Collector-General. Approved: SAMUEL PARKER,

Minister of Finance ad interim.

Government Building Lots on Mount Tantalus.

Sixty Lots on the mountain slopes above Honolulu have been recently surveyed and are now ready for sale. Applications for the same will be received at the Land Office of the Interior Department.

These lats are located as follows: 26 lots on the tract known as Forest Ridge, and 34 lots in the tract designated Tantalus Heights to the south and east of Mount Tantalus.

These lots vary in size from onehalf to 114 acres and in elevation from 500 to 1,600 feet.

All lots have frontages on the new trail upon an easy grade, now constructed and which will be widened and graded for the purpose of a carriage road. The beauty of the seenery in this locality together with the cool temperature make these lots specially desirable for summer resorts, cultivation of fruits, flowers, etc.

All lots have the number plainly displayed near the road and corner stakes marking outside boundaries.

A plan of these lots will be furnished to anyone desiring to inspect the same on application at the Interior Office, where full particulars of upset prices tained.

C. N. SPENCER, Minister of the Interior. Interior Office, July 2nd, 1891. 156-6t

OFFICE OF THE BOARD OF HEALTH, Honolulu, June 19, 1891.

Sealed tenders will be received at this office until MONDAY, July 6, 1891, at 12 o'clock noon, for the delivery on the beach at Kalaupapa, or Kalawao, or at the Leper Settlement, Molokai, in good order and condition an average of 90 head of Fat Beef Cattle per month, for the use of the Board of Health from July 15, 1891, to December 31, 1891.

The tender should be for the price per pound dressed.

The hides and tallow to be the property of the Board.

All bids must be plainly endorsed "Tenders for the supply of Beef for Molokai Leper Settlement." The Board of Health does not bind

itself to accept the lowest or any bid. By order of the Board. DAVID DAYTON. President Board of Health.

THE

Daily Bullefin

Pledged to neither Sect non Party. But established for the benefit of all.

FRIDAY, JULY 3, 1891.

The Auckland Herald gives the following interesting information: "The census of the Maori population has been published, and shows that the Maoris in New Zealand now number 41,312. This shows a decrease on the census of 1886 of 120 persons. The Maori population may be taken as being about stationary. In some districts, where the natives are not barassed about land-selling, and where they have taken to steady habits and to the cultivation of the soil, as in old times, they are actually increasing. In other places they are decreasing." There is a great idea lurking in that sentence about the class of New Zealand natives that is increasing, which might be taken to beart by influential friends of the native Hawaiians.

Section 22 of Chapter 65, Session Laws of 1886, reader "No person shall bitter or fasten any horse or animal in such a manuer that such horse or animal, or the appliance used for hitching or fastening such horse or uniont, shall obstruct the free passage along any side or crosswalk." And Section 28, after forbidding the obstruction of a street by a vehicle longer than fifteen minutes, says, "Nor shall any person unnecessarily obstruct the passage of any street, lane, alley or cross-walk, by means of any vehicle or animal." These previsions seem to be honored as often in the breach as in the observance on the streets of Honolulu. Frequently sidewalks are barred by saddle horses, and cross-walks obstructed by carriages, compelling pedestrians to walk into the often muddy carriage way.

Hon. Judge J. G. Swan, Her Majesty's Consul at Port Townsend, is a live official in that capacity. For a long time be has been striving to induce large railway corporations to start a steamer service between Port Townsend and Honolulu. In a letter to the Minister of Foreign Affairs received lately, Judge Swan expresses his great pleasure at hearing that two steel ships are to be built to ply between Port Townsend and Honolulu. Lumber vessels he says are not suitable for carrying vegetables and fruits owing to the odor from green lumber. He says that with proper means of communication between the two ports, oats of the finest at auction, terms, etc., may be ob- quality, white barley, rye and timothy hay, potatoes of superior quality, and all kinds of root vegetables, and apples, pears and other fruits which excel in a northern climate would be supplied to Honolulu. We should be able to supply the Northwest by the same means with sugar, bananas, coffee, pincapples, sweet potatoes, grapes, and other raw and preserved tropical products. That is, there ought to be such a development of our resources as to enable us to take advantage of the makret of the Northwest whenever available. It is a market that will rapidly expand for many years to come.

