated foot received in a runaway accident.  
Olive Branch Rebekah Lodge No. 2, I. O. O. F., will meet in Odd Fellows' hall at half-past seven this evening. There will be nomination of officers after which there will be a card party.  
Bathers complain of the growing coral patches at Waikiki. It would seem to be the height of good business for the bathing resort proprietors to do a little blasting, now that the tourist season has set in.  
Central Union church will give an unusual Christmas program. The choral will be preceded by a Biblical representation of the nativity arranged by James H. Wilder. At a meeting of the church officers Mr. Wilder read a rough draft of what he had prepared.  
The board of trustees of the Y. M. C. A. met yesterday and drew up a form of proposal to be made to the board of trustees of the Honolulu Library Association and turned the same over to the Y. M. C. A. trustees. B. F. Dillingham and F. J. Lowrey, trustees, were present at the meeting. The proposal is practically for an exchange of property, the Y. M. C. A. property being assessed for \$1500 more than the library.  
The Woman's Guild of St. Elizabeth's church, Palama, will serve a hot Chinese luncheon on Saturday, December 11, from half-past eleven until two o'clock. This luncheon was originally announced for the fourth but has been postponed to the following week on account of the sale to be held by St. Clement's parish house on that date. The patronage of people interested in the settlement and missionary work carried on at St. Elizabeth's church is respectfully solicited by those in charge.

**PERSONALS.**

Mr. and Mrs. J. K. Kapuni of Wai-mea, Kaula, announce the engagement of their granddaughter, May K. Kapuni, to W. Irving Maby, of Honolulu, formerly of Hilo, Hawaii.

**BURNING UP MONEY.**

BOSTON, November 3. — Robert Burns' poems, chiefly in the Scottish dialect, a rare octavo printed by John Wilson at Kilmarnock in 1786, was purchased today at the auction sale of the private library of the late James Brown, a publisher, by George Clark of Kilmarnock, Scotland. The price paid was \$1025.  
Mr. Clark, who lives in Burns' old neighborhood, will take the book to Scotland with him.  
**DON'T.**  
Don't make costly presents to a woman—  
For, if you do,  
She, being human,  
Will think a darn-stemore of the presents than she will of you.  
Act, then, the sage's part,  
Modest priced and few;  
Then her sunny heart  
Will flutter round the presents for a minute, then fly to you.  
—John Ernest Warren.  
Magazine readers may find interest in a notice appearing in the classified column today.

**GOVERNMENT WANTS  
SHINPLASTERS, BACK**

Are you keeping somewhere in a cabinet one or more of those old government "shinplasters," which in the days of the Civil War circulated as fractional currency? asks the St. Louis Times.  
There are millions of them out—some-where. Not even the United States government knows how many, or where, and this fact makes itself prominent in every statement issued by the treasury department from Washington. According to the most accurate accounting, just \$15,236,721.25 worth of these 50-cent, 25-cent, 10-cent and 5-cent issues of paper are "somewhere." Certainly since their issue in 1862, 1863 and 1864, notes of this amount have not been presented for redemption.  
In 1879, tiring of carrying such enormous figures under the heading of "debt bearing no interest," congress sat up and passed an act declaring that \$8,375,934 worth of this fractional paper currency was "lost or destroyed."  
Likely this amount was a certain arbitrary percentage of the whole outstanding in that year. At any rate \$15,236,721.25 worth of shinplasters have not turned up for redemption, but every one of them was a national government's unlimited "promise to pay" and as such the treasury department is carrying the obligation upon its books, less the \$8,375,934 which officially it has declared missing. This leaves to the account of debt bearing no interest the sum of \$6,860,787.28 of this currency.

**AS HIS NEIGHBOR SEES HIM.**  
If he is poor, he is a bad manager.  
If he is rich, he is dishonest.  
If he doesn't give to charity, he's a stingy cuss. If he does, it's for show.  
If he needs credit, he can't get it. If he is prosperous, every one wants to do him a favor.  
If he shows affection, he's a soft specimen. If he seems to care for no one, he is cold blooded.  
If he is actively religious, he is a hypocrite.  
If he takes no interest in religion, he's a hardened sinner.  
So what's the use.

 man in sight but is not certain as yet whether he is available or not. Until he has made his selection he will not give out any information as to Leal's probable successor.  
 There will be a change hereafter in the detective department, inasmuch as the chief will not in future have the absolute run of the department, being under and personally responsible to Deputy Sheriff Rose.  
 It is unlikely that there will be any further dismissals from the detective force. Leal's appointment, having already been pretty well weeded out and some of the men dismissed by Leal reappointed.

