HONOLULU TERRITORY OF HAWAII, THURSDAY, MAY 2, 1907

PRICE 5 CENTS

Officers Ordered To Assist Congressmen

Legislative Session Of 1907 Is Ended

ALLEGED BAD FAITH ON CARTER'S PART

Serious Trouble Arises Between Governor And House

HOUSE

60th Day—Night Session
The 1907 session of the Legislature came to an end at midnight last night. The last day was a long and strenuous one, marked by a conflict between the Legislature and the Governor that resulted in a victory for the former. But the victory was one that is liable to cause plenty of trouble later on, as it will probably involve a long law suit, and may result in seriously crippling the financial condition of the Territorial government.

The difficulty arose on account of what the legislators branded in vigorous terms as the trickery and bad faith of Governor Carter. Comparatively early in the session a bill, known as House Bill 213, passed both branches of the Legislature. This bill provided that 50 per cent. of the school, poll, personal and income taxes, and all license fees, collected in each County should go to the County, the Territory retaining the other 50 per cent. The intent of the bill was that the 50 per cent. should include the license fees, but the wording was ambiguous and, if read without knowledge of the intent, the measure might be construed as giving the Counties all the license fees.

The Governor vetoed the bill, giving as his reason its ambiguity in this particular.

The appropriation bills had been made up and passed with the idea that this bill would become law, there was no time to pass new appropriation bills, and therefore a new bill was drawn up which was the same as H. B. 213, except that the ambiguity in the latter was cleared up. The Executive, so the legislators state, gave them to understand that if his veto of the first bill were sustained, he would sign the substitute. With this understanding the House sustained the veto.

NO SALARY BOOST FOR LEGISLATORS

Members Refuse To Ask Congress To Raise Their Pay

HOUSE

60th Day—Afternoon Session.
During the afternoon session the House received from the Senate the long-delayed and long-anticipated resolution asking Congress to raise the pay of the Legislators. The resolution also called for the lengthening of the legislative session to 90 days. It was expected that this would go through the House without trouble, after it had once been introduced in the Senate, but to the surprise of everybody, strong opposition developed, and the resolution failed of passage, the vote being a tie, 15 to 15.

Senate Concurrent Resolution 9, calling on Congress to increase the legislative term from sixty to a maximum of ninety days, and boosting the pay of members of the Legislature to \$1000 for the session, came down from the Senate, after having passed that body by unanimous vote.

Rice, in view of the opposition, withdrew his motion, which, he said, he had made out of courtesy to the Senate, and moved to table the resolution.

Sheldon opposed any such action and favored the adoption of the resolution, saying that he thought the legislators earn \$1000 a session. He moved the adoption of the resolution.

Pali wanted everybody to go on record, and the Sergeant-at-Arms was sent to call in absent members. The vote was a tie, 15 to 15, and failed of passage.

A RELATED REPORT.
Rawlins, for the Judiciary Committee, made an oral report on Malheo's Petition 1, protesting the election of Representatives Waiwaiole, Joseph, Kaluna and Nakaleka.

Manning To Leave

Orders were received here this morning by Capt. Joyner of the Revenue Cutter Manning that his ship should sail for Behring Seas for a five months summer tour of duty on May 25. The Manning has been here over a year and has done magnificent work in helping vessels which were in trouble, many of which would have been in serious difficulty but for her ready assistance. In the last nine months, while Captain Joyner has been in command, she has assisted the following vessels: the Maachuria, at Waimanalo, Aug. 29; U. S. A. T. Sheridan, Barber's Point, Aug. 31; Chinese Manu, off Honolulu harbor, Nov. 3; five days cruise for Sch. Luka, Feb. 26; Br. Ship Loch Garve, Kamala reef, Mar. 7.

As bids for supplies for a revenue cutter will be opened on May 10 for the fiscal year ending June 30, 1908, it seems likely that either the Manning will return or some other cutter will be ordered here.

WOOD IS HOPEFUL ABOUT STEAMERS

An unusually interesting statement, showing that Hawaii is rapidly forging ahead as a prominent bidder for the tourist business, has been prepared by Secretary Wood of the Promotion Committee, as follows:
I am pleased to report that the photographs sent out illustrating our last Floral Parade have been widely published. A recent number of Collier's Weekly contained four of the pictures. They have also appeared in two different numbers of Frank Leslie's Weekly, being published as well in the leading automobile journals throughout the country. It is impossible to say how many hundreds of thousands of people have had their attention directed to Hawaii—at least momentarily—by this event.

