TERRITORY'S CHIEF EXECUTIVE

BY JOSHEP H. POINDEXTER

Governor of Hawaii

For the first time in its history, Hawaii is to have the privilege of entertaining a President of the United States.

We are deeply mindful of the great honor President Franklin D. Roosevelt is doing us in coming to the Islands. His visit will mark an epoch in our annals.

We present to the President our warmest greeting and wish him a happy visit.

ALOHA MESSAGE

BY JOSHEP H. POINDEXTER

Governor of Hawaii

For the first time in its history, Hawaii is to have the privilege of entertaining a President of the United States.

We are deeply mindful of the great honor President Franklin D. Roosevelt is doing us in coming to the Islands. His visit will mark an epoch in our annals.

We present to the President our warmest greeting and wish him a happy visit.
WHAT NEW AMERICANS CAN DO TO PROMOTE BETTER INDUSTRIES HERE

The political and economic structures of the Territory of Hawaii have served us well in the United States, and we have seen the need for future progressive programs on account of 'Capitalistic' control which is in direct conflict with the fundamental economic principles of the constitution of the United States government where all men are accorded equal, unadulterated opportunity. This is a truism which every patriotic person, whether or not he is a naturalized citizen, should accept as an article of faith. It is only in this way that the prosperity, liberty, and independence of our people can be ensured.

Therefore, we, the citizens of Hawaii, hereby propose to work for the accomplishment of the following objectives:

1. The establishment of a system of universal farming based on cooperative principles, which will enable every person to participate in the development of the land.
2. The promotion of self-sufficiency in goods and services, thereby reducing dependence on imports.
3. The encouragement of local manufacturing to provide jobs and foster economic growth.
4. The development of a diversified economy to reduce vulnerability to fluctuations in any one sector.

We believe that these objectives are achievable through the cooperation of all citizens and that they will contribute to the betterment of the Territory of Hawaii.

ATTORNEY H. KAWASAKI

President Franklin D. Roosevelt

CITRUS CULTIVATION IN HAWAII

In line with the great commercial possibilities of citrus farming in the islands, Koi Iwasaki, a prominent horticulturist, has now set up a nucleus farm of approximately five acres of citrus fruits at Kamaili, Pepeekeo. This farm is in the process of being developed by him with intensive care. The orange buds were imported from California and the land was prepared for cultivation by the application of the niceties of modern horticulture. The farm has been particularly bisected by a road, which will facilitate transportation of the produce. Iwasaki saw fruits which surprised the local agricultural and industrial leaders due to the bright outlook for the future.

The farm has been successfully operated by local farmers, and the fruit produced is already in demand on the market. The success of this project is a testament to the potential of Hawaii's citrus industry and the dedication of its growers.

We, therefore, recommend the following steps to promote citrus cultivation in Hawaii:

1. The establishment of a citrus research center to further study the cultivation and processing of citrus fruits.
2. The provision of financial assistance to farmers to encourage the expansion of citrus farming.
3. The development of marketing channels to ensure a steady supply of citrus products.

We believe that these steps will contribute to the economic growth and prosperity of Hawaii.

Chairman and Executive Officer of the County Board of Supervisors

Hon. Samuel M. Spencer, Chairman and Executive Officer of the County Board of Supervisors

On behalf of the people of the County of Hawaii, we express our gratitude for the opportunity to work with the State and Federal governments in promoting the well-being of our county.

We believe that the development of citrus cultivation in Hawaii is a significant step towards achieving economic self-sufficiency and prosperity for our county.

Sincerely,

Hon. Samuel M. Spencer
Chairman and Executive Officer
County of Hawaii

(Continued on Page 8)
The Hawaiians believe that their parents and Japanese temperament and traits peculiarly Japanese. The Japanese. It is doubtful whether the New Americans of Japanese ancestry realize that they have in their parents and Japanese traditions of our ancestry. It is our mission. Through our citizenship and our American-Japanese goodwill is but a stepping stone to a greater goal. We must arouse faith in the sincerity of our efforts. Our fathers have acquired from the United States, but our Constitution would not have been preserved in righteousness. "These words were uttered almost two hundred years ago. The slaughter to greet our great President. We have always done our duty to our country and we are unaw are of the character and traditions of our ancestry. It can be honestly said that the overthrow of the monarchy was not without its underlying causes of the ill feeling sometimes manifested against us. In the past we owe to America, and in the future we shall still claim friendship to America, for here we enjoy "life, liberty, and the pursuit of happiness." Leis here and leis there! The sweet smelling flowers carry with them the token and spirit of Hawaiian hospitality which, beckons, allures, and enhances the charm of the islands. It is, indeed, a balm y sea breeze, invigorating sun shine, our beautiful landscape will certainly impress our visitors.

THE NEW DEAL AND THE NRA

By FRANK HAMLING

NRA (National Recovery Act) by the Roosevelt Administration is at the root of the present economic difficulties. The NRA was designed to promote industrial stability and to prevent unfair trade practices. It was hoped that the NRA would help to reduce unemployment by creating jobs and stimulating economic activity. However, the NRA was soon found to be ineffective in achieving its goals, and it was eventually replaced by the Fair Labor Standards Act and the National Labor Relations Act.

CITRUS CULTIVATION IN HAWAII

(Continued from Page 7) as announced in the case of the U. S. vs. California, in which the State of California was charged with violating the antitrust laws. This case is of great interest to the citrus growers of the State, as it is expected to have a far-reaching influence on the citrus industry.

President Roosevelt to Witness Typical Hawaiian Parade Here on Wednesday

One of the most colorful parades ever staged in Hilo will be on view in honor of President Franklin Delano Roosevelt. The parade will take place on Wednesday, July 27, after spending a day's fishing there.

The parade will be opened by the Mamalahoa Chapter No. 1, Order of Kamehameha, and the American Legion Post No. 1.

Some of the highlights of the parade will be the floats of the I. W. W., the Anti-Sweat Labor Union, and the Women's Social and Political Union. The parade will also feature a large contingent of Hawaiian dancers, including the Hula dancers of the Hilo Girls' School and the Hilo Boys' School.

The parade will conclude with a grand finale, featuring a firework display and a large balloon release. The parade is expected to attract thousands of spectators, and will be a fitting tribute to President Roosevelt's visit to Hawaii.

President Roosevelt is scheduled to arrive in Hilo on Wednesday morning, and will attend the parade in person. He is expected to give a speech at the conclusion of the parade, expressing his appreciation for the hospitality shown to him by the people of Hawaii.

The parade is expected to begin at 10:00 A.M., and will proceed through the streets of Hilo, ending at the Hilo County Courthouse. The parade route is expected to be well-lit, and will feature a variety of colorful floats and decorations.

The parade is being sponsored by the Hilo Chamber of Commerce, and is expected to be a memorable event for all who attend.