**WANTS A VOTE MORE THAN DUDS**  
 LONDON, November 18.—The suffragette imprisoned at Bristol for using a dog whip on Winston Churchill, has adopted a new style of protest against man-made laws by refusing to don prison clothes, sitting stark naked in her cell, and singing the "Marseillaise."

**AEROPLANE DANCE THE VERY LATEST**  
 PARIS, October 30.—The aeroplane dance is one of the inevitable products of the present enthusiasm for aviation in France. It is called the aerodance and is based on the movements described by an aeroplane in flight.  
 The dance begins with an imitation of the aeroplane's run along the ground—a sort of quickstep with an accelerating measure. Then the dancers move their arms up and down in imitation of a bird's wings, at the same time taking a few steps forward. The air-glide of the aeroplane is represented by the dancers gliding forward with extended arms and imitating the slight swaying of the aeroplane in maintaining its equilibrium. The last movement is the "descent."  
 The dancers do not sit down on the floor, but merely hop first on one foot and then on the other, at the same time bowing the head.

**WALNUTS GROWING ON OAK TREES**  
 SACRAMENTO, November 16.—State Superintendent of Public Instruction Hyatt returned today from attending the County Teachers' Institute at San Andreas, Calaveras county, where he found walnuts growing on oak trees. The experiment is being conducted successfully by E. M. Price, who has a large number of a new species about his home. The nuts, according to Hyatt, grow about three times as large as the ones in market. The product is the result of considerable experimenting. Grafting is done by cutting the limbs of the walnut trees and grafting them into stocky oaks.

**A GOOD HOUSEHOLD LINIMENT.**  
 When a bottle of Chamberlain's Pain Balm is kept in the house, the pains of burns and scalds may be promptly relieved, cuts and bruises quickly healed, swellings promptly reduced and rheumatism and neuralgia robbed of their terrors. In fact, for the household ills, it is just such a liniment as every family should be provided with. For sale by Benson Smith & Co., Ltd., agents for Hawaiian Islands.

WHERE WILL THE COIN COME FROM?

School Fund Commission Have a Variety of Plans to Put Before Public.

The school fund commission is hard on the trail of a scheme to relieve the financial stringency in the department of public instruction, although as yet the scheme is intangible and not expected to materialize until the whole subject has been gone into thoroughly, the schemes of other places considered in the light of local conditions, the people heard from in the matter of a specific tax and the whole matter, in fact, submitted to the crucible of time and reflection.

The more the commissioners study up on school conditions here the more they learn that there will have to be some more money for them. The question is, how to get it. What they are turning over in their minds at present is the question as to whether a part of the school money should be raised as a specific tax in addition to the present taxes raised, or whether a definite proportion of the taxes raised at present should be diverted to a specific school fund. What they are anxious to learn is whether the people of the Territory will be willing to pay more taxes and have the extra for the schools. They will welcome any suggestion or comment from anyone.

As a matter of fact, in spite of their efforts, they have not as yet been able to interest the public, even when they talk of higher taxes. With the matter of school funds the people are the same as they are with the matter of water. In the latter case, as long as their water tap runs they refuse to consider any question of spending more money on the water system, but when the supply runs out, no matter how useless their kicks and how untimely, they immediately raise a chorus of criticism. With the schools, so long as things seem to be going right they decline to worry over any extra taxes that are not yet imposed, reserving their protests and suggestions until the collector comes around.

How Other Places Do.

Yesterday the commission issued a statement of their findings along the line of revenue plans in vogue elsewhere. This statement is: The general plan throughout the

country involves: First, a permanent fund; second, a current fund.

The permanent fund is sacredly kept intact, only the income from it being used, while the current fund is depended upon from year to year to maintain the educational system.

The permanent funds are derived largely from the sales or rentals of land granted by congress, or from public lands of the State or Territory, but also from a variety of special revenues defined and set apart by statute.

The current funds are derived from the income of the permanent funds, and from taxes together with a large variety of special revenues defined and set apart by statute.

The lands thus contributing to the permanent fund are largely those that have been granted, or that may hereafter be granted by congress, but they also include public lands in any way acquired by the State or Territory. This what are known in Alabama as "Sixteenth section lands" are available, as may be provided by law for either of these funds.

Prominent among other possible sources of revenue under this head we find property that may escheat to the public treasury for want of claimant, and any that may come from donation, gift, grant or devise.

The taxes for the current fund show very prominently a specific tax for education, provided by general laws, as for instance, 2 mills in Arkansas, 2-5 of a mill, 1-6, 1-6, 1-6 and so on in Colorado; 2 mills in Illinois, 11 cents on each \$100 in Indiana. These are levied under general laws for the entire State and do not require any annual or biennial act of the legislature.

