KEEPS MOVING — Helmeted Pennsylvania state policemen order strikers to Bethlehem steel plant to keep moving. A CIO steel worker and police, strikers were permitted to form five-mile line around plant. But pickets were ordered not to go near plant. Picketing was resumed after rioting ran through third day.

Fernando Martinez, of San Francisco, scored the first goal of the game against Portland. Martinez, who has been with the club for two years, has scored 10 goals this season.

How Far U. S. Planes Have Come Since 1918

An inkling of complex new problems in military strategy and warfare is suggested by the several plans for aerial combat that have been proposed in recent years. One of these is the so-called "no fly zone," which provides a protected area for military aircraft to operate in. The other is the "no man's land" solution, which would divide a country into a first zone and a second zone, with the first zone being controlled by the opposing powers.

**ROCKEFELLER FOUNDATION**

**REVIEW OF WORK IN 1940**

By RAYMOND B. FOSDICK

**THE YEAR IN BRIEF**

During 1940 the funds of The Rockefeller Foundation amounted to $364,407. The income of the Foundation from investments during the year was $585,928. This income was supplemented by a transfer of $71,500 from the Principal Fund.

The percentages of the appropriations were distributed for the most part as follows:

- Public Health: $7,250,000
- Natural Sciences: $2,200,000
- Social Sciences: $1,500,000
- Medical Sciences: $1,200,000
- Humanities: $1,700,000
- Rural Reconstruction in China: $500,000

Of the money spent during the year, 77 per cent was spent in the United States and 23 per cent for work abroad. In spite of the serious interference of the war, the Foundation's activities during 1940 involved cooperative effort in forty-four countries in Europe, Asia, and Africa.

**FLAGS AND BOUNDARY LINES**

For an organization like The Rockefeller Foundation which over many years has tried to carry on its work regardless of flags or boundary lines, there are many days to sit by and watch the disappearance or demarcation or, worse, the perversion of institutions of learning which is earlier and better years we were privileged to assist is not possible,

Conditions have so changed that many of these projects would probably have minimal virtue anymore, but it is one of the tragedies of the present situation that even a little money that might help an outstanding scholar here and there to keep his work alive cannot now be sent.

This is not said in any criticism of the government regulations. They are undoubtedly essential in the present international situation. But the hardship which they impose is not the least real. They constitute one further bit of evidence, if further evidence is needed, of the breakdown in international solidarity which is the realm of scholarship, at least, has become a vital factor of progress.