The hundreds of copies of our daily papers, describing the Annual Floral Parade, that we sent throughout the Eastern and Middle Western part of the United States, as well as the western part of Canada, a short circular letter accompanying the papers, which were addressed to the editors of a carefully selected list of papers, have secured for us a great many favorable notices. We handled the Los Angeles excursion in the same way and have no doubt but the result will prove equally successful.

Fourth Count Of Pacific Tour Appears Friday

May Travel On Revenue Cutter

Special instructions have been sent to a number of the Federal officials in this city in regard to the members of the Congressional party now on the way to this city from San Francisco on the transport Buford. Captain Owell of the U. S. A. Engineer Corps has been written to in this line, as has Lieut. Comdr. Joyner, the commanding officer of the revenue cutter Manning.

Captain Owell has been given instruction to particularly look after Congressman James R. Mann of Illinois, who is the chairman of the Lighthouse Committee in the House. He is instructed to accompany Mr. Mann on any trips which he may desire to make on the naval tug Froquois, or on the revenue cutter Manning for the purposes of lighthouse investigation.

TRACHOMA PATIENTS WILL BE DEPORTED

There will probably be in the neighborhood of twenty-five of the Spanish immigrants who arrived on the Hellopolis who will be refused admission to the Territory on account of the fact that they have the contagious eye disease known as trachoma. This may mean that as many as fifty of the immigrants will be returned to Spain as in some cases men or women who have large families are affected with the disease and the entire family will have to be deported.

The Hellopolis left yesterday for the Orient, where she will load at Hongkong for Dublin, going there by way of the Cape of Good Hope. On account of the fact that it will be so long a trip it was not thought best to take the immigrants back in her, so some other arrangements will have to be made for their passage. A bond for the sum necessary for this has been arranged for with Theo. H. Davies & Co., the agents for the vessel in this city, the ship figuring as the principal in the document.

Bruce Cartwright, defendant in the assumpsit action brought by Henelaka Kukapu, has filed his answer, consisting of a general denial of the plaintiff's allegations.

MEASURES SUBJECT TO POCKET VETO

Twelve Bills And One Resolution Remain Unsigned

The measures still remaining in the hands of Governor Carter are the following:

S. B. 117, the substitute bill for the tax division measure which the Governor vetoed and which was passed over his veto. It is the belief of some that this bill will now be signed, with the hope of averting the trouble that will come upon the Territory on account of the other bill becoming a law. But it is difficult to see how the signing of this bill now can have any effect, as the other one has already become law.

H. B. 175, prohibiting the dumping of trash, oil, etc., into the harbors.

H. B. 11, providing for the maintenance of the family of a deceased person during the administration of the estate.

H. B. 214, fixing the license fees for theaters, etc.

Of the measures passed by the Legislature these still remain in the hands of the Governor, subject to the pocket veto twelve bills and one joint resolution.

But, contrary to what seems to be the general impression, the fact that these measures have not yet been signed does not mean that they will not be. Many members of the Legislature, it appears, have the impression that the Governor cannot sign bills after the adjournment of the Legislature. The fact is that he has ten days yet in which to do so. Bills not signed before the expiration of the ten days fall to become laws.

It is probable that several of the measures retained by the Governor will yet be signed, but there are

WHEN YOU'RE HURT HOW ABOUT THE BILL?

This great question confronts nearly every man of moderate means—"If I should get injured how would my wife and children live?"
And the man who is wise and far-seeing answers: "On my policy in the Standard Life and Accident Insurance Co., which is my best friend."
Few men, indeed, can afford to be without such a policy. It is on the same principle as "in times of peace prepare for war."

The Value Of Confidence

In no line of business is the buyer's confidence of more importance than in the selling of clothing.

The dealer who attempts to convince the buyer that his goods are the best, and that his place is the place where the best could be obtained, must see that the facts conform to his statements, and that his goods are in every way up to the standard. He had better never try to sell to a man than to mislead him or to exaggerate; for the customer will quickly discover such practice of misrepresenting merchandise.