In addition to the above specific taxes for the entire State a large number and variety of such taxes are by statute authorized for counties and districts, thus allowing each locality the power to carry its own public schools to a high degree of excellence.

The special sources of revenue, for both the permanent and current funds, show a surprising number and variety, such as the following:

- Gifts, grants, devises by individuals.
- Escheats.
- Fines.
- Forfeitures.
- Special endowments.
- Certain taxes on corporations.
- Poll taxes.
- Taxes on shows.
- Tax on liquors.
- Estrays.
- Unclaimed dividends.
- Marriage fees.
- Examination fees.
- Auctioneering fees.
- Foreign life insurance.
- Foreign incorporations.
- Vending goods by sample.
- Keeping eating houses.
- Taking photographs.
- Acting as brokers.

- Records of deeds.
- Military commutation.
- Taxes on certain animals.
- Inspection of oils.
- Hire of convicts.
- Lease of oyster lands.
- Cruelty to animals.

And besides this long array a number of others are made tributary to education.

Thus last year New York received from sources other than taxes, the large sum of \$1,263,195.63.

The review brings out several principles that must be important to educational systems in any age or country some of which are the following:

Principle of Stability.

This is particularly important in our conduct of the schools. For instance, a fluctuating wage is disastrous. A liberal wage, even, if paid on a spur, is liable to be partly a waste. Now the needed stability, as wrought out by American experience through more than a century, is promoted in two ways: By the permanent fund, and by the specific tax, or by the levying of a general tax in such view of specific needs, as will afford a safeguard against violent fluctuations.

The lawmaking power is always in control, because the legislature can amend at its will or make further provision. But these general plans even though not incorporated into the constitution of the State or the Organic Act of the Territory, but only enacted by the legislature into operative laws do actually secure a fair degree of stability. And this stability can hardly be secured under the plan of an annual or biennial appropriation of a lump sum by the legislature for all the schools.

Principle of Inviolability.

This is secured by such statutory expressions as "securely invested and inviolably preserved," "forever inviolate and intact," by which, and similar expressions, the majesty of the law makes sacred those funds which are in perpetuity devoted to the instruction of the youth. So important is this principle of inviolability, that probably no school revenue system in the world can reach the highest degree of efficiency without its practical and beneficent workings.

Local Flexibility and Adaptation.

This is coming to be understood the world over in every department of human interest. It constitutes one chief excellence of our American scheme of government; and it must assuredly have place among our schools. Throughout the country it is very largely and effectively secured by allowing counties and school districts a reasonable option. Does a city wish to add cookery or the kindergarten or manual or business training, within specified limits the voters and local authorities have the privilege. Any enterprising community

can push forward, and thus lead on all the rest.

**Personal Contribution and Initiative.**  
In every great movement particular individuals are moved to give personal assistance, or even to add new facilities. This is notably true in matters of education, and even in connection with our public school systems. We must invite the gifts of those who wish to give. We should not beg, but we should afford the opportunity. And this is readily done by the principle of inviolability. Let our permanent fund be really permanent. Let the private citizen know that he can add to the volume of that fund through the hastening years. Let him even add a new endowment, a pension that will endure long after he himself has gone. Thus private beneficence will in time greatly expand our public resources.

COLDS ARE DANGEROUS.

If more people would make an attempt to get rid of the colds from which they are suffering, as a result of this changeable weather, there would be a decided decrease in the number of cases of pneumonia. A few doses of Chamberlain's Cough Remedy will cure your cold, and all danger of its hanging on until spring and resulting in pneumonia may be avoided. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

Hawaii Chapter No. 1, Order of Kamehameha, will meet in Fraternity hall, Odd Fellows' building, this evening at half-past seven.

The doctor says you have got to take Cod Liver Oil—if so, why not take it in the easiest and best form—why not take

Scott's Emulsion

That is what the doctor means. He would not force you to take the crude oil when he knows the Emulsion is better—more easily digested and absorbed into the system—and will not upset the stomach like the plain oil.

THE  
BEST  
PLACE  
FOR  
TOYS

## Women's Ready-to-Wear Apparel

The whole stock marked down to slaughtering prices so as to effect an entire clearance in thirty days. It does not mean we are giving up this branch of our business. We do not wish for a minute any such impression to be given out.

It means we are going into this branch bigger than ever. It means that we are going to remodel our room upstairs. It means we must have the entire room cleared for carpenters and painters to get to work.

It means that many new garments specially bought for the holiday trade will be offered at values far below anything ever attempted in fashionable Gowns, Waists and Coats for women and children.

