Too Soon To Love

BY PRISCILLA WAYNE

When Rosalou Blake, factory girl, met Jerry, his eyes sparkled. But she knew from the start that he had no intention of marrying her. She knew he was only looking for a thrill.

"I can't imagine why any girl would want to marry you. You can't even manage to hold a job more than a week," she said slowly. "I'd like to bring Miss Blake." But he didn't take her seriously. He just laughed and said, "Don't be silly, Constance. We're just good friends."

The next time she saw Jerry, he was standing at the window, staring outside. "What's wrong?" asked Rosalou. "Nothing," he answered. "I'm just thinking about my next move."

She came down the stairs early that night, hoping for a surprise. But he was out. "What a disappointment," she thought. "I was looking forward to spending the evening with him."

She sat down at her desk and began to work. Suddenly, the phone rang. When she answered it and heard Jerry's voice, her heart leaped with joy. "Oh, Jerry! I've been waiting all day for your call!"

"Rosalou, are you there? I'm coming over to see you right now!"

"Oh, Jerry, I'm so glad! I'll be ready in five minutes!"

She ran to her room and threw on a fresh dress. "I must look nice tonight," she thought. "I can't let him down."

When Jerry arrived, she opened the door and saw him standing there, looking handsome and confident. "Hello, Rosalou," he said. "What a surprise!"

"Jerry, I love you," she said. "Will you marry me?"

"Sure, Rosalou. I love you, too. I can't wait to spend the rest of my life with you."

She hugged him tightly and kissed him on the lips. "I love you, Jerry," she said. "I never thought I'd find someone who really cares for me."

"I love you, too," he said. "And I'm going to take care of you."

The rest of the evening was perfect. They talked and laughed and enjoyed each other's company. It was the start of a new life together.

More than once, she thought of all the things she wanted to do with her new husband. They would buy a house together and start a family. They would travel the world and see all the beautiful places they had only dreamed of visiting.

But she knew that her dreams would never come true. She and Jerry were just too different. He was carefree and spontaneous, while she was serious and practical. She knew that they would never be able to make a complete life together.

She was sad but also grateful. She knew that she had been given a second chance at love, and she was determined to make the most of it. She and Jerry would always have a special place in her heart, and she would never forget the joy they had shared.

Too Soon To Love

T he plane started, and Rosalou Blake, factory girl, was flying high. She closed her eyes and smiled, knowing that she was finally going to be free of all her troubles.

She had been working at the factory for years, trying to save enough money to get away from her dull life. But she knew that she had to make a decision. She couldn't continue living like this, she thought. She had to do something to make her life worthwhile.

She opened her eyes and looked out the window at the passing clouds. She felt alive and happy for the first time in a long time. She knew that she was finally going to be able to make her dreams come true.

She felt a surge of excitement as she thought about the adventure that lay ahead. She was going to see the world, she thought. She was going to live life to the fullest.

She closed her eyes again and drifted off to sleep, feeling content and peaceful. She knew that she was finally going to be able to make her life a true adventure.