ALLEGED BAD FAITH (Continued from Page 1) But late yesterday afternoon it became known that Governor Carter intended to pocket-veto the substitute bill. There was consternation in the House, for the failure of this bill would mean that for the next two years the Counties would be broke and without sufficient funds to carry on their business.

The Governor was strongly denounced for what the legislators looked upon as his trickery and bad faith, and the House promptly voted to reconsider its action in sustaining the veto on H. B. 213. A concurrent resolution passed both Houses calling on the Governor to return to the House that body's notification of its having sustained his veto.

The Governor curtly and flatly refused to do anything of the kind, stating that he considered the act of sustaining the veto as final. But the House reconsidered its action and passed the bill over his head, anyway. Now it will probably be up to the courts to settle as to whether the Counties get half or all of the license fees. But the Governor's action costs the Territorial Govern-

SHIPPING INTELLIGENCE

The ayes and noes were called for. The result was the tabling of the resolution by a vote of 16 to 14. CLAIMS BILL VETOED

The Governor sent down his veto of House Bill 161, the unpaid claims bill. He said the bill was so loaded down with doubtful claims that he would not sanction the expenditure of the public money to pay them.

GOVERNOR AGAIN DOWNED Rice stated that in vetoing this whole bill the Governor had vetoed items he sent down himself. He hadn't picked out the particular ones he thought should not pass. If the veto were sustained, all these people would have to wait another two years for their money. He moved that the bill become law notwithstanding the Governor's veto. The motion carried by unanimous vote. JOKE ON KAUI

The joke is on Kauai. After all that fight made by the Kauai delegation to be allowed to divert the \$11,000 school house item to wharves and landings, the Governor vetoed that one lone item in H. B. 215.

Coney said he thought the school house bill was more important than the one for landings and wharves, and he feared if the veto were overridden the school house item would be vetoed. He moved, therefore, to sustain the veto. Sheldon said he was still of the opinion he was the other day, but rather than lose all he would abandon this. The veto was sustained, Silva voting alone against sustaining.

NO PAUOA WATER The next appropriation bill to come back from the robin's-egg-blue chamber was H. B. 131, the special appropriation from the Loan Fund measure. In this bill two items were vetoed, Kaleo's pet Pauoa water rights item, \$140,000, and the item for the extension of the Kamuela water works.

Kaleo, of course, made another fight for his scheme. He called on the other members to help him out, and reminded the House of one of Kanoho's illustrations. When a grasshopper gets a broken leg or wing all the other grasshoppers come to his assistance and carry him off. The grasshopper Kaleo was in trouble, and he wanted all the other legislative grasshoppers to come and help him. He moved to override the veto.

Kanoho gave Kaleo the sign to sit down, and Kaleo subsided, so as to give the Kohala nightingale a chance to play to the packed gallery again. Kanoho seconded the motion made by Kaleo. He said the Governor was very quick to support the Nuuanu dam proposition but he vetoed the Kamuela proposition because he knew it would inure to the benefit of the district in which Kanoho lived. He, too, called on the members to be grasshoppers.

The items were voted on separately and the Pauoa water rights proposition was killed by a vote of 14 to 14. The Kamuela water works extension item was more fortunate. The members consented to be grasshoppers for Kanoho, though they would not for Kaleo.

MEDICAL BILL DEAD The Speaker's table being temporarily cleared of business, Rawlins presented a report of the Conference Committee on the medical bill, saying the committee had failed to agree. "That's the bill the Senate held up there for 42 days," he said, "and then sent down here with 15 sections out of 16 knocked out. We can't agree and I therefore move that the bill be tabled." The motion carried.

TRICKED BY GOVERNOR Kalelopu headed off the attempt of the Speaker to carry out the farewell program, by demanding immediate action on the veto of House Bill 213, the bill giving the Counties half their taxes and license fees. The Speaker was doing his best to kill the bill, but its backers would not stand for any dilatory tactics. They felt that they had been tricked by the Governor, and they wanted to get back at him.

