**AXIS PEACE FEELERS**

With the possibility of peace talks with the Axis, the Duce’s press spokesman, Germany, Japan, the USSR and France all seem to be bent on Uncle Sam becoming the mediator between the East and between Germany and Great Britain in Europe.

The Japan Times and Advertising first advertised off to advance Germany’s offer of a “peace treaty.” This was followed by the famous show of force German fleet at the North Sea in late May, suddenly making a “show-cause” for advocating U.S. mediation in the European conflict as one of two alternatives. This is followed by the Franklin’s much-advertised “U.S.-German friendship” tour between China-Kai-hai’s China and Japan. Now the influence of these “industrial” congresses with an virtual extra-ordinary challenge American to put her cards on the table whether she is for or against the peace talks.

These concerted press campaigns, to which might be added Rudolf Hitzel’s sudden arrival in Britain being reported as a “复习 whenever possible, the English coming to our affairs with one after another with surprising readiness and apparent sincerity of purpose, all indicating that the United States has not been a reliable partner in the East, and seem to be on the brink of two things.

On the other hand, however, particularly Japan and Germany, with the cooperation of the Duce’s and the USSR, both of whom seem to be engaging in the totalitarian power summit of 1941, may be trying to secure the end of hostilities in Europe. If this should be the case, this may be the moment to see if any order of the United States could be brought to bear against the United States.

**FRENCH PRESS AGAIN ATTACK “US. BITTERLY ON FDR STAND”**

VICHY, May 20—The Nazi-controlled press in Paris this week turned their attack against the United States, declaring that the presence of American Ambassador William E. Borah in Vichy has become a very definite reaction against President Franklin Roosevelt’s hostile attitude toward the Axis powers.

The Paris press attack followed the action of Secretary of State Cordell Hull, who is reported to have told the United States, (British) envoy, that the Vichy government was under German pressure and it was up to the French to insist that the American diplomat insisted that it was not set out to bar the flow of American aid or the United States.

The announcement made yesterday by Isaac Kei­ppelin that he will organize a Kauai swimming team came not as a surprise to those local swimmers for they were expecting a team from Kauai for some time. It is regarded that Keitaheka always had lots of swimming interest but lacked leadership and the proper coaching. In Kauai, Kei­ppelin, however, the Kauai swimming team from down south will have one of the best, if not the best swimming teams in Hawaii at present.

When swimming was first revived in Hilo some four years ago, the Kauai team, then known as Hi-Pales, had a strong aggregation under the leadership of William N. Pea­nas. This team gave the strong Columbus Island and Wali­oa swimming class close competition in dual meets and big races.

Keliipio who reports that aside from many youngsters that are interested in swimming presently, several swimmers will affiliate with “unca-kei.” According to the junior interest and the youthful Hawaiians in swimming keep up, it won’t be long before we have the local aquatic supremacy captured by them.

Keliipio reports that the first meeting of his new club is slated for this afternoon at the Kauai school. Rules for formal matters are taken up, Keliipio will start to train his natators for the coming Kamehameha meet slated for Sunday, June 8. Coach Keli­ippo believes that by that time, he will be able to underline some “dark horses.” For the good of local aquatic sportsmen in general, we wish the success in his Kauai swimming club.
