"The Ball America," an interesting and constructive picture of baseball sponsored by the Hula Recreation Committee and the Hilo Senior softball league was shown at the Hilo Center before a crowd of over one hundred interested fans last Friday night.

This picture which ran for about half an hour demonstrated the offensive and defensive trends of the national pastime. With American league teams as examples such slugfests as the hit-and-run, single play, batting positions, and many other countless valuable baseball data, were clearly demonstrated.

Such motion picture, which the HBC and the Senior circuit were able to show the public through the courtesy of the Big Island Athletic, should do much to stimulate the interest in the baseball game here.

It is well known that fact that young boys around Hilo and vicinity, with the exception of a few, are not so interested in baseball as they are in other sports. We are not trying to encourage youngsters to turn away from baseball, but we are trying to encourage more to take up baseball, keeping in mind the fact that Hilo League and neighboring baseball teams are more and more going into the country districts for their players. Maybe it's because that facilities are lacking in other vicinities, with the exception of a few, are not quite so interested in baseball as they are in other sports.

With the revival of the Hilo Senior baseball leagues by the Hilo Recreation Committee, local interest in baseball is picking up fast, but it could still be much, much higher.

In the short span of two years, the minor leagues in Hilo have already produced numerous stars presently shining in the big leagues. Maybe it's because that facilities are lacking in other vicinities, with the exception of a few, are not quite so interested in baseball as they are in other sports.

Pastime. With American league teams as examples such star-studded rosters, were clearly mentioned in the picture. Under Higashi, 25-2 and edged out the formers under the belt the first round title.