The Speaker tried to shut off debate, but Rice insisted on being heard. He protested against the passage of the bill. If it went through, he said, before next February the Territory would be registering warrants. He admitted that a mistake had been made, and that failure to pass the bill would cripple the counties, while claiming that to pass it would cripple the Territory.

Kalelopu admitted those facts and said that was just the reason the substitute bill had been introduced in the Senate. The Speaker warned the House that it was not yet sure that the Governor would pocket veto the bill. Huches agreed that it would be better to wait a while. He moved to defer action until 10:30, to see if the Governor would not sign the substitute bill.

Kalelopu nearly had a fit. He fairly stuttered in his rage. He insisted on immediate action because, he said, he wanted to go home and go to bed. GOVERNOR IS BEATEN

The vote was taken, and the Governor's refusal to sign the substitute bill cost him the very point on which he objected. The veto was overridden by a vote of 28 to 2, Rice and Long voting against the rest of the House.

KALAKAUA'S BILLIARD TABLE BACK IN CITY

Among the interesting things which were noticeable on the waterfront today was the arrival of a relic of King Kalakaua's reign which came down on the Mikahala this morning. It was the King's billiard table, the first billiard table which was ever seen in Honolulu, and which was later sent to Gov. Kanoa's residence at Niumalu. The table is not in the best of condition at present but was bought by a Japanese who will spend a little money in putting it into shape. Then in the putting it into shape, the scene of the games between the King and his intimates will be degraded to the use of the lower classes in some dive, where no one who sees it will know of its former glories, when it reigned as the first and only billiard table in Honolulu under Kalakaua's reign.

IMMIGRANTS COMING

(Continued from Page 1) here. Under this ruling an individual may supply money for this work but a corporation cannot, either directly or indirectly. The exact manner in which the new ruling is to be interpreted is somewhat doubtful in the minds of the members of the Board of Immigration and at present they are taking no further action towards the bringing in of more settlers.

E. R. Stackable, who has acted as the agent for the Board of Immigration in the matter of the Kumeric, Suveric and Heliopolis immigrants, should be back in Honolulu within the next six weeks. His leave of absence, which has already been extended several times, will expire on June 17 and he is expected back before that date.

THURSDAY, MAY 2, 1907.

It will pass as a splendid Legislature—until the next election.

A Liquor License Application for each County is another step toward centralization.

This time they saved money on the legislative session. Next time they should save as much or more from the salary rolls.

Is Honolulu's greeting to the Congressmen to be: "Glad you're here. When do you go back? Go to—the other Islands?"

Now will the merry policeman wish he had studied while young that he might join the ranks of serious school-teachers.

When looking around for the first Mayor of Honolulu there is always the father of the Municipal Bill to consider—John Lane.

The only way for Doremus Scudder to get even is to become a candidate for Governor, or take second place on John Hughes' ticket.

Let us all be thankful that the legislators and the Governor started their first-class row so late that it was finished by the time-hunt.

Don't go to sleep just because the Legislature has adjourned. There is always work to do and the Congressional party will soon be off port.

Jack Johnson returned from Australia after having kicked his manager. But the latter held the sack, which was heavy enough to act as ball for a few blows.

William E. Corey is keeping up the record of Pittsburg's old fool. The natural course of events should give him a second Barry Thaw to perpetuate his name and reputation.

It may have been done unconsciously, but the Legislature just adjourned has by unanimous vote taken the first step toward control of the temper settlement by the Federal Government.

'Twas good sense to keep the \$50,000 for Judiciary building repair in the appropriation bill. There are few structures more in need of renovation, to protect the contents and the occupants.

Perhaps everybody is a little bit selfish. You will notice that no one gets very much excited over the proposal to pay a \$1,000 salary for service as a legislator—since Uncle Sam pays the bill.

Governor Carter is charged with having increased the public school teachers' salaries a hundred thousand or more. You're not likely to find the Governor shedding any tears of sorrow over that.

Spaniards arriving at Hilo decided they had enough of steamer travel, and refused to transfer. Now the

question is whether it was the Kilauea or the beauty of Hilo surroundings that influenced them.

The May Day Festival at Punahou was an event that might well take place with the Floral Parade. If the teachers can stand the annual struggle involved, the celebration should by all means be made permanent. And the originator of the idea put down as a public benefactor.

