CUSTODIAN’S QUESTION OF UNEMPLOYMENT OF COAST NAZIS COMING ACUTE

MIDNIGHT MARRIAGE

CUSTOM’S HOUSE

DEDICATION IS SLATED TODAY

PROMONTORY LOCAL BUSINESS MEN SATISFIED WITH PROPOSED BILL THAT WILL PARTICIPATE

in the modernization of the former custom’s house, will be opened as the birthday gift to the city of Chicago.

The dedication of the new custom’s house will take place on Monday afternoon, the city’s birthday.

The dedication will be followed by an opening reception at the Custom’s House, which will be open to the public.

The new custom’s house is located at 2401 S. Michigan Ave. in the Loop area of Chicago.

The building was acquired by the city in 1978 and has undergone extensive renovations since then.

The custom’s house, which was built in 1905, was recently restored to its original architecture.

The dedication ceremony will feature speeches by city officials and a ribbon-cutting ceremony.

After the dedication, the Custom’s House will be open to the public for tours.

The building is expected to be a popular destination for visitors and locals alike.

The Custom’s House is located near the Chicago Riverwalk and is a short walk from Millennium Park.

The building is expected to be a focal point of the Loop area and a symbol of Chicago’s rich history.

The dedication ceremony is expected to attract a large crowd of people.

The event is free and open to the public.

For more information on the Custom’s House dedication, visit the Chicago Department of Cultural Affairs and Special Events website.
Lady Clover and her pretty falcon, Master Bobo, flitter from court to court to make her rounds and help out. She appeared especially happy and pretty in a white dress with a red and green sash. Rhea was happy to see her and they chatted for a while. Rhea then got up to leave and said goodbye to Master Bobo. As she walked out, she noticed a large flower in the center of the garden. It was quite beautiful and she decided to take a closer look. As she approached, she saw a board in front of the flower with the words, "Giant Flower Enters Contest." She was fascinated by the size of the flower and decided to enter it in the contest. She thought it would be a great opportunity to show off her garden and perhaps win some prizes.

Horse Show at Lakeport starting exhibits at Lake County Fair and the impact of this gigantic effort in the case of an earthly inheritance. As Jim suggests, "prices are up. The cost of living has increased."

The Pacific situation is "more full of tension and importance than ever before." The President has stated that the country must be prepared for "any emergency that may arise."

The dollar will become easier to spend and therefore it will be saved from stain of sin today and in the future. As Jim puts it, "Jesus is the mediator of the new covenant, the one who brought the blood of the covenant and sealed it with his own blood in an altar."

The fact that the temple is the symbol of the Church and its priest is the mediator who brings about reconciliation for the sins of the people. As Jim says, "We are living in a time of great spiritual significance."

When Jim Carradine tells us, "money with magic words!" we can see the power of faith and spirituality in action. As Jim says, "We must trust in the power of prayer and the guidance of the Holy Spirit."

FREE MILK PLAN URGED ON U.S.

HEDINGHAM, Ala. (UPI)—W. D. Dobbs, a Hedingham
real estate man, is steadily building support for a plan
under which every child in the country, under 14 would re­
ceive a free quart of milk daily.

The Dobbs' proposal, which he hopes to have intro­
duced in Congress in the next session, would be financed
provides for an initial federal appropriation of $600,000,000
in start operation of the plan—which he characterizes as a
defense move.

He points out that 28 per cent of the first 1,000,000
drafters were declared unfit for military duty largely
because of malnutrition. Also cited are figures showing that
25 per cent of the nation's 44,000,000 school children are
emaciated and liable to serious mental or physical illness.

WHITE STAMPS PROPOSED

He would have the Department of Agriculture issue
"white stamps" similar to food and cotton stamps now being
used, with those under 14 could purchase not more
than one quart of milk a day.

His slogan is "A quart of milk a day will
make the children of America strong, the
farmers prosperous.

Other members of the state's congressional delegation,
and as out-of-state Congressmen, have endorsed the pro­
posal.

Commenting on recent legislation to provide milk benef­
fits to school children, Mr. Dobbs said: "It's fine to provide
milk for needy children after they get in school, but the greatest
need is for the children who are below the poverty line.

We have a legal obligation and the nation's children
have the right to milk. We should supply as much milk as
possible for the children, not the farmers.

The nation's children are the nation's future. It is the
mission of parents, the school system, the community and
the country to give the children the best possible start in
life. Milk is a key point of efficiency. We need it as
well as out-of-state Congressmen, have endorsed the pro­
posal.