We have no time to give full particulars. The bargains are here plainly marked, and we invite you to look at them.

Not a single garment on offer but what is up to date in every detail. Our Mr. Curtis leaves for New York to attend the early showing of spring apparel. In his absence extensive alterations will be made.

**We want to get to work on these alterations

### INTERPRETERS ARE MUCH NEEDED

When the ends of the world meet,  
the interpreters are in the soup. The  
island of Cebu, P. I., and that dear  
old Canton are not so very far apart  
but when it comes to gathering up their  
respective dialects there is trouble ahead  
for some one.

Captain Harry Lake, detective of the  
county attorney's office, Tuesday, at  
Waipahu, arrested Andreas Amicon and  
Maco Boas for assaulting Lee Sing with  
a dangerous weapon, a dagger, to be  
specific.

There is no evidence forthcoming to  
prove that the pake hails from Canton  
but the two defendants certainly come  
from Cebu. The latter confessed to his  
part in the affair which amounted to  
several gentle punches. Andreas, how-  
ever, speaks nothing but Cebu and after  
a wild but vain search, Lake was un-  
able to find an interpreter between that  
and English.

He finally found one that could inter-  
pret the Cebu into Spanish and by the  
aid of a Spanish interpreter in putting  
it into English, some headway was  
made. Under this system it takes about  
a half hour to get a question over the  
round trip and there will be some fun  
when he comes before the grand jury.

### WRATHFUL SOCIETY VERSUS BILLBOARDS

Congressman Gillett has been inter-  
viewed, not on the tariff question, but  
on the billboard advertising nuisance,  
says the Fitchburg (Mass.) Sentinel.  
Anyone who has traveled much be-  
tween Washington and New York will  
recognize the articles to which Mr.  
Gillett refers when he says:

"I organized myself into a wrathful  
society of one to abstain relentlessly  
from the use of the obnoxious articles.  
My own course is fixed, and the su-  
preme court can't touch me and I am  
sure they wouldn't want to. There are  
some things I will never use or pur-  
chase. No matter how worn out I may  
get in serving my district and how  
much I may need a tonic, there is one  
brand of whisky I will not touch, and  
'that's all.' My window screens may  
rust until they are solid and opaque  
before I'll buy a certain alleged rust-  
less variety. My mouth may be so  
alkaline that I'll have as much crav-  
ing for an acid as Lot's wife must have  
developed, but there are fifty-seven  
kinds of pickles which I'll never taste.  
If I should want to shave off my beard  
so that I could go among my constitu-  
ents incognito and find out what they  
really think of me there is one razor  
I will never use, though recommended  
by a name for which I have an undue  
partiality. And so there are soups and  
diners other necessities of life which  
from this time forward are tabooed. I  
am not foolish enough to imagine that  
the loss of my patronage is going to dis-

turb these public offenders, but if ev-  
ery one who feels as I do would adopt  
the same determination, I think we  
could speedily bring them to terms.  
They do not want the expense of such  
advertising, and, if it hurts them, will  
readily drop it."

### NO BABIES, NO BALLOTS.

OTTAWA, Ontario, November 14.—  
With tales of suffrage violence coming  
over the sea and Mrs. Pankhurst on  
her way to preach equality, the Com-  
moners of Canada are rather taking  
freight.

Mr. E. N. Lewis, M. P. for West  
Huron, tonight warned his fellow mem-  
bers that real fire was in the embers  
of the movement that the women were  
starting for the trimming of the wings  
of masculine control. He urged ac-  
tion bold to meet the situation which  
was forced on the nation. At present  
the spinsters can vote, he told the mi-  
nisters, if they are owners of a little  
farm or city lot, but as a general propo-  
sition he would lay down this condi-  
tion:—"No babies, no ballots."

### HIDDEN DANGERS

Nature Gives Timely Warnings That  
No Honolulu Citizen Can Afford  
to Ignore.

**DANGER SIGNAL NO 1** comes from  
the kidney secretions. They will warn  
you when the kidneys are sick. We  
kidneys excrete a clear, amber fluid.  
Sick kidneys send out a thin, pale and  
foamy, or a thick, red, ill-smelling  
urine, full of sediment and irregular  
of passage.