A QUICK CURE FOR RHEUMATISM. In many cases persons subject to rheumatism, have got prompt relief from pain by applying Chamberlain's Pain Bulm. The relief it affords is alone worth many times its cost, which is but 50 cents, and its continued application effects a complete cure. For sale by all dealers. BEN-SON, SMITH & Co., Agents for the Hawaiian Islands.

IOLANTHE.

EDITOR BULLETIN:--Too much cannot be said in praise of the performance now being given here in the Opera House of Iolanthe. Mrs. Gray's efforts have been rewarded as far as perfection in the children is concerned. The juvenile Iolanthe would do credit to any

place where it might be put on. Time, patience, trouble and money must have been expended in drilling forty-two inexperienced school-children to give a performance to relieve the monotony of a monotonous place. Why do not the people more fully appreciate these efforts and show by their appearance and patronage that

they do? Much has been said as to support of home industry. This is solely a home affair. Everything necessary for this splendid display, save the wigs which were unobtainable, was purchased here. Mrs. Gray's wonderful musical ability is certainly wasted in such a place, for no apology whatever is needed in defense of the performance of Iolanthe.

It would probably be unfair in a letter like this to mention any particular one of the young amateurs, as all did so exceedingly well. But mention I must the sweet voices of Jessie Neil as Strephon, and Gertie Whitney as Phillis. Their duets are full of expression and effectiveness. Jessie Neil's solo in the last act is the sweetest thing in the whole opera, and her rendition would do credit to a professional. May Weir as the Fairy Queen is good. Her singing is good; her impersonation "dignified and stately." Lena Bruns as Iolanthe is gentle and pretty. Lionel Hart as the Chancelfor is exceptionally elever and his part is well rendered. The little o ds are good, especially the comedian Albert Harris. He is immense. The others in their parts do well and the ballet is novel and pretty.

As I sat in the Opera House last evening, a disinterested observer, I felt that if I did not do my part toward crowning Mrs. Gray with laurels, my conscience would trouble me ever after. I candidly say that nobody need regret the money spent in attending this show, and should my words be an inducement to the perhaps many in doubt as to the worthiness of the performance, it

will be a pleasure to AN ENTHUSIAST. Honolulu, July 2, 1891.

HONOLULU FIRE DEPARTMENT.

The regular meeting of the Board of Representatives of the department was held yesterday evening at the Bell Tower, 16 members present. In the absence of the Chief Engineer Mr. G. K. Norton, First assist-

ant, presided. Mr. C. H. Purdy giving satisfactory reason was excused from nonattendance at the previous meeting of the board. Mr. Walter Hill, delegate of the Fire Police, preferred to pay a fine of one dollar for non-attendance at the same meeting.

A communication was received from Engine Co. No. 1 certifying its newly-elected officers for the ensuing

vear. The committee to report on the destitute circumstances of a member of Company No. 5 recommended that the weekly allowance to that memher be increased, and accordingly the board voted that he receive an allowance of seven dollars out of the sick tund of the department.

Delegate Smith presented a claim of \$22 for medical attendance of a member of Co. No. 2, which was allowed.

It was suggested by the meeting that the Minister of Interior be asked to put a temporary shed over engine of Co. No. 2 to protect the machine from exposure to the weather.

Mr. John C. White explained the reason which led to the Minister of Interior taking the machine of No. 2, which was for the purpose of pumping water into the main pipe to supply the Waikiki section of the town with water.

The matter of having the bills against the appropriation of the department audited by the board instead of the system heretofore in force, was postponed for a month to allow the chief to be present and state his approval or disapproval of the proposed measure. Adjourned.

CHAMPION OF THE WORLD.