When Congress granted manhood suffrage to citizens of Hawaii, it was said the Islands would be wrecked, morally, socially, and financially. Take notice that after the first few weeks consequent to the people getting loose, every legislative session has improved. It is never a mistake to give American citizens full power over their own affairs.

Someone says that Hawaii's College of Agriculture and Mechanical Arts should be a model farm. Everyone has a right to his opinion. It is well to remember, however, that the Federal endowment goes to real colleges—not to a home for jailbreaks. And it is the Federal contribution which Hawaii is supposed to seek, but cannot obtain for an industrial school.

HONOLULU AND THE CONGRESSMEN.

Up to a late hour this forenoon no action had been taken nor had action been sought from the business community of Honolulu with a view to outlining a program for the entertainment of Congressional visitors while in this city.

The visitors are now two days at sea on their way here, the main port of call. Territorial officers have not moved. Nothing has been done. Every other island community has completed its plans.

Isn't it about time to stir? We know of no reason why Honolulu should branch out into an elaborate scheme of entertainment, or take any glory, consequent to being the Whole Thing, away from Territorial officers.

There should nevertheless be some organized plan put forth by someone, and that, too, in short order. After having called for a Congressional delegation for years, it may be characteristic for some people of Honolulu to say that it is "no use"—now that the anticipation is realized. But that isn't good business, broad public spirit, or common courtesy.

Has the significance and importance of Congressmen coming suddenly waned, as the steamer is about to arrive off port?

Are those men to be left to shift for themselves, or watch Honolulu scratch up a scheme for their entertainment after they find?

Is it the intention to wake up after the party has gone, and then wander around town grumbling over what should have been done?

It is high time that the Honolulu plans were divulged, if they have been made. If not made, the date is off hand for a Honolulu bustle.

Carter Explains His Various Reasons For Vetoing

The principal work for both Houses of the Legislature yesterday was furnished by the Governor, who handed them a large bunch of vetoes to act on. Most of the bills vetoed carried appropriations, but most of them were carried over the veto. However, Carter was sustained in his veto of some of the large amounts, as, for instance, the Pauoa water-purchase item of \$146,000 and that of the Kaula wharves of \$11,000. The text of the vetoes, stripped of legal verbiage, was as follows:

MAUI LOAN VETO

S. B. 114, authorizing the Maui bond issue.

"Section 4 of this bill provides that 'This Act shall take effect upon the date of its approval by the President of the United States.' I do not believe it proper to require the President's approval of any bill passed by the Territorial Legislature. The Organic Act makes his approval necessary before any loan can be made by the Territory or a political subdivision thereof, after such a bill as this has been enacted, but he is not required to take any responsibility as to the enabling Act itself."

CHAIRMAN ROASTED

H. B. 161, providing for payment of claims incurred prior to June 30, 1905.

"The expenditure of public money without legislative authorization this administration has strenuously opposed, and by its action the amount of claims of this nature against the Territory has been materially reduced. It is probably an impossibility to operate the Territory without some such items appearing at each session of the Legislature."

"On this occasion \$7,937.17 of such claims were presented by the various Departments and recommended by the Executive. This bill, however, as it now appears before me carries \$16,828.62, and notwithstanding my requests to the chairman of your financial committee for information, so that I might intelligently pass on the items inserted, I have been unable to secure the same, and in one case I was informed that such chairman knew nothing about the validity of certain claims."

"There is an error in the bill, in that one item presented in duplicate is inserted at twice the correct amount, to-wit: Mutual Telephone Co. rent telephone pilots' office."

"The bill is so loaded down with claims which appear to be unauthenticated that I am unwilling to approve it, nor am I willing to sanction the expenditure of public money in paying them."

WANT SALARIES CUT

S. B. 35, the Territorial salary bill.

"When County government was inaugurated, it was presumed that the operating expenses of the Territory would be reduced and some are of the opinion that the operating expenses of the Territory are already too high. Eighty-nine items covering various Territorial salaries have been raised in this bill upon the initiative of the Legislature, contrary to the recommendations made by the Administration, and the bill as presented to me carries \$268,972 more than was appropriated for the present biennial period."