**DANGER SIGNAL NO 2** comes from  
the back. Back pains, dull and heavy,  
or sharp and acute, tell you of sick kid-  
neys and warn you of the approach of  
dropsy, diabetes and Bright's disease.  
Doan's Kidney Pills cure sick kidneys  
and cure them permanently. Here is  
the best of proof:

Zed Rosendorf, merchant, Main St.,  
Independence, Ore., says: "For ten  
years I was troubled by attacks of kid-  
ney complaint and finally became so  
bad off that I was forced to walk in  
a stooped position. My kidneys were  
disordered and on account of too fre-  
quent passages of the secretions, I was  
obliged to arise during the night.  
Often I had to sit up, being unable to  
lie comfortably in any position. My  
limbs became swollen and there was a  
puffiness beneath my eyes. I doctored  
and tried everything that was brought  
to my notice, but received no relief un-  
til I began using Doan's Backache Kid-  
ney Pills. They helped me from the  
first and I am today free from kidney  
complaint. I believe there is nothing  
so effective as Doan's Backache Kid-  
ney Pills in curing this trouble."

Doan's Backache Kidney Pills are  
sold by all druggists and storekeepers  
at 50 cents per box (six boxes \$2.50)  
or will be mailed on receipt of price by  
the Hollister Drug Co., Honolulu, whole-  
sale agents for the Hawaiian Islands.  
Remember the name, Doan's, and  
take no substitute.

Trimmed cushion bags all ready for  
cushions will be placed on special sale  
Saturday at 25c each at Sachs Dry  
Goods Company. See window display.

### FISHERMEN GET A SEVERE BLOW

Supreme Court Holds That Their Method of Selling Fish Constitutes Auction.

In an opinion handed down yesterday, the supreme court upholds the constitutionality of the auction law, Section 1343 of the Revised Statutes, requiring the payment of an auction license fee of \$600 for the district of Honolulu and \$15 for each other taxation district; holds that the manner of disposing of fish by the Japanese fishermen constitutes an auction—and thereby deals the fishing industry a blow that must severely injure it.

The opinion, however, was not unanimous, Justice Wilder dissenting. Justice Wilder is almost always the member of the supreme court who dissents when a dissenting opinion is rendered.

The matter came before the supreme court on the appeal of the Hawaiian Fisheries, Ltd., a Japanese corporation, from a conviction before the district magistrate on the charge of running an auction without first obtaining a license. The defendants claimed that licenses are required only for sales at public auction, and contended that their manner of disposing of their catch does not constitute an auction. The case was submitted on an agreed statement of facts, the gist of which was that the catch, as soon as it comes in by boats, is loaded into wagons and carried to the fishmarket, where it is offered in basket lots, each basket containing from seventy to one hundred pounds, and sold to the retail dealers at the fishmarket who bid highest for it.

The supreme court holds that the fact that the fish is sold on competitive bids constitutes the sale a public auction, and the court also holds that the law is constitutional and valid. The judgment appealed from is affirmed. So if a fisherman has a basket of fish to sell and does not sell to the first bidder, he is conducting an auction and must pay a license fee of \$600. Which is very fine for the poor fisherman.

Justice Wilder does not see it that way, however. He does not go into the matter of the constitutionality of the law, but only holds that the sale of fish as practiced by the Japanese fishermen does not constitute an auction and therefore they are not liable for the payment of the \$600 license fee. But there are two to one against him, and the opinion of the majority rules—unless the Supreme Court of the United States holds differently.

Circuit Judge Sustained.

The supreme court also handed down an opinion in the matter of John D. Paris vs. Jeremiah Kubaupio, Antone Perry and Manuel Fernandez, sustaining the circuit judge.

This was an action to quiet title to a piece of land in Kona, Hawaii. The circuit court, jury waived, found for the plaintiff. The defendants appealed, but the supreme court holds that there was evidence to sustain the findings of fact and refuses to set aside the judgment.

Ah Yat in Piliikia.

Young Ah Yat is in trouble with the United States authorities, and it is liable to cost him some time, money and trouble to get out. He was arrested yesterday on a warrant sworn to by Collector of Internal Revenue Drake charging him with having violated the internal revenue regulations through some irregularities in his handling and sale of cigars. He had a hearing before Commissioner George A. Davis yesterday afternoon and was released on \$400 bond.

Court Notes.

Taki Ova, a Japanese woman, has filed suit in the circuit court for divorce from her husband, Kichizo Ova, on the grounds of desertion and failure to provide.

Suit has been brought in the circuit court by Tax Assessor Charles F. Wilder against J. A. Guman for \$1976.72, alleged to be due on back taxes. The assessor also wants 10 per cent penalty, together with interest and advertising costs.

P. Maurice McMahon, poet and shorthand writer, is now the duly qualified and installed stenographer of Judge

Robinson's court. His oath of office was filed yesterday.

In the case of Elizabeth K. Booth vs. J. H. Schnack et al., a motion has been filed in the supreme court by the defendants and appellees to dismiss the plaintiffs bill of exceptions on the ground that the same was not presented to the judge or allowed or signed by him within the time in extension allowed by the judge.