John L. Sullivan arrived on the Mariposa today. He was accompanied by his wife and troupe. The landing was literally jammed, there being hardly room to pass along. As the steamer neared the wharf cries of "There he is!" and others in the same vein, went up from the crowd. During all the time these outeries were being made John L. was in the cabin. When the lines were made fast people swarmed over to the gang plank like a lot of sheep. But it was some time before the great John L. was seen to emerge from the cabin. He wore a dicer, and smoked a cigar tipped up nearly vertically. The Bostonian is a man about 5 feet 10 inches high. His shoulders are very broad, and his head small. His neck is rather large and his legs thin in proportion to his monstrous shoulders. The great fighter has piercing eyes and sports a daudy moustache. The champion of champions will give an exhibition of the manly art this evening, at 8 o'clock, at the Hawaiian Opera House. He will box six rounds Marquis of Queensberry rules, having the well known heavy weight Jack Ashton as sparring partner. The exhibition will last about an hour, so as to give those wishing to attend the ball time to do so. John L. Sullivan and party visited all the places of interest this afternoon in a wagonette under the guidance of Mr. Jas. Weish.

DOWN AT THE HIEL.

There is a prodigious number of persons who feel very much down at the heel just now. All they really need is a dose of St. Patricks Pills to cleanse and renovate their system. It would do them more good than a dollar bottle of any blood purifier. For sale by all dealers. Benson, SMITH & Co., Agents for the Hawaiian Islands.

PERSONAL NOTES.

Bro. G. Bertram arrived by the Mariposa. Mrs. R. I. Green, wife of our local

Mrs. Chas. J. McCarthy, wife of the popular young noble, after several months' sojourn at the Coast, re-

horseman, meets her husband at this

turned today, looking robust and healthy. Jas. A. Wilder also returned from

Harvard by this day's boat to spend vacation.

Miss Cornwell, who several months ago left for San Francisco for the benefit of her health, returned today, very much improved. Miss K. Cornwell, her sister, accompanied the young lady home.

Just as sure as hot weather comes, there will be more or less bowel complaint in this vicinity. Every person, and especially families, ought to have some reliable medicine at hand for instant use, in case it is needed. A 25 or 50 cent bottle of Chamberlain's Colic, Cholera and Diarrhea Remedy is just what you ought to have and all that you would need, even for the most severe and dangerous cases. It is the best, the most reliable and most successful treatment known and is pleasant to take. For sale by all dealers. BEN-SON, SMITH & Co., Agents for the Hawaiian Islands.

Mr. Parnell and Mrs. O'Shea were married March 25.

A medical student in Vienna committed suicide in court on being sentenced to a long term. The bakers, butchers and grocers

the police. The steamer Fuerst Bismarck, for Southampton, has broken the record from New York to Queenstown, mak-

ing the passage in 5 days, 21 hours, 10 minutes. Gladstone's physician fears the venerable statesman may not recover from the attack of influenza in the spring, which left him rather weak. Emperor William is visiting Holland. He sports what was formerly

the Scotch yacht Thistle, now called the Meteor. The Tribunal of the Seine sentenced a German named Schneider to five years imprisonment for taking

photographs of French fortifications. England has annexed the island of Sabutan, near Manila, which is claimed by Spain.

Parson Spurgeon has had a serious.

MISCRLLANDOUS.

THE WAR IN CHILE.

Three delegates from the Congressional party, or Constitutional party as they calt it, have arrived in New York on the way to Washington. Don Pedro Montt, the leader, said their party was completely organized as a government, with the seat at Iquique. They had no President but the popular will was voiced through their Chamber of Deputies. He claims that in the north where his party is supreme the laws are administered by the judges and courts in accordance with the constitution. Quite a contrary state of affairs, he alleges, prevails in the south under Balmaceda's sway. He has imprisoned hundreds of citizens and held them for months with the worst criminals and in defiance of judicial orders for their release. Prominent people have been subjected to flogging and other indignities. In Autofaga-ta Balmaceda had eighty sol- rise diers shot like dogs for intending to desert after being impressed. A 10 a.m. large army was being equipped in Yach: the north to attack the President's forces. The d. legates bear important letters to the United States Government from the American Minister to Chile.

The latest news from Iquique received in New York reports business | tion, 3 to 5: 9 p. m. dull, no money but only notes payable to bearer being in circulation. 7000 to 8000 armed men. Balmaceda has nearly 12,000 officers and

The Congressionalists have entered into a treaty with Bolivia, by p. m. which the latter cedes Autofagasta to Chile in perpetuity, Chile paying | set. the debts contracted by Bolivia in Chile amounting to \$4,600,000.