"The Territory must live within its income, and as the appropriations passed are considerably in excess of the estimated revenue, and as certain laws reducing the revenue have been passed since this estimate was computed, it seems more than likely that those who will administer the affairs of the Territory will find it impossible to pay the maximum of the salaries appropriated by this bill."

"The following items I disapprove: 'Salary of night librarian, Supreme Court library (\$40), \$960; salary of Portuguese interpreter for the First Circuit and District Courts (\$100), \$2400; general health and sanitary officer (\$150), \$3600; health officer and government physician, Hilo (\$125), \$3000; pay of Government physicians under control of the Board of Health, \$26,000."

"All the foregoing items provide for offices not now in existence."

Both Houses overrode the veto of all these items, except that of the Hilo health officer, which was sustained.

POUNDS BILL PASSED

S. B. 115, relating to pounds.

"By this bill it is intended to correct the duplication and resulting confusion caused by S. B. 16, pointed out by me in my veto message of April 18th. The bill, however, does not fully accomplish the objects sought, as it leaves in confusion the question of the responsibility for estrays on government lands placed by the Organic Act in the care and custody of Territorial officials."

"Further, S. B. 10 seems to deprive the owner of estrays from his day in court as to the amount of damages, and may, therefore, fall."

"Neither of these objections is remedied by this bill."

Overridden by both Houses.

Wants Mauna Kea For Use In Vacation Rush Traffic

President J. A. Kennedy of the Inter-Island Steam Navigation Co. was among the passengers to leave this city on the Siberia and is now in San Francisco attempting in every way possible to hasten the completion of the Mauna Kea, the new steamer for his company. The Mauna Kea will take the Kilauea's place on the Hilo run and was to have been completed some months ago, but the press of work attendant on the demand for small vessels on the Pacific Coast has been such that almost every contract in all the shipbuilding concerns has been delayed.

The matter which causes more bother to the Inter-Island Company than any other concerning the Mauna Kea, is the strike which was inaugurated yesterday by the ironworkers. The last strike of the ironworkers in which the Union Iron Works was concerned was prolonged for nine months before being settled, and the work which was on hand at that time dragged along very slowly. In the present case matters may be even worse, as there is plenty of other work which the strikers can get while out of their regular jobs.

President Kennedy hopes to be able to have the Mauna Kea here in time for the rush of passenger traffic, which will start to the other Islands as soon as the local schools are closed and to make sure of this is the main object of his trip to San Francisco.

SENATE AND HOUSE

The seaside residence of Queen Liliuokalani, Keolu-lani at Waikiki, was fittingly decorated this morning by the retainers of her household, and all the members of both houses of the Legislature, with their wives, are being entertained and dined this afternoon. The Royal Hawaiian band had a quiet club are alternately playing at the piano in honor of the distinguished guests. Owing to the illness of the Queen, Delegate Kuhio and Prince Kahanalana received the guests in the main room. The Hope house, which extends into the sea, is exclusively reserved for the use of ladies. A long lanai, decorated with the Hawaiian flags and ferns, faces the broad and blue sea. Delegate Kuhio and Princess Kahanalana occupied prominent seats at the table and Senator Bishop, President of the Senate, Speaker Holstein and their wives, were likewise given special seats. The table was laden with Hawaiian delicacies and there was no ceremony required at the table. During the luncheon there were several speeches made by various members and a general good time was indulged in.

SUPERVISORS HOLD SHORT MEETING

Prominent Diamond Head Road Residents Petition

The meeting of the Board of Supervisors last night was a very short one. County Clerk Kalaokalani brought up the matter of the new law under which the owners of firearms have to file with him a list giving the number and description of those they possess. He wanted to know if it were necessary to publish any notice about it in the papers, but after some discussion it was decided that the publication of the act itself had been sufficient.

It was signed by S. B. Dole, Jas. L. Holt, H. F. Bertelmann, C. F. Clemens, Saml. Parker, Geo. F. Beckley, A. R. Gurrey and John Osborne. The matter was referred to the Road Committee.

LEGISLATORS SORE AT THE GOVERNOR

Think They Were Tricked Shamefully By The Executive

The members of the Legislature who were about the legislative halls this morning picking up the loose ends, or on the streets talking it all over, had a sort of "morning-after" feeling. Many of them are plainly sore, chiefly at the Governor. The more they think about it the less they like the way in which they think he tried to trick them. Their only consolation is that they called his bluff and passed the tax-division bill over his veto.