In the matter of G. K. Killuly vs. Leonard G. Kellogg, the plaintiff has filed a motion to be allowed to amend his bill of complaint.

## Army and Navy News

### National Guard Activities.

Activity in the National Guard of Hawaii has been keen during the past few months and greater interest has been aroused in drill. There have been many retirements during October and November and several enlistments. During October the following were discharged:

Private Samuel Kaia, for removal of residence; Private Manuel M. Silva, for expiration of enlistment; Private Lui Veracruz, for expiration of enlistment; Private Robert Kalauokalani, for expiration of enlistment; Private Samuel Kalama, for expiration of enlistment; Private Keaikaikawai, for expiration of enlistment; Private Kalawai Wahilani, without honor, and Private Moses Kamannu, dishonorably discharged.

During November the discharges and causes were as follows:  
For inability to attend drill: Privates Elona Alapai, Albert Kalikine, John McGuire and David Trask.

For expiration of enlistment: Corporal Aina Aiau, Private Manuel Espinda, Corporal George Kelaula, Private Daniel Kaahue, Sergeant S. W. Kepano, Private Kumuiki Kapahiku, Private David Kakalia, Corporal William Kahele, Private John Kepa, Private Samuel Leialoha, Sergeant Louis Makia, Private Amosa Naauao, Private Thomas Naehu, Private Adam Ohia, Corporal George Oplano, Private Alexander Robinson, Sergeant David Wana, Private Otto Berndt, Private Joe Ferreira.

By removal of residence: Privates Edward Ezera, Edwin Hart, Nawai Keawe, Charles Kaio, John Oliveira and John Ah M. Sang.

On November 11 orders were issued by Colonel Ziegler convening a court martial at headquarters on Saturday, November 13, or as soon thereafter as practicable, for the trial of cases as were properly to be brought before it. The detail of the court was as follows:

Capt. Charles M. Coster, First Infantry, N. G. H.; 1st Lieut. Henry P. O'Sullivan, First Infantry, N. G. H.; 2nd Lieut. Antone Q. Marcellino, First Infantry, N. G. H., and Capt. J. M. Camara, First Infantry, N. G. H., Judge Advocate.

The following order following a session of the court was issued on November 19:

"1.—The Regimental Court convened by G. O. 20 c. s. Headquarters, First Infantry, N. G. H., of which Capt. Charles M. Coster, First Infantry, N. G. H., was president, and Capt. J. M. Camara, First Infantry, N. G. H., was judge advocate, having found Private David Kapua, First Hospital Company, guilty of conduct prejudicial to good order and military discipline, in that the said Private David Kapua did report for duty in a drunken condition and said court having sentenced said Private David Kapua to be publicly reprimanded, which said sentence was duly approved by the commanding officer of the First Infantry, N. G. H., therefore:

"2.—The said Private David Kapua will be paraded before the First Hospital Company on the 21st day of November, 1909, and publicly reprimanded in accordance with such sentence.

"3.—The commanding officer of the First Hospital Company, N. G. H., is charged with the execution of this order."

Orders have been issued for all companies and detachments of the First Regiment in Honolulu to assemble under arms at the drillshed on Sunday, December 12, at seven o'clock in the morning, in heavy marching order. The regiment will leave on Rapid Transit cars for Kapiolani Park. The regiment will be put through regimental and battalion maneuvers throughout the day.

The following enlistments and reenlistments have been filed for the month of November:

Band: John Panna, Charles Mikahaka, David K. Naone, J. M. Gomes, Kapule Kakalia, Mareario Mendoza, Lowell Kupan, Joe Kana, Alani Baker, Philip Kanoho, Sam Opeka, A. H. Tallett, C. Palikapu, M. Garcia, Jack Garcia, Lazaro Salamanca.

Company A: Paul de Bretteville.  
Company B: Julius Bartels, Archibald Smithies, George Smith, Eli Pihl, Edwin Paaluh, James Kauka, Paona Simeona, S. K. Malin, John K. Naiwi, Isaac Kani, Julius Bartels, John Chapman, Harry Kaihu, Richard C. Lane, Benjamin Wright, Manuel Silva, Samuel Ahin.

Company C: Joseph P. Andrada, Jose M. Farin.

Company E: Samuel Lehua, Ben Campbell, Kepiko Pepee, Henry Pahan, Gustave Anderson, Edward Spillner, Charles Ferreira, John K. Naiwi.