An attempt of the erew of the torperlo launch Guale at Valparaise to lesect with her to the enemy failed for lack of fuel, and seven mutineers

caught were summarily shot. Admiral McCann under date of May 25 reports the situation to the Navy Department at Washington. All the revolutionary squadron had gone north from Caldera, leaving only 700 or 800 men to garrison Caldera and Capingo. Since the lost of the Blanco Eucalada most of the insurgent forces were concentrating about the nitrate ports. The only efficient vessels remaining were the Huascar, Esmeralda and Almirante Cochrane, the remainder being antiquated craft. There was therefore no probability of an attack by sea on Valuataiso. The Government torpedo cruisers Almirante and Lynch and Almirante Condel and the armed transport Imperial keep the nitrate ports in constant alarm of an attack. The speed of the Condel and Imperial is such that they can easily clude pursuit, and may turn up most unexpectedly at any part.

It is believed that the financial crisis is passed in the Argentine Republic. The Government has secured contributions of \$40,000,000 to save the banks. The population has increased in thirty years from 1,350,000 to 4,000,000, and the number of acres in cultivation from 480,-000 to 700,000 There are over 5000 miles of railway in operation against 18 miles in 1861. The publie debt has increased, however, in greater proportion than the national been found in the accounts of Merzwealth. It was \$17,000,000 in 1861, and in 1890 it was \$401,000,000, exclusive of paper currency, etc., which would raise it to \$615,000,000. Premier Abbott has succeeded in

forming a Cabinet in Canada. The Canadian budget proposes several important tariff changes, including the abolition of the import duty on raw sugar. The duty on reing rain twelve times in Austria, five fined sugar is to be retained with a slight change. The Government is prepared to treat with the American

Government for free trade. The Bishops of Ireland, finding the cost of maintaining members in Parliament a heavy parochial drain, are working to secure a return to the Commons at the next general election of wealthy candidates who will form the nucleus of a new Catholic party, and, it is stated, the selection of these candidates has already been com-

menced. Dr. Parker, in a sermon at London, said: "Not a man or woman connect d with the baccarat case came out of it with the slightest honor. There is no chivalry among gamblers. Without dipling the verdict it is impossible not to feel that Sir William Gordon Cumming was very meanly used and not the least by those chiefly responsible for the gambling and so-called hospital-

Performance of Iolanthe by the Juvenile Opera Company, at 8 p. m. " IT'S THERE YET."

If anyone to whom we had sold an Aermotor would come to us and say the mili did not give satisfaction we would be surprised. The old old story is told in three words "It works beautifully" and when that is said the purchaser is satisfied or he would

The other day a party came to us and said the mill was a disappointment and when we asked in what respect he said "the wind blew a gale out at our bouse the other day and as two men passed the mill one of them said it would be blown down. I thought so, too, but I found it all right and working to a charm next morning. While I was watching it going around the same two men went along and one said to the other 'Why no it ain't, it's there yet.'

Those people were disappointed, because the mill had not been destroyed. We were not, because we have great faith in them and know that unless the wind would blow down buildings it would not wreck an Aermotor for,

Storms may come and storms may go But an Aermotor runs forever.

The following tells you how well Luther Wilcox is pleased with his: THE HAWAHAN HARDWARE CO.

Gentlemen :- I have put up the Aermotor purchased from you and, after four weeks use, I find it giving perfect satisfaction. It tilled three tanks, (elevated about thirty feet from the ground) with a capacity of 5500 gallons vesterday in about four hours. In addition to this water was furnished for household use and some of the taro patches.

The wind yesterday was in gusts and, at times, worse than a Kona yet it had no bad effect on the mill, the wheel closed up or faced the wind to my entire satisfaction, and I believe it to be the best wind motor on the Very truly. W. L. WILCOX.

The hereditary blood poison of scrofula develops in the delicate tissues of the brain, mental weaknesses and infirmities, idiocy and insanity. It enlarges the glands of the thoat, impurs the sense of smell and taste, or breaks into consuming ulce southeneck. It destroys the lungs, or fills them with uberculous secretions. It eats away the coating of the stomach, enlarges the liver, clogs the kidneys, creates constipation and induces piles. No human agency can so speedily, per-manently and economically cleanse the blood of scrofulous poison, clear the complexion and skin, scatp and blood, as Renter's syrup No. 2, the great blood purifier.