Yesterday the legislators were congratulating themselves that the session had gone along without any open break between the lawmakers and the Executive, and even without any serious differences. And then at the last minute came a break that, if it had occurred earlier in the session, would have meant trouble and strained relations until adjournment and would have interfered seriously with the work of the session.

As usual, after a legislative session closes, there are all sorts of rumors and guesses flying about. Everybody is confident that the trouble over the tax division bill means a law suit between the Counties and the Territory. The Governor is said to have indicated his intention of instituting the suit himself, so as to have the matter settled.

And there is the usual talk of a special session. If the talk-of law suit is brought, and the decision is against the Territory, the result will mean that the Government will be short of funds. The Legislators, or some of them, think that in such case the Governor will call a special session to provide funds. But this is only guesswork.

The soreness is not all on account of the Governor's action. Some of the members are sore at one another—and at themselves. It is safe to say that there were few of them who did not hope that the Senate Concurrent Resolution asking Congress to raise the salaries of the legislators to \$1000 would pass. But, although the Senators voted as they honestly thought, unanimously in favor of the resolution, there were not enough of the House members who had the

***** and these the most innocent—voted. Among the items of which he did not approve was the one for Government physicians, which he refused before the session began to recommend. Other items were:

Salary of night librarian, Supreme Court library (\$40, \$900).

Salary of Portuguese interpreter for circuit and district courts (\$100, \$2400).

General Health and Sanitary Officer (\$150) \$3600.

Health Officer and Government Physician, Hilo (\$125) \$3000.

Ree flatly contradicted the Governor's statement that all the vetoed items were near ones, and called attention to the fact that the present law provides for Government physicians. Deferred pending action by the Senate.

Similar action was taken in the case of the veto of Senate Bill 114, authorizing the Maul bond issue.

STILL CRY POVERTY.

Again crying poverty, the Governor returned House Bill 74, the Departmental Appropriation Bill, with several items vetoed. The first item disapproved of was that for the new Kailua hospital. The House overrode this veto by a vote of 29 to 10.

The next was the \$50,000 item for repairing the Judiciary building. Overridden by a vote of 25 to 5.

The same action was taken in regard to the hospitals at Lahue, Eleete and Manaloa.

SALARY BOOST AGAIN. Kaloopa moved to reconsider the action taken on the Senate Resolution to boost the salaries of the legislators. Carried by a vote of 13 to 12. Kaloopa then moved to defer action until evening. This also carried.

Kaloopa introduced a resolution providing that the Speaker of the House and the chairman of the Committee on Accounts shall be a committee to pass upon all accounts and claims that might be presented after adjournment. Adopted.

TWO BILLS Tabled. The Judiciary Committee recommended tabling House Bill 16, prohibiting Territorial officers from practicing law. Adopted.

The Health Committee made a similar report on the vaccination bill, and this, too, was tabled.

HOUSE IS SORE. Full moved to reconsider the action on House Bill 213, the substitute bill giving 50 per cent of the taxes and license fees to the counties. This motion was made on account of the feeling on the part of the legislators that the Governor had played them a disreputable trick. He had let it be understood that if a new bill were brought remedying the defects of the first bill, which he vetoed, he would sign it. But yesterday afternoon it became known that he intended to pocket-veto the substitute bill. Hence the desire to reconsider and pass the first bill over his head.

There was a lengthy discussion as to the right of the House to recall the bill, but it was finally decided that it could be done. Action was then deferred until after dinner. At 5:15 a recess was taken until 7:30.

couage of their convictions in this instance. They were afraid that their constituents would cry "grab", and so 16 of them finally voted against the measure. And most of them while so voting were praying fervently that enough of the other fellows would vote in favor of it to pass it.

The sorest one of the House members on this proposition is Sheldon. He was honest and straightforward in his favoring of the resolution, and strongly urged its passage. But when it came up the second time, at the evening session, and Sheldon arose to speak, Paul very curiously refused to grant him the necessary unanimous consent of the House, and Sheldon's speech remained bottled up.

INTERCLASS GAME