### Fort Shafter Notes.

An order has been issued at Fort Shafter inviting special attention to the care of and the planting of more flowers about the post buildings. Many of the buildings are quite attractive with their garnishment of vines and shrubbery. In fact the entire post has taken on a very attractive appearance since all the buildings were painted, making them of one general color. The grounds are in excellent shape and trees are growing satisfactorily. Fort Shafter has the promise of becoming a model army post in a few years.

The regular monthly review and muster was held yesterday. The review was preceded by the ceremony of the escort to the colors.

Quartermaster Teamster Robinson, whose wagon and a Rapid Transit car collided last week, sustained a broken ankle when he was thrown from the wagon. In spite of his injured ankle Robinson pursued his runaway team and stopped the animals.

The handball court is being used steadily and the recreation room of Company H has received new furniture, a pool table being expected in the near future.

Private Thatcher, of Company G, and Private Enright, of Company H, leave for San Francisco on the transport Thomas to attend the next term of the school for cooks and bakers at the Presidio.

"For over 50 years I have always kept Ayer's Cherry Pectoral in the house. My father often told me that it saved my life when I was young."

In thousands of homes Ayer's Cherry Pectoral is a household word. It has been used first by the grandparents, then by the parents, and now by the children. For colds and coughs, croup, bronchitis, la grippe, inflammation in the throat or in the bronchial tubes,

## Ayer's Cherry Pectoral

is the standard remedy the world over. It contains no narcotic or poison. Accept no substitute. Put up in large and small bottles.

## MOVING PICTURES FOR LEILEHUA

Planning to Establish Amusement Hall at Cavalry Post for the Soldiers.

The fame of the moving picture has reached even unto Leilehua, and the moving picture bug has bit the cavalry boys and made them sit up and take notice that if they can't get to the theaters, they can bring the theaters there, a sort of Mohammed and the Mountain proposition.

A committee of officers from the Schofield Barracks yesterday called on R. K. Bonine and made inquiries regarding the establishment of a "condensed dramatics" plant for Uncle Sam's horseback riders. It seems that the boys want to be amused, and this happy idea was struck upon at the psychological moment.

The committee wanted to know what kind of power and how much of it was needed; what kinds of machines were needed and other information necessary to the proper conduct of the affair. They want Bonine, the moving picture expert, to go out and start the ball rolling by giving the first show and promise in return that they will faithfully drill, get paid off, and do other camp stunts for the edification of Bonine's moving picture taker.

Other stereopticon views and moving picture films that have been made by Bonine have joined the promotion ranks, and Hawaii boosters on the mainland who realize the value of real representation of the real thing have ordered a number more slides. Mrs. Headlee, who is boosting in Los Angeles, has written for a brand new set of pictures to illustrate the series of lectures she is giving at the chamber of commerce in that city.

Miss Shipman, who is doing the same in New York, is another orderer of views of Island scenery, and in her letter to the local theater man, mentioned those views she particularly wanted. Part of the consignment to Mrs. Headlee will probably go by Friday's boat, and the rest are almost completed.

Several hundred views have been sent to A. James, who is touring the Coast with them, and a number of moving pictures, among the latter being included the volcano, poi-eaters, and surfing views. He is at present touring Southern California in the vicinity of Los Angeles.

The stereopticon views and moving picture films of the Kalanipapa Settlement, Molokai, taken by Bonine and exhibited here lately, have been donated by him to the good cause and sent to the Settlement, much to the delight of the people there, who delight in seeing themselves.

Superintendent MacVeigh, writing to Bonine in acknowledgment of the slides and sending the thanks of the Settlement people, states that these stereopticon views seem to be appreciated more than the moving picture films. The lantern views can be held on the screen long enough for the audience to thoroughly talk over the points of the picture. With the motion pictures the action takes up so much attention that all of the picture can not be thoroughly examined.

## EXTRA CAR FOR THE MANOA-PUNAHOU LINE

Manager Ballentyne of the Rapid Transit company will put on a special, or extra, car on the Manoa Valley route this morning, the car to leave the Manoa terminus at six minutes after eight o'clock, and continue on over the Punahou route, down Fort to Allen street. This is in the nature of an experiment, to meet the request of patrons of the line that additional service be given in order to accommodate the large number of passengers going toward town at that time. If the car is found to be necessary it will doubtless become a permanent run over the Manoa-Punahou line.

## PRESENT THOMAS WITH WALKING STICK

Deputy Collector of Internal Revenue S. F. Thomas, of the San Francisco division, who has been in Hawaii for several months doing field work with the local force, leaves next Saturday on the Mongolia for the Coast. Yesterday Mr. Thomas was the recipient of a very pretty token of friendship from the local internal revenue office, in the shape of a coffee wood stick with a silver mounted head in which was set the Hawaiian coat of arms. A silver band around the stick bears the names of the donors—Drake, Johnstone and Doyle.

