BYGEORGE MONEY

ATHENS, April 21.—As English and Greek forces continued to fall back last night and this morning, the Greeks warned that they would fight back to the last man.

King George, who was brought from Kalamata to Athens a few days ago, returned to his palace to talk to Greek leaders today. The Greek leader President Karatzis said that the Allies were not going to accept German terms.

ENGINEERS GRAD IN DEMAND

STATE COLLEGE, Pa.—Engineering schools in American colleges and universities will graduate this June fewer than one-third of the number of engineers required to play important roles in over-expanding defense industries, according to an estimate by Dr. R. P. Hammond, dean of the School of Engineering at Penn State's University.

Emphasizing that the expected 5,500 or slightly more engineers to receive June diplomas will be woefully inadequate to fill the labor needs, Dr. Hammond concluded that the situation is critical to the "most patriotic call" to which a student of engineering can adapt if he wishes to make education without interruption and as quickly as possible.

The Penn State engineering dean praised the government's program for speeding up the education of engineering students by eliminating summer vacation. He added, however, that the measures must be taken to increase the number of students being trained.

"The engineer's place is so important in the whole picture of defense production and so vital to the war effort," he said, "that the patriotic call must be made quite clear to the young logicians." Dr. Hammond pointed out that students who drop out in the middle of their engineering courses to accept jobs, even though they be in defense industries, cannot be expected to national defense as those who carry their studies to completion.

Almost all industries have greatly increased the quotas of engineering graduates they are hiring this year, he said.

"Even if industrial firms obtained all of this year's engineering graduates, they would be two-thirds short," he asserted.

The engineering dean explained, however, that "probable industrial demands" would require that "at least one-third of this year's graduating class" enter civil service and military openings instead.

NEW ORLEANS, La.—The complete works of Lafcadio Hearn, noted American writer who became a refugee Japanese citizen under the name of Yukio Kenzaburo, was presented to the new Howard Tilton Memorial Library at Tulane University recently.

The presentation ceremony was held in cooperation with the exhibition titles for the new building at the National Library of Japan, Tokyo, under the presentation to the university. Charles R. Hope, special assistant to the International Cultural Society of Tokyo, donated the gift.

Mr. Hearn was a three-time resident of New Orleans prior to his death. A close friend of Mr. Hearn still is the publisher of the book.

Wagner's Daughter Finds Real Peace

On Nanking Visit

TOKYO.—To fellow peace seekers and world leaders desiring to see the world in a peaceful state, this message is being conveyed.

"Having received all of the papers and books, the people seem happy and Chinese and Japanese flags are flying together in a friendly way," Wang Wanzhong asserted.

"Everyone is pulling his life at stake for the sake of the peace of China. Father works until late at night in his defense and weeping, and the people of all quarters feel the pain of the warring people of the world."

BERMUDA PORT UNDER CONTROL OF 500 CENSORS

HAMILTON, Bermuda.—Under a system of censorship similar to those in England and the United States, thousands of letters and parcels sent annually to U.S. troops in Bermuda are being intercepted, by the U.S. Army, military and defense agencies.

Thousand of letters pass through the mail of the United States. Some are sent to relatives, friends, and organizations. Some are sent to officers in Bermuda, military and defense agencies.

Another letter was addressed to the U.S. embassy, which was then sent from an American girl asking for a check. A message was written, "Honor the war zones and send money to the girls, the boys, and the women of the war zones."

The censorship bureau, however, is a serious matter. Each of the censors is asked to register every letter passed into Bermuda and every letter passed out of Bermuda. The letters are then censored and sent to the U.S. Army in the United States.

Bermuda is a vital point in the war. The U.S. Army is sending thousands of men and women there to be trained and to help maintain the war effort.