## KAOHE TIMBER LANDS ARE TO BE LEASED

Superintendent Marston Campbell is advertising for sale the lease of the Kaohe timber lands in Puna, consisting of about 12,000 acres of timber land. The license is to run for ten years, with the option on the part of the government of canceling it any time after the expiration of five years. It gives the purchaser the right to cut the timber on the land. After the timber is removed, the holder of the lease loses all right to the land thus cleared, and it reverts to the government.

It is specified that at any time any part of the land may be withdrawn and set aside as a forest reserve.

Have you seen the display of dolls and dolls' furniture in Hopp & Co.'s window? If not do not miss it this morning for there has never been such a galaxy in Honolulu before. These articles will be on sale at ten o'clock on Friday morning.

### ADMIRAL REES TO HOIST HIS NEW PENNANT TODAY

The ceremony of the hoisting of the two-starred flag of Rear-Admiral C. P. Rees, U.S.N., at the naval station this morning will be held with full naval honors. Incident to the mere raising of the triangular flag to the peak of the flagstaff will be the parading of the entire battalion of marines from Camp Very under the command of Major Long, the detachment of blue-jackets from the U. S. S. Iroquois under Chief Boatwain Shepley and the firing of the admiral's salute from the station battery. The ceremony will take place at half past eleven.

The flag will be hoisted on the staff on the lower side of the administration building, the flagstaff opposite the paymaster's office being used today for the hoisting of the stars and stripes, reversing the usual order. The station buildings are being decorated with flags and bunting.

In addition to those assisting at the formal ceremonies the occasion will also be graced by the many town friends of the admiral, both military and civilian.

Admiral Rees' shoulder marks bear an anchor between two stars. The eagle is worn on a captain's shoulder marks.

### SUCCESS OF ONE WILL MEAN ANOTHER

"If the Wilhelmina model of steamship which the Matson company has built proves to be a good one, the company may build another steamship," said E. D. Tenney, president of Castle & Cooke, agents for the Matson Navigation Company yesterday. "A million-dollar mistake in building steamships is a rather costly one," he added, "and it would be foolish for us to think of building another boat until it has been demonstrated that the Wilhelmina is a success."

Mr. Tenney, however, is confident that the Wilhelmina model is a good one and that she will prove successful in the San Francisco-Honolulu trade. He has just received a letter from George P. Castle, dated at Old Point Comfort, in which the writer states he went to Newport News and looked over the Wilhelmina. He says that "the Wilhelmina is going to beat anything now running to Honolulu for large, comfortable staterooms. No steamer on the route will have such rooms."

Mr. Tenney says that he himself was surprised at the size and comfort of the staterooms. This should be an added attraction to tourists and kamainas. Each room is also provided with an electric fan of the oscillating kind. This machine moves back and forth over a certain radius and keeps all the air in the room in motion.

The Pacific Mail company does not use fans in the staterooms despite repeated requests from travelers. When the steamers are running into the warmer climates, particularly in the Far East, the inner staterooms of the Pacific Mail liners become extremely hot, but no fans have yet been provided, as Mr. Schwerin has not been shown that they are needed. Probably he will be the wireless Mr. Schwerin still regards an electric fan as a plaything. However, the wireless is now being installed on the Pacific Mail boats and possibly electric fans may follow.

Mr. Tenney says that the date for the departure of the Wilhelmina from Newport News for San Francisco was set for next Sunday, December 5. He has not heard that the date has been changed.

### ARMSTRONG SMITH RETURNING TO ISLANDS

During the epidemic of cholera in this city in 1895 one of the most active workers in the quarantine hospital was Armstrong Smith, a school teacher who gave up his position to serve as a nurse during the run of the disease. He also did similar and excellent service during the plague epidemic of 1899 and 1900. After a lapse of months during which he did excellent work the business associations in recognition of the sacrifices he had made and the chances he had taken of contracting the disease, presenting him with a substantial purse, enough to enable him to go to London and pursue his study of medicine. After graduating with honors he entered into practise in London and later established himself in Singapore. Doctor Smith has not visited Honolulu since he left it years ago but cable advice has been received by friends here that he will arrive in the Mongolia.

OSTEOPATHY saves wear and tear on the kidneys. If you fear "Bright's disease," look into the possibilities of prevention and cure by means of this rational, natural treatment. Osteopathy treats all diseases that any other system does—not by putting poisons into the system, but by assisting nature to get rid of the poisons already there from whatever cause.
